UNIVERSITY OF  
**South Carolina**

# POINTS OF PRIDE

- **#1 FIRST-YEAR EXPERIENCE**

Led by its **pioneering, globally recognized freshman seminar University 101**, USC is **ranked No. 1** among public institutions for first-year experience (*U.S. News*).

- **SOUTH CAROLINA'S TOP EDUCATOR**

The USC system develops critical thinkers who become leaders advancing our state, **awarding more than 12,000 degrees a year**.

- **MILITARY-FRIENDLY**

USC welcomes and supports veterans and military service members. **USC Columbia and USC Aiken are both ranked by *Military Times* as among the best institutions** in the nation for veterans.

- **TOP 10 PERCENT GRADUATION RATE**

USC's graduation rate is **more than 20 percent higher than the national average**, placing it among the Top 10 percent for public universities.

- **SERVING OUR GROWING STATE**

**USC Beaufort's enrollment has more than doubled** since it began granting bachelor's degrees in 2002.

- **ENGINE OF OPPORTUNITY**

USC is working through the STARS College Network to **increase access to higher education** for students from small towns and rural areas. USC has also introduced several affordability initiatives – Including the Gamecock Guarantee, which **supports low-income, first-generation students**.

- **MORE THAN 60 NATIONALLY RANKED ACADEMIC PROGRAMS**

USC is South Carolina's academic leader, with **more *U.S. News*-ranked graduate programs** than any other college or university in the state.

- **MEETING SOUTH CAROLINA'S HEALTH CARE NEEDS**

USC is filling the state's need for new nurses, **graduating nearly 900 nurses per year**. Overall, South Carolina awards 4,000 health science degrees each year, spanning 100 degree programs.

- **TOP PUBLIC HONORS COLLEGE**

A model for higher education excellence, the South Carolina Honors College holds the **top rating among public honors college programs** (Inside Honors).

# POINTS OF PRIDE

- **STAYING AFFORDABLE AND ACCESSIBLE**

The University of South Carolina has kept **tuition flat for in-state students since 2019**. It also **guarantees admission** to South Carolina students in the Top 10 percent of their high school class. Two-thirds of all students in the USC system are in-state students.

- **# 1 INTERNATIONAL BUSINESS (GRADUATE AND UNDERGRADUATE)**

USC develops **world-class leaders who thrive in the global economy**, with the top-ranked undergraduate and graduate international business programs in the nation (U.S. News).

- **TOP 5 SPORT SCIENCE**

USC's sport science programs are **ranked No. 5 in the country**. The ranking includes the Arnold School of Public Health's exercise science and athletic training programs and the College of Hospitality, Retail and Sport Management's sport and entertainment management program (Global Ranking of Sport Science Schools and Departments).

- **BUILDING STRONG CONNECTIONS**

USC's **state-of-the-art Campus Village housing development** provides students with a wide range of features and amenities designed to **build strong communities by fostering shared academic and social development**.

- **HIGH-ACHIEVING STUDENT-ATHLETES**

Nearly **75 percent of all Gamecock student-athletes** (scholarship or walk-on) **make the SEC Academic Honor Roll each year**. Since 2015-16, South Carolina has led the SEC with 4,225 total student-athletes making the SEC Academic Honor Roll.

- **GAMECOCK FAMILY – 370,000+ ALUMNI**

USC Alumni join a lifelong family bound by loyalty. The university system includes more than 370,000 alumni worldwide and **more than 230,000 alumni in South Carolina**.

- **SUPERIOR LIVING/LEARNING COMMUNITIES**

USC's intellectually stimulating living and learning communities help students turn their interests and passions into fulfilling careers. The university has **seven faculty-led living and learning communities**, including the Galen Fellows health science community and the Rhodos Fellows community for information, design and computing.

- **BEST VALUE**

USC offers a **high-quality education at a reasonable cost**; U.S. News named USC a Best Value School (2025).

2025-2026	30,135,000	450,000	2,750,000	33,335,000	-
<b>Total</b>	<b>\$ 202,100,000</b>	<b>\$ 11,007,376</b>	<b>\$ 17,994,939</b>	<b>\$ 231,102,315</b>	<b>\$ 59,538,947</b>

15 This Columbia Campus schedule is sourced from the institution's Five-Year Capital Improvement Plan; however, this schedule also accounts for smaller maintenance projects below \$250,000 that are not documented in the Plan and do not require Board approvals. Supporting notes are provided on the next slide.

UNIVERSITY OF  
**South Carolina**

# COLUMBIA CAMPUS

## E&G MAINTENANCE EXPENDITURES (EXPENDED AND PLANNED)

Fiscal Year	Notes
2019-2020	Five Year Plan projects include: South Caroliniana Library Renovation, LeConte College Maintenance Renovation, Jones PSC Lab Renovation, and Swearingen. CRF funding for South Caroliniana Library Renovation in FY15/16 budget.
2020-2021	Quantity of projects affected by pandemic which slowed the expenditure of funds on capital projects in FY22. Five Year Plan projects include: Recurring annual Classroom Maintenance renovations, Coker Roof Replacement.
2021-2022	Five Year Plan projects include: West Energy Chiller Replacement (\$3.1M), numerous smaller utility maintenance infrastructure projects (\$2.7M), building envelope and roof maintenance projects (\$4.825M), HVAC and electrical building maintenance (\$2.85M), and other interior building maintenance projects (\$4.56M).
2022-2023	Five Year Plan projects include: Wardlaw College Envelope Renovation (\$4M), War Memorial Maintenance Renovation (\$4.4M), other building envelope and roof maintenance projects (\$18.1M), HVAC, electrical, and other interior building maintenance (\$12.7M)
2023-2024	Five Year Plan projects include: Roof replacements for McMaster(\$1.2m) and Blatt (\$2.6m), Swearingen Infrastructure Replacement (\$9m), and renovation of Booker T Washington Civil Rights Center (\$8m).
2024-2025	Five Year Plan projects include: Roof replacements for Colonial Life, Med Park #15, Renovation Maintenance Jones, West Campus, Horry Guignard and Booker T Washington
2025-2026	Five Year Plan projects include: Chiller and Utilities Upgrades, McMaster Envelope Restoration, Williams Brice Lighting, Jones 2nd and 3rd Floor Renovations, Graduate Science Research Center Envelope Restoration, and Thomas Cooper Library
General Notes	1. Most Five Year Plan data is based on approved budget amounts shown in the plan and include all hard and soft costs. The final actual cost of the project will typically be slightly less since there is often minor funding left at the end of a project. Older projects are calculated as actual expenses.
	2. Renovation work that occurs for purely functional reasons (i.e. not maintenance-focused work) or work that installs new systems, for example, the installation of a new sprinkler system in a building that does not currently have a sprinkler system, has not been included in the data for maintenance totals. These expenditures are in addition to the maintenance data shown above.
	3. State CRF/Lottery Funds are shown in the fiscal year in which they were predominantly expended and not in the earlier year in which they were appropriated. The \$20,350,000 of CRF funding appropriated in FY22 is expected to be begin being expended on construction in the summer of 2022 and the amount is therefore allocated to year FY23 for the purposes of this spreadsheet.

