Charter School Funding Overview 2018-2019

Education Finance Act Funding

The Education Finance Act is established to guarantee each student in SC the availability if at least minimum educational programs and services. The Act outlines the funding methodology for these State funds. Funding is allocated on a per-pupil allocation (Base Student Cost). Allocation is calculated by multiplying the BSC by the Weighted Pupil Units determined by the individual student characteristics.

FY19 Base Student Cost: \$2,485.00 Total FY19 EFA Funding: \$29,177,083.78

Education Improvement Act Funding

The EIA represents South Carolina's effort to improve the quality of its public education system. The Act is a comprehensive education reform plan containing specific programs and strategies for improving public education in the State, as well as mechanisms for distributing funds for the Act's implementation. Schools are eligible for different EIA categorical funds depending on the qualifications of each school. Examples:

- Reading Coaches
- EEDA Career Specialist
- Student Health & Fitness
- Teacher Salary Supplement
- Summer Reading Program
- Teacher Supply
- National Board Certified

Total FY19 EIA Funding: \$15,670,718.17

Charter School Act Funding (Proviso Funding)

The Proviso Funding is established by the Charter School Act to supplement the state funding to charter schools since the Institute, as a statewide authorizer, does not have the taxing authority on local dollars. Funding is allocated on a per-pupil allocation in align with the EFA formula.

FY19 Brick and Mortar Per-Pupil: \$3,600.00 FY19 Virtual Per-Pupil: \$1,900.00 Total FY19 EFA Funding: \$30,012,882.88

FY19 Total Funding: \$74,860,684.83 Institute Administrative Fee (2%): \$1,419,037.89

ENGAGEMENT

The Charter Institute at Erskine team consists of veteran leadership across the field of education. We are committed to offering our schools the assistance needed to be successful. Here are a few ways the Institute engages with its schools:

SCHOOL LEADERS MEETINGS

The Charter Institute at Erskine hosted three meetings (back-to-school, fall, and spring) for the 2018-2019 school year with School Leaders that focused on each department at the Institute. The goals of these meetings were to increase in-person communication and support with schools, promote Institute school collaboration and networking, and provide focused training for staff.

GOVERNING BOARD EVENTS

The Charter Institute at Erskine hosted innovative ways to enhance the effectiveness of schools' board of directors. The Institute conducted a board retreat in December 2018 that featured several prominent figures across the state including the Inspector General, the Public Charter School Alliance of South Carolina, Education Management Organizations, and state attorneys.

"South Carolina Virtual Charter School has a deep appreciation to our state charter authorizer, the Charter Institute at Erskine. Since establishing our partnership with them in July 2018, the Institute's philosophy of studentcentered support for schools, students, families, and staff has been an asset for the continuing success of SCVCS. Together, SCVCS and the Charter Institute at Erskine are "moving the needle" to improve educational outcomes for South Carolina students and schools so that each student can achieve his potential." her full or -Dr. Cherry Daniel, SCVCS Executive Director

HIGHER EDUCATION PARTNERSHIP

The Charter Institute at Erskine values the collaboration and relationship it has with Erskine College. The college is having a profound impact on Institute schools and students.

ERSKINE PILOT SCHOLARSHIP

Every graduate from a school authorized by the Charter Institute at Erskine who is fully accepted to Erskine College receives a four-year, \$100,000 scholarship.

CAMPUS VISITS

Throughout the school year, Institute schools enjoyed tours of the Erskine campus in Due West.

SCHOOL STAFF TRAININGS

Erskine College held on-campus and local trainings for school leaders and their guidance counselors throughout the year.

FACILITIES

Virtual school students utilized the Erskine College science lab and learned from professors.

INSTITUTE EXPERIENCE

The Charter Institute at Erskine's highly experienced team fully understands the unique needs of public charter schools. The team consists of educational leaders who actively remove barriers and assist partner schools in their pursuit of academic and operational excellence. Collectively, the Institute's staff has 151 years of administration experience in the field of education, including 94 years of experience specifically in charter schools. The Institute's staff also has nearly 54 years of direct experience in the classroom.

