If the applicant is legally or financially dependent upon another person, the applicant, the responsible person, and all persons related to the applicant by birth, marriage, or adoption who are also legally or financially dependent upon the responsible person and who reside in the same household as the responsible person are considered members of the same family. If the applicant is not legally or financially dependent upon another person, the applicant and all persons related to the applicant by birth, marriage, or adoption who are also legally or financially dependent upon the applicant and who reside in the same household as the applicant are considered members of the same family.

K. “Third party payor” means any individual, entity, or program that is or may be liable to pay all or part of the medical cost of injury, disease, or disability of the individual. 126–505. Responsibilities for Eligibility Determination.

A. The Department shall develop uniform criteria and materials for statewide use. A detailed description of the criteria, procedures, and materials which include an application form and letter of notification may be found in the MIAP Manual. Each county is responsible for determining eligibility in accordance with the policies and procedures in the MIAP Manual. If a county fails to meet this responsibility, claims for the county’s residents may be suspended until it is determined that the county is fulfilling its responsibility.

B. The county government shall make arrangements for the determination of eligibility for the MIAP for its residents. The county shall notify the Department of who is designated to determine eligibility in the county. The Department shall provide a listing of each county’s designee to each general hospital and to the Chief Administrative Officer and Clerk to County Council in each county. If a county intends to review claims prior to the submission of such claims for payment, the county must inform the Department of its intent to review claims.

C. General hospitals shall inform patients of the existence of the MIAP and shall refer the patient for an application if it is determined that the patient has no means to pay for hospital services. General hospitals shall submit claims to the Department. If a county has elected to review claims prior to submission to the Department, it must review the claims within fifteen (15) working days from the date the claim is provided by the hospital. If no response is received from the county within fifteen (15) working days, the hospital shall forward the claim to the Department.

When it is determined that an individual needs hospitalization and that he may qualify for assistance through the MIAP, the procedures stated below shall be followed.

A. For nonemergency admissions, the patient shall be referred to the designee in the county of residence for an eligibility determination. The designee shall notify the patient and the admitting hospital or physician of the outcome of the eligibility determination. Eligibility shall be determined prior to admission.

B. For emergency admissions, the hospital shall admit the patient and obtain a signed application from the applicant, his relative or other individual authorized to act on his behalf. The hospital shall collect information pertaining to the individual’s eligibility. The hospital shall then forward the information to the designee in the individual’s county of residence for processing. The county designee shall notify the patient and the hospital of the outcome of the eligibility determination in accordance with Section H of this subpart.

C. Eligibility shall be determined on an episodic basis. A new application is required for each period of hospitalization. Exception: If the patient is readmitted to the hospital within thirty (30) days of the date of discharge, he is not required to file another application; however, it must be determined that the patient’s financial circumstances have not changed.

D. The application must be submitted by the patient or a responsible person acting on his behalf. If the applicant is not capable of submitting his own application and he has no one to act on his behalf, the hospital may submit the application.

E. A retroactive application may be filed only if an individual failed to apply at the time of hospitalization. The individual must be able to establish that he was eligible at the time of hospitalization. All retroactive applications must be filed within one (1) year after discharge from the hospital. Retroactive sponsorship by MIAP may be made only if the program had not sponsored $15 million in unreimbursed hospital care during the year in which the hospitalization occurred. These procedures also apply if an application is made on behalf of a deceased individual.

F. The applicant shall furnish required documentation to establish eligibility. The designee shall assist the applicant in obtaining needed documentation when the applicant is incapable of obtaining such documentation.

G. Disposition of applications for assistance through the MIAP shall be made within fifteen (15) working days unless an eligibility determination for other benefits such as Medicaid must be made prior to certification for payment or unless more time is needed to obtain adequate documentation. If
disposition of an application is not made within fifteen (15) working days, the reason for delay must be documented. This time frame, is separate from the fifteen (15) working days that a county is allowed for the review of hospital claims, if it elects to do so.

