The Honorable Nikki Haley, Governor
Budget and Control Board
Members of the General Assembly of South Carolina

Dear Ladies and Gentlemen:

On behalf of the Retirement System Investment Commission (RSIC), it is my pleasure to provide the enclosed report on the investments and operations of the South Carolina Retirement Systems portfolio for the Fiscal Year Ending 2014.

FYE 2014 Investment Performance Review

Capital markets during the fiscal year were, once again, favorable for the Plan as broad indices in equity, fixed income, and real estate posted positive returns. RSIC Plan assets earned a return of 15.29 percent net of fees for the fiscal year ending June 30, 2014 and out-performed the policy benchmark by 103 basis points. The 3-year annualized net return of 8.37 percent and 5-year annualized net return of 11.48 percent outperformed their policy benchmarks as well. The Plan's actuarial assumed rate of return, which is set by the General Assembly, is 7.5 percent. As of June 30, 2014, total Plan assets were valued at \$29.8 billion reflecting a \$3.0 billion increase in assets over the year. This increase consisted of a net \$4.0 billion increase attributed to investment performance during the year less \$1.0 billion in net benefit disbursements.

For the fifth consecutive fiscal year, the fund has experienced a positive return. All but one asset class had strong positive returns. Total Global Equity, which includes public and private equity, led the asset classes with a 20.74 percent net return, closely followed by the Total Real Assets asset class with a 19.64 percent net return. Total

Opportunistic asset class, including low beta hedge funds and Global Tactical Asset Allocation funds, returned 13.82 percent net of fees and expenses. Strong returns in the Private Debt sector propelled Total Diversified Credit to an 11.36 percent net return while Conservative Fixed Income experienced a 2.59 percent net return.

Asset Allocation

The fiscal year commenced under an updated asset allocation policy which was adopted at the April 23, 2013 Commission meeting as the result of a comprehensive Asset Liability Modeling study (ALM) conducted by RSIC's independent consultant, Hewitt Ennis Knupp (HEK). The adopted policy slightly increased the overall exposure to global equity, real estate, and opportunistic type strategies, with slight decreases to diversified credit and conservative fixed income. This new allocation results in roughly equal splits among stocks, bonds and alternative investments. Alternative Investments are defined as real estate, private equity, private debt, commodities, and low beta hedge funds. Additional changes included the following: (1) restricting private markets to no more than 21 percent of assets (with a range of one to three percent), (2) implementing a maximum of no more than 15 percent for hedge funds (with flexibility to use them across certain asset classes.) RSIC also adopted minor changes in rebalancing ranges, an important form of risk control.

Fiduciary Audit

Under the oversight of the South Carolina Office of the Inspector General (SIG), Funston Advisory Services (FAS) conducted a fiduciary performance audit of the

Retirement System Investment Commission (RSIC). The goal of this statutorily required audit was to critically evaluate the fiduciary roles and responsibilities of the RSIC Commissioners and staff, the relationship with other fiduciaries of the Retirement System, and the operational policies and practices of the RSIC. The review identified areas of strengths and weaknesses, provided comparison with leading practices of other public pension plans, and presented recommendations for improvement.

The FAS team was experienced and competent in the issues of governance, strategy, risk, investment operations, investment accounting, and stakeholder engagement. Their experts spent months in an exhaustive effort reviewing documents, interviewing commissioners, staff, stakeholders, managers and others, and conducting peer surveys as part of their evaluation.

Two critical findings from the audit were 1) there are no indications of malfeasance or misfeasance regarding the Commission's current policies and practices, and 2) RSIC is a leader among public pension systems in disclosing external management fees. In all, FAS recommended 126 areas for improvement at RSIC and our organization is making diligent process in addressing the 110 recommendations for which we are directly responsible. In addition, RSIC had already begun addressing several of these critical items before the audit report was published.

