History

In 1710, the first free public school in SC was established. By 1811, a new law was passed to establish free schools throughout the state, which aspired to place at least one public school in each of the state's 44 election districts. The SC Constitution of 1868 provided the first guarantee of a free public school system, describing a modern system to be funded by state and local taxes, open to citizens of all races. This system became the foundation of the public school system used today.