For applicants who are potentially eligible for Medicaid, the MIAP application cannot be approved until the applicant has applied for and been denied Medicaid benefits for a reason other than those identified in the MIAP Manual. The fifteen (15) day time frame does not apply in this situation.

H. The designee shall provide written notification to applicants and providers of the decision on MIAP applications.

I. If an applicant disagrees with the decision made on his case, he may request a reconsideration at the county level. This reconsideration request must be made within thirty (30) days of the notification of the decision. The reconsideration decision shall be made by an individual(s), other than the person who made the eligibility determination, designated by the county’s chief administrative officer. If the applicant disagrees with the reconsideration decision, he may request a fair hearing from the Appeals Unit of the Department. This request must be made in writing within thirty (30) days of the reconsideration decision. The fair hearing will be conducted in accordance with the Department Appeals and Hearing Regulations, R.126–150 et seq.

In order to be eligible for assistance from the MIAP, an individual must meet the following non-financial eligibility criteria.

A. Residence. The individual shall be a resident of the State. A migrant or seasonal farm worker shall be considered a resident of the State provided he has not established a domicile in another State.

For purposes of the MIAP, a financially dependent student is a resident of the State and county in which his parents reside. If the student’s parents do not live in the same home, the financially dependent student is a resident of the State and county where the parent with legal custody resides.

B. Citizenship and Alienage. An individual must be a citizen of the United States or an alien admitted for permanent residence or an alien permanently residing in the United States under color of law.

C. Institutional Status. Individuals who are inmates or residents of public institutions are not eligible for assistance through the MIAP. This includes inmates of correctional facilities who may be temporarily absent from the facility due to hospitalization.

Exception: Inmates of county detention facilities who are awaiting trial or whose cases have not been adjudicated shall be eligible provided they meet all other eligibility requirements.

The following elements are considered in determining eligibility for assistance through the MIAP.

A. Family Composition. For details, refer to the definition of family at 126-500(D). If the applicant is a minor child, his stepparent is considered a member of the family only if the stepparent claims the child as an income tax dependent. If the applicant is an adult, his parents or siblings who reside in the household are considered in the family only if one claims the other as an income tax dependent. The income and resources of all members of the applicant’s family must be considered in computing the income.

B. Financial responsibilities of relatives. Spouses are responsible for spouses and parents are responsible for minor children. Stepparents are responsible for stepchildren only if the stepchildren meet the federal definition of “dependent” for income tax purposes.

C. Income Levels. Only those individuals whose gross family income is equal to or less than one hundred percent of the poverty guidelines may qualify for full sponsorship through the MIAP. Only those individual whose gross family income is between one hundred and two hundred percent of the poverty guidelines may qualify for partial sponsorship through the MIAP.

D. Computation of income. The gross annual income of the individual and his family is measured against the annual poverty guidelines for the appropriate size family. Gross annual income is determined in accordance with the guidelines found in the MIAP Manual.
E. Ownership of Resources. Resources must be within the limitations described below:

1. Home property. Home property is the applicant’s principal place of residence. It includes the home and all contiguous property. The value of a farm of less than fifty (50) acres on which an individual or his family resides and has resided for at least twenty-five (25) years shall be totally excluded from the resources computation. The equity value of home property other than a family farm as defined above shall not exceed $35,000.00. A mobile home may be considered home property if it is the individual’s principal place of residence.

2. Non-home real property and taxable personal property. The individual’s or family’s total equity interest in non-home real property and taxable personal property such as motor vehicles shall not exceed $6,000.00.

3. Liquid assets. The individual’s or family’s total liquid assets must be equal to or less than $500.00.

An individual with excess liquid assets may establish eligibility if he and other members of his family spend the excess toward the payment of valid debts as defined in the MIAP Manual.

4. Household effects. Household effects such as furniture, kitchen utensils, etc., are not considered in the resource computation.

