Finding and Recommendations

Finding

The Subcommittee has **one finding** arising from its study of the agency. The Subcommittee finds lack of clarity pertaining to maintenance responsibility for signage or landscaping near an interstate allows for situations that may negatively impact the Department of Parks, Recreation, and Tourism's efforts to promote South Carolina to those who travel through it.⁵ When a local government is granted an easement to construct signage or landscaping near an interstate (e.g., welcome to the state or county), there is usually no condition that the local entity maintain the appearance of the signage or landscaping or that it be removed if it falls into disrepair.⁶

Recommendations

The Subcommittee has **18 recommendations** arising from its study of the agency. These recommendations fall into four categories: (1) transparency; (2) employee input; (3) effectiveness; and (4) modernization of statutes.

Agency Organization

Governing Body

In the Program Evaluation Report, the Committee asks the agency to provide information about the agency’s governing body. The agency provided the information below.²⁹

SCPRT is governed by an **agency director who is appointed by the Governor**.³⁰ There are no service limits for an agency director. The agency director may be removed in the Governor’s discretion by an executive order.³¹

Internal Audit Process

In the Program Evaluation Report, the Committee asks the agency to provide information about its internal audit process, if it has one. The agency provided the information below.³²

SCPRT does not have internal auditors. The internal auditor positions were eliminated during the budget reductions and subsequent reduction-in-force during fiscal year 2008-2009. In addition, the agency has determined that these positions are no longer warranted due to the implementation of the point of sale system and central reservation system, which greatly reduced or eliminated untraceable transactions. The agency does maintain **internal control review processes** for inventory control and money management. These internal control review processes are conducted by state parks staff with oversight from SCPRT’s finance office.

Organizational Units

The agency’s Program Evaluation Report includes information about its organizational units.³³ Every agency has some type of organization and hierarchy. Within the organization are separate units. An

agency may refer to these units as departments, divisions, functional areas, cost centers, etc. Each unit is responsible for contributing to the agency’s ability to provide services and products.

To ensure agency employees understand how their work contributes to the agency’s overall ability to provide effective services and products in an efficient manner, each organizational unit has at least one (and in most cases multiple) objectives, strategies, or goals for which it is solely responsible.

SCPRT is comprised of nine organizational units: (1) Executive Office; (2) Administrative Services; (3) Office of Recreation, Grants, and Policy; (4) Tourism Sales and Marketing; (5) Welcome Centers - Facilities Maintenance; (6) State Park Service; (7) Communications; (8) Research; and (9) Film Commission.

*Table Note: (1) In some of the performance measures associated with the deliverables, an "n/a" may appear for target values. The agency states in the PER that the target values are listed as "n/a" for all input/activity measures because these represent value-added results that benefit the agency's operations, but do not determine or indicate the agency's failure or success in meeting a goal. Target values are also listed as "n/a" for all output measures, since the number of grants awarded each is based on the number of applicants and the amount of funding available. Target values are also listed as "n/a" if external factors beyond the agency's control significantly influence the outcome of the performance measure. For example, film-related performance measure outcomes depend greatly on a number of external factors including the type of projects recruited, the financial scope of the projects, time of year, and location of the project. The agency states it cannot reasonably predict these outcomes for future fiscal years as these factors are resultant of the needs of the motion picture production companies. Similarly, target values are not set for measures such as admissions and accommodations tax collections. According to the agency, while these collections may be indicative of tourism business trends, they are also influenced by other extenuating factors, such as late tax payments or lump sum payments. (2) The agency indicates state parks operational performance measures were negatively impacted by significant natural disasters that resulted in temporary park closures in FY 15, 16 and 17. (3) The agency indicates welcome center advertising opportunities were limited in FY 16 and 17 due to construction activities at the Hardeeville and Fort Mill Welcome Centers. (4) Leisure Website Advertising Opportunities were not offered during FY15 due to redesign of the website. (5) Due to Federal funding limitations, LWCF was placed on a two-year grant cycle. (6) The Undiscovered SC Grant Program began in FY15. The Sports Tourism Advertising and Recruitment Grant Program began in FY16. The Beach Renourishment Grant Program began in FY17. The Tourism Oriented Directional Signage Program began in FY14.

Other Agencies Whose Mission SCPR T Services May Fit Within

During the study of an agency, the **Committee asks the agency if there are any other agencies whose mission the services may fit within.** Table 6 includes information from SCPR T regarding other agencies whose mission some of SCPR T’s services may also fit within, with deliverables grouped together.⁵¹

Agencies whose mission is to preserve state land and resources

The Parks, Recreation, and Tourism Department, through its state parks division, the Department of Natural Resources (DNR), and the Forestry Commission all **purchase, lease, or maintain state land**. During the study process, the agency explains the differences in these efforts across multiple state agencies. Below is the information provided by the agency.⁵²

The State Park Service acquires land primarily to provide access and opportunities for state park visitors to connect with the natural and cultural resources, while also ensuring the continuity of the state's natural and cultural resources for future generations. SCPRT's main focus is on the interaction between the visitors and the resources. Resource management activities in state parks, while necessary and important for the protection of indigenous species and historical assets, are principally to enhance visitor experiences through interpretation, education and recreation. Based on the agency's interactions with other land resource agencies, this is what it views as a key difference between it and other agencies' activities.

DNR's primary mission is to protect the state's natural resources, while the Forestry Commission's primary mission is to protect the state's forests through forest management. In SCPRT's view, these three agencies have clearly defined missions, goals, and activities that do not overlap but complement one another. SCPRT works regularly with both DNR and the Forestry Commission on property management issues such as invasive species control and forest understory management. SCPRT has developed working relationships and partnerships with these agencies to share expertise and optimize efficiencies for managing state parks property in a way that ensures the continuity of state parks' resources.

In regards to **beach renourishment**, the agency is the funding mechanism for the beach renourishment grant program and communicates with local governments.⁵³ The Department of Health and Environmental Control works with permitting.⁵⁴

The agency administers a federal **land and water conservation grant program**, and DNR has a land and water conservation division. According to the agency, the two entities do not work together. The land and water conservation fund for SCPRT is from the National Park Service and funds local outdoor recreation projects.⁵⁵

AGENCY RESOURCES

Employees

The Department of Administration’s Division of State Human Resources provides the numbers of authorized, actual, and filled full time employee (FTE) positions for the last five fiscal years.⁵⁶ Table 7 provides that information. The authorized total FTE positions are as of July 1 of the fiscal year, as stated in the Appropriations Act. The actual total FTE positions are the sum of filled FTE positions and vacant FTE positions, based on what the agency has entered in South Carolina Enterprise Information System (SCEIS) and is as of June 30. If actual is more than authorized, it may be because during the course of the year, the Executive Budget Office authorizes interim FTE positions. The agency typically requests authorization for these positions in the next budget. If actual is less than authorized, it is because the agency has not set up all of the authorized positions in SCEIS yet. Filled FTE positions are ones the agency has set up in SCEIS in which someone is actually working.

