# Supplemental Sheet to Complaint Complainant: S.C. House Legislative Ethics Committee (HEC) Respondent: Rep. Jonathon D. Hill (Rep. Hill) September 15, 2021

As background, the House of Representatives retained an outside accounting firm, J. W. Hunt and Company, LLP (J.W. Hunt) in 2016 to conduct voluntary and random audits of House Members and candidates. In January 2021, Rep. Hill, agreed to a three-year, voluntary audit of his campaign bank account records compared to his Campaign Disclosure reports as the contributions on hand at period end for his October 2020, Pre-Election and January 2021 Campaign Disclosure reports were negative amounts. J.W. Hunt issued Rep. Hill's Final Audit Report on June 29, 2021. (See Exhibit A). J.W. Hunt made eleven findings of noncompliance. The documents reviewed for each of the findings are as follows: 1) Rep. Hill's campaign bank account statements from SunTrust Bank from September 21, 2017 to January 20, 2021 (See Exhibit B); 2) Anedot Report provided April 6, 2021 (See Exhibit C); 3) Rally reports provided on April 6, 2021 and June 22, 2021. (See Exhibit D); and 4) List of the fifteen Campaign Disclosure reports audited starting with his January 2018, Amendment 1 Campaign Disclosure report through his January 2021 Campaign Disclosure report. (See Exhibit E).

The HEC has identified some potential violations resulting from the voluntary audit of Rep. Hill's campaign bank account records and campaign disclosure reports encompassing a three-year period, which has not been explained by Rep. Hill. Examples, include but are not limited to, 1) paying his mortgage from his campaign bank account on July 2, 2018 but then reimbursing the account on July 9, 2018 (Although the HEC requested documentation from the bank account Rep. Hill normally pays his mortgage from, he has not provided this documentation); 2) paying marketing fees incurred from vendor Red Mountain Direct from his Rally Pay, a third party online contribution site, which is not permissible according to the House Ethics Committee Advisory Opinion 2018-6. (Exhibit F); 3) also related to Red Mountain Direct, the HEC has questions as to whether Rep. Hill has any ownership or business interest in the company; 4) paying personal expenditures to Audible Adbl.Co (for 2 months) and Soundcloud Inc. (monthly) from his campaign bank account (noted as Finding 2020-03); and 5) improperly reporting a \$10,000.00 loan without actually depositing the loan amount in his campaign bank account; instead he personally paid for this expenditure. Thus, the HEC is referring the Committee's complaint to the State Ethics Commission regarding Rep. Hill's audit for the Commission's investigation as to whether violations of Section 8-13-100 et seq. of the Ethics, Government Accountability, and Campaign Reform Act of 1991 occurred.

#### INDEPENDENT ACCOUNTANT'S REPORT

Representative Jonathon D. Hill and South Carolina House of Representatives Ethics Committee Columbia, South Carolina

We have examined Representative Jonathon D. Hill's (Rep. Hill) campaign disclosure reports for the period from October 1, 2017 to December 31, 2020 for compliance with the South Carolina House of Representatives Ethics Guidelines (Guidelines) in accordance with the South Carolina House of Representatives Ethics Committee's *Protocol for Audits of Candidates/House Members' Campaign Accounts*. Rep. Hill is responsible for compliance with the Guidelines. Our responsibility is to express an opinion on Rep. Hill's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether Rep. Hill complied, in all material respects, with the Guidelines. An examination involves performing procedures to obtain evidence about whether Rep. Hill complied with the Guidelines. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on Rep. Hill's compliance with the Guidelines.

Our examination disclosed material noncompliance with the Guidelines applicable to Rep. Hill for the period from October 1, 2017 to December 31, 2020 as further described in the accompanying statement of findings.

In our opinion, except for the material noncompliance described in the preceding paragraph, Rep. Hill complied, in all material respects, with the aforementioned Guidelines for the period from October 1, 2017 to December 31, 2020.

This report is intended solely for the information and use of Rep. Hill and the South Carolina House of Representatives Ethics Committee and is not intended to be and should not be used by anyone other than these specified parties.