Union	E&G Unrestricted - Other Earmarked Funds	\$ 1,000,000	Tuition and Fees	Increase requested for enrollment growth, associated increased costs, and rising mandatory costs.

# SYSTEM PROVISO REQUESTS

## Indirect Cost Recovery (IDC) Threshold Increase for Teaching and Training Grants

- The USC System supports suspension of the statute that collects indirect cost recovery awarded to universities for teaching and training grants. Currently, the state collects IDC earned on teaching and training grants awarded to colleges and universities (a requirement that is largely unique to S.C.) and that has not been updated by the state since 1999.

*Request: Implement the proviso to allow colleges to retain their teaching and training IDCs to reinvest those funds in the Universities' vital programs.*

## 3.7 State's Lottery Investment in Access and Affordability – USC Colleges of Medicine – In-State Student Scholarship Support

- The USC System proposes scholarship assistance for SC in-state residents wishing to seek a medical degree at USC's medical colleges – Columbia and Greenville - by providing these residents with financial scholarship assistance. To help alleviate the state's physician shortage, these scholarships exclusively for the benefit of South Carolina resident students would enhance recruitment and alleviate the out-migration of high-achieving South Carolina students to out-of-state schools. In doing so, USC can recruit, enroll, and retain qualified residents by providing accessible and affordable medical education opportunities for all, especially in underserved areas of our state. Resident medical students educated in our state are more likely to remain in the state and USC medical graduates are more likely to practice in underserved communities. Note: According to the latest national rankings, both USC's medical schools rank in the Top 10 in placing graduates in underserved areas (Columbia #5 and Greenville #7).

*Request: \$3,500,000 allocation to be utilized by USC's colleges of medicine for the exclusive benefit of supporting medical education costs of SC in-state residents. \*Note: Recall that MUSC received a similar 1-time lottery appropriation previously.*

# SYSTEM PROVISO REQUESTS

**20.10.** (USC: SC TEACHER Advisory Committee): From funds appropriated to South Carolina TEACHER, an advisory committee shall be appointed to study and recommend policy changes to enhance the teaching of the State's educator workforce. Members shall include the Governor or their designee, the Superintendent of Education or their designee, the Dean of the College of Education at USC or their designee, the Chair of the Senate Education Committee or their designee, the Chair of the House Education and Public Works or their designee, and the Executive Director of the Education Oversight Committee or their designee. South Carolina TEACHER shall serve as staff to the advisory committee and shall report annually to the Governor and General Assembly.

*Request KEEP in packet \*Note: It was unnumbered in last year's packet; it is now 20.10. (vetoed by the Governor on June 3, 2025.)*

**117.194.** (GP: Educational Scholarships for In-State Students): For the current fiscal year, institutions of higher learning may offer up to, but may not exceed, an additional four percent of educational fee waivers, provided that additional waivers, if any, are limited exclusively to the benefit of undergraduate South Carolina in-state students.

*Request KEEP in packet\* \* Note: It was unnumbered in last year's packet; it is now 117.194.*

# SYSTEM PROVISO REQUESTS

**117.204.** (GP: Interim Neurological and Critical Care Hospital Board): (A) With the funds appropriated to the Department of Health and Human Services for Neurological Critical Care and Rehabilitation Services in South Carolina, there is created the Interim Neurological and Critical Care Hospital Board at the University of South Carolina. The Department of Health and Human Services is authorized to transfer agency funds to the University of South Carolina for the same purposes. The board shall consist of the following members and shall serve at the pleasure of the appointing official:

(1) Two members appointed by the Chairman of Senate Finance Committee, one of which may be a member of the University of South Carolina Board of Trustees;

(2) One member appointed by the President of the Senate, who may be a senior level employee of the University of South Carolina with knowledge of the medical field;

(3) Two members appointed by the Chairman of the House Ways and Means Committee, one of which may be a member of the University of South Carolina Board of Trustees;

(4) One member appointed by the Speaker of the House, who may have a background in hospital management or administration and may not be an employee or member of the Board of Trustees of the University of South Carolina; and

(5) One member appointed by the Governor, who may have a background in hospital management or administration and may not be an employee or member of the Board of Trustees of the University of South Carolina nor a former employee or member of the Board of Trustees of the University of South Carolina.

(B) The Chairman of the Interim Board shall be one of the members appointed by the Chairman of the Senate Finance Committee, the President of the Senate, the Chairman of the House Ways and Means Committee, or the Speaker of the House to be elected by the board.

(C) The board shall be administratively supported by the University of South Carolina.

(D) The University of South Carolina is authorized to undertake permanent improvements necessary for Neurological Critical Care and Rehabilitation Services. Further, the funds appropriated for this purpose may be carried forward and expended for the necessary permanent improvements. The funds must be accounted for separately, and the university shall report semiannually to the Chairman of the Joint Bond Review Committee on the amount of funding carried forward, the amount remaining to be expended, the overall status of the project, and any other information requested by the committee.

\*Note: This proviso is new and was not part of our FY26 packet; USC supports the proviso.

# SYSTEM PROVISO REQUESTS

**20.6.** (USC: Permanent Improvement Projects): Of the funds appropriated in Act 239 of 2022, Section 118.19, Item (18)(b) to the University of South Carolina, the remaining \$5,800,000 shall be redirected to be used by the University for permanent improvement projects.

*Request to DELETE this existing proviso from the budget.*

**20.7.** (USC: Harper/Elliott Honors College): Capital Reserve Fund appropriations to the University of South Carolina in Section 1(11) of Act 285 of 2016 for construction of Education and General (E&G) space in the addition to the Honors College dormitory may instead be redirected by the university towards necessary renovations and repairs of E&G space in the Harper/Elliott Honors College located on the historic Horseshoe of campus.

