

# The Covid-19 Era: A Root Cause Analysis and Status

---

SC PUBLIC HEALTHCARE INTEGRITY COMMITTEE

DUANE G. LEET, PHD

## Introduction

- **A Program Manager, IBM, Semiconductor Design and Manufacturing, World Standards, Manufacturing Methods**
- **Healthcare CIO, (EMR + all Diagnostics tools and DBs)**
- **Biophysicist**
- **School Board for 10 years**
- **60+ years experience in AI development**
- **My Assignment: Assessing the performance of Covid-19 era science and management**

## Prologue

**Talk is about Root Causes and Corrective Actions Concerning  
Government and Healthcare Mismanagement of the Covid era**

**There is an order to this process, but I am going to violate this order  
from the start.**

**I am going to call out a Root Cause at the start:**

**The MOTHER OF ALL ROOT CAUSES!**

# THE MOTHER OF ALL ROOT CAUSES

## THE LOSS OF INTEGRITY

GOVERNMENT

HEALTHCARE

EDUCATION

POLITICIANS

POLITICAL PARTIES

***Integrity:*** C.S. Lewis: “doing the right thing, even when no one is looking.” Integrity is a foundational moral virtue, and the bedrock upon which good character is built.

Acting with integrity means understanding, accepting, and choosing to live in accordance with one’s principles, which will include honesty, fairness, and decency. A person of integrity will consistently demonstrate good character by being free of corruption and hypocrisy.

Integrity is revealed when people act virtuously regardless of circumstance or consequences. This often requires moral courage. Indeed, integrity is the critical connection between ethics and moral action.

(ethicsunwrapped)

- SC PUBLIC HEALTHCARE INTEGRITY COMMITTEE

**Integrity:** C.S. Lewis: “doing the right thing, even when no one is looking.” Integrity is a foundational moral virtue, and the bedrock upon which good character is built.

Acting with integrity is in accordance with honesty, fairness, and decency. A person creates good character by being free of corruption and hypocrisy.

Politically: Doing what’s right even if it means not taking money from big pharmas or the feds

Integrity is revealed when people act virtuously regardless of circumstance or consequences. This often requires moral courage. Indeed, integrity is the critical connection between ethics and moral action.

(ethicsunwrapped)

- SC PUBLIC HEALTHCARE INTEGRITY COMMITTEE

**BUT THERE IS ANOTHER ROOT CAUSE**

**THE FATHER OF ALL ROOT CAUSES**

**“KEEP IT SIMPLE”**

# THE DAUGHTER OF ALL ROOT CAUSES: ETHICAL PRINCIPLES

What is the overall arc of the COVIDcrisis? I suggest two words. Perspective and Ethics. Many, many lost their ability to maintain an objective perspective, to accurately assess reality. Partly because their mental and psychological space and reality was actively manipulated using a variety of Orwellian modern psychological manipulation methods deployed by governments, financial organizations, industry (particularly pharma + media), and non-governmental globalist organizations (Gates Foundation, WHO, WEF, UN). But above and beyond even this was the wholesale jettisoning of any and all commitments to fundamental ethical principles.

- ROBERT MALONE, MD

# THE SON OF ALL ROOT CAUSES: LOSS OF TRUST

## And Our Government Health Agencies

# OBSERVATIONS

## Why should we be concerned now? Isn't the "pandemic" over?

### Virus: SARS-CoV-2

- Lab developed
- Hidden "gain of function" research across multiple countries
- Funded by US through third parties, new funding just released
- Lies: a wet market; various animals; the experts claim it isn't source
- South Carolinians should have been informed
- There should be severe consequences

**Risk management and an understanding of human nature suggests:  
This will happen AGAIN. How can SC citizens stop it?**

Vol 01a: *SARS-CoV-2: Its Structure, Modes of Infection, and Origin*

Vol 08: *Covid-19 Era Recommended Actions by the Legislature, the Governors Office, and the Attorney General*

# Why should we be concerned now? Isn't the “pandemic” over?

## Effective

Government trials were “theater:” effectiveness, stop the spread was never proven (Pfizer Papers)!

“How could the mRNA vaccines have looked so good in the Fall of 2020 with >90% efficacy in preventing COVID-19 and no serious safety issues and then the next few months after release have the bottom fall out with massive breakthrough cases and horrific injuries, disabilities, and death?”

Multiple “boosters” are now required, but are soon ineffective or worse

# Why Should We Be Concerned Now?

Effective?

