The Honorable Kirkman Finlay III
Subcommittee Chairman, Legislative Oversight Committee
South Carolina House of Representatives
Post Office Box 11867
Columbia, South Carolina 29211

Dear Representative Finlay:

I am in receipt of your letter of March 15, 2016, which contains various requests for information from the Department of Juvenile Justice (Department or DJJ) in response to testimony provided at the March 10, 2015, meeting of the Law Enforcement and Criminal Justice Subcommittee of the House Legislative Oversight Committee. You received a response last week from the Department related to your inquiries concerning Performance-based Standards (PbS). Please allow this letter to serve as responses to items under the headings "Improvement Plan" and "Additional Information."

The first request for information asks for the "[d]eadline for completion/implementation" of items in the "DJJ Improvement Plan." Please see the attached document which outlines these timeframes organized by each Strategy (Juvenile Discipline, Physical Security, Staffing and Staff Training, and Improved Treatment and Collaboration) from the Plan. (Attachment 1) Regarding "Outcome Measures the agency is monitoring to determine if the items in the Improvement Plan are successful," attached is DJJ's data collection dashboard of projects and agency measures. (Attachment 2) Most of these measures are being captured on a daily basis, and those being captured on a weekly or bi-weekly basis are so noted. "[P]ersonnel responsible" for each of these measures is also noted on the enclosed dashboard. The Department is in its third week of capturing data pertaining to these measures, which will help define many of the base levels. Once these base levels are established, the Department can then better set targets for these measures. The Department anticipates that more detailed information on these measurements will be available on or before May 1, 2016.

The next inquiry concerns "events . . . at a DJJ facility . . . referred to the solicitor, magistrate, or family court." As mentioned in prior correspondence to the Subcommittee, the Department's Office of the Inspector General employs four Class-1 law enforcement officers who conduct criminal investigations. These investigators are assigned cases for investigation

Office of the Director
Goldsmit Building, Room 100
4900 Broad River Road, Columbia, SC 29212
Telephone: 803-896-5940 Facsimile: 803-896-6932

when facts as alleged in a DJJ Event Report appear to constitute potential criminal conduct. The Inspector General's Office reports that during the current fiscal year (July 1, 2015 to March 15, 2016), the number of events/incidents which were assigned to a criminal investigator for investigation, and therefore "could have been referred to the solicitor, magistrate or family court" by our Inspector General's Office, is 112. Of those cases, 23 were closed because a victim (juvenile or staff) declined prosecution. Other cases were closed because the investigation revealed the absence of criminal conduct or because the victim failed to respond. In addition, other cases are still in the investigation stage and remain pending. Of the remaining cases, 46 cases (brought against either a juvenile or a staff) were referred to a magistrate or assistant solicitor for review. Of these referred cases, 19 cases resulted in the filing of adult warrants or family court petitions (please note that some cases are pending at the assistant solicitor level, meaning that the investigator is waiting to hear back regarding whether charges are authorized).

With regard to the next request for information, the Balanced and Restorative Justice (BARJ) process as a mechanism to address juvenile misconduct began at the Broad River Road Complex (BRRC) in October 2012. The concept, consistent with the nationally-recognized principals of restorative justice, was to bring the youth/offender and the person offended against (youth or staff) together at a conference with members of their community (dorm or unit) in order for the offender to acknowledge the misconduct and for the participants to develop a plan to repair the harms that were committed. Sometime after the start of BARJ, the process for holding conferences began to slow because of issues with the flow of paperwork. This delay in paperwork caused the BARJ conferences (when offenders would meet with the person offended against) not to be held in the timeframes as designated in policy, sometimes for weeks after the incident. During this time, staff shortages also became an issue which caused Officers not to be able to participate in the process as designed.

