THE HISTORY OF MEDICAL REGULATION IN THE UNITED STATES

William Smith, The history of the province of New York (1757)

“Quacks abound like Locusts in Egypt, and too many have recommended themselves to a full Practice and profitable Subsistence. This is the less to be wondered at, as the Profession is under no Kind of Regulation. . . . Any Man at his Pleasure sets up for Physician, Apothecary, and Chirurgion. No Candidates are either examined or licensed, or even sworn to fair Practice.”