Other Developments

The Commission established the role of Executive Director to serve as the agency head of the RSIC. The position reports directly to the Commission and the functions and duties are assigned by the Commission. We are pleased that the position is held by Mr. Michael Hitchcock. RSIC continues to stress transparency and accountability by keeping its stakeholders and key decision makers engaged and informed. As part

of its robust communications strategy, RSIC holds quarterly stakeholder meetings, sends representatives to stakeholder functions, and is one of a very few public plans that live streams its meeting. This year RSIC, in partnership with PEBA, engaged in numerous public outreach activities to educate active employees and beneficiaries about their benefits and the mission of the organization. The response has been very positive.

Conclusions

RSIC continues to allocate assets in an effort to achieve the highest returns within an acceptable level of risk. Administratively and operationally we continue to strengthen the organization. Implementation of the FAS audit recommendations and the leadership of the new Executive Director will further our efforts to put the needs of the Plan beneficiaries first.

We are deeply honored to serve our beneficiaries and participants and have confidence in our talented and dedicated staff's ability to manage the Systems' funds and assets. Thank you for the support you have given us.

Sincerely,

Reynolds Williams
Chairman for the period July 1, 2012 — June 30, 2014

CONSULTANT'S LETTER

August 28, 2014

The Honorable Nikki Haley, Governor
Budget and Control Board
Members of the General Assembly of South Carolina

RE: FYE 2014 Report

Dear Governor and Members:

As the investment consultant for the Retirement System Investment Commission (RSIC), Hewitt EnnisKnupp (HEK) is pleased to submit this summary of the investment structure and performance of the South Carolina Retirement System (SCRS) investment portfolio for fiscal year ended (FYE) June 30, 2014.

The 2013-14 fiscal year began with a strong but volatile stretch in the equity markets. Threats of a possible military strike against Syria, negotiations over the U.S. debt ceiling, a government shutdown, and the Federal Reserve's unexpected decision to postpone tapering of its quantitative easing program were all contributors to market volatility. With the resolution of the government shutdown, developed equity markets rallied as 2013 came to a close. In December, the Federal Reserve Open Market Committee announced that it would begin to "taper" the monthly rate of Treasury and MBS purchases by \$10 billion and that it intended to do so throughout 2014. As 2014 began, harsh winter conditions in the U.S. resulted in disappointing economic employment and manufacturing data releases. Equities retreated during the early stages of 2014 while longer-dated investment grade bonds rallied, before closing out the first half of 2014 with a strong rally.

Throughout the fiscal year, the Commission and its staff worked hard to further several long-term initiatives, including:

- Modifying asset allocation to improve expected portfolio risk and return
- Refining investment strategy to lower costs where possible
- Facilitating a comprehensive fiduciary audit
- Implementing recommendations made in the course of the fiduciary audit

During the fiscal year ending June 30, 2014, the SCRS investment portfolio returned 15.3% on a net-of-fee basis. This return exceeded that of its Policy Index by 1.1 percentage points. Over the trailing three- and five-year periods ending June 30, 2014, the SCRS portfolio return also exceeded that of its Policy Index. All returns are reported on a time-weighted return basis.

As of June 30, 2014 the SCRS investment portfolio totaled \$29.8 billion. This represented an increase of \$3.0 billion over its value on June 30, 2013. The portfolio's asset allocation at fiscal year-end was as follows:

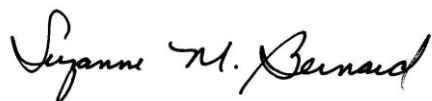

August 28, 2014
Page 2

Global Public Equity	30.8%
GTAA/Risk Parity	10.6
Private Equity	8.9
Core Fixed Income	8.7
Low Beta Hedge Funds	8.3
Cash and Short Duration (net of overlays)	6.7
Mixed Credit	6.5
Private Debt	5.7
Emerging Market Debt	4.2
Global Fixed Income	3.7
Real Estate	3.6
Commodities	2.1
Total	100.0%

The investment portfolio's June 30, 2014 asset allocation was consistent with the targets and ranges set forth in the Annual Investment Plan, Statement of Investment Objectives and Policy, and were within statutory limits. HEK will continue to work with the RSIC to monitor the structure and portfolio in an effort to optimize the portfolio's risk/return profile.

We at HEK are honored to serve as the investment consultant to the RSIC. We look forward to working with the Commissioners and Investment Staff to further enhance the investment portfolio's ability to meet its obligations.

