**ARTICLE 1**

**DEFINITIONS**

Editor's Note

The following regulations were added by State Register Volume 25, Issue No. 5, Part II, eff May 25, 2001. They replace previous regulations effective June 26, 1987, as amended.

36–01. Definitions.

Definitions found in Section 40–75–20 apply to this chapter.

(1) “Supervision” means direct contact between a supervisor and an intern or other person requiring supervision under this chapter. Seventy-five (75%) percent of the supervision must be face-to-face, and the remaining twenty-five (25%) percent may be conducted via a HIPAA-compliant technological medium. During this time, the person supervised apprises the supervisor of the diagnosis and treatment of each client seen during the supervisory process. The supervisor provides the supervised person with oversight and guidance in diagnosing, treating, and dealing with clients, and the supervisor evaluates the supervised person's performance. The focus of a supervision session is on raw data from clinical work which is made directly available to the supervisor through such means as written clinical materials, direct (live) observation, co-therapy, audio and video recordings, and live supervision. Supervision is a process clearly distinguishable from personal psychotherapy and is contrasted in order to serve professional goals. The major focus in supervision of supervisors is on the development of supervisory abilities as opposed to an exclusive focus on clinical skills.

(2) “Group supervision” means a regularly scheduled meeting of not more than six (6) supervisees, and an approved supervisor, for a minimum of two (2) hours.

(3) “Individual/triadic supervision” means a meeting of one (1) or two (2) supervisees with a supervisor for a period of at least a one (1) hour session.

(4) “Intern licensure” means an authorization to engage in a distinctly defined, post-degree, supervised experience intended to enable and to refine and enhance basic skills, develop more advanced therapy skills, and integrate professional knowledge and skills appropriate to the individual's initial professional placement. Intern licensure status provides an opportunity, under supervision, for the individual to perform all the activities that a regularly employed staff member in the setting would be expected to perform.

(5) “Continuing education” means an organized educational program designed to expand a licensee’s knowledge base beyond the basic entry level educational requirements for professional counselors, marriage and family therapists, and psycho-educational specialists.

(6) “Contact hour” means a minimum of fifty (50) minutes of instruction.

(7) “Impairment” means impairment of mental and/or physical ability to practice according to acceptable and prevailing standards of care including, but not limited to, habitual or excessive use or
abuse of drugs, alcohol, or other substances that impair ability to practice. Impairment includes inability to practice in accordance with such standards, and treatment, monitoring, and supervision.

(8) “Relapse” means any use of alcohol or of a drug or substance that may impair ability to practice during or after any approved treatment program, except pursuant to the directions of a treating physician who has knowledge of the patient’s history and the disease of addiction, or pursuant to the direction of a physician in a medical emergency.

(9) “Approved treatment provider” means a treatment provider approved by the Board.

(10) “Sobriety” means abstinence from alcohol, and from drugs or substances that may impair ability to practice, except pursuant to the directions of a treating physician who has knowledge of the patient’s history and the disease of addiction, or pursuant to the direction of a physician in a medical emergency.

(11) “Qualified licensed mental health practitioner” means a person licensed as a Professional Counselor Supervisor, Marriage and Family Therapy Supervisor, Psychologist, or Medical Doctor, and approved by the Board, who possesses the knowledge and expertise necessary to provide a supervised person with guidance and direction, in a structured program, to gain knowledge and skills associated with the diagnosis and treatment of serious problems as categorized in standard diagnostic nomenclature.

(12) “DSM” means the current edition of the Diagnostic and Statistical Manual of Mental Disorders.

(13) “Serious Problems” are those disorders as categorized in standard diagnostic nomenclature such as the DSM with the exception of codes assigned to normal lifecycle transitional conflicts.

(14) “Specific training to diagnose, assess and treat serious problems” - Any Licensed Professional Counselor-Intern, Licensed Professional Counselor, or Licensed Marriage and Family Therapist-Intern, Licensed Marriage and Family Therapist, or Psycho-Educational Specialist, who has met the applicable licensing provisions for Licensed Professional Counselor-Intern and/or Licensed Professional Counselor, or for Licensed Marriage and Family Therapist-Intern and/or Licensed Marriage and Family Therapist, or Psycho-Educational Specialist set forth in Sections 36–04 and 36–05, and Section 36–07 and 36–08, respectively, is deemed to have the requisite training to diagnose, assess and treat serious problems. If a client presents with a problem which is beyond the licensee’s training and competence, the licensee must refer the problem to a licensed professional who has been specifically trained to diagnose, assess and treat the presenting problem.

(C) Any report required by this section shall be made to the Board within forty-eight (48) hours.

(A) An individual who accepts the privilege of practicing under Title 40, Chapter 75 of the South
Carolina Code of Laws in this State is subject to oversight by the Board. By filing an application or
being licensed by the Board, the individual shall be deemed to give consent to submit to a mental or
physical examination when ordered to do so by the Board in writing, and to have waived all objections
to the admissibility of testimony or examination of reports that constitute privileged communications.
Failure of the individual to submit to a mental or physical examination order by the Board constitutes
an admission of the allegations against the individual licensee unless the failure is due to circumstances
beyond the individual’s control.

