South Carolina Human Affairs Commission

Re: "Status of State Agencies' Affirmative Action Plans"

Date February 1, 2021

In accordance with Section 1-13-110 of the South Carolina Code of Laws of 1976, as amended, the Human Affairs Commission or (SCHAC) "shall submit a report on the status of State Agencies' Affirmative Action Plans and Programs to the General Assembly by February 1st each year. This report shall contain the total number of persons employed in each job group, by race and sex, at the end of the preceding reporting period; a breakdown by race and sex of those hired or promoted from within the agency during the reporting period; and an indication of whether affirmative action goals were achieved."

The Human Affairs Commission is charged with monitoring State Agency compliance with the above law.

In keeping with these requirements, it is my pleasure to present to you the 2021 Report to the General Assembly, which examines the progress state government has made towards achieving the goal of Equal Employment Opportunity (EEO).

Over the past years SCHAC has found very little change in the composition of the state's workforce. (See summary beginning on page 7).

As the largest employer in the state, our government should lead the way in creating a diverse and just workplace.

The Human Affairs Commission works with state agencies to achieve equal employment opportunity through Affirmative Action Plans and Programs. These plans and programs meet the standards established by the courts and protect the rights of both majority and minority groups. These standards are also used to measure the status of state government's efforts to become a model employer. The goal is to reach the standard of equal employment opportunity and to no longer need affirmative action plans.

If you have questions about our report or need additional information, please contact me at (803) 737-7825.

Status of Affirmative Action
Plans

SECTION I

Introduction

This report covers the period of October 1, 2019 through September 30, 2020 and is based primarily on the employment data collected by the Human Affairs Commission (SCHAC) from state agencies that employ 15 or more employees. The data is presented in a format that is easy to read. We do not editorialize on the agency charts, as there are many variables to consider in drawing conclusions as to why an agency did or did not achieve a goal for the period.

Many people perceive affirmative action programs to be synonymous with quotas and preference programs for minorities and women. It is important to understand that in South Carolina State Government, **affirmative action programs are used to eliminate preferences, not to create them**. The plans and programs are used as benchmarks or indicators of how successful agencies are in achieving equal employment opportunity.

What is Affirmative Action?

Affirmative Action is a method, or a management tool used by employers to achieve equal employment opportunity. Statistical analysis and corrective steps help employers to identify and eliminate any lingering or current effects of prior discriminatory policies, practices, or procedures in the workplace. The **goal** is equal employment opportunity; the **method** for achieving this goal is affirmative action.

Affirmative action programs for state/local government have been upheld by the United States Supreme Court under a strict scrutiny analysis. Affirmative action programs are not to be used as quota systems or preference programs. In fact, affirmative action programs should, when implemented correctly, eliminate preferences not create them.

An Affirmative Action Plan (AAP) sets employment goals for minorities and women whose representation in the workforce is less than would reasonably be expected based on availability estimates of the qualified labor pool. The plan also names the positive (affirmative) steps the employer will take to recruit and employ qualified minorities and women. If followed, the AAP becomes the guide for a program that should result in fair employment for all race/sex groups, including white males.

The goals component of the plan is not designed to be, nor should it be interpreted to be, permitting unlawful preferential treatment or quotas for persons of any race or sex. Rather, the goals are used as benchmarks to measure the effectiveness of affirmative action efforts to eliminate and prevent discrimination.

An AAP approved by SCHAC means only that the plan meets our standards for an acceptable planning document. If the plan is not followed, the state employer has met only the paper compliance obligations under the SC Human Affairs Law and has failed to voluntarily implement an effective program.

The SCHAC mandate is to monitor recruitment, hiring, and promotion practices in state agencies, but may not tell state agencies whom to hire or promote. SCHAC offers training and technical support to employers on the state law, harassment prevention, and techniques for recruiting, hiring, and promoting without discriminating, and other issues.

An AAP and program will not immunize an agency against charges of discrimination. An agency can have the very best written AAP and still be susceptible to charges of discrimination. However, the procedures incorporated in AAPs encourage consistent, non-discriminatory actions that would help prevent discrimination.

