AMENDED AGENDA

I. Approval of Minutes

II. Discussion of study of the Wil Lou Gray Opportunity School

III. Adjournment
Education and Cultural Subcommittee  
Tuesday, February 12, 2019  
Room 321 Blatt Building

Archived Video Available

1. Pursuant to House Legislative Oversight Committee Rule 6.8, South Carolina ETV was allowed access for streaming the meeting. You may access an archived video of this meeting by visiting the South Carolina General Assembly’s website (http://www.scstatehouse.gov) and clicking on Committee Postings and Reports, then under House Standing Committees click on Legislative Oversight. Then, click on Video Archives for a listing of archived videos for the Committee.

Attendance

1. The Education and Cultural Subcommittee meeting was called to order by Chairman Joseph H. Jefferson, Jr., Tuesday, February 12, 2019, in Room 321 of the Blatt Building. All members were present for some or all of the meeting.

Minutes

1. House Rule 4.5 requires standing committees to prepare and make available to the public the minutes of committee meetings, but the minutes do not have to be verbatim accounts of meetings. It is the practice of the Legislative Oversight Committee to provide minutes for its subcommittee meetings.
II. Representative Tommy Stringer moves to approve the minutes from the Subcommittee's meeting on January 31, 2019. A roll call vote is held, and the motion passes.

Discussion of Wil Lou Gray Opportunity School

I. Chairman Jefferson provides opening comments and states that this is the subcommittee's first meeting with Wil Lou Gray. Further, he explains the purpose of the meeting is to receive testimony about enrollment.

II. Chairman Jefferson states all testimony provided to this Committee is under oath, and reminds everyone previously sworn in that they remain under oath. He swore in the following Wil Lou Gray Opportunity School staff:

- Gary Newsome, Residential Director.

III. Stewart Cooner, WLGOS Board Vice-Chair provided remarks about the board's goals for the school.

IV. Director Smith and Ms. Scott Gaines (Principal) provide testimony about Wil Lou Gray’s student enrollment.

V. Agency staff respond to Subcommittee member questions about:

1. Enrollment procedures;
2. Marketing;
3. Board training; and
4. Student dropouts and expulsions.

Adjournment

I. There being no further business, the meeting is adjourned.
STUDY TIMELINE

Legislative Oversight Committee Actions

- May 3, 2018 - Prioritizes the agency for study
- May 9, 2018 - Provides the agency with notice about the oversight process
- July 17 – August 20, 2018 - Solicits input from the public about the agency in the form of an online survey
- January 14, 2019 - Holds Meeting 1 to obtain public input about the agency

Education and Cultural Subcommittee Actions

- January 31, 2019 - Holds Meeting 2 with the agency to receive an overview of the agency's history, mission, organization, products, and services
- February 12, 2019 – Holds Meeting 3 with the agency to receive testimony about student enrollment
- February 28, 2019 – Holds Meeting 4 with the agency

Wil Lou Gray Opportunity School Actions

- March 11, 2015- Submits its Annual Restructuring and Seven-Year Plan Report
- January 11, 2016- Submits its 2016 Annual Restructuring Report
- September 2016- Submits its FY 2015-16 Accountability Report/Annual Restructuring Report
- September 2017- Submits its FY 2016-17 Accountability Report/Annual Restructuring Report
- November 11, 2018- Submits its Program Evaluation Report
- January - TBD 2019- Meets with and responds to Subcommittee inquiries

Public’s Actions

- July 17 – August 20, 2018 - Provides input about the agency via an online public survey
- January 14, 2019 – Provides testimony at public input meeting
AGENCY OVERVIEW

Snapshot

Wil Lou Gray Opportunity School

Agency History
In 1921, Dr. Wil Lou Gray, Supervisor of Adult Schools for the SC Department of Education, opened the Opportunity School in Tamassee as an experiment in adult education for women and girls. Between 1931 and 1957, the school rotated around the state, including stops at Anderson, Erskine, Lander, Clemson, and Columbia Colleges. In 1957, the General Assembly declared the school a body politic under the oversight of a Board of Trustees.

Agency Mission
Serve those citizens of South Carolina between sixteen and nineteen years of age who are most at risk of:
- Being retained in their grade in school.
- Dropping out of school and not completing their education.
- Not making the transition from public schools to the workforce.
- Being truant from school, or whose home, school or community environment hinders rather than enhances the chance that they will stay in school and become prepared for employment.

