## Fiscal Year 2020–2021 Accountability Report

---

### SUBMISSION FORM

I have reviewed and approved the data submitted by the agency in the following online forms:

- Reorganization and Compliance
- Strategic Plan Results
- Strategic Plan Development
- Legal
- Services
- Partnerships
- Report or Review

I have reviewed and approved the financial report summarizing the agency's budget and actual expenditures, as entered by the agency into the South Carolina Enterprise Information System.

The information submitted is complete and accurate to the extent of my knowledge.

<b>AGENCY DIRECTOR</b> <b>(SIGN AND DATE):</b>	Signature on file.
<b>(TYPE/PRINT NAME):</b>	Sara Goldsby

<b>BOARD/CMSN CHAIR</b> <b>(SIGN AND DATE):</b>	
<b>(TYPE/PRINT NAME):</b>	

FY 2020-2021 Agency Accountability Report				
Reorganization and Compliance Responses:				
These responses were submitted for the FY 2020-2021 Accountability Report by the				
DEPART. OF ALCOHOL & OTHER DRUG ABUSE SERVICES				
Primary Contact:				
First Name	Last Name	Role/Title	Phone	Email Address
Stephen Lee	Dutton	Chief of Staff	803-896-1142	sldutton@daodas.sc.gov
Secondary Contact				
First Name	Last Name	Role/Title	Phone	Email Address
Sharon	Peterson	Manager, Finance and Operations	803-896-1145	speterson@daodas.sc.gov
Agency Mission				
To ensure the availability and quality of a continuum of substance use services, thereby improving the health status, safety, and quality of life of individuals, families, and communities across South Carolina.				
Adopted in:	2016			
Agency Vision				
DAODAS will be an innovative leader, facilitating effective services and compassionate care through a network of community partnerships and strategic collaborations.				
Adopted in:	2016			
Recommendations for reorganization requiring legislative change.				
Yes				
The agency is not making recommendations for agency internal or external reorganization, but does plan to offer legislation to its original enabling legislation to accurately reflect the agency's activities and to delete obsolete language.				
Please list significant events related to the agency that occurred in FY 2020-2021.				
Month Started	Month Ended	Description of Event	Agency Measures Impacted	Other Impacts
July	June	High Impact Trafficking Data Tracking	Overdose Rates and Sudden Overdose Increases	Potential Lives Saved
July	June	Federal Block Grant COVID Award.	All metrics impacted related to service provision.	Increases capacity, access, engagement and retention of patients in services..
July	June	American Recovery Federal Award	All metrics impacted related to the provision of prevention, intervention, treatment and recovery services.	Increases capacity, access, engagement and retention of patients.
July	June	Implemented a Block Grant Funding Re-allocation plan.	All metrics impacted related to the provision of prevention, intervention, treatment and prevention services..	Provides for a rational method of distributing block grant funding based on a rational formula.
July	June	Continued SC HOPEs, a COVID 19 response grant that includes a hotline for those suffering from co-occurring disorders.	Collaboration with DMH to address co-occurring disorders with online counselors to address emerging co-occurring problems associated with the isolation brought on by the pandemic.	Increases, capacity, access, engagement and retention of patients across two service systems.
June	July	Continued to collaborate with DSS through a shared liaison.	Increase communication and referrals of DSS involved individuals into the substance use disorder system. of care.	Increases access and engagement of DSS involved mothers and children.
June	July	Began distributing fentanyl strips to community distribution providers.	Increased harm reduction strategies	Potential Lives Saved.
June	July	Began working with local Veterans Groups.	Build capacity for delivering intervention and recovery services for veterans.	Increasing access, engagement and retention of veterans who need SUD Services.
June	July	Began an internal re-work of the contracting process.	Work Flow processes.	Reduced contract paperwork and increased capacity to in both program and compliance departments.
June	July	Contracted for OTP Oversight with Medicaid.	Provides oversight to OTP program staffing, services and operations.	Increases Quality Assurance.
Does the agency intend to make any other major reorganization to divisions, departments, or programs to allow the agency to operate more effectively and efficiently in FY 2021-22?				
Note: It is not recommended that agencies plan major reorganization projects every year. This section should remain blank unless there is a need for reorganization.				
Yes				
The agency will be implementing a new contract management system is current fiscal year (2021-2022).				

These responses were submitted for the FY 2020-2021 Accountability Report by the
DEPART. OF ALCOHOL & OTHER DRUG ABUSE SERVICES

Is the agency in compliance with S.C. Code Ann. § 2-1-220, which requires submission of certain reports to the Legislative Services Agency for publication online and the State Library? See also S.C. Code Ann. § 60-2-20.

Yes
If not, please explain why.

Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 20-1-10 through 20-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210).

Yes
-----

Does the law allow the agency to promulgate regulations?

Yes
Please list the law number(s) which gives the agency the authority to promulgate regulations.

Has the agency promulgated any regulations?

No
----

AGENCY NAME:	South Carolina Department of Alcohol and Other Drug Abuse Services		
AGENCY CODE:	J200	SECTION:	037

## **AGENCY INTRODUCTION AND PERFORMANCE FY2020-2021**

The use of alcohol, tobacco, and other drugs affects South Carolinians of all ages and from all walks of life. Problems resulting from these substances surface in our homes and schools, on our roads and highways, and in our workplaces and criminal justice system. Drug and alcohol use in the United States costs the nation **\$1.45 trillion** annually in economic loss, societal harms through quality of life adjustment, and premature loss of life.

Recognizing the need for direct services for the general public, as well as for specific high-risk groups, the South Carolina Department of Alcohol and Other Drug Abuse Services (DAODAS) purchases a wide array of prevention, intervention, treatment, and recovery services through a community-based system of care. DAODAS subcontracts with 32 county alcohol and drug abuse authorities to provide the majority of direct services to citizens in all 46 counties of the state. The department also contracts with a range of public and private service providers to address substance use disorders throughout South Carolina. DAODAS has expanded its partners to include 25 opioid treatment programs, 10 recovery organizations, five hospitals, and 76 community distributors of the overdose antidote Narcan®. Since the county alcohol and drug abuse authorities were created in 1973, these local agencies have provided intervention and treatment services to more than 3.42 million South Carolinians and touched the lives of countless individuals and families through the many prevention activities coordinated and provided by this system.

DAODAS estimates that approximately 451,000 individuals in South Carolina are suffering from substance-related problems that require immediate intervention and treatment. With a problem of this magnitude, the department must continue to ensure that individuals and families access the vital core services purchased by DAODAS through the statewide system of county authorities (i.e., its local provider network), as well as other public and private contractors. During fiscal year 2020-2021 (FY21), DAODAS and its provider network delivered services to 42,832 South Carolina citizens.

### **Mission and Values**

The DAODAS mission statement focuses on achieving positive health outcomes and increasing the quality of life of South Carolinians:

*To ensure the availability and quality of a continuum of substance use services, thereby improving the health status, safety, and quality of life of individuals, families, and communities across South Carolina.*

At the heart of this statement are the agency's core values of Accountability, Excellence, Collaboration, Effectiveness, Integrity, Leadership, Trust, Respect, Transparency, and Accomplishment.

