Columbia, SC 29201

Re: SCDOT 2016 Annual Report

Dear Chairmen:

On behalf of the South Carolina Department of Transportation (SCDOT) please accept the Agency's submittal for the "Annual Report" for 2016. Pursuant to SC Code of Law, Section 57-3-760, SCDOT is required to provide this report to the General Assembly.

Prior to 2015, SCDOT was granted through Proviso 117.77 (D) the opportunity to combine the statute-required Annual Report (Section 57-3-760) and the Mass Transit Report (Section 57-3-40) into the Annual Accountability Report. In 2014, the Annual Accountability Report was streamlined and no longer contained the "Annual Report" nor the "Mass Transit Report." The Mass Transit Report will be sent at the appropriate time under separate letter.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Christy A. Hall, P.E.
Interim Secretary of Transportation

CC: Nikki R. Haley, Governor of South Carolina
SCDOT Commissioners

EC: Jeffrey S. Gossett, Senate Clerk
Charles F. Reid, House Clerk
Abhijit Deshpande, Department of Administration

Enclosure

CAH/scj

South Carolina Department of Transportation

Annual Report

2016

Christy A. Hall, P.E., Secretary of Transportation

SCDOT— 955 Park Street, Columbia, SC 29202

T: 803-737-1302 Email: hallca@scdot.org

Executive Summary

The South Carolina Department of Transportation (SCDOT) is responsible for operating and maintaining over 41,000 miles (90,000 lane miles) of roads and over 8,400 bridges, ranking SC as the *fourth largest state-owned highway system in the nation* according to the Federal Highway Administration (FHWA).

SCDOT's statutory mission (Section 57-1-30, SC Code of Laws) states that, "SCDOT shall have as its functions and purposes the systematic planning, construction, maintenance, and operation of the state highway system and the development of a statewide intermodal and freight system ... the goal of the Department is to provide adequate, safe, and efficient transportation services for the movement of people and goods."

SCDOT is one of the largest state agencies and has a staff of approximately 4,350 men and women who work in all of the state's 46 counties, with the central headquarters located in Columbia.

An eight-member Transportation Commission is the policy making body for SCDOT. The Commission works closely with the Secretary of Transportation, who is appointed by the Governor as the chief administrative officer of the Department. SCDOT's Secretary of Transportation carries out the policies of the Commission and carries out the daily operations of the agency and inspires the direction of the staff.

Governor Nikki Haley announced the appointment of Christy A. Hall, P.E., as Secretary of Transportation. Hall has been serving as the Interim Secretary of the South Carolina Department of Transportation (SCDOT) since July 2, 2015

Section I: Agency Accomplishments

During the past year, SCDOT has accomplished many initiatives and completed hundreds of projects statewide. These successes reflect the strong leadership and the hard work of the employees of SCDOT. Below are some of the highlights of the major accomplishments during 2015:

- **SC Historic Flood Event:** The thousand-year flood devastated South Carolina in October, taking 19 lives, including one of SCDOT's own. SCDOT worked with the Emergency Management Division's State Emergency Operations Center and coordinated information concerning road conditions, closings, etc. with other state agencies. SCDOT had over 130 crews responding to this event. Work was performed on 900 sites on the state highway system. At the peak there were over 541 road and bridge closings across the state. Two months after the event that number is down to only 52 remaining closures.
- **Team SCDOT:** In an effort for the general, motoring public to receive timely, accurate and relative information, Secretary Hall created Team SCDOT which was comprised of thousands of SCDOT staff and partners. The Team worked in shifts, 24 hours per day, seven days per week. This group worked consistently for months to open roads and bridges and offer assistance to motorists through websites, 511 phone systems and a 24/7 customer service call center.
- **SC Cares:** Out of the disaster of the Flood Event another group – called SC Cares- was formed by SCDOT employees who volunteered to help our own SCDOT employees who were dealt a hard blow by the flood. Some employees lost power, vehicles, homes and possessions were ruined, or they simply lost everything they owned. SCDOT volunteers across the state went to work identifying who was in need and what kind of assistance could be provided. Others began the gathering process of material goods from cleaning supplies, clothing, furniture and gift card contributions. Some of the assistance came in the form of helping employees who were flood victims making insurance claims, filing FEMA applications and other paperwork processes to ensure that these SCDOT people could get necessary assistance.
- **Maintenance:** During fiscal year 2014-2015, the SCDOT Maintenance forces:
 - Received and processed over 70,000 work requests.
 - Patched approximately 330,000 potholes.
 - Mowed approximately 128,000 acres.
 - Removed 5.9 million pounds of litter/debris.
 - Approved 9,315 encroachment permits.
- **Major Emergency repairs by SCDOT employees:**
 - On I-77 York County emergency repairs were necessary due to a hole that formed in the right lane of the bridge deck over S.C. 901 near Rock Hill.
 - On I-95 in Florence County, District 5 had an emergency lane closure for the northbound right lane on I-95 at mile marker 175.
 - On I-26 in Charleston: SCDOT was forced to close two lanes on a portion of eastbound Interstate 26 over three weekends this winter to repair the Baker Hospital Road Overpass.
 - On I-26 in Columbia: SCDOT had an emergency road closure after a fuel tanker overturned, caught fire, and exploded. The eastbound lanes were completely closed after the early morning explosion. Four SCDOT crews repaired the road and reopened the road by 4:00 pm for traffic.
 - On I-26 in Spartanburg: (**Report cover photo**) A fuel tanker overturned, caught fire, and exploded causing the west-bound lanes to be shut down. SCDOT crews repaired one