May

95% protection

Jun

70% protection

Jul

50% protection

Aug

no protection, but  
reduces spread

Sep

doesn't reduce spread,  
but reduces severity

Oct

doesn't reduce severity, but  
reduces hospitalizations

Nov

doesn't reduce hospitalizations,  
but you aren't going to die

Dec

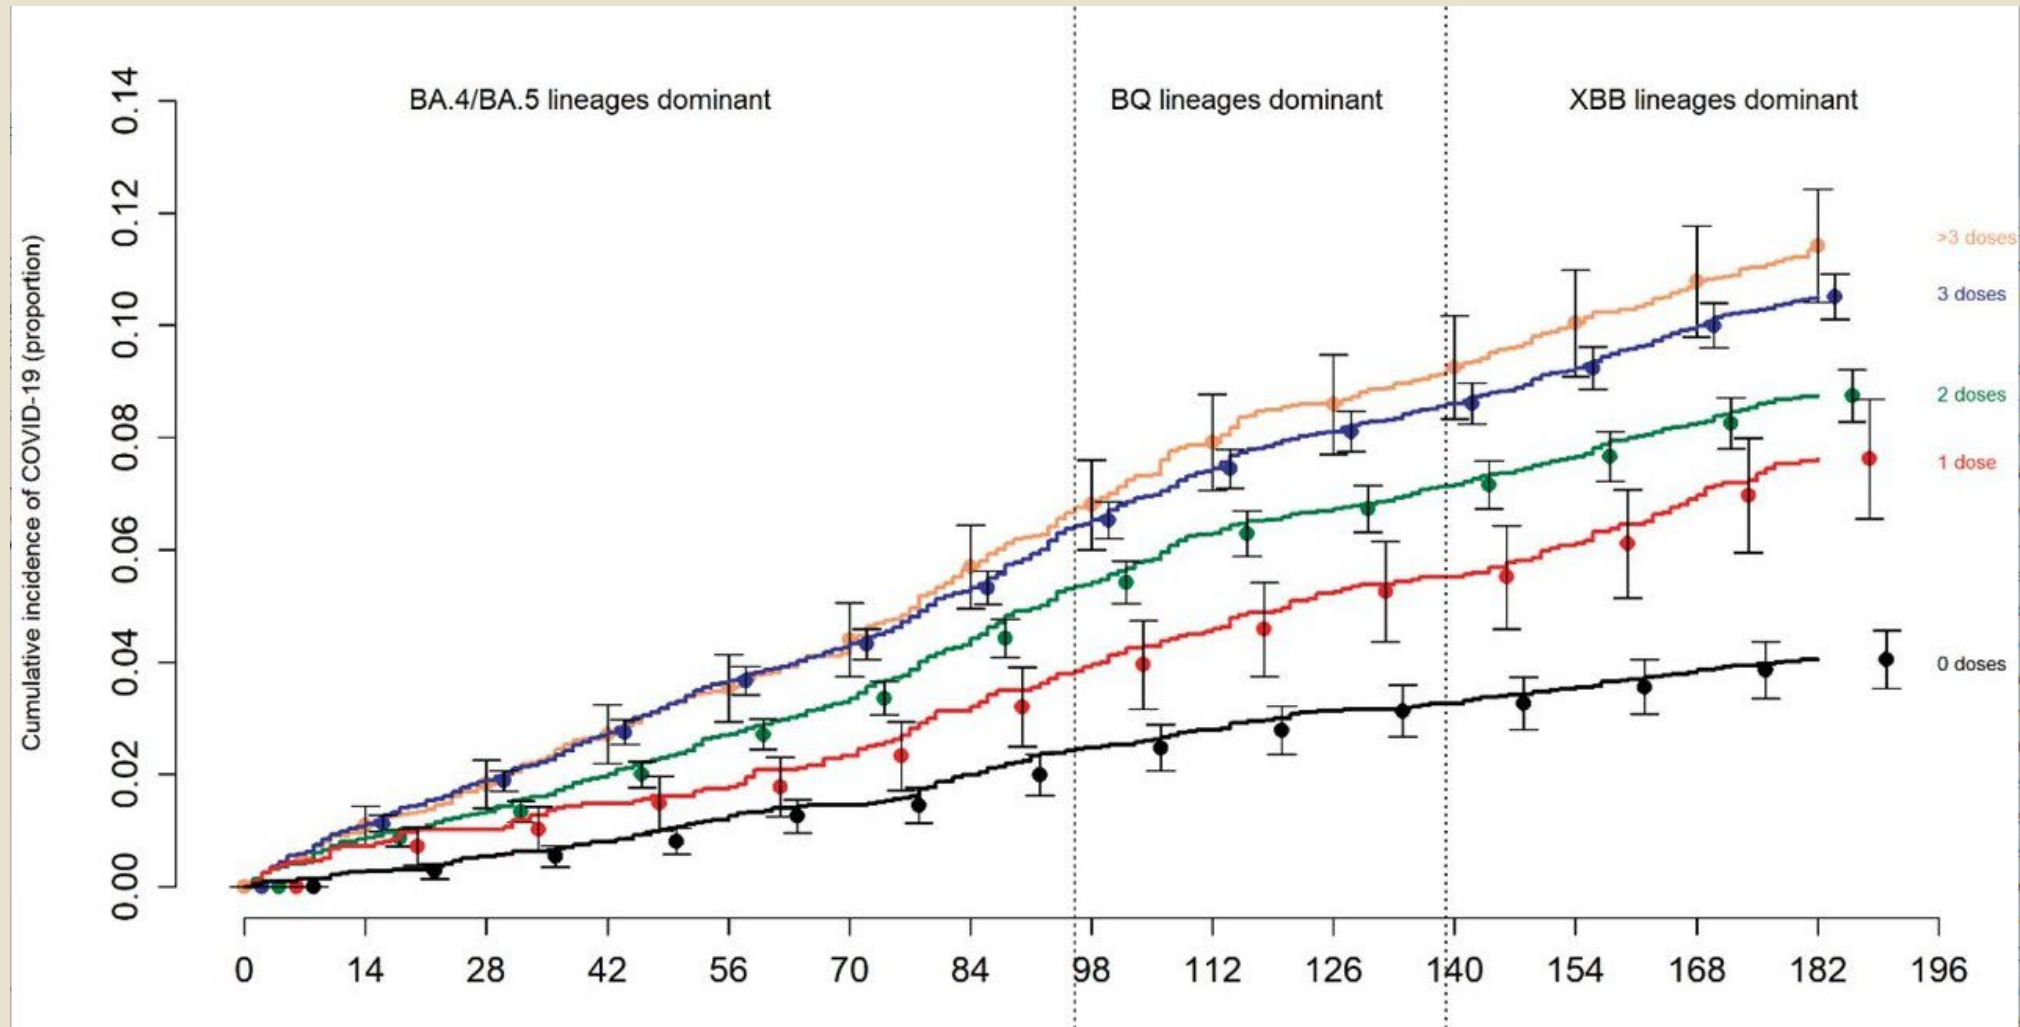

you die, but you go to heaven

WHO

# Cleveland Study, All Vaxxed 51K Employees: dose tracking

Cumulative Incidence of Covid-19 Cases by number doses of  $\Psi$ mRNA Countermeasure

Safe?

Effective?

## Vaccines

COVID-19 vaccines are safe, effective, and free. Get answers to frequently asked

## Why Should We Be Concerned Now? Isn't Covid Over?

### ΨmRNA Technology is **NOT SAFE**:

- ✓ CDC Data Shows 7.7% got so sick: visit to ER or were hospitalized;
- ✓ After that, approx. 15% develop a new medical problem or disability
- ✓ Not just in US, but World-wide research and World-wide real data, despite attempts at misinformation
- ✓ Adverse effects: long term : circulatory systems, nervous system, reproductive system, immune system, cancers, skin, kidney, digestive, ... you've seen the ACE2 list
- ✓ DOD contracts: bioweapon countermeasure: no quality testing, no safety testing: Pfizer Papers
- ✓ The Future: already planned for combination flu shots, cancer treatment, etc applications