This slow response time and the lack of ability to participate in the process began to erode confidence in the BARJ system. As a result, when the person who had been offended against was not able to attend the conference and participate in the BARJ process, other people not as directly involved in the incident decided what consequences and sanctions should be completed to repair the harm caused by the misconduct. This caused further erosion of confidence in the system, as some did not agree with the consequences or sanctions imposed. Recognizing these and other related limitations in the BARJ system, the Department has developed a new Juvenile Discipline Policy to respond to misconduct and rules violations by juveniles in secure facilities. This new system will empower unit staff and shift supervisory staff with the authority to address and sanction immediately the least serious incidents of misbehavior by youth. More serious misbehavior and rules violations at BRRC will be handled through a Disciplinary Hearings Process. This policy is in the final stages of review and will be signed by me this week. Training on the policy will take place in April 2016, and it is anticipated that system implementation at BRRC will occur in May 2016.

Regarding the inquiry concerning how the Department handles the housing of "juveniles in different gangs," DJJ Policy E-1.7, Classification System for Housing in Secure Facilities, addresses the housing factors considered when determining the most suitable program, unit, and room assignment for each juvenile. This policy is attached for your review. (Attachment 3) Youth at DJJ secure facilities are housed according to eighteen different factors and decisions are based "on individual treatment needs, behavioral criteria, history of aggression, victimization,

adjustment to custody (previous and current), and other appropriate factors.” Self-identification as having gang affiliation is one safety factor considered in determining whether or not a particular juvenile is safe to be housed with other juveniles. Juveniles at BRRC are moved to different housing units/pods if there is a safety issue, to include if a juvenile discloses that he is being bullied by a rival gang member or being harassed to join a gang. At BRRC, the security Captains (each dorm has a Captain) meet with the dorm’s Program Manager and social workers as part of the multi-disciplinary Treatment Team to confer on the housing assignments for each juvenile assigned to their dorm.

The Department makes every attempt to separate gang members by pod assignments in each unit in a strategic manner designed to minimize risk and maximize security and safety. Security staff indicate that if staff assign all juveniles identified with a specific gang to a specific unit, then this gang gains strength by virtue of the concentration of its numbers. In order to maintain security and control, staff assign juveniles to different pods in different units who may be affiliated with a gang. The goal being to spread the gang affiliated juveniles across the facility in all of the units. One duty of the Gang Specialist (position currently posted) will be to implement a gang member database. As gang members are identified, they will be placed in the database, and this information then will be shared with staff who need to know for various security reasons, to include making housing decisions.

Regarding the request for copies “of any federal or state law which prevents correctional officers at juvenile facilities from knowing information about the juveniles inside the correction facility,” please find attached the South Carolina juvenile confidentiality statutes as well as the corresponding DJJ policies concerning Juvenile Records and Confidentiality and Release of Juvenile Records. (Attachment 4) South Carolina Code Sections 63-19-2010 and 2020 provide that juvenile information can only be released pursuant to a court order absent a few exceptions (examples include release of information to the child’s attorney and to law enforcement or prosecution entities investigating or prosecuting criminal charges). Similarly, DJJ Policy B-5.1, Juvenile Records, provides that “[j]uvenile files . . . are confidential. . . [and n]o information or documents will be released or disclosed without proper authorization.” DJJ Policy B-5.3, Confidentiality and Release of Juvenile Information, says that “juvenile records will be made available to DJJ staff when access is required to provide services to the juvenile, to perform official duties within DJJ, and for authorized research purposes. Records and information on a juvenile are available to and may be shared between DJJ employees with a need to know.” In addition, these policies restrict access to juvenile medical records/information in accordance with the federal Health Insurance Portability and Accountability Act (HIPAA).

