Denmark Technical College

Denmark, South Carolina

2011-2012

Accountability Report

Section I – Executive Summary

1. Denmark Technical College Mission and Value Statements

Mission

Denmark Technical College is a public, comprehensive, Historically Black, two-year technical college located in rural Bamberg County. The College annually serves approximately 2,000 credit and continuing education students, a mix of traditional, nontraditional, full-time and part-time. Denmark Technical College is the only technical college in the State of South Carolina with on-campus housing. As a member of the South Carolina Technical College System, Denmark Technical College's mission is related to the educational mission of the State of South Carolina and the Technical College System. The College's primary service area is comprised of Bamberg, Barnwell, and Allendale counties with a legislated mandate to serve students throughout the state. As an open-door institution, the College provides affordable, postsecondary education culminating in associate degrees, diplomas, or certificates, to citizens from diverse educational and socioeconomic backgrounds and reaches out to its service area high schools with opportunities for the students. The College provides training needed by business and industry through collaborative partnerships and resource allocation.

Denmark Technical College:

1. Provides Student Learning Outcome based educational opportunities for its students with embedded continuous improvement plan that will afford the necessary skills and knowledge for the emerging job market.
2. Develops and implement processes for seamless transition of students from high school through Denmark Technical College to four year institutions.
3. Provides the graduates with the intellectual and practical skills to include but not limited to inquiry and analysis, critical and creative thinking, written and oral communications, quantitative literacy, information literacy, teamwork and problem solving.¹
4. Provides the graduates with the personal and social responsibility skills to include but not limited to civic knowledge and engagement-local and global, intercultural knowledge and competence, ethical reasoning and action, foundations and skills for lifelong learning.¹
5. Engages in efforts to form extensive partnerships/consortia leading to branding the college as a leader in training for the business and industry that will enhance the economic development and growth of the service area and the state.
6. Provides a competency based program for the students to attain and maintain certifications for the job market.

¹ Essential Learning Outcome, Association of American Colleges and Universities

Vision Statement

Denmark Technical College will become one of the leading technical colleges in the region and nation, recognized for superior educational training, as a student oriented institution, and as a training provider for business and industry, with flexible, relevant, and inclusive academic programs delivered on multiple platforms using cutting edge technology to prepare learners for the global marketplace and changing workforce needs.

Values

Denmark Technical College pursues its mission within a student-centered environment based on the fundamental values of a commitment to excellence; fostering a positive learning process, well-balanced cultural and social experiences; in an atmosphere of mutual respect, an understanding of and the ability to function in a technologically advanced world; and with a realization of the need for a strong work ethic.

2. Major Achievements from Past Year

- The college implemented an aggressive recruitment plan and was successful in increasing its annualized enrollment by 62%. At the same time compared to the previous year, there was a 92% increase in number of degrees offered by the college
- A new Certificate in Environment Management Program was developed and subsequently approved by the area commission on Nov 28, 2011 and other necessary approval processes are being followed for the program to open opportunities for the students in the areas of laboratory technicians, specifically for water analysis.
- The college completed three Self-Study reports for the reaccreditation of the Early Care and Education program with the National Association for Young Children (NAEYC), the General Business program with the Accreditation Council for Business Schools and Programs (ACBSP), and the Electromechanical Engineering program with the Accreditation Board for Engineering and Technology (ABET). In addition the site visits for all three programs have been scheduled within three weeks for a comprehensive look at the secondary accreditation process as the college begins its regional accreditation process for SACS.
- The College has adapted a culture of assessment for continuous improvement processes and home grown software has been developed to manage and document practices and evidence.
- The Welding department received new computers to install Welding Software were donated from the shipyard in Norfolk, Virginia. (ADAIR)
- The Department of Early Childhood Development organized and completed the “The Week of the Young Child” activities where children and caregivers from several local childcare centers participated.
- Opened the Allendale Quickjob Development Center for local community workforce training and was supported with \$300,000 matching funds.
- Submitted 2012-2017 Title III and SAFRA application to the Department of Education and two out of five grants were awarded.
- Deferred maintenance funds of approximately \$275,000 were secured from State Funding.
- Funding from several grants allowed the college to address a series of technology infrastructure projects in the areas of academics and support services to include installation of two five computer learning labs, projection systems in classrooms, upgrade of major network equipment to support VDI technology, and implementing three Broadband Technology Opportunity Program (BTOP) Labs at the Barnwell, Allendale and Denmark sites.
- The College provided continuing support to reduce barriers faced by students in the areas of transportation and childcare in the tri-county service area.
- Completed pre-employment training for the local service area new companies (Nk- Newlook, SASCO, & Masonite Corporation) and launched a DTC Institute of Advance Manufacturing to certify our students as Work Ready.

3. Key Strategic Goals for 2010-2015

Goal 1: Provide quality customer service.

- Implement processes that will result in a sound understanding of the programs and services offered by the college.
- Develop materials and processes to clearly articulate/communicate programs and services.
- Provide customer service training.
- Establish customer friendly processes for services relating recruitment, admissions, Registration, Financial Aid, Transcripts & Records, Career Planning and Placement, Counseling, Academic Support, IT Support/Help Desk, Academic Advising, Information Dissemination, Quality of Life Enhancement.

Goal 2: Implement Student Learning Outcome based teaching and learning processes across all academic programs.

- Enhance quality of academic programs and services.
- Identify and implement research based and innovative (out of the box) practices/processes to enhance student centered teaching, learning, and services at the college.
- Implement outcome based programs from conceptualization and self-training opportunities by the student. (Student will see a process, research & develop the learning process, learn, and demonstrate proficiency)
- Identify Innovate, and Implement I³ initiatives to hire and retain quality faculty and staff.

Goal 3: Develop and implement processes for seamless transition of students from high school through Denmark Technical College to four institutions.

- Implement initiatives to collaborate with the service area school districts.
- Implement initiatives to collaborate with the senior/higher education/four year institutions.

Goal 4: Develop partnerships with the stakeholders to promote economic development and enhance quality of life.

- Provide stakeholders access to opportunities at the college.
- Collaborate with the economic development organizations.
- Implement processes to enhance the role, scope and contribution of the Academic Advisory Committees.
- Implement learning opportunities to promote and enhance civic responsibilities.
- Seek and implement partnership to leverage resources and promote the “Total Resource Utilization for Efficiency” (TRUE) opportunities.

Goal 5: Implement training programs based on the needs of business and industries-workforce development.

- Develop professional, technical and soft skills of the students in all programs for enhancing employability.
- Implement strategies to promote adaptability in the emerging and shifting career opportunities.
- Develop processes to meet the just-in-time demands of the business and industries.
- Continuously assess the needs of the business and industry.

Goal 6: Design and implement evaluation of programs and services with embedded continuous quality enhancement processes.

- Develop and implement data collection and dissemination processes towards strategic and operational decision making at the college.
- Design and implement embedded continuous improvement plans to increase institutional effectiveness.

Goal 7: Implement sustainable practices to increase effectiveness, efficiency, and productivity.

- Enhance Student Retention, Program Completion, Placement, and Student Satisfaction.
- Seek and submit proposals to public and private sources for funding.
- Develop steps to optimize resource utilization and increase income.
- Identify and implement practices to manage operational and predictive risks.

Goal 8: Implement faculty and staff development programs.

- Design and implement a Faculty and Staff Development Program.

Goal 9: Implement technologies to enhance student learning and support programs.

- Integrate meaningful integration of technology in the teaching and learning processes.
- Integrate technology to enhance support services.

Goal 10: Enhance perception, through branding and continuously promoting culturally diverse experiences, and globally competitive educational opportunities.

- Promote internationalization.
- Integrate diversity into the programs and services
- Enhance multiculturalism.
- Promote the College's Core Capabilities C³.
- Streamline the flow of information, increase transparency, and enhance clear communication.

4. Key Strategic Challenges (i.e. mission, operational, human resource, financial, and community-related strategic challenges).

The key strategic challenges for Denmark Technical College are as follows:

- **Educational**
 - Significant reduction in state funding to adequately serve the rural population.
 - Limited funding for non-credit course offerings.
- **Operational**
 - Managing and maintaining a scalable and reliable fast-changing technology infrastructure.
 - Meeting the demands of expanding regulatory and compliance requirements.
- **Human Resource**
 - Attracting and retaining quality faculty and staff.
 - Small workforce in the area to meet the institution's need.
- **Financial**
 - Significantly low level funding for deferred maintenance.
 - Very little financial support from the service area counties with extremely low tax base.
 - Significant reduction in state funding to adequately serve the rural population.
 - Limited funding for non-credit course offerings.
- **Community-Related**
 - Low graduation rate from K-12

5. How the accountability report is used to improve organizational performance (describe the process and improvements achieved through the accountability report preparation and self-assessment process).

The Denmark Technical College Planning and Assessment Processes are used to identify and then assess progress towards the achievement of the strategic goals and objectives during a five-year cycle. In addition, each year the College assesses progress and identifies annual goals and objectives. This process is focused on efforts to continually improve the services provided by Denmark Technical College to the citizens of the state. The Accountability Report has become a part of that process as an avenue for sharing, planning and assessment of information with the state of South Carolina.

Section II – Organizational Profile

1. Main educational programs, offerings, and services and the primary methods by which these are delivered

The College seeks to fulfill its mission by offering the following programs using multiple instructional methods, including traditional lecture and lab and online courses for both on-campus and off-campus instruction. The primary method by which all the programs are delivered are face-to-face platform.

Academic programs offered by the College are:

Degrees, Diplomas, and Certificates Offered by Denmark Technical College	
Associate Degrees	
Associate in Arts	
Associate in Science	
Associate of Applied Science in Administrative Office Technology	
Associate of Applied Science in Computer Technology	
Associate of Applied Science in Criminal Justice Technology	
Associate of Applied Science in Early Care and Education	
Associate of Applied Science in Electromechanical Engineering Technology	
Associate of Applied Science in Electronics Technology	
Associate of Applied Science in General Business	
Associate of Applied Science in General Technology	
Associate of Applied Science in Human Services	
Diploma Programs	
Diploma in Administrative Support	
Diploma in Barbering	
Diploma in Cosmetology	
Diploma in Practical Nursing	
Certificate Programs	
Certificate in Accounting	
Certificate in Building Construction Fundamentals	
Certificate in Computer Servicing & Repair	
Certificate in Criminal Justice	
Certificate in Culinary Arts	
Certificate in Early Childhood Development	
Certificate in General Studies	
Certificate in Gerontology	
Certificate in Multimedia WEB Graphics Design	
Certificate in Nursing Aide Assistant	
Certificate in Plumbing	
Certificate in Pre-Medical	
Certificate in Welding	
Certificate in Word Processing	

2. Key student segments, stakeholder groups, and market segments, as appropriate, and their key requirements/ expectations:

The College's primary service area is comprised of Bamberg, Barnwell, and Allendale counties with a legislated mandate to serve students throughout the state. As an open-door institution, the College provides instruction culminating in associate degrees, diplomas, or certificates, to citizens from diverse educational and socioeconomic backgrounds. The characteristics of our key customer groups are found in the tables below.

Students attending Denmark Technical College are seeking either to earn a two-year associate degree and transfer to a four-year institution or to gain the knowledge and skills to go into the workplace with an associate degree, diploma, or certificate.

Key stakeholder groups include: advisory councils, alumni, donors/prospective donors, chamber of commerce members, economic development organizations, area companies, area school districts, and community members.

