2016 Annual Restructuring Report Extension Request Guidelines

PLEASE NOTE:

The information included in the agency's report will appear online for all legislators and the public to view.

Agency Name: Department of Health and Environmental Control

Date Request Submitted: **January 12, 2016**

Background

Committee Standard Practices 4.2.2 - 4.2.4

Extensions for Annual Restructuring Reports

- 4.2.2 The Chairman may, for reasons he determines as good cause, provide an agency an extension and new deadline to submit its Annual Restructuring Report ("New Deadline"). The Chairman will not provide more than two extensions without unanimous consent from the full committee.
- 4.2.3 Before the Chairman will consider a request from an agency for an extension, the agency must fully complete a Committee Extension Request form, as approved by the Committee Chairman, and provide it to the Chairman for consideration.
- 4.2.4 Until the agency receives a response, it should continue to complete the report to the best of its ability as if it is due on the original deadline.

Submission Process

Note this Extension Request Form will be published online.

Agency	Department of Health and Environmental Control
Date of Submission	42381

<u>Instructions</u>: Please complete this Extension Request Form. The completed form should be submitted electronically to the House Legislative Oversight Committee (HCommLegOv@schouse.gov) in both the original format (Excel) and saved as a PDF for online reporting. Please direct any questions about this process to Jennifer Dobson (jenniferdobson@schouse.gov) or Charles Appleby (charlesappleby@schouse.gov).

Extension Request

1	State the date the agency orginially received the report guidelines:	24-Nov-15
2	State the date the agency submitted this request for an extension:	12-Jan-16
3	State the orginial deadline for the report:	January 12, 2016, first day of session as provided by statute
4	State the number of additional days the agency is requesting:	19
5	State the new deadline if the additional days are granted:	31-Jan-16

II. History of Extensions

1 List the years in which the agency previously requested an extension, putting the 2015 years the extension was gratned in bold:

III. Good Cause

Submission Process

1 Please state good cause as to why the Committee should grant the extension requested by the agency. Please limit the response to 1,000 words or less.

The S.C. Department of Health and **Environmental Control** (DHEC) is an Agency undergoing transformation- new leadership, new priorities and a new approach to how we do business. The Agency has been in close communication with Committee staff throughout the development of this report, meeting with staff twice in person and through multiple phone conversations. We believe that we are on the right path to *meet the intentions* and expectations of the Committee. However, an extension is requested in order to

IV. Verfication

1 Please state the name of the agency head, or person designated and authorized by the agency head to do so, that has approved and reviewed the information provided in this Extension Request form.

Does the agency head, or designated person by the agency head, affirm that the **Yes** information contained in this form from the agency is complete and accurate to the extent of his or her knowledge.

Katherine A. Phillips

٧. **Committee Response**

Leave this section blank.

1 Date extension was granted:

2

- 2 Number of additional days granted:
- 3 New deadline for agency response:

12-Jan-16

19 days

31-Jan-16

This is the first chart in the report because the legal standards which apply to the agency should serve as the basis for the agency's mission, vision and strategic plan.

Agency Responding	Department of Health and Environmental Control
Date of Submission	2/5/2016

Instructions: List all state and federal statutes, regulations and provisos that apply to the agency ("Laws") and a summary of the statutory requirement and/or authority granted in the particular Law listed. If the agency grouped Laws together last year, they can continue to do so this year. However, please be aware that when the agency goes under study, the House Legislative Oversight Committee will ask it to list each Law individually. The Committee makes this request so the agency can then analyze each of the Laws to determine which current Laws may need to be modified or eliminated, as well as any new Laws possibly needed, to allow the agency to be more effective and efficient or to ensure the Law matches current practices and systems. Included below is an example, with a partial list of Laws which apply to the Department of Juvenile Justice. Please delete the example information before submitting this chart in final form. NOTE: Responses are not limited to the number of rows below that have borders around them, please list all that are applicable.

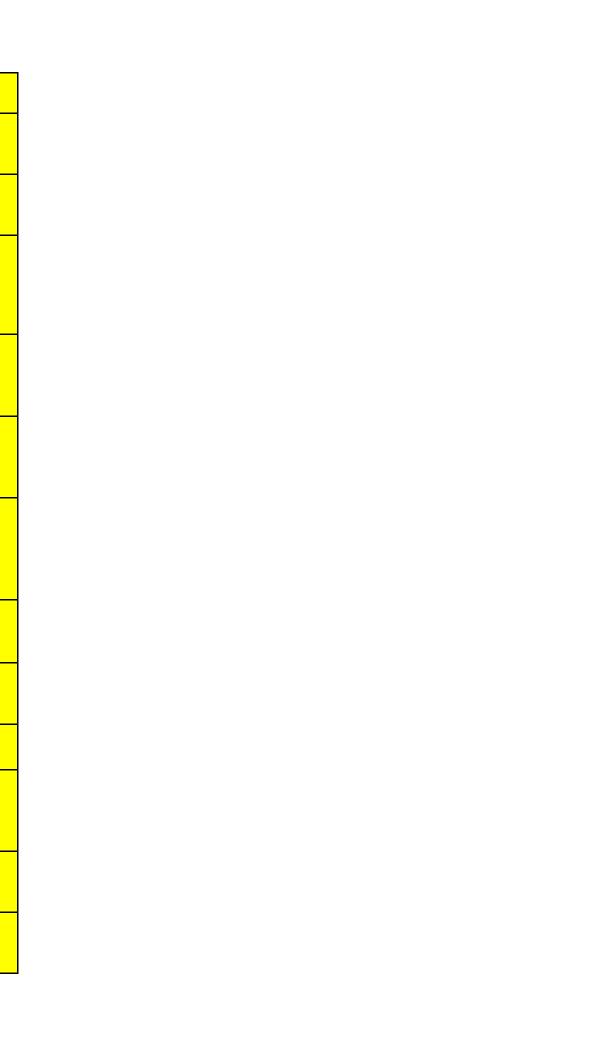

Item #	Statute, Regulation, or Proviso Number	State or Federal	Summary of Statutory Requirement and/or Authority Granted	Is the law a Statute, Proviso or Regulation?
1	§ 44-1-20 through 44-1-70	State	Enabling legislation for the Department of Health and Environmental Control - establishes the Department and the Board of Health and Environmental Control, their powers and procedures.	Statute
2	§ 44-1-80	State	Duties and powers of Board as to communicable diseases - sets forth the powers of the Board of Health and Environmental Control when it comes to the investigation and prevention of communicable diseases.	Statute
3	§ 44-1-90	State	towns, cities, and counties in South Carolina.	Statute
4	§ 44-1-100	State	Assistance from peace and health officers - sets forth the requirement that sheriffs and constables, police officers and health officers, in towns, cities, counties, and other municipalities, must assist the Director of the Department to carry out restrictive measures for the prevention and control of communicable diseases.	Statute
5	§ 44-1-110	State	Duties of Department in regard to public health, in general - establishes the Department as the sole advisor of the state in all questions involving the protection of the public health and sets forth the Department's duties in regards to the protecting the public health.	Statute
6	§ 44-1-130	State	Department may establish health districts and district advisory boards of health - provides the authority for the Department to divide the state into health districts and establish advisory boards within those districts.	Statute

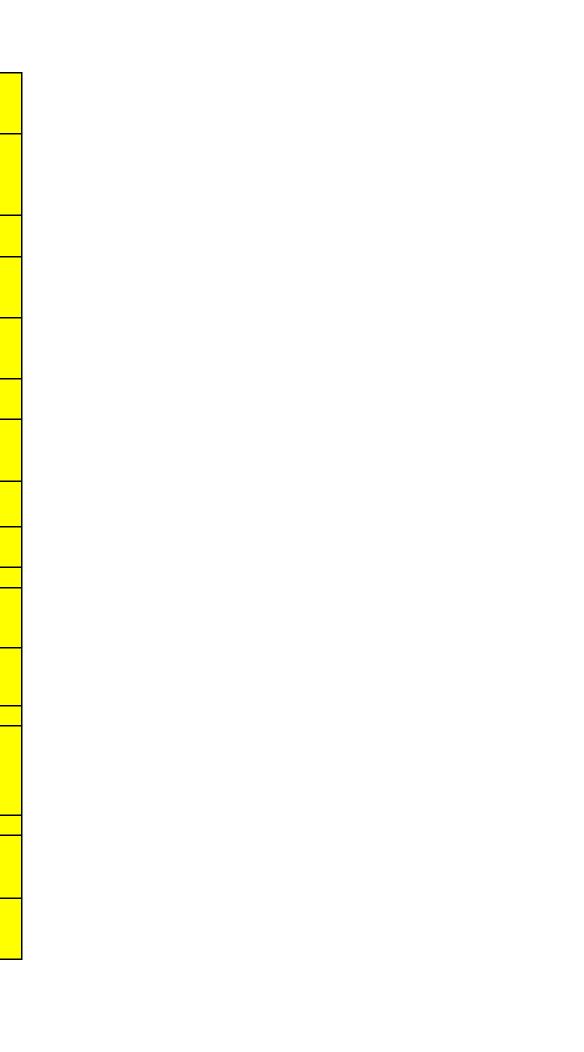

7	§ 44-1-140	State	Department may promulgate and enforce rules and regulations for public health establishes areas in which the Department may promulgate rules and regulations as well as providing the Department authority to issue orders to address emergencies.	Statute
8	§ 44-1-150	State	Penalty for violating rules of the department - addresses the ability of the Department to issue penalties associated with failures to follow rules, regulations, and directives of the Department.	Statute
9	§ 44-1-170	State	Department shall supervise local boards of health - authorizes the Department to direct and supervise the action of local boards of health.	Statute
10	§ 44-1-180	State	Department may establish charges for health care - provides that the Department may charge for medical services it provides.	Statute
11	§ 44-1-190	State	Department may investigate ability to pay and determine amount of charges; contracts for care and treatment - allows Department to investigate financial ability of patients to pay for services and set fees accordingly.	Statute
12	§ 44-1-200	State	Department may provide home health services - gives the Department the discretion to provide home health services in the state.	Statute
13	§ 44-3-10	State	Municipal corporations may maintain boards of health; supervisory control - allows municipalities to establish local boards of health, which function under the administration, control, and guidance of the Department.	Statute
14	§ 44-3-110 through - 150	State	Catawba Health District - establishes the Catawba Health District, consisting of Chester, Lancaster, and York counties, which is under the direction and control of the Department.	Statute
15	§ 44-4-100 through - 570	State	The Emergency Health Powers Act - establishes the Emergency Health Powers Act, which allows for additional powers for the control of property and persons during the declaration of a state of public health emergency as called for by the Governor.	Statute
16	§ 44-7-2410 through -2460	State	Hospital Infections Disclosure Act - provides that individual hospitals must collect date on hospital inquired infection rates and submitted reports to the Department.	Statute
17	§ 44-7-2510 through -2610	State	Infants and Toddlers with Disabilities Act - provides for early intervention services to infants and toddlers with disabilities.	Statute
18	§ 44-29-10 et seq.	State	Contagious and Infectious Diseases (see below).	Statute
19	§ 44-29-10	State	Reporting deaths from contagious or infectious diseases and chemical or other terrorism; increased prescription rates of drugs for diseases caused by chemical terrorism or infectious agents - requires the reporting by physicians, pharmacists, and health care providers of certain cases of contagious and infectious diseases to the Department for purpose of the Department's investigation and establishes penalties associated with failures to report.	Statute
20	§ 44-29-15	State	Reporting requirements for laboratories testing for certain infectious or other diseases; civil penalty - requires laboratories to report certain positive or reactive tests of infectious or communicable diseases to the Department and establishes penalties for failure to report.	Statute

21	§ 44-29-20	State	Transportation and handling of human remains infected by dangerous, contagious, or infectious disease - establishes certain notification requirements of human remains infected by dangerous, contagious, or infectious disease; the Department is given responsibility for distributing to hospitals, health or medical clinics and others who are frequently in possession of human remains a list declaring what diseases are regarded as dangerous, contagious, or infectious.	Statute
22	§ 44-29-40 through - 50	State	Vaccinations, screening, and immunization - establishes the Department as having general direction and supervision of vaccination, screening, and immunization in the state.	Statute
23	§ 44-29-60	State	Sexually transmitted diseases declared dangerous to the public health; infection of another with sexually transmitted disease - establishes STDs as dangerous to the public health and makes it unlawful for anyone to knowingly expose another to infection.	Statute
24	§ 44-29-70 through - 80	State	Reports of cases of sexually transmitted diseases - establishes requirements for the reporting of STDs to the Department.	Statute
25	§ 44-29-90	State	Examination, treatment, and isolation of persons infected with venereal disease - provides for the examination and treatment of people with STDs by health officers and allows for isolation; requires the Department to investigate cases of HIV and to maintain confidentiality.	Statute
26	§ 44-29-115	State	Procedure for isolation - establishes the procedure by which the Department may isolate an individual infected with an STD.	Statute
27	§ 44-29-130	State	Adoption of regulations pertaining to sexually transmitted disease - authorizes the Department to promulgate regulations to protect the public health from STDs.	Statute
28	§ 44-29-135	State	Confidentiality of sexually transmitted disease records - provides for strict confidentiality by the Department for its STD records and provides limited exceptions for their disclosure.	Statute
29	§ 44-29-136	State	Court orders for disclosure of records for law enforcement purposes; confidentiality of safeguards - provides a procedure by which solicitors or state criminal law enforcement agencies may obtain STD records held by the Department.	Statute
30	§ 44-29-145	State	Penalties pertaining to venereal disease - establishes penalties for violation of rules, orders, and regulations of the Department regarding venereal disease.	Statute
	§ 44-29-145	State	Penalty for exposing others to Human Immunodeficiency Virus - creates penalties against individuals for exposing others to HIV.	Statute
32	§ 44-29-150 through -170	State	Staff of schools and child care centers to be evaluated for tuberculosis before initial hiring - requires testing for tuberculosis and the presentation of a certificate from a physician declaring one to be negative.	Statute
33	§ 44-29-180 through -190	State	Vaccination and immunization as prerequisite to school admission - prohibits children from attending public schools and day care centers without proof of vaccinations, with certain exemptions; establishes penalties for violation of the requirement.	Statute

	r ocarraar as			
2.4	§ 44-29-195	State	Head lice - prohibits children from attending school with head lice and	Statute

45	380		abortion clinics.	
	§ 44-53-10 through -		Poisons, Drugs, and Other Controlled Substances - provides the general powers	
	50 till ough -	State	given to the Department concerning poisons, drugs, and other controlled	Statute
46	30		substances.	

