AGENCY'S DISCUSSION AND ANALYSIS

SCDOR'S ROLE

Funding a Better State

The SCDOR strives to facilitate optimal tax and regulatory compliance funding approximately 96% of the State's General Fund, which provides education, health and social wellness, safety and other critical services to South Carolina citizens. In addition, the SCDOR collects various non-general fund taxes and fees.

SCDOR General Fund Collections by Source

General Fund revenue collected by the SCDOR is facilitated through the administration of over 72 different taxes and fees, the largest being income tax.

SCDOR Non-General Fund and Total Collections

The SCDOR collects various taxes and fees that are directly allocated to local governments and other state agencies. Most notable are local option sales taxes. Total collections for FY22 exceeded \$18.7 billion.

SCDOR General Fund Collections

Over the past several years, SCDOR collections have steadily increased, exceeding prior years' collections. FY22 collections reached record totals of \$13.1 billion, a \$2.6 billion increase from FY21 collections. In addition, FY22 collections of \$13.1 billion exceeded the Board of Economic Advisors (BEA) FY22 general fund collections estimate of \$12.3 billion.

SCDOR General Fund Collections Compared to BEA Estimates

GOAL 1: INCREASING TAX & REGULATORY COMPLIANCE

Educate taxpayers through clear and consistent tax & regulatory guidance

The SCDOR is dedicated to providing a single voice regarding the application of tax laws administered by the agency. Simplifying complex tax laws improves voluntary compliance and increases the amount of state revenue collections. Through clear and consistent tax and regulatory guidance, the SCDOR issued approximately 31 advisory opinions and 14 informal letters addressing over 369 issues in a manner warranting the highest degree of public confidence in our integrity, effectiveness and fairness.

Significant accomplishments in three other areas of formal and informal guidance provided to taxpayers included:

- Legislation and Regulations provided guidance on over
 160 issues regarding proposed and new changes in SC legislation and SC regulations
- Informal Technical Advice provided guidance on over 480 complex issues on changes in law, administrative changes and/or taxpayer practices
- Education through presentations, publications and other means provided guidance on over 142 issues.

We promoted our free taxpayer education webinars to support our efforts to increase voluntary taxpayer compliance. The SCDOR hosted 18 virtual workshops and seminars. Of the more than 1,200 attendees, 93% reported feeling confident or very confident in applying information they learned during training. In addition, we published new content and improved existing content on our website as well as sent mass emails,

distributed news releases and utilized social media to publish and promote educational information and guidance to taxpayers.

Provide a simple compliance process for all taxpayers

Our ongoing outcome for this strategy is to increase the percent of returns, licenses and applications filed and paid electronically. This outcome is accomplished by motivating, promoting and educating our taxpayers about simple, taxpayer centered compliance methods for online filing and paying.

Process improvements through enhancements to our tax processing system, DORWAY, and our taxpayer portal, MyDORWAY demonstrate this year's success. In addition to a more responsive design, we have added QR codes to outgoing

notices to simplify the payment process, added Discover cards to our accepted credit card family, rolled out "Go Green" which provides notices and correspondence electronically via the taxpayers MyDORWAY account, added a document upload function, and rolled out Dorwin, our 24/7 customer service representative. The most frequently asked questions for Dorwin include login issues, refund status, how to update name and address, how to file a return, how to make a payment and how to register a new business/tax account.

Initiatives to reduce the number of non-compliant taxpayers

The SCDOR is committed to the fair administration of tax laws. By taking actions to reduce non-compliant taxpayers, the agency seeks to prevent unfairly increasing the tax burden on those who do comply. The following initiatives best demonstrate this year's success.

Focus on the Top Delinquent Taxpayers

The SCDOR continued to publicize the top delinquent taxpayers. With the goal of supporting transparency, fairness, and compliance, we publish on our agency website the names and debt amounts of the Top 250 Delinquent Business Taxpayers and Top 250 Delinquent Individual Taxpayers quarterly. Collections attributable to this initiative total \$7.7million for FY22.

The High Balance Collection Team's assignment of cases is tied directly to the Top Delinquent Taxpayer lists. In FY22, the team worked on 611 new high balance cases with balances totaling approximately \$111.2 million. The team worked diligently to discover leads and to enforce collections. The group has worked with Collections Staff and General Counsel in an effort to leverage successful negotiations with delinquent taxpayers, achieving actionable results on approximately \$90.8 million through payments, return adjustments or uncollectible debts.