The Department understands that after hearing testimony from one of the Department’s Juvenile Correctional Officers (JCO) that front-line security staff are not notified routinely of the specific offenses for which youth are committed to DJJ, at least one member of the Subcommittee asked questions regarding this practice. Please note that, consistent with the above-referenced policies, security staff are provided information about youth that they need in order to perform the functions of their job. That information may include, among other things, a youth’s past history of running away or escape attempts, a youth’s history of assaultive or aggressive behaviors, or a youth’s history of experiencing traumatic events. In addition, front-line security staff are given Alerts on juveniles to observe specific behaviors, for example, that a youth’s grandmother just passed away and to be alert for signs of sadness or irritability. But

being told specific information about a child's committing offense, standing on it's own, is not relevant to the care, custody, and control being provided by front-line security staff who serve as juvenile correctional officers. Knowing a particular youth is committed for a certain offense does not contribute to the day-to-day security function that front-line JCOs provide.

Duties of JCOs do not change based on what offense a youth is adjudicated delinquent or committed. The function of correctional officers in a secure facility is not the same as the function of law enforcement officers in a town or city. The two groups have different duties and functions to perform, as reflected in the different training and certification they receive as well as the education/experience requirements necessary to occupy those positions. Unlike a law enforcement officer in the community, a corrections officer in a long-term institution does not perform his duties any differently depending on whether the youth they encounter has been committed for a shoplifting offense or an armed robbery offense. Further, a youth's committing offense does not correlate directly to his behavior while committed, meaning that the youth committed for armed robbery may be much better behaved and follow the rules of the institution while the youth committed for shoplifting may be very aggressive and assaultive while at the facility.

Also, DJJ does house some youth at BRRC together based on their offense history, so security staff assigned to those dorms would be aware of those offending behaviors by virtue of the youth being housed in that specific dorm. For example, one dorm at Birchwood has two pods that house youth who are receiving sex offender specific treatment and therapy. This is an example of a specialized pod/unit that has specially-trained security and treatment staff to respond to the level of security and treatment needed to provide appropriate levels of custody and control with that particular population.

In addition, security staff (the Unit Manager or designee) are involved in multi-disciplinary team meetings at BRRC. DJJ Policy E-1.5, Multidisciplinary Teams and Juvenile Case Staffings, and related Form E-1.5D, Multidisciplinary Teams and Juvenile Case Staffings Chart, are attached and describe the Facility Teams at BRRC as well as the BRRC Multi-Disciplinary Team. (Attachment 5) The Unit Manager or designee is a required/core member of these teams and must provide specific information to the team at these meetings. A member of security is also present when juvenile housing assignments are assessed (as mentioned above), and committing offenses are provided on that paperwork and part of the discussion. Attached is a copy of Form E-OK, BRRC Juvenile Housing Assignment Factors Assessment, that is used at this meeting (Attachment 6). As you can see from these policies and forms, information regarding a youth's current offense, including the nature of the offense (seriousness, weapons, violence, etc.) is disclosed and discussed at all of these meetings.

The final requests for information concern salary data. Two of these inquiries ask for the "annual salary" of the Chief of Police and Gang Specialist positions. The annual salary of the last persons occupying these positions were \$44,388 and \$43,536, respectively. Given that the Police Chief position has been vacant since January 2014 (just over 2 years), this represents a savings of \$143,083 (calculated including a general salary increase effective after the person left the position and including fringe). Similarly, based on the Gang Specialist position being vacant since February 2015 (just over 1 year), the savings to the agency was \$76,188 (calculated including fringe). The final inquiry requests data on "[e]ach position at the agency which

received a salary increase . . .from 2010-2015.” This data had to be retrieved from two different sources, so it is reflected in two separate charts. DJJ went live with HR/Payroll functioning in SCEIS in June 2010, so salary increase data from January 2010 to May 2010 was obtained from the State Human Resources Division, as they maintain the legacy system that housed HR data prior to SCEIS. This information is contained in the attached chart, and the “Slot” on the State HRD report represents the position. (Attachment 7) The second chart contains information from SCEIS and includes salary increases (including general increases) for positions from June 2010 to December 2015. (Attachment 8) Both reports include salary increases for positions in which current DJJ employees received pay increases and do not include hiring activities for new staff hired by the agency or transferred from another state agency.