3. Operating Locations:

Main Campus

Denmark Technical College, 1126 Solomon Blatt Boulevard, Denmark, South Carolina 29042

Classroom Buildings

DTC Barnwell Educational Center, 10370 Ellenton Road, Barnwell, South Carolina 29812

4. The Number of Employees, Segmented by Employee Category:

During the 2011-2012 academic years, as of November 1, 2011 (IPEDS reporting), Denmark Technical College employed 35 full-time faculty; 23 adjunct faculty; 61 full-time staff; and 71 part-time staff.

5. Regulatory Environment

Denmark Technical College is a state-supported two-year technical college which operates under the auspices of its local Area Commission and the State Board for Technical College and Comprehensive Education. As an institution that receives Title IV funding from the Federal Government, the College adheres to federal regulations regarding the management of those funds. The College also abides by all federal and state regulations regarding the operation of the institution. Denmark Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges, 1866 Southern Lane, Decatur, Georgia 30033-4097 to award associate degrees, diplomas, and certificates and is required to remain in compliance with the accreditation standards. Additionally, the college maintains its compliance with the requirements set forth by the SC Commission on Higher Education (CHE), the State Budget and Control Board, the Office of Human Resources, and the US Department of Education.

With secondary accreditations in the areas of Early Childhood Education, General Business and Electromechanical Engineering Technology programs the college is in compliance with, the accreditation criteria established by the National Association for the Education of Young Children; Association of Collegiate Business Schools and Programs; and Engineering Technology Accreditation Commission of the Accreditation Board for Engineering and Technology.

6. Governance system (the reporting relationships between your governance board/policy making body and your senior leaders, as appropriate)

Denmark Technical College Area Commission receives its degree-granting authority under Section 59-53-51: "The Area Commission is delegated primary responsibility for local governance and supervision of the individual institutions in compliance with all state laws by adoption of appropriate local policies and procedures which are consistent with state-level policies and procedures." These powers are delegated by the State Board for Technical and Comprehensive Education by Section 59-53-50: Additional Powers and Duties of Board, of the 1976 Code of Laws of South Carolina, as amended. This section states "The Board shall: (1) be responsible for the state-level development, implementation, coordination, and operation of an adequate and high quality post-high school vocational, technical, and occupational diploma and associate degree courses and adult short-term training programs and courses financed in whole or in part by state funds;..." The State Board for Technical and Comprehensive Education is empowered by Section 59-53-10 and 59-53-20 of the State Codes.

Section 59-53-610 of the South Carolina Code of Laws creates the Denmark Technical College Area Commission to serve as the governing body of Denmark Technical College. The commission consists of eight members. Two members must be residents of Allendale County who shall be

appointed by the Governor upon the recommendation of the majority of the members representing Allendale County. Two members must be residents of Bamberg County who shall be appointed by the Governor upon the recommendation of a majority of the members of the General Assembly representing Bamberg County. Two members must be residents of Barnwell County who shall be appointed by the Governor upon the recommendation of a majority of the members of the General Assembly representing Barnwell County. Two members shall be appointed at large without regard to county of residence by the Governor upon the advice and consent of the Senate. In addition, the member of the State Board for Technical and Comprehensive Education from the third congressional district is a member of the commission ex officio. The Denmark Technical College Area Commission By-Laws also specify the number of members, length of service, rotation policies, organization and committee structure, and frequency of meetings.

The Denmark Technical College Area Commission is an active policy-making body for the institution and is ultimately responsible for ensuring that the financial resources of the institution are adequate to provide a sound educational program. Final authority and responsibility for the governance of Denmark Technical College are vested in the Denmark Technical College Area Commission in accordance with the enactment by the South Carolina General Assembly (Act 135 of the 1983 South Carolina Code of Laws), and the relevant State Board for Technical and Comprehensive Education Policy. The Area Commission is legally responsible for institutional policy and the financial stability of the College. The general duties and responsibilities of the Area Commission are expressed in the By-Laws as amended, Article III, Section I, and are in accordance with the provisions of the law and the standards of State Board for Technical and Comprehensive Education. This includes establishing broad institutional policies, securing financial resources to adequately support the institutional goals, and selecting the chief executive officer.

The Area Commission, through its committee structure and regularly scheduled meetings, ensures that they are informed about the financial condition and stability of the Denmark Technical College. The Area Commission, in accordance with statutory provisions, is to maintain a financial management and accounting system. The system provides financial information to the South Carolina Comptroller General. Certified and audited financial statements are presented to the Area Commission annually by the President.

7. Key Suppliers and Partners:

The key suppliers of students for Denmark Technical College are Bamberg, Barnwell, and Allendale counties. During 2011-2012, 55.1% of Denmark Technical College students came from the tri-county service area, 44.1% came from other South Carolina counties, and 3.8% were out-of-state residents.

Denmark Technical College works closely with the seven high schools in the Tri-County Service Area providing dual credit courses and other collaborative programs such as HEAP, EEDA, and Project Lead The Way. The College also collaborates with local businesses and industries providing instruction and training for potential and current employees.

8. Key competitors (other educational systems that directly compete for the same type of studies, research grants, etc.);

With a mandate to serve the entire state of South Carolina and specifically the tri-county areas of Allendale, Bamberg, and Barnwell county Denmark Technical College potentially can have many competitors. As such, although all technical colleges can be considered as competitors, Denmark Technical College stands alone to serve a special population from across the state. This special status can also be attributed to the rural setting of the college with on-campus housing.

The Voorhees College is a neighboring senior institution that competes for a very small segment of the population with similar areas of studies.

9. Principal factors that determine your competitive success. The key changes that are taking place that significantly impact your competitive situation;

Denmark Technical College, maintains its regional accreditation and three secondary accreditations to validate quality of its academic program. Its on campus housing provides opportunity for many students across the state to pursue career based education and training. In addition, the college has one of the lowest tuition costs in the state, a strong competitive advantage. With a commitment to address the barriers the students face such as transportation, child care, and flexibility in scheduling DTC maintains a competitive edge in serving its population.

10. Performance Improvement Systems

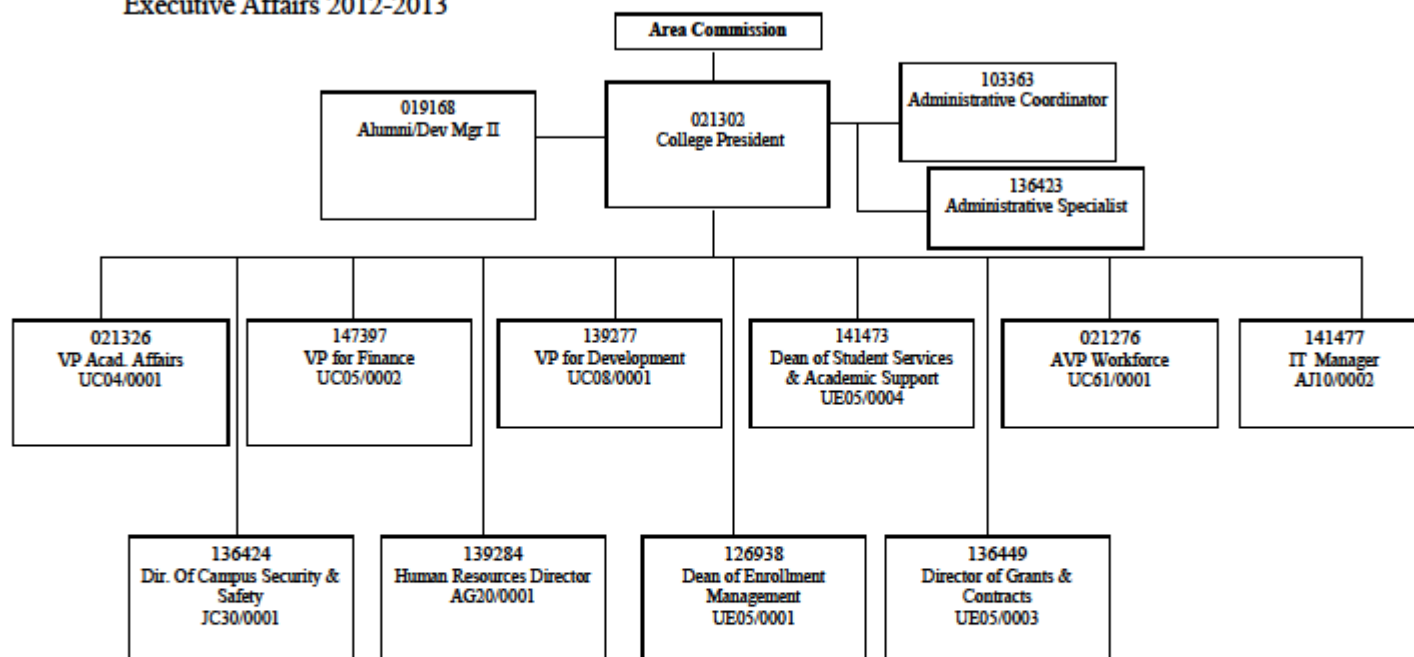

Denmark Technical College strives for continuous improvement in all operations of the institution utilizing both external and internal processes to manage performance improvement.

The external processes include institutional accreditation by the Southern Association of Colleges and Schools, 1866 Southern Lane, Decatur, Georgia 30033-4097, and national program accreditation for four academic programs: the Electromechanical Engineering Technology Associate Degree by the Accrediting Body for Engineering Technologies; the General Business Associate Degree by the Association of Collegiate Business Schools and Programs; and the Early Care and Education Associate Degree by the National Association for the Education of Young Children. Both the institutional and the program accrediting agencies require a performance self-analysis by the College and external review team visit, and follow-up to improve operations. All academic programs are evaluated annually by the State Board for Technical and Comprehensive Education. All associate degree programs are evaluated annually by the South Carolina Commission on Higher Education. The College is required to maintain performance levels set by these agencies.

The internal planning and assessment process of the College includes the development of a five-year strategic plan, annual assessment of progress, and an annual operational plan from all planning units of the College. In addition, the students evaluate their classroom instruction using the Student Evaluation of Instruction form which is administered to every class, every term. The employees of the institution are evaluated annually using the South Carolina Employee Performance Management System and faculty members are evaluated through the South Carolina Faculty Performance Management System. Each year the institution submits an Institutional Effectiveness Report to the South Carolina Commission on Higher Education.

Section III – Elements of Malcolm Baldrige Ward Criteria as follows:

Category 1 – Senior Leadership, Governance, and Social Responsibility

The Leadership Category examines how your organization’s senior leaders guide and sustain your organization. It also examines your organizations governance and how your organization addresses its ethical, legal, and community responsibilities.

1. How do senior leaders develop and deploy their organization’s vision and values throughout the leadership system, to the workforce, to key suppliers and partners, and to students and stakeholders, as appropriate? How do their personal actions reflect a commitment to the organizational values?

The senior leadership of Denmark Technical College consists of the President and the Executive Cabinet, composed of the Vice President of Academic Affairs and Student Services, the Vice President for Fiscal Affairs, the Vice President for Institutional Research, Planning and Development, Associate Vice President of Workforce and Economic Development, the Executive Dean of Student Services and Academic Support, the Director of Human Resources, the Director of Grants and Contracts and the Director of Information Technology.