The agency indicates, in its Program Evaluation Report, that during fiscal year 2014-15 through fiscal year 2016-17, it did not obtain information from employees leaving the agency (e.g., exit interview, survey, evaluation, etc.).⁵⁷

Table Note: SCPRT noted the following in its Program Evaluation Report⁶⁴:

- SCPRT has two composite reservoir accounts to service the golf courses at Hickory Knob and Cheraw State Parks, which are not listed as revenue sources in this report. The accounts are for the purchase of beer and wine that is served at the snack bars at the courses. The accounts are reimbursed from State Park operating funds. Therefore, by listing separately the expenditures would be overstated. Details of this account are reported under the Bank Transparency Proviso 117.83 in the General Appropriations Act.
- SCPRT has a composite reservoir account for the Beautiful Places Alliance, a 501(c)3 organization under the direction of a Board of Directors. The details of this account are not reflected in any of the balances in the PER. The ending cash balance of this account is recorded in S.C. Enterprise Information System (SCEIS) at year end. However, deposits and expenditures are not, but they are reported via the Bank Transparency Proviso 117.83 in the General Appropriations Act.

Table 10 includes information provided by the agency regarding amounts it has carryforward during the past several years. Of the carryforward amounts, in 2016-17, the majority were from Undiscovered S.C. enhancement grants, beach renourishment grants, and capital project funding sources.

Spending by Strategic Plan

Annually, each agency submits a strategic plan.⁶⁶ Of interest in the oversight process are the total resources available to an agency and how the agency allocates human and financial resources to the goals and strategies in the agency's strategic plan.

STUDY PROCESS

Agency Selection

The Department of Parks, Recreation, and Tourism is an agency subject to legislative oversight.⁶⁸ On December 19, 2017, during the 122nd General Assembly, the Committee prioritizes the agency for study.⁶⁹

As the Committee encourages **collaboration in its legislative oversight process**, the Committee notifies the following individuals about the agency study: Speaker of the House, standing Committee chairs in the House, members of the House, Clerk of the Senate, and Governor.

Subcommittee Membership

The **Executive Subcommittee of the House Legislative Oversight Committee studies the agency.**⁷⁰ Throughout the study, the Honorable Gary E. Clary serves as chair. Other Subcommittee Members include:

- The Honorable Laurie Slade Funderburk;
- The Honorable Wm. Weston J. Newton; and
- The Honorable Robert Q. Williams.

Agency Reports to Legislative Oversight Committee

During the legislative oversight process, the **Committee asks the agency to conduct self-analysis** by requiring it to complete and submit annual Restructuring Reports, a Seven-Year Plan for cost savings and increased efficiencies, and a Program Evaluation Report. The Committee posts each report on the agency page of the Committee's website.

Restructuring Report

The Annual Restructuring Report fulfills the requirement in S.C. Code Ann. § 1-30-10(G)(1) that annually each agency report to the General Assembly "detailed and comprehensive recommendations for the purposes of merging or eliminating duplicative or unnecessary divisions, programs, or personnel within each department to provide a more efficient administration of government services." The report, at a minimum, includes information in the following areas - history, mission and vision, laws, strategic plan, human and financial resources, performance measures, and restructuring recommendations.

The agency submits its Annual Restructuring Reports on February 27, 2015, and January 12, 2016.⁷¹ The agency's Annual Accountability Reports to the Governor and General Assembly, which it submits in September 2016 and September 2017, serve as its Annual Restructure Report thereafter.⁷²

Seven-Year Plan for Cost Savings and Increased Efficiencies

S.C. Code Ann. § 1-30-10 requires agencies to submit “a seven year plan that provides initiatives and/or planned actions that implement cost savings and increased efficiencies of services and responsibilities within the projected seven-year period.”⁷³ The agency submits its plan on February 27, 2015.⁷⁴

Program Evaluation Report

When an agency is selected for study, the Committee may acquire evidence or information by any lawful means, including, but not limited to, "requiring the agency to prepare and submit to the investigating committee a program evaluation report by a date specified by the investigating committee." S.C. Code Ann. § 2-2-60 outlines what an investigating committee's request for a program evaluation report must contain. Also it provides a list of information an investigating committee may request. The Committee sends guidelines for the agency's Program Evaluation Report (PER) on January 23, 2018. The agency submits its report on March 9, 2018.

The PER includes information in the following areas - agency snapshot; agency legal directives, strategic plan and resources; agency performance; agency strategic plan summary; agency ideas and recommendations; and additional documents. The **Program Evaluation Report serves as the base document for the Subcommittee's study of the agency.**

Information from the Public

Public input is a cornerstone of the House Legislative Oversight Committee's process.⁷⁵ There are a variety of opportunities for public input during the legislative oversight process. Members of the public have an opportunity to participate anonymously in a public survey, provide comments anonymously via a link on the Committee's website, and appear in person before the Committee.⁷⁶ During the study, media articles related to the agency are compiled for member review.

Public Survey

From January 23, 2018 - March 1, 2018, the Committee posts an **online survey to solicit comments from the public about the SCCPC** and four other agencies. The Committee sends information about this survey to all House members to forward to their constituents. Additionally, in an effort to communicate this public input opportunity widely, the Committee issues a statewide media release.⁷⁷

There are 501 responses to the online survey seeking citizens' input about the SCETV Commission; Commission on Indigent Defense; Department of Labor, Licensing, and Regulation; Department of Parks, Recreation, and Tourism; Commission on Prosecution Coordination; and Department of Revenue. Responses are received from about 72% of the counties (33). Of the total responses, 124 indicate they would like to provide input on the Department of Parks, Recreation, and Tourism but only 116 actually provide input.

Of those survey participants that respond to questions related to the Department of Parks, Recreation, and Tourism, over 90% have a positive or very positive opinion of the agency and 65% think the agency

functions much better or better on an overall basis in comparison to other state agencies in South Carolina.⁷⁸ The majority of the comments relate to state parks.⁷⁹

The comments are not considered testimony.⁸⁰ As the survey notes, “input and observations from those citizens who [chose] to provide responses are very important . . . because they may help direct the Committee to potential areas for improvement with these agencies.”⁸¹ The Committee posts the survey results on the Committee’s website. The **public is informed it may continue to submit written comments about agencies online** after the public survey closes.⁸²

Public Input via Committee Website

Throughout the course of the study, people are able to submit comments anonymously on the Committee website. The Committee posts comments verbatim to the website, but they are not the comment or expression of the House Legislative Oversight Committee, any of its Subcommittees, or the House of Representatives.⁸³

During the study of the Department of Parks, Recreation, and Tourism, the Committee receives no public input about the agency via the Committee website.