I trust that you will deem these explanations and documents to be responsive to your requests. The Department continues to work diligently towards implementation of items in the Improvement Plan and is committed to continuing to enhance measures to increase the safety and security of DJJ facilities for the youth and staff who live and work in these facilities. Please advise if I, or my staff, can provide you with additional information or answer any questions you may have. With kind regards, I remain,

Sincerely,

Improvement Plan Update

Strategy 1 – Juvenile Discipline

Juvenile Progressive Discipline System – This new system has been established and training is to begin 4/18/16 and conclude 5/6/16. This training will also include training on the Phase/Level system. Therefore, all training for both systems will be completed on 5/6/16.

Phase/Level System – Training materials are being finalized and produced. The training schedule for pertinent staff will be produced on or before 4/8/2016. A train-the-trainer class is scheduled from 4/11-4/15 and then, based on staff availability, the training will be completed as soon as possible.

Enhanced Secure Housing – The Intensive Treatment Unit opened on 3/28/16, and 4 juveniles were transferred to this unit. The Resocialization Wing opening is delayed due to staffing issues and completion of facility upgrades.

Rapid Response Team – At DJJ, this is called our Special Response Team, and it went live on 3/16/16. Core Staff were identified and special assignment pay has been processed effective 4/17/16.

Enhanced Juvenile Control Measures – 7 of DJJ's Class I Law Enforcement Officers will be trained in the use of OC spray on or before 4/8/2016. (SLED will provide training.) There are 6 additional officers that will need Class I Law Enforcement training which will include use of OC spray. This training will be scheduled with 1-2 staff at a time based on class dates, security coverage at DJJ, and increased staffing levels. Juvenile ID wrist band materials were sent to DJJ Procurement to explore potential implementation. Recommendation was made to increase security staff ratio from 1 to 10 to 2 to 10 on the evening and weekend shifts to enhance safety and security.

Strategy 2 – Physical Security

Installation of heavy Lexan in Dorm and other facilities. Complete to date - 33%. Estimated completion date on or before 6/1/2016 (SCDC assistance)

Installation of tamper resistant plumbing and electrical fixtures. Complete to date – 40%. Estimated completion date 7/31/2016 (SCDC assistance)

Installation of institutional furniture. Complete to date – 25%. Estimated completion date 5/15/16. This furniture has been ordered and is installed as it arrives on campus.

Improve physical security for dorm courtyards to include razor-wire/ Additional fencing around DJJ dorms. Installing 2200 linear feet of fencing around three dorms. Complete to date – 20%. Estimated completion date 5/15/16 (SCDC assistance)

Improved physical security of cells in the Crisis Management Unit and locking measures – Installed dryer system to air compressor to eliminate condensation which caused problems with the operation of the cell doors which operate pneumatically. Replace lights so that they are recessed and flush with ceiling so juveniles cannot tie sheets and other items around lights.

Improved hardware protection and physical security in control rooms – Steel ceiling over the control room to keep juveniles from crawling over walls. Install .25 in plexi-glass to the control room over wire mesh metal cage.

Strategy 3 – Staffing and Staff Training

Recruitment and Hire – DJJ is trying new methods of recruitment. Will attend a Veterans job fair on 4/9/16. Met with SC DEW to partner with them with recruiting and applicant referral. Contacted USC Director of Veterans Services to place Agency job postings on the Vet Services Office Bulletin and had discussion with USC on the Vet Services Website. Also in contact with Midlands Tech Career Services concerning job postings and to make contact with Vets Success Coach. In addition, DJJ is scheduled to attend job events at Fort Jackson on 4/7/2016, 4/14 and 4/18 and at Shaw Airforce Base on 4/15. Other job events are on 4/14 at Operation Palmetto Employment and 4/12 at SC Midlands job fair.