**SUMMARY: Accelerated Aging in most who have received > first series**

## **ΨmRNA Technology is NOT SAFE:**

### **UK PIP (Disability System) Payments, Compared to the avg 2016-2019\***

**Hematological - up 522%**

**Auditory - up 121%**

**Cardiovascular - up 121%**

**Dermatological - up 138%**

**Endocrine, metabolic, and thermoregulation - up 156%**

**Gastrointestinal - up 145%**

**Genito-urinary - up 143%**

**Immune - up 115%**

**Musculoskeletal - up 93%**

**Neurological - up 107%**

**Oncology - up 35%**

**Psychiatric - up 124%**

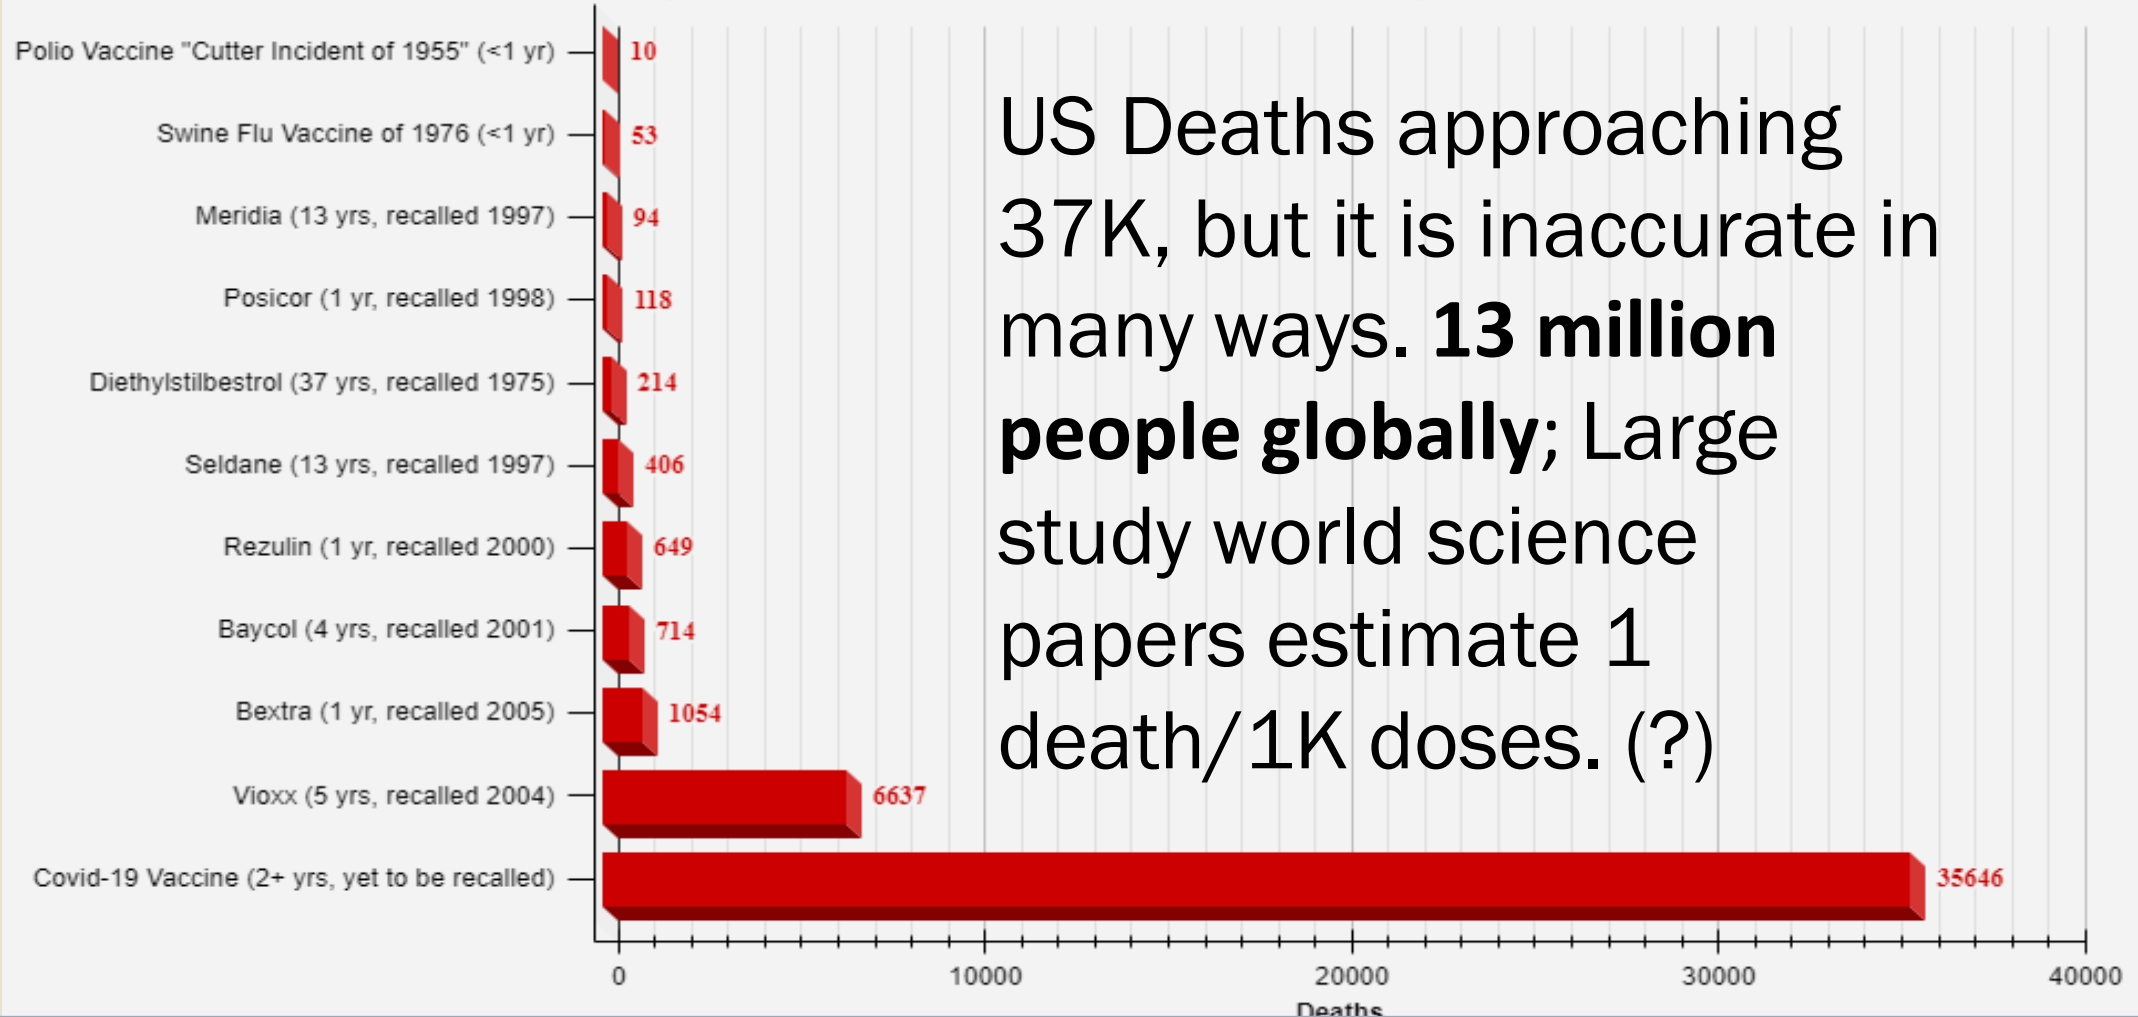

**Respiratory - up 93%**

**Visual - up 80%**

# ΨmRNA Technology is NOT SAFE:

## Reported Deaths for Major Drug/Vaccine Recalls

(Data Obtained from VAERS and FAERS)

US Deaths approaching 37K, but it is inaccurate in many ways. **13 million people globally**; Large study world science papers estimate 1 death/1K doses. (?)