*Request to DELETE this existing proviso from the budget.*

# SYSTEM PROVISO REQUESTS

**20.9.** (USC: Substance Abuse Prevention): Of the funds appropriated to the University of South Carolina for the current fiscal year, the University's Division of Student Health and Well-Being, Office of Substance Abuse Prevention and Education is encouraged to apply for applicable local, state, and/or federal grant funding intended to support the creation and ongoing maintenance of a pilot program across the eight-campus University system that is designed to increase the availability of, and provide more ready access to, over-the-counter opioid reversal medications, such as naloxone, through non-traditional distribution mechanisms including, but not limited to, harm reduction vending machines. In implementing the pilot program, the University shall examine best practices deployed by other states including, but not limited to, Georgia, Louisiana, and Oklahoma. In addition, implementation shall be in accordance with applicable local, state, and/or federal laws and regulations and access to the opioid reversal medications distributed as a direct result of this provision shall be at no cost to the end user/consumer. The University annually shall report metrics related to the utilization and effectiveness of this provision, including associated costs and funding sources to support the pilot program, to the Chairmen of the Senate Finance Committee, the House Ways and Means Committee, the House Medical, Military, Public and Municipal Affairs Committee, and the Senate Medical Affairs Committee on or before May thirty-first of each year. A copy of the report shall be forwarded to the South Carolina Department of Alcohol and Other Drug Abuse Services. Notwithstanding the requirements of this provision, nothing herein shall create an unfunded mandate on the University, and the creation and ongoing maintenance of this pilot program is dependent on the successful awarding of local, state and/or federal grant funding in an amount sufficient to support the program. Unexpended funds shall be reinvested in this program for the following fiscal year.

***Request to DELETE this existing proviso from the budget.***

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### **Access & Affordability for In-State Students: Tuition Mitigation Funding – Recurring \$28,000,000**

- The University of South Carolina's top budget priority is continuing its partnership with the State to support predictable funding that mitigates annual tuition increases for resident undergraduates. Thanks to this collaboration, USC Columbia has held in-state tuition flat for a record seven consecutive years — maintaining its position as the most affordable R1 university in South Carolina. Despite charging nearly \$2,500 less than Clemson in tuition and required fees, USC Columbia receives less state funding per in-state student.
- Even with tuition mitigation support, rising costs continue to outpace available resources. Applying the Higher Education Price Index (HEPI) across both state appropriations and tuition reveals continued erosion in purchasing power. To preserve academic quality while managing inflationary pressures, USC actively reviews program viability and cost containment. Sustained, equitable investment from the state remains critical to protecting affordability and maintaining excellence for South Carolina students.

# COLUMBIA

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### Medical School Expansion – Recurring \$9,000,000

- The population of South Carolina is expected to steadily grow by nearly one-million people or twenty percent by 2040. During this period, the median age of the SC population will increase to more than 42, and nearly 25% of the population will become older than age 65 while the population of those under age 15 will contract to less than 17%. These changes will create great pressure on healthcare delivery in South Carolina. (Source: SC RFA Office Population Estimates and Projections)
- To educate and train the professionals required to meet the healthcare demands of that population change, the University of South Carolina Schools of Medicine intend to incrementally grow their class sizes up to 25% overall with this incremental growth beginning in fiscal year 2025-26. This growth is necessary to meet the certainty of the increased demands for geriatric care, chronic disease management for an aging population, and the growth in normal medical services required by a growing population.
- This request will allow the University of South Carolina Schools of Medicine in Columbia and in Greenville to partner with the State of South Carolina to expand its teaching and training capabilities and produce the medical professionals needed to support this population growth.

# COLUMBIA

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### **Neurological Critical Care Hospital and Neurological Rehabilitation Hospital Operations/Capital Renewal – Recurring \$25,500,000**

- USC thanks the State of South Carolina for its strong support of the state's first neurological hospital — including \$300 million in capital funds and an initial \$4.5 million in recurring support. This landmark investment will establish a center of excellence in neurological critical care and rehabilitation, addressing a longstanding gap in access to timely, high-quality care for South Carolinians.
- While planning and construction is underway, securing additional recurring funding now is essential to plan and launch sustainable operations. These funds would support key leadership, medical, and support staff roles, as well as early-phase operating costs and capital renewal.
- This is a generational opportunity to reshape healthcare in South Carolina. Early investment in readiness ensures we can fully leverage the state's capital commitment and deliver lasting impact for patients, providers, and the state's health system.

#### **Carolina Internship Program – Recurring \$2,500,000**

- The University requests an increase of \$2,500,000 in recurring funding to fully support the President's Carolina Internship Program. Historically funded at \$4,500,000 annually through lottery appropriations, the program was shifted to the recurring general fund in FY2026, with a reduced appropriation of \$2,000,000. This request restores the program to its original funding level. For reference, Clemson University received \$4,000,000 in recurring funds for a similar initiative.

# COLUMBIA

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### **Center for American Civic Leadership and Public Discourse – Recurring \$4,000,000**

- Launched in FY2026 with institutional support, this Center advances civic education, respectful dialogue, and leadership development across South Carolina. Recurring funding will sustain personnel, statewide programs, and public engagement efforts.
- This request fulfills commitments to the Governor and CHE and is key to establishing USC as a national leader in civic leadership and democratic discourse.

#### **STEM/Health Science and Other High Demand Fields – Recurring \$5,000,000**

- USC is grateful for the state's \$7 million recurring investment in STEM and other high-demand fields, which has been vital to expanding student readiness for high-impact careers across South Carolina. Building on this momentum, the University requests additional funding to deepen impact in three critical areas:
  - **Faculty recruitment and retention:** Peer institutions — particularly out-of-state — continue to recruit top-performing instructional and research faculty. Competitive compensation is essential to retain the high-caliber educators who inspire and mentor students in STEM and other technical fields.
  - **Modern equipment and technology:** High-demand disciplines require current lab tools, simulation platforms, and maintenance-intensive technology. Students must train with industry-standard equipment to graduate workforce-ready and competitive.
  - **Student success and academic support:** Many students entering STEM and other high demand programs face gaps in foundational knowledge. Expanded academic support helps close those gaps, increasing retention and producing more career-ready graduates in areas of critical need. With additional investment, USC can scale these successful efforts and further strengthen the talent pipeline for South Carolina's economy.

