PROGRAM EVALUATION REPORT

JUNE 2017

The contents of this report and the attached Excel documents are considered sworn testimony from the Agency Director.

SC Department of Natural Resources

Date of Submission: *August 30, 2017*

Agency Director

Name: Alvin A. Taylor
Start Date: August 12, 1977
Number of Years as Agency Head: Five years, appointed March 17, 2012
Number of Years at Agency: Forty years
Email: TaylorA@dnr.sc.gov

Primary Agency Staff Contact for Oversight Study

Name: Shannon Bobertz
Phone: (803)734-4006
Email: Bobertzs@dnr.sc.gov

Main Agency Contact Information

Phone: (803)734-4007
Email: webmaster@dnr.sc.gov
Mailing Address: PO Box 167, Columbia, SC 29202
1000 Assembly Street, Columbia, SC 29201

TABLE OF CONTENTS

A. Questions ____ 1

Agency Snapshot ____ 1

Agency Legal Directives, Plan & Resources (Study Step 1: Agency Legal Directives, Plan and Resources) 7

Performance (Study Step 2: Performance) ____ 15

Agency Ideas/Recommendations (Study Step 3: Recommendations) ____ 16

Internal Change #1: Increase starting salaries of technicians ____ 16

Internal Change #2: Full review of all internal forms ____ 16

Internal Change #3: Facility to house a Cultural Resource Center which will include an Archaeology Laboratory and staff offices ____ 17

Internal Change #4: Facilitate electronic reporting for required marine harvest reports ____ 17

Internal Change #5: Broaden the scope and scale of programs at the Waddell Mariculture Center 17

Internal Change #6: Enterprise Licensing and Registration System ____ 17

Internal Change #7: Tagging infrastructure and major transaction outsourcing ____ 18

Internal Change #8: Customer Portal ____ 18

Internal Change #9: Tracking the daily number of boating and licensing applications received ____ 19

Internal Change #10: License renewal reminders for expiring privileges using an e-mail subscription management system ____ 19

Internal Change #11: Relocating headquarters to allow for better customer service ____ 20

Internal Change #12: Multiple boating transaction pilot program for permitted marine dealers ____ 20

Internal Change #13: Standard Operating Procedures Manual ____ 20

Internal Change #14: Electronic financial ticket data exchange with Court Administration ____ 21

Internal Change #15: Internal financial system to replace legacy system ____ 21

Internal Change #16: Automated Computer Program to obtain weekly data for grant use ____ 21

Internal Change #17: Change officers' work schedule to allow for an additional weekend day off per month ____ 22

Internal Change #18: Extend Wildlife and Marine Law Enforcement Basic Training Academy by one additional week ____ 22

Internal Change #19: Electronic records management system, E-Citation system, and mobile data information systems for patrol officers ____ 22

Internal Change #20: Workers compensation payment improvement to account for different funding sources ____ 23

Law Recommendation # 1: SC Code Section 1-30-75 and 48-4-10 ____ 23

Law Recommendation # 2: S.C. Code Ann. 3-5-100 and 3-5-170. ____ 24

Law Recommendation # 3: S.C. Code Ann. 10-9-320 ____ 25

Law Recommendation # 4: S.C. Code Ann. 11-37-200 26
Law Recommendation # 5: S.C. Code 13-11-20. 27
Law Recommendation # 6: S.C. Code Ann. 17-22-50 27
Law Recommendation # 7: S.C. Code Ann. 47-3-310 through 47-3-320 28
Law Recommendation # 8: S.C. Code Ann. 47-3-510 through 520 and 47-3-550 28
Law Recommendation # 9: S.C. Code Section 48-4-30 29
Law Recommendation # 10: SC Code Ann. 48-4-70 29
Law Recommendation # 11: SC Code Ann. 48-11-10 through 48-11-15 30
Law Recommendation # 12: S.C. Code Ann. 48-9-30 30
Law Recommendation # 13: S.C. Code Ann. 48-9-40 31
Law Recommendation # 14: S.C. Code Ann. 48-9-45 31
Law Recommendation # 15: S.C. Code Ann. 48-9-50 31
Law Recommendation # 16: S.C. Code Ann. 48-9-220 32
Law Recommendation # 17: S.C. Code Ann. 48-9-230 32
Law Recommendation # 18: S.C. Code Ann. 48-9-310 33
Law Recommendation# 19: S.C. Code Ann. 48-9-1220 33
Law Recommendation # 20: S.C. Code Ann. 48-9-1250 34
Law Recommendation # 21: S.C. Code Ann. 48-9-1320 34
Law Recommendation # 22: S.C. Code Ann. 48-9-1510 through 1870 35
Law Recommendation #23: S.C. Code Ann. 48-22-10 40
Law Recommendation #24: S.C. Code Ann. 48-22-20 41
Law Recommendation #25: S.C. Code Ann. 48-22-30 41
Law Recommendation #26: S.C. Code Ann. 48-22-40 41
Law Recommendation # 27: SC Code Ann. 49-3-30 42
Law Recommendation # 28: S.C. Code 49-3-40 through 50 43
Law Recommendation # 29: S.C. Code Ann. 49-30-40 through 49-30-90 44
Law Recommendation # 30: S.C. Code Ann. 50-1-220 45
Law Recommendation # 31: S.C. Code Ann. 50-3-10 46
Law Recommendation # 32: S.C. Code Ann. 50-3-90 46
Law Recommendation # 33: S.C. Code Ann. 50-3-110 46
Law Recommendation # 34: S.C. Code Ann. 50-3-130 47
Law Recommendation # 35: S. C. Code Ann. 50-3-150 47
Law Recommendation # 36: S.C. Code Ann. 50-3-180 48
Law Recommendation # 37: S.C. Code Ann. 50-3-315 49
Law Recommendation # 38: S.C. Code Ann. 50-3-320 49
Law Recommendation # 39: S.C. Code Ann. 50-3-350 49
Law Recommendation # 40: S.C. Code Ann. 50-3-395 50

Law Recommendation # 81: S.C. Code Ann. 51-17-140 75
Law Recommendation # 82: S.C. Code Ann. 51-17-150 76
Law Recommendation # 83: S. C. Code Ann. 51-17-310 through 51-17-360 76
Law Recommendation # 84: Regulations 123-2 through 123-9 79
Law Recommendation # 85: Regulations 123-20 through 123-34 and 123-35 81
Law Recommendation # 86: Regulation 123-601 85
Law Recommendation # 87: Regulations 123.10 through 123.19.31 86
B. Additional Documents to Submit 100
C. Feedback (Optional) 101

A. QUESTIONS

Please type responses to each question directly below the question. For the questions which ask agency representatives to complete an Excel chart, please complete the chart and attach it to the end of this document when submitting the Adobe (.pdf) version.

Agency Snapshot

1. What are 3-4 agency successes?

   A. Focus on the Public

   The SCDNR's management and stewardship of the state's natural resources, has resulted in high quality hunting, fishing, boating and educational opportunities for the public. The agency maintains a public lands program with over 1,000,000 acres accessible to the public for hunting and fishing. In addition, the agency provides saltwater fishing opportunities to over 450,000 people. Further, SCDNR staff are responsible for major maintenance and renovation of 440 boating access facilities statewide, providing for public access to state waters.

   The SCDNR has focused on enhancing the public's experience as it relates to the natural resources of the state. The Marine Resources Division re-initiated its biennial Open House at the Marine Resources Center in October 2015, and over 1700 members of the public visited and enjoyed hands-on and interactive displays of our marine resources stewardship efforts. The 2017 Marine Resources Center Open House is planned for October 23, 2017. Staff has developed a GIS interface which makes it possible for the public to view all SCDNR managed land and boating access areas. The application allows users to find places of interest utilizing Google map technology for directions, while also providing location descriptions and relevant information such as rules and regulations, open and closing times, and license information. The department has worked to standardize and simplify the seasons and limits for popular game, fish and marine species, while maintaining a balance between high-quality opportunity and protection. In 2016, the SCDNR documented and verified saltwater charter and recreational fishing license holders, thus exempting them from federal fishing license requirements, saving South Carolina anglers approximately $9,000,000 in federal license fees. Outreach and education programs such as the National Archery in the Schools, Scholastic Clay Target Sports, Take One Make One, Family Fishing Clinics, Fishing Rodeos, Youth Bass Fishing Clubs and Championships, and Trout in the Classroom have impacted a total of more than 170,000 youth annually. The focus on education and enforcement has resulted in a caseload ratio of 2.5 warnings to 1 summons. This ratio is beneficial to the public in that it shows nearly 75 percent of violations detected are handled with a warning to educate the public versus summons. To simplify the licensing requirement, the agency has implemented the 3-year license and the 365-day Hunting and Fishing license terms, and implemented the GovDelivery communication solution platform. This gives the agency the ability to communicate in the most timely, efficient and desired manner available.

   The SCDNR is a key partner in responding to natural disasters, emergency responses, and other requests for assistance. This past year, the SCDNR Law Enforcement Division had more than 20,000 man hours assisting other agencies. During Hurricane Matthew, 237 officers were deployed, and in some cases, had to provide 24 hour security to communities that were hardest hit by the storm. During the 2015 Flood, 158 officers worked for 9 days assisting local agencies resulting in more than 930 persons being rescued in eleven counties. During these weather

events, efforts were made to minimize impacts to wildlife by temporarily closing the hunting season. SCDNR engineers provided technical assistance in evaluating damages and estimating repair costs to agency assets from both the October 2015 rain event and Hurricane Matthew in 2016. The agency's flood mitigation team provided post storm assistance and damage assessment for 792 structures in 2016, and a partnership with FEMA to work side by side with local governments to assess and assist in recovery.

Researching, acquiring, and managing significant natural and cultural resources are a critical aspect of the SCDNR's contributions to the state and the public. For example, department staff created and made available to the public accurate geologic maps in digital format. The agency also acquires and manages significant properties in the Heritage Trust program, and an ever expanding Cultural Resources program to identify, catalogue, preserve, and display archaeological artifacts from Heritage Preserve properties for the benefit of the public. Reliable scientific information was provided to decision makers on surface-water and groundwater issues through the update of the State Water Plan and consolidated hydrologic information in computer models for the eight major river basins in South Carolina. In 2016 alone, scientific staff produced 100 technical reports, published 25 peer-reviewed scientific research papers, and gave 250 oral presentations on ongoing marine research. Finally, a surveying crew was established within the Engineering Section saving considerable costs for surveying or re-surveying boundaries on thousands of acres of SCDNR owned and managed Wildlife Management Areas, resulting in more accurate mapping for the public.

B. Focus on the Economy

The SCDNR's effective stewardship of the natural resources and public lands of the state attracts visitors and businesses from other regions and countries and this has a tremendous effect on South Carolina's economy. A Clemson University study from December 2016 found that the total economic contribution from natural resource based economic sectors in the state resulted in more than $33 billion in economic activity, and nearly $9 billion of labor income from the jobs generated in the natural resources sector. This accounted for more than 8.3 percent of the gross state product, and 8.6 percent of all jobs in the state. To encourage economic development, the agency works with industry partners based in South Carolina to identify areas where they can work together for resources management and to enhance recreational opportunities. Specifically, the agency developed partnerships with sport fishing industries based in South Carolina. The goals of the effort are to ensure that the industry understands how the SCDNR uses Sport Fish Restoration funds derived from the federal excise tax and to identify areas where the agency can collaborate with this industry in South Carolina. As to the marine impact, commercial saltwater fishermen took 29,255 trips and landed $25.5 million worth of commercial seafood products in FY 2017.

The SCDNR's Office of Environmental Programs (OEP), although not a regulatory entity, reviews proposed environmental impacts as published in the regulatory arena and provides science-based expertise to benefit the state's natural resources and its citizens while enabling economic development. Recent successes include working with partner agencies and organizations to effect sound natural resource based mitigation for: Haile Gold Mine, the Boeing expansion, Volvo manufacturing plant, proposed construction of I-73, Catawba-Wateree and Keowee-Toxaway hydropower facility relicensing, as well as a number of other smaller, but important, projects to the State. The agency also collaborated with the US Army Corps of Engineers to develop a general permit covering most of the activities the SCDNR performs, potentially impacting waters of the US.

The SCDNR's management and stewardship of the state's natural resources are critical in the support and promotion of in-state businesses, in addition to drawing outside sources of revenue into the state. For example, in FY 2017, more than 3,000 individuals and companies were licensed and/or permitted by the SCDNR to use the state's resources to operate businesses and over 180,000 privileges to hunt and fish in South Carolina were sold to non-residents.

C. Focus on Staff

With a dedicated work force, the SCDNR has been rebuilding from the FY 2010 budget cuts and loss of staff in order to provide better service to the public and to the resource. Recognizing that state salaries and benefits do not always compare with private industry and the federal government, the department has taken steps to retain well-trained and high-performing employees. In addition to the implementation of a Law Enforcement career path, which included salary step increases for officers at the 15 and 20 years of service mark, the department implemented a pay plan for staff in the Wildlife and Freshwater Fisheries Division and Marine Resources Division. These incentives impact 76 percent of the department employees, and the agency's goal is to expand these programs throughout the agency. A key component of these salary initiatives is a requirement that the employee receive additional training. As an in-house initiative, the Freshwater Fisheries section has implemented an in-service training program for junior staff. To foster information exchange and professional growth, Marine Resource staff present their work to an audience of their colleagues and peers at the two-day annual Marine Resources Division conference at the Marine Resources Center in Charleston.

2. What are 3-4 agency challenges or issues? These may include things agency representatives already have a plan to improve.

A. Inadequate Funding

The SCDNR is challenged to meet its mission to the public and the natural resources of this state due to inadequate funding. The agency historically has been at risk for deeper cuts than other agencies during negative budget cycles, which can make the recovery from those cuts extend for a longer period of time. The changing federal budget climate is a concern for the department as the agency relies heavily on federal funds to operate. For example, in FY 2017, 45 percent of the Marine Resources Division (MRD) expenditures were supported by federal funding. Given the uncertainty associated with the federal budget picture, many federally funded projects at the department of great import to South Carolina residents may be in jeopardy due to lack of funding. The agency has tried to do the best it can with limited resources by using state funds to leverage federal funds for projects in research, monitoring, stewardship, and outreach. As an example, state appropriated expenditures of $2,302,415 leveraged $15,375,701 in federal and other fund expenditures for MRD, over a six-fold return on investment of state appropriated funds in FY 2017. To use these federal funds, the state is required to use state funds as match, thus creating a budgetary challenge for many programs. For example, Law Enforcement has had to use state funds from their operational budget as matching funds, which negatively affects overall field operations.

The SCDNR requires stable, recurring state funding, as well as adequate operating funds to match Federal grants, and needs restoration of the many FTE's lost in budget cuts beginning in FY 2010 in order to better address the agency's mission. Finding new and adequate funding streams to successfully protect and manage the state's natural and cultural resources remains a continuing challenge. As one concern, the department needs to obtain recurring funding for expanding the stream gage and groundwater monitoring network needed to accurately measure

water availability and assist in forecasting and analyzing flood and drought conditions throughout the state.

The agency needs to expand its outreach efforts by educating the people of South Carolina about the importance of natural resources and how to wisely manage them. For example, the agency's ability to sustain marine resources in the face of increasing pressures from fishing, habitat loss, and water quality degradation, is largely dependent upon our credibility as an agency and our ability to promote behaviors that allow sustained use and protection over time.

The advent of new communication tools, notably social media, poses both a challenge and an opportunity as we continue to try to sustain/enhance a conservation ethic in South Carolina residents and visitors who enjoy our natural resources. Also, it is vital that SCDNR has the resources to maintain and enhance the technological capabilities needed in order to meet the ever increasing licensing and registration demands. The current Licensing, Boat Titling and Registration System is in need of significant modernization. The goal in modernizing the system would be a new enterprise system that will require the following: the integration of the customer data across all agency licensing, boating and financial platforms; streamlined steps in data processing that will increase turnaround times; a secure external customer account access portal; a design infrastructure that will allow for greater ease and flexibility in program changes; and platforms for Point of Sale and internet call center transactions, commercial licensing and permitted marine dealers.

The lack of stable and adequate funding is also evident in the Law Enforcement Division. There are increased budgetary demands on the Law Enforcement Division due to the growing assistance requests for a more traditional law enforcement role versus resource focused enforcement role. As a first responder agency we are called to assist other state and local agencies weekly in traditional law enforcement responses such as man hunts, civil disturbance, event security, and general assistance calls. This fiscal year alone the Law Enforcement Division has more than 20,000 man hours assisting other agencies. Additionally, there is a challenge ensuring officer safety and readiness due to the changing views and challenges in the Law Enforcement environment. Increased federal and state mandates, including, updating safety equipment, providing training for encounters with the public in both violent and non-violent settings, and requirements for specific equipment, training, and funding for law enforcement remains a challenge.

B. Facility/Equipment Needs

As mentioned in the internal changes, the department's main boating customer service area is currently located on the first floor of the Rembert C. Dennis Building, fronting Assembly Street, on the State House grounds. This location has become increasingly problematic for public access. The City of Columbia has steadily reduced the number of street parking spaces on Assembly Street. This change has had a direct and negative impact on those boating and sporting customers attempting to do business with the department. When the opportunity arose to move our licensing section to the State Farmers Market, the department took that opportunity in January of 2016, leaving the boating customer service section at the Assembly Street location. As impending development and street-scaping along Assembly Street continues, the traffic congestion and lack of parking will continue to be a problem for those seeking boating services. The SCDNR is exploring all options that will make the entire department more accessible to the public. In line with accessibility concerns, the agency must keep all facilities compliant with the Americans with Disabilities Act (ADA). A Self Evaluation and Transition Plan that identified ADA

needs for SCDNR facilities was submitted to the US Fish and Wildlife Service in 2012, and is continually reviewed for progress.

The infrastructure is aging at the Marine Resources Center in Charleston, the Waddell Mariculture Center in Bluffton, and the McKenzie Field Station in Bennett's Point. Additionally, the agency's ocean-going research vessel fleet is in need of repairs. These facilities and assets were acquired and constructed with appropriated funds and do not have a dedicated revenue stream with which to rehabilitate, and/or replace them.

C. Succession Planning and Competitive Salaries

The SCDNR has recognized for many years that improving salaries is a key component to recruitment and retention of highly qualified individuals. The agency's staff are the most valuable asset, and long-term success is driven by sustained commitment to conservation, stewardship, and science. The agency has lost 152 FTEs since the budget cuts of FY 2011. Changing workforce and sociodemographic patterns have created a more mobile workforce, and studies reveal that today's workers are more likely to change careers several times. Retention of high-performing employees is critical to ensuring sustained success in resources stewardship. Currently, with the looming end of the TERI program, this concern is heightened. The department needs to secure additional funding to ensure salary obligations can be met, while still providing optimal support of SCDNR operations. Providing salaries for employees that are regionally competitive, and providing adequate training and mentoring in order to prepare younger staff for succession as older staff retire is problematic. To compound these concerns, meeting programmatic needs with existing staff in light of the new constraints imposed by the changes to the Fair Labor Standards Act (FLSA) is difficult. The new rules under FLSA affected 155 employees in the agency whose classification changed from exempt to non-exempt under the new rule.

In addition, keeping a well trained and experienced force of conservation officers who are required to work three weekends a month and most major holidays is difficult with the new generation of officers graduating from the police academy. Maintaining this force, however, is critical with the increasing demands placed on the agency's Law Enforcement Division outside of the traditional role of game wardens.

3. What are 3-4 emerging issues agency representatives anticipate having an impact on agency operations in the upcoming five years?

A. Balancing Natural Resources with a Changing Population

One of the agency's emerging issues is balancing the natural resource needs of a changing population. The agency deals with increased human/animal interactions as the human population grows. Population growth also requires the agency to focus on protecting habitats for the natural communities that occur within the state, in order to maintain their viability. Most of the land management focuses on consumptive use of natural resources and we have increasing interest in providing access to non-consumptive users who also have access to SCDNR-managed properties. Management for multi-species conservation will be important going forward. For example, the department organized the SC Quail Council, a large partnership to guide and support the South Carolina Bobwhite Initiative to restore habitat and recover populations of the bobwhite quail and associated non-game bird species in long-term decline. In addition, the increasing demand for recreational boating opportunities requires additional officers to spend time on the water during non-traditional boating months. With more than 500,000 registered

boats, currently 7th in the nation, South Carolina annually ranks as one of the top ten states in the nation for registered boats.

A focus for the agency is expanding minority and non-consumptive constituents' input and participation in natural resource policy. The SCDNR has in place outreach initiatives that connect with African-American and Hispanic communities, as well as programs that could lead non-consumptive users to, at the minimum, appreciate the outdoors with the potential of creating more sportsmen and sportswomen. The SCDNR hopes to have more ways of engaging minorities and non-consumptive users to participate on advisory boards, panels and task forces. The agency also encourages youth to get involved in outdoor activities, to instill a conservation ethic and to appreciate and protect the natural resources of the state.

As the state's population grows, and the state continues to protect watersheds, habitat, and other public lands, SCDNR's funding and staffing levels have not grown to keep up with the demand. Because of population growth, the state is facing continued water-related issues that have dominated headlines with increasing political attention. As the water resource planning agency for the state, the SCDNR is responsible for monitoring and analyzing water resource information and developing state water plans. Maintaining funding and enhancing funding is critical for the SCDNR so that these responsibilities will not be compromised.

Dealing with increased public use of natural lands managed by the agency, balancing protection of the natural characteristics of these lands, and providing public recreation and education will become more challenging in the future. Wildlife Management Area (WMA) properties are enjoyed by hundreds of thousands of residents and non-residents a year. The SCDNR manages more than 1 million acres of public access lands for hunting, fishing, boating, and hiking for the enjoyment of both consumptive and non-consumptive users. Although WMAs are enjoyed by all, they are primarily financially supported by the sportsmen and sportswomen of this state. SCDNR collects visitor use information on select, high-use WMAs across the state for the purpose of determining user characteristics and evaluating the types of uses of SCDNR properties. Among non-hunting users, birdwatching, wildlife viewing, fishing and photography are the most popular activities. Over a two-year period, over 5,800 non-hunting users visited four coastal WMAs. During the same time period, 3,663 hunters also used those same properties. In addition, Botany Bay WMA annually receives between 50,000 and 60,000 visitors, the vast majority of who are visiting the property for purposes other than hunting.

B. Updating Facilities and Equipment

As mentioned in the current challenges, updating facilities and equipment have long term impacts on the agency. For instance, the use of radiological detection equipment and its costs are growing annually in anti-terrorism plans. Also, equipment and specialty vessels necessary for responding to natural disasters and man-made disasters is essential.
Physical office space demands for staffing are increasing, but actual space is becoming a challenge. Adequate work space is essential to maintain a positive work environment for all agency staff and the public who visit. The agency continues its focus on maintaining or replacing aging infrastructure to include, but not limited to, buildings, properties, and large research vessels. The agency requires Information Technology support to address increasing needs for data management and GIS functions. Simply maintaining current systems, which can quickly become obsolete, as well as investing in emerging technologies for communications systems and computer equipment is expensive, but is an expectation of both internal and external users. For instance, smartphone applications and web-based technology is the norm for today's user and the agency is challenged to meet the changing world of technology.

C. Emerging Issues with Staff

The SCDNR will always be faced with salary challenges, and a changing employment demographic. Keeping high-performing employees, who are key to the agency's credibility and success, along with a challenging and fulfilling work environment (this includes giving the employees the proper tools and equipment to perform their jobs in a safe and efficient manner), as well as adequate pay and benefits are imperative. This concern extends to recruiting qualified employees. The end of TERI will have an impact on the agency, as employees at SCDNR have a history of spending their careers with the agency. Staff turnover due to retirements, even outside of TERI, will be an issue in years to come; therefore, succession planning is a consideration the agency continually faces.

Agency Legal Directives, Plan & Resources (Study Step 1: Agency Legal Directives, Plan and Resources)

4. Please provide the major events history of the agency by year, from its origin to the present, in a bulleted list. Include the names of each director with the year the director started and major events (e.g., programs added, cut, departments/divisions changed, etc.).

- *1726*
  - The first wildlife protection legislation was written. Under Colonial Law, the use of poisons to take "great quantities of fish" became illegal.
- *1825*
  - The earliest state-sponsored work of a geologic nature in South Carolina was a 1-year "Geological and Mineralogical Survey of South Carolina" made in 1825-1826 by Lardner Vanuxem by order of the Legislature.
- *1843*
  - Governor Hammond commissioned Michael Toumey to make a "Geological and Agricultural Survey of the State." Mr. Toumey submitted a Report on the Geology of South Carolina in 1846. The report was published in 1848 and presented the results for the first real study of geology of the State.
- *1878*
  - Legislation authorizing the governor to appoint a "suitable person" to act as Fish Commissioner was enacted. Fish wardens were appointed in every county.
- *1892*
  - The first non-resident hunting license was issued.
- *1900*
  - The Lacey Act passed. The first federal law regulating the importation of birds and animals and interstate traffic of game.
- *1904*
  - Earle Sloan begins service as State Geologist until 1910. His earlier work was instrumental in our understanding of the Charleston earthquake.
- *1905*
  - Provisions were made for each of the state's forty-six counties to have game wardens. The Wardens drew no salary, but received one half of the fines they collected and one half of the fees of the non-resident licenses they sold.

- *1906*
  - The S.C. General Assembly created the State Board of Fisheries and charged it with the general supervision of commercial and tidal fishing along South Carolina's coast.
- *1907*
  - The South Carolina Audubon Society was incorporated, precursor to the Wildlife Department, bringing game wardens under statewide coordination.
- *1910*
  - Act No. 293 provided that South Carolina's bird, game, and non-migratory fish laws would be administered by the Chief Game Warden James Henry Rice (1910-1913). This legislation signaled the birth of the state's Wildlife Department.
- *1913*
  - A. "Chief" Richardson becomes Chief Game Warden, and later the first State Director (1913-1958).
- *1926*
  - Act authorizing the creation of game sanctuaries and within 5 years, more than 160,000 acres had been set aside where game, birds, and animals could breed unmolested.
- *1928*
  - A hunting license law was established.
- *1931*
  - Cleveland Fish Hatchery, the first state fish hatchery in South Carolina, opened in Greenville County to raise rainbow and brook trout.
- *1935*
  - State Game and Fish Commission was created by the General Assembly.
  - Construction of Cohen Campbell Fish Hatchery.
- *1936*
  - Construction of Spring Stevens Fish Hatchery.
- *1937*
  - President Franklin D. Roosevelt urged states to address soil erosion by creating local conservation districts. The Conservation Districts Law, Act 182, provided for the creation of South Carolina's 46 soil and water conservation districts and a state agency, the S.C. Soil and Water Conservation Committee, which later merged into the S.C. Land Resources Commission.
  - Construction of Cheraw Fish Hatchery.
  - The Pittman-Robertson Wildlife Restoration Act provided federal funding for the selection, restoration, rehabilitation and improvement of wildlife habitat, wildlife management research, and the distribution of information produced by the projects. The Act was amended October 23, 1970, to include funding for hunter training programs and the development, operation and maintenance of public target ranges.
- *1938*
  - The first conservation district farm plan in the nation was initiated in Oconee County.
- *1941*
  - The Wildlife Department purchased its first property, 5,866 acres in Hampton County now part of the Webb Center.
- *1947*
  - The first biologist was hired by the Wildlife Department.
- *1949*
  - South Carolina's deer stocking projects began.

- *1951*
  - The Dingell-Johnson Sport Fish Restoration Act provided federal financial assistance for state fish restoration and management plans and projects. This act and the later Wallop-Breaux (1984) Amendment allowed development of the Freshwater Fisheries section of the department.
- *1952*
  - The State Board of Fisheries was incorporated into the newly created South Carolina Wildlife Resources Department, renamed the Division of Commercial Fisheries, along with the Division of Game, which included law enforcement. The department was supervised by a seven man Wildlife Resources Commission. Harry Hampton played an integral part in creation of the Commission.
- *1954*
  - *South Carolina Wildlife* magazine published its first issue, a black-and-white free quarterly that communicated to the public the mission and programs of the newly formed Wildlife Resources Commission.
- *1957*
  - Henry Johnson, Jr. was hired to head the new Division of Geology. The modern South Carolina Geological Survey began with Mr. Johnson's hiring, who stressed field reconnaissance, mapping, drilling, and stratigraphic description.
- *1959*
  - State Director James W. Webb becomes the Director (1959-1974).
  - South Carolina boating law was enacted requiring the registration of powered boats.
- *1961*
  - The first documented production of striped bass in the country was accomplished at the striped bass hatchery in Moncks Corner.
- *1962*
  - The department acquired its first airplane, a Cessna 180.
- *1963*
  - The Hunter Safety program was begun.
- *1967*
  - The S.C. Water Resources Planning and Coordination Act of 1967 established the S.C. Water Resources Committee. The act was amended in 1969 to change the Committee to the S.C. Water Resources Commission which subsequently merged into SCDNR.
- *1969*
  - Wildlife Resources Commission approved a final report titled "A Plan for Marine Resources Research and Development in South Carolina," which noted the essential need to establish a comprehensive research and development program for marine resources.
- *1970*
  - In March, James A. Timmerman Jr. was named the first director of the newly established Marine Resources Division. Construction started on the Marine Center (at Fort Johnson in Charleston) to provide a facility for marine research and management.
- *1971*
  - The SC Constitution is amended to state "the conservation of its natural resources are matters of public concern…"
  - The Game Management Area (GMA), now Wildlife Management Area (WMA), program began with department-owned tracts and leases. Fees were required for a permit.

- *1972*
  - The S.C. Wildlife Resources Department was renamed the S.C. Wildlife and Marine Resources Department to emphasize the importance of the Marine Resources Division.
  - The State Soil and Water Conservation Commission was designated the State Land Resources Conservation Commission, which later merged into SCDNR.
  - The Boating Education program was begun.
- *1974*
  - State Director James A. Timmerman, Jr. becomes Director (1974-1997).
  - The Heritage Trust program was created to preserve those natural features and cultural remains that are disappearing as the state's population increases. The program's purpose is to inventory, evaluate and protect the elements considered the most outstanding representatives of our state's heritage. It was the first of its kind in the nation.
  - The enabling legislation for the South Carolina Geological Survey was signed into law.
- *1978*
  - The Small Game and Fur Resources projects were established to provide for research, survey and management efforts for animals like bobwhite quail, doves, raccoons and beavers.
- *1980*
  - The Aquatic Plant Management Council was established to provide statewide coordination of aquatic plant management efforts in public waters. Management of nuisance aquatic plants was further strengthened by law in 1990 when the S.C. Aquatic Plant Management Program and Trust Fund were established.
- *1983*
  - Groundbreaking ceremonies were held in Bluffton for the Waddell Mariculture Research and Development Center for the research and development of techniques to culture saltwater plants and animals.
- *1984*
  - The Operation Game Thief program was established to assist game wardens in apprehending natural resource law violators by offering rewards for information leading to the arrest and conviction of violators.
- *1986*
  - The Office of State Climatologist Act provided that the State Climatology Office will serve as the "climatological focal point for state government and its agencies."
  - The General Assembly designated revenue from a slight increase in the Real Estate Document Stamp Tax to support the Heritage Land Trust Fund which supports the protection of critical wildlife habitat.
- *1988*
  - Launched the ACE (Ashepoo, Combahee, and Edisto) Basin Project in partnership with nonprofit organizations, the USFWS, and private landowners as an effort to protect and maintain the natural character of the area through voluntary conservation measures including conservation easements and fee title acquisitions of important properties for public benefits while maintaining traditional natural resource uses such as hunting, fishing (commercial and recreational), forest management, and farming.
- *1989*
  - The department assisted with the response to Hurricane Hugo.
- *1992*
  - The ACE Basin National Estuarine Research Reserve was dedicated in 1992 to increase knowledge and awareness of estuarine habitats through research, monitoring activities and public education in the Ashepoo, Combahee and Edisto River drainage.
- *1994*
  - As a result of the Restructuring Act of 1993, the S.C. Department of Natural Resources was formed, made up of the former S.C. Wildlife and Marine Resources Department, S.C. Water

Resources Commission, S.C. Land Resources Conservation Commission, S.C. Geological Survey, and S.C. Migratory Waterfowl Committee.

- *1997*
  - State Director Paul Sandifer becomes Director (1997-2003).
  - The Water Resources Division, Land Resources Division, and Geological Survey were formally combined into one division—Land, Water and Conservation, by the appropriations act of 1998.
- *1998*
  - The SCDNR, with the help of Duke Energy, the Richard King Mellon Foundation, and The Conservation Fund, purchased the 32,000-acre Jocassee Gorges tract, a very significant habitat protection project on the Blue Ridge Escarpment.
  - Established the Safe Harbor Program in SC as an effort to encourage landowners to provide habitat for the federally-endangered red-cockaded woodpecker.
  - First Edition of the State Water Plan published, making recommendations for Water Resources Management in SC.
- *1999*
  - The agency assisted with the response to Hurricane Floyd.
- *2001*
  - The Hollings Marine Laboratory, a 103,000 square foot cooperative research facility operated by the National Oceanic & Atmospheric Administration, opens at the Marine Resources Center in Charleston. SCDNR scientists work with researchers from four other partner organizations in this state-of-the-art lab.
- *2002*
  - SCDNR began intensive investigations on cobia to adopt and improve the techniques for growing cobia in mariculture operations. SCDNR is now considered a world leader in cobia mariculture, biology, and stewardship.
- *2003*
  - State Director John E. Frampton becomes Director (2003-2012).
- *2004*
  - Second Edition of the State Water Plan, incorporating lessons learned from the severe drought of 1998-2002.
- *2005*
  - Purchase of 10,000-plus-acre Bonneau Ferry tract completed.
- *2006*
  - Bonded Heritage Trust funds allowed for the acquisition of Woodbury WMA, a 25,668 acre property, and Hamilton Ridge Tract, a 13,281 acre property.
- *2008*
  - Over a span of three Fiscal Years, beginning with FY2008-2009 and ending with FY2010-2011, the agency implemented a Voluntary Retirement Incentive Plan (RIP) and a Voluntary Separation Plan (VSP) on 5 separate occasions to address severe budget shortfalls. The agency also implemented a Reduction in Force (RIF) on two occasions in FY 2008-2009 and FY 2010-2011. These were in addition to other cost-cutting measures including travel restrictions, gas consumption reductions and hiring freezes, all due to severe budget reductions. Within those three Fiscal Years, the department lost a total of 90 employees as a result of budget reductions.
- *2011*
  - The Right to Hunt amendment added to the South Carolina Constitution.
- *2012*
  - State Director Alvin A. Taylor becomes Director (2012- present).
  - Interstate Wildlife Violator Compact signed into law.

- *2013*
  - Violations, Licensing and Titling (VOLT) computer system launched.
- *2014*
  - Interstate Boating Violator Compact signed into law (first in the nation).
  - Initiated the Surface Water Assessment project to consolidate hydrologic information and create computer models for the eight major river basins, the first step in updating the State Water Plan.
  - Establishment of the SC Quail Council and subsequent SC Bobwhite Initiative.
- *2015*
  - Wateree River Heritage Preserve was acquired by SCDNR as partial mitigation for the Haile Gold Mine project. Wateree is a 3,677 acre tract of land including Cook's Mountain and Goodwill Plantation, providing significant cultural and ecological land preservation in Richland County. There were approximately 698 acres added to Forty-Acre Rock Heritage Preserve in Lancaster County as well.
  - SCDNR provided substantial assistance in flood recovery efforts from the October 2015 flood.
  - Completed Game Zone restructuring which created 4 game zones in SC as part of an effort to simplify regulations and provide consistency across the state.
- *2016*
  - SCDNR provided substantial assistance in Hurricane Matthew recovery efforts.
  - SCDNR acquired, with assistance from Duke Energy, Liberty Hill WMA, an 8,000 acre property including 17 miles of waterfront on Lake Wateree and the Catawba River which provides natural resources dependent recreational opportunities for the public.
  - Red-cockaded woodpeckers released onto Donnelley WMA as part of an effort to re-establish populations in the ACE Basin.
- *2017*
  - Wateree Rifle Range and Twin Ponds Rifle Range opened to the public, offering public shooting opportunities in Richland and Charleston Counties.
  - SCDNR worked with the oyster mariculture industry to develop protocols and procedures for the production of maricultured oysters. The General Assembly approved these measures, opening the door to sale of SC-grown maricultured oysters year-round.
  - Implemented a new approach to deer management in SC by requiring that all harvested deer be tagged and establishing a statewide limit on antlered deer.
  - Completed the Surface Water Assessment project in support of updating the State Water Plan.

5. Please provide information about the body that governs the agency, if any, and to whom the agency head reports. Explain what the agency's enabling statute outlines about the agency's governing body (e.g., board, commission, etc.), including, but not limited to: total number of individuals in the body; whether the individuals are elected or appointed; who elects or appoints the individuals; the length of term for each individual; whether there are any limitations on the total number of terms an individual can serve; whether there are any limitations on the number of consecutive terms an individual can serve; the names of the individuals currently on the governing body, date elected/appointed, and term number; and any other requirements or nuisances about the body which the agency believes is relevant to understanding how it and the agency operate. If the governing body operates differently than outlined in statute, please describe the differences.

The South Carolina Department of Natural Resources is empowered through S.C. Code Ann. 48-4-10, and exists to administer and enforce the laws of this State relating to wildlife, marine resources, and natural resources. The department is comprised of five divisions: a Law Enforcement Division, a Wildlife and Freshwater Fisheries Division, a Marine Resources Division, a Land, Water and Conservation Division, and an Office of Support Services Division. The governing body of the

department is the SCDNR Board and members of the board are appointed by the Governor with the advice and consent of the Senate. One member must be appointed from each of the seven congressional districts of the state. Terms of the board members are four years and until the successors are appointed and qualify. (S.C. Code Ann. 48-4-30). There are no limits as to the number of terms a board member can serve, or how many consecutive terms a board member may serve. The board sets policy of the department but has no duty or authority concerning the management of, control over, or administration of the day to day affairs of the department. (S.C. Code Ann. 48-4-50). The board appoints a director, upon advice and consent of the Senate. (S.C. Code Ann. 48-4-60). The director serves at the pleasure of the board and is the administrative head of the department. (S.C. Code Ann. 48-4-60). The current SCDNR Board members are: Chairman Mr. Cary L. Chastain (Sixth Congressional District, Term Expires July 1, 2020); Vice Chairman Mr. Norman Pulliam (Fourth Congressional District, Term Expires July 1, 2020); Mrs. Elizabeth Hood Willis (First Congressional District, Term Expires July 1, 2018); Mr. Michael E. Hutchins (Second Congressional District, Term Expires July 1, 2018); Mr. Larry L. Yonce (Third Congressional District, Term Expires July 1, 2018); Mr. D. Glenn McFadden (Fifth Congressional District, Term Expires July 1, 2018); and Mr. Keith C. Hinson (Seventh Congressional District, Term Expires July 1, 2018).

6. Please provide information about the agency's internal audit process, if any, including: whether the agency has internal auditors; a copy of the internal audit policy or charter; the date the agency first started performing audits; the names of individuals to whom internal auditors report; the general subject matters audited; name of person who makes the decision of when an internal audit is conducted; whether internal auditors conduct an agency-wide risk assessment routinely; whether internal auditors routinely evaluate the agency's performance measurement and improvement systems; the total number of audits performed in the last five fiscal years; and the date of the most recent Peer Review of Self-Assessment by the SC State Internal Auditors Association or other entity (if other entity, name of that entity).

The Internal Audit Department was established in 1998 to report to the agency director and the governing Board. Staffed with two positions at the time, the duties of the Internal Audit Director were executive management responsibilities and the duties of the Senior Auditor were primarily to conduct internal audits. However, in 2002, the Internal Audit Director transferred to another state agency. Because of extensive and recurring budget cuts, the agency did not replace that position.

As a result, over the course of the next several years the duties of the Senior Auditor transitioned due to the ever increasing number of external entities that required audits. These included various federal grantors (as of July 2017, the agency had just over $109 million in active federal grant awards), Legislative Audit Council, State Auditor's Office, etc. This transition led to the re-class of that position from a Senior Auditor to an Audits Manager.

Currently, the agency has one Audits Manager that reports to the agency director and the board, either of which can request an audit be conducted. Because she is a staff of one, her role as the Internal Auditor has evolved to serve the agency's needs. The Audits Manager's primary duties include consulting with staff wanting to create or change programs, policies, processes and/or systems. She serves as the agency's liaison for disaster recovery claims from FEMA (the agency incurred extensive damages as a result of the 2014 Winter Storm, 2015 Flood, and 2016 Hurricane Matthew). She is also the agency's liaison for external audits by various state and federal entities. In addition, she assists agency program managers with programmatic reviews, such as our Procurement Director with periodic MMO reviews.

In the last five years, the agency has undergone three major external audits by federal entities. In 2014, the United States Fish and Wildlife Service (USFWS) conducted a Civil Rights Review to ensure equal access to the agency's programs and facilities on the basis of race, color, national origin, age, sex, language and disability. In 2015, the Federal Emergency Management Agency (FEMA) conducted a programmatic review of the agency's management of federal funds received as a part of their Cooperating Technical Partners (CTP) program. In 2016, the United States Department of the Interior's (DOI), Office of the Inspector General (OIG) conducted a programmatic review of the agency's management of federal funds received as a part of their Wildlife and Sport Fish Restoration (WSFR) program. All three of these are cyclical reviews that are conducted approximately every 5 years. The agency has also undergone annual external Agreed Upon Procedures (AUP) audits and Statewide Single Audits conducted by the Office of the State Auditor (OSA) and/or their contracted firm, CliftonLarsonAllen, LLP.

The Audits Manager has been the agency's liaison for all of the external audits listed above. In addition, the Audits Manager has conducted an annual inventory audit to verify the inventory balances reported in our fiscal year end closing packages, as well as seven audits of monthly credit card purchases.

7. Please complete the Laws Chart, which is a tab in the attached Excel document.

   See attached Chart.

8. Please complete the Deliverables Chart, which is a tab in the attached Excel document.

   See attached Chart.

9. Please complete the Potential Harm Chart, which is a tab in the attached Excel document.

   See attached Chart.

10. Please complete the Organizational Units Chart, which is a tab in the attached Excel document.

    See attached Chart.

11. Please complete the Comprehensive Strategic Finances Chart, which is a tab in the attached Excel document, to provide the Committee information on how the agency spent its funding in 2015-16.

    See attached Chart.

12. Please provide the following information regarding the amount of funds remaining at the end of each year that the agency had available to use the next year (i.e., in 2011-12, insert the amount of money left over at the end of the year that the agency was able to carry forward and use in 2012-13), for each of the last five years.

Year	2012-13	2013-14	2014-15	2015-16	2016-17
Amount remaining at end of year that agency could use the next year	State: $850,086 Other: $66,198,091 Federal: $0	State: $3,560,837 Other: $65,731,190 Federal: $0	State: $9,329,705 Other: $75,327,379 Federal: $0	State: $4,563,412 Other: $81,794,674 Federal: $0	State: $8,866,812 Other: $90,552,150 Federal: $0

- Other includes Special Revenue Funds, Capital Project Funds, Trust and Agency Funds.
- Federal Funds are on a reimbursement basis, there are no funds to carry forward.
- State includes 10% Carry Forward, Non-recurring Carry Forward

Performance (Study Step 2: Performance)

13. Please complete the Performance Measures Chart, which is a tab in the attached Excel document.

    See attached Chart.

14. After completing the Performance Measure Chart, please provide the following: Graphs/Charts which show trends over the last five time periods for at least three performance measures (separate graph/chart for each performance measure) agency representatives believe are vital to knowing whether the agency is successful.

    See attached performance measure graphs.

15. Please complete the Comprehensive Strategic Plan Summary Chart, which is a tab in the attached Excel document.

    See attached Chart.

Agency Ideas/Recommendations (Study Step 3: Recommendations)

16. Please list any ideas agency representatives have for internal changes at the agency that may improve efficiency and outcomes. These can be ideas that are still just ideas, things agency representatives are analyzing the feasibility of implementing, or things agency representatives already have plans for implementing. For each, include as many of the following details as available:
    a. Stage of analysis;
    b. Presented and Approved by Board/Commission;
    c. Performance measures impacted and predicted impact;
    d. Costs of the Objective(s) that will be impacted and the anticipated impact; and
    e. Anticipated implementation date.

Internal Change #1: Increase starting salaries of technicians

WFF Division is working with HR and the Director to increase starting salaries of technicians. We have made great progress under Director Taylor's tenure with providing a pay plan and incentives which encourage employee retention; however our starting salaries are not competitive with other states and the private sector. In order to truly recruit well-qualified candidates, we must work toward increasing these starting salaries. We currently have many candidates turn down job offers with us stating that they simply cannot accept our starting salary.

a. Stage of analysis: New starting salaries and necessary adjustments have been proposed to the Director and the Office of Human Resources for review and approval. Budget analysis has also been conducted to ensure such costs can be incurred and sustained.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: Improved recruiting of qualified staff and reduced turnover rates within these classifications.
d. Costs of the Objective(s) that will be impacted and the anticipated impact: The total estimated budget impact (across all funding sources) is approximately $532,000 which is comprised of $380,000 of direct salary adjustments and $152,000 of fringe expenses. This is subject to change based on the final approved salary adjustments (as part of preventing salary inversion and compression) for existing technicians.
e. Anticipated implementation date: TBD.

Internal Change #2: Full review of all internal forms

Conducting a full review of all internal forms to determine which ones are obsolete and which ones can be updated or combined. Some work has been done on this by the business managers as part of consolidating phone, procurement card, gas card, and email account set-up requests; however, there are still many opportunities to simplify and consolidate. Another key update is to ensure that the forms are requesting relevant information. For example, the titles of certain fields on the forms have changed since the implementation of SCEIS.

a. Stage of analysis: Idea which has yet to be assigned and implemented.
b. Presented and Approved by Board/Commission: N/A.
c. Performance measures impacted and predicted impact: Provide for more efficient and simplified operations.
d. Costs of the Objective(s) that will be impacted and the anticipated impact: N/A.
e. Anticipated implementation date: Ongoing.

Internal Change #3: Facility to house a Cultural Resource Center which will include an Archaeology Laboratory and staff offices

To provide a facility to house a Cultural Resource Center which will include an Archaeology Laboratory and staff offices. This facility will allow for the collection, cataloging, preservation, storage and display of artifacts from the Heritage Trust properties and other SCDNR properties. The facility will also be a center for educational outreach on these important Heritage Trust artifacts.

a. Stage of analysis: Analysis complete.
b. Presented to and approved by Board/Commission: Yes, both HTAB and SCDNR Board.
c. Performance measures impacted and predicted impact: Predicted impact is improved care of important artifacts and greatly increased ability to educate the public and school groups on the archeological and historical resources of the State.
d. Cost of Objective(s) that will be impacted and the anticipated impact: Non-recurring expenditures for office furniture, laboratory equipment, artifact and curation storage units, classroom and conference room furniture and equipment, Total $196,000; Recurring costs: Building rent, security system, water, utilities, janitorial and maintenance, Internet/phones, Insurance, Total $216,000 annually.
e. Anticipated implementation date: This has already been implemented and the facility is in use, and is almost complete.

Internal Change #4: Facilitate electronic reporting for required marine harvest reports

To facilitate electronic reporting for required marine harvest reports.

a. Stage of analysis: Partially implemented, harvest reports may be submitted electronically or in hard-copy form.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: Timeliness and accuracy of reports.
d. Costs of the Objective(s) that will be impacted and the anticipated impact: Unknown, but expected to reduce cost of compliance.
e. Anticipated implementation date: Required for-hire reports may be submitted electronically now, option for traditional paper reports remains available for customers who so choose.

Internal Change #5: Broaden the scope and scale of programs at the Waddell Mariculture Center

Broaden the scope and scale of programs at the Waddell Mariculture Center in Bluffton to support local stewardship efforts.

a. Stage of analysis: Under development.
b. Presented/approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: None.
d. Cost of the Objective(s) that will be impacted and the anticipated impact: Minimal.
e. Anticipated implementation date: 2018.

Internal Change #6: Enterprise Licensing and Registration System

Development of a new Enterprise Licensing and Registration System. In the fall of 2017, the agency will begin the process of documenting the business procedures with contract technical writers for boating, recreational and commercial licensing and permitted Marine Dealers in order to define a scope of work for the development of a new enterprise watercraft and licensing system. The

current system has a fragmented infrastructure design, is not flexible, and does not meet all agency business requirements. Vendors that create these types of systems are generally compensated through transactional costs, thus the agency can increase the efficiency by expediting the transaction times through system integration, while holding costs steady.

a. Stage of analysis: A plan for implementation has been set.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: Increase customer service efficiency by expediting transaction times while holding costs steady.
d. Costs of the Objective(s) impacted and anticipated impact: Objectives 5.1.1, 5.1.2 & 5.2.1. Within these objectives the agency will use technology to address system limitations that will improve the agency's customer service processes.
e. Anticipated implementation date: Fall of 2017.

Internal Change #7: Tagging infrastructure and major transaction outsourcing

The development of a new tagging infrastructure and major transaction outsourcing. The agency developed programming that has allowed for the outsourcing of deer tags. From July 2017, electronic files containing 1.9 million tags (176,000 customers) were transmitted to a vendor for printing and distribution. This feat paves the way for the distribution of turkey tags. More importantly, this outside fulfillment solution cleanses addresses within our database; supplies the agency with a mail confirmation; conforms our mail to all postal standards which speeds delivery and saves on postage; and reduces the agency's need to acquire commercial grade equipment. With the technical infrastructure in place, this will allow the agency to explore expanding this concept to watercraft registration documents.

a. Stage of analysis: Implemented.
b. Presented and Approved by Board/Commission: Presented to Board.
c. Performance measures impacted and predicted impact: Increases the speed and accuracy of the fulfillment aspect of the agency's services.
d. Costs of the Objective(s) impacted and anticipated impact: Objectives 5.1.1, 5.1.2 & 5.2.1 – The average mailing cost for the deer tagging bulk distribution averaged between 24 to 25 cents, whereas the agency's mailing cost had been in the range of 44 to 45 cents.
e. Anticipated implementation date: Deer Tags have been implemented as of July 2017; Turkey tags will be implemented in the spring of 2018; and Watercraft registrations is in the exploratory stage.

Internal Change #8: Customer Portal

Implementation of a Customer Portal which will permit constituents to uniquely identify themselves and conduct inquiries regarding their current Hunting/Fishing privileges and permits. This Portal will include the feature of a downloadable PDF (electronic format) that can be stored and accessed via mobile devices. This PDF can be used as a form of a digital license. A digital license permits a single dynamic document that can be easily updated/maintained by a customer for use in identifying themselves and their current privileges to any SCDNR Law Enforcement Officer. SCDNR Law Enforcement will utilize this application to improve interaction with constituents. The simple yet robust features of the application will permit SCDNR Law Enforcement to easily assess an individual's licenses status via a mobile device. This will reduce reliance on using radios to request SCDNR staff to conduct customer checks and relay said information verbally to the field officer.

a. Stage of analysis: A plan for implementation has been set.
b. Presented and Approved by Board/Commission: Concept Presented to Board.

c. Performance measures impacted and predicted impact: Customers are provided on demand duplicate licenses. This convenience will not only save the customer time, but will also save the agency both time and resources (i.e. – administrative processing and law enforcement verifications). Measurability – monthly number of unique hits to the on-line application and PDF downloads.
d. Costs of the Objective(s) impacted and anticipated impact: Objectives 5.1.2 & 5.2.1 - The agency will use technology to allow customers and law enforcement to access records with a result of greater customer satisfaction.
e. Anticipated implementation date: August 14th, 2017.

Internal Change #9: Tracking the daily number of boating and licensing applications received

The Boat Titling & Registration and the Licensing sections initiated tracking the daily number of boating and licensing applications received starting April 1, 2016 to aid in the establishment of baseline production measures for the number of boating related transactions performed, particularly during the peak boating season of March – August; as well as licensing activities. Turnaround time is based on volume of work, complexity of the transaction, completeness of the documentation and staffing. Even though SCDNR does not control the number, type, or complexity of the transactions; collecting and analyzing this data has allowed for streamlining of some processes, the reallocation of staffing and will allow us to focus on ways that we may help the customer by reducing the number of transactions we have to return for not being complete.

a. Stage of analysis: On-going to date.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: To identify transaction processing impediments and to make process improvements.
d. Costs of the Objective(s) impacted and anticipated impact: Objective 5.1.1, the objective will be to decrease turnaround time of transactions back to the customer.
e. Anticipated implementation date: Agency continues on-going collection of data.

Internal Change #10: License renewal reminders for expiring privileges using an e-mail subscription management system

The development of license renewal reminders for expiring privileges using an e-mail subscription management system that provides access to SCDNR information by proactively delivering customer desired content through e-mail and wireless alerts. Since license terms changed from July 1st to June 30th, to one year from the date of purchase, there can be multiple renewals dates associated with a customer's various privileges.

a. Stage of analysis: A plan for implementation has been set, Fall of 2017.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: The full implementation of this system will keep customers informed about their expiring privileges and registrations. Agency will seek to analyze these notifications to reduce the number of off-peak expired transactions that have to be processed during peak volume times.
d. Costs of the Objective(s) impacted and anticipated impact: Objectives 5.1.1, 5.1.2 & 5.2.1. This system will keep the customer informed, and can help in the avoidance of warning citations, fines, a customer's late fee on boating registrations and the customer's time. (We continue to send a mailed boating courtesy reminder).
e. Anticipated implementation date: The programming for the licensing data interface is scheduled for Fall of 2017. The watercraft data interface has yet to be scheduled

Internal Change #11: Relocating headquarters to allow for better customer service

Customer accessibility to customer service. The agency is exploring all options that will make customer service sections more accessible. The department's main boating customer service area is currently located on the first floor of the Rembert C. Dennis Building, fronting Assembly St., on the Statehouse grounds. This location has become increasingly problematic for public access due to the City of Columbia reducing the number of street parking spaces on Assembly St. When the opportunity arose to move the licensing section to the State's Farmers Market, the department took that opportunity in January of 2016. Impending development and street-scaping along Assembly St., traffic congestion and lack of parking will continue to be a problem for those seeking boating and licensing services. The agency is analyzing the cost and technology needed to relocate the headquarters, located in the Dennis building, due to the additional density in downtown Columbia which creates access problems for the public.

a. Stage of analysis: Idea.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: This will provide customers easier access for transactions that either the customer must do in person, or prefers to perform in office.
d. Costs of the Objective(s) impacted and anticipated impact: Objective 5.1.1. Cost has not been fully assessed.
e. Anticipated implementation date: Analysis is on-going.

Internal Change #12: Multiple boating transaction pilot program for permitted marine dealers

The Boat Titling & Registration section established a pilot program that allows a Permitted Marine Dealer to batch multiple boating transactions, and upon receipt of the physical documents, one credit card payment is processed for the batch.

a. Stage of analysis: A pilot program was launched in April of 2017 and is in the process of being expanded.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: The amount of time saved for the purchaser to receive their boating documentation when both the dealer and the SCDNR can resolve any of a number of issues that could delay a batch from being processed (ex: liens, personal property taxes, bad ID numbers, ownership issues, incorrect processing fees, unsigned checks).
d. Costs of the Objective(s) impacted and anticipated impact: Objective 5.1.1. To decrease dealer turnaround time of batches containing multiple transactions resulting in greater customer satisfaction (dealer & applicant).
e. Anticipated implementation date: Still in a pilot program stage, based on the results the agency will analyze the feasibility and conditions necessary for implementation.

Internal Change #13: Standard Operating Procedures Manual

The Boat Titling & Registration section initiated the creation of a Standard Operating Procedures Manual. The Business & Finance section is creating draft desk procedures.

a. Stage of analysis: A plan for implementation has been set.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: To document all processes and procedures to train new staff, provide a guide for backup duties, cross-training and to reinforce continuity of internal processes and procedures, thus increasing internal quality control.

d. Costs of the Objective(s) impacted and anticipated impact: Objective 5.2.2 - To decrease errors in processes that will result in greater efficiency.
e. Anticipated implementation date: SOP draft is complete, will be an on-going process. Business & Finance drafts are in the development stages.

Internal Change #14: Electronic financial ticket data exchange with Court Administration

Initiated the creation of an electronic financial ticket data exchange from the Court Administration's Case Management System.

a. Stage of analysis: Agency representatives have analyzed the feasibility and have begun designing a plan for implementation.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: 1) Eliminates duplicate keying of ticket financial information thus reducing human error; 2) Automatically creates an electronic accounts' receivable ledger; 3) Automatically maps fines to the appropriate accounts.
d. Costs of the Objective(s) impacted and anticipated impact: Objective 5.2.2. This will eliminate duplicate manual actions, thus saving staff time and redefining some of the roles for the responsible staff. The agency will have to analyze the budgetary impact.
e. Anticipated implementation date: Estimate – on or before July 1, 2018.

Internal Change #15: Internal financial system to replace legacy system

IT is currently developing a new internal financial system, the Detailed Information Management System (DIMS), to replace our mainframe legacy financial system. This will allow for more changes and controls at the division level as it relates to coding and billing. These changes will be in a format that tie in more closely with the state's current financial system (SCEIS).

a. Stage of analysis: A plan for implementation has been set; currently in the programming stage.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: By retiring the 20+ year old legacy system, internal financial processes will synchronize with SCEIS thereby decreasing processing times for coding, billing and payments; provide real-time account changes by business managers; and provide an audit trail for auditors performing the federal single audit.
d. Costs of the Objective(s) impacted and anticipated impact: Objective 5.2.2. The objective will be to decrease turnaround time of internal transactions.
e. Anticipated implementation date: Still in development. Estimate full implementation April 2018.

Internal Change #16: Automated Computer Program to obtain weekly data for grant use

Initiated the creation of an automated computer program in the Fall of 2016 that will pull real-time data out of SCEIS on a weekly basis for SCDNR grant use.

a. Stage of analysis: Program framework has been established.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: 1) Eliminates spreadsheets that duplicate the financial documents of record within SCEIS that cannot be accurately maintained or deployed to staff in a timely manner; 2) Keeps grant staff & PIs (Principle Investigators) knowledgeable as to a grant's fiscal status relating to expenditures and balances during the grant and particularly during the grant closing process; and 3) creates

an agency-wide continuity in grant financial processes and procedures for grant and staff, PIs, business managers and auditors.

d. Costs of the Objective(s) impacted and anticipated impact: Objective 5.2.2. The objective will be to increase grant efficiency which impacts PIs, business managers, grant procurement and finance staff. This will lead to better and faster compliance with grant requirements.
e. Anticipated implementation date: Still in a pilot program stage.

Internal Change #17: Change officers' work schedule to allow for an additional weekend day off per month

Establish change to officers' work schedule to allow for an additional weekend day off per month. Currently officers are only scheduled for one weekend per month off and to work most holidays. This impacts their time off with family members which in turn affects the morale and job satisfaction of the officers. We feel by adding manpower to ensure that field units can provide adequate coverage and allow for an additional day off over a weekend or holiday will greatly enhance the officer and officer's family's support and morale toward the job.

a. Stage of analysis: Analyzing feasibility of change as related to increased man power required to ensure proper coverage of counties.
b. Presented and Approved by Board/Commission: This change would not require board approval.
c. Performance measures impacted and predicted impact: Agency still analyzing.
d. Costs of the Objective(s) that will be impacted and the anticipated impact: Agency is still analyzing anticipated budgetary impact.
e. Anticipated implementation date: Agency has not fully analyzed feasibility of idea.

Internal Change #18: Extend Wildlife and Marine Law Enforcement Basic Training Academy by one additional week

Extend Wildlife and Marine Law Enforcement Basic Training Academy by one additional week. Currently the time spent at SCCJA and SCDNR Training upon initial hiring builds compensatory time for the students. By adding an additional week to the SCDNR Academy training this will allow for a decrease in compensatory time earned while in training. This extension will relieve the field units of providing this time off during the field training process. Also this will allow for more time for instruction allowing for a better understanding of the material.

a. Stage of analysis: Plan for implementation.
b. Presented and Approved by Board/Commission: This change would not require board approval.
c. Performance measures impacted and predicted impact: Agency training would be improved due to the extended time. It would allow for more time to ensure the officers are getting a better understanding of the material.
d. Costs of the Objective(s) that will be impacted and the anticipated impact: Addition of one week extension anticipated costs would be $3,500.00.
e. Anticipated implementation date: June 2018.

Internal Change #19: Electronic records management system, E-Citation system, and mobile data information systems for patrol officers

Implementation of electronic records management system, E-Citation system, and mobile data information systems for patrol officers. We currently have a records management system which is in the developmental stages preparing for regional hub office deployment. We are currently analyzing which E-Citation systems and hardware will be best suited for the next phases of

deployment into the field, along with future budgetary needs to purchase the required software, hardware, and communications.

a. Stage of analysis: Planning for implementation.
b. Presented and Approved by Board/Commission: Agency not required to get board approval for this project.
c. Performance measures impacted and predicted impact: Agency still analyzing.
d. Costs of the Objective(s) that will be impacted and the anticipated impact: Agency is still analyzing.
e. Anticipated implementation date: Agency continues to analyze the feasibility of this idea.

Internal Change #20: Workers compensation payment improvement to account for different funding sources

OSS would like to have the SCEIS payroll system used to allocate Workers Compensation Insurance payments by pay period instead of a manual quarterly calculation. Using SCEIS account codes for each pay period, the costs would be allocated in proportion to the payment of salary and wages. A number of employees are charged to different grants and other funding sources at various times of the year. The real time transfer of payments would also eliminate the need for manual quarterly allocation calculations and the year-end settlements.

a. Stage of analysis: This is only an idea.
b. Presented and Approved by Board/Commission: No.
c. Performance measures impacted and predicted impact: Increased efficiency and accuracy posting workers compensation expenditures to grants and other funds.
d. Costs of the Objective(s) that will be impacted and the anticipated impact: Unsure of cost, it would require the SCEIS Review Panel approval resulting in SCEIS programming changes, Department of Administration approval and funding would also be required. Unsure if any statutes would need to be amended.
e. Anticipated implementation date: TBD.

17. Please review the laws chart to determine ways agency operations may be less burdensome, or outcomes improved, from changes to any of the laws. Also, check if any of the laws are archaic or no longer match with current agency practices. Afterward, list any laws the agency would recommend the Committee further evaluate and possibly recommend revision or elimination of in the Committee's Oversight Report. For each one, include the information below.
    a. Law;
    b. Summary of current statutory requirement and/or authority granted;
    c. Recommendation and Rationale for recommendation;
    d. Law wording;
    e. Presented and Approved by Board/Commission; and
    f. Other agencies that would be impacted by revising, eliminating, or adding the law.

Law Recommendation # 1: SC Code Section 1-30-75 and 48-4-10

Recommendation and rationale for recommendation: Repeal and amend. The Agency, since 1994, has been SCDNR. Therefore, S.C. Code Ann. 1-30-75 is no longer necessary. Also, the Agency has five divisions currently, two are named differently in the statute. SCDNR requests

that instead of “must” the term “is” which allows the Director discretion to add more divisions if necessary for administration.

~~SECTION 1-30-75. Department of Natural Resources.~~
~~Effective on July 1, 1994, the following agencies, boards, and commissions, including all of the allied, advisory, affiliated, or related entities as well as the employees, funds, property, and all contractual rights and obligations associated with the agency, except for those subdivisions specifically included under another department, are transferred to and incorporated in, and must be administered as part of the Department of Natural Resources. The department must be divided initially into divisions for Land Resources and Conservation Districts, Water Resources, Marine Resources, Wildlife and Freshwater Fisheries, and State Natural Resources Enforcement. The South Carolina Wildlife and Marine Resources Commission, as constituted on June 30, 1993, and after that time, under the provisions of Section 50-3-10 et seq. is the governing authority for the department:~~
~~(1) Geological Survey of the Research and Statistical Services Division of the Budget and Control Board, to include the State Geologist, formerly provided for at Section 1-11-10, et seq.;~~
~~(2) State Land Resources Conservation Commission, less the regulatory division, formerly provided for at Section 48-9-10, et seq.;~~
~~(3) South Carolina Migratory Waterfowl Commission, formerly provided for at Section 50-11-20, et seq.;~~
~~(4) Water Resources Commission, less the regulatory division, formerly provided for at Section 49-3-10, et seq.;~~
~~(5) South Carolina Wildlife and Marine Resources Commission, formerly provided for at Section 50-3-10, et seq.~~

SECTION 48-4-10. Department created; composition; transfer of powers, from predecessor agencies; certain commissions abolished.
(A) The South Carolina Department of Natural Resources is created to administer and enforce the laws of this State relating to wildlife, marine resources, and natural resources and other laws specifically assigned to it. The department ~~must~~ is~~be~~ comprised of a ~~Natural Resources~~ Law Enforcement Division, a Wildlife and Freshwater Fisheries Division, a Marine Resources Division,and a Land, Water and Conservation Division. ~~a Water Resources Division, and a Land Resources and Conservation Districts Division~~. Each division of the department must have the functions and powers provided by law.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 2: S.C. Code Ann. 3-5-100 and 3-5-170.

Recommendation and rationale for recommendation: Repeal. The department no longer offers “leases” for oyster beds, but does this by permit.

~~SECTION 3-5-100. Areas leased for cultivation and gathering of oysters; rights of lessees.~~
~~If any of the lands or property, the use of which is acquired for the rights-of-way and spoil disposal areas has been leased by the South Carolina Department of Natural Resources to any person for the cultivation and gathering of oysters, the Department of Natural Resources shall substitute for the leased areas lying within the rights-of-way and spoil disposal areas~~

~~other equal areas lying without the rights-of-way and spoil disposal areas that also are suitable for the cultivation and gathering of oysters. The Department of Health and Environmental Control may reimburse the person for any direct actual losses resulting from the transfer of leased oyster beds. If for any reason the Department of Natural Resources is unable to reach an agreement with the owner of the leased oyster beds, the Department of Health and Environmental Control, acting for the State, may condemn the rights and property of the lessees in the leased areas.~~

~~SECTION 3-5-170. Removal of cultivated oysters which might be damaged to different leased area.~~
~~Should any person cultivating oysters upon an area leased from the State outside of the limits to be acquired for said waterway project from Winyah Bay to the state boundary line in the Savannah River elect, in lieu of claiming damages which might be done to such oysters by dredging operations, to transfer such cultivated oysters to a different leased area and the person whose dredging operations in the construction of said intracoastal waterway either shall have damaged or might damage such oysters agrees to pay the expenses of such removal, the South Carolina Department of Natural Resources may substitute for such leased areas other equal areas suitable for the cultivation and gathering of oysters in a location not subject to damage by dredging operation.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: SCDHEC

Law Recommendation # 3: S.C. Code Ann. 10-9-320

Recommendation and rationale for recommendation: Amend. DHEC is the regulatory agency, therefore would be the more appropriate agency to administer the geothermal leases.

SECTION 10-9-320. Lease of development rights to geothermal resources underlying surface lands owned by State.
The Department of Health and Environmental Control may lease development rights to geothermal resources underlying surface lands owned by the State. The department must promulgate regulations regarding the method of lease acquisition, lease terms, and conditions due the State under lease operations. The South Carolina Department of ~~Natural Resources~~ Health and Environmental Control is designated as the exclusive agent for the department in selecting lands to be leased, administering the competitive bidding for leases, administering the leases, receiving and compiling comments from other state agencies concerning the desirability of leasing the state lands proposed for leasing and such other activities that pertain to geothermal resource leases as may be included herein as responsibilities of the department.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: SCDHEC

Law Recommendation # 4: S.C. Code Ann. 11-37-200

Recommendation and rationale for recommendation: Repeal. This Council does not currently exist.

~~SECTION 11-37-200. Water Resources Coordinating Council established.~~
~~(A) There is established by this section the Water Resources Coordinating Council which shall establish the priorities for all sewer, wastewater treatment, and water supply facility projects addressed in this chapter, except as otherwise established by Section 48-6-40. The council shall consist of a representative of the Governor, the Director of the Department of Health and Environmental Control, the Director of the South Carolina Department of Natural Resources, the Director of the Rural Infrastructure Authority, the Secretary of Commerce, the Chairman of the Jobs Economic Development Authority, and the Chairman of the Joint Bond Review Committee. These representatives may designate a person to serve in their place on the council, and the Governor shall appoint the chairman from among the membership of the council for a one-year term. The council shall establish criteria for the review of applications for projects. Not less often than annually, the council shall determine its priorities for projects. The council after evaluating applications shall notify the authority of the priority projects. The South Carolina Jobs Economic Development Authority shall provide the staff to receive, research, investigate, and process applications for projects made to the coordinating council and assist in the formulating of priorities. Upon notification by the council, the authority shall proceed under the provisions of this chapter. The authority may consider applications for projects based upon the existence of a documented emergency consistent with regulations that may be promulgated by the authority. In determining which local governments are to receive grants, the local governments shall provide not less than a fifty percent match for any project. The authority may provide financing for the local matching funds on terms and conditions determined by the authority.~~
~~(B) The duties of the Water Resources Coordinating Council are:~~
~~(1) establish procedures for receipt of applications;~~
~~(2) in cooperation with the authority, establish criteria for funding priorities. These criteria, in compliance with the provisions of Chapter 23, Title 1, must include, but are not limited to, the following factors:~~
~~(a) regional development - the need for multijurisdictional projects and the cooperation and coordination for regional economic development projects;~~
~~(b) development potential - the degree to which economic development activity can be stimulated in any given area and infrastructure used as a proactive economic development tool;~~
~~(c) economic impact - the degree to which jobs and income can be generated if the infrastructure improvements were made;~~
~~(d) local commitment and initiative - the availability of the local fifty percent match and local recognition of complimentary infrastructure needs including, but not limited to, such needs as transportation;~~
~~(e) infrastructure need - the degree to which specific infrastructure problems can be addressed and solved;~~
~~(f) area economic need - the degree of local "distress" and need for economic assistance, particularly in less developed or rural areas of the State;~~
~~(g) creditworthiness - the financial soundness of the infrastructure project, including the availability or lack of other funds to finance the infrastructure project;~~
~~(h) public health and welfare - to meet public health and welfare requirements within the local area;~~
~~(3) provide to the authority, on an as-needed basis, technical assistance from their respective~~

~~agencies for purposes of screening funding applications;~~
~~(4) establish the funding priorities. The authority may not deviate from the priorities established by the council except for emergency projects as previously described. When setting its priorities, the council shall establish a set-aside of not less than ten percent of available funds approved in that year to meet unforeseen needs. After having set its priorities, the council shall review the priorities as necessary but not less than once during the year, and the council may adjust the priorities as they consider necessary.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: Governor's Office, SCDHEC, Rural Infrastructure Authority, Commerce Department, Jobs Economic Development Authority, and the Joint Bond Review Committee

Law Recommendation # 5: S.C. Code 13-11-20.

Recommendation and rationale for recommendation: Repeal. The New Horizon Development Authority does not exist.

~~SECTION 13-11-20. Members of board; terms; vacancies.~~
~~Members of the board shall be appointed by the Governor as follows: two members upon nomination of the Director of the South Carolina Department of Parks, Recreation and Tourism; one member upon nomination of the Department of Natural Resources; two members upon nomination of the Director of the Department of Commerce or his designee; one member upon nomination of the Fairfield County Council; one member upon nomination of the Fairfield County Development Board; and one member appointed by the Governor, who shall be the chairman. In addition, the Director of the South Carolina Department of Parks, Recreation and Tourism, the Director of the Department of Commerce or his designee, the Executive Director of the State Housing Authority, the Executive Director of the Central Midlands Regional Planning Council, the Transportation Commissioner representing Fairfield County, the Mayor of the city of Winnsboro, the member of the House of Representatives from District No. 41 and any Senators from Senatorial District No. 7 who are residents of Fairfield County, and the Executive Director of the South Carolina Department of Archives and History shall serve as ex officio members of the board. Terms of office of the appointed members shall be five years and until their successors are appointed and qualified. Vacancies shall be filled in the manner of original appointment for the unexpired term.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: Governor's Office, SCPRT, Department of Commerce, Fairfield County Council, Fairfield County Development Board, State Housing Authority, Central Midlands Regional Planning Council, City of Winnsboro, House of Representatives, Senate, Archives and History

Law Recommendation # 6: S.C. Code Ann. 17-22-50

Recommendation and rationale for recommendation: The statute does not include saltwater points, only freshwater and hunting points violations.

SECTION 17-22-50. Persons not to be considered for intervention.
(d) a fish, game, wildlife, or commercial fishery-related offense which is punishable by a loss of eighteen points as provided in Sections 50-5-2500 and 50-9-1120.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 7: S.C. Code Ann. 47-3-310 through 47-3-320

Recommendation and rationale for recommendation: Repeal. This is an antiquated statute.

~~SECTION 47-3-310. Disposal or removal of feral dogs from certain property.~~
~~On game management areas, state-owned property and property of private landowners and leaseholders, at the request of such landowners and leaseholders, specially trained enforcement officers of the Natural Resources Enforcement Division of the Department of Natural Resources may enter on such areas and property for the purpose of investigating dogs running at large on the property. If the dogs are determined to be feral dogs (a dog which has reverted to a wild state) and are a threat to the lives or health of livestock, wildlife or humans, the enforcement officers may remove the feral dog from the property or dispose of it in the most humane manner as determined by the department.~~
~~HISTORY: 1979 Act No. 147 Section 1; 1993 Act No. 181, Section 1166, eff July 1, 1994.~~

~~SECTION 47-3-320. Training of conservation officers to remove dogs; liability of officers.~~
~~Two enforcement officers of the Natural Resources Enforcement Division of the Department of Natural Resources from each of the state's twenty-eight law enforcement units shall be trained by the Department in the identification, capture and humane disposal of feral dogs and these officers shall have the responsibility of answering all complaints concerning feral dogs within the geographical boundaries of their respective law enforcement units. Such enforcement officers shall be held harmless of any personal liability that may occur during the lawful execution of their duties under this act except in case of gross negligence.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 8: S.C. Code Ann. 47-3-510 through 520 and 47-3-550

Recommendation and rationale for recommendation: Repeal. These are antiquated statutes, and there are many other mechanisms to register and track dogs. The department requests that the statutes be repealed.

~~SECTION 47-3-510. Owner may register dog; fee.~~
~~The owner of any dog or kennel may, upon payment of a fee to be determined by the South Carolina Department of Natural Resources (department), not to exceed five dollars a dog or twenty dollars a kennel, have his dog registered by the department and the registration number tattooed in either of the dog's ears or on any other clearly visible part of the body that would be considered most suitable for the respective species of dog. The department shall maintain records of the names and addresses of the owners of registered kennels.~~

~~HISTORY: 1984 Act No. 446, Section 1; 1985 Act No. 28; 1993 Act No. 181, Section 1169, eff July 1, 1994.~~

~~SECTION 47-3-520. Availability of registration file.~~
~~The department shall have this file available for county, city, or subdivision animal control agencies or departments and individuals. The entire cost must be assessed upon dog owners in registration fees.~~
~~HISTORY: 1984 Act No. 446, Section 2.~~

~~SECTION 47-3-550. Promulgation of regulations.~~
~~The South Carolina Department of Natural Resources may promulgate regulations to carry out the provisions of this chapter.~~
~~HISTORY: 1984 Act No. 446, Section 5; 1993 Act No. 181, Section 1170, eff July 1, 1994.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 9: S.C. Code Section 48-4-30

Recommendation and rationale for recommendation: Amend. The at-large board member position on the board has expired, so this language is no longer necessary.

SECTION 48-4-30. Governing board; composition; removal; terms; filling vacancies; oath.
.....
~~(C) Notwithstanding subsection (B), membership on the board also shall include the at-large board member serving on the board on March 1, 2012. The at-large board member may continue to serve on the board until that board member's term expires, he is removed from the board as provided by law, or he resigns from the board. At the expiration of the at-large board member's term, or upon his removal from or resignation from the board, the provisions of this subsection no longer apply to the composition of the membership of the board.~~

....
(H) Notwithstanding subsection (E), ~~the terms of members representing congressional districts serving on the board on March 1, 2012, shall terminate on the dates provided in this subsection.~~ The terms of the members representing the Fourth and the Sixth Congressional Districts shall expire July 1, 2012. The terms of the members representing the First, Second, Third, and Fifth Congressional Districts shall expire on July 1, 2014.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 10: SC Code Ann. 48-4-70

Recommendation and rationale for recommendation: Amend. The department has a bond for all employees, not individual bonds. Those are paid for by the department and are in the department's name, not individual employees.

SECTION 48-4-70. General duties of board.
The board shall:
~~4) require those of its officers, agents, and employees it designates to give bond for the faithful performance of their duties in the sum and with the sureties it determines, and all premiums on the bonds must be paid by the board;~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 11: SC Code Ann. 48-11-10 through 48-11-15

Recommendation and rationale for recommendation: Amend. The Division name is corrected to reflect the current name of the Division.

SECTION 48-11-10. Definitions.
(13) "Division" means Land, Water and ~~Resources and~~ Conservation ~~Districts~~ Division.

SECTION 48-9-15. Definitions.
As used in this chapter:
(2) "Division" means Land, Water ~~Resources~~ and Conservation ~~Districts~~ Division of the Department of Natural Resources.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 12: S.C. Code Ann. 48-9-30

Recommendation and rationale for recommendation: Amend. Clarifies the SCDNR Board is the governing body from the Soil and Water Conservation Boards. Also updates the name of the conservation service.

SECTION 48-9-30. Definitions.
Whenever used or referred to in this chapter, unless a different meaning clearly appears from the context:
…..
(3) "Board" means the governing body of the Department of Natural Resources;
…….
(8) "United States" or "agencies of the United States" includes the United States of America, the Natural Resources Conservation Service, ~~soil and water conservation service~~ of the United States Department of Agriculture, and its successors, and any other agency or instrumentality, corporate or otherwise, of the United States of America;

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: U.S. Department of Agriculture

Law Recommendation # 13: S.C. Code Ann. 48-9-40

Recommendation and rationale for recommendation: Repeal. This has already occurred during restructuring and is no longer necessary.

~~SECTION 48-9-40. Department of Natural Resources; change of name~~
~~The name of the State Land Resources Conservation Commission is hereby changed to the Department of Natural Resources.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 14: S.C. Code Ann. 48-9-45

Recommendation and rationale for recommendation: Amend. This change would update the name of the Division.

SECTION 48-9-45. Land, ~~Resources and Conservation Districts~~Water and Conservation Division accountable to director of department.
The Land, ~~Resources and Conservation Districts~~Water and Conservation Division, shall be directly accountable to and subject to the director of the department.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 15: S.C. Code Ann. 48-9-50

Recommendation and rationale for recommendation: Amend. This section is an antiquated statute and is no longer used by the Department.

SECTION 48-9-50. Agencies operating public lands shall cooperate and observe regulations.
Agencies of this State which shall have jurisdiction over or be charged with the administration of any State-owned lands and agencies of any county or other governmental subdivision of the State which shall have jurisdiction over or be charged with the administration of any county owned or other publicly owned lands, lying within the boundaries of any district organized under this chapter, shall cooperate to the fullest extent with the commissioners of such districts in the effectuation of programs and operations undertaken by the commissioners under the provisions of this chapter. The commissioners of such districts shall be given free access to enter and perform work upon such publicly owned lands.
The provisions of land-use regulations adopted pursuant to Article 13 of this chapter shall be in all respects observed by the agencies administering such publicly owned lands.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 16: S.C. Code Ann. 48-9-220

Recommendation and rationale for recommendation: Amend. This would update the name of the Division and the title of the Advisory Committee.

SECTION 48-9-220. Geographic areas for selection of members of ~~Commission~~Advisory Committee.
For the purpose of selecting the five soil and water conservation district commissioners to serve as members of the ~~State Land Resources Conservation Commission~~Land, Water and Conservation Division Advisory Committee, the State is divided into five areas, to wit:
(1) Area 1, the counties of Abbeville, Anderson, Cherokee, Greenville, Laurens, Oconee, Pickens, Spartanburg and Union;
(2) Area 2, the counties of Aiken, Calhoun, Edgefield, Greenwood, Lexington, McCormick, Newberry, Richland and Saluda;
(3) Area 3, the counties of Chester, Chesterfield, Darlington, Fairfield, Kershaw, Lancaster, Lee, Marlboro and York;
(4) Area 4, the counties of Berkeley, Clarendon, Dillon, Florence, Georgetown, Horry, Marion, Sumter and Williamsburg; and
(5) Area 5, the counties of Allendale, Bamberg, Barnwell, Beaufort, Charleston, Colleton, Dorchester, Hampton, Jasper and Orangeburg.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 17: S.C. Code Ann. 48-9-230

Recommendation and rationale for recommendation: Repeal. This Advisory Board has never functioned, and the SCDNR Board voted to request the General Assembly to repeal the statute in November 2013.

~~SECTION 48-9-230. Advisors to the division.~~
~~The following shall serve ex officio in an advisory capacity to the Land Resources and Conservation Districts Division of the Department of Natural Resources: The Director of the State Agricultural Extension Service, the Director of the South Carolina Agricultural Experiment Station, the president of Clemson University, the State Forester, the State Supervisor of the State Department of Vocational Agriculture, the Secretary of Commerce, the Commissioner of Agriculture and, with the concurrence of the Secretary of the United States Department of Agriculture, the State Conservationist of the Soil and Water Conservation Service, the chairman of the Purchasing and Marketing Administration State Committee and the Director of the Farmers' Home Administration.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: SC Department of Agriculture, Clemson University, SC Forestry Commission, SC Department of Commerce, U.S. Department of Agriculture, SC Soil and Water District Commissioners, Farmers' Home Administration, Purchasing and Marketing Administration State Committee

Law Recommendation # 18: S.C. Code Ann. 48-9-310

Recommendation and rationale for recommendation: Amend. This is an antiquated statute and instead is accomplished through the regular budgetary process.

SECTION 48-9-310. Estimates of financial needs.
~~On or before the first day of November, annually, the department shall transmit to the Governor, on official blanks to be furnished by him, an estimate, in itemized form, showing the amount of expenditure requirements for the ensuing fiscal year. The estimates submitted shall state, in addition to the requirements of existing law, the following information:~~
~~(1) The number and acreage of districts in existence or in process of organization, together with an estimate of the number and probable acreages of the districts which may be organized during the ensuing fiscal year;~~
~~(2) A statement of the balance of funds, if any, available to the department and to the districts; and~~
~~(3) The estimates of the department as to the sums needed for its administrative and other expenses and for allocation among the several districts during the ensuing fiscal year.~~
The department may require the commissioners of the respective soil and water conservation districts to submit to it such statements, estimates, budgets and other information as it may deem necessary. ~~for the purposes of this section~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: Governor's Office, Soil and Water Conservation District Commissioners

Law Recommendation# 19: S.C. Code Ann. 48-9-1220

Recommendation and rationale for recommendation: Amend. The electors are now determined by the State Election Commission. July 15 is the requirement for the state election commission for ballots to be submitted.

SECTION 48-9-1220. Nomination and election of commissioners.
Effective November, 1982, and in November of the appropriate years thereafter, three commissioners from each district must be elected. The election must be nonpartisan and must be conducted by the county election commission at the same time as other county officers are elected in the general election.
To be placed on the ballot for county offices, each candidate shall submit to the county election commission a nominating petition with the signatures of one hundred qualified registered electors or one percent of the qualified registered electors of the district, whichever is lesser.
~~The official number of qualified registered electors of the geographical area of any office is the number of registered electors of the area registered one hundred twenty days before the date of the election for which the nomination petition is being submitted.~~
The nominees in the petition must be placed on the appropriate official ballot for the election if the petition is submitted to the county election commission not later than twelve noon on ~~August first or, if August first falls on Sunday,~~July 15, if July 15 falls on Sunday, not later than twelve noon on the following Monday. The form of the petition must comply with the requirements in Section 7-11-80 pertaining to the conduct of general elections not conflicting

with this section. Candidates must be qualified registered electors and residents of the district in which elected.
The three candidates who receive the largest number of votes cast in the election are elected and shall assume office the following February first.
This election must be conducted pursuant to Title 7, mutatis mutandi, except as otherwise provided for in this section.
Effective with the 1990 election, the two candidates who receive the highest number of votes shall serve for terms of four years each and the other candidate who receives the next highest number of votes shall serve for a term of two years. Thereafter, their successors must be elected in a nonpartisan election to be held at the same time as the general election for terms of four years each.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: State Election Commission, Soil and Water Conservation District Commissioners.

Law Recommendation # 20: S.C. Code Ann. 48-9-1250

Recommendation and rationale for recommendation: Amend. The Commission does not use the agricultural agent as their secretary, nor do they utilize their offices. This is an antiquated statute.

SECTION 48-9-1250. ~~Use of county agricultural agents; o~~Other agents and employees; legal services.
~~Each county agricultural agent may be the secretary to the board of commissioners of each district within his county.~~ The commissioners may ~~also utilize in other respects the services of the agricultural agents and the facilities of the county agricultural agent's officers insofar as practicable and feasible and~~ employ such additional employees and agents, permanent and temporary, as they may require and shall determine their qualifications, duties and compensation. The commissioners may delegate to their chairman or to one or more agents, or employees such powers and duties as they may deem proper. The commissioners may call upon the Attorney General of the State for such legal services as they may require or may employ their own counsel and legal staff.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: State Election Commission, Department of Agriculture, Attorney General, Soil and Water Conservation District Commissioners.

Law Recommendation # 21: S.C. Code Ann. 48-9-1320

Recommendation and rationale for recommendation: Amend. Corrects the name of the Department.

SECTION 48-9-1320. Information to be furnished to ~~State Land Resources Conservation Commission.~~
Department of Natural Resources

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 22: S.C. Code Ann. 48-9-1510 through 1870

Recommendation and rationale for recommendation: Repeal. These are antiquated statutes and the Commissions do not perform this function.

~~SECTION 48-9-1510. Formulation of land-use regulations~~
~~The commissioners of any district may formulate regulations governing the use of lands within the district in the interest of conserving soil and soil resources and preventing and controlling soil erosion. The commissioners may conduct such public meetings and public hearings upon tentative regulations as may be necessary to assist them in this work.~~
~~HISTORY: 1962 Code Section 63-141; 1952 Code Section 63-141; 1942 Code Section 5806-109; 1937 (40) 242; 1970 (56) 2331.~~

~~SECTION 48-9-1520. Referendum before adoption of regulations.~~
~~The commissioners shall not have authority to enact such land-use regulations into law until after they shall have caused due notice to be given of their intention to conduct a referendum for submission of such regulations to the owners of lands lying within the boundaries of the district for their indication of approval or disapproval of such proposed regulations and until after the commissioners have considered the result of such referendum. The proposed regulations shall be embodied in a proposed ordinance. Copies of such proposed ordinance shall be available for the inspection of all eligible voters during the period between publication of such notice and the date of the referendum. The notice of the referendum shall recite the contents of such proposed ordinance or shall state where copies of such proposed ordinance may be examined.~~
~~HISTORY: 1962 Code Section 63-142; 1952 Code Section 63-142; 1942 Code Section 5806-109; 1937 (40) 242; 1970 (56) 2331.~~

~~SECTION 48-9-1530. Conduct of referendum on regulations.~~
~~The question shall be submitted by ballots upon which the words, "For approval of proposed ordinance no. ___ prescribing land-use regulations for conservation of soil and prevention of erosion" and "Against approval of proposed ordinance no. ___ prescribing land-use regulations for conservation of soil and prevention of erosion" shall appear, with a square before each proposition and a direction to insert an X mark in the square before one or the other of such propositions as the voter may favor or oppose approval of such proposed ordinance. The commissioners shall supervise such referendum, shall prescribe appropriate regulations governing the conduct thereof and shall publish the result thereof. All owners of lands within the district shall be eligible to vote in such referendum. Only such landowners shall be eligible to vote. No informalities in the conduct of such referendum or in any matter relating thereto shall invalidate the referendum or the result thereof if notice thereof shall have been given substantially as provided in Section 48-9-1520 and the referendum shall have been fairly conducted.~~
~~HISTORY: 1962 Code Section 63-143; 1952 Code Section 63-143; 1942 Code Section 5806-109; 1937 (40) 242; 1970 (56) 2331.~~

~~SECTION 48-9-1540. Two-thirds vote prerequisite to adoption of regulations.~~
~~The commissioners shall not have authority to enact such proposed ordinance into law unless~~

at least two thirds of the votes cast in such referendum shall have been cast for approval of the proposed ordinance. The approval of the proposed ordinance by two thirds of the votes cast in such referendum shall not require the commissioners to enact such proposed ordinance into law.
HISTORY: 1962 Code Section 63-144; 1952 Code Section 63-144; 1942 Code Section 5806-109; 1937 (40) 242; 1970 (56) 2331.

SECTION 48-9-1550. Regulations shall have force and effect of law.
Land-use regulations prescribed in ordinances enacted pursuant to the provisions of this article by the commissioners of any district shall have the force and effect of law in the district and shall be binding and obligatory upon all owners and occupiers of land within such district, including the agencies administering publicly owned lands.
HISTORY: 1962 Code Section 63-145; 1952 Code Section 63-145; 1942 Code Section 5806-109; 1937 (40) 242; 1970 (56) 2331.

SECTION 48-9-1560. Amendment, supplementation, or repeal of regulations.
Any owner or occupier of land within such district may at any time file a petition with the commissioners asking that any or all of the land-use regulations prescribed in any ordinance adopted by the commissioners under the provisions of this article shall be amended, supplemented or repealed. Land-use regulations adopted pursuant to the provisions of this article shall not be amended, supplemented or repealed except in accordance with the procedure prescribed in this article for adoption of land-use regulations. Referenda on adoption, amendment, supplementation or repeal of land-use regulations shall not be held more often than once in six months.
HISTORY: 1962 Code Section 63-146; 1952 Code Section 63-146; 1942 Code Section 5806-109; 1937 (40) 242; 1970 (56) 2331.

SECTION 48-9-1570. Subjects which regulations may include.
The regulations to be adopted by the commissioners under the provisions of this article may include:
(1) Provisions requiring the carrying out of necessary engineering operations, including the construction of terraces, terrace outlets, check dams, dikes, ponds, ditches and other necessary structures;
(2) Provisions requiring observance of particular methods of cultivation, including contour cultivating, contour furrowing, lister furrowing, sowing, planting, strip cropping, changes in cropping systems, seeding and planting of lands with water-conserving and erosion-preventing plants, trees and grasses, forestation and reforestation;
(3) Specifications of cropping programs and tillage practices to be observed;
(4) Provisions requiring the retirement from cultivation of highly erosive areas or of areas on which erosion may not be adequately controlled if cultivation is carried on; and
(5) Provisions for such other means, measures, operations and programs as may assist conservation of soil resources and prevent or control soil erosion in the district, having due regard to the legislative findings set forth in Section 48-9-20.
HISTORY: 1962 Code Section 63-147; 1952 Code Section 63-147; 1942 Code Section 5806-109; 1937 (40) 242; 1970 (56) 2331.

SECTION 48-9-1580. Uniformity of regulations; exceptions.
The regulations shall be uniform throughout the territory comprised within the district except that the commissioners may classify the lands within the district with reference to such factors as soil type, degree of slope, degree of erosion threatened or existing, cropping and tillage practices in use and other relevant factors and may provide regulations varying with

~~the type or class of land affected, but uniform as to all lands within each class or type.~~
~~HISTORY: 1962 Code Section 63-148; 1952 Code Section 63-148; 1942 Code Section 5806-109; 1937 (40) 242; 1970 (56) 2331.~~

~~SECTION 48-9-1590. Printing of copies of regulations.~~
~~Copies of land-use regulations adopted under the provisions of this article shall be printed and made available to all owners and occupiers of lands lying within the district.~~
~~HISTORY: 1962 Code Section 63-149; 1952 Code Section 63-149; 1942 Code Section 5806-109; 1937 (40) 242.~~

~~SECTION 48-9-1600. Entry on lands to check observance.~~
~~The commissioners may go upon any lands within the district to determine whether land-use regulations adopted under the provisions of this article are being observed.~~
~~HISTORY: 1962 Code Section 63-150; 1952 Code Section 63-150; 1942 Code Section 5806-110; 1937 (40) 242; 1970 (56) 2331.~~

~~SECTION 48-9-1610. Petition to court for enforcement.~~
~~When the commissioners of any district shall find that any of the provisions of land-use regulations adopted in accordance with the provisions of this article are not being observed on particular lands, and that such nonobservance tends to increase erosion on such lands and is interfering with the prevention or control of erosion on other lands within the district, the commissioners may present to the court of common pleas for the county or any county within which the lands of the defendant may lie a petition, duly verified, setting forth the adoption of the ordinance prescribing land-use regulations, the failure of the defendant landowner or occupier to observe such regulations and to perform particular work, operations or avoidances as required thereby and that such nonobservance tends to increase erosion on such lands and is interfering with the prevention or control of erosion on other lands within the district and praying the court to require the defendant to perform the work, operations or avoidances within a reasonable time and to order that if the defendant shall fail so to perform the commissioners may go on the land, perform the work or other operations or otherwise bring the condition of such lands into conformity with the requirements of such regulations and recover the costs and expenses thereof, with interest, from the owner of such land.~~
~~HISTORY: 1962 Code Section 63-151; 1952 Code Section 63-151; 1942 Code Section 5806-110; 1937 (40) 242; 1970 (56) 2331.~~

~~SECTION 48-9-1620. Hearing and order of court on petition for enforcement.~~
~~Upon the presentation of such petition the court shall cause process to be issued against the defendant and shall hear the case. If it shall appear to the court that testimony is necessary for the proper disposition of the matter, it may take evidence or appoint a referee to take such evidence as it may direct and report it to the court with his findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made. The court may dismiss the petition or it may require the defendant to perform the work, operations or avoidances and may provide that, upon the failure of the defendant to initiate such performance within the time specified in the order of the court and to prosecute it to completion with reasonable diligence, the commissioners may enter upon the lands involved and perform the work or operations or otherwise bring the condition of such lands into conformity with the requirements of the regulations and recover the costs and expenses thereof, with interest at the rate of five percent per annum, from the owner of such lands.~~
~~HISTORY: 1962 Code Section 63-152; 1952 Code Section 63-152; 1942 Code Section 5806-~~

110; 1937 (40) 242; 1970 (56) 2331.

SECTION 48-9-1630. Judgment for commission's expenses after completion of work; costs and attorney fees.
The court shall retain jurisdiction of the case until after the work has been completed. Upon completion of such work pursuant to such order of the court the commissioners may file a petition with the court, a copy of which shall be served upon the defendant in the case, stating the costs and expenses sustained by them in the performance of the work and praying judgment therefor with interest. The court shall have jurisdiction to enter judgment for the amount of such costs and expenses, with interest at the rate of five percent per annum until paid, together with the costs of suit, including a reasonable attorney's fee to be fixed by the court.
HISTORY: 1962 Code Section 63-153; 1952 Code Section 63-153; 1942 Code Section 5806-110; 1937 (40) 242; 1970 (56) 2331.
ARTICLE 15

Boards of Adjustment

SECTION 48-9-1810. Establishment and appointment of members of board of adjustment.
When the commissioners of any district organized under the provisions of this chapter shall adopt an ordinance prescribing land-use regulations in accordance with the provisions of Article 13 of this chapter they shall further provide by ordinance for the establishment of a board of adjustment. Such board of adjustment shall consist of three members, each to be appointed for a term of three years, except that the members first appointed shall be appointed for terms of one, two and three years, respectively. The members of each such board shall be appointed by the department, with the advice and approval of the commissioners of the district for which such board has been established, and shall be removable, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other reason, such hearing to be conducted jointly by the department and the commissioners of the district. Vacancies in the board shall be filled in the same manner as original appointments, and shall be for the unexpired term of the member whose term becomes vacant.
HISTORY: 1962 Code Section 63-161; 1952 Code Section 63-161; 1942 Code Section 5806-111; 1937 (40) 242; 1965 (54) 106; 1970 (56) 2331; 1972 (57) 2271; 1993 Act No. 181, Section 1194.

SECTION 48-9-1820. Eligibility and compensation of members; expenses.
Members of the board and the commissioners of the district shall be ineligible to appointment as members of the board during their tenure of such other office. The members of the board shall receive compensation for their services at a per diem rate to be determined by the department for time spent on the work of the board, in addition to expenses, including traveling expenses, necessarily incurred in the discharge of their duties. The commissioners shall pay the necessary administrative and other expenses of operation incurred by the board upon the certificate of the chairman of the board.
HISTORY: 1962 Code Section 63-162; 1952 Code Section 63-162; 1942 Code Section 5806-111; 1937 (40) 242; 1965 (54) 106; 1970 (56) 2331; 1972 (57) 2271; 1993 Act No. 181, Section 1195.

SECTION 48-9-1830. Chairman; rules; quorum; meetings; records.
The board shall adopt rules to govern its procedures, which rules shall be in accordance with the provisions of this chapter and with the provisions of any ordinance adopted pursuant to

~~Article 13 of this chapter. The board shall designate a chairman from among its members and may, from time to time, change such designation. Meetings of the board shall be held at the call of the chairman and at such other times as the board may determine. Any two members of the board shall constitute a quorum. The chairman, or in his absence such other member of the board as he may designate to serve as acting chairman, may administer oaths and compel the attendance of witnesses. All meetings of the board shall be open to the public. The board shall keep a full and accurate record of all proceedings, of all documents filed with it and of all orders entered, which shall be filed in the office of the board and shall be a public record.~~
~~HISTORY: 1962 Code Section 63-163; 1952 Code Section 63-163; 1942 Code Section 5806-111; 1937 (40) 242.~~

~~SECTION 48-9-1840. Hardship petitions.~~
~~A land occupier may file a petition with the board alleging that there are great practical difficulties or unnecessary hardships in the way of his carrying out upon his lands the strict letter of the land-use regulations prescribed by ordinance approved by the commissioners and praying the board to authorize a variance from the terms of the land-use regulations in the application of such regulations to the lands occupied by the petitioner. Copies of such petition shall be served by the petitioner upon the chairman of the commissioners of the district within which his lands are located and upon the director of the department.~~
~~HISTORY: 1962 Code Section 63-164; 1952 Code Section 63-164; 1942 Code Section 5806-111; 1937 (40) 242; 1965 (54) 106; 1970 (56) 2331; 1972 (57) 2271; 1993 Act No. 181, Section 1196.~~

~~SECTION 48-9-1850. Hearing and action on hardship petition.~~
~~The board shall fix a time for the hearing of the petition and cause due notice of such hearing to be given. The commissioners of the district and the department may appear and be heard at such hearing. Any occupier of lands lying within the district who shall object to the authorizing of the variance prayed for may intervene and become a party to the proceedings. Any party to the hearing before the board may appear in person, by agent or by attorney. If, upon the facts presented at such hearing, the board shall determine that there are great practical difficulties or unnecessary hardships in the way of applying the strict letter of any of the land-use regulations upon the lands of the petitioner, it shall make and record such determination and shall make and record findings of fact as to the specific conditions which establish such great practical difficulties or unnecessary hardships. Upon the basis of such findings and determination the board may by order authorize such variance from the terms of the land-use regulations, in their application to the lands of the petitioner, as will relieve such great practical difficulties or unnecessary hardships and will not be contrary to the public interest and such that the spirit of the land-use regulations shall be observed, the public health, safety and welfare secured and substantial justice done.~~
~~HISTORY: 1962 Code Section 63-165; 1952 Code Section 63-165; 1942 Code Section 5806-111; 1937 (40) 242; 1965 (54) 106; 1970 (56) 2331; 1972 (57) 2271; 1993 Act No. 181, Section 1197.~~

~~SECTION 48-9-1860. Petition for court review.~~
~~Any petitioner, the commissioners of the district or any intervening party, aggrieved by an order of the board granting or denying, in whole or in part, the relief sought, may obtain a review of such order in the court of common pleas for the county or any county in which the lands of the petitioner may lie, by filing in such court a petition praying that the order of the board be modified or set aside. A copy of such petition shall forthwith be served upon the parties to the hearing before the board and thereupon the party seeking review shall file in~~

~~the court a transcript of the entire record in the proceedings, certified by the board, including the documents and testimony upon which the order complained of was entered and the findings, determination and order of the board.~~
~~HISTORY: 1962 Code Section 63-166; 1952 Code Section 63-166; 1942 Code Section 5806-111; 1937 (40) 242; 1970 (56) 2331.~~

~~SECTION 48-9-1870. Hearing and order of court on petition for review.~~
~~Upon such filing the court shall cause notice thereof to be served upon the parties and shall have jurisdiction of the proceedings and of the questions determined or to be determined therein and may grant such temporary relief as it deems just and proper and make and enter a decree enforcing, modifying and enforcing as so modified or setting aside, in whole or in part, the order of the board. No contention that has not been urged before the board shall be considered by the court unless the failure or neglect to urge such contention shall be excused because of extraordinary circumstances. The findings of the board as to the facts, if supported by evidence, shall be conclusive. If any party shall apply to the court for leave to produce additional evidence and shall show to the satisfaction of the court that such evidence is material and that there were reasonable grounds for the failure to produce such evidence in the hearing before the board, the court may order such additional evidence to be taken before the board and made a part of the transcript. The board may modify its findings as to the facts or make new findings, taking into consideration the additional evidence so taken and filed, and it shall file such modified or new findings which, if supported by evidence, shall be conclusive and shall file with the court its recommendation, if any, for the modification or setting aside of its original order. The jurisdiction of the court shall be exclusive and its judgment and decree shall be final, except that it shall be subject to review in the same manner as are other judgments or decrees of the court.~~
~~HISTORY: 1962 Code Section 63-167; 1952 Code Section 63-167; 1942 Code Section 5806-111; 1937 (40) 242.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: Soil and Water Conservation District Commissioners

Law Recommendation #23: S.C. Code Ann. 48-22-10

Recommendation and rationale for recommendation: Amend. SCDNR requests more years of experience be required for the State Geologist, and clarification that he/she is hired, not appointed, by the Director.

SECTION 48-22-10. Creation of State Geological Survey Unit; appointment of State Geologist; qualifications.
The South Carolina Geological Survey Unit is established under the Department of Natural Resources. The State Geologist must be hired ~~appointed~~ by the Director of the Department of Natural Resources. He must have graduated from an accredited college or university with a full curriculum in geology and had at least ~~five~~ eight years of practical work experience, academic, governmental, or industrial, in geology.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation #24: S.C. Code Ann. 48-22-20

Recommendation and rationale for recommendation: Repeal. This change occurred in 1993 and is no longer required in statute.

~~SECTION 48-22-20. Powers, duties, property, devolved upon Department of Natural Resources.~~
~~The powers and duties provided for the South Carolina Geological Survey of the Division of Research and Statistical Services of the Budget and Control Board are devolved upon the Department of Natural Resources. All equipment and personal services monies, including all employee contributions and other fringe benefits used by the Geological Survey within the Division of Research and Statistical Services of the Budget and Control Board before this section takes effect are transferred to the Department of Natural Resources. The South Carolina Geodetic Survey must remain with the Division of Research and Statistical Services as the South Carolina Geodetic Survey. All property, equipment, and personal services monies, including all employee contributions and other fringe benefits used by the Geodetic Survey, must remain with the Division of Research and Statistical Services.~~

Other Agencies Impacted: Department of Administration/SFAA

Law Recommendation #25: S.C. Code Ann. 48-22-30

Recommendation and rationale for recommendation: Amend. SCDNR requests the changes to more accurately reflect the current duties of the State Geologist.

SECTION 48-22-30. Powers and duties of State Geologist.
(A) The State Geologist shall:
(1) travel throughout the State so as to make himself familiar with the geology, geologic hazards, and mineral resources of each section;
(2) undertake field and laboratory work his time permits;
(3) perform other duties that properly pertain to his office.
(B) The department may employ geologists, technicians, and other personnel necessary to conduct the objectives of the unit.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation #26: S.C. Code Ann. 48-22-40

Recommendation and rationale for recommendation: Amend. SCDNR requests changes to more accurately reflect the current duties of the Geology unit.

SECTION 48-22-40. Duties of unit.
In addition to other duties assigned to it, the unit:
(1) shall conduct field and laboratory studies in geologic reconnaissance, mapping, evaluating

~~prospecting for~~ mineral resources, and related gathering of surface and subsurface data. Investigative areas include offshore and onshore lands in this State;
(2) must make surface and subsurface data available to governmental agencies, private industry, and the public by disseminating published geologic information as bulletins, maps, economic reports, and related series and open file reports;
(~~2~~3) shall provide geologic advice and assistance to other state and local governmental agencies engaged in environmental protection or in industrial or economic development projects. In addition, the unit must be involved actively in geologic aspects of regional planning and effective land use in the State;
(4~~3~~) shall encourage economic development in the State by disseminating published geologic information as bulletins, maps, economic reports, and related series and open-file reports to appropriate governmental agencies and private industry. The unit is encouraged further to initiate and maintain appropriate industrial contacts to promote the extraction and conservation of South Carolina's earth raw materials and their manufacture to the economic improvement of the State;
(5~~4~~) shall provide unsolicited advice, when appropriate, to the Mining Council and its associated state regulatory agency, on geologic and related mining matters in keeping with the intent of the South Carolina Mining Act;
(6~~5~~) shall operate and maintain a central, statewide repository for rock cores, well cuttings and related subsurface samples, and all associated supplemental data. Private firms and public agencies are encouraged to notify the unit before exploratory or developmental drilling and coring;
(7~~6) must be the state's official cooperator on topographic mapping. The federal expenditure for this purpose at least must equal that of the State. T~~the unit may conduct cooperative work with appropriate agencies of the United States Government in its geologic activities and investigations;
(8~~7~~) shall provide a minerals research laboratory related to the identification, extraction, and processing of industrial minerals and minerals of economic potential wherever found throughout the onshore and offshore areas of the State. The minerals research laboratory is encouraged to accept mineral research projects from South Carolina businesses or citizens on a per cost, per unit basis and to encourage expended use of the raw materials of the State. The minerals research laboratory may accept public and private gifts or funds and may enter into cooperative agreements for the purpose of applied research in the metallic and nonmetallic minerals of this State.
(9) shall provide unsolicited advice, when appropriate, to other state and governmental agencies concerning geologic hazards which includes, but is not limited to, earthquakes, ground liquefaction, sinkhole development and collapse, landslide development, and coastal vulnerability.

Law Recommendation # 27: SC Code Ann. 49-3-30

Recommendation and rationale for recommendation: Repeal. This transfer to SCDHEC and SCDNR already occurred, so the statute is no longer necessary.

~~SECTION 49-3-30. Transfer of former Water Resources Commission to Water Resources Division of Department of Natural Resources; transfer of regulatory powers to Department of~~

~~Health and Environmental Control.~~
~~The former Water Resources Commission without its regulatory functions is hereby transferred to the Water Resources Division of the Department of Natural Resources and is directly accountable to and subject to the board of the Department of Natural Resources. The Water Resources Division shall be directly accountable to and subject to the Department of Natural Resources. The regulatory functions of the former Water Resources Commission are transferred to the Department of Health and Environmental Control.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: SCDHEC

Law Recommendation # 28: S.C. Code 49-3-40 through 50

Recommendation and Reason for Recommendation: Amend. The SCDNR requests that the statute be clarified to reflect the current duties of the department.

SECTION 49-3-40. Powers and duties of department.
(a) The department shall advise and assist the Governor and the General Assembly in:
(1) formulating and establishing a comprehensive water resources policy for the State, such as a State Water Plan, including coordination of policies and activities among the state departments and agencies;
(2) developing and establishing policies and programs ~~proposals~~ designed to meet and resolve special problems of water resource use and control within or affecting the State, including consideration of the requirements and problems of urban and rural areas;
(3) reviewing the actions and policies of state agencies with water resource responsibilities to determine the consistency of such actions and policies with the comprehensive water policy of the State and to recommend appropriate action where deemed necessary;
(4) reviewing any project, plan or program of federal aid affecting the use or control of any waters within the State and to recommend appropriate action where deemed necessary;
(5) developing policies and recommendations to assure that the long range interests of all groups, urban, suburban, and rural, are provided for in the state's representation on interstate water ~~agencies~~issues;
(6) recommending to the General Assembly any changes of law, or regulation, required to implement the policy declared in this chapter; and
…
(d) The department shall encourage, assist and advise regional, metropolitan, and local governmental agencies, officials or bodies responsible for planning in relation to water aspects of their programs, and shall assist in coordinating local and regional water resources activities, programs, and plans.
…
(f) The department may receive and expend grants, gifts, and monies donated or given by any state, federal, or private agency, person, corporation, water or sewer authority, or political subdivision in connection with water resource investigations in which the results of such investigations will be made publicly available.

SECTION 49-3-50. Matters to be considered by department in exercising responsibilities.
In exercising its responsibilities under this chapter, the department shall take into consideration the need for:
(a) Adequate supplies of surface and groundwaters of suitable quality for ~~domestic,~~

~~municipal, agricultural, and industrial~~ all uses.
(b) Water ~~quality facilities and controls to assure water~~ of suitable quality for all purposes.
(c) Water availability ~~navigation~~ for recreational and commercial needs.
(d) Hydroelectric power.
(e) Flood damage control or prevention measures including zoning to protect people, property, and productive lands from flood losses.
(f) Land stabilization measures.
(g) Drainage measures, including salinity control.
(h) Watershed protection and management measures.
(i) Outdoor recreational and fish and wildlife opportunities.
(j) Measures to prevent saltwater intrusion of groundwater and surface water.
(k) Measures to protect the State's fisheries and other aquatic resources.
(l) Any other means by which development of water and related land resources can contribute to economic growth and development, the long-term preservation of water resources, and the general well-being of all the people of the State.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None.

Law Recommendation # 29: S.C. Code Ann. 49-30-40 through 49-30-90

Recommendation and rationale for recommendation: Repeal. There are no longer any permitted structures, as all the permits expired in 2012. The Fund has not been funded in some time, so the agency has no funds to remove the remaining unpermitted structures. Ideally, there would be additional funds to remove the structures, otherwise the department requests that the statutes be repealed.

~~SECTION 49-30-40. Public Waters Nuisance Abatement Fund.~~
~~The Public Waters Nuisance Abatement Fund is created solely to pay for costs incurred by the State associated with removing unpermitted structures pursuant to this chapter. The fund may receive appropriations from the general fund, federal funds, donations, gifts, the proceeds of permit fees, and other monetary instruments of value. The proceeds contained in the fund may be carried forward from year to year and do not revert to the general fund of the State. The department must maintain and administer the fund. Proceeds from the fund may not be used to pay for costs associated with the removal of an unpermitted structure from licensed lakes.~~
~~HISTORY: 2007 Act No. 33, Section 1, eff upon approval (became law without the Governor's signature on May 24, 2007).~~

~~SECTION 49-30-50. Permit to maintain existing structure.~~
~~An owner of a structure existing on March 21, 2007, may apply for a permit from the department authorizing the owner to maintain his structure in its permitted location for five years. A permit may not be renewed, extended, or transferred.~~
~~HISTORY: 2007 Act No. 33, Section 1, eff upon approval (became law without the Governor's signature on May 24, 2007).~~

~~SECTION 49-30-60. Permit application; fee; conditions; time for filing; grounds for revocation.~~
~~(A) For the privilege of maintaining a structure in its current location, the owner of the structure must obtain a permit for a fee of fifty dollars. The permit fee must be credited to~~

~~the fund.~~
~~(B) To be issued a permit pursuant to this section an owner must:~~
~~(1) make a written request for a permit from the department containing:~~
~~(a) a sworn statement from all of the owners of the structure acknowledging ownership;~~
~~(b) the names and addresses of all owners;~~
~~(c) a detailed description of the structure;~~
~~(d) the structure's location. To identify the structure's location, the owner must use latitude and longitude or mark it on a United States Geological Survey topographic map; and~~
~~(2) establish to the satisfaction of the department that the structure does not present a hazard to navigation nor encroach upon private property or a wildlife management area.~~
~~(C) Upon the verification of the information contained in the written request and the department's satisfaction that the structure does not present a hazard to navigation nor encroach upon private property or a wildlife management area, the department shall issue a permit to the owner that must be prominently displayed on or about the structure. The permit must be conditioned expressly upon the owner being responsible for removal and all costs associated with removal. The department may not issue permits to applications postmarked or received later than ninety days after the effective date of this chapter.~~
~~(D) A permit may be revoked by the department if the:~~
~~(1) structure is moved from its permitted location for use in another location;~~
~~(2) owner fails to abide by any conditions upon which the permit was issued;~~
~~(3) structure becomes a hazard to navigation or encroaches on private property or a wildlife management area;~~
~~(4) structure is abandoned or becomes unusable; or~~
~~(5) owner transfers or attempts to transfer his permit, title, or any interest in the structure to another person.~~
~~HISTORY: 2007 Act No. 33, Section 1, eff upon approval (became law without the Governor's signature on May 24, 2007).~~

SECTION 49-30-80. Removal of unpermitted structures; FERC licensees; recovery of costs.
~~(A) The department must contract to remove unpermitted structures pursuant to a court order and to the extent that the fund contains sufficient funds to cover the cost of removal.~~

Law Recommendation # 30: S.C. Code Ann. 50-1-220

Recommendation and rationale for recommendation: Amend. Statute referred to no longer exists (50-1-230).

SECTION 50-1-220. Application of Sections 50-1-180 to 50-1-220 ~~to 50-1-230~~ to other federal or state lands.
The provisions of Sections 50-1-180 to 50-1-22~~3~~0 shall also apply to (a) other properties of the United States Government, (b) any other properties acquired or to be acquired from the United States Government by the State or (c) any other lands or waters purchased by the United States or the State. But hunting and fishing shall not be allowed on any lands under the control or ownership of the State Commission of Forestry except by written agreement with that Commission. Nothing contained in such sections shall interfere in any manner with

the use and management of lands by a state agency in charge of such lands in the functions of such agency as authorized by law.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: SC Forestry Commission

Law Recommendation # 31: S.C. Code Ann. 50-3-10

Recommendation and rationale for recommendation: Repeal. This transfer occurred in 1993, the statute is no longer necessary.

~~SECTION 50-3-10. Former Wildlife and Marine Resources Department transferred to Department of Natural Resources.~~
~~The head and governing board of the former South Carolina Wildlife and Marine Resources Department as it was constituted before the effective date of this section shall become the board of the Department of Natural Resources until the terms of its current members expire and until their successors are appointed and qualify pursuant to the provisions of Chapter 4 of Title 48.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 32: S.C. Code Ann. 50-3-90

Recommendation and rationale for recommendation: The Director, the day to day operator of the department, authorizes these investigations, not the SCDNR Board.

SECTION 50-3-90. Conducting game and fish cultural operations and investigations; sampling fish populations.
The authorized agents of the department may conduct game and fish cultural operations and scientific investigations in such manner, places and at such times as are considered necessary and may use whatever methods are deemed advisable for sampling fish populations. ~~Such operations and investigations shall be conducted only at the request of and with the permission from the board, and N~~no such operations and investigations shall be made upon private lands and waters except at the request of the owner or owners of such lands and waters.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 33: S.C. Code Ann. 50-3-110

Recommendation and rationale for recommendation: Amend. Renames the Law Enforcement Division, and there are no longer oyster “leases.” We regulate these under permits.

SECTION 50-3-110. Supervision of enforcement officers; enforcement of laws.
The department shall have charge of the enforcement officers of the Natural Resources Law Enforcement Division of the department and exercise supervision over the enforcement of the laws of the State, regulatory, tax, license or otherwise, in reference to birds, non-migratory fish, game fish, shellfish, shrimp, oysters, ~~oyster~~permits~~leases~~, and fisheries.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 34: S.C. Code Ann. 50-3-130

Recommendation and rationale for recommendation: Amend. The Director, the day to day operator of the department, authorizes the uniforms, not the board. Also updates the name of the division.

SECTION 50-3-130. Uniforms and emblems of enforcement officers of Natural Resources Law Enforcement Division.
The ~~board~~ department shall prescribe a unique and distinctive official uniform, with appropriate insignia to be worn by all uniformed enforcement officers of the Natural Resources Law Enforcement Division of the department when on duty and at such other times as the board shall order, and a distinctive color or colors and appropriate emblems for all motor vehicles used by such officers. No other law enforcement agency, private security agency or any person shall wear a similar uniform and insignia which may be confused with the uniform and insignia of the enforcement officers nor shall any emblem be used on a motor vehicle nor shall it be painted in a color or in any manner which would cause the vehicle to be similar to an enforcement officer's vehicle or readily confused therewith.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 35: S. C. Code Ann. 50-3-150

Recommendation and rationale for recommendation: Repeal. This was a transitional statute which has now passed, and no longer necessary.

~~SECTION 50-3-150. Use of present uniforms and motor vehicles.~~
~~In order to carry out the provisions of Sections 50-3-120 to 50-3-160 in an orderly and economical manner it is intended that all serviceable uniforms be continued in use until such time as the board deems it necessary for them to be replaced. These provisions shall also apply to the emblems for motor vehicles.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 36: S.C. Code Ann. 50-3-180

Recommendation and rationale for recommendation: Repeal. These are two statutes regarding Mitigation Trust Funds- with almost identical language (see below). S.C. Code Ann 50-3-180 can be eliminated, as 50-1-130 is adequate.

SECTION 50-1-310. Mitigation Trust Fund.
(A) The Mitigation Trust Fund of South Carolina is created for the purposes of receiving gifts, grants, contributions, and other proceeds for mitigation projects in the State. The Board of Trustees for the Mitigation Trust Fund is the Chairman and the members of the South Carolina Department of Natural Resources Board with full authority over the administration of the funds deposited in the fund. The State Treasurer is the custodian of the fund and shall invest its assets in an interest-bearing account pursuant to South Carolina law.
50-1
(B) The Mitigation Trust Fund may receive appropriations of state general funds, federal funds, donations, gifts, bond-issue receipts, securities, and other monetary instruments of value. Reimbursement for monies expended from this fund must be deposited in this fund. Funds received through sale, exchange, or otherwise, of products of the property including, but not limited to, timber and utility easement rights, accrue to the Mitigation Trust Fund. Funds recovered for losses or damages to natural resources must be deposited to the Mitigation Trust Fund to be used first for restoration in the areas affected and then as provided in subsection (C) of this section.
(C) The income received and accruing from the fund must be spent only for the acquisition, restoration, enhancement, or management of property for mitigation for adverse impacts to natural resources.
(D) The Trustees of the Mitigation Trust Fund are authorized to disburse funds to the South Carolina Center for Birds of Prey to fund construction of the Avian Conservation Center in Charleston County.
(E) The proceeds from this fund may be carried forward from year to year and do not revert to the general fund of the State.

~~SECTION 50-3-180. Mitigation Trust Fund.~~
~~(A) The Mitigation Trust Fund of South Carolina is credited for the purposes of receiving gifts, grants, contributions, and other proceeds for mitigation projects in the State. The Board of Trustees for the Mitigation Trust Fund is the chairman and the members of the South Carolina Department of Natural Resources Board with full authority over the administration of the funds deposited in the fund. The State Treasurer is the custodian of the fund and shall invest its assets in an interest-bearing account pursuant to South Carolina law.~~
~~(B) The Mitigation Trust Fund may receive appropriations of state general funds, federal funds, donations, gifts, bond issue receipts, securities, and other monetary instruments of value. Reimbursement for monies expended from this fund must be deposited in this fund. Funds received through sale, exchange, or otherwise, of products of the property including, but not limited to, timber and utility easement rights, accrue to the Mitigation Trust Fund. Funds recovered for losses or damages to natural resources must be deposited to the Mitigation Trust Fund to be used first for restoration in the areas affected and then as provided in subsection (C) of this section.~~
~~(C) The income received and accruing from the fund must be spent only for the acquisition, restoration, enhancement, or management of property for mitigation for adverse impacts to natural resources.~~
~~(D) The proceeds from this fund may be carried forward from year to year and do not revert to the general fund of the State.~~

Other Agencies Impacted: SC Treasurer

Law Recommendation # 37: S.C. Code Ann. 50-3-315

Recommendation and rationale for recommendation: Amend. The department establishes a training program through the division, not regulation.