## Adverse Effects: ACE2 Expression is Everywhere

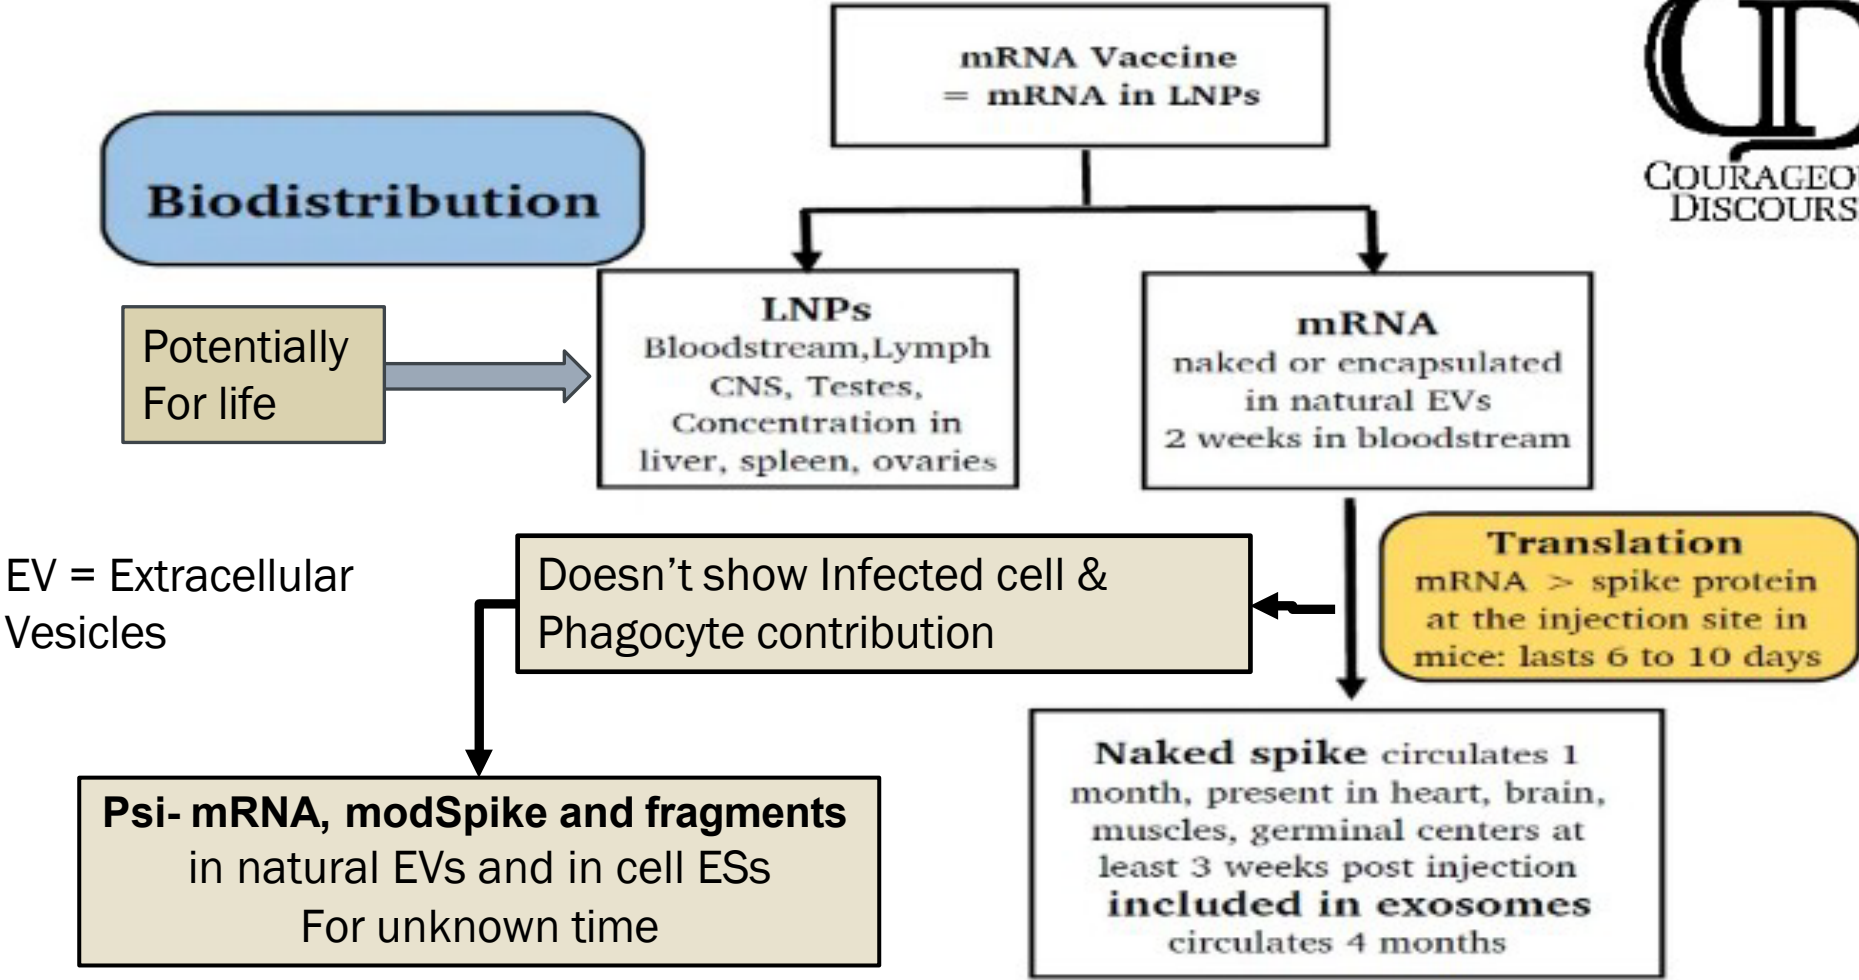

If there is free modSpike,(science shows >6 mo) then there is a problem:

### ✓ ACE2 is free in the blood

Highly Expressive	Moderately Expressive	Low Expressive
<ul style="list-style-type: none"><li>✓ Duodenum</li><li>✓ Small Intestine</li><li>✓ Kidney</li><li>✓ Gallbladder</li><li>✓ Testis</li><li>✓ Eye</li><li>✓ Heart</li></ul>	<ul style="list-style-type: none"><li>✓ Seminal vesicle</li><li>✓ Placenta</li><li>✓ Colon</li></ul>	<ul style="list-style-type: none"><li>✓ Thyroid</li><li>✓ Pancreas</li><li>✓ Nasal mucosa</li><li>✓ Branchia</li><li>✓ Adrenal gland</li><li>✓ Stomach</li><li>✓ Fallopian tube</li><li>✓ Parathyroid gland</li><li>✓ Appendix</li><li>✓ Liver</li><li>✓ Epididymis</li></ul>

# Background on AEs: the Countermeasure Lifecycle

\*Corresponding to: Helene Banoun, Pharmacist biologist, Former Inserm researcher, Member of the Independent Scientific Council, Marseille 13000, France.  
E-mail: helene.banoun@laposte.fr.

# Background on AEs: the Countermeasure Lifecycle

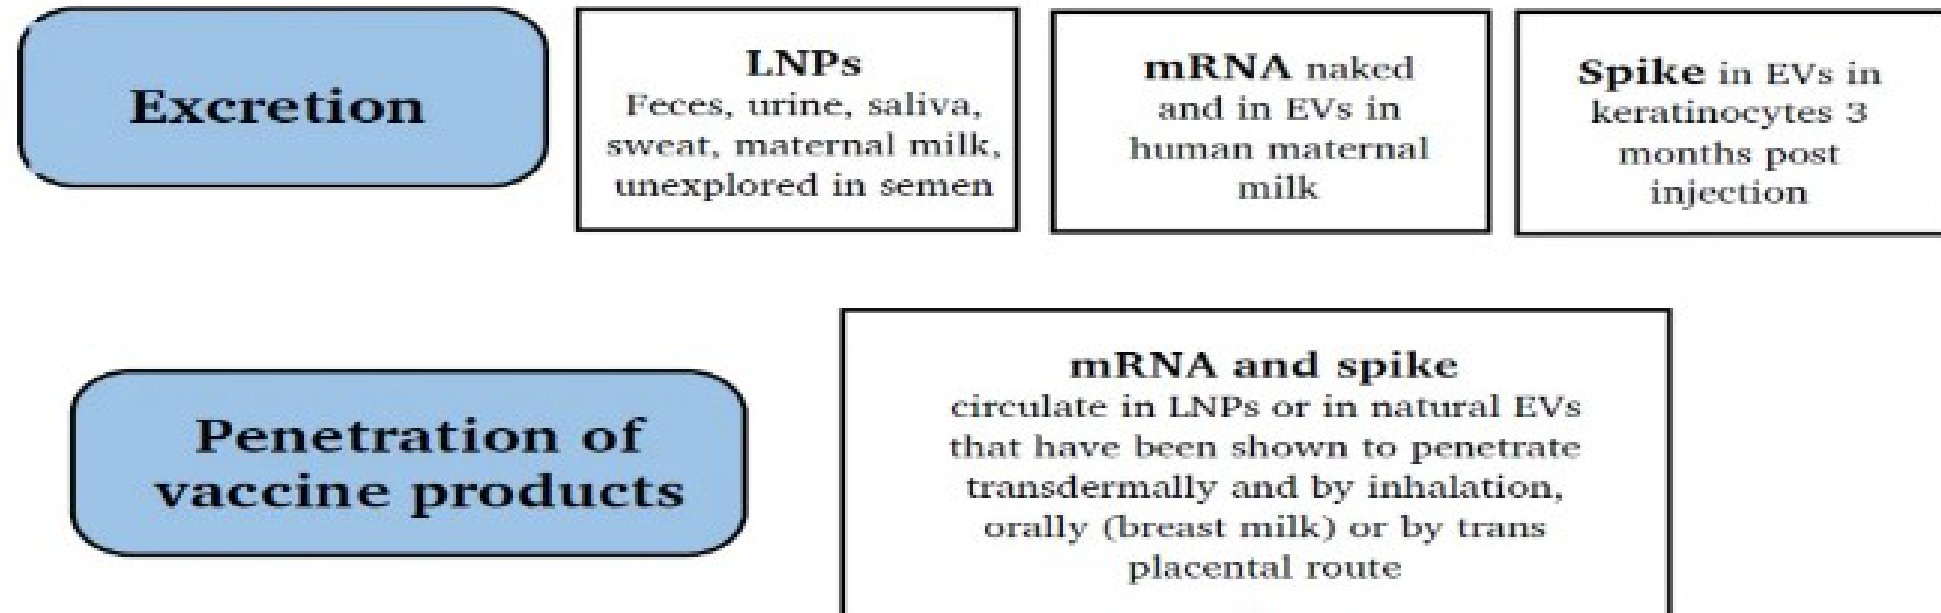

Figure 1 State of knowledge on excretion of mRNA vaccines

# Why should we be concerned now? Isn't the "pandemic" over?

## Mandates: Private industry, education

- ✓ Masks, shots, lockdowns, lockouts, etc... or even fired, even if not state mandate: Why?
  - ✓ *Dept of Labor Reqts for doing business, executive support of Democrat policies, contracts*
  - ✓ *Healthcare due to Medicare and HHS funding*
  - ✓ *Education due to unions and federal funding (or misinformation? Testimony from Dept Education? Ask school board?)*
- ✓ Seemingly arbitrary, favoring the big box stores (duh, follow the money)
- ✓ Issue of INTEGRITY: Was the Covid-19 era "proof of concept"? Should we expect it to reappear, both for disease and other population psyOps