EXCEPTIONAL CUSTOMER SERVICE

COMMUNICATIONS

"Erskine's communications department has developed into the embodiment of Erskine's mission and vision of a customer service approach as they support and hold schools accountable at the same time. It is in my opinion a new and fresh approach to school communication and a great representation of our out of the box approach to education. I had the pleasure of working on a couple of mission specific projects with Derek and found him to be super responsive and helpful."

-Brenda Corley, Oceanside Collegiate Academy Principal

SPECIAL EDUCATION

"The Special Education staff members at the Charter Institute at Erskine are exceptionally knowledgeable, proactive, and long range in their thinking. When we experienced growing pains during our first year they practically pitched tents on our campus, freely gave additional instruction to new staff, and put our documentation to a microscope to ensure we succeeded. They didn't always know the answer to unusual situations, but they knew exactly where to find an answer and get it to us rapidly. They developed tutorials, handbooks, and other instruments to ensure we had all the tools we needed to succeed and they could monitor us appropriately. They are humanistic in their approach, never forgetting that we are all works in progress. They did all this with enthusiasm, caring, and a sense of humor. I completely trust them and rely on their support to keep our Special Education program thriving." *-Dr. John Moncure, Montessori School at Camden Headmaster*

FEDERAL PROGRAMS

"I am very pleased with the services provided by the Federal Program department. They have been very helpful with Calhoun Falls Charter School. As a new school leader, they understood and increased my knowledge about Federal Programs. Together their knowledge is the best in the state. We couldn't ask for a better team."

-Kalan Rogers, Calhoun Falls Charter School Principal

EXCEPTIONAL CUSTOMER SERVICE

FINANCE

"I am excited to express my appreciation to the finance department with The Charter Institute of Erskine. They are always helpful, available, and informative with answers that assist school leaders with any questions. I have worked in other school districts, and I am proud to say that they are one of the best."

-Dr. Brian Newsome, Gray Collegiate Academy Principal

POWERSCHOOL

"The support and customer service BPA has received from the Charter Institute at Erskine's PowerSchool team has been exceptional! This team is intentional and strategic about providing training and support that meet each school's needs. No longer do we worry or stress over inaccurate data reports; we are confident in the service provided by the Erskine PowerSchool Team."

-Deirdre McCullough, Belton Preparatory Academy Principal

HUMAN RESOURCES

"The Charter Institute at Erskine's human resources department has been a valuable partner with Cyber Academy of South Carolina in all facets. They are committed to excellence and always go above and beyond meeting our needs. Paula was outstanding in offering our staff the training required and her assistance with insurance enrollment was conducted flawlessly. She was also tremendous in answering any teacher certification questions we had."

-David Crook, Cyber Academy of South Carolina Head of School

Summary of Program:

These funds are appropriated to provide educational opportunities for students attending charter schools sponsored by the Charter Institute at Erskine. For the 2019-2020 school year, this funding corresponded to a per pupil allocation of \$3,600 per weighted pupil unit (WPU) at a brick and mortar school and \$1,900 per WPU at a virtual school. This funding is necessary to supplement the base student cost in order to ensure that state-sponsored charter schools have sufficient funding to provide a free and appropriate public education for students and families across the state who have chosen these schools. Additionally, this funding is required to offset inequities between schools authorized by the Charter Institute at Erskine and local schools, as these charter schools do not have access to traditional funding streams through their local municipalities.

The Charter Institute at Erskine is not asking for a per pupil allocation increase for FY 2020-2021.

3. Logic Model

Complete the Logic Model Template provided below with specific reference to the *Profile of the SC Graduate* as relevant. After completing the Logic Model, respond to Questions 1 and 2. Below are definitions for terms included in the Logic Model Template.