### **DAODAS Strategic Direction**

Capitalizing on 64 years of success in ensuring access to substance use disorder (SUD) services for the citizens of South Carolina, throughout FY21 the department continued to provide the necessary leadership toward a refined strategic direction for the agency itself, as well as the direction of the addictions field. DAODAS continues to emphasize the following goals: (1) to increase and improve collaborative efforts, (2) to increase capacity and access to services, (3) to promote individual and community engagement, (4) to retain patients in need of services within the SUD system, and (5) to integrate healthcare systems for both physical and behavioral health – essentially ensuring “the right service at the right time in the right environment.” These goals directly relate to the Enterprise goals established by Governor Henry McMaster, with a primary emphasis on healthy and safe families, public infrastructure and economic development, and government and citizens. In addition, DAODAS continues to emphasize performance and service quality by supporting service innovation and increasing stakeholder participation. Finally, the

<b>AGENCY NAME:</b>	<b>South Carolina Department of Alcohol and Other Drug Abuse Services</b>		
<b>AGENCY CODE:</b>	<b>J200</b>	<b>SECTION:</b>	<b>037</b>

department and its contractors work to increase access to a service continuum across the state by improving key DAODAS and provider processes.

Specific areas of focus in FY21 included: increasing capacity of local providers to serve the state's citizens in need of substance use disorder prevention, intervention, treatment, and recovery services, thereby impacting access disparities; enhancing individual, family, and community outcomes; increasing coordination efforts; primary healthcare / behavioral health integration; and addressing the agency's overarching goal of achieving sustainable recovery for the patients it serves. The department also has been instrumental in coordinating the state's response to the opioid crisis, which was declared a public health emergency by Governor McMaster in December 2017.

### **FY21 Major Achievements**

To meet the continuing demand for substance use disorder services, DAODAS took a proactive approach to serving citizens during FY21, continuing to reach the agency's overarching goal of achieving sustainable recovery for citizens, while reducing use/misuse of substances and harm, thereby improving healthcare outcomes. In keeping with the agency's strategic plan and visionary goals, the following achievements are highlighted:

#### **Prescription Drug Abuse**

On December 18, 2017, Governor McMaster signed Executive Order No. 2017-42, declaring a Statewide Public Health Emergency related to opioid misuse, opioid use disorder, and opioid-related deaths. The Executive Order also established the South Carolina Opioid Emergency Response Team (SCOERT), under the joint leadership of South Carolina Law Enforcement Division Chief Mark Keel and DAODAS Director Sara Goldsby. The SCOERT has developed a multi-lateral strategy to prevent and treat the misuse of prescription opioids and the use of illicit opioids in order to strengthen public health, security, safety, and the economic well-being of the citizens of the state.

The SCOERT continues to ensure the execution of objectives to meet statewide goals for education and communication, prevention and response, treatment and recovery, coordinated law enforcement strategies, and data collection and analysis. The team promotes interagency coordination for an efficient and comprehensive approach to the opioid crisis. As a result of this effort, DAODAS was instrumental in the following accomplishment:

- Developing a coordinated state-level collaboration and initiating a protocol for real-time overdose surveillance and rapid response with local mobilization. The protocol establishes a framework for monitoring and responding to trends in suspected overdoses in South Carolina. The aim of this effort is to reduce injury and death from overdoses by identifying geographical high-burden areas to target strategies for preventing overdose deaths and to synchronize response efforts across stakeholders and mobilize local partners to deploy resources to limit the effects of suspected drugs. The protocol focuses on routine monitoring, enhanced investigation, and rapid response.

In Year 1, the Rapid Response team identified 50 instances of targeted outreach in 30 counties across nine cross-jurisdictional/statewide. The effort has identified an increase in overdose "hot spots," with law enforcement, public health, hospitals, coroners, prescribers and dispensers, and substance use disorder treatment agencies collaborating to rapidly address the problem by working to identify individuals in need of treatment and ensuring that Narcan® is available in those communities to family members and others in need of the overdose-reversal drug. Longer-term outcomes include increased real-time knowledge of overdose trends, expanded uptake of evidence-based initiatives and innovative strategies, and greater targeting of resources to address opioid overdose burden. It is also mitigating growth in morbidity and mortality through

AGENCY NAME:	South Carolina Department of Alcohol and Other Drug Abuse Services		
AGENCY CODE:	J200	SECTION:	037

increased naloxone distribution and fewer overdoses following rapid response outreach to local partners about trends.

DAODAS has also worked with the House Opioid Study Committee, which recognized that opioid misuse and addiction are widespread and affect every corner of the state. As a result of this ongoing collaboration, the department implemented Community Distribution Guidelines for the delivery of Narcan® to those citizens most in danger of an overdose. To date, the agency has approved 76 community distributors, including treatment providers, recovery organizations, healthcare providers, homeless outreach organizations, and state agencies.

In FY21, the department continued using state appropriations to expand a program of medication-assisted treatment (MAT) throughout South Carolina. Funds were expended to increase the state's capacity to serve individuals experiencing opioid use disorder, with DAODAS contracting with a majority of local substance use disorder providers for medications, physician services, counselors/therapists, and peer support specialists. The department has increased the number of providers offering MAT from a baseline of three local substance use disorder providers to 31 local providers and several state agency partners. All county alcohol and drug abuse authorities have access to state and federal funding to cover behavioral health therapies for the opioid use disorder population. During FY21, DAODAS continued its contract with a departmental Medical Director to assist in the development and expansion of MAT across the medical and behavioral healthcare systems, and to work with Federally Qualified Health Centers on behavioral health models.

The department continued to administer the South Carolina Overdose Prevention Grant, a federal grant sponsored through the Substance Abuse and Mental Health Services Administration. The grant has three main goals: (1) to identify high-need communities for targeting of prevention efforts in rank order of highest need; (2) to train law enforcement officers (first responders) and, similarly, firefighters, patients, and caregivers to recognize overdose, administer naloxone, and monitor an individual's response until EMS personnel arrive; and (3) to increase the number of prescribers in the state who are informed on the risk factors associated with opioid overdose and to partner with the South Carolina Pharmacy Association to disseminate overdose prevention messages to prescribers across the state. To bolster prescribers, the department championed state legislation that directly impacts the ongoing opioid crisis. **S571** was enacted to increase prescribers' conversations with their patients who may have been prescribed opioids or benzodiazepines. A prescriber now should offer a prescription of naloxone to those patients who are at the highest risk of overdose.

With the help of its partner agency, the South Carolina Department of Health and Environmental Control, DAODAS has trained more than 11,448 law enforcement officers in 262 departments across the state as part of the Law Enforcement Officer Narcan® (LEON) effort and the Reducing Opioid Loss of Life (ROLL) program, which has trained 2,097 firefighters in 119 departments. Due to its success, DAODAS has been awarded a grant for fiscal years 2022 through 2025 to continue this program and will additionally focus on the Community Outreach by Paramedic Education (COPE) program which will include having first responders making a visit back to the patient they revived and to deliver Narcan® to that individual.

### **State Opioid Response Grant**

In October 2018 and again in October 2020, South Carolina was awarded a State Opioid Response Grant totaling \$35 million each cycle, from the Substance Abuse and Mental Health Services Administration (SAMHSA) to continue the state's comprehensive approach to fighting the opioid epidemic.

<b>AGENCY NAME:</b>	<b>South Carolina Department of Alcohol and Other Drug Abuse Services</b>		
<b>AGENCY CODE:</b>	<b>J200</b>	<b>SECTION:</b>	<b>037</b>

DAODAS, utilized the two-year SOR grant (September 30, 2018 – September 30, 2020) from SAMHSA’s Center for Substance Abuse Treatment and Center for Substance Abuse Prevention to address the opioid and stimulant crisis by increasing access to treatment, reducing unmet treatment needs, and reducing opioid overdose-related deaths through the provision of prevention, treatment, and recovery activities for opioid use disorders. DAODAS is utilizing the current SOR grant to continue projects in the aforementioned areas. DAODAS has expanded this campaign to E.