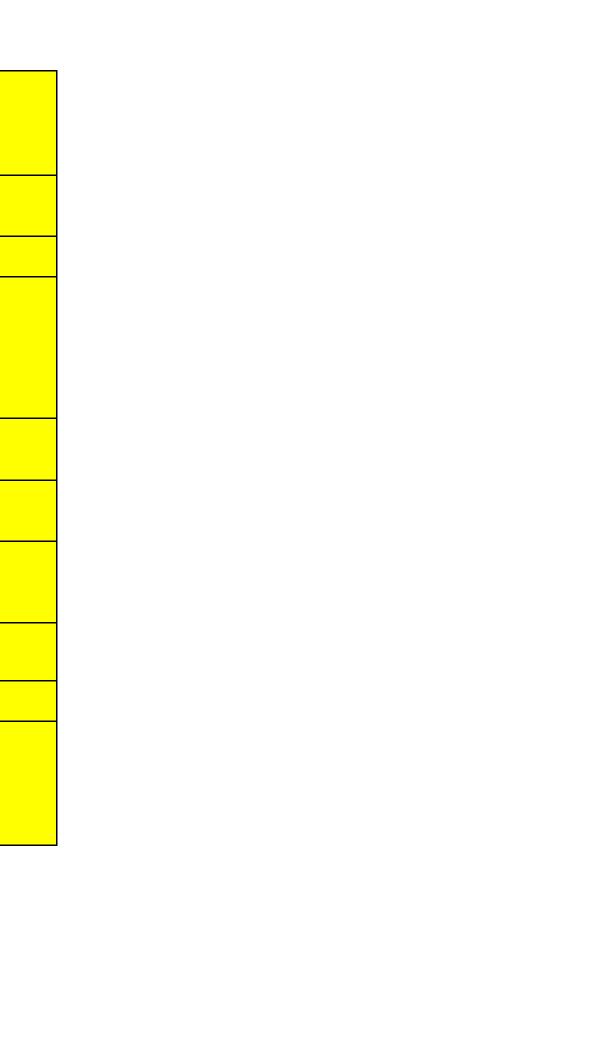

47	§ 44-53-160 through -270	State	substances are classified into schedules and sets forth Schedules I through V.	Statute
48	§ 44-53-280	State	Controlled Substances - grants the Department the authority to promulgate rules and regulations regarding the requirement of certain health care professionals to obtain a registration prior to prescribing, manufacturing, or distributing controlled substances.	Statute
49	§ 44-53-290	State	Establishes the requirement of and authority granted by a controlled substance registration and identifies individuals exempt from registration.	Statute
50	§ 44-53-300 through -320	State	Granting of registration - establishes the process for someone to apply for a controlled substances registration as well as the grounds and procedures for denial, revocation, or suspension.	Statute
51	§ 44-53-330	State	Requires that a copy of a judgment of a person convicted of a violation of the controlled substances act be sent to the clerk of court of the person's licensing board.	Statute
52	§ 44-53-340	State	Requires those with a controlled substances registration to maintain records and inventories.	Statute
53	§ 44-53-350	State	Provides that Schedule I and II substances can only be distributed by one registrant to another pursuant to an order form prescribed by the Department.	Statute
54	§ 44-53-360	State	Prescriptions - establishes that certain controlled substances may only be dispensed pursuant to a prescription and sets forth other related provisions.	Statute
55	§ 44-53-365	State	Theft of controlled substances - sets forth penalties for the theft of controlled substances.	Statute
56	§ 44-53-370	State	Establishes certain prohibited acts under the controlled substances act.	Statute
57	§ 44-53-375	State	Establishes violations and penalties for the possession, manufacture, and trafficking of methamphetamine and cocaine base and other controlled substances.	Statute
58		State	Makes it unlawful to dispose of waste from production of methamphetamine and establishes penalties and emergency response restitution.	Statute
59	§ 44-53-378	State	Makes it unlawful to expose a child to methamphetamine.	Statute
60	§ 44-53-380 through -391, -395 through -400, -420, - 440 through -445	State	Establishes certain additional prohibited acts under the Controlled Substances Act.	Statute
61	§ 44-53-430	State	Creates an appeals process from orders of the Department.	Statute
62	§ 44-53-450 through -470	State	Establishes criteria and procedures for probation, a conditional discharge, reduced sentences, and expungement relating to controlled substances offenses, including the definition of "second or subsequent offense."	Statute
63	§ 44-53-475	State	Financial transactions, monetary instruments, or financial institutions involving property or proceeds of unlawful activities in narcotic drugs or controlled substances, including penalties.	Statute

	1			
64	§ 44-53-480 through -570	State	Statutes relating to the enforcement of all laws pertaining to illicit traffic in controlled and counterfeit substances, handling of seized controlled substances, drug inspectors, procedures for issuance and execution of administrative inspection warrants, forfeitures, prosecutions, and service of search warrants.	Statute
65	§ 44-53-577	State	Illegal acts involving persons under 17 years of age, including penalties.	Statute
66	§ 44-53-582 through -590	State	Provides for the return of monies used to purchase controlled substances, the return of seized items to innocent owners, and penalties for the use of property in a manner which makes it subject to forfeiture.	Statute
67	§ 44-53-610 through -660	State	Establishes the South Carolina Controlled Substances Therapeutic Research Act of 1980.	Statute
68	through 44-53-660	State	Controlled Substances Therapeutic Research Act of 1980 - Establishes a program within DHEC to distribute to cancer chemotherapy, radiology, and glaucoma patients, certified pursuant to the Act, marijuana under the terms and conditions of the Act for the purpose of alleviating the patient's discomfort, nausea, and other painful side effects of their disease or chemotherapy treatments.	Statute
69	§ 44-53-710 through -760	State	Provides for the control over methadone by the Department.	Statute
	§ 44-53-1310 through -1495	State	Creates the Childhood Lead Poisoning Prevention and Control Act whereby the Department establishes a program for the early diagnosis of cases of childhood lead poisoning and its prevention.	Statute
71	§ 44-53-1610 through -1680	State	Establishes the Prescription Monitoring Program whereby the Department maintains and establishes a program to monitor the prescribing and dispensing of all Schedule II, III, and IV controlled substances.	Statute
72	§ 44-63-10 though - 180	State	Empowers the Department to establish a bureau of vital statistics and to provide an adequate system for the registration and certification of births, deaths, marriages, and divorces.	Statute
73	§§ 43-5-910 through -970	State	Women, Infants, and Children Supplemental Food Program (WIC) - allows for the implementation of the federal WIC program to provide nutritional education and supplemental foods to pregnant and breastfeeding women, infants, and children.	
74		State	Adolescent Pregnancy and Prevention - provides that the Department shall provide technical assistance and training to county governments and contractors, as needed, related to adolescent pregnancy prevention issues and share information with county governments, contractors, and program applicants about the nature of the problem, available resources, and potential barriers.	Statute
75	§§ 44-128-10 through -50	State	South Carolina Youth Smoking Prevention Act - provides for the development and implementation of a youth smoking prevention plan.	Statute

0 -	i Stariaaras			
			Controlled Substances - implements the provisions of Section 44-53-10, et seq.,	
			of the S.C. Code of Laws and establishes the requirements necessary to ensure

83	N. 01-22	State	and requirements for screening school employees for tuberculosis.	Regulation
			Control of Anthrax - makes illegal the transport or possession of anthrax into or	
84	R. 61-23	State	though the state.	Regulation
			Health Care Cooperative Agreements - implements the legislative intent that	
			there be a state regulatory program to permit and encourage cooperative	
			agreements between hospitals, health care purchasers, or other health care	
	R. 61-31	State	providers which would otherwise violate federal or state anti-trust laws when	Regulation
			the benefits outweigh disadvantages caused by their potential adverse effects	
85			on competition.	

	1			
86	R. 61-80	State	Neonatal Screening for Inborn Metabolic Errors and Hemoglobinopathies - establishes rules implementing provisions of Section 44-37-30 of the S.C. Code of Laws regarding testing of newborn children for inborn metabolic errors and hemoglobinopathies; the Department has been given the legislative mandate to promulgate rules and regulations for screening for inborn metabolic errors and hemoglobinopathies and to ensure compliance with the screening of every child born in South Carolina; the responsibilities of the various agencies, institutions, and persons involved in the screening process are defined; procedures for storage and use of blood specimens and maintenance of confidentiality are included.	Regulation
87	R. 61-88	State	Charges for Maternal and Child Health Services - implements federal requirements for the charging of maternal and child health services.	Regulation
	R. 61-89	State	Charges for Family Planning Services - implements federal requirements for the charging of maternal and child health services.	Regulation
89	R. 61-94	State	WIC Vendors - establishes requirements for the application, approval, monitoring, and disqualification of vendors under the Women, Infants, and Children program.	Regulation
90	R. 61-112	State	Implementation of Emergency Health Powers Act - provides procedures for responding to the occurrence or imminent risk of a qualifying health condition in a manner which is consistent with the authorities of S.C. Code Ann. Sections 44-1-110 through -140, the Emergency Health Powers Act (S.C. Code Ann. Section 44-4-10 et seq.), S.C. Code Ann. Sections 44-29-10 through -50, Regulations 61-16 and 61-20, and the State Emergency Response Plan with its supporting annexes, appendices, and Standard Operating Procedures; it is intended to provide for timely recognition of sources or potential sources of disease, identification of victims or potential victims, delivery of health care, application of appropriate public health measures, and assurance of due process and personal privacy commensurate with the public health threat.	Regulation
91	R. 61-114	State	South Carolina Birth Defects Program - establishes standards for implementing provisions of Sections 44-44-10 through 44-44-160 of the South Carolina Code of Laws regarding the public health monitoring of birth defects identified in children up to two years of age in South Carolina; the Birth Defects Act of 2004 established the South Carolina Birth Defects Program (SCBDP) within the Department; the Department has been given the legislative mandate to promulgate regulations for public health monitoring of birth defects and to ensure compliance with the public health monitoring of children born in South Carolina; the responsibilities of the various agencies, institutions, and persons involved in public health surveillance and monitoring of birth defects are defined; procedures for public health surveillance and monitoring, use of data, and maintenance of confidentiality are included.	Regulation
	D 61 117	State	Access to Restricted Information - This regulation pertains to information that has been designed pursuant to the S.C. Freedom of Information Act.	Regulation

	•			
93	R. 61-120	State	South Carolina Immunization Registry - provides rules, implementing Section 44-29-40 of the S.C. Code of Laws regarding the S.C. Immunization Registry requirements for reporting immunizations occurring in South Carolina, implementation and operation of the registry, data elements to be collected, content of electronic forms and reports, and the procedures for disclosure of confidential registry information.	Regulation
94	Proviso 34.1	State	DHEC: County Health Department Funding - the sum of \$25,000 shall be distributed to the county health departments by the commissioner, with the approval of the DHEC Board, for the following purposes: (1) To insure the provision of a reasonably adequate public health program in each county; (2) To provide funds to combat special health problems that may exist in certain counties; (3) To establish and maintain demonstration projects in improved public health methods in one or more counties in the promotion of better public health service throughout the state; (4) To encourage and promote local participation in financial support of the county health departments; (5) To meet emergency situations which may arise in local areas; (6) To fit funds available to amounts budgeted when small differences occur.	Proviso
95	Proviso 34.2	State	DHEC: County Health Units - general funds made available to the Department for the allocation to the counties of the state for operation of county health units.	Proviso
96	Proviso 34.3	State	DHEC: Camp Burnt Gin - Private donations or contributions for the operation of Camp Burnt Gin are deposited in a fund, carried forward, and made available as needed to fund the operation of the camp.	Proviso
97	Proviso 34.4	State	DHEC: Children's Rehabilitative Services - The Children's Rehabilitative Services shall be required to utilize any available financial resources including insurance benefits and/or governmental assistance programs, to which the child may otherwise be entitled in providing and/or arranging for medical care and related services to physically handicapped children eligible for such services, as a prerequisite to the child receiving such services.	Proviso
98	Proviso 34.5	State	DHEC: Cancer/Hemophilia - Notwithstanding any other provisions of this act, the funds appropriated herein for prevention, detection, and surveillance of cancer as well as providing for cancer treatment services, \$545,449 and the hemophilia assistance program, \$1,186,928 shall not be transferred to other programs within the agency and when instructed by the Executive Budget Office or the General Assembly to reduce funds within the Department by a certain percentage, the Department may not act unilaterally to reduce the funds for any cancer treatment program and hemophilia assistance program provided for herein greater than such stipulated percentage.	Proviso
99	Proviso 34.6	State	DHEC: Local Health Departments - Counties of the state will be relieved of contribution requirements for salary, fringe benefits, and travel reimbursement to local health departments.	Proviso

			DHEC: Insurance Refunds - The Department of Health and Environmental Control	
	Proviso 34.7	State	is authorized to budget and expend monies resulting from insurance refunds for	Proviso
100			prior year operations for case services in family health.	
			DHEC: Rape Violence Prevention Contract - Of the amounts appropriated in Rape	
			Violence Prevention, \$1,103,956 shall be used to support programmatic efforts	
	Proviso 34.9	State	of the state's rape crisis centers with distribution of these funds based on the	Proviso
			Standards and Outcomes for Rape Crisis Centers and each center's	
101			accomplishment of a preapproved annual action plan.	
			DHEC: Sickle Cell Blood Sample Analysis - \$16,000 is appropriated in	
			Independent Living for the Sickle Cell Program for blood sample analysis and	
	Proviso 34.10	State	shall be used by the Department to analyze blood samples submitted by the four	Proviso
102			existing regional programs.	
			DHEC: Sickle Cell Programs - \$761,233 is appropriated for Sickle Cell program	
103	Proviso 34.11	State	services.	Proviso
103			DHEC: Genetic Services - The sum of \$104,086 appearing under the Independent	
	Proviso 34.12	State	Living program of this act shall be appropriated to and administered by the	Proviso
			Department for the purpose of providing appropriate genetic services to	
104			medically needy and underserved persons.	
			DHEC: Revenue Carry Forward Authorization - The Department is hereby	
			authorized to collect, expend, and carry forward revenues in the following	
			programs: sale of goods (confiscated goods, arm patches, etc.), sale of meals at	
			Camp Burnt Gin, sale of publications, brochures, Spoil Easement Areas revenue,	
			performance bond forfeiture revenue for restoring damaged critical areas, beach

			not limited to, pet rabies vaccination certificate books, sale of listings and labels,	
			sale of State Code and Supplements, sale of films and slides, sale of maps, sale of	
			items to be recycled, including, but not limited to, used motor oil and batteries,	
			sale and/or licensing of software products developed and owned by the	
105			Department, and collection of registration fees for non-DHEC employees.	
			DHEC: Prohibit Use of Funds - The Department of Health and Environmental	
	Proviso 34.27	State	Control must not use any state appropriated funds to terminate a pregnancy or	Proviso
106	1101100 0 1127	State	induce a miscarriage by chemical means.	1101100
100			DHEC: Meals in Emergency Operations - The cost of meals may be provided to	
			state employees who are required to work during actual emergencies and	
	Proviso 34.28	State	emergency simulation exercises when they are not permitted to leave their	Proviso
107			stations.	
107			DHEC: Compensatory Payment - In the event the President of the United States	
			has declared a state of emergency or the Governor has declared a state of	
	Proviso 34.29	State	emergency in a county in the state, Fair Labor Standards Act exempt employees	Proviso
			of the Department may be paid for actual hours worked in lieu of accruing	
400			compensatory time, at the discretion of the agency director, and providing funds	
108			are available.	

