**1.48 AMEND** (National Board Certification Incentive) Provides guidelines for an annual \$7,500 salary supplement to be paid to public school classroom teachers or classroom teachers who work with classroom teachers who are certified by the State Board of Education and by the National Board for Professional Teaching Standards for the length of the national certificate and to teachers employed at the special schools. Directs that up to 1,100 loan applications shall be processed annually. Authorizes funds collected from educators who are in default of the loan to be retained and carried forward for National Board purposes. Directs CERRA to develop guidelines and administer a loan program for teachers who are U.S. citizens or permanent resident aliens applying for National Board certification. Directs that teachers who begin the application process after 7/1/07 are eligible for full loan forgiveness if at the time the teacher applies to the National Board they are teaching in a school with a below average or unsatisfactory rating. Directs that forgiveness be at the rate of 33% for each year of full time teaching in the same school regardless of whether the school exceeds a below average or unsatisfactory rating during the forgiveness period or for each year teaching full time in another school with a below average or unsatisfactory rating.

**WMC:** AMEND proviso to direct that effective July 1, 2010, the state will not award loans to teachers seeking National Board certification and will not pay a \$7,500 salary supplement to any teacher who receives such certification unless they received certification before July 1, 2010 or completed application for certification prior to July 1, 2010 and subsequently received the certification. Prohibit state funds from being paid to any teacher beyond the first ten years of receiving National Board certification except for individuals who have applied for or subsequently received their second ten year certification prior to July 1, 2010. Direct the department, during FY 2010-11, to establish program guidelines, conduct an application process which requires at least 2/3 of the school's teachers to endorse the application, and select schools to participate in the pilot. Direct the department to provide a report on SITE to the General Assembly, the State Board of Education, and the EOC by January 15, 2011 and to include the names of schools participating in the pilot for the following fiscal year. Authorize that up to 10% of the funds collected may be used by the department to offset loan collection administrative costs and the remainder of the funds be used for National Board loan purposes. *Phases out National Board supplements after all existing commitments are made.* Fiscal Impact: OSB indicates that discontinuing the NBC loan application of \$2,500 would reduce the overall need within the program by \$2,750,000. The number of teachers eligible to receive the \$7,500 salary supplement in FY 09-10 is 6,385 which is approximately 740 more than the prior fiscal year. If the same growth rate applies for FFY 10-11 the number of eligible teachers could reach 7,000. The impact of discontinuing the salary supplement to any teacher beyond the first 10 years taking into consideration the exceptions identified within this proviso is unknown. **1.48.** (SDE: National Board Certification Incentive) *Effective July 1, 2010, the state will not award loans to any teacher seeking National Board certification and will not pay a \$7,500 salary supplement to any teacher receiving National Board certification unless the teacher had received National Board certification prior to July 1, 2010 or had completed application for National Board certification prior to July 1, 2010 and subsequently received National Board certification. No state funds shall be paid to any teacher beyond the first ten years of receiving National Board certification except for those individuals who have applied for or subsequently receive their second ten year certification prior to July 1, 2010. The Department of Education and the Education Oversight Committee shall work together to develop a pilot program to be administered by the department to determine the effectiveness of using the Salary Incentives for Teacher Excellence (SITE). During Fiscal Year 2010-11, the department shall establish guidelines for the program, conduct an application process which requires at least two-thirds of the school's teachers to endorse the application, and select schools to participate in the pilot. The department shall provide a report on the SITE to the General Assembly, the State Board of Education, and the Education Oversight Committee not later than January 15, 2011, including the names of schools participating in the pilot for the following fiscal year.*