The vision and values of Denmark Technical College are communicated to all faculty, staff, and key stakeholders through the Mission Statement and the Institutional Strategic Goals which are developed through the College-wide strategic planning process. Each planning unit develops unit goals which support the institution’s strategic goals. Annually, the units report on their progress towards achieving the goals and their plans for the coming year. Through media campaigns and major publications, the vision and values of the College are emphasized to its community at large, and its existence as a student-centered academic establishment is especially promoted.

2. How do senior leaders create a sustainable organization with a focus on action to accomplish the organization’s mission, strategic objectives, improve performance, and attain your vision?

At the beginning of each semester the President meets with the faculty and staff and discusses the goals for the semester. The senior leadership team meets to discuss the issues and activities of the College and these members in turn share this information with their staff in regularly scheduled meetings. The College maintains a college-wide calendar with important administrative and academic dates that are critical to accomplish the organization’s mission, strategic objectives, improve performance and attain its vision. The sustainability of the organization results from established processes that are efficient and effective and clear to execute.

3. How do senior leaders personally promote and support an organizational environment that fosters and requires: legal and ethical behavior; and, fiscal, legal, and regulatory accountability? How are these monitored?

Senior leaders promote and support an environment that fosters and requires legal and ethical behavior and fiscal, legal, and regulatory accountability by ensuring the dissemination and enforcement of all policies, procedures, and regulations that affect the operation of the College. In addition, a myriad of compliance and regulatory reporting under the supervision of the senior leaders allows each of them to personally promote and support an organizational environment of accountability with adequate monitoring. With internal controls in place, the senior leadership strives to be vigilant and consistent in the management of the organization.

Some of the accountability processes and reporting requirements are annual fiscal audit, academic program evaluation reports, accreditation reporting, annual financial aid reports, and reports by the Office of Grants and Contracts to the funding agencies.

4. How do senior leaders create an environment for organizational and workforce learning?

In building the budget for Denmark Technical College, the College leadership is cognizant of the need for organizational, faculty, and staff learning. Funds are provided for conferences, seminars, and meetings. All administrators have system-wide peer group meetings on a regular basis which are attended by Denmark Technical College personnel. In addition, the President has provided for faculty and staff development through the use of grant funds to support education, training, and travel.

5. How do senior leaders promote and personally participate in succession planning and the development of future organizational leaders?

The senior leaders encourage faculty and staff members who are interested in advancement to pursue further education. The President of the college provides financial and logistical supports from various funding sources to facilitate selected candidates. The college also identifies employees to participate in the in the South Carolina Technical College System (SCTCS) Leadership Academy. The SCTCS also offers six courses at master's degree level encouraging participation in Community College Leadership in which the college encourages and supports participation of its employees.

6. How do senior leaders communicate with, engage, empower, and motivate the entire workforce throughout the organization? How do senior leaders take an active role in reward and recognition processes to reinforce high performance throughout the organization?

The senior leaders meet as a group, with individuals, and in small groups, as necessary to conduct the business of the College. The President and the senior leaders meet on a regular basis with the faculty and staff to disseminate and with the student body as necessary to convey relevant information. In addition, a college calendar is published annually with the schedule of events and the major academic dates. The calendar is distributed to all students, faculty, staff, and administrators. Individual and institutional accomplishments are acknowledged in meetings and in the media, when appropriate. The senior leaders practice transparent communication strategies to actively engage the campus personnel, empower them with information, and motivate everyone by articulating an open-door policy.

7. How does your organization evaluate the performance of your senior leaders including the head of the organization, and the governance board/policy making body? How do senior leaders use these performance reviews to improve their own leadership effectiveness and that of the board and leadership system, as appropriate?

On an annual basis consistent with the provisions of the Agency Head Performance Evaluation document, the college's President is evaluated annually by the college's Area Commission. Performance of each member of the senior leadership is assessed by the President through the guidelines established by Employee Performance Management System (EPMS). The evaluation processes specifically looks into the performance as a function of attainment of institutional priorities and strategic goals.

As part of the institutional planning and operation processes the senior leaders are responsible for the coordination of activities for successful outcomes of their divisions and units. As such, they are expected to monitor and manage various ongoing processes and facilitate successful outcomes.

8. What performance measures do senior leaders regularly review to inform them on needed actions?

The senior leaders at the institution review several key performance indicators on a continuous basis. Some of these indicators are enrollment (headcount and full time equivalent), graduation information, student retention, job placement, student satisfaction, faculty performance (classroom evaluation and grade distribution), continuing education enrollment, and licensure examination pass rate. Additionally, the academic programs provide Student Learning Outcome based reports and the Business Division continually assess and reports on functional area needs. A balance between revenue and expenses are continuously monitored.

9. How does your organization address and anticipate any adverse impacts of its programs, offerings, services, and operations? What are the key compliance related processes, goals, and measures? (Actual results should be reported in Category 7).

The college has been working on and slowly achieving a process that is occurring on a continuum. This is beginning to provide pathways for the employees to develop continuous improvement plans which will allow anticipation of adverse impacts of the programs and services offered by the college. As such the senior leaders can adjust activities to remain in compliance with compliance and regulatory requirements.

The performance measures that are reviewed by senior leaders on a regular basis are head count and FTE enrollment, number of graduates, graduation rate, placement rates, program evaluation status for academic programs, cost center expenditure vs. budget, dorm residency rates, student success rates, and the results of student evaluation of instruction.

10. How do senior leaders actively support and strengthen the communities in which your organization operates? Include how senior leaders determine areas of emphasis for organizational involvement and support, and how senior leaders, the workforce, and the organization's students contribute to improving these communities.

The senior leadership is constantly seeking ways to contribute to the tri-county area. Denmark Technical College participates in the Tri-County Development Board which works to bring new business and industry into the area.

Alliance programs build bridges between secondary education and postsecondary education to prepare students for careers in technology. Alliance articulation agreements provide an option through which high school students may receive advanced standing in college vocational and technical programs.

Denmark Technical College works in collaboration with the City of Denmark on projects of mutual benefit including planning recreation and tourism projects, such as the Dogwood Festival. The college has collaborated with the city of Allendale to open a QuickJob Center and offer non-credit courses.

Category 2 – Strategic Planning

1. What is your Strategic Planning process, including key participants, and how does it address:

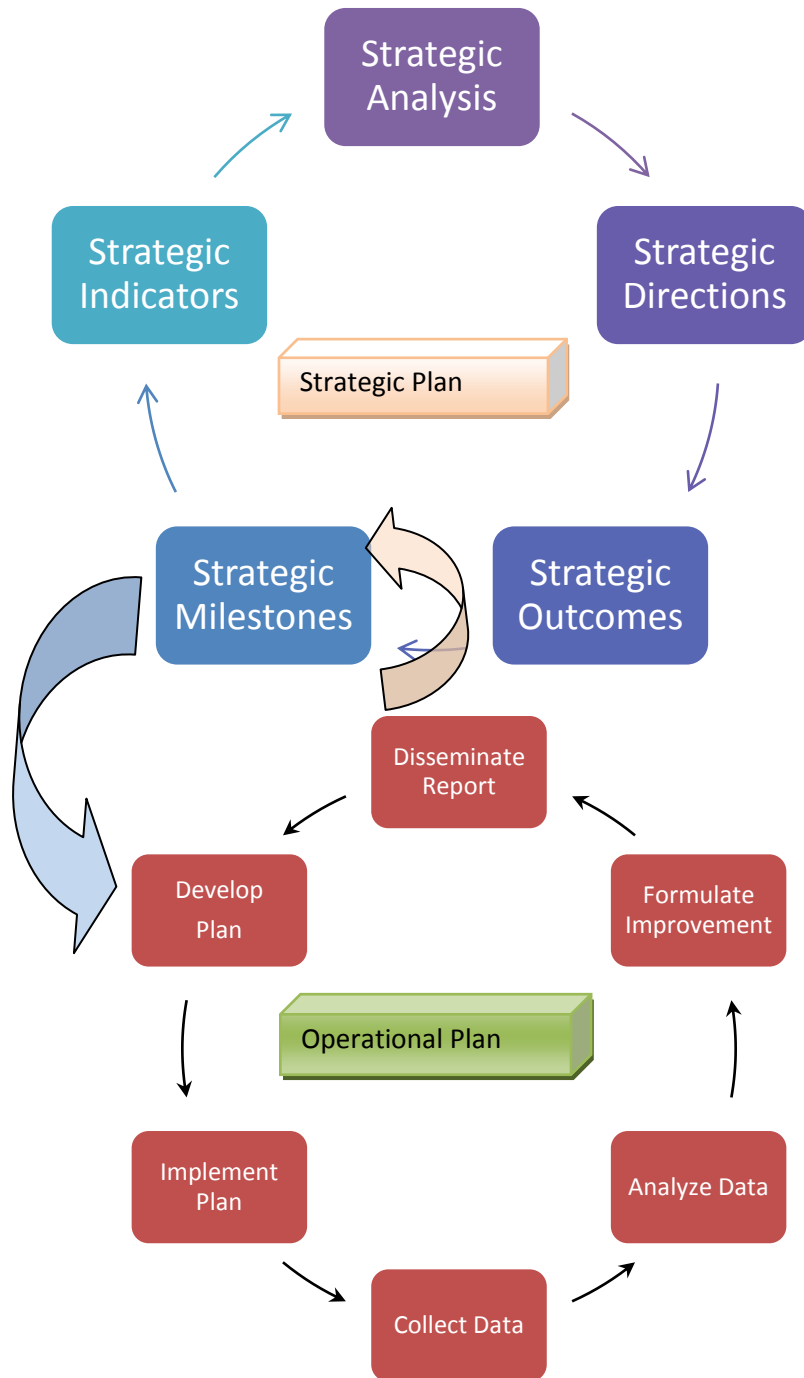

- a. Your organization's strengths, weaknesses, opportunities and threats;**
- b. Financial, regulatory, societal and other potential risks;**
- c. Shifts in technology and customer preferences;**
- d. Workforce capabilities and needs;**
- e. Organizational continuity in emergencies;**
- f. Your ability to execute the strategic plan.**

All Denmark Technical College faculty, staff, and administrators play a role in the strategic planning process. Strategic planning is conducted at an institutional level using an institution-wide Central Planning Committee led by the Vice President for Institutional Research, Planning and Development. The Central Planning Committee reviews environmental factors, trend data, and the assessment of progress toward the completion of the goals and objectives of the previous planning cycle. Environmental factors include student markets and community demographics. The Central Planning Committee, whose members represent all academic programs and all non-academic constituencies of the campus conducts a SWOT analysis identifying internal strengths and weaknesses and external opportunities and threats including any financial, regulatory, and other potential risks. Included in this analysis are shifts in technology, markets and competitors.

The Central Planning Committee prepares a list of planning assumptions which guide the process. These planning assumptions are derived from a review of several factors, including the SWOT analysis; the human resources capabilities and needs; and the space requirements for the College. Long term sustainability of the College and organizational continuity in case of emergencies is addressed by the planning committee as a whole, and by the individual areas within the scope of the state of South Carolina guidelines.

College-wide input is then sought to prioritize the planning assumptions and identify necessary actions for successful operations. All information is synthesized by the Central Planning Committee and the Strategic Goals for Denmark Technical College are finalized. Specific performance criteria are then identified to measure progress towards achieving the goals. The Strategic Goals are disseminated and each planning unit is responsible for identifying their objectives and performance criteria within the goals of the College, and developing an action plan for achieving those objectives.