	T	l		
109	Proviso 34.32	State	and distribution system of appropriate antiviral, antibiotic, and vaccine medicines and medical supplies; in the event the U.S. Department of Health and Human Services makes available medicines or vaccines for purchase by states via federal contract or federally subsidized contract or other mechanism, the Department, with Executive Budget Office approval, may access appropriated or earmarked funds as necessary to purchase an emergency supply of these medicines for the state of South Carolina. DHEC: Pharmacist Services - for the current fiscal year, provisions requiring that	Proviso
110	Proviso 34.33	State	all Department facilities distributing or dispensing prescription drugs be permitted by the Board of Pharmacy and that each pharmacy have a pharmacist-	Proviso
111	Proviso 34.35	State	DHEC: Rural Hospital Grants - Rural Hospital Grants funds shall be allocated to public hospitals in very rural or rural areas whose largest town is less than 25,000 and whose licensed bed capacity does not exceed 200 beds.	Proviso
112	Proviso 34.36	State	source, for Camp Burnt Gin must not be reduced in the event the Department is required to take a budget reduction.	Proviso
113	Proviso 34.37	State	DHEC: Metabolic Screening - The Department may suspend any activity related to blood sample storage as outlined in Section 44 37-30 (D) and (E) of the 1976 Code, if there are insufficient state funds to support the storage requirements. In that event, the samples may be destroyed in a scientifically appropriate manner after testing. The Department shall notify providers of the suspension within 30 days of its effective date.	Proviso
114	Proviso 34.38	State	DHEC: Fetal Pain Awareness - The Department must utilize at least \$100 to prepare printed materials concerning information that unborn children at 20 weeks gestation and beyond are fully capable of feeling pain and the right of a woman seeking an abortion to ask for and receive anesthesia to alleviate or eliminate pain to the fetus during an abortion procedure. The materials must be provided to each abortion provider in the state and must be placed in a conspicuous place in each examination room at the doctor's office.	Proviso

			T	
115	Proviso 34.39	State	DHEC: South Carolina Health Integrated Data Services - From funds appropriated for Chronic Disease Prevention, the Department shall establish a S.C. Health Integrated Data Services (SCHIDS) program to disseminate data about prevalence, treatment, and cost of disease from the S.C. Health and Human Services Data Warehouse and in particular the Medicaid system. The purpose of the program is to educate communities statewide about improving health and wellness through lifestyle changes.	Proviso
116	Proviso 34.40	State	DHEC: Abstinence Education Contract - For the current fiscal year, funds made available to the state of South Carolina under the provisions of Title V, Section 510, may only be awarded to other entities through a competitive bidding process.	Proviso
117	Proviso 34.41	State	DHEC: Immunizations - The Department is authorized to utilize the funds appropriated for immunizations to hire temporary personnel to address periods of high demand for immunizations at local health departments.	Proviso
118	Proviso 34.44	State	DHEC: Obesity - The Department is charged with addressing the public health of our citizens and shall be the convener and coordinator of the fight against obesity in South Carolina; because addressing the obesity epidemic requires behavioral, educational, systemic, medical, and community involvement, the following state agencies should use their best efforts to cooperate with the requests of the Department and its partners to facilitate an environment that decreases body mass index (BMI): Department of Education; Department of Health and Human Services; Department of Social Services; Department of Mental Health; Medical University of South Carolina; University of South Carolina Arnold School of Public Health; Department of Parks, Recreation, and Tourism; Department of Commerce; Department of Transportation; and Commission for the Blind; in addition, school districts must provide the Department with information regarding their progress towards meeting certain provisions of the Student Health and Fitness Act of 2005.	Proviso
119	Proviso 34.45	State	DHEC: Tuberculosis Outbreak - Upon discovery of a tuberculosis outbreak, the Department may expend any funds available to the agency, for the purpose of surveillance, investigation, containment, and treatment activities related thereto; during an investigation of an index tuberculosis patient, the Department, through the South Carolina Health Alert Network, must notify the patient's community that a tuberculosis contact investigation is being conducted into the possible exposure to tuberculosis; other requirements are also included in the proviso.	Proviso
120	Proviso 34.46	State	DHEC: Abstinence- Until- Marriage Emerging Programs - From the funds appropriated to DHEC in this act as a special item and titled "Abstinence-Until-Marriage Emerging Programs" the Department shall award a 12-month grant for abstinence-until-marriage emerging programs; this funding shall be awarded by the Department only to nonprofit 501(c)(3) agencies meeting all the A-H Title V, Section 510 definitions of Abstinence Education.	Proviso

		_		
121	Proviso 34.47	State	DHEC: Abstinence - Until- Marriage Evidence-Based Program Funding - From the monies appropriated for the Continuation of Teen Pregnancy Prevention, contracts must be awarded to separate private, nonprofit 501(c)(3) entities to provide Abstinence Until Marriage teen pregnancy prevention programs and services within the state that meet all of the A-H Title V, Section 510 definitions of Abstinence Education.	Proviso
122	Proviso 34.49	State	DHEC: Birthing Center Inspections - For this fiscal year, birthing centers, accredited by the Commission on Accreditation of Birth Centers on or before July 1, 2014, must register an on-call agreement and any transfer policies with the Department; the on-call agreement shall contain provisions which provide that the on-call physician is readily available to provide medical assistance either in person or by telecommunications or other electronic means, which means the physician must be within a 30-minute drive of the birthing center or hospital, must be licensed in the state of South Carolina, and shall provide consultation and advice to the birthing center at all times it is serving the public; furthermore, a birthing center shall document in its practice guidelines and policies the ability to transfer care to an acute care hospital with obstetrical and newborn services and must demonstrate this by: (A) coordinated transfer care plans, protocols, procedures, arrangements, or through collaboration with one or more acute care hospitals with appropriate obstetrical and newborn services; and (B) admitting privileges at one or more hospitals with appropriate obstetrical and newborn services by a birthing center's consulting physician.	Proviso
123	Proviso 34.53	State	DHEC: Maternal Morbidity and Mortality Review Committee - From the funds appropriated to or authorized for the Department of Health and Environmental Control in Fiscal Year 2015-16, the Department shall establish a Maternal Morbidity and Mortality Review Committee to review maternal deaths and to develop strategies for the prevention of maternal deaths.	Proviso
	42 USC § 300gg; 29 USC § 1181, et seq.; 42 USC § 1320d, et seq.; 45 CFR Part 160, Part 162 and Part 164	Federal	Health Insurance Portability and Accountability Act of 1996, as amended - establishes requirements for the protection of personal health information; Subtitle D of the HITECH Act addresses the privacy and security concerns associated with the electronic transmission of health information, in part, through several provisions that strengthen the civil and criminal enforcement of the HIPAA rules.	Statute
125	Title XIII of division A and title IV of division B of the American Recovery and Reinvestment Act of 2009 (ARRAJ), Public Law 11-5	Federal	Health Information Technology for Economic and Clinical Health Act - contains incentives related to health care information technology in general (e.g. creation of a national health care infrastructure) and contains specific incentives designed to accelerate the adoption of electronic health record (EHR) systems among providers.	Public Law

				T
12	Pub. L. 110-233, 122 Stat. 881 (2008)	Federal	Genetic Information Nondiscrimination Act - a U.S. Congress Act designed to prohibit the use of genetic information in health insurance and employment.	Public Law
12	42 U.S.C. §§ 300, et seq.	Federal	Title X of the Public Health Service Act - federal grant program dedicated solely to providing individuals with comprehensive family planning and related preventive health services.	Statute
12	7 C.F.R. Part 246	Federal	Special Supplemental Nutrition Program for Women, Infants, and Children - provides federal grants to states for supplemental foods, health care referrals, and nutrition education for low-income pregnant, breastfeeding, and non-breastfeeding postpartum women, and to infants and children up to age 5 who are found to be at nutritional risk.	Regulation
12	Pub.L. No. 111–148, 124 Stat. 119 (2010), as amended	Federal	Patient Protection and Affordable Care Act - the comprehensive health care reform law enacted in March 2010. The law was enacted in two parts: the Patient Protection and Affordable Care Act was signed into law on March 23, 2010 and was amended by the Health Care and Education Reconciliation Act on March 30, 2010. The name "Affordable Care Act" is used to refer to the final, amended version of the law.	Statute
13	42 U.S.C. § 12101 et seq.	Federal	Americans with Disabilities Act of 1990 (ADA) - prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities. The ADA also establishes requirements for telecommunications relay services.	Statute
13	§ 44-1-140 1	State	Department May Promulgate an Enforce Rules and Regulations for Public Health - general authority to promulgate regulations regarding protection of public health.	Statute

204	§§ 44-67-10 through -130	State	Litter Control Act [REPEALED].	Statute
205	§§ 44-87-10 through -50	State	Asbestos Abatement License - provides authority for regulation of asbestos abatement through permitting of specific abatement projects.	Statute
206	§§ 44-93-10 through -240	State	Infectious Waste Management Act - provides authority to regulate infectious waste, infectious waste generators, and treatment, storage, transport, and disposal of infectious waste.	Statute
207	§§ 44-96-10 through -470	State	Solid Waste Policy and Management Act - provides authority to regulate solid waste, landfills, and landfill operators.	Statute
208	§§ 47-20-10 through -170	State	Confined Swine Feeding Operations [REPEALED].	Statute
209	§§ 48-1-10 through -350	State	to the environment.	Statute
210	§§ 48-2-10 to 48-2- 90	State	Environmental Protection Fund Act - creates a fund to defray the costs of administering several enumerated environmental acts.	Statute

		•		
211	§ 48-5-10	State	Water Quality Revolving Fund Authority Act - provides authority for administration of Water Quality Revolving Fund, compliant with federal Clean Water Act, to provide funding for capital improvements to water systems.	Statute
212	§§ 48-14-40 through -140	State	Stormwater Management and Sediment Reduction Act - provides authority to regulate land disturbing activities and stormwater management.	Statute
213	§§ 48-18-10	State	Erosion and Sediment Reduction Act - specifies DHEC as agency responsible for regulating sediment reduction and stormwater management programs in South Carolina.	Statute
214	§§ 48-20-10 through -310	State	South Carolina Mining Act - provides for greatest practical degree of protection and restoration of lands involved with mining, and that all mining in the state is contingent upon plans including reasonable provision.	Statute
215	§§ 48-39-10 through -360	State	Coastal Tidelands and Wetlands - provides authority to regulate tidelands and wetlands to protect the coastal environment and promote the economic and social improvement of the coastal zone.	Statute
216	§§ 48-43-10 through -850	State	Oil and Gas Exploration, Drilling, Transportation, and Production - provides authority for regulation of activities involving oil and gas exploration and production, both onshore and offshore, and for the protection of the environment from releases of oil and gas into the environment.	Statute
217	§§ 48-57-10 through -110	State	Environmental Audit Privilege and Voluntary Disclosure - provides limited civil liability protection for violations of environmental regulations under narrowly prescribed circumstances where an entity self-reports such a violation.	Statute
218	§§ 48-60-05 through -150	State	S.C. Manufacturer Responsibility and Consumer Convenience Information Technology Equipment Collection and Recovery Act - provides for safe disposal, recycling, and refurbishment of covered devices (computer equipment) and requires DHEC to provide information to the public regarding proper methods of disposal and the prohibition on disposing of such devices in solid waste landfills.	Statute
219	§§ 49-1-10 through -90	State	Water, Water Resources, and Drainage - provides for the protection of navigable waters from obstructions to such navigation, and for permits for any construction impacting navigability.	Statute
220			Surface Water Withdrawal and Reporting Act - provides requirement that surface water withdrawers using volumes of water above a statutory threshold register or obtain a permit for their withdrawal, and for DHEC to administer said registrations and permits.	Statute
221	§§ 49-5-10 through - 150	State	Groundwater Use and Reporting Act - provides for the protection, conservation, and regulation of groundwater.	Statute
222	§§ 49-11-110 through -260	State	Dams and Reservoirs Safety Act - provides authority to regulate, inspect, and certify dams in South Carolina.	Statute
223	§§ 13-7-20 through - 140	State	Atomic Energy and Radiation Control Act - designates DHEC as the state agency responsible for regulating radiation sources (but not nuclear reactors or facilities or operations in duplication of regulatory activity of the federal government).	Statute

			I	1
			Permits for Construction in Navigable Waters - authorizes DHEC to serve as	
	R. 19-450	State	permitting agency for any dredging, filling, or construction or alteration activity	Regulation

_				
241	R. 30-18	State	Beachfront Restoration Fund - provides for procedure for administering funds for beach restoration projects when funds are available.	Regulation
242	R. 30-21	State	Beachfront Management Plan - provides requirements for adoption of comprehensive beachfront management plans.	Regulation
243	R. 61-9	State	Water Pollution Control Permits - provides requirements for and authority to administer National Pollutant Discharge Elimination System (NPDES) permits, and establishes procedures for permitting decisions and water quality standards.	Regulation
244	R. 61-29	State	Environmental Health Inspections and Fees - provides authority to establish inspection fees to defray cost of inspections at various regulated institutions and facilities.	Regulation
245	R. 61-30	State	Environmental Protection Fees - provide authority to establish fees for the administration of various environmental programs, and for the issuance of various environmental permits, licenses, certifications, and registrations, along with establishing penalties, appeals, and schedules applicable to such fees.	Regulation
246	R. 61-33	State	Dry-cleaning Facility Restoration - provides for the administration of a fund for the remediation of contamination related to dry-cleaning facilities.	Regulation
247	R. 61-43	State	Standards for the Permitting of Agricultural Animal Facilities - provides authority for permitting the construction and operation of agricultural animal operations for the protection of health and the environment.	Regulation
248	R. 61-44	State	Permitting of Individual Residential Wells and Irrigation Wells - establishes permitting authority and requirements for wells and well water.	Regulation
249	R. 61-46	State	Nuisances - provides authority to abate certain environmental and health nuisances.	Regulation
250	R. 61-47	State	Shellfish - provides technical requirements for shellfish harvesting operations and grants Department authority to regulate such operations.	Regulation
251	R. 61-49	State	Crabmeat - provides technical requirements for crabmeat operations and grants Department authority to regulate such operations (in process of repeal).	Regulation
252	R. 61-50	State	Natural Public Swimming Areas - provides regulatory requirements for maintaining natural public swimming areas.	Regulation
253	R. 61-51	State	Public Swimming Pools - provides authority to regulate public swimming pools and requirements for owners and operators of such pools.	Regulation
254	R. 61-55	State	Septic Tank Site Evaluation Fees - provides authority to establish fees for evaluating septic tank sites.	Regulation
255	R. 61-56	State	Onsite Wastewater Systems - provides technical requirements for onsite wastewater systems.	Regulation
256		State	License to Construct or Clean On-Site Sewage Treatment and Disposal Systems and Self-Contained Toilets - provides for the regulation of persons engaged in the business of constructing, repairing, or cleaning onsite sewage treatment and disposal systems and cleaning self-contained toilets, to protect public health and the environment.	Regulation

			Licensure of Onsite Wastewater System Contractors - provides for regulation of	
	R. 61-56.2	State	onsite wastewater master contractors to ensure proper construction,	Regulation
257			installation, and approval of all onsite wastewater systems.	
			Development of Subdivision Water Supply and Sewage Treatment/Disposal	
	R. 61-57	State	Systems - provides regulation of subdivision wastewater and drinking water	Regulation
258			systems.	
			State Primary Drinking Water Regulations - provides standards and procedures	
	R. 61-58	State	for the maintenance of reasonable standards of purity of drinking water in the	Regulation
259			state.	
	R. 58.1	State	Construction and Operating Permits - provides requirements for permits to	Regulation
260	N. 56.1	State	construct and operate a drinking water system.	Negalation
	R. 58.2	State	Groundwater Sources and Treatment - provides for regulation specific to	Regulation
261	N. 30.2	State	groundwater sources of drinking water.	Regulation
	D E0 2	State	Surface Water Sources and Treatment - provides for regulation specific to	Regulation
262	R. 58.3	State	surface water sources of drinking water.	negulation
	D 50 4	CL I	Finished Water Pumping, Storage, and Distribution Facilities - provides for	D 1.1
263	R. 58.4	State	regulation of specific drinking water system facilities.	Regulation
			Maximum Contaminant Loyals in Drinking Water adopts CDA standard for	
	R. 58.5	State	Maximum Contaminant Levels in Drinking Water - adopts EPA standard for	Regulation
264			maximum contaminant levels in drinking water for various harmful constituents.	
			Reports, Record Retention, and Public Notification - establishes requirements for	
	R. 58.6	State	water system operators to report to the Department, to maintain records, and	Regulation
265			notify the public under specified circumstances.	
	D 50.7	CL I	Operation and Maintenance - provides operation and maintenance	D 1.1
266	R. 58.7	State	requirements for all public water systems.	Regulation
	D 50.0	CL I	Emergency Procedures - establishes the minimum requirements that must be	D 1.1
267	R. 58.8	State	met by all public water systems prior to, during, and after an emergency.	Regulation
			Variances and Exemptions - provides authority to issue variances and	
	R. 58.9	State	exemptions from primary drinking water regulations under limited	Regulation
268			circumstances no less stringent than the federal Safe Drinking Water Act.	
	D F0 10	Ctoto	Filtration and Disinfection - establishes criteria and requirement for filtration and	Dogulation
269	R. 58.10	State	disinfection of drinking water served to the public.	Regulation
	D FO 11	Ctoto	Control of Lead and Copper - establishes corrosion control and other treatment	Dogulation
270	R. 58.11	State	techniques for drinking water systems.	Regulation
	R. 58.12	Ctata	Consumer Confidence Reports - establishes minimum criteria for annual reports	Regulation
271	n. 36.12	State	from community water systems to their customers.	negulation
			Disinfectant Residuals, Disinfection Byproducts, and Disinfection Byproduct	
			Precursors (Stage 1 Disinfectants and Disinfection Byproducts Rule) - Establishes	
	R. 58.13	State	criteria and requirements for the control of disinfectants, disinfection	Regulation
			byproducts, and disinfection byproduct precursors for water systems.	
272			byproducts, and disinfection byproduct precursors for water systems.	
			Initial Distribution System Evaluations - establish monitoring and other	
	R. 58.14	State	requirements for identifying compliance monitoring locations specified in 61-	Regulation
273			58.15.	