Public Input via In-Person Testimony

During the study, the Committee offers the opportunity for the public to appear and provide sworn testimony.⁸⁴ A press release announcing this opportunity is sent to media outlets statewide on February 9, 2018.⁸⁵ The Committee holds a meeting dedicated to public input about the Department of Parks, Recreation, and Tourism and other agencies on March 1, 2018.⁸⁶ Further detail on the public input meeting is in the meetings section of this report.

Meetings Regarding the Agency

The Committee meets with, or about, the agency on two occasions, and the Subcommittee meets with, or about, the agency on five occasions. All meetings are open to the public and stream live online; also, the videos are archived and the minutes are available online. A timeline of meetings is set forth in Figure 4 beginning on page 9.

Study Process Completion

Pursuant to Committee Standard Practice 12.4, **Subcommittee members may provide a separate written statement for inclusion with the Subcommittee's Study report.** After receipt of any written statements, the Subcommittee Chair, pursuant to Committee Standard Practice 12.5, notifies the Committee Chair in writing that a Subcommittee Study is available for consideration by the full Committee.

Once the Committee Chair receives written notice from the Subcommittee Chair, the Committee Chair, pursuant to Committee Standard Practice 13.1, includes the Subcommittee Study on the agenda for a full Committee meeting. During a full Committee meeting at which the Subcommittee Study is discussed, the Committee may vote, pursuant to Committee Standard Practice 13.2, to (1) refer the study and investigation back to the Subcommittee for further evaluation; (2) approve the Subcommittee's study; or (3) further evaluate the agency as a full Committee, utilizing any of the resources of legislative oversight available.

When the Committee approves a study, **any member of the Committee may provide a written statement for inclusion with the study.** The study, and written statements, are published online and the agency, as well as all House Standing Committees, receive a copy. The Committee shall offer at least one briefing to members of the House about the contents of the final oversight study approved by the Committee.⁹⁴ The Committee Chair may provide briefings to the public about the final oversight study.⁹⁵

To support the Committee’s ongoing oversight by maintaining current information about the agency, the agency receives an annual Request for Information.

FINDING

The Subcommittee has one finding arising from its study of the agency. The Subcommittee finds **lack of clarity pertaining to maintenance responsibility for signage or landscaping near an interstate allows for situations that may negatively impact the Department of Parks, Recreation, and Tourism’s efforts to promote South Carolina to those who travel through it.**⁹⁶ When a local government is granted an easement to construct signage or landscaping near an interstate (e.g., welcome to the state or county), there is usually no condition that the local entity maintain the appearance of the signage or landscaping or that it be removed if it falls into disrepair.⁹⁷

Sometimes local governments choose to erect signage or create unique landscaping near the interstate to welcome travelers to the state or the specific local area (i.e., gateway sign), as seen in Figure 6. To erect a gateway sign along the interstate, a local government must obtain approval (i.e., encroachment permit) from the Department of Transportation (SCDOT) as well as fund and oversee construction of the sign.⁹⁸

Figure 6. Example of gateway signage in York County.⁹⁹

As for maintenance, SCDOT is responsible for mowing the grass around the sign based on its normal mowing schedule, which is six times per year along interstate routes.¹⁰⁰ If a local government desires to mow the grass more frequently, permission must be obtained from SCDOT.¹⁰¹ If the sign exhibits disrepair and the local government does not repair or remove it, SCDOT contacts the local government to attempt to resolve the issue (e.g., lack of funding or other priorities).¹⁰² However, if the local government refuses to take maintenance action, SCDOT does not have authority to remove the sign.¹⁰³

RECOMMENDATIONS

General Information

The following **recommendations include areas** the Subcommittee identifies **for potential improvement**. The **Subcommittee recognizes these recommendations will not satisfy everyone nor address every issue or potential area of improvement at the agency**. These recommendations are based on the agency’s self-analysis requested by the Committee, discussions with the agency during multiple meetings, and analysis of the information obtained by the Subcommittee. This information, including, but not limited to, the Program Evaluation Report, Accountability Report, Restructuring Report and videos of meetings with the agency, is available on the Committee’s website.

Continue

The **Subcommittee does not have any specific recommendations with regards to continuance of agency programs**.

3. The Subcommittee recommends the agency post online a list of research information available from the agency upon request. The Subcommittee recommends that, in addition to publishing research reports online, the agency list online other research materials that are available upon request.¹¹¹

While the agency posts many reports and data online, there are additional reports (e.g., full impact reports for weather events) and information available upon request.¹¹² According to agency representatives, “it requires a lot of thought in order to interpret the data and economic impact of a hurricane, so if someone wants to know, we want them to come to us to get our evaluation of the data so they have the correct analysis.”¹¹³ Adding a list online of additional research available from the agency upon request may increase transparency of resources available to the public.

Employee Input

The Subcommittee has **three recommendations for the agency related to employee input**, and a summary is set forth in Table 14.

Table 14. Summary of recommendations related to employee input.

Topic	Recommendations
	...for the Department of Parks, Recreation, and Tourism
Employee input	4. (a) Conduct exit interviews of employees separating from the agency (b) Compile information from these interviews in the aggregate to help inform policy decisions 5. (a) Allow opportunities for anonymous feedback from employees (b) Compile information from this feedback in the aggregate to help inform policy decisions 6. (a) Perform employee satisfaction surveys on a regular basis (b) Compile information from the survey responses in the aggregate to help inform policy decisions

4. The Subcommittee recommends the agency conduct exit interviews of employees separating from the agency and compile the data in the aggregate to help inform policy decisions. Implementation of these recommendations may help the agency have a better understanding of employee experiences, concerns, and ideas to improve recruitment and retention.¹¹⁴ Of interest, agency-wide turnover has been relatively low during the past three years, with rates of 10.2% in fiscal year 2016, 11.72% in fiscal year 2017, and 24.02% in fiscal year 2018.¹¹⁵ The agency attributes the increase in turnover in fiscal year 2018 to the ending of the Teacher and Employee Retention Incentive program as 43 employees, or 12.4% of the agency’s workforce, retired when the program ended.¹¹⁶

Currently, the agency does not conduct exit interviews or surveys of employees that separate from the agency.¹¹⁷ However, the agency does conduct exit interviews with personnel from motion picture companies to receive input regarding their experience working in South Carolina.¹¹⁸

5. *The Subcommittee recommends the agency allow opportunities for anonymous feedback from employees and compile the data in the aggregate to help inform policy decisions.* At the present time, there are no avenues for current employees of the agency to submit anonymous input.¹¹⁹ Allowing this type of input may help the agency continuously improve retention and morale as it may encourage employees, who otherwise may be hesitant to provide input, to do so.

