

Session 111 - (1995-1996)

S*1351 Concurrent Resolution, By Leventis, Alexander, S. Boan, Martin and Moore

Similar (H 4908)

A Concurrent Resolution to urge the U. S. Environmental Protection Agency (EPA), in its review of the National Ambient Air Quality Standard for Ozone, to thoroughly examine all aspects of the standard, including retaining the existing .12 standard with appropriate revisions, and carefully evaluate the potential incremental health impacts and economic consequences on states, localities, small and large business, and individual citizens; to urge further that the standard chosen by EPA should be reasonable and achievable and all changes must be looked at in their entirety; and to urge finally that EPA identify any unfunded mandates or other administrative burdens for state or local governments or agencies that would derive from changes to the National Ambient Air Quality Standard for Ozone.