Long-term organizational sustainability and continuity in case of emergencies and the College's ability to execute the Strategic Plan are the responsibility of the senior leadership.

2. How do your strategic objectives address the strategic challenges you identified in your Executive Summary? (Section I, Question 4)

The college identified the following challenges. Relevant strategic goals and objectives are aligned in the following table.

Category	Challenges	Related Strategic Goal/Objective
Educational	Significant reduction in state funding to adequately serve the rural population.	Goal 7: Implement sustainable practices to increase effectiveness, efficiency, and productivity. <ul style="list-style-type: none"> Develop steps to optimize resource utilization and increase income.
	Limited funding for non-credit course offerings.	Goal 7: Implement sustainable practices to increase effectiveness, efficiency, and productivity. <ul style="list-style-type: none"> Seek and submit proposals to public and private sources for funding.
Operational	Managing and maintaining a scalable and reliable fast-changing technology infrastructure.	Goal 9: Implement technologies to enhance student learning and support programs. <ul style="list-style-type: none"> Integrate meaningful integration of technology in the teaching and learning processes. Integrate technology to enhance support services.
	Meeting the demands of expanding regulatory and compliance requirements.	Goal 6: Design and implement evaluation of programs and services with embedded continuous quality enhancement processes. <ul style="list-style-type: none"> Design and implement embedded continuous improvement plans to increase institutional effectiveness. Goal 7: Implement sustainable practices to increase effectiveness, efficiency, and productivity. <ul style="list-style-type: none"> Identify and implement practices to manage operational and predictive risks.
Human Resource	Attracting and retaining quality faculty and staff.	Goal 10: Enhance perception, through branding and continuously promoting culturally diverse experiences, and globally competitive educational opportunities. <ul style="list-style-type: none"> Promote the College's Core Capabilities.
	Small workforce in the area to meet the institution's need.	
Financial	Significantly low level funding for deferred maintenance.	Goal 7: Implement sustainable practices to increase effectiveness, efficiency, and productivity. <ul style="list-style-type: none"> Enhance Student Retention, Program Completion, Placement, and Student Satisfaction. Seek and submit proposals to public and private sources for funding. Develop steps to optimize resource utilization and increase income. Identify and implement practices to manage operational and predictive risks.
	Very little financial support from the service area counties with extremely low tax base.	
	Significant reduction in state funding to adequately serve the rural population.	
	Limited funding for non-credit course offerings.	
Community-Related	Low graduation rate from K-12	Goal 3: Develop and implement processes for seamless transition of students from high school through Denmark Technical College to four institutions. <ul style="list-style-type: none"> Implement initiatives to collaborate with the service area school districts. Implement initiatives to collaborate with the senior/higher education/four year institutions.

3. How do you evaluate and improve your strategic planning process?

The college follows the following strategic planning processes and as describe, the evaluation and improvement steps are built into the process.

Student Learning Outcome Assessment Process

1. Develop Program Level Student Learning Outcomes in concert with the Institution Level Student Learning Outcomes.
2. Cross referenced to these program level student learning outcomes, a set of Course Level Student Learning Outcomes are developed for each of the courses in the program.
3. For each course, major assignments with rubric items are designed and/or revised to evaluate appropriate program outcomes.
4. Each semester, these assignments (item 3) are administered and student work is collected and evaluated and at the end of the semester results for each course are compiled and analyzed.
5. Based on the analysis of student performance, Continuous Improvement Plan (CIP) for the *assignment* and the *course* are formulated.
6. At the end of academic year Continuous Improvement Plan for the *Program* is developed.
7. A summary report is generated to show the extent to which Program Level Student Learning Outcomes have been satisfied.
8. On a continuous basis, the Learning Opportunity Map is revisited; and if necessary updated.
9. The Course Syllabus is developed for subsequent implementation.
10. The Universal Rubric Pool is revisited and if necessary updated.

Strategic Planning Process

1. The program coordinator, faculty, and the Dean carry out planning sessions with a SWOT analysis and finalize annual program specific outcomes, necessary action plans, timeline, and success criteria.
2. The Job placement data, graduation information, enrollment data, classroom survey analysis, course success rate, student learning outcome data, and other pertinent information from the Office of Institutional Research as deemed necessary, are brought to divisional, program level and academic affairs meetings by the Dean for formative assessment of progress.
3. The final assessment in the form of Continuous Improvement Plan is developed and formulated by the Dean at the end of the academic year.
4. A final report is prepared to document the strategic planning process and necessary outcomes on a yearly basis and is used in the subsequent year for further engagement of the stakeholders.
5. The program budget is developed to include requests for funds to achieve strategic recommendations.

4. How do you develop and track action plans that address your key strategic objectives and how do you allocate resources to ensure the accomplishment of your action plans.

Action plans are developed as a part of the annual operational planning process. The operational plans of the units are developed to support the achievement of specific strategic goals. The allocation of resources is a two-step process. The first is to maintain a base-line operational budget for each program area to function. The second is to allocate specific equipment allocations and federal, state, or private foundation grant funds to support strategic initiatives.

Student Learning Outcome based actions are monitored each semester and the strategic initiatives are part of the annual report and subsequent operational planning processes.

5. How do you communicate and deploy your strategic objectives, action plans and related performance measures?

Denmark Technical College's Mission Statement and Strategic Goals are communicated in the College's Academic Catalog and Student Handbook. They are disseminated in the planning documents distributed to the planning units, which encompass all areas of the College.

6. How do you measure progress on your action plans?

Denmark Technical College assesses its progress towards meeting action plans on an annual basis. Each planning unit completes this assessment and reports on its progress. This information is compiled and presented in a document to the Denmark Technical College Area Commission.

7. If the agency's strategic plan is available to the public through the agency's internet homepage, please provide a website address for that plan.

The College's Strategic Plan is posted on the Internet at

<http://www.denmarktech.edu/mission.html#>

Strategic Planning

Program Number and Title	Supported Organization Strategic Planning Goal/Objective	Related FY 10-11 Key Action Plan/Initiative(s)	Key Cross References for Performance Measures*
Instruction	Provide quality customer service.	<ol style="list-style-type: none"> 1. Implement processes that will result in a sound understanding of the programs and services offered by the College. 2. Develop materials and processes to clearly articulate/communicate programs and services. 3. Provide customer service training. 4. Establish customer friendly processes for services relating to recruitment, admissions, registration, financial aid, transcripts & records, career planning and placement, counseling, academic support, IT support/help desk, academic advising, information dissemination, quality of life enhancement. 	7.2.1
Instruction	Implement Student Learning Outcome based teaching and learning processes across all academic programs.	<ol style="list-style-type: none"> 1. Enhance quality of academic programs and services. 2. Identify and implement research based and innovative (out of the box) practices/processes to enhance student centered teaching, learning, and services at the college. 3. Implement outcome based programs from conceptualization and self-training opportunities by the student. (Student will see a process, research & develop the learning process, learn, and demonstrate proficiency) 4. Identify Innovate, and Implement I³ initiatives to hire and retain quality faculty and staff. 	7.1.A, 7.5.3
Instruction	Develop and implement processes for seamless transition of students from high school through Denmark Technical College to four-year institutions.	<ol style="list-style-type: none"> 1. Implement initiatives to collaborate with the service area school districts. 2. Implement initiatives to collaborate with the senior/higher education/four year institutions. 	7.1.2
Instruction	Develop partnerships with the stakeholders to promote economic development and enhance quality of life.	<ol style="list-style-type: none"> 1. Provide stakeholders access to opportunities at the college. 2. Collaborate with the economic development organizations. 3. Implement processes to enhance the role, scope and contribution of the Academic Advisory Committees. 4. Implement learning opportunities to promote and enhance civic responsibilities. 5. Seek and implement partnership to leverage resources and promote the “Total Resource Utilization for Efficiency” (TRUE) opportunities. 	7.5.2
Instruction	Implement training programs based on the needs of business and industries-workforce development.	<ol style="list-style-type: none"> 1. Develop professional, technical and soft skills of the students in all programs for enhancing employability. 2. Implement strategies to promote adaptability in the emerging and shifting career opportunities. 3. Develop processes to meet the just-in-time demands of the business and industries. 4. Continuously assess the needs of the business and industry. 	7.5.1
Instruction	Design and implement evaluation of programs and services with embedded continuous quality enhancement processes.	<ol style="list-style-type: none"> 1. Develop and implement data collection and dissemination processes towards strategic and operational decision making at the College. 2. Design and implement embedded continuous improvement plans to increase institutional effectiveness. 	7.1.B
Instruction	Implement sustainable practices to increase effectiveness, efficiency, and productivity.	<ol style="list-style-type: none"> 1. Enhance Student Retention, Program Completion, Placement, and Student Satisfaction. 2. Seek and submit proposals to public and private sources for funding. 3. Develop steps to optimize resource utilization and increase income. 4. Identify and implement practices to manage operational and predictive risks. 	7.3.1, 7.3.2
Instruction	Implement faculty and staff development programs.	<ol style="list-style-type: none"> 1. Design and implement a Faculty and Staff Development Program 	7.4.1, 7.4.2
Instruction	Implement technologies to enhance student learning and support programs.	<ol style="list-style-type: none"> 1. Integrate meaningful integration of technology in the teaching and learning processes. 2. Integrate technology to enhance support services. 	7.5.4
Instruction	Enhance perception, through branding and continuously promoting culturally diverse experiences, and globally competitive educational opportunities.	<ol style="list-style-type: none"> 1. Promote internationalization. 2. Integrate diversity into the programs and services. 3. Enhance multiculturalism. 4. Promote the College’s Core Capabilities C³. 5. Streamline the flow of information, increase transparency, and enhance clear communication. 	7.6

Category 3 – Student, Stakeholder, and Market Focus

The Customer Focus Category examines how your organization identifies its customers, their requirements and the continued relevance of these requirements. It also examines how your organization builds relationships with customers and determines the key factors that lead to their satisfaction.

1. How do you identify the student and market segments your educational programs will address? How do you determine which student and market segments to pursue for current and future educational programs, offerings, and services?

The Executive Cabinet provides the leadership in identifying student market segments. In this forum, the current situation regarding the availability of high school graduates, needs of the area high schools, opportunities to recruit in the local community, and needs of business and industry in the service area are discussed. Following analysis, the Executive Cabinet identifies the student markets and sets enrollment targets. The Vice President of Academic Affairs and the Enrollment Management staff develop recruitment strategies for the coming year. The Vice President also works with the faculty to meet any new or unmet program needs.

In determining the student market segments to pursue, senior leadership keeps abreast of developments in the community as new companies move into the service area or agencies are developed. The implementations of state or federal regulations, which create the demand for new academic programs, are also considered.

2. How do you keep your listening and learning methods current with changing student and stakeholder needs and expectations (including educational programs, offerings, and service features)? How do you determine the relative importance of the expectations to these groups' decisions related to enrollment?

The senior leadership keeps abreast of developments in teaching and learning strategies by attending professional meetings, reviewing journals and magazines, and evaluating emerging technology and software. The traditional face-to-face lecture strategy is significantly impacted by the use of technology. The programs benefit from the annual advisory council meetings where stakeholders engage in establishing expectations for the programs.

3. How do you use information and feedback from current, former, and future students and stakeholders to keep services and programs relevant, and provide for continuous improvement?