# COLUMBIA

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### **Brain Health Network Expansion – Recurring \$1,500,000**

- The University of South Carolina seeks an additional \$1.5M in recurring funding to strengthen and expand the USC Brain Health Network, a statewide hub-and-spoke model designed to improve diagnosis, care coordination, and treatment for brain health conditions—including traumatic brain injury, dementia, ADHD, and stroke—especially in rural and underserved areas.
- Additional investment would expand Alzheimer’s disease and dementia care to general neurological practice, including epilepsy, headaches, movement disorders, etc. This same increase also would allow for the expansion of more clinics in rural and underserved areas of South Carolina.
- This funding builds upon the \$5M previously received. It aligns with USC’s investment in its new Neurological Surgery Hospital and Rehabilitation Center, which will serve as a clinical and research hub for advanced neurological care in the state.

# COLUMBIA

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### Joseph F. Rice School of Law – Recurring \$1,805,000

Prior investments have strengthened our ability to serve South Carolina through legal education, workforce development, and public safety leadership. To build on this momentum, USC seeks **\$1,805,000 in recurring funding** to support the following initiatives:

- **Alternative Dispute Resolution in the Workplace – \$350,000** Expand statewide mediation and conflict resolution training to reduce disputes and improve workplace environments.
- **AI and the Law Faculty Position – \$400,000** Equip students to navigate legal and ethical challenges in artificial intelligence with dedicated faculty expertise.
- **JD Winter-mester Program – \$250,000** Offer an intensive winter term focused on experiential learning, professional development, and accelerated degree progress.
- **Public Safety Executive Leadership Scholarships – \$130,000** Provide scholarship support to prepare future leaders in law enforcement and public safety across South Carolina.
- **Executive Credential in Police Leadership – \$675,000** Deliver advanced leadership training to law enforcement officers statewide through an expanded ECPL program.

#### Joseph F. Rice School of Law – Recurring \$1,587,560

Prior investments have strengthened our ability to serve South Carolina through legal education, workforce development, and public safety leadership. To build on this momentum, USC seeks **\$1,587,560 in recurring funding** to support the following initiatives:

- **Post-graduate mentorship program - \$937,560** Employing recent graduates to provide them with on-the-job training and mentoring.
- **Safe Babies Court model - \$650,000** to cover the cost of assuming responsibility for proper implementation of the program.

# COLUMBIA

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### **Artificial Intelligence Consortium – Recurring \$7,000,000**

- As South Carolina's flagship R1 institution, USC is positioned to lead statewide AI advancement. We propose initial funding to develop a collaborative AI consortium that includes universities, government, private sector, and NGOs, aligning with the S.C. House Committee's evolving priorities. Funding would support early initiatives in areas like energy, healthcare, K-12 AI literacy, and statewide coordination, while remaining flexible to adapt based on upcoming discussions with the SC House. With strong AI research capabilities and proven leadership, USC can help drive innovation and economic benefit across the state.

### Non-Recurring Appropriations

#### **Establishing the Institute of Geopolitics, Innovation, and Global Competition – Non-Recurring \$2,000,000**

- The Institute will conduct applied research and analysis focused on geopolitics, global economic competition, supply chain dynamics, economic nationalism, and technological change. The Institute is intended to support informed decision-making by examining the interaction of global political and economic forces and their implications for business, government, and public policy.

# COLUMBIA

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### **Pharmacy Building on Health Sciences Campus – \$90,000,000**

- The University of South Carolina appreciates the General Assembly's visionary investments in the BullStreet District, which are transforming the area into a flagship Health Sciences Campus. With \$280 million allocated to the new School of Medicine and \$350 million to the neurosurgical and rehabilitation hospitals, the foundation is firmly established for a nationally recognized hub for health education, research, and clinical care.
- The University now proposes the development of a dedicated facility for the College of Pharmacy within this growing Health Sciences campus. Moving the professional school from the Coker Life Sciences building will free 46,144 sq ft of classroom and laboratory space for repurpose and renovation into undergraduate teaching space needed for the STEM field of biology on the Columbia Campus and will allow for supporting infrastructure—such as parking—to ensure accessibility and operational efficiency across the Health Sciences Campus.
- Moving the professional school to the health campus provides for further consolidation there and proximity to our healthcare providers. Proximity and further integration of teaching with training will provide improved practical experiences for our students. These improved experiences will better provide students with the necessary comprehensive knowledge required to readily enter the professional workforce.

# COLUMBIA

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### **USC ROTC Center – \$10,000,000**

- The University of South Carolina is requesting \$10 million in state funding to support the construction of a new 60,000 square foot ROTC Center of Excellence. This facility will serve as a central hub for USC's nationally recognized ROTC programs, helping meet the growing needs of over 2,000 military-affiliated students.
- The University has already received \$10 million in federal support through the U.S. Department of Housing and Urban Development it can use towards this project. An additional \$10 million in federal funding to the University is anticipated in FY26. This request represents the final \$10 million needed to complete the up to \$60 million project.
- By supporting this request, the State of South Carolina will help USC enhance training and academic spaces, improve military student services, and solidify its standing as a national leader in military education. The center will be the only facility of its kind in the Southeast.

#### **Maintenance Repair and Renovation – \$50,000,000**

- USC Columbia, with a 224-year-old campus and extensive facilities, requires ongoing investment to maintain safe, modern, and functional spaces for learning and research. This request supports urgent needs, including life safety upgrades, system replacements, and renovation of academic spaces.
- A strategic investment in MRR helps prevent costly failures, sustain academic continuity, and protect the long-term value of state-owned infrastructure.

# COLUMBIA

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### Information Technology Infrastructure and Security – \$50,000,000

- The July 2024 CrowdStrike outage exposed global vulnerabilities in IT systems. As South Carolina's flagship research university, USC must modernize its aging infrastructure to protect academic operations, research, and data. This one-time investment will support a multi-year modernization plan to:
  - Upgrade core IT systems, including networks and data centers, for improved reliability and scalability.
  - Strengthen cybersecurity to defend against evolving threats.
  - Modernize classroom technologies to support hybrid learning and digital collaboration.
  - Expand connectivity across campus to ensure equitable access to digital resources.
  - Build internal IT capacity through workforce development and training.
- This initiative will enhance USC's digital resilience, support innovation, and align with South Carolina's goals for economic growth and workforce readiness.