Public school classroom teachers or classroom teachers who work with classroom teachers who are certified by the State Board of Education and who have been certified by the National Board for Professional Teaching Standards *or completed the application process prior to July 1, 2010* shall be paid a \$7,500 salary supplement beginning July 1 in the year following the year of achieving certification, beginning with 2009 applicants. Teachers employed at the special schools shall be eligible for this \$7,500 salary supplement. The special schools include the Governor's School for Science and Math, Governor's School for the Arts and Humanities, Wil Lou Gray Opportunity School, John de la Howe School, School for the Deaf and the Blind, Felton Lab, Department of Juvenile Justice and Palmetto Unified School District 1. The \$7,500 salary supplement shall be added to the annual pay of the teacher for the length of the national certificate. The Center for Educator Recruitment, Retention, and Advancement (CERRA-South Carolina) shall develop guidelines and administer the programs whereby teachers who are United States citizens or permanent resident aliens, and who are applying to the National Board for Professional Teaching Standards for certification may receive a loan equal to the amount of the application fee. the loan will have the full loan principal amount and interest forgiven. Teachers who previously submitted a portfolio to the National Board for Professional Teaching Standards for certification under previous appropriation acts, shall receive reimbursement of their certification fee as prescribed under the provisions of the previous appropriation act. Funds collected from educators who are in default of the National Board loan shall be retained and carried forward by the department. The department may retain up to ten percent of the funds collected to offset the administrative costs of loan collection. All other funds shall be retained by the department and used for National Board loan purposes. Of the funds appropriated in Part IA, Section 1, XIII.A. for National Board Certification, the State Department of Education shall transfer to the Center for Educator Recruitment, Retention, and Advancement (CERRA-South Carolina) the funds necessary for the administration of the loan program. In addition, teachers who are certified by the National Board for Professional Teaching Standards shall enter a recertification cycle for their South Carolina certificate consistent with the recertification cycle for national board certification. National board certified teachers moving to this State who hold a valid standard certificate from their sending state are exempted from initial certification requirements and are eligible for a professional teaching certificate and continuing contract status. Their recertification cycle will be consistent with national board certification.

Provided, further, that in calculating the compensation for teacher specialists, the State Department of Education shall include state and local compensation as defined in Section 59-18-1530 to include local supplements except local supplements for National Board certification. Teacher specialists remain eligible for state supplement for National Board certification.

Teachers who begin the application process after July 1, 2007 and who teach in schools which have an absolute rating of below average or at-risk at the time the teacher applies to the National Board for certification, but who fail to obtain certification, nonetheless shall be eligible for full forgiveness of the loan as follows: upon submission of all required materials for certification, one-half of the loan principal amount and interest shall be forgiven; forgiveness of the remainder of the loan will be at the rate of 33% for each year of full time teaching in the same school regardless of whether that school exceeds an absolute rating of below average or at-risk during the forgiveness period, or for each year of full time teaching in another school that has an absolute rating of below average or at risk.

**1.50 AMEND** (School District Furlough) Authorizes and provides guidelines for school districts to institute an employee furlough program, not to exceed 10 days, for district-level and school-level professional staff. Allows instructional personnel to be furloughed up to 5 non-instructional days if such furlough is not prohibited by an applicable employment contract and if district administrators are furloughed for twice the number of days. Directs that district administrators may only be furloughed on non-instructional days.

**WMC:** AMEND proviso to direct the department to define district administrators by using the Professional Certified Staff (PCS) System. Direct that individuals not coded in PCS be defined based on whether their function are outlined in position codes identified as administration. Direct that educators who would have received a year's experience credit if a furlough not been implemented, shall not have their experience credit negatively impacted because of a furlough implementation. Fiscal Impact: OSB states the department indicates no fiscal impact on the General Fund. The provision would have an impact on school districts due to cost avoidance of salary for any days furloughed.

**HOU:** ADOPT proviso as amended.

**SFC SUBCOMMITTEE RECOMMENDATION:**

**K-12 EDUCATION SUBCOMMITTEE  
SUMMARY OF RECOMMENDED PROVISO CHANGES  
FOR FY 2010-11**

**1.50.** (SDE: School District Furlough) If state funds appropriated for a school district in this State are less than state funds appropriated for that school district in the preceding fiscal year, or if the General Assembly or the Budget and Control Board implements a midyear across-the-board budget reduction, school districts may institute employee furlough programs for district-level and school-level professional staff. Before any of these employees may be furloughed, the chairman of the governing body of the school district must certify that all fund flexibility provided by the General Assembly has been utilized by the district and that the furlough is necessary to avoid a year-end deficit and a reduction in force. The certification must include a detailed report by the superintendent of the specific action taken by the district to avoid a year-end deficit. The certification and report must be in writing and delivered to the State Superintendent of Education and a copy must be forwarded to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee.

The local school district board of trustees may implement a furlough of personnel once certification to the State Superintendent documents all funding flexibility has been exhausted and continued year-end deficits exist. Local school boards of trustees shall have the authority to authorize furloughs of these employees in the manner in which it sees fit. However, instructional personnel may be furloughed for up to five non-instructional days if not prohibited by an applicable employment contract with the district and provided district administrators are furloughed for twice the number of days. District administrators may only be furloughed on non-instructional days and may not be furloughed for a period exceeding ten days. District administrators shall be defined by the Department of Education using the Professional Certified Staff (PCS) System. For individuals not coded in PCS, the determination shall be made based upon whether the individual performs the functions outlined in position codes identified by the department as administration. Educators who would have received a year's experience credit had a furlough not been implemented, shall not have their experience credit negatively impacted because of a furlough implementation.

