Provide any other information that may reflect positively or negatively on your candidacy, or which you believe should be disclosed in connection with consideration of you for nomination for the position you seek. This information may include how your life experiences have affected or influenced the kind or type of judge you have been or plan to be.

I grew up in a family with two brothers and both parents, and I now have my own family of two daughters, one son and three grandchildren. My parents were married for 60 years, and I have been married for over 42 years. Therefore, I have experienced a lot of the ups and downs that affect most families. When dealing with litigants before me, I draw on my personal experiences when considering how children feel about their parents, how parents feel about their children and how a husband and wife feel about one another when dealing with the various issues that affect every family.

After graduating from college, I had several different experiences that I have fallen back on when dealing with those who appear before me. I spent six years in the Army Reserves so I can relate to those who appear before me who are in the National Guard and Reserves and who are on active duty. I realize that their schedules and responsibilities must be considered when making certain decisions. After completing my active duty for the Reserves, I worked for a publishing company as an hourly employee. This experience has enabled me to relate to those who struggle on a meager income to make ends meet.

I left the publishing company job to take a job in textiles (Burlington Industries) for two years as a salaried employee. This experience helps me to relate to those who work in factories or for “big business”. I had to depend on unemployment compensation for a while, and had to supplement my income by substitute teaching. I can relate to those who appear before me who have lost jobs and are doing all they can to make ends meet. I also use this experience when considering those before me who don’t make attempts at gainful employment. My experience while substitute teaching has given me a perspective of young people that I might not have otherwise had. It has allowed me to see how teachers feel in certain situations.

Four years after graduating from college I entered law school. Upon graduation from law school, I practiced law for seventeen years before being elected to the bench. Having practiced law for seventeen years, I saw a lot of different situations and different types of people that I think about and sometimes reflect back on when making certain decisions.

Finally, I have spent about twenty years coaching youth baseball and football teams. Because of this experience, I know how a lot of juveniles from all walks of life think and what is important to them as well as their parents. Also, I know how they are affected by various situations.

My life experiences have made me realize that there is no one solution for all problems. I realize that every case is different, just as all people are different and all situations are different. Every case I deal with must be dealt with individually and the law applied in accordance with the unique facts found in each individual case.
