As required by the South Carolina Infectious Waste Management Act, the Department of Health and Environmental Control (the Department) annually publishes a projection of the estimated amount of infectious waste to be generated in South Carolina for the next calendar year. This report fulfills this requirement.

The data used to calculate this estimate has been derived from in-state generators. According to the South Carolina Infectious Waste Management Regulation, R.61-105, any person producing infectious waste in South Carolina must register with the Department annually in writing on a Department registration form. The registration form includes the name of the business, address of the site of generation (each site of generation must apply separately), and the amount of infectious waste generated monthly (estimated within + or -20%). The data upon which this estimate is based was derived from the generator registration forms.

For the one-year period of October 2, 2012 through October 1, 2013, 7,348 generators have reported they produce an estimated 654.97 tons of infectious waste per month or 7859.64 tons of infectious waste in a one-year period. Based on these most recent monthly generation rates, the Department expects approximately 7,859.64 tons to be generated in calendar year 2014. Infectious waste generated in private households is excluded from the Infectious Waste Management Act and is not included in this report.

Additional information and resources regarding the infectious Waste Management Program may be found at: [www.scdhec.gov/infectiouswaste](http://www.scdhec.gov/infectiouswaste).

The table below illustrates past generation rates.
## BUREAU OF LAND AND WASTE MANAGEMENT
### INFECTIOUS WASTE GENERATION

**TOTAL AMOUNT OF INFECTIOUS WASTE GENERATED IN SOUTH CAROLINA**

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>SHARPS: Needles, syringes, lancets and scalpel blades.</td>
<td>330,787.75 pounds per month</td>
</tr>
<tr>
<td>MICROBIOLOGICALS: Specimens, cultures and stocks of human pathogenic agents.</td>
<td>130,184.24 pounds per month</td>
</tr>
<tr>
<td>BLOOD AND BLOOD PRODUCTS: Unabsorbed human blood, or blood products, or absorbed blood and bloody body fluids.</td>
<td>511,991.52 pounds per month</td>
</tr>
<tr>
<td>PATHOLOGICAL: Tissues, organs, limbs, products of conception and other body parts removed from the whole body.</td>
<td>90,456.71 pounds per month</td>
</tr>
<tr>
<td>ANIMAL: Animal carcasses, body parts and bedding of animals intentionally exposed to human pathogens during research.</td>
<td>10,694.75 pounds per month</td>
</tr>
<tr>
<td>ISOLATION: Biosafety Level Four, highly communicable diseases classified by the Centers for Disease Control and Prevention.</td>
<td>140,433.92 pounds per month</td>
</tr>
<tr>
<td>OTHER: Other waste material designated by the generator as infectious waste.</td>
<td>95,382.46 pounds per month</td>
</tr>
</tbody>
</table>

**TOTALS OF ALL WASTE STREAMS:** 1,309,931.35 pounds per month (654.97 tons per month)

**TOTAL NUMBER OF GENERATORS REGISTERED:** 7348