SECTION 50-3-315. Deputy enforcement officers.
~~(H) The department by regulation shall establish a training program for deputy enforcement officers commissioned after July 1, 1980.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 38: S.C. Code Ann. 50-3-320

Recommendation and rationale for recommendation: Amend. The department purchases bonds for all DLEOs and department employees, so an individual bond is no longer required. Also, the board is not involved in day to day operation of the department.

SECTION 50-3-320. Transmittal and delivery of commissions of enforcement officers.
The Secretary of State shall transmit to the ~~board~~ department the commissions of all enforcement officers and the director shall deliver such commissions to the enforcement officers only after the enforcement officers have filed oaths ~~and bonds~~ as required by Section 50-3-330.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: Secretary of State

Law Recommendation # 39: S.C. Code Ann. 50-3-350

Recommendation and rationale for recommendation: Amend. The department shield has different language on it than is required in statute.

SECTION 50-3-350. Official badge.
The enforcement officers, when acting in their official capacity, shall wear a metallic shield with the words "~~Enforcement Officer of the~~South Carolina Department of Natural Resources Law Enforcement ~~Division~~Officer" inscribed thereon.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 40: S.C. Code Ann. 50-3-395

Recommendation and rationale for recommendation: Amend. The department does not set the form of warning tickets by regulation.

SECTION 50-3-395. Enforcement officers may issue warning tickets.
Enforcement officers may issue warning tickets to violators in cases of misdemeanor violations under this title. The department shall ~~by regulation~~ provide for the form, administration, and use of warning tickets authorized by this section.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 41: S.C. Code Ann. 50-3-510

Recommendation and rationale for recommendation: Amend. The department employs a forester, so it is no longer necessary to require that the State Forester approve timber sales. Allows the department to do this if necessary.

SECTION 50-3-510. Authorization to contract; required findings; approval by State Forester.
The department may, subject to the provisions of this article, contract for the harvest of timber on any lands held by the department. No contract for such cutting and sale may be entered into and no timber may be cut or sold unless the board votes that the cutting and sale of the timber is for the best interests of the department and the improvement of its lands, by reason of thinning the timber, harvesting the over-age trees and improving general forestry conditions. Before selling or cutting the timber the department may ~~shall~~ coordinate with the State Forester to have the timber cruised and an estimate of the value made.
~~If the State Forester finds that the sale is not in keeping with good forestry practices or will adversely affect the remainder of the timber, the sale must not be made.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: State Forestry Commission

Law Recommendation # 42: S.C. Code Ann. 50-3-1110 through 50-3-1160

Recommendation and rationale for recommendation: Repeal. The Conservation Grant Fund has never been funded, and no grants have ever been awarded. Therefore, the department requests that the statute be repealed.

~~SECTION 50-3-1110. Conservation Grant Fund established.~~
~~There is created in the state treasury a fund separate and distinct from the general fund of the State and all other funds styled the "Conservation Grant Fund". The income and principal of the fund must be used only to stimulate the use of conservation easements and fee simple gifts of land for conservation to qualified conservation organizations to improve the capacity of private nonprofit land trusts successfully to accomplish conservation projects and to provide an opportunity to leverage private and public monies for conservation easements.~~

~~HISTORY: 2000 Act No. 283, Section 1(D).~~

~~SECTION 50-3-1120. Board; administration of fund.~~
~~The board of the Department of Natural Resources serves ex officio as the Conservation Grant Fund Board with full authority over the administration of the fund.~~
~~HISTORY: 2000 Act No. 283, Section 1(D).~~

~~SECTION 50-3-1130. Funding.~~
~~The Conservation Grant Fund shall consist of any monies appropriated to it by the General Assembly and other monies received from public or private sources.~~
~~HISTORY: 2000 Act No. 283, Section 1(D).~~

~~SECTION 50-3-1140. Qualification for tax credit as requirement for real property to be subject of grant.~~
~~In order for real property to be the subject of a grant under this article, the land must qualify for the tax credit allowed pursuant to Section 12-6-3515.~~
~~HISTORY: 2000 Act No. 283, Section 1(D).~~

~~SECTION 50-3-1150. Uses of Fund revenues and grants; restrictions.~~
~~(A) Revenues in the Conservation Grant Fund may be used by the department only to:~~
~~(1) defray the administrative costs of the department in administering the grant purpose provided for by this article;~~
~~(2) provide education on conservation easements and fee simple gifts of land for conservation, including information material intended for landowners and education for staff and volunteers; and~~
~~(3) make conservation grants.~~
~~(B) A grant from the Conservation Grant Fund may be used only to pay for one or more of the following costs:~~
~~(1) reimbursement for total or partial transaction costs for donations that otherwise would not be made because of insufficient financial revenues;~~
~~(2) management support, including initial baseline inventory and planning;~~
~~(3) monitoring compliance with conservation easements;~~
~~(4) education on conservation easements and fee simple gifts of land for conservation, including information materials intended for landowners, and education for staff and volunteers.~~
~~(C) Fund proceeds may not be used to pay the purchase price of any interest in real property.~~
~~HISTORY: 2000 Act No. 283, Section 1(D).~~

~~SECTION 50-3-1160. Grants; establishment of criteria for awarding; procedures.~~
~~The board shall establish the procedures and criteria for awarding grants under this article. The criteria shall focus grants on those areas, approaches, and techniques that are likely to provide the optimum positive effect on conservation. The board shall make recommendations to the General Assembly on the award of grants. Upon approval by the General Assembly by concurrent resolution, the board shall award the grants and provide public notice of the award.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 43: S.C. Code Ann. 50-5-17

Recommendation and rationale for recommendation: Repeal. The Study ended in 2014 per the statute.

~~SECTION 50-5-17. Flounder Population Study Program.~~
~~(A) There is established the Flounder Population Study Program to be administered by the Department of Natural Resources. The program shall study the effects of flounder catch limits and the prohibition of artificial illumination produced by motor fuel powered generators on flounder (Paralichthys species), located in the waters of Pawleys Inlet north to the northern terminus of Main Creek at Garden City Beach. For purposes of this resolution, "gigging" means using a prong, spear, or similar device, including a bow and arrow to spear a fish.~~
~~(B) During the term of the program in the area defined in subsection (A):~~
~~(1) the lawful flounder gigging and fishing catch limit is ten per day for any individual, not to exceed twenty flounder in any one day on any boat;~~
~~(2) it is unlawful to use any type of artificial illumination produced by motor fuel powered generators while gigging or fishing for flounder from a boat or while wading in the water.~~
~~(C) The program shall run for five years, beginning January 1, 2010, and ending June 30, 2014.~~
~~(D) For purposes of this section, "motor fuel" has the same meaning as defined in Section 12-28-110(39).~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 44: S.C. Code Ann. 50-5-25 and 50-9-960

Recommendation and rationale for recommendation: Amend. The department would like to eliminate the Mariculture Resource and Development Fund and instead give authorization to deposit the funds in the Marine Resources Fund.

SECTION 50-5-25. Powers and duties; deposit of revenues.
~~(D) Proceeds from sales of experimental mariculture products produced by the department shall be deposited in the state general fund to the credit of the Mariculture Research and Development Fund of the department to further encourage and promote development of the mariculture industry of this State by supporting operational research and development projects of the division and transfer of information to the mariculture industry. Funds deposited in the Mariculture Research and Development Fund shall be carried forward annually and used for the same purpose.~~

SECTION 50-9-960. Marine Resources Fund.
(A) The Marine Resources Fund is created for the purpose of supporting the department and its effort to conserve marine fisheries, to further encourage and promote development of the mariculture industry of this State by supporting operational research and development projects of the division and transfer of information to the mariculture industry. The assets of the fund are derived from the following sources:
(8) revenue from sales of experimental mariculture products produced by the department.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 45: S.C. Code Ann. 50-5-1950

Recommendation and rationale for recommendation: Repeal. The Saltwater Recreational Fisheries Advisory Committee (SRFAC) was established in 1992 as an oversight mechanism to give recreational fishermen assurance that newly established license revenues would be used to effectively support programs, projects and activities that would benefit SC saltwater recreational fisheries. For more than 25 years the SCDNR has used all related funds exclusively to support and enhance saltwater reactional fisheries. Given this proven track record of success in meeting the intent of the law and proper usage of these revenues there is no longer the need for continuing this particular oversight mechanism. Close public scrutiny and expectations, as well as general oversight of activities through the Marine Advisory Committee are adequate.

~~SECTION 50-5-1950. Saltwater Recreational Fisheries Advisory Committee established; composition; compensation; term.~~
~~(A) A Saltwater Recreational Fisheries Advisory Committee is established to assist in prioritizing the expenditures of monies received in the special account. The committee is composed of:~~
~~(1) one member of the Board of the Department of Natural Resources to serve ex officio;~~
~~(2) two at-large members appointed by the Governor; and~~
~~(3) one member from each of the following coastal counties appointed by a majority of the respective legislative delegations of Beaufort, Charleston, Colleton, Georgetown, Horry, Jasper, Dorchester, and Berkeley Counties.~~
~~(B) The members in subsection (A)(2) and (3) shall represent the saltwater recreational fishing community.~~
~~(C) Committee members shall be paid the usual mileage, subsistence, and per diem as prescribed by law for members of state boards, commissions, and committees to be paid from revenues from the sale of stamps, licenses, prints, and related articles.~~
~~(D) The terms of members in subsection (A)(2) and (3) are for four years and are limited to two consecutive terms. Vacancies shall be filled for the remainder of the unexpired term in the manner of original appointment.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: Governor's Office.

Law Recommendation # 46: S.C. Code Ann. 50-5-2510

Recommendation and rationale for recommendation: Amend. The department requests that the requirement "return receipt requested" (RRR) for mailing be eliminated from hunting and fishing license suspension notifications. The Department of Motor Vehicles does not require driver's license suspensions be sent RRR, therefore the department would like the same requirements. The RRR is expensive, and most times it gets returned for non-receipt. Instead the department would request to send the letter regular mail to the last address known to the department, the same requirement for DMV.

SECTION 50-5-2510. Suspension of saltwater privileges for accumulation of points.
(B) ~~Any suspension under this article begins the eleventh day after the person or entity receives written notice by mail, return receipt requested, of the suspension and ends the same day the following year.~~The notice of suspension must be given by the department by depositing the notice in the United States mail with postage prepaid addressed to the person at the address contained in the records of the department. The giving of notice by mail is complete ten days after the deposit of the notice, and ends the same day the following year. A certificate by the director of the department, or his designee, that the notice has been sent as required in this section is presumptive proof that the requirements as to notice of suspension have been met even if the notice has not been received by the addressee.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 47: S.C. Code Ann. 50-5-2515

Recommendation and rationale for recommendation: Amend. The department requests that the requirement "return receipt requested" (RRR) for mailing be eliminated from hunting and fishing license suspension notification. The Department of Motor Vehicles does not require driver's license suspensions be sent RRR, therefore the department would like the same requirements. The RRR is expensive, and most times it gets returned for non-receipt. Instead the department would request to send the letter regular mail to the last address known to the department, the same requirement for DMV.

SECTION 50-5-2515. Notice of suspension; request for review.
Upon determination by the department that a person or entity has accumulated sufficient points to warrant the suspension of any saltwater privilege, the department must notify the person or entity in writing, ~~return receipt requested~~that his saltwater privilege has been suspended, and the person or entity must return all the suspended licenses, stamps, or permits in his name to the department within ten days.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 48: S.C. Code Ann. 50-5-2545

Recommendation and rationale for recommendation: Repeal. The points received prior to the Marine Resources Act of 2000 would have expired. This statute is no longer necessary.

~~SECTION 50-5-2545. Prior points and suspensions.~~
~~All points received prior to the effective date of the Marine Resources Act of 2000 shall be assigned under the "commercial category" and remain effective until the validity of these points no longer exists. All suspensions and actions prior to the Marine Resources Act of 2000 remain in effect under the previous mandates until expired.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 49: S.C. Code Ann. 50-9-1140

Recommendation and rationale for recommendation: Amend. The department requests that the requirement "return receipt requested" (RRR) for mailing be eliminated from hunting and fishing license suspension notification. The Department of Motor Vehicles does not require driver's license suspensions be sent RRR, therefore the department would like the same requirements. The RRR is expensive, and most times it gets returned for non-receipt. Instead the department would request to send the letter regular mail to the last address known to the department, the same requirement for DMV.

SECTION 50-9-1140. Suspension of hunting and fishing privileges.
The department shall suspend for one year the hunting and fishing privileges of a person who has eighteen or more points. ~~The suspension begins the eleventh day after the person receives written notice by mail, return receipt requested, of the suspension, and ends the same day the following year.~~ The notice of suspension must be given by the department by depositing the notice in the United States mail with postage prepaid addressed to the person at the address contained in the records of the department. The giving of notice by mail is complete ten days after the deposit of the notice, and ends the same day the following year. A certificate by the director of the department, or his designee, that the notice has been sent as required in this section is presumptive proof that the requirements as to notice of suspension have been met even if the notice has not been received by the addressee.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 50: S.C. Code Ann. 50-9-1150

Recommendation and rationale for recommendation: Amend. The APA was established subsequent to this statute being passed, so all license suspensions are reviewed by the Administrative Law Court.

SECTION 50-9-1150. Notice of suspension; review by department.
(B)A person or entity whose privileges have been suspended may appeal the decision of the department under the Administrative Procedures Act.
~~(B) The person may, within ten days after notice of suspension, request in writing a review, and upon receipt of the request, the department shall afford him a review. The department shall notify him of the date, time, and place of the review and the person shall have the right to have his attorney present with him if he so desires.~~
~~(C) If the person requests a review, the suspension shall be held in abeyance until the day of the final disposition of his review by the department and if the suspension is upheld, the suspension shall commence on the eleventh day thereafter and end on the same day of the following year. The review by the department shall be limited to a determination of the validity of the violations and points assessed. No probationary authority is given to the department by discretion or otherwise.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: Administrative Law Court

Law Recommendation # 51: S.C. Code Ann. 50-9-1160

Recommendation and rationale for recommendation: Repeal. The APA was established subsequent to this statute being passed, so all license suspensions are reviewed by the Administrative Law Court, not a Circuit Court Judge.

~~SECTION 50-9-1160. Review by circuit judge.~~
~~(A) A person whose privileges have been suspended under the provisions of this article may, within ten days after notice of the result of the review, apply to the resident or presiding circuit judge of the circuit in which the applicant resides for a review upon the record certified to by the board to determine if the action taken by the department is lawful and in accordance with the provisions of this article. The person shall have the right to have his counsel present with him if he so desires.~~
~~(B) If the person requests a review upon the record the suspension shall be held in abeyance until the day of the final disposition of the review upon the record and if the suspension is upheld, the suspension shall commence on that day and end on the same day of the following year.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 52: S.C. Code Ann. 50-11-851

Recommendation and rationale for recommendation: Repeal. This is already covered in S.C. Code Ann. 50-11-853, so it is unnecessary.

~~SECTION 50-11-851. Shooting, killing, or maiming of "carrier pigeon" prohibited; penalties.~~
~~The shooting, killing, or maiming of an Antwerp or homing pigeon, commonly known as a "carrier pigeon", is prohibited. Any person violating the provisions of this section is guilty of a misdemeanor and must be punished by a fine not exceeding ten dollars or imprisonment not exceeding ten days.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 53: S.C. Code Ann. 50-11-980

Recommendation and rationale for recommendation: Amend. The department has used GIS technology to update the map that accompanied the original legislation. The coordinates that were in the statute did not match the map, this is updating the statute to reflect the correct map.

SECTION 50-11-980. Certain lands and waters in Charleston Harbor and adjacent estuarine system designated wildlife sanctuary.

The lands and waters in Charleston Harbor and its adjacent estuarine system in Charleston County lying within the following boundaries are designated a wildlife sanctuary:

The area in Charleston County beginning at the foot of Station 22 1/2 Street on Sullivan's Island;

thence 332°47'51" following Ben Sawyer Boulevard (Highway 703) into Mt. Pleasant for approximately 10672.74' to a point just south of Center Street where the marsh of the upper reaches of Jeanette Creek meets highland;

thence 226°30'39" and continuing for approximately 5711.45' to Pitt Street;

thence 315°06'28" and continuing for approximately 5601.19';

thence 42°35'09" and continuing for approximately 96.36';

thence 315°40'50" and continuing for approximately 546.86';

thence 317°58'41" and continuing for approximately 675.02';

thence 46°54'12" and continuing for approximately 349.17' to the intersection of Coleman Boulevard;

thence 316°01'24" following Coleman Boulevard across Shem Creek and continuing for approximately 1249.48';

thence 310°00'00" and continuing for approximately 11746.20' to the eastern range marker for the Drum Island Channel Range just south of Remley's Point;

thence 291°44'09" and continuing for approximately 6080.00' through the Drum Reach;

thence DUE WEST and continuing for approximately 7960.00' across the Charleston peninsula;

thence 330°00'00" and continuing for approximately 9643.00' along the east side of the Ashley River;

thence 279°04'59" and continuing for approximately 7617.53';

thence 154°18'05" and continuing for approximately 10204.25' to a point on the west bank of the Ashley River just south of the WTMA radio tower;

thence 200°00'00" and continuing for approximately 3354.00';

thence 170°00'00" and continuing for approximately 3773.00';

thence 310°00'00" and continuing for approximately 4193.00';

thence 190°00'00" and continuing for approximately 5031.00';

thence 105°00'00" and continuing for approximately 3773.00';

thence 189°36'09" and continuing for approximately 1785.89' to the intersection of Highway 61;

thence 132°12'36" and continuing for approximately 9390.67' to the north bank of Wappoo Creek;

thence 200°00'00" and continuing for approximately 4413.48';

thence 144°00'00" and continuing for approximately 2935.00' to a point just south of Harborview Road;

thence 100°00'00" and continuing for approximately 1258.00';

thence 130°00'00" and continuing for approximately 1677.00';

thence 100°00'00" and continuing for approximately 4193.00';

thence 30°00'00" and continuing for approximately 2096.00';

thence 80°00'00" and continuing for approximately 1258.00';

thence 120°00'00" and continuing for approximately 1258.00';

thence 200°00'00" and continuing for approximately 2147.63' to the head of Kushiwah Creek;

thence 110°00'00" and continuing for approximately 4065.35';

thence 30°00'00" and continuing for approximately 893.00';

thence 320°00'00" and continuing for approximately 2516.00';

thence 20°00'00" and continuing for approximately 629.00';

thence 110°00'00" and continuing for approximately 2935.00';
thence DUE NORTH and continuing for approximately 1258.00';
thence DUE EAST and continuing for approximately 3773.00' along the southern edge of Charleston Harbor;
thence 60°00'00" and continuing for approximately 1258.00' to the point at Fort Johnson;
thence 171°52'50" and continuing for approximately 9317.40' to a point on the west bank of Schooper (Schooner) Creek;
thence DUE EAST and continuing for approximately 6491.17' along the dike on the north end of the spoil area;
thence 43°27'46" and continuing for approximately 16506.59’ across the mouth of Charleston Harbor to the point of beginning on Sullivan's Island.

~~The area in Charleston County beginning at the foot of Station 22 1/2 Street on Sullivan's Island, thence on a line north following Ben Sawyer Boulevard (Highway 703) into Mt. Pleasant to a point just south of Center Street where the marsh of the upper reaches of Jeanette Creek meets highland, thence turning 230 degrees southwest following a line to Pitt Street in Mt. Pleasant, thence turning northwest following Pitt Street to its intersection with Live Oak Avenue, thence northeast to Coleman Boulevard, thence following Coleman Boulevard across Shem Creek and continuing on a line 310 degrees northwest to the eastern range marker for the Drum Island Channel Range just south of Remley's Point, thence continuing northwest on the Drum Island Reach for approximately six thousand eighty feet, thence due west on a line across the Charleston peninsula for approximately seven thousand nine hundred sixty-six feet, thence turning 330 degrees northwest and continuing for approximately nine thousand six hundred forty-three feet along the east side of the Ashley River, thence turning 330 degrees northwest and continuing on a line for approximately five thousand eight hundred seventy feet, thence turning 240 degrees and continuing for approximately four thousand one hundred ninety-three feet, thence turning 134 degrees southeast and continuing approximately nine thousand six hundred forty-three feet to a point on the west bank of the Ashley River just south of the WTMA radio tower, thence turning 200 degrees south and continuing for approximately three thousand three hundred fifty-four feet along the west bank of the Ashley River, thence turning south 170 degrees for approximately three thousand seven hundred seventy-three feet, thence turning northwest 310 degrees and continuing for approximately four thousand one hundred ninety-three feet, thence turning south 190 degrees and continuing approximately five thousand thirty-one feet, thence returning east 105 degrees and continuing for approximately three thousand seven hundred seventy-three feet, thence turning south again 190 degrees and continuing for approximately two thousand five hundred sixteen feet to its intersection with Highway 61, thence turning southeast 120 degrees and continuing approximately nineteen thousand sixty-two feet to the north bank of Wappoo Creek, thence turning south 200 degrees and continuing approximately two thousand nine hundred thirty-five feet, thence turning southeast 144 degrees and continuing for approximately two thousand nine hundred thirty-five feet to a point just south of Harborview Road, thence turning east-southeast 100 degrees and continuing for approximately one thousand two hundred fifty-eight feet, thence turning southeast 130 degrees and continuing approximately one thousand six hundred seventy-seven feet, thence turning east 100 degrees and continuing for approximately four thousand one hundred ninety-three feet, thence turning northeast 30 degrees and continuing for approximately two thousand ninety-six feet, thence turning east 80 degrees and continuing for approximately one thousand two hundred fifty-eight feet, thence turning southeast 120 degrees and continuing for approximately one thousand two hundred fifty-eight feet, thence turning south 200 degrees and continuing approximately one thousand six hundred seventy-seven feet to the head of Kushiwah Creek, thence turning east-southeast 110 degrees and continuing approximately four thousand one hundred ninety-three feet, thence turning~~

~~northeast 30 degrees and continuing for approximately eight hundred thirty-nine feet, thence turning northwest 320 degrees and continuing for approximately two thousand five hundred sixteen feet, thence turning north 20 degrees and continuing approximately six hundred twenty-nine feet, thence turning east-southeast 110 degrees and continuing for approximately two thousand nine hundred thirty-five feet, thence returning due north and continuing for approximately one thousand two hundred fifty-eight feet, thence turning due east and continuing for approximately three thousand seven hundred seventy-three feet along the southern edge of Charleston Harbor, thence turning northeast 60 degrees and continuing for approximately one thousand two hundred fifty-eight feet to the point at Fort Johnson, thence turning due south and continuing approximately nine thousand two hundred twenty-four feet to a point on the west bank of Schooper (Schooner) Creek, thence turning due east and continuing for approximately six thousand seven hundred eight feet across Morris Island along the dike on the north end of the spoil area, thence turning northeast 50 degrees and continuing approximately sixteen thousand three hundred fifty-one feet across the mouth of Charleston Harbor to the point of beginning on Sullivan's Island.~~

It is unlawful for any person to hunt, trap, molest, or to attempt to take or molest in any manner, any wild bird, bird egg, or mammal within the sanctuary. The department, its duly authorized agents, or persons with written permits issued by the department may engage in predator control, bird banding, and other scientific activities including the collection of specimens for scientific purposes intended to enhance, maintain, or further our understanding of wildlife populations within the sanctuary.

The department shall post the general outline of the sanctuary and during the nesting season shall conspicuously post bird nesting areas. Posting of bird nesting areas constitutes public notice that the areas are closed to entry. The term "molest" as used in this section includes, but is not limited to, walking upon posted lands or allowing pets to roam upon them. It is also unlawful for any person to remove or tamper with signs posted by the department pursuant to this section.

Nothing herein shall preclude the normal operations of the marine terminals and other facilities of the South Carolina State Ports Authority, or the dredging and disposal operations by the U.S. Army Corps of Engineers, South Carolina State Ports Authority, or their agents or contractors, or the normal shipping and maritime activities in the Port of Charleston.

Any person violating the provisions of this section is guilty of a misdemeanor and, upon conviction, must be fined not more than five hundred dollars or imprisoned for not more than ninety days, or both.

HISTORY: [Derived from former Section 50-11-2775 (1986 Act No. 379, Section 1)]; 1988 Act No. 561, Section 1; 1993 Act No. 181, Section 1262.

Law Recommendation # 54: S.C. Code Ann. 50-11-1110 through 50-11-1120

Recommendation and rationale for recommendation: These statutes are antiquated. The department has the authority to close seasons based on environmental conditions.

~~SECTION 50-11-1110. Authority of department to close or shorten open season upon request of county legislative delegation; procedures; penalties.~~

~~When in any county of the State there exist abnormal conditions that might affect the supply of game or there is an abnormal scarcity of game, the department, upon the written request~~

~~of a majority of the legislative delegation, including the Senator, from such county, may shorten or close the open season for hunting in any such county. The department shall give notice of the closed or shortened season by publication in at least two daily newspapers and in a newspaper of the county in which the closed or shortened season is declared, stating the length of the closed or shortened season. Any person found hunting with gun or dog within the restricted territory during a closed season so declared, is guilty of a violation of the provisions of this section, regardless of whether he has killed any game or not. The penalty for violation of the provisions of this section is a fine of not less than twenty-five dollars nor more than one hundred dollars or imprisonment for not less than thirty days.~~
~~HISTORY: [Derived from former Section 50-11-370 (1962 Code Section 28-360; 1954 (48) 1428); 50-11-840 (1962 Code Section 28-361; 1958 (50) 1669; 1972 (57) 2431)]; 1988 Act No. 561, Section 1; 1993 Act No. 181, Section 1262.~~

~~SECTION 50-11-1120. Authority of department to declare open season on foxes upon request of county legislative delegation.~~
~~Whenever it appears that foxes are destroying birds, poultry, pigs, lambs, or other property in any county in this State or there is an apparent epidemic of rabies in any county, the department, upon the written request of a majority of the legislative delegation of any such county, shall declare an open season on foxes, with the use of firearms, in the county suffering from the destruction and for so long as the delegation considers desirable.~~

Law Recommendation # 55: S.C. Code Ann. 50-11-1350 to 1430

Recommendation and rationale for recommendation: Amend and Repeal. Pen-raised quail are still considered pen-raised, even if later released. Also, the remaining statutes are antiquated the department does not see a resource need to regulate pen raised quail businesses.

SECTION 50-11-1350. "Pen-raised quail" defined.
A "pen-raised quail" is one that is hatched and subsequently wholly raised and confined in a pen or coop.

~~SECTION 50-11-1360. Authorization to engage in business of propagating pen-raised quail.~~
~~With the approval of the department, any person may engage in the business of propagating pen-raised quail for commercial purposes upon compliance with this article.~~
~~HISTORY: [Derived from former Section 50-11-3482 (1984 Act No. 374, Section 10)]; 1988 Act No. 561, Section 1; 1988 Act No. 560, Section 1; 1993 Act No. 181, Section 1262; 2006 Act No. 306, Section 1.~~

~~SECTION 50-11-1370. Commercial quail breeder's license.~~
~~A commercial quail breeder's license first must be obtained from the department. The license may be purchased at any time and is good only for the fiscal year, July first through June thirtieth, in which it is issued. The license fee is five dollars, and each license must be numbered by the department.~~
~~HISTORY: [Derived from former Section 50-11-3483 (1984 Act No. 374, Section 10)]; 1988 Act No. 561, Section 1; 1988 Act No. 560, Section 1; 1993 Act No. 181, Section 1262; 2006 Act~~

~~No. 306, Section 1.~~

~~SECTION 50-11-1380. Pen-raised quail for consumption on hotel, restaurant, boardinghouse, or club premises.~~
~~The keeper of a hotel, restaurant, boardinghouse, or club may sell pen-raised quail for food to be consumed on the premises and is not required to hold a license therefor.~~
~~HISTORY: [Derived from former Section 50-11-3484 (1984 Act No. 374, Section 10)]; 1988 Act No. 561, Section 1; 1988 Act No. 560, Section 1; 1993 Act No. 181, Section 1262; 2006 Act No. 306, Section 1.~~

~~SECTION 50-11-1390. Revocation of or refusal to issue breeders license.~~
~~The department, when it has evidence that any breeder is violating the intent of this article and is not cooperating with the department in a desirable manner, may revoke the breeder's license and may refuse to issue the license and seals or tags to the breeder. Where a person has a record of game violations, the department may refuse to issue the breeder's license.~~
~~HISTORY: [Derived from former Section 50-11-3490 (1962 Code Section 28-543; 1957 (50) 535; 1984 Act No. 374, Section 11)]; 1988 Act No. 561, Section 1; 1988 Act No. 560, Section 1; 1993 Act No. 181, Section 1262; 2006 Act No. 306, Section 1.~~

~~SECTION 50-11-1400. Sale of pen-raised quail.~~
~~Any person complying with this article may sell live pen-raised quail for propagating purposes or may sell the carcasses of the pen-raised quail for any purpose, including sale for food.~~
~~HISTORY: [Derived from former Section 50-11-3500 (1962 Code Section 28-544; 1957 (50) 535)]; 1988 Act No. 561, Section 1; 1988 Act No. 560, Section 1; 1993 Act No. 181, Section 1262; 2006 Act No. 306, Section 1.~~

~~SECTION 50-11-1410. Information required on package of pen-raised quail shipped out of state; records.~~
~~Before being offered for sale other than alive or for propagation purposes or shipped within the State, all packages or bags of pen-raised quail carcasses must be labeled, marked, or stamped, in such a way so as to give the following information: the hatchery in which the quail is produced, its location, and address. This information must not be removed from the package or bag of quail except by the ultimate consumer. In addition, the hatchery is required to keep accurate records of all sales of pen-raised quail and to make these records available for inspection upon request by the department.~~
~~HISTORY: [Derived from former Section 50-11-3510 (1962 Code Section 28-545; 1957 (50) 535)]; 1988 Act No. 561, Section 1; 1988 Act No. 560, Section 1; 1993 Act No. 181, Section 1262; 2006 Act No. 306, Section 1.~~

~~SECTION 50-11-1420. Copy of invoice of pen-raised quail sold or shipped in State.~~
~~When any pen-raised quail is sold or shipped into this State, the shipper or seller shall furnish the department with a copy of the invoice showing the number of the quail so shipped or sold and to whom the quail was shipped or sold. Any pen-raised quail sold or shipped in violation of this section is subject to confiscation by the department.~~
~~HISTORY: [Derived from former Section 35-11-3610 (1962 Code Section 28-547; 1958 (50) 1672)]; 1988 Act No. 561, Section 1; 1993 Act No. 181, Section 1262; 2006 Act No. 306, Section 1.~~

~~SECTION 50-11-1430. Killing of pen-raised quail.~~
~~All pen-raised quail offered for sale must be killed otherwise than by shooting.~~

Law Recommendation # 58: S.C. Code Ann. 50-13-1936

Recommendation and Reason for Recommendation: Repeal. The federal government has not operated Walhalla Fish Hatchery since the mid-1990s, and the fee would have been requested at that time. The statute is no longer necessary.

~~SECTION 50-13-1936. Fees for operation of Walhalla Fish Hatchery.~~
~~If the federal government ceases to operate the Walhalla Fish Hatchery, the department may accept and maintain operations of the facility by charging a fee that is sufficient to cover the cost of operating the facility.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 59: S.C. Code Ann. 50-15-10 through 50-15-40

Recommendation and rationale for recommendation: Amend. The department deals with the day to day actions of the agency, the board governs policy. In addition, the Act refers to appendices that are no longer utilized. Specifically Appendices A and D no longer exist in current versions of the C.F.R. Federally listed species are now listed in a table which is part of 50 C.F.R. Section 17.11. The proposed change would update the statutes to list the current federal citation for Endangered Species list.

SECTION 50-15-10. Definitions.
As used in this article:
(2) "Endangered species" means any species or subspecies of wildlife whose prospects of survival or recruitment within the State are in jeopardy or are likely within the foreseeable future to become so due to any of the following factors:
(e) any combination of the foregoing factors. The term shall also be deemed to include any species or subspecies of fish or wildlife appearing on the United States' List of Endangered Native Fish and Wildlife as it appears on July 2, 1974, (Part 17 of Title 50, Code of Federal Regulations, Appendix D [now found at 50 C.F.R. Section 17.11]) as well as any species or subspecies of fish and wildlife appearing on the United States' List of Endangered Foreign Fish and Wildlife (Part 17 of Title 50 of the Code of Federal Regulations, Appendix A [now found at 50 C.F.R. Section 17.11]), as such list may be modified hereafter.
SECTION 50-15-30. Endangered species listed; review and amendment of list; unlawful to take, deal in, or transport species on lists.
(B) The department ~~board~~ shall conduct a review of the state list of endangered species within not more than two years from its effective date and every two years thereafter and may amend the list by such additions or deletions as are deemed appropriate. The department ~~board~~ shall submit to the Governor a summary report of the data used in support of all amendments to the state list during the preceding biennium.
(C)(2) the United States' List of Endangered Native Fish and Wildlife as it appears on July 2, 1974, (Part 17 of Title 50, Code of Federal Regulations, Appendix D [now found at 50 C.F.R. Section 17.11]); and
(3) the United States' List of Endangered Foreign Fish and Wildlife (Part 17 of Title 50, Code of Federal Regulations, Appendix A [now found at 50 C.F.R. Section 17.11]), as such list may be modified hereafter; provided, that any species or subspecies of wildlife appearing on any of the foregoing lists which enters the State from another state or from a point outside the territorial limits of the United States and which is transported across the State destined for a point beyond the State may be so entered and transported without restriction in accordance with the terms of any federal permit or permit issued under the laws or regulations of another state.

SECTION 50-15-40. Establishing and carrying out programs for management of nongame and endangered wildlife; removal, capture, or destruction of wildlife.
(A) The department ~~board~~ shall establish such programs, including acquisition of land or aquatic habitat, as are deemed necessary for management of nongame and endangered wildlife. The ~~board~~ department shall utilize all authority vested in the department to carry out the purposes of this section.

Law Recommendation # 60: S.C. Code Ann. 50-16-20

Recommendation and rationale for recommendation: Amend. The department requests that the importation of the listed species be completely regulated by the department by permit, to protect the native natural resources of the state.

SECTION 50-16-20. Importation of wildlife for certain purposes prohibited; investigation; permit.
(A) It is unlawful for a person to import, possess, or transport ~~for the purpose of release~~ or to introduce or bring into this State any live wildlife of the following types without a permit from the department:
(1) a furbearer, a member of the family Cervidae, a nondomestic member of the families Suidae (pigs), Tayassuidae (peccaries), Bovidae (bison, mountain goat, mountain sheep), coyote, bear, or turkey (genus Meleagris). Furbearer includes, but is not limited to, red and gray fox, raccoon, opossum, muskrat, mink, skunk, otter, bobcat, weasel, and beaver;
(2) a species of marine or estuarine fish, crustacean, mollusk, or other marine invertebrate not already found in the wild, or not native to this State.
(3) a species of freshwater fish, crustacean, mollusk, or other freshwater invertebrate not already found in the wild or not native to this State.
(B) A permit may be granted only after the investigations and inspections of the wildlife have been made as the department considers necessary and the department approves the possession, transportation, or importation into the State. The department may not issue a permit unless it finds:
(1) the wildlife was taken lawfully in the jurisdiction in which it originated;
(2) the importation, release, or possession of the wildlife is not reasonably expected to adversely impact the natural resources of the State or its wildlife populations.

Law Recommendation # 62: S.C. Code Ann. 50-19-110 through 50-19-130

Recommendation and rationale for recommendation: Repeal. This Commission does not exist.

~~SECTION 50-19-110. Creation of Darlington County Advisory Fish and Game Commission; membership; terms of office; vacancies.~~
~~There is hereby created the Darlington County Advisory Fish and Game Commission to be composed of seven members who shall be appointed by a majority of the Darlington County legislative delegation. The members of the Commission shall be qualified electors of Darlington County, and not more than one commissioner shall be appointed from any one township. The terms of the commissioners shall be for three years and until their successors are elected and qualify, except that of the members first appointed two were appointed to serve for a term of one year, two for a term of two years and three for a term of three years. Any vacancy shall be filled in the manner of the original appointment.~~
~~HISTORY: 1962 Code Section 28-1091; 1959 (51) 517; 1993 Act No. 181, Section 1267.~~

~~SECTION 50-19-120. Officers of Commission; meetings.~~
~~The Commission shall organize by electing one of its members chairman and one of its members secretary, and the commissioners shall meet at such time and place as may be designated by the chairman.~~
~~HISTORY: 1962 Code Section 28-1092; 1959 (51) 517; 1993 Act No. 181, Section 1267.~~

~~SECTION 50-19-130. Powers and duties of Commission.~~
~~The Commission shall make studies and recommendations to the department pertaining to the supervision of fish and game in Darlington County, except Prestwood Lake. It shall cooperate with the department in supervising the opening and closing of all fish and game seasons in the county and regulations in connection therewith and control thereof, insofar as consistent with the statutory laws of the State. The Commission shall advise and confer with the county legislative delegation and shall recommend such changes as appear to be necessary in the fish and game laws.~~

Law Recommendation # 63: S.C. Code Ann. 50-19-210 through 50-19-240

Recommendation and rationale for recommendation: Repeal. This Board does not exist.

~~SECTION 50-19-210. Creation of Prestwood Lake Wildlife Refuge Board; membership; terms of office.~~
~~There is hereby created a board to be known as the Prestwood Lake Wildlife Refuge Board. The Board shall be composed of seven members who shall be appointed by the Governor upon the recommendation of a majority of the Darlington County legislative delegation. Three members having been appointed for an initial term of two years and four having been appointed for an initial term of four years, thereafter their successors have been and shall be appointed to serve for regular terms of four years each.~~
~~HISTORY: 1962 Code Section 28-1095; 1957 (50) 177; 1993 Act No. 181, Section 1267.~~

~~SECTION 50-19-220. Organization and meetings of Board; compensation of members.~~
~~After their appointments, the members of the Board shall meet immediately and organize and from among themselves shall select one of their members as chairman and one as secretary. The Board shall meet at the call of the chairman or upon the request of a majority of its members. The members shall serve without compensation.~~
~~HISTORY: 1962 Code Section 28-1096; 1957 (50) 177; 1993 Act No. 181, Section 1267.~~

~~SECTION 50-19-230. Powers and duties of Board.~~
~~The Board shall have the following powers and duties:~~
~~(1) To govern and manage the Prestwood Lake Wildlife Refuge and to do all things incidental thereto;~~
~~(2) To accept and receive donations, gifts or grants on behalf of the refuge and to use such funds as the Board deems best for the propagation and protection of wildlife in the area;~~
~~(3) To take charge of the refuge and to make recommendations relative to the propagation and protection of wildlife therein, particularly including the posting of signs within this area;~~
~~(4) To report and prosecute all persons trespassing in the area or breaking the game laws relative thereto; and~~
~~(5) To plant and distribute food for wildlife in the area and to encourage and assist other individuals to do likewise in or on property adjacent thereto.~~
~~HISTORY: 1962 Code Section 28-1097; 1957 (50) 177; 1993 Act No. 181, Section 1267.~~

~~SECTION 50-19-240. Rules and regulations of Board as to means of taking nongame fish.~~
~~In addition to the powers and duties set forth in Section 50-19-230, the Board may adopt and promulgate such rules and regulations relating to the use of baskets, nets, trotlines and other means of taking nongame fish as it may deem advisable. No such rule or regulation shall take effect until approved by the department, and notice of such rule or regulation has been published at least once in a newspaper of general circulation in Darlington County. When any such rule or regulation becomes effective it shall have the force and effect of law. Any person convicted of a violation of a rule or regulation adopted pursuant to this section shall be guilty of a misdemeanor and shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than thirty days.~~

Law Recommendation # 79: S.C. Code Ann. 51-13-2010

Recommendation and rationale for recommendation: Repeal. The Enoree River Greenway Commission does not currently exist. There are other statutes in Article 23, but this is the only one that mentions SCDNR.

~~SECTION 51-13-2010. Board of directors; indemnification; appointments; compensation.~~
~~(A) The management of the commission is vested in the Board of Directors (board). The directors shall be indemnified by the commission in all civil actions for actions taken within the scope of their authority toward achieving the purposes of this article.~~
~~The fifteen members shall serve three-year terms and must be appointed in the following~~

~~manner:~~
~~(1) one director appointed by each of the respective county councils in Laurens, Newberry, Union, and Spartanburg;~~
~~(2) one director appointed by the U.S. Forest Service;~~
~~(3) one director appointed by the S.C. Department of Parks, Recreation and Tourism;~~
~~(4) one director appointed by the South Carolina Department of Natural Resources; and~~
~~(5) two directors appointed by each of the respective Laurens, Newberry, Union, and Spartanburg county legislative delegations.~~
~~The board may appoint individuals as nonvoting ex officio members by a majority vote.~~
~~(B) Vacancies shall be filled in the same manner as original appointment for the remaining portion of the unexpired term. Upon expiration of a term, a director may continue to serve until a successor is appointed and qualified~~
~~(C) Directors shall not be compensated for service, but may receive, at the discretion of the board, reasonable reimbursement for services rendered in performance of the commission's purposes.~~
~~HISTORY: 1998 Act No. 273, Section 1, eff April 7, 1998.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: U. S. Forest Service, SC PRT

Law Recommendation # 80: S.C. Code Ann. 51-17-40 and 70

Recommendation and rationale for recommendation: Amend. Former department name is listed in the title provisions.

SECTION 51-17-40. Powers and duties of Department of Natural Resources~~Wildlife and Marine Resources Commission.~~

SECTION 51-17-70. Powers and duties of ~~Wildlife and Marine Resources Department~~.Department of Natural Resources

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 81: S.C. Code Ann. 51-17-140

Recommendation and rationale for recommendation: Amend. The department is requesting that the maximum acreage be eliminated from the statute. There are already local approvals required for Heritage Trust property, as well as state-level approvals.

SECTION 51-17-140. Maximum acreage to be acquired; prior approval by county delegation. ~~Not more than one hundred fifty thousand acres total of real property shall be acquired in fee under the provisions of this chapter.~~ No acquisition may be made under this chapter in any county without written approval of a majority of the county delegation in the county where Heritage Trust properties are to be acquired.

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 82: S.C. Code Ann. 51-17-150

Recommendation and rationale for recommendation: Amend. Department requests that the planned five year acquisition notification be eliminated as generally these are not known, and sometimes, due to contract negotiations, would like to keep those from being public knowledge.

SECTION 51-17-150. Annual report detailing acquisitions in previous year and planned acquisitions for next five years.
The South Carolina Department of Natural Resources, as trustee for the Heritage Land Trust Fund, shall report annually to the Committee on Ways and Means of the House of Representatives and the Senate Finance Committee detailing acquisitions in the previous year by the Heritage Land Trust Fund ~~and planned acquisitions for the next five years.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 83: S. C. Code Ann. 51-17-310 through 51-17-360

Recommendation and rationale for recommendation: Repeal. The Heritage Trust Revenue Bond has been retired, and the statute has expired.

~~SECTION 51-17-310. Definitions~~
~~As used in this article:~~
~~(1) "Board" means the governing board of the Department of Natural Resources which serves as the trustees of the South Carolina Heritage Trust.~~
~~(2) "Bond" or "bonds" means a note, bond, installment contract, or other evidence of indebtedness issued pursuant to this article.~~
~~(3) "Bond Reserve Fund" means the special fund that may be established by the board pursuant to this article, which must be in the custody of the State Treasurer or a corporate trust department of a financial institution selected by the State Treasurer and which is established primarily for the purpose of providing a reserve with which to meet the payment of the principal of and interest on bonds if payments otherwise required from the debt service fund are insufficient to meet the payment of the principal and interest as and when they are due and payable.~~
~~(4) "Department" means the South Carolina Department of Natural Resources.~~
~~(5) "Heritage Land Trust Fund" means the fund established and administered pursuant to Section 51-17-115 of the 1976 Code.~~
~~(6) "Heritage Land Trust portion of the state deed recording fee" means that portion of the state deed recording fee credited to the Heritage Land Trust Fund pursuant to Section 12-24-90(B)(1) of the 1976 Code.~~
~~(7) "Heritage Preserve" has the meaning provided in Section 51-17-10(7) of the 1976 Code.~~
~~(8) "The Heritage Trust Program" has the meaning provided in Section 51-17-10(12) of the 1976 Code.~~
~~(9) "State" or "this State" means the State of South Carolina.~~

(10) "State deed recording fee" means that portion of the deed recording fee imposed by Chapter 24 of Title 12 of the 1976 Code designated as the "state fee" in Section 12-24-90 of the 1976 Code.
(11) "State Treasurer" means the State Treasurer of South Carolina.
(12) "Trustees" means the trustee of the South Carolina Heritage Trust which is the board of the Department of Natural Resources.
HISTORY: 2006 Act No. 251, Section 2.B, eff March 28, 2006.

SECTION 51-17-320. Power to issue bonds; purpose.
(A) The board may issue bonds in the name of the trustees for the purposes and in the manner provided in this section. The title of the bonds shall be designated by the board acting as the trustees.
(B) All bonds must be secured by and payable from only the Heritage Land Trust portion of the state deed recording fee, or that portion as the board determines to pledge for payment.
(C) The trustees or a person executing the bonds or notes are not liable personally on the bonds or notes and are not subject to personal liability or accountability by reason of the issuance of the bonds.
(D) The board acting as the trustees may not pledge the faith, credit, or taxing power of this State or its political subdivisions in connection with the issuance of the bonds, and each bond must recite on its face that it is a special source bond of the trustees issued pursuant to and in accordance with this article and Article X, Section 13(9) of the Constitution of this State, that it is secured by and payable from only the Heritage Land Trust portion of the state deed recording fee, that it is neither a general, legal, nor moral obligation of the State or its political subdivisions, and that it is not backed by the full faith, credit, or taxing power of this State or any of its political subdivisions. Failure to include this language on the face of a bond does not cause the bond to become a general, legal, or moral obligation of the State or its political subdivisions or a pledge of the full faith, credit, or taxing power of this State or its political subdivisions.
(E) A pledge of the Heritage Land Trust portion of the state deed recording fee made by the board acting as the trustees is valid and binding from the time the pledge is made. The trust portion of the state deed recording fee received by the Heritage Land Trust Fund is immediately subject to the lien of the pledge without physical delivery of the receipt or further act. The lien of the pledge is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the trustees, whether or not the parties have notice of them. The resolution of the board or other instrument by which a pledge is created must not be recorded or filed to perfect the pledge. In the resolution of the board authorizing the issuance of a bond pursuant to this article, the board shall provide for the priority of payment of the bond from all monies received by the Heritage Land Trust Fund as its portion of the state deed recording fee.
(F) The trustees may not issue a bond with a scheduled maturity later than thirty years after the date of issuance.
(G) When issuing bonds for the purpose described in this article, the trustees may sell bonds either in a negotiated transaction with one or more lead underwriters selected by the board acting as the trustees on the basis of criteria established by the board acting as the trustees, or through a competitive bidding process in accordance with procedures established by the board. The determination of whether to sell bonds through negotiation or through competitive bidding must be made by the board.
(H) The trustees may not issue a bond unless the board has first adopted its resolution authorizing the issuance, finding that the issuance and the proposed use of the bond proceeds is in accordance with this chapter, and setting out the terms and conditions of the bond and the covenants of the trustees with respect to the bond. These terms must include

the issuance date or dates, the maturity date or dates, the principal amount, the interest rate or the means of determining it, whether fixed or variable, the time, manner, and currency for paying interest and principal, the negotiability of the bond, and restrictions relating to the registration of the bond. The covenants may include, without limitation, the establishment and maintenance of dedicated reserve funds for the payment of debt service on a bond if the Heritage Land Trust portion of the state deed recording fee is inadequate in any year, restrictions on the later issuance of additional bonds or making the later issuance subject to certain conditions relating to available debt service coverage or otherwise, or other matter that the board considers appropriate, subject to subsection (I) of this section. A bond of the trustees must be approved also by the State Fiscal Accountability Authority, after review by the Joint Bond Review Committee pursuant to Section 2-47-30 of the 1976 Code, before it is delivered.

(I) The board may not authorize or cause the trustees to enter into a covenant that purports to create a general, legal, or moral obligation of this State or its political subdivisions or to pledge the full faith, credit, or taxing power of the State or its political subdivisions. A covenant in violation of this subsection is void and of no effect.

(J) Subject to the requirements of this section, the board acting as the trustees may authorize the issuance of bonds of the trustees for the purpose of:

(1) refunding, on a current or advance-refunding basis, outstanding bonds of the trustees; or

(2) obtaining funds for delivery to the Heritage Land Trust Fund. Proceeds of bonds issued for this purpose must be delivered promptly to the Heritage Land Trust Fund and used only for the purposes provided in Section 51-17-115 of the 1976 Code, except as needed to defray the costs of issuance of the bonds or to establish a reserve fund for the bonds.

(K) The bonds and the issuance of the bonds pursuant to this article are subject to the provisions of Sections 11-15-20 and 11-15-30 of the 1976 Code and any successor provisions.

HISTORY: 2006 Act No. 251, Section 2.B, eff March 28, 2006.

Code Commissioner's Note

At the direction of the Code Commissioner, references in this section to the offices of the former State Budget and Control Board, Office of the Governor, or other agencies, were changed to reflect the transfer of them to the Department of Administration or other entities, pursuant to the directive of the South Carolina Restructuring Act, 2014 Act No. 121, Section 5(D)(1), effective July 1, 2015.

SECTION 51-17-330. Income from bonds exempt from state taxes; investment by fiduciaries.

(A) A bond provided for in this article and the income from a bond is exempt from all taxation in the State except for inheritance, estate, or transfer taxes, regardless of the federal income tax treatment of the interest from the bond.

(B) The exercise of the powers granted by this chapter is in all respects for the benefit of the citizens of the State and for the promotion of their welfare, convenience, and prosperity. Property, whether real or personal, tangible or intangible, of the department or the trustees and the income and operations of the department and the Heritage Trust Program are exempt from taxation or assessment by the State or its political subdivisions.

(C) It is lawful for executors, administrators, guardians, committees, and other fiduciaries to invest monies in their hands in a bond provided for in this article. This section does not relieve a person from the duty of exercising reasonable care in selecting investments.

HISTORY: 2006 Act No. 251, Section 2.B, eff March 28, 2006.

SECTION 51-17-340. State pledge relating to alteration of rights of trustees and holders of bonds.

The State pledges and agrees with the trustees, and the holders of the bonds in which the trustees have included the pledge and agreement, that the State may not limit or alter the

~~rights of the trustees to fulfill the terms of its agreements with the holders, and may not impair the rights and remedies of the holders or the security for the bonds until the bonds, together with the interest on them and all costs and expenses in connection with any action or proceeding by or on behalf of the holders, are fully paid and discharged. While bonds issued pursuant to the authorizations contained in this article are outstanding, the State shall impose and maintain the state deed recording fee and the Heritage Land Trust portion of the state deed recording fee at a rate sufficient to produce all revenues to discharge all covenants, agreements, and obligations of the department and the trustees with respect to the bonds.~~
~~HISTORY: 2006 Act No. 251, Section 2.B, eff March 28, 2006.~~

~~SECTION 51-17-350. Annual reports.~~
~~In each year that bonds issued pursuant to this article are outstanding, the trustees, not later than December 1 of such year, shall submit a written report to the State Fiscal Accountability Authority as to whether, based on revenues of the Heritage Land Trust portion of the state deed recording fee received by the Heritage Land Trust Fund as of July 1 of that year, the revenues are projected to be sufficient to discharge all covenants, agreements, and obligations of the department and the trustees with respect to all outstanding bonds in the calendar year immediately following.~~
~~HISTORY: 2006 Act No. 251, Section 2.B, eff March 28, 2006.~~
~~Code Commissioner's Note~~
~~At the direction of the Code Commissioner, references in this section to the offices of the former State Budget and Control Board, Office of the Governor, or other agencies, were changed to reflect the transfer of them to the Department of Administration or other entities, pursuant to the directive of the South Carolina Restructuring Act, 2014 Act No. 121, Section 5(D)(1), effective July 1, 2015.~~

~~SECTION 51-17-360. Expiration of authority to issue Heritage Trust Revenue Bonds.~~
~~The authority to issue Heritage Trust Revenue Bonds under this article shall expire two years after the effective date of this article; provided, however, this two-year limitation does not apply to bonds issued to retire bond anticipation notes, bonds issued to refund any bonds issued hereunder, and any bonds issued before this two-year limitation takes effect shall continue in full force and effect as provided in this article.~~
~~HISTORY: 2006 Act No. 251, Section 2.B, eff March 28, 2006.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: Department of Administration, Governor's Office, State Fiscal Accountability Authority, State Treasurer

Law Recommendation # 84: Regulations 123-2 through 123-9

Recommendation and rationale for recommendation: Repeal. These are no longer used by the agency and have been codified in statute.

~~123-2 Accident Reports.~~
~~The operator of every vessel involved in a boating accident shall file a report in writing whenever the accident results in loss of life, loss of consciousness, medical treatment or disability in excess of 24 hours, or property damage in excess of two hundred (200.00) dollars.~~

Reports in death and injury cases shall be submitted within forty-eight (48) hours; reports in other cases are required within five (5) days.
In the case of a reportable accident the operator of any vessel involved shall file the report with the S.C. Wildlife and Marine Resources Department, Division of Boating.
Those having to file accident reports may obtain forms from Division of Boating, S.C.W.M.R.D.

123-3 Lights.
Every vessel at anchor, whether occupied or not, shall display anchor lights between official sunset and sunrise. Except, that anchor lights do not have to be displayed on a vessel anchored in a "special anchorage area" designated as such by the U. S. Army Corps of Engineers, the U. S. Coast Guard or the S. C. Wildlife and Marine Resources Department.

123-4 Rule and Regulation Adopting Certain Federal Rules and Regulations.
All aids to navigation and regulatory markers erected by the Corps of Engineers on the Atlantic Intra-coastal Waterway pursuant to Federal Law are hereby declared to be S.C.W.M.R.D. aids to navigation and regulatory markers pursuant to Section 50-21-710 of the 1976 Code, and are hereby declared to be the law of this State.

123-5 Renewal of Certificates of Numbers.
Certificates of Number are void after the dates of expiration thereon.
A number not renewed as prescribed by Section 50-21-370 of the 1976 Code, may be renewed after the expiration date of the Certificate of Number if the renewal application is received within one year from the date of expiration as shown on the Certificate of Number.
Each renewal Certificate of Number shall be valid for a period ending three years from the date of expiration of the certificate renewed.
A renewal application received more than a year after the date of expiration of the Certificate of Number shall be treated in the same manner as an application for an original number.

123-6 How Vessel to be Numbered.
1. No person may use a vessel unless it has a number issued on a certificate of number and the number displayed must:
(1) Be painted on or permanently attached to each side of the forward half of the vessel except as allowed by paragraph 2 or required by paragraph 3 of this rule;
(2) Be in plain vertical block characters of not less than 3 inches in height;
(3) Contrast with the color of the background and be distinctly visible and legible;
(4) Have spaces or hyphens that are equal to the width of a letter other than "I" or a number other than "1" between the letter and number groupings (Example: DC 5678 EF or DC-5678-EF, and
(5) Read from left to right.
2. When a vessel is used by a manufacturer or by a dealer for testing or demonstrating, the number may be painted on or attached to removable plates that are temporarily but firmly attached to each side of the forward half of the vessel.
3. On vessels so configured that a number on the hull or superstructure would not be easily visible, the number shall be painted on or attached to a backing plate that is attached to the forward half of the vessel so that the number is visible from each side of the vessel.

123-7 Vessel Registration.
1. In order to operate on waters of this state a vessel shall be registered and numbered in the owner's name within thirty (30) days from the date it was purchased.

~~2. In order to operate a vessel on the waters of this State during such thirty (30) day period the operator shall have in his possession the Bill of Sale or the Certificate of Title for the vessel.~~

~~123-9 Display of Decals Bearing Title Number.~~
~~1. A decal issued by the S.C.W.M.R.D., Division of Administrative Services, when the outboard motor is titled pursuant to Title 50, Chapter 23, of the 1976 Code, bearing the title number of the outboard motor, shall be affixed to the starboard side of the outboard motor cover.~~
~~2. A decal issued by the South Carolina Wildlife and Marine Resources Department, Division of Administrative Services, when the watercraft is titled pursuant to Title 50, Chapter 23, of the 1976 Code, bearing the title number of the unregistered watercraft, shall be affixed to the right starboard outboard side of the transom within six inches of the top of the transom right above the waterline, or if there is no transom then affixed to the starboard outboard side of hull, aft, within one foot of the stern and within six inches of the top of the hull side, gunwale or hull/deck joint, whichever is lowest. On catamarans and pontoon boats with replaceable hulls, to the aft crossbeam, within eighteen (18) inches of the starboard hull attachment. Decal should not cover the hull identification number.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

Law Recommendation # 85: Regulations 123-20 through 123-34 and 123-35

Recommendation and rationale for recommendation: Repeal. Marine Regulations have been replaced by Code and are no longer valid. These Regulations refer to Chapter 17 which no longer exists in Title 50 SC Code of Laws.

~~123-20 Fishing With a Channel Net.~~
~~(Statutory Authority: 1976 Code Section Section 50-5-110, 50-17-1020, 50-17-1590)~~
~~The following requirements shall apply to all fixed or stationary nets having a mesh size of less than two and one-half inches stretch mesh used in coastal waters and shall include, but not be limited to, shrimp channel or set nets (defined as conical bag-shaped nets similar in design to a trawl net, which is attached to poles, stakes, buoys or other fixed objects and which is not pulled by a boat), butterfly nets, frame nets, bag nets, trawl nets and any other conical or bag-shaped nets which are attached to poles, stakes, buoys anchored vessels or other fixed objects; provided, however, that shrimp or crab drop nets, and elver fyke nets, shall not be subject to these regulations:~~
~~1. Any person using a channel net as defined by S. C. Wildlife and Marine Resources Department Regulation 123-20 or other fixed or stationary net described above in any of the saltwaters of this State shall first obtain and have in possession a valid permit issued by the Marine Resources Division;~~
~~2. Each net used under the provisions of this rule and regulation must have a valid license as required under Section 50-17-130;~~
~~3. The width and mesh size of any channel net or other stationary net included under this rule and regulation must conform to the provisions of this Section 50-17-420, S. C. Code of Laws;~~
~~4. No channel or set net may be operated from a shrimp trawler or any other boat under a duly issued channel net permit;~~

5. No channel net or other stationary net used under authority of this rule and regulation may be set within two hundred (200) feet of a net previously set as provided in Section 50-17-450, S. C. Code of Laws.
6. Any channel net or other stationary net included under this rule and regulation left unattended must be marked with a sign or buoy having the name, address and permit number of the owner thereon;
7. Any channel net set at night must be marked by a white light clearly visible from a distance of one quarter of a mile.
8. Any person who obtains a permit under the provisions of this rule and regulation is required to keep a daily catch record on forms prescribed and provided by the Division.
9. The issuance of channel net or other stationary net permits hereunder is subject to the regulations of the S. C. Department of Highways and Public Transportation, U. S. Coast Guard and U. S. Army Corps of Engineers.
10. Channel nets or other stationary nets may be used only in those areas and at those times prescribed by the Marine Resources Division and the operation of such nets in any area or at any time not so authorized is illegal.
11. The penalty for violation of the provisions of this rule and regulation or the statutes upon which it was promulgated shall be as prescribed in Section 50-17-450, S. C. Code of Laws as Amended, and in addition the permit issued said violation may be suspended or revoked by the Marine Resources Division.
12. Except as specifically modified or changed hereby, all prevailing laws, rules and regulations concerning fishing and boating in South Carolina shall remain in full force and effect.

123-21 Operation of Crab Pots.
1. Every crab pot, trap, float or buoy shall be marked with the license number issued by the Division.
2. No crab pot or trap shall be placed in any stream, creek or river within one hundred (100) yards of a public boat ramp or launching area.
3. No crab pot or trap shall be so set so as to be left dry at low water.
4. No glass bottles, jugs or metal cans shall be used as floats or buoys for crab traps or pots.
5. No crab pot or trap shall be abandoned, or left unattended, in coastal waters for more than five (5) days. The finding of any crab pot or trap with dead or decomposing crabs, or the finding of excessive marine growth on the trap, line or buoy shall be sufficient grounds for confiscation.
6. Any crab trap or pot found in violation of these regulations shall be confiscated.
7. The penalty for the violation of this Rule and Regulation shall be as prescribed by Section 50-17-130 of the 1976 Code.

123-23 Tags on Submerged Traps.
All submerged traps licensed under Section 50-17-360(3) shall have affixed to the trap a tag showing the number of the license issued for such trap. An untagged trap is subject to confiscation.

123-24 Master of a Vessel Licensed by the Division of Commercial Fisheries.
Section 50-17-410 of the 1976 Code provides that at the time of securing boat licenses the owner of the boat shall file with the Division of Marine Resources a sworn statement giving the name and address of the master or captain of the boat.
No person under the age of sixteen (16) years shall be named in such statement as the master or captain of the boat.

123-25 Numbering of All Vessels Used for Harvesting Shellfish Commercially in South Carolina.

1. "Vessel" shall mean every description of watercraft, other than a seaplane on the water, used or capable of being used as a means of transportation on water.

2. Each vessel used to take shellfish for market shall display a number issued by the S.C. Wildlife and Marine Resources Department, Division of Marine Resources. The number shall be issued to all commercial operators holding shellfish leases or permits for harvesting shellfish in this State and the number shall be valid only for harvesting shellfish on the lease or area for which it is issued.

3. The penalty for violation of this Rule and Regulation shall be as prescribed by Section 50-17-100 of the 1976 Code.

123-26 Point of Juncture of Bull Creek and Waccamaw River Established.

The point of junction of Bull Creek and Waccamaw River is the 40-mile limit referred to in subsection (1) of Section 50-17-240, Code of Laws of South Carolina, 1976, relating to the open and closed seasons on shad.

123-28 License for Selling Shad.

Section 50-17-390, Code of Laws of South Carolina, 1976, shall not apply to persons, firms, or corporations selling shad strictly at retail.

123-29 One-Quarter Mile Off-Shore Line.

If the place from which the one-quarter mile off-shore line is not designated by law it shall be measured from the mean low tide mark.

HISTORY: Amended by State Register Volume 17, Issue No. 5, Part 3, eff May 28, 1993.

123-30 Penalties.

Where penalties are not provided under the Commercial Fisheries Laws, in the event of a violation, any provisions of such laws for punishment or penalty shall be as provided for in Section 50-17-130, Code of Laws of South Carolina, 1976.

123-31 Dumping of Trash Fish.

The dumping of trash fish or waste fisheries products from commercial trawlers within one-quarter mile of any South Carolina resort beach is prohibited.

123-32 Affixing Tax Tags to Shad.

All shad on which a tax is required by Section 50-17-310, Code of Laws of South Carolina, (1976), and offered for sale or shipped from any point within or without the State and all shad imported into the State shall have affixed thereto a Division of Marine Resources' tag evidencing the fact that the required tax has been paid.

123-33 Taking American Eels and Catfish in Certain Waters.

1. This rule and regulation regulates the taking of American eels (onguilla rostrata) in the following waters of this State: In the Cooper River and its tributaries from the Seaboard Coastline Railroad Bridge located three thousand three hundred (3,300') feet downstream from the lock and deck of the Jeffries Hydro Plant seaward to the point of the confluence of the Cooper River and the Wando River at a line running from the tip of Daniel Island westerly to the Old Coal Tipple Site.

2. There shall be no limit on the number of eels taken.

3. All persons actively engaged in the taking of eels in such waters shall be required to have a valid statewide fishing license as provided under Section 50-9-450 or 50-9-460. In addition all

such persons shall be required to have a valid land and sell license as provided under Section 50-17-180, and any vessel used shall be required to be licensed under Section 50-17-210.
4. Eels may be taken legally from those waters subject to its rule and regulation only with the following equipment and gear:
a. Pots and baskets not to exceed two (2') feet in diameter and four (4') feet in length with bar mesh of not less than one-half (1/2 ") inch square and throat opening not to exceed two (2") inches in any direction. Each such pot or basket shall be tagged and marked in accordance with Section 50-5-110, Section 50-19-2910, and Section 50-19-2920, with the cost of each tag being one ($1.00) dollar.
That records shall be maintained in accordance with the provisions of Section 50-5-80(3).
Provided, that pots and baskets may be set or used only from Stoney Landing seaward in the Cooper River and its tributaries; and that the use of any pot or basket at any time in the Cooper River from the Seaboard Coastline Railroad Bridge located three thousand three hundred (3,300') feet downstream from the lock and deck of the Jeffries Hydro Plant to Stoney Landing shall be a violation of this Rule and Regulation. Pots and baskets shall be allowed to be set or used twenty-four (24) hours a day and seven (7) days a week in all of the authorized areas of such use.
b. Fyke nets with wings not exceeding ten (10') feet in length and fourteen (14') feet in depth; with the distance from throat to cod end not to exceed twenty (20') feet. Maximum bar mesh for any portion of the nets shall not exceed one-eighth (1/8 ") inch square; and all fyke nets must be set with the cod end upstream from the wings. Fyke nets shall be set only between sunset and sunrise, and all such nets shall be removed from such waters between sunrise and sunset. A license as required under the provisions of Section 50-17-360 shall be required for each fyke net used for the taking of eels from such waters.
c. Hand-operated dip nets not to exceed two (2') feet in diameter.
5. Those types of equipment and gear authorized for use in taking eels from such waters shall be used only where fishing is legal; and any eel basket or pot, fyke net or dip net which is used in any manner in violation of this rule and regulation and any device or equipment which is used in such waters for the taking of eels which is not authorized herein, shall be confiscated by the South Carolina Wildlife and Marine Resources Department; and the Department shall dispose of such equipment and any catch found therein in the manner it deems appropriate.
6. Any game fish taken by use of eel pots and baskets, fyke nets or dip nets in such waters shall be returned immediately to the waters from whence they came.
7. All of the provisions of this rule and regulation shall be applicable in full to the taking of catfish from such waters.
8. The penalty for the violation of this Rule and Regulation shall be that prescribed by Section 50-17-100 or Section 50-19-2960, whichever the Court shall deem most applicable to the offense involved.
HISTORY: Amended by State Register Volume 17, Issue No. 5, Part 3, eff May 28, 1993.

123-35 Turtle Excluder Devices Required in Channel Nets.
A. The following regulations apply to fishing gears known as channel (set) nets as defined in Sections 50-17-130, 50-17-421, and 50-17-450, and regulation 123-20, SC Code of Laws:
(1) Functional "soft" or "hard" Turtle Excluder Devices (TEDs) must be correctly installed in all channel (set) nets used in the state waters of South Carolina, except in areas specifically exempted by these regulations.
(2) "Soft" TEDs must conform to the following specifications:
(a) Webbing must be polypropylene or polyethylene
(b) Stretched mesh size may not exceed 6 inches
(c) Horizontal, taut length of the panel may not exceed 120 inches (10 feet)

~~(d) Panel width at the leading edge may not exceed 229 inches (19 feet)~~
~~(e) The escape opening may not be less than 72 inches (6 feet)~~
~~(f) The TED panel must form a complete barrier inside the net forward of the codend~~
~~(g) The TED must slope upwards with the escape opening being on the top of the net just forward of the panel's attachment to the top of the net~~
~~(h) An optional, rectangular flap may be installed over the escape opening, provided it is attached only on its forward edge, does not extend more than 4 inches aft of the escape opening, is no wider than 36 inches (3 feet), and the mesh size is no larger than 2 inches stretch.~~
~~(3) "Hard" TEDs must conform to the following specifications:~~
~~(a) The TED must be a single, rigid, oval deflector grid which is made of steel rod or pipe not less than 1/3 inch diameter, aluminum rod or pipe not less than 1/2 inch diameter, or fiberglass rod of comparable strength~~
~~(b) The TED must be installed such that it is at a 30 degree to 45 degree angle from the horizontal when in use~~
~~(c) The minimum inside diameter may not be less than 30 inches~~
~~(d) The minimum (slit) escape opening is 35 inches~~
~~(e) The maximum spacing between the bars is 4 inches; there is no minimum spacing~~
~~(f) All "hard" TEDs must be top exiting only~~
~~(g) An optional, rectangular flap may be installed over the escape opening, provided it is attached only on its forward edge, does not extend more than 4 inches aft of the escape opening, is no wider than 36 inches (3 feet), and the mesh size is no larger than 2 inches stretch.~~
~~(4) Channel (set) nets will not require Turtle Excluder Devices if they are fished east of a line in Winyah Bay from the front range on Big Marsh Island, running southeast to Day Marker No. 18, thence running south southeast to red Nun Buoy No.16. All channel nets west of this line must use approved Turtle Excluder Devices. Channel nets in North Santee Bay will not be required to have Turtle Excluder Devices. However, the Department may require TEDs in additional or all open areas if a significant threat to sea turtles is determined.~~
~~(5) Any sea turtle accidentally taken must be immediately released unless it is apparent that resuscitation is required. If resuscitation is required, the fisherman must retain the turtle until such time that the turtle has sufficiently recovered and is capable of swimming. At that time, the turtle must be released.~~

Law Recommendation # 86: Regulation 123-601

Recommendation and rationale for recommendation: Repeal. This is an antiquated regulation that is no longer used.

~~123-601 Use of Warning Tickets.~~
~~The use of warning tickets is limited to misdemeanor cases under Title 50 in which the Conservation Officer in his judgment determines that the enforcement of the law, the education of the public, and the protection of the resources of this state will best be served by the issuance of a warning ticket in lieu of a summons ticket.~~

~~The form prescribed for such warning ticket shall be substantially as below and the ticket shall be issued in triplicate with one copy to the violator, one copy retained by the officer and one copy forwarded to the Chief of Law Enforcement or his designee.~~
~~The form of the South Carolina Wildlife and Marine Resources Department Warning Ticket shall have the following information:~~
~~1. Name of Department- S.C. Wildlife & Marine Res. Dept.~~
~~2. Name of Form- Violation Warning Notice~~
~~3. Name of violator~~
~~4. Social Security number of violator~~
~~5. Address of violator~~
~~6. Date of birth of violator~~
~~7. Date of warning~~
~~8. Violation~~
~~9. Code section~~
~~10. Location~~
~~11. The following statement: "This warning carries with it a request to learn and abide by all Fish, Game and Boating Laws so that our natural resources can be safely enjoyed by present and future generations."~~
~~12. Signed by Conservation Officer~~
~~13. Radio call number of Conservation Officer~~
~~14. County of violation~~
~~15. A listing as follows with a box to mark type of violation:~~
~~i.e. Game and Fish, Boating, Commercial Fishing~~

Law Recommendation # 87: Regulations 123.10 through 123.19.31

Recommendation and rationale for recommendation: Amend and Repeal. The statute and regulations allow for the uniform marking of wake zones as determined for safety reasons by the Director, or his designee. Also, the department needs to update the title of the department related to Lake Hartwell and needs authority to enforce Army Corp of Engineer aids to navigation on Lake Thurmond. These remaining regulations that are no longer used by the department.

123-10 Restriction of Watercraft in Certain Areas.
The use of watercraft shall be restricted in certain areas of the waters of the State of S.C. when the Director, or his designee, determines that such restriction is necessary in the interest of public safety.
The regulated areas shall be identified by appropriate signs and markers.
Such signs and markers shall conform to the system of aids to navigation prescribed by the U.S. Coast Guard and to the systems of uniform waterway markers approved by the advisory panel of State officials to the Merchant Marine Council, U.S. Coast Guard, in October 1961.
No city, county, agency or person shall attempt to regulate the waters of this State by the use of the above mentioned signs and markers.

~~123-11 Garden City Canal (Murrel's Inlet Area) - Restriction of Watercraft.~~

~~The use of watercraft will be restricted in the waters in the Garden City Canal, in the Murrels Inlet Area, of Georgetown County and Horry County, S.C. The Garden City Canal begins at a point on Main Creek (near the Mouth of Murrells Inlet), runs parallel to the Atlantic Ocean to a point on the highway and causeway from the mainland to Garden City (S.C. Highway Number 26-51), and runs parallel to such highway and causeway to a point on Main Creek near the bridge of S.C. Highway Number 26-51.~~

~~No person shall water ski or ride on a surfboard or similar object in the Garden City Canal except during the time of each day from one and one-half (1-1/2) hours before and after the mean high tide of the Garden City Canal. There shall not be any water skiing on any such object outside of the wake of the boat pulling the water skier.~~

~~The regulated areas of Garden City Canal shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the U.S. Coast Guard and to the system of uniform waterway markers approved by the advisory panel of State officials to the Merchant Marine Council, U.S. Coast Guard, in October 1961.~~

~~123-12 Orange Canal, French Quarter Creek - Restriction of Watercraft.~~

~~The use of watercraft will be restricted in the waters in Orange Canal, a tributary of French Quarter Creek, Berkeley County, S.C. The restricted or controlled area shall begin at the mouth of Orange Canal (where Orange Canal empties into French Quarter Creek) and shall extend to where Orange Canal flows under the bridge at S.C. Highway No. S.898.~~

~~No person shall operate any vessel in the restricted or controlled area of Orange Canal at any speed that will produce a wake.~~

~~The regulated area of Orange Canal shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the U.S. Coast Guard and to the system of uniform waterway markers approved by the advisory panel of State officials to the Merchant Marine Council, U.S. Coast Guard.~~

~~123-13 Saluda Lake (Jerry's Cove) - Restriction of Watercraft.~~

~~The use of watercraft will be restricted in a certain portion of the waters of Saluda Lake, in the Saluda River, Greenville County. The restricted or controlled area shall be the cove known as Jerry's Landing Cove, or Saluda Lake Motor Boat Club Cove, and shall include the entire Cove from Jerry's Landing to six thousand (6,000') feet from Jerry's Landing.~~

~~No person shall operate any vessel in the restricted or controlled area of Jerry's Landing Cove, or Saluda Lake Motor Boat Club Cove, at any speed that will produce a wake.~~

~~The regulated area of Jerry's Landing Cove, or Saluda Lake Motor Boat Club Cove, shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the U.S. Coast Guard and to the system of uniform waterway markers approved by the advisory panel of State officials to the Merchant Marine Council, U.S. Coast Guard.~~

~~123-14 Lake Marion (Cantey Bay) - Restriction of Watercraft.~~

~~The use of watercraft will be restricted in the waters in a 318 acre area on the west side of Cantey Bay, Lake Marion, Clarendon County, S.C., from 1 November through 15 March of each year. The restricted or controlled area lies north of U.S. Highway Numbers 15 and 301, on the west side of Cantey Bay, and adjacent to the Bluff Unit of the Santee National Wildlife Refuge. For a more detailed description as to the courses, metes and bounds of the area herein restricted, reference may be had to the plat prepared by the U.S. Department of the Interior, Fish and Wildlife Service, entitled "Santee National Wildlife Refuge", showing an enclosed area of 318 acres within "Cantey Bay", and with the Legend "Area closed to boat traffic from November 1 to March 15 each year".~~

~~No person shall operate any vessel in the restricted or controlled 318 acre area of Cantey Bay, Clarendon County, S.C., from 1 November through 15 March of each year.~~
~~The regulated area of Cantey Bay shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the U.S. Coast Guard and to the system of uniform waterway markers approved by the advisory panel of State officials to the Merchant Marine Council, U.S. Coast Guard. The regulated area lines will be posted with standard "Closed Area" signs during that period of the year when boat use is prohibited.~~

~~123-15 Ashepoo River.~~
~~The use of watercraft will be restricted in certain portions of the waters of the Ashepoo River, Colleton County, South Carolina. The restricted or controlled area shall begin at the Seaboard Coast Line Railroad trestle on the Ashepoo River and shall extend to the mouth of Horseshoe Creek.~~
~~No person shall operate any vessel in the restricted or controlled area of Ashepoo River at any speed that will produce a wake.~~
~~The regulated area of Ashepoo River shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the U.S. Coast Guard and to the system of uniform waterway markers approved by the advisory panel of State officials to the Merchant Marine Council U.S. Coast Guard.~~

123-16 Lake Hartwell or ~~or~~ Lake Thurmond.
All aids to navigation and regulatory markers erected by the Corps of Engineers on Lake Hartwell or Lake Thurmond pursuant to Federal Law are hereby declared to be SCDNR aids to navigation and regulatory markers pursuant to Section 50-21-710, 1976 S.C. Code of Laws, and are hereby declared to be the law of the State.

~~123-18 Lake Marion (Pine Island Unit) (Cantey Bay).~~
~~Watercraft is restricted in certain portions of Lake Marion in Clarendon County from November 1 to February 28 of each year, except property owners and leasees adjacent to Cantey Bay with special permission from the U.S. Fish and Wildlife Service. The controlled area shall include a section of the Pine Island Unit, and an area between 100-Acre Island and Round Island.~~
~~(For a complete text, see copy on file in the office of the Secretary of State.)~~

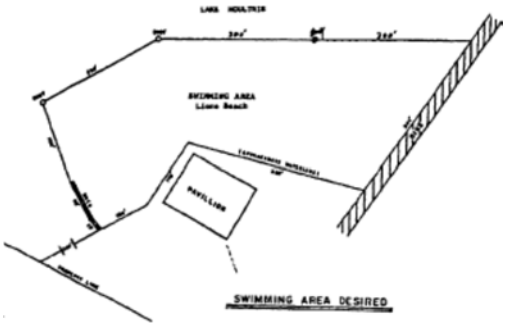

~~123-19 No Wake Zones.~~
~~No wake zones are created in certain portions of the waters of Lake Marion (Rowland's Subdivision Cove, Brown's Camp Cove, Birch Branch Cove, Polly Cantey Pond, Phillip's Cove, Poplen Creek), The Beaufort River, Big Bay Creek, Broad Creek, Lake Murray (Wells Marina, Adams Bridge, Little Hollow Creek Bridge, Big Hollow Creek Bridge, Big Hollow Creek Wooden Bridge, SCE & G Park Launching Ramp Number Seven, Johnson's Marina Cove), Lake Moultrie (Jack's Hole Cove), Wateree Lake (Beaver's Creek Bridge, Wateree Creek Bridge, Taylor's Creek Bridge, Dutchman's Creek Bridge, Colonel's Creek Bridge, Wateree Marina), Foster Creek, Lake Wylie (Moores Landing Marina), Lake Greenwood (Cothram's Bridge), Old Town Creek, Jeremy Creek.~~
~~(Those interested in the complete text of any of the regulations creating such no wake zones are referred to the copies on file in the office of the Secretary of State.)~~

~~123-19.1 Lake Moultrie (Lions Beach) - Restriction of Watercraft.~~

~~The use of watercraft will be restricted in a certain portion of the waters of Lake Moultrie, Berkeley County, South Carolina. The restricted or controlled area shall be all waters within the swimming area at Lions Beach indicated on the attached map.~~

~~No person shall operate any vessel in the restricted or controlled area.~~

~~The regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~

~~123-19.2 Restrictions on Use of Watercraft in Certain Portions of Waters of Lake Murray, Lexington County, South Carolina.~~

~~1. That the use of watercraft will be restricted in a certain portion of the waters of Lake Murray, Lexington County, South Carolina. The restricted or controlled area shall be a portion of the cove on the east side of Pine Island, indicated on the attached map.~~

~~2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~

~~3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~

~~4. That except as modified or changed hereby all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.~~

~~123-19.3 Restrictions on Use of Watercraft in Certain Portions of Waters of Shem Creek, Charleston County, South Carolina.~~

~~1. That the use of watercraft will be restricted in a certain portion of the waters of Shem Creek, Charleston County, South Carolina. The restricted or controlled area shall be in the area of Mt. Pleasant as indicated on the attached map.~~

~~2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~

~~3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~

~~4. That except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.~~

~~123-19.4 Restrictions on Use of Watercraft in Certain Portions of Waters of Lake Murray, Lexington County, South Carolina.~~

~~1. That the use of watercraft will be restricted in a certain portion of the waters of Lake Murray, Lexington County, South Carolina. The restricted or controlled area shall be the waters surrounding the Lakeside Marina facilities as shown on attached map.~~

~~2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~

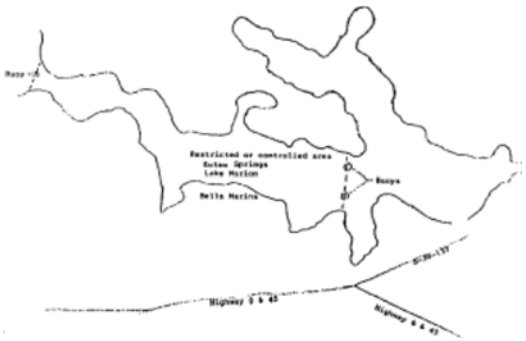

~~3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~

~~4. That except as modified or changed hereby all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.~~

~~123-19.6 Restrictions on Use of Watercraft in Certain Portions of the Waters of Lake Marion, Orangeburg County, South Carolina.~~

~~That a NO WAKE ZONE is created in the Eutaw Springs area of the waters of Lake Marion, Orangeburg County, South Carolina, more specifically described in the map attached hereto and made a part hereof.~~

~~That said NO WAKE ZONE shall be identified by the placement of appropriate signs and markers.~~

~~123-19.7 Restrictions on the Use of Watercraft in the Waters of a Certain Portion of Goose Creek, Berkeley County, South Carolina.~~

~~1. That the use of watercraft will be restricted in a certain portion of the waters of Goose Creek, Berkeley County, South Carolina. The restricted or controlled area shall be in the area of Dominion Hills Subdivision as indicated on the attached map.~~

~~2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~

~~3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~

~~4. That except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.~~

~~123-19.8 Restrictions on Use of Watercraft in a Certain Portion of the Water of Wappoo Creek, Charleston County, South Carolina.~~

~~1. That the use of watercraft will be restricted in a certain portion of the waters of Wappoo Creek, Charleston County, South Carolina. The restricted or controlled area shall be in the area of Parkwood Heights Extension as indicated on the attached map.~~

2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.
3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.
4. That except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.

123-19.9 Modification of a No Wake Zone in the Lake Murray Marina Area, Lake Murray, Richland County, South Carolina.
1. That the original No Wake Zone established on July 26, 1972, on Lake Murray Marina, Lake Murray, Richland County, South Carolina be modified so as to extend the placement of buoy "A" in a Northeasterly direction approximately 125 feet; and
2. That the annexed area encompassed by the above modified placement of buoy "A" is hereby declared to be included in the No Wake Zone at said area.

123-19.10 Restrictions on the Use of Watercraft in Certain Portions of the Waters of Black River, Williamsburg County, South Carolina.
1. That the use of watercraft will be restricted in a certain portion of the waters of Black River, Williamsburg County, South Carolina. The restricted or controlled area shall be in the area of Scout Cabin as indicated on the attached map.
2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.
3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.
4. That except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.

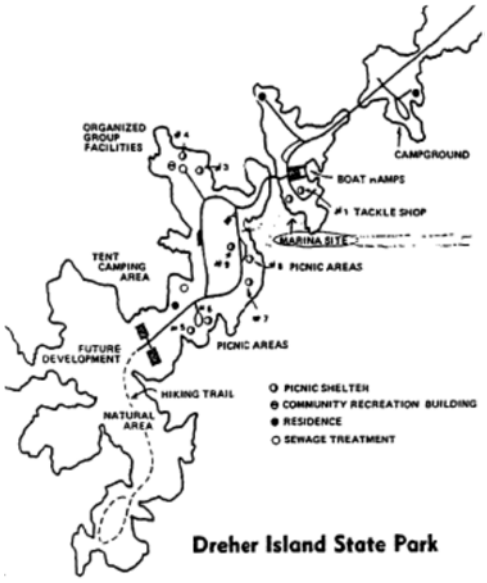

123-19.11 Restrictions as to Use of Watercraft Within Certain Areas of South Carolina Electric & Gas Company Public Park No. 1.
1. That the use of watercraft will be restricted in a certain portion of the waters of Lake Murray, Lexington County, South Carolina. The restricted or controlled area shall be all waters within the swimming area at South Carolina Electric and Gas Company Public Part No. 1.
2. That no person shall operate any vessel in the restricted or controlled area.
3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.

123-19.12 Restrictions as to Use of Watercraft Within Boat Launching Ramp at Dreher Island State Park.
1. That the use of watercraft will be restricted in a certain portion of the waters of Lake Murray, Newberry County, South Carolina. The restricted or controlled area shall be all waters within the cove at Dreher Island State Park boat launching ramp.
2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.

~~3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~

~~123-19.13 Restrictions as to Use of Watercraft in Certain Areas of Durham Creek.~~
~~1. That the use of watercraft will be restricted in a certain portion of the waters on Durham Creek, Berkeley County, South Carolina near Secondary Road 9 and Clyde Umphlett public boat landing, more specifically described in the map attached hereto and made a part hereof is hereby declared to be a SLOW TO NO WAKE ZONE:~~
~~2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~
~~3. That the regulated area shall be identified by appropriate signs and markers. The signs and makers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~

~~123-19.14 Restriction as to Use of Watercraft Within Swimming Area of Dreher Island State Park.~~
~~1. That the use of watercraft will be restricted in a certain portion of the waters of Lake Murray, Newberry County, South Carolina. The restricted or controlled area shall be all waters within the swimming area at Dreher Island State Park.~~
~~2. That no person shall operate any vessel in the restricted or controlled area.~~
~~3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~

~~123-19.15 Restrictions as to Use of Watercraft Within Certain Areas of South Carolina Electric & Gas Company Public Park No. 3.~~
~~1. That the use of watercraft will be restricted in a certain portion of the waters of Lake Murray, Lexington County, South Carolina. The restricted or controlled area shall be all waters within one hundred yards of the South Carolina Electric and Gas Company Public Park No. 8 boat launching ramp.~~

2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.
3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.

123-19.16 Restrictions on Use of Watercraft in Certain Portions of the Waters of Lake Marion, Clarendon County, South Carolina.
1. That the use of watercraft will be restricted in a certain portion of the waters of Lake Marion, Clarendon County, South Carolina. The restricted or controlled area shall be in the area of Taw Caw Creek as indicated on the attached map.
2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.
3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.
4. That except as modified or changed, hereby all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.

123-19.17 Restrictions on Use of Watercraft in Certain Portion of Waters of Ashley River, Charleston County, South Carolina.
1. That the use of watercraft will be restricted in a certain portion of the waters of Ashley River, Charleston County, South Carolina. The restricted or controlled area shall be as indicated on the attached map.
2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.
3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.
4. That except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.

123-19.18 Restrictions on Use of Watercraft in Certain Portion of Waters of Lake Wylie, Near Commodore Yacht Club, York County, South Carolina.
1. That the use of watercraft will be restricted in a certain portion of the waters of Lake Wylie, near Commodore Yacht Club, York County, South Carolina. The restricted or controlled area shall be as indicated on the attached map.
2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.
3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.
4. That except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.

123-19.19 Restrictions on Use of Watercraft in Certain Portion of Waters of Lake Keowee called Lake Keowee Marina, Oconee County, South Carolina.

1. That the use of watercraft will be restricted in a certain portion of the waters of Lake Keowee called Lake Keowee Marina, Oconee County, South Carolina. The restricted or controlled area shall be as indicated on the attached map.
2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.
3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.
4. That except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.

123-19.20 Restrictions on Use of Watercraft on Certain Portion of Wappoo Creek, Charleston County, South Carolina.
1. That the use of watercraft will be restricted in a certain portion of the waters of Wappoo Creek, Charleston County, South Carolina. The restricted or controlled area shall be as indicated on the attached map.
2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.
3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.
4. That except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.

123-19.21 Restrictions on Use of Watercraft in Certain Portion of Lake Russell and Savannah River, Abbeville County, South Carolina.
1. The use of watercraft will be restricted in a certain portion of the waters of Lake Russell and the Savannah River at Richard B. Russell Dam, Abbeville County, South Carolina. The restricted or controlled area shall be all waters 225 feet upstream and 975 feet downstream of the Richard B. Russell Dam.
2. No person shall operate any vessel in the restricted or controlled area.
3. The regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.
4. Except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.

~~123-19.22 Restrictions on Use of Watercraft in Certain Portion of Kiawah River, Charleston, South Carolina.~~

~~1. The use of watercraft will be restricted in a certain portion of the waters of Kiawah River, Charleston County, South Carolina. The restricted or controlled area shall be all waters within one hundred yards of the Kiawah Island Docking Facility.~~

~~2. No person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~

~~3. The regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform water - way markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~

~~4. Except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.~~

~~123-19.23 Pack's Landing Area of Waters of Lake Marion, Sumter County, Declared No Wake Zone.~~

~~1. The Pack's Landing area of the waters of Lake Marion, Sumter County, South Carolina is hereby declared to be a No Wake Zone.~~

~~2. The No Wake Zone shall be identified by the placement of appropriate signs and markers.~~

~~3. The regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~

~~4. Except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.~~

~~123-19.24 Restrictions on Use of Watercraft in Certain Portion of Waters of Lake Marion, Orangeburg County, South Carolina.~~

~~1. The use of watercraft will be restricted in a certain portion of the waters of Lake Marion, Orangeburg County, South Carolina. The restricted or controlled area shall be in the area of Santee Cooper Resort Cove and shall include the entire cove.~~

~~2. No person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~

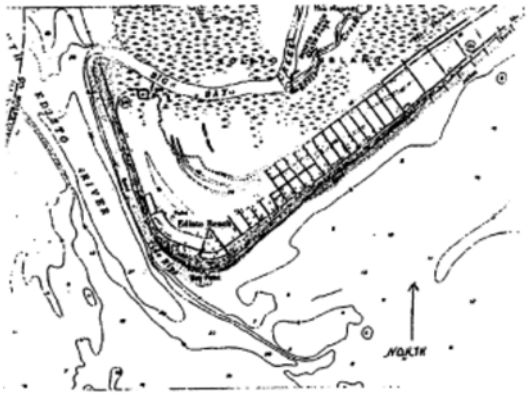

~~3. The regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States~~

~~Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~
~~4. Except as modified or changed, hereby, all prevailing laws rules and regulations concerning boating in South Carolina Shall remain in full force and effect.~~

~~123-19.25 Restrictions on Use of Watercraft in Certain Portion of Waters on Lake Keowee, Pickens County, South Carolina.~~
~~1. The use of watercraft will be restricted in a certain portion of the waters on Lake Keowee, Pickens County, South Carolina. The restricted or controlled area shall be in the Gap Hill area.~~
~~2. No person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~
~~3. The regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~
~~4. Except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.~~

~~123-19.26 Restrictions on Use of Watercraft in Certain Portion of Lake Murray, Newberry County, South Carolina.~~
~~1. The use of watercraft will be restricted in a certain portion of the waters of Lake Murray, Newberry County, South Carolina. The restricted or controlled area shall be all waters within one hundred fifty yards of the marina docking facilities at Dreher Island State Park.~~
~~2. No person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~
~~3. The regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council United States Coast Guard.~~
~~4. Except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.~~

~~123-19.27 Restrictions on Use of Watercraft in Certain Portions of Scott Creek, Colleton County, South Carolina.~~
~~1. The use of watercraft will be restricted in a certain portion of the waters of Scott Creek, Colleton County, South Carolina. The restricted or controlled areas shall be in the area of Scott Creek as indicated on the attached map.~~
~~2. No person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~
~~3. The regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the States Official to the Merchant Marine Council, United States Coast Guard.~~
~~4. Except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.~~

~~123-19.28 Restrictions on Use of Watercraft in Certain Portion of Battery Creek, Beaufort County, South Carolina~~

~~1. That the use of watercraft will be restricted in a certain portion of the waters of Battery Creek, Beaufort County, South Carolina. The restricted or controlled area shall be in the area of Battery Creek as indicated on the attached map.~~

~~2. That no person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~

~~3. That the regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the States Officials to the Merchant Marine Council, United States Coast Guard.~~

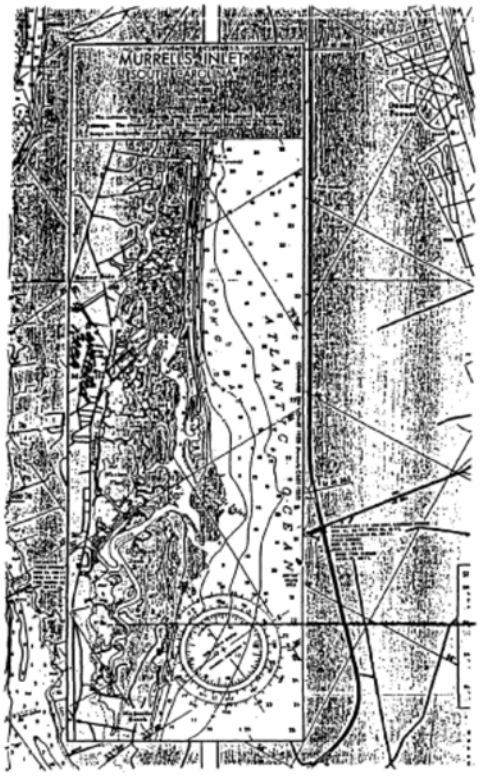

~~4. That except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.~~

~~123-19.29 Restriction on Use of Watercraft in Certain Portion of Parsonage Creek, Murrells Inlet, Georgetown County, South Carolina.~~

~~1. The use of watercraft will be restricted in a certain portion of the waters of Parsonage Creek, Murrells Inlet, South Carolina. The restricted or controlled area shall be in the area of Parsonage Creek as indicated on the attached map.~~

2. No person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.
3. The regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.
4. Except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.

123-19.30 Restriction on Use of Watercraft in Certain Portion of Morgan Creek, Charleston County, South Carolina.
1. The use of watercraft will be restricted in a certain portion of the waters of Morgan Creek, Charleston County, South Carolina. The restricted or controlled area shall be in the area of Morgan Creek as indicated on the attached map.
2. No person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.
3. The regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.
4. Except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.

~~123-19.31 Restrictions on Use of Watercraft in a Certain Portion of Stono River, Charleston County, South Carolina.~~

~~1. The use of watercraft will be restricted in a certain portion of the waters of Stono River, Charleston County, South Carolina. The restricted or controlled area shall be in the area of Stono River as indicated on the attached map.~~

~~2. No person shall operate any vessel in the restricted or controlled area at any speed that will produce a wake.~~

~~3. The regulated area shall be identified by appropriate signs and markers. The signs and markers shall conform to the system of aids to navigation prescribed by the United States Coast Guard and to the system of uniform waterway markers approved by the Advisory Panel of the State Officials to the Merchant Marine Council, United States Coast Guard.~~

~~4. Except as modified or changed, hereby, all prevailing laws, rules and regulations concerning boating in South Carolina shall remain in full force and effect.~~

Presented and Approved by Board/Commission: Y

Other Agencies Impacted: None

B. ADDITIONAL DOCUMENTS TO SUBMIT

18. Please provide an updated version of the Reports Template from the Accountability Report. In the updated version, please do the following:
    a. Add any reports necessary so the chart is current as of the date of submission of the Program Evaluation Report and include:
        i. Audits performed on the agency by external entities, other than Legislative Audit Council, State Inspector General, or State Auditor's Office, during the last five years;
        ii. Audits performed by internal auditors at the agency during the last five years;
        iii. Other reports, reviews or publications of the agency, during the last five years, including Fact Sheets, Reports required by provisos, Reports required by the Federal Government, etc.; and
    b. Include the website link for each document in the "Method to Access the Report" column, if website link is available. If website link is not available, enter the method by which someone from the public could access the report. If the method is to call or send a request to the agency, please specify to whom the request must be sent and any details the individual must include in the request.
    c. Submit an electronic copy of any internal audits that are not posted online.

    See attached audits and Reports Template.

19. Please submit electronic copies of the agency's Organizational chart for the current year and as many years back as the agency has available.

    Organizational charts have already been provided, a detailed organizational chart is attached.

20. Please submit a Word document that includes a glossary of terms, including, but not limited to, every acronym used by the agency.

    See attached glossary.

C. FEEDBACK (OPTIONAL)

After completing the Program Evaluation, please provide feedback to the Committee by answering the following questions:

21. What other questions may help the Committee and public understand how the agency operates, budgets, and performs?

22. What are the best ways for the Committee to be able to compare the specific results the agency obtained with the money it spent?

23. What changes to the report questions, format, etc. would agency representatives recommend?

24. What benefits do agency representatives see in the public having access to the information in the report?

25. What are two-three things agency representatives could do differently next time (or it could advise other agencies to do) to complete the report in less time and at a lower cost to the agency?

26. Please provide any other comments or suggestions the agency would like to provide.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Responding	Department of Natural Resources
Date of Submission	30-Aug-17

Is the agency authorized to promulgate regulations? (Y/N)	Yes
If yes, has the agency promulgated regulations? (Y/N)	Yes

Item #	Law Number	Jurisdiction	Type of Law	Statutory Requirement and/or Authority Granted	Does this law specify who the agency must serve? (Y/N)	Does this law specify a deliverable the agency must or may provide? (Y/N)	Notes
1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
2	1-30-75	State	Statute	Establishes the Department and requires the Department to be divided initially into divisions for Land Resources and Conservation Districts, Water Resources, Marine Resources, Wildlife and Freshwater Fisheries, and State Natural Resources Enforcement.	No	Yes-Implied	
3	3-5-100	State	Statute	The Department is authorized to substitute for the leased areas lying within the rights-of-way and spoil disposal areas other equal areas lying without the rights-of-way and spoil disposal areas that also are suitable for the cultivation and gathering of oysters, if any of the lands or property, the use of which is acquired for the rights-of-way and spoil disposal areas has been leased by the Department to any person for the cultivation and gathering of oysters.	Yes	Yes	The department no longer leases oyster areas, but does it by permit.
4	3-5-170	State	Statute	The Department is authorized to substitute for such leased areas other equal areas suitable for the cultivation and gathering of oysters in a location not subject to damage by dredging operation, should any person cultivating oysters upon an area leased from the State outside of the limits to be acquired for said waterway project from Winyah Bay to the state boundary line in the Savannah River elect, in lieu of claiming damages which might be done to such oysters by dredging operations, to transfer such cultivated oysters to a different leased area and the person whose dredging operations in the construction of said intracoastal waterway either shall have damaged or might damage such oysters agrees to pay the expenses of such removal	Yes	Yes	The department no longer leases oyster areas, but does it by permit.
5	8-21-15	State	Statute	The Department is not authorized to charge a fee for performing a duty, responsibility, or function of agency unless authorized by statute and regulation. There are exceptions in the statute. The Department is not prohibited from charging fees for services provided to other state agencies, departments, boards, committees, commissions, or political subdivisions regardless of whether the fee is set by statute.	No	No	
6	10-9-320	State	Statute	The Department is authorized to be the exclusive agent to administer competitive bidding for leases, administer leases, receive and compile comments from other state agencies concerning the desirability of leasing state lands proposed for leasing, and such other activities that pertain to geothermal resource leases.	No	Yes	DHEC is the appropriate entity to provide this service.
7	11-37-200	State	Statute	The Department director, or designee, is required to serve on the Water Resources Coordinating Council and adhere to the duties of the Council.	Yes	Yes	
8	12-6-5060	State	Statute	The Department is required to report annually to the General Assembly the amount of revenue produced by contributions and a detailed accounting of expenditures for the Nongame Wildlife and Natural Areas Fund.	Yes	No	
9	12-21-2420	State	Statute	Authorizes the Department to receive revenue derived from fishing piers along the coast of SC for use of the Commercial Fisheries Division.	No	No	
10	12-24-90	State	Statute	The Department must be credited as follows from the recording of deeds: (1) ten cents of each one dollar thirty cents into the Heritage Land Trust Fund.	No	No	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
11	12-28-2730	State	Statute	Authorizes the Department to receive one percent of the proceeds from thirteen cents of the gasoline user fee imposed, pursuant to the chapter on Motor Fuels Subject to User Fees, for a special water recreational resources fund of the State. All balances in the fund must be carried forward annually so that no part of it reverts to any other fund. The fund must be apportioned based upon the number of registered boats or other watercraft in each county and expended by the Department to acquire, create, or improve water recreational resources. As used in this section, "water recreational resources" means public waters which are naturally occurring or which provide habitat for fish, aquatic animals, or waterfowl and which must provide public recreational opportunities. These funds may be used to promote activities that take place on the water for recreation provided that no more than ten percent of each annual allocation may be used for this purpose beginning July 1, 2003. Each county delegation may make recommendations to the Department for projects to acquire, create, or improve water recreational resources. The Department must give these recommendations primary consideration over any other projects. The Department is authorized to use up to one-third of the funds for law enforcement, noxious aquatic weed control, and acquisition. The Department must be reimbursed for design and engineering costs and administration of this section from the funds collected under the provisions of this section. The Department must dispose of all surplus property owned by the Department or subject to its custody and control for purposes of disposal in the manner provided by law for the disposition of surplus state property. All proceeds from the sale of the Department's surplus property that was originally purchased with a county's water recreational resources funds must be returned to the county that originally purchased the property and placed in that county's water recreational resources fund. Beginning with property purchased during fiscal year 2000, the Department must provide the legislative delegations of each county with an annual inventory of all property purchased with the county's water recreational resources funds on or before the beginning of the next ensuing session of the General Assembly.	Yes	Yes	
12	12-36-1710	State	Statute	The Department of Natural Resources may not license any boat or register any motor without first procuring from the Department of Revenue information showing that the excise tax has been collected.	No	No	
13	13-11-20	State	Statute	The Department is authorized to have one member appointed by the Governor, upon nomination, serve on the New Horizons Development Authority.	No	Yes	Does not exist
14	14-1-212	State	Statute	Authorizes the Department to collect 1.55% of court fines for use for statewide police responsibilities.	No	No	
15	15-9-415	State	Statute	Authorizes the Director of the Department to receive service of process as agent for non-resident operator of a vessel in the waters of the state, and allows him to receive a $4 fee. The Director must keep record of all processes which shall show the day and hour of service upon him. When the certified return receipt shall be returned to the director, he shall deliver it to the plaintiff on request and keep a record showing the date of its receipt by him and its delivery to the plaintiff.	Yes	Yes	
16	17-22-350	State	Statute	Authorizes the Department to collect .28% for criminal penalties.	No	No	
17	23-23-30	State	Statute	The Director of the Department is authorized to serve as a member of the South Carolina Law Enforcement Training Council.	No	Yes	
18	23-25-20	State	Statute	The Director of the Department is authorized to appoint a representative of the Natural Resources Enforcement Division to serve as a member of the South Carolina Law Enforcement Officers Hall of Fame Committee.	No	Yes	
19	27-8-120	State	Statute	Authorizes the Department to serve as a successor entity to the South Carolina Conservation Bank by assuming the board's voting rights provided in the former provisions of Section 48-59-80(F), (G), (H), and (I) of the 1976 Code.	No	No	
20	29-15-10(c)	State	Statute	The Department is authorized to receive applications for lienholders for repair or storage costs.	Yes	Yes	
21	40-23-10	State	Statute	The Department is required to have a representative from the Land, Water, and Conservation Division serve on the Environmental Certification Board.	No	Yes	
22	44-55-45	State	Statute	The Director is authorized to appoint two Department employees to serve on an Advisory Committee to the South Carolina Department of Health and Environmental Control regarding the Safe Drinking Water Act and regulatory standards related to wells.	No	Yes	
24	44-96-170	State	Statute	A Department appointee is required to assist in awarding waste tire grants by serving on the Waste Tire Committee for a term of three years.	Yes	Yes	
25	46-13-150	State	Statute	The Department is required to have one representative serve as a member of the Pesticide Advisory Committee for a period of four years, and the Director is authorized to recommend the member from the Department.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
26	47-3-310	State	Statute	The specially trained enforcement officers of the Natural Resources Enforcement Division of the Department are authorized, on game management areas, state-owned property and property of private landowners and leaseholders, at the request of such landowners and leaseholders, to enter on such areas and property for the purpose of investigating dogs running at large on the property. If the dogs are determined to be feral dogs (a dog which has reverted to a wild state) and are a threat to the lives or health of livestock, wildlife or humans, the enforcement officers are authorized to remove the feral dog from the property or dispose of it in the most humane manner as determined by the Department.	Yes	Yes	Antiquated Law
27	47-3-320	State	Statute	The Department is required to train two enforcement officers from each of the state's twenty-eight law enforcement units for the identification, capture and humane disposal of feral dogs and these officers shall have the responsibility of answering all complaints concerning feral dogs within the geographical boundaries of their respective law enforcement units. Such enforcement officers shall be held harmless of any personal liability that may occur during the lawful execution of their duties under this act except in case of gross negligence.	Yes	Yes	Antiquated Law
28	47-3-420	State	Statute	The Department is authorized to euthanize animals quarantined in animal shelters via approved method, but only upon obtaining training and certification for this purpose in a euthanasia training class taught by a licensed South Carolina veterinarian, which must include training in tranquilizing animals. A person certified must continue to maintain his proficiency by successfully completing a training course taught by a licensed South Carolina veterinarian every five years. The Department is authorized to obtain a barbituric acid derivative or tranquilizing agent by direct licensing. The Department must apply for a Controlled Substance Registration Certificate from the federal Drug Enforcement Administration (DEA) and a State Controlled Substances Registration from the Department of Health and Environmental Control (DHEC). If the Department is issued a certificate by the DEA and a registration by DHEC is acquired the agency Director or his designee, and the Department's applicant are responsible, for maintaining their respective records regarding the inventory, storage, and administration of controlled substances. An animal shelter, governmental animal control agency and its certified euthanasia technician, and the Department and its certified employees are subject to inspection and audit by DHEC and the DEA regarding the recordkeeping, inventory, storage, and administration of controlled substances used under authority of this article.	No	Yes	
29	47-3-510	State	Statute	The Department is authorized to register dogs, charge a fee not to exceed $5 a dog or $20 a kennel, and keep records of the owners of registered dogs.	Yes	Yes	
30	47-3-550	State	Statute	The Department is authorized to promulgate regulations for the registration of dogs and other domestic pets.	No	No	
31	47-5-30	State	Statute	The Department is required, in an effort to combat diseases communicable from animal to man, to cooperate with the public health veterinarian, the extension service of Clemson University, and any other state or federal agencies engaged in similar efforts to combat diseases communicable from animal to man.	Yes	Yes	
32	48-1-83	State	Statute	The Department in consultation with DHEC and the EPA are required to provide a general methodology to be used for consideration of a site-specific effluent limit related to dissolved oxygen and select and convene a science peer review committee to review the design of the study.	Yes	Yes-Implied	
33	48-1-85	State	Statute	Authorizes the Department to accept and approve applications for houseboats with marine toilets and issue titles.	Yes	Yes	
34	48-4-10	State	Statute	The Department is authorized to administer and enforce the laws of the State relating to Wildlife, Marine Resources, Natural Resources and other laws assigned to it. Department must be comprised of the following divisions: Natural Resources Enforcement Division, a Wildlife and Freshwater Fisheries Division, a Marine Resources Division, a Water Division, and a Land Resources and Conservation Districts Division. The Department is authorized to accept all functions, powers, and duties provided by law to the South Carolina Wildlife and Marine Resources Department, the Geological Survey Division of the Budget and Control Board, to include the State Geologist, and the South Carolina Migratory Waterfowl Committee. The Department is authorized to hold all aforementioned Divisions accountable to it.	Yes	Yes-Implied	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
35	48-4-30	State	Statute	The Department is authorized to be governed by a board consisting of nonsalaried board members to be appointed and constituted in a manner provided by law. The Governor shall appoint one member to serve as chairman, upon the advice and consent of the Senate. The appointment to chairman is subject to the advice and consent of the Senate, even if the person appointed to serve as chairman is already a current member of the board. All board members must be appointed by the Governor with the advice and consent of the Senate. One member must be appointed from each congressional district of the State. The board is also authorized to include an at-large board member serving on the board on March 1, 2012. The at-large board member may continue to serve on the board until that board member's term expires, he is removed from the board as provided by law, or he resigns from the board. Board members must possess sound moral character, superior knowledge in the fields of wildlife, marine, and natural resource management, and proven administrative ability. Each board member, within thirty days after notice of appointment and before taking office, shall take and file with the Secretary of State the oath of office prescribed by the State Constitution.	No	No	
36	48-4-40	State	Statute	The Board of the Department is authorized to receive reimbursement for their expenses incurred while engaged in the work of the Board as provided by law for state boards and commissions.	No	No	
37	48-4-50	State	Statute	The Board of the Department is authorized to be vested with the duty and authority to set the policies for the Department subject only to the laws of this State and the United States. The Board is not authorized and has no duty concerning the management of, control over, or administration of the day to day affairs of the Department.	No	No	
38	48-4-60	State	Statute	Establishes the authority of the Director. The Director is appointed by the Board with the advice and consent of the Senate. The Director is the administrative head of the Department. The Director must carry out the policies of the Board and administer the affairs of the Department. The Director may exercise all powers belonging to the Board within the guidelines and policies established by the Board. The Director shall manage the administration and organization of the Department and may appoint such assistants or deputies the Director considers necessary. The Director may hire these employees as the Director considers necessary for the proper administration of the affairs of the Department. The Director must prescribe the duties, powers, and functions of all assistants, deputies, and employees of the Department.	No	No	
39	48-4-70	State	Statute	The Board of the Department is required to: (1) hold meetings, as considered necessary by the chairman, with a majority of the board members constituting a quorum. The Board may hold meetings, transact business, or conduct investigations at any place necessary; however, its primary office is in Columbia; (2) formulate and recommend legislation to enhance uniformity, enforcement, and administration of the wildlife, marine, and natural resource laws; (3) make an annual report to the General Assembly on all matters relating to its action; (4) require those of its officers, agents, and employees it designates to give bond for the faithful performance of their duties in the sum and with the sureties it determines, and all premiums on the bonds must be paid by the Board; (5) pay travel expenses; and purchase or lease all necessary facilities, equipment, books, periodicals, and supplies for the performance of its duties; and (6) exercise and perform other powers and duties as granted to it or imposed upon it by law.	No	Yes-Implied	
40	48-4-80	State	Statute	The Board of the Department is authorized to: (1) Make rules and promulgate regulations, not inconsistent with law, to aid in the performance of its duties. The Board may prescribe the extent, if any, to which these rules and regulations must be applied without retroactive effect. (2) Exercise all authority granted to it under the laws and regulations relating to wildlife, marine and natural resources. (3) Conduct such hearings as may be required by law.	Yes	Yes-Implied	
41	48-9-10	State	Statute	Establishes the creation of Soil and Water Conservation Districts and defines the duties and powers of the Department to assist Commissioners of the Districts.	Yes	Yes	
42	48-9-45	State	Statute	The Director is authorized to be in charge of the Land Resources and Conservation Districts Division.	No	No	
43	48-9-260	State	Statute	The Department is authorized to employ an administrative officer and such technical experts and other agents and employees, permanent and temporary, for the State Land Resources Conservation Commission. The Department is also authorized to call upon the Attorney General for legal services or employ its own counsel and legal staff.	No	No	
44	48-9-270	State	Statute	The Department is required to adopt a seal which shall be judicially noticed and may perform such acts, hold such public hearings and promulgate such rules and regulations as may be necessary for the execution of its functions of the State Land Resources Conservation Commission.	Yes	No	
45	48-9-280	State	Statute	The Department is authorized provide for the execution of surety bonds for all employees and officers who shall be entrusted with funds or property, shall provide for the keeping of a full and accurate record of all its proceedings and activities and of all resolutions, regulations and orders issued or adopted and shall provide for an annual audit of the accounts of receipts and disbursements.	No	No	Law Change Recommended