# COLUMBIA

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### **Battery Center Facility – \$7,000,000**

- More than \$10 billion in electric vehicle and battery-related investments have been announced in South Carolina over the past 18 months, creating at least 10,000 new jobs — many in rural and under-resourced areas. With continued momentum following the Governor’s 2023 Energy Summit and the launch of PowerSC, the state is positioned to lead the emerging “battery belt.”
- To fully capitalize on this growth, South Carolina must expand its intellectual infrastructure. The Carolina Institute for Battery Innovation (CIBI) will train South Carolinians and attract top talent to fill workforce needs in science, engineering, and advanced manufacturing. USC is uniquely positioned to lead CIBI, with deep expertise in battery research, relevant academic programs, and statewide accessibility.
- A \$7 million investment in a dedicated facility will accelerate this effort, positioning South Carolina as a national leader in battery innovation and creating high-tech, high-wage opportunities that strengthen the state’s economy

# COLUMBIA

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### Savannah River National Laboratory Collaboration – \$16,000,000

- Higher education is central to South Carolina's long-term prosperity. To meet the needs of business and industry, our state requires 70,000 additional baccalaureate degree holders by 2030. As the state's largest provider of higher education, the University of South Carolina System is leading this effort—producing graduates in high-demand fields while working with Clemson University and South Carolina State University to strengthen our state's talent pipeline. A key example is our partnership with the Savannah River National Laboratory (SRNL). Together with Clemson and SCSU, the State's initial investment is positioning South Carolina to compete nationally for research funding, fuel workforce development, and attract industry.
- With USC's initial share to date, we provided stipends for domestic graduate students, launched undergraduate research programs to prepare the next generation of scientists; secured new faculty in key research areas; and established the National Laboratories Office, including a full-time program manager, who organized the first SRNL University Partnerships Day with more than 145 students, DOE officials, and SRNL scientists. The Office will lead continued workforce development and collaborative research. For instance, the Office supported SRNL in winning a \$20M federal award for a university/industry consortium to advance fusion energy research, development, and education. USC has also committed resources to laboratory upgrades and equipment for nuclear engineering and chemistry, cybersecurity, and grid energy storage. These investments are already producing results and demonstrating strong returns on the state's commitment.
- With an additional \$40M installment—to be shared again among USC (\$16M), Clemson (\$16M), and SCSU (\$8M) —we can scale this statewide partnership, secure major federal funding, and ensure South Carolina leads the nation in research, innovation, and workforce development.

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### **Access & Affordability for In-State Students: Tuition Mitigation Funding – Recurring \$3,823,074**

- The top budget priority for the University of South Carolina System remains continuing to partner with the State to invest in predictable funding to mitigate against annual resident tuition increases.
- These funds would enable the System 1) to offset the tremendous rise in current inflationary costs expected to remain higher than historic norms for the foreseeable future, 2) to cover the customarily unfunded portion of state funding requirements for pension, health insurance, and cost of living adjustments, and 3) to continue to make strategic investments improving access to higher education for students across South Carolina.

# AIKEN

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### **Penland Building Façade and Welcome Center Renovation - \$10,000,000**

- The Welcome Center will serve as the starting point for recruitment of new students, family, and community members. By providing The Pacer Welcome Center, the university's recruitment presence and efforts will be greatly expanded and will allow USC Aiken to compete more effectively for outstanding South Carolina students.
- The One-Stop will provide excellent, high-level student service in an environment staffed by experts from across the Division of Enrollment Management. As an aid to both recruitment and especially retention efforts, the One-Stop staff will be able to solve problems, answer questions, provide intake for paperwork, and walk students through any process at the university.

#### **Deferred Maintenance - \$16,000,000**

- This request will address a broad range of facilities needs across campus, including restroom upgrades, roof and HVAC replacements, flooring, painting, elevator refurbishments, and building envelope and window repairs to prevent water infiltration. Additional projects include electrical panel replacements, emergency lighting, boiler and door replacements, and improvements to sidewalks, landscaping, roads, and parking areas.

# BEAUFORT

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### **Access & Affordability for In-State Students: Tuition Mitigation Funding – Recurring \$3,000,000**

- The top budget priority for the University of South Carolina System remains continuing to partner with the state to invest in predictable funding to mitigate against annual resident tuition increases.
- These funds would enable the System 1) to offset the tremendous rise in current inflationary costs expected to remain higher than historic norms for the foreseeable future, 2) to cover the customarily unfunded portion of state funding requirements for pension, health insurance, and cost of living adjustments, and 3) to continue to make strategic investments improving access to higher education for students across South Carolina.

#### **Implementing New Environmental Engineering Program – Recurring \$946,000**

- Implementing the Environmental Engineering Program would enable USCB to increase STEM & Professional offerings to meet regional needs and improve student experience and success rates. These funds will also enable USCB to broaden its current offerings to further reflect the regional interest and employment demands and hire two FTE Instructors at \$85,000 each plus fringe- \$226,000. Environmental parameters monitors-Monitor ecological systems/detect changes/make recommendations- \$320,000. Modeling and simulation software (HOMER, AERMOD, MODFLOW, OPENSTREETMAP)- \$400,000.

# BEAUFORT

## FY2027 STATE BUDGET REQUEST

### Non-Recurring Appropriations

#### **New Academic Program Equipment: Environmental Engineering – Non-Recurring \$170,000**

- Implementing the Environmental Engineering Program would enable USCB to increase STEM & Professional offerings to meet regional needs and improve student experience and success rates. These funds will also enable USCB to broaden its current program offerings to further reflect the regional interest and employment demands. Non-recurring Lab Equipment is estimated to cost \$120,000. Aerial drones to studies of habitats; changes in biodiversity; disaster response- \$50,000.

#### **Technology Infrastructure – Non-Recurring \$1,000,000**

- Recurring Technology Infrastructure funds are needed to replace equipment (such as campus network and Wi-Fi infrastructure) when existing equipment comes to the end of life. IT operates by utilizing student technology fees to cover daily operations and recurring software and support, leaving little funds for refreshing aged equipment. Lottery funds received by the state are relied on heavily to offset some of the expenses, freeing up technology fees to replace aging hardware. However, there is still a significant need to be able to properly support the campus infrastructure. The impact of not receiving the funds will not allow USCB to replace critical equipment before it is end-of-life. Having technology that can meet the needs of faculty, staff, and students affects all aspects of operations (recruitment, retention, development, athletics, etc.). Using equipment past its life will mean downtime for critical University services when equipment breaks, and the University waits on the supply chain for replacement.

# BEAUFORT

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### **New Convocation Center & Athletics Complex – \$10,000,000**

- The multiuse event space with seating for up to 4,000 people in a concert or graduation configuration and its support spaces will serve as a resource for both the University and Beaufort County. When completed in two phases, the facility will accommodate a wide range of academic courses, HPE athletic courses, student activities and assemblies, and special events.
- As an academic venue it will primarily serve the needs and function of the student body. Phase I will build approximately 87,500 square feet of floor space and include a multi-functional floor area, fixed and retractable seating for approximately 3,600 spectators, dressing/locker rooms, event equipment storage rooms, concessions stand, several building support spaces and approximately 300 additional parking spaces.