#### **STATEMENT OF PROCEDURES**

- 1. Create a spreadsheet listing every contribution and expenditure listed on the campaign disclosure reports. Columns in the spreadsheet should be titled *Amount, Type/Date, Campaign Bank Account Name, Amount, Type,* and *Match*.
- 2. Agree each contribution and expenditure to campaign bank account statements.
- 3. Verify that each contribution received did not exceed the contribution limit during the election cycle.
- 4. If applicable, review amortization schedules for commercial loans and determine propriety of principal and interest amounts.
- 5. Verify on the State Ethics Commission's web site that any contributions made by a Lobbyist Principal or a Political Action Committee match the contributions reported in the campaign disclosure reports.

#### STATEMENT OF FINDINGS

#### Finding 2020-01:

Condition and criteria:

According to the Guidelines, amounts reported by the Candidate or House Member in the campaign disclosure report should match or reconcile to the campaign bank account activity.

During our examination, we noted two (2) contributions and five (5) expenditures reported in the campaign disclosure reports that did not have a matching transaction that cleared the campaign bank account. Of the expenditures, one was a \$336.18 expenditure to Facebook, Inc. dated 7/2/18 that was reported in both the July 2018 and October 2018, Pre-Election campaign disclosure reports. Since there was only one matching expenditure that cleared the campaign bank account, this appears to be a duplication.

Amount in question:

Contributions - \$280.00 Expenditures - \$846.18

Cause:

Unknown

Effect:

The campaign disclosure reports do not reflect the actual transactions that cleared the campaign bank account during the applicable reporting periods.

Recommendation:

The Member should amend the applicable campaign disclosure reports in order to properly reflect the balance of contributions on hand at the end of each reporting period.

#### Finding 2020-02:

Condition and criteria:

According to the Guidelines, all contributions received by the Candidate or Member as well as all expenditures from the campaign bank account must be reported in the campaign disclosure report.

During our examination, we noted sixty eight (68) contributions and sixteen (16) expenditures that cleared the

campaign bank account, but were not reported in the

appropriate campaign disclosure reports.

Amount in question: Contributions - \$6,566.83

Expenditures - \$4,432.30

Cause: Unknown

Effect: The Member's campaign disclosure reports do not accurately

reflect the activity in the Member's campaign bank account.

Recommendation: The Member should amend the affected campaign disclosure

reports in order to properly report the amounts in question

noted above.

#### Finding 2020-03:

Condition and criteria:

According to the Guidelines, all contributions received by the Candidate or Member as well as all expenditures from the campaign bank account must be reported in the campaign

disclosure report.

We noted that some of the contributions and expenditures noted in Finding 2020-02 were actually transfers to and from other bank accounts. Upon inquiry of the Member, he confirmed that the other bank accounts were those he uses either personally or for his business. Some of the transfers into the campaign bank account were to reimburse it for the Member's personal expenses that were inadvertently paid from the campaign bank account. In other cases, it appeared the Member was making a contribution to his campaign bank account or repaying a personal loan made to his campaign.

Amount in question: Contributions - \$2,432.74

Expenditures - \$1,600.72

Cause: Unknown

Effect: The Member's campaign disclosure reports do not accurately

reflect the activity in the Member's campaign bank account.

Recommendation:

In order to minimize the possibility of campaign funds being commingled with personal funds, the Member should consider moving his campaign bank account to a bank where he does not have business or personal bank accounts.

#### Finding 2020-04:

Condition and criteria:

According to the Guidelines, amounts reported by the Candidate or House Member in the campaign disclosure report should match or reconcile to the campaign bank account activity.

During our examination, we noted that Anedot fees were not reported in the Member's April 2019 campaign disclosure report and the incorrect amount of Anedot fees were reported in other campaign disclosure reports.

Amount in question:

\$155.05

Cause:

Unknown

Effect:

The Member's campaign disclosure reports do not accurately state the campaign bank account balance.

Recommendation:

The Member should amend the affected campaign disclosure reports in order to properly report the amounts in question noted above.

