PAGE 2: About Agencies Scheduled for Study

Q1: Please share any comments, suggestions or concerns you may have about these agencies. Please note your responses will be posted online and may be included in a Committee report.

Natural Resources, Department of

Horribly run agency where the Director focuses almost entirely on law enforcement without regard or support for the various scientific components of the agency. The only employees who have any real input on the agency is the law enforcement officers and managers. The Director allows the HR Director to openly discriminate against employees who she does not like especially those who call her out on inconsistencies, discriminatory behavior. The administrative services and IT components of the agency are underfunded, under appreciated and continually limited by executive decisions that do not involve LE. This agency should be moved to Public Safety and the ecological and habitat management elements either remain as a true Natural Resources Department or make them part of DHEC.