- Goal: Overall purpose or long-term outcome of the program, with specific reference to the Profile of the SC Graduate as relevant.
- Research/Evidence: Description of relevant research, evidence or best practices that describe how change occurs.
- **Resources:** Currently available or proposed inputs or program investments for the proposed program. List all the resources needed for a successful program, including federal or state funds as well as grants. Common resources include human resources, financial resources, space, technology, other equipment and materials.
- **Strategies:** Actions that are needed to implement program. Describes how program resources will be used to achieve program outcomes and goals. Also considered to be processes, methods or action steps.
- Indicators: Measurable, tangible, and direct products or results of program activities. They lead to desired outcomes but are not themselves the changes expected due to the program. Outputs help assess how well the program is being implemented. Outputs frequently include quantities to reflect the size or scope of services or instruction being delivered.
- **Outcomes:** Results the program intends to achieve if implemented as planned. Outcomes are the changes that occur or the difference that is made for the population during or after the program. Outcomes should be within the scope of the program's control or sphere of reasonable influence, as well as the timeframe that has been chosen for the logic model. They should be generally accepted as valid by stakeholders, framed in terms of change and measurable.
- External Factors: Issues or circumstances that are outside of the control and scope of the program, but they may impact the implementation or outcomes of the program.

Problem/Issue	The local charter schools must implement the unique educational programs detailed in the charter, ultimately fulfilling the promises made to the parents, students and communities each school serves. Beyond the focus of innovation, these schools must also demonstrate fiscal viability, operational sustainability, and academic success. This proviso funding is necessary to ensure that Charter Schools authorized by Charter Institute at Erskine maintain adequate funding levels in order to help close the student achievement gaps in South Carolina and demonstrate progress towards meeting the goals specified in the charter.

Demonstrated closure of achievement gaps. Provided high- quality public- school choice options for South Carolina. Closure or change of school management for identified schools persistently falling below expectations. 	The Charter Institute, in collaboration with the schools under our umbrella, developed the Student Success Profile (SSP). The SSP will also reflect the State Report Card data. Following the National Best Practices, the Institute will hold schools accountable on the below Indicators: 1. Academic: Is the academic program a success? Is the School curriculum effective? 2. Finance: Is the school financially viable? 3. Governance: Does the board demonstrate the capacity to govern school programming and operations effectively?		

education oversight, federal program planning and processing, as well as oversight of financial and operational management. The Institute will meet these requirements by providing high-quality technical assistance to ensure schools are informed of the most recent state and federal requirements and standards. The Institute will develop several support systems, with supplemental processes, tools, and resources to guide and assist the work of its schools.	 Academic: Is the academic program a success? Is the School curriculum effective? Finance: Is the school financially viable and sustainable? Governance: Does the board demonstrate the capacity to govern school programming and operations effectively? 	The profile when completed, will be posted on the website for all stakeholders.

Charter schools cannot often afford to employ a highly skilled data analyst with the capability to develop several data models and reports that can be valuable and digestible for audiences that include the board, school leadership, and teachers. Access to a resource like this will support data-driven decision-making in schools.	The Institute hired a data analyst to work closely with the Director of Accountability and partner schools. The role of the data analyst is to conduct advanced analytics on school data, triangulating between sources, identifying significance or variance within and between scores, and presenting schools with information that can help drive strategic planning, data-driven instruction, and even programmatic adaptation.	Current	Schools will identify the areas of need and provide intervention to overcome those needs based on the data provided.	 Schools will resolve the issues identified. Schools will get better on areas that they are already doing good. 	 Institute will monitor the formative assessment data provided by the schools. Student Success Profile State Report Card

Request for EIA Program Funding for Fiscal Year 2020-21 and Program Report for Fiscal Year 2018-19 Partnerships/Programs/Agencies Fiscal Year Logic Model

Provide a logic model for each of the following fiscal years:

- 1. for the completed prior fiscal year (FY 2018-19), that identifies the strategies, outputs and outcomes employed and impact determined for the project/program;
- 2. for the current fiscal year (FY 2019-20); and
- 3. for the planned subsequent fiscal year (FY 2020-21) that document the strategies, outputs and outcomes for the program/project and how impact will be determined.