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
46	48-9-290 (1)-(7)	State	Statute	The Department is authorized to carry out the following duties and powers (1) To offer such assistance as may be appropriate to the commissioners of soil and water conservation districts, organized as provided in this chapter, in the carrying out of any of their powers and programs; (2) To keep the commissioners of each of the several districts organized under the provisions of this chapter informed of the activities and experience of all other districts organized under this chapter and to facilitate an interchange of advice and experience between such districts and cooperation between them; (3) To coordinate the programs of the several soil and water conservation districts organized under this chapter so far as this may be done by advice and consultation; (4) To secure the cooperation and assistance of the United States and any of its agencies and of agencies and counties of this State, in the work of such districts; (5) To disseminate information throughout the State concerning the activities and programs of the soil and water conservation districts organized hereunder and to encourage the information of such districts in areas where their organization is desirable; (6) To receive gifts, appropriations, materials, equipment, lands and facilities and to manage, operate and disburse them for the benefit of the soil and water conservation districts; (7) To coordinate the development of comprehensive conservation plans for environmental improvement on all lands owned or controlled	Yes	Yes-Implied	
47	48-9-290 (8)-(14)	State	Statute	The Department is authorized (8) To coordinate the development of a statewide landscape inventory and formulate guidelines for assisting local conservation districts, municipalities, counties, and other groups in implementing landscape and beautification programs; (9) To coordinate the development of a comprehensive plan for implementation of the standard soil survey information and to prepare guidelines for local conservation districts, counties, municipalities and other agencies of State and local government in the use of soil survey data for land use planning, development and conservation; (10) To coordinate the development of a statewide flood plain lands area inventory and to formulate guidelines for the conservation, protection and use of flood plain lands, excluding tidelands and marshlands; (11) To coordinate and assist local conservation districts, counties, and municipalities in developing policies and procedures for an adequate erosion and sediment control program; and engage in an educational informational program to acquaint municipalities, conservation districts, counties, and developers with sedimentation control management measures applicable to their activities, and familiarize these people with the program of the district; (12) To coordinate the development of a statewide irrigable land inventory and to formulate guidelines for the conservation, protection and use of such lands; (13) To coordinate the development of a statewide inventory of the availability of rural lands for recreational uses, and to formulate guidelines for the conservation, protection and use of such lands; and (14) To coordinate the development of conservation guidelines for incorporation into local and statewide land use plans.	Yes	Yes-Implied	
48	48-9-300	State	Statute	The Department is authorized to delegate to one or more agents or employees such powers and duties as it may deem proper and it may furnish information as well as call upon any or all State or local agencies for cooperation in carrying out the provisions of the State Land Resources Conservation Commission.	Yes	No	
49	48-9-310	State	Statute	The Department shall on or before the first day of November, annually, transmit to the Governor, on official blanks to be furnished by him, an estimate, in itemized form, showing the amount of expenditure requirements for the ensuing fiscal year. The estimates submitted shall state, in addition to the requirements of existing law, the following information: (1) The number and acreage of districts in existence or in process of organization, together with an estimate of the number and probable acreages of the districts which may be organized during the ensuing fiscal year; (2) A statement of the balance of funds, if any, available to the Department and to the districts; and (3) The estimates of the Department as to the sums needed for its administrative and other expenses and for allocation among the several districts during the ensuing fiscal year. The Department may require the commissioners of the respective soil and water conservation districts to submit to it such statements, estimates, budgets and other information as it may deem necessary for the purposes of this section.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
50	48-9-320	State	Statute	The Department is authorized to allocate appropriations amongst the soil and water conservation districts. Unless otherwise provided by law all moneys which may from time to time be appropriated out of the State Treasury for the use of soil and water conservation districts shall be available to pay the administrative and other expenses of such districts and shall be allocated by the Department among the districts already organized and to be organized during the fiscal year for which such appropriation is made. Such allocation shall be fair, reasonable and in the public interest, giving due consideration to the greater relative expense of carrying on operations within the particular districts because of such factors as unusual topography, unusual severity of erosion, special difficulty of carrying on operations, special volume of work to be done and the special importance of instituting erosion control and soil and water conservation operations immediately. In making allocations of such moneys, the Department shall reserve an amount estimated by it to be adequate to enable it to make subsequent allocations in accordance with the provisions of this section from time to time among districts which may be organized within the current fiscal year after the initial allocations are made. All appropriations made for the purpose of this chapter shall be disbursed by the State Treasurer on warrants approved and signed by the Department.	No	No	Antiquated Law
51	48-9-510	State	Statute	The Department may accept petitions from any twenty-five owners lying within the limits of territory proposed to be organized into a soil and water conservation district.	Yes	Yes	
52	48-9-530	State	Statute	The Department may consolidate petitions for soil and water conservation districts.	No	No	
53	48-9-540	State	Statute	The Department must, within thirty days after such a petition has been filed with the Department, cause due notice to be given of a proposed hearing upon the question of the desirability and necessity, in the interest of the public health, safety and welfare, of the creation of such district, upon the question of the appropriate boundaries to be assigned to such district, upon the propriety of the petition and other proceedings taken under this chapter and upon all questions relevant to such inquiries. All owners and occupiers of land within the limits of the territory described in the petition and of the lands within the limits of the territory considered for addition to such described territory and all other interested parties shall have the right to attend such hearings and to be heard. If it shall appear upon the hearing that it may be desirable to include within the proposed district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further shall be given throughout the entire area considered for inclusion in the district and such further hearing held.	Yes	Yes-Implied	
54	48-9-550	State	Statute	If the Department shall determine after such hearing, after due consideration of the facts presented at such hearing and such other relevant facts and information as may be available, that there is no need for a soil and water conservation district to function in the territory considered at the hearing, it shall make and record such determination and shall deny the petition. After six months shall have expired from the date of the denial of any such petition, subsequent petitions covering the same or substantially the same territory may be filed as provided in Section 48-9-510 and new hearings held and determinations made thereon.	Yes	Yes	
55	48-9-560	State	Statute	After such hearing, if the Department shall determine, upon the facts presented at such hearing and upon such other relevant facts and information as may be available, that there is need, in the interest of the public health, safety and welfare, for a soil and water conservation district to function in the territory considered at the hearing, it shall make and record such determination and shall define, by metes and bounds or by legal subdivisions, the boundaries of such district. In making such determination and in defining such boundaries the Department shall give due weight and consideration to the topography of the area considered and of the State, the composition of soils therein, the distribution of erosion, the prevailing land-use practices, the desirability and necessity of including within the boundaries the particular lands under consideration and the benefits such lands may receive from being included within such boundaries, the relation of the proposed area to existing watersheds and agricultural regions and to other soil and water conservation districts already organized or proposed for organization under the provisions of this chapter and such other physical, geographical and economic factors as are relevant, having due regard to the legislative determinations set forth in Section 48-9-20.	Yes	Yes	
56	48-9-570	State	Statute	The Department is authorized to determine the boundaries of the soil and water conservation districts.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
57	48-9-580	State	Statute	After the Department has made and recorded a determination that there is need, in the interest of the public health, safety and welfare, for the organization of a district in a particular territory and has defined the boundaries thereof, it shall, within a reasonable time after entry of the finding that there is need for the organization of the proposed district and the determination of the boundaries thereof hold a referendum within the proposed district upon the proposition of the creation of the district and cause due notice of such referendum to be given. The question shall be submitted by ballots upon which the words "For creation of a soil and water conservation district of the lands below described and lying in the county(ies) of (and)" and "Against creation of a soil and water conservation district of the lands below described and lying in the county(ies) of (and)" shall appear with a square before each proposition and a direction to insert an X mark in the square before one or the other of said propositions as the voter may favor or oppose creation of such district. The ballot shall set forth the boundaries of such proposed district as determined by the Department. All owners of lands lying within the boundaries of the territory, as determined by the Department, shall be eligible to vote in such referendum. Only such landowners shall be eligible to vote.	Yes	Yes	
58	48-9-590	State	Statute	The Department shall pay all expenses for the issuance of such notices and the conduct of such hearings and referenda and shall supervise the conduct of such hearings and referenda. It shall issue appropriate regulations governing the conduct of such hearings and referenda and providing for the registration prior to the date of the referendum of all eligible voters or prescribing some other appropriate procedure for the determination of those eligible as voters in such referendum.	Yes	Yes	
59	48-9-600	State	Statute	The Department shall publish the result of such referendum and shall thereafter consider and determine whether the operation of the district within the defined boundaries is administratively practicable and feasible. If the Department shall determine that the operation of such district is not administratively practicable and feasible it shall record such determination and deny the petition. If the Department shall determine that the operation of such district is administratively practicable and feasible it shall record such determination and shall proceed with the organization of the district in the manner provided in Sections 48-9-610 to 48-9-630. In making such determination the Department shall give due regard and weight to the attitudes of the owners and occupiers of lands lying within the defined boundaries, the number of landowners eligible to vote in such referendum who shall have voted, the proportion of the votes cast in such referendum in favor of the creation of the district to the total number of votes cast, the approximate wealth and income of the landowners and occupiers of the proposed district, the probable expense of carrying on erosion-control operations within such district and such other economic and social factors as may be relevant to such determination, having due regard to the legislative determinations set forth in Section 48-9-20. The Department shall not have authority to determine that the operation of the proposed district within the defined boundaries is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of creation of the district shall have been cast in favor of the creation of such district.	Yes	Yes	
60	48-9-610	State	Statute	If the Department shall determine that the operation of the proposed district within the defined boundaries is administratively practicable and feasible it shall appoint two commissioners to act with the three commissioners elected as provided in Article 11 of this chapter as the governing body of the district.	Yes	Yes	
61	48-9-620	State	Statute	The Department is authorized to provide a statement to accompany a soil and water commissioner application which shall certify (and such statement need contain no detail other than the mere recitals) that a petition was filed, notice issued and hearing held as provided in Sections 48-9-510 and 48-9-540; that the Department did duly determine that there is need, in the interest of the public health, safety and welfare, for a soil and water conservation district to function in the proposed territory and did define the boundaries thereof; that notice was given and a referendum held on the question of the creation of such district and that the result of such referendum showed a majority of the votes cast in such referendum to be in favor of the creation of the district; and that thereafter the Department did duly determine that the operation of the proposed district is administratively practicable and feasible. Such statement shall set forth the boundaries of the district as defined by the Department.	Yes	Yes	
62	48-9-630	State	Statute	If the Secretary of State shall find that the name proposed for the district is identical with that of any other soil and water conservation district of this State or so nearly similar as to lead to confusion and uncertainty, he shall certify such fact to the Department, which shall thereupon submit to the Secretary of State a new name for the district, which shall not be subject to such defects.	No	No	
63	48-9-810	State	Statute	The Department is authorized to receive petitions for including additional territory within an existing district and the proceedings provided for in Article 5 of this chapter in the case of petitions to organize a district shall be observed in the case of petitions for such inclusion. The Department shall prescribe the form for such petition, which shall be as nearly as may be in the form prescribed in Article 5 of this chapter for petitions to organize a district.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
64	48-9-820	State	Statute	The Department may accept a petition for subdivision of a district. A petition signed by a majority of the members of the governing body of the soil and water conservation district or a petition signed by twenty-five landowners of the county or counties wishing to withdraw and constitute themselves a separate district may be filed with the Department asking that the subdivision be made and constitute a district. Such petition shall (a) set forth the name of the district, (b) describe the existing boundary lines of the district and boundary lines of the proposed district (subdivision) and (c) request that the department hold a public hearing upon the question of the proposed subdivision and that the Department duly define the boundary lines as set out in the petition.	Yes	Yes	
65	48-9-830	State	Statute	Within thirty days after such a petition has been filed with the Department, it shall cause due notice to be given of a proposed hearing upon the question of the proposed subdivision.	Yes	Yes	
66	48-9-840	State	Statute	After such hearing the Department shall determine, upon the facts presented at such hearing and upon such other relevant facts and information as may be available, whether there is need in the interest of the public health, safety and welfare for the proposed subdivision and whether the operation of the districts within the proposed boundaries will be administratively practicable and feasible. In making such determination, the Department shall give due weight and consideration to the legislative determinations set forth in Section 48-9-20 and to the standards provided in Sections 48-9-560 and 48-9-600 for the guidance of the department in making its determinations in connection with the organization of districts. If the Department determines that the proposed subdivision is not necessary in the interest of the public health, safety and welfare, or that the operation of the districts within the proposed boundaries would not be administratively practicable or feasible, it shall record such determination and deny the petition. If the Department shall determine in favor of the proposed subdivision, it shall record such determination and define the boundary lines between the districts and shall notify the chairman of the governing body of the district to be divided of its determination.	Yes	Yes	
67	48-9-850	State	Statute	The Department shall then proceed in accordance with Sections 48-9-610 to 48-9-630 to organize the subdivision into a district and to inform the Secretary of State of the change in the boundaries of the remaining district and to complete the organization of the governing body of the remaining district.	Yes	Yes-Implied	
68	48-9-1010	State	Statute	The Department is authorized to accept a petition for discontinuance of a soil and water conservation district. At any time after five years after the organization of a district under the provisions of this chapter any twenty-five owners of land lying within the boundaries of such district may file a petition with the Department praying that the operations of the district be terminated and the existence of the district discontinued. The Department may conduct such public meetings and public hearings upon the petition as may be necessary to assist it in the consideration thereof.	Yes	Yes-Implied	
69	48-9-1020	State	Statute	Within sixty days after such a petition has been received by the Department it shall give due notice of the holding of a referendum and shall supervise such referendum and issue appropriate regulations governing the conduct thereof. The question shall be submitted by ballots upon which the words "For terminating the existence of the (name of the soil and water conservation district to be here inserted)" and "Against terminating the existence of the (name of the soil and water conservation district to be here inserted)" shall appear with a square before each proposition and a direction to insert an X mark in the square before one or the other of the propositions as the voter may favor or oppose discontinuance of such district.	Yes	Yes	
70	48-9-1030	State	Statute	The Department shall publish the result of such referendum and shall thereafter consider and determine whether the continued operation of the district within the defined boundaries is administratively practicable and feasible. If the Department shall determine that the continued operation of such district is administratively practicable and feasible it shall record such determination and deny the petition. If the Department shall determine that the continued operation of such district is not administratively practicable and feasible it shall record such determination and shall certify such determination to the commissioners of the district. In making such determination the Department shall give due regard and weight to the attitude of the owners and occupiers of lands lying within the district, the number of landowners eligible to vote in such referendum who shall have voted, the proportion of the votes cast in such referendum in favor of the discontinuance of the district to the total number of votes cast, the approximate wealth and income of the landowners and occupiers of the district, the probable expense of carrying on erosion-control operations within the district and such economic and social factors as may be relevant to such determination, having due regard to the legislative findings set forth in Section 48-9-20. But the Department shall not have authority to determine that the continued operation of the district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of such district.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
71	48-9-1050	State	Statute	If a soil and water conservation district is dissolved, the Department is substituted for the district or commissioners as a party to their contracts. The Department shall be entitled to all benefits and subject to all liabilities under such contracts and shall have the same right and liability to perform, to require performance, to sue and be sued thereon and to modify or terminate such contracts by mutual consent or otherwise as the commissioners of the district would have had. Such dissolution shall not affect the lien of any judgment entered under the provisions of Section 48-9-1630 nor the pendency of any action instituted under the provisions of Section 48-9-1610 and the Department shall succeed to all the rights and obligations of the district or commissioners as to such liens and actions.	Yes	Yes	
72	48-9-1060	State	Statute	The Department shall not be required to entertain petitions for the discontinuance of any district nor conduct referenda upon such petitions nor make determinations pursuant to such petitions in accordance with the provisions of this article more often than once in five years.	Yes	No	
73	48-9-1230	State	Statute	The Board of the Department shall have authority to in the case of a vacancy in the unexpired term of an elected commissioner a successor may be appoint upon the unanimous recommendation of the remaining commissioners. Any commissioner may be removed by the Board upon notice and hearing for neglect of duty or malfeasance in office, but for no other reason.	Yes	Yes	
74	48-9-1320	State	Statute	The commissioners shall furnish to the Department, upon request, copies of such ordinances, rules, regulations, orders, contracts, forms and other documents as they shall adopt or employ and such other information concerning their activities as it may require in the performance of its duties under this chapter.	Yes	No	
75	48-9-1810	State	Statute	The members of each such the board of adjustment shall be appointed by the Department, with the advice and approval of the commissioners of the district for which such board has been established, and shall be removable, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other reason, such hearing to be conducted jointly by the Department and the commissioners of the district.	Yes	Yes	
76	48-9-1820	State	Statute	The Department shall determine the per diem rate for the board of adjustment members for time spent on the work of the board, in addition to expenses, including traveling expenses, necessarily incurred in the discharge of their duties.	Yes	No	
77	48-9-1840	State	Statute	The Director of the Department shall be served with hardship petitions for land use regulations related to soil and water conservation districts.	Yes	No	
78	48-9-1850	State	Statute	The Department may appear and be heard at a hearing related to a hardship petition for land use regulations related to soil and water conservation districts.	Yes	Yes	
79	48-11-10	State	Statute	Establishes the creation of Watershed Conservation Districts and defines the assistance the Department shall provide to the Soil and Water Conservation Districts and the Watershed Districts.	Yes	Yes	
80	48-11-15	State	Statute	The Department is required to assist boards of commissioners of soil and water conservation districts and boards of directors of watershed conservation districts with the organization and function of watershed conservation districts. For the purpose of the Watershed Conservation Districts, the responsibility of the Department is limited to this activity.	Yes	Yes	
81	48-11-90	State	Statute	The Department shall receive notification from the soil and water conservation board that a watershed district has been created.	Yes	Yes	
82	48-11-100	State	Statute	The Department shall receive notification if the selection procedure for watershed conservation district directors has changed from election to appointment. For each calendar year the directors annually shall elect from among their number a chairman, secretary, and treasurer and so notify the soil and water conservation district and the department by March thirty-first each year. The watershed conservation district board shall submit written notification to the department within one hundred twenty days following the end of the district's fiscal year that the audit has been made, the date of the audit, and the name of the firm that or individual who made the audit.	Yes	Yes	
83	48-11-185	State	Statute	The board of commissioners shall submit to the Department a copy of the notification from the clerks of court regarding consolidation of watershed conservation districts.	No	No	
84	48-11-190	State	Statute	The board of commissioners shall submit to the Department a copy of the notification from the clerks of court for the discontinuance of a watershed conservation district.	No	No	
85	48-11-210	State	Statute	The Department has authority to assist in the revision of organization and function of watershed conservation districts to comply with a reorganization chapter. The Department shall assist each of the boards of commissioners of the affected soil and water conservation districts with this responsibility. The Department shall initiate this assistance by providing written directions and guidance to each of the affected soil and water conservation districts within ninety days of the effective date of this chapter, as amended. The Department may adopt policy and has broad authority to carry out this section.	Yes	Yes-Implied	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
86	48-22-10	State	Statute	Establishes the S.C. Geological Survey Unit under DNR. The Department Director is authorized to appoint the State Geologist. The State Geologist must have graduated from an accredited college or university with a full curriculum in geology and had at least five years of practical work experience, academic, governmental, or industrial, in geology.	No	No	
87	48-22-20	State	Statute	Establishes the powers, duties, and property devolved on the Department from the South Carolina Geological Survey of the Division of Research and Statistical Services of the Budget and Control Board. All equipment and personal services monies, including all employee contributions and other fringe benefits used by the Geological Survey within the Division of Research and Statistical Services of the Budget and Control Board before this section takes effect are transferred to the Department of Natural Resources. The South Carolina Geodetic Survey must remain with the Division of Research and Statistical Services as the South Carolina Geodetic Survey. All property, equipment, and personal services monies, including all employee contributions and other fringe benefits used by the Geodetic Survey, must remain with the Division of Research and Statistical Services.	No	No	
88	48-22-30	State	Statute	The State Geologist is authorized to: (1) travel throughout the State so as to make himself familiar with the geology and mineral resources of each section; (2) undertake field and laboratory work his time permits; (3) perform other duties that properly pertain to his office. (B) The Department may employ geologists, technicians, and other personnel necessary to conduct the objectives of the unit.	Yes	Yes	
89	48-22-40	State	Statute	Establishes the powers and duties of the S.C. Geological Survey Unit within the Department. The unit: 1) shall conduct field and laboratory studies in geologic reconnaissance, mapping, prospecting for mineral resources, and related gathering of surface and subsurface data. Investigative areas include offshore and onshore lands in this State; (2) shall provide geologic advice and assistance to other state and local governmental agencies engaged in environmental protection or in industrial or economic development projects. In addition, the unit must be involved actively in geologic aspects of regional planning and effective land use in the State; (3) shall encourage economic development in the State by disseminating published geologic information as bulletins, maps, economic reports, and related series and open-file reports to appropriate governmental agencies and private industry. The unit is encouraged further to initiate and maintain appropriate industrial contacts to promote the extraction and conservation of South Carolina's earth raw materials and their manufacture to the economic improvement of the State; (4) shall provide unsolicited advice, when appropriate, to the Mining Council and its associated state regulatory agency, on geologic and related mining matters in keeping with the intent of the South Carolina Mining Act; (5) shall operate and maintain a central, statewide repository for rock cores, well cuttings and related subsurface samples, and all associated supplemental data. Private firms and public agencies are encouraged to notify the unit before exploratory or developmental drilling and coring; (6) must be the state's official cooperator on topographic mapping. The federal expenditure for this purpose at least must equal that of the State. The unit may conduct cooperative work with appropriate agencies of the United States Government in its geologic activities and investigations; (7) shall provide a minerals research laboratory related to the identification, extraction, and processing of industrial minerals and minerals of economic potential wherever found throughout the onshore and offshore areas of the State. The minerals research laboratory is encouraged to accept mineral research projects from South Carolina businesses or citizens on a per cost, per unit basis and to encourage expended use of the raw materials of the State. The minerals research laboratory may accept public and private gifts or funds and may enter into cooperative agreements for the purpose of applied research in the metallic and nonmetallic minerals of this State.	Yes	Yes	
90	48-39-60	State	Statute	Requires that the Department, upon request from DHEC, provide additional staff to assist DHEC's Office of Ocean and Coastal Resources Management.	Yes	Yes	
91	48-39-50	State	Statute	The Department is required to assist DHEC in monitoring the waters of the state for oil spills.	Yes	Yes	
92	48-39-70	State	Statute	Establishes that DNR is to assist DHEC in administering and enforcing laws related to the Office of Ocean and Coastal Resources Management.	Yes	Yes-Implied	
93	48-39-170	State	Statute	The enforcement officers of the Department are authorized to serve warrants, assess civil penalties, issues orders, and bring civil enforcement actions for violations of the Coastal Tidelands and Wetlands provisions.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
94	48-43-570	State	Statute	The Department is required to cooperate with and lend assistance to DHEC by assigning, upon request, personnel, equipment and material to be utilized in any project or activity related to the containment, collection, dispersal or removal of oil discharged upon the land or into the waters of this State. The Department is authorized to confer and establish plans and procedures for the assignment and utilization of personnel, equipment and material to be used in carrying out the purposes of pollution control. If the Department is participating in the containment, collection, dispersal or removal of an oil discharge or in restoration necessitated by such discharge, it is authorized to keep a record of all expenses incurred in carrying out any such project or activity including the actual services performed by Department personnel and the use of Department equipment and material. A copy of all records shall be delivered to the DHEC upon completion of the project or activity.	Yes	Yes	
95	48-45-40	State	Statute	The Department is required to serve on the South Carolina Sea Grant Consortium and is designated as charter member.	Yes	Yes	
96	48-45-80	State	Statute	The Department board is required to appoint one member, upon the recommendation of a majority of the members of their respective committees and commissions, to serve on the Advisory Committee to the Sea Grant Consortium Director.	Yes	Yes	
98	48-54-10	State	Statute	The Department is required to staff the Take Palmetto Pride in Where You Live Commission and the Director of the Department, or his designee, is authorized to serve as chairperson of the committee.	Yes	Yes	
99	48-55-10	State	Statute	The Director of the Department is authorized to appoint a member of the Water Resources Division of the Department, the Wildlife and Freshwater Fish Division of the Department, the Land Resources and Conservation Districts Division of the Department, and Marine Resources Division of the Department to serve on the selection committee that chooses the SC Environmental Awareness Award.	Yes	Yes	
100	48-59-30	State	Statute	Authorizes DNR as an eligible recipient for the Conservation Bank Trust Fund.	No	No	
101	48-59-40	State	Statute	The Chairman of the Board of the Department is required to serve ex officio and without voting privileges on the board of the South Carolina Conservation Bank.	Yes	Yes	
102	49-3-30	State	Statute	Transfers the former Water Resources Commission to the Water Resources Division of DNR, and makes it directly accountable and subject to DNR. The regulatory functions of the former Water Resources Commission are transferred to DHEC.	Yes	No	
103	49-3-50	State	Statute	DNR is authorized to take into consideration in exercising its responsibilities under the Water Resources Planning and Coordination Act: (a) Adequate supplies of surface and groundwaters of suitable quality for domestic, municipal, agricultural, and industrial uses.(b) Water quality facilities and controls to assure water of suitable quality for all purposes. (c) Water navigation for recreational and commercial needs. (d) Hydroelectric power. (e) Flood damage control or prevention measures including zoning to protect people, property, and productive lands from flood losses. (f) Land stabilization measures.(g) Drainage measures, including salinity control. (h) Watershed protection and management measures. (i) Outdoor recreational and fish and wildlife opportunities. (j) Any other means by which development of water and related land resources can contribute to economic growth and development, the long-term preservation of water resources, and the general well-being of all the people of the State.	Yes	Yes	
104	49-4-80	State	Statute	The Department, in consultation with DHEC, is authorized to perform stream flow monitoring for surface water withdrawal permits. DHEC must consult with the Department to determine which, if any, existing stream flow measuring devices should be utilized to quantify the stream flow at the point of the proposed withdrawal. If no existing measuring device is suitable, the Department is authorized to recommend the location of a new measuring device. DHEC must also consult with the Department to quantify the stream flow measured at the specified measuring device that will require a reduction in the applicant's water withdrawal because of inadequate stream flow at the point of withdrawal.	Yes	Yes	
105	49-4-170	State	Statute	Establishes that DNR, along with DHEC, can negotiate agreements, compacts or accords with other States, agencies or the U.S. related to water flow.	Yes	Yes	
106	49-6-10	State	Statute	The Department is authorized as the state agency to administer the Aquatic Plant Management Program and to apply for and receive grants and loans from the federal government or such other public and private sources as may be available for the Aquatic Plant Management Program and to coordinate the expenditure of such funds. The Department is to carry out the purpose of the Aquatic Plant Management Program which is to prevent, identify, investigate, manage, and monitor aquatic plant problems in public waters of South Carolina.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
107	49-6-20	State	Statute	Authorizes the Department to administer the South Carolina Aquatic Plant Management Trust Fund for the purpose of receiving and expending funds for the prevention, management, and research of aquatic plant problems in public waters of South Carolina. Unexpended balances, including interest derived from the fund, must be carried forward each year and used for the purposes specified above. The fund is eligible to receive appropriations of state general funds, federal funds, local government funds, and funds from private entities including donations, grants, loans, gifts, bond issues, receipts, securities, and other monetary instruments of value. All reimbursements for monies expended from this fund must be deposited in this fund.	Yes	Yes	
108	49-6-30	State	Statute	Establishes the South Carolina Aquatic Plant Management Council within the Department and authorizes one representative from the Water Resources Division of the Department, the Wildlife and Freshwater Fish Division of the Department, the Land Resources and Conservation Districts Division of the Department, to serve on the Council. The representative of the Water Resources Division of the Department of Natural Resources shall serve as chairman of the council and shall be a voting member of the council.	Yes	Yes	
109	49-6-40	State	Statute	The Department is authorized to, with the advice and assistance of the council, to develop an Aquatic Plant Management Plan for the State of South Carolina. The plan shall describe the procedures for problem site identification and analysis, selection of control methods, operational program development, and implementation of operational strategies. The plan shall also identify problem areas, prescribe management practices, and set management priorities. The plan shall be updated and amended at appropriate intervals as necessary; provided, however, problem site identification and allocation of funding shall be conducted annually. In addition, the Department shall establish procedures for public input into the plan and its amendments and priorities. The public review procedures shall be an integral part of the plan development process. When deemed appropriate, the Department may seek the advice and counsel of persons and organizations from the private, public, or academic sectors. The Department shall have final approval authority over those sections which do not receive two-thirds approval of the council.	Yes	Yes	
110	49-23-20	State	Statute	(i) The Department must, through regulation, establish specific numerical values for the indices that define each level of drought. (j) The incipient drought phase shall initiate inhouse mobilization by Department personnel and the Drought Response Committee. The Department shall routinely monitor the climatic variables, streamflow, and water levels in potable drinking water supplies and water levels in the above and below ground water tables and lakes, and shall notify the Drought Response Committee and relevant federal, state, and local agencies that a portion of the State is experiencing an incipient drought condition. The Department must increase monitoring activities to identify a change in existing conditions. (k) Statements must be released to the news media by the Department, and appropriate agencies must accelerate monitoring activities for a moderate drought. (l) A drought of this severity normally requires an official declaration by the Department and water withdrawals and use restrictions.	Yes	Yes	
111	49-23-30	State	Statute	Requires DNR to formulate, coordinate, and execute a drought mitigation plan. The plan must be developed consistent with the South Carolina Water Resources Planning and Coordination Act. In carrying out these responsibilities, the Department is authorized to seek and utilize to the extent possible the input, resources, and expertise of other agencies in assisting in drought mitigation planning and response.	Yes	Yes	
112	49-23-50	State	Statute	The Department is authorized to routinely monitor and record data necessary for the determination of drought conditions; make investigations it considers proper to determine whether action by the Department in discharging its duties is necessary; determine levels of drought; establish drought management areas within the state; enable drought mitigation to be accomplished within defined geographical areas; prevent overly broad response to drought; establish drought alert phases; and notify public water suppliers, special purpose districts, and municipal and county governments in the affected drought management area, persons designated on notification lists, and other appropriate agencies and individuals. The Department is authorized to publish notice of each drought alert phase at least once in a newspaper of general circulation in the areas affected and provide notice to the media in each drought management area at each drought alert phase; take any other action appropriate to announce a drought alert; coordinate and implement responses to announced drought alert phases after required notification; execute the regulations promulgated by the Department reasonably necessary to collect and distribute information, convene committees, promote water conservation, govern practice and procedure before the Department, and fulfill its duties and the purposes under the South Carolina Drought Response Act.	Yes	Yes	
113	49-23-60	State	Statute	Authorized the Department to coordinate drought response after consultation with the Drought Response Committee. The Department shall provide administrative support. The Department is also authorized to consult and cooperate with federal agencies and agencies of the states of Georgia and North Carolina in carrying out its responsibilities under the South Carolina Drought Response Act.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
114	49-23-70	State	Statute	(A)Upon the inception of a drought alert phase, the Department is responsible for disseminating public information concerning all aspects of the drought. The initial action in responding to drought must be public education, providing information as to existing and potential conditions and water conservation measures necessary to meet the demand presented at each drought alert phase. (B) The Department shall provide available information on water demands and use to any significant water user, public or private, in order to promote voluntary water conservation. (C) The Department may promulgate regulations to specify categories of nonessential water use and other terms necessary to implement this section. The Department by regulation may provide for the mandatory curtailment of nonessential water uses during periods of severe or extreme drought in drought management areas. Following the determination, the Department shall issue a declaration specifying the drought management areas affected and identifying the categories of nonessential water use to be curtailed. The declaration must be widely distributed to news media and must be published at least once a week in a newspaper of general circulation in each county affected. Any person adversely affected by mitigation or mandatory curtailment may, within ten days after such curtailment becomes effective, submit appropriate information to the Department and obtain relief therefrom as is appropriate. Any declaration shall continue in effect only so long as conditions in a drought management area reasonably require it, and the declaration must be terminated by action of either the Drought Response Committee or the Department, and notice of termination of the declaration must be given as when originally issued. (D) During any drought alert phase, the Department may offer its services to mediate any dispute arising from competing demands for water. The mediation may be undertaken only upon the request of the parties involved and may not be binding. A mediation shall not stop or preclude the Department and the Drought Response Committee from taking any other action authorized by this chapter.	Yes	Yes	
115	49-23-90	State	Statute	The Department is authorized to prepare and distribute a model drought response ordinance or plan, accept for review proposed ordinances or plans or a changes to an ordinance or plan in order to determine that it complies with the State Drought Response Plan.	No	Yes	
116	49-23-100	State	Statute	The Director of the Department is authorized to institute a civil action in the circuit court in the name of the State for injunctive relief from a person in violation of the South Carolina Drought Response Act.	Yes	Yes	
117	49-25-10	State	Statute	Establishes the S.C. State Climatology Office within the Department.	Yes	No	
118	49-25-20	State	Statute	Authorizes the Director to appoint the State Climatologist who shall serve as director of the S.C. State Climatology Office within the Department.	No	No	
119	49-25-30	State	Statute	The State Climatology office is authorized to have the following powers and duties: (1) to serve as a climatological focal point for state government and its agencies; (2) to provide climatological support to the Department and other state agencies as required, including collection and analysis of climatic data, such as drought, flood, rainfall, storms, and other climatic information that affect water management in South Carolina; (3) to acquire, archive, process, and disseminate all climatic and weather information which is or may be of value to policy and decision makers in the State; (4) to act as the representative of the State in all climatological and meteorological matters within and outside the State; (5) to prepare, publish, and disseminate regular climatic information for those individuals, agencies, and organizations whose activities are related to the welfare of the State and are affected by climate and weather, and to serve as a source of climatic information for the citizens of South Carolina; (6) to conduct and report on studies of climate and weather phenomena of significant socioeconomic importance to the State; and (7) to evaluate the significance of natural, man-made, deliberate, and inadvertent changes or modifications in the climate and weather affecting the State, and to report this information to those agencies and organizations in the State which are likely to be affected by the changes or modifications.	Yes	Yes	
120	49-25-40	State	Statute	The Climate Office is authorized to certify copies as being authentic reproductions of weather records held in the State and shall present a report each year to the Board of the Department concerning the activities of the climatic program and other information which the Board may consider necessary.	Yes	Yes	
121	49-27-70	State	Statute	The Department is required to accept filing of an ordinance creating the Lake Wylie Marine Commission. When the Director receives ordinances that are in substance identical from all three counties concerned, he, in accordance with procedures agreed upon, shall, within ten days, certify this fact and distribute a certified single ordinance text to the following : (1) the Secretary of State of North Carolina and the Secretary of State of South Carolina; (2) the clerk to the governing board of each of the three counties; (3) the clerk of superior court of Mecklenburg and Gaston Counties and the clerk of court of York County. Upon request, the Director also shall send a certified single copy of any and all applicable joint ordinances to the chairman of the commission; (4) a newspaper of general circulation in the three counties	Yes	Yes	This statute has been accomplished.

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
122	49-29-50	State	Statute	(A) The Department is authorized to inventory and study all South Carolina rivers and identify the rivers or river segments which possess unique or outstanding scenic, recreational, geological, botanical, fish, wildlife, historic, or cultural values in accordance with Section 49-29-70. (B) Rivers or river segments identified in the inventory as possessing unique or outstanding scenic, recreational, geologic, botanical, fish, wildlife, historic, or cultural values are eligible for the State Scenic Rivers Program and may be designated as an eligible state scenic river by the Department. Rivers or river segments so designated are subject to the completion of a management plan and the acquisition of management rights on adjacent riparian lands. (C) Proposals for including additional rivers or river segments may be made by state agencies, local governments, and other governmental or citizen's groups and submitted to the Department for evaluation and study.	No	Yes	
123	49-29-60	State	Statute	The Department is required to hold a public meeting in the vicinity of the river or river segment proposed for addition to the State Scenic Rivers Program. This public meeting must be conducted before any action by the Department to designate the river or river segment as an eligible state scenic river. The purpose of this meeting is to solicit comments from the public concerning the proposed designation of a river or river segment. Notice of this meeting must be published at least thirty days before the meeting in the State Register and in a newspaper having general circulation in each county containing or bordering the river or river segment under study and in a newspaper having general circulation in the State. Landowners along the proposed river or river segment also must be notified by letter.	Yes	Yes	
124	49-29-70	State	Statute	The Department is required to establish and publish minimum criteria for assessing a river's eligibility and classification under the State Scenic Rivers Program.	Yes	Yes	
125	49-29-80	State	Statute	The Department is required to establish an advisory council for every designated scenic river, after eligibility procedures for a river or river segment are completed by the Department, and the General Assembly ratifies such designation.	Yes	Yes	
126	49-29-90	State	Statute	Following action by the Department declaring a river or river segment eligible as a state scenic river, the Department shall publish a notice of the eligibility in the State Register and provide written notice to the Department of Administration, the Department of Revenue, and the affected units of local government. Notice of eligibility also must be published in a newspaper of general circulation in the State to apprise interested parties of the opportunities under Section 49-29-100. The notice must describe the boundaries of the river or river segment. Following notice of eligibility, the Department shall submit the same to the General Assembly for review.	Yes	Yes	
127	49-29-110	State	Statute	Establishes the Scenic Rivers Trust Fund which the Department is authorized to administer for the purpose of acquiring fee simple or lesser interest in land adjacent to scenic rivers and river segments, legal fees, appraisals, surveys, or other costs involved in the acquisition of those interests. The fund also may be utilized for educational or planning projects associated with the administration and management of the State Scenic Rivers Program. Unexpended balances, including interest derived from the fund, must be carried forward each year and used for the purposes provided in the South Carolina Scenic Rivers Act. No fund money may be expended to acquire an interest in land by eminent domain nor may the funds be expended to acquire interest in land without a recommendation from the Board and the approval of the State Fiscal Accountability Authority or Department of Administration, as applicable. The Board is authorized to report by letter to the presiding officers of the General Assembly and chairmen of the House and Senate Agriculture and Natural Resources Committees each year all funds expended pursuant to this chapter for the previous year, including the amount of funds expended and the uses to which the expenditures were applied. The fund is eligible to receive appropriations of state general funds, federal funds, donations, gifts, bond issue receipts, securities, and other monetary instruments of value. A reimbursement for monies expended from this fund must be deposited in this fund. A fund received through sale, exchange, or otherwise of land acquired under this	Yes	Yes-Implied	
128	49-29-160	State	Statute	The Department is required to formulate comprehensive water and related land use plans for the three classes of scenic rivers. Each plan must address access of electricity, natural gas, and communication lines or other facilities for permitted uses for each class of river facilities. Each plan must also address criteria for permitting the crossing of each class of scenic river by sellers of electric energy, natural gas, or communication services. In developing these criteria, the Department must consider the state of available technology, the economics of the various alternatives, and that electric, natural gas, and communication suppliers are required to deliver their services. The Department must recognize that emergency situations will arise that require immediate action and must make provision in the management plan to allow this action.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
129	49-29-170	State	Statute	Sellers of electric energy, natural gas, or communication services may cross on, over, or under lands designated as part of the Scenic River System provided that the Department certifies that such crossing is consistent with the management plan for those lands. A certificate of consistency shall be issued by the Department upon a finding: (1) that the crossing is necessary to provide electric, natural gas, or communication service; and either (a) that the crossing is consistent with the management plan; or (b) that the extent of deviation from the management plan for the construction, operation, and maintenance of the facility across the scenic river is justified, considering the state of available technology and the nature and economics of the various alternatives, and that the entity responsible for the encroachment will make reasonable mitigation for the impacts caused by the construction, operation, and maintenance of the facility. The Department shall issue a certification of consistency or nonconsistency within thirty days from the receipt of an application. A time extension may be granted upon a mutual agreement of both parties. Certification does not preclude the necessity to obtain other required state and federal authorizations.	Yes	Yes	
130	49-29-180	State	Statute	The Department is authorized to administer and promulgate regulations to carry out the provisions of the Scenic Rivers Act. In addition, the Department is authorized to promulgate further regulations based on the individual attributes of each designated scenic river area if regulations do not defeat, conflict with, or minimize the provisions of the general regulations for each class of scenic river.	Yes	No	
131	49-29-190	State	Statute	The Department is authorized to enter into agreements with local, state, and federal agencies, and private landowners, for the mutual management of a scenic river.	Yes	Yes	
132	49-29-200	State	Statute	The Natural Resources Enforcement Division of the Department and the State Forestry Commission, as well as local sheriffs, constables, and special officers, shall cooperate with the Department in the inspection and enforcement of the provisions of the Scenic Rivers Act.	Yes	Yes	
133	49-30-40	State	Statute	Establishes the Department as the administrator of the Public Waters Nuisance Abatement Fund which is created solely to pay for costs incurred by the State associated with removing unpermitted structures pursuant to the Public Waters Nuisance Abatement Act. The fund may receive appropriations from the general fund, federal funds, donations, gifts, the proceeds of permit fees, and other monetary instruments of value. The proceeds contained in the fund may be carried forward from year to year and do not revert to the general fund of the State. Proceeds from the fund may not be used to pay for costs associated with the removal of an unpermitted structure from licensed lakes.	Yes	Yes-Implied	This fund no longer has any money in it.
134	49-30-80	State	Statute	Requires the Department to contract to remove unpermitted structures that are in public waters, as required by courts, to the extent that the fund contains sufficient funds to cover the cost of removal.	Yes	Yes	This fund no longer has any money in it.
135	49-33-30	State	Statute	Requires the Department Director, or his designee, to serve ex-officio as a non-voting member of the Lake Paul Wallace Authority.	Yes	Yes	
136	50-1-5(5)	State	Statute	Establishes the Department's jurisdiction over the wildlife, fish & plant species within the state.	Yes	Yes	
137	50-1-110	State	Statute	The Department is authorized to dispose of wildlife unlawfully and lawfully taken, shipped, or received for shipment, or found in the possession or under control of a person, which comes into the possession of the Department.	No	No	
138	50-1-160	State	Statute	Authorizes the Department to release confiscated property to an innocent owner or lienholder or dispose of the property.	No	No	
139	50-1-190	State	Statute	The Department is authorized to enter into a cooperative agreement with the US Government, or with the proper authorities thereof, for the protection and management of the wildlife resources of the national forest lands within the State and for the restocking of such lands with desirable species of game, birds and other animals and fish.	Yes	Yes	
140	50-1-200	State	Statute	Defines powers of the Department over national forest lands. Authorizes the Department to close hunting and fishing within such lands under contract with the federal government as determined necessary by the Department.	Yes	No	
141	50-1-250	State	Statute	The Department is authorized to contract with owners of land contiguous to the Catawba River and its tributaries for rights of ingress and egress to such waters over and upon such lands for the use of the public who wish to go lawfully upon said stream and waters.	Yes	Yes	Antiquated Law
142	50-1-260	State	Statute	The Department is required to attach a notice to each unit of impounded property stating the prohibition and the penalties for violations.	Yes	No	
143	50-1-270	State	Statute	Department is authorized as the agency primarily responsible for enforcement and implementation of liability for gross destruction or injury to wildlife, aquatic life, endangered or threatened species, or state lands or waters.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
144	50-1-280	State	Statute	Department is authorized to expend moneys held in the Non-Game Wildlife and Natural Areas Fund in furtherance of its non-game and endangered species programs, Heritage Trust Programs and related educational projects and programs.	Yes	No	
145	50-1-310	State	Statute	Establishes the Department as the Trustees of the Mitigation Trust Fund.	Yes	Yes	
146	50-3-10	State	Statute	Transfers the former SC Wildlife and Marine Resources Department to the Department of Natural Resources.	No	No	
147	50-3-80	State	Statute	Authorizes the Department to conduct continuous investigations regarding the game and fish conditions and laws of the state. Authorizes the Department to annually make a report of its activities to the General Assembly and recommend legislation to the General Assembly conducive to the conservation of wildlife.	No	Yes	
148	50-3-90	State	Statute	Authorizes agents of DNR to conduct game, fish and scientific operations and investigations and may sample fish populations.	No	Yes	
149	50-3-100	State	Statute	Authorizes the Department to acquire, own, sell, lease, exchange, transfer or rent real property alone or with the federal government to provide hunting and fishing opportunities and for the protection, management or propagation fish or game. The Department may accept funds from other entities to implement this statute.	Yes	Yes	
150	50-3-110	State	Statute	Authorizes the Department to have charge of the enforcement officers of the Natural Resources Enforcement Division of the Department and exercise supervision over the enforcement of the laws of the State, regulatory, tax, license or otherwise, in reference to birds, nonmigratory fish, game fish, shellfish, shrimp, oysters, oyster leases, and fisheries.	No	Yes	
151	50-3-130	State	Statute	The Board of the Department is required to prescribe a unique and distinctive official uniform, with appropriate insignia to be worn by all uniformed enforcement officers.	No	No	
152	50-3-140	State	Statute	The Department is required to file with the Secretary of State and Legislative Council for publication in the State Register a description and illustration of the uniform and emblems of the official enforcement officers' uniforms and motor vehicles and a description of the color of such uniforms and vehicles.	No	No	
153	50-3-150	State	Statute	Authorizes the Department to use present uniforms & vehicles and emblems on vehicles until the Board determines otherwise.	No	No	
154	50-3-170	State	Statute	The Department is required to file a quarterly report to each member of the General Assembly explaining the status of each County Fish and Game Fund and Watercraft Fund, to include total funds for each county and an itemized list of expenditures for the past quarter.	Yes	No	
155	50-3-180	State	Statute	Authorizes the Department board as Trustee for the Mitigation Trust Fund.	Yes	Yes	Duplicate Statute
156	50-3-310	State	Statute	Establishes the Director's authority to appoint and remove the law enforcement officers within the Department.	No	No	
157	50-3-315	State	Statute	Defines the duties of Deputy enforcement officers within the Department.	yes	yes	
158	50-3-316	State	Statute	The Department is required to use the criteria as required by the Office of Human Resources and the Department when employing enforcement officers. Establishes the criteria for the Department to consider.	No	No	
159	50-3-320	State	Statute	The Director of the Department is required to deliver commissions from the Secretary of State, after the enforcement officers have filed oaths and bonds as required by Section 50-3-330.	No	No	
160	50-3-340	State	Statute	Authorizes the Department's officers to have statewide authority for the enforcement of all laws relating to wildlife, marine, and natural resources.	Yes	Yes	
161	50-3-370	State	Statute	Authorizes Department officers to obtain information on violations related to bird, non-migratory fish and game laws and to check bag limits.	No	Yes	
162	50-3-380	State	Statute	Authorizes Department officers to obtain search warrants for game and fish violators.	Yes	Yes	
163	50-3-390	State	Statute	Authorizes Department officers with the duty to enforce laws related to bird, non-migratory fish and game laws and prosecute those laws.	Yes	Yes	
164	50-3-395	State	Statute	Authorizes Department officers to issue warning tickets to violators in cases of misdemeanor violations.	Yes	Yes	
165	50-3-396	State	Statute	Authorizes Department officers to use official summons to cite violators for littering.	Yes	Yes	
166	50-3-400	State	Statute	Provides DNR deputy enforcement officers are granted powers and authorities of constables and authority of inspectors.	Yes	Yes	
167	50-3-410	State	Statute	Authorizes Department officers to accept monetary bond in lieu of personal appearance or incarceration.	Yes	Yes	
168	50-3-510	State	Statute	Authorizes the Department to contract for the harvest of timber on any lands held by the Department. The DNR Board is required to determine if the cutting and sale of timber is in the best interest of the Department in the improvement of its lands. The Department must coordinate with the State Forester to have the timber cruised and estimate of value made, and must get their approval before the sale is made.	Yes	Yes	
169	50-3-515	State	Statute	The Department is required to manage and use the timber harvested to provide optimum fish and wildlife habitat for land that was used for agriculture or managed forestland before acquisition by Department.	Yes	Yes	
170	50-3-520	State	Statute	If a sale of timber is recommended by the State Forester, the Department is required to publicly advertise for bids at least three weeks before the closing of the bidding. The Department is authorized to reject any and all bids.	Yes	Yes

183	50-3-1150	State	Statute	Revenues in the Conservation Grant Fund may be used by the Department as provided in the statute.	Yes	Yes	Fund never funded
184	50-3-1120	State	Statute	Establishes the Board as Trustees of the Conservation Grant Fund Board within the Department.	Yes	Yes	Fund never funded
185	50-3-1160	State	Statute	Authorizes the Board to establish the procedures and criteria for awarding grants under the Conservation Grant Fund.	Yes	Yes	Fund never funded
186	50-5-17	State	Statute	Establishes a Flounder Population Study to be administered by the Department. The program shall study the effects of flounder catch limits and the prohibition of artificial illumination produced by motor fuel powered generators on flounder (Paralichthys species), located in the waters of Pawleys Inlet north to the northern terminus of Main Creek at Garden City Beach. For purposes of this resolution, "gigging" means using a prong, spear, or similar device, including a bow and arrow to spear a fish. The program shall run for five years, beginning January 1, 2010, and ending June 30, 2014.	Yes	Yes	Statute expired
187	50-5-20	State	Statute	Establishes the Department's jurisdiction over all saltwater fish, fishing, fisheries and marine resources within the saltwater of the state and the territorial sea. Authorizes the Department to conduct research, surveys, and investigations to manage the fisheries, protect the saltwater and marine habitat and provide for development of salt water fisheries and Mariculture.	Yes	Yes	
188	50-5-25	State	Statute	(a) Authorizes the Department to enforce the laws related to collection of revenues due to the state from the saltwater fishing industries and permitting the use of bottoms and waters. (b) Department may maintain a financial escrow account for violations of this chapter and for sale of items seized pursuant to this chapter. (c) All other revenues related to regulation of saltwater fishing shall be held by the department and used for the conservation of the fisheries. (d) Proceeds from sale of experimental mariculture products produces by the Department shall be deposited in the state general fund to the credit of the Mariculture Resource and Development Fund to promote development of the Mariculture Industry of this state.	Yes	Yes	
189	50-5-30	State	Statute	Provides for DNR's authority in the promulgation of regulations regarding control of fisheries. Authorizes the Department to impose civil penalties and suspend or revoke permits.	Yes	Yes	
190	50-5-32	State	Statute	Authorizes the Department to close commercial or recreational salt water fishing seasons, areas, or activities in emergency. Requires the Department to give notice to the public and notify the appropriate standing committees of the Senate and House of Representatives. Requires the Department to monitor the situation under which the emergency arose and reopen the closed season when the threat to the resource or habitat no longer exists.	no	Yes	
191	50-5-35	State	Statute	Authorizes the Department to open or close a commercial marine fishing season. Requires the Department to give notice to the public.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
192	50-5-45	State	Statute	Authorizes the Department to maintain and publish a list of any species, varieties or strains of non-indigenous organisms known or suspected to present an adverse impact to fish or marine resources of this State.	Yes	Yes	
193	50-5-50	State	Statute	Provides that the Department may prosecute for violations of this chapter.	No	Yes	
194	50-5-55	State	Statute	The Department is authorized to suspend all saltwater privileges and other licenses, permits, and registrations issued by the Department until the penalty is paid in full if the person or entity: (1) fails to pay a penalty arising out of a violation of Marine Resources Act within ten business days following adjudication of the matter; or (2) defaults on a payment plan approved by a presiding magistrate.	Yes	Yes	
195	50-5-65	State	Statute	The Department is authorized to donate any perishable item seized, the sale of which is illegal per se, to a nonprofit entity, at the discretion of the Department, or destroyed provided that any perishable item, the sale of which is illegal only because of the place or manner or method in which or by which it was taken must be sold, donated, or destroyed. The proceeds of any perishable item sold must be retained until final adjudication of the case. Any proceeds of the sale must be returned to the defendant in the event of a verdict of not guilty. (C) Living contraband taken in this State may be returned by the Department to the water. (D) Nonperishable items may be retained by the Department for use by the Department or disposed of according to law. Nonperishable items which are illegal to use or which have no commercial value must be destroyed. (E) Neither an item of contraband nor the value of an item of contraband may inure to the benefit of any employee of the Department.	No	No	
196	50-5-70	State	Statute	The Department is authorized to sell any confiscated device not used or destroyed by the Department at public auction for cash to the highest bidder in the county where it was seized, after having given ten days' public notice of the sale. When the device is of greater value than one thousand dollars, the owner may at any time before sale redeem it by paying to the Department one thousand dollars. When the device is of lesser value than one thousand dollars, the owner may at any time before the sale redeem it by paying to the Department the retail market value.	No	Yes	
197	50-5-85	State	Statute	Authorizes the Department to prohibit or allow trawling or other commercial fishing activity in any sub-zone or specified area therein in or out of season.	Yes	Yes	
198	50-5-90	State	Statute	Establishes the Department's authority to enter and inspect buildings or stop and search fishing vessels.	Yes	yes	
199	50-5-300	State	Statute	Authorizes the Department to issue saltwater residential commercial fishing licenses, and permits for saltwater activities, and allows the Department to accept $25 for these privileges.	Yes	Yes	
200	50-5-305	State	Statute	Establishes the requirements the Department must consider before granting a residential commercial saltwater fishing license. Authorizes the Department to require the applicant to show documentation and identification acceptable to the Department proving the person is a resident of S.C.	No	No	
201	50-5-310	State	Statute	Authorizes the Department to issue saltwater non-resident commercial fishing licenses, and permits for saltwater activities, and allows the Department to accept fees for these privileges. The Department can accept $300 for non-resident commercial saltwater fishing licenses.	Yes	Yes	
202	50-5-320	State	Statute	Authorizes the Department to issue State Shellfish Ground Licenses and allows the Department to accept $75 for the privilege.	Yes	Yes

203	50-5-325	State	Statute	Authorizes the Department to charge fees for commercial equipment licenses. Authorizes the Department to require an owner or operator using commercial equipment not present to affix an ID number and tag issued by the Department to each piece of commercial equipment. Authorizes the Department to charge the following fees for the following equipment: (a)(1) trawls- $125 for residents/$300 for non-resident; (a)(2) traps- $25 for 50 traps/$1 for each trap thereafter for residents; $125 for 50 traps/$5 for each trap thereafter for non-residents; (a)(3) channel nets for taking shrimp-$250 for each; (a)(4) gill nets for taking shad, herring or sturgeon-$10 per 100 net yards or fraction thereof for residents/$50 per 100 net yards or fraction thereof for non-residents; any other gill net or haul seine- $10 per 100 net feet or a fraction thereof for residents; $50 per 100 net feet or a fraction thereof for non-residents; (a)(6) drag dredge $75 for residents/$375 for non-residents; (a)(7) other mechanically operated or boat assisted equipment other than equipment used to set or retrieve licensed equipment $125 for residents/$625 for-non-residents; (a)(8) trot lines with baits or hooks- $10 for residents/$50 for non-residents; (a)(9) any other commercial equipment $10 for each type for residents; $50 per type for non-residents. (B) The Department is authorized to accept applications with specifications as to the vessel on which a trawl or trawls is to be used. (G) The Department is authorized to require an owner or operator who uses commercial equipment without being present to affix an identification number and tag issued by the Department to each piece of commercial equipment while the commercial equipment is in use. The owner and operator are responsible for assuring the number and tag are affixed. (H)The Department is authorized to grant permits for additional equipment types as stated in Section 50-3-340. (L) The Department is authorized to sized and dispose of any commercial equipment which is used while not properly licensed, permitted, or tagged or any equipment used for commercial purposes not specifically allowed for commercial purposes and considered contraband by the Marine Resources Act.	Yes	Yes	
204	50-5-335	State	Statute	Authorizes the Department to grant no more than a cumulative total of 60 licenses for the use of channel nets in any one year.	Yes	Yes	
205	50-5-340	State	Statute	(A) The Department is authorized to grant permits for taking, holding, and propagating fish or other marine resources excluding any marine mammals for: (1) exploratory; (2) experimental; (3) scientific; (4) educational; or (5) commercial display purposes. These permits may authorize activities which would otherwise be unlawful. These permits expire at the pleasure of the Department, but permits granted for exploratory or experimental commercial purposes are limited to no more than two years and may not be renewed. Permits granted pursuant to this section may include conditions as to the areas, times, seasons, types of fishing equipment, species to be taken, catch reporting requirements, disposition of the catch, and other conditions the Department determines necessary. No permittee may take fish or marine resources in violation of permit conditions. (B) The Department is authorized to permit marine resources collected pursuant to exploratory, experimental, or commercial display permits to be used for commercial purposes. Marine resources collected pursuant to scientific or educational permits may not be used for personal consumption, but the resource or the proceeds of its sale may be used by the Department for marketing and promotional purposes. Any product in excess of Department needs may be disposed of according to law. The Department may condition permits to allow sale of marine resources for public display.	Yes	Yes	
206	50-5-345	State	Statute	Authorizes the Department to revoke a permit for taking, holding, and propagating fish or other marine resources, for a violation of a condition of the permit or of a related conservation law.	yes	Yes	
207	50-5-355	State	Statute	Authorizes the Department to accept a fee of $25 for residents or $125 for non-residents for a Bait Dealer License. The Department is authorized to inspect the business premises or floating equipment, or both, of a person applying for a bait dealer license and of a licensed bait dealer engaged in harvesting and selling bait.	Yes	Yes	
208	50-5-360	State	Statute	(a) Authorizes the Department to issue Wholesale Seafood Dealer licenses and accept a fee of $100 for residents and $500 for non-residents for this license. Allows the Department to require applicants to specify the activities in which the applicant intends to engage. Allows the Department to share information in an application for the license to the Department of Agriculture and SCDHEC. (b) Allows the Department to accept a fee of $75 for residents and $375 for non-residents for a Peeler Crab License. (c) Allows the Department to accept a fee of $10 for residents and $50 for non-residents to issue a Molluscan Shellfish License.	Yes	yes	
209	50-5-375	State	Statute	The Department is authorized to require every wholesale seafood dealer to keep and retain accurate records detailing the information required by the Department for a period of not less than one year and shall open the records to the Department for inspection upon reasonable demand.	No	No	
210	50-5-380	State	Statute	Authorizes the Department to collect or require the submission of pertinent data specified pursuant to the federal Fishery Conservation Management Act of 1976 and to collect and analyze data pertinent to protection, propagation, promotion, and management of marine resources.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
211	50-5-390	State	Statute	Authorizes the Department to deny issuance of any permit for commercial fishing equipment or activities to residents of any coastal state which denies the same privilege to South Carolina residents. The Department is authorized to limit the type of fishing equipment used, seasons, and areas where nonresidents may fish in accordance with comparable limitations placed upon South Carolina fishermen by the nonresident's state.	No	No	
212	50-5-505	State	Statute	Authorizes the Department to grant and place conditions on a permit to the owner of a mariculture impoundment or his authorized agent to attach a net on the downstream side or outside of the outlet to harvest fish exiting the impoundment. The Department may condition the permit as to season, type of equipment and times.	Yes	Yes	
213	50-5-510	State	Statute	Authorizes the Department to annually set the channel net seasons, and allows observation of channel net use by the Department. Allows the Department to seize and dispose of contraband.	Yes	Yes	
214	50-5-515	State	Statute	Authorizes the Department to designate areas for channel net use in the salt waters of this State. Authorizes the Department to require Turtle Excluder Devices on channel nets in areas in which TEDs are not required if a significant threat to sea turtles is determined.	Yes	yes	
215	50-5-550	State	Statute	Authorizes the Department to require that minnow traps set in the salt waters of the State have catch and release features and identification tags designated by the Department.	Yes	Yes	
216	50-5-555	State	Statute	Authorizes the Department to inspect traps for compliance at any time and seize and dispose of the trap if they find a violation.	Yes	Yes	
217	50-5-735	State	Statute	Authorizes the Department to issue permits for night trawling of finfish.	Yes	Yes	
218	50-5-740	State	Statute	Authorizes the Department to set the season for blue crab trawling.	Yes	Yes	
219	50-5-755	State	Statute	Authorizes the Department to grant permits to licensed commercial saltwater fisherman to trawl or dredge for finfish, blue crabs, whelks, and horseshoe crabs.	Yes	Yes	
220	50-5-770	State	Statute	Authorizes the Department to exempt trawls utilized by persons holding a valid scientific collection permit granted by the Department.	Yes	Yes	
221	50-5-900	State	Statute	Authorizes the Department to grant permits for the exclusive use of portions of intertidal or subtidal state bottoms or waters for commercial shellfish culture or mariculture.	Yes	Yes	
222	50-5-905	State	Statute	Authorizes the Department to determine the acreage of waters or shellfish bottoms and the acreage capable of producing shellfish if an application is submitted for a proposed area for shellfish culture or mariculture. Allows the department to accept a fee of $25 for the application.	Yes	yes	
223	50-5-915	State	Statute	Authorizes the Department to review and consider applications for Shellfish Culture Permits and Shellfish Mariculture Permits. Authorizes the Department to condition the Shellfish Culture Permits and Shellfish Mariculture Permits as detailed in the statute. Allows the Department to revoke the permits.	Yes	Yes	
224	50-5-920	State	Statute	Authorizes the Department to determine and require mitigation for any adverse impacts to shellfish bottoms or waters.	Yes	Yes	
225	50-5-925	State	Statute	Authorizes the Department to require a person submitting a shellfish culture or mariculture application to publish a notice, in a form satisfactory to the Department, advising all interested persons that the applicant has applied for a Shellfish Culture Permit or Shellfish Mariculture Permit and provide a specific description of the bottoms or waters.	Yes	No	
226	50-5-930	State	Statute	Authorizes the Department to give preference to an existing permittee for Shellfish Culture Permits or Shellfish Mariculture Permits.	Yes	Yes	
227	50-5-935	State	Statute	Authorizes the Department to invoice an annual fee of $5 an acre for Shellfish Culture Permits and Shellfish Mariculture Permits. Authorizes the Department to add a late penalty of ten percent if the annual fee is not paid by March 1. If the Department does not receive the fee and any penalty on or before April 1, the permit is void.	Yes	Yes	
228	50-5-940	State	Statute	Authorizes the Department to allow credit for planting for shellfish bottoms not under permit. Authorizes the Department to require notice and Department approval before planting may occur. Allows the Department to provide incentives to permittees for improved or innovative management and cultivation techniques in the form of additional planting credits or planting variances.	Yes	Yes	
229	50-5-945	State	Statute	Authorizes the Department to accept applications from Shellfish Culture permittees to take shellfish for replanting from state bottoms designated by the Department for that purpose.	Yes	Yes	
230	50-5-950	State	Statute	Authorizes the Department to specify additional terms and conditions for Shellfish Permits and authorizes the Department to revoke or suspend permits for violations.	Yes	Yes	
231	50-5-955	State	Statute	Authorizes the Department to establish and maintain Public Shellfish Grounds.	Yes	Yes	
232	50-5-965	State	Statute	Authorizes the Department to limit the number of areas not under Shellfish Culture Permit or Shellfish Mariculture Permit on which an individual may be able to harvest, and the department may grant individual harvest permits.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
233	50-5-975	State	Statute	Requires that the Department must not reissue a commercial shellfish harvest permit to the person during the remainder of the license year following voluntary surrender of a commercial shellfish harvest permit by a commercial saltwater fisherman.	Yes	Yes	
234	50-5-985	State	Statute	Authorizes the Department to set seasons for taking shellfish, open or close any area for the taking of shellfish for any specified period at any time during the year when biological or other conditions warrant.	Yes	Yes-implied	
235	50-5-995	State	Statute	Authorizes the Department to permit persons and entities engaged in shellfish Mariculture operations to take, possess, and sell maricultured shellfish at any time during the year.	Yes	Yes	
236	50-5-1005	State	Statute	Authorizes the Department to grant permits to persons for shellfish importation and allows the Department to condition the permits.	Yes	Yes	
237	50-5-1010	State	Statute	Authorizes the Department to issue shell removal permits, and to condition the permits. Requires the Department to specify a fixed price for each unit of shell removed. The Department has jurisdiction over all natural shell deposits.	Yes	Yes	
238	50-5-1020	State	Statute	Authorizes the Department to set the conch size of whelk of the genus Busycon taken for commercial purposes.	Yes	Yes	
239	50-5-1100	State	Statute	Authorizes the Department to set seasons for taking shrimp and to promulgate regulations. (e)Authorizes the Department to charge a $25 fee for issuance of resident shrimp baiting licenses and associated tags . Authorizes the Department to charge a $500 fee for the issuance of nonresident shrimp baiting license and associated tags. Authorizes the Department to issue duplicate baiting licenses and charge a $25 fee for residents and a $100 fee for nonresidents. Authorizes the Department to issue duplicate tags for a $1 fee for residents and a $4 fee for nonresidents. The Department is authorized to retain all monies derived from the issuance of all licenses and tags for the purposes of administration and enforcement of the Marine Resources Act and to conduct an annual survey of the fishery.	Yes	Yes	
240	50-5-1105	State	Statute	Authorizes the Department to certify bona fide bait dealers and to inspect the business premises and floating equipment of a person engaged in harvesting and selling shrimp to be used as bait.	Yes	Yes	
241	50-5-1300	State	Statute	Authorizes the Department to grant permits to licensed wholesale seafood dealers to import and possess sponge crabs from states where taking and selling are lawful.	Yes	Yes	
242	50-5-1310	State	Statute	Authorizes the Department to issue permits to persons engaged in clam mariculture for the capture, temporary possession, and transport of blue crabs or stone crabs of any size.	Yes	Yes	
243	50-5-1320	State	Statute	Authorizes the Department to require crab fisherman to register buoy colors.	Yes	Yes	
244	50-5-1330	State	Statute	Authorizes the Department to permit the taking or possession of horseshoe crabs, and authorizes the Department to grant permits to institutions or persons engaged in science instruction or curation to possess horseshoe crabs or parts thereof for such proposes.	Yes	Yes	
245	50-5-1500	State	Statute	Authorizes the Department to regulate the taking of diadromous fish. The Department may grant permits to commercial saltwater or commercial freshwater fisherman for that purpose.	Yes	Yes	
246	50-5-1505	State	Statute	Authorizes the Department to monitor the various drainage basins and water bodies of this State and may promulgate regulations to set seasons, take (catch) and size limits, areas, methods, times, equipment requirements, and catch reporting requirements for taking of shad, herring, and sturgeon as needed for proper management in each basin or water body as a zone.	Yes	Yes	
247	50-5-1555	State	Statute	Authorizes the Department to grant permits to licensed commercial saltwater or commercial freshwater fishermen to engage in the fishery for eels in the waters of this State for commercial purposes. The Department is also authorized to define an approved fyke net for the taking of eels and may permit and limit its use.	Yes	Yes	
248	50-5-1560	State	Statute	Authorizes the Department to seize any boat, boat trailer, engine, net, rigging, related equipment, and catch of a person charged with a violation pertaining to setting nets in proximity to navigation jetties.	Yes	Yes	
249	50-5-1915	State	Statute	Authorizes the Department to regulate charter fishing vessels, and public fishing piers and allows the Department to require reporting of their activities.	Yes	Yes	
250	50-5-1935	State	Statute	Authorizes the Department to produce, create and design a commemorative stamps and collector items, and allows them to be sold for not less than $5.50 and the proceeds must be retained by the Department.	Yes	Yes	
251	50-5-1940	State	Statute	Authorizes the Department to produce, create and design a commemorative stamp and license and develop saltwater fisheries prints and related articles. Allows the Department to administer, sale and distribute these articles.	Yes	Yes	
252	50-5-1950	State	Statute	Authorizes one member of the DNR Board to serve ex officio on the Saltwater Recreational Fisheries Advisory Committee.	Yes	Yes	
253	50-5-2100	State	Statute	Authorizes the Department to issue and regulate Mariculture permits for collection, importation, and holding of saltwater game fish, or for other fish for which there are size and possession limits.	Yes	Yes	
254	50-5-2105	State	Statute	Authorizes the Department to grant permits to licensed wholesale seafood dealers for sale of saltwater game fish or for other fish for which there are size or possession limits grown in permitted Mariculture operations.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
255	50-5-2305	State	Statute	Authorizes the Department to provide permits to remove live wild rock solely for scientific or educational purposes. (b) Department shall facilitate the aquaculture of live rock in state waters, establish a permitting system, and promulgate regulations to guide the operation.	Yes	Yes	
256	50-5-2500	State	Statute	Authorizes the Department to establish point values for suspension of saltwater privileges.	Yes	Yes	
257	50-5-2505	State	Statute	Authorizes the Department to enforce a point system related to saltwater fishing licenses, and enables the Department to suspend a saltwater fishing license for accumulation of too many points.	Yes	Yes	
258	50-5-2510	State	Statute	Provides that the Department must suspend for one year the related saltwater privileges and associated licenses, stamps, and permits issued to a person who has accumulated eighteen or more points under any point category.	Yes	Yes	
259	50-5-2515	State	Statute	Requires that the Department give notice of suspension to a person or entity in writing, return receipt requested, and inform the person or entity that the suspended licenses, permits or stamps must be returned to the Department within ten days.	Yes	Yes	
260	50-5-2530	State	Statute	Authorizes the Department to administer and enforce Article 25 of the Marine Resources Act and promulgate regulations for its implementation. Also provides that the Department must inform the public about the point system.	Yes	Yes	
261	50-5-2700	State	Statute	Authorizes the Director, or his designee, to serve on the Atlantic States Marine Fisheries Compact.	Yes	Yes	
262	50-5-2725	State	Statute	Authorizes the Department to issue an annual permit to a boat or vessel to take sharks for commercial purposes in state waters.	Yes	Yes	
263	50-9-20	State	Statute	Authorizes the Department to issue an annual license, permit, or tag that expires the day before the anniversary of the date of its issuance.	Yes	Yes	
264	50-9-30	State	Statute	Authorizes the Department to require an applicant to furnish proof of residency in order to receive a residential recreational license, permit or tag.	no	No	
265	50-9-40	State	Statute	Authorizes the Department to issue and sell hunting and freshwater fishing licenses. Authorizes the Department to receive fees collected by license sales vendors in the time and manner described by the Department.	Yes	Yes	
266	50-9-80	State	Statute	Authorizes the Department to charge fees for duplicate licenses, permits or tags. (1) The Department may charge for duplicate licenses or permits a $3 fee ($1 the issuing vendor may retain); (2) no fee for duplicate disability or lifetime licenses may be charged by the Department; (3) replacement non-game fish tag- $1 fee for residents per tag/$5 per tag for non-residents; (4) duplicate antlerless deer tags $1 per tag.	Yes	Yes	
267	50-9-310	State	Statute	Authorizes the Department to establish hunter education programs on safe hunting, firearms, and archery. The Department must include the selection, training and certification of instructors appropriate course materials and content and criteria for successful course completion. The Department shall authorize the issuance of certificate of completion for successful completion of the course.	Yes	Yes	
268	50-9-410	State	Statute	Authorizes the Department to issue commercial non-game freshwater fishing licenses. The Department may charge $50 for residents ($1 the sales vendor may retain); $1,000 for non-residents ($20 the sales vendor may retain).	Yes	Yes	
269	50-9-430	State	Statute	Authorizes the Department to accept a fee of $10 for a scientific collection permit.	Yes	Yes	
270	50-9-450	State	Statute	Authorizes the Department to issue a commercial fur license for $25 for residents and $200 for non-residents.	Yes	Yes	
271	50-9-460	State	Statute	Authorizes the Department to issue alligator propagation facility permits. (a) The Department is authorized to accept an application fee of $500 for the permit. (b) Upon approval of the application the Department may accept $100 to issue the permit. The Department may accept $100 to renew the permit.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
272	50-9-510	State	Statute	Authorizes the Department to issue hunting privileges to residents for (A)(1)(a) annual statewide hunting license for $12 ($1 retained by issuing vendor); (b) 3-year statewide hunting license $36 ($3 retained by vendor); (c)lifetime state-wide hunting license $300.(A)(2)The Department may issue a residential annual statewide apprentice hunting license for $12 ($1 vendor retains). (A)(3)The Department may issue non-resident hunting licenses for (a)3-day temporary statewide hunting license for $40 ($1 retained by issuing vendor); (b) 10-day temporary statewide hunting license $75 ($2 retained by vendor); (c)annual state-wide hunting license $125 ($2 retained by the vendor).(A)(4)The Department may issue a non-residential annual statewide apprentice hunting license for $125 ($2 vendor retains). (B) Department may issue a resident big-game permit and charge (1)(a) annual big game permit $6 ($1 vendor retains); (b) 3-year big game permit $18 ($3 vendor retains). (2) The Department may issue a non-resident big game permit and charge (a) for an annual big game permit $100 ($2 vendor retains). (C)The Department may issue residents wildlife management area (WMA) permits(a) annual WMA permit for $30.50 ($1 retained by vendor); (b) 3-year WMA permit $91.50 ($3 retained by vendor); (c)(2) Department is authorized to issue temporary WMA permits from the Department's designated licensing locations for Department specified hunting events for $5.50 ($.50 retained by vendor).(C)(3) The Department may issue non-residents (a) WMA permit for $76 ($1 retained by vendor). (D) The Department may issue migratory game bird permits to residents and non-residents at no cost. (E) The Department may issue migratory waterfowl permits, in addition to the federal requirements, residents and non-residents must purchase a permit for $5.50 ($.50 retained by vendor). (F) The Department may issue an annual individual state-wide shooting preserve license for $8.50 ($1.00 retained by vendor).	Yes	Yes	
273	50-9-515	State	Statute	Authorizes the Department to issue combination state-wide privileges for hunting including big-game and freshwater fishing for residents (a) annual combo license for $25.00 ($2.00 retained by vendor); (b) 3-year combo license $75.00 ($6.00 retained by vendor); (2) hunting including on WMAs, big-game and freshwater fishing for residents (i) annual sportsmen's license for $50.00 ($2.00 retained by vendor); (ii) 3-year sportsmen's license $150.00 ($6.00 retained by vendor); (b) residents at least 16 years old but not 18 years old may purchase an annual junior sportsmen's license for $16.00 ($1 retained by vendor).	Yes	Yes	
274	50-9-520	State	Statute	Authorizes the Department to issue a lifetime statewide combination license for residents (A)(1) under two years of age for a $300 fee; (2) at least two but not over 16 for a $400 fee; (3) at least 16 but less than 64 for a $500 fee. (B) Once the resident receives the combination license, residents may also acquire a statewide recreational saltwater fishing license for (1) under two years of age for a $120 fee; (2) at least two but less than 16 for a $160 fee; (3) at least 16 but less than 64 for a $200 fee. (C) Once the resident receives the combination license, resident can also obtain a license for hunting migratory waterfowl for (1) under 2 years of age for a $66 fee; (2) at least 2 but less than 16 for a $88.00 fee; (3) at least 16 but less than 64 for a $100 fee.	Yes	Yes	
275	50-9-525	State	Statute	Authorizes the Department to issue licenses for disabled residents for no fee and provides for recertification and waivers.	Yes	Yes	
276	50-9-530	State	Statute	Authorizes the Department to issue licenses at no cost for residents born before July 1, 1940. (B) Residents born after June 30, 1940 who have obtained the age of 64 may obtain a senior lifetime hunting and fishing license for $9.00($1 retained by vendor). (C)Residents born after June 30, 1979 who are at least 64 and have not completed hunter education certification may retain senior lifetime fishing licenses for $9.00($1 retained by vendor), upon completion of hunter education course, licensee may apply to the Department for additional lifetime hunting privileges at no cost. (D) A resident member of the Catawba Indian Tribe, upon application may obtain a Catawba Hunting and Fishing license at no cost. (E) A resident Catawba Indian Tribe member born after June 30, 1979 who has not completed hunter education certification may retain a fishing licenses at no cost, upon completion of hunter education course, licensee may apply to the Department for additional hunting privileges at no cost. (G) No cost to a Catawba hunting and fishing licensee for any other tags required by law or recreational hunting and fishing except Department hunting and fishing privileges controlled by lottery.	Yes	Yes	
277	50-9-535	State	Statute	Authorizes the Department to convert a resident lifetime hunting, lifetime combination, lifetime freshwater fishing, or lifetime saltwater recreational fishing license who obtains the age of 64 to a senior lifetime license and charge a fee of $9.00 ($1.00 retained by vendor).	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
278	50-9-540	State	Statute	Authorizes the Department to issue (A) for the privilege of recreational statewide fishing in saltwater: (1) a resident must purchase: (a) a fourteen day temporary saltwater fishing license for five dollars, one dollar of which the issuing sales vendor may retain; (b) an annual saltwater fishing license for ten dollars, one dollar of which the issuing sales vendor may retain; (c) a three year saltwater fishing license for thirty dollars, one dollar of which the issuing sales vendor may retain; (d) a lifetime statewide saltwater fishing license for three hundred dollars at designated licensing locations; or (e) any other license which grants saltwater fishing privileges; (2) a nonresident must purchase: (a) a fourteen day temporary saltwater fishing license for eleven dollars, one dollar of which the issuing sales vendor may retain; (b) an annual saltwater fishing license for thirty-five dollars, one dollar of which the issuing sales vendor may retain; (c) a three year saltwater fishing license for one hundred five dollars, three dollars of which the issuing sales vendor may retain; or (d) any other license which grants saltwater fishing privileges. (B) For the privilege of recreational statewide fishing in freshwater: (1) a resident must purchase: (a) a fourteen day temporary freshwater fishing license for five dollars, one dollar of which the issuing sales vendor may retain; (b) an annual freshwater fishing license for ten dollars, one dollar of which the issuing sales vendor may retain; (c) a three year freshwater fishing license for thirty dollars, three dollars of which the issuing sales vendor may retain; (d) a lifetime statewide freshwater fishing license for three hundred dollars at designated licensing locations; or (e) any other license which grants freshwater fishing privileges; (2) a nonresident must purchase: (a) a fourteen day temporary freshwater fishing license for eleven dollars, one dollar of which the issuing sales vendor may retain; (b) an annual freshwater fishing license for thirty-five dollars, one dollar of which the issuing sales vendor may retain; (c) a three year freshwater fishing license for one hundred five dollars, three dollars of which the issuing sales vendor may retain; or (d) any other license which grants freshwater fishing privileges. (C) For the privilege of operating a public fishing pier in the salt waters of this State, the owner or operator must purchase an annual saltwater public fishing pier license. For a pier with a total length:(1) of one hundred feet or less, the fee is one hundred fifty dollars;(2) greater than one hundred feet, the fee is three hundred fifty dollars.(D) For the privilege of operating a charter fishing vessel in the salt waters of this State, the owner or operator must purchase an annual charter vessel license for each vessel. For a vessel: (1) to carry six or fewer passengers, the fee is one hundred fifty dollars;(2) to carry seven but no more than forty-nine passengers, the fee is two hundred fifty dollars; (3) to carry fifty or more passengers, the fee is three hundred fifty dollars.	Yes	Yes	
279	50-9-610	State	Statute	Authorizes the Department to permit gear for taking nongame freshwater fish. Authorizes the Department to charge the following fees: (1) a tag for each eel pot, at five dollars a tag for residents and fifty dollars a tag for nonresidents; (2) a tag for each fyke net, at ten dollars for residents and fifty dollars for nonresidents; (3) a tag for each gill net, at five dollars a tag for residents and fifty dollars a tag for nonresidents; (4) a tag for each hoop net, at ten dollars a tag for residents and fifty dollars a tag for nonresidents; (5) a tag for each trap, at five dollars a tag for residents and fifty dollars a tag for nonresidents; (6) a tag for each trotline, not to exceed fifty hooks each, at two dollars fifty cents a tag for residents and fifty dollars a tag for nonresidents; (7) a permit for using up to fifty jugs, at five dollars a permit for residents and fifty dollars for nonresidents; (8) a permit for using up to fifty set hooks, at five dollars a permit for residents and fifty dollars for nonresidents.	Yes	Yes	
280	50-9-630	State	Statute	Establishes Federal Migratory Hunting and Conservation stamp requirements, endorsements, and fees which may not exceed the stamp costs set by the USFWS plus the fulfillment costs set by the stamp fulfillment contractor plus $1.00 ($1.00 retained by vendor) and allows the Department to issue the stamp. The Department is authorized to remit stamp revenue and fulfillment costs as provided in an MOA.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
281	50-9-650	State	Statute	(A)(1) For the privilege of hunting and taking deer on property with a Deer Quota Program permit, a person must obtain the required hunting license, any other required permits, and have access and authorization to utilize Deer Quota Program tags for the property on which the person is hunting. (2) A landowner or lessee may apply to the Deer Quota Program for a permit at a cost of fifty dollars per land tract application. The applicant may request a quota for antlerless deer, antlered deer, or both antlered and antlerless deer. The department shall determine an appropriate number of Deer Quota Program tags for antlered and antlerless deer to be issued under each permit, and there is no cost for these tags. (B)(1) For the privilege of hunting and taking deer on property without a Deer Quota Program permit, a person must obtain the required hunting license, any other required permits, and a set of individual deer tags from the department issued in the person's name. (2)(a) With the purchase of a South Carolina hunting license and a big game permit, a resident shall be issued eight date-specific individual antlerless deer tags which are valid only on specified days and three unrestricted individual antlered deer tags. Persons under the age of sixteen, lifetime, and gratis licensees may receive these tags upon request to the department. Residents, including persons under the age of sixteen, lifetime, and gratis licensees also may purchase: (i) two antler restriction individual antlered deer tags valid for deer with a minimum of four points on one antler or a minimum twelve-inch inside antler spread for five dollars per tag; and (ii) additional individual antlerless deer tags for five dollars per tag. (b) Fees for nonresident deer tags are as follows: (i) fifty dollars for the first antlered deer tag and twenty dollars for each additional antlered deer tag up to a maximum of four tags; two of which must be an antler restriction individual antlered deer tag valid only for deer with a minimum of four points on one antler or a minimum twelve-inch inside antler spread; and (ii) ten dollars per individual antlerless deer tag.	Yes	Yes	
282	50-9-655	State	Statute	Authorizes the Department to issue a annual pig transport and release permit for $50, an annual pig enclosure permit for $50.	Yes	Yes	
283	50-9-660	State	Statute	Authorizes the Department to establish an (1) Alligator Draw Hunt Program and Private Alligator Program and allows an application fee of $10. If successful, the applicant can obtain one Alligator Tag for $100. (2) Allows the Department to charge a property permit fee for participation in Private Lands Alligator Program for $10 and cost for tags issued are $10 each. (3) Establishes nonresident alligator hunting fee 16 years or older under alligator management program and authorizes the Department to accept $200 ($4 retained by vendor).	Yes	Yes	
284	50-9-665	State	Statute	Authorizes the Department to issue bear tags for (1) residents $25 per tag ($1 retained by vendor); (2) non-resident $100 per tag ($2 retained by vendor). Application fee of $10 may be charged for bear tags in game zones other than Game Zone 1. Youth under 16 are required to obtain youth tags for bear at no cost.	Yes	Yes	
285	50-9-670	State	Statute	Authorizes the Department to issue migratory waterfowl permits and sell commemorative stamps as collector's items which must be sold at a price not less than $5.50. Department may retain proceeds. Revenue may only be used for cost of printing, promoting and producing the stamp and for migratory waterfowl projects specified by the DNR Board for the development, protection and propagation of waterfowl in this state. No funds may be used for administrative salary and all balances must be carried over annually.	Yes	Yes	
286	50-9-675	State	Statute	Authorizes the Department to issue a falconry permit and charge a fee of $100 for the permit.	Yes	Yes	
287	50-9-720	State	Statute	Authorizes the Department to permit physically or mentally disabled persons, residents of an orphanage or another eleemosynary institution of this State, or a Boy or Girl Scout to hunt or fish for up to three consecutive days within a county of this State without obtaining a license.	Yes	Yes	
288	50-9-730	State	Statute	Authorizes the Department to establish exemptions for fishing events from licensing requirements and set free hunting days.	Yes	Yes	
289	50-9-740	State	Statute	Authorizes the Department to designate youth hunting days and establish requirements.	Yes	Yes	
290	50-9-910	State	Statute	Authorizes the Department, unless otherwise specified, to use revenue from the fines and forfeitures for violations of other sections of this title and for all other offenses investigated or prosecuted by the Department exclusively for law enforcement operations and any remaining balances must be retained and carried forward by the Department and used for the same purposes.	Yes	no	
291	50-9-920	State	Statute	Directs the Department on how to credit the revenue from the sale of privileges, licenses, permits and tags.	No	no	
292	50-9-950	State	Statute	Establishes the Fish and Wildlife Protection Fund within the Department and directs the revenue that is credited to this fund.	Yes	No	
293	50-9-955	State	Statute	Establishes the Fish and Wildlife Deferred License Fund within the Department.	Yes	No	
294	50-9-960	State	Statute	Establishes the Marine Resources Fund within the Department and directs the revenue that is credited to this fund.	Yes	No	
295	50-9-965	State	Statute	Establishes the Marine Resources Deferred License Fund within the Department.	Yes	No	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
296	50-9-970	State	Statute	Establishes the County Game and Fish Fund within the Department and directs the revenue that is credited to this fund. Established that the fund must be used for the protection, promotion, propagation and management of fisheries and wildlife.	Yes	Yes	
297	50-9-1120	State	Statute	Establishes a point system for the Department to administer and suspend licenses related to hunting and freshwater fishing violators.	Yes	Yes	
298	50-9-1130	State	Statute	Authorizes the Department to deduct points for hunter education completion, and allows promulgation of regulations to enact this section.	Yes	Yes	
299	50-9-1140	State	Statute	Authorizes the Department to suspend for one year hunting and fishing privileges of a person who has eighteen or more points.	Yes	Yes	
300	50-9-1150	State	Statute	Authorizes requirements for Department notice and Department review of suspension of a license that has accumulated sufficient points.	Yes	Yes	
301	50-9-1180	State	Statute	Authorizes Department administration and promulgation of regulations to enforce Article 11. Department is required to give notice of the point system at the time of sale.	Yes	Yes	
302	50-11-20	State	Statute	Establishes the Migratory Waterfowl Committee within the Department, which manages the stamp program and the funds related to the program.	Yes	Yes	
303	50-11-34	State	Statute	Authorizes the Department to delineate the boundaries of the coves on Lake Marion to which a prohibition applies and shall place appropriate markers within these boundaries identifying the area as closed to migratory waterfowl hunting.	Yes	Yes	
304	50-11-96	State	Statute	Authorizes the Department to issue a permit authorizing the use of a fertility control agent or chemical into wildlife for certain purposes. The Department is also authorized to promulgate regulations to implement and regulate this section.	Yes	Yes	
305	50-11-105	State	Statute	Authorizes the Department to carry out operations related to wildlife disease control, regulations of shipments and euthanasia. The Department in accordance with the APA and to ensure the continued health and safety of wildlife is authorized to promulgate and enforce reasonable regulations to control or prohibit the shipment within, export from, or import into this state, disease control and euthanasia.	Yes	Yes	
306	50-11-180	State	Statute	Authorizes the Department to deny or revoke a permit for trapping or snaring quail, in its discretion.	Yes	Yes	
307	50-11-310	State	Statute	The Department is authorized to promulgate regulations in accordance with the APA to establish the seasons for the hunting and taking of deer, methods for the hunting and taking of deer, and other restrictions for the hunting and taking of deer on wildlife management areas, heritage trust lands, and properties owned or leased by the Department.	Yes	Yes	
308	50-11-390	State	Statute	Establishes the Department's authority over game zones. Also authorizes the Department to issue individual tags for antlerless deer and allows the Department to suspend the taking of antlerless deer or revoke a quota permit or tag when conditions warrant.	Yes	Yes	
309	50-11-430	State	Statute	Department is authorized to establish a Bear Management program and establish conditions for taking, including methods, areas, times, seasons and other conditions to control the harvest of bear. The open season for hunting and taking bear in Game Zone 1 for still gun hunts is October 17 through October 23; for party dog hunts is October 24 through October 30. A party dog hunt in Game Zone 1 may not exceed twenty-five participants per party and shall register with the department by September first.In Game Zones 2, 3, and 4 where the department declares an open season, the department shall determine an appropriate quota of tags to be issued in each game zone, or county within a game zone, and shall further promulgate regulations necessary to properly control the harvest of bear. The department may close an open season at any time, provided that the department gives at least twenty-four hours' notice to the public of the closure. (C) In Game Zones 2, 3, and 4 where the department declares an open season for hunting and taking bears on wildlife management areas, and all other areas under the ownership, control, or lease of the department, the season will be set by the department. The department may close an open season at any time, provided that the department gives at least twenty-four hours' notice to the public of the closure. (D) In order to properly implement the provisions of subsections (B) and (C), any bear taken must be tagged with a valid bear tag and reported by midnight of the day of the harvest to the department as prescribed. The department shall provide a report of a one-year study by July 1, 2018, to the Chairman of the Senate Fish, Game and Forestry Committee and the Chairman of the House Agriculture, Natural Resources and Environmental Affairs Committee. The report will include, but will not be limited to, the harvest summary of Black Bear in Game Zones 1-4.	Yes	Yes	
310	50-11-520	State	Statute	Authorizes the Department to make a special study, in a game zone of this State, and after such a study declare other open or closed seasons of such duration as it considers advisable for the taking of turkeys. The Department may declare an open season in any of the game zones and on WMA lands by promulgating regulations in accordance with the APA to establish the dates, places, and bag limits and may set the season and other conditions for hunting and taking wild turkeys on WMA lands.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
311	50-11-525	State	Statute	Authorizes the Department to promulgate regulations for wildlife management areas, heritage trust lands, and other properties owned or leased by the Department to establish seasons, dates, areas, bag limits, and other restrictions for hunting and taking of wild turkey.	Yes	Yes	
312	50-11-530	State	Statute	Authorizes the Department to promulgate emergency regulations for harvesting of wild turkey in game zones.	Yes	Yes	
313	50-11-580	State	Statute	Requires the Department to conduct analysis and report on wild turkey resources in SC and issue a draft report recommending any changes to the wild turkey season and bag limits and provide the report to the General Assembly within 180 days of the conclusion of the third turkey season following the effective date of the section. (June 30, 2015).	Yes	No	This has been done and is not an ongoing duty.
314	50-11-715	State	Statute	Allows night hunting coyotes, armadillo and feral hog if the property is registered with the department.	yes	yes	
315	50-11-740	State	Statute	Authorizes the Department to sell any confiscated device at public auction for cash to the highest bidder and pay over the net proceeds, after payment of any proper costs and expenses of the seizure, advertisement, and sale, including any proper expense incurred for the storage of the confiscated device, to the State Treasurer for deposit in the County Game and Fish Fund.	Yes	Yes	
316	50-11-745	State	Statute	Authorizes the Department to release confiscated property to an innocent owner or lienholder or dispose of the property.	No	no	
317	50-11-760	State	Statute	Requires the Department to suspend the hunting privileges of a person convicted of hunting from a public road or railroad right of way for one year from the date of conviction.	Yes	Yes	
318	50-11-810	State	Statute	Authorizes the Department to regulate the taking of exotic game birds, provide methods and regulate areas.	Yes	Yes	
319	50-11-840	State	Statute	Authorizes the Department to issue a permit for the removal of an active nest or eggs that constitute a public safety threat or when birds are causing damage to property.	Yes	Yes	
320	50-11-854	State	Statute	Authorizes the Department to establish seasons and bag limits for the hunting and taking of crows consistent with the federal regulation governing those activities.	Yes	Yes	
321	50-11-860	State	Statute	Authorizes the Department to designate and establish sanctuaries for wildlife and enter into agreements with landowners for this purpose.	Yes	Yes	
322	50-11-880	State	Statute	Authorizes the Department to take species from in or around a wildlife sanctuary if it constitutes a threat to the health, safety, and welfare of the public or to itself, or other species in, on, or around the sanctuary. The wildlife must be taken by Department personnel or other persons acting under their supervision and the authorization for the taking limits the number of animals taken and the days, times, and methods to be used.	Yes	Yes	
323	50-11-980	State	Statute	Requires the Department to post the general outline of sanctuaries and during the nesting season conspicuously post bird nesting areas.	Yes	Yes	
324	50-11-1050	State	Statute	Authorizes the Department to issue special permits for taking destructive wildlife, for scientific or other purposes.	Yes	Yes	
325	50-11-1090	State	Statute	Authorizes the Department to, during any season of the year, permit the taking of any game animal and prescribe the method by which they may be taken when they cause damage to crops or property or when they pose a significant human health risk.	Yes	Yes	
326	50-11-1105	State	Statute	Authorizes the Department to declare a closed season when game cannot protect themselves and allows the Department to provide procedures and declare penalties. The Department is required to give notice of the closed season.	Yes	Yes	
327	50-11-1110	State	Statute	Authorizes the Department to close or shorten the open season upon request of county legislative delegation and allows the Department to provide procedures and declare penalties. The Department is required to give notice.	Yes	Yes	Antiquated statute
328	50-11-1120	State	Statute	Authorizes the Department to declare open season on foxes upon request of county legislative delegation.	No	no	Antiquated statute
329	50-11-1150	State	Statute	Authorizes the Department to trap predatory animals.	Yes	Yes	
330	50-11-1170	State	Statute	Requires the Department to cooperate with the employees of the United States and its agencies in trapping programs and provides that the Department may accept aid and advice from federal employees.	Yes	Yes	
331	50-11-1180	State	Statute	Authorizes the Department to issue permits to collect protected wildlife for scientific and propagating purposes and to issue penalties. The Department may accept a $10 fee for the application. If renewed, there is a $10 fee.	Yes	Yes	
332	50-11-1200	State	Statute	Authorizes the Department to license and regulate shooting preserves which are privately owned and operated.	Yes	Yes	
333	50-11-1210	State	Statute	Authorizes the Department to charge a fee of $200 for the first 100 acres of shooting preserve area, plus $50 for each additional 100 acres.	Yes	Yes	
334	50-11-1250	State	Statute	Authorizes the Department to designate additional legal shooting preserve species by regulation.	Yes	Yes	
335	50-11-1300	State	Statute	The Department is required not to furnish game for the stocking of any preserve provided for by Article 7.	No	no	
336	50-11-1370	State	Statute	The Department is authorized to issue a commercial quail breeders license for $5, and each license must be numbered by the Department.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
337	50-11-1390	State	Statute	Authorizes the Department to revoke a breeder license and refuse to issue a breeder license for violation or failure to cooperate with the Department in a desirable manner.	No	no	
338	50-11-1420	State	Statute	Authorizes the Department to accept invoices showing the number of quail shipped or sold and to whom it was shipped or sold for pen-raised quail sold or shipped in this state.	Yes	no	
339	50-11-1750	State	Statute	Authorizes the Department to regulate the shipping of game birds and animals.	Yes	Yes	
340	50-11-1920	State	Statute	Authorizes the Department to promulgate regulations to enforce the provisions pertaining to the sale of exotic farm-raised venison. Allows the Department to issue a permit at no cost to a food service establishment and requires permitees to maintain adequate records for inspection by the Department.	Yes	Yes	
341	50-11-2100	State	Statute	Requires the Department to promulgate regulations to permit and regulate field trials during the year including the closed season.	No	no	
342	50-11-2200	State	Statute	Establishes the Department's authority to establish, operate and maintain Wildlife Management Areas. The Department shall acquire sufficient wildlife habitat through lease or purchase or otherwise to establish wildlife management areas for the protection, propagation, and promotion of fish and wildlife and for public hunting, fishing, and other natural resource dependent recreational use. The Department may not have under lease at any one time more than one million six hundred thousand acres in the wildlife management area program. The Department may not pay more than fair market value for the lease of lands in the area. The Department may not lease land for the program which, during the preceding twenty-four months, was held under a private hunting lease.	Yes	Yes	
343	50-11-2300	State	Statute	Creates the Operation Game Theft Program which is operated in the Department.	Yes	Yes	
344	50-11-2310	State	Statute	Authorizes the Board of the Department to issue rewards for providing information leading to the arrest of any persons for violations of natural resources laws.	Yes	Yes	
345	50-11-2320	State	Statute	Authorizes the Operation Game Theft program funds be expended in accordance with the laws of the state and requires certain funds be used first.	Yes	Yes	
346	50-11-2450	State	Statute	Authorizes the Department to require annual reports for commercial fur licenses and deny licenses for failure to report.	Yes	No	
347	50-11-2470	State	Statute	Authorizes the Department to issue a fur buyer's license at a cost of $100 for residents and $200 for non-residents.	Yes	Yes	
348	50-11-2475	State	Statute	Authorizes the Department to issue a fur processor's license at a cost of $200.	Yes	Yes	
349	50-11-2490	State	Statute	Authorizes the Department to confiscate any fur, pelt, or hide not properly tagged or logged and declared contraband. All fur buyers and processers other than retailers must provide the Department with a daily register on forms provided by the Department with the name and address of each person from whom any furs are purchased, the number of the seller's commercial fur license, and the number and types of furs, pelts, or hides purchased. Not later than the tenth day of each month, all buyers and processors shall furnish the Department all of the daily register sheets for the previous month.	Yes	Yes	
350	50-11-2510	State	Statute	Authorizes the Department to issue CITES tags and to charge a processing fee of three dollars for each order. Authorizes the Department to limit the number of tags issued for each species and the area in which they may be used.	Yes	Yes	
351	50-11-2520	State	Statute	Authorizes the Department to inspect business premises and records of licensees that are licensed under the article and revoke licenses for failure to comply.	Yes	Yes	
352	50-11-2530	State	Statute	Authorizes the Department to confiscate illegal traps, devices, furs, pelts, and hides, sell confiscated items and upon conviction of the owner, dispose of the items and use the proceeds for propagation and protection of game.	Yes	Yes	
353	50-11-2570	State	Statute	Authorizes the Department to issue special permits to capture destructive wildlife. Also requires a person taking a furbearing animal in accordance with a depredation permit must report the number and type of animal taken to the department on forms prescribed by the department within twenty-one days of the expiration of the permit.	Yes	Yes	
354	50-11-2610	State	Statute	Authorizes the Department to issue fox and coyote enclosure permits. There is no charge for the permits.	Yes	Yes	
355	50-11-2620	State	Statute	Authorizes the Department to require the owner and enclosure operator to record all fox and coyote purchases, transfers, and releases into the hunting enclosures daily on a form provided by the Department. These forms must be retained and made available for reasonable inquiry by Department employees. No later than April fifteenth the owner and enclosure operator shall furnish the Department all of the daily register forms for the permit period.	Yes	No	
356	50-11-2630	State	Statute	Authorizes the Department to require a trapper to record all daily sales, purchases, transfers or exchanges on the Furbearer Harvest Record forms provided by the Department. These forms must be retained and made available for reasonable inquiry by Department employees. No later than April fifteenth the trapper shall furnish the Department all of the daily forms for the permit period.	Yes	No	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
357	50-11-2640	State	Statute	Requires an exhibition permit from the Department for someone to bring, import, or cause to have imported a live coyote or fox into this state.	Yes	Yes	
358	50-12-20	State	Statute	Authorizes the Department to execute and carry out the provisions of the Interstate Wildlife Violator Compact.	Yes	Yes	
359	50-12-30	State	Statute	Requires the Director of the Department to appoint the Compact Administrator for SC and requires that the Department promulgate regulations, and must deny, suspend, or revoke the license, privilege, or right of any person to hunt, fish, trap, possess, or transport wildlife in this State to the extent that the license, privilege, or right has been denied, suspended, or revoked by another compact member under the provisions of this chapter.	Yes	Yes	
360	50-13-40	State	Statute	Authorizes Department Law Enforcement Officers to inspect creels at anytime when someone is fishing in the freshwaters of this state.	Yes	Yes	
361	50-13-70	State	Statute	Authorizes the Department to declare a closed season for taking any species of fish until a natural or other condition has abated but the closed season may not be longer than ninety days. The Department must also provide notice of the closure.	Yes	Yes	
362	50-13-230	State	Statute	The Department is required to establish daily possession and size limits of stripped bass on all other waters not listed in the statute. Department must make a study of the striped bass fishery on the Santee and Cooper River systems and make recommendations on any needed modifications of this section before January 2015.	Yes	Yes	
363	50-13-272	State	Statute	The Department is authorized to promulgate regulations for the protection and management of the trout fishery.	Yes	Yes	
364	50-13-315	State	Statute	The Department is authorized to inspect traps for compliance with this section at anytime. If the Department finds any trap in violation of this chapter or contains only dead catch or excessive dead catch, the trap is contraband and must be seized and disposed of according to law.	Yes	Yes	
365	50-13-510	State	Statute	It is unlawful to take freshwater mussels (Bivalvia) without a permit from the Department.	Yes	Yes	
366	50-13-640	State	Statute	The Department is required to make a study of the blue catfish fishery on the Santee and Cooper River systems and make recommendations on any needed modifications of this section on or before January 2020.	Yes	Yes	
367	50-13-680	State	Statute	Authorizes the Department employee acting in their official capacity to inspect, at any reasonable hour, the vehicle, boat, processing house, and wholesale business which is connected with nongame commercial fishing activities and the records of a person required to be licensed by this title to ensure compliance. Upon request of the Department, the buyers (fish houses) of nongame fish shall report quarterly the volume of sales and other information as required by the Department. An enforcement officer or Department employee acting in their official capacity may check any game or nongame fishing device and, if unlawful, may seize the device as contraband and dispose of it and any catch provided by law.	Yes	Yes	
368	50-13-690	State	Statute	Authorizes Departmental sale and seizure of fish or fishing devices, allows for confiscation and sale of items of persons charged with unlawful use or possession of gill net or hoop net and authorizes suspension of licenses.	Yes	Yes	
369	50-13-1210	State	Statute	Authorizes any law enforcement officer to destroy or take down such permanent obstruction to migration of fish, or so much of it as is necessary, to again permit the free migration of fish.	Yes	Yes	
370	50-13-1415	State	Statute	Authorizes the Department to permit and regulate the importation, possession or restrictions on placing noxious weeds in the waters of the state. The Department, by regulation, is specifically authorized to prohibit additional species of plants from being imported, possessed, or sold in this State when, in the discretion of the Department, such species of plants are potentially dangerous.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
371	50-13-1630	State	Statute	Establishes the Department's authority to issue permits and regulate the importation of non-indigenous fish. The Department may issue special import permits to qualified persons for research and education only. (C)(1) The Department may issue permits for stocking sterile white amur or grass carp hybrids in the waters of this State. The permits must certify that the permittee's white amur or grass carp hybrids have been tested and determined to be sterile. The Department may charge a fee of one dollar for each white amur or grass carp hybrid that measures five inches or longer or twenty-five cents for each white amur or grass carp hybrid that measures less than five inches. The fee collected for sterility testing must be retained by the Department and used to offset the costs of the testing. (2) The Department is authorized to promulgate regulations to establish a fee schedule to replace the fee schedule contained in item (1) of this subsection. Upon these regulations taking effect, the fee schedule contained in item (1) of this subsection no longer applies. (D) The Department may issue permits for the importation, breeding, and possession of nonsterile white amur or grass carp hybrids. The permits must be issued pursuant to the provisions of the Aquaculture Enabling Act in Article 2, Chapter 18 of this title. Provided, however, that no white amur or grass carp hybrids imported, bred, or possessed pursuant to this subsection may be stocked in the waters of this State except as provided in subsection (C) of this section. (F) The Department shall prescribe the qualifications, methods, controls, and restrictions required of a person or his agent to whom a permit is issued. The Department shall condition all permits issued under this section to safeguard public safety and welfare and prevent the introduction into the wild or release of nonnative species of fish or other organisms into the waters of this State. The Department may promulgate regulations necessary to effectuate this section and specifically to prohibit additional species of fish from being imported, possessed, or sold in this State when the Department determines the species of fish are potentially dangerous.	Yes	Yes	
372	50-13-1910	State	Statute	Established that South Carolina hereby assents to the provisions of the act of Congress entitled "An Act to Provide that the United States Shall Aid the States in Fish Restoration and Management Projects, and for Other Purposes." The Department shall perform acts as necessary to the conduct and establishment of cooperative fish restoration projects, as defined in this act of Congress, in compliance with the act and rules and regulations promulgated by the Secretary of the Interior. The amounts necessary for this State to provide, in order to receive the benefits of the act, must be paid from the fees collected by the Department from the sale of resident fishing licenses and a separate fund for this purpose must be set up.	Yes	Yes	
373	50-13-1920	State	Statute	Authorizes the Department to acquire land for and to operate fish hatcheries and fish nurseries. The DNR Board may exercise the power of eminent domain if necessary to accomplish this.	Yes	Yes	
374	50-13-1935	State	Statute	Requires the Department to charge a fee for stocking fish in private water bodies and nonnavigable waters sufficient to cover all costs of producing and stocking the fish.	Yes	Yes	
375	50-13-1936	State	Statute	Authorizes the Department to accept and maintain operations of the Walhalla Fish Hatchery by charging a fee that is sufficient to cover the cost of operating the facility, if the Federal Government ceases to operate it.	Yes	Yes	Antiquated statute
376	50-13-1940	State	Statute	Authorizes the Department to grant permits to collect freshwater fish for scientific purposes during any time of the year and on any area including sanctuaries without further review and allows the Department to suspend or cancel the permits. The application must be accompanied by the requisite fee. The Department shall investigate the applicant and the need for the permit. An application fee and fee for extension of permit can be charged. (no fee listed)	Yes	Yes	
377	50-13-1950	State	Statute	Authorizes the Department to designate and establish fish sanctuaries.	Yes	Yes	
378	50-13-1960	State	Statute	Authorizes the Department to select any place upon any river or stream within this State as a fish sanctuary. Upon making this selection, the Board, upon approval in writing of a majority of the members of the county legislative delegation from the county in which this proposed fish sanctuary is to be located, may designate and set apart the place as a fish sanctuary. When a sanctuary is so designated and set apart, the Board shall have it adequately and conspicuously marked and shall designate the limits of it in all directions.	Yes	Yes	
379	50-13-1995	State	Statute	Authorizes the Department to permit the federal government to conduct fish culture and scientific investigations in the waters of this State in connection with hatchery operations or management of those species under federal jurisdiction.	Yes	Yes	
380	50-13-2015	State	Statute	Requires the Department to mark the St. Stephen Rediversion canal from the Atlantic Coastline Bridge upstream after consultation with and with the permission of the United States Army Corps of Engineers for the fishing of non-game fish.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
381	50-15-20	State	Statute	Authorizes the Department to (A) conduct investigations on nongame wildlife in order to develop information relating to population, distribution, habitat, needs, limiting factors, and other biological and ecological data to determine management measures necessary for their continued ability to sustain themselves successfully. On the basis of such determinations the Department shall issue proposed regulations and develop management programs designed to ensure the continued ability of nongame wildlife to perpetuate themselves successfully. Such proposed regulations shall set forth species or subspecies of nongame wildlife which the Department deems in need of management pursuant to this section, giving their common and scientific names by species or subspecies. The Department shall conduct ongoing investigations of nongame wildlife and may from time to time amend such regulations by adding or deleting therefrom species or subspecies of nongame wildlife. (B) The Department shall by such regulations establish proposed limitations relating to taking, possession, transportation, exportation, processing, sale or offer for sale, or shipment as may be deemed necessary to manage such nongame wildlife. The Board may hold a public hearing if deemed appropriate. On the basis of public comments received or the testimony at any such hearing the Department may make such changes in the proposed regulation as	Yes	Yes	
382	50-15-30	State	Statute	Authorizes the Department (A) on the basis of investigations on nongame wildlife provided for in Section 50-15-20 and other available scientific and commercial data, and after consultation with other state agencies, appropriate federal agencies, and other interested persons and organizations, but not later than one year after July 2, 1974, to by regulation propose a list of those species or subspecies of wildlife indigenous to the State which are determined to be endangered within this State, giving their common and scientific names by species and subspecies. Such regulation shall become effective sixty days after being proposed during which period public comment shall be solicited and received. The Board may hold a public hearing if deemed appropriate. On the basis of public comments received or the testimony at any such hearing, the Department may add to such proposed list additional species or subspecies which are determined to be endangered within the State or delete therefrom such species or subspecies which are determined not to be endangered within the State. (B) The Board shall conduct a review of the state list of endangered species within not more than two years from its effective date and every two years thereafter and may amend the list by such additions or deletions as are deemed appropriate. The Board shall submit to the Governor a summary report of the data used in support of all amendments to the state list during the preceding biennium.	Yes	Yes	
383	50-15-40	State	Statute	The Department is required to (A) establish such programs, including acquisition of land or aquatic habitat, as are deemed necessary for management of nongame and endangered wildlife. The Board shall utilize authority vested in the Department to carry out the purposes of this section. (B) In carrying out programs authorized by this section, the Department may enter into agreements with federal agencies, political subdivisions of the State, or with private persons for administration and management of any area established under this section or utilized for management of nongame or endangered wildlife. (D) The Department may permit the taking, possession, transportation, exportation, or shipment of species or subspecies of wildlife which appear on the state list of endangered species, or species in need of management on the United States' List of Threatened or Endangered Native Fish and Wildlife, as amended and accepted in accordance with Section 50-15-30(D), or on the United States' List of Threatened or Endangered Foreign Fish and Wildlife, as such list may be modified hereafter, for scientific, zoological, or educational purposes, for propagation in captivity of such wildlife, or for other special purposes. (E) Upon good cause shown, and where necessary to alleviate damage to property or to protect human health, endangered species may be removed, captured, or destroyed but only pursuant to permit issued by the Department and, where possible, by or under the supervision of an agent of the Department.	Yes	Yes	
384	50-15-50	State	Statute	The Department is required to promulgate regulations addressing criteria for designating land as a certified management area for endangered species and are required to review and revise criteria and regulations every five years.	Yes	Yes	
385	50-15-60	State	Statute	The Department is required to promulgate such regulations as are necessary to carry out the purposes of Article 1.	Yes	no	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
386	50-15-70	State	Statute	The Department is authorized to regulate the sale, offer for sale, or purchase of the yellowbelly turtle (Trachemys scripta) species and the common snapping turtle (Chelydra serpentina) species if these turtles were taken from a permitted aquaculture facility or a private pond pursuant to a permit issued by the Department at the request of the owner or owner's agent. Any person transporting more than ten yellowbelly turtle (Trachemys scripta) species or common snapping turtle (Chelydra serpentina) species must be in possession of a permit pursuant to which the turtles were taken or acquired and, upon request, must provide it to authorized agents of the Department. A person selling, offering to sell, or purchasing these species must have documentation from the aquaculture facility as to the origin of the turtles. The Department may charge twenty-five dollars for a permit.	Yes	Yes	
387	50-15-80	State	Statute	The Department is authorized to allow enforcement officers employed by the Department to conduct searches as provided by law and execute a warrant to search for and seize equipment, business records, merchandise, or wildlife taken, used, or possessed in connection with a violation of Article 1. (D) Equipment, merchandise, wildlife, or records seized must be held by an officer or agent of the Department pending disposition of court proceedings and forfeited to the State for destruction or disposition as the board considers appropriate. Before forfeiture, the board may direct the transfer of wildlife seized to a qualified zoological, educational, or scientific institution for safekeeping. The costs of the transfer are assessable to the defendant. The Department may promulgate regulations to implement this subsection. The Department is also authorized to promulgate regulations to implement this section.	Yes	Yes	
388	50-15-320	State	Statute	Authorizes the Department to accept applications for a permit to engage in the business of propagating alligators for commercial purposes. A permit allows the purchase of live alligators or alligator eggs from legal sources, the sale of live alligators within the State to other department-permitted alligator propagators only, the sale of live alligators to other states where the purchase of those animals is lawful, the sale of the carcasses, raw parts, or skins of captive-raised alligators to any person for resale or processing into finished products, including sale for food, and the exhibition of live alligators.	Yes	Yes	
389	50-15-330	State	Statute	Authorizes the Department to accept payment of a nonrefundable application fee for applicants seeking a permit for the first time for an alligator propagation facility permit, and requires the department to investigate the applicant and the proposed facility. The Department must prescribe applicant, facility, and operating requirements to applicants and may deny the application in its discretion after review. Upon approval of an application and payment of the permit fee, the Department shall issue an alligator propagation facility permit.	Yes	Yes	
390	50-15-340	State	Statute	Requires the Department to be named as beneficiary in the amount of one hundred thousand dollars by a person applying for an alligator propagator permit. In the event the facility is closed, abandoned, or destroyed, or the permit is revoked, the Department may use the proceeds of the bond to clean up and close the facility.	Yes	Yes	
391	50-15-350	State	Statute	Authorizes the Department to inspect records, alligator facilities, and seize alligator tags.	Yes	Yes	
392	50-15-360	State	Statute	Authorizes the Department to inspect any retailer, including retail food businesses, possessing, buying, or selling alligator parts for invoices or bills of sale for each purchase or sale for a period of six months.	Yes	Yes	
393	50-15-370	State	Statute	Authorizes the Department to require all alligator propagators to submit annual reports on forms prescribed by the Department no later than January 31 of each year.	Yes	Yes	
394	50-15-380	State	Statute	Requires the Department to supply suitable tags to all shippers of raw alligator skins at the cost of ten dollars per tag.	Yes	Yes	
395	50-15-430	State	Statute	The Department is authorized to adopt regulations for the placement, construction, operation, and maintenance of alligator propagation facilities.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
396	50-15-500	State	Statute	Authorizes the Department to establish an alligator management program. (B)(1) The Department must establish an alligator management program that allows for hunting and for selective removal of alligators in order to provide for the sound management of the animals and to ensure the continued viability of the species. The Department must set the conditions for taking, including the size, methods of take, areas, times and seasons, disposition of the parts, and other conditions to properly control the harvest of alligators and the disposition of parts. The Department may allow alligators to be taken at any time of the year, in any area, including sanctuaries, as part of its alligator management program. All alligators taken under the alligator management program must be taken pursuant to permits and tags and under conditions established by the Department in accordance with state and federal law. (2) The Department may establish an alligator hunting season. The Department may issue alligator permits and tags to allow hunting and taking of alligators in any game zone where alligators occur. A person desiring to hunt and take alligators must apply to the Department. (3) A landowner or lessee of property on which alligators occur may apply to the Department for a permit to participate in the Private Lands Alligator Program. (4) The Department may designate alligator control agents who demonstrate by training and experience that they possess the skills to remove alligators. Those persons designated serve at the discretion of the Department. The Department may require periodic demonstrations of skill or require periodic training. Alligator control agents function under the general guidance and supervision of the Department for the capture and removal of nuisance alligators including the disposition of the alligator or its parts.	Yes	Yes	
397	50-16-20	State	Statute	Authorizes the Department to permit a person to import, possess, or transport for the purpose of release or to introduce or bring into this State any live wildlife of the following types: (1) a furbearer, a member of the family Cervidae, a nondomestic member of the families Suidae (pigs), Tayassuidae (peccaries), Bovidae (bison, mountain goat, mountain sheep), coyote, bear, or turkey (genus Meleagris). Furbearer includes, but is not limited to, red and gray fox, raccoon, opossum, muskrat, mink, skunk, otter, bobcat, weasel, and beaver; (2) a species of marine or estuarine fish, crustacean, mollusk, or other marine invertebrate not already found in the wild, or not native to this State. (3) a species of freshwater fish, crustacean, mollusk, or other freshwater invertebrate not already found in the wild or not native to this State. (B) A permit may be granted only after the investigations and inspections of the wildlife have been made as the department considers necessary and the department approves the possession, transportation, or importation into the State. The department may not issue a permit unless it finds: (1) the wildlife was taken lawfully in the jurisdiction in which it originated; (2) the importation, release, or possession of the wildlife is not reasonably expected to adversely impact the natural	Yes	Yes	
398	50-16-25	State	Statute	Authorizes the Department to issue permits for the taking, transporting, and releasing of a pig from a free roaming population or his agent may capture and release a free roaming pig so long as: (1) the permit holder has express permission from the landowner to capture and transport free roaming pigs from the tract on which the free roaming pig is to be captured, (2) the free roaming pig is captured, transported, and released pursuant to a permit issued by the Department of Natural Resources, and (3) the pig is released on the same tract on which the pig was captured or into a permitted pig enclosure utilized for hunting purposes. (B) The Department may permit a pig hunting enclosure and charge a fee in the amount of $50.00 annually.	Yes	Yes	
399	50-16-50	State	Statute	Authorizes the Department to promulgate regulations to affect the provisions of importation of wildlife.	Yes	Yes	
400	50-16-70	State	Statute	Requires the Department to suspend the hunting privileges of a person convicted of violating chapter sixteen, for one year from the date of the conviction.	Yes	Yes	
401	50-18-215	State	Statute	Authorizes the Department to have regulatory authority for permitting and licensing aquaculture and aquaculture businesses. The Department has enforcement as it effects the public waters of this state.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
402	50-18-235	State	Statute	The Department is authorized to grant an annual aquaculture permit to persons (1) to engage in aquaculture; (2) to wholesale or retail a live aquaculture product; (3) to engage in aquaculture of an aquatic species not indigenous to this State, subject to the provisions of this title; (4) to engage in aquaculture, possess, or sell an aquatic species solely for the purposes of stocking; (5) to engage in aquaculture of hybrid striped bass; (6) to engage in aquaculture, or possess an aquatic species to provide sport fishing for a fee; (7) to sell or offer for sale annually in excess of two thousand five hundred dollars worth of an aquatic species harvested from a private pond, unless selling to a permitted resident aqua culturist; (8) to import an aquatic species taken and obtained lawfully in the jurisdiction of origin, for use as aquaculture brood stock; (9) to import an aquatic species taken and obtained lawfully in the jurisdiction of origin, for sale for stocking only private waters. (B) The Department of Natural Resources may grant an aquaculture permit and set conditions for aquaculture. (C) In considering issuance of a permit and setting permit conditions, the department must consider scientific and other available information regarding: (1) species to be cultured; (2) protection of ecosystems from detrimental species; (3) protection of critical habitat; (4) protection of water resources; (5) protection of plant and wildlife genetic integrity; (6) disease potential and protection of plant and wildlife health; (7) protection of natural resources from illegal harvesting and commercialization; (8) protection of natural resources from nuisance species; (9) security and welfare of the aquaculture industry of this State. (D) Application for permits must be made on forms prescribed by the Department of Natural Resources, which may require information necessary to carry out the provisions of this chapter. (E) A permit may be granted only after the Department of Natural Resources considers the information specified in this section and determines that the proposed operations would not reasonably be expected to adversely impact the natural resources of the State or security or welfare of the aquaculture industry of this State. A separate application and permit are required for each aquaculture facility. The Department of Natural Resources must consider each facility separately, unless a single state and federal income tax is filed for the operation. The Department of Natural Resources may amend, suspend, or revoke a permit if	Yes	Yes	
403	50-18-240	State	Statute	The Department is authorized to charge a fee of one hundred dollars for an aquaculture permit for the year in which issued and twenty-five dollars for each year, or portion thereof, that the permit is continued. There is no cost to register a nongame aquaculture facility. (C) Permit fees, fines, and the value of forfeitures collected under this chapter must be placed in a special account to be used by the Department of Natural Resources to support the aquaculture inspection. (D) The Department of Natural Resources may amend, suspend, or revoke a permit for any violation of a permit condition and impose a civil penalty of not greater than five thousand dollars.	Yes	Yes	
404	50-18-250	State	Statute	The Department is authorized to inspect aquaculture facilities and premises.	Yes	Yes	
405	50-18-255	State	Statute	The Department is authorized to issue an annual wholesale aquaculture license at a cost of one hundred dollars for the year in which issued and twenty-five dollars for each continuous year or part thereof that the license is renewed.	Yes	Yes	
406	50-18-260	State	Statute	The Department is authorized to issue an annual aquaculture game fish retail license at no cost to a person who sells or offers to sell a nonliving aquaculture game fish or product thereof to consumers, regardless of where cultured, unless that person holds a current aquaculture permit. (B) Application for such license must be made on forms provided by the department. The department or its authorized agent will issue an aquaculture game fish retail license at no cost upon proper application.	Yes	Yes	
407	50-18-265	State	Statute	The Department is authorized to inspect a shipper of aquacultured product.	Yes	Yes	
408	50-18-270	State	Statute	The Department is authorized to grant permits at no cost to allow permitted aqua culturists to release aquacultured products into the public waters of this State as a part of a stocking program conducted or approved by the Department.	Yes	Yes	
409	50-19-130	State	Statute	The Department must cooperate with the Darlington County Advisory Fish and Game Commission on supervising the opening and closing of all fish and game seasons in the County and regulations in connection therewith.	No	No	Antiquated statute