Exempt Agencies:

Exemptions can be granted to agencies that employ minorities and women at all levels of their workforces, at a rate that would reasonably be expected based on their availability in the labor force, and that exhibit the principles of equal employment opportunity. Even though SCHAC continues to monitor these agencies, they are not required to submit written AAPs or progress reports when in an exempt status.

There are two benefits for agencies that have become exempt. First, reducing unnecessary paperwork requirements is in keeping with our policy at the Commission. Second, an agency that has no underutilization of minorities or women has no legal basis for instituting affirmative action steps to eliminate the underutilization. Affirmative Action programs are used to eliminate racial/gender imbalances in the workplace, not to maintain a race/gender balance.

Affirmative Action Plan Components

An Affirmative Action Plan (AAP) is a written document outlining the positive steps an agency will take to achieve equal employment opportunity for all race/sex groups in its workforce based on the availability of **qualified** individuals. Each plan approved by the Commission was constructed according to standards contained in The Blueprint, a manual developed by SCHAC to guide agencies in preparing their plans.

The statistical portion of an AAP analyzes employment patterns by race and sex. Any race or ethnic group that exceeds two percent of the population based on census data in South Carolina will have a separate analysis. All other racial/ethnic groups are combined. While white males are not depicted in the Availability, Underutilization, or Goals Met columns they are statistically included.

Each plan approved by SCHAC contains the following information:

- Section A—Policy Statement
- Section B—Responsibilities for Implementation
- Section C—Policy Dissemination
- Section D—Utilization and Availability Analyses
 1. Workforce Analysis
 2. Job Group Analysis
 3. Availability Analysis
 4. Underutilization Analysis
- Section E—Goals
- Section F—Identification of Problem Areas and Corrective Actions
- Section G—Internal Audit and Reporting Systems
- Section H—Affirmative Action Plan Support Documents

Job Group Analysis

The Job Group Analysis combines job titles within an agency that have similar job content, wage rates and upward mobility. This analysis is important because it forms the foundation for the availability analysis, identification of underutilization and establishment of benchmarks. The Job Groups are frequently the same as the EEO Categories.

Availability Analysis

The availability analysis is used to determine the percentage of minorities or women who are **qualified** to perform the various job titles found within each job group. The availability analysis is based on both internal and external employment data. The most important point to remember about this analysis is that it is an estimate of the qualified labor pool, not just the general population or civilian labor force. It serves as a useful benchmark against which the agency workforce can be compared in order to determine underutilization.

Determining Underutilization

A comparison is made between the current workforce (Job Groups) and the available workforce. When the percentage of women or minorities employed in a particular job group is less than what reasonably would be expected based on a qualified labor pool (adjusted availability), the agency must project a goal (SCHAC has established as a general guideline that underutilization exists when representation in a race/sex group is less than 90 percent of availability estimates).

Goals

Agencies project goals to eliminate underutilization. Goals should not be confused with quotas. They are not rigid and inflexible quotas, but targets that are reasonably attainable through good faith efforts. The goals are temporary and should only be used when problems exist. They create neither a floor nor a ceiling for the hiring of employees.

The goals component of the plan is not designed to be, nor may it lawfully be, interpreted as permitting unlawful preferential treatment or quotas. Rather, the goals are designed as benchmarks to measure the effectiveness of the plans to eliminate and prevent discrimination. These goals are realistically established based on the availability of qualified applicants.

In seeking to achieve goals, an agency is never required to hire unqualified people, or to hire a person of a particular race or sex. The use of goals is consistent with merit selection principles.

Please refer to pages 44-49 for more detailed explanations of the guidelines used for this report.

Agencies with Approved Affirmative Action Plans

The agencies listed below have developed Affirmative Action Plans in accordance with Section 1-13-110 of the South Carolina Code of Laws of 1997, as amended. Agencies with asterisks were given exemptions.