All feedback from all constituents become a part of the program evaluation processes. The key performance indicators, student satisfaction surveys, classroom evaluation survey, graduate satisfaction survey, student learning outcome result analysis and recommendations are some of these indicators and data pool. During the periodic program evaluation process these longitudinal data provide the framework to keep the programs relevant and current with continuous improvement.

4. How do you determine student and stakeholder satisfaction and dissatisfaction and use this information to improve?

Student and stakeholder satisfaction and dissatisfaction are conveyed to the senior leadership in two ways: formally and informally through a variety of methods. The College surveys students and stakeholders on a regular basis to determine their satisfaction or dissatisfaction with classroom instruction and their experiences at Denmark Technical College. This information is analyzed and reported to the Executive Cabinet and then disseminated to the appropriate areas for consideration in their planning process.

As a small campus in a rural community, students and stakeholders have easy access to senior leaders on the campus. The senior leadership, including the President, maintains an open-door policy for all constituencies of the College. Student and stakeholder satisfaction and/or dissatisfaction are communicated to senior leaders on a daily basis, and recurring situations and issues are brought to the Executive Cabinet for action.

5. How do you build positive relationships to attract and retain students and stakeholders, to enhance student performance, and to meet and exceed their expectations for learning? Indicate any key distinctions between different student and stakeholder groups.

Denmark Technical College is a student-centered environment. Denmark Technical College has developed a number of unique ways to assist students as they pursue their education. The College provides financial aid, on-campus housing, child care assistance funds, and transportation in the service area. In addition to providing financial aid to students, Denmark Technical College financial aid counselors also assist students in completing the federal financial aid application. The College provides transportation assistance to students in the service area. A bus transports students from home to the campus in the morning and returns them in the evening. Using grant funds, the College provides child care assistance funds to students who qualify. In the academic program area, the faculty members provide students with academic progress reports every two weeks to help them stay on track academically. The College tracks attendance and provides academic counselors who monitor student attendance and counsel students to improve attendance.

These practices help foster student success which is key not only to retention of students, but also important in recruiting students. Denmark Technical College's advertising emphasizes these student-centered features along with its academic program to promote the College in newspapers, on billboards, and the radio. Creating a positive, caring image and documenting Denmark Technical College's contributions to the community and business and industry is important in attracting community stakeholders to support the College and its activities.

6. How does your student and stakeholder complaint management process ensure that complaints are resolved promptly and effectively?

To address student complaints, Denmark Technical College has implemented a Student Code and Grievance Procedure which is outlined in the Academic Catalog and Handbook. These procedures are based on the State Board of Technical and Comprehensive Education (SBTCE) Student Grievance Procedure. As of April 2010, the Vice President for Academic Affairs and Student Services and the President are responsible for ensuring that the process is followed when addressing student complaints.

The Denmark Technical College Student Grievance Procedure provides a clear channel for students to file complaints of sexual harassment, racial discrimination or academic matters, except for final grades. This procedure is very detailed and includes definitions; procedures; the rights of those involved; the make-up, purpose and function of the grievance committee, and a timeline for the completion of each step.

Category 4 – Measurement, Analysis, and Knowledge Management

The Measurement, Analysis, and Knowledge Management Category describes your organization's performance measurement system and how your organization selects, aggregates, analyzes, and reviews performance data and information, and how it manages its information technology. It examines how your organization reviews and uses reviews to improve its performance. It also describes how the organization manages, transfers, and maintains the accumulated knowledge possessed by its workforce in the form of information, ideas, learning and understanding, memory, insights, work skills, and capabilities.

1. How do you select which operations, processes and systems to measure to determine student learning, and for tracking daily operations and overall organizational performance, including progress relative to strategic objectives and action plans?

The operations, processes, and systems selected to measure student learning are identified by external organizations and by the planning unit faculty and administrators using best practices developed by various academic and nonacademic professional organizations. External organizations such as accrediting agencies (the Southern Association of Colleges and Schools, 1866 Southern Lane, Decatur, Georgia 30033-4097, the Accrediting Board for Engineering Technology, the National Association for the Education of Young Children, the Association of Collegiate Business Schools and Programs, and the National Accrediting Commission of Cosmetology Arts and Sciences), the South Carolina Commission on Higher Education, the State Board for Technical and Comprehensive Education, and the State Legislature have identified not only the operations, processes and systems that need to be measured, but also have created standards and criteria which the College must meet. Internally Denmark Technical College examines its organizational performance on an annual basis through its Institutional Planning and Assessment process.

2. How do you select, collect, align, and integrate data/information for analysis to provide effective support for decision making and innovation throughout your organization?

Note: Analysis includes trends, projections, comparisons, and cause-effect correlation intended to support performance reviews and the setting of priorities for resource use. Analysis draws upon many types of data including customer related requirements, operational, competitive, and others. (Results are reported in Category 7.)

Data/information to support decision making is generated through the Office of Institutional Research, Planning, and Development. The office staff prepares the following types of data/information which are used to support decision making throughout the organization:

- a. Operational data such as enrollment statistics, course enrollments, faculty load, and classroom utilization, are produced on an ongoing basis for the individuals and offices responsible for managing those areas of the College. The information is used to guide College operations daily.
- b. Management of data/information such as new student projection, trend, cost analysis, and comparison data by years or with competitors or peers is used by senior leadership to monitor progress and make strategic decisions.
- c. Assessment or evaluation data is generated for internal use and submission to the State Technical System Office or the Commission on Higher Education to be used in evaluating organizational performance. This includes data for program evaluation and IPEDS.

3. How do you keep your measures current with educational service needs and directions?

Key measures are reviewed periodically by the senior leadership. These measures are kept current through the use of “best practices” in higher education as acquired from internal and external professional development activities.

4. How do you select and use key comparative data and information from within and outside the academic community to support operational and strategic decision making?

Key comparative data is selected based on the type of decision to be made. In addition, factors such as the content area, fiscal resources, enrollment, programmatic specifics, and the arena from which the comparison would be drawn (national, regional, statewide, or local) are considered. The senior leader responsible for making the decision will determine the appropriate comparative data.

5. How do you make needed data and information available? How do you make them accessible to your workforce, students, and stakeholders?

Several reports and electronic media are used to make the needed data available and accessible by the workforce, stakeholders, and students. Some of these are: annual reports, operational plans, academic calendars, course schedules, non-credit course offerings, IPEDS reports, reports generated after the data is submitted to the system office, program evaluation reports, student catalogs, student handbooks, college’s intranet, the learning management system, and the web site.

6. How do you ensure data integrity, timeliness, accuracy, security and availability for decision making?

In order to ensure the integrity, timeliness, accuracy, security and availability of data for decision-making, the Office of Institutional Research, Planning, and Development serves as the source of all data. In addition, the Vice President for Institutional Research, Planning, and Development coordinates with the Information Technology department for scalability and dependability of the campus technology infrastructure, which includes the Enterprise Resource Planning system (DATATEL).

7. How do you translate organizational performance review findings into priorities for continuous improvement?

The results of performance review findings are incorporated into action plans developed by the planning units for the coming year. For instance, an academic program which has been put on probation due to lack of graduates, must include a strategy for increasing graduates to meet the standard within the shortest time frame possible. Performance review findings at the organizational level are addressed within the strategic objectives of the institution for the coming year. Progress toward achieving the objectives is then assessed at the end of the year. In addition (Category 2, item 2) there are specific steps in the strategic planning processes that allow opportunities for continuous improvements.

8. How do you collect, transfer, and maintain organizational and employee knowledge (knowledge assets)? How do you identify and share best practices?

Organizational and employee knowledge are collected and maintained in the State Technical College System Policy Manual, the Denmark Technical College Policy Manual, and the DTC Academic Catalog and Student Handbook. Employee records and personnel procedures are maintained in the Personnel Office. College personnel participate in the System Peer Groups, professional meetings and workshops to stay abreast of the best practices in their fields. Best practices are shared by supervisors and employees in individual offices and by the senior leadership with their respective staff.

Category 5 – Workforce Focus

The Workforce Focus Category describes how your organization engages, manages, and develops your workforce to utilize its full potential in alignment with your organization’s mission, objectives, strategies, and action plans. It also examines your ability to assess workforce capability and capacity needs to build a workforce environment conducive to high performance.

1. How do you organize and manage work to motivate and enable your workforce to develop and utilize their full potential, aligned with the organization’s objectives, strategies, and action plans and promote cooperation, initiative, empowerment, innovation, and your organizational culture?

The primary responsibility of faculty is to teach and advise students. By policy, full-time faculty members at Denmark Technical College teach between 15 and 18 credit hours a semester. In addition, they must hold at least 8 office hours a week to be available to advise students. Institutional support is available for faculty to attend conferences, meetings, and seminar to further their professional development.

Administrators and staff members have an official position description which outlines their responsibilities. Specific job duties are assigned by the individual’s supervisor. Funds are also available to administrators and staff for professional development and training.

The College President has an “open door” policy and encourages all employees to share concerns, ideas, and questions. With shared responsibilities to educate the students and to support the educators as well as the learners, the faculty and staff provide the necessary framework which allows the administrators to organize and manage the work. Collectively this allows the institution to use the full potential of the workforce aligned with the strategic goals and objectives.

2. How do you achieve effective communication and knowledge/skill/best practice sharing across departments, jobs, and locations?

Denmark Technical College’s senior leaders encourage the sharing of knowledge and information across the campus. The President meets regularly with the Executive Cabinet. Each of the senior leaders, in turn, meets with their respective staffs. In addition, individuals are encouraged to share information during their daily operations. Denmark Technical College is a small college where administrators have frequent interaction during the course of a day in the management of the College.

Denmark Technical College has also implemented a campus portal which provides a calendar of events, allows departments to communicate to other groups on campus, and provides a forum for committees to collaborate. The EPMS is a mechanism used by supervisors and employees to communicate feedback regarding expectations and to identify strengths that can be used in other areas. With a hands-on approach the senior leadership remains engaged in the sharing of information to better serve the students who choose the institution.

3. How does your workforce performance management system, including feedback to and from individual members of the workforce, support high performance work and contribute to the achievement of your action plans?

Denmark Technical College uses the Faculty Performance Management System which includes performance standards related to the goals of the College. The Employee Performance Management System is also related to the specific responsibilities of the non-academic staff. These evaluation systems are annual and provide an excellent opportunity for feedback among the employees and supervisors to support and promote high performance work.

4. How do you accomplish effective succession planning? How do you manage effective career progression for your entire workforce throughout the organization?

As a small college with its basic organizational structure, opportunities for promotion to a higher level position within the same area are minimal. Qualified individuals are encouraged to apply for positions which enable them to advance. In a state institution, succession planning is restricted by state law and personnel policies. However as described above at the system level, there has been some recognition to initiate and support leadership development, which has the potential for succession candidates at a system level.

As was described in a previous section (Section III, Category 1 Question 5):

The senior leaders encourage faculty and staff members who are interested in advancement to pursue further education. The President of the college provides financial and logistical supports from various funding sources to facilitate selected candidates. The college also identifies employees to participate in the in the South Carolina Technical College System (SCTCS) Leadership Academy. The SCTCS also offers six courses at master's degree level encouraging participation in Community College Leadership in which the college encourages and supports participation of its employees.