6. *The Subcommittee recommends the agency perform employee satisfaction surveys on a regular basis and compile the data in the aggregate to help inform policy decisions.* Currently, the agency does not track employee satisfaction.¹²⁰ However, the agency does have a survey system in place to track customer satisfaction at welcome centers and state parks.¹²¹ Utilizing existing resources to regularly conduct employee satisfaction surveys may help the agency improve retention and morale.¹²²

Effectiveness

The Subcommittee has **four recommendations related to effectiveness**, three for the Department of Parks, Recreation, and Tourism, and one for all state agencies. A summary is set forth in Table 15.

Table 15. Summary of recommendations related to effectiveness.

Topic	Recommendations
	...for the Department of Parks, Recreation, and Tourism
Effectiveness	7. Track the effectiveness of the agency’s advertisement of grant and funding opportunities
	8. Perform a cost/benefit analysis of offering online, virtual tours of state parks
	9. Create, publish, and regularly update plans for anticipated building maintenance costs
	...for all agencies
	10. Require certain agency personnel to participate in annual customer service training and state agencies track customer satisfaction*

Table Note: An asterisk (*) indicates the entire recommendation, or a portion of it, is for the General Assembly.

7. *The Subcommittee recommends the agency track the effectiveness of the agency’s advertisement of grant and funding opportunities.* Implementation of this recommendation may help improve the effectiveness of the agency’s outreach, and retention of this data may help inform policy makers.¹²³ The agency already studies the effectiveness of its advertising to attract travelers to South Carolina.¹²⁴ Through these studies, the agency is able to review and determine the level of advertising awareness among consumers in target markets, the effectiveness of the agency’s advertising to motivate consumers to travel to South Carolina, consumer travel behaviors, and consumer attitudes toward the agency’s advertising.¹²⁵ While this same level of detail may not be necessary for grant and funding advertising, studying the effectiveness of how the agency advertises these opportunities may help the agency continually improve the outcomes obtained from the funding provided.

8. *The Subcommittee recommends the agency perform a cost/benefit analysis of offering online, virtual tours of state parks.* Specifically, the Subcommittee recommends the agency research (1) the upfront and annual costs to maintain virtual tours of each state park and historic location on the agency website; (2) performance measures that may be impacted and estimated impact, including, but not limited to, state park revenue, if any; (3) additional ways the video footage may be utilized to market the state domestically and internationally; and (4) potential return on investment from creation and maintenance of the videos.¹²⁶

Virtual tours may allow individuals to preview state parks and historic sites before visiting. Additionally, they may provide an opportunity to experience the sites for those who are unable to visit in person. This recommendation supports the agency's ongoing efforts. The agency has online a virtual tour of the Hampton Plantation, which is still in the early development.¹²⁷ Also, the agency is working on virtual tours at other historic sites.¹²⁸

9. *The Subcommittee recommends the agency create, publish, and regularly update plans for anticipated building maintenance costs.* Specifically, the Subcommittee recommends whenever the agency constructs a new building (e.g., welcome center, state park, etc.), the agency create, publish online, and regularly update (e.g., every three years) plans for anticipated maintenance costs and how those costs may be paid.¹²⁹

During the last several years, the agency has performed deferred maintenance on existing welcome centers with one-time funds.¹³⁰ The agency has constructed new welcome centers and is in the process of constructing additional ones.¹³¹ While new buildings may eliminate the need for maintenance on older facilities, the new buildings will eventually require maintenance. Publishing online and regularly updating maintenance plans may assist the agency with deferred maintenance planning.¹³²

10. *The Subcommittee recommends the General Assembly require certain personnel of all state agencies to participate in annual customer service training and state agencies to track customer satisfaction.* Specifically, the Subcommittee recommends the General Assembly require applicable personnel at state agencies to participate in customer service training on an annual basis, and state agencies to track customer service satisfaction and feedback as a prerequisite to receiving state appropriations and authorizations.¹³³ Implementation of this recommendation may help increase the state's effectiveness in building public confidence in state government. Additionally, requiring all state agencies to participate in customer service training and track customer satisfaction may provide benefits statewide like those discussed by SCPRT during the study process.

SCPRT credits customer service with greatly helping it approach a self-sufficiency model with state parks. Notably, in 2016, the agency was number one in the southeast and number two in the country in self-sufficiency rankings.¹³⁴ In addition, the agency has been asked to present its state parks model to numerous other states including Alaska, Louisiana, Missouri, and Wyoming.¹³⁵ Additionally, it has been asked to share its guest services guide with welcome center programs throughout the southeast.¹³⁶

An example of the agency's focus on customer service is that the state parks director provides a card to every employee in his division that says, "You will never be criticized for any reasonable decision made in the spirit of quality customer service. Ever."¹³⁷ The state parks director acknowledges it is a bold move, but customer service happens at the front lines.¹³⁸ He believes you must empower front line people to

make customer service decisions, or you cannot be successful.¹³⁹ During the study, the agency director echoes these sentiments, stating employees are trained regularly in customer service: “it’s tone of voice, posture, smile, all those different things, timeliness of acknowledgment ... it’s all about answering the phone, returning calls, returning emails, all of those are customer service issues regardless of what level you’re at.”¹⁴⁰

In addition to training, the agency utilizes formal customer satisfaction surveys as well as social media and its website to track its performance in this area.¹⁴¹ Further, the agency has a process in place to ensure there is follow-up on the responses they receive.¹⁴² The director of state parks explains:

We follow up as quickly as possible, and then we do implement changes. We particularly do that in the overnight accommodations where we hear from the public of “it’d be nice to have this, and this wasn’t there,” and we’ve added things and deleted things out of cabins and campgrounds based on customer service complaints and comments. So, we do try to turn those around quickly. Even if we respectfully disagree with what they’re saying, we’ll tell them we appreciate your comments. But this is why we have to do that. And we get those too, and I think that the general public respects the fact that we tell them we appreciate their input. However,... we return emails and phone calls back - positive or negative.¹⁴³

SCPRT develops most of its customer training through internal programs developed by the State Park Service and the State Welcome Center program.¹⁴⁴ While the agency is unaware of a customer service training program available to all state agencies, the agency is willing to freely share its customer service materials with any other state agency as it has in the past with the Department of Motor Vehicles.¹⁴⁵

Modernization of Statutes

The Subcommittee has **nine recommendations for the General Assembly related to modernizing statutes**, four relate to entities/activities no longer in existence and four relate to revising statutes to reflect current agency practices. A summary is set forth in Table 16.

