

South Carolina Department of Transportation

Annual Report

2015

Janet P. Oakley, Secretary of Transportation

SCDOT— 955 Park Street, Columbia, SC 29202

T: 803-737-1302 E: oakleyjp@scdot.org

Executive Summary

The South Carolina Department of Transportation (SCDOT) is responsible for operating and maintaining over 41,000 miles (90,000 lane miles) of roads and over 8,400 bridges, ranking SC as the *fourth largest state-owned highway system in the nation* according to the Federal Highway Administration (FHWA).

SCDOT's statutory mission (Section 57-1-30, SC Code of Laws) states that, "SCDOT shall have as its functions and purposes the systematic planning, construction, maintenance, and operation of the state highway system and the development of a statewide intermodal and freight system ... the goal of the Department is to provide adequate, safe, and efficient transportation services for the movement of people and goods."

Following confirmation of the Secretary of SCDOT, Janet P. Oakley, on May 22, 2014, a Strategic Direction was established which identified new strategies, objectives, and performance measures. The complex process of defining performance measures, assembling baseline data, evaluating the potential effectiveness of various strategies, establishing targets and determining associated resource requirements is under development. However, it remains essential to link programs and expenditures to performance, and therefore, we have taken the initial step by using simple directional measures which will evolve into specific targets with a fully developed process.

| Section IV- Firms, Companies, & Businesses with Contracts | 5 |

Section I: Agency Accomplishments

The 2014 year was one of major accomplishments with highlights, results and achievements. Many of the major accomplishments for SCDOT are presented below.

- **Significant Progress on Act 98 Projects** –Act 98 designated \$50 million for a two-year program to replace 70-90 structures on the list of load-restricted and closed bridges, provided \$40 million in recurring revenue for resurfacing state secondary roads not eligible for federal aid and \$50 million per year to support a \$550 million bonding program for modernizing Interstate highways in SC. Projects funded directly by, or benefitting from Act 98 have surpassed target goals in some areas. The announcement of how these funding resources have been put to work in the three major funding categories was made in a report to the SCDOT Commission on December 4, 2014.
 - Road Resurfacing - 17 of the first 20 projects were originally scheduled for completion in 2014. These projects included 211 road segments totaling 131 center-line miles that are complete and open to traffic. The remaining 3 projects are on schedule to be complete in the spring of 2015 as originally programmed. The 2014 ACT 98 resurfacing program totaled \$36.3 Million.
 - Bridge Replacements – SCDOT received \$50 million in one-time funding for this category to replace closed and load restricted bridges over a two-to-three year period. To date, SCDOT has received bids on 28 bridges totaling \$19 Million. In summer 2014, the first **Act 98** bridge project was completed in Blacksburg on Jumping Branch Road Bridge.
 - Interstate Improvements - The I-85/I-385 Interchange project in Greenville County is the largest Act 98 project. A \$231 million contract was awarded in fall 2014 and is the second largest project in the history of South Carolina. Act 98 is providing \$80 million in the funding package. A Notice to Proceed was issued on October 30, 2014 for the 410-day design phase of the project. The goal is to reconfigure the interchange to improve safety and efficiency for the nearly 200,000 vehicles that use it on a daily basis.
- **Emergency Responses** - Thousands of SCDOT employees provided a variety of services to the people of South Carolina during the two winter storms of 2014. The winter storms resulted in extraordinary amounts of roadside debris, where 21 counties were declared by the Federal Emergency Management Agency to be eligible for federal financial assistance for debris removal. By July 2014, the work to remove and dispose of the debris left in the aftermath of the two storms was completed.
- **SCDOT Customer Service Center** (CSC) received its 30,000th call on February 14, 2014, just 19 months after opening in 2012. The CSC allows the public to have better access to the agency's services for asking questions and reporting problems. In 2014 the Center received 1,383 calls during the week of the January storm and 1,208 calls during the week of the February storm. During a "normal" time period in FY 2014, the CSC averaged 425 calls per week and 1,845 per month.