DAODAS has partnered with all 32 county alcohol and drug abuse authorities that provide substance use disorder prevention, intervention, treatment, and recovery-support services statewide; the leadership of Behavioral Health Services Association of South Carolina Inc. (BHSA, the county authorities’ membership organization); S.C. Association for the Treatment of Opioid Dependence and its members that operate opioid treatment programs in all regions of the state; the Medical University of South Carolina (MUSC); S.C. Department of Health and Environmental Control; S.C. Department of Corrections; S.C. Pharmacy Association; and Faces and Voices of Recovery South Carolina.

The SOR grant funds an ongoing comprehensive response to the opioid epidemic that:

- addresses stigma and the need for action through a statewide multi-layered media campaign. DAODAS launched this campaign, “Just Plain Killers” ([www.justplainkillers.com](http://www.justplainkillers.com)), to educate the public on the prescription opioid crisis and to provide prevention information to help stop the epidemic, as well as providing information on treatment and recovery resources; DAODAS has expanded this campaign to raise awareness of the Recovery process of change through which individuals improve their health and wellness, live self-directed lives and strive to reach their full potential, ([www.embracerecoverysc.com](http://www.embracerecoverysc.com)).
- expands and enhances the state’s Opioid Overdose Prevention Program, providing Narcan® to all county alcohol and drug abuse authorities, recovery community organizations, and opioid treatment programs; and
- provides financial assistance to indigent South Carolinians for medications and talk therapy, expanding access to clinically appropriate, evidence-based practices for opioid use disorders. DAODAS developed a funding stream for county alcohol and drug abuse authorities to provide access for indigent persons to behavioral therapies and medicine to treat opioid use disorder and also supported the new position of Medication-Assisted Treatment (MAT) Coordinator in local agencies across the state. This position was tasked with supporting integrated health care and building behavioral health teams. MAT Coordinators serve persons via care coordination services.

In addition, the matter of substance misuse in rural areas is being addressed, supporting rural counties to develop relationships with medical providers, either internally or through external relationships, to provide comprehensive evidence-based care to patients. The counties needing this support in particular are Abbeville, Allendale, Barnwell, Calhoun, Chester, Clarendon, Chesterfield, Edgefield, Hampton, Marion, McCormick, Newberry, Saluda, and Union.

The SOR grant also provides funding to increase MAT services for 25 opioid treatment programs (OTPs) in high-need counties across the state. All OTPs have continued to impact the opioid epidemic in South Carolina by improving access to treatment through the provision of financial assistance to indigent South Carolinians receiving methadone treatment, thereby providing methadone to patients who have no other means of receiving this medication;

- enhances and expands the provision of peer support and other recovery-support services;

<b>AGENCY NAME:</b>	<b>South Carolina Department of Alcohol and Other Drug Abuse Services</b>		
<b>AGENCY CODE:</b>	<b>J200</b>	<b>SECTION:</b>	<b>037</b>

- provides assistance to individuals returning to their communities from criminal justice settings;
- partners with MUSC to expand medication-assisted treatment and opioid use disorder services across the state and ongoing professional education through the MUSC Center for Telehealth and the expansion of Project ECHO (a successful model for linking primary care clinicians with addictions counselors to jointly manage complex illness using real-time learning made possible by teleconferencing technology). In 2020 the ECHO project was expanded to include specialty sessions for Peer Support Specialists.

As an outcome of receiving recent SOR funding September 30,2020 to June 30,2021, 12,535 Narcan® kits were distributed to individuals. Unique individuals received the following: from September 30, 2020 - to date:

- 1196 received methadone maintenance services;
- 2123 received buprenorphine;
- 18 received injectable naltrexone; and
- 9611 received recovery support services.

### **SOR Prevention Projects**

DAODAS provides funding to Children's Trust of South Carolina to implement the Strengthening Families Program (SFP) in three rural counties – Dorchester, Fairfield and Union. Children's Trust, a statewide organization focused on the prevention of child abuse and neglect, provides funding, resources, and training to help local program partners build strong families and positive childhoods. The SFP serves families with children ages 6 to 11 through local partners in settings that include community centers, schools, and churches. SFP is designed to help families develop positive discipline practices, stay resilient during tough times, reduce conflict, improve parenting skills, and assist children with social skills, relationships, and school performance. All of these factors play an important role in keeping families strong while protecting against potential abuse or neglect, substance misuse, and adverse childhood experiences. Dorchester County implemented two cycles of the SFP, reaching 21 families. Fairfield County implemented two cycles of the SFP, reaching 22 families and Union implemented one cycle reaching 12 families.

DAODAS issued a Request for Proposals (RFP) to select community organizations to receive funding from the SOR grant to implement evidence-based primary prevention strategies throughout the state. The RFP was issued on the DAODAS website in October 2020. DAODAS received 30 applications for competitive review. The purpose of the Prevention SOR 2.0 grant is to prevent opioid and stimulant misuse and reduce the consequences of opioid and stimulant misuse in South Carolina by supporting the implementation of evidence-based environmental and educational primary prevention strategies. A total of 22 Prevention SOR 2 sub-grants were awarded effective December 1, 2020. As of March 31, 2021, implementation activities and number of people reached were reported for 17 sub-grantees. Across the five strategy categories, sub-grantees reported 846,630 people were reached.

General population strategies such as permanent prescription drug drop boxes and data tracking and/or visualization software to build capacity to identify problem areas reached the highest number of people. Implementation continued through the spring and summer. Final reports will be submitted by the grantees in mid-late September as the funding ends September 17, 2021.

To expand HIV/HCV testing and linkage to care among the recovery community beyond the 1 original RCO site funded in the first year of the SOR (FAVOR Greenville in Greenville county), DAODAS solicited applications via an RFP process to fund up to 3 single-year recovery community organization

<b>AGENCY NAME:</b>	<b>South Carolina Department of Alcohol and Other Drug Abuse Services</b>		
<b>AGENCY CODE:</b>	<b>J200</b>	<b>SECTION:</b>	<b>037</b>

(RCO) sub-awards focusing on counties with high prevalence levels of HIV and hepatitis C virus (HCV). The purpose of the sub-awards is to support implementation of rapid HIV and HCV counseling, testing, and referral-to-care services within the awarded jurisdictional recovery communities. DAODAS successfully awarded 3 sites (with partnering AIDS Service Organizations or ASOs in each county) with the one-time funds that may be renewed for a second year. The organizations selected to receive funding are:

- *Wake-up Carolina* located in Charleston County (partnered with Palmetto Community Care ASO)
- *FAVOR Grand Strand* located in Horry County (partnered with Care Team Plus ASO)
- *Midlands Recovery Center* located in Lexington County (partnered with PALS ASO)

The agencies received all of the required training from SC Department and Environmental Control to conduct the rapid HIV and HCV counseling, testing and referral to care services in the spring and summer of 2021. Agencies began to implement testing as of July 2021. Data is in the process of being collected as the end of the first year of the project ends on September 29, 2021.

Saving lives is the primary goal of overdose prevention efforts in South Carolina. Since January 2018, the state's county alcohol and drug abuse authorities, opioid treatment programs, and recovery organizations have distributed thousands of doses of Narcan® to patients, caregivers, and community members through the Overdose Education and Naloxone Distribution (OEND) Program. From October 2020 through June 30, 2021, 10,968 Narcan doses were purchased through the SOR funding for Community Distributors and 12,535 were distributed to patients, caregivers and community members throughout the state.

In August, DAODAS developed an anonymous survey to understand how many lives are saved with Narcan administered by a caregiver/bystander. The survey is completed via a weblink and the purpose is to determine the outcome of the administration of the Narcan, how many Narcan doses were administered, if the person was transported via emergency medical services to the hospital for additional care after the administration and the county the administration took place in. Survey results will be utilized to demonstrate lives saved through community distribution of Narcan.