Sincerely,

Suzanne M. Bernard, CFA, CAIA

OVERVIEW

PURPOSE & DUTIES

The South Carolina Retirement System Investment Commission (RSIC) is responsible for investing and managing all assets held in trust for the participants and beneficiaries of five governmental defined benefit plans: South Carolina Retirement System (SCRS), South Carolina Police Officers Retirement System, Retirement System for Judges and Solicitors of the State of South Carolina, Retirement System for Members of the General Assembly of the State of South Carolina, and the National Guard Retirement System, collectively referred to hereinafter as the “Retirement System” or “Systems”.

RSIC’s primary investment objective is to achieve a high level of investment return consistent with a prudent level of portfolio risk. The assets of the Retirement System are invested in conformity with the requirements of South Carolina law and are designed to increase the probability of achieving the long-term objectives of the Retirement System.

As of Fiscal Year Ending (FYE) 2014, members of the Commission are: Reynolds William, JD, CFP, Chairman; Edward N. Giobbe, Vice Chairman; Allen R. Gillespie, CFA; Rebecca M. Gunnlaugsson, Ph. D.; Curtis M. Loftis, Jr.; Travis J. Turner, CPA; Ronald P. Wilder, Ph. D.

HISTORY

Effective October 1, 2005, the State Retirement System Preservation and Investment Reform Act (Act 153) established the Commission and devolved fiduciary responsibility for all investments of the Retirement System upon the RSIC, which is currently a seven-member commission made up of financial experts, including the State Treasurer and a nonvoting retired member of the Systems. Act 153 also provided that equity investments cannot exceed 70% (formerly 40%) of the Total Plan Portfolio (Portfolio) and created the position of Chief Investment Officer.

The assets of the Retirement System had historically been invested only in fixed income investments until a Constitutional amendment was ratified in 1997. The amendment allowed the Retirement System to invest in “equity securities of a corporation within the United States that is registered on a national securities exchange as provided in the Securities Exchange Act, 1934, or a successor act, or quoted through the National Association of Securities Dealers Automatic Quotation System, or a similar service” (SC Constitution Article X, §16). The Retirement System began investing in equities in June 1999, although full diversification of the portfolio remained constrained by the State Constitution. In November 2006, a Constitutional amendment allowing for full diversification of the Retirement System’s Portfolio was approved in a statewide referendum and subsequently ratified by the Legislature in February 2007. Since ratification, the Commission has taken steps to transition to a more diversified asset allocation, targeting approximately 40% of the Portfolio’s allocation to alternative asset classes, including private equity, opportunistic credit, absolute return strategies, etc.

DISCLOSURE OF MATERIAL INTEREST

As of June 30, 2014, there was no material interest noted by a member of the Commission or an employee who is a fiduciary with respect to investment and management of assets of the Retirement System, or by a related person, in a material transaction with the Retirement System within the last three years nor in any proposed material transaction of the Retirement System.

POLICY ALLOCATION

POLICY

The RSIC is responsible for establishing and maintaining a target asset allocation that manages risk, ensures liquidity, and affords flexibility to quickly react to changes in market conditions. Among the decisions the Commission can make, asset allocation has the most significant impact on the Portfolio's return and risk profile. A combination of internal and external managers, as well as active, enhanced, or passive strategies is used to implement the asset allocation. Exposure may be obtained in derivative, cash, or physical markets.

During fiscal year 2013, RSIC's consultant, HEK, conducted an asset liability modeling study (ALM) which reviewed the liabilities of the plans and compared them against projected capital market expectations and correlations in order to produce a recommended asset allocation. As a result of the ALM, HEK recommended a new asset allocation, including minimum and maximum ranges for each asset class, which the Commission adopted effective July 1, 2013. The adopted asset allocation policy for fiscal year 2014 reflects an increase in return-seeking assets as well as a bifurcation of hedge funds into a Low Beta classification and those that persistently exhibit common market exposure elements (beta). Maximum aggregate hedge fund exposure is limited to 15% of plan.