5. How does your development and learning system for leaders address the following:

- a. development of personal leadership attributes;**
- b. development of organizational knowledge;**
- c. ethical practices;**
- d. your core competencies, strategic challenges, and accomplishment of action plans?**

Denmark Technical College hires individuals with the credentials and experience that meet the needs of the position which they are hired. Once hired, the individual is provided orientation which includes the policies and procedures of the College. Funds are provided for individuals to professional development workshops, seminars, and conferences. At the time of hire, and on an annual basis, all employees are given copies of the state and institutional policies regarding ethical practices in employment, procurement, hiring, conduct, and budget management. As and when the leaders are engaged in the operation and planning of the institutional activities, the strategic plan, annual progress, and operational plans provide access to the core competencies, strategic challenges, and accomplishment of action plans.

6. How do you assess your workforce capability and capacity needs, including skills, competencies, and staffing levels?

Workforce capability and needs are assessed through the review of institutional effectiveness in light of current staff commitments and the availability of new financial resources to add or train staff. Workforce capability is assessed using performance measures and the annual evaluation of employee performance. Enrollment drives the instructional staff needs.

7. How do you recruit, hire, and retain new employees?

Denmark Technical College recruits, hires, and retains employees in accord with South Carolina State Employment policies and the employment policies and procedures of the State Technical College System. Our barriers are due to continuous drastic budget cuts over the last several years that limits the College's ability to offer competitive salaries or any retention incentives.

8. How does your workforce education, training, and development address your key organizational needs? How do you encourage on the job use of new knowledge and skills?

Organizational needs are outlined in the position description prior to advertising the position.

Individuals are hired with the required education, training and experience to function effectively in the position. The required education, training, and experience assigned to a position are guided by the State Technical College personnel guidelines and the State of South Carolina guidelines. The effectiveness of this education and training is surveyed and results are evaluated by the senior leadership and used to develop or enhance current professional development opportunities. The senior leadership encourages the use of new knowledge and skills on the job by advocating such with college employees, and incorporating the use of new knowledge in the employee and faculty evaluation systems.

Organizational needs are outlined in the position description prior to advertising the position. Individuals are hired with the required education, training and experience to function effectively in the position. The required education, training, and experience assigned to a position are guided by the State Technical College personnel guidelines and the State of South Carolina guidelines. The effectiveness of this education and training is evaluated by the senior leadership. The senior leadership encourages the use of new knowledge and skills on the job by advocating such with college employees, and incorporating the use of new knowledge in the employee and faculty evaluation systems.

Denmark Technical College uses the Faculty Performance Management System which includes performance standards related to the goals of the College. The Employee Performance Management System is also related to the specific responsibilities of the non-academic staff.

9. How do you evaluate the effectiveness of your workforce and leader training and development systems?

The effectiveness of the workforce and leader training development system is evaluated through the assessment of the accomplishments of the institution as effected by the leadership.

The institution strongly believes in diligence in transparency. This has allowed the flow of information up and down the organizational structure, which in turn has helped the employees at the institution to remain motivated. In addition, such environment has promoted the workforce to seek self-development opportunities and seek ways to utilize their full potential.

The professional development support provided through grant funds and the employee recognition awards do contribute towards leader training and development system.

10. What formal and/or informal assessment methods and measures do you use to obtain information on workforce well-being, satisfaction, and motivation?

As a small campus, Denmark Technical College's senior leadership maintains an open-door policy for faculty and staff. The President and the Executive Cabinet meet regularly with the faculty and staff. The employee performance management system also provides opportunity for feedback from faculty and staff. The Office of Personnel is also readily available to faculty and staff for input on well-being, satisfaction, and motivation. With an workforce around one hundred and fifty, the college can and does provide individual attentions to employee well-being, satisfaction, and motivation.

11. How do you use workforce satisfaction assessment findings to identify and determine priorities for improvement?

As a small institution with a small workforce (around 150), the college is in constant contact with its employees. With an open door policy, with active engagement of the employees to serve its constituents, and with almost flat organizational operational philosophy the workforce satisfaction assessment is always in a continuum. This allows the leadership team to identify and determine priorities for improvement on an ongoing basis.

12. How do you maintain a safe, secure, and healthy work environment? (Include your workplace preparedness for emergencies and disasters.)

Denmark Technical College is committed to maintaining a safe, secure, and healthy work environment. Twenty-four hour services are provided by campus security, health care staff, and physical plant personnel. The institution has an Environmental Safety Plan which includes emergency and disaster preparedness.

Category 6 – Process Management

The Process Management Category examines how your organization determines its core competencies and work systems, and how it designs, manages, and improves its key processes for implementing those work systems to deliver customer value and achieve organizational success and sustainability.

1. How do you determine, and what are your organization's core competencies, and how do they relate to your mission, competitive environment, and action plans?

Denmark Technical College's key learning-centered process that delivers the educational programs, offerings, and student services is determined primarily by the mission of the College and the needs of the students. The mission of Denmark Technical College is to provide students the knowledge and skills necessary for employment and maintenance of employment as technical, semi-professional, and skilled workers, prepare students for transfer to senior institutions, and provide graduates with competency in written and oral communication, computer literacy, information processing, mathematics, and problem-solving and the interpersonal skills necessary for life-long learning. The College seeks to fulfill its mission by using multiple instructional methods, including traditional lecture and lab, and technology facilitated courses for both on-campus and off-campus instruction. The major programs of the College are developed from the employment needs of the service area and the state. Each associate degree has a strong general education component in addition to the major courses. Each diploma program also requires general education courses.

Denmark Technical College has designed its academic support processes to assist a student body comprised of many first-generation college students, who attended rural high schools, and are frequently under prepared. The College requires and monitors attendance using a computerized attendance system. Students receive an academic progress report every two weeks during the semester. Student services include health services, academic counseling, career planning and placement, student activities, financial aid, transportation for those in the service area, and child care funds for those who qualify.

2. What are your organization's key work processes?

The College's key work processes are those surrounding the recruitment, admission, awarding of financial aid, registration, instruction, and graduation of students. All other processes support this sequence of activities. As such the primary process is the education of the learners who choose the institution for their future. Support processes include plant management, fiscal management, employee management, and the management of student support services. All of these processes relate directly to the institution's core competencies leading to the development of an educated workforce. By having appropriate internal controls and periodic review sessions the college ensures that the processes remain current, compliant, and effective.

3. How do you incorporate input from students, faculty, staff, stakeholders, suppliers, and partners for determining your key work process requirements?

All academic programs must go through a formal approval process which includes the Denmark

Technical College Area Commission, the State Board for Technical and Comprehensive Education, and the Commission on Higher Education. The State Board and the Commission on Higher Education all have proposal guidelines which ask for needs assessment, documentation of student pools, and a description of the individuals who will benefit from the programs. Stakeholders, suppliers, and partners are surveyed in this process. Continued input from stakeholders is received through annual Advisory Committee meetings. Students are surveyed each semester and graduates as they exit the College regarding their satisfaction with the educational process. Students also provide information on classroom instruction. This information is presented to the Academic Deans and the Executive Cabinet for review and use in making adjustments and improvements to instructional programs and services.

4. How do you incorporate organizational knowledge, new technology, cost controls, and other efficiency and effectiveness factors, such as cycle time, into process design and delivery?

Organizational knowledge, new technology, cost control, and other efficiency and effectiveness factors are addressed in the planning process. For example, the introduction of new technology has been a part of Denmark Technical College's planning process. The overall direction of the College in regard to technology has been and continues to be driven by institutional level plans and controls for implementing new systems and pursuing continuous improvement. Individual unit plans include the development of new technologies and the upgrade of laboratories. Frequently grant funds are pursued to facilitate new developments. The college received several grants to upgrade its STEM teaching and learning spaces. Cost controls are inherent in the procurement process where senior leadership and administrators are required to monitor spending and ensure that the College meets all of the procurement guidelines.

5. How do you systematically evaluate and improve your work processes?

The work processes are evaluated in a number of different ways. The Program Evaluation System annually evaluates all degrees, diplomas, and certificate programs as either in good standing, on probation, or on suspension. The teaching-learning process is evaluated by students using surveys such as the New Freshmen Survey, the Student Classroom Evaluation Instruction survey, and the Graduate Exit Survey. The results of these surveys are presented to the Executive Cabinet for consideration. Any recommendations identified are referred to the appropriate senior leader for action.

6. What are your key support processes, and how do you evaluate, improve and update these processes to achieve better performance?

The key support processes at Denmark Technical College are finance and accounting, physical plant management, institutional research, planning, marketing, and information technology management. These processes are evaluated annually using the annual assessment and planning process. The planning unit responsible for each of the processes conducts a self-assessment and indicates recommendations for improvement which are then incorporated into the next year's operational plan. In addition, various aspects of the processes are reviewed in the annual financial audit which is presented to the Area Commission. The audit includes recommendations for improvement and the institution's plan for dealing with the recommendations.

7. How does your organization ensure that adequate budgetary and financial resources are available to support your operations? How do you determine the resources needed to meet current budgetary and financial obligations, as well as new initiatives?

Denmark Technical College has three sources of funds: regular state appropriations, student fees or local funds and grant funds. With the steady decrease in state support and the steady increase in

enrollment, the budgeting process of the College has used state appropriations to cover the personnel costs of the campus and local funds to sustain operations. Any new initiatives are funded either with one-time state support or grant funds. The President of the College works with the State Technical College System Presidents to secure the System's legislative request for funds from the State Legislature. The amount of the state appropriations request is determined by the Chief Financial Officer through the budgeting process and submitted to the State Technical College System Office. Resources for new educational initiatives are determined through the proposal preparation process where the institution defines the need for the project, identifies staffing needs, operational costs, and equipment costs, and prepares a budget.