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
410	50-19-240	State	Statute	The Department must review and, if agreed with, approve regulations and rules promulgated by the Prestwood Lake Wildlife Refuge.	No	No	Antiquated statute
411	50-19-410	State	Statute	The Department may enter into an agreement with the owners of Lake Lanier, located in Greenville County, whereby the Department may take over the management of the lake and lake property for fisheries and hunting purposes and shall take the necessary steps toward restocking the lake with fish, designating open and closed seasons for fishing and hunting thereon, making rules and regulations by which permits may be issued to persons for fishing and hunting thereon and in all other ways exercising complete control of the waters of the lake in such a manner that will most successfully restock, propagate and protect the fish and game in the lake for the benefit of the public in general.	Yes	Yes	Antiquated statute
412	50-19-450	State	Statute	The Department is required to promulgate regulations to manage and protect fisheries in Lake William C. Bowen, Lake Blalock, and Spartanburg Municipal Reservoir #1 in Spartanburg County, SC.	Yes	No	Antiquated statute
413	50-19-710	State	Statute	The Department must issue at no cost special tags for non-game devices, beginning on July 1, 2012, and for three years thereafter on the Little Pee Dee River.	Yes	Yes	Statute expired
414	50-19-1020	State	Statute	The Department must receive semiannual reports from the Lee County Legislative Delegation on the actions of all enforcement officers in Lee County.	Yes	No	Antiquated statute
415	50-19-1140	State	Statute	The Department must cooperate with the Marion County Fish and Game Commission in supervision over the opening and closing of all fish and game seasons in Marion County and regulations in connection therewith and control thereof, in so far as is consistent with the statutory laws of the State.	Yes	no	Antiquated statute
416	50-19-1160	State	Statute	The Director of DNR must receive names from the Marion County Legislative Delegation as recommended by the Marion County Fish and Game Commission of prospective enforcement officers for approval. The enforcement officer or officers so appointed shall devote their entire time to the enforcement of the laws relating to wildlife, marine resources, and natural resources.	Yes	no	Antiquated statute
417	50-19-1170	State	Statute	The Department must receive recommendations from the Marion County Fish and Game Commission regarding the salaries to be paid to such enforcement officers from funds apportioned or allotted to Marion County for enforcement of the game and fish laws.	Yes	no	Antiquated statute
418	50-19-1180	State	Statute	The Department must receive reports from the Marion County Fish and Game Commission on information on the actions of any enforcement officer in Marion County and the Commission may recommend to the Department suspension or discharge of any enforcement officer.	Yes	no	Antiquated statute
419	50-19-1310	State	Statute	The Department is authorized, in addition to the authority and powers granted it pursuant to Section 50-13-1920, to acquire land in Marlboro County for the purpose of creating artificial public fishing lakes, establishing fish hatcheries and fish nurseries, establishing wildlife management areas in conjunction with the Federal Government, or otherwise, and engaging in any other approved wildlife restoration projects.	Yes	Yes	Antiquated statute
420	50-19-1320	State	Statute	The Department Board is authorized to exercise the power of condemnation in Marlboro County. The power must be exercised to condemn only property necessary, useful, or convenient for the purposes of this article. All land acquired must be in fee simple and just compensation must be paid for it.	Yes	no	Antiquated statute
421	50-19-1330	State	Statute	The Department is authorized to expend any funds under its control and available for the purpose of carrying out the provisions of article 21.	Yes	no	
422	50-19-1610	State	Statute	The Department must clearly mark the Catawba Lake Fishing Area with signs.	Yes	Yes	
423	50-19-1730	State	Statute	The Department must cooperate with the Catawba-Wateree Fish and Game Commission in the enforcement of all fishing laws and regulations within such counties and shall work under the direction of the Department in the enforcement of all rules and regulations provided in this article. The Commission shall cooperate with the Department in the control of all fishing in the waters, including all backwaters, of the Catawba and Wateree Rivers within said counties, except waters lying more than one hundred yards south of the Wateree Dam in Kershaw County.	Yes	no	Antiquated statute
424	50-19-1925	State	Statute	The Department is required to promulgate regulations to manage and protect fisheries in the Santee River.	Yes	Yes	
425	50-19-1935	State	Statute	The Department and DHEC are required to monitor the bass fishery in the Wateree -Santee riverine system.	Yes	no	Study ended
426	50-19-2210	State	Statute	The Department is authorized to negotiate a reciprocal agreement with the authorities of the state of Georgia whereby any resident of Georgia properly licensed by that state may fish anywhere in the Savannah River, but not in its tributaries, below Clark Hill Dam with no other license being required, provided any resident of this State, properly licensed by this State, shall be permitted the same fishing privilege.	Yes	Yes	
427	50-19-2215	State	Statute	The Department is authorized to negotiate a reciprocal agreement with the authorities of the State of Georgia whereby any resident of Georgia properly licensed by that State may fish anywhere in the Savannah River, but not its tributaries, in that area between the highway bridge between Calhoun Falls, South Carolina, and Elberton, Georgia, and the Hartwell Reservoir Dam, including all waters impounded by the Richard B. Russell Dam.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
428	50-19-2240	State	Statute	The Department is required to negotiate and enter into a reciprocal agreement with the authorized officials of the state of Georgia, adopting rules and regulations for the preservation and propagation of fish and game within the area as provided by law, the recognition of the licenses and permits of one state by the other and the enforcement of the laws of the two states over the area involved. If necessary to reach such an agreement or it is deemed advisable for the better protection and management of the game and fish of this area, the department may increase the bag limit to not more than twelve bass and thirty other game fish in possession at one time and may make and agree to other reasonable rules and regulations with the Georgia authorities, not inconsistent with the laws of this State, and may change or alter them from time to time.	Yes	Yes	
429	50-19-2310	State	Statute	The Department is authorized to declare open season for striped bass in the waters of Lake Greenwood and Boyd's Mill with the approval of a majority of the members of the House of Representatives and a majority of the Senators from the counties adjoining the lake.	Yes	no	Antiquated statute
430	50-19-2330	State	Statute	The Department is authorized to use whatever methods are deemed wise and expedient to remove and control nongame fish in the waters of Lake Greenwood and its immediate tributaries and Boyd's Mill.	Yes	Yes	Antiquated statute
431	50-19-2610	State	Statute	The Department is authorized to negotiate a reciprocal agreement with the authorities of the state of Georgia for any resident of Georgia properly licensed to fish anywhere in the Hartwell Reservoir.	Yes	Yes	
432	50-19-2640	State	Statute	The Department is authorized to negotiate for and enter into a reciprocal agreement with the authorized officials of the state of Georgia, adopting rules and regulations for the preservation and propagation of fish and game within the area, the recognition of the licenses and permits of one state by the other and the enforcement of the laws of the two states over the area involved. If necessary to reach such agreement or it is deemed advisable for the better protection and management of the game and fish of this area, the Department may increase the bag limit prescribed by law to not more than twelve bass and thirty other game fish in possession at one time and may make and agree to other reasonable rules and regulations with the Georgia authorities, not inconsistent with the laws of this State, and may change or alter them from time to time.	Yes	Yes	
433	50-19-2710	State	Statute	The Department is authorized to establish and enforce fishing regulations for the boundary streams between SC and GA above the Hartwell Reservoir and is authorized to enter into and modify reciprocal agreements with GA as necessary to accomplish the purpose of this section.	Yes	Yes	
434	50-20-20	State	Statute	Authorizes the Department to enter into and perform all acts necessary under the Interstate Boating Violator Compact. The Department of Natural Resources shall execute all documents and perform all other acts necessary to carry out the provisions of the compact.	Yes	Yes	
435	50-20-30	State	Statute	Authorizes the Department to (A) appoint the Boating Compact Administrator for South Carolina. The Boating Compact Administrator shall serve at the pleasure of the Director of the Department of Natural Resources. (B) The Department of Natural Resources must deny, suspend, or revoke the watercraft operating privileges or watercraft operator's license of any person in this State to the extent that the watercraft operating privileges or the watercraft operator's license have been denied, suspended, or revoked by another compact member under the provisions of this chapter. (C) The Department of Natural Resources shall promulgate regulations necessary to carry out the purposes of this chapter.	Yes	Yes	
436	50-21-30	State	Statute	The Department is authorized (A) to receive a formal application from any subdivision of this State, after three days' public notice, for special rules and regulations with reference to the operation of vessels on any waters within its territorial limits and the application shall set forth therein the reasons which make such special rules and regulations necessary or appropriate. (3) The Department is authorized to make special rules and regulations with reference to the operation of vessels on waters within the territorial limits of this State.	Yes	Yes	
437	50-21-40	State	Statute	Authorizes the Department to enforce the S.C. Boating and Safety Act of 1999 through its Natural Resources Enforcement Division.	Yes	Yes	
438	50-21-45	State	Statute	Authorizes Department employees engaged in the work of administering and enforcing the provisions of this chapter may administer oaths and acknowledge signatures and must do so without fee.	Yes	no	
439	50-21-50	State	Statute	Authorizes the Director to employ personnel to carry out the S.C. Boating and Safety Act of 1999.	Yes	Yes	
440	50-21-80	State	Statute	The Department is required to be the agency primarily responsible for enforcement of all laws pertaining to boating. Any person employed or elected by this State or political subdivision thereof, whose duty it is to preserve the peace or to make arrests or to enforce the law including, but not limited to, members of the sheriff's departments, state police, enforcement officers, deputies, or other qualified persons, upon recommendation of the Department, may be empowered to enforce the provisions of this chapter.	Yes	yes	
441	50-21-90	State	Statute	Authorizes the Department to inaugurate a boating safety and boating education program, and to seek the cooperation of boatmen, the federal government and other states.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
442	50-21-105	State	Statute	The Department is authorized to tow away and store at the nearest commercial marina or any other suitable facility any unattended watercraft, a watercraft the operator of which is ill, intoxicated, or under a disability which renders him incapable of functioning safely, or other object which constitutes a hazard to navigation and which is not within an anchorage area approved by the United States Coast Guard. The owner may regain control of the watercraft or other object by proving ownership to the operator of the facility and paying the fee charged for storage.	Yes	Yes	
443	50-21-110	State	Statute	The Department is required, for any person in violation of this section three times within a five-year period, to require the violator to attend and complete a boating safety education program approved by the Department. The Department may be reimbursed for the expense of the class.	Yes	yes	
444	50-21-111	State	Statute	The Department is required, for any person convicted of reckless operation, to require that person to attend and complete a boating safety education program approved by the Department. The Department may be reimbursed for the expense of the class. The Department is required to suspend for 90 days upon conviction of a second offense for reckless operation of a water device within a five-year period.	Yes	yes	
445	50-21-112	State	Statute	The Department is required to notify a person whose privilege is suspended under the provisions of this section of the suspension and of the requirement to enroll in and successfully complete an Alcohol and Drug Safety Action Program certified by the Department of Alcohol and Other Drug Abuse Services prior to reinstatement of the privilege. The Department in conjunction with the Department of Alcohol and Other Drug Abuse Services is required to develop procedures necessary for the communication of information pertaining to reinstating boating privileges. A person convicted under this section, in addition to any other penalties, shall be required by the department to attend and complete a boating safety education program approved by the department. The person required to attend the program shall reimburse the department for the expense of the program. The person's privilege to operate a water device within this State shall be suspended until successful completion of the required program.	Yes	Yes	
446	50-21-113	State	Statute	The Department is required to suspend the privilege of a person who is convicted or who pleads guilty or nolo contendere under this section to operate a water device or be in actual control of a moving water device within this State.	Yes	yes	
447	50-21-114	State	Statute	The Department (E) is required, on the basis of a report from the law enforcement officer that the arrested person was operating a water device within this State while under the influence of alcohol, drugs, or a combination of them, and that the person had refused to submit to the tests, must suspend a person's privilege to operate a moving water device for one hundred eighty days. (F) Upon suspending the operating privilege of a person, the department immediately shall notify the person in writing and upon his request give him an opportunity for a hearing as provided in Article 3, Chapter 23, Title 1 of the 1976 Code. The review must be scheduled by the Administrative Law Court in accordance with the division's procedural rules. The scope of the hearing is limited to the issues set out by the Administrative Procedures Act and the division's procedural rules. Upon order of the administrative law judge, the department either shall rescind its order of suspension or continue the suspension of the privilege.	Yes	Yes	
448	50-21-117	State	Statute	The Department is required to suspend the privilege of a person who is convicted of operating a moving water device while under suspension for three years.	Yes	yes	
449	50-21-130	State	Statute	The Department is required to keep reports of reportable boating accidents. In the case of a reportable accident, the operator or owner of any vessel involved shall file a full description of the accident with the Department and provide any information the Department may require when requested as part of the investigation within forty-eight hours of the accident. In the event an accident results in death, loss of consciousness, or serious bodily injury, the owner or operator immediately shall notify the Department. (D) The accident report must be without prejudice, and must be for the information of the Department. (E) The Department shall administer a State Casualty Reporting System which shall be in conformity with that established by the United States Coast Guard. (F) The Department must suspend the privileges of a person convicted under this section for: (1) two years if the operator of a vessel is convicted of not rendering assistance to persons affected in a collision, accident, or other casualty; (2) one year if the operator of a vessel is convicted of not reporting a boating accident; (3) a person's privilege to operate a watercraft shall not be reinstated until the person attends and completes a boating safety education program approved by the Department. The person required to attend the class shall	Yes	Yes	
450	50-21-140	State	Statute	The Department is required to furnish information on collisions and numbering of vessels to officials or agencies of the United States for analytical and statistical purposes.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
451	50-21-148	State	Statute	The Department is required to erect signs at appropriate locations advertising the prohibition against obstruction of piers, docks, wharf, boat ramps or access areas, with advice from the Department of Transportation.	Yes	Yes	
452	50-21-160	State	Statute	The Department must hold and utilize all fees or fines collected pursuant to the Equipment and Operation of Watercraft chapter for the purpose of paying the expenses of the Natural Resources Enforcement Division of the Department and other Department operations. (B) To the extent fees collected in connection with registration of boats, are attributable to fee increases beginning July 1, 1999, revenues from those fee increases must be used by the Department for its law enforcement responsibilities. Any surplus may be carried forward for that use.	Yes	No	
453	50-21-190	State	Statute	The Department is authorized to conduct investigations of watercrafts to determine if it is abandoned. The Department is also required to send notice and make additional reasonable efforts to notify the last known owner, if any, of the status of the watercraft, and if that fails, post notice that the watercraft is abandoned.	Yes	Yes	
454	50-21-610	State	Statute	Authorizes the Department to promulgate regulations which establish boat construction or associated equipment performance or other safety standards.	Yes	Yes	
455	50-21-710	State	Statute	Authorizes the Department to promulgate regulations for the uniform marking of the waters of the State and may regulate the operation of all vessels, watercraft, and water devices through the placement of aids to navigation and regulatory markers.	Yes	yes	
456	50-21-855	State	Statute	Requires the Department to not enforce any regulation requiring windsurfers and sailboarders to wear or carry personal flotation devices.	Yes	No	
457	50-21-870	State	Statute	The Department is required to promulgate regulations relating to boating safety programs administered by the department or subject to its approval.	Yes	Yes	
458	50-21-1010	State	Statute	The Department is authorized to regulate the holding of regattas, races, marine parades, tournaments or exhibitions which, by their nature, circumstance or location will introduce extra or unusual hazards to the safety of life on any waters of this State. It shall adopt and may amend regulations concerning the safety of boats, motorboats and vessels and persons thereon, either observers or participants. Whenever a regatta, race, marine parade, tournament or exhibition is proposed to be held the person in charge thereof shall, at least thirty days prior thereto, file an application with the department for permission to hold such regatta, motorboat or other boat race, marine parade, tournament or exhibition. The application shall set forth the date, time and location where it is proposed to hold such regatta, race, marine parade, tournament or exhibition and such other information as the department may by regulation require and it shall not be conducted without written authorization of the department.	Yes	Yes	
459	50-23-10	State	Statute	Authorizes the Department to permit and regulate marine dealers. Each entity desiring to be a marine dealer shall apply for a permit each year from the Department. The Department may charge ten dollars for the permit. A dealer who fails to meet minimum requirements each year may request in writing a review of the permit and sales by the Department. After review of the dealer's records and after good cause has been shown by the dealer for not meeting the minimum requirements, the Department may renew the permit for the calendar year. Permitted marine dealers may apply for demonstration numbers to the Department. Marine dealers permitted under this article consent to inspections of the business and its records during regular business hours by Department personnel and other law enforcement officers. A dealer who fails to cooperate with Department inspections forfeits his permit.	Yes	Yes	
460	50-23-20	State	Statute	Authorizes the Department to title watercraft or outboard motors held or principally used in this State.	Yes	Yes	
461	50-23-60	State	Statute	Authorizes the Department to accept applications from persons acquiring watercraft or outboard motors within thirty days of the date of acquisition for a certificate of title for the watercraft or outboard motor. The Department may charge a fee and the application forms must include information as required by the Department.	Yes	Yes	
462	50-23-70	State	Statute	The Department is authorized to charge a fee of $10 for a certificate of title for a watercraft; $10 for a certificate of title for an outboard motor. The Department is authorized to issue duplicate certificates for a $5 fee.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
463	50-23-80	State	Statute	The Department is authorized to issue a certificate of title to the watercraft or outboard motor when satisfied that the application is in proper form, that the applicant is the owner of the watercraft or outboard motor, and that there is no security interest in the watercraft or outboard motor not disclosed in the application. (B) The Department shall maintain a record of all certificates of title issued by it: (1) Under a distinctive title number assigned to a watercraft or outboard motor; (2) Under the identification number awarded to a watercraft in accordance with the registration and numbering act of the state in which it is registered. If the State requires outboard motors to be registered separately, the Department shall keep the motor registration numbers in its titling records; (3) Alphabetically, under the name of the owner; and (4) In the discretion of the Department, in any other method it determines.	Yes	Yes	
464	50-23-120	State	Statute	The Department is authorized to issue a new certificate of title for a transfer of purchase of a watercraft or outboard motor once application is made to the Department accompanied by the required fee and upon the form or forms prescribed and furnished by the Department.	Yes	Yes	
465	50-23-130	State	Statute	The Department is authorized to issue a new certificate of title if the ownership of a watercraft or outboard motor is transferred by operation of law once application is made to the Department accompanied by the required fee and upon the form or forms prescribed and furnished by the Department. (b) If the ownership of a watercraft or outboard motor is terminated in accordance with the terms of a security agreement by a lienholder named in the certificate of title, the transferee shall promptly mail or deliver to the Department the last certificate of title, his application for a new title accompanied by the required fee and upon the form or forms prescribed and furnished by the Department, and an affidavit by the lienholder or his authorized representative, setting forth the facts entitling him to possession and ownership of the watercraft or outboard motor, together with a copy of the journal entry, court order or instrument upon which such claim of possession and ownership is founded. If the lienholder cannot produce such proof of ownership, he may submit such evidence as he has with his application to the Department, and the Department may, if it finds the evidence to be satisfactory proof of ownership, issue a new certificate of title. (c) If a lienholder succeeds to the interest of an owner in a watercraft or outboard motor by operation of law and holds such watercraft or outboard motor for resale, he need not secure a new certificate of title thereto but, upon transfer to another person, shall promptly mail or deliver to the transferee or to the Department the certificate, affidavit and such other documents as the Department may require.	Yes	Yes	
466	50-23-140	State	Statute	The Department is authorized to receive and note all liens, mortgages, and encumbrances upon a certificate of title which take priority according to the order of time in which they are noted on it by the Department. (b) A security interest is perfected by the delivery to the Department of the existing certificate of title, if any, an application for a certificate of title containing the name and address of the lienholder and the date of the security agreement, and the required fee. (d) If the person acquires a watercraft or outboard motor and the title shows an outstanding lien and neither the Department nor the transferee can verify the existence of the lien, the transferee may provide proof of an attempt to notify the lienholder of record of the transfer and the attempt to verify the existence of the lien by certified mail and if the lienholder of record does not respond within thirty days of the attempted notice, the lien is unenforceable and the department shall issue a title clear of the lien. (e) If an owner of a watercraft or outboard motor attempts to verify the existence of a lien and neither the owner nor the Department can verify the existence, the owner may provide proof of an attempt to notify the lienholder of record to verify the existence of the lien by certified mail and if the lienholder of record does not respond within thirty days of the attempted notice, the lien is unenforceable and the Department shall issue a title clear of the lien.	Yes	Yes	
467	50-23-150	State	Statute	The Department may issue a duplicate title for a lost, stolen or mutilated certificate. The person may obtain a duplicate by application to the Department, furnishing such information concerning the original certificate and the circumstances of its loss, mutilation or destruction as may be required by the Department. (d) In the event a lost or stolen original certificate of title for which a duplicate has been issued is recovered, it shall be surrendered promptly to the Department for cancellation.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
468	50-23-170	State	Statute	The Department is authorized (A) if there is no manufacturer's serial number, if the manufacturer's serial number has been removed or obliterated, or if the watercraft is homemade, upon application, to assign a permanent identification number which must be used as the builder's hull number for the watercraft. This assigned number must be affixed permanently to or imprinted by the applicant at the place and in the manner designated by the Department upon the watercraft for which the builder's hull number is assigned. Every homemade watercraft must be certified as meeting safety standards of the United States Coast Guard before it can be sold by the builder. Certification must be furnished to the purchaser and a copy accompany applications for transfer to the Department. (B) If there is no manufacturer's serial number or if the manufacturer's serial number has been removed for a valid reason or obliterated, the Department, upon a prescribed application, may assign a serial number for the outboard motor. This assigned serial number must be affixed permanently to or imprinted by the applicant at the place and in the manner designated by the Department upon the outboard motor for which the serial number is assigned. (D)If the serial number or hull identification number is displayed in a location other than on or near the stern transom, the Department must be notified by the manufacturer as to the location. (E) No person may destroy, remove, alter, cover, or deface the manufacturer's serial number or hull identification number or part of it, or plate bearing the number, or a serial number or hull identification number or part of it assigned by the Department or be in possession of an affected watercraft or outboard motor unless authorized in writing by the Department and the Commandant of the United States Coast Guard.	Yes	Yes	
469	50-23-180	State	Statute	The Department is authorized to receive any information regarding a theft of watercraft or outboard motor. (a) Every law enforcement agency, peace officer, owner, or insurer in the State, having knowledge of a stolen or converted watercraft or outboard motor, immediately shall furnish the Department with full information concerning the theft or conversion. (b) The Department, whenever it receives a report of the theft or conversion of a watercraft or outboard motor, shall make a record of it, including the make of the stolen or converted watercraft or outboard motor and its hull number or serial number, and shall file the same in the numerical order of the hull number or serial number with the index records of the watercraft or outboard motors of such make. The Department shall prepare a report listing watercraft and outboard motors stolen and recovered as disclosed by the reports submitted to it, to be distributed as it deems advisable. (c) In the event of the recovery of a stolen or converted watercraft or outboard motor, the owner or insurer immediately shall notify the Department in writing. (d) Law enforcement agencies shall notify the Department of recovery of any stolen watercraft or outboard motor	yes	yes	
470	50-23-205	State	Statute	The Department is authorized (B) upon seizure of the watercraft or outboard motor because the true owner cannot be determined, to notify a person claiming an interest in it, and the person has the right to prove his interest before the circuit court in the county where the property was seized. If no action is filed within sixty days of notification, the Department may retain the property for official use or transfer the property to another public entity for official use, sell the property at public auction, or, if the watercraft or outboard motor is determined to be unsafe, destroy it. The proceeds derived from the sale must be deposited in the Boating Operating Fund of the Department for administration of the program. (C) When the Department determines the owner of a seized watercraft or outboard motor and related marine equipment, it shall notify the owner by certified mail of the procedure, the location, and the fact that he has not less than thirty days from the date of the certified letter to remove the equipment from the Department's storage facility. If a security interest has been perfected, the Department must notify the lienholder by certified mail allowing thirty days to respond. Failure to respond within thirty days or remove the watercraft or outboard motor by the date designated forfeits the equipment to the Department to be used or disposed of according to law.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
471	50-23-210	State	Statute	The Department is authorized to suspend or revoke a certificate of title to a watercraft, or to an outboard motor, upon reasonable notice and hearing, if the Department finds: (1) The certificate of title was fraudulently procured or erroneously issued, or (2) The watercraft, or outboard motor, has been scrapped, dismantled, or destroyed, or transferred and registered in another state. (c) When the Department suspends or revokes a certificate of title, the owner or person in possession of it shall, immediately upon receiving notice of the suspension or revocation, mail or deliver the certificate to the Department; or (d) The Department may seize and impound any certificate of title which has been suspended and revoked	Yes	Yes	
472	50-23-220	State	Statute	The Department is authorized to use appropriations from titling watercraft and outboard motors for the expenses of the Department in administering the provisions of this chapter or for any purpose related to the mission of the Department) To the extent fees collected pursuant to Section 50-23-70, in connection with titling a boat, are attributable to fee increases beginning July 1, 1999, revenues from those increases must be used by the Department for its law enforcement responsibilities. Any surplus may be carried forward for that use.	No	no	
473	50-23-230	State	Statute	The Department is authorized and empowered to make, adopt, promulgate, amend, and repeal all rules and regulations necessary, or convenient for the carrying out of the duties and obligations and powers conferred on the department by this chapter.	Yes	Yes	
474	50-23-240	State	Statute	The Department is authorized to file a copy of the regulations adopted pursuant to this chapter, and of any amendments thereto, in the office of the board and in the office of the official State record-keeping agency. Rules and regulations shall be published by the Department in a convenient form.	No	no	
475	50-23-250	State	Statute	Authorizes the Director to employ and appoint the necessary enforcement officers for enforcement of this chapter. The duties of such enforcement officers shall include but not be limited to investigating applications for certificate of title, inspecting watercraft, or outboard motors, in or at public facilities for purposes of locating stolen property, and investigating and reporting thefts of watercraft, or outboard motors.	Yes	Yes	
476	50-23-260	State	Statute	The Department is required to annually, between January first and January thirty-first, furnish to each county auditor a list of motors and watercraft registered and titled pursuant to this chapter in the previous year to residents of such auditor's county, which list shall include the names and addresses of the owners of such watercraft and motors and sufficient additional information as will permit the auditors to identify the chattels titled for tax purposes.	Yes	Yes	
477	50-23-290	State	Statute	The Department must accept applications from any person coming into possession of a watercraft or outboard motor without proper proof of ownership. The person must apply to the Department for a title using the form prescribed by the Department. The application must be supported by an affidavit setting forth the circumstances under which the watercraft or outboard motor was acquired. The applicant must provide the Department with proof of mailing. The applicant must publish an advertisement in a newspaper of general circulation in the county of residence of the last known owner of record for three successive issues. If there is no prior owner of record, the advertisement must be published in the county where acquired. The advertisement must be as prescribed by the Department in the application. Proof of advertising must be submitted to the Department. Thirty days after the date of the last advertisement if no claim of interest or ownership is made and the item has not been reported stolen, the Department shall issue a clear title. If the item is reported stolen, the Department shall dispose of the item according to law. If there is a claim of interest adverse to the applicant, the Department shall not issue a title until the issue is resolved.	Yes	Yes	
478	50-23-295	State	Statute	The Department is authorized to refuse to transfer a title to a watercraft or an outboard motor if the Department has notice that property taxes for property tax years beginning after 1999, are owed on the watercraft or outboard motor.(C) The county treasurer or other appropriate official annually, or more frequently as the county considers appropriate, shall transmit a list of delinquent taxes due on watercraft and outboard motors to the Department. The list may be transmitted in any electronic format considered acceptable by the Department.	Yes	Yes	
479	50-23-310	State	Statute	The Department is authorized to issue decals which are attached to each side of the bow of the boat within six inches following the identifying number.	Yes	Yes	
480	50-23-330	State	Statute	The Department is authorized to, in the event that an agency of the United States Government shall have in force an overall system of identification (numbering) for vessels within the United States, to employ a numbering system which is in conformity therewith.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
481	50-23-340	State	Statute	The Department is authorized to accept applications from the owner of each motorboat requiring numbering by this chapter. The person shall file an application for a number with the Department on forms approved by it. The application fee is thirty dollars. Upon receipt of the application in approved form, the Department shall enter the same upon the records of its office and issue to the applicant a certificate of number stating the number awarded to the motorboat and the name and address of the owner. The certificate of number shall be pocket size.	Yes	Yes	
482	50-23-350	State	Statute	The Department is authorized to issue any certificate of number directly or may authorize any person to act as agent for the issuing thereof.	Yes	Yes	
483	50-23-370	State	Statute	The Department is authorized to fix a day and month of the year on which certificates of number expire unless renewed pursuant to this chapter. (B) A renewal application for a certificate of number, except those from marine dealers, presented after thirty days from its expiration date is subject to a late penalty of fifteen dollars. A renewal application for a certificate of number presented after sixty days from its expiration date is subject to a late penalty of thirty dollars.	Yes	Yes	
484	50-23-380	State	Statute	The Department is authorized to accept, upon the transfer of ownership of a watercraft, an application from the purchaser for transfer of a registration and accept a fee of six dollars.	Yes	Yes	
485	50-23-400	State	Statute	The Department is authorized to receive in writing from any holder of a certificate of number the new address, if the address does not conform to the address on the title.	Yes	Yes	
486	50-23-425	State	Statute	The Department is not authorized to renew a registration of watercraft pursuant to this chapter if the Department has notice that property taxes are owed on the watercraft.	Yes	Yes	
487	50-25-150	State	Statute	It shall be the responsibility of the Department to post and maintain at each major landing on Louther's Lake a three foot by four foot sign, visible to users of the landings, on which the foregoing prohibition shall be plainly lettered. Anyone operating a boat in violation of the provisions of this section shall be fined not less than fifty dollars nor more than one hundred dollars, or be imprisoned for not more than thirty days.	Yes	Yes	
488	50-25-310	State	Statute	The Department is authorized to place appropriate signs or markers on each side of the watercourse below the Duke Power Company Wateree Dam in Kershaw County for a distance of two hundred feet indicating the zoned area for boats. Anyone violating the provisions of this section shall be fined not less than twenty-five dollars nor more than one hundred dollars or imprisoned for not more than thirty days, or both.	Yes	Yes	
489	50-25-320	State	Statute	The Department is authorized to place appropriate signs or markers on each side of the watercourse above the Duke Power Company Wateree Dam in Kershaw County for a distance of one hundred feet indicating the zoned area for boats. Anyone violating the provisions of this section shall be fined not less than twenty-five dollars nor more than one hundred dollars or imprisoned for not more than thirty days.	Yes	Yes	
490	50-25-1310	State	Statute	The Department is authorized to design and install signs indicating a no wake zone within three hundred feet of all bridges and public docks on Lakes William C. Bowen and H. Taylor Blalock in Spartanburg County.	Yes	Yes	
491	50-25-1360	State	Statute	The Department is authorized after consultation with the Spartanburg Water System, by special permit, to waive the restrictions and provisions of Sections 50-25-1310 through 50-25-1350 to allow for boat testing, water and ski shows, and similar activities.	Yes	Yes	
492	51-3-160	State	Statute	The Department is authorized to work in conjunction with the Department of Corrections in the development of public recreation facilities and to exchange funds where mutually beneficial to both departments and accept matching federal funds.	Yes	Yes	
493	51-13-2010	State	Statute	The Department is required to appoint a member to the Enoree River Greenway Commission board. The management of the commission is vested in the Board of Directors . The directors shall be indemnified by the commission in all civil actions for actions taken within the scope of their authority toward achieving the purposes of this article.	Yes	no	This Commission does not exist

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
494	51-17-40	State	Statute	The Board of the Department is authorized with the following duties, responsibilities, and powers under chapter 17 in regards to the Heritage Trust Program: (1) To serve as trustee of the trust created under this chapter and to carry out the powers, duties, and responsibilities thereunder; (2) To supervise the establishment, updating and maintenance of a statewide inventory of the natural and cultural resources and the maintenance of a list of those areas and features selected or established under this chapter as priority areas and features or as Heritage Preserves and Sites; (3) To select from the recommendations of the advisory board those natural and cultural features, the preservation of which is of primary importance to the goals and purposes of this chapter, and to classify such as priority areas and features; (4) To select from the recommendations of the advisory board those priority areas and features which should be dedicated or recognized as Heritage Preserves or Sites, and thereafter to establish as such through dedication or recognition; (5) To select from the recommendations of the advisory board those Heritage Preserves, interests therein or portions thereof, deserving of protection under the Heritage Trust and thereafter to transfer same into the corpus of the trust; (6) To conduct public hearings on the question of whether any particular natural or cultural area or feature should be established as a Heritage Preserve or Site, or on the uses or nonuses which shall apply to any area dedicated under the Heritage Trust Program; (7) To manage or provide for the management of Heritage Preserves through the promulgation of rules and regulations designed to preserve the primary natural character of such areas or features and to provide the maximum public usage thereof which is compatible and consistent with the character of the area. Management duties and responsibilities may be assigned to any governmental or private group, with its consent, with respect to any particular Heritage Preserve; (8) To cooperate with and to enter into agreement with other state, federal, county, and local units of government as well as private groups for the promotion of the purposes of this chapter including the carrying out of other requirements under federal and state law; and (9) To report annually to the Governor and to the General Assembly as to the activities of the Heritage Trust Program and its future plans, and to make any specific recommendations which it feels, if implemented, would assist in achieving the goals and purposes of this chapter.	Yes	Yes	
495	51-17-50	State	Statute	The Director of the Department, the Chairman of the Board, and the Director of the Land Resources Conservation Districts Division, or their designees, are required to serve on the Heritage Trust Advisory Board with the purpose of assisting the board of DNR in carrying out its duties and responsibilities under the Heritage Trust Program.	Yes	Yes	
496	51-17-60	State	Statute	The Department is required to submit to the Heritage Trust Advisory Board: (1) inventories of areas and features; (2) proposals for the dedication or recognition of specific areas and features as Heritage Trust Preserves and Sites; and (3) to assist in maintaining a list of areas and sites which through dedication become Heritage Trust Preserves or Sites, and to make public information regarding their location, management, regulation, and permissible public uses and the like.	Yes	Yes	
497	51-17-70	State	Statute	The Department is authorized to act as the basic staff for the board of the Department and the Heritage Trust Advisory Board and shall have the following powers and duties: (1) The Director is authorized to select a member of his staff who shall be primarily responsible for the administration of the Heritage Trust Program. (2) The Department is authorized to supply such other staff and support services as the board of the Department and the Heritage Trust Advisory Board require to fulfill their duties and responsibilities under the Heritage Trust Program.(3) The Department is authorized to maintain a public record of any inventories or lists established under the Heritage Trust Program. (4) The Department is authorized to work with owners, both public and private, in the development of proposals for the dedication and recognition of natural and cultural areas and features as Heritage Preserves and Sites, and it shall keep the Heritage Trust Advisory Board informed of the same in order that therefrom the advisory board may make recommendations to the board of the Department as provided under the Heritage Trust Program. (5) The Department is authorized to consult with and work in cooperation with the Department of Archives and History, the State Archeologist, the Department of Parks, Recreation and Tourism and any other state, county, or local unit of government, or any private entity, or group which is or should be directly involved in the Heritage Trust Program as well as in any particular efforts to preserve or protect any specific area or feature under the provisions of the Heritage Trust Program. In all cases, the Department shall attempt to avoid duplication of effort with other agencies and groups and shall have no mandatory authority hereunder to require action by any such body.	Yes	Yes

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
498	51-17-80	State	Statute	The Board of the Department is authorized to accept recommendations and approve any area or feature on the "Priority Areas and Features List" as a Heritage Preserve through the process of dedication. The Department is also authorized to require, in addition to the transfer of either the fee simple interest or a lesser interest therein such as an open space easement, the owner of any such area or feature, to enter into a written "Dedication Agreement" with the Department whereby any restrictions, conditions, permissive and nonpermissive uses of the area or feature involved are clearly stated. The Board of the Department and its agents are required in all cases to maintain the essential character of any area or feature dedicated, and as such they are hereby declared to be at their highest, best and most important use for the public benefit. No Heritage Preserve shall be taken for any other public purpose unless the approval of both the Board of the Department and the Governor has been obtained. No acquisition of any area or feature as a Heritage Preserve shall be allowed whereby the Department receives the fee simple interest in the property while the grantor or transferor retains the beneficial use or interests in the land except where total and complete public usage of the area or feature as allowed under this chapter is agreed to in the "Dedication Agreement". The Department is authorized to, within ninety days from the date of the completion of the dedication process by which an area or feature is established as a Heritage Preserve, or as soon thereafter as possible, recommend a management plan for the area or feature concerned. The plan shall include recommendations as to the uses and nonuses to which the property should be put, recommendations as to whether all or a part of the area or feature is deserving of increased protection through inclusion in the Heritage Trust, the projected cost of the management of the property, and recommendations as to whether or not a user fee would be appropriate. All state, federal, county, local, and private groups interested in the area or feature involved shall be allowed to have input into the proposed management plan. The plan shall be considered by the Heritage Trust Advisory Board, and therefrom the Advisory Board shall propose to the Board of the Department an overall management plan for the area or feature concerned. Upon approval by the Board of the Department of a plan, the Department or that agency or group authorized by the Board of the Department shall manage the Heritage Preserve in accordance therewith.	Yes	Yes	
499	51-17-85	State	Statute	Prohibits the board from disposing of any Heritage Trust property except under certain circumstances.	Yes	No	
500	51-17-90	State	Statute	The Board of the Department is authorized as the Trustee of the South Carolina Heritage Trust. The Board is authorized to place into the corpus of the trust any Heritage Preserve that it feels meets the requisite criteria and which has been recommended for inclusion therein by the Heritage Trust Advisory Board.	Yes	Yes	
501	51-17-100	State	Statute	The Board of the Department is authorized to, in any case wherein a priority feature is either unsuited or unavailable for acquisition as a Heritage Preserve, enter into an agreement with the owner thereof, recognize and register it as a Heritage Site. The Department is required to follow the specific registration procedures which calls for the Department to provide notice to the Heritage Trust Advisory Board, receive Advisory Board recommendations, approve applications, enter into a written agreement of registration with the owner of the feature concerned whereby the State shall give public recognition of the importance of the area or feature as a Heritage Site and the owner shall express his intent to preserve it, erect and maintain an appropriate sign on the Heritage Site indicating its recognition and the owner thereof shall be given a certificate acknowledging its registration, terminate registration agreements thus removing the feature as a Heritage Site and at that point can require any certificate previously issued therefor or sign erected be returned to the Department by the property owner.	Yes	Yes	
502	51-17-110	State	Statute	The Department is authorized to include the costs and operating expenses of the Board and the Heritage Trust Advisory Board and staff necessary to carry out the provisions of the Heritage Trust Program in the annual State Appropriation Act. Funding for management of areas and features which become Heritage Preserves must be specifically requested by the Department. The Board is also authorized to select those Heritage Preserves for which it is appropriate to charge an individual user fee. The Department is authorized to sell such user permits for a cost not to exceed five dollars and to be valid for the fiscal year in which issued at all Heritage Preserves where a permit is required. At the end of the fiscal year, the Department shall distribute the funds collected among the entities of government assigned responsibility for management in direct proportion to the acreage which they manage. The proceeds of the sale of the user permits must be used to defray the management expenses.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
503	51-17-115	State	Statute	Authorizes the Board of the Department as the Trustee of the Heritage Land Trust Fund and requires that it must be administered for the purpose of acquiring fee simple or lesser interest in priority areas, legal fees, appraisals, surveys, or other costs involved in the acquisition of interest in priority areas, and for the development of minimal facilities and management necessary for the protection of the essential character of priority areas. Unexpended balances, including interest derived from the fund, must be carried forward each year and used only for the purposes provided in this chapter. The Board shall report by letter to the presiding officers of the General Assembly not later than January fifteenth each year all funds expended pursuant to this chapter for the previous year, including the amount of funds expended and the uses to which the expenditures were applied.	Yes	Yes	
504	51-17-117	State	Statute	The Board of the Department, or its agent, is authorized in the case of donations of real and personal property including, but not limited to, land, houses, stocks, and bonds made to the Heritage Trust Program to (1) sell donated property, and proceeds from the sales must be deposited in the Heritage Land Trust Fund and used for the purposes established in the Heritage Trust Program; (2) establish minimum acceptable prices for disposition of donated property; (3) trade donated property for property of equal value; (4) promote donations to the program through advertising; or (5) decline donations for any reason.	Yes	Yes	
505	51-17-130	State	Statute	The enforcement officers of the Natural Resources Enforcement Division of the Department are authorized to enforce the provisions of the Heritage Trust Program.	Yes	Yes	
506	51-17-150	State	Statute	The Department, as trustee for the Heritage Land Trust Fund, is required to report annually to the Committee on Ways and Means of the House of Representatives and the Senate Finance Committee detailing acquisitions in the previous year by the Heritage Land Trust Fund and planned acquisitions for the next five years (until 1999).	Yes	No	
507	51-17-320	State	Statute	The Department is authorized to issue revenue bonds for the Heritage Trust Program. The Board is authorized, acting as trustee, to make a pledge of the Heritage Land Trust portion of the state deed recording fee, which is valid and binding from the time the pledge is made. The Board is authorized to establish procedures for a competitive bidding process, select lead underwriters and their criteria, and determine whether to sell bonds through negotiation or through competitive bidding.	Yes	No	Bond Retired, statute no longer necessary
508	51-18-60	State	Statute	The Chairman of the Board of the Department is required to serve on the War Between the States Heritage Trust Advisory Board.	Yes	Yes	This Board does not exist
509	51-18-130	State	Statute	The enforcement officers of the Natural Resources Enforcement Division of the Department are authorized to enforce the War Between the States Heritage Trust Act.	Yes	Yes	
510	51-22-50	State	Statute	The Department is authorized as an eligible recipient for project consideration and grants from the Legacy Trust Fund.	No	Yes	Fund does not exist
511	51-22-60	State	Statute	The Department is required to administer landowner incentive programs for endangered species habitat conservation, of which an entity must participate in order to be eligible for funds from the Legacy Trust Fund.	Yes	Yes	Fund does not exist
512	54-6-10	State	Statute	The Chairman of the Department Board, or designee, is authorized to serve ex officio on the Savannah River Maritime Commission.	Yes	Yes	
513	54-17-30	State	Statute	A Department Law Enforcement Division officer is authorized to serve on the Maritime Security Commission, ex officio.	Yes	Yes	
514	54-17-60	State	Statute	The Maritime Security Commission and the Naval Militia must coordinate their activities with federal, state, and local agencies, including the Department, responsible for maritime homeland security and Naval Militia functions as they relate to the South Carolina Maritime Security Act.	Yes	Yes	
515	56-3-4510	State	Statute	Authorizes the "SC Protects Endangered Species" and "SC Wildlife" commemorative plates. The Department of Motor Vehicles shall issue a series of special commemorative motor vehicle license plates for use by the owner on his private passenger motor vehicle for the purposes of the "Nongame Wildlife and Natural Areas Fund" provided in Section 50-1-280. The special fee for the commemorative license plate is thirty dollars and this amount must be placed in the fund. This fee is in addition to the regular motor vehicle registration fee set forth in Article 5, Chapter 3 of Title 56. The commemorative plate must be of the same size and general design of regular motor vehicle license plates and must be imprinted with the words "South Carolina Protects Endangered Species". The plates must be issued or revalidated for a biennial period, which expires twenty-four months from the month they are issued. Once the plate supply is exhausted, any revenues derived from a renewal or transfer of a "South Carolina Protects Endangered Species" plate must be distributed as directed in this subsection.	No	Yes	
516	56-3-7300	State	Statute	The Department is required to administer funds generated from the sale of the "Saltwater Fishing" special license plate to manage and conserve the marine resources of the state.	Yes	Yes	
517	56-3-12410	State	Statute	The Department is required to set up a public process to choose the image for the "Largemouth Bass" special license plate. The Department is authorized to receive the fees collected pursuant to this section above the cost of production, which shall only be used to promote bass fishing throughout the State.	Yes	Yes-Implied	
518	56-5-170	State	Statute	Department vehicles when being used in the performance of law enforcement duties are authorized as emergency vehicles by the Department of Motor Vehicles.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
519	57-5-870	State	Statute	The Department is authorized to enter into a cooperative agreement with the Department of Transportation for the conservation of access roads and recreational facilities. The agreements may provide for the Department of Transportation to prepare the necessary plans; provide construction engineering and inspection; and award the necessary construction contracts, subject to the written approval of the Department of Natural Resources. All such contracts shall provide for payments for work performed to be made by the Department of Natural Resources from its funds. Upon completion of the construction work, the Department of Transportation shall reimburse the Department of Natural Resources out of farm-to-market construction funds apportioned to the county in which the work is performed not exceeding the actual cost of constructing any such secondary roads or one half the total cost of the project provided for in the cooperative agreement, whichever is less. The Department of Transportation shall pay from its farm-to-market construction funds apportioned to such county the cost of engineering and inspection. The roads shall become a part of the state highway secondary system upon their completion.	yes	Yes	
520	57-23-800(D)	State	Statute	The Department is authorized to make an assessment and written determination to the Department of Transportation that vegetation management causes an increase in safety risks due to the attraction of wildlife along the highway.	No	yes	
521	58-1-65	State	Statute	The Department is authorized to exclusively manage and control programs to combat the growth of aquatic weeds. The Department is to work in conjunction with the owners and operators of water impoundments for federally regulated hydroelectric projects. The programs are to be funded in part by revenue appropriated to the Department in Part 1, Section 47 of the 1995-96 general appropriations act, by revenue of certain federal programs, and by contributions by the owners and operators of the federally regulated hydroelectric projects. The Department is also authorized to hold harmless the owners and operators of water impoundments.	Yes	Yes	
522	58-33-140	State	Statute	The Department is authorized as a mandatory party in all certifications for major utility facilities.	No	Yes-implied	
523	63-3-520	State	Statute	The Department is authorized to receive from family court notice of all adjudications of the provisions of Title 50.	No	No	
524	63-17-2730	State	Statute	The Department is authorized to require a notice from the Child Support Enforcement Division of a child support lien, with the social security number, or the alien identification number assigned to a resident alien who does not have a social security number, of the obligor on the notice for any property titled through the Department.	Yes	Yes	
525	Proviso # 117.1	State	Proviso	Requires that general state revenues from taxation, licenses, fees or from any other source whatsoever, and all institutional and departmental revenues or collections, including income from taxes, licenses, fees, the sale of commodities and services, and income derived from any other departmental or institutional source of activity, must be remitted to the State Treasurer at least once each week, when practical, and must be credited, unless otherwise directed by law, to the General Fund of the State. Each institution, department or agency, in remitting such income to the State Treasurer, shall attach with each such remittance a report or statement, showing in detail the sources itemized according to standard budget classification from which such income was derived, and shall, at the same time, forward a copy of such report or statement to the Comptroller General and the Executive Budget Office.	No	No	
526	Proviso # 117.13	State	Proviso	Each state agency shall submit to the state Human Affairs Commission employment and fill vacancy data by race and sex factor by the October 31st of each year.	No	No	
527	Proviso # 117.15	State	Proviso	The Department of Natural Resources game management personnel and fish hatchery personnel are permitted to occupy residences owned by The Department without charge. The Fair Market Rental Value shall be reported by the agency to the Agency Head Salary Commission and The Department of Administration by October 1st of each fiscal year.	No	No	
528	Proviso # 117.19	State	Proviso	Agency heads or Deputy Directors may receive reimbursement for business expenses incurred while performing their official duties as long as properly documented.	No	No	
529	Proviso # 117.20	State	Proviso	The per diem allowance for Boards, Commissions and Committees shall be at the rate of $35 per day. No full time officer or employee of the state shall draw the allowance.	No	No	
530	Proviso # 117.21	State	Proviso	Addresses travel and subsistence expenses for employees of the agency.	No	No	
531	Proviso # 117.22	State	Proviso	SC DNR is required to maintain a continuing log of all flights.	No	No	
532	Proviso # 117.23	State	Proviso	DNR is authorized to carry forward unspent general fund appropriations from the prior fiscal year to the current fiscal year up to a maximum of 10 percent of the general fund appropriations less any appropriation reductions for the current fiscal year.	No	No	
533	Proviso # 117.25	State	Proviso	DNR is required to consider first contracting for services or purchasing goods and services through the Department of Corrections Prison Industries Program.	No	No	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
534	Proviso # 117.26	State	Proviso	The Agency shall provide the Comptroller General the listing of employees and their travel. Agencies should include position titles for each of the top twenty-five travelers for each agency. Expenditures must include state, federal and other sources of funds. Expenditures for in-state and out-of-state registration fees (fees to attend conferences, teleconferences, workshops, or seminars for training on a per person basis) must be shown as a separate subtotal within the grand total for the individual employees and the agency as a whole. The list for each agency must be in rank order with the largest expenditure first and the name of the employee must be shown with each amount. Agencies should include a brief summary of the type of travel the agency incurs. The Comptroller General may provide additional information as deemed appropriate.	No	No	
535	Proviso # 117.29	State	Proviso	Agencies are required to submit accountability reports for the prior fiscal year. Agencies' annual accountability reports for the prior fiscal year, as required in Section 1-1-810, must be accessible to the Governor, Senate Finance Committee, House Ways and Means Committee, and to the public on or before September fifteenth, for the purpose of a zero-base budget analysis and in order to ensure that the Agency Head Salary Commission has the accountability reports for use in a timely manner. Accountability Report guidelines shall require agencies to identify key program area descriptions and expenditures and link these to key financial and performance results measures.	No	No	
536	Proviso # 117.30	State	Proviso	The state agency may collect a service charge to cover the costs associated with processing and collection of dishonored instruments or electronic payments where any amount is not paid by the drawee due to insufficient funds on deposit with the bank or the person upon which it was drawn when presented, or the instrument has an incorrect or insufficient signature on it. Such funds shall be retained and expended by the agency in accordance with this purpose and any unused amount shall carry forward to the following fiscal year.	No	No	
537	Proviso #117.34	State	Statute	Each state agency shall provide to the Chairmen of the Senate Finance and House of Representatives Ways and Means Committees and the Inspector General a report detailing the amount of its outstanding debt and all methods it has used to collect that debt. This report is due by the last day of February for the previous calendar year. For purposes of this provision, outstanding debt means a sum remaining due and owed to a state agency by a nongovernmental entity for more than sixty calendar days.	No	No	
538	Proviso # 117.35	State	Proviso	DNR may implement in consultation with the Department of Administration a program to realign resources and create voluntary separation incentive programs.	No	No	
539	Proviso # 117.41	State	Proviso	The DNR shall purchase recycled steel unless the item cannot be acquired competitively at a reasonable price.	No	No	
540	Proviso # 117.47	State	Proviso	Any insurance reimbursement to DNR may be used to offset expenses related to the claim. These funds may be retained, expended and carried forward.	No	No	
541	Proviso # 117.48	State	Proviso	DNR shall furnish to the Human Resources Division(1) a current personnel organizational chart annually no later than September first of the current fiscal year, or upon the request of the division and (2) notification of any change to the agency's organizational structure which impacts an employee's grievance rights within thirty days of such change. The organizational chart shall be in a form prescribed by the Human Resources Division showing all authorized positions, class title, class code, position number and indications as to whether such positions are filled or vacant. In addition, the organizational chart shall clearly identify those employees who are exempt from the State Employee Grievance Procedure Act.	No	No	
542	Proviso # 117.50	State	Proviso	State agencies must continue to actively pursue cost saving measures through collaborative efforts and may combine administrative support functions of other agencies.	No	No	
543	Proviso # 117.55	State	Proviso	State agencies and institutions are allowed to spend state, federal, and other sources of revenue to provide selected employees lump sum bonuses, not to exceed three thousand dollars per year, based on objective guidelines established by the Department of Administration. Payment of these bonuses is not a part of the employee's base salary and is not earnable compensation for purposes of employee and employer contributions to respective retirement systems. Employees earning $100,000 or more shall not be eligible to receive bonuses under this provision. The employing agency must report this information on or before August thirty-first of each year and must include the total amount and source of the bonus received by the employee during the preceding fiscal year (July first through June thirtieth). The Human Resources Division of the Department of Administration shall formulate policies and procedures to ensure compliance with the reporting provisions of this proviso. Copies of the reports shall be made available to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee, upon request.	No	No	
544	Proviso # 117.58	State	Proviso	DNR is required to submit annual audited financial statements for inclusion on the State's Comprehensive Annual Financial Report and must comply with the submission dates stipulated in the State Auditor's Office audit contract period.	Yes	Yes	
545	Proviso # 117.59	State	Proviso	Any incentive rebate premium received by an agency from the Purchase Card Program may be retained and used by the agency to support its operations.	No	No	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
546	Proviso # 117.65	State	Proviso	State Agencies that employ attorneys, are authorized, if they so decide, to use other appropriated funds, including General Fund carry forward funds, to pay the cost of mandatory dues owed to the South Carolina Bar Association.	Yes	No	
547	Proviso # 117.69	State	Proviso	Agency heads may ensue an employee voluntary furlough program of not more than 90 day per fiscal year. During this voluntary furlough, the state employees shall be entitled to participate in the same state benefits as otherwise available to them except for receiving their salaries. As to those benefits which require employer and employee contributions, the state agencies, institutions and departments will be responsible for making both employer and employee contributions if coverage would otherwise be interrupted; and as to those benefits which require only employee contributions, the employee remains solely responsible for making those contributions. In the event an agency's reduction is due solely to the General Assembly transferring or deleting a program, this provision does not apply.	Yes	No	
548	Proviso # 117.70	State	Proviso	The Department of Natural Resources shall provide a security detail to the Governor in a manner agreed to by SLED, DPS, DNR and Office of the Governor. Reimbursement to the State Law Enforcement Division, the Department of Public Safety, and the Department of Natural Resources to offset the cost of the security detail for the Governor shall be made in an amount agreed to by the State Law Enforcement Division, the Department of Public Safety, the Department of Natural Resources, and the Office of Governor from funds appropriated to the Office of Governor for this purpose. Law enforcement officers assigned to security detail for the Governor shall only perform services related to security and shall not provide any unrelated service during the assignment.	Yes	Yes	
549	Proviso # 117.72	State	Proviso	If a Reduction In Force is implemented by a state agency, the agency head shall be required to take five days furlough in the current fiscal year. If more than one reduction in force plan is implemented in a fiscal year, the mandatory agency head furlough is only required for the initial plan. The agency head will retain all responsibilities and authority during the furlough. All monies saved from this furlough may be retained by that agency and expended at the discretion of the agency head. During this furlough, the agency head shall be entitled to participate in the same state benefits as otherwise available to them except for receiving their salaries. As to those benefits which require employer and employee contributions, the state agency will be responsible for making both employer and employee contributions if coverage would otherwise be interrupted; and as to those benefits which require only employee contributions, the agency head remains solely responsible for making those contributions. Placement of an agency head on furlough under this provision does not constitute a grievance or appeal under the State Employee Grievance Procedure Act. Agencies may allocate the agency head's reduction in pay over the balance of the fiscal year for payroll purposes regardless of the pay period within which the furlough occurs. An agency head shall not be required to take this mandatory furlough based solely on reductions in force implemented as a result of federal budget cuts or reorganization to accomplish organizational efficiencies.	Yes	No	
550	Proviso # 117.75	State	Proviso	Each state agency must provide and release to the public via the agency's website, a report of all aggregate amounts of fines and fees that were charged and collected by that agency in the prior fiscal year. The report shall include, but not be limited to: (1) the code section, regulation, or proviso that authorized the fines and fees to be charged, collected, or received; (2) the amount of the fine or fee; (3) the amount received by source; (4) the purpose for which the funds were expended by the agency; (5) the amount of funds transferred to the general fund, if applicable, and the authority by which the transfer took place; and (6) the amount of funds transferred to another entity, if applicable, and the authority by which the transfer took place, as well as the name of the entity to which the funds were transferred. The report must be posted online by September first. Additionally, the report must be delivered to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee by September first. Funds appropriated to and/or authorized for use by each state agency shall be used to accomplish this directive.	Yes	Yes-Implied	
551	Proviso # 117.76	State	Proviso	In a fiscal year in which the general funds are left and the funds appropriated for that agency or if a reduction is in place, the agency head must institute a mandatory furlough program.	No	No	
552	Proviso # 117.77	State	Proviso	In a fiscal year in which the general funds are left and the funds appropriated for a state agency are less than the general funds in the prior fiscal year where there's an across the board budget reduction.	No	No	
553	Proviso # 117.78	State	Proviso	An agency must follow the guidance when an employee retires that is listed in this proviso.	Yes	No	
554	Proviso # 117.81	State	Proviso	The state agency may not decrease the compensation of an employee solely because the employee gives sworn testimony to a standing committee, subcommittee of a standing committee, or study committee of the Senate or the House of Representatives. This proviso shall apply regardless of when the alleged wrongdoing occurred.	No	No	
555	Proviso # 117.82	State	Proviso	Each state agency shall monitor and appropriately operate within the limits of its authorized appropriations.	Yes	No	

The contents of this chart are considered sworn testimony from the Agency Director.

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
556	Proviso # 117.84	State	Proviso	Each state agency which has composite reservoir bank accounts shall prepare a report for each account disclosing every transaction of the account in the prior fiscal year.	No	No	
557	Proviso # 117.85	State	Proviso	All agencies, shall be responsible for providing on its Internet website a link to the Internet website of any agency, other than the individual agency that posts on its Internet website that agency's monthly state procurement card statements or monthly reports containing all or substantially all the same information contained in the monthly state procurement card statements.	No	Yes-Implied	
558	Proviso # 117.86	State	Proviso	The state agency proposes a regulation that increases a fee fine or otherwise generates revenue. The regulation must indicate that it is being proposed.	No	No	
559	Proviso # 117.89	State	Proviso	Each state agency shall report in the recovery audit program.	No	No	
560	Proviso # 117.93	State	Proviso	State agencies are encouraged to realize savings through administrative overhead costs elimination of payroll management and reduction in programmatic funding.	No	No	
561	Proviso # 117.100	State	Proviso	State agencies which do not receive a separate audit of federal expenditures must submit to the office of the state auditor a schedule of federal program expenditures no later that August 15 of each year.	No	No	
562	Proviso # 117.110	State	Proviso	An agency that includes personal identifying information in computerized data or other data shall disclose any breach of the security system following notification of the breach to the residents who were affected.	Yes	Yes	Not required unless a breach.
563	Proviso # 117.118	State	Proviso	All state agencies must submit an information technology plan and an information security plan for the fiscal year and must submit updates to their plans.	No	No	
564	Proviso # 47.1	State	Proviso	All revenue generated from the sale of the "South Carolina Wildlife" magazine by products and other publications shall be retained by the Department and used to support the production for the magazine to be self sustaining. The Department is authorized to sell advertising in the magazine if necessary and no general funds may be used for the operations support of the magazine.	Yes	Yes	
565	Proviso # 47.2	State	Proviso	DNR shall continue to collect the casual sales tax as contained in the contractual agreement between DOR and DNR and the State Treasurer authorized to reimburse the Department on a quarterly basis for the actual cost of collecting the tax.	Yes	Yes	
566	Proviso # 47.3	State	Proviso	Each of South Carolina's forty-six soil and water conservation districts shall receive a proportionate share of funding set aside for Aid to Conservation Districts at $15,000 per district for general assistance to the district's program. Available funding above $15,000 for each district will be apportioned by the Department based upon local needs and priorities as determined by the board. During the fiscal year, the districts' funding may only be reduced in an amount not to exceed the percentage of each agency budget reduction. No district shall receive any funds under this provision unless the county or counties wherein the district is located shall have appropriated no less than three hundred dollars to the district from county funds for the same purposes.	Yes	Yes	
567	Proviso # 47.4	State	Proviso	DNR may carry forward funds accumulated by the Department of Natural Resources Geology Program and the contract for the provision of goods and services not covered by the Department's appropriated fund and may be carried forward and expended for the costs associated with the provision of such goods and services.	No	Yes	
568	Proviso # 47.5	State	Proviso	The department may collect expend and carry forward revenues derived from the sales goods and services in order to support aerial photography, map services, climatology data and geological services. The department shall report on this revenue to the Senate Finance Committee and the House Ways and Means Committee.	Yes	No	
569	Proviso # 47.6	State	Proviso	DNR is authorized to provide enforcement officers on special assignment with an annual clothing allowance not to exceed $600 per officer for required clothing used in the line of duty.	No	No	
570	Proviso # 47.7	State	Proviso	The Department is authorized to pay for the costs of physical examinations for Department personnel who are required to receive such physical examinations prior to receiving a Law Enforcement Commission.	Yes	No	
571	Proviso #47.8	State	Proviso	DNR shall coordinate a public cormorant control program with US Fish and Wildlife service for Lake Marion and Moultrie. The Department shall try to coordinate with the Army Corp of Engineers, Santee Cooper, and the USFWS to include waters above and below each spillway, Wildlife Management Areas, and national refuges. The Department shall assess the need to expand the program to other public waters and implement a plan if warranted. If the USFWS allows continuation of the control program, the Department shall establish an online method of permitting.	Yes	Yes	
572	Proviso # 47.9	State	Proviso	The Department may carry forward any unexpended general fund balance remaining on the Other Operating Expenses line, identified in the "Web Services and Technology Development" program of the Department appropriations from Part IA in this Act. Balances carried forward from the prior fiscal year are only authorized to be expended to support technology operating expenses within the Department.	No	No

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
573	Proviso # 93.25	State	Proviso	The Department is authorized to retain the net proceeds from the sale of existing offices originally purchased with a federal grant or with restricted revenue from hunting and fishing license sales for the improvement, consolidation, and/or establishment of regional offices and related facilities. The Department shall annually submit a report, within 60 days after the close of the fiscal year, to the Senate Finance committee and the House Ways and Means Committee on the status of the sale of the identified property and a detailed accounting on the expenditure of funds resulting from the sale.	No	No	
574	Proviso # 102.3	State	Proviso	The Department director, or his designee, shall serve as one of the seven members of the South Carolina Boundary Commission. The purpose of the commission is to work with the North Carolina Boundary Commission to oversee and approve work re-establishing the boundary between NC and SC.	Yes	Yes	
575	121-11.2	State	Regulation	The Department must, through regulation, establish specific numerical values for the indices that define each level of drought. The incipient drought phase shall initiate inhouse mobilization by department personnel and the Drought Response Committee. The department shall routinely monitor the climatic variables, streamflow, and water levels in potable drinking water supplies and water levels in the above and below ground water tables and lakes, and shall notify the Drought Response Committee and relevant federal, state, and local agencies that a portion of the State is experiencing an incipient drought condition. The department must increase monitoring activities to identify a change in existing conditions. The department shall continue to evaluate information from various sources. Upon confirmation of an Extreme Drought Alert Phase, the Drought Response Committee may recommend that the Governor issue a public statement that an extreme drought situation exists and that appropriate water-use and withdrawal restrictions be imposed.	Yes	Yes	
576	121-11.5	State	Regulation	Authorizes a representative of the Department to serve on the Drought Response Committee. The department shall provide administrative support to the Committee. The Drought Response Committee for individual drought management areas shall convene upon notice by the South Carolina Department of Natural Resources or at the request of five committee members.	Yes	Yes	
577	121-11.6	State	Regulation	Members of the Drought Response Committee shall be notified at the onset of each Drought Alert Phase and provided information by the South Carolina Department of Natural Resources with respect to the Drought Alert Phase in each Drought Management Area as applicable. Upon determination that action in addition to local measures is necessary to insure adequate supplies of water in drought management areas, the Drought Response Committee shall prepare recommendations to reduce or alleviate drought impacts and submit the recommendations to the South Carolina Department of Natural Resources for implementation.	Yes	No	
578	121-11.7	State	Regulation	The Office of the State Climatologist, South Carolina Department of Natural Resources, shall maintain a Drought Information Center whenever one or more drought management areas of the State are in a moderate, severe or extreme drought alert phase. Information about the status of drought conditions and impacts on the economy and well-being of the State will be collected and made available to State Agencies, State Officials, the news media, and other concerned interests.B. The Drought Information Center shall routinely collect, monitor, and evaluate selected climatic, water-supply and water-use data as necessary to identify at an early stage the onset of a drought or potential for drought, geographic extent of the affected area and changes in the drought levels. C. Drought indices shall be computed on a weekly basis. These computations will be compared with the various similar indices computed by other State, Federal and private agencies. D. Monitoring shall be accelerated whenever drought conditions approach or enter the moderate drought stage in one or more drought management areas. This may include acquiring additional rainfall, stream flow, water use, and ground water level data; and collecting additional information on the impact of the drought on agriculture, industry, domestic water supplies, and other users. E. During periods of moderate, severe or extreme drought, available drought related data, as appropriate, will be provided to the Drought Information Center by the South Carolina Department of Agriculture, South Carolina Emergency Preparedness Division, South Carolina Forestry Commission, South Carolina Department of Health and Environmental Control, as well as by any other State Agency that is either impacted by or has information on drought conditions. Various Federal and local agencies may be asked to provide drought information on a voluntary basis.	Yes	Yes	
579	121-11.8	State	Regulation	The incipient drought phase shall initiate inhouse mobilization by department personnel and the Drought Response Committee. The department shall routinely monitor the climatic variables, streamflow, and water levels in potable drinking water supplies and water levels in the above and below ground water tables and lakes, and shall notify the Drought Response Committee and relevant federal, state, and local agencies that a portion of the State is experiencing an incipient drought condition. During a moderate drought, statements must be released to the news media by the department, and appropriate agencies must accelerate monitoring activities. In extreme drought alert the department shall continue to evaluate information from various sources.	Yes	Yes

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
580	121-11.9	State	Regulation	Upon the inception of a drought alert phase, the South Carolina Department of Natural Resources will disseminate public information concerning all aspects of the drought. The initial action in responding to drought is public education, providing information as to existing and potential conditions and water conservation measures necessary to meet the demand for water at each drought alert phase. B. The South Carolina Department of Natural Resources shall provide the following notice of Drought Alert Phases. (1) The South Carolina Department of Natural Resources shall notify the Drought Response Committee at the beginning of an incipient drought alert phase and each upgrading of the drought alert to a higher phase. Such notice shall be by first class mail. (2) The South Carolina Department of Natural Resources shall notify by first class mail public water systems in the affected Drought Management Areas and other appropriate agencies and individuals at the inception of a moderate drought alert phase and each upgrading of the drought alert to a higher phase. (3) The South Carolina Department of Natural Resources shall publish notice at least once in a newspaper of general circulation in the areas affected at the inception of a Moderate Drought Alert Phase and each upgrading of the drought alert to a higher phase. (4) The South Carolina Department of Natural Resources will take any other action appropriate to announce a drought alert.	Yes	Yes	
581	121-11.10	State	Regulation	During severe or extreme drought conditions, the South Carolina Department of Natural Resources may require mandatory reduction or curtailment of non-essential water use in affected drought management areas if recommended by the Drought Response Committee in accordance with R.121-11.6. Any person adversely affected by mandatory curtailment may, within ten days after such curtailment becomes effective, submit appropriate information to the South Carolina Department of Natural Resources and seek a variance from the curtailment. (3) Either the South Carolina Department of Natural Resources staff or the person requesting the variance may request a meeting to discuss any matter relevant to the request or to seek additional information. Such meeting shall be conducted as expeditiously as practicable; (4) Upon receipt of all relevant information (specified in E. (1), (2), and (3) above) from the person requesting the variance, the South Carolina Department of Natural Resources staff shall issue a determination for the request for a variance. Such determination shall be made within five days of receipt of all relevant information from the person requesting the variance or within twenty days of the declaration of the curtailment, whichever comes first. Persons not capable of immediate water use reduction or curtailment because of equipment damage or other extreme circumstances shall commence gradual reduction within twenty-four hours of the declaration of curtailment and shall notify the South Carolina Department of Natural Resources of their proposed reduction schedule by certified mail within three working days of the declaration of curtailment. A variance will be required for the gradual or reduced reduction and a request for a variance must be submitted to the South Carolina Department of Natural Resources as specified in E. above within ten days after such curtailment becomes effective.Any declaration of curtailment shall continue in effect only as long as conditions in any drought management area require it. The declaration shall be terminated by action of either the Drought Response Committee or the South Carolina Department of Natural Resources, and notice of termination of the declaration shall be given as when originally issued.	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
582	121-11.11	State	Regulation	A. During any drought alert phase, the South Carolina Department of Natural Resources shall offer its services to mediate any dispute arising from competing demands for water. The mediation may be undertaken only upon the request of the parties involved and may not be binding. B. The Chairman of the South Carolina Department of Natural Resources shall appoint a three person board to mediate each dispute. The board shall meet as necessary to mediate the dispute at a location deemed most appropriate by the board for all persons involved. C. A written request shall be submitted from each grieved person to the South Carolina Department of Natural Resources. The requests will contain the following minimum information: (1) Statement of the cause for mediation; (2) Results sought by each person; (3) Historical water use by each person; (4) Description of water sources; (5) Map of general area showing water sources, water transfers, water use points, and water discharge, as appropriate. (6) Additional material deemed relative to the dispute by each person. D. The South Carolina Department of Natural Resources as appropriate may conduct investigations to resolve the dispute. E. A decision shall be made by the board within ten days of receipt of all necessary information. F. A permanent record of each mediation process shall be maintained by the South Carolina Department of Natural Resources, and a summary of the request, findings, and conclusions of mediation shall be reported by the board to the South Carolina Department of Natural Resources and incorporated into the minutes of the South Carolina Department of Natural Resources. The South Carolina Department of Natural Resources will entertain requests for confidentiality if sufficient reasons exist to withhold information under the Freedom of Information Act.			
583	121-11.12	State	Regulation	The South Carolina Department of Natural Resources, in cooperation with the South Carolina Department of Health and Environmental Control, shall prepare and distribute a model drought response ordinance or ordinances within six months of approval by the General Assembly of these regulations. The model ordinance will be distributed to all entities which must develop ordinances and plans. Proposed ordinances and plans must be submitted to the South Carolina Department of Natural Resources for consistency review within twelve months of the effective date of these regulations. Water suppliers as specified in B. above, commencing the business or activity of supplying water, after the effective date of these regulations, shall submit a local drought response ordinance or plan to the South Carolina Department of Natural Resources within six months of the commencement of the business or activity and shall adopt the ordinance or plan within twelve months of the commencement of the business or activity.	Yes	Yes	
584	123-2	State	Regulation	In the case of a reportable accident the operator of any vessel involved shall file the report with the (SCDNR) S.C. Wildlife and Marine Resources Department, Division of Boating. Those having to file accident reports may obtain forms from Division of Boating, S.C.W.M.R.D.	Yes	Yes	Antiquated statute
585	123-9	State	Regulation	SCWMRD (Now DNR) must issue a decal for watercraft and outboard motors.	Yes	Yes	
586	123-10	State	Regulation	The use of watercraft shall be restricted in certain areas of the waters of the State of S.C. when the Director determines that such restriction is necessary in the interest of public safety.	Yes	Yes	
587	123-20	State	Regulation	Any person using a channel net as defined by S. C. Wildlife and Marine Resources Department Regulation 123-20 or other fixed or stationary net described above in any of the saltwaters of this State shall first obtain and have in possession a valid permit issued by the Marine Resources Division.	Yes	Yes	Antiquated statute
588	123-24	State	Regulation	Section 50-17-410 (no longer valid law) of the 1976 Code provides that at the time of securing boat licenses the owner of the boat shall file with the Division of Marine Resources a sworn statement giving the name and address of the master or captain of the boat.	Yes	No	Antiquated statute
589	123-33	State	Regulation	Those types of equipment and gear authorized for use in taking eels from such waters shall be used only where fishing is legal; and any eel basket or pot, fyke net or dip net which is used in any manner in violation of this rule and regulation and any device or equipment which is used in such waters for the taking of eels which is not authorized herein, shall be confiscated by the South Carolina Wildlife and Marine Resources Department; and the Department shall dispose of such equipment and any catch found therein in the manner it deems appropriate.	No	No	Antiquated statute

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
590	123-34	State	Regulation	The Department may issue Shellfish permits, and the regulation lists what the Department may consider. B. Review and Approval of Shellfish Permit Applications (1) Applications for shellfish permits shall be reviewed by a committee of Departmental personnel knowledgeable with the shellfish fishery appointed by the Director, Division of Marine Resources. The Committee will consider each applicant's qualifications and conduct personal interviews if advisable. The Committee will select qualified applicants to the Director's office for final approval. The Committee will also consider contested permit applications, the allocation of shellfish grounds for public or private use, permit revisions, variances, or revocations, and make recommendations to the Director's office for final approval.	Yes	Yes	Antiquated statute
591	123-39	State	Regulation	The Department may require Turtle Excluder Devices in additional or all open areas if a significant threat to sea turtles is determined.	No	No	Antiquated statute
592	123-40	State	Regulation	No hunting is allowed in research and teaching areas of Keowee WMA posted with white signs except those special hunts for youth or mobility-impaired as conducted by the Department. All harvested deer and turkeys must be checked in at the Belfast Check Station. At Bonneau Ferry WMA for deer and small game, regulations for the adult/youth and general use sides of the property will alternate each year as prescribed by the Department. 2.9 Notwithstanding any other provision of these regulations, the Department may permit special hunts on any day during the regular hunting season. 2.10 No person may release or attempt to release any animal onto WMA lands without approval from the Department. 5.4 The Department may permit deer hunting with dogs on WMA lands not located in Game Zones 1 and 2. 10.2 The Department may designate sections of Wildlife Management Areas and other lands and waters under the control of the Department as Designated Waterfowl Management Areas or Designated Dove Management Areas. All laws and regulations governing Wildlife Management Areas apply to these special areas. In addition, the Department may set special shooting hours, bag limits, and methods of hunting and taking waterfowl and doves on those areas. 10.16 Designated Dove Management Areas include all dove management areas as published by the Department in the annual listing of WMA public dove fields and are subject to regulations filed annually. 11.1 Taking of any amphibian or reptile, except the bullfrog, is prohibited on any Department-owned Wildlife Management Areas without written	Yes	Yes	
593	123-46	State	Regulation	1. Any person suffering excessive damage to crops and property caused by deer may apply to the Director of Wildlife and Freshwater Fisheries for a deer depredation permit as prescribed in Section 50-11-330, 1976 South Carolina Code of Laws. 2. Applications for deer depredation permits shall be made to the Director in writing signed by the applicant 3. It is the policy of the Department to restrict the persons allowed to take deer under a deer depredation permit to the permittee, permittee's employees, or permittee's immediate family. And if the permittee desires any other person to take deer under authorization of said permit an explanation for same should be attached to the application. 4. The Director shall give immediate consideration to applications for deer depredation permits and within fourteen (14) days of receipt of same shall either issue the permit or deny the application. Immediate notification of the denial may be given orally provided the Director give written notification of the denial to the applicant within twenty-one (21) days of receipt of the application together with the Director's reason for denial. 5. Deer depredation permits will be issued for each specific parcel of property denoting the names of the individuals designated to take deer thereunder and the hours of the day in which deer may be taken. 6. The applicant or landowner shall allow a Department representative to enter the property for which the application is made for the purpose of inspecting the property to determine the necessity or exigency for issuance of the permit. 7. No deer depredation permit will be issued to any applicant who has been convicted of a game law violation within the year next preceding the date of application for said permit. No person convicted of a game law violation within the year next preceding the application can be designated to take deer under a deer depredation permit. The applicant shall certify in the application that the applicant and the persons designated to take deer under the permit have not been convicted of a game law violation within the year next preceding the application. 8. Any application containing false information therein shall subject the applicant to the penalties as prescribed herein. 9. Any person who takes a deer under a duly authorized deer depredation permit shall notify a conservation officer immediately thereafter. 10. Any deer taken under a duly authorized depredation permit shall be delivered to an eleemosynary institution by Department personnel.	Yes	Yes

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
594	123-53	State	Regulation	All persons drawn for the bear hunt must submit a harvest report and return unused tags to the Department no later than 7 days after the close of the season, regardless of whether or not a bear was harvested.	No	No	
595	123-96	State	Regulation	Requests for field trial permits must be submitted to the Department at least fourteen (14) days prior to the proposed trial date. Requests shall include payment of five dollars ($5.00) per trial, the time and location of the proposed trial. 4. Field trial permittees may be required to maintain records and file reports with the Department. 5. Field trial permits may be issued by the Department for private lands outside of the regular season.8. The Department may restrict or deny permits for field trials at its discretion.			
596	123-107	State	Regulation	Live trout in eating establishments-The Department may specify in any such permit granted hereunder any additional restrictions or regulations for the keeping of such live trout.	Yes	Yes	
597	123-108	State	Regulation	1. The Department shall have authority to issue a special permit to any state, county or local fair, circus or temporary or travelling amusement center or show to allow the sale of hatchery raised trout to patrons thereof whereby such fish are displayed in a tank or holding apparatus taken by rod and reel or hook and line by customers and kept by the taker. 2. The Department may specify the conditions under which the activity may be conducted including but not limited to the type of tank and method of display that may be utilized, method by which such fish may be taken, hours of operation, records that must be kept, marking or identification procedures required including wrapping and packaging of any fish so taken. The Department may grant or deny any application for such a permit, and may revoke any permit so issued upon breach of any condition or requirement established. 4. The Department shall have authority at all times to inspect the premises whereupon said activity is to be or is being conducted for inspection purposes.	Yes	Yes	
598	123-118	State	Regulation	Maintenance of the perimeter of Lake Warren Management Area (Hampton County) shall be a function of the Department and, in this regard, workers, together with vehicles, equipment and other apparatus, must be free of handicap in carrying out their assigned duties. In any circumstance not previously mentioned, a prospective user shall contact local Department authorities to initiate rulings pertinent to his situation.	Yes	Yes-Implied	
599	123-127	State	Regulation	In Lake Marion, Lake Moultrie, the Diversion Canal connecting the lakes and the Tail Canal down to the Seabord Coastal Railroad Bridge, those types of equipment and gear authorized for use in taking eels from such waters shall be used only where fishing is legal; and any eel basket, pot or dip net which is used in any manner in violation of this rule and regulation, and any device or equipment which is used in such waters for the taking of eels which is not authorized herein, shall be confiscated by the S.C. Wildlife and Marine Resources Department; and the Department shall dispose of such equipment and any catch found therein in the manner it deems appropriate.	No	No	Antiquated statute
600	123-150	State	Regulation	It shall be unlawful for any person to take, possess, transport, export, process, sell, or offer for sale or ship, and for any common carrier knowingly to transport or receive for shipment any species or subspecies of wildlife appearing on the list of "Endangered Wildlife Species of South Carolina", except by permit for scientific and conservation purposes issued by the South Carolina Department of Natural Resources. Permits for conservation purposes shall be issued only for relocation, if warranted, and the incidental take of Red-cockaded Woodpeckers as part of the statewide Habitat Conservation Plan for Safe Harbor and for other mitigation purposes approved by the U.S. Fish and Wildlife Service.	Yes	Yes	
601	123-150.1	State	Regulation	That is shall be unlawful for any person to take, possess, barter, trade, transport, export, process, sell or offer for sale or ship, and for any contract carrier knowingly to transport or receive for shipment any such species or products or parts or eggs thereof except by permit for scientific or educational purposes issued by the South Carolina Wildlife and Marine Resources Department, except that incidental catch of sea turtles while engaged in otherwise legal fishing, trawling or research activities at sea would be exempt under the taking clause of this regulation.	No	No	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
602	123-151	State	Regulation	The size and number of all alligators to be taken will be specified by the Department on permits provided with harvest tags. A permit holder may only take and/or possess alligators identified by the Department and only in the manner specified by the Department. In the event that an alligator harvest tag is defective and is not usable for the purpose intended, or becomes detached from the alligator hide, the Department must be notified immediately. The Department will be responsible for the replacement of defective, but not lost, tags. Before shipping or transporting outside of the USA, carcasses or hides must have CITES tags attached. Anyone desiring to ship or transport such items from the country must contact select Department offices for CITES validation and tagging. Quality and Control Agents- Applications for selection as control agents will be reviewed by the Department. The number of appointed control agents will be based upon the need as determined by the Department. 3. Operation of Department designated alligator control agents: a. Alligators may be skinned only at designated sites and in accordance with specific instructions provided by the Department. c. Each control agent may be assisted by not more than two assistant control agents approved by the Department, provided that no such assistant shall operate or conduct any alligator trapping or transportation activity except under supervision of the control agent. d. Alligator harvest tags issued to control agents are the property of the Department and shall remain the property of the Department. e. Designation as an alligator control agent is discretionary with the Department and such designation may be revoked at any time. Private lands alligator program- The Department will establish a quota and issue tags for each specific application. Applications received by the Department after August 1st of that year may be denied participation based on the number of harvest tags available or at the discretion of the Department. All participants must report all harvested alligators and harvest information to the Department not later than the following July 1st. No renewal application for a property previously enrolled in the Private Lands Alligator Program will be processed until such time as an accurate and complete harvest report is submitted to the Department. All areas identified in the Private Lands Alligator Program and facilities used for processing alligators must be open to Department personnel for inspection to determine compliance with the program and laws and regulations protecting alligators and to allow collection of biological information. 7. A Department-supplied alligator harvest report form must be updated by the applicant or the person taking alligators on the property within 24 hours of the taking of each alligator. Skulls that are found may be retained, sold, bartered or transferred but the finder must contact the Department to obtain a tag number to permanently tag or mark the part. Parts other than skulls or hides may be sold, bartered or transferred, but records must be kept indicating to whom the parts were sold, bartered or transferred. c. The permit application must state the source and approximate number of alligators to be held at the facility. Applicant must notify the Department	Yes	Yes	
603	123-151.1	State	Regulation	1. It is unlawful for any person to take, possess, transport, import, export, process, sell, offer for sale, ship, or receive for shipment any spotted turtle without a permit from the department. B. Spotted Turtle Permits 1. The department has the authority to grant or deny spotted turtle permits at no cost. Application must be made to the department for a spotted turtle permit. 2. The permits are valid for five (5) years from the date of issue. 3. The permits must be renewed every five years at the discretion of the department. 4. The department may set permit conditions consistent with the protection of spotted turtles.	Yes	Yes	
604	123-151.2	State	Regulation	It is unlawful for any person to take, possess, transport, import, export, process, sell, offer for sale, ship, or receive for shipment any southern hognose snake without a permit from the department. Permits will be issued only for research and educational purposes.	Yes	Yes	
605	123-153	State	Regulation	The Department may issue a special permit exempting a vessel engaged in research or testing from the TED device.	Yes	Yes	
606	123-160	State	Regulation	It shall be unlawful for any person to take, possess, transport, export, process, sell or offer for sale or ship, and for any contract carrier knowingly to transport or receive for shipment any such species or products or parts thereof except by permit for scientific, educational or falconry purposes issued by the South Carolina Wildlife and Marine Resources Department.	No	No	Antiquated statute

Laws

(Study Step 1: Agency Legal Directives, Plan and Resources)

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
607	123-170	State	Regulation	Practicing falconry (1) A permit is required before any person may take, transport, or possess wild-taken or captive-bred raptors for falconry purposes. (2) Birds held under permits must be used primarily for falconry. (3) A person's raptor facilities must pass inspection by the Department before a permit may be granted.Proof that the applicant has passed the falconry test administered by the Department, or proof that a falconry permit has previously been held at the level sought.The Department must document the following before approving any requests to possess an eagle for use in falconry: (i) Experience in handling large raptors, including information about the species previously handled and the type and duration of the activity. (ii) At least two letters of reference from people with experience handling and/or flying large raptors such as eagles, ferruginous hawks, goshawks (Accipiter gentilis), or great horned owls (Bubo virginianus) must be provided. Each must contain a concise history of the author's experience with large raptors, which can include, but is not limited to, handling of raptors held by zoos, rehabilitating large raptors, or scientific studies involving large raptors. Each letter must also assess the person's ability to care for eagles and fly them in falconry. (iii) A golden eagle, white-tailed eagle, or Steller's sea-eagle counts as one of the possessed raptors allowed for use in falconry.If a person passes the test, the Department will decide for which level of falconry permit he or she is qualified, consistent with the class requirements in of these regulations. To do so, the Department shall base its decision on documentation of experience. A person may request an appropriate band from the Department in advance of any effort to capture a raptor.A person must have raptor housing facilities approved by the Department before he or she may obtain a bird to use in falconry.The Department is authorized to revoke or suspend a falconry permit. Disposition of the bird will be at the discretion of the researcher and the Department.	Yes	Yes	
608	123-203	State	Regulation	The Department may post or place signs declaring any area closed to hiking. The numbers of motorized vehicles, nonmotorized vehicles, horses, or boats allowed on any area at one time may be limited by the Department through a permitting system.Camping is allowed only within areas designated as campsites by the Department. The Department will designate campsites by placement of signs or by other means such as maps or brochures.The Department may restrict the number of horses and horse trailers and may require permits on specific areas. Restrictions shall be posted at the offices and/or entrances to Department lands or in published brochures.K. Gathering, damaging, or destroying rocks, minerals, fossils, artifacts, geological formations or ecofacts. (1) The Department may authorize the collection of certain material upon issuance of a permit . L. Gathering, damaging, or destroying plants, fallen vegetation, animals and fungi. (1) The Department may authorize the collection of certain material upon issuance of a permit. (1) Open fires may only be started at campsites designated by the Department. (1) The Department may restrict the hours of operation on any Department land by publication in Department brochures and pamphlets or by posting on site specific hours of operation.	Yes	Yes	
609	123-205	State	Regulation	A special event permit is required for all events occurring on Department land.	Yes	Yes	
610	123-206	State	Regulation	The Department may issue permits to collect plants, animals, or minerals or to undertake research, survey, or archeological activities on Department land. Permits may be issued only for activities relating to educational or scientific purposes.	Yes	Yes

623	14 USCS 141	Federal	Statute	Requires the coast guard to cooperate with DNR regarding law enforcement on water patrol.	Yes	Yes-Implied	
624	42 USCS 9601	Federal	Statute	SC DNR serves as one of the governor's appointees regarding civil claims under the CERCLA statute.	Yes	Yes-Implied	
625	42 USC 5122-5207	Federal	Statute	Stafford Act P.L. 93-288;	No	No	
626	2 CFR 200 Subpart A-F and Compliance Supplements	Federal	Statute	Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards. Describes responsibilities and requirements for all entities handling federal awards.	No	No	
627	50 CFR 80	Federal	Statute	Program eligibility and requirements for fish and wildlife agencies to participate in Wildlife and Sport Fish Restoration programs.	No	No	
628	SC Constitution Article I, Section 25	State	Constitution	The traditions of hunting and fishing are valuable parts of the state's heritage, important for conservation, and a protected means of managing nonthreatened wildlife. The citizens of this State have the right to hunt, fish, and harvest wildlife traditionally pursued, subject to laws and regulations promoting sound wildlife conservation and management as prescribed by the General Assembly. Nothing in this section shall be construed to abrogate any private property rights, existing state laws or regulations, or the state's sovereignty over its natural resources.	Yes	Yes-implied	
629	SC Constitution Article XII, Section 1	State	Constitution	The health, welfare, and safety of the lives and property of the people of this State and the conservation of its natural resources are matters of public concern. The General Assembly shall provide appropriate agencies to function in these areas of public concern and determine the activities, powers, and duties of such agencies.	Yes	Yes-implied	
630	S.C. Code 48-20-30	State	Statute	DNR is a commenter on Mining permits, and other reviews for mining projects	Yes	Yes-Implied	
631	48-39-140	State	Statute	DNR is a commenter on development plans submitted to DHEC	Yes	Yes-implied	
632	49-3-40	State	Statute	(a) The department shall advise and assist the Governor and the General Assembly in: (1) formulating and establishing a comprehensive water resources policy for the State, including coordination of policies and activities among the state departments and agencies; (2) developing and establishing policies and proposals designed to meet and resolve special problems of water resource use and control within or affecting the State, including consideration of the requirements and problems of urban and rural areas; (3) reviewing the actions and policies of state agencies with water resource responsibilities to determine the consistency of such actions and policies with the comprehensive water policy of the State and to recommend appropriate action where deemed necessary; (4) reviewing any project, plan or program of federal aid affecting the use or control of any waters within the State and to recommend appropriate action where deemed necessary; (5) developing policies and recommendations to assure that the long range interests of all groups, urban, suburban, and rural, are provided for in the state's representation on interstate water agencies; (6) recommending to the General Assembly any changes of law required to implement the policy declared in this chapter; and (7) such other water resources planning, policy formulation and coordinating functions as the Governor and the General Assembly may designate. (b) The department is authorized to conduct or arrange for	Yes	Yes	

The contents of this chart are considered sworn testimony from the Agency Director.

1	1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Yes	Yes-Implied	
				such studies, inquiries, surveys or analyses as may be relevant to its duties in assisting the Governor and the General Assembly in the implementation of the policy declared in this chapter, and in developing recommendations for the General Assembly. For these purposes, the department shall have full access to the relevant records of other state departments and agencies and political subdivisions of the State, and may hold public hearings, and may cooperate with or contract with any public or private agency, including educational, civic and research organizations. The studies, inquiries, surveys, or analyses shall incorporate and integrate, to the maximum extent feasible, plans, programs, reports, research and studies of federal, state, interstate, regional, metropolitan and local units, agencies and departments of government. (c) In developing recommendations for the Governor and the General Assembly relating to the use and control of the water resources of the State, the department shall: (1) coordinate its activities by distribution of copies of its notices of meetings with agenda, minutes and reports of all state agencies concerned with water resources; (2) consult with representatives of any federal, state, interstate, or local units of government which would be affected by such recommendations; and (3) be authorized to appoint such interdepartmental and public advisory boards as necessary to advise them in developing policies for recommendations to the Governor and the General Assembly. (d) The department shall encourage, assist and advise regional, metropolitan, and local governmental agencies, officials or bodies responsible for planning in relation to water aspects of their programs, and shall assist in coordinating local water resources activities, programs, and plans. (e) The department may publish reports, including the results of such studies, inquiries, surveys and analyses as may be of general interest, and shall make an annual report of its activities to the Governor and the General Assembly within ten days after the convening of each session of the General Assembly. (f) The department may receive and expend grants, gifts, and monies donated or given by any state or private agency, person, corporation, water or sewer authority, or political subdivision in connection with water resource investigations in which the results of such investigations will be made publicly available. (g) The department is authorized and required to review and approve the expenditure of funds derived from the United States Army Corps of Engineers when any funds are authorized and appropriated for any water resources related projects or purposes, including but not limited to, the following: (1) navigation, (2) irrigation, (3) water storage, (4) aquatic weed management, (5) flood control, (6) salinity control, (7) interstate water concerns, and (8) any studies, surveys, or analyses performed by the Corps of Engineers. The review and approval required by this subsection is not applicable to any Corps of Engineers funds which must be expended in a different manner pursuant to express statutory direction.			
633	50-5-997	State	Statute	Authorizes the Department to issue out of season harvest permits for shellfish.	Yes	Yes	
634	50-9-750	State	Statute	Director may issue special authorization for hunting and fishing for someone less than 21 with a terminal illness if sponsored by a non-profit to hunt or fish without a license.	Yes	Yes	
635	Regulation 61-101	State	Regulation	DNR is a commenter on Water Quality Certification Permits for DHEC	Yes	Yes-implied	
636	Regulation 19-450.8 and .9	State	Regulation	DNR is a commenter on DHEC permits for projects involving navigable waters	Yes	Yes-Implied	
637	Regulation 89-170	State	Regulation	DNR is a commenter on Mining Permits	Yes	Yes-implied	
638	33 USC Section 1342 Reg. 124.10	Federal	Statute	DNR is a commenter for National Pollution Discharge Elimination Systems for the Clean Water Act	Yes	Yes-implied	
639	Regulation 30-12	State	Regulation	DNR comments on specific project standards and applications for Tideland and Coastal Waters development	Yes	Yes	
640	33 USC Section 1344	Federal	Statute	DNR comments on 404 Clean Water Act permits	Yes	Yes	
641	CERCLA	Federal	Statute	DNR is a Trustee for the State of South Carolina for Natural Resource Damage Assessments	Yes	Yes

Law Enforcement	11	Department must administer the Hunter Education programs. (LE)	S.C. Code Ann. 50-9-310	Require	The department administers the Hunter Education Program. *Note: 14,288 students were taught in 2016.	Yes	No	No	Yes	Yes*
Law Enforcement	12	Department must enforce laws related to marine, wildlife, boating, and natural resources. (LE)	S.C. Code Ann. 47-3-310; 48-4-10; 48-4-80; 48-39-70; 48-39-170; 49-29-200; 50-1-270; 50-3-110; 50-3-315; 50-3-340; 50-370; 50-5-3-380 through 410; 50-5-50; 50-5-70; 50-5-90; 50-5-345; 50-5-555; 50-5-950; 50-5-975; 50-5-1105; 50-5-1560; 50-5-2500 through 2515; 50-5-2530; 50-9-1120 through 1180; 50-11-180; 50-11-740; 50-11-760; 50-11-1390; 50-11-2300 through 2320; 50-11-2520 through 50 11-2530; 50-12-20; 50-13-40; 50-13-315; 50-13-680 through 50-13-1210; 50-15-80; 50-16-70; 50-20-20 through 30; 50-21-30 through 40; 50-21-50 through 80; 50-21-105 through 50-21-117; 50-21-130 through 190; 50-21-610 through 870; 50-23-230; 50-23-250; 50-23-295; 50-23-425; 50-25-150; 50-25-310 through 320; 50-25-1310; 50-25-1360; 51-17-130; 54-17-60; Proviso 117.70; Regulation 123-10; 123-40	Require	The department enforces laws related to marine, wildlife, boating, and natural resources protection in all 46 counties, to include 30,111 square miles of land, 8,000 miles of river systems, 46,000 acres of lakes, and 3,000 miles of coastal waters. Note: Officers documented violations by issuing 8,336 summons and 22,644 warnings. Conducting 52,253 hours of boating patrols resulting in 96,211 boats being inspected. Land based patrols resulted in 141,590 hunters and fishermen being checked. Note that that DNR officers have statewide authority to enforce all state laws. In addition, they hold two federal law enforcement commissions from USFWS and NMFS to enforce federal game and fish laws. Not all laws that they enforce are included in the deliverables, as the core mission is natural resources law.	No	No	No	No	No
Law Enforcement	13	The Department must issue Marine Event Permits and Marine Dealer Permits. (LE)	S.C. Code Ann. 50-21-1010; 50-23-10	Require	The department approves marine events and regulates marine dealer permits. *Note: 629 marine event permits were approved in 2016.	No	No	Yes	No	Yes*
Law Enforcement	14	The Department must investigate marine theft. (LE)	S.C. Code Ann. 50-23-180 through 50-23-205	Require	The department investigates marine theft of boats and motors. *Note: 930 investigations resulted in 618 boats and 539 motors being examined.	No	No	No	No	Yes*
Law Enforcement	15	The Department must offer Boater Education. (LE)	S.C. Code Ann. 50-21-90	Require	The department administers boater education classes. Note: 4,613 students were taught boater education in 2016.	No	No	No	No	No

The contents of this chart are considered sworn testimony from the Agency Director.

Deliverables

(Study Step 1: Agency Legal Directives, Plan and Resources)

								Does the agency know the...		
Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Applicable Laws	Does the law(s)... (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) - If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns	Does the agency evaluate customer satisfaction? (Y/N)	Is the agency permitted by statute, regulation, or proviso to charge for it? (Y/N)	cost per unit? (Y/N)	annual # of potential customers? (Y/N)	annual # of customers served? (Y/N)
Marine Resources		Marine Resources Division (MRD)								
Marine Resources	16	Department can conduct research, surveys, and other investigations to manage fish and marine resources; to provide for protection of the salt waters and the marine habitat upon which these resources are dependent; and to provide for the development of saltwater fisheries and mariculture. The department shall collect and analyze data pertinent to protection, propagation, promotion, and management of marine resources. (MRD)	S.C. Code Ann. 50-5-20; and 50-5-380; 16 USCS 5104	Require	Department can conduct research, surveys, and other investigations to manage fish and marine resources; to provide for protection of the salt waters and the marine habitat upon which these resources are dependent; and to provide for the development of saltwater fisheries and mariculture. The department shall collect and analyze data pertinent to protection, propagation, promotion, and management of marine resources.	No	No	No	No	No
Marine Resources	17	The Department regulates marine species. (MRD)	S.C. Code Ann. 50-5-30; 50-5-32 through 50-5-45; 50-5-85; 50-5-510; 50-5-515; 50-5-550; 50-5-740; 50-5-985; 50-5-995; 50-5-1020; 50-5-1100; 50-5-1310; 50-5-1915	Require	The Department regulates marine species.	Yes	no	no	no	no
Marine Resources	18	The Department issues saltwater commercial licenses and permits related to harvest of marine species. (MRD)	S.C. Code Ann. 50-5-25; 50-5-320; 50-5-340; 50-5-505; 50-5-735; 50-5-755 through 50-5-770; 50-5-900; 50-5-905; 50-5-915; 50-5-930; 50-5-935 through 945; 50-5-965; 50-5-995; 50-5-997; 50-5-1005; 50-5-1010; 50-5-1300 through 1330; 50-5-1500; 50-5-1555; 50-5-2100 through 2305; 50-5-2725; Reg. 123-153; 50-5-300; 50-5-310; 50-5-325; 50-5-335; 50-5-355; 50-5-360	Require	The Department issues saltwater commercial licenses and permits related to harvest of marine species.	No	Yes	Yes	no	Yes

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Responding	Department of Natural Resources
Date of Submission	30-Aug-17

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Land, Water, and Conservation		Land, Water and Conservation Division (LWC)					
Land, Water, and Conservation	1A	The DNR Hydrology Section shall advise the Governor and General Assembly on formulating and establishing a comprehensive water resources policy to assure adequate supplies of surface and groundwaters of suitable quality are available. (LWC)	Require	Formulate and establish a comprehensive water resources policy.	Comprehensive water resources policy in the State is necessary to ensure that an adequate supply of clean water is available for all future offstream and instream uses, including public health, economic development, fish and wildlife habitat, and recreational opportunities.	1. Support recommendations in the State Water Plan. 2. Make water resources a high-priority item. 3. Support water-planning efforts in the State.	None
Land, Water, and Conservation	1B		Require	Develop and establish policies and proposals designed to meet and resolve special problems of water resources use and control.	Intrastate and interstate problems must be addressed to protect our water resources from exploitation and misuse.	1. Support interstate committees. 2. Support Savannah River Advisory Council. 3. Support Governor's Savannah River Committee. 4. Support Catawba Wateree Working Group.	None
Land, Water, and Conservation	1C		Require	Review actions and policies of State agencies and US Army Corps of Engineers with water resource responsibilities to determine consistency with the comprehensive water policy.	Water policy would lack consistency and would thereby be ineffective, resulting in degradation and exploitation of our water resources.	1. Continue to support legislative duty.	None
Land, Water, and Conservation	1D		Require	Conduct or arrange for studies, inquires, surveys, or analyses relevant in the implementation of water policy and in developing recommendations to the General Assembly.	Technical and scientific studies are required to adequately address water resource issues and to provide reliable information to decision makers. Without this information, sound water policy can not be developed causing degradation of our water.	1. Support scientific inquires. 2. Additional FTE's needed to accomplish mission.	None
Land, Water, and Conservation	1E		Require	Consult with other government agencies relating to the use and control of water resources of the State.	Consultation with other government agencies ensures that water policies are being enforced and that water is being protected and conserved.	1. Continue to support legislative duty.	DHEC
Land, Water, and Conservation	1F		Require	Authorized to appoint interdepartmental and public advisory boards to advise in developing policies.	In order for water policies to be effective, stakeholders and the general public must have a say in how our water is managed. Lack of acceptance can lead to misuse of our water.	1. Support scientific inquires.	None

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Land, Water, and Conservation	1G		Require	Encourage, assist, and advise other State governmental agencies responsible for water planning.	The effective management of our water resources requires cooperation and shared responsibility among Federal, State and local agencies, without which the water resources of the state would be exploited and misused.	1.Continue to support legislative duty.	None
Land, Water, and Conservation	1H		Allow	Publish reports, including the results of studies, inquiries, surveys, and analyses.	Reports are published to provide reliable information and policy recommendations to decision makers, without which the water resources of the state would be exploited. Spatial information will not be in an electronic format for easy dissemination and efficient use, thereby limiting the value of the information.	1. Support scientific inquires. 2. Support and encourage cutting-edge geospatial technology 3. Support information technology development services 4. Support sharing of geospatial data, maps, reports and publications between state agencies.	None
Land, Water, and Conservation	1I		Require	Determine if adequate supplies of surface and groundwaters of suitable quality for domestic, municipal, agricultural, and industrial uses are available.	Overpumping of groundwater can result in saltwater intrusion and land subsidence. Overpumping of surface water can cause degradation of water quality and be harmful to fish and wildlife habitat.	1. Support technical and scientific studies.	DHEC
Land, Water, and Conservation	2A	The Department is authorized through the Geological Survey to provide field and laboratory studies in Geology to provide advice and assistance to other state and local governmental agencies. (LWC)	Require	Field and laboratory studies in Geology mapping and related gathering of surface and subsurface data.	Lack of information available to provide assistance to other state agencies, private companies, and general public.	1. Continue legislated mission of the Geological Survey. 2. Add FTE's needed to accomplish mission.	None
Land, Water, and Conservation	2B		Require	Advice and assistance on Geology.	Accurate and reliable geologic information not available to the public.	1. Continue legislated mission of the Geological Survey.	None
Land, Water, and Conservation	2C		Require	Encourage economic development by disseminating published geologic information as bulletins, maps, economic reports, and open-file reports.	Lack of geologic support for economic development. Spatial information will not be in an electronic format for easy dissemination and efficient use, thereby limiting the value of the information.	1. Expand collaboration with other state agencies to disseminate geologic information, e.g. Dept Commerce, SCDOT. 2. Support and encourage cutting-edge geospatial technology 3. Support information technology development services 4. Support sharing of geospatial data, maps, reports and publications between state agencies.	None

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Land, Water, and Conservation	2D		Require	Provide unsolicited advice, when appropriate, to Mining Council.	Lack of reliable and accurate information to the Mining Council.	1. Continue legislative duty.	None
Land, Water, and Conservation	2E		Require	Operate and maintain statewide repository for rock cores, well cutting, and related subsurface samples and all associated supplemental data.	Exploration companies are aware of the Core Repository and use it on a frequent basis.	1. The cost of drilling new rock cores greatly exceeds the cost of maintain the Core Repository.	None
Land, Water, and Conservation	2F		Require	Provide minerals research laboratory.	Limited services to the general public will be reduced even more.	1. Continue legislated mission of the Geological Survey.	None
Land, Water, and Conservation	3	Department must monitor for drought, create a drought plan and inform the public and require compliance with the law. (LWC)	Require	Department must monitor for drought, create a drought plan and inform the public and require compliance with the law.	Water shortages, economic loss, detrimental environmental impacts.	1. Strengthen the Drought Response Act. 2. Make water resources a high-priority item. 3. Support water-planning efforts in the State.	None
Land, Water, and Conservation	4A	The Department must archive and disseminate climate information. (LWC)	Require	Evaluate the significance of natural, manmade, deliberate and inadvertent changes in the climate and weather affecting the state.	Increased vulnerability to weather and climate disasters.	1. Continue legislated mission of SC State Climate Office.	None
Land, Water, and Conservation	4B			State Climatologist may certify copies as being authentic reproductions of weather records held in the state.	There is no other state agency that has the authority to certify weather records for the state or citizens of SC. Customers would have to order certifications from the federal agency, National Centers for Environmental Information. Their minimum charge is $124 up to $588. https://www.ncdc.noaa.gov/customer-support/certification-data The SC State Climate Office does not charge to certify data for SC State Agencies. The charge to certify for other customers, especially those related to legal cases, ranges from $20 to $100.	1. Continue legislated mission of SC State Climate Office.	None
Land, Water, and Conservation	5A	The Department is the designated state coordinating agency for the National Flood Insurance Program (LWC)	Allow	Enact, whenever necessary, legislation enabling counties and municipalities to regulate development within flood-prone areas.	The NFIP participating communities would not be provided technical assistance in regards to protecting life and property from flooding.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program 2. Pass higher standards legislation regarding floodplain management.	None

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Land, Water, and Conservation	5B		Allow	Encourage and assist communities in qualifying for participation in the Program.	Communities wishing to join the NFIP would not be provided technical assistance in regards to joining the program.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program.	None
Land, Water, and Conservation	5C		Allow	Guide and assist county and municipal public bodies and agencies in developing, implementing, and maintaining local flood plain management regulations.	The NFIP participating communities would not be provided technical assistance in regards to protecting life and property from flooding.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program 2. Pass higher standards legislation regarding floodplain management.	None
Land, Water, and Conservation	5D		Allow	Provide local governments and the general public with Program information on the coordination of local activities with Federal and State requirements for managing flood-prone areas.	The NFIP participating communities would not be provided technical assistance in regards to protecting life and property from flooding.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program 2. Pass higher standards legislation regarding floodplain management.	None
Land, Water, and Conservation	5E		Allow	Assist communities in disseminating information on minimum elevation requirements for development within flood-prone areas.	The NFIP participating communities would not be provided technical assistance in regards to protecting life and property from flooding.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program 2. Pass higher standards legislation regarding floodplain management.	None
Land, Water, and Conservation	5F		Allow	Assist in the delineation of riverine and coastal flood-prone areas, whenever possible, and provide all relevant technical information to the Federal Insurance Administrator.	The state would not be able to provide valuable knowledge in regards to known flooding. Flood prone areas and deficiencies in floodplain mapping resulting in citizens being at higher risk for flooding.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program.	None
Land, Water, and Conservation	5G		Allow	Recommend priorities for Federal flood plain management activities in relation to the needs of county and municipal localities within the State.	SC would not be providing priorities that benefit the communities within the state.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program 2. Pass higher standards legislation regarding floodplain management.	None
Land, Water, and Conservation	5H		Allow	Provide notification to the Federal Insurance Administrator in the event of apparent irreconcilable differences between a community's local flood plain management program and the minimum requirements of the Program.	The state would not be able to provide information to FEMA in regards to compliance issues with communities.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program.	None

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Land, Water, and Conservation	5I		Allow	Establish minimum State flood plain management regulatory standards consistent with those established in this part and in conformance with other Federal and State environmental and water pollution standards for the prevention of pollution during periods of flooding.	The state would not be receiving guidance pertaining to the federal regulations.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program 2. Pass higher standards legislation regarding floodplain management.	DHEC
Land, Water, and Conservation	5J		Allow	Assure coordination and consistency of flood plain management activities with other State, area wide, and local planning and enforcement agencies.	State Agencies would not be provided technical assistance in regards to protecting life and property from flooding.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program 2. Pass higher standards legislation regarding floodplain management.	None
Land, Water, and Conservation	5K		Allow	Assist in the identification and implementation of flood hazard mitigation recommendations which are consistent with the minimum flood plain management criteria for the Program.	The state would not be able to provide valuable knowledge in regards to known flooding. flood prone areas and deficiencies in floodplain mapping resulting in citizens being at higher risk for flooding.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program	None
Land, Water, and Conservation	5L		Allow	Participate in floodplain management training opportunities and other flood hazard preparedness programs whenever practicable.	Expertise that is provided to the NFIP participating communities would not be able to be obtained.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program 2. Pass higher standards legislation regarding floodplain management.	None
Land, Water, and Conservation	5M		Allow	Other duties and responsibilities, which may be deemed appropriate by the State and which are to be officially designated as being conducted in the capacity of the State Coordinating Agency for the Program, may be carried out with prior notification of the Federal Insurance Administrator.	State set priorities and duties for floodplain management would not be able to be conducted.	1. Allocate the $1 per flood insurance policy fee to the SCDNR-Flood Mitigation Program 2. Pass higher standards legislation regarding floodplain management.	None

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Land, Water, and Conservation	6	Department must administer the Aquatic Plant Management program. (LWC)	Require	Identify, prioritize and treat problem aquatic vegetation in SC public waters.	Economic and ecological repercussions include blocked water flow for municipal, industrial, agricultural and power-generation purposes; degraded water quality; boat damage; flooding because of restricted water flow; fish population declines; reduced waterfront property values; expanded mosquito breeding grounds; and impaired recreational outlets for swimming, hunting, fishing and boating.	1. Strengthen laws for possession and spreading invasive or noxious species in SC waters. 2. Coordinate legislation with neighboring states.	None
Land, Water, and Conservation	7A	The Department shall manage Heritage Trust properties and the Heritage Trust Fund in accordance with the statute.(LWC)	Allow	Conducts biological inventories of outstanding or unique natural areas, flora, and fauna; Deputy Director receives ecological and habitat information concerning public and private parcels of property and recommends to the SC Heritage Trust Advisory Board conservation measures agreeable to all parties.	Biologically sensitive resources such as marshes, lakes, ponds, Carolina bays and other unique geological formations, indigenous fauna, and flora that are enjoyed by the public as outdoor recreational activities or as studied by scientific community could be lost. Important areas for eco-tourism and outdoor recreation, recharge of groundwater aquifers or surface water resources could diminished.	1. Consult with Heritage Trust program managers, the academic community, and the general public about unknown or under appreciated unique or outstanding examples of biological and landscape resources. 2. Promote appreciation of South Carolina's longtime historical and current involvement in natural history studies for both the lay public and those with specialized scientific training. 3. Encourage both institutions of higher learning and primary to secondary to use Heritage Trust lands as areas of educational and research value.	None
Land, Water, and Conservation	7B		Require	Shall inventory, conduct research and asses properties for cultural resources.	Heritage Trust Properties are acquired to protect significant resources for public benefit. Public knowledge of the significant resource can only be generated through inventory, research and assessments. Not conducting such activities denies the public knowledge of the resources that are acquired for their benefit.	1. Continue legislated mission of the Heritage Trust Program.	None
Land, Water, and Conservation	7C		Require	Shall manage cultural heritage trust properties.	Once acquired land and resources must be managed in order to provide public access. Without access the public cannot gain knowledge or enjoyment of the property or its resources. The properties also protect important natural communities that require management to properly function.	1. Continue legislated mission of the Heritage Trust Program.	None

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Land, Water, and Conservation	8A	Department must assist Soil and Water Conservation Districts. (LWC)	Require	Offer such assistance as may be appropriate to the commissioners of soil and water conservation districts in the carrying out of any of their powers and programs and to coordinate the programs of districts organized under this chapter so far as this may be done by advice and consultation.	If this assistance is not provided, there will be no state agency coordination, support and guidance to the commissioners of the conservation districts, resulting in diminished, and in some cases terminated service in the local district office Through the conservation districts, landowners and managers receive the technical and financial assistance needed to help apply complex conservation treatments to control erosion and improve the quality of our soil resources, improve water quality, enhance fish and wildlife habitat, and manage woodlands and pasturelands.	1. To avoid this potential harm, the General Assembly should continue to support the Conservation Program budget line item in the DNR-Land, Water and Conservation Division.	None
Land, Water, and Conservation	8B		Require	Keep the commissioners of each of the several districts organized under the provisions of this chapter informed of the activities and experience of all other districts; facilitate an interchange of advice and experience between such districts and cooperation between them; and disseminate information throughout the State concerning the activities and programs of districts.	If this deliverable is not provided, the 46 Conservation Districts will be without a coordinating state agency. Conservation Districts are subdivisions of State Government and are responsible for directing millions of federal cost-share dollars in conservation efforts for specific programs and projects within their boundaries. The 230 Conservation District Commissioners are public officials, who serve without pay, and are charged by State law to appraise conservation needs, develop plans and implement programs to solve environmental problems.	1. To avoid this potential harm, the General Assembly should continue to support the Conservation Program budget line item in the DNR-Land, Water and Conservation Division.	None

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Land, Water, and Conservation	8C		Require	Receive gifts, appropriations, materials, equipment, lands and facilities and manage, operate and disburse them for the benefit of the soil and water conservation districts; secure the cooperation and assistance of the United States and any of its agencies and of agencies and counties of this State, in the work of such districts.	If the State appropriations to conservation districts for operating costs of the 46 district offices are not provided, the conservation districts ability to meet their obligations to the public and landowners/managers would be greatly diminished in many counties and quite possibly terminated in others. The same is true if there is not cooperation and assistance from the USDA Natural Resources Conservation Service, which annually provides over $25 million of assistance which goes directly to landowners who install conservation practices. A Districts' inability to meet their obligations increases the risks to the public in regard to soil erosion, water quality and habitat destruction.	1. To avoid this potential harm, the General Assembly should continue to support the aid to Conservation Districts budget line item in the DNR-Land, Water and Conservation Division.	None
Land, Water, and Conservation	8D		Require	Assist commissioners of conservation districts and directors of watershed districts with the organization and function of watershed conservation districts.	By not providing this assistance, the public could be impacted by flooding hazards in the watershed area, due to the inactivity of the watershed district directors.	1. To avoid this potential harm, the General Assembly should continue to support the Conservation Program budget line item in the DNR-Land, Water and Conservation Division.	None
Land, Water, and Conservation	9	The Department must inventory rivers and administer the Scenic Rivers Program. (LWC)	Require	Inventory rivers and administer the program.	Loss of unique or outstanding river resources of the State to development projects or resource extraction.	1. Provide greater incentives for landowners to put conservation easements on river-bordering lands 2. Strengthen water-use laws to be more protective of instream flows needed to sustain fish and wildlife resources 3. Strengthen pollution-control laws to be more protective of rivers and aquatic wildlife resources.	None

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Law Enforcement		Law Enforcement Division (LE)					
Law Enforcement	10	The Department must administer the Operation Game Thief/Property Watch program. (LE)	Require	The department administers the Operation Game Thief/Property Watch program.	There will be no direct submission venue for fish, game, or other natural resource violations.	1. Continued support of the TIPS program to ensure protection of the states natural resources.	None
Law Enforcement	11	Department must administer the Hunter Education programs. (LE)	Require	The department administers Hunter Education Program.	Hunting accidents will increase without knowledge of safe and ethical hunting practices.	1. Continue to support the hunter education requirement for purchase of hunting licenses.	None
Law Enforcement	12	Department must enforce laws related to marine, wildlife, natural resources and boating. (LE)	Require	The department enforces laws related to marine, wildlife, boating and natural resources protection in all 46 counties, to include 30,111 miles of land, 8,000 miles of river systems, 46,000 acres of lakes, and 3,000 miles of coastal waters.	There will be no agency directly responsible for enforcement of hunting, fishing, boating, and other natural resources laws to ensure management and safety for the public and natural resources of the state.	1.Continued support of enforcement and management plans to ensure protection of the state's natural resources.	None
Law Enforcement	13	The Department must issue Marine Event Permits and Marine Dealer Permits. (LE)	Require	The department approves marine events and regulates marine dealer permits.	Unpermitted marine events present a serious threat to public safety. Unpermitted marine dealers will have no checks and balances through regulatory inspections.	1. Continued support of regulations of the marine permitting mission.	None
Law Enforcement	14	The Department must investigate marine theft. (LE)	Require	The department investigates marine theft of boats and motors.	Extensive regulations related to titling of boats and motors makes investigation of these thefts very intensive. Relying on investigations by agencies without the expertise and familiarity of these investigations will be detrimental.	1. Continued support of regulations of the marine theft investigation mission.	None
Law Enforcement	15	The Department must offer Boater Education. (LE)	Require	The department administers boater education classes.	Boating accidents and deaths will increase without education on safe boating practices and laws regulating operation of vessels.	1. Continued support of boating safety education regulations. 2.Enacting legislation making successful completion of a boating safety education class a requirement to operate a motorized vessel or device in SC waters. 3.Require boat dealers to provide a free certified boating safety class to purchasers of motorized watercraft.	None

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Marine Resources		Marine Resources Division (MRD)					
Marine Resources	16	Department can conduct research, surveys, and other investigations to manage fish and marine resources; to provide for protection of the salt waters and the marine habitat upon which these resources are dependent; and to provide for the development of saltwater fisheries and mariculture. The department shall collect and analyze data pertinent to protection, propagation, promotion, and management of marine resources. (MRD)	Require	Department can conduct research, surveys, and other investigations to manage fish and marine resources; to provide for protection of the salt waters and the marine habitat upon which these resources are dependent; and to provide for the development of saltwater fisheries and mariculture. The department shall collect and analyze data pertinent to protection, propagation, promotion, and management of marine resources.	Fishery stocks are overfished and collapse - resulting in loss of employment and a source of local seafood products; negatively impacts the quality of life and threatens tourism; General Assembly does not have data to make fishery law modifications.	1. Provide measures that would allow acquisition of land contiguous to saltmarshes to allow marsh migration in the case of sea level rise. 2. Restrict the use of native oyster shell to anything but building oyster reefs. 3. Take actions to maintain stable and adequate water flows into coastal estuaries to sustain marine nursery habitats.	Universities
Marine Resources	17	The Department regulates marine species. (MRD)	Require	The Department regulates marine species.	Fishery stocks collapse resulting in loss of jobs and source of local seafood, state found out-of-compliance with mandates of regional fishery management plans.	1. Provide DNR with authority to modify management measures size bag and size limits and equipment. 2. Give DNR authority to cap participation in commercial fisheries.	None
Marine Resources	18	The Department issues saltwater commercial licenses and permits related to the harvest of marine species. (MRD)	Require	The Department issues saltwater commercial licenses and permits related to the harvest of marine species.	Fishery harvest cannot be controlled resulting in overfishing and stock collapse; loss of revenue; and nonresidents have open access to harvest SC seafood.	1. Give DNR authority to cap participation in commercial fisheries.	None

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Wildlife and Freshwater Fisheries		Wildlife and Freshwater Fisheries Division (WFF)					
Wildlife and Freshwater Fisheries	19	The Department can conduct continuous investigations regarding the game and fish conditions of the state. (WFF)	Require	Reports, studies, recommendations for change.	Populations could decline unnoticed thereby impacting or eliminating fish and wildlife populations and the associated recreation opportunities and economic benefits.	1. Streamline process for expanding budget authority when outside funds become available. 2. Provide additional FTEs to accomplish objective. 3.Maintain current statutory authority.	None
Wildlife and Freshwater Fisheries	20	Department must restore and stock wildlife, and operate fish hatcheries. (WFF)	Require	Number and diversity of species produced and/or stocked.	Recreation opportunities with those fish and wildlife populations supported by these activities would be significantly diminished which would have dramatic impacts not only to the resource but also to the economy of the state. Restoration of at-risk species would be significantly diminished leading to reduction of or loss of recreational opportunities and increased federal restrictions on the state.	1. Provide additional FTEs to accomplish objective. 2. Maintain current statutory authority.	None
Wildlife and Freshwater Fisheries	21	Department must manage and regulate wildlife and freshwater fisheries. (WFF)	Require	Number of acres managed, miles of roads/dikes maintained, number of sanctuaries, regulations maintained and updated appropriately.	Exploitation could exceed the ability of populations to persist and recreational opportunities to enjoy fish and wildlife resources could be excessively restricted. Either outcome would adversely impact recreational opportunities, quality of life and rural economies. Lack of proper management would reduce habitat quality and also therefore impact populations, lack of road maintenance would reduce ability to manage and public accessibility.	1. Allow for dike repair and maintenance to be exempt from capital project requirements. 2.Provide additional FTEs to accomplish objective.	None
Wildlife and Freshwater Fisheries	22	The Department is authorized to provide public access for hunting and fishing. (WFF)	Require	Number of DNR-managed acres and locations available for public hunting and fishing; number of fishing rodeos, family fishing clinics, lottery hunts; and additional hunting and fishing days on such areas; types of opportunities available.	Loss of areas available for the general public to engage in hunting and fishing activities, a loss of recreation opportunities, reduction in quality of life and negative economic impacts, especially to rural economies.	1. Maintain current statutory authority.	SCPRT/SCFC/Clemson University (allow for their properties to be leased into WMA program).

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Wildlife and Freshwater Fisheries	23	The Department issues permits related to Wildlife and Freshwater Fisheries. (WFF)	Require	Number of each permit type issued.	A loss of opportunity for recreation and scientific research. Potential increase in human/wildlife conflict. A loss of oversite and control which ensures that business practices pose a minimal threat to the natural resources and public waters. Unregulated practices could result in escape and introduction of species that could threaten native communities and public safety.	1. Maintain current statutory authority. 2. Provide an FTE for DNR to establish a permit office.	(SC Department of Agriculture for aquaculture permits).

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)... (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
Executive - Office of Environmental Programs/Boating Access and Engineering Section		Executive - Office of Environmental Programs/Boating Access and Engineering Section					
Executive - Office of Environmental Programs/Boating Access and Engineering Section	24	The Department must perform Environmental Review and assist with Mitigation for loss of natural resources. (OEP)	Require	Science-based and balanced input to various regulatory agencies on permit and license applications during public comment periods-provide a unified voice for the agency relative to environmental impacts.	Regulatory agencies will not have best science-based information when considering permit applications, resulting in unnecessary harm to natural resources.	1. Continue to support legislated duty.	None
Executive - Office of Environmental Programs/Boating Access and Engineering Section	25	The Department must administer the Water Recreational Use Fund grants. (OEP)	Require	Partner with counties to renovate and/or construct boating access facilities for the public.Collaborate with local governments, regional organizations and non-profits on projects that protect, promote and manage water resources.	The public will not have adequate and safe access to public waterways for boating, fishing and other water dependent activities.	1. Increase the allowable project cost that can be handled by DNR Boating Access and Engineering section to avoid additional time required to go through the State Engineer's Office.	State Engineer's Office
Office of Support Services		Office of Support Services					
Office of Support Services	26	Department must issue boat and motor titles and boat registrations. (OSS)	Require	Boats and motor titles and registration.	Clear legal ownership would not be established, would reduce the funds available for LE on the waters of the State as well as reduce funding for agency support services.	1. The General Assembly could address the issue of property taxes on boats. Unlike autos, boat taxes are collected in arrears and taxes due follow the boat, not the individual. Since boats are registered every 3 years, then new owners often are left with: (a) taxes from the previous owner; (b) a county block on the DNR system which prevents DNR from registering a boat because of a previous owner's taxes; and (c) often being denied at DNR with no immediate solution, due to a county tax issue.	None
Office of Support Services	27	The Department issues saltwater recreational fishing licenses, and freshwater licenses and hunting licenses. (OSS)	Require	Hunting, freshwater fishing, saltwater recreational fishing licenses, permits & tags.	The state's ability to protect and manage the state's natural resources would be severely impacted.	1. Continue to adopt Departmental legislative initiatives that are proactive in the management of the state's natural resources.	None

The contents of this chart are considered sworn testimony from the Agency Director.

Potential Harm

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Org. Unit	Item #	Deliverable (i.e. service or product)	Does the law(s)… (A) REQUIRE the agency provide it? (B) ALLOW the agency to provide it (may)? (C) Not specifically address it?	Deliverable Component (if needed) (If deliverable is too broad to complete the remaining columns, list each product/service associated with the deliverable, and complete the remaining columns)	Greatest potential harm to the public if deliverable is not provided	1-3 recommendations to the General Assembly, other than $, for how the General Assembly can help avoid the greatest potential harm	Other state agencies whose mission the deliverable may fit within
All Org. Units		All agency organizational units					
All Org. Units	28	The Department serves on Advisory Boards or Commissions. (all divisions)	Require	The Department serves on Advisory Boards or Commissions.	The Boards will not receive input from DNR members.	1. Repeal the Boards that are no longer necessary or active.	Law Enforcement agencies, DHEC, other state agencies.
Executive - Office of Media and Outreach		Executive - Office of Media and Outreach (OMO)					
Executive - Office of Media and Outreach	29	The Department is authorized to print stamps/prints/license plates. (OMO)	Require	Four specialty license plates and specialty prints.	The Department's specialty licenses plates and prints provide earmarked funding for programs such as endangered species and marine fisheries.	1.To cap the number of available specialty plates to prevent oversaturation of the market. 2. Provide for more space for the specialized artwork to enhance the look of the plates.	Other agencies do have plates, but none that have earmarked funding for the Department.
Executive - Office of Media and Outreach	30	The Department produces informational, educational and marketing outreach materials. (OMO)	Require	*South Carolina Wildlife* , video PSA, publications, social media, paid marketing and Spanish website.	Products produced by the Office of Media and Outreach are the primary source of information for residents and non-residents concerning wildlife and fisheries rules and regulations, how to co-exist with wildlife, how to manage for wildlife, how to participate in outdoor recreation, how to purchase a license, etc.	1. Maintain the current level of support for outreach programs. 2. To maintain state level contracts with cloud based creative software such as Creative Suite.	No other state agency provides information on hunting and fishing in the state. The Department is the sole provider of information on state rules and regulations and Wildlife Management Area.

The contents of this chart are considered sworn testimony from the Agency Director.

Organizational Units

(Study Step 1: Agency Legal Directives, Plan and Resources)

Agency Responding	Department of Natural Resources
Date of Submission	8/30/2017

Did the agency have an exit interview and/or survey, evaluation, etc. when employees left the agency in 2014-15; 2015-16; or 2016-17? (Y/N)	2014-15: Y 2015-16: Y 2016-17: Y

Organizational Unit	Role of Organizational Unit	Turnover Rate in the organizational unit in 2014-15; 2015-16; and 2016-17?	Did the agency evaluate and track employee satisfaction in the organizational unit in 2014-15; 2015-16; and 2016-17? (Y/N)	Did the agency allow for anonymous feedback from employees in the organizational unit in 2014-15; 2015-16; and 2016-17? (Y/N)	Did any of the jobs in the organizational unit require a certification (e.g., teaching, medical, accounting, etc.) in 2014-15; 2015-16; and 2016-17? (Y/N)	If yes, for any years in the previous column, did the agency pay for, or provide in-house, classes/instruction/etc. needed to maintain all, some, or none of the required certifications?
Executive (includes Legal Office, HR Office, Audits Manager, Legislative Liaison, Special Assistant to Director, Media and Outreach)	Support SCDNR's core mission by providing quality and efficient support and programs, including legal services, human resources, audit management, legislative support, environmental review for impact, engineering, media and outreach.	2014-15: **19.17%** 2015-16: **6.97%** 2016-17: **4.65%**	2014-15: N 2015-16: N 2016-17: N	2014-15: N 2015-16: N 2016-17: N	2014-15: Y 2015-16: Y 2016-17: Y	2014-15: All 2015-16: All 2016-17: All
Office of Support Services	Continuously evaluate and improve administrative and business processes, efficiency, effectiveness and internal and external service delivery with a focus on transparency, communication, accountability and the integration of new technologies.	2014-15: **10.45%** 2015-16: **19.58%** 2016-17: **18.18%**	2014-15: N 2015-16: N 2016-17: N	2014-15: N 2015-16: N 2016-17: N	2014-15: N 2015-16: N 2016-17: N	2014-15: N/A 2015-16: N/A 2016-17: N/A
Law Enforcement	Conserve and protect the State's natural resources for social, economic, recreational and commercial benefit while providing maximum human utilization through: 1) the development of public support through outreach, education and safety programs; 2) the preservation of the peace and protection of human lives and property; and 3) the enforcement of the State's criminal laws through the detection, apprehension, and prosecution of persons who violate those laws.	2014-15: **4.02%** 2015-16: **4.77%** 2016-17: **5.59%**	2014-15: N 2015-16: N 2016-17: N	2014-15: N 2015-16: N 2016-17: N	2014-15: Y 2015-16: Y 2016-17: Y	2014-15: All 2015-16: All 2016-17: All
Marine Resources	To sustain the State's living marine resources for the cultural, recreational, commercial and economic benefit of the state's citizens and visitors.	2014-15: **7.05%** 2015-16: **10.28%** 2016-17: **9.03%**	2014-15: N 2015-16: N 2016-17: N	2014-15: N 2015-16: N 2016-17: N	2014-15: Y 2015-16: Y 2016-17: Y	2014-15: All 2015-16: All 2016-17: All
Wildlife & Freshwater Fisheries	Monitor and protect wildlife species and inland aquatic species and their habitats throughout the state and provide recreational hunting and fishing opportunities to the public.	2014-15: **6.19%** 2015-16: **9.43%** 2016-17: **10.95%**	2014-15: N 2015-16: N 2016-17: N	2014-15: N 2015-16: N 2016-17: N	2014-15: Y 2015-16: Y 2016-17: Y	2014-15: All 2015-16: All 2016-17: All
Land, Water & Conservation	Develop and implement programs that study, manage and conserve the State's Land and Water Resources through planning, research, technical assistance, public education and the development of a comprehensive natural resources database.	2014-15: **2.94%** 2015-16: **0.00%** 2016-17: **5.40%**	2014-15: N 2015-16: N 2016-17: N	2014-15: N 2015-16: N 2016-17: N	2014-15: Y 2015-16: Y 2016-17: Y	2014-15: All 2015-16: All 2016-17: All

- Comprehensive Strategic Finances Chart

Performance Measures

(Study Step 2: Performance)

Agency Responding	Department of Natural Resources
Date of Submission	8/30/2017

Types of Performance Measures:

Outcome Measure - A quantifiable indicator of the public and customer benefits from an agency's actions. Outcome measures are used to assess an agency's effectiveness in serving its key customers and in achieving its mission, goals and objectives. They are also used to direct resources to strategies with the greatest effect on the most valued outcomes. Outcome measures should be the first priority. Example - % of licensees with no violations.

