**** pending passage by the House***

2. Document Number: [4808](#)

Agency Name: Clemson University - State Crop Pest Commission

Statutory Authority: 46-9-40

Synopsis: The State Crop Pest Commission proposes to provide clarifying language regarding the regulation of nursery plant shipments and fees for nursery dealers in South Carolina in response to recent statutory amendments made to the enabling legislation in the 2017 legislative session.

(continued on next page)

3. Document Number: [4810](#)

Agency Name: Coastal Council - Department of Health and Environmental Control

Statutory Authority: 44-1-60, 48-39-50 and 48-39-280(E)

Synopsis: The Department of Health and Environmental Control (“Department”) amends R.30-14, Administrative Procedures, with respect to the review process for revising jurisdictional lines and erosion rates affecting beachfront properties. 1976 Code Section 48-39-280 requires the Department to establish and review the position of beachfront jurisdictional setback lines, baselines, and erosion rates once every seven (7) to ten (10) years. Existing Coastal Division R.30-14.F provides that a landowner may request a review of the jurisdictional lines or erosion rate affecting his or her property within one (1) year of adoption. However, statutory changes under Act No. 387 of 2006 limit the review of a Department decision to fifteen (15) calendar days. This regulatory amendment clarifies the review process to allow sufficient time for affected landowners to understand the Department’s methodology in setting jurisdictional lines and erosion rates, and bring any substantiating evidence to the attention of the Department’s Office of Ocean and Coastal Resource Management for a staff determination. The amendment provides landowners a timely review and complies with Act No. 387 of 2006.