In May 2021, the federal Substance Abuse and Mental Health Services Administration (SAMHSA) notified all State Opioid Response (SOR) grantees that the use of SOR funds for the purchase and distribution of fentanyl test strips (FTS) was an allowable activity with this federal funding. South Carolina immediately worked to add this strategy to the existing overdose prevention efforts through the OEND Program.

Community distributors were provided the opportunity to receive SOR funding beginning in May to purchase and distribute FTS to patients, caregivers, and community members as part of the OEND Program. DAODAS developed program guidance documents, education materials on FTS use and interpretation, as well as training webinar that covered the requirements of the new program to ensure compliance with SAMHSA standards and requirements.

DAODAS also developed an anonymous survey for the FTS recipients to complete via a weblink. The purpose of the survey is to identify where fentanyl is being found and if there is behavior change among those persons who discover fentanyl in their substances. 30 Organizations have begun providing FTS in conjunction with the OEND programs throughout the state. Data will be collected at the end of September in order to report to SAMHSA the total number purchased and distributed throughout the first five months of the program

### **Telehealth**

DAODAS continues to make strides in the use of telehealth to enable county alcohol and drug abuse authorities to deliver services during the COVID-19 pandemic. Prior to the pandemic, the department had begun working with the South Carolina Telehealth Alliance to equip all county authorities with

<b>AGENCY NAME:</b>	<b>South Carolina Department of Alcohol and Other Drug Abuse Services</b>		
<b>AGENCY CODE:</b>	<b>J200</b>	<b>SECTION:</b>	<b>037</b>

telehealth carts and was subsidizing county authorities' broadband costs with state funds. During that time, no Medicaid reimbursement was available for telehealth rehabilitative behavioral health services, and prescriptions for buprenorphine were limited by the state's Board of Medical Examiners (BOME).

Actions taken to address these issues during the pandemic include Medicaid and DAODAS state support to reimburse providers for clinical services, including crisis management, individual psychotherapy, peer support, case management, and other behavioral health services provided via telehealth or telephone. DAODAS continued providing a \$5,000 stipend for the purchase of cellular telephones for use by patients needing access; worked with the BOME to approve additional prescribers to initiate buprenorphine via telehealth; and allowed counselors to use doxy.me to provide clinical services via laptop computer from their homes or offices.

Some positive results of these measures include increased patient retention and engagement, deeper clinical work with a glimpse of home and family life, reports of higher patient satisfaction, and increased desire to continue in services. The department hopes to increase its telehealth efforts with a range of providers in the coming fiscal year.

### **Ensuring Accessible Services**

Prevention services are the use of evidence-based approaches to create or enhance environmental conditions within communities, families, schools, and workplaces that protect individuals from substance abuse and help them develop personal decision-making skills to reduce the risk of alcohol-, tobacco-, and other drug-related problems.

Data shows that prevention efforts are positively impacting the department's goal of reducing underage drinking in South Carolina. Data also highlights that, under the department's leadership, community programs have resulted in a reduction in underage drinking.

In FY21, DAODAS continued to emphasize prevention programs associated with the reduction of underage drinking. The Alcohol Enforcement Team (AET) effort focuses on community coalition development and maintenance, merchant education, and law enforcement partnerships to reduce underage drinking activities. AETs seek to promote an evidence-based environmental prevention message to reduce alcohol use and its harmful consequences, coupled with active public education. In FY21, law enforcement officers reported there were 4,189 alcohol compliance checks, resulting in 409 purchases for an effective buy rate of 9.7%. While the buy rate is a bit higher than last fiscal year, fewer checks were conducted by law enforcement in FY21 due to the COVID-19 pandemic. In reviewing the data, compliance checks were impacted during the first quarter of FY21 (July-September 2020). DAODAS observed through data that the total number of checks decreased in April and May 2020 during the statewide shutdown, and it took time for new safety guidelines to be put in place for checks to continue. Data demonstrated that a total of 446 were conducted in July and August 2020. Steadily the number of checks increased throughout the fiscal year and averaged about 1,200 per quarter during the second half of the fiscal year.

As a result of intensive prevention programming throughout the state, youth use rates for all substances continued to decline. As reported from the Communities That Care Survey conducted in the spring of 2020, self-reported past-30-day use among South Carolina high school youth was as follows:

- use of alcohol has decreased to 10.4% (16% in 2018);
- use of marijuana is down to 8.1% (12.7% in 2018);
- use of cigarettes has decreased to 2.4% (5.2% in 2018);
- use of vaping products is down to 10.8% (14.9% in 2018); and

<b>AGENCY NAME:</b>	<b>South Carolina Department of Alcohol and Other Drug Abuse Services</b>		
<b>AGENCY CODE:</b>	<b>J200</b>	<b>SECTION:</b>	<b>037</b>

- prescription drug use has decreased to 3.9% (4.3% in 2018).

DAODAS and its local partners also participated in the federally required Youth Access to Tobacco Study to reduce South Carolina youth's ability to purchase tobacco products. Continuing a steady decline in the rate of youth access to tobacco, the agency documented a purchase rate of 4% in federal fiscal year 2020. The state FY21 study was conducted during the fall of 2020 and spring of 2021. Data is in the process of being compiled for a federal report due in December 2021.

To help combat opioid misuse, the Just Plain Killers campaign utilizes three mainstream social media platforms (Facebook, Instagram, and Twitter), with marketing partner Chernoff Newman responsible for creating branded, cohesive content to share across the platforms. Social media impressions in FY21 totaled 79,089. The breakdown of impressions for each platform is as follows:

- Facebook: 38,872
- Twitter: 30,192
- Instagram: 10,025

Impressions for the campaign decreased this fiscal year as funding dedicated to the campaign was allocated to the creation of the Embrace Recovery SC campaign that was launched on May 13, 2021, with a press conference featuring Governor McMaster. The campaign's paid media began on the three social media platforms (Facebook, Instagram, Twitter) as well as on broadcast, cable, and over the top television. Social media impressions in May and June for the Embrace Recovery SC campaign yielded 885,561 impressions. The breakdown of impressions for each platform is as follows:

- Facebook: 590,209
- Twitter: 4,116
- Instagram: 291,236

An evaluation of the Just Plain Killers campaign based on a statewide survey of 500 South Carolina residents was conducted March 11-19, 2020. This study is the third in a series designed and conducted to measure and monitor awareness, perceptions, and positions related to the abuse and misuse of opioids in South Carolina. The initial study, conducted in November 2017, served to establish a benchmark. Since then, two follow-up studies have been conducted – one in May 2018 and the one in March 2020 – which include Just Plain Killers advertising recall. The Just Plain Killers campaign continued to perform well in 2020. Statewide awareness is 57% for statements used in the campaign (up from 47% in May 2018) and 61% for recall of visual elements (up from 54% in May 2018).

### **Treatment Outcomes and Collaboration**

Through treatment and recovery services and programs in South Carolina, in fiscal year 2020 (the last year available), patients' past-30-day use of alcohol decreased to 16% from 38.8%; patients' past-30-day use of *any* substances decreased to 8% from 43.8%; and patients' past-30-day employment status rose to 55.9% from 49.6%. Additionally, DAODAS and its local provider network reported treating 6,959 patients with opioid use disorder (OUD), a decrease from 2019 attributed to the pandemic. The department is action-oriented in positively influencing the health of South Carolina citizens, as well as impacting the economy as patients seek and find employment.