Additionally, DJJ will attend a recruiting event May 20th at the Center for Educator recruitment retention and advancement.

Compensation – Management continues researching deserving staff. Shift differential payments have been approved and will become effective 4/2/2016.

Security Training of Juvenile Correctional Staff and Non-Security Staff – Gang Awareness Professional Development training will be held on 4/1/16.

Police Chief and Gang Intervention Specialist – These positions are posted and review of applications has begun. Depending on the number of qualified applicants, the fill dates for these positions will be on or before 5/1/16.

Supervisory Rank and Recognition – This is completed.

Contraband Detection and Searches – This has been completed and is tracked on a daily basis and reported to DJJ leadership. All metal detectors were installed in Birchwood on 3/28/2016.

Strategy 4 – Improved Treatment and Collaboration

Increased Access of Juveniles to Treatment Personnel – Completed.

Enhanced Collaboration with Child-Serving Agencies – Currently, DJJ has the ability to manage these juveniles, however, there is ongoing research and planning with respect to this type of collaboration.

Enhanced Treatment Response to Aggressive Misconduct – The initial Aggression Replacement Training (ART) was completed on March 15th. This will be a part of DJJ's ongoing training programs.

DATES UPDATED:					

POLICY: The Department of Juvenile Justice (DJJ) will assess and monitor the appropriateness of each juvenile's assignment within a specific program and housing unit in secure facilities based on individual treatment needs, behavioral criteria, history of aggression, victimization, adjustment to custody (previous and current), and other appropriate factors. Each juvenile unit and room assignment will be reassessed during each monthly status review, quarterly reclassification review, and when necessary to maintain the safety and security of the juvenile and facility operations.

PROCEDURAL GUIDELINES

- A. The following housing assignment factors will be considered when determining the most suitable program, unit, and room assignment for each juvenile:
 - 1. Seriousness and nature of current offense (e.g., offense category). Facts of the case (e.g., plead down from original offense).
 - 2. Offense history.
 - 3. Escape or runaway history.
 - 4. ALERT/Separation/Caution requirements and/or notices and the nature of such.
 - 5. Proximity to hostile co-defendants or peers, or victims of record.
 - 6. Documented history of assaultive/aggressive/sexually aggressive behavior in any environment.
 - 7. Documented history of victimization/sexual vulnerability by peers or others.
 - 8. Age.
 - 9. Physical stature (e.g., height, weight).

10. Intellectual functioning (e.g., seriously mentally retarded or low-functioning).
11. Emotional and mental stability (e.g., seriously mentally ill).
12. Documented history of self-destructive behavior.
13. Physical disabilities, handicaps, and/or special needs or accommodations.
14. Adjustment in the evaluation center and prior custodial and residential placements.
15. Peer gang-related indicators.
16. Treatment needs as identified by the clinical professionals and multidisciplinary team (e.g., substance abuse problems, and sex offender specific services).
17. Juvenile's home (geographical region).
18. Any other factors relevant to reducing the probability of assault, disruptive behavior, or possible victimization of the juvenile.

B. Facility Housing Plan

The Facility Administrators at the Detention Center, Evaluation Centers, and Broad River Road Complex (BRRC) will ensure that the facility has a logistical plan in place for assigning juveniles to housing units and beds based on the housing assignment factors. Classification staff will routinely monitor and review juveniles' assignments and make necessary moves to ensure that the housing plan is followed. The Facility Administrator will intermittently review juveniles' assignments to check to ensure that the housing plan is being followed.

1. The housing plan will have housing areas designated that:
 - a. Separates non-violent offenders from violent offenders (as defined by DJJ).
 - b. Separates evaluation juveniles from committed juveniles.
 - c. Requires placement of sexually aggressive or sexually vulnerable offenders in either single-occupancy rooms (BRRC), or a housing area with direct and constant visual staff supervision (Detention and Evaluation Centers).
 - d. Places special needs juveniles (mental/physical) in the most appropriate place available for their needs.