			Stage 2 Disinfection Byproducts Requirements - establishes additional criteria for	
274	R. 58.15	State	control of disinfectants and byproducts.	Regulation
	R. 58.16	State	Ground Water Rule - establishes additional requirements for all public water systems that use ground water except that it does not apply to public water systems that combine all of their ground water with surface water or with ground water under the direct influence of surface water prior to treatment.	Regulation
276	R. 58.17	State	Revised Total Coliform Rule - establishes limitation on total coliform in water systems.	Regulation
277	R. 61-62	State	Air Pollution Control Regulations and Standards - establishes primary air quality standards and requirements for permitting operations impacting air quality.	Regulation
278	R. 61-62.1	State	Definitions and General Requirements - establishes definitions used throughout Regulation 61-62 inclusive of standards.	Regulation
279	R. 61-62.2	State	Prohibition of Open Burning - establishes regulatory limitations on open burning of materials.	Regulation
280	R. 61-62.3	State	Air Pollution Episodes - establishes criteria for declaration of air pollution "episodes" based on information from National Weather Service, and grants Department authority to respond to such episodes.	Regulation
281	R. 61-62.4	State	Hazardous Air Pollution Conditions - establishes requirements for curtailment of any hazardous conditions presenting and imminent threat to health.	Regulation
282	R. 61-62.5	State	Air Pollution Control Standards (inclusive of Standards 1-8 below) - establishes limitations on discharges to the ambient air of specific constituents and discharges from regulated operations.	Regulation
283	Standard No. 1	State	Emissions from Fuel Burning Operations - See R 61-62.5.	Regulation
284	Standard No. 2	State	Ambient Air Quality Standards - See R 61-62.5.	Regulation
285	Standard No. 3	State	Waste Combustion and Reduction - See R 61-62.5.	Regulation
286	Standard No. 3.1	State	Hospital, Medical, Infectious Waste Incinerators - See R 61-62.5.	Regulation
287	Standard No. 4	State	Emissions from Process Industries - See R 61-62.5.	Regulation
288	Standard No. 5	State	Volatile Organic Compounds - See R 61-62.5.	Regulation
289	Standard No. 5.1	State	Best Available Control Technology [BACT]/Lowest Achievable Emission Rate "LAER" Applicable to Volatile Organic Compounds - [REPEALED].	Regulation
	Standard No. 5.2	State	Control of Oxides of Nitrogen (N0x) - See R 61-62.5.	Regulation
	Standard No. 7	State	Prevention of Significant Deterioration - See R 61-62.5.	Regulation
292	Standard No. 7.1	State	Nonattainment New Source Review - See R 61-62.5.	Regulation
293	Standard No. 8	State	Toxic Air Pollutants - See R 61-62.5.	Regulation
294	R. 61-62.6	State	Control of Fugitive Particulate Matter - establishes requirements to control fugitive particulate matter.	Regulation
295	R. 61-62.7	State	Good Engineering Practice Stack Height - limits credit available for stack height as dispersion technique for meeting National Ambient Air Quality Standards.	Regulation
296	R. 61-62.60	State	S.C. Designated Facility Plan and New Source Performance Standards - provides detailed technical requirements for facilities and sources of ambient air discharges.	Regulation

0-	i Starraare

	1	_		
324	R. 61-107	State	Solid Waste Management Regulations - establishes regulatory guidance to achieve the purposes of the Solid Waste Policy and Management Act of 1991 (44-96-10 et seq.).	Regulation
325	R. 61-107.1	State	Solid Waste Management: Solid Waste Management Grants, Recycling, Education Grants, and Waste Tire Grants - establishes procedures for disbursement of solid waste management grants, recycling education grants, and waste tire grants to local governments or regions for solid waste management and recycling education in accordance with the intent of the legislature; to assist local governments, regions, and public school districts in meeting the requirements of the Solid Waste Policy and Management Act of 1991.	Regulation
326	R. 61-107.2	State	Solid Waste Management: Full Cost Disclosure - requires local governments to account for and report full cost of solid waste management.	Regulation
327	R. 61-107.3	State	Solid Waste Management: Waste Tires - regulates activities of waste tire haulers, collectors, processors, and disposers.	Regulation
328	R. 61-107.4	State	Solid Waste Management: Compost and Mulch Production, Yard Trimming and Organic Residuals - establish minimum standards for the proper management of yard trimmings, land-clearing debris, and other organic material; to encourage composting and establish standards for the production of compost; and to ensure that operations are performed in a manner that is protective of public health and the environment.	Regulation
329	R. 61-107.5	State	Solid Waste Management: Collection, Temporary Storage, and Transportation of Municipal Solid Waste - establishes minimum standards for the collection, temporary storage, and transportation of solid waste prior to processing, disposal, etc. of that waste.	Regulation
330	R. 61-107.6	State	Solid Waste Management: Solid Waste Processing Facilities - establishes the procedures, documentation, and other requirements which must be met for the proper operation and management of all solid waste processing facilities, including the processing activities involving the unrecoverable solid waste at a Materials Recovery Facility.	Regulation
331	R. 61-107.7	State	Solid Waste Management: Transfer of Solid Waste - establishes minimum standards for facilities where solid waste is transferred from collection vehicles to other transportation units for movement to another solid waste management facility prior to its processing and disposal.	Regulation
332	R. 61-107.8	State	Solid Waste Management: Lead-Acid Batteries - regulates the proper disposal, collection, and recycling of lead-acid batteries and small sealed lead-acid batteries.	Regulation
333	R. 61-107.9	State	Solid Waste Management: White Goods - establishes procedures for proper management and recycling or disposal of inoperative or discarded refrigerators, ranges, water heaters, freezers, dishwashers, trash compactors, washers, dryers, air conditioners, and commercial large appliances.	Regulation

	1			
334	R. 61-107.10	State	Solid Waste Management: Research, Development, and Demonstration Permit Criteria - provides for permitting solid waste management facilities, or parts of these facilities, proposing to utilize an innovative and experimental solid waste management technology or process.	Regulation
335	R. 61-107.12	State	Solid Waste Management: Solid Waste Incineration and Solid Waste Pyrolysis Facilities - establishes the procedures, documentation, and other requirements which must be met for the proper operation and management of all solid waste incineration facilities, including all solid waste pyrolysis facilities, and waste-to-energy facilities burning solid waste used for energy recovery.	Regulation
336	R. 61-107.14	State	Solid Waste Management: Municipal Solid Waste Landfill Operator's Certification - establishes minimum training and certification requirements for operators of municipal solid waste landfills and municipal solid waste incinerator ash landfills.	Regulation
337	R. 61-107.15	State	Solid Waste Management: Land Application of Solid Waste - establishes appropriate application rates, frequency of application, and monitoring requirements for the uniform surface spreading or mechanical incorporation of non-hazardous solid waste on, or into, soil that is being used for agricultural, silvicultural, and horticultural production. This regulation also applies to the application of solid waste on land that is being reclaimed to enhance its aesthetic value or to reduce environmental degradation. The land application of non-hazardous solid waste shall be for beneficial agricultural, silvicultural, and horticultural purposes and not used as a means of disposal.	Regulation
338	R. 61-107.17	State	Solid Waste Management: Solid Waste Management: Demonstration of Need - establishes the criteria for the demonstration-of-need for the construction of new and the expansion of existing solid waste landfills.	Regulation
339	R. 61-107.18	State	Solid Waste Management: Off-Site Treatment of Contaminated Soil - establishes minimum standards for the procedures, documentation, and other requirements which must be met for the proper site selection, design, operation, and closure of facilities treating contaminated soil and soil-like materials.	Regulation
340	R. 61-107.19	State	Solid Waste Management: Solid Waste Landfills and Structural Fill - establishes minimum standards for the site selection, design, operation, and closure of all solid waste landfills and structural fill areas.	Regulation
341	R. 61-107.279	State	Solid Waste Management: Used Oil - regulates the disposition of used oil, mixtures including oil, and equipment utilizing oil.	Regulation
342	R. 61-110	State	Total Maximum Daily Loads (TMDLs) for Pollutants in Water - establishes the process for public participation in and administrative appeals of total maximum daily loads into impaired waters.	Regulation
343	R. 61-113	State	Groundwater Use and Reporting Act - establishes procedures to maintain, conserve, and protect the groundwater resources of the state.	Regulation
344	R. 61-115	State	Environmental Electronic Reporting Requirements - provides the framework by which the Department will accept, manage, and enforce electronic record submissions from the regulated community.	Regulation

345	R. 61-119	State	Surface Water Withdrawal, Permitting, Use, and Reporting - establishes a system and rules for permitting and registering the withdrawal and use of surface water from within the state of South Carolina and those surface waters shared with adjacent states.	Regulation
346	R. 72-1 through 72.9	State	Dams and Reservoirs Safety Act Regulations - provides technical requirements for dam classification, permitting of construction, repairs, and removal of dams, and provides regulation for general administration of the Dams and Reservoirs Safety Program.	Regulation
347	R. 72-101 through 72-108	State	Erosion and Sediment Reduction and Stormwater Management Regulations (Applicable to state-controlled land) - set forth requirements for erosion and sediment control and stormwater management measures to be used on state land to prevent damage to land, water, and property from erosion, sediment, and stormwater.	Regulation
348	R. 72-300 through 72-316	State	Standards for Stormwater Management and Sediment Reduction - encourages the implementation of the Stormwater Management and Sediment Reduction Act by local governments.	Regulation
349	R. 72-405 through 72-445	State	Standards for Stormwater Management and Sediment Reduction [Applicable to S.C. Department of Transportation] - applies stormwater management criteria to the land disturbing activities of the S.C. Department of Transportation.	Regulation
350	R. 89-10 through 89- 350	State	Office of the Governor - Mining Council of South Carolina - applies permitting and operating criteria on mining operations within the state.	Regulation
351	R. 121-8 through 121-8.28	State	Oil and Gas Exploration, Drilling, and Production - establishes reporting and operating criteria for oil and gas operations in the state.	Regulation
352	Proviso 34.16	State	DHEC: Infectious Waste Contingency Fund - authorizes the use of not more than \$75,000 from the Infectious Waste Contingency Fund per year for personnel and operating expenses to implement the Infectious Waste Act.	Proviso
353	Proviso 34.18	State	DHEC: Mineral Sets Revenue - authorizes the Department to charge a reasonable fee for mineral sets.	Proviso
354	Proviso 34.19	State	DHEC: Spoil Easement Areas Revenue - authorizes the Department to collect, retain, and expend funds received from the sale of and/or third party use of spoil easement areas, for the purpose of meeting the state of South Carolina's responsibility for providing adequate spoil easement areas for the Atlantic Intracoastal Waterway in South Carolina.	Proviso
355	Proviso 34.21	State	DHEC: Allocation of Indirect Cost and Recoveries - directs the Department to continue to deposit in the general fund all indirect cost recoveries derived from state general funds participating in the calculation of the approved indirect cost rate.	Proviso
356	Proviso 34.22	State	DHEC: Permitted Site Fund - authorizes the Department to expend funds as necessary from the permitted site fund established pursuant to Section 44-56-160(B)(1), for legal services related to environmental response, regulatory, and enforcement matters, including administrative proceedings and actions in state and all federal courts.	Proviso

		_		
35	Proviso 34.28	State	DHEC: Meals in Emergency Operations - authorizes meals to be provided to state employees required to work during actual emergencies and emergency simulation exercises if they are not permitted to leave their stations.	Proviso
35	Proviso 34.29	State	DHEC: Compensatory Payment - Exempt employees may be paid for overtime during a declared state of emergency rather than accruing compensatory leave, at the discretion of the director.	Proviso
35	Proviso 34.30	State	DHEC: Beach Renourishment and Monitory and Coastal Access Improvement - limits Department expenditure to not more than \$100,000 of any funds made available for beach renourishment each year.	Proviso
36	Proviso 34.34	State	DHEC: Coastal Zone Appellate Panel - suspends the Coastal Zone Appellate Panel for the current fiscal year.	Proviso
36	Proviso 34.48	State	DHEC: Wave Dissipation Device - permits the initiation of a Wave Dissipation Device pilot program.	Proviso
36	Proviso 34.52	State	DHEC: Seawall Reconstruction/Repair - allows permitting of repairs to certain existing seawalls.	Proviso
36	16 USCA 1451 et seq	State	Coastal Zone Management Act - Encourages and assists coastal states in preserving, protecting, developing, and restoring the resources of the Coastal Zone.	Statute
36	33 USCA 1251 et seq	Federal	Clean Water Act - comprehensive legislation to protect and preserve quality of the waters of the U.S.	Statute
36.	42 USCA 300f et seq	Federal	Safe Drinking Water Act - regulates all public water systems in each state selling water to individuals, and establishes authority to promulgate drinking water quality standards.	Statute
36	42 USCA 7401 et seq	Federal	Clean Air Act - promotes the protection and enhancement of air quality nationwide for public health and welfare, and provides technical and financial assistance to state and local governments for air pollution prevention and control programs.	Statute
36	42 USCA 9601 et seq	Federal	Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) - provides for remediation of contaminated sites, and authorizes states to recover natural resources damages caused by releases of hazardous substances.	Statute

Mission, Vision and Goals

This is the second chart because the agency's mission and vision should have a basis in the legal standards, which the agency provided in the previous chart. After the agency knows the laws it must satisfy, along with its mission and vision, it can then set goals to satisfy those laws and achieve that vision (and the strategy and objectives to accomplish each goal - see next chart). To ensure accountability, one person below the head of the agency should be responsible for each goal. The same person is not required to be responsible for all of the goals.

Agency Responding	Department of Health and Environmental
	Control
Date of Submission	2/5/2016
Fiscal Year for which information	2015-16
below pertains	

Instructions: Provide the agency's mission, vision and laws (i.e. state and/or federal statutes) which serve as the basis for the agency's mission and vision.

Mission	
	To improve the quality of life for all South Carolinians by protecting and promoting the health of the public and the environment.
Legal Basis for agency's mission	All apply, please see Legal Standards worksheet.
Vision	Healthy people living in healthy communities.
Legal Basis for agency's vision	All apply, please see Legal Standards worksheet.

Instructions:

- 1) Under the "Legal Responsibilities Satisfied" column, enter the legal responsibilities (i.e. state and/or federal statutes and provisos) the goal is satisfying. All of the laws mentioned in the previous chart (i.e. Legal Standards Chart) should be included next to one of the agency's goals. When listing the Legal Responsibilities Satisfied, the agency can group the standards together when applicable (i.e. SC Code 63-19-320 thru 63-19-450). Make sure it is clear whether the agency is referencing state or federal laws and whether it is a proviso or statute.
- 2) Under the "Goals and Description" column, enter the number and description of the goal which will help the agency achieve its vision (i.e. Goal 1 Increase the number of job opportunities available to juvenile within the next 2 years). The agency should have 3-4 high level goals.
- 3) Under the "Describe how the Goal is SMART" column, enter the information which shows the goal is Specific, Measurable, Attainable, Relevant and Time-bound.
- 4) Under the "Public Benefit/Intended Outcome" column, enter the intended outcome of accomplishing the goal.
- 5) Under the "Responsible Person" columns, provide information about the individual who has primary responsible Person has different teams of employees beneath him/her to help accomplish the goal. The Responsible Person is the person who, in conjunction with his/her team(s) and approval from higher level superiors, determines the strategy and objectives to accomplish the goal. In addition, this is the person who monitors the progress and makes any changes needed to the strategies and objectives to ensure the goal is accomplished. Under the "Position" column, enter the Responsible Person's position/title at the agency.