Table 16. Summary of recommendations for modernizing statutes.

Table Note: An asterisk (*) indicates the entire recommendation, or a portion of it, is for the General Assembly.

Entities/activities no longer in existence

11. *The Subcommittee recommends the General Assembly consider repealing provisions related to the defunct New Horizons Development Authority.* The Subcommittee recommends, as requested by the agency, the General Assembly consider repealing Chapter 11, of Title 13 of the S.C. Code, which relates to the New Horizons Development Authority.¹⁴⁶ According to the agency this authority is defunct, and the Subcommittee has seen no evidence to the contrary.¹⁴⁷ Appendix A contains the complete text of the applicable statutes.

12. *The Subcommittee recommends the General Assembly consider deleting outdated provisions related to the Fort Watson Revolutionary War Memorial.* The Subcommittee recommends, as requested by the agency, the General Assembly consider repealing S.C. Code Sections 51-9-10 through 51-9-30, related to the Fort Watson Revolutionary War Memorial (memorial).¹⁴⁸

As background, the memorial is located on a small piece of property on the shoreline of Lake Marion, which is surrounded by U.S. Fish and Wildlife Services' property in the Santee National Wildlife Refuge.¹⁴⁹ State statutes instruct the Department of Parks, Recreation, and Tourism to acquire the land by purchase, lease, or gift, and maintain it.¹⁵⁰ However, a number of years ago the lease for the property expired and was not renewed.¹⁵¹ The property was deeded to the State Public Service Authority (i.e., Santee Cooper), which has managed the memorial for more than a decade.¹⁵² Proposed language to implement this recommendation is included in Table 17.

13. *The Subcommittee recommends the General Assembly consider eliminating references in the code of laws to S.C. Family Week and S.C. Family of the Year.* The Subcommittee recommends, as requested by the agency, the General Assembly consider repealing S.C. Code of Laws sections 53-3-90 and 53-3-100, which relate to S.C. Family Week and S.C. Family of the Year.¹⁵⁴

During the study, the agency director testifies S.C. Family Week and S.C. Family of the Year have not been observed in over twenty years.¹⁵⁵ No current agency personnel are aware of how it started or why it stopped.¹⁵⁶ According to the agency director, the agency views all 52 weeks of the year as family weeks for South Carolina.¹⁵⁷ Proposed language to implement this recommendation is included in Table 18.

	<p>The last week in August of each year is declared "Family Week in South Carolina." The Department of Parks, Recreation and Tourism shall develop a plan to promote the celebration of Family Week. 14a. *The Subcommittee recommends the General Assembly consider distributing funds from the defunct War Between the States Heritage Preserve Commission.* The Subcommittee Study recommends the General Assembly consider providing direction as to how to disburse funds designated for the War Between the States Heritage Preserve Commission, as there is no commission.¹⁵⁹

While state statute provides that an agency representative serve on this commission, it is the agency director's understanding the War Between the States Heritage Preserve Commission either never existed or never functioned.¹⁶⁰ However, there is approximately \$179,000 in a reserve account for the commission.¹⁶¹ Additionally, state income tax forms continue to allow voluntary contributions to the commission.¹⁶²

While the commission may have never functioned, during the study, the agency director states the Department of Archives and History and the Old English district, one of the South Carolina Association of Tourism regions, may be working on a Revolutionary War Trail Program.¹⁶³ The purpose of the program is to encourage people to visit various historical sites.¹⁶⁴ According to the agency, South Carolina has more Revolutionary War sites than any other state in the southeast.¹⁶⁵ While this program is still in the infancy stage, the agency director believes its activities may be in line with the original intent of the funds for the War Between the States Heritage Preserve Commission.¹⁶⁶

14b. *The Subcommittee recommends the General Assembly consider repealing provisions related to the defunct War Between the States Heritage Preserve Commission.* The basis of this recommendation is testimony received during the study that the commission does not currently exist.¹⁶⁷ As previously discussed, it is the agency director's understanding the War Between the States Heritage Preserve Commission either never existed or never functioned.¹⁶⁸

Appendix B contains the complete wording of the applicable statutes.

Revise to reflect current agency practices

15. *The Subcommittee recommends the General Assembly consider transferring duties of a now defunct agency division to the agency's general duties.* The Subcommittee Study recommends, as requested by the agency, the General Assembly consider taking the following actions: (1) repeal S.C. Code Sections 51-1-300 and 51-1-310, which relate to the agency's division of community development; and (2) add the purpose and general duties of the agency which relate to community development activities, that were in 51-1-300 and 51-1-310, to S.C. Code Section 51-1-60.¹⁶⁹

The agency asserts it no longer has a division of community development.¹⁷⁰ However, it continues to fulfill the general duties of this division through its other existing divisions.¹⁷¹ This recommendation does not alter any statutory duties of the agency, but instead allows the agency flexibility in determining which of its division(s) are responsible for the duties. Proposed language to implement this recommendation is included in Table 19.

Table 19. Proposed statutory changes to transfer duties of now defunct agency division of community development to the agency's general duties.¹⁷²

No regulation may be promulgated affecting hunting and fishing except as provided in Section 51-3-145. The department may accept gifts and acquire by gift, purchase, or otherwise real estate and other property, but no real estate may be purchased or disposed of by the department except on approval of the State Budget and Control Board. The department shall keep accurate records showing in full the receipts and disbursements and the records must be open at any reasonable time to inspection by the public. The department shall submit annually to the General Assembly and the Budget and Control Board reports the board requires. The department shall have the following duties and</p>

	<p>responsibilities in addition to such other functions as may, from time to time, be assigned by legislative action or by the State Budget and Control Board:</p> <p>(a) to promote, publicize and advertise the state's tourist attractions;</p> <p>...</p> <p><u>(j) to promote economic diversity in all areas of the State by extending to them the full benefits of tourism and recreation development.</u></p> <p><u>(k) to coordinate and act as a liaison with regional tourism organizations, local chambers of commerce, development agencies and other federal, state, regional and local agencies and organizations to promote economic and business development, the expansion of tourism, recreation, cultural, retirement, and heritage events.</u></p> <p>The Department of Parks, Recreation and Tourism shall study and ascertain the state's present park, parkway and outdoor recreational resources and facilities, the need for such resources and facilities, and the extent to which these needs are now being met. The results of this survey and study should be reported to the Governor and the General Assembly at the earliest practicable time.</p>

16. *The Subcommittee recommends the General Assembly consider eliminating obsolete language prohibiting swimming and cabin rentals at state parks.* The Subcommittee recommends, as requested by the agency, the General Assembly consider taking the following actions: (1) revise S.C. Code Section 51-3-10 to strike through language prohibiting swimming and use of cabins at state parks; (2) repeal S.C. Code Sections 51-3-20 through 51-3-40 which relate to facilities and permitted activities in state parks; and (3) revise S.C. Code Section 51-3-50, which relates to the power to open parks to normal public use, to reflect elimination of Sections 51-2-30 through 51-3-40.¹⁷³ Proposed language to implement this recommendation is included in Table 20.