Efficiency Measure - A quantifiable indicator of productivity expressed in unit costs, units of time, or other ratio-based units. Efficiency measures are used to assess the cost-efficiency, productivity, and timeliness of agency operations. Efficiency measures measure the efficient use of available resources and should be the second priority. Example - cost per inspection

Output Measure - A quantifiable indicator of the number of goods or services an agency produces. Output measures are used to assess workload and the agency's efforts to address demands. Output measures measure workload and efforts and should be the third priority. Example - # of business license applications processed.

Input/Activity Measure - Resources that contribute to the production and delivery of a service. Inputs are "what we use to do the work." They measure the factors or requests received that explain performance (i.e. explanatory). These measures should be the last priority. Example - # of license applications received

Agency Organizational Unit	Performance Measure	Type of Measure	Agency selected; Required by State; or Required by Federal	Who performs the best in the country on this measure? (gov't, private, etc.)	Time Applicable	Target & Actual Results Time Period #1 (2013-14)	Target & Actual Results Time Period #2 (2014-15)	Target & Actual Results Time Period #3 (2015-16)	Target & Actual Results Time Period #4 (most recent completed time period: 2016-17)	Target Results Time Period #5 (current time period 2017-18)
LWC - Hydrology	Land, Water and Conservation Division (LWC) - Hydrology									
LWC - Hydrology	Use hydrology information to develop plans to ensure surface and groundwater of suitable quality is available for all uses.	Outcome	Required by State	Texas	Ongoing	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: Updated State Water Plan
LWC - Hydrology	Develop surface-water quantity models for each of the State's eight major river basins for regional water planning. Note: The models have been completed, and will be used in the future for water planning and will be updated as new data becomes available.	Output	Required by State	CDM Smith, Inc.	August 2014 - December 2016	Target: DNE Actual: DNE	Target: 2 models Actual: 0 models	Target: 4 models Actual: 4 models	Target: 4 models Actual: 4 models	Target: No longer tracked
LWC - Hydrology	Develop a groundwater-quantity model and a groundwater-recharge model of the Coastal Plain for regional water planning.	Output	Required by State	USGS/SCDNR	February 2016 - February 2019	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 3-year project with the USGS begins February 2016	Target: On schedule Actual: On schedule	Target: Both models scheduled to be completed by Feb. 2019
LWC - Hydrology	Develop water-demand forecasts for each of the State's eight major river basins for regional water planning.	Output	Required by State	Private consultants	May 2016 - May 2019	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 1½-year project with the USACE begins May 2016 for one forecast (Savannah River basin)	Target: Final report due for the Savannah River basin
LWC - Hydrology	Meet and consult with agricultural, industrial, and municipal interest groups to propose policies for developing water-demand forecasts for regional water planning. Note: These meetings were used to gather input from stakeholders on how to do the water-demand forecasts, which will be included in the water plan.	Output	Required by State	SCDNR	July 1 - June 30	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 5 meetings Actual: 5 meetings	Target: No longer tracked
LWC - Hydrology	Develop a groundwater-quantity model and a groundwater-recharge model for Aiken County to determine groundwater availability.	Output	Required by State	USGS/SCDNR	December 2014 - June 2019	Target: DNE Actual: DNE	Target: 4-year project with the USGS begins December 2014	Target: On schedule Actual: Delays in project due to funding	Target: On schedule Actual: Project extended 6 months to include 2016 water-use data	Target: Both models scheduled to be completed by June 2019

The contents of this chart are considered sworn testimony from the Agency Director.

Performance Measures

(Study Step 2: Performance)

Agency Organizational Unit	Performance Measure	Type of Measure	Agency selected; Required by State; or Required by Federal	Who performs the best in the country on this measure? (gov't, private, etc.)	Time Applicable	Target & Actual Results Time Period #1 (2013-14)	Target & Actual Results Time Period #2 (2014-15)	Target & Actual Results Time Period #3 (2015-16)	Target & Actual Results Time Period #4 (most recent completed time period: 2016-17)	Target Results Time Period #5 (current time period 2017-18)
LWC - Hydrology	Meet and consult with stakeholders, government agencies, water utilities, and other water-user groups to discuss water plans, policies, programs, and projects. Note: Some meetings were not relevant to the section.	Output	Required by State	SCDNR	July 1 - June 30	Target: % of Requested Actual: 85% (37 meetings)	Target: % of Requested Actual: 85% (82 meetings)	Target: % of Requested Actual: 85% (161 meetings)	Target: % of Requested Actual: 85% (148 meetings)	Target: % of Requested
LWC - Hydrology	Add 105 stream gages to the State's surface water monitoring network as a result of recommendations made at the workshops. Note: New gages cost approximately $16,000/year, the USGS has agreed to pay for installation if we maintain the gage for five years.	Output	Required by State	USGS	July 1 - June 30	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 105 gages Actual: 20 gages (SCDOT funded)	Target: 85 gages
LWC - Hydrology	Produce potentiometric maps of the three major aquifers in the State to determine changes in groundwater availability. Note: DNR typically makes one map per year, but last year made maps of all three aquifers as the information was needed to assist DNR in calibrating the groundwater model, which is used for water planning. DNR would like to add more wells to the network before making an additional map.	Output	Required by State	SCDNR	July 1 - June 30	Target: 1 map Actual: 1 map	Target: 1 map Actual: 1 map	Target: 1 map Actual: 1 map	Target: 1 map Actual: 3 maps	Target: 0
LWC - Hydrology	Add 233 wells to the DNR groundwater monitoring network as required to produce accurate potentiometric maps. Note: Adding wells to the DNR groundwater network depends on the availability of the well (is the owner willing to turn it over to the state) and on its location, depth and condition. When DNR has funding available, we contract well drilling out to a company to drill new wells on DNR or state-owned properties. If there is not money for drilling new wells, we try to recruit wells that are being abandoned by their owners, which saves the state money.	Output	Required by State	SCDNR	July 1 - June 30	Target: 228 wells Actual: 11 wells	Target: 217 wells Actual: 28 wells	Target: 189 wells Actual: 2 wells	Target: 187 wells Actual: 6 wells	Target: 181 wells
LWC - Hydrology	Visit sites of the statewide DNR groundwater monitoring network, currently 137 sites and 169 wells, to measure groundwater levels and download water-level data from data recorders.	Output	Required by State	SCDNR	July 1 - June 30	Target: 660 site visits Actual: 660 site visits	Target: 810 site visits Actual: 810 site visits	Target: 792 site visits Actual: 792 site visits	Target: 822 site visits Actual: 822 site visits	Target: 822 site visits
LWC - Hydrology	Conduct geophysical surveys of water wells to determine groundwater availability. Note: Determined by the number of requests.	Output	Required by State	SCDNR	July 1 - June 30	Target: % of Requested Actual: 100% (26 wells surveyed)	Target: % of Requested Actual: 100% (7 wells surveyed)	Target: % of Requested Actual: 100% (9 wells surveyed)	Target: % of Requested Actual: 100% (26 wells surveyed)	Target: % of Requested
LWC - Hydrology	Review water permits, policies, programs, plans and projects. Note: Determined by the number of permits submitted.	Output	Required by State	SCDNR	July 1 - June 30	Target: % of Requested Actual: 100% (24 reviews)	Target: % of Requested Actual: 100% (28 reviews)	Target: % of Requested Actual: 100% (38 reviews)	Target:% of Requested Actual: 100% (55 reviews)	Target: :% of Requested

The contents of this chart are considered sworn testimony from the Agency Director.

Performance Measures

(Study Step 2: Performance)

Agency Organizational Unit	Performance Measure	Type of Measure	Agency selected; Required by State; or Required by Federal	Who performs the best in the country on this measure? (gov't, private, etc.)	Time Applicable	Target & Actual Results Time Period #1 (2013-14)	Target & Actual Results Time Period #2 (2014-15)	Target & Actual Results Time Period #3 (2015-16)	Target & Actual Results Time Period #4 (most recent completed time period: 2016-17)	Target Results Time Period #5 (current time period 2017-18)
LWC - Hydrology	Add groundwater data and wells to the DNR groundwater database.	Output	Required by State	SCDNR	July 1 - June 30	Target:% of Available Actual: 100% (2634 wells added)	Target:% of Available Actual: 100% (3117 wells added)	Target: % of Available Actual: 100% (3202 wells added)	Target: % of Available Actual: 100% (2912 wells added)	Target: % of Available
LWC - Hydrology	Provide water-related technical assistance and information to citizens, government entities, water managers, well drillers, engineers, and others. Note: Determined by the number of requests.	Output	Required by State	SCDNR	July 1 - June 30	Target: % of Requested Actual: 85% (198 requests)	Target: % of Requested Actual: 85% (199 requests)	Target: % of Requested Actual: 85% (227 requests)	Target: % of Requested Actual: 85% (213 requests)	Target: % of Requested
LWC - Hydrology	Develop a network of 25 wells along the coast to monitor for saltwater intrusion of coastal aquifers. Note: Determined by the number of well owners who are willing to participate and by the availability of funds needed to drill new wells.	Output	Required by State	SCDNR	July 1 - June 30	Target: 25 Actual: 5	Target: 20 Actual: 3	Target: 17 Actual: 2	Target: 15 Actual: 0	Target: 15
LWC - Hydrology	Prepare technical/scientific reports that document results from water-related investigations. Note: 2017-18 target is not an optimal target and is limited because of staff shortage.	Output	Required by State	SCDNR	July 1 - June 30	Target: 1 report Actual: 0 report	Target: 1 report Actual: 1 report	Target: 1 report Actual: 0 report	Target: 1 report Actual: 4 reports	Target: 1 report
LWC - Hydrology	Organize eight basin advisory councils to help develop regional water plans. Note: This is a pilot-project in the Savannah River basin that will be done in cooperation with Clemson. The project is being funded by Duke Energy Mitigation Funding from FERC relicensing.	Output	Required by State	SCDNR	July 1 - June 30	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 1 council
LWC - Hydrology	Determine tidal efficiencies of wells in the Floridan aquifer along the coast.	Output	Required by State	SCDNR	July 1 - June 30	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 30 wells

The contents of this chart are considered sworn testimony from the Agency Director.

Performance Measures

(Study Step 2: Performance)

Agency Organizational Unit	Performance Measure	Type of Measure	Agency selected; Required by State; or Required by Federal	Who performs the best in the country on this measure? (gov't, private, etc.)	Time Applicable	Target & Actual Results Time Period #1 (2013-14)	Target & Actual Results Time Period #2 (2014-15)	Target & Actual Results Time Period #3 (2015-16)	Target & Actual Results Time Period #4 (most recent completed time period: 2016-17)	Target Results Time Period #5 (current time period 2017-18)
LWC - Geological Survey	Land, Water and Conservation Division - Geological Survey									
LWC - Geological Survey	Promote the extraction and conservation of South Carolina's earth raw materials and their manufacture to the economic improvement of the State by disseminating published geologic information to appropriate governmental agencies and private industry. Note: Reliable geologic information of the 566 quadrangles covering the State in digital format	Outcome	Required by State	SCDNR	Ongoing since 1995	Target: 410 quadrangles Actual: 156 quadrangles	Target: 403 quadrangles Actual: 163 quadrangles	Target: 397 quadrangles Actual: 169 quadrangles	Target: 391 quadrangles Actual: 175 quadrangles	Target: 386
LWC - Geological Survey	Map 1:24,000-scale quadrangles in the Coastal Plain region and make information available digitally to public in open-file report form.	Output	Required by Federal	Delaware Geological Survey	July 1 - June 30	Target: 4 maps Actual: 7 maps	Target: 4 maps Actual: 6 maps	Target:4 maps Actual:6 maps	Target: 5 maps Actual: 5 maps	Target: 4 maps
LWC - Geological Survey	Field check 1:24,000-scale quadrangles in Inner Piedmont (Spartanburg County) to verify mapped relations. Note: 2017-18 target is not an optimal target and is limited because of staff shortage.	Output	Required by State	USGS	July 1 - June 30	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 2 quadrangles Actual: 2 quadrangles	Target: 2 quadrangles Actual: 1 quadrangles	Target: 1 quadrangles
LWC - Geological Survey	Complete 10 per cent of regional compilation of Carolina terrane and field check relations to verify map reliability.	Output	Required by State	USGS	July 1 - June 30	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 10% digitized Actual: 75% digitized	Target: 25% digitized
LWC - Geological Survey	Compile available information to produce offshore map of South Carolina waters of Long Bay area (North Island to Little River).	Output	Required by State	Coastal Carolina University	2/1/2016 - 8/1/2016	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: Compile map Actual: Map complied	Target: No longer tracked
LWC - Geological Survey	Finish digitization of 6 sets of coastal aerial photographs from Capers Island to Murrells Inlet and start AMBUR (Analyzing Moving Boundaries Using R) analysis of physical change.	Output	Agency Selected	Georgia Southern	July 1 - June 30	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 6 sets digitized Actual: 3 sets digitized	Target: 3 sets digitized Actual: 1 set digitized	Target: 2 sets digitized
LWC - Geological Survey	Finish digitization of pilot project in ACE (Ashepoo-Combahee-Edisto) Basin and do AMBUR program analysis of physical change.	Output	Agency Selected	Georgia Southern	9/1/2014 - 11/1/2016	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 5 shorelines Actual: 5 shorelines	Target: 100% analysis Actual: 100% analysis	Target: No longer tracked
LWC - Geological Survey	Measure Surface Elevation Table network along Coast quarterly to determine occurrence of positive or negative vertical crustal movements.	Output	Agency Selected	USGS	Ongoing since 1999	Target: 4 times Actual: 4 times	Target: 4 times Actual: 4 times	Target: 4 times Actual: 4 times	Target: 4 times Actual: 3 times	Target: 4 times
LWC - Geological Survey	Conduct multi-year BOEM project to evaluate offshore sand resources. Note: This is a two-year project which will be completed this year.	Output	Agency Selected	SCDNR	Ongoing since 2016	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 30% Actual: 30%	Target: 70%
LWC - Geological Survey	Maintain Core Repository by obtaining core samples from private companies and institutions. Note: Target level beyond agency control. Depends on acquiring donations.	Output	Required by State	Texas Geological Survey	July 1 - June 30	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: % of Amount donated accepted Actual: 100% (1616 Feet)	Target: % of Amount donated accepted

The contents of this chart are considered sworn testimony from the Agency Director.

Performance Measures

(Study Step 2: Performance)

Agency Organizational Unit	Performance Measure	Type of Measure	Agency selected; Required by State; or Required by Federal	Who performs the best in the country on this measure? (gov't, private, etc.)	Time Applicable	Target & Actual Results Time Period #1 (2013-14)	Target & Actual Results Time Period #2 (2014-15)	Target & Actual Results Time Period #3 (2015-16)	Target & Actual Results Time Period #4 (most recent completed time period: 2016-17)	Target Results Time Period #5 (current time period 2017-18)
LWC - GIS	Land, Water, and Conservation Division - GIS									
LWC - GIS	Expand information available from LWC Division webpages with use of story maps to disseminate natural resource information.	Output	Agency Selected	Delaware Geological Survey	7/1/2015 - 6/30/2016	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 1 page Actual: 2 page	Target: 1 page
LWC - GIS	Increase use of digitally interactive maps to provide additional information to support aspects of natural resource information.	Output	Agency Selected	Texas Parks and Wildlife	7/1/2015 - 6/30/2016	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 1 map Actual: 1 map	Target: 1 map
LWC - GIS	Expand use of digital-mapping in field work done by LWC Division.	Efficiency	Agency Selected	Kentucky Geological Survey	7/1/2015 - 6/30/2016	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 1 in use Actual: 1 in use	Target :2in use Actual: 2 in use	Target: 3 in use
LWC - GIS	Evaluate uses of drones to digitally collect natural resource information.	Input/Activity	Agency Selected	College of Charleston	7/1/2015 - 6/30/2016	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 25% evaluated Actual: 25% evaluated	Target: 25% evaluated
LWC - GIS	Begin to integrate available onshore maps with offshore information of Long Bay area to produce composite working map.	Output	Agency Selected	New Jersey Geological Survey	7/1/2015 - 6/30/2016	Target: DNE Actual: DNE	Target:DNE Actual: DNE	Target: DNE Actual: DNE	Target: 20% integration Actual: 15% integration	Target: 20% integration
LWC - GIS	Improve the preservation and accessibility of spatial data from and for LWC programs with new and existing GIS databases.	Efficiency	Agency selected	Florida Geological Survey	July 1 - June 30	Target: DNE Actual: DNE	Target:DNE Actual: DNE	Target: DNE Actual: DNE	Target: Improve existing or develop a new database for LWC program that benefits program operations. Actual: Database of river access, data used for new GoPaddleSC.com website.	Target: Improve SC Geological Survey databases of geologic map information.

LWC - Endangered Species	Land, Water and Conservation- Endangered Species									
LWC - Endangered Species	Inventory significant tracts of SCDNR properties and inform public agencies, private land trusts, and the general public of the significance of their properties as areas of high or unique biodiversity or special habitats.	Outcome	Required by Federal: USFWS tracks plants and animal species data collected by or managed by SCDNR, particularly on state and federal properties.	Virginia Natural Heritage Program	Ongoing since the beginning of the Heritage Trust Program	Target: Rare plant and animal records entered into database Actual: 17 plants, 1 animal entered into Heritage Database. Data reviews totaled 166 requests filled. Online herbarium voucher specimen queries totaled 917.	Target: Plant records were compiled for data entry that are housed at USC and Clemson Actual: 3 plants, 6 animals, 2 natural communities entered into Heritage Database. Data reviews totaled 225 data requests filled. Online herbarium specimen queries totaled 1045.	Target: Evaluate Peach Tree Rock, Wateree River, and Woodbury Heritage preserves for rare plant species. Enter into database rarest tracked species housed at academic institutions (USC and Clemson) Actual: 307 species occurrences for 27 different plant species considered most in need of conservation.	Target: Continue evaluation of Heritage Trust Preserves and future acquisitions. Collected 90% of voucher specimen information at Furman University and USC UpState Actual: 109 species added to the tracked list; 283 new/updated observations added to the occurrence database; 301 information requests answered.	Target: Continue evaluation of Heritage Trust Preserves and future acquisitions. Complete collection of voucher specimen information from Furman University and USC UpState. Begin collection of voucher specimen information from Francis Marion University, Newberry College, USC Salkahatchie, Winthrop University.

Performance Measures

(Study Step 2: Performance)

Agency Organizational Unit	Performance Measure	Type of Measure	Agency selected; Required by State; or Required by Federal	Who performs the best in the country on this measure? (gov't, private, etc.)	Time Applicable	Target & Actual Results Time Period #1 (2013-14)	Target & Actual Results Time Period #2 (2014-15)	Target & Actual Results Time Period #3 (2015-16)	Target & Actual Results Time Period #4 (most recent completed time period: 2016-17)	Target Results Time Period #5 (current time period 2017-18)
Marine Resources	Marine Resources Division									
Marine Resources	Number of research grants awarded to Marine Division. Note: 60 grants annually support the existing staff such that personnel are fully subscribed.	Output	Agency Selected	There are only a couple of other states with a state laboratory comparable to SC. In many aspects (genetics, stock assessment, fish aging, fish culture, etc.) our lab is superior to others. Florida Fish & Wildlife Research Institute/Florida Fish & Wildlife Conservation Commission is probably the most appropriate analog to our research lab.	July 1 - June 30	Target: DNE Actual: DNE	Target: 60 research grants awarded to Marine Division Actual: 50 research grants awarded to Marine Division	Target: 60 research grants awarded to Marine Division Actual: 58 research grants awarded to Marine Division	Target: 60 research grants awarded to Marine Division Actual: 61 research grants awarded to Marine Division	Target: 60 research grants awarded to Marine Division
Marine Resources	Number of man days sampling marine fauna.	Output	Agency Selected	The SCDNR lab exceeds all other southeastern states in the amount of effort devoted to monitoring key species (red drum, sea trout, shrimp, blue crab, etc.)	July 1 - June 30	Target: DNE Actual: 3,477 man days	Target: 3,900 man days Actual: 3,910 man days	Target: 3,900 man days Actual: 4,020 man days	Target: 3,900 man days Actual: 4,411 man days	Target: 3,900 man days
Marine Resources	Number of social and economic surveys related to marine resources.	Output	Agency Selected	No data exists on surveys conducted by other states, but we believe SC probably exceeds other states in surveying its customers because our substantial outreach program is larger than that of other states.	July 1 - June 30	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 3 social and economic surveys Actual: 4 social and economic surveys	Target: 3 social and economic surveys Actual: 5 social and economic surveys	Target: 3 social and economic surveys
Marine Resources	No. of samples for South Carolina Estuarine and Coastal Assessment Programs (SCECAP).	Output	Yes, the success of sample collection and processing is reported to NOAA	We are not aware of any other states that conduct a comprehensive ecological assessment program like that done in SC.	July 1 - June 30	Target: DNE Actual: 299 samples	Target: 270 samples Actual: 299 samples	Target: 270 samples Actual: 300 samples	Target: 270 samples Actual: 270 samples	Target: 270 samples

The contents of this chart are considered sworn testimony from the Agency Director.

Performance Measures

(Study Step 2: Performance)

Agency Organizational Unit	Performance Measure	Type of Measure	Agency selected; Required by State; or Required by Federal	Who performs the best in the country on this measure? (gov't, private, etc.)	Time Applicable	Target & Actual Results Time Period #1 (2013-14)	Target & Actual Results Time Period #2 (2014-15)	Target & Actual Results Time Period #3 (2015-16)	Target & Actual Results Time Period #4 (most recent completed time period: 2016-17)	Target Results Time Period #5 (current time period 2017-18)
Marine Resources	Number of commercial marine permits issued. Note: Permits not controlled by the agency, but based on the number requested.	Activity Measure	Agency Selected	Permit numbers are reflective of the size of a state's coastal zone, and the diversity of species it manages. Given SC has a relatively long coastline, and a relatively high diversity of species, we think SC has more than the average number of permits.	July 1 - June 30	Target: DNE Actual: commercial permits issued	Target: DNE Actual: 1,812 commercial permits issued	Target: 1500 commercial permits issued Actual: 1626 commercial permits issued	Target: 1,500 commercial permits issued Actual: 1,511 commercial permits issued	Target: 1,500 commercial permits issued
Marine Resources	Increase loggerhead sea turtle nesting by requiring and enforcing Turtle Excluder Devices (TED) on commercial fishing vessels, protecting turtle nests during breeding season from predators and humans, collecting and analyzing data on nests to determine viability and causes of fatality, with the goal of eventually delisting the species from the endangered species list. Note: The recovery plan for the loggerhead sea turtle specifies a recovered population as that indicated by approximately 30,000 nests annually. It is estimated, based on habitat, SC's portion would be 9,200 nests, so that is our target. It is important to note that nesting numbers have been known to fluctuate as adult female turtles nest once every three years.	Outcome	Federal	SCDNR	July 1-June 30	Target: Increased turtle nests Actual: 5,193	Target: Increased turtle nests Actual: 2,086	Target: Increased turtle nests Actual: 5,104	Target: Increased turtle nests Actual: 6,444 nests	Target: Increase turtle nests
Marine Resources	Percentage of Marine Fisheries Harvest Reports Processed within 90 days of end of Month.	Efficiency	Federal	Our rank is equal to the best in the country.	July 1 - June 30	Target: 100% Actual: 100%	Target: 100% Actual: 100%	Target: 100% Actual: 100%	Target: 100% Actual: 100%	Target: 100%
Marine Resources	Percentage of 15 required Atl. States Mar. Fish. Comm. Species Reports submitted on time.	Efficiency	Federal	Our rank is equal to the best on the Atlantic coast and we think the quality of our reports exceeds other states.	July 1 - June 30	Target: 100% Actual: 100%	Target: 100% Actual: 100%	Target: 100% Actual: 100%	Target: 100% Actual: 100%	Target: 100%

The contents of this chart are considered sworn testimony from the Agency Director.

Performance Measures

(Study Step 2: Performance)

Agency Organizational Unit	Performance Measure	Type of Measure	Agency selected; Required by State; or Required by Federal	Who performs the best in the country on this measure? (gov't, private, etc.)	Time Applicable	Target & Actual Results Time Period #1 (2013-14)	Target & Actual Results Time Period #2 (2014-15)	Target & Actual Results Time Period #3 (2015-16)	Target & Actual Results Time Period #4 (most recent completed time period: 2016-17)	Target Results Time Period #5 (current time period 2017-18)
Marine Resources	Number of Marine Game Fish stocked in coastal waters.	Output	Agency Selected	Only three other state resource agencies stock marine fish (Mississippi, Texas and California). Mississippi's program is small, releasing only one species. TX and CA have relatively large stocking programs. Given SC's size relative to TX and CA, SC stocks proportionally more fish than all other states and we believe our methods are superior.	July 1 - June 30	Target: DNE Actual: 1,595,570 fish stocked	Target: 1,200,000 fish stocked Actual: 954,577 fish stocked	Target: 1,200,000 fish stocked Actual: 1,370,169 fish stocked	Target: 1,200,000 fish stocked Actual: 2,042,690 fish stocked	Target: 1,500,000 fish stocked
Marine Resources	Cubic feet of Marine habitat created annually on Marine artificial reefs.	Output	Agency Selected, but federal permits are required for deployment areas	SC began the country's artificial reef building. SC remains a leader in the field with respect to new techniques and materials. Florida has much more coastline and more reefs, but SC probably is superior to all other states.	July 1 - June 30	Target: Actual: 812,000 cubic feet	Target: 100,000 cubic feet Actual: 85,000 cubic feet	Target: 100,000 cubic feet Actual: 110,000 cubic feet	Target: 100,000 cubic feet Actual: 95,000 cubic feet	Target: 100,000 cubic feet
Marine Resources	Number of bushels of oyster shucked shell collected.	Output	Agency Selected	We are aware of only two other shell recycling programs - Chesapeake Bay and Louisiana. We are about equal with these two states in bushels recycled but because we spend much less on our program, our efficiency is much greater.	July 1 - June 30	Target: DNE Actual: 24,552 bushels collected	Target: 30,000 bushels collected Actual: 28,547 bushels collected	Target: 30,000 bushels collected Actual: 27,434 bushels collected	Target: 30,000 bushels collected Actual: 29,008 bushels collected	Target: 30,000 bushels collected

Performance Measures

(Study Step 2: Performance)

Agency Organizational Unit	Performance Measure	Type of Measure	Agency selected; Required by State; or Required by Federal	Who performs the best in the country on this measure? (gov't, private, etc.)	Time Applicable	Target & Actual Results Time Period #1 (2013-14)	Target & Actual Results Time Period #2 (2014-15)	Target & Actual Results Time Period #3 (2015-16)	Target & Actual Results Time Period #4 (most recent completed time period: 2016-17)	Target Results Time Period #5 (current time period 2017-18)
Marine Resources	Number of school children and teachers informed about the marine environment.	Output	Agency Selected	We are unaware of any other states that run a program that is as comprehensive as SC's. It is the only program that we know of that provides students with hands-on applied science training.	July 1 - June 30	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 4,500 school children and teachers informed Actual: 5,469 school children and teachers informed	Target: 4,500 school children and teachers informed Actual: 5,337 school children and teachers informed	Target: 4,500 school children and teachers informed
Marine Resources	Number of Anglers in public marine fish tagging program.	Output	Agency Selected	This volunteer program was the first state-sponsored public tagging program in the country, and is currently the largest of its kind in terms of participation.	July 1 - June 30	Target: DNE Actual: 442 anglers in program	Target: 400 anglers in program Actual: 506 anglers in program	Target: 475 anglers in program Actual: 568 anglers in program	Target: 475 anglers in program Actual: 687 anglers in program	Target: 500 anglers in program
Marine Resources	Number of coastal vendors who receive MRD resource related literature.	Output	Agency Selected	We are unaware of any comparable program that any other state has related to creation and distribution of marine resources related literature.	July 1 - June 30	Target: DNE Actual: 116 coastal vendors receive MRD literature	Target: 110 coastal vendors receive MRD literature Actual: 119 coastal vendors receive MRD literature	Target: 110 coastal vendors receive MRD literature Actual: 114 coastal vendors receive MRD literature	Target: 110 coastal vendors receive MRD literature Actual: 113 coastal vendors receive MRD literature	Target: 110 coastal vendors receive MRD literature
Marine Resources	Number of print, digital, and broadcast media stories that reference Marine Division programs.	Output	Agency Selected	There is no source of information on output of media stories by marine resource agencies in other states. However, we believe the quality and quantity of our informational stories are equal to or superior to those of other states.	July 1 - June 30	Target: DNE Actual: DNE	Target: DNE Actual: DNE	Target: 180 media stories reference division programs. Actual: 240 media stories reference division programs.	Target: 180 media stories reference division programs Actual: 304 media stories reference division programs	Target: 220 media stories reference division programs

NASP

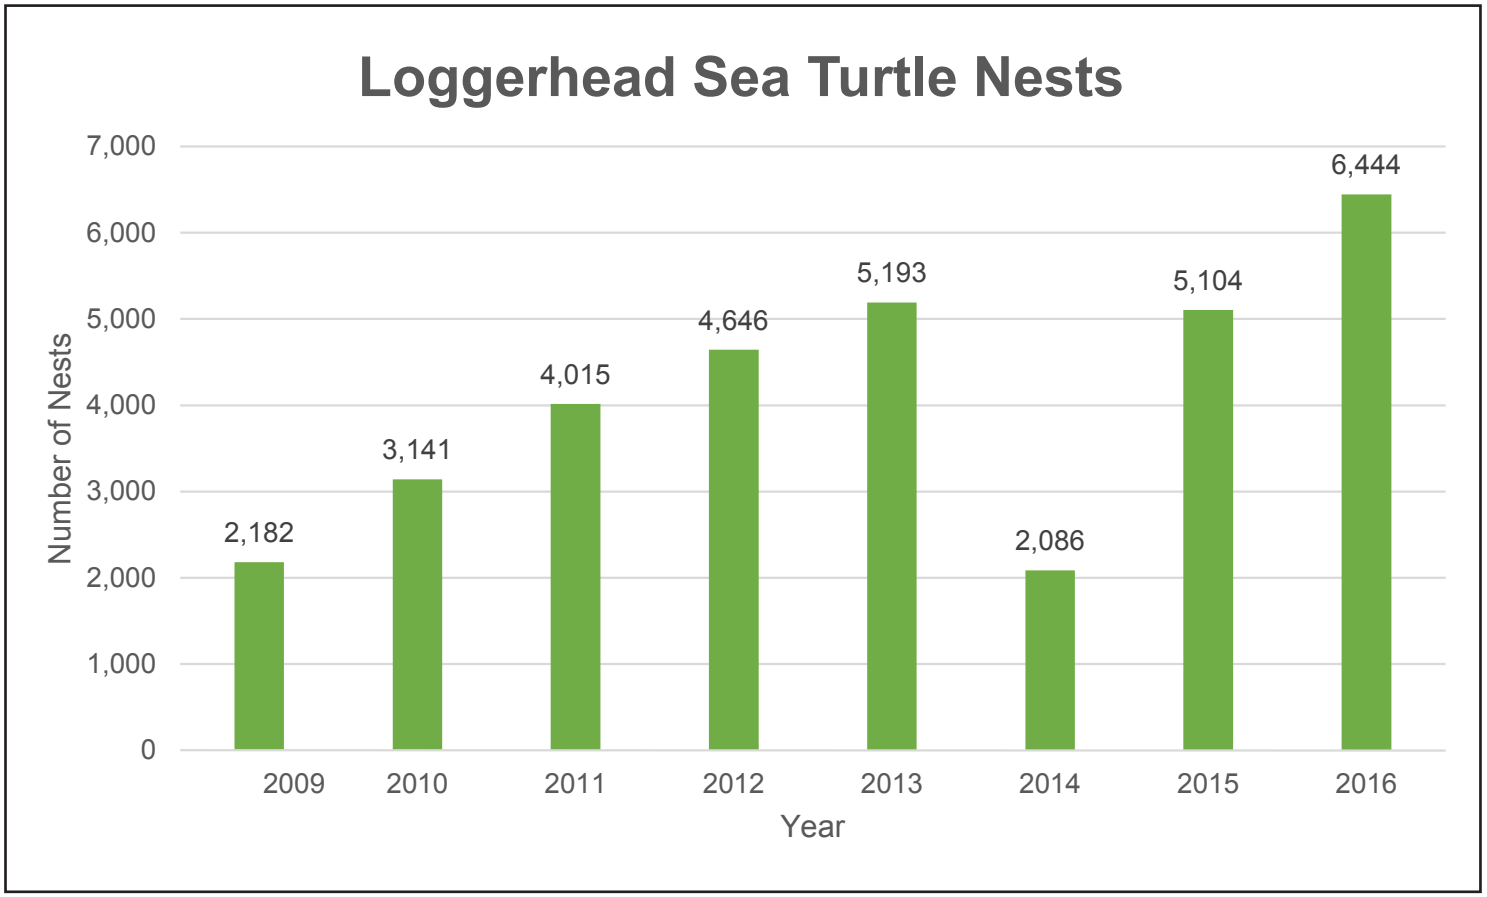

South Carolina Department of Natural Resources
Loggerhead Sea Turtle

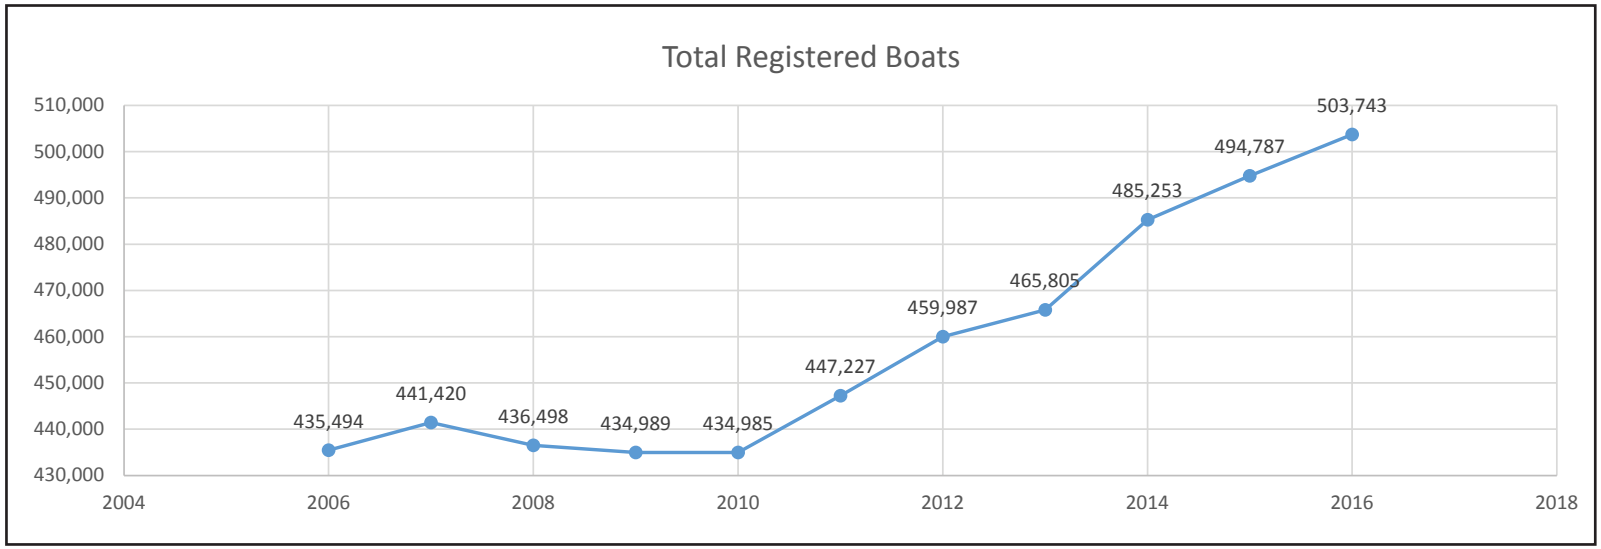

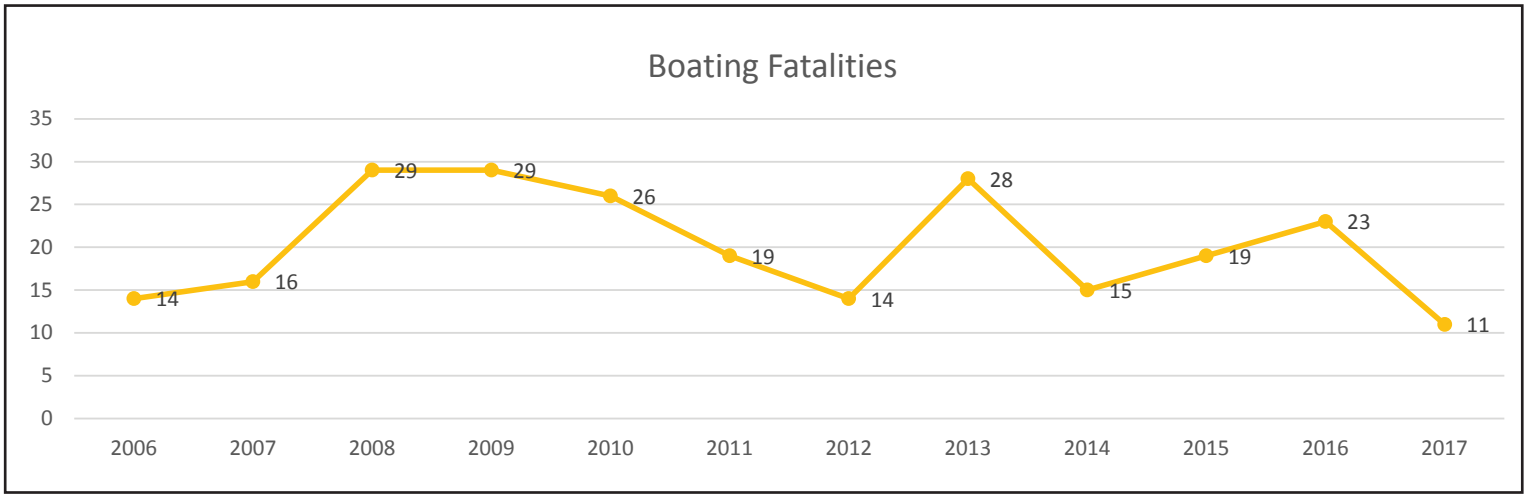

South Carolina Department of Natural Resources
Boating (Registration vs. Fatalities)

Comprehensive Strategic Plan Summary

(Study Step 1: Agency Legal Directives, Plan and Resources; and Study Step 2: Performance)

Agency Responding	Department of Natural Resources
Date of Submission	8/30/2017

Mission: SCDNR's mission is to serve as the principal advocate for and steward of South Carolina's natural resources.
Legal Basis: S.C. Code Ann. 48-4-10

Vision: SCDNR's vision is to be a trusted and respected leader in natural resources protection and management, by consistently making wise and balanced decisions for the benefit of the state's natural resources and its people.
Legal Basis: S.C. Code Ann. 48-4-10

2016-17		2017-18	
FTEs available	772.20-FTE	FTEs available	779.2-FTE
FTEs filled at start of year	685.00-FTE; 105-TG	FTEs filled at start of year	675-FTE; 101- TG
Appropriated and Authorized to	$ 129,390,266	Appropriated and Authorized	$ 123,781,641
Amount of remaining	$ 21,392,198	Amount of remaining	$ 10,011,300

2017-18 Comprehensive Strategic Plan Part and Description	Intended Public Benefit/Outcome:	2016-17 Number of FTE equivalents utilized	2016-17 Total amount spent	2016-17 Percentage of Total Appropriated and Authorized to Spend	2017-18 Number of FTE equivalents planned to utilize	2017-18 Total amount budgeted	2017-18 Percentage of Total Appropriated and Authorized to Spend	Associated Performance Measures	Associated Organizational Unit(s)	Responsible Employee Name & Time staff member has been responsible for the goal or objective	Does person have input into budget for objective?	Partner(s), by segment, the agency works with to achieve the objective
Goal 1 - Develop and Implement programs that study, manage and conserve the State's Land and Water Resources through planning, research, technical assistance, public education and the development of a comprehensive natural resources database.												
Strategy 1.1 - Water Resource Management and Earth Science research, as well as review of proposed environmental impacts as published in the regulatory arena to provide reliable, science-based information to decision makers and the public.												
Objective 1.1.1: Conduct or arrange for studies, inquires, surveys, or analysis; prepare reports; review actions; and appoint advisory boards as may be relevant in implementation of water policy.	Public benefit will be more information on surface and groundwater available for decision makers, other agencies and the public.	11.75 FTE	$ 1,725,645	1.33%	11.75 FTE	$ 1,663,833	1.34%	See Performance Measures for Land, Water and Conservation-Hydrology	LWC-Hydrology Program	Ken Rentiers, LWC-Deputy Director (responsible more than 3 years)	Y	Federal Government; State Government; Higher Education Institute, Private; Other
Objective 1.1.2- Produce reliable geologic maps and information in support of economic development, environmental protection, and land-use planning.	The public benefit from these projects are a better understanding of our state's geology, including identification of earthquake hazard zones and land use planning.	5.85 FTE 1 .00 TG	$ 1,343,219	1.04%	5.85 FTE 1 .00 TG	$ 1,053,565	0.85%	See Performance Measures for Land, Water and Conservation-Geology	LWC-Geology Program	Ken Rentiers, LWC-Deputy Director (responsible more than 3 years)	Y	Federal Government, State Government, Higher Education Institutes; Other
Objective 1.1.3 - Expand digital capabilities and uses for the dissemination of information.	The public benefit is the public can have more detailed information about natural resources in a digital format.	1.25 FTE	$ 109,911	0.08%	1.25 FTE	$ 105,154	0.08%	See Performance Measures for Land, Water and Conservation-GIS	LWC-GIS Program	Ken Rentiers, LWC-Deputy Director (responsible more than 3 years)	Y	Other

Comprehensive Strategic Plan Summary

(Study Step 1: Agency Legal Directives, Plan and Resources; and Study Step 2: Performance)

2017-18 Comprehensive Strategic Plan Part and Description	Intended Public Benefit/Outcome:	2016-17 Number of FTE equivalents utilized	2016-17 Total amount spent	2016-17 Percentage of Total Appropriated and Authorized to Spend	2017-18 Number of FTE equivalents planned to utilize	2017-18 Total amount budgeted	2017-18 Percentage of Total Appropriated and Authorized to Spend	Associated Performance Measures	Associated Organizational Unit(s)	Responsible Employee Name & Time staff member has been responsible for the goal or objective	Does person have input into budget for objective?	Partner(s), by segment, the agency works with to achieve the objective
Strategy 1.2 - State Climate Office/Flood Mitigation activities provide reliable information for the protection of lives and property.												
Objective 1.2.1 - Monitor, conduct and report on studies of climate and weather events of environmental and economic importance to the State.	Public benefit is a better understanding of the impacts of significant weather events in the State.	3.05 FTE	$ 305,498	0.24%	3.05 FTE	$ 292,258	0.23%	See Performance Measures for Land, Water and Conservation-Climatology	LWC-Climatology Program	Ken Rentiers, LWC-Deputy Director (responsible more than 3 years); Hope Mizzell, State Climatologist (responsible more than 3 years)	Y	Federal Government; State Government; Local Government; Higher Education Institutes; Private; Other
Objective 1.2.2 - Administer the Federal Emergency Management Agency, Flood Mitigation Assistance, Cooperating Technical Partners, Community Assistance-State Support Services Element Programs.	Public benefit is assisting communities to participate in the National Flood Insurance Program and protecting lives and property.	1.55 FTE 3.00 TG	$ 1,747,965	1.35%	1.55 FTE 3.00 TG	$ 2,012,975	1.56%	See Performance Measures for Land, Water and Conservation-Flood Mitigation	LWC-Flood Mitigation Program	Ken Rentiers, LWC-Deputy Director (responsible more than 3 years); Hope Mizzell, State Climatologist (responsible more than 3 years)	Y	Federal Government; State Government; Local Government; Other
Strategy 1.3 - Aquatic Nuisance Species Control activities support healthy habitat for recreation, fish, wildlife and citizens.												
Objective 1.3.1 - Reduce the footprint of invasive species to provide high quality habitat for hunting, fishing, and recreational activities by utilizing prevention, new and existing technologies, biocontrol, and selective herbicides to improve habitat, provide navigability, and keep water supply sources accessible.	Improvement of water quality for hunting, fishing, recreation and economic development. Healthier water bodies and prevention of aquatic nuisance species would also reduce the adverse effect on water supplies. To provide a better understanding of the importance of water quality and the damage that invasive species can do to ecosystems	3.25 FTE	$ 700,284	0.54%	3.25 FTE	$ 698,380	0.54%	See Performance Measures for Land, Water and Conservation-Aquatic Nuisance Species	LWC-Aquatic Nuisance Species Program	Ken Rentiers, LWC-Deputy Director (responsible more than 3 years)	Y	Federal Government; State Government; Local Government; Higher Education Institutes; Private, Other
Strategy 1.4 - Heritage Trust Cultural Resources/Habitat Protection monitors and protects cultural and other resources throughout the state on Heritage Trust properties, and provides culturally related recreational/educational opportunities.												
Objective 1.4.1 - Survey, research, outreach, education, and management activities for Cultural Heritage Trust Preserves and Programs as well as meeting with the Heritage Trust Advisory Board for board action as required by statute.	Public benefit would be a better understanding of the cultural resources on Heritage Trust properties	8.30 FTE	$ 799,733	0.62%	8.3 0 FTE	$ 798,626	0.62%	See Performance Measures for Land, Water and Conservation-Cultural Resources Management	LWC-Cultural Resources Management Program	Ken Rentiers, LWC-Deputy Director (responsible more than 3 years); Sean Taylor, SCDNR & Heritage Trust Archaeologist (responsible more than 3 years)	Y	State Government, Local Government, Higher Education Institutes, Other
Objective 1.4.2 - Update inventory of Rare, Threatened and Endangered Species in SC.	Public benefit is an updated and better understanding of the existence and location of Rare, Threatened or Endangers Species throughout the state.	4.30 FTE	$ 331,426	0.26%	4.30 FTE	$ 330,318	0.26%	See Performance Measures for Land, Water and Conservation-Endangered Species	LWC-Heritage Trust Program: Endangered Species	Ken Rentiers, LWC-Deputy Director (responsible more than 3 years)	Y	State Government; Local Government; Higher Education Institute; Private, Other

Comprehensive Strategic Plan Summary

(Study Step 1: Agency Legal Directives, Plan and Resources; and Study Step 2: Performance)

2017-18 Comprehensive Strategic Plan Part and Description	Intended Public Benefit/Outcome:	2016-17 Number of FTE equivalents utilized	2016-17 Total amount spent	2016-17 Percentage of Total Appropriated and Authorized to Spend	2017-18 Number of FTE equivalents planned to utilize	2017-18 Total amount budgeted	2017-18 Percentage of Total Appropriated and Authorized to Spend	Associated Performance Measures	Associated Organizational Unit(s)	Responsible Employee Name & Time staff member has been responsible for the goal or objective	Does person have input into budget for objective?	Partner(s), by segment, the agency works with to achieve the objective
Strategy 1.5 - Conservation Districts Program assists farmers, ranchers and landowners with Conservation planning and facilitates access to Farm Bill programs through a partnership with the United State Department of Agriculture (USDA).												
Objective 1.5.1 - Provide increased technical assistance and administrative support to Conservation District Commissioners, District staff and partner agencies.	Public benefit is an increase in the number of soil and water conservation projects in the State where wise use practices are encouraged for land management, and water conservation in agriculture.	4.30 FTE 4 .00 TG	$ 1,481,250	1.14%	4.3 0 FTE 4.00 TG	$ 1,566,392	1.21%	See Performance Measures for Land, Water and Conservation-Conservation Districts	LWC-Conservation Districts Program	Ken Rentiers, LWC-Deputy Director (responsible more than 3 years) and Marc Cribb, Conservation Districts Program Manager (responsible more than 3 years)	Y	Federal Government; State Government; Local Government; Higher Education Institutes; Private, Other
Strategy 1.6 - Conservation of SC's river heritage and protection of the unique or outstanding scenic, recreational, geologic, botanical, fish, wildlife, historic and cultural values of selected rivers and river segments of the state.												
Objective 1.6.1 - Manage the State Scenic Rivers Program, and provide related technical assistance and support to project partners and the public statewide.	Public benefit would be to properly manage the State's Scenic Rivers to protect and enhance the precious natural resources of the State	1.25 FTE	$ 64,498	0.05%	1.25 FTE	$ 56,132	0.04%	See Performance Measures for Land, Water and Conservation-Scenic Rivers	LWC-Scenic Rivers Program	Ken Rentiers, LWC-Deputy Director (responsible more than 3 years)	Y	State Government; Other

Comprehensive Strategic Plan Summary

(Study Step 1: Agency Legal Directives, Plan and Resources; and Study Step 2: Performance)

2017-18 Comprehensive Strategic Plan Part and Description	Intended Public Benefit/Outcome:	2016-17 Number of FTE equivalents utilized	2016-17 Total amount spent	2016-17 Percentage of Total Appropriated and Authorized to Spend	2017-18 Number of FTE equivalents planned to utilize	2017-18 Total amount budgeted	2017-18 Percentage of Total Appropriated and Authorized to Spend	Associated Performance Measures	Associated Organizational Unit(s)	Responsible Employee Name & Time staff member has been responsible for the goal or objective	Does person have input into budget for objective?	Partner(s), by segment, the agency works with to achieve the objective
Goal 2 - Conserve and protect the state's natural resources for social, economic, recreational, and commercial benefit while providing maximum human utilization through: (1) the development of public support through outreach, education, and safety programs; (2) the preservation of the peace and protection of human lives												
Strategy 2.1 - Provide for a safe hunting, fishing, and boating environment through outreach.												
Objective 2.1.1 - Provide for a safe hunting, fishing, and boating environment through outreach.	Outcome= Public perceives a safer hunting, fishing, and boating environment.	11.00 FTE 3.00 TG	$ 3,138,682	2.43%	15.00 FTE 2.00 TG	$ 3,938,185	3.04%	Growth of Scholastic Clay Target Sports (SCTS) Program, SC Archery In Schools Program, Take One Make One (TOMO) Program, and Law Enforcement Regional Youth Fishing Rodeos.	LE Education & Outreach	Captain Downer (responsible more than 3 years)	Y	Federal Government; State Government; Local Government; Higher Education Institutes; Private, Other
Objective 2.1.2 - Administer the state's Hunter and Boater Safety Certification Programs.	Outcome= Hunters and Boaters through education reduce the number of accidents, unethical, and illegal practices.	5 .00 FTE 7.00 TG	$ 1,652,962	1.28%	5 .00 FTE 8.00 TG	$ 1,751,782	1.35%	The Department administers Hunter Education. The Department must offer Boater Education	LE Education & Outreach	Captain Downer (responsible more than 3 years)	Y	Federal Government; State Government; Local Government; Higher Education Institutes; Private, Other
Strategy 2.2 - Provide for protection of lives and property.												
Objective 2.2.1 - Continue as the primary investigator of hunting and boating related accidents and fatalities.	Outcome= Reduction in violations related to illegally taking the states natural resources and other general criminal violations.	12 .00 FTE 3.00 TG	$ 612,243	0.47%	13.00 FTE 3.00 TG	$ 810,000	0.63%	Continue documenting natural resource, boating, and criminal violations..	LE Regional Field Operations	Major Landrum (responsible more than 3 years) Major Sullivan (responsible less than 3 years)	Y	Federal Government; State Government; Local Government; Higher Education Institutes; Private, Other
Objective 2.2.2 - Continue as the primary first responder in statewide disaster response as related to search and rescue, inclement weather, flooding, and homeland security mission.	Outcome= An effective response to ensure that life and property are protected during these types of incidents.	2 .00 FTE	$ 199,221	0.15%	2 .00 FTE	$ 178,172	0.14%	Maintain leadership role in search and rescue missions, and disaster response. Continue internal efforts and partnerships with federal, state, and local partners conducting missions related to Homeland Security.	LE Staff Operations Emergency Management & Homeland Security	Captain Swink (responsible less than 3 years)	Y	Federal Government; State Government; Local Government; Higher Education Institutes; Private, Other

Comprehensive Strategic Plan Summary

(Study Step 1: Agency Legal Directives, Plan and Resources; and Study Step 2: Performance)

2017-18 Comprehensive Strategic Plan Part and Description	Intended Public Benefit/Outcome:	2016-17 Number of FTE equivalents utilized	2016-17 Total amount spent	2016-17 Percentage of Total Appropriated and Authorized to Spend	2017-18 Number of FTE equivalents planned to utilize	2017-18 Total amount budgeted	2017-18 Percentage of Total Appropriated and Authorized to Spend	Associated Performance Measures	Associated Organizational Unit(s)	Responsible Employee Name & Time staff member has been responsible for the goal or objective	Does person have input into budget for objective?	Partner(s), by segment, the agency works with to achieve the objective
Strategy 2.3 - Enforce the state's criminal codes through detection, apprehension, and prosecution.												
Objective 2.3.1 - Encourage a proactive approach to patrolling to enforce the state's hunting, fishing, environmental, boating, and general criminal laws.	Outcome= Citizens see a proactive role the department is playing in protection of the states natural resources, private property, and personal safety.	240.00 FTE	$ 22,104,323	17.08%	235.00 FTE	$ 23,382,708	18.07%	Continue daily patrols checking hunters and fisherman being checked for compliance.	LE Regional Field Operations	Major Landrum (responsible more than 3 years) Major Sullivan (responsible less than 3 years)	Y	Federal Government; State Government; Local Government; Higher Education Institutes; Private, Other
Objective 2.3.2 - Continue with providing advanced training opportunities to LE staff and officers to enhance their abilities in violation detection, case preparation, officer safety, and prosecution.	Outcome= That citizens perceive a well trained and professional law enforcement force when interacting with the public.	3.00 FTE	$ 158,897	0.12%	3.00 FTE	$ 285,363	0.22%	The Divisions Training Staff continuing to offer training to ensure a professional force of law enforcement officers.	LE Staff Operations Training Division	Major Carey (responsible more than 3 years)	Y	Federal Government; State Government; Local Government; Higher Education Institutes; Private, Other
Objective 2.3.3 - Administration of the Law Enforcement Program and Staff.	Outcome= The most effective and efficient Law Enforcement Program possible to serve the citizens of SC and it's visitors.	30.00 FTE	$ 1,354,219	1.05%	30.00 FTE	$ 2,063,318	1.59%	Continue with SCDNR Radio Room effectively and efficiently handling calls for service. Enforcement of inland fish and game laws is conducted in all 46 counties within SC. Saltwater Recreational and Commercial Fishing Enforcement of over 3,000 miles of coastal waters to prevent illegal harvest of marine species.	Law Enforcement Operations	Colonel Frampton (responsible more than 3 years)	Y	Federal Government; State Government; Local Government; Higher Education Institutes; Private, Other

Comprehensive Strategic Plan Summary

(Study Step 1: Agency Legal Directives, Plan and Resources; and Study Step 2: Performance)

2017-18 Comprehensive Strategic Plan Part and Description	Intended Public Benefit/Outcome:	2016-17 Number of FTE equivalents utilized	2016-17 Total amount spent	2016-17 Percentage of Total Appropriated and Authorized to Spend	2017-18 Number of FTE equivalents planned to utilize	2017-18 Total amount budgeted	2017-18 Percentage of Total Appropriated and Authorized to Spend	Associated Performance Measures	Associated Organizational Unit(s)	Responsible Employee Name & Time staff member has been responsible for the goal or objective	Does person have input into budget for objective?	Partner(s), by segment, the agency works with to achieve the objective
Goal 3 - To sustain the State's living marine resources for the cultural, recreational, commercial and economic benefit of the state's citizens and visitors.												
Strategy 3.1 - Conduct research on and monitor Marine Species.												
Objective 3.1.1 - Determine the biology, ecological relationships, threats and critical needs of living marine resources of SC.	Outcome = To have a good understanding of the factors that influence marine resource populations so as to provide guidance on how to best sustain those populations for the long- term benefit of the citizens of the state.	8.55 FTE 17.70 TG	$ 2,529,547	1.95%	8.55 FTE 17.70 TG	$ 2,726,795	2.11%	Number of Research Grants Awarded to Marine Division; Number of Man Days Sampling Marine Fauna; Number of samples for South Carolina Estuarine and Coastal Assessment Programs; Number of Anglers in Public fish tagging program	Marine Resources Division	Mike Denson (responsible more than 3 years)	Y	Federal Government, State Government, Higher Education Institutes; Non-Profit Entity; Individual
Objective 3.1.2 - Monitor population status and trends of living marine resources.	Outcome = To have good indicators of population abundance, health, and trends, so as to help guide the managers and legislature in setting fishing and harvesting rules and limits.	13.00 FTE 18.70 TG	$ 3,243,976	2.51%	13.00 FTE 18.70 TG	$ 3,500,257	2.71%	Number of Man Days Sampling Marine Fauna	Marine Resources Division	Mike Denson (responsible more than 3 years)	Y	Federal Government; State Government
Objective 3.1.3 - Examine the social and economic importance of marine resources to SC.	Outcome = To provide information to the legislature and fishery managers as to the public's desires, concerns and knowledge about marine resources.	0.60 FTE	$ 74,850	0.06%	0.60 FTE	$ 77,033	0.06%	Number of social and economic surveys	Marine Resources Division	Mel Bell (responsible more than 3 years)	Y	Private Business
Objective 3.1.4 - Quantify and monitor marine habitats and water quality.	Outcome = Provides managers, scientists, the public, and the legislature with reports on the health of the marine environment and actions that are needed to sustain critical habitats that support marine resources.	2.30 FTE 4.90 TG	$ 1,031,307	0.80%	2.30 FTE 4.90 TG	$ 1,054,133	0.81%	Number of Research Grants Awarded to Marine Division; Number of Man Days Sampling Marine Fauna	Marine Resources Division	Mike Denson (responsible more than 3 years)	Y	Federal Government; State Government; Private Individuals
Strategy 3.2 - Manage the Harvest of Marine Resources.												
Objective 3.2.1 - Open and close fishing seasons, as specified by code and provide commercial licenses and permits as required.	Outcome = To provide maximum fishery and economic yield for the state in a manner that will not jeopardize the long-term health of those resources.	6.25 FTE	$ 516,139	0.40%	6.25 FTE	$ 748,958	0.58%	Number of Man Days Sampling Marine Fauna; Number of commercial permits issued	Marine Resources Division	Mel Bell (responsible for more than 3 years	Y	Federal Government; State Government; Private Individuals;
Objective 3.2.2 - Determine fishery harvest totals, harvest rates, and fishing effort.	Outcome = To track trends in fishery stocks so as to ensure that production is strong and harvesting is not exceeding safe levels. Also, to provide Federally-mandated data.	9.15 FTE 8.00 TG	$ 1,202,604	0.93%	9.15 FTE 8.00 TG	$ 1,245,423	0.96%	Percentage of Fisheries Harvest Reports Processed within 90 days of end of Month	Marine Resources Division	Mel Bell (responsible for more than 3 years)	Y	Federal Government; State Government; Private Individuals;
Objective 3.2.3 - Work collaboratively with the regional Fishery Mgt. Councils and Atl. States Mar. Fish. Commission to manage migratory marine species.	Outcome = To assure that regionally managed stocks are properly managed and South Carolina has a voice in the management of those stocks.	3.1 0 FTE 1.00 TG	$ 520,510	0.40%	3.1 0 FTE 1.00 TG	$ 553,817	0.43%	Percentage of 15 required Atl. States Mar. Fish. Comm. Species Reports submitted on time	Marine Resources Division	Robert Boyles (responsible for more than 3 years)	Y	State Governments, Federal Government, Private Individuals

Comprehensive Strategic Plan Summary

(Study Step 1: Agency Legal Directives, Plan and Resources; and Study Step 2: Performance)

		2016-17			2017-18							
2017-18 Comprehensive Strategic Plan Part and Description	Intended Public Benefit/Outcome:	Number of FTE equivalents utilized	Total amount spent	Percentage of Total Appropriated and Authorized to Spend	Number of FTE equivalents planned to utilize	Total amount budgeted	Percentage of Total Appropriated and Authorized to Spend	Associated Performance Measures	Associated Organizational Unit(s)	Responsible Employee Name & Time staff member has been responsible for the goal or objective	Does person have input into budget for objective?	Partner(s), by segment, the agency works with to achieve the objective
Strategy 3.3 - Enhance Marine Fisheries Stocks.												
Objective 3.3.1 - Stock Resource as needed to replenish resources.	Outcome = Highly valued fishery stocks are maintained or enhanced for use by SC citizens and visitors to the state.	4.40 FTE 8.15 TG	$ 2,123,996	1.64%	4.40 FTE 8.15 TG	$ 1,409,372	1.09%	Number of Marine Game Fish Stocked in Coastal Waters	Marine Resources Division	Mike Denson (responsible for more than 3 years)	Y	State Government, Private Individuals, Non-profit entity;
Objective 3.3.2 - Work to ensure artificial reefs continue to sustain marine species and fishing success.	Outcome = SC reefs are properly maintained and enhanced for continued good fishing by SC citizens and visitors.	1.20 FTE 2.45 TG	$ 474,700	0.37%	1.20 FTE 2.45 TG	$ 505,283	0.39%	Cubic Feet of Marine Habitat Created Annually on Marine Artificial Reefs	Marine Resources Division	Mel Bell (responsible for more than 3 years)	Y	Federal Government; Private Individuals, Non-profit entities; Local Government
Objective 3.3.3 - Ensure the commercial and recreational oyster beds are replenished with shell substrate.	Outcome : Natural oyster beds remain viable for continued recreational and commercial harvesting.	1.65 FTE 4.25 TG	$ 466,374	0.36%	1.65 FTE 4.25 TG	$ 518,608	0.40%	Number of bushels of oyster shucked shell Collected	Marine Resources Division	Mel Bell (responsible for more than 3 years)	Y	Non-profit entities; Private Business; private individuals
Strategy 3.4 - Engage the general public in protecting and sustaining marine resources through knowledge and personal actions.												
Objective 3.4.1 - Work to ensure school children and teachers are informed about the marine environment.	Outcome = Students and teachers have access to curriculum-aligned education materials and programs that advance stewardship of South Carolina's marine resources while supporting the state's education system.	1.40 FTE 0.63 TG	$ 217,421	0.17%	1.40 FTE 0.63 TG	$ 220,183	0.17%	Number of School children and teachers informed about the marine environment	Marine Resources Division	Phil Maier (responsible for more than 3 years)	Y	K-12 Education Institute; Higher Education Institute; State Government;
Objective 3.4.2 - Teach adults and community leaders about cooperative research, sustainable harvesting practices, habitat protection, and understanding marine management.	Outcome = South Carolina's citizens and decision-makers have access to the information and tools necessary to fully exercise their role as stewards of South Carolina's marine resources.	5.20 FTE 1.95 TG	$ 1,611,834	1.25%	5.20 FTE 1.95 TG	$ 1,720,459	1.33%	Number of Anglers in Public fish tagging program;	Marine Resources Division	Phil Maier (responsible for more than 3 years)	Y	Private Individuals
Objective 3.4.3 - Provide paper and electronic information and literature on marine resources to the public.	Outcome = Citizens and visitors have the information they need to responsibly enjoy South Carolina's marine resources.	5.00 FTE 0.13 TG	$ 275,687	0.21%	5.00 FTE 0.13 TG	$ 282,760	0.22%	Number of coastal vendors who receive MRD resource related literature; Number of Print, Digital, and Broadcast Media Stories that Reference Division Programs.	Marine Resources Division	Phil Maier (responsible for less than 3 years)	Y	Non-profit entities, Private Businesses;
Objective 3.4.4 Provide the general public with access to high quality recreational opportunities related to marine/coastal natural resources.	Outcome = Citizens utilize marine and coastal recreational opportunities	2.20 FTE 2.13 TG	$ 368,822	0.29%	2.20 FTE 2.13 TG	$ 401,106	0.31%	Number of individuals permitted for primitive camping on Capers Island	Marine Resources Division	Phil Maier (responsible more than 3 years)	Y	Non-profit entities, Private Businesses;
Strategy 3.5 - Provide operational support for MRD research, monitoring, stewardship, and outreach efforts.												
Objective 3.5.1 Ensure the MRD programs safely and effectively carry our their mission.	Outcome = MRD programs are fully supported to carry out their duties safely and effectively, and MRD staff operate within the administrative guidelines established by state and federal government.	34.00 FTE	$ 3,903,501	3.02%	34.00 FTE	$ 5,007,934	3.87%	Percentage of scheduled vessel days that are accomplished.	Marine Resources Division	Chantal Rice (responsible more than 3 years)	Y	State Government, Federal Government, Local Government; Higher Education Institute; Private Business;

Comprehensive Strategic Plan Summary

(Study Step 1: Agency Legal Directives, Plan and Resources; and Study Step 2: Performance)

2017-18 Comprehensive Strategic Plan Part and Description	Intended Public Benefit/Outcome:	2016-17 Number of FTE equivalents utilized	2016-17 Total amount spent	2016-17 Percentage of Total Appropriated and Authorized to Spend	2017-18 Number of FTE equivalents planned to utilize	2017-18 Total amount budgeted	2017-18 Percentage of Total Appropriated and Authorized to Spend	Associated Performance Measures	Associated Organizational Unit(s)	Responsible Employee Name & Time staff member has been responsible for the goal or objective	Does person have input into budget for objective?	Partner(s), by segment, the agency works with to achieve the objective
Goal 4 - Monitor and protect wildlife species and inland aquatic species and their habitats throughout the state and provide recreational hunting and fishing opportunities to the public.												
Strategy 4.1 - Conserve freshwater fish and wildlife species in SC.												
Objective 4.1.1 - Conduct research and monitoring activates of wildlife and freshwater fish.	Information obtained will assist conservation entities and others with better knowledge of species and management.	35.49 FTE 11.78 TG	$ 4,605,850	3.56%	35.99 FTE 12.78 TG	$ 5,354,473	4.14%	Species identified, sufficient funding obtained and field work conducted to report on required information. Calculated by number of active research projects.	Wildlife and Freshwater Fisheries Division	Emily Cope (responsible for more than 3 years)	Y	State Government, Federal Government, Higher Education Institute;
Objective 4.1.2 - Provide and enhance habitats for wildlife and freshwater fish.	An increased amount of land area will provide better habitat and result in improved wildlife and fish populations.	57.77 FTE 7.49 TG	$ 13,135,565	10.15%	57.77 FTE 8.49 TG	$ 14,965,499	11.57%	Acres of habitat owned by DNR promote species diversity and richness. Calculated by number of DNR-owned acres of managed habitat.	Wildlife and Freshwater Fisheries Division	Billy Dukes (responsible for more than 3 years) and Ross Self (responsible for more than 3 years)	Y	Federal Government
Objective 4.1.3 - Protect and manage at risk, threatened and endangered species.	Activities for nongame species prevent populations from decreasing and enhance populations of threatened, endangered or at-risk species.	7.22 FTE 5.83 TG	$ 1,092,487	0.84%	7.22 FTE 5.16 TG	$ 1,275,072	0.99%	At-risk, threatened and endangered species protected, monitored and managed following state and/or federal law. Calculated by number of species.	Wildlife and Freshwater Fisheries Division	Derrell Shipes (responsible for more than 3 years) and Ross Self (responsible for more than 3 years)	Y	Federal Government
Objective 4.1.4 - Provide technical assistance and educational workshops to private landowners.	Outreach efforts result in better habitat management and species management on private lands by providing landowners the informational tools they need.	18.99 FTE 2.40 TG	$ 2,016,907	1.56%	18.99 FTE 5.17 TG	$ 3,457,530	2.67%	Education of public to enhance awareness and conservation of natural resources. Calculated by number of constituents who attended workshops/presentations and number of contacts made with public for technical guidance.	Wildlife and Freshwater Fisheries Division	Billy Dukes (responsible for more than 3 years) and Ross Self (responsible for more than 3 years)	Y	State Government
Strategy 4.2 - Produce freshwater fish and stock in public waters.												
Objective 4.2.1 - Operate, restore and upgrade freshwater fish hatchery production facilities.	Hatcheries can more effectively and efficiently meet stocking needs.	11.87 FTE 1 .00 TG	$ 1,426,837	1.10%	12.37 FTE 1.00 TG	$ 2,749,328	2.12%	Operate and maintain facilities at a level to meet management demands. Calculated by number of operational fish hatcheries.	Wildlife and Freshwater Fisheries Division	Ross Self (responsible for more than 3 years)	Y	Federal Government; State Government; Private Business;
Objective 4.2.2 - Produce adequate species and amounts to meet standard stocking needs.	Stocking requests from regional management staff are met to ensure public waters maintain proper numbers and diversity of species.	11.87 FTE 1 .00 TG	$ 1,462,291		12.37 FTE 1.00 TG	$ 1,614,398		Number of fish needed to meet demand or public water stocking. Calculated by number of fish produced.	Wildlife and Freshwater Fisheries Division	Ross Self (responsible for more than 3 years)	Y	Federal Government; State Government; Private Business

Comprehensive Strategic Plan Summary

(Study Step 1: Agency Legal Directives, Plan and Resources; and Study Step 2: Performance)

		2016-17			2017-18							
2017-18 Comprehensive Strategic Plan Part and Description	Intended Public Benefit/Outcome:	Number of FTE equivalents utilized	Total amount spent	Percentage of Total Appropriated and Authorized to Spend	Number of FTE equivalents planned to utilize	Total amount budgeted	Percentage of Total Appropriated and Authorized to Spend	Associated Performance Measures	Associated Organizational Unit(s)	Responsible Employee Name & Time staff member has been responsible for the goal or objective	Does person have input into budget for objective?	Partner(s), by segment, the agency works with to achieve the objective
Strategy 4.3 - Administration of hunting and freshwater fishing opportunities.												
Objective 4.3.1 - Provide hunting opportunities to the public through the Wildlife Management Area Program.	Quality public hunting areas will continue to be available across the state to ensure ample opportunity for constituents.	27.39 FTE 4.30 TG	$ 9,904,982	7.66%	27.39 FTE 4.40 TG	$ 8,211,119	6.35%	Maintain and provide public access to lands through the WMA Program for public hunting and compatible recreational use opportunities. Calculated by number of acres available for use as WMA.	Wildlife and Freshwater Fisheries Division	Billy Dukes (responsible for more than 3 years)	Y	Federal Government; State Government; Private Business; Individual
Objective 4.3.2 - Provide freshwater fishing opportunities on public water bodies and through the State Lakes Program.	Quality public fishing areas will continue to be available across the state to ensure ample opportunity for constituents.	8.95 FTE	$ 962,578	0.74%	8.95 FTE	$ 820,698	0.63%	Availability of state lakes open to public fishing. Calculated by number of state lakes open to the public.	Wildlife and Freshwater Fisheries Division	Ross Self (responsible for more than 3 years)	Y	Federal Government; State Government;Local Government; Private Business; Individual
Objective 4.3.3 - Provide wildlife harvest and associated hunting opportunities on public and private lands through permits, tags and public lottery hunts.	Permits are issued in a timely manner to meet season dates and constituent needs. Lottery hunts are conducted so the public has sufficient notice and view the process as fair and reasonable.	2.80 FTE	$ 322,005	0.25%	3.30 FTE	$ 438,690	0.34%	Provide wildlife harvest and associated hunting opportunities on public and private lands through permits, tags and public lottery hunts. Calculated by number of permits, tags and participants.	Wildlife and Freshwater Fisheries Division	Billy Dukes (responsible for more than 3 years) and Ross Self (responsible for more than 3 years)	Y	Federal Government; State Government; Private Business
Objective 4.3.4 - Provide recruitment and retention activities for hunting and freshwater fishing.	Increased participation in hunting and fishing in the state, which should lead to stable or increased hunting and fishing license sales.	3.65 FTE 0.20 TG	$ 418,644	0.32%	3.65 FTE	$ 453,345	0.35%	Public participation in agency provided programs. Calculated by number of events and participants.	Wildlife and Freshwater Fisheries Division	Billy Dukes (responsible for more than 3 years) and Ross Self (responsible for more than 3 years)	Y	K-12 Education Institute; State Government;

Comprehensive Strategic Plan Summary

(Study Step 1: Agency Legal Directives, Plan and Resources; and Study Step 2: Performance)

2017-18 Comprehensive Strategic Plan Part and Description	Intended Public Benefit/Outcome:	2016-17 Number of FTE equivalents utilized	2016-17 Total amount spent	2016-17 Percentage of Total Appropriated and Authorized to Spend	2017-18 Number of FTE equivalents planned to utilize	2017-18 Total amount budgeted	2017-18 Percentage of Total Appropriated and Authorized to Spend	Associated Performance Measures	Associated Organizational Unit(s)	Responsible Employee Name & Time staff member has been responsible for the goal or objective	Does person have input into budget for objective?	Partner(s), by segment, the agency works with to achieve the objective
Goal 5 - Continuously evaluate and improve administrative and business processes, efficiency, effectiveness and internal and external service delivery with a focus on transparency, communication, accountability and the integration of new technologies.												
Strategy 5.1 -Issue all required documents to lawfully operate and show ownership of boats and motors in South Carolina and to legally hunt and fish in the state.												
Objective 5.1.1 -Issue titles and registration for new boats and motors; process transfers of boats and motors, duplicate titles, decals, registration cards, and lien satisfactions in the most accurate and timely manner.	Insuring parties legal ownership interest through proper documentation of boats and motors, while supporting both the safety of the state's waterways and administrative support of the agency.	26.00 FTE	$ 1,320,163	1.02%	28.00 FTE	$ 996,927	0.77%	Reducing the number of incomplete boating applications returned to customers by mail.	Office of Support Services	Derrick Meggie (responsible less than 3 years)	Y	Federal Government; State Government;Local Government; Private Business; Non-Profit Entity; Individual
Objective 5.1.2 -Issue the licenses, permits, tags that are required to hunt and/or fishing in South Carolina.	Supports the agency's mission of managing and protecting the state's natural resources, while also insuring that the state's sporting public receives their fair share of Federal excise taxes that have already been imposed on them through their purchases of sporting goods.	11.00 FTE	$ 993,057	0.77%	13.00 FTE	$ 1,280,415	0.99%	Reducing the number of incomplete applications returned to customers by mail.	Office of Support Services	Derrick Meggie (responsible less than 3 years)	Y	Federal Government; State Government; Private Business; Individual
Strategy 5.2 - Review the development, utilization and deployment of agency's internal resources to deliver the best service possible in meeting the changing business needs of SCDNR, our customers and the citizens of the state.												
Objective 5.2.1 - Expand and promote the use of technology, online and contracted call centers and regional locations to better educate customers and simplify customer service interaction for boating, hunting and fishing related inquiries and transactions; and use technology to improve and/or redesign internal and external processes to support all sections of the agency.	Continually advancing the use of technology in order to make information, communications and service delivery more convenient and efficient .	27.00 FTE	$ 3,642,751	2.82%	27.00 FTE	$ 3,359,371	2.60%	Fully develop, implement and deploy technology tools/solutions as necessary to support the agencies program	Office of Support Services	Mark Litz (responsible less than 3 years)	Y	State Government;Local Government; Private Business; Non-Profit Entity; Individual
Objective 5.2.2- Support the agency's core mission by providing quality and efficient support for all agency sections and programs, including, but not limited to, legal services, human resources support, business and finance, audit management, and legislative support.	DNE	43.45 FTE	$ 4,200,323	3.25%	43.45 FTE	$ 3,237,633	2.50%	DNE	Executive, Office of Support Services	Alvin Taylor (responsible more than 3 years)	Y	Federal Government; State Government;Local Government; Higher Education Institute; K-12 Education Institute; Private Business; Non-Profit Entity; Individual;

Comprehensive Strategic Plan Summary

(Study Step 1: Agency Legal Directives, Plan and Resources; and Study Step 2: Performance)

2017-18 Comprehensive Strategic Plan Part and Description	Intended Public Benefit/Outcome:	2016-17 Number of FTE equivalents utilized	2016-17 Total amount spent	2016-17 Percentage of Total Appropriated and Authorized to Spend	2017-18 Number of FTE equivalents planned to utilize	2017-18 Total amount budgeted	2017-18 Percentage of Total Appropriated and Authorized to Spend	Associated Performance Measures	Associated Organizational Unit(s)	Responsible Employee Name & Time staff member has been responsible for the goal or objective	Does person have input into budget for objective?	Partner(s), by segment, the agency works with to achieve the objective
Strategy 5.3 - Review and comment on proposed environmental impacts as published in the regulatory arena to provide reliable, science-based information to decision makers and the public.												
Objective 5.3.1 - Participate in comprehensive reviews of Federal Energy Regulatory Commission Hydroelectric Project proposals on licensed projects.	Science-based information is provided to utilities and regulators for consideration in relicensing negotiations	0.97 FTE	$ 72,478	0.06%	0.98 FTE	$ 95,450	0.07%	Number of FERC proposal reviews	Executive	Lorianne Riggin (responsible less than 3 years)	Y	Federal Government; State Government; Private Business; Non-Profit Entity;
Objective 5.3.2 - Monitor and review public notices of permit applications submitted to state and federal agencies.	Science-based information is provided to regulators to enable economic development while conserving natural resources	3.80 FTE	$ 456,250	0.35%	3.44 FTE	$ 335,225	0.26%	Number of state and federal environmental reviews (including site visits, permit applications and other state/federal environmental documents)	Executive	Lorianne Riggin (responsible less than 3 years)	Y	Federal Government; State Government; Private Business; Non-Profit Entity;
Objective 5.3.3 - Review proposed wetland mitigation banks and participate on the Interagency Review Team providing input and guidance in the process of permitting mitigation banks.	Science- based information is provided to regulators during development of wetland mitigation banking instruments resulting in protection of natural resources while enabling development	1.13 FTE	$ 131,905	0.10%	1.48 FTE	$ 144,325	0.11%	Number of mitigation bank applications reviewed (including site visits)	Executive	Lorianne Riggin (responsible less than 3 years)	Y	Federal Government; State Government; Private Business; Non-Profit Entity;
Strategy 5.4 - Provide professional engineering services to external and internal customers to insure safe and high quality access for fishing, boating, shooting and other natural resource related activities, and to maintain agency infrastructure and assets.												
Objective 5.4.1 - Design and oversee major maintenance and renovation of existing, as well as construction of new boating access facilities, shooting facilities, and other agency infrastructure and assets statewide.	Improve existing and provide new access to waterways for safe enjoyment of water-based activities by the public	8.00 FTE	$ 1,386,039	1.07%	8.00 FTE	$ 1,556,375	1.20%	Number of public boating access facilities renovated, initiated or completed	Executive	Richard Byrd (responsible more than 3 years)	Y	Federal Government; State Government; Local Government; Private Business; Non-Profit Entity; Individuals
Strategy 5.5 - Serve as the principle source of marketing and information for the natural resources of South Carolina, giving accurate and timely facts on license, seasons, and regulations along with outdoor recreation as it pertains to the state resources.												
Objective 5.5.1 Publish and distribute the South Carolina Wildlife magazine, serving as the voice of natural resources in the state.	Provide information about topics of interest to those that enjoy the natural resources of our state.	4.00 FTE	$ 563,025	0.44%	4.00 FTE	$ 667,569	0.52%	Six issues of SCW per year online digital magazine SCW	Executive	Robert McCullough (responsible for less than 3 years)	Y	Non-profit entity
Objective 5.5.2 Accurately disseminate information on hunting, fishing and boating regulations and new laws as they pertain to the natural resources of South Carolina; inform citizens on the opportunities that are available in the states outdoors, communicate information during natural disasters and emergences to the citizens of South Carolina.	Ensure that hunters and anglers are aware of changes in seasons, regulations, license requirements, deadline, and SCDNR events. Provide education and information on outdoor recreation to include access, regulation, opportunity and how-to information.	15.00 FTE	$ 1,656,839	1.28%	16.00 FTE	$ 1,797,618	1.39%	Regulations Book Continual, accurate information released via press release, media interactions, social media and website Design and publication of informational, educational and promotional materials in various mediums	Executive	Robert McCullough (responsible for less than 3 years)	Y	Federal Government, state government, private business, non-profit entity, media, other
Spent/Transferred not toward Agency's Comprehensive Strategic Plan												
Heritage Trust Bond Payment			$ 1,835,850									

**Note- The Department does not budget or allocate FTEs at the Goal/Strategy/Objective level. The amounts provided are reasonable estimates.

The contents of this chart are considered sworn testimony from the Agency Director.

Agency Name:	SCDNR			Fiscal Year 2016-17
				Accountability Report
Agency Code:	P240	Section:	047	Report Template

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
1	Final Technical Report	US Geological Survey	Federal	Annually	September 30, 2016	Annual report detailing STATEMAP mapping results	on file USGS and SCDNR-Geological Survey	
2	Technical Report	Bureau of Ocean Energy Management (BOEM)	Federal	Quarterly	September 1, 2016	Quarterly report to BOEM on Sand Resource Inventory Project	on file BOEM and SCDNR-Geological Survey	
3	Summary report	Bureau of Ocean Energy Management (BOEM)	Federal	Annually	September 1, 2016	Final Report to BOEM on Sand Resource Inventory Project	on file BOEM and SCDNR-Geological Survey	
4	Accountability Report	Department of Administration, Executive Budget Office	State	Annually	September	Program performance, expenditure data and interaction with other entitles to accomplish results	Information is available on the SCDOA website at http://www.admin.sc.gov/budget/agency-accountability-reports	
5	Broad River Basin Fisheries Mitigation Trust Fund Annual Report	Duke Energy, SCE&G, Lockhart Power, and Federal Energy Regulatory Commission	Outside Organization	Annually	October 1, 2015	Expenditures and results of the projects approved from the mitigation account.	Request to Department- FERC	
6	Buzzards Roost Fisheries Mitigation Trust Fund Annual Progress Report	Greenwood County and Federal Energy Regulatory Commission	Outside Organization	Annually	October 1, 2015	Expenditures and results of the projects approved from the mitigation account.	Request to the Department- FERC	
7	Annual Wild Turkey Study	Senate Fish Game & Forestry Committee and House Agriculture, Natural Resources & Environmental Affairs Committee	State	Annually	October 1, 2015	To measure the impact of Act 41 of 2015 on the state's wild turkey population	Request to Department	
8	Hunting and Fishing License Certification	US Fish and Wildlife Service	Federal	Annually	September	Number of individuals that paid for hunting and fishing licenses for prior FY. Number of hunting and fishing licenses, permits stamps and tags issued for prior FY. The report is a portion of the formula for allocating Wildlife and Sportfish Restoration federal aid to states and territories.	Information is available on the USFWS website at https://www.fws.gov/	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
9	Indirect Cost Recovery Proposal	Department of Administration, Executive Budget Office	State	Annually	November	Direct and indirect costs for department operations, allocation from the approved Statewide Cost Allocation Plan, and proposed Wildlife and Sportfish Restoration federal aid allocation for the coming FY. The proposal is used to determine a rate to apply allowable administrative costs to federal grants in a consistent, reasonable, and auditable manner.	Request to Department	
10	Energy Report	South Carolina Energy Office	State	Monthly	n/a	Electric, natural gas and water consumption. Data is used to track progress meeting State Energy Plan goals.	Information is available on the SCEO website at http://www.energy.sc.gov/edata	
11	Civil Rights Review Audit	USFWS audited the agency and produced the report	Federal	Every 5 years	n/a	USFWS conducted a Civil Rights Review to ensure equal access to our programs and facilities on the basis of race, color, national origin, age, sex, language, and disability.	Request to the SCDNR Audits Manager	
12	Cooperating Technical Partners Audit	FEMA audited the agency and produced the report	Federal	Every 5 years	n/a	FEMA conducted a programmatic review of our management of federal funds received as part of the Cooperating Technical Partners (CPT) program.	Request to the SCDNR Audits Manager	
13	Wildlife and Sportfish Restoration Program Audit	The Department of Interior (DOI)'s Office of Inspector General audited the agency and produced the report	Federal	Every 5 years	n/a	DOI conducted a programmatic review of our management of federal funds received as part of the Wildlife and Sportsfish Restoration program.	Request to the SCDNR Audits Manager	
14	State OHR Review	State OHR reviewed the agency and produced the report	State	Upon request	n/a	State Human Resources Division conducted an independent review of personnel actions for procedural correctness to ensure compliance with HR Regulations.	Request to the SCDNR Human Resources Director	
15	State OHR Delegated Transactions Audit	State OHR audits the agency and produced the report	State	Upon Request	n/a	State Human Resources Division conducted an independent audit of delegated transactions.	Request to the SCDNR Human Resources Director	
16	End of Year Inventory Audit	SCDNR Audits Manager	State	Annually	July each year	Audits Manager conducts an audit of the inventory items of the agency to verify the balances reported in our year-end closing package.	Request to the SCDNR Audits Manager	
17	Procurement Card Audits	SCDNR Audits Manager	State	Periodic	n/a	Audits Manager conducts an audit of a sample of agency procurement card purchases in the month selected.	Request to the SCDNR Audits Manager	
18	Expanding living shorelines within the ACE Basin NERR (NA09NOS4190153)	NOAA NERRS Science Collaborative	Federal	n/a	8/15/2015	Final report	By request, Kingsleysmithp@dnr.sc.gov	Leffler, J.W., Kingsley-Smith, P.R. & Keppler, B.

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors

400	Final Report Wildlife Restoration Bird Conservation	US Fish and Wildlife Service	Federal	Annually	42185	Coordination and collaboration with internal and external partners to implement land bird objectives outlined in the State Wildlife Action Plan at state and regional scales were summarized.	Request to SCDNR WFF Bird Conservation Coordinator	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
401	Final Report Wildlife Restoration Bird Conservation	US Fish and Wildlife Service	Federal	Annually	42551	Coordination and collaboration with internal and external partners to implement land bird objectives outlined in the State Wildlife Action Plan at state and regional scales were summarized.	Request to SCDNR WFF Bird Conservation Coordinator	
402	Daily survival rate and habitat characteristics of nests of Wilson's Plover	Southeast Naturalist	Outside Organization	Once	42750	Assessed habitat characteristics and measured daily survival rate of 72 nests of Charadrius wilsonia (Wilson's Plover) during 2012 and 2013 on South Island and Sand Island on the Yawkey Center.	Available at: http://pjodice.people.clemson.edu/publications.html	
403	Exploring Differences in Adult Survival and Site Fidelity of Migratory and Non-Migratory Populations of American Oystercatchers (Haematopus palliatus)	Waterbirds	Outside Organization	Once	42280	Modeled 8 years of mark-resight data from three breeding populations of American oystercatchers with varying migration strategies (migratory: Massachusetts and New Jersey; non-migratory: South Carolina). This model estimated adult survival and site fidelity at each site.	Available at: http://www.bioone.org/doi/full/10.1675/063.040.sp105	
404	Assessing conservation tools for an at-risk shorebird: Feasibility of headstarting for American Oystercatchers Haematopus palliatus	Bird Conservation International	Outside Organization	Once	41919	Assessed the feasibility of implementing a headstarting program for the American Oystercatcher. Used a control-impact approach to assign nests as either control or headstart and measured daily survival rate, success of parents accepting headstarted chicks, attendance patterns and behaviours of parents, and chick survival.	Available at: http://amoywg.org/references/	
405	Monthly abundance and seasonal spatial distribution of shorebirds in Cape Romain National Wildlife Refuge, South Carolina	The Chat	Outside Organization	Once	42019	Summary of shorebird surveys in Cape Romain Region from 2007 - 2010.	https://www.carolinabirdclub.org/chat/issues/	
406	Encounters of Royal Terns (Thalasseus maximus) Banded in South Carolina	Southeast Naturalist	Outside Organization	Once	42019	Encounters of Thalasseus maximus (Royal Terns) (n = 1387) banded as chicks in South Carolina were used to expand our knowledge regarding winter and migration sites of immature and mature birds, to identify causes of mortality, and to examine natal-site fidelity.	Request to SCDNR WFF Bird Conservation Coordinator	
407	Circulating Fat-Soluble Vitamin Concentrations and Nutrient Composition of Aquatic Prey Eaten by American Oystercatchers (Haematopus palliatus palliatus) in the Southeastern United States	Journal of Avian Medicine and Surgery	Outside Organization	Once	41654	Because nutritional status directly impacts overall health and reproduction of individuals and populations, adequate management of a wildlife population requires intimate knowledge of a species' diet and nutrient requirements. Fat-soluble vitamin concentrations in blood plasma obtained from American oystercatchers and proximate, vitamin, and mineral composition of various oystercatcher prey species were determined as baseline data to assess nutritional status and nutrient supply.	Available at: http://pjodice.people.clemson.edu/publications.html	
408	Reproductive ecology of American Oystercatchers nesting on shell rakes	The Condor	Outside Organization	Once	41654	Measured daily survival rates of American oystercatchers during incubation and chick rearing in shell rake habitats over five breeding seasons in the Cape Romain Region.	Available at: http://amoywg.org/references/	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
409	Daily survival rate for nests of Black Skimmers from a core breeding area of the southeastern USA	The Wilson Journal of Ornithology	Outside Organization	Once	41654	Little is known about the reproductive success of Black Skimmers (Rynchops niger) throughout the southeastern USA where availability of undisturbed beaches for nesting is limited. Daily survival rates (DSR) of nests were examined at three nesting sites in Cape Romain National Wildlife Refuge (CRNWR), South Carolina, USA, 2009–2010.	Available at: http://pjodice.people.clemson.edu/publications.html	
410	American oystercatcher winter roosting and foraging ecology at Cape Romain, South Carolina	Wader Study Group Bull	Outside Organization	Once	41289	American Oystercatcher (Haematopus palliatus) foraging areas, roost sites (diurnal and nocturnal) and prey items were identified in the Cape Romain Region.	Available at: http://amoywg.org/references/	
411	Daily survival rate for nests and chicks of Least Terns (Sternula antillarum) at natural nest sites in South Carolina	Waterbirds	Outside Organization	Once	41289	Daily survival rate (DSR) of least tern nests and chicks was examined at four natural nesting sites in Cape Romain National Wildlife Refuge 2009-2010.	Available at: http://pjodice.people.clemson.edu/publications.html	
412	Abundance and distribution of Wilson's Plovers during the breeding season in South Carolina	The Chat	Outside Organization	Once	41122	Suitable nesting habitat on the beaches of South Carolina was surveyed for breeding Wilson's Plovers for the first time between 2009–2012. A mean of 376 pairs were recorded in South Carolina with 29% on private land and 71% on public land.	Available at: https://www.carolinabirdclub.org/chat/issues/	
413	Range-wide patterns of migratory connectivity in the western sandpiper Calidris mauri	Journal of Avian Biology	Outside Organization	Once	41122	Understanding the population dynamics of migratory animals and predicting the consequences of environmental change requires knowing how populations are spatially connected between different periods of the annual cycle. We used stable isotopes to examine patterns of migratory connectivity across the range of the western sandpiper Calidris mauri.	Available at: http://www.sfu.ca/biology/wildberg/papers/Franksetal2012JAB.pdf	
414	Interim Report Advancing Flyway Conservation of American Oystercatchers in South Carolina	National Fish and Wildlife Foundation	Federal	Annually	42278	Increase protection of nesting American oystercatcher and conspecific beach bird nesting species in South Carolina by posting nesting sites, monitoring nests, identifying impacts of predators and to promote outreach and beach bird nesting awareness	Request to SCDNR WFF Bird Conservation Coordinator	
415	Final Report Advancing Flyway Conservation of American Oystercatchers in South Carolina	National Fish and Wildlife Foundation	Federal	Annually	42491	Increase protection of nesting American oystercatcher and conspecific beach bird nesting species in South Carolina by posting nesting sites, monitoring nests, identifying impacts of predators and to promote outreach and beach bird nesting awareness	Request to SCDNR WFF Bird Conservation Coordinator	
416	Final Report Satellite Tracking of the Endangered Wood Stork in the Southeastern US	US Fish and Wildlife Service	Federal	Annually	41624	Summary of satellite transmitter data collected from nine wood storks that were tagged in South Carolina. Analysis was conducted by University of Florida researchers.	Request to SCDNR WFF Bird Conservation Coordinator	
417	Interim Report Aquatic Vegetation Control at Wood Stork Colonies	US Fish and Wildlife Service	Federal	Annually	41547	Summary of herbicide treatments in wood stork rookeries on private lands.	Request to SCDNR WFF Bird Conservation Coordinator	
418	Interim Report Aquatic Vegetation Control at Wood Stork Colonies	US Fish and Wildlife Service	Federal	Annually	41912	Summary of herbicide treatments in wood stork rookeries on private lands.	Request to SCDNR WFF Bird Conservation Coordinator

651	Lake Russell Tailrace Creel Survey Reports	US Army Corps	Federal	Annual Progress	March Annually (2014-2018)	Annual Progress Reports for Lake Russell Recreational Fishery	Request to SCDNR Chief of Fisheries Office	
652	SCDNR Coloring Book	SCDNR	State	as needed	2012	agency wide coloring book featuring fisheries	no longer in print, when available at regional offices and outreach events	
653	Beginner's Guide to Fishing	SCDNR	State	as needed	as needed	guide book describing angling skills	all regional offices, public outreach events, or by request to Aquatic Education to be sent via mail and web: http://www.dnr.sc.gov/aquaticed/pdf/FishingGuide.pdf	
654	Freshwater Fish ID Guide	SCDNR	State	as needed	as needed	detailed species descriptions and information	regional offices, outreach events, via mail by request to Aquatic Education coordinator, online: http://www.dnr.sc.gov/aquaticed/pdf/FreshwaterFishPocketGuide.pdf	
655	St. Stephens Fish Lift Updates	USACE	Federal		2013-2015	Posters, displays, signage, history	visiting St. Stephens Fish Lift	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
656	Freshwater Fish Chart	SCDNR	State	as needed	Printed Annually, as needed	mini-poster with common freshwater fishes of South Carolina	regional offices, outreach events, via mail by request to Aquatic Education coordinator by writing to AquaticEd@dnr.sc.gov or calling 803-737-8483, and online: http://www.dnr.sc.gov/education/pdf/FreshwaterFishIdentificationPoster.pdf	
657	Freshwater Fish Ruler	SCDNR	State	June-August	Printed Annually in August	adhesive ruler with species specific regulations including locations at legal length limits	regional offices, outreach events, and via mail by request to Aquatic Education coordinator	
658	Pond Management Guide	SCDNR	State	as needed	2014	guide book on managing ponds for recreational fishing	regional offices, outreach events, via mail by request to Aquatic Education coordinator by writing to AquaticEd@dnr.sc.gov or calling 803-737-8483, and online: http://dnr.sc.gov/fish/pdf/pondmanagement.pdf	
659	Tackle Loaner Flyer	SCDNR	State	as needed	2012 and as needed	map detailing tackle loaner sites and general program information	no longer in print, when available at regional offices and outreach events	
660	Trout Fishing Guide	SCDNR	State	as needed	2013	guide book on trout fishing tactics and detailed maps including directions to public access sites	Clemson office, Columbia offices, outreach events, via mail by request to Aquatic Education coordinator by writing to AquaticEd@dnr.sc.gov or calling 803-737-8483, and online: http://www.dnr.sc.gov/fish/pdf/TroutBook.pdf	
661	Certified Fishing Instructor Materials	SCDNR	State	as needed	2013	Brochure for instructor recruitment, Handbook for trained instructors	brochure- all regional offices, outreach events; handbook- after attending workshop	
662	Hatchery needs	SCDNR	State	as needed	periodic, as needed	Posters, displays, signage, history, brochure for all 5 Freshwater Fisheries hatcheries	most by visiting hatchery, all brochures online: http://hatcheries.dnr.sc.gov/	
663	Non-game Fishing Flyer	SCDNR	State	as needed	Printed Annually	details on regulations regarding non-game devices	delivered via mail after purchasing a non-game tag	
664	Chapter 13		State	updated annually	July or August annually	current regulations for game and non-game, detailed species descriptions	in print- staff only; web version: http://dnr.sc.gov/fishregs/pdf/PublicGuideChapter13.pdf	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
665	Bass Fishing Brochure and Club Handbook	SCDNR	State	as needed	2012-2013	guide book with resources and details to help schools starting new fishing teams	print and mailed by request to Aquatic Education Coordinator by writing to AquaticEd@dnr.sc.gov or calling 803-737-8483, and online: http://dnr.sc.gov/aquaticed/youthbass/pdf/YouthBassFishingHandbook.pdf	
666	Reel Art Application and Brochure	SCDNR	State	discontinued	2013	brochure featuring Reel Art program including application to participate	no longer in print, when available at regional offices and outreach events	
667	Striped Bass tagging Study Poster	SCDNR	State	as needed	2013	details on study background and what to do if a fish is caught that has tags	public landings and access points, relevant regional offices	
668	Aquatic Education Brochure	SCDNR	State	periodic, as needed	2013	generic brochure with information about aquatic education programs and opportunities	regional offices, outreach events, and via mail by request to Aquatic Education coordinator	
669	Reel Art Calendar	SCDNR	State	once	2017	Featuring art from program with submissions from last 12 years	Palmetto Sportsman's Classic 2017 and online: http://www.dnr.sc.gov/aquaticed/reelart/pdf/2017ReelArtCalendar.pdf	
670	Rodeo and Clinic Schedule	SCDNR	State	as needed	2016-2017	details on the planned fishing opportunities	Palmetto Sportsman's Classic 2016 & 2017, main office, and outreach events	
671	Trout in the Classroom Guide	SCDNR	State	as needed	2012	guide for teachers participating in the program	During workshop and online: http://www.dnr.sc.gov/education/pdf/TroutClassroomGuide.pdf	
672	Shad & Herring Flyer	SCDNR	State	as needed	2012	updates on statutory changes	commercial fisherman, access points, relevant regional offices	
673	Statutory Changes	SCDNR	State	as needed		Signage detailing changes or updates in laws	public landings and access points, regional offices	
674	My First Fish	SCDNR	State	as needed	2015	certificate in English and Spanish for first time anglers	Online only: http://www.dnr.sc.gov/aquaticed/pdf/FirstFishCertificate.pdf	
675	Florence Office Fisheries Display	SCDNR	State	as needed	2016	display case featuring projects, species information and careers in fisheries	visiting Florence office

726	Proposal for WNS State Support Grant SC-E-F16AS00159	US Fish and Wildlife Service	Federal	Annually	42705	WNS Grants to States (WNS State Support) [2016] 15.657 -- Endangered Species Conservation - Recovery Implementation Funds	on file with USFWS, SWAP Coordinator at SCDNR (Anna Smith 843-214-0092)	
727	Reverted Section 6 Funding USFWS grant F15AC00804	US Fish and Wildlife Service	Federal	Annually	42807	Using occupancy models and historical breeding locations to quantify Gopher frog	proposal on file with USFWS, SWAP Coordinator at SCDNR (Anna Smith 843-214-0092), and grant PI	
728	Interim and Final Reports for FLP Admin grant 12-DG-11083145-003	US Forest Service	Federal	Annually	41182	Annual Accomplishment Report (each year from inception to close)	all related reports on file with USFS, FLP Coordinator at SCDNR (Anna Smith 843-214-0092)	
729	Interim and Final Reports for FLP Admin grant 13-DG-11083145-003	US Forest Service	Federal	Annually	41547	Annual Accomplishment Report (each year from inception to close)	all related reports on file with USFS, FLP Coordinator at SCDNR (Anna Smith 843-214-0092)	
730	Interim and Final Reports for FLP Admin grant 14-DG-11083150-022	US Forest Service	Federal	Annually	41912	Annual Accomplishment Report (each year from inception to close)	all related reports on file with USFS, FLP Coordinator at SCDNR (Anna Smith 843-214-0092)	
731	Interim and Final Reports for FLP Admin grant 15-DG-11083150-001	US Forest Service	Federal	Annually	42277	Annual Accomplishment Report (each year from inception to close)	all related reports on file with USFS, FLP Coordinator at SCDNR (Anna Smith 843-214-0092)	
732	Interim Reports for FLP Admin grant 16-DG-11083150-003	US Forest Service	Federal	Annually	42643	Annual Accomplishment Report (each year from inception to close)	all related reports on file with USFS, FLP Coordinator at SCDNR (Anna Smith 843-214-0092)	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
733	Forest Legacy Program (FLP) Grant [FY2015]	US Forest Service	Federal	Once	42580	Liberty Hill Project (South Tract)	proposal, interim report, and final report on file with USFS (FLIS), FLP Coordinator at SCDNR (Anna Smith 843-214-0092)	
734	Forest Legacy Program (FLP) Grant [FY2016]	US Forest Service	Federal	Once	42941	Chestnut Ridge Extension Project (Morgan Family Tract)	proposal, interim report, and final report on file with USFS (FLIS), FLP Coordinator at SCDNR (Anna Smith 843-214-0092)	
735	FLP Easement Monitoring	US Forest Service	Federal	Annually	42852	Mead Family Tracts ["Private Tract"] annual monitoring reports (11/16/12, 1/22/14, 1/7/15, 2/16/16, 4/27/17)	on file with USFS, FLP Coordinator at SCDNR (Anna Smith 843-214-0092)	
736	FLP Easement Monitoring	US Forest Service	Federal	Annually	42864	Edisto Easement monitoring reports (12/3/12, 1/24/14, 1/20/15, 1/19/16, 5/9/17)	on file with USFS, FLP Coordinator at SCDNR (Anna Smith 843-214-0092)	
737	National Coastal Wetlands Conservation Grant	US Fish and Wildlife Service	Federal	Once	41799	Baxter Tract (later repurposed to South Fenwick Phase II)	proposal on file with USFWS, SWAP Coordinator at SCDNR (Anna Smith 843-214-0092), and grant PI	
738	National Coastal Wetlands Conservation Grant	US Fish and Wildlife Service	Federal	Once	42177	South Fenwick (Phase I)	proposal on file with USFWS, SWAP Coordinator at SCDNR (Anna Smith 843-214-0092), and grant PI	
739	National Coastal Wetlands Conservation Grant	US Fish and Wildlife Service	Federal	Once	42907	Santee Coastal Reserve Wetlands Restoration Project	proposal on file with USFWS, SWAP Coordinator at SCDNR (Anna Smith 843-214-0092), and grant PI	
740	South Carolina Conservation Bank Grant (SCCB)	SC Conservation Bank	State	Once	41529	Liberty Hill Phase I: Land Acquisition for Wildlife Habitat	proposal on file with SCCB and SCDNR (Anna Smith 843-214-0092)	
741	South Carolina Conservation Bank Grant (SCCB)	SC Conservation Bank	State	Once	42031	Hannahan Tract	proposal on file with SCCB and SCDNR (Anna Smith 843-214-0092)	
742	South Carolina Conservation Bank Grant (SCCB)	SC Conservation Bank	State	Once	42031	South Fenwick Properties	proposal on file with SCCB and SCDNR (Anna Smith 843-214-0092)	
743	South Carolina Conservation Bank Grant (SCCB)	SC Conservation Bank	State	Once	42208	Chestnut Ridge Extension	proposal on file with SCCB and SCDNR (Anna Smith 843-214-0092)	
744	South Carolina Conservation Bank Grant (SCCB)	SC Conservation Bank	State	Once	42216	Baxter Tract (later repurposed to South Fenwick Phase II)	proposal on file with SCCB and SCDNR (Anna Smith 843-214-0092)	
745	One-page informational flyer	SCDNR	State	Once	42156	"What you can do to help implement SC's State Wildlife Action Plan" - bulleted items addressing citizen science/volunteer ideas to help SGCN; passed out to school groups and on brochure rack at Dennis Wildlife Center	copy of flyer on file with SWAP Coordinator at SCDNR (Anna Smith 843-214-0092)	
746	Final Technical Report	US Geological Survey	Federal	Annually	2013-2017	Annual report detailing STATEMAP mapping results	on file USGS and SCDNR-Geological Survey	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
747	Technical Report	Bureau of Ocean Energy Management (BOEM)	Federal	Quarterly	2014-2016	Quarterly reports to BOEM on Sand Resource Inventory Project-Phase I	on file BOEM and SCDNR-Geological Survey	
748	Summary report	Bureau of Ocean Energy Management (BOEM)	Federal	Annually	September 1, 2016	Final Report to BOEM on Sand Resource Inventory Project-Phase I	on file BOEM and SCDNR-Geological Survey	
749	Technical Report	Bureau of Ocean Energy Management (BOEM)	Federal	Quarterly	2016-2017	Quarterly reports to BOEM on Sand Resource Inventory Project-Phase II	on file BOEM and SCDNR-Geological Survey	
750	Technical Report	Environmental Protection Agency (EPA)	Federal	Quarterly	2017	Quarterly reports to EPA on InSAR Study of Land Subsidence around Georgetown	on file EPA and SCDNR-Geological Survey	
751	Final Data Development through Web Portal	Governors' South Atlantic Alliance (GSAA)	Outside Organization	Once	2015	Final Data Deliverables for Governors' South Atlantic Alliance-Coastal Hazard Vulnerability Assessment	http://www.gsaaportal.org/explore/catalog	
752	Final Technical Report	Broad River Mitigation Trust Fund	Outside Organization	Once	April 1, 2016	Developing Sediment Management Guidelines to Enhance Habitat and Aquatic Resources in the Broad River Basin, South Carolina-Final Report to Broad River Mitigation Trust Fund	on file SCDNR-Geological Survey	
753	Peer-reviewed Technical Paper	SCDNR-Geological Survey Publication	State	Once	2017	Sediment source identification and load prediction in a mixed-use Piedmont watershed, South Carolina	http://dx.doi.org/10.1016/j.jenvman.2016.10.036	
754	Peer-reviewed Technical Papers Published by SCDNR-Geological Survey	SCDNR-Geological Survey Publication	State	Once	2012	South Carolina Geology, Volume 48	http://dnr.sc.gov/geology/publications.htm#vol48	
755	Peer-reviewed Technical Papers Published by SCDNR-Geological Survey	SCDNR-Geological Survey Publication	State	Once	2016	South Carolina Geology, Volume 49	http://dnr.sc.gov/geology/publications.htm#vol49	
756	Annual Geologic Field Trip Guidebook	Carolina Geological Society (CGS)	State	Once	2015	Carolina Geological Society Annual Field Trip Guidebook	http://www.arcgis.com/apps/MapSeries/index.html?appid=8e44b2c5b05e499ab7d3ac86ee683b8e	
757	Final Technical Report	The Nature Conservancy (TNC)	State	Once	2017	TNC Church Creek Living Shoreline Monitoring Project Report. Final report by SCDNR – Geological Survey	on file SCDNR-Geological Survey	
758	Geologic Quadrangle Map, GQM-53	SCDNR-Geological Survey Publication	State	Once	2012	Geologic Map of the Georgetown South 7.5-minute quadrangle, Georgetown County, South Carolina	http://dnr.sc.gov/geology/publications	
759	Geologic Quadrangle Map, GQM-54	SCDNR-Geological Survey Publication	State	Once	2016	Geologic Map of the Winnsboro Mills 7.5-minute quadrangle, Fairfield County, South Carolina	http://dnr.sc.gov/geology/publications	
760	Map Series, MS-29	SCDNR-Geological Survey Publication	State	Once	2016	Geologic Map of the Richtex and Irmo Northeast quadrangles, Richland and Fairfield Counties, South Carolina	http://dnr.sc.gov/geology/publications	
761	Open-File Report, OFR-199	SCDNR-Geological Survey Publication	State	Once	2012	Geologic Map of the Blue Springs Landing Quadrangle, Allendale and Hampton Counties, South Carolina	http://dnr.sc.gov/geology/publications	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
762	Open-File Report, OFR-200	SCDNR-Geological Survey Publication	State	Once	2012	Geologic Map of the Shirley Quadrangle, Hampton County, South Carolina	http://dnr.sc.gov/geology/publications	
763	Open-File Report, OFR-201	SCDNR-Geological Survey Publication	State	Once	2012	Geologic Map of the Furman Quadrangle, Hampton and Jasper Counties, South Carolina	http://dnr.sc.gov/geology/publications	
764	Open-File Report, OFR-202	SCDNR-Geological Survey Publication	State	Once	2012	Geologic Map of the Rockville Quadrangle, Charleston County, South Carolina	http://dnr.sc.gov/geology/publications	
765	Open-File Report, OFR-203	SCDNR-Geological Survey Publication	State	Once	2012	Geologic Map of the Hardeeville NW Quadrangle, Jasper County, South Carolina	http://dnr.sc.gov/geology/publications	
766	Open-File Report, OFR-204	SCDNR-Geological Survey Publication	State	Once	2012	Geologic Map of the Tillman Quadrangle, Jasper County, South Carolina	http://dnr.sc.gov/geology/publications	
767	Open-File Report, OFR-205	SCDNR-Geological Survey Publication	State	Once	2012	Geologic Map of the Ridgeland Quadrangle, Jasper County, South Carolina	http://dnr.sc.gov/geology/publications	
768	Open-File Report, OFR-206	SCDNR-Geological Survey Publication	State	Once	2012	Geologic Map of the Laurel Bay Quadrangle, Beaufort and Jasper Counties, South Carolina	http://dnr.sc.gov/geology/publications	
769	Open-File Report, OFR-207	SCDNR-Geological Survey Publication	State	Once	2014	Geologic Map of the Georgetown North Quadrangle, Georgetown County, South Carolina	http://dnr.sc.gov/geology/publications	
770	Open-File Report, OFR-208	SCDNR-Geological Survey Publication	State	Once	2014	Geologic Map of the Bucksville Quadrangle, Horry County, South Carolina	http://dnr.sc.gov/geology/publications	
771	Open-File Report, OFR-209	SCDNR-Geological Survey Publication	State	Once	2014	Geologic Map of the Myrtle Beach Quadrangle, Horry County, South Carolina	http://dnr.sc.gov/geology/publications	
772	Open-File Report, OFR-210	SCDNR-Geological Survey Publication	State	Once	2014	Geologic Map of the Ocean Forest Quadrangle, Horry County, South Carolina	http://dnr.sc.gov/geology/publications	
773	Open-File Report, OFR-211	SCDNR-Geological Survey Publication	State	Once	2014	Geologic Map of the St. Matthews Quadrangle, Calhoun County, South Carolina	http://dnr.sc.gov/geology/publications	
774	Open-File Report, OFR-212	SCDNR-Geological Survey Publication	State	Once	2014	Geologic Map of the Cameron Quadrangle, Calhoun and Orangeburg Counties, South Carolina	http://dnr.sc.gov/geology/publications	
775	Open-File Report, OFR-213	SCDNR-Geological Survey Publication	State	Once	2014	Geologic Map of the Orangeburg North Quadrangle, Calhoun and Orangeburg Counties, South Carolina	http://dnr.sc.gov/geology/publications	
776	Open-File Report, OFR-214	SCDNR-Geological Survey Publication	State	Once	2015	Geologic Map of the Hand Quadrangle, Horry County, South Carolina	http://dnr.sc.gov/geology/publications	
777	Open-File Report, OFR-215	SCDNR-Geological Survey Publication	State	Once	2015	Geologic Map of the Wampee Quadrangle, Horry County, South Carolina	http://dnr.sc.gov/geology/publications	
778	Open-File Report, OFR-216	SCDNR-Geological Survey Publication	State	Once	2015	Geologic Map of the Little River Quadrangle, Horry County, South Carolina	http://dnr.sc.gov/geology/publications	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
779	Open-File Report, OFR-217	SCDNR-Geological Survey Publication	State	Once	2015	Geologic Map of the Privateer Quadrangle, Clarendon and Sumter Counties, South Carolina	http://dnr.sc.gov/geology/publications	
780	Open-File Report, OFR-218	SCDNR-Geological Survey Publication	State	Once	2016	Geologic Map of the Pireway Quadrangle, Horry County, South Carolina	http://dnr.sc.gov/geology/publications	
781	Open-File Report, OFR-219	SCDNR-Geological Survey Publication	State	Once	2016	Geologic Map of the Longs Quadrangle, Horry County, South Carolina	http://dnr.sc.gov/geology/publications	
782	Open-File Report, OFR-220	SCDNR-Geological Survey Publication	State	Once	2016	Geologic Map of the Calabash Quadrangle, Horry County, South Carolina	http://dnr.sc.gov/geology/publications	
783	Open-File Report, OFR-221	SCDNR-Geological Survey Publication	State	Once	2016	Geologic Map of the Sumter West Quadrangle, Sumter County, South Carolina	http://dnr.sc.gov/geology/publications	
784	Open-File Report, OFR-222	SCDNR-Geological Survey Publication	State	Once	2016	Geologic Map of the Richtex Quadrangle, Richland and Fairfield Counties, South Carolina	http://dnr.sc.gov/geology/publications	
785	Open-File Report, OFR-223	SCDNR-Geological Survey Publication	State	Once	2016	Geologic Map of the Irmo Northeast Quadrangle, Richland and Fairfield Counties, South Carolina	http://dnr.sc.gov/geology/publications	
786								
787	Establishment of a Permanent Groundwater Monitoring Station in Sumter County, South Carolina	DHEC	State	Once	1/31/2017	Five monitoring wells were constructed near the Sumter Municipal Airport to monitor groundwater levels in the area.	Request to SCDNR Hydrology Section	
788	Evaluation of the Middle Floridan Aquifer in Hampton and Jasper Counties, South Carolina	DHEC	State	Once	1/31/2017	Aquifer tests were made of three Middle Floridan aquifer wells to determine transmissivity and hydraulic conductivity of the aquifer.	Request to SCDNR Hydrology Section	
789	Evaluation of Water Quality in the Salinity Intrusion Well Network, South Carolina	DHEC	State	Once	1/31/2017	Eleven wells along the coast were sampled to determine the chemical characteristics of the groundwater.	Request to SCDNR Hydrology Section	
790	Expansion of Telemetry Systems for Improved Drought Assessment	DHEC	State	Once	1/31/2017	One telemetry system used to transmit groundwater levels in real time was installed in a shallow well in Jasper County.	Request to SCDNR Hydrology Section	
791	Integrating Data from the South Carolina Department of Natural Resources into the National Ground-Water Monitoring Network	USGS	Federal	Once	12/16/2016	The groundwater-level database at DNR was linked and integrated with the National Ground-Water Monitoring network maintained by the USGS.	Request to SCDNR Hydrology Section	
792	Potentiometric Surface of the Black Creek (Crouch Branch) Aquifer in South Carolina, November 2015	SCDNR - Hydrology Section	State	Once	5/17/2016	A record and map of groundwater levels in the Black Creek aquifer measured statewide in November 2015.	http://www.dnr.sc.gov/water/hydro/publications.html	
793	Potentiometric Surface of the Middendorf Aquifer in South Carolina, November 2014	SCDNR - Hydrology Section	State	Once	6/1/2015	A record and map of groundwater levels in the Middendorf aquifer measured statewide in November 2014.	http://www.dnr.sc.gov/water/hydro/publications.html	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
794	South Carolina DNR Groundwater Monitoring Network Status Report – July 2009 through June 2014	SCDNR - Hydrology Section	State	Once	10/27/2014	A status report of the DNR groundwater monitoring network from July 2009 through June 2014. The report details new wells added to the network.	http://www.dnr.sc.gov/water/hydro/publications.html	
795	Potentiometric Surface of the Floridan and Tertiary Sand Aquifers in South Carolina, November 2013	SCDNR - Hydrology Section	State	Once	7/11/2014	A record and map of groundwater levels in the Floridan and Tertiary Sand aquifers measured statewide in November 2013.	http://www.dnr.sc.gov/water/hydro/publications.html	
796	Potentiometric Surface of the Black Creek Aquifer in South Carolina, November 2012	SCDNR - Hydrology Section	State	Once	11/18/2013	A record and map of groundwater levels in the Black Creek aquifer measured statewide in November 2012.	http://www.dnr.sc.gov/water/hydro/publications.html	
797	Potentiometric Surface of the Middendorf Aquifer in South Carolina, November 2011	SCDNR - Hydrology Section	State	Once	4/9/2014	A record and map of groundwater levels in the Middendorf aquifer measured statewide in November 2011.	http://www.dnr.sc.gov/water/hydro/publications.html	
798	Groundwater Levels in South Carolina, 2006-2010	SCDNR - Hydrology Section	State	Once	4/25/2012	A report documenting the DNR groundwater monitoring network and groundwater levels from 2006-2010.	http://www.dnr.sc.gov/water/hydro/publications.html	
799	Savannah River Basin SWAM Model Report	CDM Smith	Outside Organization	Once	6/13/2017	A report summarizing the model framework, input data, and calibration of the Savannah River basin SWAM model.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
800	Unimpaired Flow Dataset for the Savannah River Basin	CDM Smith	Outside Organization	Once	5/15/2017	A report documenting the results of calculating unimpaired streamflow data for the Savannah River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
801	Santee River Basin SWAM Model Report	CDM Smith	Outside Organization	Once	3/15/2017	A report summarizing the model framework, input data, and calibration of the Santee River basin SWAM model.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
802	Catawba-Wateree River Basin SWAM Model Report	CDM Smith	Outside Organization	Once	3/4/2017	A report summarizing the model framework, input data, and calibration of the Catawba-Wateree River basin SWAM model.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
803	Broad River Basin SWAM Model Report	CDM Smith	Outside Organization	Once	2/20/2017	A report summarizing the model framework, input data, and calibration of the Broad River basin SWAM model.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
804	Saluda River Basin SWAM Model Report	CDM Smith	Outside Organization	Once	2/17/2017	A report summarizing the model framework, input data, and calibration of the Catawba-Wateree River basin SWAM model.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
805	Salkehatchie River Basin SWAM Model Report	CDM Smith	Outside Organization	Once	2/15/2017	A report summarizing the model framework, input data, and calibration of the Salkehatchie River basin SWAM model.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
806	Pee Dee River Basin SWAM Model Report	CDM Smith	Outside Organization	Once	2/14/2017	A report summarizing the model framework, input data, and calibration of the Pee Dee River basin SWAM model.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
807	Edisto River Basin SWAM Model Report	CDM Smith	Outside Organization	Once	1/31/2017	A report summarizing the model framework, input data, and calibration of the Edisto River basin SWAM model.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
808	Simplified Water Allocation Model (SWAM) User's Manual v4.0	CDM Smith	Outside Organization	Once	12/8/2016	A user's manual for the Simplified Water Allocation Model (SWAM), which is being used for State water planning efforts.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
809	Unimpaired Flow Methodology and Dataset for the Santee River Basin	CDM Smith	Outside Organization	Once	11/15/2016	A report documenting the methodology and results of calculating unimpaired streamflow data for the Santee River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
810	Unimpaired Flow Development - Savannah River Basin, South Carolina	CDM Smith	Outside Organization	Once	9/6/2016	A report documenting the methodology and results of calculating unimpaired streamflow data for the Savannah River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
811	Unimpaired Flow Dataset for the Broad River Basin	CDM Smith	Outside Organization	Once	7/18/2016	A report documenting the results of calculating unimpaired streamflow data for the Broad River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
812	Unimpaired Flow Methodology and Dataset for the Catawba-Wateree River Basin	CDM Smith	Outside Organization	Once	7/18/2016	A report documenting the methodology and results of calculating unimpaired streamflow data for the Catawba-Wateree River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
813	Savannah River Basin Model Framework	CDM Smith	Outside Organization	Once	7/1/2016	The SWAM model framework showing streamflow gages, water users, dischargers, and hydrology for the Savannah River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
814	Unimpaired Flow Methodology and Dataset for the Salkehatchie River Basin	CDM Smith	Outside Organization	Once	6/27/2016	A report documenting the methodology and results of calculating unimpaired streamflow data for the Salkehatchie River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
815	Salkehatchie River Basin SWAM Model Framework	CDM Smith	Outside Organization	Once	6/3/2016	The SWAM model framework showing streamflow gages, water users, dischargers, and hydrology for the Salkehatchie River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
816	Unimpaired Flow Dataset for the Edisto River Basin	CDM Smith	Outside Organization	Once	5/6/2016	A report documenting the results of calculating unimpaired streamflow data for the Edisto River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
817	Unimpaired Flow Development – Santee River Basin, South Carolina	CDM Smith	Outside Organization	Once	5/2/2016	A report documenting the methodology and results of calculating unimpaired streamflow data for the Santee River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
818	Unimpaired Flow Methodology and Dataset for the Pee Dee River Basin	CDM Smith	Outside Organization	Once	3/30/2016	A report documenting the methodology and results of calculating unimpaired streamflow data for the Pee Dee River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
819	Santee River Basin SWAM Model Framework	CDM Smith	Outside Organization	Once	2/16/2016	The SWAM model framework showing streamflow gages, water users, dischargers, and hydrology for the Santee River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
820	Methodology for Unimpaired Flow Development - Broad River Basin, South Carolina	CDM Smith	Outside Organization	Once	1/15/2016	A report documenting the methodology of calculating unimpaired streamflow data for the Broad River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
821	Pee Dee River Basin SWAM Model Framework	CDM Smith	Outside Organization	Once	10/13/2015	The SWAM model framework showing streamflow gages, water users, dischargers, and hydrology for the Pee Dee River basin	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
822	Catawba-Wateree River Basin SWAM Model Framework	CDM Smith	Outside Organization	Once	10/15/2015	The SWAM model framework showing streamflow gages, water users, dischargers, and hydrology for the Catawba-Wateree River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
823	Unimpaired Flow Dataset for the Saluda River Basin	CDM Smith	Outside Organization	Once	9/14/2015	A report documenting the results of calculating unimpaired streamflow data for the Saluda River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
824	Methodology for Unimpaired Flow Development - Edisto River Basin, South Carolina	CDM Smith	Outside Organization	Once	8/18/2015	A report documenting the methodology for calculating unimpaired streamflow data for the Edisto River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
825	Record Extension Testing of the Unimpaired Flow (UIF) Dataset for the Saluda River Basin	CDM Smith	Outside Organization	Once	7/22/2015	A report describing several techniques for extending unimpaired streamflow data for those gages that have an incomplete record.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	

Item	Report Name	Name of Entity Requesting the Report	Type of Entity	Reporting Frequency	Submission Date (MM/DD/YYYY)	Summary of Information Requested in the Report	Method to Access the Report	Authors
826	Broad River Basin SWAM Model Framework	CDM Smith	Outside Organization	Once	7/15/2015	The SWAM model framework showing streamflow gages, water users, dischargers, and hydrology for the Broad River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
827	Methodology for Developing Historical Surface Water Withdrawals for Agriculture Irrigation	CDM Smith	Outside Organization	Once	7/15/2015	A report documenting the methodology used to estimate historic agricultural water use in the State.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
828	Catawba River Basin Unimpaired Flow Development – Overview of Approach	CDM Smith	Outside Organization	Once	6/10/2015	A report describing how unimpaired flows will be calculated for the Catawba River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
829	Edisto River Basin SWAM Model Framework	CDM Smith	Outside Organization	Once	6/9/2015	The SWAM model framework showing streamflow gages, water users, dischargers, and hydrology for the Edisto River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
830	User-Based vs. Permit-Based SWAM Modeling	CDM Smith	Outside Organization	Once	6/3/2015	A report that provides pros and cons of using a permit-based model versus a user-based model when assigning water use values to a water user object in the SWAM model.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
831	Water User Demands in Baseline SWAM Models	CDM Smith	Outside Organization	Once	6/3/2015	A report documenting the methodology used to estimate baseline water demands in the State.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
832	Evaporation Data and Methodology	CDM Smith	Outside Organization	Once	5/4/2015	A report documenting the methodology used to estimate evaporation from lakes in the State.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
833	Guidelines for Identifying Reference Basins for UIF Extension or Synthesis	CDM Smith	Outside Organization	Once	4/15/2015	A report documenting the methodology used to select reference basins that are used to extend unimpaired flows in gaged basins and to estimate flow in ungaged basins.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
834	Saluda River Basin SWAM Model Framework	CDM Smith	Outside Organization	Once	3/20/2015	The SWAM model framework showing streamflow gages, water users, dischargers, and hydrology for the Saluda River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
835	SWAM Model Accessibility and Deployment Options	CDM Smith	Outside Organization	Once	3/19/2015	A report that provides and describes several options for making the SWAM model accessible to the general public.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
836	Guidelines for Standardizing and Simplifying Operational Record Extension	CDM Smith	Outside Organization	Once	3/15/2015	A report that provides guidelines for filling gaps in operational records of water withdrawals, discharges, and storage.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
837	Methodology for Unimpaired Flow Development – Saluda River Basin, South Carolina	CDM Smith	Outside Organization	Once	1/15/2015	A report documenting the methodology for calculating unimpaired streamflow data for the Saluda River basin.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
838	Options for Adding User Nodes into a SWAM Network	CDM Smith	Outside Organization	Once	1/15/2015	A report that describes how to add a new user node to the SWAM model.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
839	South Carolina Surface Water Quantity Models Modeling Plan	CDM Smith	Outside Organization	Once	11/15/2014	A report that provides guidance for developing surface water models in the State by providing consistent procedures, guidelines, and assumptions that will be applied to each basin model.	http://www.dnr.sc.gov/water/waterplan/surfacewater.html	
840	General Geology Map of South Carolina	Internal - SC Geological Survey	State	Once	November, 2014	A web-based version of SC Geological Survey's General Geology of South Carolina map.	https://scdnr.maps.arcgis.com/apps/Viewer/index.html?appid=735411a2f5714f28a424422296f77bb1	
841	Hurricane Matthew Impacts to South Carolina	Internal - SC Climate Office	State	Once	December, 2016	StoryMap of Hurricane Matthew's meteorology and impact to South Carolina.	http://dnr.sc.gov/matthew2016

Accurate as of August 9, 2017

Department of Natural Resources Board

(Sets policy only, "no duty or authority concerning the management of, control over, or administration of the day to day affairs of the department." S.C. Code 48-4-50)

Note: Organizational units below are reflected in SCEIS' PPOSE screen along with the addition of some specialized programs.