After completing the Logic Model, please respond to Questions 1 and 2. The Goal should address overall purpose or long-term outcomes of the program, with specific reference to the *Profile of the SC Graduate* as relevant.

Question 1: Evidence/Research: Description of relevant research, evidence or best practices that describe how change occurs. You may include citations, best practices, or national, state or regional evidence. **A bulleted format is encouraged**.

- Building upon its first year of operation, the Charter Institute at Erskine continues to utilize the South Carolina charter school law to guide the development of all systems and processes that aim to serve its schools in South Carolina.
- Student Success Profile: The Institute's National Pilot Program to develop the "Student Success Profile" will ultimately serve as the framework and tool to hold schools accountable, but also in keeping with the Charter School Act, aims to give them an opportunity to demonstrated the effectiveness of their innovative models and approaches to serving the unique needs of each distinct community for which the charter was written.
- The Institute will continue follow all state and federal requirements, civil rights obligations, safety and security requirements, and special education and exceptional student provisions.
- The Institute has secured a contract beginning in October to work with a consultant who possesses nationwide experience in development of higher education authorizers. The consultant will audit and review a series of nationwide practices, bringing back research-based and proven models to consider for adaptation or iteration here in South Carolina.

- The Charter Institute at Erskine holds itself first and foremost to a very high standard of accountability. The goal in doing this is to model for schools the behaviors and practices that the Institute values. Example: The Institute has developed robust internal financial controls and policies that schools can now adopt and utilize.
- The Institute has piloted its Shared-Service-Model for PowerSchool, Communications and Special Education. This has brought increased support and capability to school-level operations while significantly reducing operational capital requirements.
- As the newest authorizer in South Carolina, the Institute has made significant gains in improving the historical relationships and culture developed between charter schools and the authorizer.
- The Institute has worked with SC Department of Education to support statewide charter efforts and federal grant activities, including providing feedback and input to the model Charter School Application and the new school review process, and other elements of the grant such as alternative education modeling and authorizer accountability.

Question 2: External Factors: Provide additional information about any external factors that may impact the implementation and/or achievement or outcomes during the current fiscal year 2019-20, or the next fiscal year, 2020-2021. **A bulleted format is encouraged**.

- Due to the scope and nature of charter authorizing work, a significant number of requirements are given to schools by the Institute in
 order to comply with state, federal, charter, South Carolina Department of Education and Education Oversight Committee requirements.
 Smaller schools, more limited in resources, are adversely affected when a majority of personnel time is spent on paperwork and
 compliance, rather than school programming and student services.
- As a statewide organization, providing technical assistance and fostering strong interpersonal and professional relationships, often requires school leaders and staff to travel several hours. An unintended consequence is having school staff away from their schools, which adds additional strain on the time and resources of schools. To mitigate this, the Institute is providing more technical assistance and support opportunities through the use of webinars, conference calls, and other virtual platforms.
- Charter schools in rural settings are struggling to recruit and retain high-quality teachers.
- A lack of funding for transportation has been an identified barrier for schools in meeting racial composition requirements.

Evaluation – Use the Logic Model to provide further detail on Items A – C.

A. Outcomes

Use the space below to describe methods used to determine the program's impact on program participants or recipients. Document measures or evidence collected to demonstrate impact. Attach additional pages if necessary.

The Charter Institute at Erskine continuously monitors charter school performance and implements appropriate corrective actions when charters do not meet performance expectations or operating standards. The Charter Institute at Erskine will use the outcomes of the Student Success Profile to hold schools accountable and ensure that they are fulfilling the requirements described in their charters and outlined state law.

The Charter Institute at Erskine executed Charter Contracts with schools that explicitly ensure schools are held accountable for better student outcomes for ALL students.

As an LEA, the Charter Institute at Erskine holds the schools accountable for all state and federal requirements, civil rights obligations, safety and security requirements, and exceptional student programming.