#### Finding 2020-05:

Condition and criteria:

The Guidelines require campaign contributions to be reported in campaign disclosure reports in the period received. S.C. Code Ann. Section 8-13-1312 states, in part, that "All contributions received by the candidate or committee, directly or indirectly, must be deposited in the campaign account by the candidate or committee within ten days after receipt."

We noted during our examination that contributions collected through Anedot and Rally were not always transferred to the Member's campaign bank account within the ten day limit required by the Guidelines.

Amount in question:

\$2,395.00 (before deduction of fees)

Cause:

Unknown

Effect:

The balance in the Member's campaign bank account does not always reflect the correct amount of contributions on

hand.

Recommendation:

The Member should ensure that all contributions received in the future, either directly or indirectly, be deposited to the campaign bank account with ten days of receipt.

#### Finding 2020-06:

Condition and criteria:

According to the Guidelines, amounts reported by the Candidate or House Member in the campaign disclosure report should match or reconcile to the campaign bank account activity.

During our examination, we noted three (3) instances where the Member reported a contribution, but there was no matching transaction clearing the campaign bank account other than a transfer from the Member's personal or business account (See Finding 2020-03). Thus, it appears that the Member may have deposited campaign contributions in his personal or business account and later transferred the funds to his campaign bank account.

Amount in question:

\$290.00

Cause:

Unknown

Effect:

The Member may have commingled campaign funds with personal funds.

Recommendation:

In order to minimize the possibility of campaign funds being commingled with personal funds, the Member should consider moving his campaign bank account to a bank where he does not have business or personal bank accounts.

#### Finding 2020-07:

Condition and criteria:

According to the Guidelines, amounts reported by the Candidate or House Member in the campaign disclosure report should match or reconcile to the campaign bank account activity.

During our examination, we noted that the Member did not report the correct amount of a contribution received from Josh Renfro on 11/16/19. The Member's campaign disclosure report shows a contribution amount of \$250.00, whereas the contribution cleared the Member's campaign bank account for \$350.00. In another instance, the Member reported \$12.00 contributions on 12/10/19 and 1/12/20 as being from Claire Muzal, when the related Anedot reports listed the contributions as being from James Maret.

Amount in question:

\$100.00

Cause:

Unknown

Effect:

The Member's campaign disclosure report does not reflect the actual activity of the Member's campaign bank account.

Recommendation:

The Member should amend the affected campaign disclosure reports in order to accurately report these transactions.

#### Finding 2020-08:

Condition and criteria:

According to the Guidelines, all contributions received by the Candidate or Member as well as all expenditures from the campaign bank account must be reported in the campaign disclosure report.

The Member began receiving contributions via Rally in December 2019. During the course of the examination period, contributions totaling \$8,351.48 were transferred from Rally into the Member's campaign bank account. The reports downloaded from the Rally web site by the Member and provided to us for purposes of the examination reflected total contributions of \$7,339.09. Although we were able to match certain contributions received via Rally to the related bank deposits, it was not possible for us to determine if all

contributions received via Rally had been reported. It should also be noted that some of the contributions noted in Finding

2020-02 were received via Rally.

Amount in question:

\$1,012.39 (net of fees)

Cause:

Unknown

Effect:

The Member's campaign disclosure report does not reflect the actual activity of the Member's campaign bank account.

Recommendation:

The Member should make further attempts to obtain full contribution detail from Rally and amend the affected campaign disclosure reports in order to accurately report the amount of contributions received in each reporting period, In the absence of any further contribution details, the Member will need to make a technical correction on his next campaign disclosure report in order to resolve the amount in

question.

#### Finding 2020-09:

Condition and criteria:

Section 8-13-1300 (20) defines "In-kind contribution or expenditure" as "goods or services which are provided to or by a person at no charge for less than their fair market value." The Guidelines require campaign disclosure reports to detail in-kind contributions and expenditures. When an inkind contribution is reported, it must have a matching in-kind expenditure.

Given these requirements, we noted during our examination that the Member reported an in-kind contribution of \$25.00 in his April 2019 campaign disclosure report without a matching in-kind expenditure.