During any furlough, affected employees shall be entitled to participate in the same benefits as otherwise available to them except for receiving their salaries. As to those benefits that require employer and employee contributions, including, but not limited to, contributions to the South Carolina Retirement System or the optional retirement program, the district will be responsible for making both employer and employee contributions if coverage would otherwise be interrupted; and as to those benefits which require only employee contributions, the employee remains solely responsible for making those contributions. Placement of an employee on furlough under this provision does not constitute a grievance or appeal under any employee grievance procedure. The district may allocate the employee's reduction in pay over the balance of the fiscal year for payroll purposes regardless of the pay period within which the furlough occurs.

This proviso shall not abrogate the terms of any contract between any school district and its employees.

**1.61** **AMEND** (Child Development Education Pilot Program) Establishes the South Carolina Child Development Pilot Program to provide four-year old kindergarten services to at-risk children in the 8 trial districts and if any funds remain, to expand the program to the remaining plaintiff districts in the Abbeville County School District and then to eligible children in school districts with a poverty index of 90% or greater. Directs that the program be available for the 2009-10 school year on a voluntary basis. Directs the EOC to conduct an evaluation of the pilot program and issue a report to the General Assembly by 1/1/10. Authorizes unexpended funds to be carried forward and remain in the program.

**WMC:** AMEND proviso to update school year references to “2010-11” and calendar year references to “2011.” Delete the prohibition on using funds appropriated for this purpose to fund services to at risk 4 year olds who reside outside the trial or plaintiff districts during the pilot program implementation. Require the EOC report on evaluation of the pilot program January 15<sup>th</sup> of the current fiscal year rather than January 1, 2010. Authorize CDEPP providers to enroll pay-lunch children who score at or below the 25<sup>th</sup> national percentile on two of the three DIAL-3 subscales and if funds are available, to receive reimbursement, if by October 1st at least 75% of the total number of eligible CDEPP children in a district or county are projected to be enrolled in CDEPP, Head Start or ABC Child Care Program as determined by the department and the Office of First Steps. Amend the funded cost per child from “\$4,093” to “\$4,218” and delete the authorization that up to \$2,500 may be provided annually to procure consumable and other materials in established classrooms. Delete the requirement that First Steps include EOC fiscal and management questions in its triennial external evaluation. Delete the specification of what must be included in the 2010 evaluation and instead direct that the annual evaluation address the implementation, accountability and effectiveness of CDEPP. Fiscal Impact: OSB indicates this amendment would have a negligible impact on CDEPP expenditures. The funded cost per child increase from \$4,093 to \$4,218 (\$125) will be largely offset by deletion of the annual \$2,500 per classroom for consumables and materials. There are currently approximately 4,000 children being served by the program in about 249 classrooms.

**HOU:** ADOPT proviso as amended.

**SFC SUBCOMMITTEE RECOMMENDATION:**

**1.61.** (SDE: Child Development Education Pilot Program) There is created the South Carolina Child Development Education Pilot Program (CDEPP). This program shall be available for the ~~2009-10~~ 2010-11 school year on a voluntary basis and shall focus on the developmental and learning support that children must have in order to be ready for school and must incorporate parenting education.

(A) For the ~~2009-10~~ 2010-11 school year, with funds appropriated by the General Assembly, the South Carolina Child Development Education Pilot Program shall first be made available to eligible children from the following eight trial districts in Abbeville County School District et. al. vs. South Carolina: Allendale, Dillon 2, Florence 4, Hampton 2, Jasper, Lee, Marion 7, and Orangeburg 3. With any remaining funds available, the pilot shall be expanded to the remaining plaintiff school districts in Abbeville County School District et. al. vs. South Carolina and then expanded to eligible children residing in school districts with a poverty index of 90% or greater. Priority shall be given to implementing the program first in those of the plaintiff districts which participated in the pilot program during the 2006-2007 school year, then in the plaintiff districts having proportionally the largest population of underserved at-risk

FOR FY 2010-11**

four-year-old children. ~~During the implementation of the pilot program, no funds appropriated by the General Assembly for this purpose shall be used to fund services to at risk four year old children residing outside of the trial or plaintiff districts.~~

The Education Oversight Committee shall conduct an evaluation of the pilot program and shall issue a report to the General Assembly by January 1, 2010 15 of the current fiscal year. The report shall include a comparative evaluation of children served in the pilot program and children not served in the pilot program. Additionally, based on the evaluation of the pilot program, the Education Oversight Committee shall include recommendations for the creation of and an implementation plan for phasing in the delivery of services to all at-risk four-year-old children in the state.