Five Major Service Divisions
- Residential
- Academic Services
- Counseling Services
- Healthcare
- Admissions

Fiscal Year 2018-19 Resources
- 98,41 available FTEs (87.04 filled)
- $8,927,095 appropriated and authorized to spend

Successes
- Increasing individual GED pass rates
- Partnering with S.C. Vocational Rehabilitation to recover dropouts and provide services geared toward obtaining gainful employment
- Providing service learning opportunities for students

Challenges
- Retaining agency staff
- Declining requisite academic proficiencies
- Coordinating services with other agencies

Emerging Issues
Competing alternative programs, increasing number of applications with chronic mental health and acute medical issues, and Managing a secure, open campus environment

Provide productive educational services to students between the ages of 16 to 19

Enroll and retain student population for each 14-week session

Maintain Human Resource standards to meet the overall mission of the Opportunity School
Goal 1

Provide productive educational services to students between the ages of 16 to 19

Strategy 1.1
Maintain and evaluate testing outcomes annually.
Vision

In continuing with the mission of the late Dr. Gray, it is the main goal of the Opportunity School to provide an education to the at-risk population in South Carolina. The Academic Department is the very core of our existence and in keeping with the motto, “Why Stop Learning?”, it is this reason we remain committed to providing each student with academic and vocational skills necessary to become productive, employable young adults.

February 28, 2019 Education and Cultural Subcommittee Meeting Packet
Strategy 1.1
Maintain and evaluate testing outcomes annually.

- TABE Testing
- Special Education Services
- Work Ready Skills
- GED Testing
The TABE test is the very first tool we use to evaluate the student’s skill levels in Math and English.

This test is given during the first week of school to determine what grade level each student is on academically and to assist in scheduling and adapting “individualized” instructional methods accordingly.

Prior to the completion of each 14-week session, the students are tested again to measure their academic progress.
Math TABE 2017-2018

During the 2017-2018 Academic School Year, the average Math score was at a 5.9 Grade Equivalency, which accounted for 76% of our population, 354 students.

Although some students have increased their Grade Equivalency by as much as 5 years within a 14-week session, the average is about 18 months.
English TABE 2017-2018

During the 2017-2018 Academic School Year, the average English score was at a 4.8 Grade Equivalency, which accounted for 82% of our population, 354 students.

The average Grade Equivalency growth was 17 months in a 14-week session.
TABE Success

- Customized curriculums to meet the needs of the at-risk students.
- Instruction by highly qualified, masters-level teachers in the four core GED areas:
  - Science
  - Social Studies
  - Mathematics
  - Reading/Language Arts
- Maximum class size of 12 students in academic core classes.
- 1:1 utilization of computerized programs on Chromebooks such as IXL and Keytrain, paired along with direct instruction and collaborative learning projects.
Special Education

In order to better prepare individualized instruction for students with special education needs, our Principal dually serves as the Special Education Coordinator. Within the first week of academic instruction, those students with an IEP (Individualized Education Program) or 504 Plan meet with the Coordinator, Medical Staff and Counselor, along with their guardians, to ensure accuracy of accommodations required and implemented.
Special Education Success
2017-2018

354 students enrolled
194 students earned a GED
85 had either a 504 Plan or an IEP
34 students with only an IEP earned their GED

18% SUCCESS RATE
Work Ready Skills

As part of the academic curriculum for the students, work ready skills are offered through the WorkKeys Assessment, ASVAB and Vocational Classes. Giving the students options is very important since not all pursue the same path in life. In cooperation with Lexington School District II and Lexington School District IV Adult Education we are able to provide our students with the WorkKeys testing free.
WorkKeys Assessment
2017-2018

The WorkKeys Assessment is given to each student that enrolls at the Opportunity School. This tool is used throughout South Carolina by employers to evaluate a variety of work ready skills of future employees.

There are four levels of WorkKeys Cards:
Bronze • Silver • Gold • Platinum

163 students received a Silver Card or above.
Work Keys Assessment
Silver and Above
2017-2018

46%

163 Students
354 Silver Cards & Above
ASVAB Testing
2017-2018

• The Armed Services Vocational Aptitude Battery (ASVAB) is a multiple choice test, administered by the United States Military Entrance Processing Command, used to determine qualification for enlistment in the United States Armed Forces.

• As part of our academic curriculum, all students are required to take the ASVAB.

• The minimum score to enlist in the Army and Marines is 31 and a 50 for the Air Force and Navy.
ASVAB Testing Success

- Total Students: 65%

February 28, 2019 Education and Cultural Subcommittee Meeting Packet
GED Testing

The Academic Department is focused on one particular goal, and that is to motivate “at-risk” students to become productive, employable young adults through academic and vocational coursework. The Wil Lou Gray Opportunity School simply would not be in existence if that main mission was not successful. Through the use of advanced technology, individualized instruction, and state certified teachers we have created the perfect balance for GED success for the citizens of South Carolina.
The General Equivalency Degree, GED, refers to a system of standardized examinations which entitle those who pass to receive a credential considered as equivalent to completion of high school.