Amount in question:

As noted above

Cause:

The Member may have inadvertently classified the transaction as in-kind since there were cash transactions for this amount that cleared the campaign bank account during

the reporting period.

Effect:

The Member's April 2020 campaign disclosure report does not accurately reflect the amount of in-kind contributions and expenditures during the reporting period.

Recommendation:

The Member should amend the affected campaign disclosure report in order to remove the in-kind classification from the transaction noted above.

#### Finding 2020-10:

Condition and criteria:

The Guidelines require campaign contributions and expenditures to be reported in campaign disclosure reports in the period paid or received. With the exception of an initial or pre-election report, each campaign disclosure report should include contributions received and expenditures paid in a calendar year quarter. An initial report is required once \$500 of contributions are deposited or \$500 of campaign expenditures are disbursed from the campaign bank account and should include all transactions through the date this requirement was first met. A pre-election report should include all campaign bank account activity occurring for the period from the end of the previous campaign disclosure report filed to twenty (20) days before the election.

Based on these parameters, during our examination, we discovered certain contributions and expenditures that were not reported in the correct campaign disclosure report.

Reporting dates and amounts in question:

2020 Pre-Election Report – This report should have included transactions posted to the campaign bank account from 4/1/20 to 5/20/20. The report as filed included contributions through 5/27/20 totaling \$3,155.00.

October 2020 Pre-Election Report – This report should have included transactions posted to the campaign bank account from 7/1/20 to 10/14/20. The report as filed omitted two contributions of \$5.00 each dated 10/12/20 and 10/13/20, respectively.

January 2021 Report – This report should have included transactions posted to the campaign bank account from 10/15/20 to 12/31/20. The report as filed included the two

contributions above that should have been included in the

October 2020 Pre-Election Report.

Cause:

Unknown

Effect:

The Member's campaign disclosure reports do not reflect campaign bank account activity for the correct time periods.

Recommendation:

The Member should amend the affected campaign disclosure reports in order to properly reflect the amount of contributions on hand at the end of each reporting period.

#### Finding 2020-11:

Condition and criteria:

According to the Guidelines, all contributions received by the Candidate or Member as well as all expenditures from the campaign bank account must be reported in the campaign disclosure report.

During our examination, we noted that the Member reported a loan to his campaign bank account with an offsetting campaign expenditure on that date. However, no actual cash deposit or expenditure exists for these transactions.

Amount in question:

\$10,000.00

Cause:

The Member personally paid for a legitimate campaign expense and believed it should be reported when originally

paid.

Effect:

The Member's campaign disclosure report contains noncash transactions that are not reflected in his campaign bank account.

Recommendation:

The Member should amend the applicable campaign disclosure report by reducing the loan balance by \$10,000.00 and removing the corresponding expense. Further, the Member may reimburse himself out of his campaign funds disclose the expenditure in the period that reimbursement is made.

The monthly maintenance fee on your account is \$7.00. The monthly maintenance fee can be waived when you maintain a \$500 minimum collected balance, or have a \$100 or more payroll direct deposit into the account each statement cycle. The minimum collected balance is the balance in the Everyday Checking account, less the amount of any checks deposited that are in the process of being collected. Payroll direct deposits are ACH payroll/income deposits that include salary, Social Security income, dividends, pension, or other regular monthly income from an employer or third party agency. Transfers from one account to another or deposits made at a banking location or ATM are excluded.

Keep your SunTrust Accounts safer.
Use unique usernames and passwords for your online bank accounts.
It's best not to recycle the same username and password on multiple websites where you have an online profile - especially your financial accounts.
Also, try to avoid characters from your email, phone number, birthdate or other personal information.

### ADVISORY OPINION 2018 - 6

The House Legislative Ethics Committee (HEC) received a request from a Member for an advisory opinion. The Member's request for an advisory opinion had three parts. They are as follows:

- 1. The Member requested clarification as to whether he or she could use a third party account/provider (such as Paypal) to accept online contributions; and
- 2. Could the Member pay campaign expenses directly from the online account prior to the transfer of the online contributions to the Member's campaign bank account; and
- 3. The Member also questioned that if such accounts were permissible, what were the specific rules for reporting contributions made and expenditures related to the third party sites.