*PSC is Palmetto Sportsmen's Classic. *ACE Basin NERR is the Ashepoo-Combahee-Edisto basin National Estuarine Research Reserve. *Styx is a physical building off Fish Hatchery Road that houses the Law Enforcement (LE) Radio Room (the communication center) as well as the Supply and Receiving for Law Enforcement, as well as some training classrooms, and Region 3 LE office. *EMD is Emergency Management Division.

ACCSP	Atlantic Coastal Cooperative Statistics Program
ACE	Ashepoo-Combahee-Edisto Basin
ACEP	Agricultural Conservation Easement Program (USDA Farm Bill Program)

TG = Temporary Grant
TL = Time Limited

South Carolina Department of Natural Resources
Law Enforcement Division FY 2017

Purpose: Enforcement of recreational and commercial hunting, fishing and boating regulations. Provide educational opportunities to the public in the areas of hunter and boater safety. Administer outreach programs to youth encouraging participation in outdoor sports such as hunting, boating, fishing, shooting sports and archery sports.

Law Enforcement is responsible for patrolling 30,111 square miles of land, 460,000 acres of lakes, 8,000 miles of rivers, and 3,000 miles of coastal waters across SC

FIELD OPERATIONS

- The SCDNR continues as the lead state agency in search and rescue operations, resulting in **11,644** hours conducting SAR missions.
- Law Enforcement Officers documented **30,980** violations resulting in 8,336 summons and 22,644 warnings in FY 16/17.
- Daily patrols resulted in **141,590** fishermen and hunters being checked.
- SCDNR officers provide daily assistance to local law enforcement partners with general calls for service and use of SCDNR K-9 units.
- SC is currently 7th in the nation in registered vessels. Officers spent **52,253** hours on boat patrols. This resulted in 96,211 boats being inspected and issuance of 13,294 summons/warnings for boating violations.
- Collaborated with Land, Water and Conservation Division in the development of flood inundation maps for search and rescue missions.
- LE provided assistance to our federal, state, and local law enforcement partners totaling **24,823** hours during FY 16/17. These details included:
    - Hurricane Matthew evacuation lane reversal – 237 officers deployed.
    - Hurricane Matthew post storm response – 173 officers deployed.
    - Assisted counties with abandoned/damaged vessels post storm. In Beaufort County staff assisted with documenting 65 abandoned vessels and removal of 25 vessels.
    - Memorial Weekend Bike Festival – 96 officers deployed
    - State House Events – 71 officers deployed
        - Black Lives Matter Rally
        - Confederate Flag Detail
        - MLK at the Dome Rally
    - Dive Team assistance for evidence and non-boating related drownings.
- SeaHawk – Intelligence Analyst provided assistance during:
    - Charleston Mother Emanuel AME Church Shooting
    - Civil security during North Charleston PD Officer Slager trial
    - Inclement Weather Interstate Detail – 40 officers deployed

EDUCATION & OUTREACH

- **18,900** students participated in Hunter Education and Boater Education courses.
- SCDNR has the only self-contained Virtual Boating Simulator in the nation. **15,000** people used this equipment at 45 events around SC in 2016.
- Currently there are **50,000** youth involved with our Archery in the Schools Program in over 358 schools across SC.
- SC hosted the NASP World Championship event in Myrtle Beach in which 4,000 youth archers participated.
- Scholastic shooting sports program began in 2015. 525 youth shooters have participated in SCDNR sponsored events with an additional 2,000 people spectating at these events. At just one event this year, approximately 60,000 rounds were spent during competition.
- The Take One Make One program continues to be a success in introducing youth to outdoor sporting opportunities. 65 TOMO hunts were conducted involving 255 participants allowing many youth to harvest their first deer or turkey.
- **23,085** people visited our TOMO trailers at 106 events in 2016.
- The Property Watch Program has currently more than 2,700 property owners or lessees enrolled to combat trespassing on private property across SC.
- Officers conducted 3,161 public presentations regarding hunting, fishing and boating related issues.
- LE regions held 26 youth fishing rodeos across the state with 2,900 youth participating.

EMERGENCY MANAGEMENT/HOMELAND SECURITY

- The SCDNR Emergency Management & Homeland Security section works with other state and local agencies in preparation for natural and man-made disasters.
  - Hurricane evacuation and security deployment plans.
  - Flood response plans.
  - Inclement weather deployment plans.
  - Port of Charleston – Security Project SeaHawk – Intelligence Analyst assists with high level investigations.
  - Nuclear response plans for nuclear facilities in SC Plants include Vogle, Catawba, Oconee and VC Summer.
  - Participated in more than 30 multi-agency Homeland Security Operations this past year.

INVESTIGATIONS

- The SCDNR Investigations section conducted more than 30 fatality investigations on boating or hunting related fatalities.
- During 2016, staff investigated 930 open marine thefts, resulting in 156 criminal cases.
- 140 boating related accidents were investigated.
- In FY 16-17, 629 marine events and 355 marine dealer permits were issued.
- 2,200 boating aids to navigation are inspected annually and maintained across SC.
- 10 Boating Safety Action Force alcohol saturation patrols were conducted resulting in 22 days of specific saturation patrols across SC.
- SCDNR Divers spent 1,904 man hours diving working aquatic investigations and recoveries.

COMMUNICATIONS

- The SCDNR Communications Center is a 24-hour and 365-day manned public safety dispatch center. During 2016, **14,661** calls for service were handled.
  - 861 properties were registered for night hunting during the 2016 four month season.
  - 2,034 Palmetto Pride (Litter Buster) calls were handled in 2016.
  - System maintenance of 21 repeater towers, 46 control stations, and 8 master sites are handled internally by the communications manager.
  - Almost 3,000 radios are maintained in vehicles, vessels, hand-held portables and aircraft internally.

TRAINING

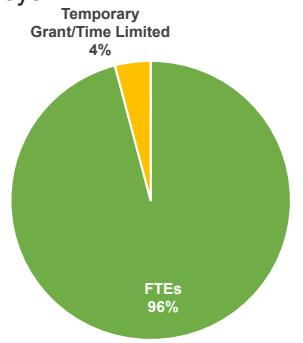

- The Training Staff provided 1,137 classroom hours of training FY 16-17.
- Staff are responsible for maintaining SCCJA certification requirements for 244 Class 1 officers, 91 Class 3 officers and 66 reserve DLEO certifications.
- Staff continues to provide training to enhance professional law enforcement leadership through external providers such as:
  - FBI Carolina Command College
  - FBI National Academy
  - National Association of Conservation Law Enforcement Chiefs (NACLEC) leadership training academy
  - State Human Resources Certified Public Manager training program

AVIATION

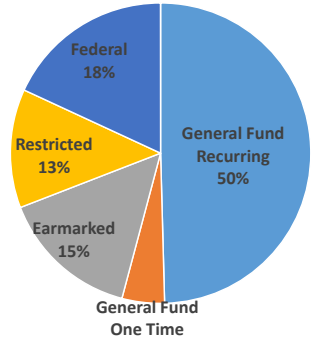

- The Aviation Unit conducted 187 flights resulting in 692 flight hours.
- 278 flight hours of SCDNR Law Enforcement flights.
- 38 flight hours assisting other law enforcement agencies with flights such as prisoner extradition, drug detection and eradication, and highway safety.
- 130 hours of search and rescue flights.
- 29 hours surveying Hurricane Matthew post-storm response needs and damage surveys.
- 7 flight hours assisting with pre-storm surveillance for hurricane evacuation assisting SCEMD/SCDPS.
- 142 flight hours of biological research related surveys.

South Carolina Department of Natural Resources
Land, Water and Conservation Division

Purpose: Provide scientific and reliable information to policy and decision makers and to the public in order to understand, sustain and protect the state's natural resources for the benefit of all generations. This is achieved through planning, research, technical assistance, public education and development of a comprehensive natural resources database.

- Surface-water quantity and water-allocation models were completed for each of the eight major river basins in the state.
- Work continued with the USGS on updating a groundwater flow model for the state, and with the USACE on developing water-demand forecasts for the Savannah River basin.
- The SCDNR groundwater monitoring network (169 wells) was linked to the USGS National Ground-Water Monitoring Network (NGWMN).
- Continued monitoring groundwater for aquifer levels and saltwater intrusion.
- New geologic mapping covering 372 square miles has been developed as digital map products using GIS. To date, more than 14,000 square miles (~45%) of the state have detailed geologic map information.
- Processing satellite data for EPA grant to study possible land subsidence related to groundwater withdrawal in Georgetown County.
- Completed the ACE Basin Coastal Vulnerability Project to demonstrate physical change on the shoreline www.dnr.sc.gov/geology/botanybay-coastal-erosion.
- More than 2 million webpage requests for survey webpages, data and information during the last fiscal year.
- Work began on a grant from Bureau of Ocean Energy Management (BOEM) to analyze both regional and state offshore sand resources.
- South Carolina Core Repository contains over 1,500 cores and 230,000 linear feet of core material from around the State including offshore.
- Provided GIS support for all LWC Programs.
- Enhanced and expanded the Weatheralert notification system (2,937 subscriptions).
- Collected, analyzed and consolidated data on rainfall, streamflow and damage from Hurricane Matthew. Developed an on-line interactive story journal for the event http://www.dnr.sc.gov/matthew2016.

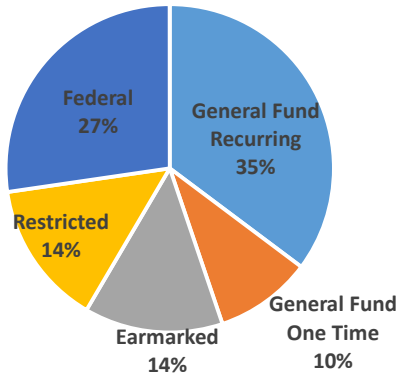

- Collaborated with the Law Enforcement Division in development of flood inundation maps for search and rescue missions.
- Assisted state and federal agencies and the public in data acquisition and forecast interpretation before, during and after tropical events, severe weather, winter weather, droughts and special event planning.
- Chaired and staffed six meetings of the SC Drought Response Committee to take appropriate action on drought status designations.
- Released three preliminary Flood Insurance Rate Maps.
- Conducted five Preliminary Digital Flood Insurance Rate Map Community Coordination meetings and seven public open houses.
- Assisted communities with substantial damage requirements post 2015 flood event and Hurricane Matthew.
- Community participation in the National Flood Insurance Program is 90% (236 communities).
- SCDNR has led the Light Imaging Detection and Range (LiDAR) Consortium since 2007, successfully establishing 28 financial and in-kind partners for the statewide acquisition of LiDAR data. LiDAR data is important to South Carolina as it is used for many purposes, including but not limited to flood modeling, storm water management, transportation planning, natural resources management and economic development.
- Facilitated and cost shared with SCDNR wildlife biologists to restore or improve habitat on SCDNR properties and with USFWS and TNC to improve habitat in and around the ACE Basin.

- Worked cooperatively with Santee Cooper, USFWS and SC Waterfowl Association to improve habitat in the Santee Cooper Lakes.
- Worked with SCDNR biologists and private landowners to restore sensitive. Wood Stork habitat.
- Facilitated and/or cost shared with other local and private entities to improve habitat and recreational use by controlling numerous species in other public waters.
- Acquired and outfitted the newly renovated 9,000 square-foot Parker Annex (circa 1910). The Parker Annex Archaeology Center will house the agency's archaeological research program, artifact collections from across the state and offer teachers, students and the public the opportunity to participate in archaeological research projects conducted on SCDNR lands.
- Improved public safety at the Congaree Creek Heritage Preserve trail system.
- Removed Hurricane Matthew debris from six coastal Cultural Heritage Trust Preserves.
- Permitted two external archaeological research projects: Jocassee Gorges Pinnacle Mountain Petroglyph Survey and the Botany Bay Heritage Preserve Pockoy Island Shell Ring Investigation.
- Secured National Historic Preservation Act Section 106 clearance for the Sassafras Mountain Observation Tower project.
- The Flora Carolina project has compiled online over 211,000 herbarium records from eight of the state's larger herbaria with 77,000 specimens photographed at high resolution.
- Cooks Mountain, part of the 3674-acre Wateree River Heritage Preserve and WMA, was surveyed for ecological significance.

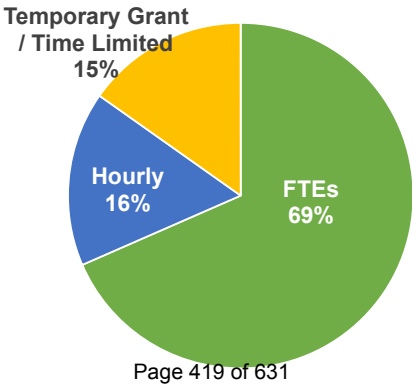

- Processed more than 300 requests for information from the Rare/ Threatened/Endangered Species Database.
- Supported four active river conservation projects in 2017 where local partners are working to protect and enhance important river resources.
- Partners and staff collaborated to develop three information products in 2017: 1) HowsMySCRiver.org – a website for recreational water quality of Saluda and Congaree Rivers; 2) GoPaddleSC.com - a website guide to the state's rivers; and 3) the Edisto River Basin Boating Guide.
- 4,750 volunteers participated in Beach Sweep River Sweep and worked to remove litter and debris from public waterways at 120 sites statewide.
- Program staff provided technical assistance to the public in conjunction with the 46 Conservation Districts and the U.S. Department of Agriculture-Natural Resource Conservation Service (NRCS). Technical assistance includes producing conservation management plans. In FY 16-17, staff assisted with 876 conservation plans.
- Staff conducted 14 workshops and field days demonstrating the Rainfall Simulator unit which is an educational tool that illustrates water related soil erosion and runoff. The workshops are in cooperation with conservation districts, the National Grazing Land Coalition and the USDA-NRCS.

*In addition, LWC averages approximately 10 hourly employees at any given time. This number varies throughout the year based on seasonal employment needs.

South Carolina Department of Natural Resources
Marine Resources Division FY 2017

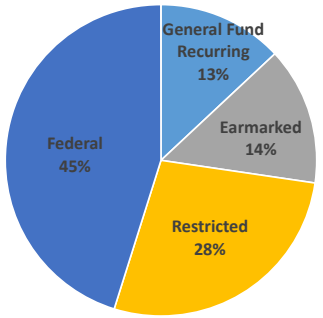

Purpose: To sustain the state's living marine resources for the cultural, recreational, commercial and economic benefit of the state's citizens and visitors.

- SCDNR issued 230,497 recreational saltwater licenses plus >200,000 active gratis/senior lifetime licenses.
- Commercial fishermen took 29,255 trips worth $25.5 million.
- Licensed fishing piers hosted 214,600 anglers.
- Area of ocean bottom managed totaled 869 sq. miles, while estuarine bottom managed totaled 344 sq. miles.
- Staff interviewed 4,896 saltwater anglers for the marine recreational information program.
- Staff issued 1,511 commercial saltwater permits.
- Eleven artificial reef sites grew through the addition of 95,000 cubic feet of habitat, bringing the total to 40 sq. miles of reef sites.
- Staff managed 153,098 acres of public shellfish harvesting grounds.
- Partners and staff recaptured and recycled more than 29,000 bushels (~750 tons) of oyster shell.
- Staff planted 23,526 bushels of oyster shell to rebuild reefs.
- Staff spent 281 days at sea aboard large research vessels.

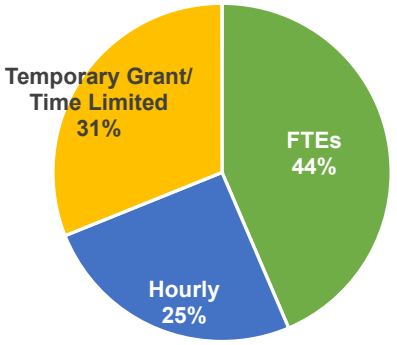

- Staff published more than 100 technical reports and 25 research papers.
- More than 568 tagged fish and sea turtles of 26 species were detected by SCDNR acoustic receivers.
- Inshore biologists conducted 945 trammel net sets, 301 electrofish sets, 82 trawls, and 286 longline sets, tagged 3,854 fish and processed 10,962 fish in the laboratory.
- Geneticists processed 8,163 tissue samples from 13 species.
- Offshore biologists deployed 1,930 trawls, chevron traps and longlines between NC and FL and caught 944,320 fish, crustaceans, sea turtles, squid and jellyfish from more than 300 species.
- More than 1,300 volunteers gave 16,000 hours and drove 91,000 miles in support of SCDNR's sea turtle program.
- Recreational anglers tagged and released 5,491 saltwater gamefish and reported the recovery of 860 tagged fish.
- Stocked 2,042,690 marine gamefish in coastal waters.

South Carolina Department of Natural Resources
Office of Environmental Programs / Boating Access and Engineering Section

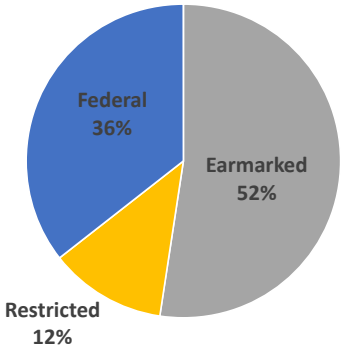

Office of Environmental Programs Purpose: Review proposed environmental impacts as published in the regulatory arena and provide science-based expertise to benefit the state's natural resources and its citizens.

Boating Access and Engineering Section Purpose: Provide professional engineering, design and construction management services to county governments and other partners, including internal customers, to enable the efficient and cost-effective completion of boating access, renovation and new construction projects.

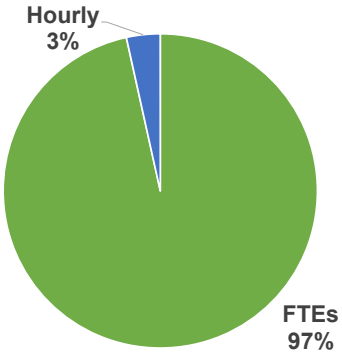

- 1,075 comprehensive environmental reviews were conducted and science-based comments provided to state and federal regulatory agencies enabling balanced economic development and natural resources protection.
- 17,000 acres of new wildlife management area lands were made available to the public through mitigation for impacts from major development projects and FERC relicensing negotiations.
- 18 proposed wetland mitigation banks were reviewed and 24 existing mitigation banks were monitored through service on the Interagency Review Team.
- 440 (approximately) boating access facilities statewide are the responsibility of the SCDNR for major maintenance and renovation activities.
- 28 complex engineering projects were undertaken for new construction or renovation of boat ramps, fishing piers, agency facilities and other key SCDNR infrastructure.
- Provided engineering support to repair damages to agency facilities due to the 2015 flood and 2016 Hurricane Matthew.
- More than 33,000 acres of boundary surveys were completed on SCDNR properties.
- 25 state, regional, and national boards, councils, steering committees, task forces, working groups and partnerships were staffed resulting in the advancement of natural resources conservation.

South Carolina Department of Natural Resources
Office of Media and Outreach FY 2017

Purpose: Serve as the principal source for timely and accurate information related to South Carolina's natural resources, wildlife and fisheries and related outdoor recreation.

- Publish and distribute six issues of South Carolina Wildlife, including the online digital SouthCarolinaWild.org, serving as the principal storyteller of the natural resources for our state.
  - Over 30,000 annual subscribers
  - 105,164 successful page opens on SCWildlife.com over the past 12 months
  - Launched SouthCarolinaWild.org June 2017
- Create and distribute accurate information related to hunting, fishing and boating regulations, wildlife and fisheries, outdoor recreation, accidents and fatalities.
  - 386 completed graphic requests
  - Since November 2016, 148 mass email bulletins resulting in 1,917,915 messages received by 173,423 subscribers
  - Video production of 52 PSAs, educational, informational and marketing materials
  - Distribute 410,000 Regulations Books per year
  - Over 14,200,000 successful website opens in 2016, up 35% from 2015
- Maintain open communications with SCDNR, its customers and the citizens of South Carolina through the website, social media and media relation activities.
  - Over 120,000 social media followers on Facebook, Instagram, YouTube and Twitter
  - Two “Notable Document” winning blogs with 27,441 subscribers
  - 193 press releases issued in 2016
- Diversity Outreach continues to reach underserved populations of South Carolina.
  - Attend community and SCDNR sponsored events (reaching over 56,000 in 2017)
  - 188,017 successful opens on translated website
  - Over 2,000 social media followers on Spanish and Diversity Outreach Facebook pages
  - 832 video views on Spanish YouTube page
  - Partnerships with Mexican Consulate, Recreational Boating and Fishing Foundation, National Shooting Sports Foundation, Council to Advance Hunting and Fishing and several state universities
  - Awarded Diversity Inclusion in the Workplace (AWFA) and The Diversity Award (The Wildlife Society)
- Litter Commission Legislative Report completed November 2016.
  - Over 16,000 successful opens on UP2U webpage
  - Trademarked UP2U
- Successful completion of marketing campaigns.
  - Set Your Hook in SC
  - 100 Deadly Days
  - Apprentice Hunting License
  - Resident Fishing Campaign

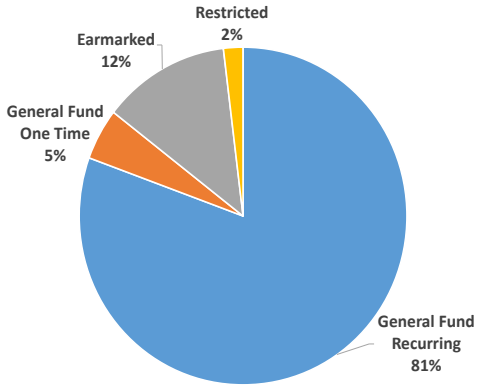

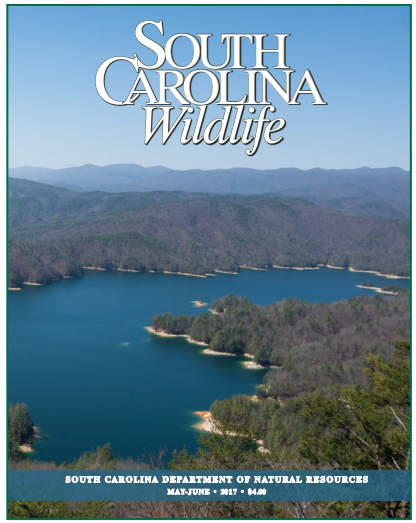

- Economic Impact of Natural Resources
- FishSC partnership with SCPRT and SCATR
- Guy Harvey special South Carolina issue

- Palmetto Sportsmen's Classic was attended by 33,700 in 2017.
- 98% of Camp Wildwood rated the camp as the "Time of their Life" or "Excellent".

South Carolina Department of Natural Resources
Office of Support Services FY 2017

Purpose: To provide titling, registration and licensing services to the public and to support the agency's core mission by providing quality and efficient administrative support for all agency sections and programs.

- Columbia and Charleston Customer Service Sections have a staff of 34 employees.
- There are 4 express license offices: Clemson, York, Florence and the SCDNR at the State Farmers Market in West Columbia.
- Statewide, 500 non-SCDNR point of sale vendors (including 88 Wal-Marts) issue hunting and fishing licenses on behalf of the SCDNR.

Senior License	1,550	$9 one-time
Disability License	6,983	$0
Total Special Licenses	**22,639**	

In 2017 -Non-resident were responsible for approximately 25% of Freshwater fishing, 41% of Saltwater Fishing, and 15% of Hunting Licenses Sales.
SCDNR's last federal license certification (2015) showed that non-residents:
Made up only 12% of hunting license sales, but generated 44% of hunting revenue.
Made up only 24% of fishing license sales, but generated 40% of Fishing revenue.

FY 2017 Highlights of Additional Privileges	
Combination / Sportsman (Includes WMA) Licenses	130,613

- SCDNR outsourced the printing and distribution of more than 1.9 million deer tags to more than 176,000 customers during July 2017.
- IT staff created a customer portal which permits license inquiries and includes the feature of a downloadable PDF (digital license) that can be stored and accessed via mobile devices.
- SCDNR issued 129,993 sets of turkey tags in FY 2017, of which at least 105,537 were mailed. SCDNR surveys show that there are between 45,000 to 50,000 turkey hunters who request tags per year. This results in more than 50,000 tags being issued, mailed and not used at a cost to the agency of at least $29,000.
- The GIS section has created 9 customer application Interactive Maps of Public Lands, Boat Ramps (Freshwater and Saltwater Specific), Oyster Reefs, Artificial Reefs, S.C. Flooding Journals and Geological.
- The GIS Interactive Map Application recorded 81,060 visits, or hits, by the public on the public lands webpage and 29,519 hits on the boat ramp webpage.
- IT launched the agency's e-mail subscription service that delivers customer- desired SCDNR content. As of July 31st there are 171,841 subscribers, with 549,954 subscriptions covering 65 topics.

South Carolina Department of Natural Resources
Wildlife and Freshwater Fisheries Division FY 2017

Purpose: Monitor and protect wildlife species and inland aquatic species and their habitats throughout the state and provide recreational hunting and fishing opportunities to the public.

- Stocked 11,006,142 hatchery reared fish into South Carolina public waters: includes fingerlings returned to SC from fry we provided to federal hatcheries for grow out to stocking size. Species stocked include American shad, bluegill, brown trout, brook trout, channel catfish, largemouth bass, redbreast sunfish, rainbow trout, redear sunfish, smallmouth bass, striped bass, striped bass x white bass hybrids, threadfin shad and robust redhorse. This required 359 trips to 130 separate water bodies.
- Completed repair and enhancement of Lake Oliphant in Chester County and reopened the lake to public fishing on July 1.
- Completed replacement of the water control structure at Sunrise Lake in Lancaster County and initiated restocking of the fish population. The lake should reopen for public fishing in July, 2018.
- Provided recreational fishing opportunities on 14 of 18 state lakes. Two lakes were closed for population renovation and enhancement. Two lakes remained closed due to storm damages.
- Conducted fish habitat enhancement in the following lakes and reservoirs: Lake Brown, Lake Murray, Lake Keowee, Lake Hartwell, Lake Russell, Lake Thurmond, Lake Greenwood, Lake Session, Lake Issaquena, Lake Johnson, Jonesville Reservoir, Lake Rabin, Lake Moultrie, Lake Marion, Lake Wateree, Mountain Lakes 1 and 2, Lake Oliphant and Sunrise Lake.
- Monitored the population of federally endangered Atlantic sturgeon and shortnose sturgeon in the Savannah River, Edisto River, Cooper River, Santee River system and the Winyah Bay system. Data from these efforts was incorporated in the Sturgeon Stock Assessment being conducted by the Atlantic States Marine Fisheries Commission.
- Monitored the population status and fisheries of American shad, blueback herring and American eel. Data from these monitoring efforts was incorporated into provided to and incorporated into management plan compliance evaluation by the Atlantic States Marine Fisheries Commission in order to demonstrate sustainability and keep these fisheries open.
- Completed infrastructure development to allow SCDNR to propagate Carolina Heelsplitters at Cohen Campbell Fish Hatchery. This will enhance restoration efforts for this federally endangered mussel. Testing of the facility with a surrogate mussel species has been done, and adjustments are currently being made to the process.
- Recovery efforts following Hurricane Matthew required the removal of 4,261 trees from 470 miles of roads. In addition, rapid response by Wildlife Section staff following the storm prevented multiple potential breaches to waterfowl impoundment dikes.

- Prepared and maintained 44 Public Dove Fields, encompassing over 1,672 acres throughout 27 counties. These fields provided opportunity for over 3,293 adult hunters and over 206 youth hunters on opening day of dove season.
- Management and maintenance activities on WMAs and Heritage Preserves include
  - planting of 2,356 acres of annuals
  - planting of 25 acres of perennials
  - mowing or disking of over 11,311 acres
  - prescribed burning of 15,330 acres
  - maintenance of 760 miles of firebreaks
  - mowing of 451 miles of dikes
  - re-topping of 18 miles of dikes
  - mowing of 768 miles of roads
  - grading of 627 miles of roads
  - re-topping of 54 miles of road with gravel
  - maintenance of 513 miles of trails
  - maintenance of 237 miles of WMA boundary with posting of 2,086 signs.
- Staff handled 4,099 nuisance wildlife complaints including 620 alligator calls and 515 bear calls and delivered 194 programs to a combined audience of over 11,745 people.

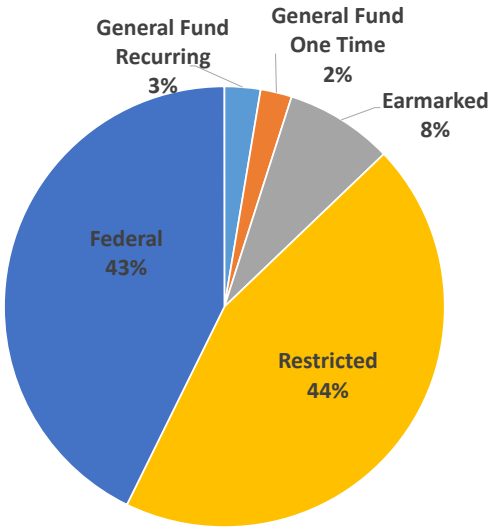

- Special hunt opportunities provided on WMAs included 16 Special Youth Dove Hunts accommodating 264 youth hunters, 45 Special Youth Deer Hunts accommodating 295 youth hunters, and 7 mobility impaired hunts accommodating 205 hunters
- Botany Bay Plantation WMA/HP accommodated 43,728 visitors and 12,101 vehicles.
- Five Northern long-eared bats have been captured in two new counties on the South Carolina's Coastal Plain: Charleston and Berkeley counties. These records are the first for Charleston and Berkeley counties for this federally threatened species, the first documented breeding individuals on the coastal plain of SC, and probably the first ever summer roosts recorded for this species on ANY coastal plain.
- Bird banding efforts resulted in over 2,200 birds banded, including 259 wood ducks, 39 mottled ducks, 29 RCWs, and 1158 doves.
- Control efforts and hog hunts on WMAs resulted in the removal of over 534 hogs.
- SCDNR acquired 5 separate tracts totaling 2,905 acres of wildlife habitat that will be open to the public for hunting, fishing and other outdoor activities.
- Monitoring efforts for the federally endangered red-cockaded woodpeckers covered 101 clusters total: 93 are active, 91% attempted nests (85). The population goal is at 78% capacity of current occupied properties. FY16 to FY17 experienced an 18% growth rate of active clusters on SCDNR lands due to current breeding success, finding new clusters and the Donnelley translocation project. The population has effectively doubled in ten years.
- During 2017, 2,480 wood stork nests were counted. The five year average for the state is now 2,496 nests per year. The consistently high numbers of wood storks nesting in South Carolina contributed to the downlisting decision from federally Endangered to Threatened status during 2013.

Wildlife and Freshwater Fisheries Division 14
Executive Office 16

Land, Water and Conservation Division

Cultural Resources Program

- Increased awareness of the DNR Cultural Resources Program through improved public outreach. Had over 400 people visit the Kolb Site Archeological Dig the past two years.
- Initiated an archeological survey and access improvement project at Fort Frederick Heritage Preserve in Beaufort County. 30 news articles have been written about the work taking place. During the two week public tour project, it is estimated that about 200 people will have visited the site.
- Wrote a Cultural Resources Management Plan for the Haile Gold Mine mitigation properties (Rainbow Ranch, Goodwill Plantation and Cook's Mountain).

Hydrology

- Obtained funding for, wrote RFP, selected contractor and began work on the development of surface water quantity models and water assessment project.
- Secured commitment from Charleston District Corps of Engineers to provide funding for Statewide Water Planning from the Planning Assistance to States Program.
- Partnered with Clemson University's Strom Thurmond Institute and Center for Watershed Excellence for stakeholder engagement in State Water Plan update.
- The groundwater monitoring network was expanded from 114 to 134 wells. The 20 new wells were established as follows: 2 in Chesterfield County, 5 in Lee County, 1 in Lexington County, 4 in Calhoun County, 1 in Barnwell County, 4 in Charleston County and 3 in Georgetown County.

Geology

- Three coreholes were drilled during the year: one in Calhoun County to a depth of 1,038 feet; one in Georgetown County to a depth of 830 feet and one in Chesterfield County to 400 feet. This drilling produced a total of 2,268 feet of subsurface information that is available in the State Core Repository.
- Saltwater intrusion monitoring was also implemented. Eight wells were equipped with new conductivity instruments to monitor saltwater.
- Partnered with the College of Charleston to produce offshore map of the Folly Beach area.

- 40 new geologic maps were released as Open-File reports and made available through the publication webpage. At the end of the year, digital maps covered 46.5% (263 of the 566 quadrangles) of the State.
- The Governor's South Atlantic Alliance funded Physical Change Along the Coast work, digitizing three temporal shorelines. The 2,078 miles of digitized shoreline (coastal and estuarine) were analyzed for rates of shoreline change and used in further analysis to characterize shoreline vulnerability.
- Began 2-year, Bureau of Offshore Energy Management funded project ($200,000) to inventory and assess offshore sand resources for potential beach renourishment projects.

Flood Mitigation Program

- Assisted 28 communities in adopting new Flood Insurance Rate Maps, along with recruiting nine new communities to join the National Flood Insurance Program.

State Climate Office

- Provided prompt and accurate response to more than 300 public service requests for climate and weather information.
- Installed a new automated weather station on South Carolina's highest point, Sassafras Mountain, which will fill important data gaps in the mountain region. The new Station went online in December 2014. This is the first automated weather station made available by the South Carolina State Climate Office.

Conservation Districts

- Staff provided technical assistance to the public in conjunction with the 46 Soil and Water Conservation Districts and the USDA's Natural Resource Conservation Service (NRCS).

Aquatic Nuisance Species Program

- Worked with wildlife staff to spray 624 acres of phragmites on several wildlife management areas in Georgetown and Charleston counties to benefit waterfowl and wading birds.
- Continued to provide support, cost-share and/or application of herbicides in order to keep South Carolina's public waters free of invasive species.
- Capture of high-resolution digital images of herbarium specimens. With support from the National Endowment for the Humanities, this project processed these images so that they can be viewed online for use by the public, educators, land managers and plant scientists.

Law Enforcement Division

- With almost 30,000 Law Enforcement contacts (summons/warnings), complaints against officers have been extremely minimal and in almost every single case, officers were found to have used good judgment and due diligence in carrying out their duties.
- All officers throughout the Division were issued iPhones. They now can receive calls, emails, and statewide texts immediately resulting in quicker response times. Provided laptops for all 1st Sergeants and replaced investigator laptop and instructor laptops within the Division. iPads were issued to key personnel which will enhance and improve response times. Hot spots were activated to eliminate additional air card fees.

- All major cell phone service providers have implemented #DNR on cell phones.
- Researched and implemented a Boating Compact with the State of Georgia. This is the first such boating compact with neighboring states in U.S., allowing our residents to be treated the same in either state when it comes to violations of law.
- Posted a position at Seahawk in Charleston, which provides for an intelligence-based liaison between DNR and local, state and federal agencies.
- Started a "Wills for Heroes" class with DNR Chief Counsel to provide free wills service to all DNR officers.
- An additional officer was assigned to the Governor's Detail.

Business/Finance

- Completed Law Enforcement Facilities Management booklet including pictures, insurance and utility information.

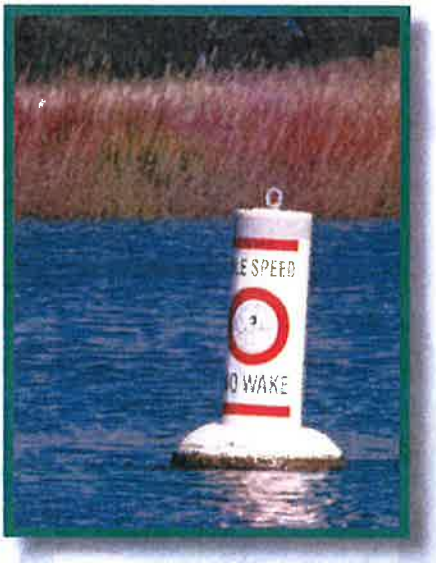

Field Operations Regions

- Conducted saturation patrols and Courtesy Boat Inspections during all major boating holidays and high activity events resulting in: 1,450 summons, 5,868 warnings, held 95 different CBI sites, inspected 705 boats, prevented 190 violations and resulted in 54 BUI arrests.
- Officers issued 9,609 summons from January 1 - November 30 2014, maintaining near 95% conviction rate.
- Officers issued 28,331 warnings from January 1 - November 30 2014.
- Officers cleared 306 Warrants.

- Regions hosted 17 Fish Rodeos with 3,110 kids attending. Rodeos were held in the following counties: McCormick, Union, Edgefield, Oconee, Greenwood, Chesterfield, Darlington, York, Lancaster, Barnwell, Lexington, Charleston, Berkeley, Jasper, Horry and Dorchester.
- Officers gave 3,270 public presentations to civic groups, churches and schools.
- Region officers held 133 Take One Make One events with 14,680 kids participating.
- Officers spent 52,256 hours on boating patrols resulting in 104,648 boats being inspected and 3,895 hours conducting search and rescue missions.

Accomplishments

- Major Jamie Landrum graduated from the FBI Academy.
- Received National Association of State Boating Law Administrators Accreditation and incorporated standards in training and employee performance standards.

Overt/Covert Investigations

Marine Theft Investigations Operations

- 1,130 marine theft investigations were initiated.
- Recovered $97,426.00 of equipment.

Wake Zone Investigations

- Completed 46 NO WAKE zone investigations.
- Three NO WAKE ZONES approved.

B-SAF

- Added eight field officers to the B-SAF team.
- Conducted 8 B-SAF patrols inspecting 1,052 boats, resulting in 94 summonses, 306 warnings and 9 BUIs.

Diving Operations

- 20 body recovery assignments made, resulting in 9 bodies recovered.
- Upgraded the laptops in the dive vans

ATN Operations / Marine Events

- Surveyed 2,107 aids to navigation buoys and replaced 326 missing or damaged buoys/signs.
- Started illegal buoy survey (125 removed to date on lakes Keowee, Murray, and Wylie)
- Approved 617 marine events.

Education Section

Hunter Education

- Taught 19,586 students in Hunter Education for 2014, up 21% from 2013. 78% of all students were taught in a classroom. `

Boater Education

- Taught 4,011 students in Boater Education, an increase of 17%.
- Continued to foster partnership with Wendy's for the "I Got Caught Wearing My Life jacket" tickets for a free Frosty.
- Boating Safety radio commercials aired at all University of South Carolina & Clemson University baseball games March through April.
- Coordinated Boating Safety displays at Clemson University and University of South Carolina baseball games, including the 17 foot Boating Safety wrapped pioneer boat.

Archery in the Schools

- Held 9th annual South Carolina Archery in the Schools state archery tournament at the Palmetto Sportsmen's Classic in March of 2014. A total of 1,131 students participated.
- There are 27,000 students actively shooting archery in 271 schools across South Carolina.
- To date, 1,006 teachers have been trained as Basic Archery Instructors.

Take One Make One (TOMO)

- TOMO coordinated 74 hunts in 2014 for 333 participants.
- TOMO trailers visited 99 events, with 16,167 people participating in 2014.
- Added an inflatable Archery Range from S.A.F.E Archery to the Take One Make One Heritage Trailer.
- Offered six hunting clinics providing advanced hunting skills on deer, dove, turkey and waterfowl for TOMO participants and the public.
- Over 80 veterans participated in three Wounded Warrior hunts.
- Assisted with the 1st Annual Gold Star Youth Program deer hunt for eight youth who had lost a father in special forces.
- Took a blind 12 year old on a turkey hunt allowing him his first shot ever at a turkey.
- Officers escorted a child battling cancer on stage live during the FLW event with country singer Rodney Atkins.
- Awarded TOMO graduating participant Keith Black a lifetime license for his winning essay "What TOMO has Meant to Me".
- TOMO recruited 80 new youth in 2014, including 14 from Connie Maxwell Children's Home and 13 from the National Guard Youth Challenge Academy.
- Three TOMO students appeared on two Outdoor Hunting Shows featuring Bob Redfern and Hank Parker.
- Recruited 120 new mentors in 2014, bringing the total to 287 statewide.
- Partnered with the National Wild Turkey Federation in Edgefield to create a new hunting site in which five new deer stands were placed.
- TOMO Coordinator, Eddie Monts, named QDMA Officer of the year.

Youth Clay Target Sports

- DNR sponsored the 2014 SC Youth Shooting Foundation State Sporting Clays Championship. 412 students participated in this year's state event.
- Through a grant with the Hampton Wildlife Fund, DNR gave the top three male and female graduating seniors $6,000 in scholarships.
- Sponsored the largest youth skeet and trap competition held to date in the Palmetto State on December 13. 157 youth shot at Mid-Carolina Gun Club in Calhoun County in a skeet and trap event that was co-sponsored by 4H Shooting Sports. DNR awarded two $1,000 scholarships to the top graduating senior male and female shooter.

Shooting Ranges

- Developed the Palmetto Hunting Heritage Shooting Center ($2,000,000) in Edgefield, SC with the NWTF.
- Completed two 18-station sporting clays ranges and five skeet and trap ranges.
- Awards Pavilion completion set for March 2015.
- In 2014, 13,959 shooters visited Pickens County Range and 7,455 visited James O. Thomason Firing Range.

Honor Guard

- Trained four new officers for the Honor Guard to replace officers lost and to meet increasing requests.
- Completed seven assignments.

EMD/Supply/Dispatch/Communications/ Aviation

EMD/Homeland Security

- All key personnel completed all ICS classes and are up to date with required courses.
- Met with region captains prior to hurricane and winter storm seasons to review existing plans and practice them. Changes were made to minimize drive time for officers. Pre-paid rooms were acquired and reserved in case of another winter storm lasting more than two operational periods this year.

Aviation

- Conducted 170 Flights
- Flew 251.6 law enforcement flight hours (night patrols, bait patrols); 34.6 restricted law enforcement (SLED) flight hours (extraditions and transports); 83.9 search and rescue flight hours; 38.80 JEA flight hours; 132.9 biology flight hours; 10.7 SCEMD/SCDPS hurricane evacuation exercise flight hours; 2.5 aeronautics commission flight hours (airport runway inspections).
- Total of 555 Flight Hours of all missions.

Legislation, Grants & Technology Section

- Worked with the legislature as the division liaison to meet law enforcement needs related to specific bills.
- The division worked with the General Assembly on passage of bills including:
  - Amendments to hunting within 300 yards of a residence
  - Increased trespassing to hunt and fish penalties
  - Revocation of WMA lottery draw hunts
  - State lakes regulatory authority
  - Blue catfish amendments
  - Great white shark protection
  - Aggregate saltwater fish limits

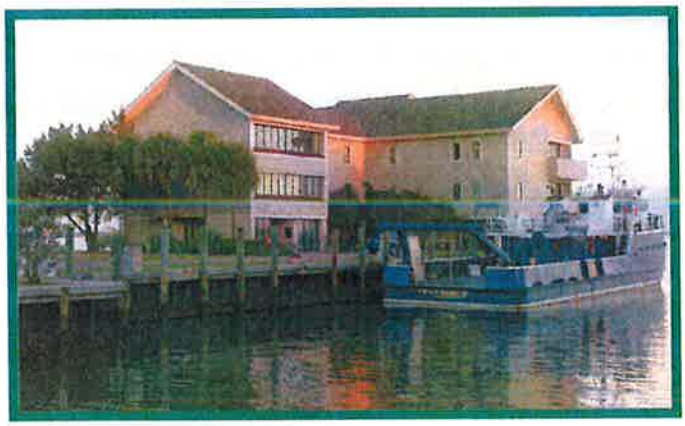

Non-Department Deputy Law Enforcement Officers

- Completed 7,069 hours with 108 current DLEOs.

- Finalized and implemented a pay plan for MRD staff as part of an effort to recruit and retain a qualified workforce.

Marine Resources Monitoring, Assessment and Prediction/Southeast Area Monitoring and Assessment Program Reef Fish Survey

- Staff completed 47 sea days on the R/V Palmetto and 19 days on the R/V Silver Crescent.
- Deployed 519 chevron traps, 60 short bottom long lines, 97 CTD casts, and made 297 hook and line collections (total gear deployments: 1,005).

SEAMAP-SA Trawl Survey

- Staff completed 65 sea days on the R/V Lady Lisa.
- Caught and processed 855,013 fish, 45,604 crustaceans and 45 turtles, and kept 3,795 individuals for life history.

Estuarine Finfish Research

- Marine finfish production for stock enhancement and lab research experiments was over 703,000 red drum juveniles, 30,000 spotted seatrout juveniles and 25,000 advanced phase I striped bass.

Ecosystem Research

- Responded to 50 fish kills and/or algal blooms.
- Collected approximately 200,000 water quality readings at six sites in the ACE Basin National Estuarine Research Reserve.

Shellfish Research Section

- 183 crab traps used as artificial substrate to create new oyster reef habitat.
- 142 of these traps were abandoned and recovered from the environment.

In-Water Sea Turtle Research

- 47 sea days (417 trawling events) were completed aboard the RV Lady Lisa and the RV Georgia Bulldog.

- Trawling resulted in the capture of 106 loggerhead sea turtles, 23 Kemp's ridley sea turtles and one green sea turtle.
- Two satellite transmitters and 14 acoustic transmitters were deployed on male and juvenile loggerhead sea turtles, respectively.

Marine Resources
By the Numbers

- **481,131** recreational saltwater privileges issued
- **4,234** commercial saltwater privileges issued
- **30,972** commercial trips taken
- **997** saltwater (commercial/scientific) permits issued
- **231,938 acres** of shellfish culture permit areas; **123** culture permit areas managed by **58** individual permit holders
- **41** mariculture permit areas totaling **1,189 acres**; worked by **28** individual mariculture permitees
- **101** public/state shellfish grounds totaling **133,109 acres**
- Total area of ocean bottom: **869 square miles** or **556,160 acres**
- Total area of estuarine bottom: **344 square miles** or **220,160 acres**
- Total volume of material on the artificial reefs: **28.3 million cubic feet** of artificial reef material on South Carolina's **45** reef sites, spread within **37.75 square miles** of permitted sites

Wildlife and Freshwater Fisheries Division

- Finalized and implemented a pay plan for WFF staff as part of an effort to recruit and retain a qualified workforce.

Freshwater Fisheries Section

- Produced approximately 9 million fish in the freshwater hatchery system that were stocked in public waters across the state.
- Completed pond renovations at Cohen Campbell Fish Hatchery. These renovations will expand fish production capabilities and create more efficient harvesting operations.
- Conducted 2nd Annual Youth State Bass Fishing Championship tournament in conjunction with the Palmetto Sportsmen's Classic. The tournament launched 74 boats carrying,148 anglers from 29 different schools.
- Conducted 52 Family Fishing Clinics which provided fishing opportunities for 1,251 participants. Volunteers donated over 900 hours of volunteer time to Family Fishing Clinics, the Palmetto Sportsmen's Classic and other fishing outreach events (FLW Forrest Wood Cup).

Wildlife Section

- Acquired 2,958 acres to be added to DNR's Wildlife Management Area and Heritage Trust programs. The cost of this effort was $1.5 million, with an additional donated value of $5.9 million.
- Maintained a public hunting program on over 1 million acres of public land, providing over 415,000 person-days of hunting. Added over 3,600 acres of leased lands to the WMA program through cooperative agreements with landowners.
- Accomplished the first comprehensive revision of Wildlife Management Area regulations in over three decades, resulting in significant consolidation and simplification of regulations.
- Captured 49 wild turkeys and outfitted 36 with satellite transmitters as part a multi-year research project examining multiple aspects or turkey ecology and behavior.
- Managed habitat, facilities, infrastructure and access on over 260,000 acres of Department-owned lands that occur on over 85 WMAs and Heritage Preserves across the state.

- Prepared and maintained 50 public dove fields, encompassing over 1,900 acres throughout 27 counties. These fields provided opportunities for 3,000 plus adult hunters and 200 plus youth hunters on opening day of dove season. Public dove fields annually provide over 25,000 person-days of hunting opportunity for South Carolina sportsmen, according to a recent survey from Responsive Management.
- Modified management and public access to Deveaux Bank, a popular sea bird island, which resulted in positive public support and improved sea bird nesting.
- Initiated the South Carolina Quail Council and began establishing quail focal areas.
- Planned and conducted coyote management workshops in conjunction with Clemson University and the South Carolina Trappers Association.

WMA Management
By the Numbers

- Planted **2979 acres** of annuals. These plantings included **1935 acres** of dove field plantings on **50 fields across 27 counties**
- Planted **114 acres of perennials** for benefit of wildlife
- Mowed **14,014 acres** for habitat maintenance
- Disced **6,965 acres** for agricultural seed bed preparation or habitat manipulation
- Conducted prescribed burning on **17,134 acres** of forest lands and **1,624 acres** of agricultural lands (total acres burned =**18,758**)
- Applied herbicide to **2,920 acres** of agricultural lands and **1,182 acres** of forest lands for habitat manipulation and habitat enhancement purposes
- Disced or plowed **456 miles** of firelanes
- Mowed **514 miles** of dikes on waterfowl management areas
- Re-topped **37 miles** of dikes on waterfowl management areas
- Installed **20 water control structures** on waterfowl management areas
- Mowed **534 miles** of roads for maintenance, improved access and safety
- Graded **371 miles** of roads for maintenance, improved access and safety
- Graveled **18 miles** of roads for maintenance, improved access and safety
- Constructed or rebuilt **82 miles** of roads for maintenance, improved access and safety
- Mowed and otherwise maintained **55 miles** of trails
- Posted **4,725 signs** along **237 miles** of boundary on WMAs

Office of Environmental Programs

- Approximately 1,200 environmental reviews were conducted, and science-based comments provided to state and federal regulatory agencies.
- Working with the Haile Gold Mine, Inc. and under their permit application to reopen the historic Haile Gold Mine in Lancaster County, DNR completed work in preparation for accepting mitigation tracts totaling 4,389 acres in Richland and Lancaster counties and a $9.4M endowment for management of the mitigation tracts and aquatic restoration in the Lynches River Watershed.

- Under permit application to expand the Boeing aerospace facility in Charleston County, DNR completed work in coordination with the Lowcountry Open Land Trust toward eventually accepting the donation of the Keystone Tract (1,682 acres) as mitigation for impacts to wetlands.
- In cooperation with American Timberlands and Tidewater Environmental DNR acquired 1,304 acres underlying the Carter Stilley Mitigation Bank in Horry County; this tract was subsumed and dedicated into the adjacent Waccamaw River Heritage Preserve.
- In partnership with The Nature Conservancy, the OEP positioned the agency eventually to become the long-term steward of South Fenwick Island (approximately 400 acres) to secure the last significant unprotected tract in the ACE Basin National Estuarine Research Reserve; the majority of the island was acquired by TNC before the end of the year.
- Working with partners, DNR developed a strategy to allow the South Carolina Ports Authority to move forward with a conceptual mitigation plan on Daniel Island.

Boating Access and Engineering Section

- Four new boating access projects were completed in Allendale, Anderson, Charleston, and Spartanburg counties.
- 17 new boating access projects in 15 counties were initiated.
- Two existing boating access facilities in Lexington and Pickens counties were renovated.
- New construction of a work center was completed at Jocassee Gorges in Pickens County to centralize field operations and provide better shelter and security for equipment.
- In coordination with the Hunter Education Section, renovations were completed at a shooting range in Spartanburg County.

Media and Outreach

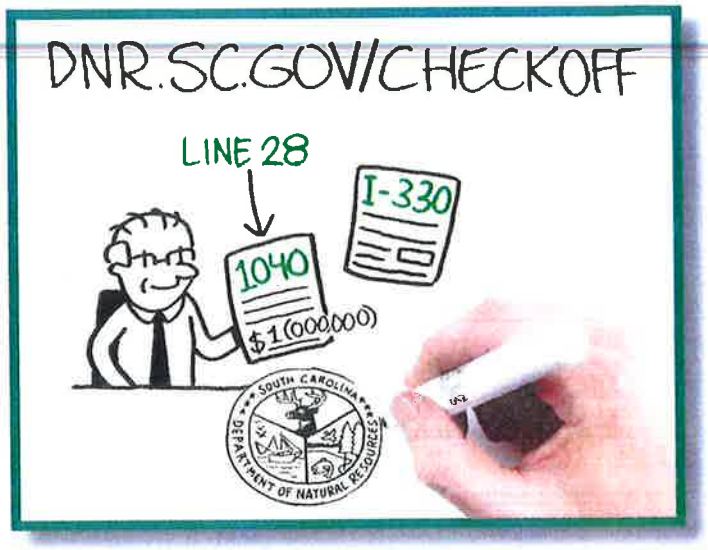

- Sponsored hunting and fishing shows on television and radio to promote the wide array of DNR programs, hunting and fishing opportunities, wildlife management areas, DNR state fishing lakes, and cultural heritage preserves.
- Advertised statewide in movie theaters pre-trailer advertising to promote safe boating and the 100 Deadliest Days of Summer campaign. These ads are aimed at preventing injuries and deaths related to boating accidents on public waters as a result of the unlawful of operation of watercraft by persons under the influence of alcohol and drugs.
- Advertised statewide via billboards and broadcast media to promote awareness of hunter and boater education; the prevention of injuries and deaths from boating under the influence, and hunting and boating accidents; and awareness of the benefits of using international orange while hunting, personal flotation devices while boating, and the recruitment of hunters, anglers and boaters into the outdoors

- Sponsored youth fishing rodeos, one of the most popular programs of the DNR. The department stocks ponds, and allows youth the opportunity to learn fishing, and have a fun, successful day catching fish. It provides youth an opportunity to experience the thrill of landing fish, and adults the opportunity to teach and learn the sport with their children.
- Partnered with FLW to promote the Forrest Wood Cup Bass Fishing Tournament on Lake Murray highlighting the fishing opportunities available in the state. This effort was an international event covered by live television with nationwide participation by adult pros, and collegiate bass fishing teams highlighting the agency's desire to reach out to youth in the fast growing segment of sport fishing.

- Media campaign developed to encourage donations to the DNR via tax return filing. Monies received from these sources are used by the DNR to enhance access and provide opportunities to enjoy quality outdoor hunting and fishing experiences for the sportsmen of this state on DNR wildlife management areas, cultural heritage preserves and state lakes.

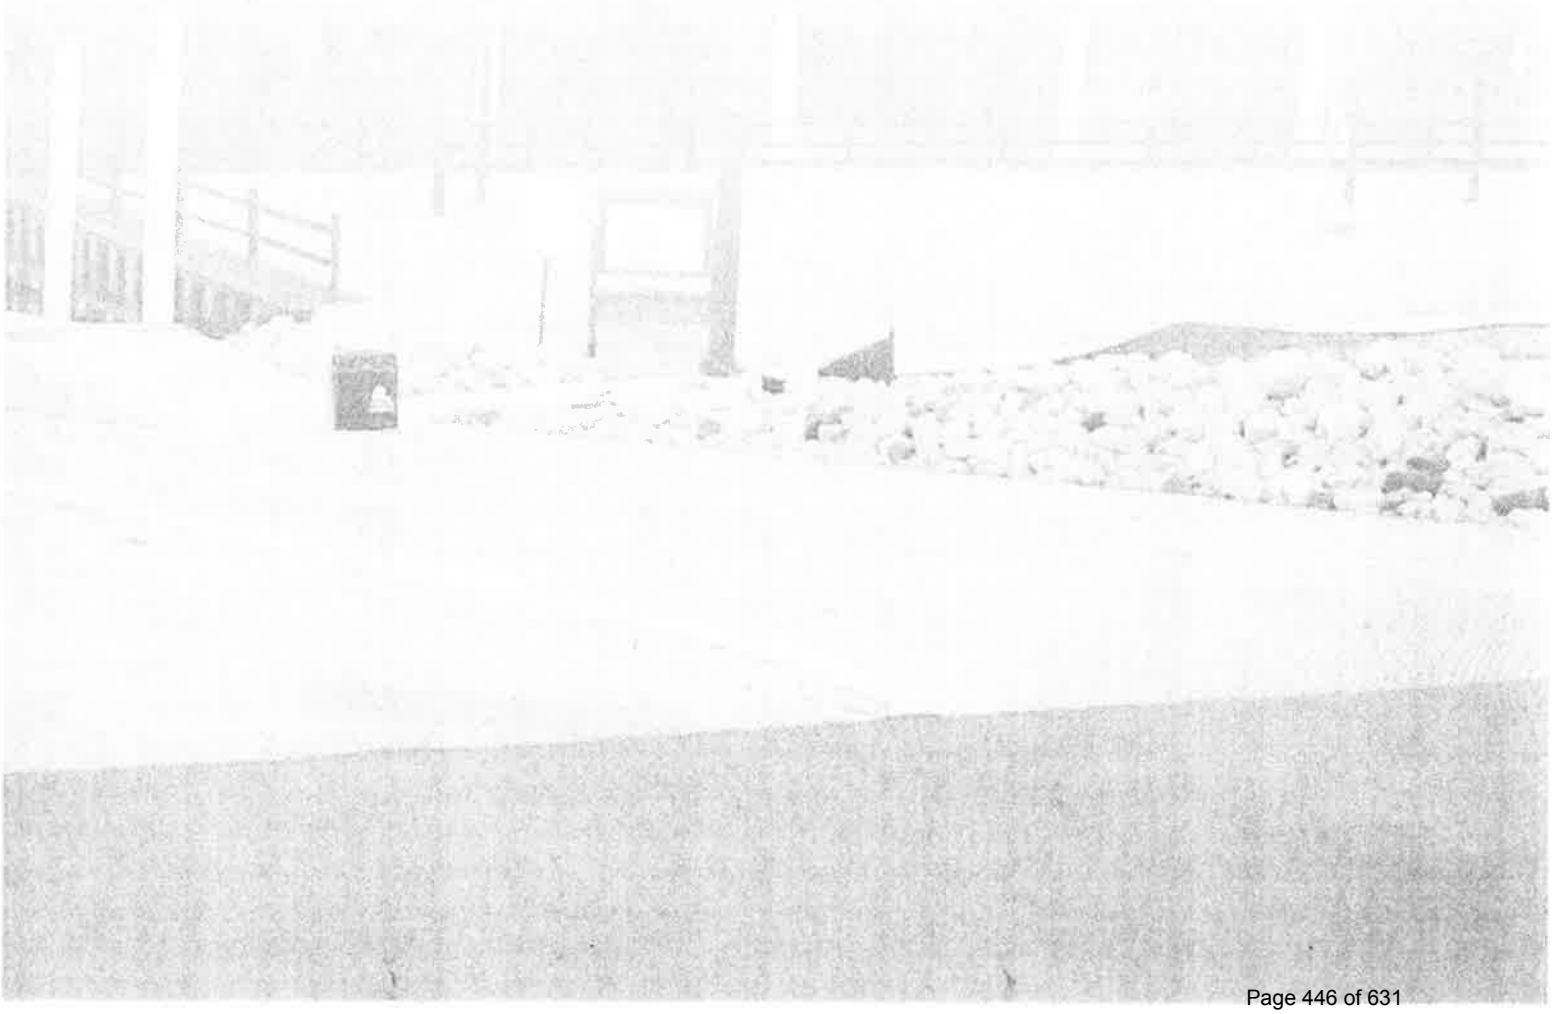

- Partnered with Hampton Wildlife Fund in hosting the Palmetto Sportsmen's Classic. This partnership makes the Palmetto Sportsmen's Classic a quality experience for the entire family while educating them about natural resource issues and opportunities. The Classic is expected to draw over 40,000 visitors.

Special Projects

- A regularly scheduled Civil Rights Review of the agency by the U.S. Fish and Wildlife Service was reduced to a desk audit due to a comprehensive Self Evaluation and Transition Plan that was prepared by the DNR and provided to the Service ahead of time. There were no major findings of noncompliance with civil rights accessibility regulations.
- The first meeting of the South Carolina Quail Council was coordinated to provide advocacy and support for implementation of South Carolina's quail and Grassland Bird Habitat Restoration Plan. The Council consists of the leadership from five federal agencies, seven state agencies, 13 NGOs and five private landowners.
- The DNR was one of several agencies/organizations recognized with a National Joint Venture Champions Award for habitat protection efforts in the lowcountry of South Carolina.

The South Carolina Department of Natural Resources prohibits discrimination on the basis of race, color, national origin, disability, gender, religion or age. Direct all inquiries to the Office of Human Resources, PO Box 167, Columbia, South Carolina, 29202.

2015 Accomplishments

www.dnr.sc.gov

LWC Accomplishments for 2015

- Major progress on the Surface Water Assessment project, including the completion of river basin models for the Saluda and Edisto River Basins and Stakeholder meetings in the Saluda, Edisto, Catawba and Pee Dee River Basins
- Partnered with U.S. Geological Survey to establish a computer-based statewide groundwater model
- Partnered with U.S. Army Corps of Engineers Charleston District to conduct water demand forecasts in the 8 major river basins of SC
- Substantial progress on the Savannah River Basin Comprehensive Study, which focuses on Corps of Engineers management of the reservoirs in the Savannah Basin
- Produced 3 geologic maps and made them available to the public in digital format
- Continued Earthquake Hazard studies and updated geologic hazard maps
- Completed Broad River sediment study
- Completed first year of the offshore sand study and database compilation for Bureau of Offshore Energy Management
- Conducted Coastal Vulnerability Study (multi-year project)
- Expanded Saltwater Intrusion monitoring network and Surface Elevation Table (SET stations) network
- Completed water level measurements in Black Creek, Middendorf and Floridan Aquifers
- Expanded digital capabilities and uses for the dissemination of information online
- Enhanced the LWC webpage with additional GIS capabilities
- Retained and recruited rainfall observers for the CoCoRahs rainfall monitoring network
- Coordinated 4 Drought Response Committee meetings and provided drought status reports to a wide audience of customers

- Provided weather data and interpretation to state and federal agencies before, during and after severe weather events
- Provided outreach and technical assistance to 261 communities in the National Flood Insurance Program
- Conducted Substantial Damage Assessments (SDA's) and trained local communities to do SDA's following the October Flood event
- Provided ordinance assistance to communities in 7 watersheds and 5 counties where preliminary Flood Insurance Rate Maps are available
- Provided 3 counties with updated flood maps
- Treated 2,764 acres of water bodies for the control of aquatic nuisance species
- Provided outreach and educational materials to the public at several events, including the Palmetto Sportsman's Classic and the SE Wildlife Expo
- Coordinated Aquatic Invasive Species prevention and management with border states and Santee Cooper
- Maintained 100% accurate GIS records of all ANS treatment areas
- Established a new Archeological database for the cataloging of properties and artifacts
- Expanded the Heritage Trust Cultural Resources program with a new Archeologist position
- Major progress on the Ft. Frederick restoration and access project in Beaufort County, including the completion of a documentary film on the history of the Fort and area
- Established a cultural resources survey plan for Wateree Heritage Preserve
- Repaired and enhanced the information kiosks at 17 Cultural Heritage Trust properties
- Developed restoration plan for Poinsett Bridge in Greenville County
- Provided technical assistance and administrative support to the Scenic River Advisory Councils

- Serviced 600 conservation plans for the 46 Conservation Districts, delivering Farm Bill Programs to farmers, ranchers and landowners

- Secured grant for rainfall simulator and began using it to assist farmers, ranchers and landowners in water conservation efforts

- Held a successful Envirothon, with 156 high school teams from across the State participating

MARINE RESOURCES DIVISION

OFFICE OF FISHERIES MANAGEMENT

- Initiated cooperative agreement with US Army Corps of Engineers to develop SC Shellfish Mariculture Plan
- Designed and tested electronic reporting platform for charter boat data reporting
- Tested use of tablets for real time entry of angler interview data
- Conducted night time survey of flounder gigging fishery, encompassing interviews with 134 parties between June and November
- Conducted interviews with 4,158 recreational anglers in all modes
- Printed 5th Edition of "Guide to SC Marine Artificial Reefs"
- Permitted one additional reef site increasing total area permitted from ~37 to 40 square miles
- Conducted 10 reef deployments during the year adding 100,000 cubic feet of material
- Completed contract for marine towing company to conduct reef deployments in coming year
- Received the highest total donations ($77,150, + 4%) to Governor's Cup in program history
- Recycled a record 28,547 bushels (785 tons) of shell
- Opened two new oyster shell public drop-off locations within Richland County and one in Berkeley County
- Initiated tri-county restaurant recycling initiative. In its first year the program added 19 new restaurants for a total 32 and increased the amount of oysters recycled from restaurants by 37%
- Planted 32,825 bushels of oyster shells on State and Public Shellfish Grounds, creating 13,101 square meters (3.24 acres) of shellfish habitat along approximately 1.2 miles of shoreline
- Community restoration program (SCORE) involved 4,065 volunteers in hands-on stewardship including but not limited to bagging oyster shell, building oyster reefs and growing/planting marsh grass

- Constructed 24 new oyster restoration projects

MARINE RESOURCES RESEARCH INSTITUTE

- Expanded MRD Conference to include agency-wide involvement
- Completed construction of an MRRI library conference room
- Began renovations of Waddell Mariculture Center laboratory
- Completed replacement of Turnure house roof, lab roof, and pump house roof at the Waddell Mariculture Center
- Stocked 315,377 spotted seatrout and 1,218,428 red drum in estuarine systems from Little River to Port Royal Sound
- Completed public meeting/involvement process for development of alternative management strategies for cobia in the southern inshore waters.
- Implemented flood monitoring to determine impacts to resources
- Logged 7,770 man-days of data collection in support of cooperative regional fishery stock assessments
- Participated in 9 SEDAR stock assessments of marine fish species
- Published 37 scientific articles in journals and magazines
- Submitted 82 proposals and were funded on 52 (63%)
- Awarded $4.5 million in grants and contracts from external sources
- Added new genetic tool – eDNA –to fisheries research and monitoring program
- Expanded aquaculture nutrition research program
- Completed quick Blueline Tilefish genetic evaluation for SAFMC
- Documented several success criteria for Robust Redhorse restoration program
- Documented genetic uniqueness of spring and fall spawning Atlantic sturgeon
- The Marine Resources Monitoring, Assessment, and Prediction (program) MARMAP completed its 43rd sampling year and the Southeast Area Monitoring and Assessment Program (SEAMAP) completed its 30th Trawl Survey sampling year.

- The MARMAP/SEAMAP-SA Reef Fish Survey:
    - Completed 49 sea days on the *R/V Palmetto*, 16 days on the R/V Lady Lisa, and 11 days on the *R/V Silver Crescent.*
    - Deployed 553 chevron traps, 85 short bottom long lines, 45 long bottom long lines, 116 water chemistry casts, and made 71 hook and line collections in off-shore waters.
    - Caught, identified, and weighed 17,535 fish representing 69 species, and kept 5,201 fish for life history (age, growth, reproduction, diet) studies
- The SEAMAP-SA Trawl Survey:
    - Completed 69 sea days on the *R/V Lady Lisa.*
    - Made 329 (dual-net) trawls and 329 water chemistry casts during three sampling seasons in near-shore waters.
    - Caught and processed 933,777 fish, 101,858 crustaceans, and 47 turtles, and kept 4,012 individuals for life history studies.

COASTAL RESERVES AND OUTREACH

- Hosted MRD Fall Open House at Fort Johnson with 1,700 in attendance
- Boating Infrastructure Grant: 10 current projects underway totaling $ 3,937,486 (federal funding); 10 new proposals submitted totaling $ 6,065,186 (federal funding)
- Clean Vessel Act: 47 projects completed or currently in progress at 36 facilities; 2 new proposals submitted (coastal & inland) totaling $ 1,562,918 (federal funding)
- Nearly 400 coastal decision-makers (county and municipal) received training promoting stewardship of natural resources.
- 10 youth-focused saltwater fishing events along the South Carolina coast, including pier fishing tournaments and fishing rodeos.
- Completed renovation of Capers Island impoundment, then damaged by storms.
- Reached approximately 5000 students and teachers through our K-12 grade marine education programs.

FINANCE AND BUDGET SUPPORT

- Initiated replacement of engines in *R/V Palmetto*
- Responded to physical plant/building & electrical needs during October flooding event
- Supported Information Technology, AV, and GIS needs of over 200 scientific and administrative users at DNR's Charleston, Bennetts Point, and Waddell facilities with an IT/GIS staff of only 3
- Implemented Virtual Local Area Network (VLAN) configuration on DNR Charleston network to improve local network security and efficiency
- Migrated 95% of MRD computer users to Office 365 subscription services for Email and Office Applications
- Redeveloped and maintained the Governor's Cup Billfishing Series website using modern web standards
- Developed, maintained and improved numerous scientific databases (e.g., Eagle Nesting, Botany Bay Volunteers, Vehicle Mileage, Uniform Ordering, Bears Bluff, Inshore Fisheries, Mariculture tagging, MRRI Presentation, LE Marine Events, WFF Diadromous acoustic telemetry)
- GIS office successfully produced all necessary Commercial Shellfish bed maps on annual schedule.
- Supported DNR's Chief Information Security Officer in addressing and improving all IT security concerns (hardware, software, networking) in the DNR Charleston location.
- Document and address continued deficiencies in Internet bandwidth to DNR's Charleston offices.

OSS 2015 Accomplishments

- The retooling of IT- The hiring of the Direction of IT, the GIS Analyst and the Network Administrator. The development of a clear direction for IT which includes a clear direction for IT's support role to the agency, staff cross training and coordination and server platform transition plan.

- A thorough review of the agencies major funding sources staring with 4609 that has allowed for better budgeting and forecasting.

- Integrating end user staff throughout the agency on OSS administration interview panels in order to provide the users with a voice in the hiring process on positons that impact their functional areas.

- Completed the move of licensing section the SC Farmers Market to the create DNR at the Market This move served as a beta test for moving major components of the department's infrastructure which included , but was not limited to (IT hardware , Phones, Deposits, Mail, and data communications).

- Boat Titling & Licensing took the first step at redefining how we train our Customers Service Specialist, utilizing MTI and with the hiring of a new trainer.

- Successfully transitioned the administrative components of the Water Recreation and County Game & Fish Funds to different personnel.

- Implemented VoIP telephone Call Center for Licensing and Boating. This permitted the Licensing section to relocate to Farmer's Market location while maintaining current telephone numbers and "Call center" features. VoIP calling will lower the monthly phone bill for the Licensing and Boating section. **The direct acquisition of VoIP phones as compared to purchase/lease of VoIP phones from service provider results in an additional $250.00 per month savings.**

- Implemented "Time Matters" Case Management Application in Legal office. Application will streamline the gathering of documentation (documents, e-mails), scheduling of meetings/Court dates and permit the sharing of information. All data is stored in a SQL server database.

- The initiation of Electronic Forms (E-forms) training. Secured E-forms training at **a $12,000 cost reduction** which will train DNR IT staff in the creation of Electronic Forms for multiple agency uses. The test form will be the creation of the E-purchase order, but will be available on all types of forms and uses.

- SCI Commercial Licensing: SC-DNR and SCI staff worked on documenting and analyzing the Commercial Licensing and Permitting application. All document and System Analysis documents are being finalized and will be used to rewrite the application with an implementation deadline of May 2016

- Due to extensive technical issue with the original, 3 year old Dell "NAS" server, which is used for document sharing across the agency, a new Dell "NAS" server was acquired and implemented. **Extensive discussions with the hardware vendor, Dell Inc. resulted in a new server being provided to SC-DNR at no cost.**

- USGS Groundwater grant: Working with the SC-DNR Hydrology group a $49,500.00 technology grant was received for the development of web-services to provide 'real-time' access to Well data. This grant will be used purchase server hardware that will increase the SC-DNR processing power by 25%. The development of Web-services by hired consultants will provide the SC-DNR with technical templates for future development of web-services for secured data sharing initiatives.

- Digital Communication Management: An RFP was developed and posted to implement a vendor provided solution for SC-DNR List server needs. The current SC-DNR List server was does not comply with federal laws regarding "opt out" features and resulted in the agency domain "DNR.SC.GOV" being blacklisted as a spam site. Utilizing a vendor provided solution will permit adherence to all Federal laws.

- MRD Network Capacity: Increased MRD bandwidth to 20 Mbps, working on further expanding there capability.

Wildlife and Freshwater Fisheries Division 2015 Accomplishments

Freshwater Fisheries

- The twelve year Robust Redhorse Restoration Project reached a major milestone in 2015, with the first detection of natural reproduction of the species since its assumed extirpation. Two individuals were genetically determined to be wild spawn fish, off-spring of hatchery produced fish, and likely hatched in to different years.

- The fish production partnership with the USFWS enabled the stocking of a record number of phase II striped bass in Santee Cooper Reservoir during the 2015 growing season. This was essential to determining the utility of using enhanced grow-out as a management option.

- Produced and stocked over 11.5 million fish and over 288 thousand pounds of fish into public fishing areas in support of fisheries and conservation projects.

- Certified over 35,000 grass carp as sterile for stocking into South Carolina waters.

- Completed renovation of 8 production ponds and a water supply access road at the Cohen Campbell Fisheries Center

- Reopened the Barnwell Fish Hatchery to expand storage capability and prepared for future production expansion.

- Completion of a three year angler creel survey of the Lower Saluda River which included approximately 800 angler interviews.

- Completion of a three year trout growth and mortality study in the Lower Saluda River.

- Completion of a comprehensive inventory and assessment of the Lower Saluda River's fish community as a whole.

- Initiated a study of the Waccamaw River in collaborative effort between Region 4, Region 2 and North Carolina Wildlife Resources personnel.

- Participating in a multi-state SWG Grant for work on the Great Pee Dee River to support the regional robust redhorse restoration effort.

- A publication was accepted by the SEAFWA Proceedings of the results of the flathead catfish study on the Little Pee Dee River, a collaborative effort between SCDNR and GADNR.

- The Family Fishing Clinics Program included 44 Clinics with 1,054 participants and 20 new instructors trained and certified.

- The Youth Fishing Rodeos Program included 20 rodeos with 2,994 participants.

- Youth Bass Fishing Clubs were supported at 35 schools with 502 students involved.

- SCDNR Youth Bass Fishing Championship was attended by 51 schools with 146 student anglers to the tournament.

- Trout in the Classroom Program included 19 Schools with 2,000 students coming in contact with the program.

- Fishing Tackle Loaner Program included 30 sites where 696 participants have borrowed 1,480 rods and reels.

- The Reel Art Program included 26 schools with 674 pieces of artwork submitted for judging.

- The Fish Habitat Partnership that constructed all the concrete fish attractors in Santee Cooper

- New blue catfish management regulations to effect on Lakes Marion and Moultrie.

- A five year project that monitored the movements of adult striped bass in J. Strom Thurmond Reservoir and their use of an artificially oxygenated area was completed. During the study 169 striped bass were monitored with acoustic telemetry resulting in 8.25 million locations and 1.8 million temperature observations of the instrumented fish. This data was used to describe the seasonal movements, habitat use, and mortality of striped bass and will improve our ability to manage this fishery.

- A collaborative project with MRD and GADNR was initiated to develop environmental DNA for detection of blackbanded sunfish, a species of conservation concern. This tool will allow detection of a species from a water sample. Environmental DNA has great potential to improve the detection of rare species in hard-to-sample habitats.

- The publication, "Dominance of invasive mollusks in the benthos of Lake Marion" was completed. For the first time, it fully documents the abundance and defines the critical role that invasive Corbicula clams play in the ecology of Lake Marion.

- Work was completed on the first 90 acres of fish habitat enhancement at Lake Hartwell utilizing funding form the Lake Hartwell PCB natural resource damage

settlement. Permits were obtained through the U.S. Army Corp of Engineers to all work to be initiated at five additional sites in Lake Hartwell.

- The visitor's center and viewing room at the St. Stephen Fish Lift facility was renovated through the collaboration of SCDNR and the U. S. Army Corps of Engineers. Visitation at the facility increased some 325% over the previous six year average. During 2015, 1244 visitors tour the facility up from the six year average of 384 (between 2009 and 2014).

Wildlife Management and Statewide Projects

- Maintained a public hunting program on over 1 million acres of public land. Added over 12,000 lands to the WMA program through acquisitions and cooperative agreements with landowners.

- Wateree River Heritage Preserve and Liberty Hill WMA were prepared for public access and opened to the public for hunting and other natural resources dependent recreation.

- Prepared and maintained 45 Public Dove Fields, encompassing over 1,700 acres throughout 27 counties. These fields provided opportunity for over 3,500 adult hunters and over 200 youth hunters on opening day of dove season.

- Deployed 15 automated recording units (ARUs) to record gobbling activity and chronology from March 1 – June 1.

- Collected biological data from all bears harvested during the 2015 mountain bear season. Harvest of 91 bears was the 3rd highest total on record.

- Continued monitoring movements and habitat use of coastal plain bears using satellite telemetry.
- Control efforts and hog hunts on WMAs resulted in the removal of over 660 hogs.

- Filled key vacancies including Project Supervisor for the Upper Coastal Waterfowl Project, numerous technicians on the Upper Coastal, Heritage Preserve Biologist for Region 4, and Heritage Preserve Biologist for Region 3.

- Managed habitat, facilities, infrastructure and access on over 260,000 acres of Department-owned lands which occur on over 85 WMAs and Heritage Preserves across the state.

- Established a day use pass requirement on selected WMAs to get a representative sample on the number of non-hunting visitors using WMAs and what non-hunting activities are occurring on these WMAs.

- Special hunt opportunities provided on WMAs included 15 Special Youth Dove Hunts accommodating 273 youth hunters, 54 Special Youth Deer Hunts

accommodating 348 youth hunters, and 9 mobility impaired hunts accommodating 205 hunters. In addition, a Wounded Warrior Dove Hunt was held on Canal WMA by Region 4 staff in cooperation with USACE staff.

- Management and maintenance activities on WMAs and Heritage Preserves include planting of 2,667 acres of annuals, planting of 145 acres of perennials, mowing or disking of over 10,265 acres, prescribed burning of 14,198 acres, maintenance of 376 miles of firebreaks, mowing of 478 miles of dikes, re-topping of 15,840 linear feet of dikes, mowing of 751 miles of roads, grading of 539 miles of roads, re-topping of 51 miles of road with gravel, maintenance of 205 miles of trails, and maintenance of 233 miles of WMA boundary with posting of 4,675 signs.

- Botany Bay Plantation WMA/HP accommodated 68,227 visitors and 29,995 vehicles. As a result of continued diligence of on-site staff, roads remained open on the WMA despite excessively wet conditions throughout the region.

- Completed a NAWCA Project on Bonneau Ferry WMA that resulted in significant enhancements to wetlands habitat quality and improvement of public hunting opportunity.

- Completed installation of a new swing bridge at Yawkey which will expand timber harvest abilities and facilitate efficiency in management.

- Transitioned to a single approach for turkey tags to minimize abuse and reduce cost.

- Obtained new turkey hunting season and a reduced bag limit through the General Assembly

- Hosted 63 youth and 38 adults at the Annual Palachucola Shooting Range Day

- Completed the update of the SC State Wildlife Action Plan and received approval from the USFWS

- Compiled an orientation handbook for new employees in WFF and conducted the first training session as part of an effort to expand employee preparedness.

- Initiated the Carolinas Bat Acoustic Project to gain a better understanding of bat species diversity and abundance.

- Administered a bird banding program which resulted in banding of 294 wood ducks, 147 black-bellied whistling ducks, 126 mottled ducks in support of state and region-specific research objectives and Atlantic Flyway banding goals.

- During the summer of 2015 with the help of many Wildlife and Freshwater Fisheries staff, USFWS staff, and several volunteers the Small Game Program was able to band 2,143 mourning doves. This is the most doves ever banded in a single banding season in SC and will greatly assist in determining dove populations throughout the state.

- Banded 460 landbirds encompassing 32 species, 18 of which are State Wildlife Action Plan species, to gain information on temporal and spatial patterns of species populations and assist in the development of population trends. First out of state band recovery from the wintering Baltimore oriole banding project was received. The bird was banded in Myrtle Beach, SC on 8 March 2011, and was recovered in British Columbia in August 2015.

- Initiated a two year study to assess the distribution of the Black Rail, a secretive marsh bird of special concern. Conducted surveys at 283 points on state, federal, and private lands in the coastal region of South Carolina and succeeded in finding black rails at 11% of the points.

- Continued participation in a multi-state Black-bellied whistling duck color banding project in which 143 ducks were color banded in 2015. A total of 250 birds have been banded in SC. Sightings have occurred in Florida, Georgia, New Jersey and Virginia. Recently a group of 7 made a fall migration from Georgetown County to Orlando Florida.

- Worked with the General Assembly to file Senate Bill 454 related to a limit on antlered deer and a tagging program for deer in SC. Conducted 7 public meetings on these issues with 685 people in attendance. Produced a "virtual meeting" that was posted on the agency website which received participation from 4,556 individuals. Produced a comprehensive report detailing these activities.

- Complied with Senate Joint Resolution 463 which directed SCDNR to conduct a review and produce a report of wildlife tagging, validation, and methods for checking harvested game utilized in other states with recommendations concerning such programs in South Carolina.

- Competed year one of the cooperative research project with Louisiana State University entitled "Preliminary evaluation of reproductive phenology and ecology of Eastern wild turkeys in South Carolina". This included the capture of 83 wild turkeys and the subsequent monitoring of 75 of the birds which were outfitted with GPS radio-telemetry units.

- The South Carolina Bobwhite Initiative was initiated in 2015 after the South Carolina Quail Council was created in December of 2014. A Prescribed Fire Committee, an Education and Outreach Committee and a Technical Committee were subsequently created. In the last year the SC Bobwhite Initiative has

developed a facebook page (https://www.facebook.com/scbobwhites/), a website, developed prescribed fire strike teams, developed four focal areas, and has begun reshaping the landscape in order to provide more suitable habitat for bobwhite quail and other grassland/pine savanna species.

- The Indian Creek Wildlife Habitat Restoration Initiative was revived and expanded to cover 40,000 acres of agricultural and forest lands in Newberry and Union Counties. The restoration efforts focus on bobwhite quail the other species associated with woodland savannas such as Loggerhead Shrike, Prairie Warbler and Bachman's Sparrow. Extensive habitat work has been completed in the area and the bobwhites are already responding, a record high 20 coveys were heard calling during the 2015 Fall Covey Count Survey. The Indian Creek WHRI was also designated as a SC Bobwhite Initiative Tier 2 Focal Area, which follows the extremely intensive National Bobwhite Conservation Initiative 2.0 protocol and is a gold star standard for bobwhite quail habitat restoration work.

- Initiated efforts to establish a Red-cockaded woodpecker population at Donnelley WMA. Funding was secured for the purchase and installation of 36 inserts, anticipating the translocation of Red-cocked woodpeckers.

- Established Tompkins Island as a SCDNR seabird sanctuary to protect the largest Royal Tern colony in the southeast.

- Began an effort to identify and provide population estimates for gopher tortoise populations in South Carolina, and completed the first population estimate at Tillman Sandridge Heritage preserve since 1998 (results indicate ~232 adult tortoises). Additional surveys to be completed in early 2016.

- Extended MOU with Florida Fish and Wildlife Conservation Commission (FFWCC) to support efforts to restock Gopher Tortoise at the Aiken Gopher Tortoise Heritage Preserve (AGTHP) by allowing FFWCC to provide up to 112 additional tortoise for relocation to AGTHP.

- Documented successful breeding activity of pine barrens treefrogs (state threatened) at three new locations on public lands in the 2015 survey season.

- Began a project with Clemson University (Dr. Kyle Barrett) to survey the Blue Ridge province for several SWAP 2015 species (bog turtle, wood frogs, pickerel frog, milk snake, dwarf black-bellied salamander, and patchnose salamander) to run through fall 2016, and had 10 detections of targeted species.

- Work continues on the upgrade of the Lottery Hunt Program. Online application and email notification have eliminated almost all of the very expensive postage costs. During 2015, 12,433 persons applied for 10 different hunts; 3,849 persons (31%) were selected and notified. There was an 18% increase in persons

applying for the waterfowl hunts, a 21% decrease in persons applying for the alligator hunts and $200,130 in application fees were deposited.

- Issued 228 Predator Management Permits for 387,479 acres which is a 92% increase in permits and 33% increase in acreage from 2014.

- Coyote Control & Management: Conducted 17 seminars/presentation with 1,008 persons attending. Conducted 1 ½ day workshop at the Webb Center with 27 attending. Conducted a trapping demonstration at the SC Trapper's Convention with 75 attending. Created a coyote trapping video that is shown in the customer service area at all SCDNR offices.

- Ongoing alligator research project involved the capture and radio instrumentation of 24 alligators, 12 in Santee Delta & 12 in ACE Basin. Seventy seven alligator survey runs were conducted on 22 routes.

Boating Access and Engineering Section
Office of Environmental Programs

- Approximately 1,200 environmental reviews were conducted, and science based comments provided to state and federal regulatory agencies.

- Working with the Haile Gold Mine, Inc. and under their permit application to reopen the historic Haile Gold Mine in Lancaster County, we accepted mitigation tracts totaling 4,389 acres in Richland and Lancaster counties and executed an agreement to deliver a $9.4M endowment for management of the mitigation tracts and aquatic restoration in the Lynches River Watershed. All three mitigation tracts were dedicated under the Heritage Preserve Act.

- Under permit application to expand the Boeing aerospace facility in Charleston County, we continued to work with the Low Country Open Land Trust toward restoration and enhancement of wetlands on the Keystone Tract (1,682 acres) in Berkeley County. The Keystone Tract will eventually be transferred to DNR.

- Under permit application to expand the Volvo manufacturing facility in Berkeley County, we continued work with the applicant's agents, the Department of Commerce and Low Country Open Land Trust toward restoration and enhancement of wetlands on the Bannister Tract (1,667 acres) in Orangeburg County. The Bannister Tract will eventually be transferred to DNR.

- Working with the State Ports Authority and the Corps of Engineers we assisted with the conceptual plan to mitigate for impacts to streams, wetlands and water quality associated with the Charleston Harbor Deepening Project, aka Post-45. The mitigation strategy will result in acquisition of lands to be transferred to an appropriate agency for compatible public uses.

- In cooperation with DOT and Tidewater Environmental we planned the acquisition of the Browder Tract (69.7 acres) in Aiken County to eventually be subsumed into the adjacent Henderson Heritage Preserve to stand as mitigation for impacts to wetlands and streams associated with bridge construction over Upper Three Runs Creek. This acquisition should take place in early 2016.

- In partnership with The Nature Conservancy, we continued to work toward DNR taking title to South Fenwick Island (approximately 400 acres) to secure the last significant unprotected tract in the ACE Basin National Estuarine Research Reserve.

- Work has continued in partnership with the Department of Transportation to complete a conceptual plan to mitigate for the wetland and stream impacts associated with the construction of I-73 from Marlboro to Horry counties; the

conceptual plan includes the potential acquisition of 5,758 acres of land in the Little Pee Dee Watershed and incorporating and dedicating it into the Little Pee Dee Heritage Preserve. In December, the DOT Commission voted unanimously that the Gunter's Island tract be acquired and donated to DNR as compensatory mitigation for the roadway impacts.

- Working with CSX Railroad and its agents we formulated the acquisition of the King Tract (100 acres), a strategic in-holding at Marsh Furniture WMA as mitigation for wetland impacts associated with rebuilding a rail trestle over the Pee Dee River between Florence and Marion counties. This acquisition should take place in early 2016.

- Working with DHEC staff and the Interim Trustee of the Pinewood Landfill we assisted in the formulation of a draft long-term site funding plan designed to protect source water quality in the Santee River Basin.

- Working with the Conservation Fund we continue to explore strategies to restore streams and wetlands on the Tall Pines Tract in Pickens County with the long-term objective of acquiring the tract (1,250 acres) and establishing public use.

- Working with Clemson University and its new James Kennedy Waterfowl and Wetlands Center we participated in the successful conduct of a landowner/manager workshop that included over 100 participants focusing on wetlands management and restoration strategies.

- Coordinated with the Joint Venture Focus Area Task Forces to update existing plans, or write new conservation plans to be used in landscape level habitat planning, and worked to reinvigorate inactive Focus Area Task Forces.

- Three (3) new boating projects were completed in Charleston, Dorchester and Saluda counties.

- Sixteen (16) new boating access projects in fourteen (14) counties were initiated and are still under development.

- Two (2) existing boating access facilities in Dorchester and Horry counties were renovated.

- The design of a field shop /work center at the Bonneau Ferry WMA was completed and bids let for the construction in early 2016.

- The design for $1.1 million in repairs/renovations to the Waddell Mariculture Center office and lab was completed and advertised for bids for the construction of the renovations.

- The temporary offices for the licensing group were designed and constructed at the SC State Farmer's Market.

- Four (4) Building Condition Assessments and Reports were completed for properties in Richland and Kershaw counties in support of land acquisitions by the Department.

- Topographic surveys were completed for the design of the Sassafras observation tower as well as an easement survey and plat for the relocation of power lines on the mountaintop. Design of the project is currently ongoing.

- A 25,000 acre boundary survey of the Woodbury WMA property in Marion County was conducted by Department personnel.

- 8 land boundary/easement surveys were conducted by Department personnel in various locations in support of department legal staff for various projects/cases.

- Engineering staff assisted in evaluation of damages to DNR infrastructure due to the historic October flood event, including buildings, boating access facilities, state fishing lakes and roads and dikes on Wildlife Management Areas.

- Continued to follow-up on accessibility needs at DNR facilities identified in the Self Evaluation and Transition Plan developed under the Americans with Disabilities Act.

- Continued to coordinate and guide the maturation of the SC Quail Council, and assist the WFF Division in the establishment of at least 2-4 Focal Areas for implementation of the quail habitat restoration plan (SC Bobwhite Initiative).

- A Contribution Agreement was negotiated with the USDA, Natural Resources Conservation Service to fill two (2) biologist positions to support the SC Bobwhite Initiative.

- The Special Assistant to the Director served the first year of a two-year term as Chair of the Atlantic Coast Joint Venture (ACJV) Management Board. The ACJV is a habitat partnership in the 17 Atlantic states from Maine to Florida, and Puerto Rico.

- The biannual meeting of the ACJV Management Board was hosted in Charleston in March.

- A meeting of the North American Wetlands Conservation Act Council was hosted in Charleston in December.

- Coordinated the initiation of a study with Clemson University to evaluate the economic impact of natural resource related activities to the South Carolina economy.

Office of Media and Outreach

- Sponsored hunting and fishing shows on television and radio to promote DNR programs, hunting and fishing opportunities, public lands and diversity outreach efforts.

- Implemented integrated marketing campaigns on Checkoff for Wildlife, Go Fishing, Certified Seafood, Litter Prevention and 100 Deadly Days.

- Partnered with B.A.S.S to promote fishing in the Upstate at the Bassmaster's Classic

***South Carolina Wildlife* Magazine**

- Delivered six issues of South Carolina Wildlife to more than 40,000 subscribers in 2015.

- Increased photo contest participation from approximately 600 entries in 2014 to more 1,000 entries in 2015.

- Continued to refine digital database of more than 52,000 DNR photos.

- Won national award for a magazine feature story concerning Bear Island wetland management.

Litter Prevention Program

- Established a marketing and branding concept about litter which correlates with DNR's mission of wildlife and environmental conservation: *Litter…It's Not Natural*

- Created multi-use slogan: **UP2U** (legal steps to establish trademark for **UP2U**): to dispose of litter responsibly; to take pride where you live; to make a difference, etc.

- Created and maintained website: www.dnr.sc.gov/up2u

- Anti-Litter Campaign: Help-A-Critter and Help-A-Sea Critter (Turtle)

- Statewide media campaign including PSA, billboards and digital

Hispanic Outreach Program

- Created and maintained a DNR Spanish website containing more than 200 pages of information and educational materials.

- Translated licensing forms, kiosks signs, surveys, informational and educational materials, and advertisements. More than 50 printed or published resources.

- Attended Hispanic Festivals and outreach events, reaching more than 4,000 participants in 2015.

- Supported 3 DNR events offering bilingual capabilities: Socastee Fishing Rodeo, Ft Johnson Open house and Ridgeville Hunter Education class.

- Created Spanish YouTube channel with 4 YouTube videos and launched Spanish Facebook page.

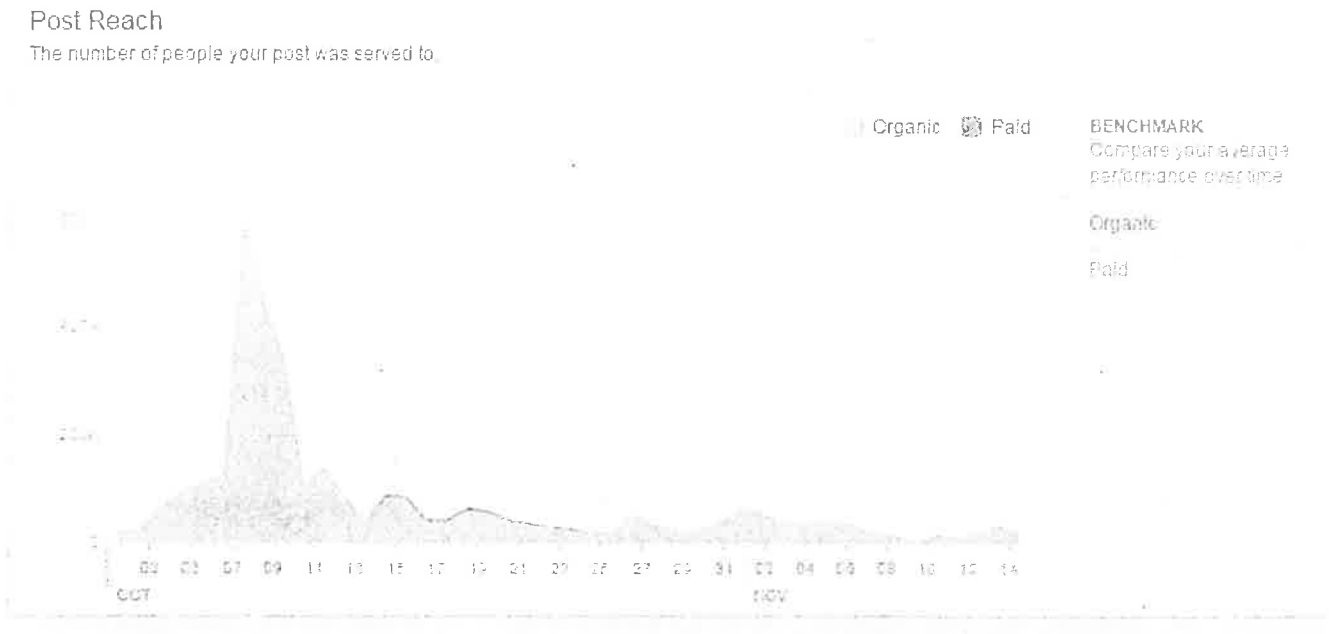

- Partnered with National and International agencies, to include the Mexican Consulate, Recreational Boating and Fishing Foundation, National Shooting Sports Foundation and Harry Hampton Memorial Wildlife Fund.

Social media

- Maintain multiple social media platforms to promote continuous dialogue with 67,000 Facebook, 11,400 Twitter and just under 7,000 Instagram followers

- Attached is a graph showing the enormous FB spike we saw during and immediately following the flood.

SCDNR

Graphics

- Completely 494 publications to include Rules and Regulations, educational and promotional materials.

SCDNR Video Section Primary Accomplishments 2015

- Produced two TV spots promoting safety for the summer boating season. One featured Major Jamie Landrum and Lt Ken Simmons, and the other featured ACC Coach of the Year Dabo Swinney.

- Produced four DNR general information videos in Spanish with Hispanic Outreach Coordinator Alix Pedraza. Also set up Alix to begin captioning existing DNR videos in Spanish.

- Produced a TV spot promoting *South Carolina Wildlife* magazine.

- Produced a long-form video to promote the 75th anniversary of protecting public lands in South Carolina.

- Completed a volunteer training video that will increase the number of aquatic education fishing instructors while decreasing the amount of staff time needed for classroom training.

- Shot and edited a long version and short version small mammal trapping video with DNR biologist Jay Butfiloski. It is being used in our license lobbies, on YouTube and through the WFF Web pages.

- Produced a public service announcement and two additional support videos for the DNR's anti-litter campaign, coordinated through our Office of Litter Prevention.

- Wrote and supervised the creation of a Check for Wildlife PSA that utilized whiteboard animation to explain how to contribute to the DNR while doing your tax returns.

- Provided sound, photo and video support to Barnwell Hatchery reopening event that was attended by several local legislators.

- Updated, produced and delivered Palmetto Sportsmen's Classic radio and TV spots for 2015 to media outlets statewide. Also provided A/V, emceed the fishing tournament and made PA announcements during the Classic.

- Continued to maintain and update the informational videos being shown in all of the DNR local offices in our license sales areas.

- Hired a new employee, Danielle Kent, to edit DNR videos and assist with field productions and projects.

- Installed and received training on the DNR's first new digital editing system in several years.

- Provided A/V and photo support to WFF for dedication of the Sam Stokes Sr. Jocassee Gorges Field Office.

- Continued the time-consuming process of converting 16 mm films and analog tapes to digital. Several of these conversions were used in productions in 2015.

- Provided logistical assistance at each of the regional offices for the creation of a new Law Enforcement Directory.

- Inter-agency and outside organization video support efforts:
  Shot and edited videos for Sheriff of the Year and Deputy of the Year for the **SC Sheriff's Association**.

- Provided **SLED** with requested DNR-produced safety videos for their use.

- Provided video to **DHEC** to support a video they produced on state hydrology.

- Provided video to TV news stations to support natural resource news stories, including **WPDE and WSPA.**

Law Enforcement Division

Accomplishments

- All officers are now on the same career path throughout the division. In addition, we have added step increases at the 15 and 20 year service time mark for Majors and below.
- The Law Enforcement Division awarded over 160 salary increases to sworn and non-sworn personnel.
- Promoted two Captains, these Captains will replace Captain Mike Sabaka's position who was promoted to Legislative Director and Captain Tim Baxley's position who is retired on December 30th.
- Promoted Cary Robinson to 1st Sgt. in Region 3.
- Continued with exemplary employee service to the Executive Protection Detail.
- With almost 27,000 Law Enforcement contacts (summons/warnings), complaints against officers have been extremely minimal.
- Officers issued 7,734 summons from January 1, 2015 thru November 31, 2015.
- Officers issued 19,189 warnings.
- Officers cleared 286 Warrants.
- Officers spent 50,358.50 hours on boating patrols resulting in 92,311 boats being inspected.
- 7,337.50 hours conducting Search and Rescue Missions.
- Three week security detail at the Statehouse for the removal of the confederate flag over 60 officers were assigned to work this detail.
- Memorial Day Bike Week – Ninety Two (92) officers were deployed to this detail which involved assisting four (4) agencies; Horry County PD, Myrtle Beach PD, SLED and Surfside PD.
- October Flood Event – Assisted in a nine (9) days flood event involving 158 officers in 11 counties.
- Over Nine Hundred Thirty (930) rescues were completed during the flood event.

- Coordinated security at DSNAP registration centers for flood victims with SLED. Detail required assignment of One Hundred Twenty Two (122) officers to provide security for these locations. Twenty Four (24) counties were serviced over Twenty Five (25) days.

- Darlington Bike Rally – Thirty officers (30) were deployed for this five (5) day detail.

- Region Officers conducted 3,360 public presentations to schools, churches, civic groups.

- Region officers conducted 112 media events (TV, Radio, print interviews).

- Regions hosted 19 Fish Rodeos with 3,871 kids attending. Rodeos were held in the following counties: McCormick, Union, Edgefield, Oconee, Greenwood, Greenville, Chesterfield, Darlington, York, Lancaster, Barnwell, Lexington, Charleston, Berkeley, Jasper, Horry, and Dorchester.

- Conducted 56 Courtesy Boat Inspections statewide, 343 boats inspected, 71 violations prevented, 32 BUI's during the boating season

- Answered 13,238 calls for service.

- Law Enforcement Division attended 8 Deer Forums.

- Law Enforcement Division coordinated six (6) Boating Forums across the state for public input.

- Continued in the switching the LE files from CAT to Oracle.

- Hosted Jack Enter to come give a two (2) day leadership class. All Captains and below attended the training.

- 6 supervisors attended the FBI Command College held in Myrtle Beach, SC.

- 3 supervisors were enrolled in the CPM training: Captain Swink, Lt. Thomas, and Lt. Corbett.

- Majors Poole and Landrum completed the final week of NACLEC 3 week long Leadership Training in Shepardstown, WV.

- Investigator Greg Brown was named IAMI Investigator of the Year.

- Investigator Tony Spires received an award for Top Investigator out of 56 investigators for his abilities at the IHEA Hunting Incident Investigation Academy.

- 4 divers completed 13 month Dive Instructor training which will enable them to train all of our new divers in house.
- Provided new laptop computers for all field Lieutenants.
- Finished getting all major cell-phone service providers to implement #DNR on cell phones.
- The LE division sent 40 officers to train in Riot control with the SCHP, PPP, and SLED.
- The LE division sent 40 plus officers to train with SCHP in Active Shooter Training.
- 13 Officers completed Radiation Detection training in Anniston, AL.
- Issued Personal RAD Detection Devices to 25 officers in Region 4.
- Region One received $9,916.00 in Grant money from Palmetto Pride for the purchase of Night Vision and Plot Watcher surveillance cameras.
- Completed 7 Officer Memorials across the State.
- Held the Retirees Luncheon at Styx compound where we provided meal, fellowship, and new ID's and weapon qualifications to 70 retirees.
- Captain Downer did a presentation on Shooting Sports and Lt. Thomas presented the raptor case at SEAFWA. Lt. Thomas was selected for the best paper award.
- Continued process of buying Lake Wateree House from Duke Power to assist in Law Enforcement Operations.
- Recognized 8 officers and supervisors with the Colonel's On the Spot Award for exemplary work in the field.
- Established a new Aluminum Boat Contract.
- Replaced 13 boats of various sizes, 27 outboard motors, and 3 ATV's
- Updated new forms used by LE and posted on intranet for instant access and availability to all field personnel.
- Class of 20 officers completed all training June 17th with a class of 19 beginning their training on same day.

- Completed the new LE Officer directory.

LE Impact:

- LE Outreach efforts are estimated to have impacted over 180,000 South Carolinians in 2015.

  Hunter & Boater Ed-18,713 TOMO-77,126 Archery-44,000
  Shooting Sports-1,674 *Public Presentations-33,600 Fishing Rodeo-3,871
  *Courtesy Boat Inspections-1,372
  *Estimated Number
  (Interesting comparison only 26,193 students are recorded participating in high and middle school football in SC.)

Capital Improvements:

- Replaced the Roof and well pump unit at the Laurens boathouse.
- Extended boat ramp and repaired boat dock at Lake Greenwood.
- Completed major repairs to York Office (windows, doors, roof and ceiling).
- Completed getting water service to York office changed over from well to city service.
- Bundrick Island boat shed has been put out for bid.

Field Operations Regions 1-4 Major William Poole & Major Jamie Landrum

Significant Events/Cases

- After more than a year of surveillance on two different plantations in Jasper and Orangeburg Counties, Officers from Regions 2, 3, and 4, with USFW agents, served federal search warrants on both plantations concerning the illegal trapping and taking of Raptors. The case in Jasper Co. has been adjudicated with the LLC paying $250,000.00 in community restitution fines, and 3 subjects received fines ranging from $1000.00 to $1,500.00. The case in Orangeburg County netted 10 counts and $15,000.00 fines for each count.
- Lexington County officers investigated hawk pole trap violations which concluded with 8 state charges for illegal traps, $4,950.00 in fines and restitution.
- 1st Sgt. Robinson, CO Baxley, and PFC Douglas performed a water rescue on October 4 during the floods in Clarendon County. These three officers saved two lives out of swift water while risking their own life.

- During the flood CO JB Smith and SGT Travis Dudley received a report that the "lower income" neighborhoods in the lower Richland area seemed to be neglected. While patrolling these areas, many residents came out to them begging for water. They had 10 cases of water with them and quickly passed it out. They quickly got word to SGT Britt who obtained an additional 30 gallons and 20 cases of bottled water from the military which was distributed. CO Rodney Paulk, SGT Pat Rivers, and SGT Robbie Barnes graciously volunteer to help with this mission to reach the area of the county that have not seen any LE or assistance. Sgt's Rivers and Barnes delivered a pallet of bottled water and CO Paulk handed out 275 gallons of water to those in need. The people were extremely grateful of our officers and very glad to see them. SGT Rivers visited 36 homes she knew of with elderly ranging from 85-95 year olds who could not get out of their homes for any assistance.

- Orangeburg County officer Justin Whetstone made a large drug and money seizure while checking fishermen in Orangeburg County. Officer Whetstone seized a handgun, 81 Oxycodone pills and $34,000.00 in cash. The subject plead guilty in court to possession of a controlled substance and the department is currently working with legal staff to seize the money.

- Pfc. Wes Stewart was chosen as the State Officer of the Year.

- Congratulations to Region Officers of the Year: Region 1 L/Cpl. Erik Martin, Region 2 Pfc. Wes Stewart, Region 3 L/Cpl. Steven Johnson, Region 4 Sgt. Freddie Earhart, Education Sgt. Ken Cope.

- L/Cpl. Mark Jervey was chosen as the SC NASBLA Officer of the Year.

Region 1 Accomplishments Captain Mike Isaacs

- Received a New Deer Decoy from QDMA Foothills Chapter for Greenville and Spartanburg Counties

Region 2 Accomplishments Captain Sandy Young

- Hired Administrative Assistant at York Office bringing York office staff to two. This insures that York office will be able to maintain state office hours.

- Hired Administrative Assistant for the Florence Office.

Region 3 Accomplishments Captain Harvin Brock

- CO. JB Smith won the State Officer Survival Competition.

- Officers Gilmore and Smith saved a suicidal man's life on Lake Murray Meth seizure.

Region 4 Accomplishments Captain Gentry Thames

- Completed all elements of the JEA 2014/2015 JEA Contract with NOAA.
- Awarded 2015/2016 JEA valued at $536,610.75
- 4 officers completed four week FLETC Marine Law Enforcement Training Program in Brunswick, GA.
- 2 officers completed FLETC night navigation course in FLETC, Charleston, SC.
- Conducted Mass Rescues Exercises Charleston Harbor with USCG and local
- Region 4 officers participated in 8 "Hammerhead" events along SC Coast. These are State and Local Agency Homeland Security Water Enforcement events headed up by SLED.

Overt / Covert Investigations Captain Gary Sullivan

- Investigated 21 boating incidents fatalities (19 reportable).
- 1 of the above investigations resulting in one count of homicide by boat.
- Investigated 3 hunting incident fatalities.
- 1 of the above investigations resulted in one count of felony criminal negligent use of a firearm.
- 1 Investigator attended Post Critical Incident Training.
- 1 Investigator attended the SSI Science of Diving Training.
- 1 Investigator attended Survival Swim School.
- 4 Investigators attended the Specific Skills Instructor Class.
- 2 Investigators attended open water instructor school.
- 1 Investigator attended MRN training forum.
- 2 Investigators attended the IHEA Hunting Incident Training in Georgia.
- 4 Investigators attended Cultural Professionalism Training.
- 2 Investigators attended Reid Interviewing and Interrogation training.
- 1 Investigator attended Master Diver Training.
- 1 Investigator attended Nitrox Training.

- 1 Investigator attended Basic Environmental Crime Training.
- 3 Investigators attended the 25th Annual IAMI Training Seminar.
- 1 Investigator attended the 41st Annual IAATI Training Seminar.

Marine Theft Investigations Operations

- 909 marine theft investigations
- Recovered equipment valued at $120,400.00

Wake Zone Investigations

- 66 NO WAKE zone investigations
- 3 NO WAKE ZONES approved

B-SAF Team

- Conducted 9 B-SAF patrols inspecting 1,320 boats resulting in 108 summonses, 442 warnings and 15 BUI's

Covert Operations

- A total of 192 requests for covert investigations/request for Intel/assist.
- Covert operations, also lead to over 100 non wildlife crimes (i.e. larceny, stolen property, alcohol violations, and internal investigations).
- Conducted 11 Intel/background checks for SCDNR reptile permit applicants.
- Assisted with paperwork and implementation of 3 GPS tracker warrants for SCDNR Law Enforcement cases.
- Hosted Tri state (SC, NC, and GA) covert meeting in Columbia discussing cases and mutual areas of concern.
- Conducted Presentation for University of South Carolina School of Law on animal crimes and wildlife law violations.
- Closed an 11 month internal investigation resulting in a successful conclusion.
- Assisted USFWS, USDA, and 5 additional states with Investigations and Intel resulting in 10 cases being made and 12 pending violations. Some of the violations included the illegal importation of live coyotes into NC and fraudulent licenses cases.

- Added GPS tracker apps to covert phones for covert officer safety.

- Worked internet/social media cases / investigations resulting in 7 cases being made including the sale of deer and bear parts.

- Conducted operations in 3 regions of the state targeting the commercial buy/sale of game fish in restaurants. In total 28 cases and 5 warnings were made at 32 locations across the state.

- Conducted operations at flea markets in the upstate of SC targeting the sale of wildlife, fish, reptiles, and seafood.

Diving Operations

- Total Dive Assignments 71 with Total Dive Hours 2840

- 14 body recovery assignments resulting in 9 recoveries.

- Made evidence recovery on 8 of 14 dives assisting state, local, and federal agencies.

- 4 applicants completed the 13 month SSI Dive Control Specialist Course and went on to receive their SSI Instructor Rating.

- DNR Instructors trained a new class for the AIR Team.

- Divers recovered parts from Cessna/F16 crash in Berkeley County along with pilot and passenger remains.

- Divers recovered plane and pilot in Bob Russell crash in Columbia.

- Divers recovered Fuel Cells from Air Force jet in Orangeburg following an emergency landing.

- Divers recovered the body of a 5 month old victim of homicide in Horry County.

ATON Operations

- Surveyed 1,900 aids to navigation buoys and replaced 279 missing or damaged buoys/signs.

- Completed marking and removal of 173 illegal buoys on Lakes Keowee, Murray and Wylie.

Marine Events

- Approved 649 Marine Events for the year.

- Streamlined the approval return documentation for Marine Events to requestor and Regions.

Staff Operations Accomplishments - Major Mark Carey
Law Enforcement Education & Outreach – Captain Billy Downer

Administration

- Hired an hourly Administrative Specialist to assist with Take One Make One administration.

Hunter Education

- Taught 14,556 students in Hunter Education for 2015.

- Launched an Internet Only Hunter Education Course which allows students to complete their hunter education requirement totally online. 6,406 students completed the new online course in 2015.

- The section offered 8 Hunting Clinics across the state in an effort to teach specific hunting skills to Take One Make One students as well as the public.

- Held the first College Hunting Clinic in partnership with Clemson University. 17 students attended this class and 1 was taken on their first deer hunt afterwards.

- Launched a new radio initiative in partnership with the weekly "Sports Talk" with Phil Kornblut on every other Wednesday evening from 7:30-8:00PM,

Boater Education

- Taught 4,157 students in Boater Education.

- Developed a Virtual Boating Simulator Trailer which is the first of its kind in the country. The Boating Simulator visited 33 events in 2015 with 40,939 people participating.

- Continued successful partnership with US Coast Guard Auxiliary for teaching boater education and distributing over 12,000 SC Boater Handbooks to local landings and marinas across the state.

- Continued to foster partnership with Wendy's for the "I Got Caught Wearing My Lifejacket" tickets for a free Frosty.

- Boating Safety Radio commercials aired at all Carolina & Clemson Baseball games March through April.

- Coordinated Boating Safety displays at Clemson and Carolina baseball games using the wrapped Pioneer boat.

Archery in the Schools

- 1765 students participated in four Regional Archery Tournaments across the state in an effort to allow more schools to participate in a tournament experience.

- 685 students participated in the 10th annual South Carolina Archery in the School 2 day archery tournament. There are 44,000 students actively shooting archery in 296 schools across SC.

- To date, 1065 teachers have been trained as Basic Archery Instructors.

- 25 additional archery kits delivered to schools across the state.

Take One Make One

- Take One Make One coordinated 71 hunts in 2015 with 326 participants.

- TOMO Trailers visited 96 events with 44,143 people participating in 2015.

Youth Clay Target Sports

- SCDNR sponsored the first annual SCDNR Sporting Clay Open at the NWTF Palmetto Shooting Complex. 440 students and 1400 people total were in attendance at this inaugural event.
    - Ten new school teams were formed thanks to this event.
    - SCDNR and other sponsors presented a total of $24,500 in college scholarships to graduating seniors. Hampton Wildlife Fund gave $9,000 of these scholarships.

- Held the first annual SCDNR Youth Skeet Open at the Palmetto Shooting Complex in Edgefield, SC in December 2015. 274 youth shooters participated in this event making it the largest youth skeet event ever held in South Carolina.

Ranges

- Completed the Palmetto Hunting Heritage Shooting Center in Edgefield, SC with the NWTF. - $2,000,000

- Continue to work with the US Forest Service to expand the Twin Ponds Rifle Range to include a pistol range and man the range five days a week to improve the conditions at this site.

- Started purchase of Indigo Gun Club in Richland County.

- Worked with Laurens County to build Archery Range with an elevated tower.

Honor Guard

- Conducted 11 details including:
  - 1 flag presentation for a DOT worker who was killed during the October flood in Richland County.
  - Memorial services for fallen Wildlife Officers across the state where memorial stones were placed at graveside.
  - 3 Color Guard assignments.

EMD/Supply/Dispatch/Radio Communications/Aviation – Captain Karen Swink
EMD/HOMELAND SECURITY

- Promoted FSGT Cary Davis as an Intelligence Analyst assigned to Seahawk in Charleston

- Fifteen (15) Personal Radiation Detector's purchased from the Port Security Grant were issued to Region 4 officers.