F. Transfer of Resources. An individual or his family who transferred resources without receiving full compensation within three (3) months prior of the period of hospitalization for which his application for assistance through the MIAP is made shall not be eligible. Such individual and his family will continue to be ineligible for one year from the date of transfer or until he establishes that full compensation has been received, whichever is earlier.

B. Psychiatric inpatient hospital services shall be limited to emergency admissions. The standard for an emergency admission shall be the physician’s belief that the person is mentally ill and because of his condition is likely to cause serious harm to himself or others if not immediately hospitalized.

A. Payments shall be made only to general hospitals.

C. Rates for hospital reimbursement shall be prospectively determined. Payment from all sources shall not exceed the prospectively determined rate.

D. Full sponsorship for inpatient hospital services is available for eligible individuals whose gross family income is equal to or less than one hundred (100) percent of the poverty guidelines.

E. Partial sponsorship for inpatient hospital services is available for eligible individuals whose gross family income is between one hundred (100) and two hundred (200) percent of the poverty guidelines. Partial sponsorship shall be determined based on the following formula: the prospectively determined rate minus all third party payments, excess liquid assets paid to the hospital, and the sliding scale amount for which the individual is responsible.

126–540. Recovery by the Medically Indigent Assistance Program.

A. The MIAP shall be reimbursed if an individual or the services delivered to that individual are later determined to be ineligible for coverage.
B. The ineligible person or the person for whom ineligible services are provided must reimburse the hospital to which the MIAP payment was made. The hospital will then reimburse the Department the amount reimbursed to the hospital by that person.

**Subarticle 3**

**Payment Process**

126–560. The Department shall use a prospective payment system which considers diagnostic related groupings and per diem costs to reimburse hospitals for inpatient services provided to Medically Indigent beneficiaries.

A. The method for processing and payment of claims shall be an automated system totally dedicated to the MIAP and incorporated into the MIAP Manual.

B. Providers may seek a correction to the statistical calculation which establishes the maximum allowable payment rate by requesting in writing a reconsideration of such rate to:

Bureau of Health Services, Hospital Reimbursement
South Carolina Department of Health and Human Services
Post Office Box 8206
Columbia, South Carolina 29202–8206

The assessment must be paid in full; however, assessments which are not paid within the grace period are subject to monetary penalties as defined in 44–6–146(C). The penalty and/or interest payments may be waived if a county submits evidence to substantiate that:

B. Annual Standard Survey means an annual standard survey conducted on each nursing facility, without prior notice to the facility. The survey may occur as early as nine months, but shall not be later than fifteen months after the date of the nursing facility’s previous standard survey. The statewide average interval between standard surveys shall not exceed twelve months.
C. Certification means the State Survey Agency’s determination that a nursing facility meets the requirements for participation in the Medicaid program.

The statement must indicate how deficiencies will be corrected and problems resolved and be realistic in terms of the possibility of correction by specified deadlines.
E. Credible Certified Notice of Correction means a certification letter from the Nursing Facility to the State Survey Agency and the Medicaid Agency, stipulating that deficiencies noted in the most recent survey and due to be corrected by the last date in an accepted credible allegation or in an accepted plan of correction, have been corrected as of the date of the certification letter. Credibility shall be validated upon the next Survey Agency revisit, and penalties shall cease or escalate from the date of the certified notice in accordance with procedures in Section 126–840. The statement, “I certify that” must precede the statement of correction.
F. Deficiency means non-compliance with requirements of participation for nursing facilities as mandated by Federal Regulations.
G. The threat of probable harm is perceived as being as serious or significant). The only acceptable corrective action is the immediate elimination of the conditions which immediately jeopardize the resident’s health and safety.
H. Medicaid is the common name for Title XIX of the Social Security Act.
I. Nursing Facility means a facility with an organized nursing staff to maintain and operate organized services and facilities to accommodate two or more non-related persons over a period exceeding twenty-four hours, which is operated either in connection with a hospital or as a free standing facility for the express or implied purpose of providing nursing care for persons who are not in need of hospital care, and in which all nursing care is prescribed by or performed under the direction of persons currently licensed to practice medicine in the State of South Carolina. Nursing care consists of nursing services requiring knowledge, judgment, and skill in caring for the sick.