Pursuant to House Rule 4.16C.(4), the Committee renders the following advisory opinion.

#### DISCUSSION

# A. Can a Candidate or Member use a Third Party On-Line Account for Acceptance of Campaign Contributions

As background, some examples of third party accounts include Paypal, Piryx, ActBlue (a partner with Paypal), Anedot, and Moon Clerk. These third party accounts are commonly referred to as "merchant accounts" and "payment gateways." A merchant account is an online account that enables electronic transactions; whereas, a payment gateway transmits funds from the merchant account to a linked bank account. See, Chargify, What is a merchant account and payment gateway and how do they work with Chargify (2018),available https://www.chargify.com/blog/what-is-a-merchant-account-and-payment-gateway-and-how-dothey-work-with-ch/ (last accessed June 5, 2018). In recent years, many merchant accounts and financial gateway providers have created platforms specifically for candidates to accept political

ActBlue is the Democratic online fund-raising organization and has led the movement toward small online political donations. See <a href="https://www.nytimes.com/2014/10/09/upshot/how-actblue-became-a-powerful-force-in-fund-raising.html">https://www.nytimes.com/2014/10/09/upshot/how-actblue-became-a-powerful-force-in-fund-raising.html</a>.

The HEC further notes that it is now common practice for candidates and Members to use a third party account to accept campaign contributions.

First, there is the "small donor" contribution. While a candidate or Member does not have to individually report the name, address, and occupation of the contributor for a contribution made for less than \$100.00 on the Campaign Disclosure (CD) report, it is incumbent for the candidate or Member to keep records on each such contribution.<sup>2</sup>

Second, pursuant to S.C. Code Ann. Section 8-13-1308(F)(2)-(3), in the Ethics Act, the name and address of each person making a contribution of more than one hundred dollars<sup>3</sup> and the amount and date of receipt of each contribution must be reported on the CD report and the amount of all expenditures. Thus, for any contribution candidates or Members accepted online, the candidate or Member must report under "contributions" the full amount of the contribution, the name, address, and occupation of the contributor on the candidate or Member's CD report. Under the expenditure section of the same CD report, the candidate and Member must report the maintenance fee retained by the third party account for handling and transmitting the contribution to the candidate or Member's campaign bank account. For example, if Jane Smith contributed \$100.00 through Paypal to candidate Frank Jones, then Frank Jones would report the \$100 contribution by Jane Smith under "contributions" and the \$3.20 maintenance fee (2.9% + \$0.30 per transaction) under "expenditures" on his CD report.

The Committee notes that the better practice, although not required by the Ethics Act, would be to report each individual contribution received so if contributions over \$1,000.00 per election cycle are received, it would be reflagged for the filer prior to filing his or her CD report. Further, when the contributor reaches \$100.00 in contributions for that election cycle, then the contributor and the required ethics information must be reported on the next CD report.

The Committee notes an example of a state which has addressed the transfer of campaign funds from a merchant account through the use of a payment gateway is Montana. In 2016, Montana by Administrative Rule 44.11.408 clarified the rules regarding electronic contribution reporting. Specifically, this Administrative Rule provided:

- (1) A candidate or political committee may accept electronic contributions from online payment service providers and payment gateways as contributions.
- (b) A contribution made through an online service provider, such as Paypal or Google Wallet, shall be deposited in the campaign account.
- (c) Any electronic contribution shall be deposited in the designated campaign account within five business days of actual receipt or conversion.
- (2) All electronic contributions shall be reported according to the requirements for contributions set out in these rules.

<sup>&</sup>lt;sup>2</sup> Currently, candidates or Members report these contributions on their CD reports as "unitemized contributions." Once a person contributes in the aggregate more than one hundred dollars, the candidate or Member will need to report the name, address, and occupation of the contributor.