Audits and Litigations

The SCDOR completed the implementation of the comprehensive audit selection tool through our tax processing system, DORWAY. With this tool, quality leads are generated through domestic, foreign,

and nexus discoveries. These process improvement efforts have resulted in increased auditor efficiency and a decrease in audit selection time by 76%. FY22 assessment results totaled more than \$22 million.

One significant assessment from a prior year was resolved through litigation. The Office of General Counsel (OGC) often plays a key role in our efforts to fulfill our mission and increase taxpayer compliance. When taxpayers disagree with proposed assessments made by SCDOR auditors, the attorneys in the OGC ultimately review and (if necessary) litigate those disputes. This year the OGC resolved a multi-year litigation matter from a sales and use tax audit. A business taxpayer failed to meets its obligations to the State for sales tax exemptions it had received. As a result, the OGC negotiated a resolution in which the State received \$117.8 million and will acquire four unique properties in Aiken, Georgetown and Lexington Counties, which will be maintained as State Parks.

Partnerships with Financial Institutions

Through the Financial Institution Data Match (FIDM) program, financial institutions exchange data with the SCDOR to identify bank accounts of taxpayers who owe past due South Carolina state taxes. The SCDOR then utilizes the information received to collect on those debts. Eight additional institutions began matching records during FY22. Currently, SCDOR is exchanging data with over 93% of SC financial institutions. Since instituting this program in 2021, SCDOR has collected approximately \$13.1 million in delinquent debt.

GOAL 2: ENSURING A SECURE ENVIRONMENT

Workforce Security Training

Each year, the SCDOR requires 100% of their workforce to complete a recertification in Information Security and Privacy Standards. Our workforce serves as the frontline defense to protecting confidential taxpayer information. Therefore, the SCDOR tailors security training for roles targeted by attackers including agency executives, new employees, and employees with higher than normal rights in a given system. Employees have been successfully trained to search and identify suspicious indicators within each incoming email and can easily report the email prior to a potential security event. In addition, the SCDOR posted 23 internal security articles to heighten employee awareness around current events and cyber activity. The culminating result of these actions is that SCDOR employees are 38% less likely to click on and open a malicious email when compared to industry benchmarks.

Secure Technology Advancements

This past year, the SCDOR Security and Technology Services (STS) division implemented strategic security technology objectives and projects to enhance and maintain a secure environment. The implemented roadmap, which was in concert with the Department of Administration, included the following completed security-based technology projects.

Secure Technology Projects

- Enhanced network monitoring capability to support a secure telework environment
- 2 Upgraded/streamlined technology that manages system updates
- Improved management of usernames and passwords for SCDOR employees
- 4 Implemented safeguards to increase protections against ransomware
- 5 Enhanced automation of information security processes

Security Compliance Assessment

By maintaining a strong governance of security processes, the SCDOR is able to detect and prevent privacy, cyber and physical security events and ultimately keep confidential taxpayer data secure. SCDOR's security processes are required to comply with external authorities, including the Internal Revenue Service (IRS), Payment Card Industry (PCI), Criminal Justice Information Services (CJIS), the State of South Carolina, and the National Automated Clearing House Association (NACHA). These assessments evaluate the methods and safeguards used to protect data against loss, breach or misuse, and the prevention of unauthorized disclosure or access. SCDOR policies, procedures, network and any system used to process, store, access, or transmit data were in scope of these various assessments. As of June 30, 2022, results of security assessments reported no critical or significant findings by external authorities. In addition to our work with the listed authorities, the SCDOR conducted an additional assessment using a method that models all known cyber-attacks. Results of this assessment also reported no critical or significant findings.

Security and Privacy Data Policies

The SCDOR updated and modernized security and data privacy policies by combining federal, State and the SCDOR policy requirements into one document. New for FY22, a digital records management policy was developed with assistance from the South Carolina Department of Archives and History and the Enterprise Privacy Office. The policy streamlines retention schedules into practical guidance for handling records regardless of media or format. In addition, the SCDOR has begun planning for the replacement of current state security standards with new state standards from the National Institute for Standards and Technology Cyber Security Framework.

Business Continuity Site

The agency leased a new warehouse site that will serve as a business continuity site to accommodate approximately 100 users during a business continuity event. The site will host a new data center that will support imaging and deployment of replacement workstations, redundant network connectivity, WIFI, and required physical security features. The new location includes a backup generator and uninterruptable power source (UPS) that allows the agency to continue to conduct business during prolonged power outages.