Title: Classification System for Housing in Secure Facilities	Authority: Treatment and Intervention Services	DJJ Policy No.: E-1.7	Page: 3 of 5
---	--	-----------------------	--------------

2. The Special Management Units will have an individual Housing Assignment Plan and juveniles will be placed in single occupancy rooms unless pre-approved by the Deputy Director for Rehabilitative Services.
3. The Detention and Evaluation Centers will include specific housing assignment plans in their Facility Housing Plan for the housing of juveniles in segregation areas.
4. The Facility Administrator will review and revise the Facility Housing Plan when necessary as a result of changing juvenile populations, a change in the facility's mission and/or function, and when other factors make it necessary.
5. The Facility Manager will ensure that the level of supervision in these areas is appropriate for the type, age, and size of juveniles living in those areas.
6. The Facility Administrator will ensure that all facility staff are trained in the Facility Housing Plan.

C. Program, Unit, and Room Assignments

1. Preliminary Housing Assignment Determination at Detention and Evaluation Centers

The intake officials at the evaluation centers and the classification case manager at the detention center will assign newly admitted juveniles considering the housing assignment factors and the Facility Housing Plan. The employee designated by the Facility Administrator to monitor bed assignments will review the assignments for appropriateness and make necessary changes.

2. Subsequent Housing Assignment Review Upon Placement at BRRC
 - a. The Regional Classification Supervisor will notify the Director of Classifications when a juvenile is recommended for placement at BRRC.
 - b. The Director of Classifications will review the current bed availability with the Classification Case Manager(s) to determine the dorm assignment.
 - c. Juveniles will be assigned to the most appropriate dorm based on age, length of stay and/or offense.

3. Periodic Housing Assignment Reviews

A juvenile's program, unit, room, and bed assignment will be reassessed by the Facility CCM during the juvenile's monthly status review, quarterly

Title: Classification System for Housing in Secure Facilities	Authority: Treatment and Intervention Services	DJJ Policy No.: E-1.7	Page: 4 of 5
---	--	-----------------------	--------------

reclassification review, and on an emergency basis if necessary to maintain the safety and security of the juvenile and facility operations. If there are concerns about the juvenile's housing assignment, the Facility CCM will complete the BRRC Juvenile Housing Assignment Factors Assessment (Form E-OK) and present it to the Multidisciplinary Team for review.

4. Emergency Housing Reassignment

A Facility Administrator may temporarily move a juvenile to a different housing assignment if the situation is a matter of safety and/or security and the matter is considered an emergency. The Administrator will complete an Event Report (Form I-3.2A) by the end of the shift and forward a copy to the CCM as soon as possible, but no later than the opening of business the following business day.

- a. The emergency reassignment of a juvenile will be reviewed by the CCM as soon as possible but no later than one (1) business day after the emergency reassignment. The CCM will convene the Multidisciplinary Team.
- b. The multidisciplinary team will review the appropriateness of the reassignment as soon as possible but no later than two (2) business days following the reassignment. The multidisciplinary team will consider the safety and security factors and review the juvenile's Supervision and Service Plan. The team may approve or change the juvenile's assignment.

5. Assignments to a Crisis Management Unit (CMU)

Crisis Management Units will follow their Facility Housing Plan when assigning and reassigning juveniles. Only one juvenile will be in a room in a CMU unless otherwise pre-approved by the Deputy Director for Rehabilitative Services.

D. Classification Coordinators (CC) and CCMs will ensure that the Coordinator of Juvenile Movement and Accountability (CJMA) receives timely written notification of assignments and reassignments of juveniles so that the CJMA may appropriately manage DJJ bed space and juvenile transfers. If situations/circumstances prevent the scheduled move/transfer of the juvenile, the CC/CCM will notify the CJMA as soon as possible.