- (a) An electronic contribution shall be reported as received on the day the electronic contribution is made to the online service provider or payment gateway, regardless of whether the contribution has actually been received.
- (b) The full value of the contribution shall be reported as received from the contributor, not the amount as received from the service.
- (c) Each service charge or conversion fee incurred or discounted by the payment service provider shall be reported as a campaign expenditure in accordance with these rules.
- (4) If the electronic contribution amount exceeds the candidate contribution limit, the contributor must be issued a refund for the excess funds via check or through an online payment system from the campaign account. If it is not possible to return only a portion of the funds, the entire contribution must be returned.
- (5) All candidates and political committees that receive electronic contributions are subject to the same limits, prohibitions, reporting, and disclosure requirements as monetary contributions, as outlined in these rules.
- (5) All candidates and political committees that receive electronic contributions are subject to the same limits, prohibitions, reporting, and disclosure requirements as monetary contributions, as outlined in these rules.

## Montana Administrative Rule 44.11.408. (Emphasis added).

The Committee finds that the full value of the contribution received online must be reported on the candidate or Member's CD report. Also, the service charge or maintenance fee incurred must also be reported under "expenditures" on the candidate or Member's CD report. The total amount of the maintenance fees for the quarter can be reported rather than the individual maintenance fee for each contribution.

Candidates and Members also must follow the statute regarding when the online contributions must be transferred to the candidate or Member's campaign bank account, S.C. Code Ann. Section 8-13-1312 states in part:

All contributions received by the candidate or committee, directly or indirectly, must be deposited in the campaign account by the candidate or committee within ten days after receipt. All contributions received by the candidate or committee, directly or indirectly, must be deposited in the campaign account by the candidate or committee within ten days after receipt. All contributions received by an agent of a candidate or committee must be forwarded to the candidate or committee not later than five days after receipt. A contribution must not be deposited until the candidate or committee receives information regarding the name and address of the contributor.

## S.C. Code Ann. Section 8-13-1312. [Emphasis added.]

Thus, the Committee finds that the candidate or Member must ensure that the online contribution is transferred to his or her campaign bank account within ten days after the contribution is made online.

# C. Payment of Campaign Expenditures from the Third Party Account before Contributions transferred to the campaign bank account

The next issue concerns the payment of campaign expenditures directly from a third party online account before the contribution made online is transmitted to the candidate or Member's campaign bank account. S.C. Code Ann. Section 8-13-1312, regarding campaign bank accounts explains:

Except as is required for the separation of funds and expenditures under the provisions of Section 8-13-1300(7), a candidate shall not establish more than one campaign checking account and one campaign savings account for each office sought, and a committee shall not establish more than one checking account and one savings account unless federal or state law requires additional accounts. For purposes of this article, certificates of deposit or other interest bearing instruments are not considered separate accounts. A candidate's accounts must be established in a financial institution that conducts business within the State and in an office located within the State that conducts business with the general public. The candidate or a duly authorized officer of a committee must maintain the accounts in the name of the candidate or committee. An acronym must not be used in the case of a candidate's accounts. An acronym or abbreviation may be used in the case of a committee's accounts if the acronym or abbreviation commonly is known or clearly recognized by the general public. Except as otherwise provided under Section 8-13-1348(C), expenses paid on behalf of a candidate or committee must be drawn from the campaign account and issued on a check signed by the candidate or a duly authorized officer of a committee. All contributions received by the candidate or committee, directly or indirectly, must be deposited in the campaign account by the candidate or committee within ten days after receipt. All contributions received by an agent of a candidate or committee must be forwarded to the candidate or committee not later than five days after receipt. A contribution must not be deposited until the candidate or committee receives information regarding the name and address of the contributor. If the name and address cannot be determined within seven days after receipt, the contribution must be remitted to the Children's Trust Fund.

Section 8-13-1312. (Emphasis added).

The Committee finds that third party accounts such as merchant accounts are not a campaign checking and/or savings account as required by Section 8-13-1312, and, thus a campaign expenditure from that account prior to transfer to the campaign bank account is not permissible but must be made through a campaign bank account.