J. Recurring Deficiency means a deficiency, cited by the State Survey Agency during a current survey, that has the exact same tag number but a different reason from the one cited during the previous survey.

C. History of prior deficiencies involves a determination of whether the nursing facility has repeat or recurring deficiencies from a previous annual standard survey.

The Administrator, or his designee, of the State Medicaid Agency may impose penalties in accordance with Section 126–840, Schedule of Sanctions of these regulations.

ARTICLE 9
OPTIONAL STATE SUPPLEMENTATION PROGRAM

A. Optional State Supplementation (OSS) Program —— a State-funded program that provides a cash benefit payment that supplements an eligible individual’s countable income up to the net income limitation. This supplementation, in conjunction with the individual’s countable income (less any program allowances or deductions) is intended to permit the individual to pay for services provided by a licensed community residential care facility that participates in the OSS Program, with the charges for such services being subject to the applicable OSS facility rate.

B. OSS Facility Rate —— the maximum rate established by the South Carolina legislative budgetary process that a community residential care facility participating in the OSS Program may charge an OSS recipient. This rate is intended to cover the full scope of services required to be provided under the community residential care facility licensing requirements established by the South Carolina Department of Health and Environmental Control.

C. Community Residential Care Facility (CRCF) —— a facility licensed by the South Carolina Department of Health and Environmental Control as a “Community Residential Care Facility.”

D. Net Income Limitation —— the maximum monthly countable income which an individual may have in order to qualify for OSS benefits, as such limit (cap) has been established by the South Carolina legislative budgetary process.

E. Countable Income —— an individual’s gross income less those exclusions of income allowed under the provisions of the federal Supplemental Security Income (SSI) Program.

F. Countable Resources —— an individual’s available assets as determined under the provisions of the federal Supplemental Security Income (SSI) Program.

H. Personal Needs Allowance —— the specific dollar amount of countable income set by the South Carolina legislative budgetary process that an OSS recipient is allowed to retain for that individual’s personal needs.

126–920. Eligibility.

A. An individual must meet the following requirements in order to be eligible for OSS benefits:

(1) Be a resident of the State of South Carolina;

(2) Has been determined by the Social Security Administration (SSA) or by the State in accordance with applicable SSA criteria to be aged, blind, or disabled;

(3) Has countable resources that do not exceed the eligibility limitations for resources set by the federal Supplemental Security Income (SSI) Program;

(4) Meets one of the following four conditions with respect to countable income:

   (a) Receives an SSI payment, which when combined with other countable income gives the individual total countable income that is less than the applicable net income limitation of the OSS Program; or

   (b) Receives countable income that exceeds the SSI payment standard, but is less than the applicable net income limitation of the OSS Program; or

   (c) Receives countable income that is less than the SSI payment standard and has applied for SSI benefits; or
(d) Receives countable income that is less than the SSI payment standard, but has not applied for SSI benefits or has been denied SSI benefits for the sole reason that the community residential care facility in which the applicant resides is considered by the SSI Program to be a public institution;

(5) Meets all other eligibility criteria to receive benefits under the SSI Program, with the allowable exception of meeting a condition described in (4)(b) or (4)(d) above;

(6) Resides in a community residential care facility that has executed a “Facility Participation Agreement for the South Carolina Optional State Supplementation (OSS) Program” with the Department of Health and Human Services; AND

(7) Has applied for all benefits, public or private, to which he or she may be legally entitled.

B. When both members of a couple reside or wish to reside in a community residential care facility and apply for benefits from the OSS Program, the eligibility determination process shall treat both members as individuals beginning in the month of admission to the community residential care facility, even if both members occupy the same room.

