House Member Appropriation Request Form – Rep. Case Brittain

The use of the funds will include the cost of the videos for the three new inductees and the ceremony. Then we need to have some money for the eventual move out of the Myrtle Beach Convention Center. (This move is still up in the air which is my concern, but we may move to CCU or some other facility).

I also hope to modernize the structure of the board and how we operate. It's been run by historians for 50 years and my hope is to restructure some things to get it on more solid footing for the future. It is an old established organization that has been in existence for 50 years, since 1973.