# BEAUFORT

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### **Nursing Education and Simulation Center – \$30,000,000**

- The USC Beaufort Nursing Education & Simulation Center will transform healthcare education in the Lowcountry producing more nurses, launching an NP program, and creating a healthier, more resilient community through expanded services including an on-campus clinic.
- USCB envisions future collaboration with the University of South Carolina School of Medicine to expand medical education and training opportunities in the Lowcountry. This includes potential joint programs, clinical rotations, and interdisciplinary training initiatives that will enhance healthcare delivery and workforce development in the region.

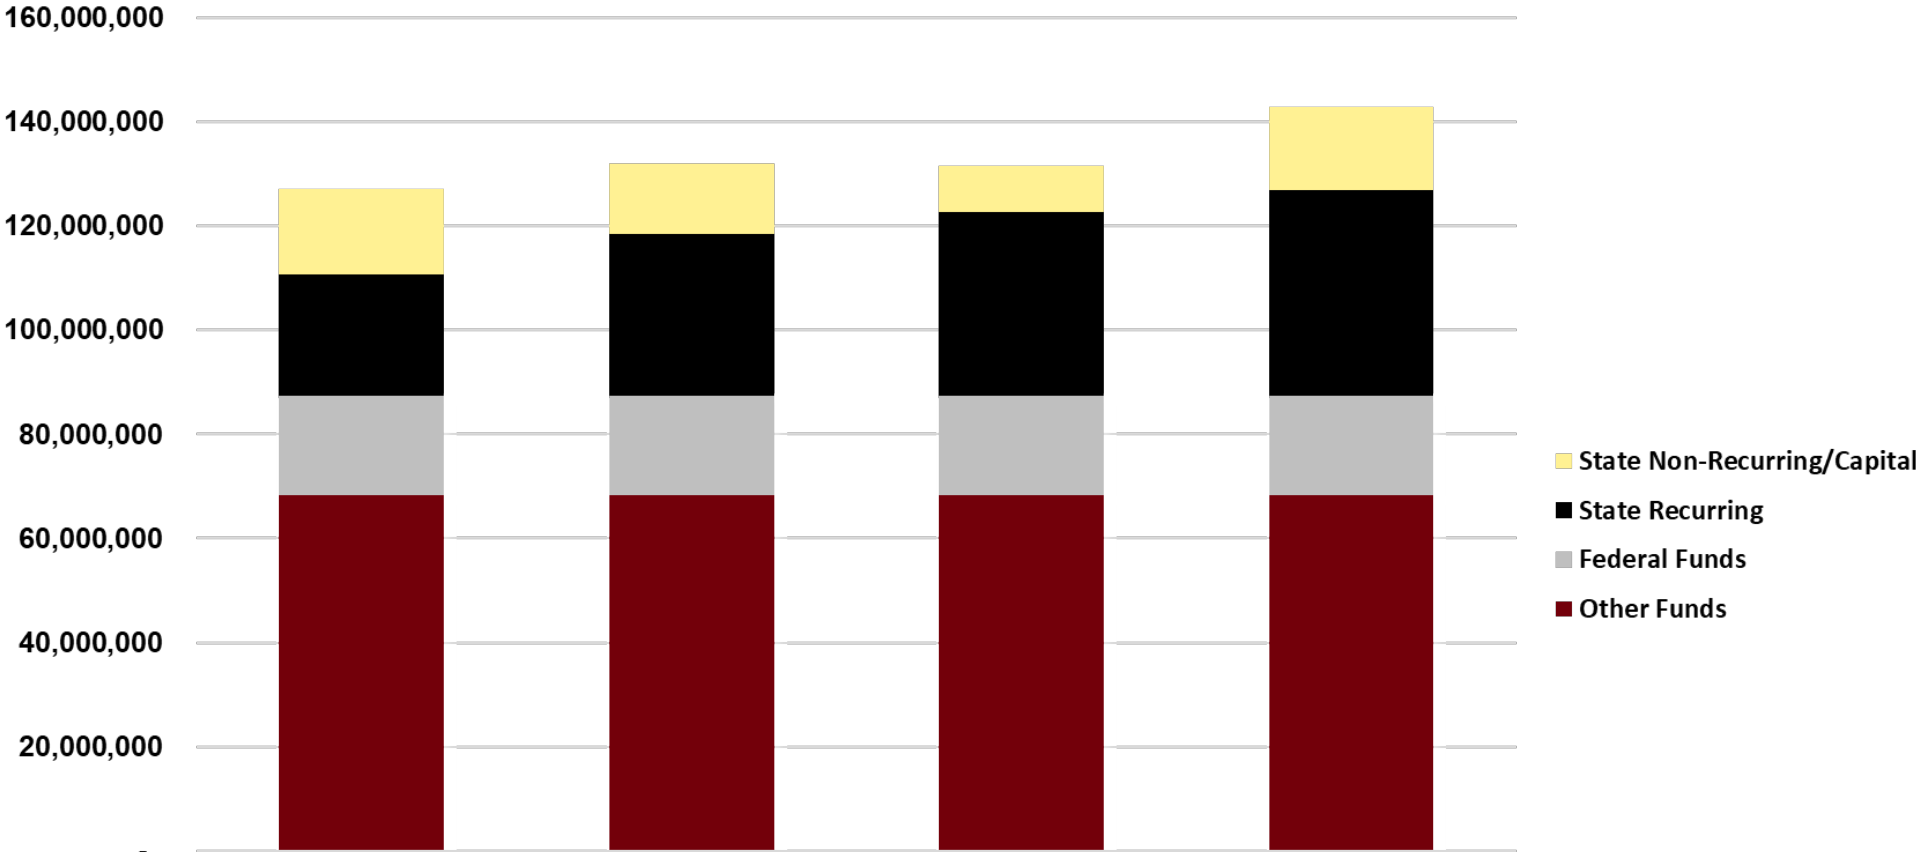

#### **Deferred Maintenance – \$2,250,000**

- The Hargray Building on the Bluffton Campus requires significant renovations and repairs, particularly on the first floor. Planned updates include replacing the paneling, redesigning the lobby layout, and reconfiguring the information desk to incorporate flexible event space.
- The Science & Technology Building also requires essential maintenance and upgrades. This includes the installation of a new air handler, as the current units are outdated and urgently need replacement. Additionally, the building's lighting will be upgraded to energy-efficient LED fixtures to enhance sustainability.

