Pennies for Progress - Local Option Sales Tax for Transportation

Presentation will be provided by Patrick Hamilton, Administrator of the Pennies for Progress Program and Assistant York County Engineer. The presentation will begin with an explanation of the local option sales tax program and how it works. Mr. Hamilton will discuss the history of the program going back to 1997 and highlight each Pennies Program, key projects, and revenue amounts. He will talk about active projects, specifically in the Fort Mill/Tega Cay area and discuss the Pennies 5 process and the vote scheduled in 2024. One of the vital elements to the Program is the cost estimates. Mr. Hamilton will do a deep dive into the cost estimating/risk analysis process that was used on Pennies 4 and will be used again on Pennies 5. This is a very technical discussion on how the budgets are determined for the referendum.

Patrick Hamilton, PE

Patrick is a graduate of Clemson University with a Bachelor's Degree in Civil Engineering. He is a registered Professional Engineer in the state of South Carolina and has spent his career in the transportation field, working with SCDOT, York County, and in the private sector. He has worked on a variety of transportation projects, ranging from highway widenings, intersection improvements, gravel road paving, resurfacing, and residential/commercial site design, to name a few. Patrick is currently the Assistant County Engineer over Transportation for York County.