Facility Physical Security

The SCDOR continued the Facility Physical Security project to enhance security and to improve the physical safety of stakeholders at all SCDOR District locations. FY22 accomplishments include:

- conducted physical security risk assessments for each district office
- developed and implemented a security enhancement plan for each district office
- evaluated and finalized staffing projections for Enforcement and Protection
- finalized a cost benefit analysis for proposed changes

Plans for FY23 include decreasing ingress and egress points for stakeholders. All other access points will become emergency exits, with an audible intrusion detection alarm that sounds when accessed.

GOAL 3: PROVIDING A CUSTOMER-CENTRIC EXPERIENCE

The SCDOR is committed to our vision to be an innovative and trustworthy partner for all stakeholders and is working to ensure we deliver the highest level of service to the state and its citizens. While taxes are often complex, the SCDOR emphasizes that achieving compliance should not be. The agency utilized various methods to measure customer satisfaction. Through this analysis, we revamped and streamlined processes to provide taxpayers a more intuitive user experience, and thereby creating greater customer satisfaction.

Conducted an Independent Assessment of the SC Taxpayers

The SCDOR partnered with Winthrop University's Center for Public Opinion and Policy Research to conduct an independent assessment of the overall quality of service provided by SCDOR. Of the participants who had contact with SCDOR, 90% were satisfied with the overall quality of service provided by SCDOR.

Conducted Touch Point Survey of Walk-in Customers

The SCDOR conducted touch point surveys in all taxpayer service centers across the state. Walk-in customers reported a 100% satisfaction rate based on their interactions with the taxpayer assistance teams. More than 7,600 customers responded rating their experience in the areas of: Visit Made Easier, Professional, Helpful, Welcoming and Pleasant.

Reporting Enhancements to the Customer Tracking System

We continue to enhance reporting opportunities in our Customer Tracking System (Visit Manager) data cube. Data captured for FY22 shows the number one reason taxpayers visited our offices was sales tax return filings. The number one call volume to our Call Center was individual income tax refund questions. This fiscal year we added additional visit tracking fields for the Call Center to better fine tune the reason for calls. For walk-in taxpayer assistance, we added additional visit actions for Power of Attorney, Kiosks, and Property Exemption, which are new actions for our Taxpayer Assistance Offices.

DORWAY/MyDORWAY Enhancements

In the past year, our tax processing system, DORWAY, and our taxpayer portal, MyDORWAY, underwent additional enhancements to maintain South Carolina's leading-edge capabilities in tax administration. Of the requested system upgrades, enhancements and process improvements submitted, 331 were implemented during FY22. Some of these enhancements now provide taxpayers with additional features on MyDORWAY for filing and paying, applying for exemptions, and performing other tax related actions.

Additional enhancements to DORWAY/MyDORWAY include the following:

- Implemented "Go Green," which gives taxpayers access to all notices and correspondence within their MyDORWAY account.
- Updated Dorwin's (our digital assistant "chatbot") responses to a variety of questions that SCDOR receives. Dorwin provides South Carolina taxpayers with 24/7 MyDORWAY navigation assistance and direct links to SCDOR website content relevant to their queries. During FY22, Dorwin answered 150,000 questions from taxpayers addressing more than 275 topics.
- Implemented MyDORWAY, Fast Collection services (additional functionality for our collection processes and Debt Collection Services for levies.

AGENCY NAME:	South Carolina Department of Revenue							
AGENCY CODE:	R440	SECTION:	109					

- Added an online process for Angel Investor Credit Application to MyDORWAY using the secure
 account of the Angel Investor seeking credit approval. The application is completed and
 submitted using the direct entry/or an excel upload method.
- Added an online process for the Parental Refundable Credit application to MyDORWAY.
 Taxpayers applying sign on to their secure MyDORWAY account to complete and submit information for the application using the direct entry method.
- Increased electronic filing rates in FY22 for Manufacturing Property Tax by 44 percentage points and Business Personal Property Tax by 49 percentage points. To accomplish this increase, the SCDOR expanded system improvements, usage of industry notifications and communication efforts through our website and by contacting our customers through a messaging campaign.
- Simplified and streamlined the online application for property tax exemption in MyDORWAY.
 The creation of a secure login function allows for the completion of the application and other necessary information required. Since going live with the new function, more than 50% of the 3,203 applications have been submitted electronically.

GOAL 4: ENGAGING & EMPOWERING EMPLOYEES

Strategic Workforce Planning

To accomplish the agency's strategic goal to engage and empower employees, the SCDOR continued implementing a Strategic Workforce Plan to equip employees with essential skills, competencies and resources to succeed in their careers and provide high quality service to state taxpayers. The Director, Executive Team, Human Resources and Training teams have worked with an independent Human Resources consultant to design, build, and implement a Strategic Workforce Plan to meet our current and future human capital challenges.