# UPSTATE

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### **Access & Affordability for In-State Students: Tuition Mitigation Funding - Recurring \$4,100,000**

- The top budget priority for the University of South Carolina System remains continuing to partner with the state to invest in predictable funding to mitigate against annual resident tuition increases.
- These funds would enable the System 1) to offset the tremendous rise in current inflationary costs expected to remain higher than historic norms for the foreseeable future, 2) to cover the customarily unfunded portion of state funding requirements for pension, health insurance, and cost of living adjustments, and 3) to continue to make strategic investments improving access to higher education for students across South Carolina.

#### **Establishment of the School of Engineering and Computer Science - Recurring \$3,500,000**

- Workforce & Program Development: Funding will establish the School of Engineering and Computer Science, launch new engineering programs, expand cybersecurity offerings, and hire key faculty and leadership to meet regional industry needs.
- Resources & Student Support: Supports classroom and lab upgrades, a Cybersecurity Clinic, and student scholarships to enhance learning and address the local talent pipeline.

# UPSTATE

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### Convocation Center - \$15,000,000

- Provide a new 135,000 GSF Convocation Center to support the academic function for larger assembly spaces to house convocations and other meeting venues affiliated with the University.
- Provide an athletic facility for major NCAA Division 1 athletics with an approximate seating capacity of 6,000-7,000 fixed seats with ability for additional floor seating areas.
- Provide a large facility for large venues in the Upstate region for use by community functions affiliated with entertainment, local business, Spartanburg Regional Health System, and other regional meeting space functions.

#### Nursing/Health Sciences Building - \$13,500,000

- Construct new 76,000 GSF facility to include classrooms, labs, faculty-staff offices, and affiliated meeting spaces.
- This will double the size of the existing Mary Black School of Nursing academic facility.

# UPSTATE

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### Academic Media Renovations and Addition - \$20,000,000

- Renovation of 30,000 SF Interior: Modernizing an existing classroom building with outdated mechanical and electrical systems beyond their useful life. The renovation will include updated classrooms, laboratories, faculty and staff offices, restrooms, and storage spaces, as well as a complete replacement of the building's HVAC system to ensure a comfortable and efficient learning environment.
- Construction of a 3-Story, 14,000 GSF Addition: Creating new academic space tailored to the College of Engineering's needs, including state-of-the-art classrooms, advanced laboratories, faculty and staff offices, restrooms, and storage spaces.

#### Regional Hospitality and Tourism Building - \$12,000,000

- USC Upstate is grateful for the \$6M investment provided in FY26 toward the Hospitality and Tourism Management Center in Spartanburg. The University now requests \$12M to complete this \$18M project, which will transform an existing event space into a dual-purpose teaching and conference facility.
- The Center will feature classrooms, specialized labs, and a modernized conference venue to support undergraduate education in hospitality, tourism, and recreation. By leveraging the on-site hotel for hands-on training and revenue generation, the project strengthens workforce development in one of South Carolina's fastest-growing industries while enhancing Spartanburg's role as a regional hub.

# UPSTATE

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### Deferred maintenance - \$5,000,000

- Maintenance is a required cost for ensuring appropriate learning environments and maintaining state assets. USC Upstate would use funds to address a variety of deferred or appropriate critical repair and related maintenance, and address any other critical equipment, and systems repair. Funds would be targeted for critical life and safety maintenance issues and those that ensure educational mission.

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### **Access & Affordability for In-State Students: Tuition Mitigation Funding – Recurring \$1,940,244**

- The top budget priority for the University of South Carolina System remains continuing to partner with the state to invest in predictable funding to mitigate against annual resident tuition increases.
- These funds would enable the System 1) to offset the tremendous rise in current inflationary costs expected to remain higher than historic norms for the foreseeable future, 2) to cover the customarily unfunded portion of state funding requirements for pension, health insurance, and cost of living adjustments, and 3) to continue to make strategic investments improving access to higher education for students across South Carolina.
- Allocations per campus: Lancaster - \$688,000; Sumter - \$531,000; Salkehatchie - \$308,244; and Union - \$413,000. Requests would help mitigate future tuition increases by covering anticipated operating increases for inflationary costs and mandated increases such as pension, health insurance, and cost of living adjustments.

# PALMETTO COLLEGE

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### **USC Salkehatchie Student Career Pathway Support – Recurring \$422,500**

- Student Support: Funds will enhance advising, counseling, and enrollment services to improve student recruitment, retention, and goal alignment.
- Program Expansion: Supports growth in specialized programs and hands-on learning resources to better prepare students for the workforce.

#### **USC Salkehatchie Security and Community Engagement – Recurring \$120,000**

- Student Support: Funds will enhance advising, counseling, and enrollment services to improve student recruitment, retention, and goal alignment.
- Program Expansion: Supports growth in specialized programs and hands-on learning resources to better prepare students for the workforce.

#### **USC Salkehatchie Marketing, Communications, Alumni Relations – Recurring \$150,000**

- Personnel to implement branding changes and on-going marketing and communications. Additionally, this person would be charged with establishing an alumni association for Salkehatchie and establishing processes by which alumni will become engaged in the campus community.

# PALMETTO COLLEGE

## FY2027 STATE BUDGET REQUEST

### Recurring Appropriations

#### **USC Union Expanded Facilities Support – Recurring \$350,000**

- To maintain and service the facilities at their newly refurbished levels, the campus needs additional operational funds for utilities, custodial support and supplies, as well as daily and routine maintenance supplies.

#### **USC Union FTE Faculty – Recurring \$275,000**

- Recurring funding would be used to hire 3 FTE faculty or staff to meet the growing instructional and student service needs of the student body. This would allow the campus to provide instruction by more full-time faculty and rely less on part-time adjunct faculty.

#### **USC Lancaster Nursing Program Capacity Expansion – Recurring \$2,500,000**

- USC Lancaster seeks \$2.5M recurring to expand nursing education capacity and address critical workforce shortages in the region. Funding will allow the institution to recruit and develop qualified nursing faculty, support the launch of the first accredited multisite simulation center in South Carolina in partnership with the USC College of Nursing, and invest in required simulation leadership, certifications, and technology upgrades.

# PALMETTO COLLEGE

## FY2027 STATE BUDGET REQUEST

### Non-Recurring Appropriations

#### **USC Lancaster Security Call Box and Cameras – Non-recurring \$150,000**

- This initiative includes the addition of an emergency call box and strategically placed security cameras to monitor activity in the area.