C. Under the terms of a contract between the Department of Health and Human Services and the Department of Social Services (DSS), determinations of OSS Program eligibility are conducted by the county DSS offices. An individual seeking OSS benefits must file an application with his or her county DSS office. Changes that might affect the eligibility of an individual or a couple must also be reported to the county Department of Social Services.

D. OSS Program eligibility shall be re-established every twelve (12) months, or more frequently as may be necessary.

E. Changes that might affect the eligibility of an individual or a couple must be reported to the Department of Social Services within ten (10) days of the change. When such a change is reported, a redetermination of eligibility and benefit payments shall be made promptly.

F. The OSS Program is not part of the South Carolina Medicaid Program, but all OSS recipients are eligible for Medicaid because of their participation in the OSS Program.

G. A community residential care facility participating in the OSS Program may not charge an OSS recipient or the recipient’s family any additional amount for services included in the OSS facility rate. Failure to adhere to this requirement may subject the OSS recipient to a loss or reduction of OSS benefits and/or a loss of Medicaid eligibility because such additional payment is considered to be additional countable income. The imposition of additional charges for services included in the OSS facility rate also constitutes grounds for termination of the facility’s OSS participation.

H. OSS recipients who lose their OSS eligibility as the result of cost-of-living increases in Social Security Title II benefits [Retirement, Survivors, or Disability Insurance (RSDI)] may continue to be eligible for Medicaid through a pass along category of eligibility (Category 16).

126–930. Termination, Suspension or Reduction of Benefits.

Eligibility for further OSS payments shall be terminated as soon as information indicating ineligibility is reported.

126–940. Program Administration.

A. Subject to the availability of funding, the OSS Program will supplement the income of eligible individuals for whom an OSS slot request has been approved.

B. The Department of Health and Human Services will establish the maximum number of OSS recipients that can be funded with the appropriations made available through the South Carolina legislative budgetary process, and will develop and administer appropriate waiting lists as may be necessary to ensure that the OSS Program is administered within the scope of the available funding.

C. OSS benefits will be paid monthly by the Department of Health and Human Services through the issuance of a single check to each participating community residential care facility that includes the OSS benefit payments for all OSS recipients residing in that facility during the month for which the
payment is being made. This check will be accompanied by a schedule of the individuals covered and
the amount of the OSS benefit payment for each individual.

D. Community residential care facilities participating in the OSS Program must maintain adequate
records of the OSS benefit payments received by the facility on behalf of each OSS recipient, and the
facility must be able to accurately account for its disposition of each resident’s funds.

E. Cost-of-living adjustments in benefit payments made by the federal government will result in
adjustments in the OSS Program as directed by the South Carolina General Assembly in the legislative
budgetary process. In the event that no specific direction is provided for the treatment of a federal
cost-of-living adjustment, such adjustment will result in no change to the OSS net income limitation,
the OSS facility rate, or the personal needs allowance; OSS benefit payment amounts will be adjusted
to reflect the changes in recipients’ countable income.

F. Community residential care facilities who choose to participate in the OSS Program are required
to comply with the policies and procedures of the OSS Program as may be issued by the Department of
Health and Human Services in handbooks, manuals, program bulletins, notices, or regulations. Non-
compliance may result in the termination of a facility’s OSS participation.

G. A community residential care facility participating in the OSS Program may not charge an OSS
recipient or the recipient’s family any additional amount for services included in the OSS facility rate.
The imposition of additional charges for services included in the OSS facility rate constitutes grounds
for termination of the facility’s OSS participation.

H. Individuals who seek or receive benefits from the OSS Program are required to comply with the
policies and procedures of the OSS Program as may be issued by the Department of Health and
Human Services in handbooks, manuals, program bulletins, notices, or regulations. Non-compliance
may result in the denial or termination of an individual’s eligibility and benefit payments under the
OSS Program.