No scientific basis (Science shows all mandates ineffective to detrimental to health):  
The unintended consequences: psychology, economics, education, society cohesion

## **DHEC Disinformation**

**DHEC failed at its basic task, accurate guidance, with no commitment to fix (FOAI and following meeting findings):**

- ❑ Unable to provide transparency on the validity of data used for hospitalizations and deaths published on the DHEC website.**
- ❑ Unable to provide adequate evidence re: universal masking in South Carolina's K-12 schools; inadequate risk vs benefit analysis of this policy for school-age children.**
- ❑ Unable to provide safety and AE data re recommendation of universal pediatric VAX or COVID-19 VAX of SC children.**
- ❑ Did not evaluate and act on the nearly 9,000 COVID-19 VAX AEs for South Carolina reported to VAERS, or US data, or any other country data, nor did it have accurate data on AEs**
- ❑ Has not investigated possible job, financial, psychological, education effects: not their job**

## **Disinformation: government control**

- ✓ **Manipulate language: pandemic, vaccine, “pandemic of the unvaccinated” ...**
- ✓ **Censor speech and medical information: Twitter files, Amazon servers, Facebook, Google, “Fact Checkers”, media reporting, ...**
- ✓ **Medical organization control of misinformation;**
- ✓ **Government control of our lives through control of federal funding to state and local institutions, with strings attached**
- ✓ **DHEC Web Site**

Document: Vol 04: [Medical Data and Analytic Manipulation During the Covid-19 Era: Dis- and Mis-Information and PsyOps](#)

DHEC Web Site: July 18, 2023

Who, me?

Safe?

Effective?

## Vaccines

COVID-19 vaccines are safe, effective, and free. Get answers to frequently asked

# Follow the Money

**Healthcare system corruption: protocols that kill but are profitable, protocols that limit our freedom**

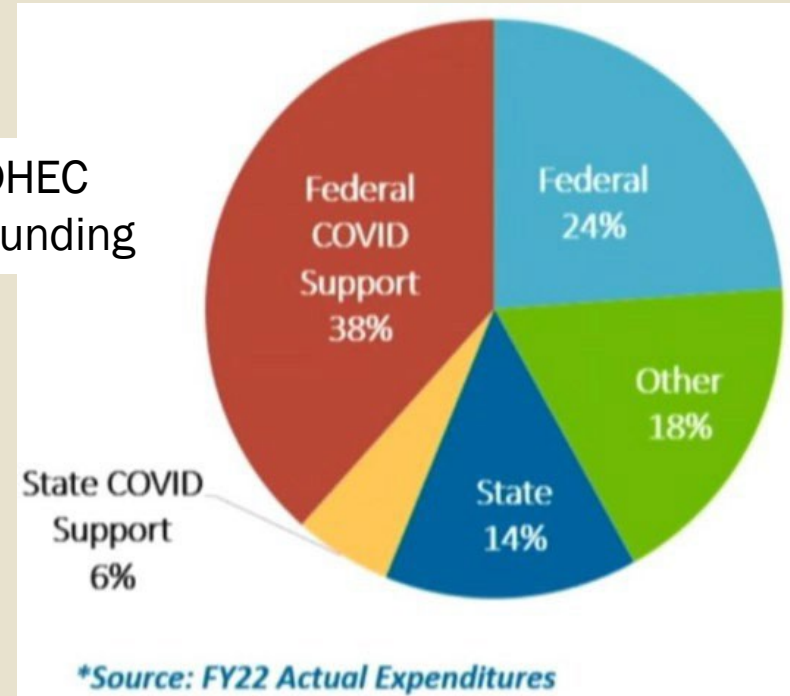

□ DHEC budget: 44% Covid funds (Strings attached? Worth the damage? Who agreed?)

**Healthcare systems: money received for each Covid Case Avg: \$186K**

□ *But they have to implement all CDC/NIH “recommendations”, eg Masking, No visits*

<u>Procedure</u>	<u>Hospital Payment</u>
Admitting <u>Cvd</u> Patient	\$13,000
Administering Remdesivir	Approx. \$3,200
Remdesivir for Medicare Patient	\$13,000
Patient put on ventilator	\$39,000
Extended Hospital stay due to inflicted complications	+ \$\$\$\$\$\$

DHEC Funding

## Follow the Money

### FOIA Revealed:

- **\$13 billion in funding to “influencers” to promote the mRNA injections:**
  - **For example: including an \$11M contract with a for-profit OB/GYN NGO that oversees tens of thousands of obstetricians and gynecologists on two continents**
  - **Requires the return of funding if medical organizations do not adhere to the “safe and effective” message presented to them by HHS.**

## Follow the Money

**Why should we be concerned now? Isn't the "pandemic" over?**

- ✓ **Corrupt individuals!**
- ✓ **No integrity: Federal government, state government, healthcare organizations, physicians, corporations, media, our entire societal infrastructure!**
- ✓ **Misuse and Fraud: \$400 billion stolen or wasted (Fortune)**

## What the Laws Built

- Set up huge public and private **funding** streams for military-led biological/chemical/neurological weapons research, development and deployment programs, sold to Congress and public as public health emergency programs.
- Shield government **funders, developers, regulators** from CBRN WMD/terrorism criminal prosecution by classifying weapons as scheduled toxins, communicable pathogens, etc., and R&D on those weapons as defensive/protective
- Eliminate informed consent in PHE contexts by reclassifying potential **carriers of disease** (each human) as presumptive **national security threat**.
- Shield **products/weapons** from product liability. No safety/efficacy standards.
- Shield **contractors, manufacturers, distributors and ‘vaccinators’** from civil and criminal liability for their harmful/lethal actions.

Katherine Watt, 2023

## What the Laws Built

- Set up huge public health programs, sold to Congress, for biological/chemical weapons development and deployment programs, sold to Congress, for emergency programs.
- Shield government **functions** from CBRN WMD/terrorism criminal liability. Weapons as scheduled toxins, communicable pathogens, weapons as defensive/protective
- Eliminate informed consent in classifying potential **carriers of disease** (each human) as **personal security threat**.
- Shield **products/weapons** from liability. No safety/efficacy standards.
- Shield **contractors, manufacturers, distributors and ‘vaccinators’** from civil and criminal liability for their harmful/lethal actions.

**Warning!**  
**Unaccountable**  
**Unauditable**

Katherine Watt, 2023

## The (Near) Future

- ✓ Push for more shots and mandates this fall
  - ✓ ***“Federal Officials Hatch a Three-Pronged Defense Against Another ‘Tripledemic’”*** ***NY Times***
    - ✓ *3 shots this time (flu, Covid, RSV)... if not for you, then for others)*
    - ✓ *“Masks required” popping up*
    - ✓ Children Vax Schedule: includes 2 shots  $\Psi$ mRNA (latest variant?)
- ✓ **CDC Doubles Down on Plans to Recommend Annual  $\Psi$ mRNA Shots** (Dr. Mandey Cohen, CDC Director, Aug. 9)
- ✓ **9,613 Patents WW on mRNA tech filed over past 40 years.**
  - ✓ Most by the big Pharmas and US Govt: they will be looking for ROI
  - ✓ 40 mRNA cancer “vaccines” under clinical trials (parmaweb.com)

## The (Near) Future

- ✓ **WHO Treaty for Pandemic Prevention and upcoming revisions to health policy**
  - ✓ **Current status is that it is being challenged in Europe, but outcome uncertain**
  - ✓ **Follow-on next Spring will go into affect without Senate approval – bad stuff**
  - ✓ ***“Pandemic Response Office” created by Biden Administration***
- ✓ ***Will WHO Treaty Supersede Federal or State Laws?***