DAODAS continued to work with the South Carolina Department of Corrections (SCDC) to better serve individuals involved in the justice system and to provide substance use disorder (SUD) services to youthful offenders released from prison to help reduce recidivism and SUDs. The program is a first step in re-integrating offenders back into the community. The program (Step UP!) is a first step in re-integrating offenders back into the community. During the past fiscal year, a total of 201 inmates with

<b>AGENCY NAME:</b>	<b>South Carolina Department of Alcohol and Other Drug Abuse Services</b>		
<b>AGENCY CODE:</b>	<b>J200</b>	<b>SECTION:</b>	<b>037</b>

ODU were provided medication-assisted treatment (MAT) and were referred to county authorities by peer support professionals.

A highlight of the partnership between DAODAS and SCDC is the MAT project, which focuses on inmates receiving a dose of Vivitrol before leaving SCDC. Eighty-four inmates have been diagnosed with OUD, and another 822 were provided transitional services. Additionally, inmates have been trained and certified as peer support specialists, enabling them to conduct meetings “behind the fence” and to be licensed by the South Carolina Department of Labor, Licensing and Regulation once they leave the prison system. Over 107 inmates have been trained in both men’s and women’s prisons. This is a particularly noteworthy occurrence that demonstrates promising results for the project, as the average recidivism rate in South Carolina is 21.9%.

DAODAS and the South Carolina Department of Mental Health (DMH) continue to coordinate services and programming across agencies for citizens with co-occurring mental and substance use disorders (SUDs). In partnership with DMH, DAODAS created the toll-free 1-800-SC-HOPES line, designed for any South Carolinian who is experiencing a mental health or addiction concern that has escalated due to the circumstances surrounding the COVID-19 pandemic. The 24/7 support line connects callers to licensed mental health and addictions counselors. Through June 1, 2021, more than 3,079 callers had connected with the SC-HOPES line and 2200 callers had been connected to those counselors. The program also aims to specifically serve the state’s healthcare professionals, as they experience unique mental health issues while serving on the front lines of the pandemic.

DAODAS is also looking to expand the agency’s drug court “footprint.” Due to a proviso in the past three Appropriations Acts, DAODAS was directed to expand its drug court efforts and contracted with York County to provide a medication-assisted treatment (MAT) drug court, partnering with Keystone Substance Abuse Services, York County’s alcohol and drug authority, to provide treatment for those drug court participants with a substance use disorder. This court allowed for provision of all three federally approved medications to address opioid use disorder. Based on this success, DAODAS is now exploring an additional drug court using the MAT model in the Sixth Judicial Circuit and is in discussions with the Eighth Judicial Circuit.

### **Recovery**

DAODAS has also been instrumental in working with recovery community organizations (RCOs) to expand their presence in communities across the state. South Carolina Faces and Voices of Recovery (SC FAVOR), a recovery advocacy coalition, is currently engaged in a strategic planning effort to refocus its efforts on building sustainable non-profit community organizations.

DAODAS has awarded sub-grants through a Request for Proposal process to eight RCOs. These awards are supporting the RCOs’ development as non-profit, community-based recovery support centers. RCOs provide recovery meetings, self-management and recovery training meetings, recovery coaching, and family support. The eight organizations served thousands of individuals each year. They also provide training for peer support certifications, an ongoing activity each fiscal year..

An ongoing project that has demonstrated progress is the expansion of Oxford Houses in areas identified by internal spatial gap analyses. In FY21, there were 94 Oxford Houses in South Carolina, with 58 men’s homes, 24 women’s homes and 12 women’s and children’s homes – a total of 644 male beds, 169 female beds, and 94 beds for women with children.

DAODAS Director Sara Goldsby has championed the safe recovery housing movement by leading the way to ensure that recovery homes meet national standards of quality. She has advocated for H3997, which establishes a voluntary certification program for recovery houses across South Carolina.

<b>AGENCY NAME:</b>	<b>South Carolina Department of Alcohol and Other Drug Abuse Services</b>		
<b>AGENCY CODE:</b>	<b>J200</b>	<b>SECTION:</b>	<b>037</b>

Additionally, DAODAS is working on an effort with the South Carolina Association of Recovery Residences (SCARR) to build and maintain a statewide list of certified homes and community-partnered homes, providing DAODAS with real-time bed counts as well as information on the services provided.

### **Risk Management and Mitigation Strategies**

Throughout FY21, the department continued to improve the effectiveness of the public and private provider system, striving for long-term patient outcomes and recovery, even during a national pandemic. System-wide, the goals for FY21 were to continue implementing a coordinated system of care, to implement research- and science-based protocols that increase chances for recovery, and to move toward a formula-based federal block grant funding process that will enhance the performance of providers and ultimately achieve improved health outcomes for patient. All goals were achieved.

Should the agency not reach its goals of delivering efficient and effective prevention, intervention, treatment, and recovery services, or should it fall short in meeting the opioid crisis head-on, the negative impact on the citizens of South Carolina would include an increase in overall mortality, increased healthcare costs, and a rise in addiction that would impact the workforce and the economic engine of the state, and ultimately the quality of life of all South Carolinians. Collateral impacts would include a rise in underage drinking and alcohol-related crashes, shortened life spans, and increased co-morbidities in chronic disease. Unfortunately, if the state does not address addiction and the opioid crisis, South Carolinians will continue to die of opioid overdoses at higher rates.

DAODAS relies on its partnerships with the Governor's Office, the General Assembly, sister state agencies, law enforcement, and the entire behavioral and medical healthcare community to mitigate these impacts. DAODAS suggests the following:

- continued attention to the disease of addiction and the possible rise in substance use disorders and needed services if a medical marijuana bill is enacted. Funding should be increased to address diversion of medical marijuana and to provide for the prevention of youth access to marijuana and treatment for those who become addicted should laws be enacted making medical marijuana legal;
- continued attention to the disease of addiction as a result of the opioid crisis, including stimulants. Funding should be elevated to address increasing capacity for services, medications, training of prescribers, and working with first responders to reverse overdoses;
- a focus on DUI policy to decrease drunken driving and car crashes. South Carolina ranks in the "Top 5" states for alcohol-related highway car crashes and deaths. Mandatory server training should be enacted; and
- a focus on telehealth expansion and allowing reimbursement for a range of medical and behavioral health services provided through this technology.