#### **USC Sumter Central Access Control – Non-recurring \$1,550,000**

- Streamline entry management by enabling timed unlocking and relocking of doors, provide immediate "Lock Down" capabilities in the event of an active shooter or other critical incidents, and maintain key override options with free egress from the building.
- Centralizing control and monitoring will enhance overall security and offer potential future integration with existing security measures, such as cameras or alarm systems.

#### **USC Union Instructional and Institutional Support – Non-recurring \$750,000**

- Instructional Materials, Equipment, & Supplies to support Nursing Program, Student Success, Institutional Support, Physical Plant, and Student Activity/Athletic Operations.

# PALMETTO COLLEGE

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### **Facility Deferred Maintenance, Renovations and Upgrades - \$15,730,000**

- Lancaster \$3,200,000; Salkehatchie \$5,550,000; Union \$6,980,000

#### **USC Salkehatchie Replacement of Maintenance Building - \$1,500,000**

- Current maintenance building is a metal building that is rusting in several areas. It also does not have space for storage of maintenance equipment. The request is for a building that will provide maintenance with a reliable building that can also be used to store all the campus' maintenance related equipment such as tractor, mowers, and smaller maintenance equipment. It will also be used for all storage of tables, chairs, golf carts, and other campus items that are currently occupying space in the Conference Center.

# PALMETTO COLLEGE

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### USC Salkehatchie Athletic Complex and Community Pavilion - \$4,250,000

- Salkehatchie's baseball, softball, and men's and women's soccer teams and their coaches are currently without a designated space. The coaches' offices are in the Athletic Center, and we have made a makeshift weight/strengthening space in the back part of that building. The soccer teams are using the old locker rooms in the Conference Center for their teams and visiting teams. The softball team has an older building that is being used for changing and visiting teams. However, the space does not have working bathrooms. The baseball team has an old building space that is being used as a fieldhouse, but the bathrooms are having to be used by the spectators and the visiting teams as well as Salkehatchie's team. The plan for this would be spaces that could be used by Salkehatchie's teams, visiting teams, spectators, local community members and stakeholders in our campus. The new space would also be used as a recruiting center for athletics and will be an effort to retain students.

# PALMETTO COLLEGE

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### USC Sumter Health, Wellness, and Athletics Center - \$8,000,000

- The Health and Athletics Center will include an updated facility that will meet the current and future needs and will allow athletics programs to expand and to increase student enrollment. The current facility is in great demand for numerous community activities, but these events compete with athletics for space. The new facility will allow USC Sumter to repurpose the old gymnasium for such community events and recreational activities. The project will also replace the current softball practice field with a new field that will meet the softball team's practice and competition needs. The facility will also provide updated office space for athletics administration and coaches.
- The Health and Athletics Center will house mental health services available to students, faculty and staff and education success services for active-duty soldiers and their dependents, reservists, and veterans.

# PALMETTO COLLEGE

## FY2027 STATE BUDGET REQUEST

### Capital Appropriations

#### **USC Union Construction of Gymnasium/Convocation/Civic Center - \$11,000,000**

- A compliant gymnasium / convocation building will support the campus in bringing back men's and women's basketball and provide a proper seating capacity for our current volleyball team and student activities. At present, Union County has no civic center to support events like graduations, sporting events or concerts / musical performances. This event space can also be offered to the community for large gatherings with seating up to 1,500 people. Youth programs could also use this space for camps and activities, which would aid in future recruiting efforts. This building would also be the front door or Welcome Center for USCU to engage prospective new students / student athletes and their parents. This facility will serve as a central location for the athletic program housing coaches offices, a wellness center and locker rooms. This will be a two or three phase project with the gym building as a start and phase into locker rooms and offices.

#### **USC Union Construction of Maintenance Building- \$1,500,000**

- The campus does not have a maintenance and storage building. This project will construct a building to house maintenance staff, with offices and restrooms on an adjacent lot owned by the campus. With the expanding campus footprint and population growth on campus, there is a critical need to get all equipment, supplies and deliveries in one central location. As of now, deliveries are in every building, and equipment is spread throughout campus in a multitude of campus buildings. This building would also provide storage for desks, chairs, janitorial, and event supplies, which are also currently stored in multiple locations. Campus vehicles, utility vehicles, machinery, and landscape equipment will also be housed in a fenced and secure shed at this building.

# SYSTEM FEE WAIVER

## **I. Governing Legislation/USC System Policy**

South Carolina Code of Laws: Section 59-101-620

USC System Policy: FINA 4.04

2025-2026 Proviso 117.194

## **II. Summary**

Legislation/policy allows institutions of higher education to offer educational fee waivers of up to 4% of the undergraduate students or in an amount based on 4% of the prior year's tuition revenue. For the current fiscal year, institutions of higher learning may offer up to, but may not exceed, an additional 4% of educational fee waivers, provided that additional waivers, if any, are limited exclusively to the benefit of undergraduate South Carolina in-state students.

## **III. Purpose**

The use of tuition awards is for the following purposes: to enable the campus to have a more direct influence of the diversity of the student body profile; to enroll academically talented students and students with special talents; and/or to meet student's financial need or to recognize student's contributions to the University.

## **IV. Special Treatment for USC System Comprehensive and Regional Colleges**

Recipients of the fee waiver at Comprehensive Institutions may include non-resident students and high school concurrent students. The combination of tuition award plus waived fees may not be greater than the differential between tuition rates for residents and non-residents. No more than one-half of the calculation may be awarded to non-resident students.

## **V. Threshold Calculation (Equivalent Method - Per Policy FINA 4.04)**

# SYSTEM ABATEMENTS

Abatements provide an avenue, through strategic leveraging of discount rates, to recruit and retain high caliber non-resident undergraduate students to the University of South Carolina.

The State of South Carolina requires or allows several abatements through state law.

## **This includes**

- ☐ Active-Duty Military
- ☐ Certain Military Dependents
- ☐ Academic Common Market
- ☐ Sister-State
- ☐ International Agreements
- ☐ American Legion Scholars
- ☐ Reciprocal Exchanges

Students who receive institutional abatements possess academic, athletic, or musical talents to enhance the campus and community.

USC Columbia uses a tiered tuition structure for non-resident scholarship students with different discount rates. This has been intentionally developed over time to compete for high caliber students while maximizing net tuition revenue.

At USC Columbia, the non-resident student population subsidizes the cost of education for South Carolina residents.