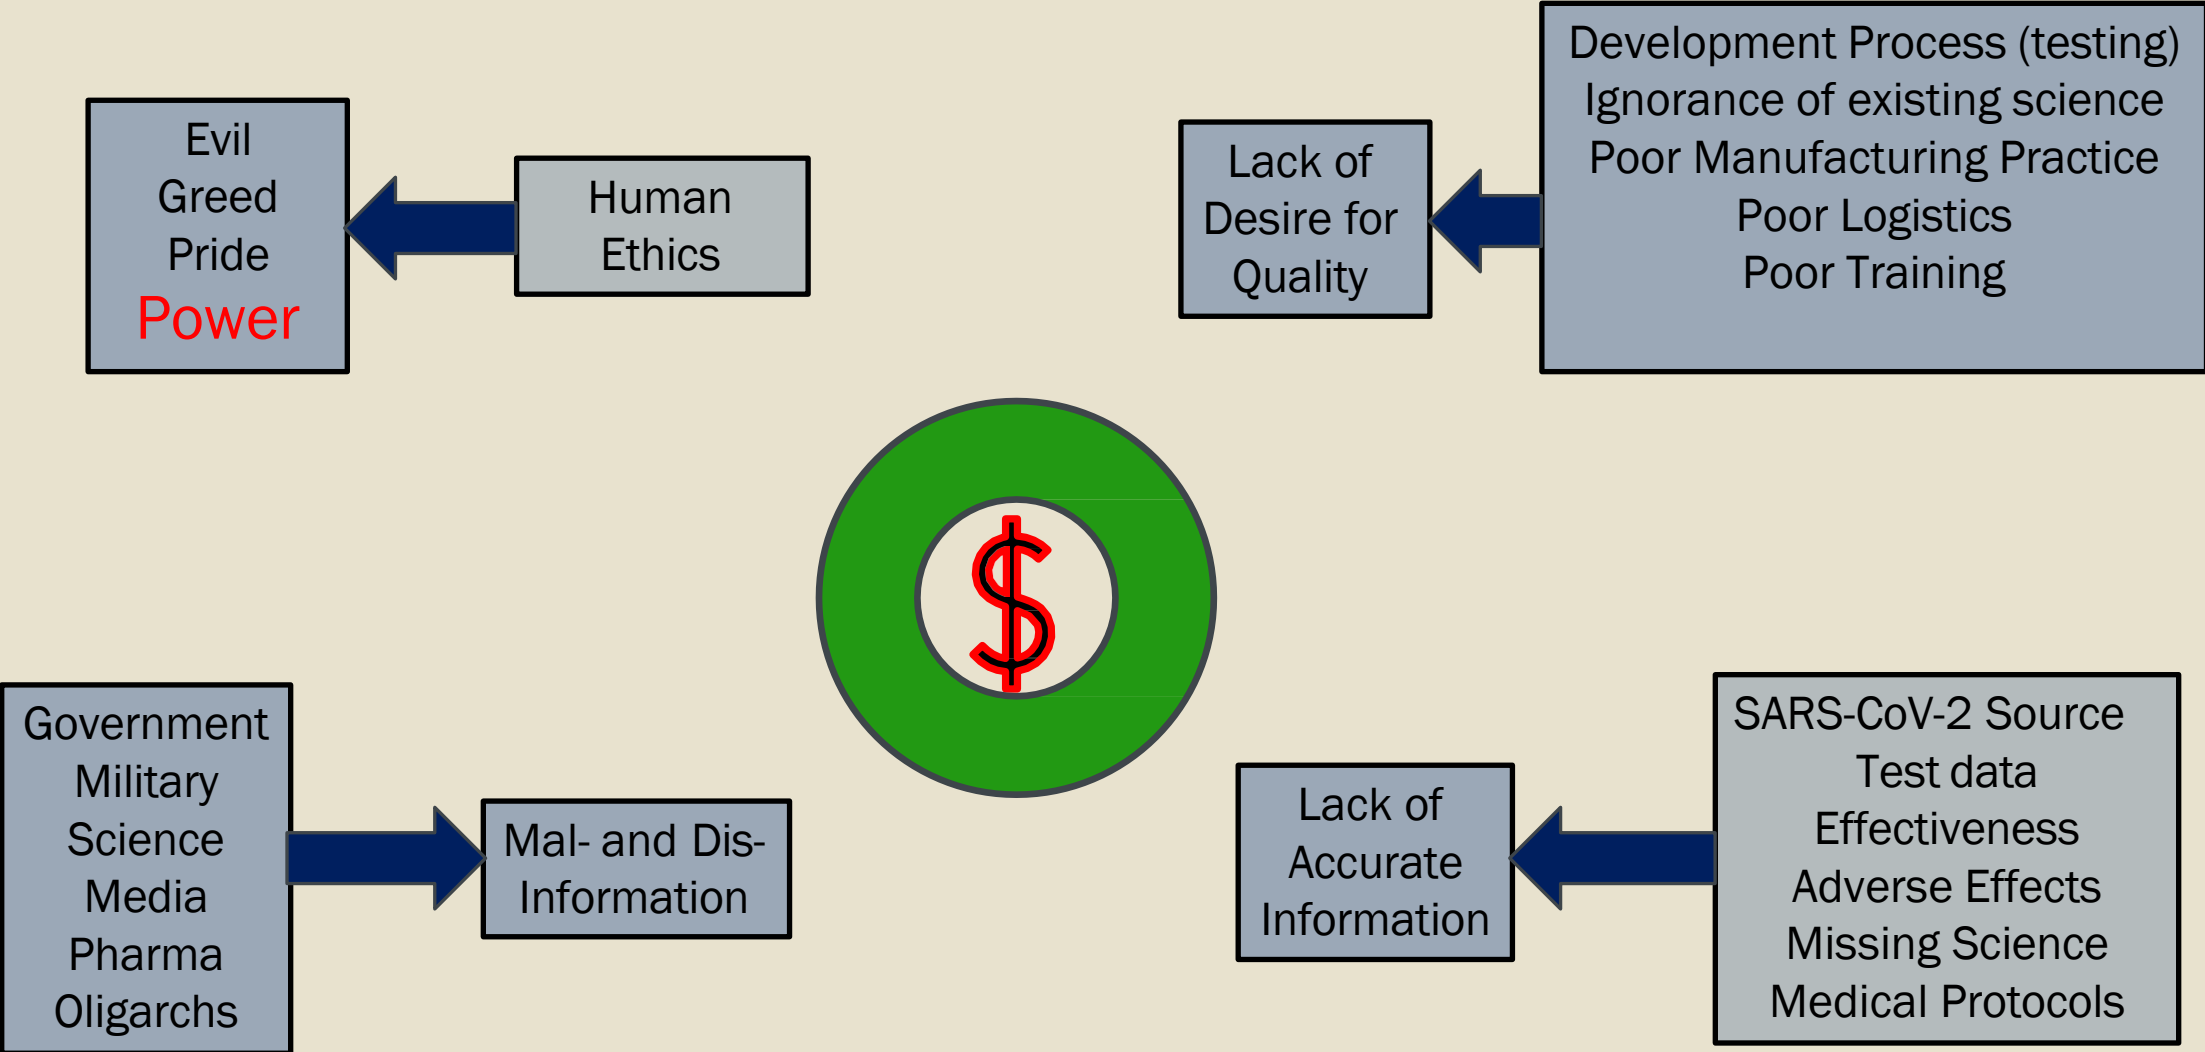

# ROOT CAUSE ANALYSIS

# Root Cause Analysis Methodology

## Root Cause Analysis Should Have Been Started:

- Observations evaluated**
  - Decisions and command chains documented*
  - Workflow weaknesses*
  - Actions outcomes*
  - Ethics evaluation*
  - Prioritization for root cause analysis based on performance*
- Root Cause Analysis**
- Lessons learned**
- Corrective Actions Plan**
  - Process*
  - Personnel*
  - Chain of command and control*