The Committee further notes that Section 8-13-1348(C)(1) - (2) requires:

(1) An expenditure of more than twenty-five dollars drawn upon a campaign account must be made by: (a) a written instrument; (b) debit card; or (c) online transfers. The campaign account must contain the name of the candidate or committee, and the expenditure must contain the name of the recipient. These expenditures must be reported pursuant to the provisions of Section 8-13-1308.

(2) Expenditures of twenty five dollars or less that are not made by a written instrument, debit card, or online transfer containing the name of the candidate or committee and the name of the recipient must be accounted for by a written receipt or written record.

Section 8-13-1348(C)(1) - (2). "Electronic fund transfer" (which is similar to online transfer) means "any transfer of funds, other than a transaction originated by check, draft, or similar paper instrument, which is initiated through an electronic terminal, telephonic instrument, or computer or magnetic tape so as to order, instruct, or authorize a financial institution to debit or credit an account." https://definitions.uslegal.com/e/electronic-funds-transfer-EFT/.

# D. Is the Third Party Account required to register with the S.C. Attorney General's Office as a Money Transmitter?

Finally, the Committee notes that a candidate and Member should be cognizant of the South Carolina Anti-Money Laundering Act, S.C. Code Ann. § 35-11-100 et seq.<sup>4</sup> The Act requires a money transmitter to obtain a license with the S.C. Attorney General's office, Money Services Division (Division). See <a href="http://www.seag.gov/civil/money-services">http://www.seag.gov/civil/money-services</a>. Section 35-11-200 provides:

- (A) A person may not engage in the <u>business of money transmission or advertise</u>, solicit, or hold himself out as providing money transmission unless the person is:
- (1) licensed under this chapter or approved to engage in money transmission pursuant to Section 35-11-210;
- (2) an authorized delegate of a person licensed pursuant to this article; or
- (3) an authorized delegate of a person approved to engage in money transmission pursuant to Section 35-11-210.
- (B) A license issued pursuant to this chapter is not transferable or assignable.
- S.C. Code Ann. Section 35-11-200. (emphasis added). "Any person conducting money transmission ... services in the State of South Carolina as of May 25, 2018, must file an application with the Division no later than the close of business on June 29, 2018." See <a href="http://2hsvz0174ah31vgcm16peuy12tz.wpengine.netdna-cdn.com/wp-content/uploads/2018/05/Licensing-Memo-01623034xD2C78.pdf">http://2hsvz0174ah31vgcm16peuy12tz.wpengine.netdna-cdn.com/wp-content/uploads/2018/05/Licensing-Memo-01623034xD2C78.pdf</a>

Thus, the Committee finds that it is incumbent for the candidate or Member to verify with the Division whether the third party online services he or she is using is registered as a money transmitter or exempt from registration. Staff was informed by Counsel with the Division that any exemptions will be made through interpretative or advisory opinions.

#### CONCLUSION

The Committee finds that online contributions through a third party provider are permitted provided that the information required of the candidate or Member by the Ethics Act is available to the candidate or Member. The Committee finds that for any contribution candidates or Members

<sup>&</sup>lt;sup>4</sup> The Editor's note to this Act states: "This act takes effect one year after approval of this act by the Governor [approved June 9, 2016] or upon the publication in the State Register of final regulations implementing the act, whichever occurs later." The final regulations were effective May 25, 2018.

accepted online through a third party provider, the candidate or Member must report under "contributions" the full value of the contribution received online, the name, address, and occupation of the contributor on the candidate or Member's CD report. The Committee also finds that under the "expenditure" section of the same CD report, the candidate and Member must report the maintenance fee retained by the third party provider for handling and transmitting the contribution to the candidate or Member's campaign bank account. The Committee finds that the candidate or Member must ensure that the online contribution is transferred to his or her campaign bank account within ten days after the contribution is made online. Moreover, the Committee finds that a campaign expenditure made from the third party account prior to transfer of the contributions to the campaign bank account is not permissible but must be made through a campaign bank account. Finally, the Committee notes that the candidate or Member should verify with the Division as to whether the third party online services he or she is using is registered as a money transmitter or exempt from registration.

Adopted June 20, 2018.