B. Implementation

Use the space below to reflect on the current implementation of the program. Outline the methods used and data collected. If the program is new, explain how the following questions will be addressed:

- Has the program shifted or deviated from the original program plan? If yes, explain.
- Are services or activities going as planned? If no, explain.
- Is the program reaching the intended target population or the intended number of participants? If no, explain.
- Is it leading to expected outcomes? If no, explain.

• How do participants or recipients perceive the services, benefits, activities of the program? What methods have been employed to understand participants' or recipients/ perceptions?

The intent of the charter school movement in South Carolina has been to create innovative educational options for students and families that aim to meet each community's specified needs. The historical approach to accountability modeling in this space, developed by the national membership organizations, was designed and touted to be "off the shelf." Although this created some common measures and practices for accountability, it could easily be criticized for sterility and reductionism, failing to account for or incorporate the unique objectives outlined in each state's charter school law, as well as each authorizer's and charter school's unique mission and vision. Very often, these systems unintentionally neglect geography, resources, composition, and trend.

A planning group that wants to open in rural parts of South Carolina cannot bring in all the resources that a group in a major city has access to. Children living in rural communities, especially students of color in these regions, have more limited access to school choice options.

The intent of the Charter School law is to serve all children. Currently, South Carolina has a need to reach the more disadvantaged parts of the state in order to more fully satisfy the intent of the Charter School's Act.

The proverbial exchange of autonomy for improved outcomes is working as the program evolves with specific attention to this unmet need.

Current strategies have been effective in design and implementation to date, and the Institute continues to collect feedback to enhance and iterate upon steps taken so far. As stability is validated, and progress is confirmed, the Institute looks towards continued innovation in practices of oversight and accountability, with objectives to specifically fulfill unmet educational needs in rural and underserved South Carolina.

Collectively, the school leaders, local board members, and other parties involved are on the path to fulfill the promises made to the parents, students and communities each school serves.

Beyond the focus of innovation, these schools must also demonstrate fiscal viability, operational sustainability, and academic success.

A. The total amount of EIA funds requested for this program for fiscal year 2020-21 will be (check only one):

_____ The same as appropriated in the current fiscal year's appropriation.

_____x ____ An increase over the current fiscal year's appropriation.

_____ A decrease over the current fiscal year's appropriation.

B. If you indicated an increase or decrease in EIA funding for the next fiscal year, please complete the following table.

Total amount of EIA funding requested for FY 2020-21	\$62,323,838.36

C. If you indicated an increase or decrease, please describe the reasons for the increase or decrease. How will the increase or decrease impact the strategies and the outcomes of the program? How, if any, will the logic model of Attachment A change if the proposed increase or decrease is authorized in Fiscal Year 2020-21?

The Institute's requested increase for FY21 funding reflects the estimated growth in student population within the 17 current schools, the 2 approved new schools, and the 3 approved transfer schools. The Institute also have 1 pending school from SCPCSD that has requested to renew their charter with the Institute. This funding is required to supplement the base student funding to ensure that state-sponsored charter schools have sufficient funding to provide a free and innovative public education for students across the state of South Carolina that have chosen our schools. Schools authorized by the Charter Institute at Erskine are not allocated Local Funding through their municipalities.

The Charter Institute at Erskine is not requesting an increase in per pupil allocation for FY21. The requested increase will affect line 51 of Attachment A.

Carry Forward Information

For the Fiscal Year Ending June 30, 2019, the Charter Institute at Erskine initially had a carry forward balance of \$2,532,848.51. The Institute was able to project this precise number *before* final passage of the FY 19-20 budget and *before* the end of the fiscal year by utilizing the 135th day student count to calculate the final carry forward number approximately three months in advance.

When requesting the FY 19-20 appropriation, the Institute therefore reduced the request by the full projected carry forward amount. The Institute had a carry forward balance of \$0.00 entering the current fiscal year.