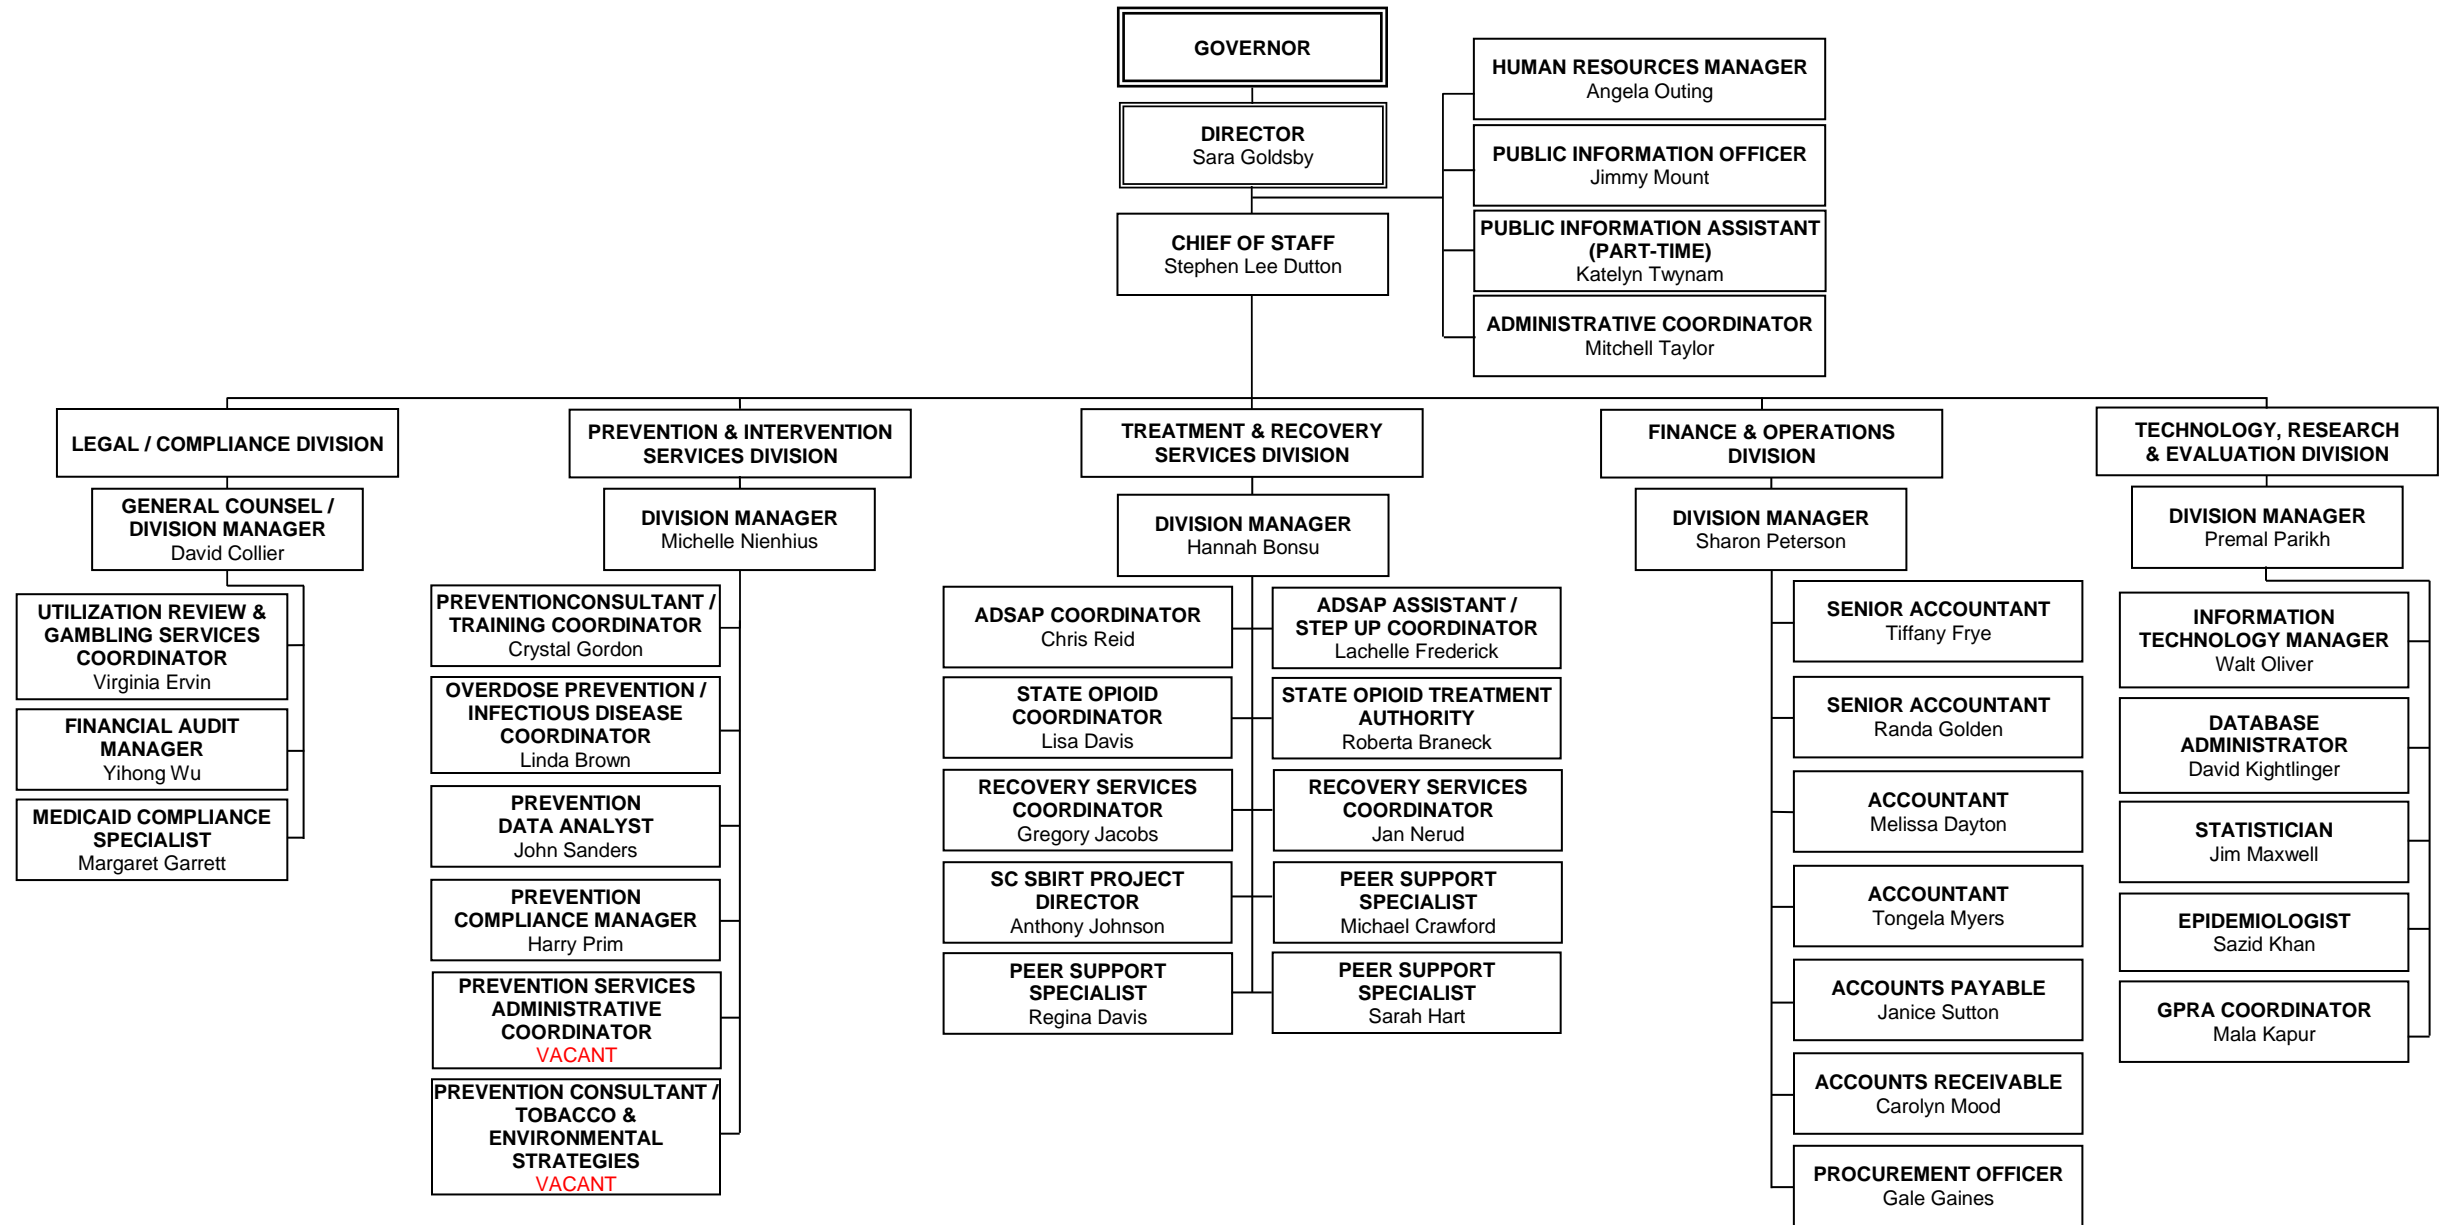

### **Restructuring Recommendations**

DAODAS believes this decision rests within the jurisdiction of the General Assembly, and the agency will work with the Governor's Office and the General Assembly to develop and outline a plan for restructuring, as directed, if legislation is enacted. As the single state authority for substance use disorders, and as a member of the executive branch of government, DAODAS is highly aware of the visibility that being a member of the Governor's cabinet brings to the issue of addiction. As the state faces the opioid epidemic, DAODAS feels it is best situated within the cabinet to address addiction issues