Unexpended funds from the prior fiscal year for this program shall be carried forward and shall remain in the program. In rare instances, students with documented kindergarten readiness barriers may be permitted to enroll for a second year, or at age five, at the discretion of the Department of Education for students being served by a public provider or at the discretion of the Office of South Carolina First Steps to School Readiness for students being served by a private provider.

(B) Each child residing in the pilot districts, who will have attained the age of four years on or before September 1, of the school year, and meets the at-risk criteria is eligible for enrollment in the South Carolina Child Development Education Pilot Program for one year.

The parent of each eligible child may enroll the child in one of the following programs:

(1) a school-year four-year-old kindergarten program delivered by an approved public provider; or

(2) a school-year four-year-old kindergarten program delivered by an approved private provider.

The parent enrolling a child must complete and submit an application to the approved provider of choice. The application must be submitted on forms and must be accompanied by a copy of the child's birth certificate, immunization documentation, and documentation of the student's eligibility as evidenced by family income documentation showing an annual family income of 185% or less of the federal poverty guidelines as promulgated annually by the U.S. Department of Health and Human Services or a statement of Medicaid eligibility.

In submitting an application for enrollment, the parent agrees to comply with provider attendance policies during the school year. The attendance policy must state that the program consists of 6.5 hours of instructional time daily and operates for a period of not less than 180 days per year. Pursuant to program guidelines, noncompliance with attendance policies may result in removal from the program.

No parent is required to pay tuition or fees solely for the purpose of enrolling in or attending the program established under this provision. Nothing in this provision prohibits charging fees for childcare that may be provided outside the times of the instructional day provided in these programs.

*If by October 1 of the school year at least 75% of the total number of eligible CDEPP children in a district or county are projected to be enrolled in CDEPP, Head Start or ABC Child Care Program as determined by the Department of Education and the Office of First Steps, CDEPP providers may then enroll pay-lunch children who score at or below the 25<sup>th</sup> national percentile on two of the three DIAL-3 subscales and may receive reimbursement for these children if funds are available.*

(C) Public school providers choosing to participate in the South Carolina Four-Year-Old Child Development Kindergarten Program must submit an application to the Department of Education. Private providers choosing to participate in the South Carolina Four-Year-Old Child Development Kindergarten Program must submit an application to the Office of First Steps. The application must be submitted on the forms prescribed, contain assurances that the

Providers may limit student enrollment based upon space available. However if enrollment exceeds available space, providers shall enroll children with first priority given to children with the lowest scores on an approved pre-kindergarten readiness assessment. Private providers shall not be required to expand their programs to accommodate all children desiring enrollment. However, providers are encouraged to keep a waiting list for students they are unable to serve because of space limitations.

(D) The Department of Education and the Office of First Steps to School Readiness shall:

- (1) develop the provider application form;
- (2) develop the child enrollment application form;
- (3) develop a list of approved research-based preschool curricula for use in the program based upon the South Carolina Content Standards, provide training and technical assistance to support its effective use in approved classrooms serving children;
- (4) develop a list of approved pre-kindergarten readiness assessments to be used in conjunction with the program, provide assessments and technical assistance to support assessment administration in approved classrooms serving children;
- (5) establish criteria for awarding new classroom equipping grants;

- (11) establish criteria for granting classroom size requirements waivers.

(E) Providers of the South Carolina Child Development Education Pilot Program shall offer a complete educational program in accordance with age-appropriate instructional practice and a research based preschool curriculum aligned with school success. The program must

FOR FY 2010-11**

focus on the developmental and learning support children must have in order to be ready for school. The provider must also incorporate parenting education that promotes the school readiness of preschool children by strengthening parent involvement in the learning process with an emphasis on interactive literacy.

