2018-2019 Probability Rate/Prostate Cancer

	1 in
Birth to 49	468
50-64	1 in 26
65-84	1 in 9
85+	1 in 31

- Not able to find ethnicity by county, yet rather by State/SC here:
[PCSC Data Insights.pdf](#)
- Age groups, only found SC data, where about 97% of all prostate cancer diagnosis occur in men aged over 50 (SC Dept of Public Health)