- lane by the following afternoon and completely reopened the interstate by 7:00 pm the following evening.
- On I-85 in Spartanburg – SCDOT was forced to close down the entire four, north-bound lanes when a chicken truck wrecked and caught fire around 4:00 pm. SCDOT crews opened one lane by 11pm and continued working through the night to open all lanes the following morning.
 - **Award Winning Assembly Street Project:** This \$4.5 million Assembly Street Improvement project enhanced pedestrian and transit safety with improved sidewalks and transit shelters. SCDOT used an updated street design aimed at the safety of pedestrians and transit to mitigate the impact of a busy, six-lane road cutting through the heart of the University of South Carolina campus. The project was completed more than three months ahead of schedule and \$1.5 million under budget. This project won the SASHTO America Transportation Award and as a result, became one of the 10 finalists in the 2015 America's Transportation Awards competition.
 - **Act 98 Update:** There are three parts to Act 98 – resurfacing, bridges, and interstate improvements. The resurfacing will cover approximately 384 miles across SC at a cost of \$89.5 million with a program completion as of spring 2016. As of December 2015, approximately 71% (or \$63.7M) has been completed. The bridge portion will replace over 70 bridges at a cost of \$50M; as of December 2015, 17 bridges are complete and 62 (or \$43.8M) are under contract. The interstate improvements vary in location, schedules, and estimated costs. Additional details for these and all Act 98 projects can be found at <http://www.scdot.org/inside/act98.aspx>.
 - **Replacement of the S.C. 41 Bridge over the Wando River** project is a design build contract estimated at \$30.4 million. The existing structure in Berkeley County is a swing span bridge built in 1939 and must now be opened manually for boat traffic. This bridge is both structurally deficient and functionally obsolete. Completion is scheduled in the summer of 2017.
 - **Bridge Monitoring System Grant:** An FHWA Accountability Innovation Deployment grant in the amount of \$983,880 received in April of 2015 will expand SCDOT's current structural health monitoring capabilities and will hopefully demonstrate viability and benefits to other states.
 - **Project Prioritization Process.** SCDOT's prioritization process, mandated by the General Assembly in 2007, established nine criteria for objectively ranking highway and bridge projects. SCDOT is now updating the data-driven, prioritization process methodology to place greater emphasis on economic development and freight needs, focusing on the performance of priority networks and using the new Transportation Asset Management Plan to aid in optimizing and allocating resources.
 - **Commission Meetings Online** – In January 2015, SCDOT began broadcasting the SCDOT Commission meetings, which are held at the Headquarters building the third Thursday of each month. These broadcasts are available to the general public through the agency's Internet site, www.scdot.org. The archived meetings will be posted on the agency's website for a year.
 - **Seneca Bus Fleet:** Through a partnership with SCDOT, Clemson Area Transit, and other stakeholders, Seneca has successfully deployed all-electric transit buses to become the nations - if not world's - first city with an all-electric, zero emission, zero carbon footprint transit fleet. SCDOT received a \$5.9 million FTA grant for electric buses, charging equipment, and construction of an all-electric maintenance facility. The buses are projected to offset added capital costs through reduction of fuel expenses in 12 years, have a life expectancy of 18 years, and reduce carbon dioxide emissions by 500,000 pounds since beginning service in September 2014.

- **TAMIS** - The Transit Asset Management Information System (**TAMIS**) automates and enhances transit asset tracking, financial management and contract/sub-agreement processes. The goal of *TAMIS* is to streamline routine activities for the Office of Public Transit customers whereby the application, award, sub-agreement execution, reimbursement and asset tracking processes are more efficient, accurate and timely. It includes three core modules or phases:
 - *Transit Asset Management* module accounts for and identifying current age and condition of SCDOT-titled transit vehicles.
 - *Virtual Transit e-Forms* module is utilized to submit, review, and house federal and state reimbursement requests, supporting documentation and monthly activity reports associated with federal and state fund expenditures.
 - *Grants Management* phase is being designed as an electronic fund application and contract sub-agreement module.

Section II: 10-Year Plan Detailing Future Needs of the State

SCDOT recognizes that preservation and modernization of our transportation system are essential to the economic health of our State. The infrastructure challenges for the state are addressed through the management of the Statewide Transportation Improvement Program (STIP) and the Statewide Multimodal Transportation Plan (SMTP). While there is not a ten-year plan, SCDOT oversees a six-year, short term plan and a twenty-five year, long term plan that details the needs statewide. These plans are explained below:

- The STIP is the states' six-year transportation improvement program for all projects or program areas receiving federal funding. The document is updated every three years and is revised on a continual basis to reflect the latest program and project information. The SCDOT Commission, as well as the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) approve the STIP. The STIP is located on the SCDOT website at: <http://www.scdot.org/inside/pdfs/STIP/stip.pdf> .
- The 2040 SMTP is the states' twenty-five year Statewide Multimodal Transportation Plan, which focuses on maximizing South Carolina's limited funding resources, maintaining the state's position in the global marketplace, and efficiently moving both people and goods. This plan was developed in conjunction with SCDOT management, staff, and transportation partners and stakeholders. The 2040 MTP was finalized in November 2014 and is located at: http://www.scdot.org/multimodal/pdf/sc_mtp_strategic_corridors_plan_final.pdf

Section III: 5-Year Traffic Regulation Plan

In response to ACT 181 of 1993, also referred to as the 1993 Restructuring Act, the SC Highway Department was separated into the Department of Public Safety, the Department of Motor Vehicles, and the Department of Transportation. Pursuant to Section 1507 of ACT 181, the duties and powers relating to highways do not contain the traffic regulation (including administration and enforcement of traffic, driver, and motor vehicle laws) and are therefore, not the responsibility of SCDOT.

Section IV: Firms, Companies & Businesses with Contracts

The following is an alphabetized list of all businesses, companies, or firms that did business with the South Carolina Department of Transportation for FY 2015.

Vendor Number	Vendor	Vendor Sum
