

# Number of inmates grouped by criminal offense classification, sex, and ethnicity (FY 2004, 2009, 2014, and 2018)

Included in the Department of Corrections' (SCDC) March 20, 2019 letter to the House Legislative Oversight Committee (LOC). This information was provided in response to the following question in LOC's February 25, 2019, letter to the Department of Corrections: "1 - Please provide the following for fifteen years ago, ten years ago, five years ago, and this past year: (a) average number of inmates housed by SCDC; (b) number of SCDC facilities; and (c) breakdown of types of crimes for which the inmates are incarcerated by percentage."

Highlighted areas indicate most common offenses for each demographic group. When an inmate has been convicted of multiple crimes, the "most serious offense" is defined as the offense which draws the longest incarcerative sentence.

Includes Interstate Corrections Compact, county safekeepers, and pre-sentence observation.

All percentages rounded where possible.

\*Highlighted areas indicate most common offenses for each demographic group. Inmates often are committed to SCDC with many offenses, with each carrying a specific sentence, county of commitment, etc. To facilitate statistical reporting, SCDC determines a single "most serious offense" (MSO) for each inmate. Before August 2005, the offense with the longest sentence was determined to be MSO. Effective August 2005, inmates' MSO is the offense with the highest severity level (i.e. offenses are classified between severity level 1 and 5, with 5 as the most severe). In cases where an inmate has multiple offenses at the same severity level, SCDC considers the category of each offense, where homicide offenses take precedence, followed by sex offenses and violent offenses. If multiple offenses exist within the same category, the offense with the longest sentence then determines MSO. Because of this definitional change, post-2005 MSO data cannot be compared to pre-2005 MSO data.

\*\*Includes Interstate Corrections Compact, county safekeepers, and pre-sentence observation.

All percentages rounded.

\*Highlighted areas indicate most common offenses for each demographic group. Inmates often are committed to SCDC with many offenses, with each carrying a specific sentence, county of commitment, etc. To facilitate statistical reporting, SCDC determines a single "most serious offense" (MSO) for each inmate. Before August 2005, the offense with the longest sentence determined MSO. Effective August 2005, inmates' MSO is the offense with the highest severity level (i.e. offenses are classified between severity level 1 and 5, with 5 as the most severe). In cases where an inmate has multiple offenses at the same severity level, SCDC considers the category of each offense, where homicide offenses take precedence, followed by sex offenses and violent offenses. If multiple offenses exist within the same category, the offense with the longest sentence then determines MSO. Because of this definitional change, post-2005 MSO data cannot be compared to pre-2005 MSO data.

\*\*Includes Interstate Corrections Compact, county safekeepers, and pre-sentence observation.

All percentages rounded.

Included in March 20, 2019 letter from SCDC to LOC

South Carolina Department of Corrections