- Rhodium Incident Management Software was procured to assist in event management.

- Coordinated two (2) lake clearing events for VC Summer and HB Robinson nuclear facilities. Both exercises were graded by FEMA and DNR received high praises for knowledge and professionalism.

- Acquired additional 800 radios for officers in York County for Catawba response.

- Participated in a successful SCHP full scale exercise. Twenty-seven (27) and sixteen (16) Department DLEO's participated.

- Participated in a successful winter storm exercise.

SEAHAWK – 1st Sgt. Cary Davis

- FSGT Davis worked on three high profile cases in the Charleston area:
  - North Charleston PD officer involved shooting.
  - The Emmanuel Church AME church shooting in Charleston.
  - The Berkeley County SO officer shooting, Lt. Will Rodgers.

- FSGT Davis participated in twenty-one (21) MASFO's (Multi Agency Strike Force Operations).

- FSGT Davis participated in four (4) Hammerhead (Heightened Activity Maritime Response Harbor Enforcement and Deterrence) Operations.

Aviation

- Conducted 190 Flights for a total of 638 flight hours.

- Conducted 420 Law Enforcement flight hours.

- Conducted 111 Search and Rescue flight hours.
- Conducted 102 Biological flight hours.
- Conducted 5 Aeronautics Commission flight hours
- Hired Pilot Don Garbade to replace retired Pilot Bucky Harris.
- The 206 was put back in service after repairing a significant corrosion issue and receiving new paint.
- The P68's Dual GPS units were upgraded to WAAS (Wide Area Augmentation System) capability allowing for safer approaches.
- Maintained response levels and responsibilities with only one pilot for nine (9) months. No flight request were turned down and all scheduled flights were completed.

Supply/Equipment

- Processed new equipment to include: 81 vehicles, 33 Outboard Motors, 19 Vessels, and 15 Trailers. In addition, hundreds of non-asset items were processed.
- Re-bid contracts for both the OD T-shirts, polos and oxfords as they are expiring.
- Updated and organized data within SCEIS to minimize paperwork and increase efficiency.
- Successfully completed June audit.
- New Agency contracts were created for boating shoes, boating shirts, PFD's, flashlights and safety glasses.
- Received 322 new Glock pistols to be issued at Spring In-Service.

Communications Center

- Top 3 calls: Injured Animals:1260, General Information:966, Trespass to hunt/fish:1418
- Answered 1425 Palmetto Pride Calls (Litter busters)
- Registered 819 Night Hunting Properties Permits

- Entered 275 Warrants into NCIC

- Acquired 8 new computers and a VPM router.

Radio Communications

- Maintained all radios in agency vehicles and handheld units, twenty-one (21) repeaters and seven (7) Master Dispatch sites with forty-five (45) control stations, consoles and telephones. Upgraded and reprogrammed all DNR radios with a new flash and updates.

- Relocated Anderson Repeater to a new tower site in Starr.

- Replaced antenna's, coax, and microwave units on three repeater tower sites.

- Supported many events to include: Governor's Inauguration, MLK Rally, Bike Week, Winter Storm, PSC, KKK Rally, Presidential visit, Nuclear Shipments and the October Flood Event.

- Replaced the air conditioner at one tower site.

- Replaced seven (7) of the twelve (12) UPS batteries around the state.

- Assisted SLED and SCDPS in upgrading and reprogramming all of their radios across the state as well as Myrtle Beach PD, USC PD, Sumter PD and DHEC as part of the Strike Force Team and programmed all Game and Fish radios.

Legislation, Operation Game Thief, Confiscation Sales, Grants, Records & Technology Section – Captain Lee Ellis

- Developed new procedures for public auctions of confiscated equipment to electronically document sales.

- This section continues the process of converting to the new Oracle systems. Greg Miley and the records admin staff continue working with the new Oracle law enforcement records system to ensure the data integrity is maintained at the highest level possible, as well as working with IT to locate and correct any duplication of data or data entry issues that present during records entry.

- The section worked with DSS, Legal Staff, and OSS to implement internal procedures for revocation of privileges due to unpaid child support to become compliant with state and federal requirements.

- Continued to work to get other state's signed into the Inter-state boating violator compact. Recently assistance has been provided to Senator Simonaire of Maryland with his preparation to introduce a bill to include MD in the IBVC.

Training Accomplishments - Lt. Russell Monnet

- Conducted Wildlife Basic for 19 students.
- Training Staff and L/Cpl. Martin attended Cultural Professionalism Instructor Training at DPS Headquarters conducted by Department of Justice.
- Conducted Cultural Professionalism Training for all FTE's in each Region prior to deployment for Myrtle Beach Bike Week.
- Training Staff downloaded all training files to Quartermaster Training software in each Region and Staff Operations.
- Conducted 2 day Officer Water Survival Course for 40 officers.
- Conducted 5 day Officer Survival School in Clinton for 10 officers. (2 FTE's per Region and 2 SLED Agents)
- SSGT. McClellan and L/Cpl. Martin attended NASBLA Marine Live Fire Firearms and Tactical Boating Course in Wichta, KS.
- Coordinated Active Shooter Training with DPS for DNR Personnel for Spring 2016.
- Conducted Spring In-Service training for all FTE's and Departmental DLEO's.
- Training Staff conducted testing and evaluations on old duty gear for reasons of wear on weapons and tested new holsters for replacement.

Law Enforcement Business/Finance Section – Jessica Clements

- Completed payroll increase related to 15 years of service @ 5%; 20 years of service.
- Compiled expense reports for all flood related expenses in am extremely timely manner for submission to FEMA/DHS.
- Setup timelines quarterly establishing trends in spending for purchases and to allow for a more accurate planning of major expenditures including grants.
- Establish specific account funds for sections within the Division and supply weekly reports to said sections for budgetary information; Created Business Objects reports to display Functional area spending/budgetary.
- Continually update Law Enforcement Facilities Management booklet. Including pictures, insurance, utility information.

- Created plan and timeline to set up training for Regional Access to SAP/Citrix for Asset, PO and Payment lookup. Completed Working on Manual for the specific transaction.

Legal Section Accomplishments

- Resolved 37 cases formally in the legal office.
- Assisted in several internal investigations working with covert and investigations.
- Assisted investigators with advice and arrest and search warrant preparation.
- Held BUI training class with assistance of the Richland and Lexington County Solicitors Office and local defense attorney.
- Completed our introductory meeting with all State Solicitors.
- Guest presented at Attorney Generals CLE and Solicitors Conference.
- Legal & Courtroom training of new officer class.
- Assisted Georgetown Solicitors Office in prosecution of Night Hunting case
- Assisted Investigations with several evidentiary and seized property issues.
- Field calls at all hours from officers in the field.
- Assisted in deer poisoning investigation advising on and executing search warrants.
- Assisted in flood assistance riding with officers doing welfare checks.

2015 Cases Adjudicated*

- Hernandez: Trespassing – Guilty Plea
- Edwards: Trespassing – Dismiss per Hernandez pleading guilty (officers recomm)
- Scott Hudson: BUI- Guilty Plea to BUI
- Gardner: Fail to Prop Tag Oysters- Jury Trial- Guilty verdict at trial
- Lucas: Baiting Dove Field- Jury Trial- Not guilty at trial
- Markey: BUI- PTI

- Burris: BUI- Dismiss (w officer) witness/victims lack prosecution
- Reeves: BUI- Pled Guilty to Reckless, served Admin 6mth susp (prob with test and asthma)
- Blatchley: Illegal purch shrimp- Bench Trial- Not Guilty (3 co-defendants found guilty)
- Clifton: Check Traps of Another- Guilty Plea at pretrial
- Moore: Check Traps of Another- Guilty Plea at pretrial
- Hampton: BUI- Pled Guilty to BUI - Fine and 6 mo susp
- Gardner: Harvest Closed Area- Dismiss at trial (Buyer/witness lost evid log)
- Ryal: Obtain Watercraft by Fraud- Jury Trial- Guilty- 30 days active jail and $55 court cost
- Lewis N: Trespassing- PTI- successfully completed
- Ventura: No PFD Paddleboard- Jury Trial- Found guilty by jury- $350 Fine
- Ivey: Renegade- Pled guilty at Pretrial- 1 year susp and fine
- Jahn: Hunt Turkey Over Bait- Guilty- pled at prior to trial date
- White: BUI- Pled Guilty to BUI
- Shymanski: BUI- Dismissed- Officer no longer with Dept
- Davis: Simp Poss Marij & Littering- PTI (per Offagreement. Getting Va treatment for PTSD)
- Matson: Hunt Turk Over Bait- Guilty Plea prior to trial
- Springs: Pled Guilty to Illeg Take Gamefish $475 and Alcohol Educ class for Minor poss alcohol
- Pettus: BUI- Pled to Reckless $470 and No PFD $160 &
  6mo susp BAC refus (per Off agreement)
- Tedder: Pled Guilty to No PFD $110 and Illegal Take Gamefish $475

- McCutcheon: Night Hunt GSC Prosec for Gtown Solic- Pled prior to trial $1097, susp hunt priv, forfeitures

- Cook: BUI- Pled to Neg Oper w/comm service (worked out by Off)

- Strickland: Shellfish Viol- Pled Guilty at pretrial

- Sanders: BUI- Pled to Reck $470 and No Nav Light $50 6mos refus susp and boat ed (pr Off)

- Hill: Dove Baiting- Pled Guilty at Trial $500 fine

- Spence: 5 Title related charges- Pled to four, dismissed Fail to Cooperate

- Wynn: Plead to 12 of 19 charges 45 days jail and $2196.74 in restitution and susp

- Mycelya: Hunt Dove over Bait- Pled Guilty fine $262

- Smith: Hunt Dove over Bait- Pled Guilty $262

- Caskey: BUI- Pled to Reckless $470, serve 6mo susp, alcprog and boat ed (3 tour Navy Seal Off agreement)

- Chavis: Trespass to hunt- Guilty $300

- Wells: Trespass to hunt- Guilty $300

- **SCDNR and SCLEAP in 2015**
- SCDNR assisted SCLEAP in hosting two Post Critical Incident Seminars providing support to 81 state and local officers involved in serious critical incidents and 22 spouses/significant others.

- SCDNR loaned SCLEAP staff to the Georgia DNR in order to receive overview of Peer Support Program.

- SCDNR joins in partnership with the Office of the Adjutant General, SLED, SCDPS and SCDPPPS.

- SCDNR Dive Team receives debriefing for recovery operation involving F-16 crash in Berkeley County.

- SCDNR Chaplains Shugart and Skidmore responded to the residence of Capt. Mike Isaacs.

- SCLEAP coordinated the annual Out of the Darkness Walk for employees who have lost a family member to suicide.

- SCDNR Dive Team received debriefing for recovery operation involving a child homicide and subsequent recovery operation in Horry County.

- SCLEAP offered debrief to all state and local agencies involved in the child recovery in Horry County.

EXECUTIVE OFFICE

Office of Environmental Programs

- Staff of the Office of Environmental Programs participated in 64 comprehensive reviews of FERC Hydroelectric Project proposals on 23 licensed projects as related to applications, water quality certifications, study plans, study reports, natural resource management plans, monitoring plans and compliance reports. Significant FERC accomplishments included:
    - The relicensing of the Keowee-Toxaway Hydro Project which will provide a new habitat enhancement program, fish entrainment reduction, trout habitat monitoring, funding for headwater stream restoration, protection of priority species, land conservation on 2,865 acres, funding for additional land conservation, funding for Sassafras Mountain tower, additional recreational amenities at public access sites and a low-inflow protocol to conserve water during droughts.
    - The transfer of $2.1 million to DNR from Duke Energy under the Catawba-Wateree Comprehensive Relicensing Agreement to support acquisition of the Liberty Hill WMA and other fish and wildlife enhancements in the Catawba-Wateree River Basin.
    - Establishment of the 2017-27 Work Plan agreement with Duke Energy under the Bad Creek MOU which will provide $1.4 million to DNR for fisheries management at Lakes Keowee and Jocassee over the next 11 years.
- Staff participated in 62 interagency meetings to discuss permitting issues and represent DNR interests related to aquatic habitats, water quality and impacts to specific species. These meetings coordinate comprehensive reviews of significant state and federal permit and certification requests for alterations to wetlands and other aquatic habitats.
- Approximately 1,075 comprehensive environmental reviews were conducted, and science based comments provided to state and federal regulatory agencies related to community development projects using Federal Community Block Fund Grants, impacts Waters of the U.S. in accordance with public notices through the Clean Water Act, National Environmental Policy Act, S.C. State Mining Act, Coastal Zone Management Act and S.C. Navigable Waters Act as well as DNR Natural Resources Trustee activities on all SARA/CERCLA, RCRA, and OPA actions that have the potential to affect fish and wildlife resources. Our objective in all environmental reviews is to protect natural resources, including fisheries, wildlife and rare, threatened and endangered species that could be impacted by proposed projects.
- Staff reviewed 18 proposed mitigation banks and followed approximately 27 existing mitigation banks through the interagency review team providing input and guidance in the process of permitting mitigation banks. Each mitigation bank can require multiple reviews and site visits resulting in an additional 150 comprehensive reviews.
- Staff participate in and chair the Coastal Pesticide Advisory Committee which includes state and federal agencies, research institutions and private entities for the purpose of reviewing issues related to pesticide use in the coastal zone and how it may impact fishery resources.
- Staff chair the S.C. Geologic Survey STATEMAP Advisory Committee providing recommendations on priority geologic mapping across the state based user needs, economic interests and other parameters.
- Bob Perry was selected by peers to represent multiple co-authors to present on Management and Sustainment of South *Atlantic Coastal Impoundments for Waterbirds and Other Wetland Wildlife* in a special, invited session entitled *Conservation and Management of Tidal Wetlands for Fish and Wildlife in the Face of Changing Environmental Conditions* at the 2016 Annual Conference of the Southeastern Association of Fish and Wildlife Agencies held in Baton Rouge.
- Our office participated in a workshop with DOT and Federal Highways and the regulatory agencies toward the development and implementation of an Advanced Mitigation Partnership between DNR and highway agencies; that partnership is now active and productive.
- Coordination with DOT began on the acquisition of the Jackson Tract (118.54 acres) adjacent to Henderson Heritage Preserve to restore Bridge Creek and two of its tributaries for impacts associated with the widening of S-126 (Belvedere-Clearwater Road) in Aiken County.
- Coordination with Mercedes Benz of Charleston and its agents began on the acquisition of an inholding tract in the Francis Marion National Forest to be preserved and subsumed into the National Forest for impacts associated with the expansion of the Sprinter Van Production Facility in Berkeley County.
- We participated in the development of a critical action plan and legislative recommendations for future management of the Pinewood Landfill, arguably the nation's most toxic landfill located near Pinewood, SC and Lake Marion.

- Coordination with DOT continued on the acquisition of Gunter's Island (approximately 6,100 acres) for mitigation to impacts associated with Interstate 73. These efforts included assisting DOT submit a revised mitigation plan for the project. After acquisition of this property DOT will donate the tract to DNR, and it will be incorporated and dedicated as a part of the Little Pee Dee Heritage Preserve.
- Working with CSX Railroad and its agents, DNR acquired the King Tract (100 acres), a strategic in-holding at Marsh Wildlife Management Area, as mitigation for wetland impacts associated with rebuilding a rail trestle over the Pee Dee River between Florence and Marion counties. This acquisition was subsumed into Marsh WMA.
- Working with Dorchester County Landfill and its agents, DNR is set to acquire by donation the Good Hope Tract (203 acres) on the Edisto River for inclusion into the WMA program. The U.S. Army Corps of Engineers issued a permit to Dorchester County Landfill which funded the acquisition by Lowcountry Land Trust, to allow donation of the property to DNR in early 2017.
- Working with the Conservation Fund, the Office of Environmental Programs continues to explore strategies to restore streams and wetlands on the Tall Pines Tract in Pickens County, with the long-term objective of acquiring the tract (1,250 acres) and establishing public use.
- Working with The Nature Conservancy and American Rivers we began a partnership in a science-based collaboration, the Pee Dee Clean Water Study Group, to protect water quality in the Pee Dee River Basin; this project has significant potential to generate millions of dollars for fish and wildlife enhancement and landscape habitat protection.
- Working with the U.S. Army Corps of Engineers we developed a draft of a long-anticipated General Permit covering most of the activities DNR performs that have potential impacts to Waters of the United States. This GP will be public noticed in early 2017 and be available for staff use shortly thereafter, saving considerable time, funding and gaining operational efficiency at the field level.
- Working with IT staff our staff developed a dock on the DNR website featuring the activities of our office as well as information and links to available resources. See: **www.dnr.sc.gov/environmental**

Boating Access and Engineering Section

- The DNR's Boating Access and Engineering Section is responsible for major maintenance and renovation of some 440 boating access facilities statewide.
- Completion of one (1) new boating access facility in York County.
- Renovation of three (3) existing boating access facilities in Charleston, Georgetown and Horry Counties.
- Design and Construction of a large steel bulkhead wall at an existing boating access facility in Aiken County.
- Design and Construction of an additional fishing pier in Hampton County.
- Eight (8) new boating and fishing access projects were initiated in six (6) counties and are currently under development.
- Survey and design was completed in partnership with Santee Cooper for a fishing access facility in Berkeley County.
- Completion of designs for ADA upgrades to fire alarm systems at three (3) SCDNR facilities.
- Topographic surveys were completed for seven (7) new boating access and capital projects.
- Completed conceptual floor plan designs for proposed new SCDNR office at State Farmers Market site.
- Provided technical assistance to SCDNR Divisions in evaluating damages and estimating repair costs to agency properties as a result of Hurricane Matthew.

- Provided engineering and contracting support for capital projects for repairs of damages resulting from October 2015 flood.
- Construction management was provided by Engineering Section staff for a $1.1 million renovation of the Waddell Mariculture Center Office and lab.
- Contract and construction management was provided by Engineering Section personnel for the repair/replacement of two (2) 14" diameter seawater intake lines at the Waddell Mariculture Center.
- A 25,000 acre boundary survey of WMA property in Marion County was completed by Engineering Section staff.
- An 8,000 acre boundary survey in the Jocassee Gorges WMA was completed by Engineering Staff.
- Numerous (10 to 15) small boundary surveys were completed by Engineering Section staff in support of Wildlife & Freshwater Fisheries and Land & Water Divisions.
- Accomplished the hiring of a Professional Engineer as well as a surveying assistant to fill 2 of 4 existing vacant positions. Filling of the engineering position with a licensed PE will ensure continuity in the program in future years.

Special Assistant to the Director

- Continued to follow-up on accessibility needs at DNR facilities identified in the Self Evaluation and Transition Plan developed under the Americans with Disabilities Act.

• Continued to coordinate and guide the maturation of the SC Quail Council, and assist the WFF Division in the establishment of 4 Focal Areas for implementation of the SC Bobwhite Initiative. Also a group was organized in conjunction with Tall Timbers and Quail Forever and one meeting held to discuss establishment of a funding arm for the SC Bobwhite Initiative.

• A partnership was formed with the U.S. Forest Service and Quail Forever to fill a biologist position in support of the Indian Creek bobwhite Focal Area. One of two Natural Resources Conservation Service contribution agreement biologist positions was also filled to support the SC Bobwhite Initiative.

• The Special Assistant to the Director completed the second year of a two-year term as Chair of the Atlantic Coast Joint Venture (ACJV) Management Board. The ACJV is a habitat partnership in the 17 Atlantic states from Maine to Florida, and Puerto Rico.

- The Special Assistant to the Director also continued to represent the agency on the South Atlantic Landscape Conservation Cooperative Steering Committee, and accepted an appointment to the SALCC Executive Committee. The SALCC includes parts of six states from southern VA to Florida, and is part of a broader network of 22 cooperatives across North America and the U.S. Pacific and Caribbean islands. Each regional LCC is designed to foster shared conservation action among multiple public and private agencies and organizations.
- SCDNR partnered with Clemson University to complete a study to evaluate the economic impact of natural resource related activities to the South Carolina economy. More than $33 billion of economic activity is attributed to SC's natural resources sector annually.
- The annual meeting of the Clemson University-SCDNR Cooperative Agreement Coordinating Committee was organized in collaboration with the Clemson Department of Forestry and Environmental Conservation. The Special Assistant to the Director also served on Clemson's James C. Kennedy Waterfowl and Wetlands Center Advisory Board.
- The Special Assistant to the Director accepted an appointment as Chair of the Association of Fish and Wildlife Agencies Resident Game Bird Working Group, which includes a seat on the U.S. Committee of the North American Bird Conservation Initiative.
- Represented SCDNR on the National Bobwhite Conservation Initiative Management Board.

Office of Media and Outreach - Palmetto Sportsmen's Classic, Camp Wildwood, Social Media, South Carolina Wildlife Magazine, Graphics, Litter Prevention, Video, Public Information, Diversity Outreach

- Marketing campaigns for 2016 consisted of 100 Deadly Days and the Apprentice Hunting License
- Partnered with the National Shooting Sports Foundation to capture shooting range locations throughout the state.
- Partnered with National Shooting Sports on pilot apprentice license campaign
- Partnered with the South Carolina Association of Tourism Regions on the development of a statewide promote of natural resources and outdoor recreation.
- Partnered with the South Carolina Association of Tourism Regions and the Department of Parks, Recreation and Tourism on the development of a fishing insert for the Annual Visitor's Guide.
- Coordinated efforts with Guy Harvey Magazine on the production of the first South Carolina specific issue to be distributed March 2018.

Palmetto Sportsmen's Classic

- The Palmetto Sportsmen's Classic's net profits increased 23.7% from the previous year. A profit of $184,360 was raised for the Harry Hampton Fund.
- Overall, operating costs for the 2016 show were down. Advertising, entertainment, and rental of the property all went down. In 2015, the overhead for the Palmetto Sportsmen's Classic was approximately 53%. This year, we cut the overhead down to 46%. The dramatic decrease was due to the decrease cost in expenses coupled by an increase in vendor revenue.

Camp Wildwood

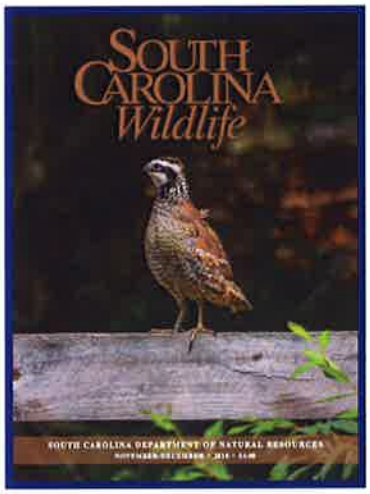

- For the first time in Camp Wildwood history, we were able to fill all campers spot's by April 1st, 2016. By June we had a waiting list of over 20 campers, another first.
- Quick look at camper evaluation (75% 2016 campers responded)
  - 98% of responding campers evaluated their experience as either "Time of your life!" or "Excellent". (79.0% and 19% respectively)
  - 85% responded "Yes" to the following question: "After attending Camp Wildwood, do you think you are more likely to purchase a hunting and/or fishing license?" Camper's ages range from 14 – 17 years old.
  - 74% responded "Yes" to the following question: "In the next 12 months, do you think that you will purchase a hunting and/or fishing license?"

Social Media

- Facebook: Our SCDNR Facebook Page had our first "Viral" post (see picture attached). During the aftermath of hurricane Matthew we posted a before and after pic of Palmetto Blvd, Edisto Beach, SC. Stats: Over 1.3 million views, 2,400 reactions and over 14,000 shares.
- Instagram: Over the course of 2016 our DNR Instagram account tripled the number of followers. Currently we have 13,700+ followers.

South Carolina Wildlife Magazine

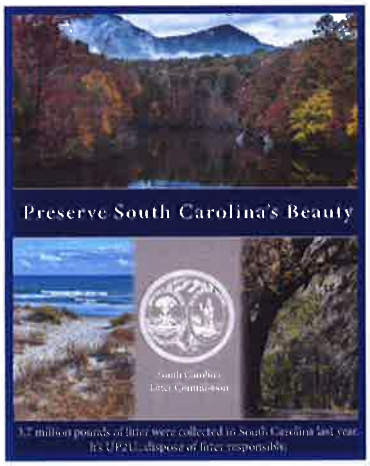

- Increased number of subscribers by about 1,000 since January 2016
- Formulated a plan and started work on a new digital "magazine," SC Wild online, for a teen/younger adult audience for NO ADDITIONAL COST (first issue to appear in April 2017 as a digital download)
- In cooperation with DNR Video, implemented a series of short videos, one or two per issue, to accompany SCW articles
- Began using multiple media available to us to promote SCW and make additional content available to readers

Graphics

- 1 staff member completed the CPM certification and graduated in May
- 1 staff member has taken training to take the Certified Associate in Project Management Certification Exam
- Designed the Set your hook logo for the campaign and FLW Bass Fishing Magazine Ad
- Illustrated and designed the 1st Bilingual Coloring Book
- Designed the Liberty Hill and ICAST display
- Created and designed the promotional items for the 75th WMA anniversary to include the timeline and posters
- Continue to make all our forms fillable and accessible to include creating and updating 17 fillable forms where they are 508 compliant
- Designed and assembled the SC Geology Report #49
- SCDNR Lobby pictures/beautification project
- Completed 374 Jobs

Litter Prevention

- Prepared and on-time delivery of legislative report to the general assembly as required by the statute
- Joint outreach project with Diversity Outreach at BMW – Earth Day
- Joint venture with Sea Turtle Hospital & SCDNR MRD: The Impact of Marine Litter
- Presentation to Mayor of Holly Hill: innovative ideas to combat litter issues
- Court Administration approves community service forms for Summary Court Judges

Video

- Produced videos and helped promote projects undertaken by Diversity section (Alix)
- Assisted Aquatic Education section with videos and planning
- Played a large part in the promotion of the 75th anniversary celebration of public lands in SC
- Continued to stream/videotape SCDNR board meetings for online posting
- Began a series of 'video sidebars' to accompany South Carolina Wildlife articles
- Produced two boating safety spots for Law Enforcement, including our annual Deadly Days production

- Videotaped striped bass and shad spawning at Bayless hatchery for public education videos
- Got certified through the FAA and began using a quadcopter (drone) for aerial video and photos
- Began a major video production highlighting 'mitigation success stories' in South Carolina
- Produced the first ever SC WILD podcast

Public Information – Upstate

- Hurricane Matthew lane-reversal duty on I-26 in Orangeburg County
- Worked seven days on the Pinnacle Mountain Fire in Pickens County
- Published two issues (spring-summer and fall winter) of Jocassee Journal newsletter
- Instructed two Jocassee Gorges classes for Clemson University's Osher Lifelong Learning Institute (OLLI)
- Served as DNR liaison for Upstate Master Naturalist program, a program of Clemson Extension Service in partnership with S.C. State Park Service

Public Information – Midlands

- Facebook has reached nearly 82,000 'likes'
- First Facebook Live videos were hosted (gopher tortoise release, snakes at Wateree Field Day, Everything Quail) with great interaction and reviews from the public
- Twitter has reached 13.5K 'followers'
- I worked ESF-15 for Hurricane Matthew for 17 days and SCDNR got a lot of push due to my photos (SCEMD, press conferences, aerials, damage, flooding) being shared on social media and by multiple agencies for different uses
- A video I put together about SCDNR officer efforts during Matthew was shared multiple times and received more than 19K views on Facebook
- The aerial cell phone footage I shot of Matthew flooding in Mullins received more than 17K views on Facebook
- Cell phone footage I shot of Charleston traffic during Matthew received more than 18K views on Facebook
- Multiple SCDNR events (Wateree Field Day, gopher tortoise release, Austin Sheheen Sr. Natural Resources Area dedication, Wateree River Correctional Institution Fishing Rodeo, mobility impaired hunt, 2016 NASP World Championship) were photographed and shared on social media

Public Information – Lowcountry

- Created and began publishing the SC Natural Resources Blog. Since going live in August, the SCNR Blog has been steadily gaining new readers. In December, the blog garnered unique 1,144 visits and 2,185 page views. In addition, nearly 8,000 people have signed up to receive monthly "newsletter" updates on the articles and information posted on the blog.
- I completed training to become a GovDelivery Administrator. We (OMO staff and others) have worked with IT to implement GovDelivery, providing us with a way to send targeted e-mail messages on a variety of SCDNR related topics and programs to people who have affirmatively asked to receive those e-mails, and also to media outlets. This is a huge leap forward in our communications ability.

Diversity Outreach

- Maintained the SCDNR Spanish website. The average requests per pages went from 43,883 in 2015 to 158,846 in 2016. Added over 55 news and articles through 2016.
- Attended Hispanic Festivals and outreach events, reaching more than 6,000 participants in 2016.
- Supported 14 SCDNR events offering bilingual capabilities.
- Maintained and promoted the Spanish YouTube channel, the videos views averaged over 1,150 in 2016 alone.
- Maintained and promoted the Spanish Facebook page. We have over 620 followers and an averaged reach of 10,000 people.

- Maintained partnerships with National and International agencies. In 2016, we also gained support for our outreach efforts from Horry Georgetown Technical College, Central Carolina Technical College and the University of South Carolina.
- Introduced the SCDNR Hispanic Outreach Program to other state and natural resources agencies through 10 presentations at national level conferences and summits.
- Worked with the SCEMD public information office to aid in the emergency response through Hurricane Matthew.
- The Diversity Outreach Coordinator was recognized nationally by The Wildlife Society with the 2016 Diversity Award for reaching out to minority groups and teaching them about nature-related outdoor activities.
- Received the Diversity Inclusion in the Workplace Award from the Southeastern Association of Fish and Wildlife Agencies.

Land, Water and Conservation Division

- Established separate Surface Water and Groundwater Programs within the Hydrology Section of the Earth Science Group to better address needs for information and capitalize on staff expertise in these areas.
- Worked diligently and made major progress on the Surface Water Assessment and Modeling Project in the eight major river basins as the initial phase of The State Water Plan update in cooperation with DHEC, USGS, the CORPS and Clemson University. Model completion projected to be late February.
- Conducted 8 stakeholder meetings for the Surface Water Assessment Project (total of 15 stakeholder meetings to date for the 2 year project)
- Began water demand projections in the Savannah Basin in cooperation with the Corps of Engineers through their Planning Assistance to States (PAS) Program.
- Held two workshops on streamflow monitoring and recommended 36 new sites for streamgages.
- Made substantial progress on the Savannah River Comprehensive Study Phase II, completing the Savannah Harbor Dissolved Oxygen Model and coordinating with the Corps, TNC and Georgia EPD. Completion of Phase II expected by the end of May.
- Active in drought monitoring and began a Statewide Evapotranspiration Project with the College of Charleston and USDA Forest Service.
- Obtained a $170,000 grant from DHEC which was used to establish groundwater monitoring wells in Sumter County and analyze for saltwater intrusion into coastal aquifers.
- Continued to work on the Aiken County Groundwater Model in cooperation with the U.S. Geological Survey.
- Began groundwater assessment and modeling of the entire coastal plain in cooperation with the U.S. Geological Survey and Corps of Engineers (PAS funding).
- Began measuring the three major aquifers to produce new Potentiometric Maps in support of the regional groundwater assessment of the coastal plain.
- 473 wells measured in cooperation with Savannah River National Laboratories, USGS and DHEC.
- Received a grant from the USGS National Groundwater Monitoring Network and added maps and tables to the national database.

- Finished new, digital 1:24,000 scale maps of the coast from Santee Point to Little River under multiple grants from the USGS Statemap Program.
- Finished work on 17, 1:24,000 scale maps across the mountain bridge area of the inner piedmont.
- Began work on a regional compilation of the Carolina Terrane in cooperation with the University Of South Carolina to produce information for updated earthquake hazard analysis and economic development.
- Received a $160,000 grant from EPA to study possibility of land subsidence related to groundwater withdrawal in Georgetown County.
- Established a combined Hydrology/Geological Survey Coastal Program at Ft. Johnson with Dr. Will Doar as team leader.
- Worked to expand the coastal saltwater intrusion network, adding seven new monitoring sites.
- Worked on both the Murrells Inlet to Capers and the ACE Basin Coastal Vulnerability Projects to demonstrate physical change on the shoreline.
- In cooperation with Coastal Carolina University, produced an offshore map from Winyah Bay to Little River.
- Measured the surface elevation table network along the coast quarterly.

- Received a $450,000 grant from the U.S. Bureau Of Offshore Energy Management (BOEM) to analyze both regional and state offshore sand resources in cooperation with MRD, Georgia and North Carolina (Skidaway Institute of Oceanography and East Carolina University)
- Facilitated and cost shared with SCDNR wildlife biologists to restore or improve habitat on SCDNR properties by controlling invasive aquatic vegetation on 2087 acres.
- Santee Coastal Reserve-helicopter application to control 1500 acres of phragmites on Santee Coastal Reserve impoundments to improve habitat.
- Samworth- helicopter application to control 296 acres of white marsh grass.
- Hatchery- helicopter and boat application to control 104 acres.
- Donnelly- helicopter and boat application to control 43.5 acres.
- Bonneau Ferry- helicopter and boat application to control 72.5 acres.
- Sandy Beach- boat application to control 22 acres.
- Santee Cooper- boat application to control 5 acres.
- Wood Stork Rookeries- boat application to control 45 acres

- Facilitated and cost shared with USFWS and The Nature Conservancy to improve habitat by controlling phragmites in and around the ACE Basin (helicopter application on 27 acres).
- Facilitated and cost shared with Santee Cooper, USFWS and SC Waterfowl Association to improve habitat by controlling giant cutgrass in the Santee Cooper Lakes (helicopter applications on 125 acres in National Wildlife Refuge and 366 acres in the Santee Cooper Lakes).
- Facilitated and/or cost shared with other local and private entities to improve habitat and recreational use by controlling numerous species in other public waters.
- Chaired and staffed four meetings of the SC Drought Response Committee to take appropriate action on drought status designations.
- Enhanced and expanded the weatheralert email notification system (2,668 subscribers).
- Collected, analyzed and consolidated data on rainfall, streamflow and damage from the 2015 flood and 5 tropical systems impacting the state during 2016
- Published an article on the Historic South Carolina Rainfall and Major Floods of October 2015 in the 2016 Journal of South Carolina Water Resources.
- Assisted state and federal agencies and the public in data acquisition and forecast interpretation before, during and after tropical events, severe weather, winter weather, droughts and special event planning.
- Flood mitigation group assisted law enforcement and EMD before, during and after Hurricane Matthew in providing flood inundation and streamflow information.
- Conducted aerial and ground surveys of Hurricane Matthew affected areas and provided support to FEMA representatives before, during and after the event.
- Conducted 797 Substantial Damage Estimates for flood damaged areas, primarily in Marion County.

- Provided flood mitigation and damage estimate training to the following communities:

Town of Edisto Beach	Marion County
Town of Hilton Head Island	Dillon County
City of Summerville	Horry County
City of Hanahan	Allendale County
City of Florence	Jasper County
City of Dillon	Colleton County
Dorchester County	Beaufort County
Darlington County	

- Flood Mitigation staff and Deputy Director conducted 10 open house meetings and 7 preliminary DFIRM Community Coordination meeting for updating flood maps.
- Released preliminary maps in 4 watersheds and 2 counties.
- Flood Program Manager, Maria Lamm, was elected Vice Chair of the National Association of State Floodplain Managers.
- State Climatologist, Dr. Hope Mizzell, was elected President of the American Association of State Climatologists.
- Completed the restoration and cataloging of archeological artifacts damaged in the 2015 flood.
- Retired the bond debt for the Heritage Trust Fund, saving over $900,000 in interest.
- Hired additional archeologist to assist in field work on archeology projects, including the initial surveys of the new Wateree Heritage Preserve.
- Completed the Tabby Restoration Project at Fort Frederick, completed archeology reports (underwater and terrestrial) and made major progress on the reestablishment of the boat landing in cooperation with Beaufort County.
- Fort Frederick 30 minute documentary completed (won Telly Award for best documentary).
- Began the Tabby Restoration Project at Botany Bay ice house, barn and gardener's shed.
- Completed structural and restoration analysis of Poinsett Bridge.
- Designed Poinsett Bridge Trail System, removed problem trees and installed new sidewalk.
- Assisted in the review of FERC Relicensing for the following hydropower projects:
    - Parr Shoals
    - Catawba-Wateree
    - Bad Creek
    - Keowee-Toxaway
    - Cherokee Falls
    - City of Columbia
- Conducted another successful SC Envirothon, with 180 high school students participating. The winner, Spartanburg High, went on to place third in the national competition.

Law Enforcement Division

- The Law Enforcement Division awarded 85 salary increases to sworn and non-sworn personnel.
- Officers with rank of Captain and below were compensated for their accrued comp time from the 2015 1000 Year Flood Event.
- The Investigations Section was expanded with the addition of an Investigator for Region 3.
- The Education Section was expanded with the addition of a Youth Shooting Sports Coordinator.
- The dive team expanded from 12 to 16 divers along with 2 vacancies being filled.
- Pfc. Wes Stewart was chosen as the Southeastern Association of Fish & Wildlife Agencies Officer of the Year.

- Region 3 was reorganized by creating new units of Lexington, Richland, Saluda/Newberry, and Allendale/Bamberg.
- Marcus Smith, Hogan Tyler, and Chip Allen were promoted to 1st Sergeant in Region 3.
- Scott Stephens was promoted to Staff Sergeant as Coordinator over Youth Shooting Sports.
- L/Cpl. Ray Forrester was selected as Education Coordinator for Region 2.
- Michael Brock and April Smith were promoted to Investigator III in the Investigations Section.
- Greg Lowery was promoted to 1st Sergeant in Region 2.
- Andrew Godowns was promoted to 1st Sergeant in Region 4.
- Ken Cope was promoted to 1st Sergeant over LE Outreach.
- Nate Hutson was promoted to 1st Sergeant over EMD in Staff Operations.
- George Dukes was promoted to Lieutenant in Staff Operations.
- Matt McCaskill was promoted to Captain over Region 2.
- Gary Sullivan was promoted to Major over Region 4 and Investigations Section.
- Brian Welch was added to the Executive Protection Detail bringing a total 4 DNR Officers being assigned to executive protection.
- With almost 40,000 Law Enforcement contacts (summons/warnings), complaints against officers have been extremely minimal.
- Officers issued 9,977 summons from January 1, 2016 thru December 31, 2016.
- Officers issued 29,166 warnings.
- Officers cleared 257 Warrants.
- Officers spent 52,253 hours on boating patrols resulting in 96,211 boats being inspected.
- 7,491 hours conducting Search and Rescue Missions.
- Congratulations to Region Officers of the Year: Region 1 Pfc. Ryan Abernathy, Region 2 Pfc. Wes Stewart, Region 3 Pfc. Ed Laney, Region 4 L/Cpl. Mike Brock, and Investigations Sgt. JB Kinsey.
- Pfc. Jordan Douglas was chosen as the SC NASBLA Officer of the Year.
- Sgt. Jim Shelton was chosen South Eastern Region NASBLA Boating Educator of the Year.
- Mona Rhoden was awarded 2015 Employee of the year for the Law Enforcement Division.
- Courtney Angotti-Smith was hired as Administrative Assistant for the Marine Investigations Office.

- 1st Sgt. Davis presented at the 2016 Southeastern Association of Fish and Wildlife Agencies (SEAWFA) on the Seahawk IOC, and the benefits the department has gained as a member.
- 3 supervisors are completing the 18 month CPM training: Captain Swink, Lt. Thomas, and Lt. Corbett.
- 3 supervisors have started the 18 month CPM training: Lt. Ard, Lt. Simmons, and 1st Sgt. Baker
- Captain Thames, Lt. Pritcher, and Lt. Simmons completed the FBI Carolina Command College.
- Major Carey and Lt. Riley completed the NACLEC 3 week Leadership Academy in Shepherdstown, WV.
- SCDNR Cooking Team prepared and served meals for 110 people attending the graduation of the NACLEC Leadership Academy conducted at the USFWS Training facility located in Shepherdstown, WV which included National and International attendees from Africa.
- Officers Player Aston and Will Joyner finished 1st and 2nd in their Federal Marine Law Enforcement Training Program at FLETC in Glynco, GA.
- Held the Retirees Luncheon at Styx compound where we provided meals, fellowship, new ID's and weapon qualifications to 65 retirees.
- LE Division was awarded $352,000.00 through the Department of Justice JAG Grant Program for communications equipment upgrades.
- Developed the policy regarding the use body worn cameras which received approval from the SC Criminal Justice Academy.
- Developed policy for reinstatement of the K-9 program.
- Purchased Didson dual frequency acoustic imaging unit with accessories. The Didson unit is state of the art technology used for the location of evidence and recovery of victims of drowning and boating related deaths. The unit has been used in 4 recovery operations with 3 victims being recovered.
- Successfully completed 2 day federal audit of the State Recreational Boating Safety Grant conducted by the United States Coast Guard.

LE Division Significant Events

- Established a new fishing rodeo with the Wateree Prison where 40 youth from the Epworth Children's Home, Croswell Home for Children, and Turbeville Children's Home participated.
- Memorial Day Bike Week – 96 officers were deployed during this detail which involved assisting four (4) agencies; Horry County PD, Myrtle Beach PD, SLED and Surfside PD.
- Special Operations – 71 SCDNR officers participated in several events at the State House during 2016 to include: Martin Luther King Parade, Black Lives Matter rallies, Honor Rally, Tunnel to Towers Event.
- Hurricane Matthew – 205 SCDNR officers and 32 Department Deputy Officers were deployed for Hurricane Matthew and lane reversal operations.
- Hurricane Matthew Flooding Event – 173 DNR officers were deployed to search and rescue, security, river sweeps and flooding operations post storm which lasted almost seven weeks.
- Town of Nichols – SCDNR Law Enforcement Officers continued to provide post storm security to aid the Nichols PD 24 hours a day for several weeks after deployed officers were released from the initial deployment. Officers rescued over 150 residents from the rising flood waters. Once residents were out of harms way Officers re-entered the area to protect the evacuated homes and businesses and daily provided rescues of family pets and farm animals until flood waters receded.
- Aided in the investigation of a deceased elderly female missing from a local nursing home. The victim was missing an arm when located in a nearby pond, the alligator was located and the arm retrieved once humanely euthanized.
- Divers recovered an automobile from the Little Pee Dee River in Dillon County containing a murder victim inside of the trunk.

- Shrimp & Grits – 16 Officers and DNR Aviation assets participated in a joint operation involving local, state and federal agencies along the entire coastline of South Carolina for the enforcement maritime security operations.

LE Division Significant Cases

- SCDNR Law Enforcement Division continues to aggressively investigate and prosecute the illegal killing of protected birds of prey.
- PFC Ed Laney completed a 2 year investigation of a quail plantation trapping and killing birds of prey. Laney served search and arrest warrants on 3 subjects all charges were found guilty in Magistrate and General Session Court.
- A Fatal Boating Accident was successfully prosecuted by Investigator Tony Spires and Clarendon County Officers. A 21 year old Sumter woman was killed when a boat struck the boat she was sitting in July 4th weekend. The defendant received 5 years in prison for failure to render aid and reckless operation.
- Aviation section documented over 100 dove fields, including 22 previously undocumented fields and 8 of those confirmed as baited fields. Documented 47 wetland sites for duck bait, resulting in 7 potentially baited sites and 1 site confirmed baited.

Field Operations Regions 1-3 - Major Jamie Landrum

Region 1 Accomplishments - Captain Mike Isaacs

- Received Palmetto Pride Grants for Edgefield, Spartanburg, and Greenville Counties totaling $7,890.00. Purchased Leopold Binoculars and Plot Watcher Cameras to investigate and prosecute Litter violations.
- Coordinated 7 fishing rodeos throughout the Region.

Region 2 Accomplishments - Captain Matt McCaskill

- Coordinated 4 fishing rodeos throughout the region, and added one new rodeo at Camden Historic Site.
- Officers attended active shooter training w/ SCHP, and completed numerous details at the State House (KKK/Black Panther rallies, Black Lives Matter, etc.).
- Completed security and rescue missions from Hurricane Matthew and subsequent flood, and continued with 24 hour security missions in Marion County and Nichols area until Thanksgiving.

Region 3 Accomplishments - Captain Harvin Brock

- Conducted 3 Fishing Rodeos to include a new rodeo at Wateree Prison.
- L/Cpl. McDaniel has implemented a new process for warrant serve cutting the backlog in half and collecting $12,100.00 in outstanding fines.
- L/Cpl. Salters instructed many state and local agencies in Active Shooter Response Techniques.
- Assisted with the Underwater Post Blast Training conducted on Lake Murray. This training was attended by Federal, State, international, and Local Law Enforcement Agencies. The class was very successful and will be the only location this training will be offered nationwide in the future.
- Region 3 Officers seized illegal deer antlers, elk antlers, black bear rug, and deer mounts using buy/bust operations.
- First Sergeant Marcus Smith put on a hunt for 10 terminally ill children in Saluda. The attendees were provided a midday meal, rifle, camo clothing, and hunting accessories.
- SGT Brett Bannister organized and held on his property 3 separate youth hunts for children. The first was a turkey hunt through the Make-A-Wish foundation for a child with a terminal tumor around his spinal cord. This was the only Make-A-Wish hunt in S.C. and was hosted by Hank Parker for his TV show. SGT Bannister also held a youth duck hunt for two underprivileged children as well as hosted a wheelchair based turkey hunt.

Field Operations Region 4 & Overt / Covert Investigations – Major Gary Sullivan

Region 4 Accomplishments - Captain Gentry Thames

- Completed agreement for FY 2017 JEA Contract with NOAA OLE. Implemented FY 2017 JEA Contract and working toward meeting all requirements/purchases by the end of FY 2017.
- Conducted 6 Fishing Rodeos throughout Region. Established new locations within Counties that had not previously had fishing rodeos.
- Participated in Multi Agency (state and local) Coast wide patrols focusing on Homeland and Port Security inspection of Recreational and Commercial vessels on coastal waterways.
- Assisted USCG with escorts of Carnival Cruise ship entering and exiting Port of Charleston for Port Security/Homeland Security Missions.
- Continued coordinated joint operations with USCG Station Charleston. (DNR and USCG personnel work jointly on DNR vessels conducting recreational and commercial boating and fishery inspections).

Overt / Covert Investigations – Lt. Donnie Pritcher

Section Activities

- Issued 108 summons, 533 warnings, 2 warrants, and collected $18,833.90 in fines
- Worked 27 boating related deaths (23 are Reportable Boating Fatalities)
- Investigated 2 Hunting Incident Fatalities.
- Investigators managed 18 Law Enforcement Officer Applicant Background Investigations.
- Investigators now assisting with Marine Debris Clean-up from Hurricane Matthew.
- 864 Marine Theft Investigations were conducted.
- 60 No Wake Zone Investigations were conducted with 4 new No Wake Zones being approved. The Wappoo Cut NWZ was expanded as a seasonal NWZ.
- 10 B-SAF patrols were conducted with 1,519 boats being inspected.
- Approved 629 Marine Events for the year.
- Streamlined the approval return documentation for approved Marine Events to requestor and Region.

Diving Operations

- 43 Dive assignments were responded to this year.
- 19 body recovery assignments consisting of 32 days in the water resulting in10 recoveries.
- Made evidence recovery on 9 of 12 dives.
- Assisted the department by placing nets for 1 fishing rodeo.
- 154 in water hours were spent raising 2 sunken vessels on the Stono River (40' Egg Harbor) and Bohicket Creek (27' O'Day).
- JB Kinsey was elected President of the SC Law Enforcement Dive Association.
- Coordinated SC Law Enforcement Divers Association training in Charleston. Conducted 2 training sessions with over 40 divers attending the 2 day seminar.
- 18 Divers were certified in Nitrox and Oxygen Provider.

Covert Operations

- 161 requests were received for assistance with intelligence and investigations.
- 3 Investigators attended tri state (USFW, SC, NC, and GA) covert meeting in North Carolina.
- 2 Investigators attended and competed the 2 week Wildlife Investigators Covert Academy in Denver Colorado.
- Received 41 tips/information from Web Master/Social Media Section of DNR in reference to possible illegal activities developing into 32 investigations.
- Conducted 7 Intel/background checks for SCDNR reptile permit applicants resulted in 6 permits being issued.
- Closed 3 long term investigations in reference to the sale of wildlife (venison and alligator), Sale of raccoons, importation of antelope, and the taking of game fish illegally/trespassing. All resulted in 37 contacts being issued by Regional Officers.
- Conducted operations at flea markets in the upstate of SC targeting the sale of wildlife, fish, reptiles, and seafood. Resulting in 3 cases being made.
- Conducted operations at reptile shows in the upstate of SC targeting the sale of protected reptiles and snakes to gather intelligence.
- Installation cameras and provided Intel on 3 illegal dump sites resulting in 3 cases being made.

Training

- 1 Investigator attended NASBLA Boat Accident Training Phase I and II.
- 1 Investigator attended NASBLA Boat Accident Training Phase I.
- 1 Investigator attended BUI Instructor School.
- 1 Investigator conducted training at the NASBLA Training Seminar.

Aids to Navigation Operations

- Surveyed 2200 aids to navigation buoys and replaced 300 missing or damaged buoys/signs.
- Created maps of existing no wake zones and buoy locations for Region 2 and working on Region 3 for aids to navigation files.
- Replaced or reset buoys and signs on the coast after Hurricane Matthew. As well as marking or securing hazards to navigation found during post storm patrols.

Staff Operations Accomplishments - Major Mark Carey

Law Enforcement Education & Outreach – Captain Billy Downer

Hunter Education

- 12,205 students taught Hunter Education Course for 2016.
- 6,203 students completed the Internet Only Hunter Education Course in 2016. This course option allows students to complete their hunter education requirement totally online.
- 6 Hunting Clinics were offered across the state in an effort to teach specific hunting skills to Take One Make One Students as well as the public.
- Assisted with Cadet Academy and held a range day.
- 21 students participated in the Clemson University College Hunting Clinic. 21 students attended this class and 11 were taken on their first deer hunt afterwards.
- Provided shotgun and archery training for the Continuing Education Event held by the SC Women Lawyer's Association.

- A Range Day was held at the Wateree Range for the Wateree Heritage Preserve Open House in September.
- Continued radio initiative in partnership with the weekly "Sports Talk" with Phil Kornblut. Every first and third Wednesday evening from 7:30-8:00PM, DNR is given a 30 minute segment to discuss hunter and boater education issues in a call-in format. This new initiative allows DNR to get out important issues facing our hunters and boaters.
- 80 volunteers attended the Annual Volunteer Hunter Education Instructor Banquet was held to honor volunteers and highlight program successes.

Boater Education

- 4,405 students were taught the Boater Education Course.
- 15,000 people were trained at 45 events using the Virtual Boating Simulator Trailer.
- 12,000 SC Boater Handbooks were distributed at local landings and marinas across the state. This continues a successful partnership with US Coast Guard Auxiliary for teaching boater education.
- Continued the partnership with Wendy's for the "I Got Caught Wearing My Lifejacket" tickets for a free Frosty in support of youth boating safety.
- Held annual Ladies on the Lake event at Lighthouse Marina on Lake Murray for 30 women. Taught boat trailering & backing as well as basic boat operation.
- Boating Safety Radio commercials aired at all Carolina & Clemson Baseball games during March and April.
- Coordinated Boating Safety displays at Clemson and Carolina baseball games. The 17 foot Boating Safety Wrapped Pioneer Boat was at both baseball games.

Archery in the Schools

- 1925 students participated in 5 Regional Archery Tournaments across the state in an effort to allow more schools to participate in a tournament experience.
- Held 11th annual South Carolina Archery in the Schools state archery tournament at the Sumter Civic Center in March of 2016. The event was expanded in 2016 from a two day event to a three day event to accommodate more shooters in all three division. A total of 1,078 students participated in this 3-day event.
- Thanks to a grant from the Hampton Wildlife Fund and other sponsors, $7,000 in college scholarships were presented to graduating seniors during the High School Division portion of the State Archery Tournament.
- 4,000 archers from across North America attended the 4-day National Archery in the Schools Program World event in Myrtle Beach at the Sports Complex as well as the World IBO 3D Challenge hosted by SCNDR.
- A 3D IBO NASP fun shoot was held in July at the Belfast Archery Range for 46 shooters.
- There are 40,000 students actively shooting archery in 358 schools across SC.

Take One Make One

- Take One Make One coordinated 65 hunts in 2016 with 255 participants.
- TOMO Trailers visited 106 events with 23,085 people participating in 2016.

Youth Shooting Sports

- SCDNR sponsored the second annual SCDNR Sporting Clay Open at the NWTF Palmetto Shooting Complex in Edgefield, SC. 525 students and 1600 people total were in attendance at our second year event.
- In partnership with sponsors like Harry Hampton Wildlife Fund, Bass Pro Shop, Cabela's, and Rio Ammunition, a total of $49,000 in college scholarships were presented to graduating seniors who attended youth shooting sports events.
- SCDNR sponsored four skeet and trap events in 2016, including the First Annual Skeet & Trap Championship in February.
- 284 youth shooters attended the 2nd Annual SCDNR Youth Skeet Open was held at the Palmetto Shooting Complex in Edgefield, SC making it the largest youth skeet event in South Carolina.

Ranges

- Continue to work with the US Forest Service to complete the renovation of the Twin Ponds Rifle Range. The new range will include a 16-station 100 yard rifle range and an 18-station 25 yard pistol range.
- Completed purchase of Indigo Gun Club in Richland County in May 2016. The facility will be known as the SCDNR Wateree Range.
    - Completed renovation of skeet ranges and build new covered five stand shed.
    - Installed new machines on all four skeet fields, the trap field, and the five stand thanks to a $67,000 donation from the Boyd Foundation.
    - Youth Teams began practicing on the skeet range and five stand in November and December.
    - Once complete, the Wateree Range will offer public opportunity for Skeet, Trap, Sporting Clays and rifle/pistol ranges.
- Completed the Ceramtec Archery Park with the City of Laurens and held grand opening ceremony in April.

Honor Guard

- Conducted 1 funeral detail with flag folding ceremonies.
- 3 Color Guard assignments were conducted, including one for the Association of State Criminal Investigative Agencies Conference hosted by SLED in Charleston.

EMD/Supply/Dispatch/Radio Communications/Aviation – Captain Karen Swink

EMD/Homeland Security

- Participated in five (5) FNF Table Top Exercises for Plant Vogtle, Catawba, Oconee, VC Summer and the Governor's Annual Table Top. In addition, SC DNR participated in two (2) Full Scale Graded exercises for Catawba and Oconee facilities.
- Consulted with Region Captains to update Hurricane and Winter Storm response plans.
- Hosted a three day Radiological Nuclear Detection Concepts, Tactics and Integration (RCTIC) course in Moncks Corner. Ten (10) Federal instructors conducted the training with twenty-four (24) officers from local, state and federal agencies.

SEAHAWK

- 1st Sgt. Davis continued to work intelligence requests during the pretrial hearings, and jury trials, for two high profile cases in the Charleston area:
  - North Charleston PD officer involved shooting, Michael Slager.
  - The Emmanuel Church shooting involving Dylan Roof.
- 1st Sgt. Davis participated in twenty-one (21) MASFO's (Multi Agency Strike Force Operations), two (2) Hammerhead (Heightened Activity Maritime Response Harbor Enforcement and Deterrence) operations, and six (6) Cruise Ship operations.
- 1st Sgt. Davis has completed 126 intelligence requests.
- Assisted in command post for Memorial Day Boke Weekend in Myrtle Beach, SC.

Aviation

- Conducted 187 Flights resulting in 692 flight hours
- Conducted 278 DNR LE Flight Hours (Night Patrols, Bait Patrols)
- Conducted 38 Restricted LE Flight Hours (SLED/DOC/DEA)
- Conducted 130 Search and Rescue Flight Hours
- Conducted 52 JEA Flight Hours
- Conducted 142 Reef/Biology Flight Hours
- Conducted 7 SCEMD/SCDPS Hurricane Evac Ex Flight Hours
- Conducted 29 Hurricane Matthew
- Conducted 11 Training and Maintenance

- April 10, 2016 after an exhaustive 6+ hour search for lost kayakers that involved a Coast Guard C130, two Coast Guard MH-65 helicopters, a Coast Guard Auxiliary C-182 and a Charleston Co. helicopter. SCDNR Aviation section spotted the distressed young man alive and coordinated the recovery of the individual and transportation to medical personnel for treatment.
- The P68 was used with the Dept. of Energy's MDDU system during Operation Shrimp and Grits. The aircraft served as the airborne radiological monitoring station during the exercise. The aircrew coordination and operation of the equipment received numerous accolades and was a focal point of a DOE article about the MDDU system.
- Made numerous SCDNR Aviation presentations to schools, job shadowing programs, and veteran's groups.
- Completed an MOU for the Dept. of Corrections regarding prisoner extraditions.
- Completed In-House FLIR training resulting in 27 new/recurrent FLIR operators.

- Obtained FAA BFR/CFI renewal.
- Assisted with the following cases and warnings: 19 Shining, 1 Possession of Marijuana, 1 Alcohol violation, 6 simple night hunting, 3 warnings for Minor in Possession, 3 warnings for rabbit hunting out of season, 2 warnings for no hunting license, 2 warnings for simple trespass, and 2 warnings for ATV Safety Act as a result of aerial night patrols.
- Pre-Storm video assessment via FLIR documenting the status of entire ICW prior to Hurricane Matthew.
- Post-Storm ISR and video assessment of Beaufort and Jasper Counties hours after the arrival of Hurricane Matthew.
- Assessment flight of Nichols with Flood Mitigation section to ascertain water levels and redeployment of supplies, equipment, and manpower.
- Wading bird flights determined the status of approximately 80 wading bird rookeries including 9 species of wading birds. At least 4 of the rookeries found during the transect flights were not previously documented in the SCDNR database and some of the other rookeries had not been surveyed in several years. Photographs taken during these flights replaced the potentially disruptive ground counts and will be used to determine the number of pelicans nesting in the state this year.
- Completed Shallow Water Egress Training (SWET) resulting in a higher safety margin for pilots and airborne observers.

Supply / Equipment

- Implemented a process in which regions place small orders 1x a month- to cut down on PO's and save operational dollars by buying in bulk rather than individually.
- Completed Glock firearm issuance and return.
- Issued new weapon lights and holsters.
- Completed Ballistic vest swap and issued new vests to officers.
- Successfully completed Supply Audit.

Communications Center

- Total Calls for Service: 14,661
- Top 3 calls: Injured Animals:1591, Nuisance Wildlife: 1,131, Trespass to hunt/fish: 1,429
- Processed 2034 Palmetto Pride Calls (Litter busters)
- Registered 861 Night Hunting Properties Permits
- Entered 245 Warrants into NCIC
- Removed 285 warrants from NCIC

Radio Communications

- Maintained daily operations and maintenance and Programs for consoles, twenty-one (21) repeaters, forty-six (46) control stations at eight (8) Master Sites, microwaves, DSL's, Towers and sites, almost 3000 Mobiles, Portables and Boat radios. In addition, maintained generators at the majority of the sites and maintained other division radios.
- Installed mobile radios on site for the new LE vehicles.
- The Long Mountain Tower facility in conjunction with the Department of Administration, replaced a building with all antennas and coaxes at no cost to SCDNR. This process involved months of planning and work to complete.
- Maintained repeaters and generators during the Ice Storm and Hurricane Matthew as electrical power failures occurred in several locations.
- Utilized the communications on wheels (COW) in Nicholas SC for approximately 3 weeks during flood event.

Operation Game Thief, Legislation, Grants, Records & Technology – Captain Lee Ellis

Operation Game Thief

- The SCDNR Tips program has opened additional avenues for the public to report anonymously violations through the DNR website, DNR Facebook page, SMS texting, and through downloadable apps for smart phones on the iPhone and Android applications.
- Worked with administrators of the Pocket Ranger App to include a link from their App to the SCDNR Tips web based tip reporting through the SCDNR Website.

Confiscations/Restitution

- Automated the sale of confiscated equipment through fillable auction request forms which were added to the intranet for use by the regions.
- Established a monthly accounting system for managing funds for accounts individually for Operation Game Thief, Confiscations, Marine Theft Auctions, Buy Money, and Restitution in conjunction with the LE Business Manager.
- Improved financial reporting for the Property Watch program.
- Added a shared folder with all Regions and the Radio Room where Property Watch scanned documents can be located 24 hours a day.

Records & Technology

- Supervised implementation of the new training file system to ensure all training files are accurate and complete both in house files and electronic files.
- Completed implementation of internal procedures for revocation of privileges due to unpaid child support to become compliant with state and federal requirements.
- Revised 7 and implemented 4 new records retentions schedules.

Training Staff Accomplishments - Lt. Russell Monnet

- Developed website for Non-Departmental DLEO's for legal updates and DV.
- Conducted Active Shooter Training for all field officers and field supervisors.
- Conducted training file audit and updates.
- Conducted Officer Water Survival Course for Region 1 and 3.
- Conducted Shotgun and Boat Operator courses for local Law Enforcement.
- Conducted Rifle Training for officers issued long guns.
- Conducted 40 Hour Officer Survival School in Clinton, SC.
- SSGT. McClellan completed Sig Sauer Master Instructor School.
- L/Cpl. Martin and SSGT. Spires were certified in NASBLA Seated Battery Instructor.
- 3 officers completed certification as AAA Driver Improvement Instructor.
- 2 instructors received certification for Gracie Survival Tactics for Level 1 Instructor.
- Sent 40 officers to Crowd Control Training to assist DPS for State House protests.
- Attended Active Shooter and School Resource Issues seminars.

- Purchased airsoft and simunitions weapons for training. (DNR airsoft weapons were used during Active Shooter training with DPS for realism)
- Procured $184,000.00 of 1033 equipment for training and Regions only cost to the agency was $88.00 for shipping.
    - 1 Diesel Generator
    - 1 Medical Kit, MES
    - 20 Frame , Rucksack, Shoulder Straps, Waist Belts
    - 10 Reflex Sight (Aimpoint)
    - 9 Thermal Sight (PAS 13)
    - 75 pairs of ESS Goggles used for airsoft and active shooter training.
    - 15 Individual Combat Shelters
    - 20 Combat Gauze Packs

Law Enforcement Business/Finance Section – Jessica Clements

- Officers and non-sworn staff have continued to participate in Excel, Access, Word; and specific duty related training opportunities throughout the year.
- Established meetings and weekly updates in regards to newly received and expected grants to allow for a spending plan for purchases and accurate planning of major expenditures, reporting criteria and deadlines.
- Created Business Objects reports to display Functional area spending/budgetary for Hunter Education Section grants, Boating Safety grants and JEA grant.
- Continued working on the FEMA and state funding issues related to the 2015 Flood Event;
- Continue towards certification as a Government Finance Officers for the state of South Carolina.
- Handled Hotel and Travel documents for Hurricane Matthew Event.

Legal Staff – Shannon Bobertz & Craig Jones

- Handled approximately 60 cases overall.
    - Approximately 40 formally through legal office
    - Approximately 20 directly with the charging officer
    - Attended motion hearings or pre-trials at Officers request.
- Covert Team Assist
    - Sumter hawk trapping case
    - Waddell internal investigation.
    - Misc. Facebook initiated investigations.
    - Illegal possession of antelope in Cherokee County.
    - Went with investigators to assess possible Dillon high fence concern.
    - Hiked into Jocassee Gorge with AG office to get pictures relevant to bear case.
- Investigations Assist
    - Assist in felony BUI investigations (Bracewell, Averitt, Sav River boat accident).
    - IA investigation consultation.
    - Assisted and advised in Officer involved accidents\incidents (G. Brown, Bowen accident).

- Training
  - Attended preservation of evidence seminar for Law Enforcement Officers
  - Assisted in intensive BUI training specifically for DNR officers. Legal office brought in DUI prosecutors as guest instructors from Lexington and Richland county Asst Solicitors offices and a DUI defense attorney. I also presented on search warrants at this seminar.
  - Presented on search warrant issues as a guest instructor for a DUI prosecution seminar open to all state law enforcement agencies.
  - Presented on body camera issues at SEAFWA conference in Baton Rouge.
  - Performed region wide training at agency region meetings on search warrant use
  - Revised online search warrant template to comply with court administration requirements
  - Created a self-explanatory user friendly search warrant overview document allowing officers to quickly produce search warrants and minimize confusion
  - Created a "Social Media" and Facebook quick reference document allowing officers to preserve and obtain search warrants for social media evidence quickly and easily.
  - Attended body camera workshops and assisted in development of body camera policy.
  - Collaborated on review and update of use of force policy.
  - Created a user friendly written trespass notice form that can be served by officers
- LE Related Activity
  - Handle numerous calls, texts and emails 24/7 to insure timely answers for the officers as incidents are occurring.
  - Created (and constantly creating and updating) quick reference overview sheets on most common issues so that I can quickly answer questions while the officer is in the field and aid with charging and preserving evidence.
  - Researched and provided authority to Capt. Swink regarding Officers authority to enter private property without a search warrant.
  - Assisted Dorchester Officers in communicating with US Atty Office and other local agencies on a night hunting case that led into a felon in possession of firearm, and felony theft and burglary charges by surrounded Sheriff's Offices.
  - Assisted DHEC with companion shellfish violation cases.
  - Provided written response to homeowner association assertion that Officers parking marked vehicles were a violation of HOA covenants and restrictions. Forced HOA to revise their position.
  - Assisting with Beaufort Marine Debris removal situation.
  - Worked with Orangeburg Officers (P. Nettles and E. Lee) as DLEO during October flooding doing welfare checks.
  - Worked with Officers assigned to patrol and support at Edisto for Hurricane Matthew assignment.
  - Attended meeting with Maj. Landrum to address defendant's attorneys concerns regarding Sumter Hawk case.
  - Assisted in providing requested affidavit in Orangeburg hawk trapping case.
  - Advised on agency interest in putting employee's wife on "no trespassing" notice with regard to domestic issue initiated by non-employee spouse.
  - Attended Captains meetings
  - Advised and consulted on legislation
  - Meet or communicated with various Solicitors Offices or US Attorney Office representatives to advocate or communicate SCDNR position or desire on particular cases.

- Prepared for General Sessions trial prosecuting a night hunting case at the request of the Solicitor that resulted in a guilty plea with full fine, suspension and forfeiture of vehicle prior to commencement of trial. Currently handling 2nd similar case at request of Georgetown Solicitor's Office.
- Offered service to prosecute or liaison with any Solicitors office to try to prevent charge reduction or dismissal of SCDNR General Session cases.
- Attended or advised officers engaged in depositions or meetings with attorneys or their investigators related to civil aspects of cases.

- Non-LE Related Activity
  - Covered Board Meetings as needed.
  - Attended Van's Camp Deposition as needed.
  - Attended International Drive bear tunnel deposition.
  - Participated in Chapter 7 re-write meetings.
  - Attended and participated in new shell fish handling revisions.
  - Advised on FOIA request.
  - Participated in Continuing Legal Education seminars.
  - Advised or provided opinions to MRD on various issues or concerns. (Residency compliance for commercial licenses or permits, marine shell uses, legal interpretations and applications).
  - Attended HR legal compliance training.

Marine Resources Division

Research

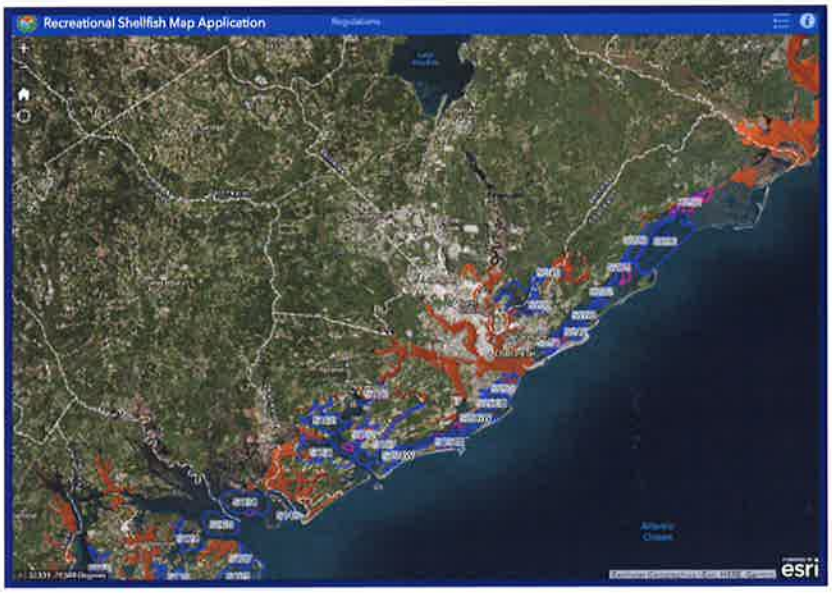

- MRRI staff were awarded 6.4 million dollars in competitive research grants and contracts.
- Researchers partnered with >100 scientists from local, state, federal and academic institutions from around the country to help better understand South Carolina's living marine resources and habitats.
- Staff produced 100 technical reports, published 25 scientific research papers, gave 250 oral presentations of ongoing research and held 4 workshops.
- The ecosystem research group completed its 17th year of sampling estuarine habitats, with 60 trawls covering 22 miles of coastline, collecting 1,765 specimens of 36 species, and providing information to characterize the health of SC's estuarine habitats coast-wide.
- The algal research team spent 102 field days responding to the public regarding fish kills and algal blooms, collecting 18,441 samples.
- The inshore fish research team made 994 trammel net sets, 311 electrofish sets, 63 trawls and 356 longline sets, tagged 1,993 fish and processed 10,938 fish in the laboratory.
- The population genetics team processed over 10,000 tissue samples of 13 species that provided information to understand the stock structures and genetic health of fish resources in SC.
- The crustacean research and monitoring section continued its trawl survey, with 128 gear deployments at 26 stations. These surveys involved 102 staff days and collected 1760 samples to determine health of shrimp and crab populations that inform opening and closing of shrimp season. Staff also collected information on juvenile shrimp, blue crabs and horseshoe crabs at 62 stations statewide, involving 115 staff days, 160 gear deployments and the collection of 1160 samples.
- The shellfish research section implemented winter sampling efforts at more than 30 stations statewide to determine natural oyster mortality rates.
- The coastal finfish research team made 2,864 gear deployments with trawls, chevron traps, and longlines between Cape Hatteras and Cape Canaveral and caught 1,011,785 fish, crustaceans and sea turtles of over 350 species.
- Staff processed 35,000 otoliths for age and 20,000 reproductive samples to determine spawning condition, adding ~3.4 million data records.
- Staff made 220,000 detections of tagged fish and turtles throughout the South Atlantic Bight. Staff used these data in 7 regional fisheries stock assessments to provide guidance to managers on how to manage recreationally and commercially important species, rebuild turtle populations, guide opening and closing of harvest seasons and enhance understanding of marine resources.

Fisheries Management

- Staff provided data and participated in four regional stock assessments for South Atlantic shrimp, red snapper, triggerfish, and blueline tilefish.
- Partners and staff recycled more than 27,000 bushels (~700 tons) of oyster shell.
- State and Public Shellfish Grounds received 29,663 bushels of oyster shells, creating 2.28 acres of shellfish habitat along approximately 1.6 miles of shoreline.

- 5,210 volunteers logged 9,410 volunteer hours building oyster reefs, sampling fish, monitoring water quality and growing/planting marsh grass.
- The commercial licensing office achieved a 99.95% accuracy rate for licensing data.
- The fisheries statistics section tracked 1,324 licenses and permits for monthly reporting and collected 22,995 trip reports from commercial and recreational SC fisheries.
- Online reporting was successfully implemented for charter logbooks.
- Staff completed a cooperative agreement with the US Army Corps of Engineers to develop recommendations for an SC Shellfish Mariculture Plan.
- Staff launched a recreational harvest map web application.
- Staff conducted 4,843 interviews of recreational anglers through the Marine Recreational Information Program.
- SCDNR charter logbooks were evaluated for possible use in generating catch and effort estimates in the for-hire fishery.
- Staff submitted documentation to exempt charter and recreational fishing license holders from a federal fishing license requirement, potentially saving SC anglers $9,000,000 in federal license fees.
- The SC Governor's Cup Billfishing Series received $79,700 in new donations. This is the most donated in the 29-year history of the program.

- The Memorial Reef Fund provided tax receipts to donors and notification to bereaved families.
- Research demonstrated the effectiveness of the Charleston Deep Reef site for attracting imperiled species of deep water grouper as well as pelagic species.
- Thirteen artificial reef sites grew through the addition of 120,000 cubic feet of habitat.
- Two new reef habitat structures that can be built and deployed with in-house assets were created, allowing for wider distribution of reef material along the coast.
- Staff learned to operate a new side-scan sonar system, which will greatly enhance the artificial reef program's surveying and mapping abilities.
- DNR awarded a Shore-Based Angler Access Grant to the SC Dept. of Parks, Recreation, and Tourism for repair and improvements to the access road at Oyster Landing. This important beach area is used for saltwater fishing, crabbing and shrimp casting within Huntington Beach State Park in the northeastern part of Georgetown County.
- Staff conducted sampling with commercial shrimpers to assess reproductive condition of white shrimp. Biologists continued sampling commercial shrimp landings to determine counts, species composition, and stages of reproduction for the remainder of the shrimping season.
- Staff visited shrimp houses 128 times and sampled 644 pounds of shrimp to estimate species composition in the SC commercial shrimp fishery.

Outreach

- Boating Infrastructure Grant Program (BIG) staff completed four projects, totaling $ 114,093 in federal funding while managing 15 active projects totaling $ 7,292,573 in federal funding. Staff worked with industry partners to develop and submit ten new proposals totaling $ 4,533,859 in Federal funding for FY17.

- DNR's Marine Resources Division was featured in over 250 digital, print, and broadcast media stories.
- South Carolina Coastal Resources, a blog dedicated to showcasing coastal and marine-related SCDNR stories, was launched in October.
- Five youth saltwater fishing events were held including pier tournaments and family fishing clinics.
- 583 recreational anglers tagged and released 4,088 saltwater gamefish and reported the recovery of 700 tagged fish.
- Approximately 223,000 copies of printed material were distributed to 114 vendors located throughout the coastal counties of South Carolina.
- 522 Camping permits were issued for Capers Island, accommodating 3,450 campers.
- Fenwick Island was acquired and transitioned to public use.
- A DNR volunteer workforce provided 7693 hours of service at Botany Bay Plantation NERR.
- 6,167 students and teachers from 16 counties across South Carolina participated in education programs aboard the Education Vessel Discovery and in land-based marine education programs. 85 teachers participated in workshops receiving education on coastal waters, current research, and lesson plans to support work in their classroom.
- 333 coastal decision-makers received training and tools to promote stewardship of our coastal resources.
- Over 1600 volunteers gave over 17,000 hours and drove over 92,000 miles in support of DNR's sea turtle program.
- Staff managed the 136,000-acre ACE Basin NERR (National Estuarine Research Reserve) including a dozen properties located in the lower St. Helena Sound.
- Staff worked with volunteers to monitor and protect over 6,400 nests reported on South Carolina beaches. This year marks the highest number of nests on record since standardized surveying began in 1982. Roughly 1,300 volunteers were trained and permitted to locate, protect and monitor turtle nests along the coastline.

Operations

- Staff monitored, maintained, repaired, and facilitated certification of fundamental equipment and systems.
- The automotive shop ensured proper and safe operation of 73 fleet vehicles and provided driver safety training.
- The safety officer inspected equipment and trained staff. Quarterly fire drills were conducted in all DNR buildings at Fort Johnson.
- Staff worked with campus partners to prepare the Fort Johnson Complex for landfall of Hurricane Matthew. After the storm, the section led assessment of damage and coordinated repairs to DNR assets.
- Charleston IT staff supported the technical needs of over 200 scientific and administrative users, over 250 computers, 54 printers and copiers, 7 servers, networking, 18 security cameras, 16 WiFi access points, and the A/V projection systems in 7 meeting rooms at DNR's Charleston, Bennetts Point, Waddell, and other coastal facilities.
- Staff improved security at Fort Johnson by upgrading the security server and camera security monitoring capabilities to include 18 cameras at DNR's facilities in Charleston.
- The DNR Charleston office network circuit was upgraded from 20 Mbps to 50 Mbps improving the productivity of all DNR staff at Ft. Johnson.
- The IT section provided in-house training for 78 DNR staff on relational database and Geographic Information System software.
- Wifi coverage at DNR's coastal facilities was extended to provide coverage for 16 buildings.
- Video conferencing capabilities were improved by securing access to "GoToMeeting" web conferencing service that provides full-featured modern web conferencing services to DNR staff in Charleston.
- The GIS office continued to operate as a cost-center providing support to a wide variety of projects.
- Having exceeded its intended service life, the Research Vessel Palmetto was refurbished. Enhancements included new engines, a generator and improvements to the gallery and crew's quarters. Structural issues were addressed.

Office of Support Services

Boat Tilting, Registration & Licensing

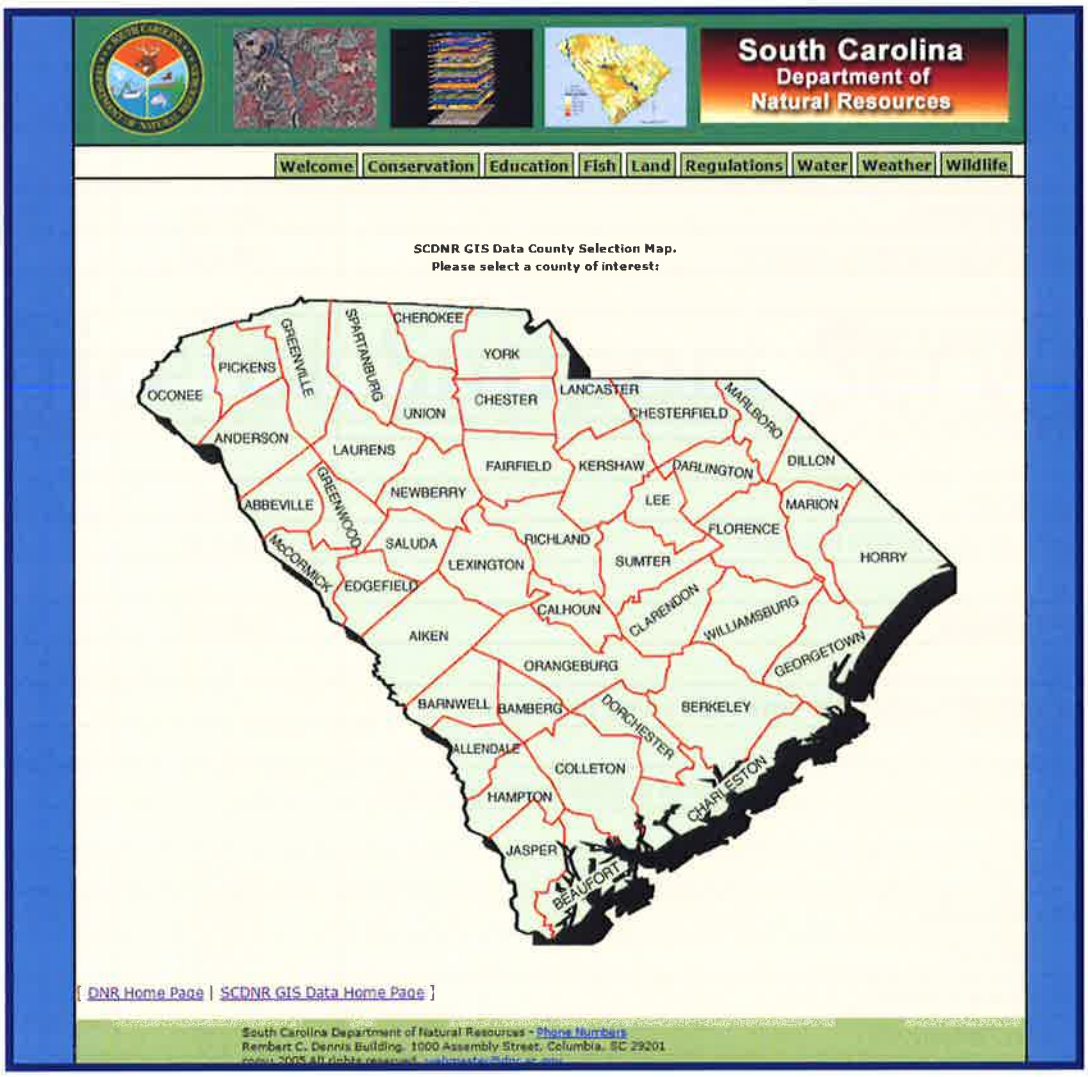

- Issue over 1 million Recreational, commercial and management licenses, permits and tags to individuals and businesses for hunting, fishing and Wildlife Management activities.
- Oversees, regulates and registers over 375,000 watercraft & motors. Consistently ranks in the top 10 states and territories for boat registration.
- January 29th, 2016 SCDNR opened the States Farmer's Market Express license office.
- Marketing has pushed online and call center license revenue sales to 41% of all sales statewide.

FY 2016 SCDNR License Sales		
Major License Sales Categories by Type	**Resident**	**Non-Resident**
Freshwater Fishing Licenses	227,155	71,792
State Combination & Sportsmen's Licenses*	**136,292**	NA
Total Freshwater Fishing Privileges	**363,447**	71,792
Saltwater Fishing	128,529	88,192
State Hunting Licenses	21,995	27,003
State Combination & Sportsmen's Licenses*	**136,292**	N/A
Total Hunting Privileges	**158,287**	**27,003**
*** Licenses contain both hunting & Freshwater Fishing Privileges**		
FY 2016 SCDNR Boating Activity		
New Title - Watercraft	13,768	
New Title - Outboard Motor	10,885	
Transfer Title - Watercraft	24,607	
Transfer Title - Outboard Motor	18,140	
Renew Registration - Watercraft	75,418	

Information and Technology (IT)

- Developed a GIS interface for the public to view all DNR managed lands and boating access areas. This application allows users the ability to find DNR locations of interest utilizing google map technology for directions, while also providing location descriptions and relevant information such as rules & regulations, open and closing times and license information.
- The implementation of the GovDelivery communication solution. GovDelivery gives the agency the ability to effectively communicate with our customers and the general public in one of the most timely, efficient and desired manners available. This tool complies with all state & federal privacy requirements, while allowing the user to receive desired information from the department based on categories and topic. Future tools that will be implemented include license and registration reminders.
- The process of redesigning the agency's website to be responsive for all devices was initiated.
- Maintained a website that received in excess of 14,200,000 successful request for web pages.

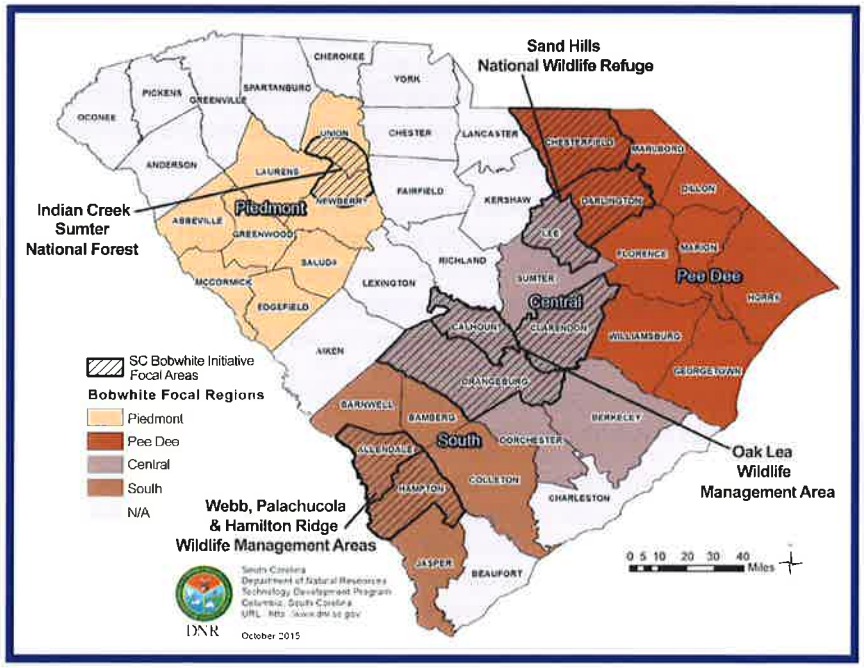

Wildlife and Freshwater Fisheries Division

Wildlife

- Celebrated the 75th anniversary of the WMA program with a special ceremony at Webb WMA and field days at Webb WMA and Wateree River HP WMA. Field days were attended by over 500 members of the public.
- Completed Liberty Hill Phase II (1,829 acres) purchase from The Conservation Fund. Established and dedicated the Austin Sheheen, Sr. Natural Resource Area at Liberty Hill.
- Prepared and maintained 44 Public Dove Fields, encompassing over 1,672 acres throughout 27 counties. These fields provided opportunity for over 3,500 adult hunters and over 250 youth hunters on opening day of dove season.
- Management and maintenance activities on WMAs and Heritage Preserves include planting of 3,202 acres of annuals, planting of 42 acres of perennials, mowing or disking of over 13,043 acres, prescribed burning of 22,546 acres, maintenance of 337 miles of firebreaks, mowing of 473 miles of dikes, re-topping of 3,114 linear feet of dikes, mowing of 828 miles of roads, grading of 667 miles of roads, re-topping of 51 miles of road with gravel, maintenance of 387 miles of trails, and maintenance of 250 miles of WMA boundary with posting of 2,794 signs.
- Replaced the pontoon undercarriage on the amphibious trackhoe and purchased two small excavators for dike and bulkhead work on coastal waterfowl projects.
- Staff handled 3,640 nuisance wildlife complaints including 963 alligator calls, 390 bear calls and delivered 221 programs to a combined audience of over 8,800 people.
- Special hunt opportunities provided on WMAs included 14 Special Youth Dove Hunts accommodating 266 youth hunters, 58 Special Youth Deer Hunts accommodating 360 youth hunters, and 9 mobility impaired hunts accommodating 205 hunters.
- Botany Bay Plantation WMA/HP accommodated 66,950 visitors and 21,212 vehicles.
- Successfully implemented the hurricane preparedness plan for Hurricane Matthew and only incurred minor damage to equipment and facilities during the storm; however, damage to infrastructure was significant with cost to repair estimated at over $3 million dollars. Most damage was limited to impoundment dikes with significant timber loss on Webb and Palachucola WMAs. Staff responded quickly and efficiently to damage from Hurricane Matthew, minimizing and mitigating additional damage where possible, protecting human safety, and clearing WMAs so they could be reopened as soon as possible following the storm.
- Responded to the Pinnacle Mountain wildfire with DNR staff assisting SCFC with firefighting and coordination for several weeks. Over 10,500 acres burned with over 1,600 acres of DNR lands impacted.
- Three new wildlife biologists were hired in 2016 - a bat biologist working on White-nose Syndrome and population monitoring, a research biologist on Yawkey Wildlife Center and a waterfowl biologist on Samworth WMA.
- Conducted significant bat survey and monitoring work in response to White Nose Syndrome and population declines. This included capture and banding work, acoustic surveys, cave and mine surveys and disease surveillance.
- Conducted a Golden Eagle Camera Survey project, documenting 3 Golden Eagles in the state.
- Captured 96 wild turkeys and deployed over 50 satellite transmitters for the year as part of ongoing research efforts on wild turkey breeding ecology, habitat use, and movement behavior.

- Deployed 15 automated recording units (ARUs) to record gobbling activity and chronology from March 1 – June 1 as part of ongoing turkey research related to gobbling chronology and season timing.
- Developed a new partnership with Riverbanks Zoo to allow for the rearing of hatchling gopher tortoises collected at Aiken Gopher Tortoise Heritage Preserve in their facilities. Began the first year of a telemetry study aimed at gauging survivorship rates among hatchling and head-start gopher tortoises at AGTHP.
- Staff made two trips to Florida for waif tortoise pick-up, constructed two new "tortoise pens" at AGTHP and released approximately 75 hatchling, juvenile, and adult gopher tortoises on-site.
- Completed NAWCA Projects on Bonneau Ferry WMA and Broad River Waterfowl Area that resulted in significant enhancements to wetlands habitat quality and improvement of public hunting opportunity. Began a NAWCA project on Webb WMA, completed planning for a project on Bear Island WMA, and received approval for a project at Santee Delta WMA.
- Administered a bird banding program which resulted in banding of 259 wood ducks, 39 mottled ducks, and over 2000 mourning doves in support of state and region-specific research objectives and Atlantic Flyway banding goals.
- Continued participation in a multi-state Black-bellied whistling duck color banding project in which 254 ducks were banded in 2016. Ten birds were fitted with satellite transmitters. A total of 504 birds have been banded in SC.
- Completed a 55 acre longleaf pine timber thinning on Cat Island of the Yawkey Center with the new swing bridge. This is the first timber harvest there in decades.
- Control efforts and hog hunts on WMAs resulted in the removal of over 577 hogs.
- Began implementation of a coyote tagging and reward program to comply with a DNR legislative budget proviso.
- Completed the final year of alligator field surveys for a multi-year cooperative research project with Clemson University looking at alligator movements and population estimates.
- Conducted the first Gopher Tortoise population surveys utilizing Line Transect Distance Sampling to estimate population sizes at locations in both public and private ownership. Completed 5 pilot surveys and 3 full surveys, and identified 2 populations that meet Minimum Viable Population (MVP) criteria and one Primary Support Population.
- Collaborated with a solar development company to secure permanent protection via deed restriction for the Primary Support Population identified during survey efforts. This is the first population under private ownership in SC to be afforded such protection.
- Initiated a survivorship and movement study of hatchling and head started Gopher Tortoises at Aiken GTHP.
- Developed an acoustic recognizer for gopher frogs based on field recordings collected in 2014 and 2015, and surveyed all extant historic locations for gopher frogs contained in the Heritage Database in collaboration with Marshall University staff in an effort to better understand the current distribution of gopher frogs and examine extirpation in SC. We identified Gopher Frogs at 4 locations in 2016.
- Completed a comprehensive survey for Pine Barrens Treefrogs in South Carolina on public and private lands, re-surveyed locations identified by Cely and Sorrow in the 1980's, and identified additional areas of occupancy.

- Developed and initiated monitoring efforts on all four quail focal areas. A protocol was developed to monitor whistling bobwhites and other non-game birds during the spring, fall covey counts, and a modified habitat survey on the three tier one focal areas in the state. On the one tier two focal area, the National Bobwhite Conservation Initiative protocol was implemented.

- Developed and implemented an entirely new distance sampling protocol to assist with the monitoring of mourning doves throughout the state. This survey will assist the SC Department of Natural Resources manage the mourning dove population more effectively as it will provide a pre-hunting season population estimate each year.
- Worked with partners to fund, construct and distribute 1,100 wood duck box units.
- Collaborated with Clemson University (Kennedy Center) to design, fund and initiate waterfowl and waterbird transect surveys.
- Combined early and late migratory bird season setting process that occurred much earlier in the year and integrated migratory bird harvest information into the SCDNR Rules and Regulations.
- Collaborated with partners to initiate a study of black-bellied whistling duck nesting ecology and participated in a satellite tracking study of instrumented individuals.
- Worked with agency staff, constituency groups, and members of the General Assembly to pass Senate Bill 454 commonly called the deer management bill and began working on planning for the implementation of such.
- As requested by the legislature, completed a national survey of fish and game agencies related to methods of electronic harvest reporting and tagging for big game.
- Population estimates for seabirds were conducted by counting nests or adults at all major seabird colonies on the coast of South Carolina using aerial images. Techniques to improve accuracy of seabird nest counts and decrease disturbance to colonies were perfected. *Image J.* processing software was used to tally brown pelican, royal and sandwich tern nests. In 2016 South Carolina had 4268 brown pelican, 11,235 royal tern, and 3448 sandwich tern nests.
- Coordinated with private, federal, state, and county owned beach managers to close part of the beach for nesting seabirds and shorebirds at 30 sites. This involved 2-10 site visits at each property depending on the partnership with the land manager. Additionally, educational signs were placed at boat ramps and on some beach entrances. In 2016, 18 sites were targeted for partnering with land managers in protecting beach nesting birds. Partners (N = 93), were involved in on the ground site management. At most sites partners were staff or volunteers from the site's management organization that took a greater role in conservation in 2016 than in previous years.
- Least terns, a state threatened species, have adapted to nest on pebbled manmade structures. Pier Romeo is a long concrete pier located next to the NOAA Office for Coastal Management at the old Charleston Navy Base and no longer used for docking ships. Pea gravel was spread at the end of the pier. All openings that could be hazardous to mobile chicks were covered with hardware cloth and wooden pallets were placed to provide shade. To attract least terns, a Murremaid Sound System was employed to play the calls of a least tern colony and least tern decoys were placed in the gravel. This work was accomplished with 30 volunteers from NOAA and USFWS Ecological Services under the supervision of the SCDNR Coastal Birds Project staff. A small colony of least terns nested on this site the first year of this project, thus the project will expand in 2017.
- Completed a two year project to assess the distribution of the black rail, a very small and secretive marsh bird, in the coastal region of South Carolina. Conducted surveys at over 500 points and succeeded in finding black rails on several properties, including in impounded marshes that are managed by SCDNR to provide winter habitat for waterfowl. Presented results from this project during the Black Rail Symposium at the international Waterbird Society conference. Coastal South Carolina has emerged as an important portion of the range for the eastern subspecies, which is currently undergoing a federal status assessment.

- Documented record high numbers of wood storks nesting in South Carolina. During annual surveys, 2,512 wood stork nests were counted. Monitored nesting success at a subset of colonies. Worked with private landowners and public land managers to improve quality of nesting habitat. With abundant and diverse wetlands that provide relatively reliable food sources during the breeding season and post-breeding season, South Carolina is playing a key role in the recovery of the species.
- Conducted MAPS (Monitoring Avian Productivity and Survivorship) on Webb Center in Hampton County and in Richland County. The effort on Webb was year 10 of 10.
- Collaborated with Clemson University in an investigation of loggerhead shrikes to determine distribution, habitat preference and population trends.
- Translocated 8 pairs (16 birds) of red-cockaded woodpeckers (RCWs) to Donnelley WMA in Colleton County. This was the first reintroduction to an area with no birds on SCDNR property. Three pairs came from the Poinsett Bombing Range in Sumter County and 5 pairs came from Sandhills NWR in Chesterfield County. This was a significant collaborative effort by SCDNR, the USFWS and other personnel.
- Continued to manage the Safe Harbor Program for RCWs. There are now 175 properties enrolled and South Carolina continues to have more RCWs on private property than any other state within the range of the species.
- Completed 96-acre addition at Jocassee known as Galloway Tract in Pickens County. Completed 91-acre addition at Bear Island in Colleton County.
- Completed 589-acre addition at Pitts WMA known as Adair Tract in Laurens County.
- Assisted Law Enforcement with 131-acre acquisition of Indigo Club in Richland County.
- Assisted Law Enforcement with 2-acre acquisition of LE Office in Kershaw County.
- Investigated approximately 25 potential land acquisitions. Five projects are ongoing and will be completed in 2017.
- A Forest Legacy grant in the amount of $1,005,000 was obtained for an addition to Chestnut Ridge.
- A National Coastal Wetlands Conservation grant in the amount of $1,000,000 was obtained for South Fenwick Island.
- A NCWC grant in the amount of $850,669 was reprogrammed for South Fenwick.
- SWG funds in the amount of $623,000 were obtained to fund 8 research projects.

Freshwater Fisheries

- The Freshwater Fisheries hatchery system produced and stocked 11,503,948 fish weighing 131,861 pounds into public waters.
- The hatchery system produced 14 species for stocking into public waters.
- Fish were stocked into 136 water bodies at 190 locations involving 1,444 stocking events.
- Regional operations provided 375 pond management consultations by phone.
- Regional staff reviewed and provided technical comments on 33 environmental permits.
- Regional staff conducted population surveys and inventories were conducted on 23 lakes and reservoirs and 20 rivers and streams.
- Regional staff maintained 124 fish concentration areas in public waters.

- Section staff responded to 28 reported fish kills.
- Twenty-five schools participated in the trout in the classroom program support with partnership from Trout Unlimited.
- Support was provided to youth bass clubs in 47 schools involving approximately 577 students.
- Staff supported the operation of 20 kids fishing rodeos in cooperation with the Law Enforcement Division which were attended by 2,901 participants.
- With the cooperation of DNR certified volunteer fishing instructors, 31 family fishing clinics were provided to 631 participants.
- Fishing tackle loaner sites were maintained at 30 locations across the state providing equipment for 696 users involving 1,241 rod loans.
- The Freshwater Fisheries Section held the 4th Annual Youth Bass Fishing Championship on Lake Murray with participation from 42 schools and 148 youth anglers.
- Statutory amends were made to the recreational American eel limits to insure compliance with the coast wide management plans established by the Atlantic States Marine Fisheries Commission for American eel.
- Statutory amendments were completed to the laws dealing with the use of sterile grass carp for vegetation control in South Carolina to clarify the availability of this management options for private ponds.
- Fish habitat enhancement programs were continued in Lakes Hartwell, Moultrie and Marion.
- With the support of the Office of Environmental programs a general permit application was submitted to the U. S. Army Corps of Engineers to allow the DNR to conduct fish habitat enhancement activities in lakes and reservoirs across the state.
- The St. Stephen Dam eel ramp allowed for the passage of 4,556 juvenile American eels during 2016
- The sonic receiver array in place across the coastal rivers of South Carolina (approximately 300 receivers) was maintained and monitor and continues for provide critical information on the migration patterns of Atlantic and shortnose sturgeon.
- The St. Stephen fish lift, though hampered by mechanical failures twice for extended periods during the season, passed 3,285 blueback herring, 41,375 American shad, and 3,785 other species (13 different species).
- A study was initiated to evaluate the total mortality and exploitation of striped bass in the Lower Saluda River.
- A study was initiated to evaluate the fishery enhancement potential of Stevens Creek Reservoir.
- Launched the FIT (Fisheries Intensive Training) Program. This is a freshwater fisheries specific in-service training program for junior staff with in the Section.
- Continued efforts to build relationships with the sport fishing industry and manufacture in South Carolina through attending the ICAST 2016 as an exhibitor, participating in the American Sportfishing Association's 2016 Industry Summit and hosting the second annual DNR-Sport Fishing Industry Summit with South Carolina based companies.

The Economic Contribution of Natural Resources to South Carolina's Economy

South Carolina is blessed with abundant natural resources and diverse landscapes, from the edge of the Blue Ridge Mountains in the northwestern part of the state, the rolling hills of the Piedmont, the Sandhills, the Coastal Plain, and the coast with its beaches and marshes. The beauty and abundance of its natural resources attracted the first European settlers. Any economy is based on natural resources, and South Carolina's culture, history, and development has its foundation in its natural resources.

Natural resources are raw materials from the earth that man extracts and employs for some use. Typically, they include air, water, land, minerals, and plant and animal life. Since they are building blocks for anything economic developed by man, much of South Carolina's economy could easily be tied to them. This report focuses on the economic impact of natural resources on South Carolina's economy. Rather than using a broad definition of natural resources and including much of the state's economy (for example, agribusiness that is directly tied to the land), our emphasis is on the traditional natural resources: outdoor recreation (hunting, fishing, wildlife watching, and nature-based tourism), forestry, mining, boat manufacturing, and commercial fishing. This definition builds on an earlier study that centered on those resources (Division of Research 2009).

These natural resources helped form the character of the state and its people. The coast, with its access to the bounty of the sea and its marshes, defined early settlement in the colony. Its earliest industries developed from those natural resources (rice and indigo culture and fur trade). Native plants and animals provided food and shelter. The state's economic development, continuing to today, hinged on its natural resources. South Carolina's diversified economy and competitive advantage will only thrive if its natural resources are protected, promoted, and developed to ensure sustained growth of its economy.

This pattern of resource development is ingrained in the state's character and economic development. The rice culture can still be seen in extant tideland rice fields along the coastal rivers. The Upstate of South Carolina supported at least 25 charcoal iron furnaces from the late seventeenth to the late eighteenth centuries. Thousands of acres of timberland became barren "coaling grounds" used to produce charcoal for the iron furnances (Ferguson and Cowan 1997). The coastal region had the naval stores industry that relied primarily on the longleaf pine for the production of tar, pitch, and turpentine (Harmon and Snedeker 1997). These products were first used for chalking and waterproofing ships and the name derives from that.

South Carolina's forests, rivers, and lakes are some of its most important Natural resources (Fairfield Economic Development).

South Carolina's natural resources are the foundation of its environment and economy. Large parts of its manufacturing economy rest upon that foundation, as well as huge non-manufacturing sectors like nature-based tourism and outdoor recreation. The state's rivers, lakes, forests, and coast do much to define its character. Forests cover just over two-thirds of the state and its lakes, rivers, and coastal waters account for about six percent of its area (Oswalt et al. 2014). These support a tremendous economic value (not well-measured in the traditional marketplace) based on outdoor recreation, including activities like hunting, fishing, bird watching, boating, and camping. Mining, boat manufacturing, and commercial fishing provide additional economic impact. This report summarizes an analysis of the contribution of that economic impact on the South Carolina economy.

The traditional natural resource-based industries are obvious. Pulp and paper mills, sawmills, and plywood and panel mills are tangible and easy to see. Agribusiness (traditional agricultural and forestry production, including food and wood processing, and their related support sectors) constitutes the state's largest industrial sector. Considering just manufacturing activity, and not non-market benefits and ecosystem services like air and water quality, it is responsible for roughly five percent of the state's economic activity. Sportsmen, recreationists, and tourists contribute to the economy in a less tangible way, but also represent a significant economic impact. Our analysis attempts to account for both types of natural resource economic impacts.

South Carolina has historically been a natural resource-based economy. Early examples are iron production in the Upcountry and naval stores production in the Lowcountry.

Background on South Carolina's Natural Resources

Before discussing input-output analysis (the methodology used to model the state's economy), economic impact, and specific analysis results, a general discussion of especially relevant sectors of South Carolina's economy will add perspective. The natural resources that form the foundation for this economic impact will be described. The literature contains much background that will add insight to later descriptions of economic impact (like numbers of hunters and anglers in the state) and it provides a valuable overview of the role of natural resources in the state's economy.

Outdoor Recreation – Economic Impact

Outdoor recreation is a broad area of economic activity and includes many activities: bicycling, camping, fishing, hunting, motorcycling, off-reading, snow sports, trail sports, water sports, and wildlife-viewing. Over half of South Carolinians participate in outdoor recreation each year (Outdoor Industry Association 2016) and the outdoor consumer has wide demographics, including all genders, ages, ethnicities, and income levels. Outdoor experiences range from backyards to wilderness. Consumer spending, economic impact, tax revenues generated, and job creation make it one of the nation's significant economic sectors. Snow sports provide a good example; Americans spend nearly as much on snow sports and they do on internet access (Outdoor Industry Association 2012).

Spending for outdoor recreation has two main components: the purchase of gear and vehicles and dollars spent on trips and travel. Gear purchases include items like outdoor apparel and footwear, bicycles, skis, fishing gear, tents, rifles and shotguns, and backpacks. Vehicles include boats, motorcycles, recreational vehicles, snowmobiles, and all-terrain vehicles. In order to use all this gear consumers must spend money on day and overnight trips, airfares, rental cares, lodging, campgrounds, restaurants, groceries, gasoline, and even souvenirs. They also pay for river guides and outfitters, lift tickets and ski lessons, entrance fees and licenses. These activities support many small businesses. Rafting outfitters on the Chattooga River in Oconee County provide a good example. As these consumers visit outdoor recreation areas they benefit from services provides by land managers, park rangers, wildlife managers, and non-profit organizations. This is what adds up to the economic contribution. In terms of direct sales, about one-fifth of expenditures are for outdoor recreation gear and vehicles and four-fifths are trips and travel-related spending (Outdoor Industry Association 2012).

Estimates for South Carolina, based on 2011-2012 data, show that the outdoor recreation economy has been increasing at about 5 percent annually (even during the last economic recession) and plays a huge role in the state's economy (Outdoor Industry Association 2016). Over one-third of South Carolinians participate in hunting, fishing, and wildlife viewing (U.S. Fish and Wildlife Service 2014).

South Carolina's Outdoor Recreation Resources - Water

The total land area of South Carolina (not including water bodies) is 19.2 million acres and just over two-thirds of that area, 13.0 million acres, is forested (Rose 2015). The other obvious resource is water. A little over 1.3 million acres of South Carolina is surface water. That equates to 6% of the state's surface offering water-based recreational opportunities.

South Carolina's total area is 20.5 million acres. Land accounts for 19.2 million acres and water for 1.3 million acres. Forests cover 13 million acres.

The state's major rivers rise in the Blue Ridge and generally flow from the northwest to southeast (Figure 1). There are four major river basins in South Carolina: the ACE River Basin with sub-basins consisting of the Ashepoo, Combahee and Edisto Rivers; the Pee Dee River Basin with sub-basins consisting of the Black, Little Pee Dee, Lynches, Great Pee Dee and Waccamaw Rivers; the Santee River Basin with sub-basins consisting of the Cooper, Santee, Congaree, Saluda, Broad, Wateree and Catawba Rivers; and the Savannah River Basin which spans portions of South Carolina, Georgia and North Carolina.

The Chattooga National Wild and Scenic Rivers is one of the state's best-known water-based outdoor recreation opportunities (USDA Forest Service).

South Carolina has no large natural lakes. However, reservoirs created for hydro-electric power form several large lakes (Figure 1). The state has 1,617 lakes larger than 10 acres in size that cover a total surface area greater than a half-million acres. Nineteen reservoirs larger than 1,000 acres account for more than 88 percent of that surface water (Table 1). While most of these lakes were created for power production, recreation is also a major use. The major lakes include: Lakes Jocassee, Keowee, Hartwell, Richard B. Russell, and Strom Thurmond (formerly Clarks Hill) on the Savannah River; Lakes Greenwood and Murray on the Saluda River; Monticello and Parr Reservoirs on the Broad River; Lakes Wylie and Wateree and Fishing Creek Reservoir on the Catawba and Wateree Rivers; Lakes Marion and Moultrie on the Santee and Cooper Rivers; and Lake Robinson on Black Creek (South Carolina Department of Parks, Recreation, and Tourism 2014).

South Carolina shares the Chattooga National Wild and Scenic River with Georgia and North Carolina. In addition, nine river segments in the state have been designated South Carolina State Scenic Rivers. They are (with length of river segment): Ashley River (24 miles), Black River (75 miles), Broad River (15 miles), Catawba River (30 miles), Great Pee Dee River (70 miles), Little Pee Dee River (62 miles), Lower Saluda River (10 Miles), Lynches River (102 miles), and Middle Saluda River (5 miles). Other river segments are eligible for inclusion in the system (South Carolina Department of Natural Resources 2016a).

Three of the largest lakes in Table 1 were developed by the U.S. Army Corps of Engineers as hydro-electric projects. Lakes Thurmond, Hartwell, and Russell are three of the largest Corps projects in the country and some of the most popular recreational lakes under their management. Their combined water surface area is over 150,000 acres that form part of the border between the Georgia and South Carolina. In addition, the Corps controls nearly 130,000 acres of land surrounding the lakes. These lands support recreation areas, campgrounds, picnic areas, and wildlife management areas (U. S. Army Corps of Engineers 2016).

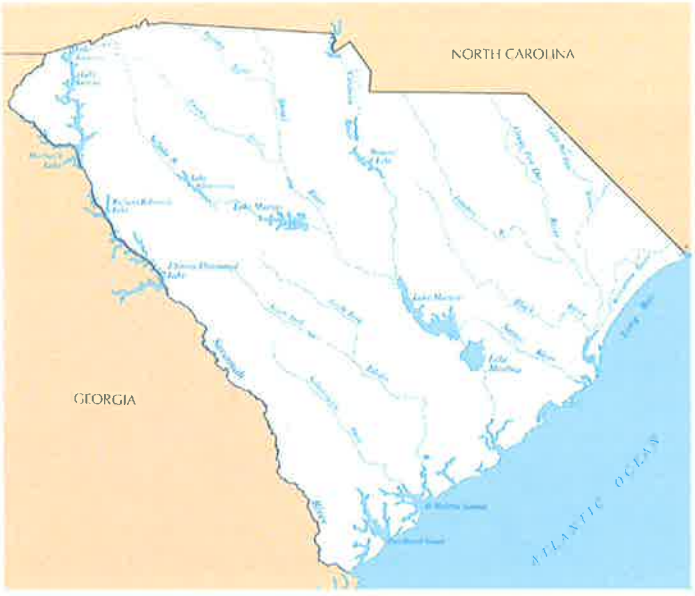

Figure 1. Major rivers and lakes of South Carolina (U.S. Geological Service).

Table 1. Major reservoirs of South Carolina (South Carolina Department of Parks, Recreation, and Tourism 2014).

Reservoir	Surface Area (acres)
Lake Marion	110,600
Lake Thurmond	70,000
Lake Moultrie	60,400
Lake Hartwell	56,000
Lake Murray	51,000
Lake Russell	26,650
Lake Keowee	18,372
Lake Wateree	13,710
Lake Wylie/Catawba	12,455
Lake Greenwood	11,400
Lake Jocassee	7,565
Monticello Reservoir	6,800
Parr Reservoir	4,400
Fishing Creek Reservoir	3,370
Par Pond	2,700
Lake Robinson	2,250
Lake Bowen	1,600
North Saluda Reservoir	1,080
L-Lake	1,050

South Carolina has 11,000 miles of rivers and streams (almost one-half mile for each square mile of land surface), more than 1,600 lakes greater than 10 acres in size, including 19 reservoirs greater than 1,000 acres in size.

South Carolina's coast measures about 190 miles. But that is deceptive, if the outer coast, offshore islands, sounds, bays, rivers, and creeks to the head of tidewater are considered, the miles of coastal shoreline increases to 2,876 miles (eleventh longest in the nation). The coastal beaches are the basis of the coastal tourism economy. Myrtle Beach is the second-ranked national beach destination in the country and further coastal attractions dot the coast all the way to the Savannah River (South Carolina Department

of Parks, Recreation and Tourism 2014). The South Carolina coast represents a distinct economic sector supporting much of the coastal tourism.

South Carolina Outdoor Recreation Resources – Parks, Forests, and Wildlife Areas

South Carolina has 47 state parks (Figure 2). These parks trace their beginning to the Civilian Conservation Corps (CCC). Sixteen state parks were constructed by the CCC. Myrtle Beach State Park was the first to open in 1936. Each state park has a combination of natural and historical attractions. Regular activities are fishing, boating, paddling, golfing, hiking, biking, swimming, beaches, waterfalls, camping, lodging, picnicking, interpretive and educational programs, and equestrian trails. Historical sites include settlements sites, historical homes and plantations, battlefields, and burial sites and cemeteries. The state parks provide 80,000 acres of protected areas that provide diverse outdoor experiences that are representative of the state's rich foundation of natural, historic, and cultural resources (South Carolina Department of Parks, Recreation, and Tourism 2016a). Congaree National Park is South Carolina's only national park. The National Park Service also maintains a national monument, national battlefield, national military park, national historic trail, national heritage corridors, and national historic sites. Congaree National Park is the largest intact expanse of old-growth bottomland hardwood remaining in the southeastern United States. The park has 25 miles of hiking trails and 2.4 miles of boardwalk. It protects over 26,000 acres of forest (National Park Service 2016).

The South Carolina Forestry Commission manages five state forests that provide a wide range of forest

Figure 2. South Carolina has 47 state parks scattered across the state (South Carolina Department of Parks, Recreation, and Tourism).

Anglers make use of the state's many waters.

recreation opportunities: Sand Hills in Chesterfield and Darlington Counties (46,838 acres), Harbison in Richland County (2,137 acres), Manchester in Sumter County (28,675 acres), Wee Tee in Williamsburg and Georgetown Counties (12,403 acres), and Poe Creek in Pickens County (2,498 acres). The state forests are internationally-certified as providing for sustainable forest management (South Carolina Forestry Commission 2016).

South Carolina has two national forests that encompass over 630,000 acres. The Francis Marion National Forest is near the coast and the Sumter National Forest is in the Upstate (Figure 3). Recreational opportunities vary with the landscape, from the mountain to the coast, or from whitewater rafting, kayaking, and canoeing on the Chattooga River to Lowcountry experiences that include swamps and maritime forests (USDA Forest Service 2016).

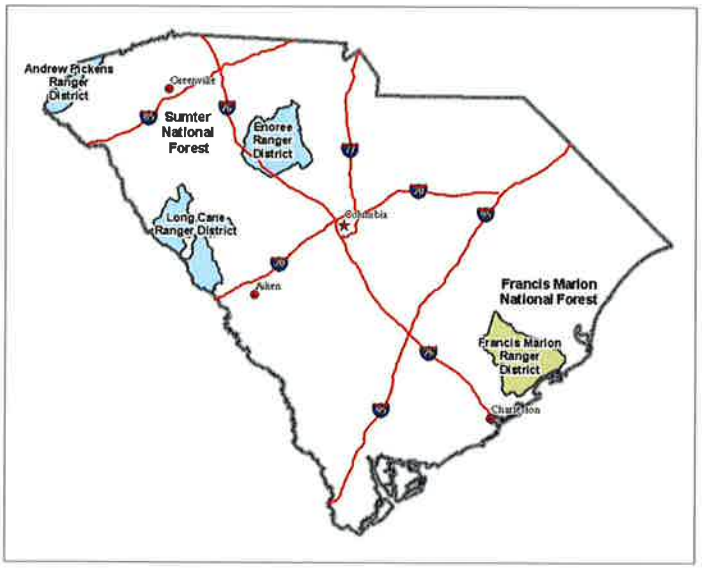

Figure 3. South Carolina's two national forests are divided into four ranger districts (USDA Forest Service 2016).

The South Carolina Department of Natural Resources (SCDNR) manages over 1.1 million acres in the state for wildlife. About 850,000 acres of Wildlife Management Areas are leased from private landowners and the USDA Forest Service (Figure 4). The additional acreage is state-owned lands managed as Wildlife Management Areas (including some State Forests and Heritage Preserves lands (South Carolina Department of Natural Resources 2015). The SCDNR also manages 74 Heritage Preserves that total over 90,000 acres throughout the state. These range from 1 acre to 24,000 acres. They are unique natural sites that are preserved, but recreational opportunities are allowed like trails, wildlife viewing, organized historical and natural events, and hunting (South Carolina Department of Natural Resources 2016b).

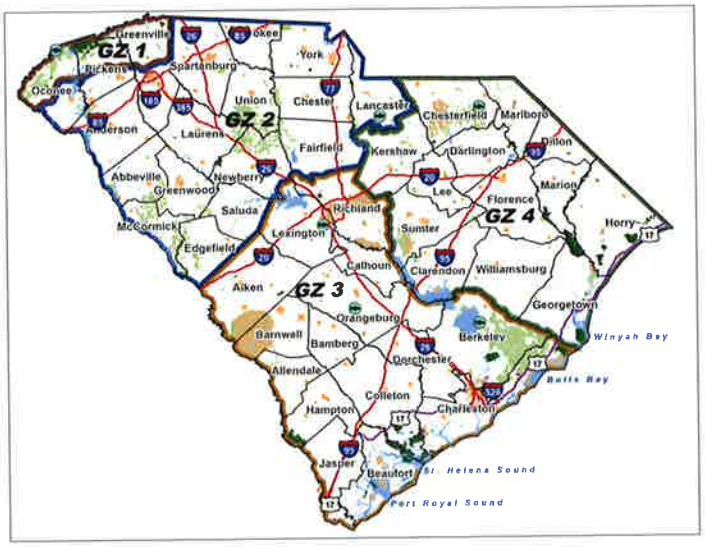

Figure 4. Wildlife Management Areas in South Carolina (SCDNR).

There are eight national wildlife refuges in South Carolina: ACE Basin, Carolina Sandhills, Cape Romain, Pinckney Island, Santee, Savannah, Tybee, and Waccamaw (Figure 5). They total just over 187,000 acres. Recreational opportunities are wildlife-oriented and include hiking trials, hunting, fishing, canoeing, kayaking, boating, birding, and picnic areas (U.S. Fish and Wildlife Service 2016).

There are close to 3,000 miles of trails in South Carolina. Many are managed by some of the groups already discussed. Some link existing trails into larger trail systems. When completed, the Palmetto Trail will cross the entire state from Oconee State Park in the Blue Ridge all the way to the sea north of Charleston (425 miles). Trails provide a variety of outdoor activities opportunities, like mountain bicycling, hiking, fitness walking, all-terrain vehicles, and equestrian use (South Carolina Department of Parks, Recreation and Tourism

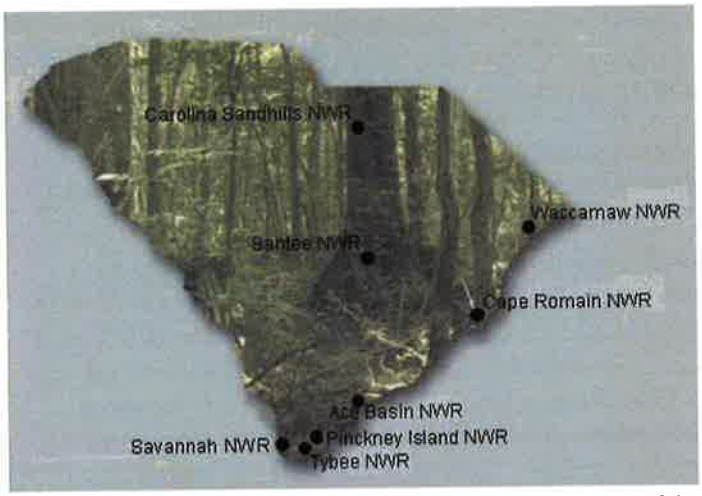

Figure 5. South Carolina's eight National Wildlife Refuges (U.S. Fish and Wildlife Service).

2016b). The state also has a system of scenic byways (South Carolina Department of Transportation 2016).

South Carolina established a Conservation Bank in 2002 that has conserved over 200,000 acres of forestland/ wetlands, 8,000 acres of urban parks, 20,000 acres of farmland, and 500 acres of historical lands over the past ten years (South Carolina Conservation Bank 2016). In addition, over two dozen private non-profit land trusts have been organized across the state to preserve lands that are in danger from development pressure. Sometimes land is acquired by purchase or donation, or protection is provided by conservation easements. Over a quarter million acres have been conserved in South Carolina under these programs (Chang 2011).

South Carolina has 47 state parks, a national park, five state forests, two national forests, 1.1 million acres of wildlife management areas, 74 heritage preserves, eight national wildlife refuges, and nearly 3,000 miles of trails.

Fishing, Hunting, and Wildlife-watching as Economic Activities

The U.S. Fish and Wildlife Service conducts a national survey of fishing, hunting, and wildlife-associated recreation every five years in order to establish the economic impact of wildlife-related recreation in the United States. The most recent survey was completed in 2011 and the results included a report for the state of South Carolina (U.S. Fish and Wildlife Service 2014). Wildlife-related recreation includes fishing, hunting, and wildlife-watching activities (observing, photographing, or feeding fish or wildlife). Many individual engage in multiple activities, so the survey did not use mutually

Outdoor recreation involves many activities besides hunting and fishing.

exclusive categories. Thus, multiple responses (for example, someone who both hunted and fished) result in categories that do not sum up to totals.

The survey included state residents and nonresidents and was limited to those16 years of age and older. The number of participants in wildlife-related activities is listed below. State residents comprise three-quarters of anglers, 71 percent of hunters, and 85 percent of wildlife-watchers. Watching wildlife away from the home (more than one mile from the home) totaled 4.3 million days of activity. However, most people (83 percent) enjoyed wildlife-watching close to home.

Of the 1.7 million participants, 43% fish, 15% hunt, and 64% watch wildlife.

The most popular wildlife-watching activity around the home was wildlife feeding and away from the home was observing and photographing wildlife. Survey results were:

- **1.7 million** participants in wildlife-related activity in South Carolina.
- **744,000** state residents and nonresidents fished.
- **254,000** state residents and nonresidents hunted.
- **1.1 million** state residents and nonresidents wildlife-watched.

