

Dorchester County – Senior Center

The funds will be used to design and construction the City of North Charleston Senior Center in Dorchester County on county owned land on Patriot Boulevard near Appian Way. This project will benefit underserved senior citizens by providing health, fitness and wellness programs. The 12,300 square foot building will house a therapeutic pool, locker room, exercise room and classrooms/meeting rooms. The site will have pickle ball courts, walkways, and parking. The project is a part of a city-county-school partnership that includes an aquatic center, a library and media center, and a senior center on a 13 acre site.