Providers shall offer high-quality, center-based programs that must include, but shall not be limited to, the following:

(1) employ a lead teacher with a two-year degree in early childhood education or related field or be granted a waiver of this requirement from the Department of Education or the Office of First Steps to School Readiness;

(2) employ an education assistant with pre-service or in-service training in early childhood education;

(3) maintain classrooms with at least 10 four-year-old children, but no more than 20 four-year-old children with an adult to child ratio of 1:10. With classrooms having a minimum of 10 children, the 1:10 ratio must be a lead teacher to child ratio. Waivers of the minimum class size requirement may be granted by the South Carolina Department of Education for public providers or by the Office of First Steps to School Readiness for private providers on a case-by-case basis;

(4) offer a full day, center-based program with 6.5 hours of instruction daily for 180 school days;

(F) Every classroom providing services to four-year-old children established pursuant to this provision must have a lead teacher with at least a two-year degree in early childhood education or related field and who is enrolled and is demonstrating progress toward the completion of a teacher education program within four years. Every classroom must also have at least one education assistant per classroom who shall have the minimum of a high school diploma or the equivalent, and at least two years of experience working with children under five years old. The teaching assistant shall have completed the Early Childhood Development Credential (ECD) 101 or enroll and complete this course within twelve months of hire. Providers may request waivers to the ECD 101 requirement for those assistants who have demonstrated sufficient experience in teaching children 5 years old and younger. The providers must request this waiver in writing to their designated administrative agency (First Steps or the Department of Education) and provide appropriate documentation as to the qualifications of the teaching assistant.

(G) The General Assembly recognizes there is a strong relationship between the skills and preparation of pre-kindergarten instructors and the educational outcomes of students. To improve these education outcomes, participating providers shall require all personnel providing instruction and classroom support to students participating in the South Carolina Child Development Education Pilot Program to participate annually in a minimum of 15 hours of professional development to include teaching children from poverty. Professional development should provide instruction in strategies and techniques to address the age-appropriate progress of pre-kindergarten students in developing emergent literacy skills, including but not limited to, oral communication, knowledge of print and letters, phonemic and phonological awareness, and vocabulary and comprehension development.

(H) Both public and private providers shall be eligible for transportation funds for the transportation of children to and from school. Nothing within this provision prohibits providers

SUMMARY OF RECOMMENDED PROVISIO CHANGES  
FOR FY 2010-11**

from contracting with another entity to provide transportation services provided the entities adhere to the requirements of Section 56-5-195. Providers shall not be responsible for transporting students attending programs outside the district lines. Parents choosing program providers located outside of their resident district shall be responsible for transportation. When transporting four-year-old child development students, providers shall make every effort to transport them with students of similar ages attending the same school. Of the amount appropriated for the program, not more than \$185 per student shall be retained by the Department of Education for the purposes of transporting four-year-old students. This amount must be increased annually by the same projected rate of inflation as determined by the Division of Research and Statistics of the Budget and Control Board for the Education Finance Act.

(I) For all private providers approved to offer services pursuant to this provision, the Office of First Steps to School Readiness shall:

- (1) serve as the fiscal agent;
- (2) verify student enrollment eligibility;
- (3) recruit, review, and approve eligible providers. In considering approval of providers, consideration must be given to the provider's availability of permanent space for program service and whether temporary classroom space is necessary to provide services to any children;
- (4) coordinate oversight, monitoring, technical assistance, coordination, and training for classroom providers;
- (5) serve as a clearing house for information and best practices related to four-year-old kindergarten programs;
- (6) receive, review, and approve new classroom grant applications and make recommendations for approval based on approved criteria;

- (2) verify student enrollment eligibility;
- (3) recruit, review, and approve eligible providers. In considering approval of providers, consideration must be given to the provider's availability of permanent space for program service and whether temporary classroom space is necessary to provide services to any children;
- (4) coordinate oversight, monitoring, technical assistance, coordination, and training for classroom providers;
- (5) serve as a clearing house for information and best practices related to four-year-old kindergarten programs;
- (6) receive, review, and approve new classroom grant applications and make recommendations for approval based on approved criteria;
- (7) coordinate activities and promote collaboration with other private and public providers in developing and supporting four-year-old kindergarten programs;
- (8) maintain a database of the children enrolled in the program; and
- (9) promulgate guidelines as necessary for the implementation of the pilot program.