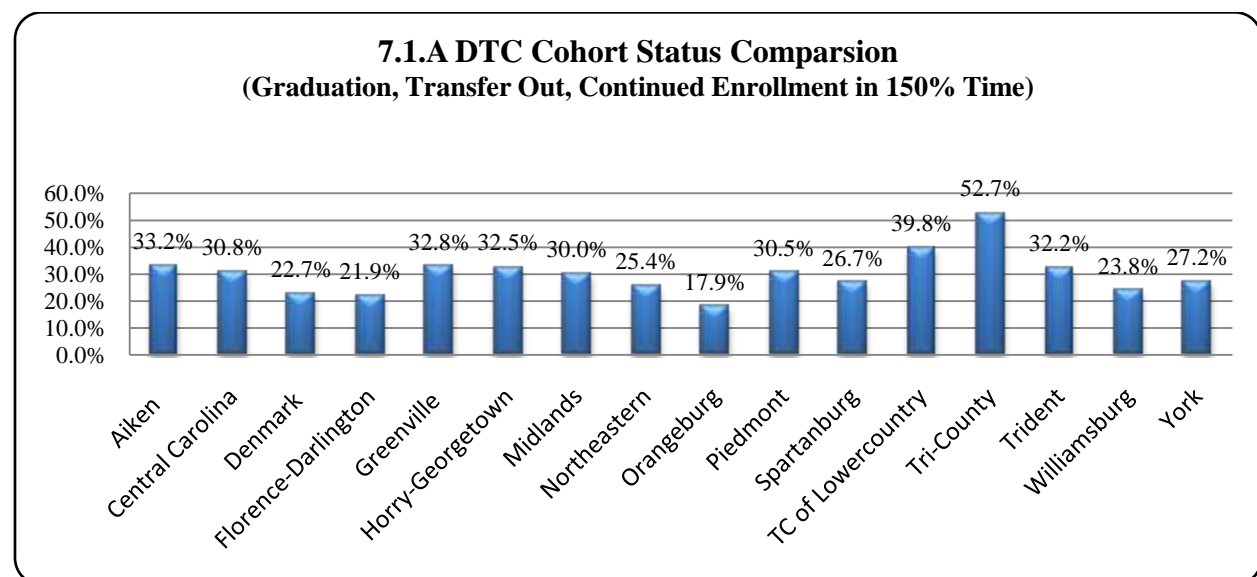

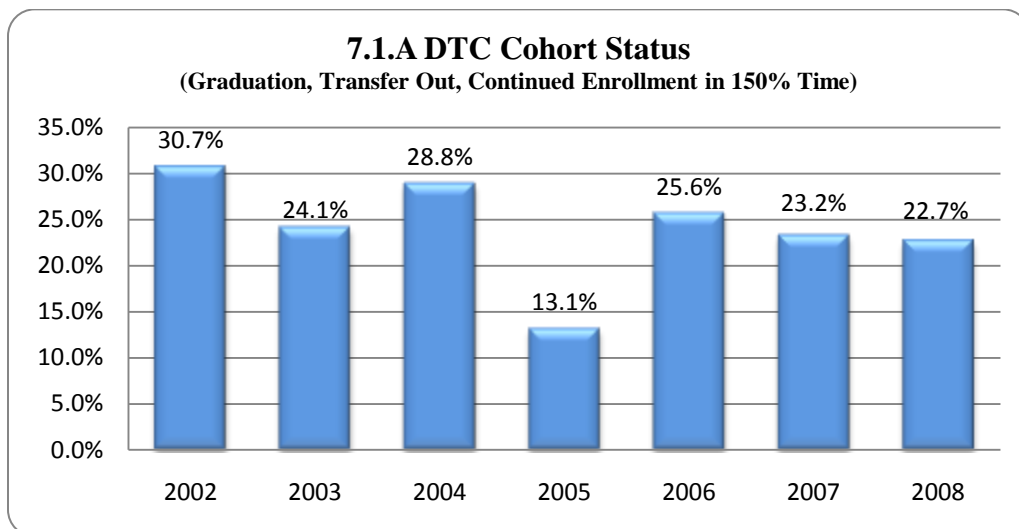

The new initiatives are proposed as part of the strategic planning process. Each unit has the opportunity to plan and submit new initiatives as part of their annual planning processes with necessary funding requests. All new requests are expected to be linked to the strategic goals and objectives to ensure achievement of institutional mission.

Category 7 –Results

The Results Category examines your organization’s performance and improvement in all key areas: product and service results, customer focused results, financial and market results; workforce-focused results; process effectiveness and leadership and social responsibility results. Performance levels are examined relative to those of competitors and other organizations providing similar programs and services. Information is typically displayed by the use of performance measures.

7.1 What are your performance levels and trends for your key measures on student learning, and improvements in student learning? How do your results compare to those of your competitors and comparable organizations?

The objective for Denmark Technical College in regard to Cohort Graduation Success Rates is to meet a rate between 30% and 45%. For the 2008 Cohort the rate in 2011 was 22.7%. Despite of this decrease, table 7.1.B shows that we are average in comparison to the other technical colleges. The College administration has implemented a system of monitoring attendance and follow-up by academic counselors to provide early intervention to help improve the cohort graduation rate.

7.1.B DTC Cohort Graduation Rates Comparison (Graduation in 150% of Time)

7.1.2 Denmark Technical College

Graduates Placed on Jobs or Attending a Four Year Institution

7.2 What are your performance levels and trends for your key measures on student and stakeholder satisfaction and dissatisfaction? How do your results compare with competitors and comparable organizations?

The chart below shows the enrollment trend since 2001.

7.2.1 DENMARK TECHNICAL COLLEGE

Head Count Fall Enrollment 2001 through 2011

7.3 What are your performance levels for your key measures on budgetary and financial performance, including measures of cost containment, as appropriate?

Despite a consistent decrease in state allocations, Denmark Technical College has managed to maintain the lowest required tuition and fees in the State Technical College System. Table 7.3.1 compares the state allocation dollars per FTE student for each year from 1993-1994 to 2011-2012. The final column shows the percent in the dollars per student for each fiscal year compared to the previous year.

Table 7.3.1 Percent Change in State Allocation Dollars per FTE Student from 1993-1994

Fiscal Year	State Allocation	FTE	Dollars per Student	Percent Change
1993-1994	\$2,949,002	667	\$4,421	-13.10%
1994-1995	\$2,914,496	705	\$4,134	-6.50%
1995-1996	\$2,966,665	680	\$4,363	5.50%
1996-1997	\$3,188,588	692	\$4,608	5.60%
1997-1998	\$3,446,603	784	\$4,396	-4.60%
1998-1999	\$3,559,468	828	\$4,299	-2.20%
1999-2000	\$3,959,821	887	\$4,464	3.85%
2000-2001	\$4,379,827	994	\$4,406	-1.30%
2001-2002	\$4,486,257	1,098	\$4,086	-7.27%
2002-2003	\$4,056,126	1,233	\$3,290	-19.50%
2003-2004	\$3,522,996	1,232	\$2,857	-13.10%
2004-2005	\$6,641,124	1,095	\$3,325	16.30%
2005-2006	\$6,676,047	1,170	\$3,142	-5.50%
2006-2007	\$3,784,328	1,144	\$3,308	5.30%
2007-2008	\$4,187,209	1,084	\$3,863	16.80%
2008-2009	\$4,004,741	1,181	\$3,391	-12.20%
2009-2010	\$2,925,656	1,010	\$2,896	-14.60%
2010-2011	\$2,376,022	841	\$2,825	-2.50%
2011-2012	\$2,214,889	1,430	\$1,549	-45.17%

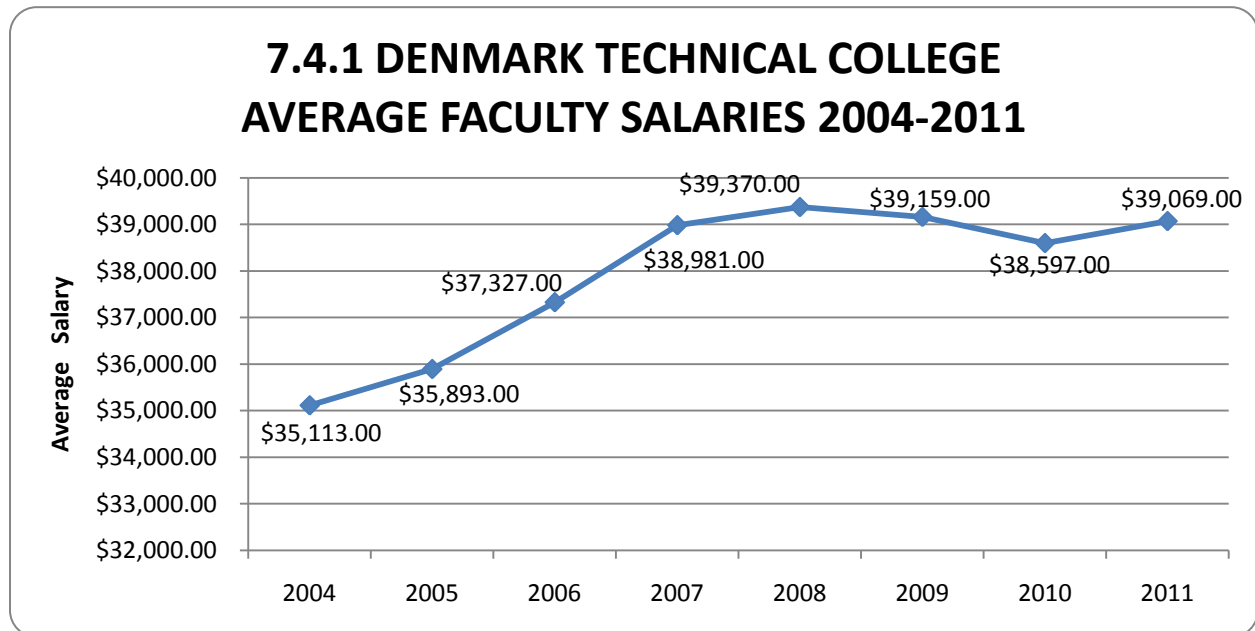

Despite the steady decrease in state dollars since 1993-1994, Denmark Technical College has maintained one of the lowest required tuition and fees in the system. Table 7.3.2 shows figures for the last eight years.

Table 7.3.2 Fees for Full-Time In-State Undergraduates – State Technical Colleges

7.4 What are your performance levels and trends for your key measures of workforce engagement, workforce satisfaction, the development of your workforce, including leaders, workforce retention, and workforce climate including workplace health, safety, and security?

Faculty salaries are a measure of the College's ability to provide for the well-being of the faculty. Table 7.4.1 shows the average faculty salary at Denmark Technical College between 2003 and 2011.

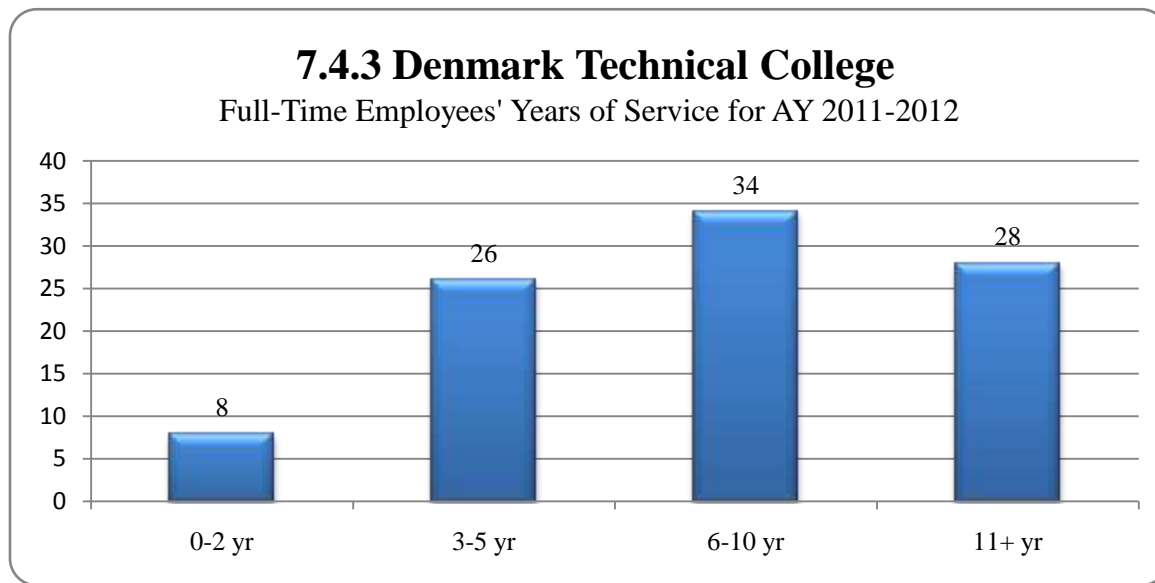

Approximately nine percent (11.4%) of the Denmark Technical College faculty held the doctorate in 2011-2012 and 54.3% had a master's degree.