Legal Responsibilities Satisfied	Goals & Description	Describe how the Goal is S.M.A.R.T.	Public Benefit/Intended Outcome				
(i.e. state and federal statutes or provisos the goal is satisfying)	(i.e. Goal 1 - insert description)	Specific Measurable Attainable Relevant Time-bound	(Ex. Output = rumble strips are installed on the sides of a road; Outcome = incidents decrease and public perceives that the road is safer) Just enter the intended outcome	Responsible Person Name:	Number of months person has been responsible for the goal or objective:	Position:	
Legal responsibilities for agency goals are satisfied by the corresponding objectives. The following legal responsibilities are aligned with Goal 1: S.C. Code Sections 44-1-110, 44-1-140, 44-128 10 et seq., 44-35-90, 44-39-20, 44-128-10 et seq., 44-39-40, 63-11-1900 et seq., 43-5-910 et seq., 44-37-30, 44-37-40, 44-61-10 et seq., 44-61-30 et seq., 44-110, 44-61-520, 47-5-80 et seq., 44-29-10 et seq., 44-1-100, and 44-4-100 et seq.	Goal 1 - Improve the quality and years of healthy life for all.	The agency's goals provide an overarching framework for decision making, supported by S.M.A.R.T objectives; please refer to the Strategy, Obj. & Responsibility worksheet. The following objectives are aligned with Goal 1: 1.1.1, 1.1.2, 1.1.3, 1.2.1, 1.2.2, 1.3.1, 1.3.2, 1.3.3, 1.4.1, 1.5.1, 1.6.1, 1.6.2 (a), 1.6.2 (b), 1.7.1, 1.7.2. These time-bound objectives use specific measures to improve access to comprehensive, high quality care by completing the transition of military medic to civilian paramedic programs, performing statewide EMS system assessment, and completing implementation of the Stroke System of Care Act; increase support to develop healthy communities by establishing a baseline inventory and objectives for statewide partnerships, and implementing recommendations by the American College of Surgeons to help develop healthy communities; develop an employee health education program for retail food establishments, review 100 percent of reported potential rabies exposures, and investigate 100 percent of reported vector-borne diseases to help protect the public against food-borne outbreaks, vector-borne and rabies diseases; promote healthy behaviors by implementing interventions and methods to reduce health risks caused by tobacco use and exposure to secondhand smoke; reduce the occurrence of vaccine preventable diseases through requiring South Carolina Immunization providers to report 100 percent of administered immunizations into the Immunizations Information Systems registry; improve maternal and child health by increasing the percentage of potentially eligible Women, Infants, and Children (WIC) clients who enroll in WIC nutrition services, increasing the percentage of newborns delivered in South Carolina hospitals whose blood spot screening specimens are submitted to the DHEC laboratory within 24 hours of collection, and increasing the percentage of infants in South Carolina hospitals who receive screenings for hearing impairment; and promote a coordinated, comprehensive public health preparedness an	Reduced occurrences of preventable diseases and increased access to essential health services for all South Carolinians. As well as, continuous improvement of the public health and environment through supporting public engagement and informed decision making.	Lisa Davis, Shelly Kelly, Myra Reece	15 months, 9 months, 2 months	Director of Health Services, Director of Health Regulation, Director of Environmental Affairs	
Legal responsibilities for agency goals are satisfied by the corresponding objectives. The following legal responsibilities are aligned with Goal 2: S.C. Code Sections 44-1-110, 44-1-140, 44-29-10 et seq., and 44-39-10 et seq.	Goal 2 - Eliminate health disparities.	The agency's goals provide an overarching framework for decision making, supported by S.M.A.R.T objectives; please refer to the Strategy, Obj. & Responsibility worksheet. The following objectives are aligned with Goal 2: 2.1.1 (a), 2.1.1 (b), 2.2.1, and 2.2.2. These time-bound objectives use specific measures to reduce disparities in the incidents and impact of communicable diseases by linking at least 80 percent of individuals and targeted minority populations who receive their HIV-positive test results to medical care; reduce disparities in illness, disability, and premature deaths from chronic diseases by increasing the number/percent of minority women screened through the Best Chance Network, and developing and implementing community and faith-based initiatives to address health disparities.	Equal access and care for all South Carolinians.	Lisa Davis	15 months	Director of Health Services	
Legal responsibilities for agency goals are satisfied by the corresponding objectives. The following legal responsibilities are aligned with Goal 3: S.C. Code Ann. Sections 44-1-140, 44-39-10 et seq., 44-1-10 et seq., 44-1-10 et seq., and 44-96-10 et seq.	Goal 3 - Protect, enhance, and sustain environmental and coastal resources.	The agency's goals provide an overarching framework for decision making, supported by S.M.A.R.T objectives; please refer to the Strategy, Obj. & Responsibility worksheet. The following objectives are aligned with Goal 3: 3.1.1, 3.1.2, 3.1.3, 3.1.4, 3.2.1, 3.2.2, 3.3.1, and 3.3.2. These time-bound objectives use specific measures to protect the environment to improve public health and safety by reviewing and developing environmental quality assurance measures, meeting 100 percent of ozone monitoring sites, assessing all water quality monitoring data to determine compliance with water quality standards and statewide general water quality, and increasing the number of Hazardous Waste Small Quantity Generator inspections; protect and enhance environmental and coastal resources by increasing the state recycling rate and the per person disposal rate, as well as improving and increasing public access to beaches; and restore impaired natural resources and sustain them for beneficial use by increasing the number of signed and executed Voluntary Cleanup contracts for brownfields sites and establishing a strategy for long term priority plans for the development of Total Maximum Daily Loads for priority watersheds.	Protected, enhanced, and improved access to environmental resources.	Myra Reece	2 months	Director of Environmental Affairs	

This is the next chart because once the agency determines its goals, and those responsible for each objective. This can be the same person responsible for the goal, if it is a small agency, or, for larger agencies, a person who reports to the person responsible for the goal. The same person is not required to be responsible for all of the objectives.

Agency Responding	Department of Health and Environmental Control
Date of Submission	2/5/2016
Fiscal Year for which information below pertains	2015-16

Instructions

1) Under the "Legal Responsibilities Satisfied" column, enter the legal responsibilities (i.e. state and/or federal statutes and provisos) the goal or objective is satisfying. For each goal, the agency can copy and paste the information from the Mission, Vision and Goals Chart. All of the legal standards mentioned for a particular goal should be included next to one of the objective under that goal. When listing the Legal Responsibilities Satisfied, the agency can group the standards together when applicable (i.e. 63-19-320 thru 63-19-370). Make sure it is clear whether it is a proviso or statute.

2) Under the "Strategic Plan Part and Description" column, enter the strategic plan part number and description (i.e. Goal 1 - Increase the number of job opportunities available to juveniles to 20 per juvenile within the next 2 years). For each goal, the agency and paste the information from the Mission, Vision and Goals Chart. If the agency is still utilizing the same strategies and objectives it submitted as part of the Accountability Report, it can copy and paste those into this chart, then fill in the remainder of the columns. However, if the agency has revised its strategic plan since submitting its last Accountability Report, please provide information from the most current strategic plan.

3) Under the "Describe how it is SMART" column, enter the information which shows how each goal and objective is Specific, Measurable, Relevant and Time-bound.

4) Under the "Public Benefit/Intended Outcome" column, enter the intended outcome of accomplishing each goal and objective.

5) Under the "Responsible Person" columns, provide information about the individual who has primary responsibility/accountability for each goal and objective. The Responsible Person for a goal has different teams of employees beneath him/her to help accomplish the goal. The Responsible Person for a goal is the person who, in conjunction with his/her team(s) and approval from higher level superiors, sets the performance measure targets and beads the game plan for how to accomplish the objective for which he/she is responsible. Under the "Position" column, enter the address" column, enter the department or division at the agency in which the Responsible Person works. Under the "Department/Division" column, enter a brief summary (no more than 1-2 sentences) of what that department or division does in the agency.

Work is currently being completed by the department. Agency will not require assistance from the General Assembly.	n/a	American College of Surgeons, professional, receives best practice information; Trauma Advisory Council, Trauma Association of South Carolina, professional organization, gathers input from members on best practices; SCHA, professional, gathers feedback, input on best practices in health care, serves as advisor on strategic planning.	Shelly Kelly	9 months	Director of Health Regulation	2600 Bull Street, Columbia, S.C. 29201	Health Regulation	Health Regulation's primary purpose is to work with health care facilities and services to protect the public's health by assuring that safe, quality care is provided. Supporting this effort, include the following areas: Health Facilities Licensing and Certification; Certificate of Need (CON); Emergency Medical Services (EMS) and Trauma; Radiological Health; Construction, Fire and Life Safety; and Drug Control.
The agency does not need to insert the information for the rest of the columns for any strategy, type "n/a"	Strategy 1.3 - Protect the public against food-borne outbreaks, vector-borne, and rabies diseases.	n/a	i i	Impact could be large if certain steps are not taken to mitigate. Disease will spread and create issues with absenteeism, loss of productivity, time off from work, lack of available staff in childcare settings and/or schools, increased potential for death among individuals including those who are immunocompromised, etc.	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
S.C. Code Ann. Sections 44-1-110 and 44-1-140.	Objectives 1.3.1 - By December 31, 2016, develop ar employee health education program for retail food establishments to help decrease the potential of food-borne outbreaks.	Specific: Yes, develops a specific education program. Measurable: Yes, by the number of inspections completed, and education materials and special training sessions provided to retail food establishments across the state. Attainable: Yes. Relevant: Yes, protects the public against food-borne outbreaks. Time-bound: Yes, by December 31, 2016.	Protect public health and safety through reducing the potential of food-borne outbreaks.	Potential Negative Impact: Increase in potential cases of food-borne outbreaks related to retail food establishments not adequately following employee health requirements. According to information provided by the USDA, the estimated annual cost of food borne illnesses for South Carolina is \$232,247,271.10. This estimate is based on projected cases not confirmed cases. The negative impact would be an impact to tourism and the restaurant industry. According to South Carolina Restaurant and Lodging Association (SCRLA), the Old South BBQ food borne outbreak in 2005 caused dining at buffet type restaurants in South Carolina to be reduced by 20% in the two months following the outbreak. Level Requires Outside Help: Outside help is not required; Level Required to Inform General Assembly: n/a; Outside Help to Request: n/a; General Assembly Options: Agency will not require assistance from the General Assembly.		Retail food establishments statewide, business entities, offers education and gathers feedback on business practices, technology and factors in everyday restaurant operation; SCRLA, professional organizations, outreach efforts to member businesses, gathers feedback on industry practices and standards; CDC, and Food and Drug Administration (FDA), USDA, government, receives standards and technical guidance for implementation of best practices.	Myra Reece	2 months	Director of Environmental Affairs	2600 Bull Street, Columbia, S.C. 29201	Environmental Affairs	Environmental Affairs consists of five bureaus: Air Quality, Environmental Health Services, Land & Waste Management, Water, and the Office of Ocean & Coastal Resource Management.
S.C. Code Ann. Sections 44-1-110 and 47-5-80 et seq.	Objective 1.3.2 - By December 31, 2016, review 100 percent of reported potential rabies exposures statewide.	Specific: Yes, review of reported potential exposures. Measurable: Yes, by the number of animal bites reported. Attainable: Yes. Relevant: Yes, protects the public against rabies. Time-bound: Yes, within 12 months.	Protect public health and safety through monitoring potential rabies exposures.	Potential Negative Impact: Increase in potential rabies exposures due to lack of adequate monitoring, testing, and preventive treatment. According to the CDC, the estimated public health expenditures on rabies disease diagnostics, prevention, and control in the U.S. is \$245 to \$510 million annually. This estimate is based on available data on costs associated with the vaccination of companion animals (dogs and cats), national rabies diagnostic testing, and for biologics for rabies post-exposure prophylaxis (PEP) and pre-exposure prophylaxis (PEP) and pre-exposure prophylaxis (PEP) and pre-exposure prophylaxis (PEP) and mover that expenditures on rabies accounting for associated health care costs, animal control measures, and time lost from work is much greater. The number of PEP treatments given in the U.S. each year is unknown; however, it is estimated to be about 40,000 to 50,000. When rabies becomes epizootic or enzootic in a region, the number of PEP treatments in that area increases. Although the cost varies, a course of rabies immune globulin and four doses of vaccine given over a two-week period typically exceeds \$3,000. The cost per human life saved from rabies ranges from approximately \$10,000 to \$100 million, depending on the nature of the exposure and the probability of rabies in a region. Level Requires Outside Help: Not an option - Rabies Control Act requires DHEC to investigate these potential exposures; Outside Help to Request: n/a; Level Required Inform General Assembly: If level of potential exposures increase exponentially, DHEC would need additional resources to monitor, test, develop remediation plan(s), and ensure preventive treatment.	n/a	National Association of State Public Health Veterinarians, Clemson University Livestock and Poultry Health, CDC, FDA, USDA, healthcare providers, local animal control officers, hospitals/emergency departments.	Lisa Davis, Myra Reece	15 months, 2 months	Director of Health Services, Director of Environmental Affairs	2600 Bull Street, Columbia, S.C. 29201	Environmental Affairs	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina. Environmental Affairs consists of five bureaus: Air Quality, Environmental Health Services, Land & Waste Management, Water, and the Office of Ocean & Coastal Resource Management.
	Objective 1.3.3 - By December 31, 2016 investigate 100 percent of reported vector-borne diseases received by agency epidemiology staff across the state.	Specific: Yes, investigation of reported diseases. Measurable: Yes, by the total number of reports investigated. Attainable: Yes. Relevant: Yes, protects the public against vector-borne diseases. Time-bound: Yes, within 12 months.	safety through reducing the potential spread of disease through conducting	Potential Negative Impact: Potential spread of disease. Spread of disease would lead to time away from work and increased medical costs. For severe cases of West Nile Virus individuals may need to be hospitalized, thus driving up medical costs. Level Requires Outside Help: n/a; Outside Help to Request: n/a; Level Required Inform General Assembly: If level of potential exposures increases exponentially; General Assembly Options: Should number of exposures increase exponentially, DHEC would need additional resources to monitor, investigate, prevent spread, and ensure preventive treatment.		The agency works with the CDC to help monitor, investigate, and report. In addition, DHEC collaborates with health care providers, hospitals/EDs, and loca mosquito control operators.	Lisa Davis, Myra Reece	15 months, 2 months	Director of Health Services, Director of Environmental Affairs	2600 Bull Street, Columbia, S.C. 29201	Health Services Environmental Affairs	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina. Lisa Davis	15 months	Director of Health Services	2600 Bull Street, Columbia, S.C. 29201	Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
The agency does not need to insert the information for the rest of the columns for any strategy, type "n/a"	Strategy 1.5 - Reduce the occurrence of vaccine preventable diseases.	n/a		The state could experience a resurgence of diseases that have been eradicated. With increased disease, there would be costs to society such as lost productivity, increased morbidity/mortality, and increased costs to the health care system (office visits, hospitalizations, etc.).	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
S.C. Code Ann. Section 44- 29-40.	Objective 1.5.1 - By December 31, 2016 all South Carolina Immunization providers will be required to report 100 percent of administered immunizations into the IIS.	Specific: Yes, addresses specific report requirement. Measurable: Yes, by reports submitted by providers. Attainable: Yes. Relevant: Yes, helps reduce the occurrence of vaccine preventable diseases. Time bound: Yes, by December 31, 2016.	increased access to client immunization histories, as well as increased adherence to vaccine guidelines.	Potential Negative Impact: Missed opportunities for assessing adherence to vaccine guidelines. In addition, individuals may get vaccinated more than once or may not get vaccinated. Not implementing this requirement could have a negative economic impact on increased laboratory titers to provide evidence of immunity due to lack of immunization history. Additionally, decreases in vaccination rates could increase work absenteeism as a result of illnesses related to vaccine preventable diseases. Further, the state could face increased medical costs due to hospitalizations and treatment. One example of the economic cost associated with vaccine preventable diseases is the influenza (flu) virus. The national economic burden of influenza-attributable illnesses for adults, age 18 years and older is \$83.3 billion. The direct medical costs for influenza in adults totaled \$8.7 billion, including \$4.5 billion just for related adult hospitalizations. Influenza is also responsible for substantial indirect costs (\$6.2 billion annually), mainly from lost productivity. Each year, among adults age 18 to 64 years, 17 million workdays are lost to influenza-related illness. Level Requires Outside Help: n/a As of January 1, 2017, all immunizations administered in South Carolina must be reported to the registry. The statute establishing a mandatory immunization registry is 5.C. Code Section 44-29-40(B); Level to Inform the General Assembly: n/a; General Assembly Options: will not require General Assembly.		Immunization Providers statewide, S.C. Chapter of American Academy of Pediatrics, American Academy of Family Physicians, professional, Immunization Coalition of Carolinas Center for Medical Excellence, health care/professional, promote requirements and educate healthcare providers on immunization registry and its importance.	Lisa Davis	15 months	Director of Health Services	2600 Bull Street, Columbia, S.C. 29201	Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
The agency does not need to insert the information for the rest of the columns for any strategy, type "n/a"	Strategy 1.6 - Improve maternal and child health.	n/a	determines the health of the next generation. Healthy	Without access to adequate and ongoing prenatal care, pregnant women may experience poor birth outcomes, such as low birth weight babies, premature infants, infant mortality, or maternal mortality. The National Healthy Start Association reports that low birth weight babies that survive the first year average medical bills of \$93,800. For the smallest survivors, the costs may reach \$273,900.		n/a	n/a	n/a	n/a	n/a	n/a	n/a