(B) When the Board receives information by the filing of a complaint, or upon its own information,
that a licensee’s ability to practice has fallen below the acceptable and prevailing standards of care
because of habitual or excessive use or abuse of drugs, alcohol, or other substances and other physical
or mental impairments that affect the ability to practice, the Board may order the licensee to submit to
a mental or physical examination conducted by a designee of the Board for the purpose of
determining if there is an impairment that poses a threat to the licensee’s well-being or the treatment
of a client whom the licensee serves.

(C) If the Board determines that the individual’s ability to practice is impaired, the Board shall
suspend or place restrictions on the individual’s license to practice, or deny the individual’s application,
and require the individual to submit to treatment, as a condition for initial, continued, reinstated, or
renewed licensure to practice.

(D) In cases where the Board has not initiated disciplinary action, the following general pattern of
action shall be followed:

(1) upon identification by the Board of reason to believe that a licensee or applicant is impaired it
may compel an examination or examinations; and
(2) if the examination or examinations fail to disclose impairment, no action shall be initiated unless other investigation produces reliable, substantial, and probative evidence demonstrating impairment; and

(3) if the examination discloses impairment, or if the Board has other reliable, substantial, and probative evidence demonstrating impairment, including, but not limited to, evidence of relapse after the completion of inpatient or outpatient treatment, the Board shall initiate proceedings to suspend the license or deny licensure of the applicant; and

(4) before being eligible to apply for reinstatement of a license suspended under this section, the practitioner must demonstrate to the Board that a resumption of practice may be made in compliance with acceptable and prevailing standards of care under the provisions of an unrestricted license. Such demonstrations shall include, but shall not be limited to, the following:

(a) certification from a treatment provider approved by the Board that the practitioner has successfully completed any required inpatient treatment; and

(b) evidence of continuing full compliance with an aftercare contract or consent agreement; and

(c) two (2) written reports indicating that the individual's ability to practice has been assessed and that he has been found capable of practicing according to acceptable and prevailing standards of care. The reports shall be made by individuals or providers approved by the Board for making such assessments and shall describe the basis for this determination; and

(5) when the impaired practitioner resumes practice after reinstatement of his license, the Board shall require continued monitoring of the practitioner. This monitoring shall include, but not be limited to, compliance with any written consent agreement entered into before reinstatement or compliance with conditions imposed by the Board order after a hearing, and, upon termination of the consent agreement, submission by the practitioner to the Board, for at least two (2) years, of annual written progress reports made under penalty of perjury stating whether the license holder has maintained sobriety.

(E) In cases where the Board has initiated a disciplinary action, the general pattern of action described above shall be followed, except that:

(1) if the Board imposes a period of ineligibility for licensure, the individual shall not be eligible for a license reinstatement until the period has lapsed; or

(2) if the Board imposes an indefinite period of ineligibility, licensure, or license reinstatement shall depend upon successful completion of the requirements and determination by the Board that the period of suspension or ineligibility served is commensurate with the violations found.

36–18. Impaired Practitioner Treatment Programs.

(A) The Board may contract with providers of impaired treatment programs, or refer practitioners to Board-approved programs, receive and evaluate reports of suspected impairment from any source, intervene in cases of verified impairment, monitor treatment and rehabilitation of the impairment, provide post-treatment monitoring, and support and provide other functions as necessary to carry out the provisions of this regulation.

(B) The Board-approved treatment programs shall be provided with all relevant information from the Board and other sources regarding a practitioner referred to the program, including but not limited to, the potential impairment. The program shall report in a timely fashion any impaired professional counselor, marriage and family therapist, or psycho-educational specialist who refuses to cooperate with an evaluation or investigation, or who refuses to submit to treatment or rehabilitation, or whose impairment is not substantially alleviated through treatment or who, in the opinion of the evaluators, is unable to practice professional counseling, marriage and family therapy, or psycho-education with reasonable skill and safety.

(C) All Board-approved programs must:

(1) report to the Board the name of any impaired practitioner who fails to enter treatment within forty-eight (48) hours following the provider’s determination that the practitioner needs treatment; and
(2) require every practitioner who enters treatment to agree to a treatment contract establishing the terms of treatment and aftercare, including any required supervision or restrictions of practice during treatment or aftercare; and

(3) require a practitioner to suspend practice upon entry into any required inpatient treatment; and

(4) report to the Board any failure by an impaired practitioner to comply with the terms of the treatment contract during inpatient or outpatient treatment or aftercare; and

(5) report to the Board the resumption of practice of any impaired practitioner before the treatment provider has made a clear determination that the practitioner is capable of practicing according to acceptable and prevailing standards of care; and

(6) require a practitioner who resumes practice after completion of treatment to comply with an aftercare contract that meets the requirements of rules adopted by the Board for approval of treatment providers.

Dual relationships that might impair the counselor’s objectivity and professional judgment must be avoided and/or the counseling relationship terminated through referral to a competent professional.

(10) When a Professional Counselor determines an inability to be of professional assistance to a potential or existing client, the counselor must, respectively, not initiate the counseling relationship or immediately terminate the relationship. In either event, the counselor must suggest appropriate alternatives and be knowledgeable about referral resources so that a satisfactory referral can be initiated.