(K) The General Assembly shall provide funding for the South Carolina Child Development Education Pilot Program. For the ~~2009-10~~ 2010-11 school year, the funded cost per child shall be ~~\$4,093~~ \$4,218 increased annually by the rate of inflation as determined by the

Division of Research and Statistics of the Budget and Control Board for the Education Finance Act. Eligible students enrolling with private providers during the school year shall be funded on a pro-rata basis determined by the length of their enrollment. Private providers transporting eligible children to and from school shall be eligible for a reimbursement of \$550 per eligible child transported. Providers who are reimbursed are required to retain records as required by their fiscal agent. Providers enrolling between one and six eligible children shall be eligible to receive up to \$1,000 per child in materials and equipment grant funding, with providers enrolling seven or more such children eligible for grants not to exceed \$10,000. Providers receiving equipment grants are expected to participate in the program and provide high-quality, center-based programs as defined herein for a minimum of three years. Failure to participate for three years will require the provider to return a portion of the equipment allocation at a level determined by the Department of Education and the Office of First Steps to School Readiness. ~~Funding of up to two thousand five hundred dollars may be provided annually for the procurement of consumable and other materials in established classrooms.~~ Funding to providers is contingent upon receipt of data as requested by the Department of Education and the Office of First Steps.

(L) Pursuant to this provision, the Department of Social Services shall:

(1) maintain a list of all approved public and private providers; and

(2) provide the Department of Education, the Office of First Steps, and the Education Oversight Committee information necessary to carry out the requirements of this provision.

(M) The Education Oversight Committee shall conduct a comparative evaluation of the South Carolina Child Development Education Pilot Program and issue their findings in a report to the General Assembly by January ~~1, 2010~~ *15<sup>th</sup> of the current fiscal year*. Based on information, data, and evaluation results, the Education Oversight Committee shall include as part of their report recommendations for the creation and implementation of a statewide four-year-old kindergarten program for at-risk children. The report shall also include information and recommendations on lead teacher qualifications and options for creating comparable salary schedules for certified teachers employed by private providers. In the current fiscal year, the Education Oversight Committee shall use funds appropriated by the General Assembly for four-year-old evaluation to support the annual collection of and continuous evaluation of data. ~~The Office of First Steps will include in its triennial external evaluation pursuant to Section 59-152-160 of the 1976 Code, fiscal and management questions as provided by the Education Oversight Committee.~~

The report shall also include an assessment, by county, on the availability and use of existing public and private classroom capacity approved for at-risk four-year-old kindergarten students based on data collected triennially. The report shall include, by county, the estimated four-year-old population, the total number of CDEPP approved four-year-old kindergarten spaces available, the number of four-year-old children enrolled in both public and private CDEPP approved facilities, and the number of children on waiting lists for either public or private providers during the reporting period. Where possible, the report shall also include anticipated four-year-old kindergarten enrollment projections for the two years following the report. ~~The 2010 evaluation will also include the following: (1) a determination of the factors including policy issues, leadership characteristics and community concerns that led to substantial increases in the number of CDEPP participants served in specific districts and counties; (2) a determination of the factors that influence the continuity of CDEPP student enrollment across the full 180 day program and policy or programmatic changes needed to assure that CDEPP participants fully benefit from the program; (3) a determination of how many private childcare center teachers are pursuing a four year degree and the barriers incurred in obtaining the degree; and (4) a review of any formalized plan or evaluation data to assess the quality and impact of professional development and training provided by the Office of First~~

~~Steps and the Department of Education to CDEPP teachers. *The annual evaluation will address the implementation, accountability, and effectiveness of CDEPP.*~~

To aid in this evaluation, the Education Oversight Committee shall determine the data necessary and both public and private providers are required to submit the necessary data as a condition of continued participation in and funding of the program. This data shall include developmentally appropriate measures of student progress. Additionally, the Department of Education shall issue a unique student identifier for each child receiving services from a private provider. The Department of Education shall be responsible for the collection and maintenance of data on the public state funded full day and half-day four-year-old kindergarten programs. The Office of First Steps to School Readiness shall be responsible for the collection and maintenance of data on the state funded programs provided through private providers. The Education Oversight Committee shall use this data and all other collected and maintained data necessary to conduct a research based review of the program's implementation and assessment of student success in the early elementary grades.

**1.72.** (SDE: Residential Treatment Facilities Student Enrollment and Funding) Each South Carolina resident of lawful school age residing in licensed residential treatment facilities (RTFs) for children and adolescents as defined under Section 44-7-130 of the 1976 Code, ("students") shall be entitled to receive educational services from the school district in which the RTF is located ("facility school district"). The responsibility for providing appropriate educational programs and services for these students, both with and without disabilities, who are referred or placed by the State is vested in the facility school districts.