The amount of time spent in pursuing these activities relates to the economic impact. Average number of days per year spent by anglers was 15 days, by hunters was 17 days, and by wildlife-watchers (away from home) was 11 days. Popular activities involving wildlife-watching (away from home) include feeding, observing, and photographing wildlife, maintaining natural areas and plantings, and vising parks and natural areas. Total days of participation by activity for 2011 were:

- **11.2 million** days spent fishing.
- **4.4 million** days spent hunting.
- **4.3 million** days spent wildlife-watching (away from home).

Wildlife-related recreation has a huge impact on the state. The survey collects data on total expenditures, and breaks that down into trip-related (food, lodging, and transportation), equipment (rods, reels, lines, guns, ammunition, camping equipment, special clothing, boats, vans, and binoculars), and other categories (licenses and permits, magazines, land leasing and ownership).

Average expenditure per angler was $910; per hunter was $1,933; and per wildlife-watcher was $413.

For all activities the main expenditure was trip-related, with equipment being a strong secondary expenditure (Table 2). Note that these are direct expenditures and do not include any additional incremental impacts. Total expenditures for the three activities were: (U.S. Fish and Wildlife Service 2014)

- **$1.7 billion** spent on all wildlife-related recreation in South Carolina.
- **$686 million** spent on fishing-related activities.
- **$505 million** spent on hunting-related activities.
- **$467 million** spent on wildlife-watching activities.

Table 2. Wildlife-related activity expenditures in South Carolina by category, in millions of dollars, 2011 (U.S. Fish and Wildlife Service 2014).

	Expenditures		
	Trip-related	Equipment	Other
Fishing	$360	$319	$7
Hunting	$230	$192	$84
Wildlife-watching	$261	$191	$15

Wildlife photography is a popular wildlife-related activity in South Carolina (U.S. Fish and Wildlife Service).

Anglers spend over 11 million days annually fishing in South Carolina (U.S. Fish and Wildlife Service).

Forest Resources

Not only do forests represent the dominant landscape of the state, they also support its dominant manufacturing industry. Forests are renewable resources that contribute to the growth of the state, while providing its citizens desirable aesthetic, recreational, wildlife, water quality, and other environmental values. None of the vast outdoor recreation opportunities already discussed would exist without these forests.

Early settlers wrote of luxuriant forests covering most of the state, with the exception of salt marshes, occasional meadows, and Native American clearings. Most of the Piedmont was cleared for agriculture, and towards the end of the nineteenth century, lumbering grew as an industry in the coastal plain. By the end of World War II only scattered vestiges of the virgin forest remained, but a second-growth forest had reclaimed the cut-over lands and abandoned farmland. This second-growth forest supplied most of the commercial timber cut in the state from mainly pine stands growing on previously cultivated land.

The total land area of South Carolina (not including water bodies) is 19.2 million acres and just over two-thirds of that area, 13.0 million acres, is forested. Almost all of that forestland is productive timberland (Rose 2015). The acreage of forestland in the state has been relatively stable over the last fifty years. This has occurred while forestland acreage has steadily been lost to urban development (averaging roughly 36,000 acres per year). Afforestation of agricultural lands partially accounts for the relative stability of the forestland base (Harper and Rominger 2013). Urban development will continue to erode both the forest and agricultural land base and a stable forestland area cannot be expected in the long-run. A recent study of Southern Piedmont forests supported this conclusion with expectation of a declining forestland area due to increasing population and urban development (Rummer and Hafer 2014).

Since 1936 timberland acreage has increased by 2.3 million acres or by over 20 percent.

About 88 percent of South Carolina's forest area is privately-owned (Rose 2015). The private forest ownership produces roughly 95 percent of the state's timber harvest (Mo, Straka, and Harper 2013). Of the 12 percent that is publicly-owned, about two-thirds is federally-owned, about one-fifth is state-owned, and the rest is locally-owned (Butler 2008). Of the private forestland, about 63 percent is owned by family forest owners and the rest is owned by timberland investment management groups, corporations, and forest industry (Conner 2011). Family forest owners represent the major ownership group and the largest source of timber in the state (Williams, Straka, and Harper 2012). Figure 6 shows the distribution of public and private forestland in South Carolina.

About 88 percent of South Carolina's forest land is privately-owned and almost two-thirds of that is owned by family forests. These family forests are becoming smaller due to parcelization.

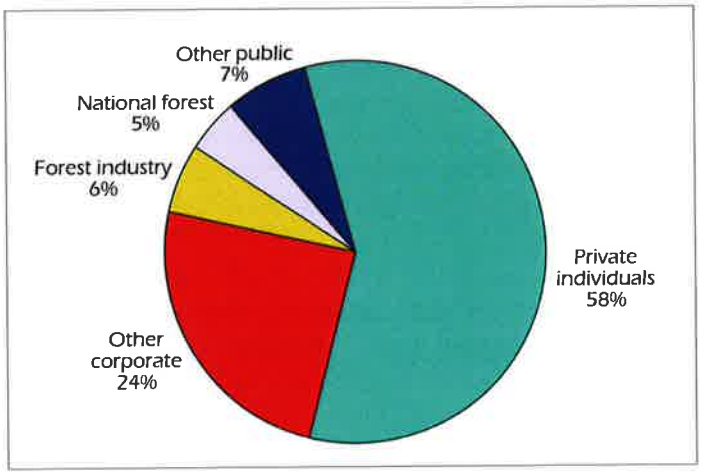

Figure 6. Public and private forestland in South Carolina (South Carolina, 2010. Forest Inventory & Analysis Factsheet, Conner, 2011).

Hunting activities in South Carolina account for over one half billion dollars annually of total expenditures.

Two trends in forest ownership have implications that will impact forestland. First, in 1986 forest industry owned or controlled 2.7 million acres of timberland (Tansey 1987); in 2012 forest industry owned just 200 thousand acres in the state (Harper and Rominger 2013). These acres are some of the most productive forestland in the state that tended to be intensively managed for timber production. They are now owned by real estate investment trusts and institutional investors and are still under intensive forest management. These new owners buy and sell holdings more often than the old stable forest industry owners, so there is a trend for land with development potential to be converted from forest use (Hatcher et al. 2012). Second, nearly two-thirds of the private forestland in the state is controlled by family forest owners, mainly individuals. Parcelization or the process of these tracts becoming smaller and smaller as they move through estates, is also leading to forest conversion for development. Even if the tracts are not developed, smaller tracts tend to be managed less intensively (Hatcher et al. 2013). Thus, the stable forestland base in South Carolina can be expected to erode under development pressures.

Timber production in South Carolina has increased steadily over the last 80 years. During the same time period, forest inventory has nearly doubled as the result of active forest management.

Mining, Boat Manufacturing, and Commercial Fishing

Our analysis focuses on the natural resources and recreational activities already discussed. In addition, directly related to natural resources, three other industrial sectors contribute to the economic impact of natural resources: mining, boat manufacturing, and commercial fishing.

The mining sector comprises establishments that extract naturally-occurring mineral solids and liquid minerals. Mining includes quarrying, well operations, beneficiating (e.g., crushing, screening, washing, and flotation), and all other preparations normally performed at a mine site. The *2012 Economic Census of the United States* found 75 mining establishments in South Carolina, employing 1,151 people, with a payroll of $63 million, and a value of shipments of $313 million (U.S. Census Bureau 2016). Notice these data reflect the recent recession, while our analysis shows the recent growth in this sector.

The recreational boating industry represents production of boats, engines, trailers, accessories, and gear used by boaters and anglers in South Carolina. A 2013 survey found almost 400,000 recreational boats in the state (National Marine Manufacturers Association 2016). In 2012, commercial fishermen in South Carolina landed12.3 million pounds of finfish (2.4 million pounds) and shellfish (9.9 million pounds), earing $24 million in landing revenue. (National Marine Fisheries Service 2014).

Input-Output Contribution Analysis

Natural resources and natural resource-based products generate a significant economic contribution to the well-being of South Carolina residents. This contribution is derived through the economic activity associated with both extractive consumptive uses (such as harvesting trees, mining, hunting, and commercial fishing) and non-consumptive uses (such as hiking, bird watching, water skiing, and camping) of the state's natural resources. Moreover, the direct expenditures on natural resource-based economic activities have spillover, or indirect and induced, effects on other sectors of the state economy which result in additional economic activity.

Input-Output (I-O) analysis is a technique commonly used to measure the total, or overall, economic impact of expenditures in one industry, or sector, of the economy on the overall level of economic activity. I-O models accomplish this task by tracing the economic linkages of consumer and/or industry expenditures in one or more industries to all other industries within the economy. I-O models also systematically capture expenditure linkages between industries and other economic agents, such as households and government. For example, consumer expenditures received by the producers of natural resource-based products cause those producers to purchase more inputs to produce additional natural resource-based products. This economic activity generates additional labor payments to both those employees working in the industry that supply the natural resource-based product or service, and those employees that supply the inputs used by natural resource-based industries to produce their final product. The additional labor payments received by households are then respent by the households and generate additional economic activity.

Expenditures tied directly to the primary economic activity or activities of interest are referred to as the direct effect in I-O analysis. For example the direct effect (expenditure) for a weekend fishing trip may consist of expenditures for transportation, dedicated fishing supplies, food, and lodging. But these direct effects only partially account for the total economic impact of the fishing trip. The direct effect generates indirect and induced effects which contribute to the total level of economic activity.

To continue with the fishing example, businesses affected by the direct fishing expenditure will purchase inputs from other businesses to produce the goods and services purchased by the fisherman. This secondary impact is referred to as the indirect effect. Moreover, the salaries and profits paid to employees and owners of the indirectly affected industries allow for additional purchases of South Carolina products by those individuals, thus setting off another round of economic activity that form the induced effect. The sum of the direct, indirect, and induced effects comprise the total economic impact of dollars directly injected into one sector of the state economy. This impact is summarized by the economic multiplier for the industry sector that translates one dollar of direct expenditure in the economic sector into a total statewide economic impact. To illustrate, an economic multiplier of 1.5 implies that a dollar of direct expenditure in a specific economic sector generates a total economic impact of $1.50 on the state economy.

Direct impacts are those effects generated within a particular sector that impact the state's economy.

Indirect impacts are effects between sectors. One sector causes additional (or less) activity in another sector.

Induced impacts are the domino effect of changes in expenditures rippling through the economy.

Due to its systematic accounting structure, I-O analysis is especially useful for capturing the total impact that the direct expenditure in one industry (or sector) of the economy has on the overall state or sub-state economy. Relying on the multiplier effect, economic impact analysis is commonly used to estimate the total impact that a specific increase or decrease in demand (expenditures) within a given existing industry or set of industries will have on total economic activity in a state or sub-state region. I-O analysis is also commonly used to estimate the total economic impact attributable to the introduction of a new firm or new tax policy into a local or state economy in regional policy analysis. An emerging new use of I-O analysis is to assess the economic CONTRIBUTION a particular industry sector, or group of industries, have on total economic activity within a state or sub-state regional economy (Watson et al. 2007). It is this latter I-O application that is used in this study. We use the contribution analysis interpretation to estimate the contribution that South Carolina's natural

resource-based sectors have on the overall state economy. Specifically we estimate the reduction in economic activity that would occur in South Carolina if the natural resource sectors ceased to exist. Hence, the contribution analysis estimates the economic contribution that specific sets of natural resource-based industries contribute to the overall South Carolina economy when all direct, indirect, and induced effects are accounted for. Alternatively stated, an I-O contribution analysis captures the ripple effect that dollar expenditures in each resource-based sector of the economy have on the overall level of state economic activity.

A South Carolina I-O model was developed to estimate the economic contribution of natural resource-based activities to the South Carolina's economy. The model was developed using the IMPLAN (Impact Planning) modeling system (IMPLAN 2016). IMPLAN is a highly-respected I-O model that is commonly used for state-level and sub-state level estimation of economic impacts. Other recent I/O analysis related to natural resources in the state have also used IMPLAN (Hughes 2015, London 2015), as did the prior study that addressed the economic contribution of natural resources to the South Carolina economy (Division of Research 2009).

The most recent version of IMPLAN (2014 version) divides economic activity into one of 536 mutually exclusive economic sectors (industry types). Our contribution analysis uses the IMPLAN industry structure to create six aggregate and mutually exclusive, natural resource-based sectors within the South Carolina Economy. The six constructed natural resource-based sectors are: (1) Fishing, Hunting, and Wildlife Viewing; (2) Coastal Tourism; (3) Commercial Fisheries; (4) Boating Industry; (5) Mining; and (6) Forestry.

The South Carolina input-output model uses IMPLAN to estimate economic contribution of natural resource-based activities in 2016 dollars. IMPLAN divides the state economy into 536 economic sectors which were used to construct the six mutually exclusive natural resource-based sectors to measure their economic contribution:

- *Fishing, Hunting and Wildlife Viewing*
- *Coastal Tourism*
- *Commercial Fisheries*
- *Boat Industry*
- *Mining*
- *Forestry*

Our contribution analysis of the economic contribution of each of the six natural resource-based economic sectors focusses on several key economic variables to summarize the economic contribution of each of the natural resource-based sectors to the overall economy. These key variables are value added (often called Gross State Product), employment (number of full-time and part-time jobs), earned income (labor and proprietor income), and total industry output (total dollar value of all sales).

Value added measures each sector's net contribution to the state's economy. It is the difference between a sector's total output (revenue from sales) and the cost of its intermediate inputs (exclusive of labor cost). Value added is generated when productive inputs (man-made resources and natural resources) are efficiently combined to produce products that are valued by society. Value added has three major components: (1) Earned income (labor and proprietor income); (2) property income (corporate profit); and (3) indirect business taxes. Earned income is a key component of value added (Gross State Product) and is also reported for each resource-based sector in this study because it is indicative of consumer purchasing power. Earned income is employee compensation, primarily in the form of wages and salaries, plus net profits to proprietors (non-corporate owner operators). Property income is another measure of value added and includes returns to capital in the form of corporate profits, depreciations charges, and other accounting measures

of corporate profitability. Indirect business taxes, the third value added component, consist of sales taxes, excise taxes and other business taxes. Total industry output is the value of total output or total sales revenue and is equal to the cost of intermediate inputs (exclusive of labor) plus value added.

This input-output study focuses on four key variables:

- *Employment*
- *Earned Income*
- *Contribution to Value Added*
- *Total Industry Output*

This economic contribution analysis considers both consumptive and non-consumptive uses of the South Carolina natural resource base. Consumptive use involves the extraction of natural resources for additional processing and sale to either other industries for their further productive use or consumers for final purchase. For example a logging company may harvest forest timber and subsequently process the timber into lumber. The lumber may in turn be sold to a furniture manufacturer for final conversion into a table and sold to a consumer as a final purchase. An example of non-consumptive use of the forest is the economic value recreationists receive from camping, hiking, and bird watching in a forested area. In some cases, recreation natural resource activities can be tied to service providers (such as guide services for hunting or boating) while in other cases the activities are linked to direct purchases by households for recreational supplies and permits.

The primary data used in the contribution analysis were taken from the 2014 IMPLAN data base, the most recent IMPLAN data base which were released in January 2016, and augmented with data collected from the 2011 National Survey of Fishing, Hunting and Wildlife-Associated Recreation for South Carolina (U.S. Fish & Wildlife Service 2014), and The Economic Impact of Travel on South Carolina Counties 2012 (U.S. Travel Association 2013). Data taken from sources external to IMPLAN were converted from retail prices to producer prices and subsequently distributed to the appropriate IMPLAN industry in each constructed natural resource-based sector. Moreover retail expenditure data were margined using the IMPLAN default values to account for expenditure leakages outside South Carolina. Retail, wholesale, and transportation expenses must be margined to account for the fact that a portion of purchase expenditure leak out of the state economy when goods are produced outside of the state. These expenditure leakages do not contribute to either indirect or induced state spending and must be netted out before applying the multiplier to calculate total economic contribution. Each direct expenditure item in each direct expenditure impact vector is divided by their respective diagonal element of the Leontief inverse matrix to control for the fact that many industries purchase from themselves (Watson et al. 2007). Failure to make this minor adjustment results in an overestimate of the total economic contribution. The IMPLAN GNP deflator tool was used to convert all reported dollar values into 2016 dollars. See appendix tables 1-6 for additional specification and discussion of the six direct effect impact vectors used in the IMPLAN contribution analysis.

In the next section we report the economic contribution analysis for the six defined natural resource-based sectors in the South Carolina. Clearly, the contribution of natural resources goes well beyond the economic contribution identified by these sectors. The agribusiness sector could have been included as natural resource-based, as well as parts of other sectors. It is also important to note that our analysis ignores the economic contribution of water resources. The preservation and maintenance of water resources is essential to all economic activity within the state. High water quality is essential for residential and recreational use and many commercial uses. Over time, the absence of safe drinking water supplies would result in the outmigration of human capital and cause all economic activity within the state to cease. Due to a lack of time and resources, this study does not address the value of maintaining the quality of South Carolina's water supply. Thus, our reported total estimate for the economic contribution of South Carolina's resource base is conservative and limited to the six resource-based sectors included in this analysis. The prior

study was the basis of our continued use of the six sectors identified in that analysis; we considered those sectors to be properly identified and continued to use them in this report to provide consistency over time.

Economic Contribution Results

To maintain consistency with the prior 2009 report completed by the South Carolina Division of Research for the South Carolina Department of Natural Resources this report estimates economic impacts in 2016 dollars using the same six resource groupings used in the earlier report. The six aggregate natural resource groupings are:

1. Fishing, Hunting and Wildlife Viewing;
2. Coastal Tourism;
3. Commercial Fisheries;
4. Boat Industry;
5. Mining; and
6. Forestry.

Fishing, Hunting, and Wildlife Viewing

In 2011 the United States Fish and Wildlife Service estimated 1.7 million individuals (total of in-state and out-of-state participants) over the age of 16 spent at least one day engaged in either fishing, hunting, or wildlife viewing. Many individuals participated in more than one of these three outdoor recreation activities as evidenced by the fact 774,000 individuals spent at least one day fishing, 244,000 individuals spent at least one day hunting, and 1.1 million individuals engage in wildlife viewing, which collectively sum to 2.1 million. Moreover, most individuals that participate in these natural resource dependent activities annually spend more than one day engaged in these activities as reported earlier.

Collectively, the annual direct effect (economic expenditure) by individuals engaged in fishing, hunting and wildlife viewing is over $1.6 billion as reported in Table 3. In the multiplier analysis the direct output effect consists of the payments made by South Carolina recreationalists that remain in South Carolina and, thus is subject to the within state multiplier effect. The numerical values for the four direct effect measures are reported in leftmost column of Table 3. In a row, the individual column effects (direct, indirect, and induced) sum to the total effect, or the total contribution fishing, hunting, and wildlife viewing contribute to the South Carolina Economy. The direct output effect supports 23,582 South Carolina jobs and provides $687 million in labor income. Value added, or gross state product, is $1.07 million. The indirect effect, jobs and income created in South Carolina resulting from purchases of inputs and services from South Carolina industries to support the direct effect, are reported in column 2. The indirect effect results in another 3,564 jobs and $0.50 billion of additional economic activity. The induced effect, which is primarily driven by additional household

Table 3: Annual Economic Impact of Fishing, Hunting, and Wildlife Viewing on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	23,582	3,564	4,812	31,958
Labor Income ($)	686,777,000	152,588,179	188,904,885	1,028,270,064
Value Added ($)	1,068,450,219	266,200,616	344,955,459	1,679,606,293
Output ($)	1,618,670,877	496,770,066	621,445,610	2,736,886,553

Employment is the number of jobs supported by the activity. Labor Income (wages paid to salaried employees and proprietors), Value Added (also referred to as Gross State Product is the sum of labor income, indirect business taxes, and property income), and Output (sum of value added and intermediate input cost) are reported in dollars. Individual column effects (direct, indirect, and induced) sum to each reported total effect. However, labor income and value added do not sum to output for two reasons. First, labor income is a component of value added. Secondly, the value (cost) of intermediate products purchased is not reported. Total sales (output) minus the value (cost) of intermediate goods is equal to value added.

labor income generated by the direct and indirect effect, plus any government spending of tax payments received via the direct and indirect spending effects, adds another 4,812 jobs and an additional increase in economic activity of $0.62 billion. The overall effect, or total economic contribution, of fishing hunting and wildlife viewing to South Carolina is $2.74 billion and 31,958 jobs. The contribution of saltwater fishing to the fishing, hunting and wildlife viewing total effect was excluded when estimating the total effect reported in Table 3 to avoid double counting. The impact of saltwater fishing is accounted for in the Coastal Tourism impact measure. If saltwater fishing was included the direct effect is increased by $195 million and the total effect would be increased by $329 million.

Coastal Tourism

In addition to using South Carolina's abundant natural resources for fishing, hunting, and viewing wildlife, many individuals (both in-state and out-of-state) vacation and/or engage in salt-water fishing opportunities provided by the state's scenic coastline. As presented in Appendix Table 2, coastal tourists generally spend dollars on hotels, fishing supplies, gasoline, guide services, and food. Eight South Carolina counties share a geographic border with the Atlantic Ocean and are designated coastal tourism counties. These counties are Beaufort, Berkeley, Charleston, Colleton, Dorchester, Georgetown, Jasper, and Horry, and accounted for 63.8% of all South Carolina tourism revenues in 2012 (U.S. Travel Association 2013).

The total direct impact of coastal tourism is $5.39 billion as reported in Table 4. This value is $1.68 billion less than the value for the direct output impact vector

reported in Appendix Table 2. The difference is created by the I-O margining process that subtracts out retail payment leakages accruing to out-of-state businesses. Not everything purchased in South Carolina is produced in-state. The IMPLAN default margin for each South Carolina retail business type was applied to each retail sector in the appendix direct impact vector before running the economic impact through the state IMPLAN model. Failure to margin the retail and wholesale industries that comprise part of the direct effect would result in an exaggerated multiplier effect when deriving the total effect, or economic contribution, of coastal tourism to the South Carolina Economy. Dollars that escape the state are not available to be respent in the state and thus cannot be included in the multiplier effect.

The annual $5.39 billion direct output effect results in 71,702 South Carolina jobs. The total annual economic contribution (effect) of Coastal Tourism on the South Carolina economy is $8.96 billion and 99, 325 jobs. Those jobs provide $2.88 billion of labor income to South Carolina households at an average annual salary of $29,000.

Table 4: Annual Economic Impact of Coastal Tourism on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	71,702	14,157	13,467	99,325
Labor Income ($s)	1,753,820,258	595,178,676	528,754,487	2,877,753,420
Value Added ($)	2,929,009,922	967,001,097	965,588,870	4,861,599,889
Output ($s)	5,390,047,354	1,866,273,416	1,739,545,696	8,995,866,466

Employment is the number of jobs supported by the activity. Labor Income (wages paid to salaried employees and proprietors), Value Added (also referred to as Gross State Product is the sum of labor income, indirect business taxes, and property income), and Output (sum of value added and intermediate input cost) are reported in dollars. Individual column effects (direct, indirect, and induced) sum to each reported total effect. However, labor income and value added do not sum to output for two reasons. First, labor income is a component of value added. Secondly, the value (cost) of intermediate products purchased is not reported. Total sales (output) minus the value (cost) of intermediate goods is equal to value added.

Commercial Fishing Industry

The annual economic use of the South Carolina natural resource base for commercial fishing is distinct from recreational fishing value and is an additional value that natural resources contribute to state economic activity. Moreover, maintaining a sustainable commercial fishing industry is essential to preserving the unique character of South Carolina's local seafood-base cuisine. The state's major fisheries are shrimp, shellfish, crabs, and offshore finfish. Sustaining an economic viable commercial fishing industry strongly compliments and promotes the long-run growth of South Carolina's growing coastal tourism industry.

The annual direct output contribution of the commercial fishing sector is $25.37 million as reported in Table 5. This is the direct price paid to the first purchaser of the product and is commonly referred to as ""ex-vessel' price. Thus the direct effect is not a margined value because it is in producer price. The direct output effect supports 720 jobs. After accounting for statewide respending of the direct effect, through the indirect and induced multiplier effect, the total economic contribution to the state economy is $42.36 million dollars in output and 840 jobs of which $21.3 million is in-state value added. Labor income of $12.27 million was received by South Carolina residents in value added as labor income, resulting in approximately $15,000 per job. The low annual average salary results from the fact that a large portion of all workers in the total employment effect consist of seasonal fishery employees. The average salary for fisherman (calculated as direct effect labor income divided by direct effect employment) is slightly under $10,000. Moreover the low average salary in the commercial fishery industry results in a small employment multiplier for the overall economy. Due to low purchasing power associated with the low salary, only 0.16 additional jobs are created in the broader state economy per job in the commercial fishery sector.

Boat Sector

South Carolina's varied natural resource base provides a cost-effective source of materials needed by the state's boat sector (timber), in addition to stimulating demand for boat sector products and services. The states abundant rivers, marshes, lakes, and coastline enhance demand for the products produced by the boat sector. Over the last decade, South Carolina's boat sector experienced additional product growth due to emerging national markets built upon its growing national reputation for building quality boats. As reported in Appendix Table 4, two IMPLAN industries comprise the aggregate South Carolina boat sector; ship building and repair, and boat building. Neither industry was margined in the contribution analysis because the IMPLAN data base reports these industry output values in producer prices.

Table 5: Annual Economic Impact of the Commercial Fishery Sector on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	720	63	57	840
Labor Income ($s)	6,748,846	3,270,117	2,247,978	12,266,940
Value Added ($)	12,753,626	4,400,029	4,102,040	21,255,695
Output ($s)	25,371,754	9,603,013	7,388,915	42,363,682

Employment is the number of jobs supported by the activity. Labor Income (wages paid to salaried employees and proprietors), Value Added (also referred to as Gross State Product is the sum of labor income, indirect business taxes, and property income), and Output (sum of value added and intermediate input cost) are reported in dollars. Individual column effects (direct, indirect, and induced) sum to each reported total effect. However, labor income and value added do not sum to output for two reasons. First, labor income is a component of value added. Secondly, the value (cost) of intermediate products purchased is not reported. Total sales (output) minus the value (cost) of intermediate goods is equal to value added.

The boat sector produces 2,450 direct jobs with an average salary of $74,000 due to the skill required to work in this industry. Sector direct output (sales) is $608 million and the total output effect (contribution) to the state economy is $1 billion, which if 50% larger than the value reported in the 2009 study. Overall, this sector contributes 5,401 jobs to the state economy, more than twice the direct number of jobs within the boat sector. The high employment multiplier is partially a function of the high salaries paid in this sector which provide a relatively high level of purchasing power to their employees. An additional 1.2 jobs are created in the broader state economy per job in the boat sector. The contribution analysis for the boat sector impact is summarized in Table 6.

Mining Sector

South Carolina's mining sector is concentrated in four broad mining industries. In descending order of current economic output (economic value) these industries are extracting natural gas and crude petroleum, stone mining and quarrying, sand and gravel mining, and the drilling of oil and gas wells (see Appendix Table 5). South Carolina's mines and quarries are distributed throughout the state and are found in both rural and urban areas. As opposed to biological natural resources, mining resources generally do not utilize renewable natural resources. Thus, there is no long-run sustainable steady state use value except for zero use because minerals extracted today are not available for future extraction. However, more than half of South Carolina's mining activities involve the quarrying sand gravel and stone which are very abundant resources.

The direct effect dollar value for the mining sector of the economy is $828 million and the total economic contribution (total output effect) to the state economy is $1.17 billion as reported in Table 7. The direct number of jobs in the mining sector is 3,718, and the sector contributes a total of 5,973 jobs to the overall economy. Relative to the 209 study, the mining sector contributes 133% more jobs (5,401 versus 2,558 jobs) and 197% more nominal dollars ($1.17 billion versus $0.39 billion) to the state economy.

Table 6: Annual Economic Impact of the Boat Sector on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	2,450	1,484	1,466	5,401
Labor Income ($s)	181,684,070	73,984,940	57,556,258	313,225,269
Value Added ($)	200,203,644	102,940,617	105,107,228	408,251,490
Output ($s)	607,762,496	202,442,770	189,354,882	999,560,148

Employment is the number of jobs supported by the activity. Labor Income (wages paid to salaried employees and proprietors), Value Added (also referred to as Gross State Product is the sum of labor income, indirect business taxes, and property income), and Output (sum of value added and intermediate input cost) are reported in dollars. Individual column effects (direct, indirect, and induced) sum to each reported total effect. However, labor income and value added do not sum to output for two reasons. First, labor income is a component of value added. Secondly, the value (cost) of intermediate products purchased is not reported. Total sales (output) minus the value (cost) of intermediate goods is equal to value added.

Table 7: Annual Economic Impact of the Mining Sector on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	3,718	1,324	931	5,973
Labor Income ($s)	94,436,943	67,997,518	36,545,425	198,979,8869
Value Added ($)	250,673,478	103,454,705	66,729,565	420,857,748
Output ($s)	828,422,766	223,702,962	120,213,107	1,172,338,835

Employment is the number of jobs supported by the activity. Labor Income (wages paid to salaried employees and proprietors), Value Added (also referred to as Gross State Product is the sum of labor income, indirect business taxes, and property income), and Output (sum of value added and intermediate input cost) are reported in dollars. Individual column effects (direct, indirect, and induced) sum to each reported total effect. However, labor income and value added do not sum to output for two reasons. First, labor income is a component of value added. Secondly, the value (cost) of intermediate products purchased is not reported. Total sales (output) minus the value (cost) of intermediate goods is equal to value added.

Forestry Sector

Given South Carolina's states heavy economic dependence on lumber and wood product production it is not surprising the forestry sector is the second largest natural resource-based sector in the state, behind only agriculture. The forestry sector consists of 29 tightly interrelated IMPLAN industries. The detailed specification for the IMPLAN Forestry direct effect output vector is presented in Appendix Table 6. The largest industries in the forestry sector direct effect are paper and paperboard mills, paperboard container manufacturing, sanitary paper product manufacturing, commercial logging, sawmills, veneer and plywood manufacturing, and reconstituted wood products. As reported in Table 8 the forestry sector has a direct output effect of $12.2 billion and provides 28,719 jobs. The total contribution of the forestry sector to the South Carolina economy is $19.4 billion and 75,222 jobs. Partially due to the economic recovery of the housing industry, the total dollar contribution to the state economy is 13.5% larger than in the 2009 study ($19.4 billion versus $17.1 billion).

Overall Economic Contribution of South Carolina's Natural Resources

The total economic contribution of South Carolina's six natural resource-based economic sectors considered in this study is summarized in Table 9. Total direct output expenditure is $20.7 billion and the total contribution to the state economy is $33.4 billion. The total contribution value represents an increase of $4.4 billion relative to the 2009 study, a 15% increase in total economic activity. As defined in this study, the six natural resource sectors are responsible for 8.3% of gross state product and 8.6% of all jobs in the state. Direct employment in the six natural resource sectors is 130,891 jobs at an average salary of $35,959. Overall, after accounting for the multiplier effect, the six natural resource-based sectors contribute 218,719 jobs to the state economy at an average salary of $39,337.

Table 8: Annual Economic Impact of the Forestry Sector on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	28,719	26,898	19,605	75,222
Labor Income ($s)	1,983,244,695	1,420,258,438	769,815,966	4,173,319,099
Value Added ($)	3,874,123,350	2,216,179,921	1,405,850,874	7,496,154,145
Output ($s)	12,245,088,639	4,629,076,071	2,532,703,852	19,406,868,561

Employment is the number of jobs supported by the activity. Labor Income (wages paid to salaried employees and proprietors), Value Added (also referred to as Gross State Product is the sum of labor income, indirect business taxes, and property income), and Output (sum of value added and intermediate input cost) are reported in dollars. Individual column effects (direct, indirect, and induced) sum to each reported total effect. However, labor income and value added do not sum to output for two reasons. First, labor income is a component of value added. Secondly, the value (cost) of intermediate products purchased is not reported. Total sales (output) minus the value (cost) of intermediate goods is equal to value added.

Table 9: Annual Economic Impact of All South Carolina Natural Resource Sectors on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	130,891	47,490	40,337	218,719
Labor Income ($s)	4,706,711,812	2,313,277,868	1,583,824,999	8,603,814,678
Value Added ($)	8,335,214,239	3,660,176,986	2,892,334,036	14,887,725,260
Output ($s)	20,715,363,886	7,427,868,297	5,210,652,061	33,353,884,245

Employment is the number of jobs supported by the activity. Labor Income (wages paid to salaried employees and proprietors), Value Added (also referred to as Gross State Product is the sum of labor income, indirect business taxes, and property income), and Output (sum of value added and intermediate input cost) are reported in dollars. Individual column effects (direct, indirect, and induced) sum to each reported total effect. However, labor income and value added do not sum to output for two reasons. First, labor income is a component of value added. Secondly, the value (cost) of intermediate products purchased is not reported. Total sales (output) minus the value (cost) of intermediate goods is equal to value added.

Summary and Conclusions

Over the last seven years, the collective economic contribution of South Carolina's natural resource-based sectors has grown by 15%. Today, the natural resource-based sectors annually contribute $33.4 billion dollars economic activity and 218,719 jobs to state economy. The state's valuable natural resource base needs to be managed in a sustainable manner to protect both long-run economic growth and the amenity values these resources provide.

Despite the significant economic contribution that the six natural resource-based sectors have on the South Carolina Economy, the estimated impact is conservative because the value of the states' water resources is not directly included in the analysis. The direct economic value of the state's water supply was not analyzed due to limited research funds, time, and the complexity of water resource valuation. Both the water supply level and the quality of the supply level affect water valuation. For example, an acre-foot of water appropriate for residential drinking has a much higher value than an acre-foot of water suitable for irrigation use. The timing of when water is available also effects economic valuation as different economic activities require water at different times of the year. Reservoir management policy can significantly influence the time when water can be utilized in alternative economic activities. Further compounding water resource valuation is some water uses are non-consumptive and thus the same water resource can support multiple economic activities.

In this analysis, some of the non-consumptive uses of water are indirectly captured in our analysis of the Fishing, Hunting and Wildlife Viewing; Coastal Tourism; and Boating sectors to the South Carolina Economy. It is important to note that over time, the absence of safe drinking water supplies would result in the outmigration of human capital and cause all economic activity within the state to cease. Thus it is imperative that water, our most essential natural resource, is carefully managed and attention is paid to assuring our increasingly scarce water resources are used in their highest valued economic uses.

Appendix

Appendix Table 1. Allocation of Fishing, Hunting, and Wildlife Viewing Expenditures to IMPLAN Industry Accounts to Create Direct Effect for Fishing, Hunting, and Wildlife Viewing Sector ($s)

IMPLAN Ind. Code	Industry Description	Industry Output
18	Commercial hunting and trapping	29,796,601
258	Ammunition, except for small arms, manufacturing	1,104,059
259	Small arms, ordnance, & accessories manufacturing	14,718,504
395	Wholesale trade	65,511,696
396	Retail - Motor vehicle and parts dealers	173,810,360
398	Retail - Electronics and appliance stores	3,159,947
402	Retail - Gasoline stores	254,962,843
404	Retail - Sporting goods, hobby, and music	510,198,793
440	Real estate	30,304,110
443	Consumer good rental except video tape & discs	34,866,538
469	Landscape and horticultural services	6,141,806
496	Other amusement and recreation industries	5,069,937
499	Hotels and motels, including casino hotels	138,892,762
500	Other accommodations	6,312,128
501	Full-service restaurants	74,264,433
502	Limited-service restaurants	122,953,320
503	All other food and drinking places	25,507,973
516	Labor and civic organizations	8,808,105
531	Employment and payroll of state govt, non-education	112,286,976
	Total	1,618,670,891

Data for the constructed Fishing, Hunting, and Wildlife aggregate sector were taken from tables 17, 20, and 31 the U.S. Fish and Wildlife (USFW) 2011 National Survey of Fishing, Hunting, and Wildlife-Associated Recreation for South Carolina (Revised January 2014). To make the data amendable to IMPLAN the reported data were reallocated to the appropriate IMPLAN industry account to convert all expenditures to producer prices. All retail data were margined to account for leakages (South Carolina expenditures on items whose production and/or transportation cost are received by companies or individuals located outside of South Carolina) to avoid overestimating the multiplier effect of the direct effect to South Carolina. The default industry IMPLAN margins were applied to all retail and wholesale sales before converting the above direct expenditure vector. Given that all retail and wholesale expenditures were margined before constructing the direct industry output vector, the retail and wholesale sectors were not margined when calculating the total impact in IMPLAN because all prices had already been converted to producer prices. Doing so would have inappropriately reduced the estimated total effect. Within a very small numerical round-off error the total in the above table (the direct effect) is consistent with the reported direct effect reported in the summary table for Fishing, Hunting, and Wildlife viewing (text table 1). To avoid the double counting of saltwater fishing on the overall state economy it is excluded from this sector because it is included in Coastal Tourism Direct Expenditure Impact. The 2011 USFW expenditure values were converted into 2016 dollars before constructing the Fishing, Hunting, and Wildlife Viewing direct expenditure vector.

Appendix Table 2. Allocation of Coastal Tourism Expenditures to IMPLAN Industry accounts to Create Direct Effect for the Coastal Tourism Sector ($s)

IMPLAN Ind. Code	Industry Description	Industry Output
396	Retail - Motor vehicle and parts dealers	1,127,346,929
397	Retail - Furniture and home furnishings stores	34,002,410
398	Retail - Electronics and appliance stores	20,038,369
399	Retail - Building and equipment supply stores	93,082,896
400	Retail - Food and beverage stores	121,650,354
401	Retail - Health and personal care stores	70,410,126
402	Retail - Gasoline stores	573,350,541
403	Retail - Clothing and clothing accessories stores	81,509,783
404	Retail - Sporting goods, hobby, music	24,221,542
405	Retail - General merchandise stores	167,061,448
406	Retail - Miscellaneous store retailers	37,867,518
408	Air transportation	128,206,614
411	Truck transportation	89,635,663
414	Scenic transportation support activities	421,665,910
488	Performing arts companies	50,636,562
489	Commercial Sports Except Racing	19,491,282
490	Racing and Track Operation	1,348,172
491	Performing arts and sports	48,906,658
492	Independent artists, writers, and performers	37,930,892
493	Museums, historical sites, zoos, and parks	19,224,957
494	Amusement parks and arcades	11,177,008
495	Gambling industries (except casino hotels)	132,253,814
496	Other amusement and recreation industries	119,153,642
497	Fitness and recreational sports centers	55,382,877
498	Bowling centers	5,419,885
499	Hotels and motels, including casino hotels	1,429,089,611
500	Other accommodations	64,946,479
501	Full-service restaurants	696,653,983
502	Limited-service restaurants	1,153,390,880
503	All other food and drinking places	239,283,193
	Total	7,074,340,000

Data taken from table 5 and appendix A of The Economic Impact of Travel on South Carolina 2012, prepared for the South Carolina Department of Parks, Recreation & Tourism by the U.S. Travel Association. Washington D.C. 2013. Coastal counties consist of the eight South Carolina coastal counties of Beaufort, Berkeley, Charleston, Colleton, Dorchester, Georgetown, Jasper, and Horry. The tourism data were reported for five broad expenditure categories and the data were subsequently distributed over 30 IMPLAN industries to convert all prices into producer prices. The direct impact vector for Coastal Tourism represents 63.8% of all South Carolina tourism. The above direct impact vector was directly input IMPLAN and the IMPLAN margin defaults were used on all retail sectors to account for economic leakages outside of the state. The margining activity restricts the economic contribution (impact) of the direct effect to the state of South Carolina. As shown in text table 2, after margining the direct effect is $5,390,047,354. Impact data were converted to 2016 dollars using the U.S. CPI.

Appendix Table 3. IMPLAN Commercial Fisheries Direct Effect ($s)

IMPLAN Ind. Code	Industry Description	Industry Output
17	Commercial fishing	25,371,754
	Total	25,371,754

Reported value is the 2014 IMPLAN value for industry sector 17 (commercial fishing) inflated to 2016 values using the CPI and divided by 1.00002 the Leontief inverse diagonal element for industrial sector 17. The adjustment controls for the fact an industry often purchases from itself and failure to adjust for this economic outcome would overestimate the total impact (contribution) of the industry in the multiplier analysis. If an industry does not purchase from itself the diagonal element would have a value of 1. The IMPLAN industry output value for the commercial fishing is reported in producer prices and was not margined.

Appendix Table 4. IMPLAN Boat Sector Direct Effect ($s)

IMPLAN Ind. Code	Industry Description	Industry Output
363	Ship building and repairing	170,913,031
364	Boat building	436,849,492
	Total	607,762,523

Reported output values are the 2014 IMPLAN values for each industrial sector inflated to 2016 values using the CPI and divided by the Leontief inverse diagonal element for each industrial sector. The adjustment controls for the fact an industry often purchases from itself and failure to adjust for this economic outcome overestimates the total impact (contribution) of the industry in the multiplier analysis. If an industry does not purchase from itself the diagonal element would have a value of 1. All industry output values in the Boat sector are reported in producer prices and were not margined.

Appendix Table 5. IMPLAN Mining Sector Direct Effect ($s)

IMPLAN Ind. Code	Industry Description	Industry Output
20	Extraction of natural gas and crude petroleum	326,969,190
30	Stone mining and quarrying	229,332,309
31	Sand and gravel mining	143,424,211
33	Potash, soda, and borate mineral mining	1,303,644
35	Other chemical and fertilizer mineral mining	1,133,131
36	Other nonmetallic minerals	42,274,483
37	Drilling oil and gas wells	65,912,045
38	Support activities for oil and gas operations	13,035,098
39	Metal mining services	3,249,354
40	Other nonmetallic minerals services	1,789,319
	Total	828,422,785

Reported output values are the 2014 IMPLAN values for each industrial sector inflated to 2016 values using the CPI and divided by the Leontief inverse diagonal element for each respective industrial sector. The adjustment controls for the fact an industry often purchases from itself and failure to adjust for this economic outcome overestimates the total impact (contribution) of the industry in the multiplier analysis. If an industry does not purchase from itself the diagonal element would have a value of 1. All industry output values in the Mining sector are reported in producer prices and were not margined.

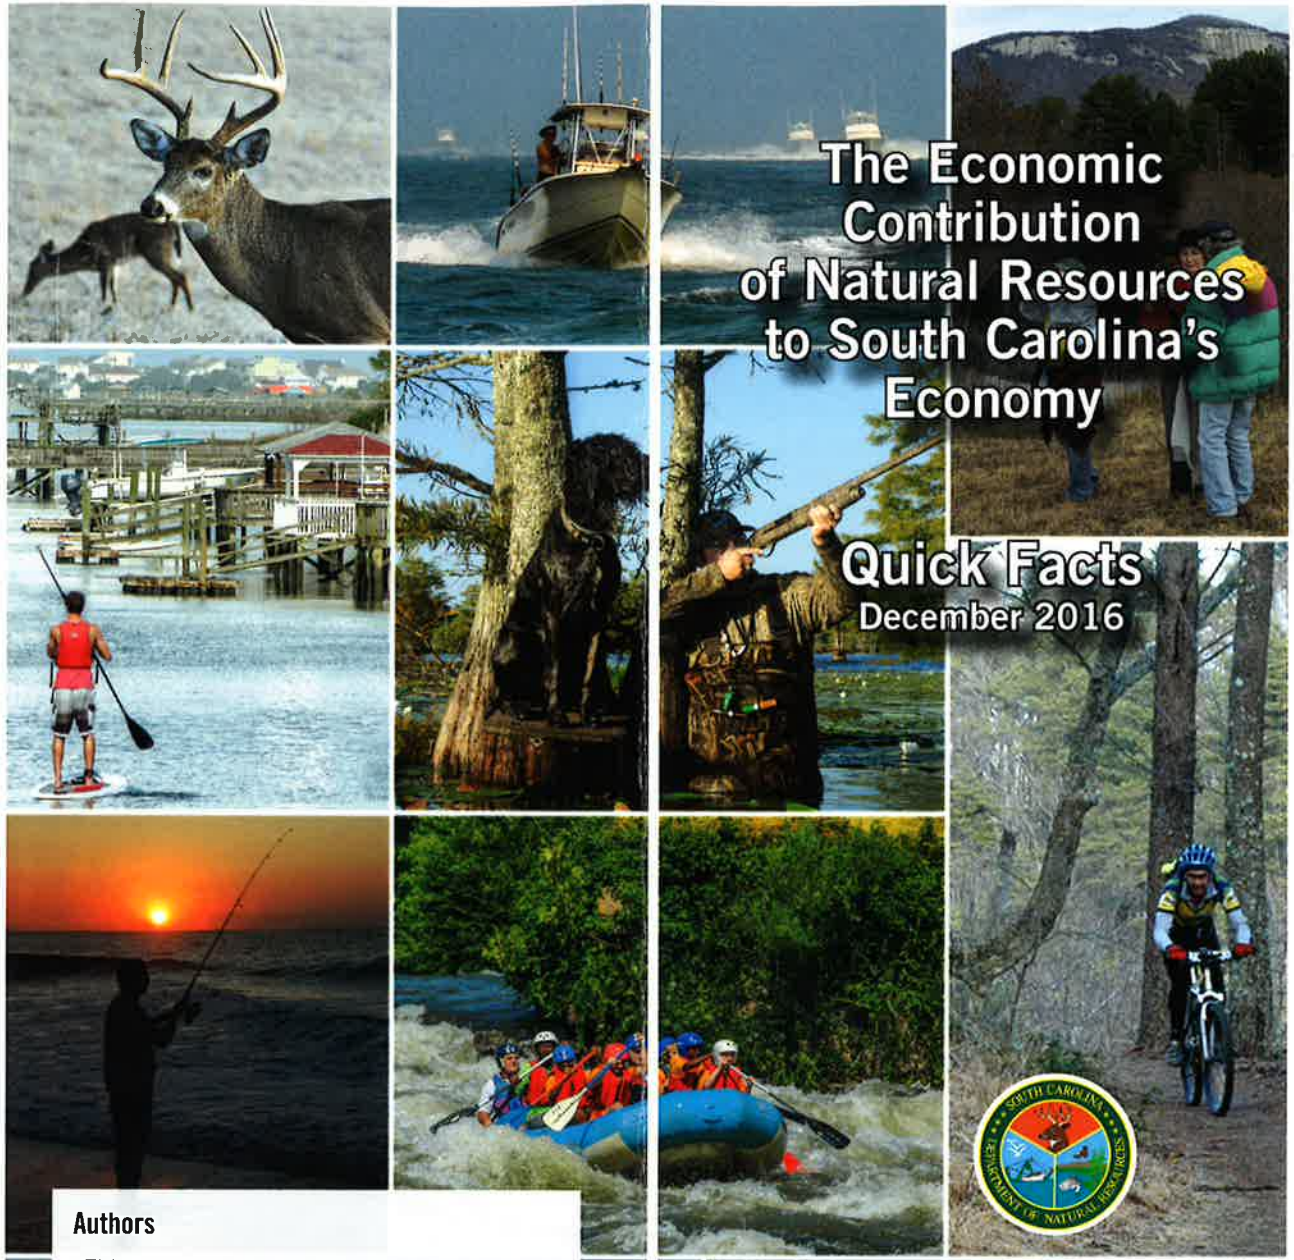

Appendix Table 6. Forestry Sector Direct Effect ($s)

IMPLAN Ind. Code	Industry Description	Industry Output
15	Forestry, forest products, and timber tract production	53,079,259
16	Commercial logging	454,191,874
19	Support activities for agriculture and forestry	71,551,335
134	Sawmills	592,460,995
135	Wood preservation	346,364,610
136	Veneer and plywood manufacturing	392,777,210
137	Engineered wood member and truss manufacturing	77,880,320
138	Reconstituted wood product manufacturing	463,751,685
139	Wood windows and door manufacturing	84,915,864
140	Cut stock, resawing lumber, and planning	36,785,038
141	Other millwork, including flooring	105,019,089
142	Wood container and pallet manufacturing	140,246,797
144	Prefabricated wood building manufacturing	53,590,258
145	All other miscellaneous wood product manufacturing	85,638,468
146	Pulp mills	1,316,133
147	Paper mills	1,340,058,504
148	Paperboard mills	2,554,104,947
149	Paperboard container manufacturing	1,918,173,403
150	Paper bag and coated & treated paper manufacturing	884,260,220
151	Stationery product manufacturing	90,909,010
152	Sanitary paper product manufacturing	1,854,917,671
153	All other converted paper product manufacturing	253,808,375
269	Sawmill, woodworking, and paper machinery	33,378,426
368	Wood kitchen cabinet and countertop manufacturing	196,996,176
369	Upholstered household furniture manufacturing	81,637,295
370	Non-upholstered wood furniture manufacturing	32,874,902
373	Wood office furniture manufacturing	4,919,584
374	Custom architectural woodwork and millwork	14,413,838
507	Commercial and industrial machinery & equipment repair and maintenance	24,815,996
	Total	12,245,837,286

Output values for all industries are the 2014 IMPLAN values for each industrial sector for each industrial sector inflated to 2016 values using the CPI and divided by the Leontief inverse diagonal element for each industrial sector except for sector 507 to avoid over estimation. Sector (industry) 507 output value is derived as the IMPLAN state sector value multiplied by sum of all other industries in the forestry direct impact vector divided by total state output. The multiplication scale factor is 0.0304. The direct industry output value for IMPLAN Industry 19 (support activities for agriculture and forestry) is calculated as IMPLAN state value multiplied by US Department of Labor Quarterly Census of Employment and Wage (QCEW) data (2015) for forestry workers divided by sum of forestry and agricultural workers). The calculated employment ratio used to rescale IMPLAN industry 19 is 0.3736. Industry output values in the forestry sector are in producer prices and were not margined.

The Economic Contribution of Natural Resources to South Carolina's Economy

Quick Facts

December 2016

Authors

This summary reports on the results of an economic analysis performed at Clemson University by David B. Willis and Thomas J. Straka. The full 24-page report is available online at http://www.clemson.edu/extension/publications/index.html or the South Carolina Department of Natural Resources.

CLEMSON

EXPERIMENT STATION

South Carolina is blessed with abundant natural resources that enhance the state's quality and level of economic activity. Moreover, natural resources are the raw materials that sustain and promote economic activities. The continued sustained use of natural resources is fundamental to both the environmental and economic quality of life within South Carolina. Research at Clemson University in 2016 determined the economic contribution of natural resources to South Carolina's economy. While some values are outside traditional economic valuation, like the value of clean water or air, the economic contribution of expenditures in South Carolina's natural resource-based industrial sectors to the overall state economy is significant. Over $33 billion of economic activity, nearly $9 billion of labor income, and over 200,000 jobs were attributed to the natural resources sectors. This represented over 8% of gross state product and nearly 9% of South Carolina's employment.

South Carolinians have high levels of participation and preferences for outdoor recreational activities. A 2005 South Carolina Parks, Recreation and Tourism study showed that strong interest in outdoor recreation in the state. Percent of state residents participating in specific outdoor activities included:

Swimming/Boating

- Beach swimming/sunbathing 63%
- Motor boating 34%
- Lake/river swimming 28%
- Personal watercraft 12%
- Canoeing, kayaking, rafting 11%
- Water skiing 6%
- Sailing 3%

Fishing/Hunting/Wildlife Watching

- Freshwater fishing 37%
- Watching wildlife 33%
- Bird watching 20%
- Saltwater fishing 19%
- Hunting 14%
- Hunting dog field trials 2%

Other Outdoor Activities

- Visiting an unusual natural feature 35%
- Camping 23%
- Guided nature trail/study 20%
- Hiking 18%
- Rock climbing 6%

The Economic Contribution of Natural Resources

The economic contribution of natural resources to South Carolina's economy was estimated in a 2016 Clemson University study using input-output analysis (the IMPLAN model), a widely accepted economic analysis technique. The IMPLAN model divides the state economy into 536 mutually exclusive economic sectors (industry types). The IMPLAN sectoring scheme was used to create six mutually exclusive natural resource-based sectors that closely approximate the natural resource-based expenditure patterns in South Carolina. These six sectors are: fishing, hunting, and wildlife viewing; coastal tourism; commercial fisheries; boat industry; mining; and forestry.

For each natural resource-based sector the values for four economic key variables were reported:

- Employment (jobs generated by natural resources)
- Labor income (wages generated by natural resources)
- Value added (net contribution to the state's economy)
- Total industry output (value of total output or sales revenue)

Reported below are the total impacts of the various natural resource sectors. Total impact is the combination of three impacts: direct impacts – those effects generated within the particular sector that impact the state's economy, indirect impacts – effects between sectors (one sector causing additional, or less, activity in another sector, and induced impacts – the domino effect of changes in expenditures rippling through the economy. The total economic impact is the sum of the direct impact, indirect impact, and induced impact.

Over one-third of South Carolinians participate in fishing, hunting, or wildlife viewing. These activities generated a direct economic effect of over $1.62 billion and a total effect of $2.74 billion, resulting in nearly 32,000 jobs in the state.

Annual Economic Impact of Fishing, Hunting, and Wildlife Viewing on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	23,582	3,564	4,812	31,958
Labor Income ($s)	686,777,000	152,588,179	188,904,885	1,028,270,064
Value Added ($)	1,068,450,219	266,200,616	344,955,459	1,679,606,293
Output ($s)	1,618,670,877	496,770,066	621,445,610	2,736,886,553

Many individuals (both in-state and out-of-state) vacation and/or engage in salt water fishing opportunities provided along the state's coastline. Coastal tourists spend money on hotels, fishing supplies, gasoline, guide services, and food. Eight South Carolina counties have coastal tourism: Beaufort, Berkeley, Charleston, Colleton, Dorchester, Georgetown, Jasper, and Horry. These counties accounted for 64% of the state's tourism revenue. This sector's total economic output impact was nearly $9 billion and nearly 100,000 jobs were generated.

Annual Economic Impact of Coastal Tourism on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	71,702	14,157	13,467	99,325
Labor Income ($s)	1,753,820,258	595,178,676	528,754,487	2,877,753,420
Value Added ($s)	2,929,009,922	967,001,097	965,588,870	4,861,599,889
Output ($s)	5,390,047,354	1,866,273,416	1,739,545,696	8,995,866,466

Commercial fishing differs from recreational fishing. A sustainable commercial fishing industry is essential to preserving the unique character of South Carolina's local seafood-based cuisine. The total economic contribution to the state's economy was over $42 million and 840 jobs were generated.

Annual Economic Impact of the Commercial Fishery Sector on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	720	63	57	840
Labor Income ($s)	6,748,846	3,270,117	2,247,978	12,266,940
Value Added ($s)	12,753,626	4,400,029	4,102,040	21,255,695
Output ($s)	25,371,754	9,603,013	7,388,915	42,363,682

The boat sector generated 2,450 direct jobs with an average salary of $74,000 (due to the skills required to work in the industry), and 5,401 total jobs were created. Total economic contribution to the state's economy was almost $1 billion.

Annual Economic Impact of the Boat Sector on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	2,450	1,484	1,466	5,401
Labor Income ($s)	181,684,070	73,984,940	57,556,258	313,225,269
Value Added ($s)	200,203,644	102,940,617	105,107,228	408,251,490
Output ($s)	607,762,496	202,442,770	189,354,882	999,560,148

South Carolina's mining sector is concentrated in four broad industries: extracting natural gas and crude petroleum, stone mining and quarrying, sand and gravel mining, and the drilling of oil and gas wells. Mining activity is distributed across the state. Mining contributed $1.2 billion to the state economy and generated nearly 6,000 jobs.

Annual Economic Impact of the Mining Sector on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	3,718	1,324	931	5,973
Labor Income ($s)	94,436,943	67,997,518	36,545,425	198,979,886
Value Added ($s)	250,673,478	103,454,705	66,729,565	420,857,748
Output ($s)	828,422,766	223,702,962	120,213,107	1,172,338,835

Forestry is the second largest natural resource-based industry in the state, behind only agriculture. This industry sector consists of 29 specific industries (like pulp and paper, lumber, plywood, and logging). The total contribution of forestry to South Carolina's economy was $19.4 billion and over 75,000 jobs were generated.

Annual Economic Impact of the Forestry Sector on the South Carolina Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Jobs)	28,719	26,898	19,605	75,222
Labor Income ($s)	1,983,244,695	1,420,258,438	769,815,966	4,173,319,099
Value Added ($s)	3,874,123,350	2,216,179,921	1,405,850,874	7,496,154,145
Output ($s)	12,245,088,639	4,629,076,071	2,532,703,852	19,406,868,561

The total economic contribution of South Carolina's six natural resource-based economic sectors considered in the Clemson University study was $33.4 billion, an increase of 15% since 2009. Total labor income was $8.6 billion from the 218,719 jobs generated. These six sectors accounted for 8.3% of the gross state product and 8.6% of all jobs in the state.

Annual Economic Impact of all South Carolina Natural Resource Sectors on the SC Economy

Impact	Direct Effect	Indirect Effect	Induced Effect	Total Effect
Employment (Job)	130,891	47,490	40,337	218,719
Labor Income ($s)	4,706,711,812	2,313,277,868	1,583,824,999	8,603,814,678
Value Added ($s)	8,335,214,239	3,660,176,986	2,892,334,036	14,887,725,260
Output ($s)	20,715,363,886	7,427,868,297	5,210,652,061	33,353,884,245

February 22, 2016

Kim S. Aydlette
Director, Division of State Human Resources
SC Department of Administration
8301 Parklane Road, Suite A220
Columbia, SC 29223

Dear ~~Ms. Aydlette~~ Kim:

I am requesting that the State Human Resources Division provide an independent review of personnel actions for procedural correctness to ensure compliance with Human Resources Regulations. This request is based on the Department of Natural Resources' (Department) budget subcommittee hearing in which Representative Clemmons asked detailed questions regarding movement, status, bonuses and salary actions. While I believe all actions taken by the Department were in accordance with Human Resources Regulations, I believe it is prudent to request a review of the following items:

- the Department's criteria used to award bonuses in 2014 and in 2015,
- bonuses awarded for FY13-14, FY14-15 and FY15-16 (up to present date),
- salary adjustments awarded to Law Enforcement Officers receiving a "step increase" in 2015,
- the movement, status and salary actions for employees assuming the rank of Captain from 2011 to present,
- the hiring of two Attorney III positions in 2013 and 2015,
- the promotion of majors in 2013, and
- salary actions for the Director's direct reports from July 2013 to present.

Thank you for any assistance you can provide regarding this matter. Please feel free to call me, if you any questions.

Sincerely,

Terri McGee
Human Resources Director

RECEIVED
JUL 08 2016
SC DNR
Office of Human Resources

Ms. Terri McGee
Human Resources Director
Department of Natural Resources
1000 Assembly Street
Columbia, South Carolina 29201

Dear Ms. McGee:

The Department of Natural Resources (DNR) requested an independent review of specific human resources actions to ensure compliance with State Human Resources Regulations. The Division of State Human Resources cannot comment on the merit of personnel decisions of the agency and can only review the actions from a regulatory perspective. The review conducted by our office primarily utilized information from the South Carolina Enterprise Information System and included a review of the following items:

- the DNR's bonuses awarded in fiscal years 2013-14, 2014-15, and 2015-16
- salary adjustments awarded to law enforcement officers in 2015
- movement and salary actions for employees at the rank of Captain from 2011 to present
- the hiring of two Attorney III positions in 2013 and 2015
- the promotion of Majors in 2013
- salary actions for the Agency Head's direct reports from July 2013 to present

DNR awarded 303 bonuses during the fiscal years included in the review. All appear to have been awarded within the guidelines established for state employee bonuses. Due to some confusion regarding the agency's reporting requirements, the agency did not report the reasons for the bonuses awarded to our office.

The agency awarded 148 salary increases to law enforcement officers in calendar year 2015. All of the increases were awarded within the delegated authority the agency has under the State Human Resources Regulations.

There were 53 separate personnel actions for 23 employees at the rank of Captain. The actions, which included salary increases, reassignments, and promotions, all appeared to be in compliance with State Human Resources Regulations from a salary perspective. One salary action, however, was processed differently than approved by our office.

The salary requests for the Attorney III hires were submitted for approval to our office and the Office of the Attorney General and approved in compliance with State Human Resources Regulations.

admin
THE SOUTH CAROLINA
DEPARTMENT *of* ADMINISTRATION

Nikki R. Haley, *Governor*
Marcia S. Adams, *Executive Director*

DIVISION *of* STATE HUMAN RESOURCES
Kim Aydlette, Director
8301 Parklane Road, Suite A220
Columbia, SC 29223
803.896.5300
803.896.5050 fax

There was only one employee promoted to the rank of Major during the 2013 calendar year. The action appears to be in compliance with State Human Resources Regulations. Related to the promotion, our office approved an equivalency to the State's minimum education and experience requirements for the Law Enforcement Officer V classification.

There were 12 salary actions for 10 employees reporting directly to the agency head from July 2013 to present. All of the actions appear to have been approved in compliance with State Human Resources Regulations.

If you have any questions regarding the findings of our review, please feel free to contact me.

Sincerely,

Kim Aydlette
Director

CLASSIFICATION DELEGATION AUTHORITY
Natural Resources, Dept of
August 26, 2016

I. Audit Period: July 1, 14 thru June 30, 2015

II. Auditors: Trina Poole

III. Delegated Reclassification Actions: Printouts on file with DSHR

7/1/14 - 6/30/15
Total Number of Reclassifications: 101
Total Number of Actions Audited: 28

IV. Sampling Size: 27.73%

V. Purpose of Audit:

1. To determine if internal procedures are established for the review and processing of delegated classification actions.

2. To determine if the agency maintains an approved copy of the classification delegation agreement and all other correspondence related to its classification delegation program.

3. To determine whether delegated position descriptions are filed for ease of retrieval and review.

4. To determine whether the job duties on the position description are appropriate to the classification of the position.

5. To determine whether the position descriptions include: internal titles (if used), essential and marginal functions, percentages of time spent on each job duty, and appropriate coding and signatures.

6. To determine whether the class code and position number is correct on each position description.

7. To determine if authorized or effective dates on position descriptions fall on or after the approval date.

VI. Findings:

1. The agency was able to produce a copy of the classification delegation agreement.

2. The agency had 100% or 28 out of the 28 actions that were appropriately classified.

3. Out of the position descriptions audited the following was noted:

   - **Appropriate coding and signatures**
     - 96.43% or 27 out of the 28 had the appropriate coding and signatures
   - **Appropriate class code and position number**
     - 100% or 28 out of the 28 had the class code and position number.
   - **FLSA designation**
     - 100% or 28 out of the 28 actions audited had the FLSA designation
   - **State minimum training and experience**
     - 96.43% or 27 out of the 28 actions audited had minimum training and experience that at least met the State minimum classification specification
   - **Essential and marginal functions**
     - 100% or 28 out of the 28 actions audited had essential and marginal functions designated.
   - **Percentages of time spent on each job duty**
     - 100% or 28 out of the 28 actions audited had percentages of time that equaled 100%.

4. The agency had 82.14% or 23 out of the 28 actions audited that were approved before or on the effective date.

5. 0% or 0 out of the 28 classification actions audited were missing position descriptions.

VII. Recommendation(s):

- **PD/State Specification Comparison**
  - No Recommendations.
- **Minimum Training and Experience**
  - No Recommendations.
- **Essential & Marginal Functions**
  - No Recommendations.
- **Job Functions**
  - No Recommendations.
- **Coding & Signatures**
  - No Recommendations.
- **FLSA**
  - No Recommendations.

- Class Code & Position #
  - No Recommendations.
- **Approval Dates & Effective Dates**
  - No Recommendations.
- **Missing Delegated Position Descriptions**
  - No Recommendations.
- **Agency maintain copy of classification delegation agreement**
  - No Recommendations.

VIX Summary:

It appears that the decisions made by the agency during this audit period regarding reclassification actions are sound. The agency is in compliance with the classification delegation agreement.

HIRE ABOVE MINIMUM DELEGATION AUTHORITY
Natural Resources, Dept of
August 26, 2016

I. Audit Period Covered: July 1, 2014 -- June 30, 2015

II. Auditors: Trina Poole

III. Delegated Hire Above Minimum Actions: Printouts on file with DSHR

7/1/14 - 6/30/15
Number Hired Above Minimum: 66
Number of Actions Audited: 25

IV. Sampling Size: 37.88 %

V. Purpose of Audit:

1. To determine if internal procedures are established for the review and documentation of delegated hire above minimum actions.

2. To determine if the agency maintains an approved copy of the hire above minimum delegation agreement and all other correspondence related to its hire above minimum delegation program.

3. To determine whether hire above minimum documentation is filed for ease of retrieval and review.

4. To determine whether proper documentation exists for each hire above minimum action, to include:

   - A completed employment application with salary history and dates of employment
   - Position title, class code and slot to include internal title, if used
   - Pay band and salary range
   - Proposed salary above minimum
   - Agency average salary, internal title average salary
   - Statewide average salary, if applicable
   - Justification statement to include not only that the applicant exceeds the minimum requirements, but also a description of why the salary is needed to hire the individual (e.g., market, recruiting/retention difficulties, most qualified and little time needed for training, etc.)
   - Hire date
   - Authorized signature and date of approval

5. To determine whether actions are approved prior to the hire date of the applicant.

6. To determine whether actions are true new hires, or whether another action code, such as promotion, demotion, or transfer is appropriate.

7. To determine whether recommendations from previous audits have been implemented.

VI. Findings:

1. The agency was able to produce its copy of the hire above minimum delegation agreement.

2. This section summarizes the documentation for each hire above minimum action. There were a total of 25 hire above minimum actions audited.

- **Completed Application Including Employment Dates** –100% or 25 out of the 25 actions audited had a completed application including employment dates.
- **Title/Class (including internal title)** – 100% or 25 out of the 25 actions audited had the title/class.
- **Pay Band/Salary Range** -100% or 25 out of the 25 actions audited had the pay band and salary range.
- **Proposed Salary Above Minimum** - 100% or 25 out of the 25 actions audited had the proposed salary and percentage above minimum.
- **Average Salary Data** - 100% or 25 out of the 25 actions audited had average salary data.
- **Justification Statement of HAM** - 100% or 25 out of the 25 actions audited had an adequate justification statement.
- **Approval Date on or Prior to Hire Date** - 100% or 25 out of the 25 actions audited had the approval date on or prior to the hire date.
- **Authorized Signature & Approval Date** - 100% or 25 out of the 25 actions audited had an authorized signature and/or approval date.
- **New hires coded appropriately** - 100% or 25 out of the 25 actions audited were coded correctly as a new hires.

VII. Recommendations:

- **Completed Application including Employment Dates** - No Recommendations.
- **Title/Class (including internal title)** - No Recommendations.
- **Pay Band/Salary Range** -No Recommendations.
- **Proposed Salary Above Minimum** - No Recommendations.
- **Average Salary Data** No Recommendations.
- **Justification Statement of HAM** - No Recommendations.
- **Approval Date on or prior to Hire Date** No Recommendations.

- **Authorized Signature & Approval Date** - No Recommendations.
- **Did Employee Come from Other State Agency** - No Recommendations.
- **Delegation Contract on File** - No Recommendations.

VII. Summary:

It appears that the decisions made by the agency during this audit period regarding reclassification actions are sound. The agency is in compliance with the hire above minimum delegation agreement. To further strengthen your salary justification, explain how the data included in the analysis was used to determine the specific salary recommended.

RE: FWS/R4/BA/DCR

Dear Ms. Dohner:

We have received your letter dated June 17, 2014, and reviewed the attached Report of Findings for the 2014 Civil Rights Desk Audit Review of the SCDNR.

We noted one mistake with the report. On page 2, the second bullet states that all of the SCDNR Board members are Caucasian males. However, we do have one Caucasian female. An additional copy of the original documentation submitted is attached for your review.

We concur with the recommendations as we believe they will further enhance the accessibility and participation for persons of all backgrounds to experience our programs, activities, services and facilities. We will take the necessary steps to incorporate these recommendations when and where possible.

As stewards of the state's natural resources, it is our duty and goal to serve the entire population of this great state regardless of race, color, national origin, age, disability or sex, and we take pride in doing so.

We would like to commend the compliance review team for their professionalism and continued guidance and support, not just during this review but year round. They have become a valuable resource for our staff, and we deeply appreciate all that they do.

If you have questions or need additional information, please do not hesitate to contact Angie Cassella, SCDNR Internal Auditor, at (803) 734-3948 or cassellaa@dnr.sc.gov.

Sincerely,

Alvin A. Taylor
Director

Dear Mr. Taylor: Alvin

As required by federal civil rights laws and regulations, the Fish and Wildlife Service (Service) conducted a civil rights desk audit compliance review of the South Carolina Department of Natural Resources (SCDNR). Federal civil rights laws and regulations require Department of Interior bureaus, including the Service, to conduct periodic reviews of their recipients of federal funds to ensure maximum success and visibility of recipient's civil rights programs, and to ensure equal access to recipient programs on the basis of race, color, national origin, age, disability, and sex (in educational programs).

Legal and regulatory authorities include: Title VI of the Civil Rights Act of 1964; Section 504 of the Rehabilitation Act of 1973; Title II of the Americans with Disabilities Act of 1990; Title IX of the Education Amendments of 1972; the Age Discrimination Act of 1975; Department of Interior implementing Regulations at 43 CFR Part 17 and 41; and Presidential Executive Orders 12898 and 13166, both of which are linked directly to Title VI. These authorities are referred to in this document as "the Acts."

The civil rights review covered the following general areas: equal access for various racial/ethnic groups; access for women in educational programs; program and facility access for persons with disabilities; public notifications of civil rights requirements; contracting and subcontracting policies; environmental justice provisions; and access for persons with Limited English Proficiency.

We wish to recognize and thank Angie Cassella and Breck Carmichael for coordinating and compiling the documents that we requested for the review.

Overall, our review determined that there were no major findings of noncompliance with civil rights accessibility regulations. SCDNR provided a detailed Self-evaluation and Transition Plan that adequately addressed its facility deficiencies, with a goal of making facilities accessible within one year. The compliance review team was impressed with the SCDNR's commitment in the administration and management of its programs and facilities to ensure access to all of its participants, including those with disabilities.

Our Report of Findings is enclosed. Even though there were no major findings, we provided some recommendations that could further enhance SCDNR's accessibility and participation for persons of all background to experience its programs, activities, services and facilities.

Please provide our office with your response to the Report of Findings and recommended actions that were noted by **October 1, 2014.** If you have any questions, please contact Kary Allen, Division of Diversity and Civil Rights, at (404)679-4197.

Sincerely yours,

Cynthia K. Dohner
Regional Director

Enclosure

South Carolina Department of Natural Resources
2014 Civil Rights Desk Audit Review
Report of Findings

During the week of May 19, 2014, the Fish and Wildlife Service (FWS) Southeast Region conducted a civil rights desk audit compliance review of the South Carolina Department of Natural Resources (SCDNR). The compliance review team consisted of Kary Allen, Shari Brewer and Greg McGinty from the Office of Diversity and Civil Rights. The review examined the following overall program areas:

A. Equal access for various racial/ethnic groups
B. Equal access for women in educational programs, especially hunter education and aquatic education;
C. Program and facility access for persons with disabilities
D. Public notifications of civil rights requirements
E. Contracting and subcontracting policies
F. Environmental Justice provisions, regarding the prohibition of adverse environmental impacts on minority and low income communities
G. Equal program access for persons with Limited English Proficiency.

A. Equal Access for Various Racial/Ethnic Groups
Title VI law and regulations do not provide for specific minority goals or percentage targets. Title VI addresses evidence of inclusion of all racial/ethnic groups, and provides for outreach to multicultural community groups, especially when evidence for adequate inclusion is lacking. The Title VI Regulations require the collection of racial/ethnic participation data, to measure inclusion of different groups.

COMMENTS:

- The SCDNR offers excellent education programs and recreational opportunities to the public, especially ones funded through its SFR and WR grant programs. The SCDNR indicated that it does not collect racial or gender statistics of recipients of education classes, however SCDNR provided statewide school enrollment racial data for the schools where they provided education programs. The agency does a very good job of reaching schools with high African American and Hispanic student populations such as Beaufort and Jasper. The agency conducts programs specifically targeted towards minorities including its Minorities in Marine and Environmental Science (MIMES) program, the South Carolina Oyster Restoration & Enhancement (SCORE) Program and outreach to Title One schools. The Reel Art program, funded through the Sport Fish Restoration Program, is reaching schools with African American and Hispanic student populations. The agency conducted a workshop on its Boating Infrastructure Grant program (BIG) to ensure that all interested parties have an opportunity to gain the resources necessary to participate in this federally funded grant program.

- The agency established partnerships with minority groups such as the Gullah-Geechee Sea Island Coalition, the Beaufort Marine Institute, and the Make a Wish Foundation.

- The SCDNR provided a list of its natural resources board members. The board consists of eight members, all of whom are Caucasian males.

- The SCDNR provided a list of members who serve on its advisory boards. Information was provided on six advisory committees consisting of a total of 65 members, all of which are Caucasian males.

- The SCDNR provided data on the race/ethnicity of its instructors and education staff. There is little diversity among instructors, with only one Hispanic instructor identified. However, Hispanics are showing an interest in the agency's programs. For example, the hunter education participant list that was provided includes 64 Hispanic female and 386 Hispanic male students. (According to 2012 U.S. Census Bureau data, 5.3% of the population of South Carolina is Hispanic).

- A list of agency mentors was provided, which consisted of very little diversity (one African American mentor and one Hispanic mentor identified).

- Most agency programs are free of charge and advertised through a variety of sources such as websites, social media, email messages and outreach to South Carolina's public school system, thus making its programs accessible to a wide range of audiences.

- The agency includes a clause in its contracts/sub-recipient agreements encouraging partnerships with small and minority owned businesses and individuals.

RECOMMENDATIONS:

- Seek to include women and minority representation on your agency's advisory boards in order to better serve the diverse population of South Carolina and to encourage the participation of minorities and women in recreational opportunities such as fishing, hunting and boating.

- Seek out partnerships with Hispanic/Latino organizations and communities, especially in counties with higher Hispanic populations such Beaufort, Jasper and Saluda (each have a Hispanic population of greater than 10%).

- Ensure that your recruitment and outreach efforts are reaching South Carolina's minority populations, especially Hispanic communities and colleges with a high enrollment of Hispanic students.

B. Equal Access for Women in Educational Programs

Title IX of the Education Amendments of 1972 prohibits exclusion from participation in, denial of the benefits of, or discrimination on the basis of sex in any education program or activity

funded with federal financial assistance.

COMMENTS:

- Females are represented on SCDNR's instructor staff and mentors. Women represent 13% of hunter education instructors, 10% of boating instructors; 12% of fishing instructors and 15% of the agency's mentors.

- Continue to promote and offer instructor and mentorship opportunities to women in order to increase the participation of women in agency programs such as fishing, boating and hunting.

RECOMMENDATIONS: None

C. Equal Program and Facility Access for Persons with Disabilities
Section 504 of the 1973 Rehabilitation Act protects the rights of individuals with disabilities to participate in, and have access to, program benefits and services. Facilities constructed with federal funds should be in compliance with the Architectural Barriers Act (ABA) standards. The ABA Accessibility Guidelines can be obtained at the U.S. Access Board website at www.access-board.gov.

COMMENTS:

- The SCDNR offers youth with special needs recreational hunting opportunities through its mobility impaired hunts and currently has an active partnership with the South Carolina Disabled Sportsman's Association.

- The SCDNR has active partnerships with disability organizations such as the South Carolina Disabled Sportsman's Association, the Make a Wish Foundation and the Wounded Warriors Program.

- The SCDNR encourages the participation of individuals living with disabilities in its programs by providing free fishing and hunting licenses.

- The SCDNR provided a very thorough and detailed Self-evaluation and Transition Plan with clearly defined goals and timelines.

RECOMMENDATIONS: None

D. External Civil Rights Notification/Grievance Procedures
The civil rights laws and regulations require that recipient programs and facilities provide the public notification of their civil rights and provide a contact with the Federal funding agency (the Service) for anyone who wants to file a civil rights complaint. Federally assisted complaints of discrimination are processed and investigated by the Department of the Interior (DOI). Recipients shall describe procedures used to handle complaints of alleged discrimination and the

name of the person(s) assigned responsibility for these complaints.

COMMENTS

- The SCDNR provides an anti-discrimination clause on its hunting, fishing, boating and other federally funded project publications as well contact information for individuals wishing to file a complaint.

RECOMMENDATIONS: None

E. Contracting and Subcontracting Policies
Contract or agreements subject to Title VI and its regulations between the Recipient's and the Recipient's sub-grantees, contractors, subcontractors, successors, transferees and assignees shall contain language ensuring current and future compliance with Title VI of the Civil Rights Act of 1964, which prohibits discrimination in programs and activities that receive federal funding.

COMMENTS:

- Examples of agency contracts and sub-recipient agreements were provided. The documents contain language stating that contractor shall comply will all applicable laws, rules and regulations including specific civil rights anti-discrimination language.

RECOMMENDATIONS: None

F. Environmental justice, regarding the prohibition of adverse environmental impacts on minority and low income communities
Presidential Executive Order 12898 states that environmental policies and practices of government entities must not have an adverse impact against minority or low income communities. Federal agencies and their recipients shall have plans/procedures that describe waste disposal policies, including emissions of toxic wastes into the air, land, or water from agency's facilities, and the impact of such policies on minority and low income neighborhoods.

COMMENTS:

- The SCDNR has office waste disposed of by local jurisdiction municipalities, which are regulated by the South Carolina Department of Health and Environmental Control. The SCDNR was an active partner in the South Carolina Environmental Justice Action Committee assessment, which met to ensure that policies of state agencies do not result in undue negative impacts upon minority and low income neighborhoods.

RECOMMENDATIONS: None

G. Equal Program Access for Persons with Limited English Proficiency (LEP)
Presidential Executive Order 13166 requires Federal agencies and their recipients to take reasonable steps to ensure meaningful access to their programs and activities to persons with

LEP. Self-assessment should be conducted to determine what types of contact the recipient has with the LEP population and develop language access policy directives and procedures. LEP planning tools and other information and resources on the LEP program are available at www.lep.gov.

COMMENTS:

- Hunter Education materials are offered in Spanish as well as English.

- Aquatic education programs were conducted at Beaufort Middle School where a Spanish interpreter and sign language services were provided. More than 30 LEP students participated in the program.

RECOMMENDATIONS: None

We request that you acknowledge receipt of the report and address any recommendations and/or required actions noted. Please respond by the date indicated on the cover memorandum.

We extend a sincere thank you for your cooperation with this civil rights review. We are available to provide support to your office to ensure that your programs and facilities are accessible to all individuals.

CLASSIFICATION DELEGATION AUTHORITY
Natural Resources, Dept of
August 26, 2016

I. Audit Period: July 1, 14 thru June 30, 2015

II. Auditors: Trina Poole

III. Delegated Reclassification Actions: Printouts on file with DSHR

7/1/14 - 6/30/15
Total Number of Reclassifications: 101
Total Number of Actions Audited: 28

IV. Sampling Size: 27.73%

V. Purpose of Audit:

1. To determine if internal procedures are established for the review and processing of delegated classification actions.

2. To determine if the agency maintains an approved copy of the classification delegation agreement and all other correspondence related to its classification delegation program.

3. To determine whether delegated position descriptions are filed for ease of retrieval and review.

4. To determine whether the job duties on the position description are appropriate to the classification of the position.

5. To determine whether the position descriptions include: internal titles (if used), essential and marginal functions, percentages of time spent on each job duty, and appropriate coding and signatures.

6. To determine whether the class code and position number is correct on each position description.

7. To determine if authorized or effective dates on position descriptions fall on or after the approval date.

VI. Findings:

1. The agency was able to produce a copy of the classification delegation agreement.

2. The agency had 100% or 28 out of the 28 actions that were appropriately classified.

3. Out of the position descriptions audited the following was noted:

   - **Appropriate coding and signatures**
     - 96.43% or 27 out of the 28 had the appropriate coding and signatures
   - **Appropriate class code and position number**
     - 100% or 28 out of the 28 had the class code and position number.
   - **FLSA designation**
     - 100% or 28 out of the 28 actions audited had the FLSA designation
   - **State minimum training and experience**
     - 96.43% or 27 out of the 28 actions audited had minimum training and experience that at least met the State minimum classification specification
   - **Essential and marginal functions**
     - 100% or 28 out of the 28 actions audited had essential and marginal functions designated.
   - **Percentages of time spent on each job duty**
     - 100% or 28 out of the 28 actions audited had percentages of time that equaled 100%.

4. The agency had 82.14% or 23 out of the 28 actions audited that were approved before or on the effective date.

5. 0% or 0 out of the 28 classification actions audited were missing position descriptions.

VII. Recommendation(s):

- **PD/State Specification Comparison**
  - No Recommendations.
- **Minimum Training and Experience**
  - No Recommendations.
- **Essential & Marginal Functions**
  - No Recommendations.
- **Job Functions**
  - No Recommendations.
- **Coding & Signatures**
  - No Recommendations.
- **FLSA**
  - No Recommendations.

- Class Code & Position #
  - No Recommendations.
- **Approval Dates & Effective Dates**
  - No Recommendations.
- **Missing Delegated Position Descriptions**
  - No Recommendations.
- **Agency maintain copy of classification delegation agreement**
  - No Recommendations.

VIX Summary:

It appears that the decisions made by the agency during this audit period regarding reclassification actions are sound. The agency is in compliance with the classification delegation agreement.

HIRE ABOVE MINIMUM DELEGATION AUTHORITY
Natural Resources, Dept of
August 26, 2016

I. Audit Period Covered: July 1, 2014 -- June 30, 2015

II. Auditors: Trina Poole

III. Delegated Hire Above Minimum Actions: Printouts on file with DSHR

7/1/14 - 6/30/15
Number Hired Above Minimum: 66
Number of Actions Audited: 25

IV. Sampling Size: 37.88 %

V. Purpose of Audit:

1. To determine if internal procedures are established for the review and documentation of delegated hire above minimum actions.

2. To determine if the agency maintains an approved copy of the hire above minimum delegation agreement and all other correspondence related to its hire above minimum delegation program.

3. To determine whether hire above minimum documentation is filed for ease of retrieval and review.

4. To determine whether proper documentation exists for each hire above minimum action, to include:

   - A completed employment application with salary history and dates of employment
   - Position title, class code and slot to include internal title, if used
   - Pay band and salary range
   - Proposed salary above minimum
   - Agency average salary, internal title average salary
   - Statewide average salary, if applicable
   - Justification statement to include not only that the applicant exceeds the minimum requirements, but also a description of why the salary is needed to hire the individual (e.g., market, recruiting/retention difficulties, most qualified and little time needed for training, etc.)
   - Hire date
   - Authorized signature and date of approval

5. To determine whether actions are approved prior to the hire date of the applicant.

6. To determine whether actions are true new hires, or whether another action code, such as promotion, demotion, or transfer is appropriate.

7. To determine whether recommendations from previous audits have been implemented.

VI. Findings:

1. The agency was able to produce its copy of the hire above minimum delegation agreement.

2. This section summarizes the documentation for each hire above minimum action. There were a total of 25 hire above minimum actions audited.

- **Completed Application Including Employment Dates** –100% or 25 out of the 25 actions audited had a completed application including employment dates.
- **Title/Class (including internal title)** – 100% or 25 out of the 25 actions audited had the title/class.
- **Pay Band/Salary Range** -100% or 25 out of the 25 actions audited had the pay band and salary range.
- **Proposed Salary Above Minimum** - 100% or 25 out of the 25 actions audited had the proposed salary and percentage above minimum.
- **Average Salary Data** - 100% or 25 out of the 25 actions audited had average salary data.
- **Justification Statement of HAM** - 100% or 25 out of the 25 actions audited had an adequate justification statement.
- **Approval Date on or Prior to Hire Date** - 100% or 25 out of the 25 actions audited had the approval date on or prior to the hire date.
- **Authorized Signature & Approval Date** - 100% or 25 out of the 25 actions audited had an authorized signature and/or approval date.
- **New hires coded appropriately** - 100% or 25 out of the 25 actions audited were coded correctly as a new hires.

VII. Recommendations:

- **Completed Application including Employment Dates** - No Recommendations.
- **Title/Class (including internal title)** - No Recommendations.
- **Pay Band/Salary Range** -No Recommendations.
- **Proposed Salary Above Minimum** - No Recommendations.
- **Average Salary Data** No Recommendations.
- **Justification Statement of HAM** - No Recommendations.
- **Approval Date on or prior to Hire Date** No Recommendations.

- **Authorized Signature & Approval Date** - No Recommendations.
- **Did Employee Come from Other State Agency** - No Recommendations.
- **Delegation Contract on File** - No Recommendations.

VII. Summary:

It appears that the decisions made by the agency during this audit period regarding reclassification actions are sound. The agency is in compliance with the hire above minimum delegation agreement. To further strengthen your salary justification, explain how the data included in the analysis was used to determine the specific salary recommended.

October 09, 2015

RECEIVED
OCT 27 2015
Director
SC Dept. of Natural Resources

Colonel Alvin Taylor
Director
South Carolina Department of Natural Resources
Post Office Box 167
Columbia, South Carolina 29202

Dear Colonel Taylor:

The purpose of this letter is to report the results of the monitoring visit conducted by the Federal Emergency Management Agency (FEMA), Grant Programs Division (GPD), Region IV/Grants Business Branch on August 25-27, 2015. As you are aware, Racquel Haynes met with South Carolina Department of Natural Resources (SCDNR) staff to review the following grant(s):

Grant Number	Program Name	Award Amount
EMA-2005-CA-5214	Cooperating Technical Partners	$4,117,000.00
EMA-2006-CA-5619	Cooperating Technical Partners	$3,494,000.00
EMA-2007-CA-5773	Cooperating Technical Partners	$4,906,361.00
EMA-2008-CA-5885	Cooperating Technical Partners	$5,483,361.00
EMA-2009-CA-5934	Cooperating Technical Partners	$1,611,752.00
EMA-2011-CA-5148	Cooperating Technical Partners	$2,294,107.00
EMA-2012-CA-5269	Cooperating Technical Partners	$1,757,805.00
EMA-2013-CA-5358	Cooperating Technical Partners	$ 917,500.00

The purpose of the review is to provide guidance and recommendations to enhance your efforts in managing Federal funding. We are pleased to report that there are no findings.

Additionally, please see the enclosed Site Visit Report for more detailed information regarding our findings and recommendations.

Highlights in Grants Management	Award (s) Affected
- Policies and procedures were in place and up to date.	All Grants Listed

- Financial Reports are submitted on time and they are reconciled correctly.	

All correspondence related to this matter should be addressed to:

U.S. Department of Homeland Security/FEMA
Region IV Grants Business Branch
3003 Chamblee Tucker Rd
Atlanta, GA 30341
attn: Racquel Haynes, Grants Management Specialist

We would like to take this opportunity to thank you and your staff for being very helpful and cooperative in providing GPD with the information requested during the visit, as well as additional information requested after our departure. We found your staff to be knowledgeable, supportive, and eager to ensure the success of FEMA funding efforts.

The GPD Region IV/Grants Business Branch team is available to respond to any questions you may have. Mrs. Haynes can be reached via email at racquel.haynes@fema.dhs.gov or by calling (770) 220-5638.

Sincerely,

Sharrie S. Abrams

Additional Review Notes/Comments

- South Carolina Department of Natural Resources utilizes the South Carolina Enterprise Information System (SCEIS). SCEIS is consolidating more than 70 state agencies onto a single, statewide enterprise system, built on SAP software, for finance, materials management and human resources/payroll. Some of the benefits of SCEIS are: replaces aging agency central systems (e.g. accounting system from 1980, payroll system from 1969); consolidate all state agency financial, procurement and human resources/payroll records into one central system; provide consistency in business processes throughout state agencies; offer higher level reporting capabilities for strategic decision making; eliminate redundancies, reduce paper handling and provide more efficient processing all of which is expected to result in significant savings; support improved services by state agencies, providing the citizens of the state with better service at reduced cost.

Section I: Determining the Adequacy of Financial Systems

Basic Standards: Accounting and Standards for Financial Management Systems		
#	**Guidance**	**Source**
For States:		
1.	A State must expand and account for grant funds in accordance with State laws and procedures for expending and accounting for its own funds. Fiscal control and accounting procedures of the State, as well as its sub-grantees and cost-type contractors, must be sufficient to: • Verify that the grantee has fiscal control and accounting procedures in place which permit the preparation of financial reports required by 44 CFR Part 13. • Verify that the grantee has fiscal control and accounting procedures in place which permits the tracking of funds to the lowest entity, also ensuring the appropriate segregation of funds.	44 CFR 13.20 (a)(1) & (2)
Comments: SCDNR adheres to the State laws and regulations.		
For Local and Other Governmental Grantees:		
2.	*Financial reporting.* Verify that the grantee's financial system provides for accurate, current, and complete disclosure of the financial results of grant activities in accordance with the financial reporting requirements of the grant or sub-grant.	44 CFR 13.20 (b)(1)
Comments: The financial files contain all aspects of payments for grant activities so that the Federal Financial Reports have proper information.		
3.	*Accounting records.* Verify that grantee maintains records which adequately identify the source and application of funds provided for financially- assisted activities. These records must contain information pertaining to grant or sub-grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income.	44 CFR 13.20 (b)(2)
Comments: The financial files contain all of the above, in addition to mapping activity statements, which show remaining unobligated balance once payments are made.		
4.	*Internal control.* Verify that the grantee has effective control and accountability for all grant and sub-grant cash, real and personal property, and other assets. Verify that	44 CFR 13.20 (b)(3)

	grantees adequately safeguard all such property and must assure that it is used solely for authorized purposes.	
Comments: Supporting documents in the financial files are signed off by different staff members for internal controls. Also, the GMS can attest that there are policies in place to adequately safeguard all such property.		
5.	*Budget control.* Verify that the grantee compares actual expenditures or outlays with budgeted amounts for each grant or sub-grant.	44 CFR 13.20 (b)(4)
Comments: The GMS verified that the grantee compares actual expenditures or outlays with budgeted amounts for each grant. Also, SCDNR did not sub-grant the CTP grants reviewed.		
6.	*Allowable cost.* Verify that the grantee follows applicable OMB cost principles, agency program regulations, and the terms of grant agreements in determining the reasonableness, allowability, and allocability of costs.	44 CFR 13.20 (b)(5)
Comments: After reviewing expenditures and the source documentation provided, the GMS verified that the sampled expenditures follow applicable OMB cost principles (A-87), state program regulations, and the terms and conditions of the Agreement Articles for the CTP grants reviewed.		
7.	*Source documentation.* Verify that the grantee's accounting records are supported by appropriate source documentation such as cancelled checks, paid bills, payrolls, time and attendance records, contract and sub-grant award documents, etc. (also see Section III: Review of Costs).	44 CFR 13.20 (b)(6)
Comments: The GMS verified that SCDNR's accounting records are supported by appropriate source documentation such as cancelled checks, paid bills, payroll, time and attendance records, and contract receipts.		
8.	*Cash management.* Verify that the grantee has procedures for minimizing the time elapsing between the transfer of funds from the U.S. Treasury and disbursement by grantee. In addition, Verify that grantee has procedures in place to monitor sub-grantee cash on hand (also see Sub-recipient Monitoring).	44 CFR 13.20 (b)(7) 44 CFR 13.21 (b)
Comments. The GMS verified that the CTP grants reviewed are on a reimbursable basis. SCDNR pays out its own funds and then is reimbursed by drawing funds from Smartlink and PARS.		

Section II: Compliance Review

Award File Documents Overview (On-site Review Only)	
Ensure that the grantee maintains grant files that contain the following documentation:	
1.	Copy of Request for Application (To include: Email/Attachments and Recipients Application)
2.	Award Package (To include: Letter, Award document/Assistance Award/Agreement Articles, with the Period of Performance and CFDA Number listed)
3.	Amendment Extension Requests/Approvals (CFR 13.30(d)(2))
4.	Amendment Budget Change Requests/Approvals (CFR 13.30(c)(1))
5.	Amendment Scope of Work/Program Narrative/Change Requests/Approvals (CFR 13.30(d)(1))
6.	Performance Reports (CFR 13.40 (b) or (c) (1-2) & Financial Reports (CFR 13.41)
7.	All related supporting documentation of expenditure activity; grantee expenditure activity and sub-recipient award files with supporting expenditure documentation
Comments: The grantee, SCDNR, maintains individual grant files that contain documentation such as the FFR filings on the Payment Management System (PMS), payment requests via the PMS, quarterly progress reports, and correspondence. The regular files contain expenditure reports, paid invoices packages, invoices, and receipts for funds received from FEMA (as requested via PMS). Also, the files contain amendments, Agreement Articles, and the Mapping Activity Statements.	

Post Award: Financial Administration

#	Guidance	Source
1.	*Payment Advances*. If the grantee requests advances, verify that there are procedures in place to minimize the time elapsing between the transfer of the funds and their disbursement by the grantee.	44 CFR 13.21 (c)
Comments: SCDNR did not request advances for the CTP grants reviewed.		
2.*	*Interest earned*. Verify the grantee tracks all interest earned. Except for interest earned on advances of funds exempt under certain acts, grantees shall promptly, but at least quarterly, remit interest earned on advances. The grantee may keep interest in amounts up to $100 per year for administrative expenses.	44 CFR 13.21 (i)
Comments: No interest earned on the CTP grants reviewed.		
3.*	*Charges During the Grant Period of Performance*. Verify that grantee is only charging costs to the grant resulting from obligations of the period of performance unless otherwise permitted by FEMA.	44 CFR 13.23(a)
Comments: After reviewing the source documentation and general ledgers, the GMS verified that the grantee did not have any expenditures charged to the CTP grants outside of the period of performance.		
4.*	*Allowability of Matching/Cost Sharing Funds*. Verify that all matching or cost-sharing is allowable under the program guidance, program regulations, and applicable cost principles.	44 CFR 13.24(a)
Comments: While there is no financial matching requirement under the Cooperating Technical Partners Program, in order to support the Risk Map vision and collaboration with stakeholders, the GMS verified that SCDNR has a strong record of working effectively with FEMA on floodplain mapping activities and demonstrates their ability to leverage CTP funding received which allows FEMA to maximize limited public funds to the fullest extent possible in support of National and Regional program priorities and objectives.		
5.	*In-Kind Contributions and Donated Services*. Verify that all in-kind contributions and donated services are allowable, documented, and properly valued as specified in the program guidance and regulations.	44 CFR 13.24(b) (c) (d) and (f)
Comments: Financial matching under the CTP Program is voluntary.		
6.*	*Program Income*. Verify that all program income is directly generated by a grant supported activity.	44 CFR 13.25(b)
Comments: The GMS verified that SCDNR does not earn program income on the CTP grants reviewed.		
7.*	*Use of Program Income*. Verify that program income is used in accordance with the award terms and conditions. (Note: If the use of program income is not specifically addressed in the award, then the default is to deduct program income from total program costs.)	44 CFR 13.25(b)
Comments: The GMS verified that SCDNR does not earn program income on the CTP grants reviewed.		
8.*	*A-133 Audits.* Verify that grantee is obtaining audits as required by applicable laws, OMB Circulars, and the program guidance. Also, verify that the grantee is monitoring its sub-grantees to ensure they are receiving A-133 audits as appropriate.	44 CFR 13.26 OMB Circular A-133
Comments: After reviewing prior audit reports, the GMS verified that SCDNR is obtaining audits as required by applicable laws, OMB Circulars, and the program guidance.		
9.	*Debarred or Suspended Awards.* Verify that the grantee does not make any award (subgrant or contract) to any party which is debarred, suspended, or otherwise ineligible from participating in Federal assistance programs.	44 CFR 13.35
Comments: SCDNR maintains a Federal Compliance checklist to ensure compliance with the 44 CFR13.35.		

Post Award: Property, Equipment, and Procurement		
#	**Guidance**	**Source**
	Real Property	
1.*	*Use of Real Property*. Verify that any real property purchased with Federal funds is being used for its originally authorized purpose.	44 CFR 13.31(b)
Comments: There is no real property purchased with the CTP funds reviewed.		
2.	*Procedures for Disposition of Real Property.* Verify that grantee maintains procedure for disposition of real property and the proper reimbursement of funds to FEMA when necessary.	44 CFR 13.31(c)
Comments: The GMS verified that SCDNR maintain procedures for disposition of real property.		
	Equipment	
For States:		
3.	*Management.* Verify that the State uses, manages, and disposes of equipment acquired under a grant by the State in accordance with State laws and procedures.	44 CFR 13.32(b)
Comments: The GMS verified that the State uses, manages, and disposes of equipment acquired under a grant by the State in accordance with State laws and procedures.		
For Local and Other Governmental Grantees:		
4.	*Management Procedures.* Ensure that the grantee has procedures in place to manage equipment and verify that they meet the requirements below: • Verify that grantee maintains all necessary property records which include a description of the property, as serial number, acquisition date, etc. • Verify that grantee has taken a physical inventory once every two years and that the results have been reconciled with property records. • Verify that grantee maintains a control system to ensure adequate safeguards to prevent against loss, damage, or theft. • Verify that the grantee has developed adequate maintenance to keep the property in good condition.	44 CFR 13.32(d)
Comments: The GMS verified that SCDNR has procedures in place to manage equipment in accordance with State laws and regulations.		
	Procurement	
For States:		
5.	*Management Procedures.* Verify that the State procures property and services under the grant, following the same policies and procedures it uses for procurements from its non-Federal funds. Verify that the State ensures that every purchase order or other contract includes any clauses required by Federal statutes and executive orders and their implementing regulations.	44 CFR 13.36(a)
Comments: The GMS verified that SCDNR maintains and adheres to the procurement policies that are applicable to Federal, State, and Local laws.		
For Local and Other Governmental Grantees:		
6.	*Procurement Policies.* Verify that grantee maintains procurement policies that reflect applicable Federal, state, and local laws.	44 CFR 13.36(b)(1)
Comments: The GMS verified that the grantee maintains procurement policies that reflect Federal, state, and local laws.		
7.	*Code of Conduct*. Verify that grantee maintains a written code of standards of conduct governing the performance of their employees engaged in the award and the administration of contracts.	44 CFR 13.36(b)(3)

Comments: SCDNR maintains a written code of standards of conduct governing the performance of their employees engaged in the award and the administration of contracts.		
8.	*Procurement Records.* Verify that grantee maintains procurement records sufficient to detail the significant history of procurement (e.g., rationale for the method of procurement, selection of contract type).	44 CFR 13.36(b)(9)
Comments: The GMS verified through review of SCDNR's files that procurement records contained sufficient documentation for the rationale that was used to select a contract.		
9.	*Protest Procedures.* Verify that the grantee has protest procedures to handle and resolve disputes relating to their procurements and shall in all instances disclose information regarding the protest to the awarding agency.	44 CFR 13.36(b)(12)
Comments: The GMS verified that SCDNR maintains and adheres to the procurement policies that are applicable to Federal, State, and Local laws.		
10.	*Full and Open Competition.* Verify that all procurement transactions were conducted in a manner providing full and open competition consistent with all Federal standards.	44 CFR 13.36(c)
Comments: The GMS verified that SCDNR's procurement transactions were in compliance with Federal requirements and provided full and open competition consistent with all Federal standards.		
11.	*Contract provisions.* Verify that the grantee's contracts contain all applicable provisions. Federal agencies are permitted to require changes, remedies, changed conditions, access and records retention, suspension of work, and other clauses approved by the Office of Federal Procurement Policy.	44 CFR 13.36(i)
Comments: The GMS verified through review of SCDNR's contract agreements that they contain the necessary provisions as required by the Federal Procurement Policy.		

Monitoring and Records

#	Guidance	Source
1.	*Monitoring by grantees.* Verify that the grantee has procedures and processes in place to monitor grant and sub-grant supported activities to assure compliance with applicable Federal requirements and that performance goals are being achieved (e.g., a sub-recipient monitoring plan).	44 CFR 13.40(a) 44 CFR 13.26 OMB Circular A-133
Comments: SCDNR did not sub-grant the CTP grants reviewed.		
2.	*Records Retention.* Verify that grantee has policies, procedures, or schedules in place to maintain all records required by 44 CFR 13.42 for the specified time period.	44 CFR 13.42
Comments: The GMS verified that there are policies and procedures in place to maintain all records. All records are scanned to SCDNR's accounting system, which allows visibility of all receipts, payroll, and task orders associated with contract charged to the CTP grants reviewed.		

Additional Review Items

#	Guidance	Source
	Salaries, Wages and Fringe Benefits	
1.*	*Documentation Supporting Salaries and Wages.* Verify that the grantee maintains appropriate source documentation for salaries and wages.	2 CFR 225 App B. 8(h)
Comments: The GMS can confirm that SCDNR provided acceptable source documentation to substantiate those expenditures.		
	Travel	
For States:		
2.	*Written Travel Policy.* Verify that the grantee has a written travel policy in place. In the absence of an acceptable, written governmental unit policy regarding travel costs, the grantee must comply with the lodging and subsistence limits outlined by Chapter 57 of Title 5, or GSA per diem amounts.	2 CFR 225 App B. 43

Comments: The GMS verified that the grantee has more than adequate written travel policies in place as required.		
Closeout		
3.	*Closeout.* Verify that the grantee has submitted or plans to submit all financial, performance, and other required reports to FEMA within 90 days of expiration or termination of date.	44 CFR 13.50
Comments: The GMS has verified that SCDNR plans to submit all financial, performance, and other required reports to FEMA within 90 days of expiration or termination of date.		
American Resource and Recovery Act Review (applicable only to ARRA awards)		
4.	*Reporting.* Verify that the grantee has fully satisfied all quarterly reporting requirements on time.	ARRA Section 1512
Comments: The grants reviewed are not ARRA awards.		
5.	*Purchasing.* Verify that all grantee purchases satisfied the required use of American Iron, Steel, and Manufactured Goods?	ARRA Section 1605
Comments: The grants reviewed are not ARRA awards.		
6.	*Wage Rates.* Verify that grantee has satisfied Wage Rate requirements.	ARRA Section 1606
Comments: The grants reviewed are not ARRA awards.		
Federal Funding Accountability and Transparency Act (FFATA)		
7.	*Prime Executive Compensation Reporting.* Review the expiration date of the grantee's Central Contractor Registration (CCR) to verify active registration. Also, cross reference the grantee's DUNS# with the grant application, these numbers must be the same.	FFATA or Transparency Act - P.L.109-282, as amended by section 6202(a) of P.L. 110-252
Comments: The GMS verified that SCDNR's Central Contractor Registration is active and the DUNS # is consistent as stated on the grant application. The expiration date for SAM registration for SCDNR is 02/02/2016.		
8.	*Prime Executive Compensation Reporting.* If the grantee is required to report executive compensation, verify that reporting was conducted by the end of the month, following the month the award or obligation was made.	FFATA or Transparency Act - P.L.109-282, as amended by section 6202(a) of P.L. 110-252
Comments: The CTP grants reviewed did not have any sub-awards. Also, SCDNR procures engineering services with the CTP grants reviewed to several vendors for risk mapping.		
9.	*Sub-Award Reporting.* Verify that the grantee has reported all required actions in the FFATA Sub-award Reporting System (FSRS) within the required timeframe for sub-awards. The prime grantee must report all sub-awards over $25,000 by the end of the month, following the month the sub-award or obligation was made.	FFATA or Transparency Act - P.L.109-282, as amended by section 6202(a) of P.L. 110-252
Comments: The CTP grants reviewed did not have any sub-awards.		
10.	*Sub-Award Reporting.* Verify that the grantee has reported all required actions in the FFATA Sub-award Reporting System (FSRS) within the required timeframe for sub-awards. If the prime grantee is required to report the Executive Compensation for a	FFATA or Transparency Act - P.L.109-282, as amended by

	sub-award, they must do so by the end of the month following the month the award or obligation was made.	section 6202(a) of P.L. 110-252
Comments: The CTP grants reviewed did not have any sub-awards.		

Section III: Expenditure Review

Instructions: Expenditures may be reviewed in one of two methods: 1) selection of individual expenditures from the detailed General Ledger, or; 2) selection of individual draw requests from the appropriate payment system. The selection of individual expenditures allows reviewers the opportunity to target specific kinds of problematic costs (e.g., food and beverages, specific equipment purchases). The selection of draws requests allows the reviewers to obtain a more random selection that potentially includes multiple types of costs (salaries, fringe, travel, etc.) In either case, the reviewers should request all documentation supporting the individual expenditures or draw requests from the grantee.

Only questioned costs not resolved during the review should be recorded in the chart below. These costs should be sent back to the grantee requesting additional information and justification in the financial monitoring results letter.

Grantee Questioned Costs				
	Cost Description	**Amount**	**General Ledger Identification (Document/warrant number, etc.)**	**Reason Questioned**
1.	None

Re: Audit of credit card purchases during the month of July 2012

DNR has established a procurement card program to provide its employees with a quick and convenient method of acquiring low-dollar supplies and equipment. In addition, the program streamlines operations and eliminates administrative costs. A vital component of the program is the policies and procedures provided by DNR in the Cardholder's Manual and the agency's Procurement Manual.

The objective of this audit was to determine whether DNR procurement card holders were in compliance with all applicable policies and procedures. The audit was conducted in accordance with generally accepted governmental auditing standards and included tests of accounting records and other such auditing procedures as considered necessary. The audit period included purchases during July 2012.

Approximately 1,362 transactions were received from Bank of America with a total dollar value of $259,437.38. A sample of 47 cardholder statements, comprising of 334 transactions and representing 25% of the total purchases, was selected for review. The total dollar value of the sample was $113,621.37, which is approximately 44% of the overall dollar amount.

All purchases reviewed were made in accordance with all respective policies and procedures. If you have any questions or need additional information, please do not hesitate to contact me.

Re: Audit of credit card purchases during the month of August 2012

DNR has established a procurement card program to provide its employees with a quick and convenient method of acquiring low-dollar supplies and equipment. In addition, the program streamlines operations and eliminates administrative costs. A vital component of the program is the policies and procedures provided by DNR in the Cardholder's Manual and the agency's Procurement Manual.

The objective of this audit was to determine whether DNR procurement card holders were in compliance with all applicable policies and procedures. The audit was conducted in accordance with generally accepted governmental auditing standards and included tests of accounting records and other such auditing procedures as considered necessary. The audit period included purchases during August 2012.

Approximately 1,603 transactions were received from Bank of America with a total dollar value of $342,291.32. A sample of 59 cardholder statements, comprising of 526 transactions and representing 33% of the total purchases, was selected for review. The total dollar value of the sample was $187,234.45, which is approximately 55% of the overall dollar amount.

All purchases reviewed were made in accordance with all respective policies and procedures except for two AED defibrillators that were purchased by Kenneth Parsons and Wendell Tucker in the WFWF Division. Each defibrillator cost more than $1,000 and will need to be included in the agency's fixed asset system. Therefore, they should have been purchased using a Purchase Order, not on a credit card.

I spoke with their supervisor, Greg Lynch, about the purchases and he is working with the agency's Fixed Asset Manager, Wynee' Lybrand, to get the items tagged and added to the inventory system.

If you have any questions or need additional information, please do not hesitate to contact me.

Re: Audit of credit card purchases during the month of January 2013

DNR has established a procurement card program to provide its employees with a quick and convenient method of acquiring low-dollar supplies and equipment. In addition, the program streamlines operations and eliminates administrative costs. A vital component of the program is the policies and procedures provided by DNR in the Cardholder's Manual and the agency's Procurement Manual.

The objective of this audit was to determine whether DNR procurement card holders were in compliance with all applicable policies and procedures. The audit was conducted in accordance with generally accepted governmental auditing standards and included tests of accounting records and other such auditing procedures as considered necessary. The audit period included purchases during January 2013.

Approximately 1,208 transactions were received from Bank of America with a total dollar value of $245,208.23. A sample of 40 cardholder statements, comprising of 281 transactions and representing 23% of the total purchases, was selected for review. The total dollar value of the sample was $115,230.03, which is approximately 47% of the overall dollar amount.

All purchases reviewed were made in accordance with all respective policies and procedures. Therefore, no additional work was deemed necessary at this time.

If you have any questions or need additional information, please do not hesitate to contact me.

Re: Audit of credit card purchases during the month of February 2013

DNR has established a procurement card program to provide its employees with a quick and convenient method of acquiring low-dollar supplies and equipment. In addition, the program streamlines operations and eliminates administrative costs. A vital component of the program is the policies and procedures provided by DNR in the Cardholder's Manual and the agency's Procurement Manual.

The objective of this audit was to determine whether DNR procurement card holders were in compliance with all applicable policies and procedures. The audit was conducted in accordance with generally accepted governmental auditing standards and included tests of accounting records and other such auditing procedures as considered necessary. The audit period included purchases during February 2013.

Approximately 1,652 transactions were received from Bank of America with a total dollar value of $342,400.82. A sample of 59 cardholder statements, comprising of 418 transactions and representing 25% of the total purchases, was selected for review. The total dollar value of the sample was $164,440.51, which is approximately 48% of the overall dollar amount.

All purchases reviewed were made in accordance with all respective policies and procedures except for a utility trailer that was purchased by Gary Stephens in the WFWF Division on 2/5/2013 from Epting Turf & Tractor Inc. for $1,503.35. Since the trailer cost more than $1,000 it will need to be included in the agency's fixed asset system and should have been purchased using a Purchase Order, not on a credit card.

I spoke with Mr. Stephen's supervisor, Brett Moule, and he is working with the agency's Fixed Asset Manager, Wynee' Lybrand, to get the item tagged and added to the inventory system. In addition, he is working with the agency's Procurement Manager, Jessica Monts, to prepare the required Unauthorized Procurement paperwork.

Two other WFWF employees did not respond to the audit request and submit their documents. Kenneth Fleming and Dan Peeples, and their respective supervisors, Jeff Witt and Ted Rainwater, were notified initially on March 29th of the April 12th deadline. They were sent a reminder email on April 12th. These cardholders need to submit their documents immediately.

If you need additional information, please do not hesitate to contact me.

Re: Audit of credit card purchases during the month of March 2013

DNR has established a procurement card program to provide its employees with a quick and convenient method of acquiring low-dollar supplies and equipment. In addition, the program streamlines operations and eliminates administrative costs. A vital component of the program is the policies and procedures provided by DNR in the Cardholder's Manual and the agency's Procurement Manual.

The objective of this audit was to determine whether DNR procurement card holders were in compliance with all applicable policies and procedures. The audit was conducted in accordance with generally accepted governmental auditing standards and included tests of accounting records and other such auditing procedures as considered necessary. The audit period included purchases during March 2013.

Approximately 1,542 transactions were received from Bank of America with a total dollar value of $354,391.56. A sample of 68 cardholder statements, comprising of 457 transactions and representing 30% of the total purchases, was selected for review. The total dollar value of the sample was $190,604.97, which is approximately 54% of the overall dollar amount.

All purchases reviewed were made in accordance with all respective policies and procedures except for:

Two WFWF Division employees, Victor Blackwell and Terry Bryant, ordered buoys from Curd Multiplastics on what appears to be the same invoice, which totaled $2,904.76, and split the purchase by charging half ($1,452.38) on each ones credit card. I spoke with their supervisor, Dan Rankin, via email and he is working with the agency's Procurement Manager, Jessica Monts, to prepare the required Unauthorized Procurement paperwork.

Lynwood Kearse, LE Division, purchased a gun safe from Nichols Store for $1,821.14. I spoke with his supervisor, Kim Leverich, via email and she is working with the agency's Fixed Asset Manager, Wynee' Lybrand, to get the item tagged and added to the inventory system. In addition, she is working with the agency's Procurement Manager, Jessica Monts, to prepare the required Unauthorized Procurement paperwork.

Adam Rex, WFWF Division, purchased a welder from Airgas South for $1,100.28. I spoke with his supervisor, Brett Moule, and he is working with the agency's Fixed Asset Manager, Wynee' Lybrand, to get the item tagged and added to the inventory system. In addition, he is working with the agency's Procurement Manager, Jessica Monts, to prepare the required Unauthorized Procurement paperwork.

Gary Stephens, WFWF Division, purchased a scrape blade from Epting Turf & Tractor for $1,411.79. I spoke with his supervisor, Brett Moule, and he is working with the agency's Fixed Asset Manager, Wynee' Lybrand, to get the item tagged and added to the inventory system. In addition, he is working with the agency's Procurement Manager, Jessica Monts, to prepare the required Unauthorized Procurement paperwork.

Mark Spinks, WFWF Division, purchased a net box from Southern Machine and Tool for $1,272.00. I spoke with his supervisor, Felicia Sanders, and she is working with the agency's Fixed Asset Manager, Wynee' Lybrand, to get the item tagged and added to the inventory system. In addition, she is working with the agency's Procurement Manager, Jessica Monts, to prepare the required Unauthorized Procurement paperwork.

One Marine Division employee, Robert Rourk, did not respond to the audit request. Mr. Rourk and his supervisor, Chris Brown, were notified initially on April 12th and sent a reminder email on April 26th. These documents need to be submitted immediately.

If you need additional information, please do not hesitate to contact me.

MEMORANDUM

To: Emily Burnside

From: Angie Williams Cassella

Subject: June 30, 2012 Ending Inventory Balances

Date: July 26, 2012

I have completed the testing of inventory items located in the various areas of the agency for inclusion in the year-end closing package. Year-end quantities, unit prices and total prices were found to be accurately recorded in agency records. In addition, inventory appeared to be in good condition, properly described and adequately safeguarded.

Inventory values as of 6/30/12 were as follows:

Petroleum Storage:	Gas	$ 8,159.75	
	Diesel	$12,341.66	
	Total	$ 20,501.41	(19% increase)
SC Wildlife Shop		$189,286.55	(6% increase)
Law Enforcement Supply Room		$148,971.15	(13% increase)
	Grand Total	**$358,759.11**	

This total represents approximately a 10% increase from last year's total of $327,030.78.

If you have any questions or require additional information, please don't hesitate to contact me.

INSPECTOR GENERAL
U.S. DEPARTMENT OF THE INTERIOR

JUN 0 3 2016

Memorandum

To: Daniel M. Ashe
Director, U.S. Fish and Wildlife Service

From: Charles Haman
Director, Grant Audits

Subject: Final Audit Report – U.S. Fish and Wildlife Service Wildlife and Sport Fish Restoration Program Grants Awarded to the State of South Carolina, Department of Natural Resources From July 1, 2013, Through June 30, 2015
Report No. 2016-EXT-004

This report presents the results of our audit of costs claimed by the State of South Carolina, Department of Natural Resources (Department), under grants awarded by the U.S. Fish and Wildlife Service (FWS). FWS provided the grants to the State under the Wildlife and Sport Fish Restoration Program. The audit included claims totaling $39.7 million on 62 grants that were open during the State fiscal years that ended June 30, 2014, and June 30, 2015 (see Appendix 1). The audit also covered the Department's compliance with applicable laws, regulations, and FWS guidelines, including those related to the collection and use of hunting and fishing license revenues and the reporting of program income.

We found that the Department complied, in general, with applicable grant accounting and regulatory requirements. We did not identify any reportable conditions. We therefore do not require a response to this audit report.

The legislation creating the Office of Inspector General requires that we report to Congress semiannually on all audit reports issued, actions taken to implement our recommendations, and recommendations that have not been implemented.

If you have any questions regarding this report, please contact Tim Horsma, Program Audit Coordinator, at 916-978-5668; or me at 303-236-9243.

cc: Regional Director, Region 4, U.S. Fish and Wildlife Service

Introduction

Background

The Pittman-Robertson Wildlife Restoration Act and the Dingell-Johnson Sport Fish Restoration Act (Acts)[1] established the Wildlife and Sport Fish Restoration Program (Program). Under the Program, the U.S. Fish and Wildlife Service (FWS) provides grants to States to restore, conserve, manage, and enhance their sport fish and wildlife resources. The Acts and Federal regulations contain provisions and principles on eligible costs and allow FWS to reimburse States up to 75 percent of the eligible costs incurred under the grants. The Acts also require that hunting and fishing license revenues be used only for the administration of the States' fish and game agencies. Finally, Federal regulations and FWS guidance require States to account for any income they earn using grant funds.

Objectives

We conducted this audit to determine if the State of South Carolina, Department of Natural Resources (Department)—

- claimed the costs incurred under the Program grants in accordance with the Acts and related regulations, FWS guidelines, and grant agreements;
- used State hunting and fishing license revenues solely for fish and wildlife program activities; and
- reported and used Program income in accordance with Federal regulations.

Scope

Audit work included claims totaling approximately $39.7 million on the 62 grants open during the State fiscal years (SFYs) that ended June 30, 2014, and June 30, 2015 (see Appendix 1). We report only on those conditions that existed during this audit period. We performed our audit primarily at the Department's headquarters, and visited several Program-supported facilities throughout South Carolina (see Appendix 2). We performed this audit to supplement—not replace—the audits required by the Single Audit Act Amendments of 1996 and by Office of Management and Budget Circular A-133.

Our audit plan initially included a test of the Department's license certification. Specifically, we would determine whether the Department had adequate processes in place to record, and certify to FWS, an accurate number of hunting and fishing license holders—information used by FWS to apportion Program funds each year. Although the Department provided the documentation we requested, we were unable to verify whether its methodology for including multi-year licenses in its certifications met the intent of Federal regulation (50 C.F.R. § 80.35). This is because we have no clear record of FWS approval, as required by the regulation.

[1] 16 U.S.C. §§ 669 and 777, as amended, respectively.

FWS officials have agreed that requirements in this area need to be clarified, and have indicated that a regulatory update may be forthcoming. We reviewed, therefore, license certifications only to ensure that individual license holders were not counted more than once; but we did not review how the Department treated multi-year licenses in its certifications.

Methodology

We conducted this audit in accordance with Generally Accepted Government Auditing Standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Our tests and procedures included—

- examining the evidence that supports selected expenditures charged to the grants by the Department;
- reviewing transactions related to purchases, direct costs, drawdowns of reimbursements, in-kind contributions, and program income;
- interviewing Department employees to ensure that personnel costs charged to the grants were supportable;
- conducting site visits to inspect equipment and other property;
- determining whether the Department used hunting and fishing license revenues solely for the administration of fish and wildlife program activities; and
- determining whether the State passed required legislation assenting to the provisions of the Acts.

We also identified the internal controls over transactions recorded in the labor- and license-fee accounting systems and tested their operation and reliability. Based on the results of initial assessments, we assigned a level of risk to these systems and selected a judgmental sample of transactions for testing. We did not project the results of the tests to the total population of recorded transactions or evaluate the economy, efficiency, or effectiveness of the Department's operations.

We relied on computer-generated data for other direct costs and personnel costs to the extent that we used these data to select Program costs for testing. Based on our test results, we either accepted the data or performed additional testing. For other direct costs, we took samples of costs and verified them against source documents such as purchase orders, invoices, receiving reports, and payment documentation. For personnel costs, we selected Department employees who charged time to Program grants and verified their hours against timesheets and other supporting data.

Prior Audit Coverage

On March 22, 2007, we issued "Audit Report on the U.S. Fish and Wildlife Service Federal Assistance Program Grants Awarded to the State of South Carolina, Department of Natural Resources, from July 1, 2003 Through September 30, 2005" (No. R-GR-FWS-0012-2005). On June 28, 2011, we issued "Audit on U.S. Fish and Wildlife Service Wildlife and Sport Fish Restoration Program Grants Awarded to the State of South Carolina, Department of Natural Resources, From July 1, 2008, Through June 30, 2010 (No. R-GR-FWS-0005-2011). During this audit, we followed up on all recommendations in both reports and found that the U.S. Department of the Interior, Office of the Assistant Secretary for Policy, Management and Budget considered the recommendations resolved and implemented.

We reviewed the single audit report for SFY 2014, which did not contain any findings that would directly affect the Program grants.

Results of Audit

Audit Summary

We found that the Department complied, in general, with applicable grant agreement provisions and requirements of the Acts, regulations, and FWS guidance. This report contains no reportable findings or recommendations, and we require no further action.

Report Fraud, Waste, and Mismanagement

Fraud, waste, and mismanagement in Government concern everyone: Office of Inspector General staff, departmental employees, and the general public. We actively solicit allegations of any inefficient and wasteful practices, fraud, and mismanagement related to departmental or Insular Area programs and operations. You can report allegations to us in several ways.