The GED® test covers 4 subjects:
- Math
- Science
- Social Studies
- Language Arts

Our students usually take one or two tests per day at an official GED® test center.

The minimum score to pass each section is a 145.
How we make it happen:

- Give the TABE for Math and Language Arts
- Satisfy IEP and 504 recommendation by the SCDOE
- Individualize lesson plans for each student for academic success
- Determine and implement counseling needs to assist in academic success
- Provide Pre-GED testing to evaluate pass rates of the GED
- Coordinate testing schedules for the GED
- Apply and complete required steps for specialized testing with accommodations for special needs population
- Transport students to available Pearson Testing Centers
GED Results
2017-2018

During the 2017-2018 Academic Year there were 981 attempts made to pass the four individual sections. Of the 981 attempts, 819 were successful. Resulting in an 83% GED Pass Rate.

The 194 of 225 students who attempted all four sections received their GED. This resulted in an 86% GED Success Rate.
GED Pass Results
2017-2018

55%
Goal 1

Provide productive educational services to students between the ages of 16 to 19

Strategy 1.2

Student success post graduation
2017-2018 Graduate Survey

- College: 24%
- Working: 64%
- Military: 8%
- Miscellaneous: 4%

120 students surveyed at graduation ceremony
1. Provide productive educational services to students between the ages of 16 to 19

2. Enroll and retain student population for each 14-week session

3. Maintain Human Resource standards to meet the overall mission of the Opportunity School
Goal 2

Enroll and retain student population for each 14-week session

Continuation from February 12, 2019 presentation with an emphasis on Retention.

Strategy 2.2

Monitor and *retain student enrollment* through admissions profiling.
Vision

There are many facets to serving the “at-risk” students at Wil Lou Gray, all of which contain specific objectives in obtaining the overall mission. Enrollment may be the first step, but retention is a goal that requires detailed involvement and professional expertise from all levels of staff equipped to handle the needs of the students we serve. No two students are alike, which is why we develop individualized academic, social, medical and mental agendas accordingly.
Keeping the students focused on obtaining their GED involves **THREE STRATEGIES** we developed to assist in retention.
In keeping with the mission of the Opportunity School, the Counseling Department provides a variety of mental health services necessary to retain students. As part of our program, one-on-one counseling sessions are available to all students. This allows the student to openly discuss their current mental health and assist the counselor in diagnosing a social-emotional readiness plan for them to succeed academically.

SI/ Injurious 33%
To assist with retention and academic success, all students are given the Scholar Centric Resiliency Assessment to guide counseling sessions. This program helps identify the root causes of a student’s disengagement, which are often symptoms of deeper social and emotional issues. When educators are empowered with data about students’ resiliency, they can specifically target underlying issues and improve academic performance, attendance, behavior, and graduation rates. The *Success Highways* Resiliency Assessments measure students’ aptitude in six resiliency areas that have been shown by research to dramatically impact academic achievement.
II. Status of Academic Resiliency - Means Comparison Analysis

The graph below provides an overview of where your students as a group score on the Clear Path assessment as compared to the Success Profile means. By providing the means of successful students your school can easily see whether your students are experiencing more than typical risk in a resiliency area. This data can be used by your school to determine how much overall improvement is needed and which resiliency areas generally need the most attention.

![Graph showing comparison between School Means and Success Profile Means for various resiliency factors.](image-url)
II. Status of Academic Resiliency - Academic Risk and Success Profiles

School-Wide Analysis

While the Means Comparison Analysis on the prior page offers a good overview of how your students compare with risk and success profiles and district norms, the below chart may account for outliers within the group who may be pulling the means up or down. This display shows the percentages of students who fit within the Risk, Intermediary and Success Profiles. Your school can use this information to further target areas most in need of improvement.

<table>
<thead>
<tr>
<th></th>
<th>Risk Profile</th>

</tbody>
</table>

Students who did not complete a skill section are not included in that particular skill’s analysis. For this reason, the School-Wide Analysis percentages may not add up to 100%.
Academic Risk Index

The Academic Risk Index indicates each student’s level of risk of academic failure based on that student’s responses within the five sub-scale measures proven to be most predictive of future academic performance. The below chart shows the percentage of students who have an Academic Risk Index score of 60%.

The total number of students who had an Academic Risk Index score of 60% or higher is 28.
In keeping with the mission of the Opportunity School, the Healthcare Department provides a variety of health services on a daily basis. To promote academic success and retention, all students requiring scheduled medications and daily health management are seen before and after academic instruction.