- **Completion of Significant Projects** - During the past year, SCDOT completed **hundreds** of projects statewide. Significant projects include the following:
 - I-20 in Richland County was widened along a six-mile section from four lanes to six lanes in June 2014. The project was extended an additional 1.5 miles to remove and replace rapidly-deteriorating asphalt.
 - I-26 project in Lexington and Calhoun Counties began in early 2014, and will widen I-26 from four lanes to six lanes and rehabilitate an additional 10 miles to SC 6. The project is scheduled for completion in July 2015.
 - US 601 Bridge Replacement Project on the Richland-Calhoun County border was completed. The previous bridges structures were built in the 1940's and were classified as structurally deficient and functionally obsolete. US 601 remained open during construction allowing the replacement structure to be built adjacent to the existing bridge to avoid an impractical detour.
 - I-77 Bridge Deck Emergency Repair was completed in less than 48 hours in York County on December 12, 2014, after a lane closure of the southbound bridge deck. The job included 13 hours of demolishing the deteriorated portion of deck; 10 hours of sand blasting and other preparation work; 1 hour to pour concrete and 12 hours of cure time.
- **2040 Statewide Multimodal Transportation Plan (SMTP)** – was given approval by the SCDOT Commission on August 21, 2014. The SMTP is a 25 year plan that includes long-range plans for interstates, strategic corridors, transit, rail, freight, and safety across South Carolina.
- **Strategic Direction** – was unveiled by Secretary Oakley on November 4, 2014. The Strategic Direction was developed as a roadmap to chart a course for performance-based strategic management. The roadmap outlines the agency's goals, values, emphasis areas, strategies and performance metrics. The performance-based strategic roadmap will enable SCDOT to work with and engage employees and public and private partners in fulfilling the vision of delivering a world-class 21st century transportation system.
- **Safety Initiatives** - South Carolina's highway fatalities continue to decline. An Interagency Safety Council was established to elevate safety awareness and promote the state's "Target Zero" goal. In addition, SCDOT has begun converting select intersections into roundabouts to improve safety. In 2014 eleven roundabouts were constructed as safety improvement projects across the State.
- **511 Traveler Information Systems** were updated to provide online streaming video of traffic in the fall of 2014. This information is used by the motoring public, as well as first responders. It can be accessed at www.511sc.org.
- **Safe Routes to School Program Wins Award** - SCDOT's Safe Routes to School (SRTS) program won an award from the American Council of Engineering Companies. SCDOT is only one of three states (the others being Georgia and Massachusetts) to establish Resource Centers to assist school districts in the planning, development and implementation of SRTS projects and activities.

Section II: 10-Year Plan Detailing Future Needs of the State

SCDOT recognizes that preservation and modernization of our transportation system are essential to the economic health of our State. The infrastructure challenges for the state are addressed through the management of the Statewide Transportation Improvement Program (STIP) and the Statewide Multimodal Transportation Plan (SMTP). While there is not a ten-year plan, SCDOT oversees a six-year, short term plan and a twenty-five year, long term plan that details the needs statewide. These plans are explained below:

- The STIP is the states' six-year transportation improvement program for all projects or program areas receiving federal funding. The document is updated every three years and is revised on a continual basis to reflect the latest program and project information. The SCDOT Commission, as well as the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) approve the STIP. The STIP is located on the SCDOT website at: http://www.scdot.org/inside/pdfs/STIP/stip_statewide.pdf.
- The 2040 SMTP is the states' twenty-five year Statewide Multimodal Transportation Plan, which focuses on maximizing South Carolina's limited funding resources, maintaining the state's position in the global marketplace, and efficiently moving both people and goods. This plan was developed in conjunction with SCDOT management, staff, and transportation partners and stakeholders. The 2040 MTP was finalized in November 2014 and is located at: http://www.scdot.org/multimodal/pdf/sc_mtp_strategic_corridors_plan_final.pdf.

Section III: 5-Year Traffic Regulation Plan

In response to ACT 181 of 1993, also referred to as the 1993 Restructuring Act, the SC Highway Department was separated into the Department of Public Safety, the Department of Motor Vehicles, and the Department of Transportation. Pursuant to Section 1507 of ACT 181, the duties and powers relating to highways do not contain the traffic regulation (including administration and enforcement of traffic, driver, and motor vehicle laws) and are therefore, not the responsibility of SCDOT.

Section IV: Firms, Companies & Businesses with Contracts

The following is an alphabetized list of all businesses, companies, or firms that did business with the South Carolina Department of Transportation, as well as the amount of such contracts, for FY 2014.

DEPARTMENT OF TRANSPORTATION (U120)

| Vendor Number | Vendor | Vendor Sum |