Report Summary

Report Highlights

Pay Bands Table and Chart

SECTION II

Report Summary

This report includes employment data by race, gender, and level of employment for 90 state agencies. Only agencies with at least 15 employees are included. Smaller agencies are not required to file statistical reports with SCHAC, but should have non-discrimination policies and procedures in place.

In preparing this report, SCHAC relied primarily on statistics obtained from each agency. The agencies were provided the opportunity to review and correct any information prior to publication.

By necessity, this report aggregates employees into fairly broad EEO categories. These categories are required for federal reports as well as pay bands. Despite this limitation, this analysis of employment data should prove useful. Our hope is to stimulate readers and identify areas where obstacles may interfere with the advancement of women and minorities in state government.

All of the information required by State Proviso 117.13 of the State Appropriations Act on the progress each state agency has made towards meeting their affirmative action goals to achieve an equal opportunity environment is included. This Proviso requires all agencies to send current employment data to SCHAC for analysis. The results are included in Section III.

On the bottom of each agency's chart is a percentage of the overall goal achievement for the reporting period. Two previous years are included allowing the reader to note if progress occurred. Of the 90 agencies (including colleges and universities), 87 or 96.7 percent achieved at least a level of 70 percent of their goals, which includes four agencies reaching 100 percent. In addition, 43 agencies maintained or showed an increase in their goal achievement. Of those 43 agencies that maintained or showed an increase in their overall goal achievement, seven agencies increased their achievement by 5 percent or more, and one increased it by more than 10 percent. The South Carolina Housing, Finance and Development Authority and the Arts Commission are currently exempt from reporting due to consistently achieving their goal attainment, until new Census data is available.

During the period covered in this report, the total number of state government employees was 68,631. This number includes colleges and universities.

We have listed what SCHAC refers to as **State Government's Top Ten** list. The Top Ten had the highest goal attainment for this reporting period and includes four agencies which achieved 100 percent of their goals: The Museum Commission; Santee Cooper Authority; Secretary of State; and, State Board for Technical and Comprehensive Education. Sometimes reorganizations and other factors can affect goal attainment. We have also included those agencies that failed to achieve at least 70 percent of their goals during this reporting period. (See chart for rankings pg. 38)

In last year's report we noted a continuing trend of the overall increased representation of minorities and women within the workforce. In this year's report, we noticed the trend continued with slight increases among individuals who identify as Black/African American Female or Other.

During this reporting period, there were 68,631 women and men employed by the state government; 38.6 percent were men and 61.4 percent were women. Of those, approximately: 29.3 percent were White Males; 33.0 percent were White Females; 9.2 percent were Black/African American Males; 23.6 percent were Black/African American Females, 4.9 percent identified as Other.

Report Highlights

- This report is generated using employment data provided by the Department of Administration that is broken out and provided to Agencies for correction. Corrected data Agencies return is entered into our CAAMS system where it is compared to current Census data of individuals available in the workforce by EEO categories. Availability is adjusted to allow for statistical variation and returned to the Agencies for further review for accuracy. Corrections are made as needed, and CAAMS generates reports and Affirmative Action Plans for each agency. We are currently using 2010 Census data until 2020 Census data is made available.
- During the last reporting period of October 2018 to September 2019, there were approximately 68,085 men and women employed by state government. During the current reporting period, there are approximately 68,631 men and women employed by state government, an increase of 856 in the total workforce.
- The Composition of State Government's workforce saw a slight increase in Black/African American Females and a slight increase in individuals identifying as Other. The percentage of White Males, White Females, and Black/African American Males in State Government's workforce slightly decreased.
- State government has thirty-six agencies achieving over 90 percent of their goals, with four agencies achieving 100 percent of their goals. This is an increase from the three agencies that achieved 100 percent of their goals last year.
- One agency, SC Governor's School for Agriculture at John de la Howe, increased their level of goal attainment by more than ten percent from the previous year. Seven agencies increased their goal attainment by more than five percent: Department of Administration; Commission for the Blind; SC Educational Television; Lander University; Midlands Technical College; Orangeburg-Calhoun Technical College; and Williamsburg Technical College.
- This reporting period three agencies that failed to achieve the benchmark of at least 70 percent of their goals are: Francis Marion University; State Library; and Department of Natural Resources.
- In Higher Education, males represented 45.1 percent and females represented 54.9 percent of the workforce. Black employees' representation in Higher Education increased slightly from the previous year at 17.8 percent of the workforce among State Colleges and Universities. Black/African American Females represent 11.8 percent compared to the 39.7 percent of White Females in Higher Education.