# Root Causes

## Lessons Learned

**We can not trust what the US Government says**

**The deep state, especially the 3 letter security agencies and HHS, are deeply involved in what we would consider illegal and immoral activities**

- The US was developing bioweapons and other dangerous pharmas “offshore,” in China, SE Asia, etc.**
- These can (will?) be used by choice or by accident**

**This isn't likely to change without a sea-change of reform: people will need to face discipline, firing, loss of pension, jail, and, in the worst cases, Crimes Against Humanity: Human Nature**

**The States (SOUTH CAROLINA) and the citizens must step up!**

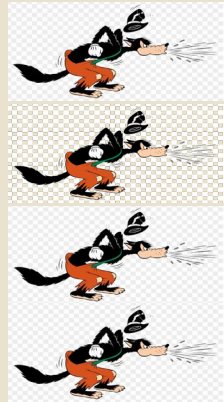

## Corrective Actions

- ✓ **Transparent Status Report of DHEC and Executive Branch Root Cause Analysis?**
- ✓ **Establish State Disease Management System- and use it (TOP Priority)**
  - ✓ *RHIO (A Politics-free State Effectiveness and Adverse Effects Database and Management Structure)*
  - ✓ *Autopsy criteria and workflow*
  - ✓ *DHEC responsibility to critically review all NIH work products (eg FDA, CDC)*
  - ✓ *DHEC Quality examination of vaccines and RXs regardless of FDA approval status (end product quality)*
  - ✓ *Pharmaceutical supply chains (to the arm or mouth) should be audited for quality (process quality)*
  - ✓ *Independent of Federal agencies*

## DHEC Corrective Actions

- ✓ **Correct web site and circulars to reflect scientific findings**
- ✓ **Stop psi-mRNA technology products from being used in SC (food, pharma; human, animal, agricultural products grown in state)**
- ✓ **Improve informed consent process**
- ✓ **Critical review of “vaccines” in childhood vaccination process”**
- ✓ **Include new Public Health process in DHEC restructure (next slides)**