**K-12 EDUCATION SUBCOMMITTEE  
SUMMARY OF RECOMMENDED PROVISO CHANGES  
FOR FY 2010-11**

A facility school district must provide the necessary educational programs and services directly to the student at the RTF's facility, provided that the RTF facility provides and maintains *comparable* adequate space for the educational programs and services consistent with ~~the~~ *all federal and state* least restrictive environment requirements. *Adequate space shall include appropriate electrical support and Internet accessibility.* ~~Under~~ *Unless the parent or legal guardian of the student seeks to continue the student's enrollment in the resident school district under a medical homebound instruction program and the district approves, if appropriate, then, under* these circumstances, the facility school district ~~may choose to~~ *shall* enroll the student and assume full legal and financial responsibility for the educational services, ~~or it may choose to provide the educational services and serve as the educational and fiscal agent of the school district in which the student's legal guardian resides ("resident school district") for purposes of~~ *including* enrolling the student, approving the student's entry into a medical homebound instructional program, if appropriate, and receiving and expending funds, unless the resident school district undertakes to carry out its educational responsibilities for the student directly.

Alternatively, a facility school district may choose to provide the necessary educational programs and services by contracting with the RTF provided that the RTF agrees to provide educational services to the student at the RTF's facility. Under these circumstances, the facility school district must enroll the student and pay the RTF for the educational services provided. *If the facility school district determines the educational program being offered by the RTF does not meet the educational standards outlines in the contract, the facility district shall be justified in terminating the contract.*

The State shall appropriate 100 percent of the base student cost to provide for the education of the students referred or placed by the State in an RTF. The facility school districts are entitled to receive the base student cost multiplied by the appropriate Education Finance Act pupil weighting, as set forth in Section 59-20-40 of the 1976 Code and any eligible federal funds. These funds may be retained by the facility school districts for the purpose of providing the educational programs and services directly to students referred or placed by the State or the facility school districts may use these funds to reimburse RTF's for the educational programs and services provided directly by the RTFs. A facility school district is entitled to reimbursement from a resident school district for the difference between (1) the reasonable costs expended for the educational services provided directly by the facility school district or the amount paid to the RTF and (2) the aggregate amount of federal and state funding received by the facility school district for that student. *Should the facility school district be unable to reach agreement with the resident school district regarding reasonable costs differences, the facility school district shall notify the Department of Education's Office of General Counsel. The Department of Education shall facilitate a resolution of the dispute between the facility school district and the resident school district. If the issue of reasonable cost differences should remain unresolved, the case shall be referred to the Administrative Law Court for a final decision.*

*If a child from out of state is placed in a RTF by an out-of-state school district or agency, the child's home state remains responsible for the educational services. The facility school district may choose to provide the educational program to the child and, upon choosing to do so, shall contract with the appropriate entity for payment of educational serviced provided to the child.*

*If a child is placed in a RTF by the child's parent or guardian, the facility school district may choose to provide the educational program to the child, and upon doing so, must negotiate with the resident school district for services through medical homebound procedures. A facility school district is responsible for compliance with all child find requirements under Section 504 of the Rehabilitation Act of 1973 and IDEA.*

**K-12 EDUCATION SUBCOMMITTEE  
SUMMARY OF RECOMMENDED PROVISO CHANGES  
FOR FY 2010-11**

All students enrolled in the facility school districts shall have access to the facility school districts' general education curriculum, which will be tied to the South Carolina academic standards in the core content areas. All students with disabilities who are eligible for special education and related services under the Individuals with Disabilities Education Act (IDEA), as amended, and the State Board of Education (SBE) regulations, as amended, shall receive special education and related services in the least restrictive environment by appropriately certified personnel. Students in an RTF will at all times be eligible to receive the educational credits (e.g., Carnegie Units) earned through their educational efforts.

With respect to students enrolled in the facility school districts, for accountability purposes, the assessment and accountability measures for students residing in RTFs shall be attributed to a specific school only if the child physically attends the school. ~~All assessment and accountability measures of students not physically attending a specific school shall be disaggregated and reported separately in the facility school districts' accountability calculations.~~ The performance of students residing in a RTF who receive their educational program on site at the RTF must be reflected on a separate line on the facility school district's report card and must not be included in the overall performance ratings of the facility school district. The Department of Education shall examine the feasibility of issuing report cards for RTFs. For the 2010-11 school year, a facility school district shall not have the district's state accreditation rating negatively impacted by deficiencies related to the delivery of an educational program at a RTF.