Status of Affirmative Action
Programs

SECTION IV

Status of Affirmative Action Programs

State Agency Ranking by Level of Goal Attainment

Chart A: Percentage Level of Goal Attainment State Government's Top Ten & Below 70%

Chart B: Percentage Level of Goal Attainment Ranked from Highest to Lowest

Chart C: Percentage Level of Goal Attainment Ranked by Alphabetical Order

Chart D: Percentage Level of Goal Attainment Ranked from Highest to Lowest among Colleges and Universities

Additionally, the levels of goal attainment have been noted on the bottom of each agency's chart in Section VI.

Level of Goal Attainment Calculation Method:

Step 1: Add together all percentages figures in Section 6 of the agency charts. Wherever a 0* appears, it is not included in the calculation and counts neither for against the agency.

Step 2: Count the number of times the word "YES" appears in section 6 and multiply by 100. Add the answer to the total from Step 1

Step 3: Divide the total from Step 2 by the total number of values (percentages and "Yeses") in section 6.

This is the percentage of goals achieved.

Explanation of Agency
Charts

SECTION V

Explanation of Agency Charts

Pages 50 through 159 provide an evaluation of each agency's progress towards meeting goals over a one-year period (**October 1, 2019 through September 30, 2020**). We have provided an explanation of the numbers appearing on each chart and an explanation for all abbreviations used in the report. For additional information, contact the Technical Services and Training Division at 737-7800.

Column One: Equal Employment Opportunity (EEO) Category Codes

This section has codes for groups of employees that perform jobs having similar work content, pay rates and promotional opportunities. State agencies use codes E1 through E8. Four-year colleges and universities use codes E1 through E8 and C1 through C9. Technical education colleges use codes E1 through E8 and T1 through T5. When the number of employees assigned to a category is so small as to prohibit establishing goals, more than one EEO category may be combined to create a larger group of employees. Likewise, when an EEO category is extremely large, it may be subdivided into two or more categories. Goals would then be established for the larger group. A general description of the kinds of jobs assigned to each EEO code follows:

E1) Executives:

Includes all employees whose assignments require meeting with the agency head or a designee to set agency policies that affect both internal and external statewide operations. Incumbents are expected to exercise discretion and independent judgment when assessing policy needs and ensuring that policies created are in line with state and federal laws, rules and regulations. Includes all persons whose assignments require the performance of work directly related to management policies and the general business operations of the agency or institution. Persons must perform the above functions and should report directly to the agency director or deputy director. Includes directors, deputy directors, department heads, division directors, regional directors, district directors and unclassified administrative managerial positions.

NOTE: Supervisory personnel of the professional, technical, clerical, skilled craft, and service/maintenance workforce will be reported within the specific categories of the personnel they supervise unless they set broad policies described above.

E2) Professionals:

Includes all employees required to possess specialized and theoretical knowledge that is usually acquired through college training or work experience and other training that provides comparable knowledge. Includes personnel specialists, social workers, doctors, registered nurses, systems analysts, accountants, counselors, teachers, police captains and lieutenants, classified professional non-faculty employees and kindred workers.

E3) Technicians:

Includes employees required to possess a combination of basic scientific or technical knowledge and manual skill that can be obtained through specialized post-secondary school education or through equivalent on-the-job training. Includes computer programmers and operators, draftspersons, surveyors, licensed practical nurses, photographers, radio operators, technical illustrators, technicians (medical, dental, electronic, physical sciences), assessors, inspectors, police and fire sergeants and kindred workers.

E4) Protective Services:

Includes employees entrusted with public safety, security and protection of the public from destructive forces. Includes police, patrol officers, fire fighters, guards, deputy sheriffs, bailiffs, correctional officers, detectives, marshals, harbor patrol officers and kindred workers.

