

Staffing Summary and Details

The S.C. Department of Corrections (SCDC) provides this information as a handout to accompany its presentation on its Administration unit and in response to information the House Legislative Oversight Committee (LOC) requested SCDC present in LOC's October 8, 2019, letter to SCDC. In particular, this information is responsive to the following requests from LOC:

The following for agency organizational units (e.g., health services) and divisions within the unit (e.g., nursing services management, primary care clinical providers, pharmacy, dental, etc.):

- brief summary of responsibilities;
- historical data including the following for each of the last three years:
 - number of full time equivalent positions available;
 - number filled
 - funding available for personnel;
 - funding spent;
 - turnover rate;
 - potential risks if all positions are not filled, including, but not limited to safety of inmates, safety of staff, impact on recidivism, and lawsuits;
 - potential reasons all positions were not filled, if applicable;
- future data including:
 - number of additional personnel needed;
 - number of additional full time equivalent position authorizations needed;
 - funding needed to fill one position;
 - funding needed to fill all needed positions;
 - potential risks if all positions are not filled, including, but not limited to safety of inmates, safety of staff, impact on recidivism, and lawsuits;

Notes

The cost of these positions cannot be covered by reclassifying current vacant positions because all positions are not funded. Theoretically this would work if all positions were currently funded. Funds are allocated for overtime in lieu of positions and funds are transferred from other Divisions to Health Services to cover deficits in that division's budget.

The funding for the health services positions will not allow the agency to no longer need to transfer funds from other divisions to Health Services to cover deficits in that division's budget. If Health Services is fully funded for personnel services, case services, and operations, then there will no longer be a need to transfer these funds into their budget.

Total Base Salaries 15,076,324

SCDC Full Time Equivalent (FTE) Positions Summary (available, filled, turnover)

Terminology

- Authorized** Staff positions the General Assembly has authorized the agency to have. Authorizing a position and funding a position are different. The General Assembly may grant an agency's full request for the number of positions it requests, but only provide the agency half the funding the agency requested.
- Actual** "Authorized" staff positions the agency has "actually" established in their Human Resources system. These include current positions the agency has filled, vacant positions the agency has posted as available and is currently seeking applications, and vacant positions the agency has not yet posted.
- Filled** "Actual" position the agency has "filled" and has an individual working.
- Vacant** "Actual" position the agency has "vacant" and is seeking applicants.

Vacancy Notes

History

The department has historically had high separation and vacancy rates.

The department has significant levels of employee separations and vacancies, particularly in security and healthcare positions. The separation rate for correctional officers has fluctuated slightly over the past ten years but has shown an overall upward trend from 20% in Fiscal Year 2013-14 to 26% in Fiscal Year 2018-19. This is higher than the 12% separation rate for all state law enforcement officers, but consistent with correctional officer rates in other states; for example, correctional officer turnover is 28% in Texas and 31% in Georgia.

The vacancy rate for health professionals is at 18.3%. Some of the continual hard to fill health positions are: physician, registered nurses, paramedics and dentists.

High Vacancy and Separation Attributable to 3 Primary Factors

(1) Rural location of most prisons, (2) salary competition for medical professionals and correctional officers, and (3) stressful working conditions in correctional facilities. SCDC continues to conduct standard agency-wide exit interviews to determine if other factors affect turnover.

Salaries

The Legislature has taken steps to address this problem by increasing correctional officer salaries. However, local law enforcement agencies continue to hire the state's recently trained correctional officers to work in local jails for higher salaries, thereby obtaining certified officers without incurring the training costs.

For example, the state correctional officer salary is generally lower than that offered by the counties. For an example, the starting pay for entry-level CO at SCDC is: \$32,908 compared to \$35-36,571 starting pay for a Detention officer at Richland County Sheriff's Office, Lexington County Sheriff's Office and York County a Detention Officer starts out at \$35,520.

In two locations where we have 2 of our highest vacancy institutions (McCormick and Evans), we can't compete with the Federal Institutions that have a starting pay of 45K.

Vacant, But Seeking Applications

Of the 1,415 positions currently vacant, we have at any given time 100-150 positions posted at the State's job board www.careers.sc.gov. Many of the postings are 1 job post for multiple positions. The total number fluctuates due to releasing jobs daily. SCDC also has statewide continual postings in order for the Job Aggregator sites (Indeed, Monster, CareerBuilder, GlassDoor, LinkedIn) that scrapes our postings to their boards.

Utilization of Funds from Vacant Positions

The cost of these positions can (OR cannot) be covered by reclassifying current vacant positions because all positions are not funded. Theoretically this would work if all positions were currently funded. Funds are allocated for overtime in lieu of positions and funds are transferred from other Divisions to Health Services to cover deficits in that division's budget.

The funding for the health services positions will (OR will not) allow the agency to no longer need to transfer funds from other divisions to Health Services to cover deficits in that division's budget. If Health Services is fully funded then there will no longer be a need to transfer these funds into their budget.
