TO WHOM IT MAY CONCERN:

The funds will go towards completing the neighborhood facility housing educational and recreational programs for our children and senior citizens in the community. Meals on Wheels, Bingo, exercise equipment, computer access and training, expanding participants hobbies, etc.

The funds are a critical need to our children, senior citizens, and community. Our senior citizens will be trained in an environment with individuals they can relate to. Our senior citizens and children will learn from each other in a safe caring environment. It will allow our children a workstation to complete homework and allow our senior citizen's access to telemedicine and other needs.

Thank you for considering this request.

Sincerely,

Anjanette President, Executive Director