E5) Paraprofessionals:

Includes employees who perform some of the duties of a professional or technician in a supportive role and who usually require less formal training and/or experience than normally required for professional or technical positions. Such positions may fall within an identified pattern of staff development and promotion under a "New Careers" concept. Includes library assistants, administrative assistants, research assistants, medical aides, child support workers, police auxiliary, welfare service aides, recreation assistants, homemaker's aides, home health aides, and kindred workers.

E6) Secretary/Clerical:

Includes employees responsible for internal and external communication, recording and retrieval of data and/or information and other paperwork required in an office. Includes bookkeepers, messengers, office machines operators, clerk-typists, stenographers, court transcribers, secretaries, hearing reporters, statistical clerks, dispatchers, license distributors, payroll clerks, and kindred workers.

E7) Skilled Craft:

Includes employees performing jobs that require special manual skill and thorough and comprehensive knowledge of the processes involved in the work, which is acquired through on-the-job training and experience or through apprenticeship or other formal training programs. Includes mechanics and repairers, electricians, heavy equipment operators, stationary engineers, skilled machinists, carpenters, compositors and typesetters and kindred workers.

E8) Service/Maintenance:

Includes workers performing duties related to the upkeep and care of buildings, facilities, or grounds. Workers in this group may operate machinery. Includes chauffeurs, laundry and dry-cleaning operators, truck drivers, bus drivers and garage laborers, custodial personnel, gardeners and grounds keepers, refuse collectors, construction laborers and kindred workers.

C1) Executive (Non-Academic):

Includes all unclassified employees whose assignments require primary responsibility for management of the institution, or a customarily recognized area or subdivision thereof. Includes persons who work in non-academic administrative support positions requiring the performance of work directly related to management policies or general business operations of the institution, department or subdivisions, etc. It is assumed that assignments in this category customarily and regularly require the incumbent to exercise discretion and independent judgment, and to direct the work of others. Includes officers holding such titles as Vice-President Administration, Vice-President Financial Management, Executive Assistant to the President, Director of Libraries, Director of Development and Alumni, Director of Athletics and kindred workers.

C2) Executives (Academic):

Includes all unclassified employees whose assignments require primary responsibility for management of the institution, or a customarily recognized department or subdivision thereof. Includes persons who work in academic administrative support positions requiring the performance of work directly related to management policies or general business operations of the institution, department or subdivision, etc. It is assumed that assignments in this category customarily and regularly require the incumbent to exercise discretion and independent judgment, and to direct the work of others. Includes officers holding such titles as Vice President/Academic Affairs, Deans, and Executives of academic departments (chairperson, head, or the equivalent) if their principal activity is administration.

C3) Professors*

C4) Associate Professors*

C5) Assistant Professors*

C6) Instructors*

C7) Lecturers*

*C3 through C7 includes all unclassified employees whose specific purpose is to provide instruction, research, or public service as a principal activity (or activities), and who hold academic titles of professors, associate professors, assistant professors, instructors, lecturers or the equivalent of any one of these academic ranks. Included in this category are deans and executive officers of academic departments (chairperson, head or the equivalent) if their principal activity is instructional. Student teachers and research assistants are not included.

C8) Other (Academic):

Includes all unclassified employees whose specific assignments are temporary in nature and/or who provide specialized professional support to the academic departments. Includes visiting persons with academic rank, Research Associates, Teaching Associates and kindred workers.

C9) Other (Non-Academic):

Includes all unclassified employees whose specific assignments would require either college graduation or experience of such kind and amount as to provide a comparable background. Persons placed in this category are considered professionals and would otherwise be reported under (E2), except that they are unclassified, under a different pay plan, and work in an institution of higher learning. Includes Directors, Athletic Coaches, Residents, Program Coordinators and kindred workers.