Strategic Workforce Initiatives

The multi-year Strategic Workforce Plan consists of a	1	Improve consistency, clarity, and commitment to advance trust					
thorough analysis of the supply and demand for talent, the	2	Promote and support agency values					
development of a roadmap to determine strategic programs needed to help meet current	3	Advance cross-functional team collaboration					
and future goals, and enhancements to current	4	Implement a competency framework (knowledge, skills, and abilities) within our EPMS process					
Human Resources programs, including new efforts to drive long-term improvements.	5	Develop a learning culture that fosters a high- performance workforce					

SCDOR designed and implemented value based core competencies (formerly known as behavioral competencies) for the entire organization. This new tool enhances the existing Employee Performance Fiscal Year 2022

Management System (EPMS) process, and allows for and encourages regular feedback on soft skills. Phase One implementation addressed competencies for existing workforce. Phase Two will include competencies in recruitment of new employees as part of the overall talent acquisition strategy.

During our assessment phase, we determined that full implementation across the agency will require a multi-year phased approach to enhance our existing human capital programs.

Employee Engagement Survey

To further accomplish the agency's strategic goal to engage and empower employees, the SCDOR

contracts with a top-tier vendor to conduct an anonymous, independent, workforce engagement survey. SCDOR employees trust in the anonymity of the survey and share their feedback, comments and suggestions in the survey's ability to keep written comments confidential. A high participation rate provides reliable data to support and enhance agency decisions for workforce strategies. The participation rate of our initial survey in 2019 was 82% and remains high with an 83% (618 responses out of 766) rate in the 2022 survey.

Results

- 52% of the workforce is engaged which is higher than the Nationwide Public Sector Industry Benchmark of 25% workforce engagement
- SCDOR's overall engagement score ranked in the 88th percentile. The overall engagement score includes four categories that measure organizational and managerial perspectives. SCDOR's overall engagement score remains higher than 88% of other public sector organizations.

In summary, SCDOR employees are highly engaged and motivated to do their best. Baseline measures for Culture of Engagement, Strategic Alignment, Motivating and Relating to Employees and for Managing and Execution are used to identify areas of opportunities for focused efforts to improve employee engagement. SCDOR established baseline management thresholds for Division Deputies to work with managers who did not experience engagement survey results at the expected thresholds, and to build action plans to enhance leadership skills development. Actions taken should result in improvement scores for the individual managers in the next annual survey and contribute to increased employee engagement.

Although employee engagement remains well above the National Public Sector Industry benchmark, SCDOR is experiencing the impact of the Great Resignation. With 100 employees leaving the agency in

AGENCY NAME:	South Carolina Department of Revenue							
AGENCY CODE:	R440	SECTION:	109					

2022, SCDOR took steps to add new retention programs and improve employee benefits and recognition programs. Recruitment of critical positions is a top priority for SCDOR as noted in the Risk Assessment and Mitigation Strategies section. Some highlights include; implemented a new Telecommuting Program, expanded use of the Candidate Assessment Tool and contracted with a third-party vendor to review and assess our recruitment process.

AGENCY RISK ASSESSMENT AND MITIGATION STRATEGIES

Risk and Impact

Recruitment and retention are top priorities for the SCDOR. The risk of losing more workers and the risk of not having success in hiring new workers is a significant threat to the collection of tax revenues for the State's General Fund.

The SCDOR experienced the impact of the "Great Resignation" with approximately 15% of employees leaving the agency during FY22. The inability to fill critical vacancies has negatively impacted the number of audits conducted and the number of collections and enforcement actions. In addition, SCDOR's operating budget is funded 46% from Other Fund revenues, which come from administrative fees on various revenues collected and permitted by statute. In 2022, some of these revenue sources decreased as a direct result of the inability to hire workers in critical front-line positions.

If the SCDOR fails to fulfill its mission and goals, then the State's General Fund will dramatically decrease.

Mitigation Strategies-Internal

Throughout the recent pandemic, SCDOR continued recruitment efforts and implemented new avenues for finding candidates to fill critical positions from front-line to leadership vacancies. The SCDOR has also instituted new strategies focused on employee retention.

Mitigation Strategies-external

Within the confines of the current SC state classification and compensation system, we cannot make competitive offers to candidates. The state classification and compensation system has a limited number of class bands, which have caps that the state has not annually increased to align with the consumer price index (CPI). The classifications are broad and do not meet the specific needs of SCDOR. We need to be able to compete in the current labor market using higher salary levels to get critical positions filled. In order to accomplish this, we need the state to support us with a more competitive classification and compensation system.
