Trademark & Service Mark Registration Application⁶⁰

The purpose of the Trademarks and Service Marks Act of 1993 is to "provide a system of state trademark registration and protection substantially consistent with the federal system of trademark registration and protection under the Trademark Act of 1946, as amended."

A person, which may be an individual or entity, may file an application to register a trademark or service mark with the Secretary of State's Office. To qualify for registration, a mark must be in use, which is defined as the bona fide use of a mark in the ordinary course of trade. A mark is considered in use: (a) on goods when placed

on the goods, containers, or displays associated with goods or containers; tags or labels affixed to the goods or containers; or documents associated with goods if the nature of the goods makes placement impracticable; and (b) on services when used or displayed in sale or advertising of services rendered in this State. An applicant cannot register a mark merely to reserve a right in a mark prior to it being in use.

In an application for a trademark or service mark, an applicant must provide the following information: (a) name and business address of the applicant and, if an entity, the state in which the entity is organized; (b) goods or services in connection with which the mark is used: (c) mode or manner in which the mark is used; (d) class(es) in which the goods or services fall; (e) date the mark was first used anywhere and in this State: and (f) if the applicant has filed an application to federally register the mark, the filing date, serial number, status, and outcome of the application.