910 et seq. [Federal Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) funding from the US Department of Agriculture (USDA)]	Objective 1.6.1 - Increase by five percent the percentage of potentially eligible Women, Infants, and Children (WIC) clients who enroll in WIC nutrition services by end of December 2017.	Specific: Yes, addresses specific program enrollment. Measureable: Yes, by increasing enrollment. Attainable: Yes. Relevant: Yes, improves maternal and child health. Time-bound: Yes, December 2017.	WIC benefits, receive the nutritional education and healthy food vouchers that the program offers, leading to better health outcomes, decreased health care costs, and increases in voucher dollars for the South Carolina economy.	Potential Negative Impact: Fewer than the optimal number of pregnant women, infants, and children, who quality for WIC benefits receive the nutritional education and healthy food wouchers that the program offers. Without the vouchers, WIC clients will purchase less healthy food and the voucher dollars will not be spent in the South Carolina economy. Without the five percent increase in caseload, there could be a \$2 million loss of dollars into the economy of South Carolina. Decreased nutritional value will also lead to increased health problems and increased health care costs. Level Requires Outside Help: DHEC is currently working with the U.S. Department of Agriculture (USDA) and WIC programs from other states to identify best practices for increasing WIC caseload; Outside Help to Request: USDA; Level to Inform the General Assembly: n/a; General Assembly Options: n/a.	Yes. The USDA.	WIC programs from other states, government, share best practices; Early Head Start, outreach to target population; DHHS, outreach to target population. Legal responsibilities for agency goals are satisfied by the corresponding objectives. The following legal responsibilities apply to Goal 2: S.C. Code Sections 44-1-110, 44-1-140, 44-29-10 et seq., and 44-39-10 et seq.	Goal 2 - Eliminate health disparities.	The agency's goals provide an overarching framework for decision making, supported by S.M.A.R.T objectives. The following objectives are aligned with Goal 2: 2.1.1 (a), 2.1.1 (b), 2.2.1, and 2.2.2.	South Carolinians.	The overall health status of South Carolinians will not demonstrably improve until health disparities are eliminated across the spectrum of communicable and chronic diseases and conditions. Racial and ethnic minorities, individuals living in poverty, and individuals living in rural jurisdictions, among others, are negatively affected disproportionately by preventable diseases and suffer from excess mortality compared to the healthiest among us. Health disparities contribute to reduced productivity, increased health care costs, lost economic opportunities, and impact economic development.	n/a	n/a	Lisa Davis	15 months	Director of Health Services	2600 Bull Street, Columbia, S.C. 29201	Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
The agency does not need to insert the information for the rest of the column for any strategy, type "n/a	Strategy 2.1 - Reduce disparities in the incidence and the impact of communicable diseases.	d n/a	Reduce the death rate among those with a communicable illness. Reduce risk of transmitting communicable illnesses to others. Reduce risk of new communicable illness.	Cost of lost productivity and revenue due to affected persons' absenteeism, along with increased medical cost. For tuberculosis (TB) alone, direct costs (in 2014 U.S. dollars) average from \$17,000 to treat drug-susceptible TB to \$482,000 to treat the most drug-resistant form of the disease (XDR TB). When including productivity losses (i.e., lost income) experienced by patients while undergoing treatment, costs are even higher. Without controlling the spread, this could lead to high rates of disease, and loss of productivity and morbidity. According to CDC estimates, the lifetime cost of treatment for 789 new diagnoses of HIV infection in South Carolina in 2009 was \$290 million. There are currently 70+ reportable conditions, diseases whose economic burden we do not have an estimate for. Uncontrolled, these would cause a huge burden to our communities.		n/a	n/a	n/a	n/a	n/a	n/a	n/a
S.C. Code Sections 44-1-110, 44-1-140, and 44-29 10 et seq.	Objective 2.1.1 (a) - By December 31, 2016, at least 80 percent of persons who receive their HIV-positive test results are linked to medical care and attend their first medical appointment (within 90 days of positive HIV test).		People Living With HIV/AIDS (PLWHA). Reduces risk of	Potential Negative Impact: Increases risk of ongoing transmission and increased death rate. Untreated HIV+ (those not linked into care) is associated with ER visits and hospital admissions costing an average of \$33,000 per case, per year (by 2010 estimates), compared to the CDC estimated average annual cost of treatment for an HIV+ in care (\$19,912) (current U.S. estimates). In South Carolina, the cost of treating HIV+ in care is \$19,824. There is also the cost of lost productivity and revenue due to affected persons' absenteeism (i.e. HIV+ persons and their immediate care givers) not going to work (too sick and too busy taking care of the sick), and/or being unproductive at work due to HIV/AIDS-related illness (presenteeism). Treatment of HIV+ persons (in care) reduces CD4 (i.e. viral load) counts dramatically, which reduces the chance of these individuals infecting others by at least 94%, according CDC estimates. In other words, one negative impact of not getting HIV+ persons into care is the potential increase in the chance of them infecting others by almost 100%, which bears grave economic impacts for the state, given the cost of treating each additional HIV+ person (both in and out of care). According to CDC estimates, the lifetime cost of treatment for 789 new diagnoses of HIV infection in South Carolina in 2009 was \$290 million. Level Requires Outside Help: Yes, DHEC works with numerous partners statewide. An additional position was created last year to increase linkage to care; Level to Inform the General Assembly: n/a; General Assembly Options: n/a.	n/a	Ryan White Providers, medical/healthcare, community based organizations, hospitals, healthcare DAODAS, government, offer referrals to care, outreach to target population and medical professionals.	Lisa Davis	15 months	Director of Health Services	2600 Bull Street, Columbia, S.C. 29201	Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). S.C. Code Sections 44-1- 110, 44-1-140, and 44-29- 10 et seq.	Objective 2.1.1 (b) - By December 31, 2016, at least 80 percent of targeted minority populations who receive their HIV-positive test results are linked to medical care and attend their first medical appointment (within 90 days of positive HIV test).	Specific: Yes, targets specific individuals to connect to medical care. Measurable: Yes, by linking at least 80 percent to medical care and attendance of first appointment. Attainable: Yes. Relevant: Yes, reduces disparities in the incidence and the impact of communicable diseases. Time-bound: Yes, by December 2016.	Reduce the death rate among PLWHA.	Potential Negative Impact: Increases risk of ongoing transmission. Of the 2014 AIDS cases in South Carolina, 73% were Black, 20% white, and 7% other. Without addressing the racial/ethnic disparities, the minority population continues to be severely impacted by this disease. According to the Population Reference Bureau, experts say that a mix of factors—including socioeconomic factors, limited access to health care, late HIV testing, high rates of sexually transmitted infections, and limited knowledge of treatment and prevention options—have contributed to the HIV/AIDS crisis among blacks. Not linking or retaining HIV individuals in care would lead to unnecessary ER visits and hospitalizations, as well as sicker individuals who are unable to contribute to the workforce. In addition, there would be an impact on those who require in-home care by family and friends, whose economic productivity also becomes reduced. Left untreated, there would be an increase spread of the disease in this population. Level Requires Outside Help: Yes, DHEC works with numerous partners statewide. An additional position was created last year to increase linkage to care; Level to Inform the General Assembly: n/a; General Assembly Options: n/a.	n/a	Ryan White Providers, medical/healthcare, offer referrals, links to medical care, outreach to target populations.	Lisa Davis 15 mon	nths Director of Health Servi	2600 Bull Street, columbia, S.C. 29201	Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
to insert the information for the rest of the columns for any strategy, type "n/a"	Strategy 2.2 - Reduce disparities in illness, disability, and premature deaths from chronic diseases.		mortality) among South Carolinians suffering disproportionately from chronic diseases, particularly	If disparities seen in illnesses, disabilities, and premature deaths brought about by chronic disease are not reduced, the state will continue to suffer from many preventable outcomes. Cancer, diabetes, and heart disease, for example, affect disproportionately different populations in the state, particularly among racial and ethnic minorities, and persons living in poverty and rural areas. Health care costs associated with many of these preventable conditions and diseases are considerable, affecting economic growth and productivity.	n/a	n/a	n/a n/a	n/a	n/a	n/a	n/a
S.C. Code Sections 44-1-110 and 44-1-140. [Federal grant: South Carolina Breast and Cervical Cancer Control Program (NU58DP003942-04-01), CDC Cooperative Agreement; state funds.]	Objective 2.2.1 - By April 30, 2017, increase the number/percent of minority women screened through the Best Chance Network (BCN) program to 45 percent.	Specific: Yes, addresses specific population and screening. Measurable: Yes, by increasing number/percent screened through program. Attainable: Yes. Relevant: Yes, reduces disparities in illness, disability, and premature deaths from chronic diseases. Time-bound: Yes, by April 30, 2017.	Reduce disparities and increase screening among the identified population. Increases early detection among a population historically diagnosed later and at a more severe stage.	Potential Negative Impact: Higher and more frequent mortality. Fewer minority women screened. The breast cancer mortality rate (age adjusted) for African American women was 28.1 compared to 21.3 for white women in 2014. The cervical cancer mortality rate (age adjusted) for African American women was 4.3 compared to 2.1 for white women in 2014. In 2014, there were 807 hospitalizations for female breast cancer in South Carolina as primary diagnosis, at a total cost of over \$44 million. In 2014, there were 151 inpatient hospitalizations for cervical cancer as primary diagnosis in South Carolina, at a total cost of over \$6.6 million. According to the CDC cost Calculator, the cost of treating all cancer in South Carolina exceeded \$3.175 billion in 2015, and is projected to exceed \$4.276 billion in 2020. Early detection is of paramount importance to the successful identification and treatment of breast cancer and cervical cancer. Data for the stage of diagnosis for cervical cancer in South Carolina from 2008-2012 show that black women were more likely than white women to receive higher regional (39.5%; 33.6%) and distant cancer diagnoses (14.6%; 12.8%), respectively. Regional and distant diagnosis means that the cancer has spread beyond the primary site indicating a later stage diagnosis. The negative effects of not screening are demonstrated at the stage in diagnosis. Level Requires Outside Help: By September 2016, if target to date not being accomplished; Outside Help to Request: CDC, S.C. This is the next chart because once the agency has determined its goals, strategies and objectives, the agency needs to determine which of its programs will help achieve those objectives and goals and which programs may need to be curtailed or eliminated. If one program is helping accomplish an objective that a lot of other programs are also helping accomplish, the agency should consider whether the resources needed for that program could be better utilized (i.e. so the agency can most effectively and efficiently accomplish all of its goals and objectives) if they were distributed among the other programs that are helping accomplish the same objective or among programs that are helping accomplish other objectives.

Agency Responding	Department of Health and Environmental Control
Date of Submission	2/5/2016
Fiscal Year for which information below	2015-16
pertains	

Instructions:

- 1) Under the "Name of Agency Program" column, enter the name of every program at the agency on a separate row.
- 2) Under the "Description of Program" column, enter a 1-3 sentence description of the agency program.
- 3) Under the "Legal Statute Requiring Program" column, enter the legal statute which requires (this is different than allows) the program is required by a state or federal statute or proviso. Make sure it is clear whether the agency is referencing state or federal laws and whether it is a proviso or statute. If the program is not required by a state or federal statute or proviso, enter "none."
- 3) Under the "Objective the Program Helps Accomplish" column, enter the strategic plan objective number and description. The agency can copy the Objective number and description from the first column of the Strategy, Objective and Responsibility Chart. Enter ONLY ONE objective per row. If an agency program helps accomplish multiple objectives, insert additional rows with that agency program information and enter each different objective it helps accomplish on a separate row. Main program areas are covered in this report as well as their oversight areas.

* Note regarding programs: The S.C. Department of Health and Environmental Control (DHEC) is the state regulatory agency charged with promoting and protecting the state's public health and its land, air, coastal resources, and water quality as authorized by federal and state law. DHEC is comprised of three major deputy program areas: Health Services, Health Regulation, and Environmental Affairs, with administration supporting the goals, strategies, and objectives of these programs.

Name of Agency Program	Description of Program	Legal Statute or Proviso Requiring the Program	Objective the Program Helps Accomplish (The agency can copy the Objective number and description from the first column of the Strategy, Objective and Responsibility Chart) List ONLY ONE strategic objective per row.
Health Services	DHEC Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina. Maternal and Child Health (MCH) Promotes the health of women, children, and infants by providing health care services and programs, linking community services, and facilitating systems of care for pregnant women and infants. MCH is comprised of five divisions: Children's Health, Women's Health, Women, Infants and Children (WIC), Research and Planning, and Oral Health. Community Health and Chronic Disease Prevention (CHCDP) Houses community-oriented prevention services and works with the CDC, local health departments, and stakeholders to prevent disease and injury and promote healthy lifestyles. CHCDP is comprised of five divisions: Health Equity, Promotion and Wellness; Injury and Violence Prevention; Cancer Prevention and Control; Chronic Disease Epidemiology; and Tobacco Prevention and Control.	44-5-10 through 100 44-8-10 through 60 44-31-10 through 610 44-44-10 through 160 44-53-10 et seq.	Objective the Program Helps Accomplish

Disease Control

Works to prevent and control communicable diseases and illnesses in South Carolina. Disease Control is comprised of four divisions: Acute Disease Epidemiology (DADE), STD/HIV, Immunizations, and Surveillance and Technical Support.

Client Services

Responsible for assuring the implementation of public health services across the state. Client Services is comprised of four health regions across the state, the Bureau of Laboratory, the Primary Care Office, and the Office of Public Health Nursing.

Public Health Statistics and Information Services (PHSIS)

Houses vital statistics operations as well as the core elements needed to assist in carrying out the agency's surveillance and assessment responsibilities. The office is also responsible for conducting Institutional Review Board (IRB) oversight on all research conducted by the agency to ensure the protection of human subjects involved in research.

Objective 1.2.1 - Establish a comprehensive baseline inventory and objectives for statewide partnerships within 12 months to help better impact the public's health and environment.

Objective 1.3.2 - By December 31, 2016, review 100 percent of reported potential rabies exposures statewide.

Objective 1.3.3 - By December 31, 2016 investigate 100 percent of reported vector-borne diseases received by agency epidemiology staff across the state.