Implementation of this recommendation removes obsolete language providing for limited operation of state parks and facilities enacted during the 1960s struggle for civil rights in South Carolina. The statutes pertain to segregation and integration of state parks and facilities.¹⁷⁴ During the study process, agency representatives note the history of segregation and integration of state parks and facilities is included in state park publications and various presentations at different state parks.¹⁷⁵ In 1961, a class action lawsuit was filed to integrate state parks.¹⁷⁶ As a result of the lawsuit, the state Attorney General closed all state parks in 1963.¹⁷⁷ In 1964, the General Assembly adopted the laws that are the subject of this recommendation, which specify and provide for limited operation of state parks and facilities, and the state parks were reopened on a limited basis.¹⁷⁸ In 1966, state parks and facilities returned to full operation open to all citizens.¹⁷⁹

17. *The Subcommittee recommends the General Assembly consider removing references to residential areas on Hunting Island.* The Subcommittee Study recommends, as requested by the agency, the General Assembly consider repealing S.C. Code Section 51-7-20, and revising S.C. Code Section 51-7-30, to remove the reference to the residential areas of Hunting Island.¹⁸¹ Proposed language to implement this recommendation is included in Table 21.

This recommendation seeks to modernize the statutes to reflect the current conditions at Hunting Island. Since the 1940s, erosion and the dynamics of Hunting Island have taken their toll.¹⁸² Accordingly, there are no more lot leases at the island because the designated cabin area “has literally washed away.”¹⁸³ During the study, the agency reports the S.C. Supreme Court has held that if there are any existing lot leases, they expire in 2021.¹⁸⁴

The Department may set aside such portion of the island as it shall deem proper as a residential area. It may divide this area into building lots and may lease the lots for such terms of years, for such annual rentals and upon such conditions and covenants as the Department may determine. Each lease shall contain suitable covenants requiring the lessee to erect and maintain, within such period of time as the Department may prescribe, habitable dwellings of design and structure satisfactory to the Department. Each lease shall contain provisions for the forfeiture of the rights of the lessee upon failure to pay the annual rentals and, upon a forfeiture, all dwellings and structures that may have been erected on any such lot shall become the absolute property of the Department. The Department may also require, in its discretion, further and additional covenants in all leases to insure proper use of the leased premises for purposes consistent with the proper development and maintenance of the residential area. Such leases shall be available to all applicants but preference, so far as possible, shall be given to citizens of this State.</p> <p>HISTORY: 1962 Code Section 51-242; 1952 Code Section 51-242; 1942 Code Section 3284-5; 1940 (41) 1785.</p> <p>SECTION 51-7-30. 18. The Subcommittee recommends the General Assembly consider revising statutes relating to the Film Commission to reflect its deliverables and public benefits as part of SCPRT. Over the years, the Film Commission has been located at many different state agencies.¹⁸⁶ The Subcommittee recommends the General Assembly consider revising S.C. Code Section 1-30-80, which relates to the Film Commission.¹⁸⁷ Listed below is a summary of the recommended revisions:

- (1) Eliminate section (A) and (B)(1) as the transfer of the S.C. Film Commission from the S.C. Department of Commerce to the S.C. Department of Parks, Recreation, and Tourism has already occurred;
- (2) Transfer section (B)(2), which discusses the responsibilities of the film commission, to an existing chapter, or a new chapter, in Title 51 of the S.C. Code so it is located with the other statutes relating to responsibilities of SCPRT; and
- (3) Modify section (B)(2), as requested by the agency in its law recommendation number seven in its Program Evaluation Report, so the film commission’s objectives align with its actual deliverables and public benefit.¹⁸⁸

This recommendation seeks to update the statute and bring it more in line with what the Film Commission does today under the Department of Parks, Recreation, and Tourism.¹⁸⁹ Proposed language to implement this recommendation is included in Table 22.

- (2) "Advisory board" means the War Between the States Heritage Trust Advisory Board.
- (3) "Natural area" means an area of land or water, or a combination thereof, generally, but not necessarily, large in size. Such an area may be in public or private ownership and shall contain landforms, or other unusual or outstanding scientific, educational, aesthetic, or recreational characteristics that are unique to and relatively undisturbed since the time period of the War Between the States.
- (4) "Natural feature" means an area of land or water or a combination thereof, which is generally, but not necessarily, small in size. Such area may be in public or private ownership and shall contain or consist of outstanding remnants or natural elements of geological formations, or objects of special scientific, educational, aesthetic, or recreational character, which are unique to and relatively undisturbed since the time period of the War Between the States.
- (5) "Cultural area or feature" means an area or feature that provides an outstanding example of our historical or archeological heritage. Such an area or feature shall be a site of special historic interest or contain outstanding remnants or elements of the way of life and significant events of our past so that through their preservation and the restoration of related existing structures, or the development of an historic area, as well as through study, investigation, and examination of the material remains in that life, a record may be preserved of the interrelationship and effect between man's activities and his surrounding environment. HISTORY: 2000 Act No. 387, Part II, Section 52A, eff July 1, 2000.

SECTION 51-18-20. Legislative findings and policy; War Between the States Heritage Preserves and Sites.

The General Assembly finds that as a part of the continuing growth of the population and the development of the economy of the State it is necessary and desirable that portions of the State rich in history be set aside as War Between the States Heritage Preserves and Sites and protected for the benefit of present and future generations, for once disturbed they cannot be wholly restored. Such areas and features are irreplaceable as laboratories for historic and cultural research and as living museums where people may observe and enjoy examples of the lands, structures, and related artifacts that represent significant parts of our historical and cultural heritage.

A coordinated and concerted program is needed to insure the maximum conservation of these resources through the establishment of a more effective and adequate official legal mechanism for identifying, recognizing, and protecting such areas for their outstanding characteristics. While the preservation of all of these assets in their natural state is both impractical and often not necessarily in the total best interest of the State and the public, they exist in limited and decreasing quantities. The time is now for a decision to be made as to which of these areas and sites deserve increased protection and for selecting the most appropriate means for doing so.

