Page 2: About Agencies Scheduled for Study

Q1

Please share any comments, suggestions or concerns you may have about these agencies. Please note your responses will be posted online and may be included in a Committee report.

Natural Resources, Department of

I would like to take a moment and make a few observations on the Department of Natural Resource. This is and old and storied Agency with a proud history going back over 100 years. I believe in that time the Agency has made great strides, from killing as many of a species as you wanted, to now managing all game and most nongame species for the public to enjoy and use for generations to come. I could give a long history on the Agency but the present is where we are and need to address. Over the past five years the Agency has grown and prospered under our current leadership. Not only in the way all personnel are treated and compensated but in the way, it has managed its lands and fisheries, growing both as to give the public the opportunity to see and touch the natural beauty of this great state. When you have a leader that not only has a background in wildlife biology but law enforcement also, a first by the way! The Agency can see the whole picture and make the resource much stronger. I feel a look at the positive is needed as cowards and curs will hide behind an anonymous veil and cast rocks. Please know that the Department of Natural Resource is a great place to work and is moving in an ever-positive manner to the future.

Page 3: There are three questions seeking general information.

Q2

55-64 years old

What is your age?

Q3

State employee

Which best describes your current role?

Q4

Lexington

In which county do you live?