Objective 1.4.1 - Implement interventions by March 29, 2017 to increase by five (from 61 to 66) the number of South Carolina public school districts that deploy 100 percent tobacco-free policies to protect students from exposure to secondhand smoke; increase by 15 percent (or 488) the number of total health provider referrals to the Quitline; and increase by four (from 64 to 68) the number of local municipalities whose citizens are protected from secondhand smoke in all indoor workplaces to reduce exposure to secondhand smoke.

Objective 1.5.1 - By December 31, 2016 all South Carolina Immunization providers will be required to report 100 percent of administered immunizations into the IIS.

Objective 1.6.1 - Increase by five percent the percentage of potentially eligible Women, Infants, and Children (WIC) clients who enroll in WIC nutrition services by end of December 2017.

Objective 1.6.2 (a) - Increase to 95 percent the percentage of newborns delivered in South Carolina hospitals whose blood spot screening specimens are submitted to the DHEC laboratory within 24 hours of collection by the end of December 2016.

Objective 1.6.2 (b) - Increase to 97 percent the percentage of infants in South Carolina hospitals who receive screenings for hearing impairment by the end of December 2016.

Objective 1.7.1 - Review and update, no later than March of each year, all emergency response plans that pertain to public health and ensure that all standard operating procedures are integrated into both the state emergency operations plan and state homeland security strategy.

Objective 1.7.2 - Work with local, state, federal, and voluntary healthcare professionals across the state to maximize participation in one state full scale exercise and four regional exercises on an annual basis to increase the state's public health capabilities to detect, prevent, and respond to disasters, both natural and man-caused.

			Objective 2.1.1 (a) - By December 31, 2016, at least 80 percent of persons who receive their HIV-positive test results are linked to medical care and attend their first medical appointment (within 90 days of positive HIV test).
			Objective 2.1.1 (b) - By December 31, 2016, at least 80 percent of targeted minority populations who receive their HIV-positive test results are linked to medical care and attend their first medical appointment (within 90 days of positive HIV test).
			Objective 2.2.1 - By April 30, 2017, increase the number/percent of minority women screened through the Best Chance Network (BCN) program to 45 percent.
			Objective 2.2.2 - By December 31, 2016, develop the capacity and infrastructure in at least eight community and faith based organizations so they can implement initiatives to address health disparities, targeting diabetes or heart disease, or the associated risk factors of unhealthy eating, limited physical activity, and tobacco use.
Health Regulation	ambulatory surgical centers, hospice programs, and other health care facilities. Rules and regulations are developed to ensure that South Carolinians receive safe, high quality health care. Certificate of Need (CON) Authorizes the implementation or expansion of health care facilities and services in South Carolina. A certificate of need is based on a calculation of need for a particular medical service from the South Carolina Health Plan. A CON authorizes person or facility to provide a portion of that calculated need in a county or service area, which may comprise several counties. Emergency Medical Services (EMS) and Trauma Develops and regulates systems for quality emergency medical care in South Carolina. This ensures EMS providers are fully trained and that their medical vehicles are properly equipped. 	Energy emitted from a source is generally referred to as radiation. Radiation exists in the natural environment (e.g., heat and light from the sun), as well as being generated by man-made devices (e.g., X-rays). The Radiological Health program works to protect South Carolinians from unnecessary exposure to radiation, which can come from a variety of sources		Objective 1.1.1 - Complete transition of military medic to civilian paramedic programs by July 2017.
	such as X-ray equipment, radioactive materials, and tanning beds. Construction, Fire and Life Safety Reviews plans, specifications, and construction for health care facilities licensed by the state. The program also conducts		Objective 1.1.2 - Collaborate with National Highway Transportation Safety Administration (NHTSA) to perform statewide EMS system assessment by December 2016.
	periodic fire and life safety surveys of facilities to ensure continued compliance with appropriate codes, standards, and regulations.		Objective 1.1.3 - Complete implementation of the Stroke System of Care Act of 2011 by January 2018.

	Drug Control Aims to promote and protect public health through enforcement of South Carolina's Controlled Substances Act. The program administers the state's prescription drug monitoring program (known as SCRIPTS), which tracks the prescribing and dispensing of all Schedule II, III, and IV controlled substances by licensed professionals such as doctors, pharmacists,		Objective 1.2.1 - Establish a comprehensive baseline inventory and objectives for statewide partnerships within 12 months to help better impact the public's health and environment.		
	dentists, and veterinarians.		Objective 1.2.2 - Implement 70 percent of the priority recommendations of the American College of Surgeons (ACS) Jun 2014 assessment, including improving advisory council leadership system, develop strategic plan, and increase support staff, by January 2018.		
Environmental Affairs	DHEC Environmental Affairs consists of five bureaus: Air Quality, Environmental Health Services, Land & Waste Management, Water, and the Office of Ocean & Coastal Resource Management. Bureau of Air Quality (BAQ) Develops and implements strategies to maintain the quality of South Carolina's air. BAQ provides a variety of services including: Reviewing permit applications and issuing air quality construction and operating permits to industrial, commercial, and institutional facilities Supporting permitting through modeling, technical assistance, and daily ozone forecasts Implementing federal and state air toxics programs by offering technical and compliance assistance to staff and industry Conducting compliance assistance and assurance through routine monitoring, review of operational and emissions reports, and periodic inspections Bureau of Environmental Health Services (BEHS) Supports DHEC's air, land, and water programs through regional offices and a central laboratory. BEHS is also responsible for emergency response activities. The services they provide include: Inspecting permitted facilities and issuing food and septic tank permits Responding to foodborne outbreak investigations Responding to citizen complaints about any actual or potential release of pollutants into the air, land, or water Responding to chemical and oil spills, fish kills, and open burning of items such as tires, plastic, copper wire, and asbestos covered material	48-1-10 through 350 48-39-10 through 360 49-1-10 through 90 49-11-110 through 260	Objective the Program Helps Accomplish		
	Bureau of Land & Waste Management (BLWM) Coordinates mining and waste-related activities and implements assessment and corrective actions for contaminated sites. BLWM provides a variety of services including: • Providing technical assistance for the proper management of solid and hazardous waste, technical review of sampling		Objective 1.2.1 - Establish a comprehensive baseline inventory an objectives for statewide partnerships within 12 months to help better impact the public's health and environment.		
	protocols, and analytical data • Issuing permits for solid waste and mining activities as well as underground storage tanks • Promoting waste reduction and recycling through technical assistance and education/awareness programs to local governments, schools, businesses, and the public		Objectives 1.3.1 - By December 31, 2016, develop an employee health education program for retail food establishments to help decrease the potential of food-borne outbreaks.		
	 Overseeing the investigation, remediation, and clean-up of contamination from Superfund, dry-cleaning, above-ground storage tanks, and brownfield sites 	1	Objective 1.3.2 - By December 31, 2016, review 100 percent of reported potential rabies exposures statewide.		
	Bureau of Water (BOW) Helps ensure that South Carolina's waters are drinkable, swimmable, and fishable through regulatory and voluntary programs to control sources of pollution. BOW provides a variety of services including:		Objective 1.3.3 - By December 31, 2016 investigate 100 percent or reported vector-borne diseases received by agency epidemiology staff across the state.		
	 Permitting wastewater discharges from industrial and domestic sources and as well as on-site wastewater systems (septic tanks) Issuing stormwater permits through the National Pollutant Discharge Elimination System for construction sites, municipal systems, and industrial sites Developing state water quality standards, issuing the bi-annual list of the state's polluted waters and developing corrective action plans for those waters and controlling nonpoint sources of pollution through grants, voluntary 		Objective 3.1.1 - Review and develop, no later than June of each year, environmental quality assurance measures, to include project plans, operating procedures, etc., to ensure that sufficient and quality data are provided to assess and characterize environmental conditions.		

Measures, and technical assistance

• Implementing and overseeing the state's dam safety program for more than 2,300 dams statewide

Office of Ocean & Coastal Resource Management (OCRM)

Preserves sensitive and fragile areas while promoting responsible development in the eight S.C. coastal counties. OCRM offers a variety of services including:

• Implementing the Coastal Zone Management Program to manage wetland alterations, stormwater, and land disturbance activities, certify all federal and state permits, and direct federal actions and all alterations of tidally influenced critical area lands, waters, and beaches

• Preserving sensitive natural, historic, and cultural resources through regulatory oversight and guidance

• Providing technical expertise to resolve complex coastal management issues

• Encouraging low impact and alternative development to preserve water quality and environmental integrity

Objective 3.1.2 - Meet 100 percent of ozone monitoring sites and continue to maintain the ozone standard by 2018.

Objective 3.1.3 - Assess all water quality monitoring data in even calendar years (2016 and 2018) to determine compliance with water quality standards and statewide general water quality. Produce 303(d) List of Impaired Waters and 305(b) report.

Objective 3.1.4 - Increase the number of Hazardous Waste Small Quantity Generator (SQG) inspections. Inspect at least 10 percent of the SQG population annually.

Objective 3.2.1 - Increase state recycling rate to 40 percent and the per person disposal rate of 3.25 pounds per person (p/p/d) per day by 2020.

Objective 3.2.2 - Improve and increase public access to beaches by 10 percent from 2010-2020.

Objective 3.3.1 - Encourage participation in the Voluntary Cleanup Program for brownfields sites. Increase by at least five percent per year the number of signed and executed Voluntary Cleanup contracts for brownfields sites during 2010-2018.

Objective 3.3.2 - Work with the EPA to establish a strategy for long term priority plans for the development of Total Maximum Daily Loads (TMDLs) for priority watersheds by the end of 2016.

Strategic Budgeting

This is the next chart because once the agency determines its goals, strategies and objectives, as well as the programs that will best allow the agency to accomplish its objectives, the agency needs to determine how to allocate its funds to most effectively and efficiently accomplish the objectives. After allocating the funds to the objectives, the agency may decide to go back and revise which associated programs it will continue, curtail or eliminate in order to most effectively and efficiently accomplish its goals and objectives.

Agency Responding	Department of Health and Environmental Control
Date of Submission	2/5/2016
Fiscal Year for which information below pertains	2015-2016

IMPORTANT TIME SAVING NOTE: Please note that only one year of budgeted funds is requested. Once an agency is under study with the House Legislative Oversight Committee, the Committee may request information on how the agency budgeted and spent money for the previous five years. If an agency is chosen for study five years from now, the agency can quickly and easily combine the information from this chart for each of the last five years.

Part A Instructions: Estimated Funds Available this Fiscal Year (2015-16)

1) Please enter each source of funds for the agency in a separate column. Group the funding sources however is best for the agency (i.e. general appropriation programs, proviso 18.2, proviso 19.3, grant ABC, grant XYZ, Motor Vehicle User Fees, License Fines, etc.) to provide the information requested below each source (i.e. state, other or federal funding; recurring or one-time funding; etc.). The agency is not restricted by the number of columns below so please delete or add as many as needed. However the agency chooses to group its funding sources, it should be clear through Part A and B, how much the agency estimates it has available to spend and where the agency has budgeted the funds it has available to spend.

<u>Part B Instructions</u>: How Agency Budgeted Funds this Fiscal Year (2015-16)

- 1) Enter each agency objective and description (i.e. Objective 1.1.1 insert description of objective). The agency can insert as many rows as necessary so that all objectives are included.
- 2) After entering all of the objectives, enter each "unrelated purpose" for which money received by the agency will go (i.e. Unrelated Purpose #1 insert description of unrelated purpose) on a separate row. An "unrelated purpose" is money the agency is legislatively directed to spend on something that is not related to an agency objective (i.e. pass through, carry forward, etc.).

3) Enter how much money from each source of funds the agency budgets to spend on each objective and unrelated purpose. The "Total budgeted to spend on objectives and unrelated purposes" for each source of funds in Part B should equal the "Amount estimated to have available to spend this fiscal year" in Part A.

Explanations from the Agency regarding Part A:

Insert any additional explanations the agency would like to provide related to the information it provides below.

PART A
Estimated Funds
Available this
Fiscal Year
(2015-16)

Is funding recurring or one-time?	Totals	Recurring	One-Time Funding	One-time funding	Recurring	Recurring	Recurring	Recurring	Recurring	Recurring	Recurring	Recurring
\$ From Last Year Available to Spend this Year								<u> </u>	<u>I</u>			
Amount available at end of previous fiscal year	\$175,448,297	-	8,088,511.00		-	27,202,630.00	31,700,118.00	2,130,671.00	7,581,857.00	5,387,016.00	15,071,083.00	78,254,909.00
Amount available at end of previous fiscal year that agency can actually use this fiscal year:		-	8,088,511.00		-	27,202,630.00	31,700,118.00	2,130,671.00	7,581,857.00	5,387,106.00	15,071,083.00	78,254,909.00
If the amounts in the two rows above are not the same, explain why:	Enter explanation for each fund to the right											
\$ Estimated to Receive this Year									L			
Amount budgeted/estimated to receive in this fiscal year:	\$526,723,058	107,261,738.00		3,196,529.00	286,170,200.00	62,023,586.00	44,228,259.00	3,185,831.00	807,052.00	-	11,133,205.00	8,746,658.00
Total Actually Available this Year												
Amount estimated to have available to spend this fiscal year (i.e. Amount available at end of previous fiscal year that agency can actually use in this fiscal year PLUS Amount budgeted/estimated to receive this fiscal year):	\$702,171,355	107,261,738.00	8,088,511.00	3,196,529.00	286,170,200.00	89,226,216.00	75,928,377.00	5,316,502.00	8,388,909.00	5,387,106.00	26,204,288.00	87,001,567.00

	Explanations from the Agency regarding Part B:		DHEC does not capture costs in this manner. Costs to accomplish objectives are allocated as part of a program area's overarching functions and are derived from budget revenues established by state, local, federal, and/or a combination of revenues, including earned revenues. These revenues are represented above. The agency has multiple federal and earned resources, each containing multiple deliverable requirements.

This is the next chart because once the agency determines the associated programs and amount of funds it is allocating to accomplish each objective, the agency needs to ensure it has proper performance measures established to track how effectively and efficiently it is utilizing the resources allocated. The agency also needs to consider potential negative impacts which may arise, and need to be addressed, if the objective is not accomplished; ensure the agency is addressing issues raised in previous audits or reviews; and continually consider which partners the agency could work with to more effectively and efficiently accomplish each objective.

below pertains	

PERFORMANCE MEASURES

* Note: Following conversations with Committee staff, this Performance Measures worksheet was created to help provide greater clarity and increase readability for Committee members and the general public. Information from the original Objectives Detail section has been included in this worksheet, as well as the Strategy, Obj. & Reasonability worksheet.

Types of Performance Measures:

Outcome Measure - A quantifiable indicator of the public and customer benefits from an agency's actions. Outcome measures are used to assess an agency's effectiveness in serving its key customers and in achieving its mission, goals and objectives.

They are also used to direct resources to strategies with the greatest effect on the most valued outcomes. Outcome measures should be the first priority. Example - % of licensees with no violations.

Efficiency Measure - A quantifiable indicator of productivity expressed in unit costs, units of time, or other ratio-based units. Efficiency measures are used to assess the cost-efficiency, productivity, and timeliness of agency operations. Efficiency measures measure the efficient use of available resources and should be the second priority. Example - cost per inspection

Output Measure - A quantifiable indicator of the number of goods or services an agency produces. Output measures are used to assess workload and the agency's efforts to address demands. Output measures measure workload and efforts and should be the third priority. Example - # of business license applications processed.

Input/Explanatory/Activity Measure - Resources that contribute to the production and delivery of a service. Inputs are "what we use to do the work." They measure the factors or requests received that explain performance (i.e. explanatory). These measures should be the last priority. Example - # of license applications received.