It is, therefore, the public policy of this State to secure for the people, both present and future generations, the benefits of an enduring resource of historically significant cultural areas and features by establishing a system of War Between the States Heritage Preserves and Sites; protecting this system; gathering and disseminating information regarding it; establishing and maintaining a listing of War Between the States Heritage Preserves and Sites; and otherwise encouraging and assisting in the preservation of natural and cultural areas and features of this State.

HISTORY: 2000 Act No. 387, Part II, Section 52A, eff July 1, 2000.

SECTION 51-18-30. Goals of the War Between the States Heritage Trust Program.

The War Between the States Heritage Trust Program is created to achieve the following goals by protecting lands and making them available to state agencies, educational institutions, and public and private groups for the following purposes:

- (1) for research in such fields as history, archeology, agriculture, forestry, paleontology, and similar fields by governmental employees, educational and scientific groups, as well as by private individuals;
- (2) for the teaching of history, archeology, agriculture, forestry, paleontology, and other subjects;
- (3) as cultural materials;
- (4) as places of natural and cultural interests and beauty whereby through visitation the public may observe, value, and enjoy unique recreational opportunities of a type not generally available through the existing State Park System;
- (5) to promote the understanding and appreciation of the aesthetic, historical, cultural, and scientific values of such areas and features by the people of the State;
- (6) for the preservation and protection of War Between the States Heritage Preserves and Sites against modification or encroachment resulting from occupation, development, or other uses which would destroy their natural and cultural character; and
- (7) as places for maintaining representative lands and related structures which illustrate periods, events, styles, and uses of the land in our state's historic and cultural heritage.

HISTORY: 2000 Act No. 387, Part II, Section 52A, eff July 1, 2000.

SECTION 51-18-80. Dedication process.

(A) Upon recommendation of the advisory board and approval by the commission, any area or feature on the Priority Areas and Features List may be established as a War Between the States Heritage Preserve through the process of dedication. In addition to the transfer of either the fee simple interest or a lesser interest therein such as an open space easement, the owner of any such area or feature must enter into a written Dedication Agreement with the commission whereby any restrictions, conditions, permitted and non-permitted uses of the area or feature involved are clearly stated. Once the necessary deed, easement, or the like has been filed along with the Dedication Agreement in the real estate records for the county in which the area or feature is located, the process of dedication shall be complete and a War Between the States Heritage Preserve shall have formally been established.

(B) No area or feature of primarily cultural significance or character shall be dedicated without the approval of the commission. The following restrictions shall apply to all War Between the States Heritage Preserves:

- (1) The primary dedication as a War Between the States Heritage Preserve shall be to preserve and protect the natural or cultural character of any area or feature so established. The commission and its agents shall in all cases maintain the essential character of any area or feature dedicated, and as such they are hereby declared to be at their highest, best, and most important use for the public benefit. No

War Between the States Heritage Preserve shall be taken for any other public purpose unless the approval of both the commission and the Governor has been obtained. In no case shall any War Between the States Heritage Preserve be taken for any private use.

(2) An acquisition by dedication shall be in perpetuity.

(3) In any case where an area or feature is dedicated as a War Between the States Heritage Preserve through acceptance of less than the fee simple interest therein, no management of such property shall be performed by state agencies or their employees and no public funds shall be utilized in the upkeep or general maintenance of such property; provided, in the case where public usage of such area or feature is compatible and consistent with the natural character of the property and the owner is agreeable to allow such, as defined under this chapter, reasonable costs of maintenance and management may be borne by the State.

(4) No acquisition of any area or feature as a War Between the States Heritage Preserve shall be allowed whereby the commission receives the fee simple interest in the property while the grantor or transferor retains the beneficial use or interests in the land, except where total and complete public usage of the area or feature, as allowed under this chapter, is agreed to in the Dedication Agreement.

(5) Within ninety days from the date of the completion of the dedication process by which an area or feature is established as a War Between the States Heritage Preserve, or as soon thereafter as possible, the commission shall recommend a management plan for the area or feature concerned. Such proposed plan shall include recommendations as to the uses and prohibited uses to which the property should be put, recommendations as to whether all or a part of the area or feature is deserving of increased protection through inclusion in the War Between the States Heritage Trust, the projected cost of the management of the property, and recommendations as to whether or not a user fee would be appropriate. All state, federal, county, local, and private groups interested in the area or feature involved shall be allowed to have input into the proposed management plan. The plan shall be considered by the advisory board, and therefrom the advisory board shall propose to the commission an overall management plan for the area or feature concerned. Upon approval by the commission of a plan, the commission or that agency or group authorized by the commission shall manage the War Between the States Heritage Preserve in accordance therewith.

There is hereby created the War Between the States Heritage Trust, the trustee of which shall be the War Between the States Heritage Trust Commission. The corpus of the trust shall be made up of those War Between the States Heritage Preserves which the commission considers to be of such outstanding and unique natural or cultural character so as to be significant and essential to the carrying out of the goals and purposes of this chapter and as such, to merit a greater degree of preservation than that provided by dedication. The commission shall have authority to place into the corpus of the trust any War Between the States Heritage Preserve that it feels meets this criteria and which has been recommended for inclusion therein by the advisory board. The beneficiaries of this trust are and shall be the present and future generations of citizens of the State, more particularly those present and future citizens residing within a close proximity to any area or feature which itself, or an interest therein, becomes, constitutes, or comprises a part of the corpus of such trust and who actually enjoy use of such area or feature; and

further and more particularly, those present and future students, teachers, and persons residing in the State who are concerned with conservation or with research in any facet of ecology, history, or archeology and who actually utilize any such area or feature for the promotion of such interest.

Wherever the term "area or feature" is used in this section, it shall include "or interests therein". The following, except as otherwise expressly provided, shall constitute substantive terms of the trust and apply to any area or feature, which becomes a part of the corpus thereof:

(1) Upon approval by the commission of the inclusion of a War Between the States Heritage Preserve in the corpus of the War Between the States Heritage Trust, such transfer shall be recorded in the county in which the property is located and shall establish conclusive proof that such area or feature is suitable for preservation and protection under this chapter and constitutes a part of the corpus of the War Between the States Heritage Trust.

(2) In any case wherein the previous owner of a War Between the States Heritage Preserve has restricted such area or feature from inclusion in the War Between the States Heritage Trust, or where the previous owner has withheld an interest therein such as a life estate or reverter, the War Between the States Heritage Preserve involved shall not be allowed to become a part of the corpus of the War Between the States Heritage Trust unless, at a subsequent time, such approval is obtained from such person or his successor in interest.

(3) Upon the approval by the commission of the inclusion of any War Between the States Heritage Preserve in the War Between the States Heritage Trust and the transfer of the title or interest held by the commission therein to the trust, subject to the provisions of item (2) of this section, legal title to such area or feature shall be conveyed to the trustee of the War Between the States Heritage Trust and the equitable, or beneficial ownership, shall rest in those beneficiaries previously stated and described, whether such property was owned by a private or public source prior to dedication.