Professional development funds are available to faculty, staff and administrators. Two faculty members were enrolled in the State Technical College System's Leadership Certificate Program with the University of South Carolina.

7.4.2 Highest Degree (%) Earned by Full-Time Faculty

Year	Doctorate	Masters	Bachelors	Associate	Diploma
2002-2003	19.0	56.0	14.0	3.0	8.0
2003-2004	18.0	49.0	21.0	3.0	9.0

7.5 What are your performance levels and trends for your key measures of organizational effectiveness/operational efficiency and work system performance development; the education climate; responsiveness to student and stakeholder needs; supplier and partner performance; and cycle time)?

Barbering, Cosmetology and Practical Nursing are the three programs at the College that require licensing or certificate exams.

Table 7.5.1 shows the first-time pass rates for graduates of those programs.

Denmark Technical College is a Historically Black College, and since 1947 has been charged to serve the State of South Carolina's African-American citizens.

Fall Terms

7.5.2 DENMARK TECHNICAL COLLEGE

Percentage of South Carolina Students who are African American

Denmark Technical College evaluates its academic programs on an annual basis. The evaluation process for associate degree and diploma programs is based on the number of graduates (a three-year average of 6 or 6 in the recent graduation year), fall enrollment, and job placement rate (50% or more). Certificate programs with graduates must place 50% of their graduates.

Table 7.5.3 summarizes the 2011 Evaluation of the 2010 graduates.

7.5.3 DENMARK TECHNICAL COLLEGE

7.6 What are your performance levels for your key measures related to leadership and social responsibility:

a. Accomplishment of your organizational strategy and action plans;

- The college implemented an aggressive recruitment plan and was successful in increasing its annualized enrollment by 62%. At the same time compared to the previous year, there was a 92% increase in number of degrees offered by the college
- A new Certificate in Environment Management Program was developed and subsequently approved by the area commission on Nov 28, 2011 and other necessary approval processes are being followed

for the program to open opportunities for the students in the areas of laboratory technicians, specifically for water analysis.

- The college completed three Self-Study reports for the reaccreditation of the Early Care and Education program with the National Association for Young Children (NAEYC), the General Business program with the Accreditation Council for Business Schools and Programs (ACBSP), and the Electromechanical Engineering program with the Accreditation Board for Engineering and Technology (ABET). In addition the site visits for all three programs have been scheduled within three weeks for a comprehensive look at the secondary accreditation process as the college begins its regional accreditation process for SACS.
- The College has adapted a culture of assessment for continuous improvement processes and home grown software has been developed to manage and document practices and evidence.
- The Welding department received new computers to install Welding Software were donated from the shipyard in Norfolk, Virginia. (ADAIR)
- The Department of Early Childhood Development organized and completed the “The Week of the Young Child” activities where children and caregivers from several local childcare centers participated.
- Opened the Allendale Quickjob Development Center for local community workforce training and was supported with \$300,000 matching funds.
- Submitted 2012-2017 Title III and SAFRA application to the Department of Education and two out of five grants were awarded.
- Deferred maintenance funds of approximately \$275,000 were secured from State Funding.
- Funding from several grants allowed the college to address a series of technology infrastructure projects in the areas of academics and support services to include installation of two five computer learning labs, projection systems in classrooms, upgrade of major network equipment to support VDI technology, and implementing three Broadband Technology Opportunity Program (BTOP) Labs at the Barnwell, Allendale and Denmark sites.
- The College provided continuing support to reduce barriers faced by students in the areas of transportation and childcare in the tri-county service area.
- Completed pre-employment training for the local service area new companies (Nk- Newlook, SASCO, & Masonite Corporation) and launched a DTC Institute of Advance Manufacturing to certify our students as Work Ready.

b. Stakeholder trust in your senior leaders and the governance of your organization;

Denmark Technical College has administrative and academic officers who are highly qualified by training and experience to serve in the particular leadership capacity to which they are appointed.

Administrative and academic officers are selected through a transparent and competitive process that involves peer administrators, faculty, and staff participation. Administrative officers include the President and Vice Presidents; academic and student services officers which includes all academic and support program Deans.

All hiring by the College are consistent with the SBTCE policy and procedure. The compensation practices for the President and the Vice Presidents are in accordance with the provisions of the SBTCE and respective Technical/Community College Area Commission. These provisions assure the hiring of qualified administrative and academic officers with the experience, competence, and capacity to lead the institution.

The President structures the Executive Affairs Organization of the administration of the College. All staff holds earned degrees that meet, or exceed, the educational requirements for their positions. All Vice President positions report directly to the President and have primary management responsibility for one or more of the major functional areas of the College. The operational groupings and number of Vice Presidents is a function of the size and organizational structure of the College. With the

approval of the Area Commission and concurrence of the South Carolina Technical College System (SCTCS), Vice President positions are established. The Vice Presidents have authority to make decisions necessary to fulfill the assigned responsibilities and are, in fact, the chief officers for the major functional areas. The Vice Presidents provide direct management, leadership and support to the overall educational endeavors of the college. Current structure includes Vice President for Academic Affairs and Student Services, Vice President for Institutional Research, Planning and Development, and Vice President for Fiscal Affairs.

DTC's Human Resource Management office administers the employment, classification, compensation, and coordinates performance evaluation for administrative and academic officers in keeping with SBTCE administrative officer policy and procedures and academic officer policy and procedures.

c. Fiscal accountability; and, regulatory, safety, accreditation, and legal compliance;

Denmark Technical College administers student aid from federal, state, institutional, and private funding sources. The majority of financial aid awards are federal Title IV funds. The Financial Aid Office is a department under the Division of Academic Affairs and Student Services. The Director, Assistant Director, two Financial Aid Administrators, and an Administrative Assistant, administer Title IV funding in accordance with regulations of the Higher Education Act of 1965 as amended.

The Eligibility and Certification Approval Report (ECAR) and the Program Participation Agreement (PPA), signed on behalf of the Secretary of Education, acknowledge that Denmark Technical College is qualified to participate in programs under the Higher Education Act of 1965, as amended (HEA), and the federal student financial assistance programs (Title IV, HEA programs).

The Financial Aid operation at Denmark Technical College is intermittently audited by The SC Commission on Higher Education, Veteran's Affairs (VA) Office, and the State Scholarship Programs.

DTC audits financial aid programs each year as part of the annual audit required by federal and state regulations. The audit is conducted in accordance with government auditing standards, the Single Audit Act (Public Law 104-106), and OMB Circular 133. These annual audits include tests of compliance with applicable federal laws and regulations and review of internal controls used in administering federal financial assistance programs.

All associate degree, diploma, and credit certificate programs offered by Denmark Technical College (DTC) conform to the structure mandated by the South Carolina State Board for Technical and Comprehensive Education (SBTCE) through its policy (3-1-101) and procedures (3-1-101.1). According to the procedure, the ranges of semester credit hours are standardized as:

- Certificate Programs: 6 to 40 semester credit hours,
- Diploma programs: 40 to 52 semester hours, and
- Associate Degree programs: 60 to 84 semester credit hours.

Information related to program length is disseminated through the DTC Academic Catalog and Student Handbook. DTC follows the guidelines established in its Curriculum Development and the Approval of Academic Program and Organization policies to ensure that all program lengths are appropriate and in compliance with the SBTCE policy and procedure. As such, additions, deletions, or changes to any College curriculum must be approved by the DTC Academic Affairs Council and the Vice President for Academic Affairs prior to implementation. Certain curriculum changes also

require approval of the DTC Area Commission, State Board for Technical and Comprehensive Education, and/or South Carolina Commission on Higher Education.

All changes to new and existing programs are initiated at the departmental level. Recommendations are forwarded to the Academic Division for consideration. Following Divisional approval, the Division Dean presents the recommendation to the Academic Affairs Council for review. If necessary, the approved recommendation from the Academic Affairs Council is forwarded to the Area Commission, and any other entities, as required.

d. Organizational citizenship in support of your key communities?

The faculty and staff participate in several community organizations in various capacities for continued support and collaboration. Some of these organizations are as follows:

Organization	Position
A,M.E. Baptist Church of Rock Hill	Youth Department Member
ACCESS-Associate Degree Early Childhood Teachers Educators	Member
ACTIVE/Association Cosmetology Teachers in Vocational Education	Member
Aiken, Bamberg, Barnwell and Edgefield Regional Library System	Board Member
Allendale Economic Development Council	Member
Alpha Chi Pi Omega Sorority & Fraternity Denmark Chapter	Member
American Chemical Society	Member
American Nurses Association	Member
Bamberg #2 District Board	Board Member
Bamberg County Ministerial Alliance	President
Bamberg Economic Development Council	Member
Bamberg-Denmark Chapter of the International Association of Administrative Professionals (IAAP) Nomination Committee	Member
Barnwell County Democratic Party	Member
Barnwell County Economic Development Commission Work Ready Community	Member
Barnwell County Library Board	Member
Barnwell County Museum	Board Member
Barnwell County Work Keys Assessment Proctor	Member
Barnwell Lodge #180	Member
Black Professionals of the Midlands	President
Blackville Crime Watch Coordinator	Member
Blackville-Hilda High School PTSO/SIC Council	Member
Capitol City Real Estate Investors, LLC	Member
City of Denmark, SC	Mayor
Colleton County High School Program Advisory Committee	Member
Cope Advisory Committee	Member
Denmark-Olar High School	Volunteer
Department of Religious Services	Volunteer
Educators of the Low Country	Platform Educator
Epsilon Omega Chapter of Omega Psi Phi Fraternity	Member
FCI Estill	Volunteer

Federal Bureau of Prisons	Volunteer
Feed the Hungry Aiken Association	Member
First Responder-CPR	Member
Girl Scout of Bamberg Troop 715	Volunteer
Heads of Confidence	Founder/Member
Hindu Temple and Cultural Center of South Carolina	Executive Committee Member
Honor Society of Nursing Sigma Theta Tau International/MUSC Local	Member
Hoops Hall Basketball and Fundamental 4 Success	Volunteer
Human Anatomy and Physiology Society (HAPS)	Member
International Association of Administrative Professionals (IAAP)	Member
Jackson Volunteer Fire Department (Rehab) Disaster	Member
Jackson Zoning Committee	Member
Job Corps Industrial Council	Member
Kappa Silhouette Organization	Corresponding Secretary
Look Good Feel Better American Cancer Association	Member
Lower Savannah Workforce Development Board	Board Member, Chair
Mt. Zion Baptist Church Food Service Committee	Volunteer
National Association Community College Teacher Education Program	Member
NAEYC-National Association for the Education of Young Children	Member
National Alopecia Areata Foundation	State Coordinator
National Nurses Association	Member
New Brookland Community Organization	Member
New Mount Zion Baptist Church	Member
Palmetto Barbers Association	Member
Phi Theta Kappa Fraternity	Honorary Member
Project Lead the Way Partnership Team	Facilitator
PTSO for Macedonia Elementary School 2012-2013	Vice President
Richard Carroll Elementary School Improvement Board	Member
Rufus Jones Lodge #615	Junior Warden
S.C. Technical Education Association Retirees' Board	Member
SC Information Technology Director Association	Member
SC Nurses Association	Member
Shrub Branch Baptist Church	Trustee Board Chairman
South Central District of SC Jurisdiction Business & Professional Women Council	President
South Central District of SC Jurisdiction Purity Council	Advisor
St. Phillip Church Youth Department	Youth Leader/Advisor