Strategic Plan Part and Description	Performance Measure	Results	Reporting	Target Value 2014-2015	Target Value 2015-2016

Goal 1 - Improve the quality and years of healthy life for all.	n/a	n/a	n/a			Kelly, Myra Reece	Services, Director of Health Regulation, Director of Environmental Affairs	Health Services, Health Regulation, Environmental Affairs	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina. Health Regulation's primary purpose is to work with health care facilities and services to protect the public's health by assuring that safe, quality care is provided. Supporting this effort, include the following areas: Health Facilities Licensing and Certification; Certificate of Need (CON); Emergency Medical Services (EMS) and Trauma; Radiological Health; Construction, Fire and Life Safety; and Drug Control. Environmental Affairs consists of five bureaus: Air Quality, Environmental Health Services, Land & Waste Management, Water, and the Office of Ocean & Coastal Resource Management.
Strategy 1.1 - Improve access to comprehensive, high quality care.	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
Objective 1.1.1 - Complete transition of military medic to civilian paramedic programs by July 2017.	Output Measure: Complete transition.	The agency is currently establishing a baseline. 2015-16 Minimum Acceptable Results/Target Results: Complete the necessary steps to establish transition program and prepare to successfully transition 100% of qualified applicants.	No.	n/a	Yes. The agency is currently in the process of completing the necessary steps.	Shelly Kelly	Director of Health Regulation	Health Regulation	Health Regulation's primary purpose is to work with health care facilities and services to protect the public's health by assuring that safe, quality care is provided. Supporting this effort, include the following areas: Health Facilities Licensing and Certification; Certificate of Need (CON); Emergency Medical Services (EMS) and Trauma; Radiological Health; Construction, Fire and Life Safety; and Drug Control.
Objective 1.1.2 - Collaborate with National Highway Transportation Safety Administration (NHTSA) to perform statewide EMS system assessment by December 2016.	Input/Explanatory/Activity Measure: Collaborate to perform statewide EMS assessment.	The agency is currently establishing a baseline. 2015-16 Minimum Acceptable Results/ arget Results: Complete the necessary steps to establish to perform statewide assessment. 2016 Target Result: Perform statewide assessment.	No.	n/a	Yes. The agency is currently in the process of collaborating with the NHTSA.	Shelly Kelly	Director of Health Regulation	Health Regulation	Health Regulation's primary purpose is to work with health care facilities and services to protect the public's health by assuring that safe, quality care is provided. Supporting this effort, include the following areas: Health Facilities Licensing and Certification; Certificate of Need (CON); Emergency Medical Services (EMS) and Trauma; Radiological Health; Construction, Fire and Life Safety; and Drug Control.
Objective 1.1.3 - Complete implementation of the Stroke System of Care Act of 2011 by January 2018.	Input/Explanatory/Activity Measure: Complete implementation.	The agency is currently establishing a baseline.	No.	n/a	Yes. The agency is currently in the process of completing implementation.	Shelly Kelly	Director of Health Regulation	Health Regulation	Health Regulation's primary purpose is to work with health care facilities and services to protect the public's health by assuring that safe, quality care is provided. Supporting this effort, include the following areas: Health Facilities Licensing and Certification; Certificate of Need (CON); Emergency Medical Services (EMS) and Trauma; Radiological Health; Construction, Fire and Life Safety; and Drug Control.
Strategy 1.2 - Increase support to develop healthy communities.	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a

Environmental Affairs consists of five bureaus: Air Quality, Environmental Health Services, Land & Waste Management, Water, and the Office of Ocean & Coastal Resource Management.
number of South Carolina public school districts that deploy 100	Carolina public school districts implementing policies; Increase by 15 percent the number of healthcare provider	2013-14 Actual Results (as of 6/30/14): 49 (or 6 total) 2014-15 Target Results: 54 2014-15 Actual Results (as of 6/30/15): 56 (or 7 total) 2015-16 Minimum Acceptable Results: 61 2015-16 Target Results: 61 2016-17 Minimum Acceptable Results: 66 2016-17 Target Results: 66; 2013-14 Actual Results (as of 6/30/14): 203 2014-15 Target Results: 230 2014-15 Actual Results (as of 6/30/15): 361 2015-16 Minimum Acceptable Results: 295 2015-16 Target Results: 295 2016-17 Minimum Acceptable Results: 488 2016-17 Target Results: 488; 2013-14 Actual Results (as of 6/30/14): 55 2014-15 Target Results: 59 2014-15 Actual Results (as of 6/30/15): 59 2015-16 Minimum Acceptable Results: 64 2015-16 Target Results: 64 2016-17 Minimum Acceptable Results: 68 2016-17 Target Results: 68		n/a	Yes. Smoking costs the state more than \$2 billion in annual health care costs. An estimated 19 percent of South Carolinians currently smoke cigarettes, 6.2 percent use electronic cigarettes, and 4.1 percent use both. Working with partners to promote healthy behaviors is essential to promoting healthier lifestyle choices, reducing deaths related to preventable diseases, and protecting the public's health.	n/a Lisa Davis	n/a Director of Health Services	n/a Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.

Strategy 1.5 - Reduce the occurrence of vaccine preventable diseases.	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
Objective 1.5.1 - By December 31, 2016 all South Carolina	Efficiency Measure: Creates a statewide database of statewide vaccines for providers to access.	2014 Target Results: n/a 2014 EOY Actual Results: 362 Direct Data Entry (DDE) providers; 841 HL7 providers 2015 Target Results: n/a 2015 EOY Actual Results: 812 DDE providers; 1189 HL7 providers	Yes.	n/a	Yes. The regulation states that all providers must report all administered by the targeted deadline.	Lisa Davis	Director of Health Services	Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
Strategy 1.6 - Improve maternal and child health.	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
Objective 1.6.1 - Increase by five percent the percentage of potentially eligible Women, Infants, and Children (WIC) clients who enroll in WIC nutrition services by end of December 2017.	Efficiency Measure: Increase the number of individuals enrolled by five percent.	2013-14 Actual Results (as of 6/30/14): 48.2% 2014-15 Target Results: 50% 2014-15 Actual Results (as of 6/30/15): 50% 2015-16 Minimum Acceptable Results: 50% 2015-16 Target Results: 52.5% 2016-17 Minimum Acceptable Results: 50% 2016-17 Target Results: 55%	No.	Yes.	Yes. The agency is currently in the process with working with other states to share best practices for improving WIC caseload. As trends in WIC enrollment have shifted nationally due in part to economic recovery, the target was recently revised to meet current needs. The agency has active efforts to improve caseload despite national decreases. Therefore, a five percent increase target is reasonable and attainable.	Lisa Davis	Director of Health Services	Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
Objective 1.6.2 (a) - Increase to 95 percent the percentage of newborns delivered in South Carolina hospitals whose blood spot screening specimens are submitted to the DHEC laboratory within 24 hours of collection by the end of December 2016.	Efficiency Measure: Increase percentage of newborns delivered in South Carolina hospitals whose blood spot screening specimens are submitted to the DHEC laboratory within 24 hours.	2013-14 Actual Results (as of 6/30/14): 72.8% 2014-15 Target Results: 95% 2014-15 Actual Results (as of 6/30/15): 91.3% 2015-16 Minimum Acceptable Results: 91.3% 2015-16 Target Results: 95%	No.	born screening process that needed	Yes. The agency has an ongoing quality improvement project with the SCHA in order to help reach this target. This target was set in collaboration between newborn screening experts at DHEC and quality improvement experts at SCHA to be reasonable and attainable.	Lisa Davis	Director of Health Services	Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
Objective 1.6.2 (b) - Increase to 97 percent the percentage of infants in South Carolina hospitals who receive screenings for hearing impairment by the end of December 2016.	Efficiency Measure: Ongoing objective to improve new born hearing screenings.	2013-14 Actual Results (as of 6/30/14): 96.5% 2014-15 Target Results: 95% 2014-15 Actual Results (as of 6/30/15): 95.6% 2015-16 Minimum Acceptable Results: 95.6% 2015-16 Target Results: 97%	No.	Yes.	Yes. The agency has an ongoing quality improvement project with the SCHA in order to help reach this target. This target was set in collaboration between newborn screening experts at DHEC and quality improvement experts at SCHA to be reasonable and attainable.	Lisa Davis	Director of Health Services	Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
Strategy 1.7 - Promote a coordinated, comprehensive public health preparedness and response system for natural or man-made disaster or terrorist event.	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a

Objective 1.7.1 - Review and update, no later than March of each year, all emergency response plans that pertain to public health and ensure that all standard operating procedures are integrated into both the state emergency operations plan and state homeland security strategy.	Output Measure: Review and update all plans and ensure that all standards are integrated.	2013-14 Actual Results: Completed review and update. 2014-15 Target Results: Complete review and update. 2014-15 Actual Results: Completed review and update. 2015-16 Minimum Acceptable Results: Completed review and update. 2015-16 Target Results: Complete review and update.	No.	n/a	Yes. Key agency responsibility in working with state partners to prepare for potential emergency-related responses.	Lisa Davis	Director of Health Services	Health Services Environmental Affairs	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
Objective 1.7.2 - Work with local, state, federal, and voluntary healthcare professionals across the state to maximize participation in one state full scale exercise and four regional exercises on an annual basis to increase the state's public health capabilities to detect, prevent, and respond to disasters, both natural and man-caused.	Output Measure: Work with local, state, federal, and voluntary health care professionals to maximize participation in one state full scale exercise and four regional exercises.	The agency is currently establishing a baseline. Currently, no historical data exist.	No.	n/a	Yes. The agency is currently in the process of completing the necessary steps. Collaborative efforts and participation in public health exercises helps to ensure public health professionals are able and ready to detect, prevent, and respond to disasters, both natural and man-caused.	Lisa Davis	Director of Health Services	Health Services Environmental Affairs	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
Goal 2 - Eliminate health disparities.	n/a	n/a	n/a	n/a	n/a	Lisa Davis	Director of Health Services		Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
Strategy 2.1 - Reduce disparities in the incidence and the impact of communicable diseases.	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
Objective 2.1.1 (a) - By December 31, 2016, at least 80 percent of persons who receive their HIV-positive test results are linked to medical care and attend their first medical appointment (within 90 days of positive HIV test).	HIV-positive persons who	2013-14 Actual Results: CY 2013 = 80% 2014-15 Target Results: 80% 2014-15 Actual Results: CY 2014 = 91% 2015-16 Minimum Acceptable Results: 80% 2015-16 Target Results: > than 80% *Please note these measures align with national CDC performance standards and are reported on a calendar year basis.	No.	Yes.	CDC chose the target, as grantees we adhere to performance standards of funders. Please note CY 2015 will not be available until at the earliest April 2016.	Lisa Davis	Director of Health Services	Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). Health Services works with the four health regions, the Centers for Disease Control and Prevention (CDC), and community partners to prevent disease and injury, promote healthy families, and prevent and control communicable diseases and outbreaks in South Carolina.
Objective 2.1.1 (b) - By December 31, 2016, at least 80 percent of targeted minority populations who receive their HIV-positive test results are linked to medical care and attend their first medical appointment (within 90 days of positive HIV test).	HIV-positive persons who	2013-14 Actual Results: CY 2013 = 85% 2014-15 Target Results: 80% 2014-15 Actual Results: CY 2014 = 85% 2015-16 Minimum Acceptable Results: 80% 2015-16 Target Results: > than 80% *Please note these measures align with national CDC performance standards and are reported on a calendar year basis.	No.	Yes.	CDC chose the target, as grantees we adhere to performance standards of funders. Please note CY 2015 will not be available until at the earliest April 2016.	Lisa Davis	Director of Health Services	Health Services	Health Services is comprised of the following areas: Maternal and Child Health (MCH); Community Health and Chronic Disease Prevention (CHCDP); Disease Control (DC); Client Services; and Public Health Statistics and Information Services (PHSIS). 			program.						
Strategy 3.3 - Restore impaired	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
natural resources and sustain them									
for beneficial use.									

Objective 3.3.1 - Encourage participation in the Voluntary Cleanup Program for brownfields sites. Increase by at least five percent per year the number of signed and executed Voluntary Cleanup contracts for brownfields sites during 2010-2018.	2015 FY Actual results: A total of 63 Voluntary Cleanup Contracts (Responsible Party and Non-Responsible Party) executed which is a 14.5% increase over the previous year. 2016 FY Minimum Acceptable Results: Increase by 5%. 2016 FY Target Results: Increase by 5%.	No.		Yes. 2015 FY results – A total of 63 Voluntary Cleanup Contracts (Responsible Party and Non- Responsible Party) executed.	Myra Reece	Director of Environmental Affairs	Environmental Affairs	Environmental Affairs consists of five bureaus: Air Quality, Environmental Health Services, Land & Waste Management, Water, and the Office of Ocean & Coastal Resource Management.
Objective 3.3.2 - Work with the EPA to establish a strategy for long-term priority plans for the development of Total Maximum Daily Loads (TMDLs) for priority watersheds by the end of 2016.	FY 2015 Actual Results: 4 TMDLs completed.	for the 106 grant program documents progress towards TMDL	a process of reevaluating TMDL priorities to focus on long-term goals rather than short-term results.	Yes. The states and EPA have embarked on a new process for evaluating progress towards TMDL goals. The new process calls for states to provide EPA with long-term priority plans for TMDL development. We are on target with the development of the long-term TMDL strategy.	Myra Reece	Director of Environmental Affairs	Environmental Affairs	Environmental Affairs consists of five bureaus: Air Quality, Environmental Health Services, Land & Waste Management, Water, and the Office of Ocean & Coastal Resource Management.

Reporting Requirements

Agency Responding	Department of Health and Environmental Control
Date of Submission	2/5/2016
Fiscal Year for which information below pertains	2015-16

Institutions:
List all reports, if any, the agency is required to submit to a state, federal or outside entity on a regular basis. Insert the name of each report in a separate column and answer the questions below it. Add as many columns as needed.
PLEAS NOTE: All information the agency provides in the rows below the row labeled. "Date the Report was last submitted," should apply to when the agency most recently submitted the report for all experts was last submitted, and the submitted of the report was last submitted."

Restructuring Recommendations and Feedback

Agency Responding	Department of Health and Environmental Control
Date of Submission	2/5/2016
Fiscal Year for which information below pertains	2015-16

RESTRUCTURING RECOMMENDATIONS

Instructions: Please answer the questions below and add as many rows as needed.

Does the agency have any recommendations, minor or major, for restructuring?

If the agency has recommendations for restructuring, list each one on a separate row in the chart below. Add as many rows as needed.

Does the agency recommendation require legislative action?	Recommendation for restructuring
	Yes. The agency proposes removal of the licensing of midwives from our current regulatory scope. The agency believes that the licensing of midwives should be conducted by the S.C. Department of Labor, Licensing, and Regulation, which oversees health care professionals. Licensed midwives are currently regulated under Regulation 61-24.

FEEDBACK (Optional)

Instructions: Please answer the questions below to provide feedback on this Annual Restructuring Report ("Report").

Please list 1-3 benefits the agency sees in the public having access to the information requested in the Report, in the format it was requested.	information available in one document.	Now that the agency has completed the Report, please list 1-3 things the agency could do differently next year (or it could advise other agencies to do) to complete the Report in less time and at a lower cost to the agency.
1 Optimal and transparent use of allocated resources to accomplish agency mission, vision, and goals in the promotion and protection of the public health and environment of South Carolina.	1 Provides a consistent and easily accessible single source of agency information for management and staff.	1
2	2	2
3	3	3

Does the agency believe this year's Restructuring Report was less burdensome than last year's?	Please list 1-3 changes to the Report questions, format, etc. the agency recommends to ensure the Report provides the best information to the public and General Assembly, in the least burdensome way to the agency.	Please add any other feedback the agency would like to provide (add as many additional rows as necessary)	
	1 To provide greater ease and clarity for agency staff completing future reports, it is recommended that identical or related information be consolidated into one worksheet. This will help to increase efficiency and reduce potential areas of redundancy.	Committee staff members Jennifer Dobson and Charles Appleby were extremely helpful in providing time to meet with the agency to discuss questions concerning the report.	
Why or why not?	2		
N/A	3		

Agencies are not required to do anything in this worksheet. This worksheet is part of the document so the proper drop down menues can be available in the other tabs.
