HIGHLIGHTS OF THE S.C. TRANSPORTATION INFRASTRUCTURE BANK

The funding sources dedicated to the South Carolina Transportation Infrastructure Bank (SCTIB / the Bank) by the General Assembly, such as truck registration fees, motor vehicle registration fees, and one cent of the gasoline fuel fees, have been used to provide financial assistance to more than \$5.9 billion in highway road and bridge projects since 1997. Issuing bonds for major road construction completes the projects much sooner than with pay-as-you-go funding, thus increasing safety and mobility to the motoring public and improving economic development opportunities. Also, the roads and bridges are constructed at a lower cost as the cost of interest is less than the inflationary costs of highway construction and land acquisition. The success of the Bank is due to partnerships with counties, municipalities, and the South Carolina Department of Transportation (SCDOT). These entities are the applicants to the Bank, and often provide a significant amount of funding to the projects.

The SCTIB continues to be recognized as the largest and most efficient State Infrastructure Bank, and has been named in Federal Highway Publications as a national model for the way progressive states can fund and build transportation infrastructure. Over one hundred projects in thirty four counties and municipalities have benefited from SCTIB funding by direct application for assistance, and partnerships with the SCDOT, including the design-build bridge replacement program. One partnership with SCDOT resulted in replacement of the Cooper River Bridges in Charleston County. The Bank provides assistance to the SCDOT, as well as counties and cities that submit applications.

The accomplishments of the SCTIB comprise the following:

- The Bank's \$5.9 billion in construction has a tremendous effect on the economy of the state.
 - Important role in economic development that includes:
 - Clemson University International Center for Automotive Research (ICAR);
 - Distribution Center in Berkeley County;
 - o New infrastructure to encourage tourism in Charleston, Beaufort and Horry Counties;
 - Truckers now have a 4-lane Highway 17 from 1-95 to Charleston; and
 - Financing for the back-up dam at Lake Murray and 2 additional lanes of traffic helping to protect Columbia from a disaster.
- Installation of cable barriers on interstate medians. The bank provided \$30 million, and the barriers have experienced over 39,703 hits, saving hundreds of lives and preventing many serious injuries.
- Catalyst for over 100 projects in 29 counties and 5 municipalities.
- By law, the Bank reviews applications for major projects with local participation.
- Evaluation Committee uses criteria in line with Act 114 to grade applications in consultation with SCDOT.
- Every project and bond issue reviewed and approved by Joint Bond Review Committee and the SCDOT Commission.
- In addition to the JBRC approval, Act 275 which sets the minimum eligible costs of a project that the Bank may consider for financial assistance at \$25 million, requires the Bank, to submit the potential applicants to the SCDOT Commission for its consideration and approval.
- Major contributions to SC economic development.
- Built strong relationships with credit rating agencies and investment industry.
- In FY 2019:
 - The Bank Board approved changes to the Application for Financial Assistance recommended by the Evaluation Committee. The Application for Projects had to be amended to reflect that Department of Commerce will not be able to provide a score for projects styled economic development projects. To ensure all applicants understood the criteria, Section 4.14 through 4.16 was amended to insert criteria for the Bank Board to consider when reviewing applications for economic development projects.
 - Twelve potential applicants submitted applications for financial assistance with seven unanimously approved for financial assistance by the Bank Board in July 2020.
 - The Bank Board approved a twentieth series revenue bond resolution authorizing the issuance of a par amount of \$179,030,000, South Carolina Transportation Infrastructure Bank Revenue Bonds, Series 2019A.

- In FY 2021:
 - Fitch has upgraded the SCTIB's outstanding revenue bonds to 'A+' from 'A', affecting approximately \$1.2 billion in outstanding debt. The Rating Outlook has been revised to Positive from Stable.
 - o Increased staff size from three to five employees.
 - The General Obligation Series 2021A Transportation Infrastructure Bonds were issued at a par amount of \$8,970,000.

RISK ASSESSMENT AND MITIGATION STRATEGIES

The Bank is unique in that it has the ability to issue Revenue Bonds as well as General Obligation bonds. While General Obligation bonds are backed by the "full faith and credit" of the State of South Carolina, revenue bonds are not. In addition to the legislatively mandated revenue sources received by the Bank, loan repayments and project contributions are also considered revenue that may be pledged to the repayment of bond debt.

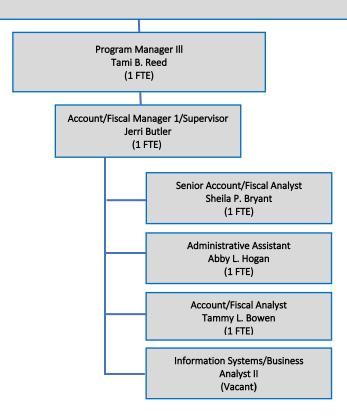

The Bank's first goal is to maximize funding for major projects. In order to accomplish this goal all forms of financial assistance must be explored and a balance maintained. Issuing bonds for each major project provide an immediate influx of funds, but that may not be the most cost effective decision. All aspects needed to be examined such as the construction schedule, interest rates, and available cash. Major infrastructure projects can take years to start construction, bonds proceeds have to be spent within a specific timeframe or arbitrage expenses have to be paid. Revenue streams from project applicants need to be monitored for any potential problems or disruptions. When revenue is pledged to bond it is pledged for the entire life of the bond (or some set timeframe defined in bond documents). The Bank has the responsibility of enforcing payment obligations. Financial plans are revised frequently to optimize all forms of financial assistance.

The Bank's second goal is to try and maintain an "A" rating on those bonds that are issued in the Bank's name. Not only does an "A" rating garner better rates in the marketplace for the Bank, it also helps the State of South Carolina. The Bank is currently the fourth largest municipal bond issuer in South Carolina behind the S.C. Economic Development Authority, the S.C. Public Service Authority, and the State of South Carolina (respectively). A lowered rating could adversely affect other issuers.

RESTRUCTURING RECOMMENDATIONS

The Bank has no restructuring recommendations at this time.