<b>AGENCY NAME:</b>	<b>South Carolina Department of Alcohol and Other Drug Abuse Services</b>		
<b>AGENCY CODE:</b>	<b>J200</b>	<b>SECTION:</b>	<b>037</b>

across the spectrum and to act as a true partner in healthcare integration – ensuring the right care, at the right time, in the right environment.

South Carolina Department of Alcohol and Other Drug Abuse Services (8/17/21)

FY 2020-2021 Agency Accountability Report  
FY2020-21 Strategic Plan:

These responses were submitted for the FY 2020-2021 Accountability Report by the  
DEPART. OF ALCOHOL & OTHER DRUG ABUSE SERVICES

Goal Create an Accessible Continuum of Effective Services within Each Community in 2019

Strategy 1.1 Statewide Enterprise Objective

Reduce Youth and Young Adult use of Alcohol, Tobacco and other Drugs Healthy and Safe Families

Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Primary Stakeholder	Stakeholder Need Satisfied	State Funded Program Number Responsible	Notes
1.1.1	Increase the Number of Individuals who receive Prevention Services by 1%	6163820	6225459	5348456	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Single Service Count	Impact / DAODAS Prevention Data System	DAODAS Division of Prevention	The public and local providers	Prevention Services provided to youth and adults reduces first use of among youth and arrests use among adults.	4502.000000.000	Services and outreach were affected by COVID-19 Pandemic
1.1.2	Maintain at least 250 DAODAS Supported Alcohol Enforcement Team Public Safety Checkpoints	352	250	376	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of local entities participating in checkpoints	DAODAS Mosaic Reporting	DAODAS Division of Prevention	Schools and local providers	Prevention Services are aimed at reducing first use among youth and therefore lifetime use and abuse. Decreases Youth Mortality Rate.	4502.000000.000	
1.1.3	Reduce Underage Drinking to 23% or under	23%	23%	23%	Percent	equal to or less than	State Fiscal Year (July 1 - June 30).	Number that self-reported as having drank while being underage in the past 30 days/ total number surveyed by the SC YRBS	Youth Risk Behavior Survey	SC Department of Education	Schools and local providers	Prevention Services are aimed at reducing first use among youth and therefore lifetime use and misuse.	4502.000000.000	This is the same percentage as the year before as the YRBS was not conducted by the CDC in 2021
1.1.4	Maintain Underage Alcohol Buy Rate under 10%	8%	10%	10%	Percent	equal to or less than	State Fiscal Year (July 1 - June 30).	Number of violations over the total number observed	Mosaic, Pacific Institute for Research and Evaluation	DAODAS Division of Prevention	The public and local providers	Prevention Services are aimed at reducing first use among youth and therefore lifetime use and abuse.	4502.000000.000	
1.1.5	Reduce Alcohol-involved Car Crashes by 1%	31%	30%	28%	Percent	equal to or less than	State Fiscal Year (July 1 - June 30).	number of deaths in crashes where BAC is .08% or greater / total number of deaths in crashes	Fatality Analysis Reporting System (FARs) / NHTSA Database	Online database	The public and local providers	Prevention Services are aimed at reducing first use among youth and therefore lifetime use and abuse. Decreases Youth Mortality Rate.	4502.000000.000	Moving forward, will look to maintain alcohol-involved car crashes to 30% or less as altered target in future
1.1.6	Keep underage access to tobacco (Synar) to 10% or less	7%	10%	4%	Percent	equal to or less than	Federal Fiscal Year (October 1 - September 30)	Number of violations over the total number observed	Youth Access to Tobacco Study / DAODAS	DAODAS Division of Prevention	The public and local providers	Prevention of Tobacco Sales are aimed a reducing first use among youth and therefore lifetime use and abuse. Decreases Adult Mortality Rate.	4502.000000.000	
1.1.7	Keep Underage Tobacco Use to 9% or less	7%	9%	7%	Percent	equal to or less than	State Fiscal Year (July 1 - June 30).	Number that self-reported as having smoked a cigarette in the past 30 days/ total number surveyed by the SC YRBS	Youth Risk Behavior Survey	SC Department of Education	Schools and local providers	Prevention of Tobacco Sales are aimed a reducing first use among youth and therefore lifetime use and abuse. Decreases Adult Mortality Rate.	4502.000000.000	This is the same percentage as the year before as the YRBS was not conducted by the CDC in 2021
1.1.8	Hit at least 15,000,000 social media impressions annually across all platforms by the public for the Just Plain Killers Education Campaign	15036000	15000000	79089	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of interactions with the Just Plain Killers Campaign	STR Project	DAODAS Division of Prevention	The public and local providers	The aim of the Education Campaign is to increasing knowledge and prevention strategies around prescription drugs and opioids.	4502.000000.000	There was a pivot in funding shortly after the start of the fiscal year away from the this campaign to focus efforts on the launch and support of the Embrace Recovery SC campaign to change the stigma surrounding substance use and recovery efforts; indicator to be removed in future

