PROVISO REQUEST

- Campus housing affordability

The Charleston housing market is among the most expensive in the state. Housing costs represent a major obstacle in the overall affordability of a College of Charleston degree for some South Carolina students. We request language that allows the College's Board of Trustees to be able to use non-housing capital funds for housing projects.

- Acquisition of 99 St. Philip/106 Coming Street

Land acquisition anywhere is a complex and time-sensitive process, but when that property in an urban area close to a college campus, the timing is even more critical. We request some administrative relief from the state's very lengthy six-step approval process for justifying this critical project.

In both cases we would request the committee approval for us to work with staff on specific language for the members to consider.

PROVISO REQUEST CONTINUED

- Election Day Closing

We believe this request would be supported by higher education in general, but have not confirmed with all institutions.

SECTION 59-1-370. Closing of educational institutions on general election day

All State-supported colleges and universities, technical education centers and public schools shall be closed general election day in November of each even-numbered year. This day shall not be considered as one of the regular school days for the year for public schools.

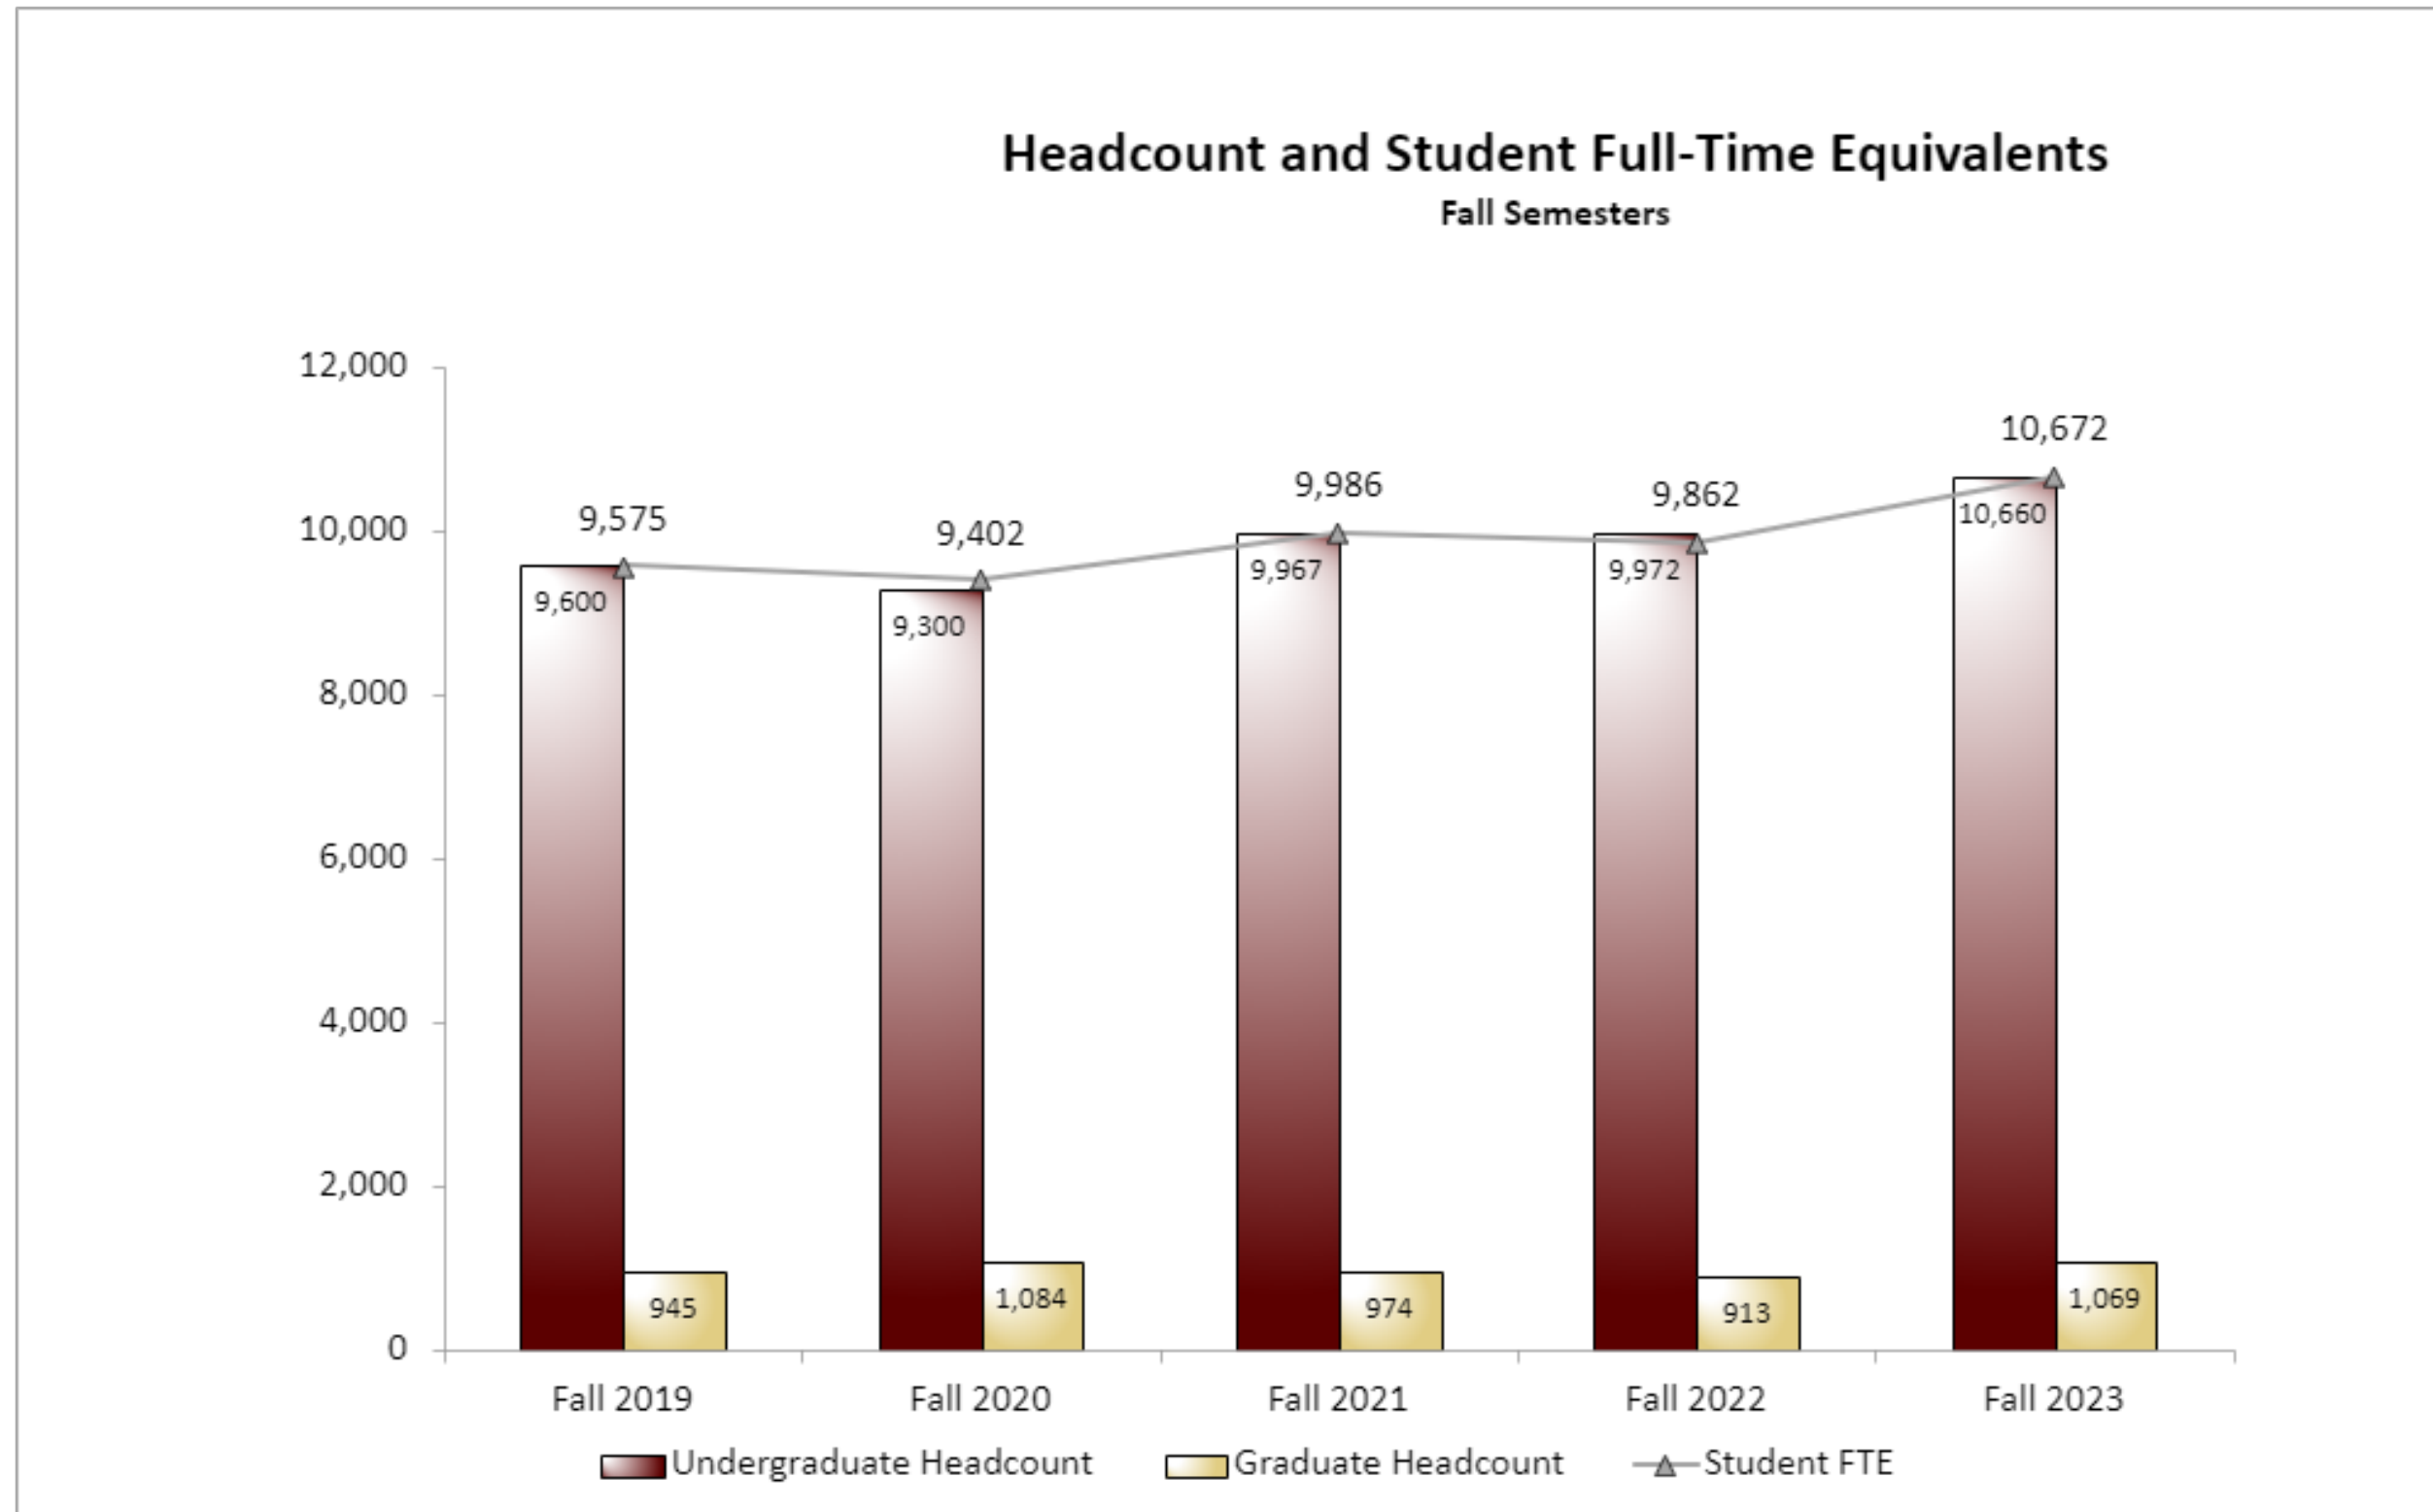

Every other year, this code creates challenges in creating a fall academic calendar that works well for students. When we have to close in early November it requires us to push fall break until then which in turn creates a very long stretch for students without a break.

Suggested language – Section 59-1-360 is suspended for any post-secondary institution that is not used as a polling location.
