DEPARTMENT OF PARKS, RECREATION AND TOURISM - 11/2/2018		
Finding: The Committee finds lack of clarity pertaining to maintenance responsibility for signage or landscaping near an interstate allows for situations that may negatively impact the Department of Parks, Recreation, and Tourism’s efforts to promote South Carolina to those who travel through it. When a local government is granted an easement to construct signage or landscaping near an interstate (e.g., welcome to the state or county), there is usually no condition that the local entity maintain the appearance of the signage or landscaping or that it be removed if it falls into disrepair.

COMMISSION ON INDIGENT DEFENSE - 11/2/2018		
Finding: S.C. Code Section 17-3-45(b) is an example of lack of clarity regarding which entity is responsible for ensuring accurate collection and remittance of fines and fees as it states the entity responsible is the clerk of court “or other appropriate official.” This issue, relating to fines and fees which fund indigent defense services, further supports the Committee’s recommendation from its study of the Law Enforcement Training Council and Criminal Justice Academy that the General Assembly should consider clarifying statutes regarding fines and fees (e.g., to indicate which entity is responsible for ensuring county and local governments properly collect and remit these and additional options for enforcement to ensure compliance).		
Finding: there is not uniformity across the state with regards to screening for indigent defense representation