Goal Create an Accessible Continuum of Effective Services within Each Community in 2019											Statewide Enterprise Objective			
Strategy 1.2											Healthy and Safe Families			
Increase Access to a Continuum of Evidence Based Substance Use Disorder Services														
Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Primary Stakeholder	Stakeholder Need Satisfied	State Funded Program Number Responsible	Notes
1.2.1	Increase the Number of Unduplicated Patients Served by 5%	46839	49181	42832	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of Unduplicated Patients Served	Internal Records	DAODAS EHR	The public and local providers	Provision of treatment services to South Carolinians of all ages increases recovery rates and impacts a range of morbidity and mortality statistics, as well as economic output indicators.	4502.000000.000	Services were affected by COVID-19 Pandemic (some treatment sites were closed temporarily as they transitioned to telehealth and also to ensure health and safety protocols were in place.
1.2.2	Increase the number of pregnant women who access treatment and recovery services by 5%	808	850	955	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of Unduplicated Patients Served	Internal Records	DAODAS EHR	The public and local providers	Provision of treatment services and coordinated prenatal care impacts the Infant Mortality Rate, as well as increase recovery rates.	4502.000000.000	
1.2.3	Increase Criminal Justice System referrals to SUD treatment to 14,000	13886	14000	12410	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of referrals	Internal Records	DAODAS EHR	SCDC	Provision of treatment services to inmates and parolees increases changes of recovery and decreases recidivism.	4502.000000.000	
1.2.4	Provide additional Peer Support Trainings to increased the number of Peer Support Specialists by 5%	345	365	369	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of training offered	Internal Records	DAODAS Division of Treatment	Recovery Community and Local Providers	Peer Support Services is an industry standard the assists individuals in learning recovery principles and maintain sobriety; increases recovery outcomes.	4502.000000.000	This indicator will be altered moving forward to better reflect project objectives to include developmental trainings of PSSs
1.2.5	Increase the number of Oxford Houses used for living during transition into recovery by 5 houses in 2021	85	90	91	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of houses	Internal Records	DAODAS Division of Treatment	Recovery Community and Local Providers	Expanding Recovery Support and access to transitional Housing such as an oxford house, increases recovery outcomes; impacts local communities and increases the ability for an individual to become gainfully employed.	4502.000000.000	This indicator will be altered moving forward to better reflect project objectives
1.2.6	Maintain at least 3 Collegiate Recovery Organizations in the state	3	3	3	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of programs	Internal Records	DAODAS Division of Treatment	Colleges	Expanding Recovery Programs increases recovery outcomes; impacts local communities	4502.000000.000	
1.2.7	Utilize Medication-Assisted Treatment Diversion programs to serve 10 patients in 2021	0	10	10	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of Unduplicated Patients Served	Internal Records	DAODAS Division of Legal Compliance	Recovery Community and Local Providers	Expanding best practices with treatment courts increases recovery outcomes	9806.550000X000	This indicator will be altered moving forward to better reflect project objectives
1.2.8	Maintain the number of unduplicated persons connecting to the Recovery Community organizations annually at 3,000 or more	5793	3000	3307	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of unduplicated persons connecting	Internal Records	DAODAS Division of Treatment	Recovery Community and Local Providers	Expanding Recovery Support for individuals connecting with recovery communities	9806.550000X000	
1.2.9	Increase the number of certified recovery residences to 10	0	10	8	Count	equal to or greater than	Federal Fiscal Year (October 1 - September 30)	Number of residences	Internal Records	DAODAS Division of Treatment	Recovery Community and Local Providers	Expanding access to certified recovery residences to increase recovery outcomes and impact local communities	9806.550000X000

Goal Create an Accessible Continuum of Effective Services within Each Community in 2019														
Strategy 1.3										Statewide Enterprise Objective				
Increase Services to Patients With Opioid Use Disorder										Healthy and Safe Families				
Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Primary Stakeholder	Stakeholder Need Satisfied	State Funded Program Number Responsible	Notes
1.3.1	Increase the Number of Patients receiving Opioid Disorder Treatment Services by 5%	8261	8675	6388	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of Unduplicated Patients Served	Entered Electronic Health Record	DAODAS Division of Technology, Research & Evaluation	The public and local providers	Expanding Opiate Disorder services saves lives; increases recovery opportunities and impacts the state's economic output.	9806.550000X000	A number of local treatment sites closed down temporarily due to the COVID-19 pandemic as they transitioned to virtual practices as well as implementing health and safety protocols.
1.3.2	Increase the Number of Patients Receiving MAT Services by 5%	4502	4725	4712	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of Unduplicated Patients Served	Entered Electronic Health Record	DAODAS Division of Technology, Research & Evaluation	The public and local providers	Expanding Opiate Disorder services saves lives; increases recovery opportunities and impacts the state's economic output.	9806.550000X000	
1.3.3	Increase the Number of Professional First Responders Trained in Opioid Reversal Protocols using Narcan to 12,775	12449	12775	14545	Count	equal to or greater than	Federal Fiscal Year (October 1 - September 30)	Number trained	LEON Project/ROLL Project	DAODAS Division of Prevention	Law enforcement, first responders	Reverses Drug Overdose; Saves Lives; Increases Treatment Referrals; Increases Recovery Prospects.	9806.540000X000	Next year target will be 15,000
1.3.4	Increase coordination with the S.C. Department of Corrections (SCDC) to enroll inmates in opioid recovery services by 10% as measured by number of inmates enrolled.	57	65	84	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of inmates enrolled	Internal Records	DAODAS Division of Treatment	Correctional Facilities	Increases Treatment Referrals; Increases Recovery Prospects.	9806.550000X000	
1.3.5	Increase the number of Prescription Drug Drop Boxes to 240	235	240	240	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of drop boxes	ECHO Grant	DAODAS Division of Prevention	The public and local providers	Increases Prescription Drug Prevention Efforts; Increases Disposal of Opiate and Other Harmful Drugs; Decreases Demand for Opiates.	9806.540000X000	Next year target will be to increase to 245
1.3.6	Increase the number of Narcan administrations through LEON and ROLL by 5%	678	712	1105	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of administrations through grant programs.	LEON Project/ROLL Project	DAODAS Division of Prevention	The public, first responders	Reverses Drug Overdose; Saves Lives; Increases Treatment Referrals; Increases Recovery Prospects.	9806.540000X000	
1.3.7	Maintain inducting at least 200 ED patients on buprenorphine in pilot sites per fiscal year.	253	200	180	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of unduplicated patients served through pilot sites.	Internal Records	DAODAS Division of Treatment	Hospitals	Expanding Opiate Disorder services saves lives; increases recovery opportunities and impacts the state's economic output.	9806.550000X000	This does not include August and September numbers, our target was on pace to being met.
1.3.8	Maintain availability of the 6 Tele-Health providers across the state	6	6	6	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of providers	MAT Report	DAODAS Division of Treatment	local providers and hospitals	Telehealth Services Increases Access, Diagnosis and Treatment options for a range of SUD patients and telehealth-capable healthcare entities.	9806.550000X000	0
1.3.9	Increase the number of agencies that are designated by DAODAS to be community distributors of naloxone to 65	63	65	67	Count	equal to or greater than	State Fiscal Year (July 1 - June 30).	Number of agencies	Internal Records	DAODAS Divisions of Prevention	local providers	Reverses Drug Overdose; Saves Lives; Increases Treatment Referrals; Increases Recovery Prospects.	9806.540000X000	Next year target will be to increase to 70

Services Responses:

These responses were submitted for the FY 2020-2021 Accountability Report by the

DEPART. OF ALCOHOL & OTHER DRUG ABUSE SERVICES

Description of Service	Description of Direct Customer	Customer Name	Others Impacted By the Service	Agency unit providing the service	Description of agency unit	Primary negative impact if service not provided
Ensuring the balance of alcohol prevention, intervention, treatment and recovery services are contracted to public or private providers with an emphasis on the local SUD providers for direct delivery.	Local Alcohol and Drug Abuse Authorities pursuant to Title 61, Chapter 12. Opioid Treatment Providers. Community Distributors. Recovering Community Organizations.	Contracted Providers	General Public	Ensuring the balance of alcohol prevention, intervention, treatment and recovery services are contracted to private providers with an emphasis on the local SUD providers for direct delivery.	Finance	Should the agency not reach its goals of delivering efficient and effective prevention, intervention, treatment, and recovery services, or should it fall short in meeting the opioid crisis head-on, the negative impact on the citizens of South Carolina would include an increase in overall mortality, increased healthcare costs, and a rise in addiction that would impact the workforce and the economic engine of the state, and ultimately the quality of life of all South Carolinians.
Provides TA and Policy guidance to guide innovative SUD programming throughout the SUD System.	Local Alcohol and Drug Abuse Authorities pursuant to Title 61, Chapter 12. Opioid Treatment Providers. Community Distributors. Recovering Community Organizations.	Contracted Providers	General Public	Provides TA and Policy guidance to guide innovative SUD programming throughout the SUD System.	Programs	Collateral impacts would include a rise in underage drinking and alcohol-related crashes, shortened life spans, and increased co-morbidities in chronic disease.
Provides TA and Policy guidance to guide innovative SUD programming throughout the SUD System.	Local Alcohol and Drug Abuse Authorities pursuant to Title 61, Chapter 12. Opioid Treatment Providers.