RTFs shall notify the facility school district as soon as practical, and before admission to the RTF if practical, of a student's admission to the RTF. RTFs, the facility school districts and the Department of Education shall use their best efforts to secure and/or exchange information, including documents and records necessary to provide appropriate educational services and/or related services as necessary to assist the facility school district in determining the resident school district. The Department of Education, in collaboration with state placing agencies, RTFs, facility school districts, and resident school districts, shall implement a system to follow the release of students from a RTF and re-enrollment in public, private, or special schools to ensure these students, when appropriate, are not recorded as dropouts.

The Department of Education shall convene a task force to research and make recommendations to the State Superintendent of Education by December 1, 2010, regarding oversight of the educational programs provided to students residing in a RTF. Recommendations may include, but not be limited to, implementing a system of state oversight, state standards for an appropriate educational program for students residing in a RTF, and requirements for collaboration between the Department of Health and Environmental Control and the Department of Education regarding educational program requirements when new RTFs are licensed. Require district school boards of trustees to adopt a written policy outlining this requirement and how the background check information will impact hiring decisions. Require that the policy include, at a minimum, hiring recommendations in relation to felony convictions and pertinent “just cause” examples cited in Section 59-25-160 [REVOCATION OR SUSPENSION OF CERTIFICATE; “JUST CAUSE” DEFINED]. Require that the policy stipulate whether the district or the applicant assumes the cost of the criminal record search. Direct that SLED, working with the department, provide training to appropriate school district personnel regarding appropriate use of information provided in background checks. Direct the department to adopt a model policy. *Since there is currently no statutory requirement for background checks for substitute teachers, requiring the checks will increase the level of safety schools can provide to students.* Fiscal Impact: OSB states that the Department of Education indicates no impact on the General Fund. The department assumes required training may be done in virtual mode and material provided online. SLED indicates the provision would have a minimal impact on the General fund which can be absorbed by the agency at their current level of funding. SLED would collect \$25 per background check which would impact their other funds revenue and expenditures. OSB states there would be a fiscal impact on school districts

Direct that these funds must be subject to adjustment for student attendance and state budget allocations. Fiscal Impact: OSB indicates since this language is currently contained in proviso 1.3 of the FY 09-10 Appropriation Act there would be no additional fiscal impact. SUMMARY OF RECOMMENDED PROVISO CHANGES  
FOR FY 2010-11**

**WMC:** AMEND proviso to direct that effective July 1, 2010, the state will not award loans to teachers seeking National Board certification and will not pay a \$7,500 salary supplement to any teacher who receives such certification unless they received certification before July 1, 2010 or completed application for certification prior to July 1, 2010 and subsequently received the certification. Prohibit state funds from being paid to any teacher beyond the first ten years of receiving National Board certification except for individuals who have applied for or subsequently received their second ten year certification prior to July 1, 2010. Direct the department and the EOC to develop a pilot program to be administered by the department to determine the effectiveness of using the Salary Incentives for Teacher Excellence (SITE). Direct the department, during FY 2010-11, to establish program guidelines, conduct an application process which requires at least 2/3 of the school's teachers to endorse the application, and select schools to participate in the pilot. Direct the department to provide a report on SITE to the General Assembly, the State Board of Education, and the EOC by January 15, 2011 and to include the names of schools participating in the pilot for the following fiscal year. Specify that the department retain funds collected from educators who are in default of National Board loans. Authorize that up to 10% of the funds collected may be used by the department to offset loan collection administrative costs and the remainder of the funds be used for National Board loan purposes. *Phases out National Board supplements after all existing commitments are made.* Fiscal Impact: OSB indicates that discontinuing the NBC loan application of \$2,500 would reduce the overall need within the program by \$2,750,000. The number of teachers eligible to receive the \$7,500 salary supplement in FY 09-10 is 6,385 which is approximately 740 more than the prior fiscal year. If the same growth rate applies for FFY 10-11 the number of eligible teachers could reach 7,000. The impact of discontinuing the salary supplement to any teacher beyond the first 10 years taking into consideration the exceptions identified within this proviso is unknown. Requested by Education Oversight Committee. See general education companion proviso 1.48.

All other funds shall be retained by the department and used for National Board loan purposes. Of the funds appropriated in Part IA, Section 1, XIII.A. for National Board Certification, the State Department of Education shall transfer to the Center for Educator Recruitment, Retention, and Advancement (CERRA-South Carolina) the funds necessary for the administration of the loan program. In addition, teachers who are certified by the National Board for Professional Teaching Standards shall enter a recertification cycle for their South Carolina certificate consistent with the recertification cycle for national board certification.