# As Is (Current) DHEC Disease Management Process

Executive orders

FDA Regs

CDC/NIH Guidance -> must

\$\$\$ Pharmas & Feds

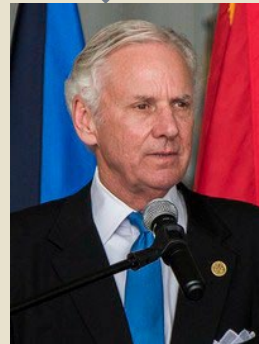

Regs & DisInfo

Disinformation

DHEC Board

Accountability

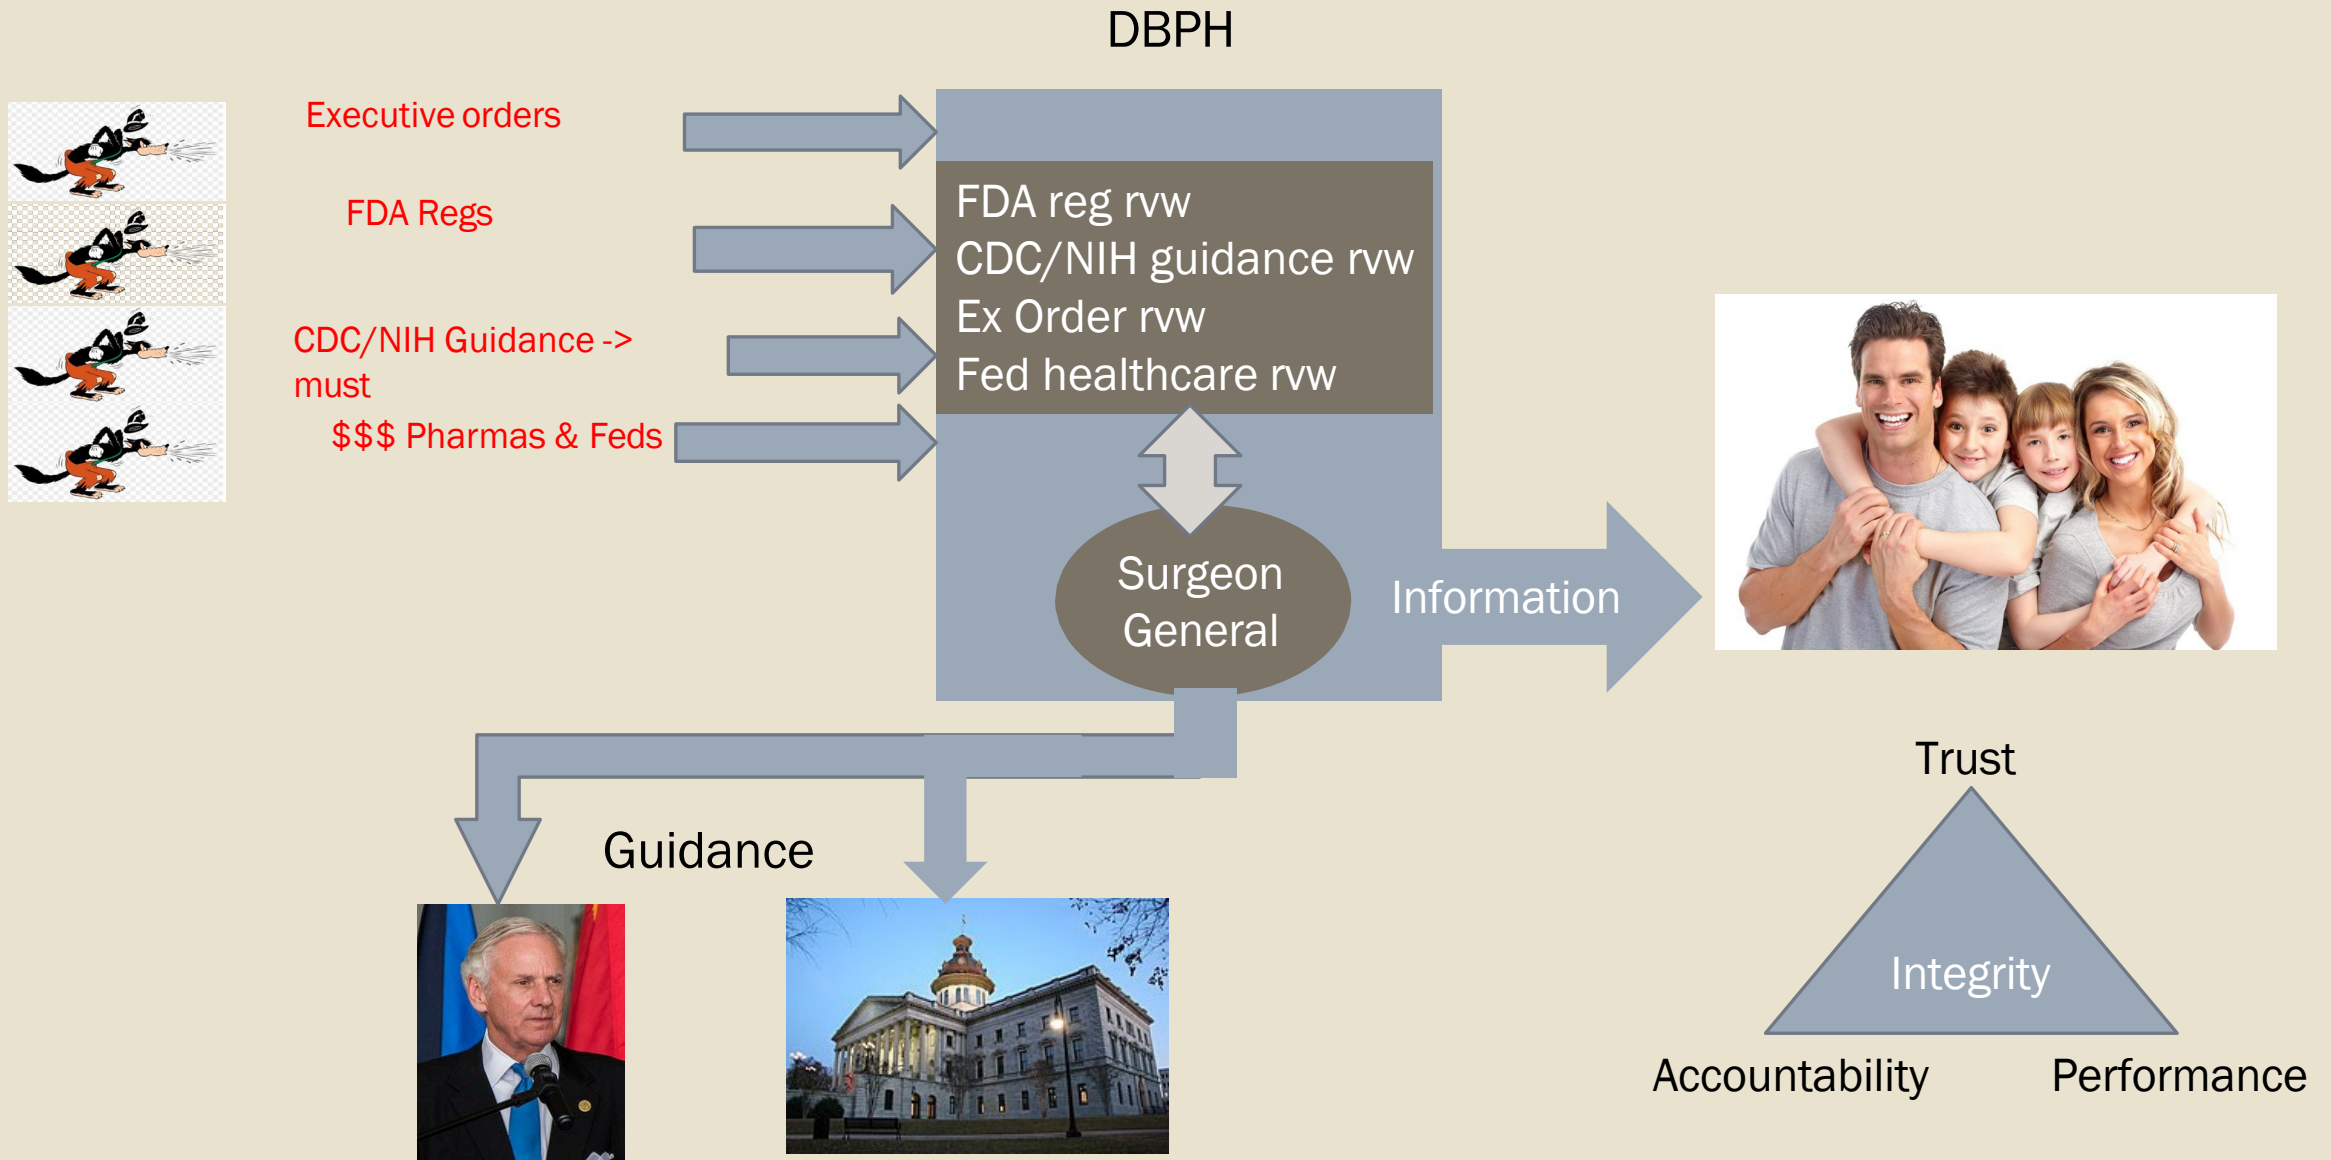

Integrity

Performance

# ToBe SC Behavioral and Public Health Process

## Corrective Actions

- ✓ **Blood donations screened for psi-mRNA biproducts (eg modSpike)**
  - ✓ *“Long-covid” symptoms as in UK*
  - ✓ *Blood test screens for spike, LPN (both whole and fragments)*
- ✓ **There is no “KEEP IT SIMPLE” when it comes to healthcare and pharma: key policy makers, and key staff, must be educated. (ROOT CAUSE!)**
- ✓ **Surgeon General responsibility? (eg Florida solution)**

## Corrective Actions

- ✓ **State-wide or even regional mandates should be illegal**
  - ✓ **Executive order by governor, immediate approval by legislature, brief period, no extension without revote of legislature**
- ✓ **Pharmas should be “off-campus” only**
- ✓ **Pharma off state media (TV, radio, etc)?**
- ✓ **Transparency in financial dealings from pharma, healthcare orgs, health NPOs**
  - ✓ **Legislature and executive branch (eg retainers, legal fees, etc) to legislative and executive branch,**
  - ✓ **Revolving door slammed shut**

## Corrective Actions

- ✓ **DBDC (federal digital money) is not money under SC law to prevent coercion**
- ✓ **Federal mandates from administrators or presidential executive orders should be reviewed by AG to determine if constitutional**
  - ✓ **Citizens, businesses should not impose AG-deemed unconstitutional orders on employees or customers**
  - ✓ **AG budget should be funded for these reviews**

## Corrective Actions

- ✓ **All goods and services exempt from liability should not be permitted in SC. This includes pharmas.**
- ✓ **Support and/or bring suits against individuals and organizations for**
  - ✓ *Malfeasance, dereliction of duty, etc*
  - ✓ *Workman's comp paid by the employer or organization requiring the shot, plus medical costs*
  - ✓ *Medical costs, personal injury, etc for improper informed consent*

## Corrective Actions

### **Restore the healthcare provider's relationship with the patient**

- ✓ **Healthcare providers- doctors, etc- should be able to express their medical opinions without fear of retribution, either from the administration or from other staff**
- ✓ **Healthcare providers should not be disciplined for discussing with patients care alternatives outside a mandated protocol. The healthcare provider/patient relationship must be respected.**

## CORRECTIVE ACTION: EDUCATION

It is chiefly upon the lay citizen, informed about science but not its practitioner, that the country **must depend** in determining the use to which science is put, in resolving the many public policy questions that scientific discoveries constantly force upon us.

David Lilienthal

quotefancy

## CORRECTIVE ACTION: EDUCATION

- ✓ Teaching “Scientific Method”
- ✓ Teaching biology of SARS-CoV-2 as an example: effectiveness and AEs- teaching how to evaluate medications and treatment methodologies as a life skill
- ✓ Teaching “critical thinking”
- ✓ Education Department mandate: *Education is the Responsibility (and privilege) of Parents; so is Health*
- ✓ All ages: we are exposed because technology has made it easy to avoid the responsibility of critical thinking AND technology controls everything now. “Keep it simple” will end our society

## A Final Thought on Education

I have been involved in education since the 1960s, not counting my own education. I served on a school board in the 1980s for 10 years. I have written articles on education. The changes we are attempting to make trace their origins two generations back- to the 1960s. If we commit to change now, will it *be a two generation journey?*

***DON'T BE SURPRISED!***

***I BELIEVE HISTORY SAYS SO: PERCEVERE***

## The Message to the Legislature

***The clear failure of congressional investigation and oversight concerning these issues indirectly serves to validate the implemented patterns and policies, virtually guaranteeing that the creeping (creepy?) authoritarian totalitarianism deployed in the name of “public health” will be repeated and expanded during future “crisis” responses.***

***Dr. Robert Malone***

## Bills Currently in House

H.3057- In event of contagious disease, general assembly can meet using remote and virtual technology: filed 12/8, Latest 5/15 sitting in Judiciary

H.3102 Stop Certain Social Media Censorship- introduced 12/08, 5/15 Latest, in Judiciary

H.3151- Limitations on how and when the Governor can declare Public Health Emergencies filed 12/08; Latest: 5/15 sitting in Judiciary

H.3161 Closed Primaries (Burns): filed 12/22; Latest 5/15 sitting in Judiciary

H.3197- Parental Rights- prohibits care providers from soliciting or providing health care services to children(<18) without parental consent: filed 12/8, latest 5/15 sitting in Judiciary

H.3215 No Patient Left Alone Act- filed 12/08; latest 5/15 sitting in 3M