¹Plan Returns are from BNY Mellon and are time-weighted, total return calculations, net of fees and expenses. All returns are expressed in U.S. Dollars. Periods greater than one year are annualized. Returns generated from synthetic exposure through the Overlay Program are reflected in the total Plan return but are not included in the asset class segment returns. This report was compiled by Staff of the South Carolina Retirement System Investment Commission and has not been reviewed, approved, or verified by the listed entities.

²The South Carolina Policy Benchmarks, which are proposed annually by the plan's consultant and adopted by the Commission, has changed over time. The presented returns are a blend of these past policies.

SECURITIES LENDING

PORTFOLIO STRUCTURE

The Portfolio currently participates in a securities lending program, managed by the BNYMellon (“Securities Lending Program”), whereby securities are loaned for the purpose of generating additional income. BNYMellon is responsible for making loans of securities to various broker-dealers and collecting cash collateral. If the collateral value falls below a predetermined level, the borrower must post additional collateral. The cash collateral is invested in short duration securities and monitored on an ongoing basis. In conjunction with generating revenue, the collateral pool seeks to maintain a net asset value (NAV) of \$1.00, which is determined by dividing the market value of the assets by the cost of those assets.

PORTFOLIO DEVELOPMENTS

The Securities Lending Program continues to employ very conservative investment guidelines. The re-investment of the cash collateral is restricted to short-term, very low risk securities. The gross securities lending revenue for the fiscal year was \$1.7 million, a decrease from \$2.5 million in the prior year. Since November 2008, gains and losses from the Securities Lending Program have been excluded from the Total Plan performance calculations.

On June 30, 2014 the NAV of the collateral pool was \$0.60. The market value of the collateral pool was approximately \$72.6 million, with an amortized cost of approximately \$121.3 million. In May 2014 a new securities lending contract was signed by the State Treasurer’s Office.

¹ The rebate rate establishes the economic “cost” of the lending transaction: a positive rebate indicates the lender pays the borrower and a negative rebate indicates the borrower pays the lender.

EXPENSES

OVERVIEW

This fiscal year, total investment and administrative expenses increased by \$39.8 million to \$467.3 million. As a percent of total assets, however, the level of fees remained flat at 1.6% of total Plan assets. Investment management fees and expenses for FYE 2014 increased by \$36.3 million to \$454.5 million. The primary contributing factor to this increase was an increase in performance, relative to FYE 2013, in asset classes that utilize performance fee structures. Bank Fees and Investment Expense, which are associated with custodied accounts and primarily consist of commissions on futures contracts and bank fees, increased to \$2.4 million. Reflecting an increase in budget, general administrative expenses increased to \$10.3 million which is primarily attributed to the continued build out of RSIC staff and systems.

Brokerage fees are broken out separately as commissions paid to brokers are considered a part of the investment cost basis and, therefore, not reported in investment management expenses.

Investment management fees and expenses generally consists of three categories; investment management fees, performance fees including carried interest allocation, and other investing expenses such as organizational costs in limited partnership structures. Investment management fees are generally a percentage fee based on the assets under management and paid to the manager of the fund for providing the service of investing the assets. Performance fees, including carried interest allocation, are a share of the profits from an investment or fund and is paid to the investment manager to create an alignment of interests.

Investment management fees and expenses are either paid by invoice or netted from investment assets. Under Governmental Accounting Standards Board (GASB) accounting guidance¹, “[i]nvestment-related costs should be reported as investment expense if they are separable from (a) investment income and (b) the administrative expense of the pension plan.” RSIC makes a good faith attempt to disaggregate netted fee amounts that are not necessarily readily separable from investment income. This process is not standard practice for many plan sponsors, therefore, direct comparison to other plans is not meaningful without first adjusting to a common reporting basis. In the Fiduciary Audit, Funston Advisor Services concluded that RSIC’s “disclosure of total external management fees is the most complete in the industry.”²

About the cover: The front cover features a “word cloud” generated by pasting the text of this year’s Chairman Report into Wordle™ and randomizing until the resulting combination of font, color scheme, and layout was achieved. The size of a word is proportional to the number of times it appears in the text.