(4) Upon approval by the advisory board, the commission and any agency of the State are hereby authorized to enter into agreement in advance with any person, firm, corporation, legal entity of government, or any private group that any particular area or feature shall be conveyed to the trustee in trust under the provisions of this chapter.

(5) Upon approval by the commission of inclusion of any War Between the States Heritage Preserve into the corpus of the War Between the States Heritage Trust, the advisory board shall review the management plan therefore, as well as the Dedication Agreement, and any other sources of information which it may consider appropriate. Upon approval thereof by the commission, the commission or that agency or group assigned management responsibilities therefore shall manage the property in accordance therewith. Except to the extent expressly otherwise provided in the Dedication Agreement, the following substantive terms shall be deemed to be set forth in the conveyance to the War Between the States Heritage Trust and the trustee shall hold such property in trust subject to such terms:

(a) The essential natural character of the property shall be maintained.

(b) There shall be no erection or any improvements thereon except those improvements necessary for the security, safety, or convenience of the public and those required for maintenance, historical interpretation, and management or to restore it to its War Between the States state.

(c) Cutting or burning of timber, wood, or other destruction of flora or fauna shall be permitted only for conservation or regeneration of flora or fauna; for the control of plant succession by deliberate manipulation for restoration or preservation of a particular vegetation type or of an endangered species of flora, fauna, or wildlife; or for the establishment and maintenance of nature and hiking trails, picnic areas, camping areas, and the like where compatible and consistent with the character of the area or feature concerned and not seriously damaging or detrimental to the natural quality of the property.

(d) No stream shall be dammed or have its course altered except to return it to its natural flow.

(e) No motorized vehicles shall be permitted on the property other than those utilized by the trustee or its agents in management and protection of the property or used by the general public for ingress and egress to the property in compliance with the management plan for the area or feature concerned.

(f) No change shall be made in the general topography of the area or feature, except for those minimal alterations which may be necessary to provide on-foot access to the public for visitation or observation or to return worn or altered topographical features to their original historical features, and this shall be done only where wholly compatible and consistent with the character of the property and where no detrimental effect shall result.

(g) No activity shall be allowed or permitted which might pollute any stream, body of water, or the atmosphere.

(h) No signs, billboards, or other advertising of any kind shall be erected; however, informational and directional signs related to the designation of the area, historical interpretation, or feature as a War Between the States Heritage Preserve and related to the public's enjoyment thereof shall be allowed when approved by the trustee.

(i) No other acts or uses which are detrimental to the retention of the property in its natural or historical state shall be allowed, including those detrimental to flood control, drainage, water conservation, erosion control or soil conservation, or fish or wildlife habitat preservation.

(j) Where cultural areas or features are involved, reasonable excavation, improvement, and the like shall be allowed for research purposes, as well as to restore such areas or features, and for historical interpretation.

(k) The trust shall continue in perpetuity.

(l) Nothing in this chapter shall be interpreted as restricting the use of an existing or any future easement, express or implied, in favor of any utility or other holder of an easement for public purposes.

(6) Those natural and related cultural areas and features that are acquired as War Between the States Heritage Preserves in accordance with the trust provisions of this chapter are hereby declared to be as such at their highest, best, and most important use for the public benefit. The State, any agencies thereof, local or county entities of government, or public utility which has the power of condemnation by law may acquire by purchase, gift, or eminent domain an easement or other interest in any property comprising a part of the corpus of the War Between the States Heritage Trust; provided, however, that before any such condemnation shall occur a court of competent jurisdiction shall determine the following:

(a) there is an unavoidable and imperative public necessity that the property or interest therein be taken for another public use;

(b) that there is no feasible and prudent alternative for the proposed use for which the property or interest therein is to be taken; and

(c) that the proposal for taking includes all possible planning to minimize the harm done to such property resulting from such proposed use. Where the court deems appropriate, a public hearing shall be conducted prior to the court's decision to allow comment and input thereto. No city, county, public district, agency of the State, or public utility of the State shall acquire any real property which is a part of the corpus of the War Between the States Heritage Trust through condemnation for the purpose of utilizing such property for another public use unless the acquiring entity pays or transfers to the War Between the States Heritage Trust sufficient compensation to enable the operating entity to replace the real property and facilities thereon. The trustee of the trust shall have authority to utilize such proceeds to acquire additional property for the trust and to maintain those properties that form the corpus of the trust.

(7) The common law of South Carolina pertaining to trusts shall be applicable to the War Between the States Heritage Trust and to all areas or features, or interests therein, which become parts of this corpus. Without in any way limiting the generality of the foregoing, such trusts shall not fail for want of a trustee, and the trust shall be terminated as to any particular area or feature, or interest therein, only upon total failure of the intended purpose. Any substitution of the trustee or termination of the trust as to any particular area or feature, or interests therein, shall occur only after appropriate judicial action wherein the beneficiaries are adequately represented, and such total failure shall not in any way affect the remainder of the property within the corpus of the trust.

(8) The trustee shall hold, manage, preserve, and enforce the various areas and features, or interests therein, which become a part of the corpus of the trust in accordance with the terms of this chapter and in any respective conveyances and transfers thereto. To that end the trustees may adopt and modify rules and regulations for the use and enjoyment of such trust properties by the public and may employ or appoint agents to act on their behalf in the management of such properties.

(“The civil rights movement of the fifties was felt in the state park system. A suit was brought against the parks which resulted in the closing of Edisto Beach State Park for ten years. The civil rights movement had just begun. In July, 1961, a class action suit to integrate the parks was filed. U.S. District Judge J. Robert Martin of Greenville issued an order for the state parks to comply entirely with the Civil Rights Act of 1954. Judge Martin set September 8, 1963 for total compliance with the law. The Attorney General of the State then advised the State Commission of Forestry that all parks would be closed on the evening of September 8. The many opportunities of the state park system were now closed to all South Carolinians. The people, however, began to demand the use of their parks. On June 1, 1964, the parks were re-opened on a limited basis, but the people were still not satisfied. Two years passed and Governor Robert McNair stood firm that the parks would reopen with adequate funds. On

June 30, 1966, the State Budget and Control Board ended a week of suspense by announcing that it had approved the request for transfer of \$60,000 in funds to the State Forestry Commission to reopen the parks.”)

As a way to attract visitors to this remote island, the government agencies came up with lot leases for individuals to build private cabins on the island. The statutes in this recommendation include a list of the state’s obligations to the leases and covenants for the private cabins.”)
