## NETWORK INFRASTRUCTURE PROJECTS

A major point of focus has been assisting public libraries with implementing network infrastructure projects funded through the Federal E-Rate Program, in an effort to increase the broadband connection.

- The implementation of this infrastructure resulted in over \$1M in savings to libraries.

## PUBLIC LIBRARY BANDWIDTH UPGRADES

The department collaborated with the South Carolina E-Rate Consortium to upgrade the minimum bandwidth at 87 public library branch locations statewide.

- We met our goal to have every library functioning at 100Mbps for broadband internet speed.
- We partnered with the Department of Administration, local economic development offices, Segra, and AT&T to achieve this ambitious goal.

**SEGRA<sup>SM</sup>**

**AT&T**

## NETWORK INFRASTRUCTURE PROJECTS

In the last two years, we have successfully assisted 30 county public libraries by physically rewiring, reconstructing, and creating, in many instances, infrastructure to support broadband.

## INTERNAL SECURITY

Our security policies and practices are updated and in compliance with state rules and regulations.

We have had zero security incidents.

# SCSL > Library Resources & Services > Electronic Resources

The South Carolina State Library saves the State over \$32M in cost avoidance each year by negotiating and purchasing the electronic resources available in Discus and making them available to all South Carolinians.

# Agency Successes

## BROADBAND

- The South Carolina State Library has been working on broadband access for almost four years.
- State Library staff visited 30 of our 46 counties to assist with technology needs and infrastructure.
- We increased all Wi-Fi access to 100 Mbps in every county. Dillon and Greenville Counties were both operating at 20 Mbps and Darlington was operating at 10 Mbps, which is equivalent to dial-up.

# Agency Successes

## INTERNET ACCESS

- We also helped libraries apply for federal e-Rate funds so that they could recoup \$2M spent.
- In FY20, we received \$465,000 in CARES Act funds – We purchased 500 homework hotspots and service, laptops, Chromebooks, and 22 smart bus devices to be used in rural, underprivileged areas.

# Agency Successes

## NATIONAL OUTREACH

- Our Day by Day literacy calendar has been replicated in ten other states.
- We are a pilot program for the Talking Books Services smart devices.
- Our locally recorded audio books are uploaded to the Library of Congress National Library Service.
- State Library is working with the Fields of Honor Foundation, providing information on nearly 10,000 World War II soldiers buried in the Margraten cemetery in the Netherlands.

# Agency Successes

## STATE DOCUMENTS DEPOSITORY

- We have worked diligently to digitize state documents. The South Carolina State Documents Depository currently provides access to over 40,000 items available online.
- During the FY19, these collections had 284,111 page views, a 45% increase from FY18.
- The State Library collaborates with many state agencies to digitize items of interest or request.

# Agency Successes

## ORGANIZATIONAL COMPLIANCE

- The South Carolina State Library's mission, vision, strategic directions, and goals are in alignment with our financial budget structure, planned projects, and agency objectives.

# Agency Challenges

## PERSONNEL

- We are finding it increasingly difficult to compete and retain qualified staff, due in large part to the increasing costs associated with employee benefits and retirement contribution.
- The lack of funding available for increases to salary makes it more challenging to hire qualified personnel at a competitive rate.
- As a small agency, we find it a challenge to compete with larger state agencies with bigger budgets.
- Due to the lack of diversity in the librarianship field, building and maintaining a diverse staff is a challenge.

# Agency Challenges

## PARKING

- The State Library has limited parking. There are limited options for parking in the surrounding area.
- Research and procurement by the Department of Administration would be helpful in addressing this issue.