E. Documentation

- 1. The CJMA will notify the clinical, education, health, county office, and operations staff via electronic mail of the juvenile's move. The staff members in these areas will ensure that their responsibilities for preparing a juvenile for transfer are accomplished.

H. Description of Primary DJJ Records

1. Interstate Compact Record: The DJJ Interstate Compact Coordinator establishes this record for a juvenile being served through the Interstate Compact on Juveniles. This record will remain at the Office of Community Support Services until the juvenile reaches age 18 then closed and transferred to Central Records.
2. Detention File: This file is established at the DJJ Detention Center for a juvenile that has been detained by law enforcement or the Family Court, but has not been adjudicated delinquent. The detention staff will create and maintain this file until the juvenile is released back to the county or the court hearing is held. The record will remain active and maintained at the Detention Center as long as the juvenile is at the Detention Center. When the juvenile is released, the file will be kept at the Detention Center storage until the destruction date has been reached.
3. County Office Diversion File: This includes programs such as juvenile arbitration, drug-court, truancy prevention, and any other local community program. This file is established and maintained in the DJJ County Office where each program is located until the juvenile reaches age 18. Once the juvenile turns 18 years old, the Diversion file will be transferred to DJJ Central Records.
4. County Office Case Record: This record is established and maintained at the DJJ County Office. Upon a juvenile's initial contact with a County Case Manager, a case management record will be established and maintained in the county office. It will remain at the county office until the juvenile reaches age 18. Once the juvenile turns 18 years old, the record will be transferred to DJJ Central Records.
5. Community Consultation and Evaluation File: This file is established for a juvenile receiving community psychological services, including testing data/protocols, and treatment information on juveniles served by the Office of Consultation and Evaluation. The Psychologist will maintain copies for a minimum of 5 years, as stipulated by the American Psychology Association (APA) guidelines.
6. Evaluation Center Files:
 - a. Evaluation File

The Evaluation file is established for a juvenile committed to a DJJ Evaluation Center for evaluation. The record will remain active and maintained at the Evaluation Center serving the juvenile as long as services are provided to the juvenile. When a juvenile is committed for an

evaluation, the County Case Manager will forward the Evaluation/Commitment/Transfer package, comprised from the county case record, to the appropriate evaluation center staff to create an evaluation file. The evaluation center file will be retained by the center for 6 months following the release of the juvenile from evaluation status. It will then be transferred to DJJ Central Records.

b. Admissions File (Observation and Assessment)

Upon a juvenile's admission to an evaluation center, the intake staff will search the juvenile's name in the Juvenile Justice Management System (JJMS) and determine if the juvenile has been previously committed to DJJ.

- 1) If the juvenile has never been committed, an admissions file will be created.
 - 2) If the juvenile had been admitted to an evaluation center within the last 6 months for an evaluation, the admissions staff will pull the evaluation file, and convert it to the admissions file. If the file is no longer at the evaluation center, the record will be requested from Central Records.
 - 3) If the juvenile was previously committed, the admissions staff will request previous juvenile records from DJJ Central Records. All new and current information will be added to this record.
 - 4) If the juvenile transfers to a group home, wilderness program, or private provider, a placement package will be forwarded to the receiving placement location and the record will be forwarded to DJJ Central Records. If the juvenile is transferred to a long-term facility, the file will transfer with the juvenile. The juvenile's classification and clinical record will be created using the documents from this file.
7. Classification Record: The Classification Case Manager establishes this record at a long-term facility upon a juvenile's arrival. The Classification Case Manager will maintain this record as long as the juvenile resides in a long-term facility. Once services are terminated, the record will be transferred to DJJ Central Records.

3. DJJ Employees, Interns, and Volunteers:

- a. Statements made by a juvenile as part of the intake interview relating to the offense for which the juvenile is charged and for which the intake interview is being conducted will not be revealed to the Solicitor's Office prior to the Solicitor making its determination related to that juvenile's prosecution.