T1) Executives (Unclassified Institutional Officers):

Includes unclassified employees whose assignments require very broad executive management and policy-making responsibility on institution-wide areas. Includes persons who work in positions requiring the performance of work directly related to management of policies or general business operations of the institution. It is assumed that assignments in this category customarily and regularly require the incumbent to exercise broad policy making, high level decision making, and very independent and discretionary judgment. They also direct the work of high-level professions. Includes officers holding such titles as President, Executive Vice-President, Vice-President Education, Vice-President Business, Vice-President Student Affairs and Vice-President Development.

T2) Managerial (Unclassified Level II Education Support Personnel):

Includes unclassified employees whose assignments require very broad management and policy-making responsibility on an institution-wide basis of a customarily recognized and very broad division or larger unit. Includes people who work in positions that require the performance of work directly related to the management of the institution or division. It is assumed that assignments in this category customarily and regularly require the incumbent to exercise high level decision making and highly independent judgment, and to direct the work of mid-upper level administrators. Includes positions holding such titles as Dean of Instruction, Dean of Continuing Education, Dean of Students, Dean of Learning Resources II and Educational Support Manager II.

T3) Faculty/Administrative/Teaching:

Includes all unclassified employees whose assignments require both responsibility for management of a customarily recognized academic division/department and whose other assignments are made for the purpose of providing instruction, conducting research, providing learning resources or performing public service. Includes academic deans, assistant deans, division chairpersons, department heads, librarians, program coordinators, and other faculty positions, if their responsibilities are both administrative and instructional or administrative only.

T4) Faculty/Teaching:

Includes all unclassified employees whose specific assignments customarily are made for the purpose of conducting instruction. Includes instructors and vocational teachers. Does not include student teachers or research assistants.

T5) Professionals (Unclassified Level I Educational Support Personnel):

Includes all unclassified employees whose assignments require the direction and supervision of major related sections/departments. Includes positions titled Educational Support Manager I, Assistant Dean of Students, Assistant Dean of Continuing Education and Dean of Learning Resources I.

Column Two: Workforce Totals

The information provided in Column Two shows the race/sex totals by number (#) and percentage (%) of persons employed in each EEO category as of **September 30, 2020**. For purposes of the report, the following race/sex categories are used:

WM	=	White Males	OF	=	Other Minority Females
BM	=	Black Males	T	=	Total
OM	=	Other Minority Males	#	=	Number
WF	=	White Females	%	=	Percentage
BF	=	Black Females	*	=	Underutilization less than one whole person

The information showing in the number (#) blocks of section 2 and 5 was provided by each agency, college or university or technical school and was reviewed for accuracy by agency representatives prior to the writing of this report. The percentage (%) of each race/sex group was computed by dividing the number (#) of each race/sex group by the total number (#) of persons in the EEO category. Please note that percentages may not add up to exactly 100% due to rounding.

Column Three: Adjusted Availability

Column Three displays the percentage of people available in the labor market with the qualifications to perform the duties and responsibilities of the positions assigned to the EEO category. The percentages are taken from each agency's Affirmative Action Plan.

Availability is an estimate of the percentage of the workforce you reasonably could expect to be employed based on the employer's analysis of the qualified labor pool. Availability estimates are reported for three groups: black males, white females and black females. Availability is established for any minority group exceeding two percent of the relevant labor market. The Availability is then adjusted to a rate that is within 90.0 percent of what would be expected (a fluctuation of 10 percent). The Availability adjustment is to allow for the possibility that the current workforce disparities may not be statistically significant. If you add the availability percentages and subtract from 100, you will have the availability for white males and all the other racial groups not depicted on this form. Historically, there has not been a pattern of underutilization of white males in employer workforces. No other race or ethnic group was over the 2 percent threshold.

Column Four: Underutilization

These figures are a comparison of the Adjusted Availability (Column Three) percentages, and the actual workforce (Column Two) percentages. If the current workforce is less than the Adjusted Availability, then underutilization exists. The underutilization is expressed as a percentage (percentages are rounded to the nearest 0.1%). If there is no underutilization a "No" appears in the block.

In any job group where the percent of underutilization is so small that it would compute to less than one whole person, an asterisk will appear in the appropriate block indicating that no goals are required.

This process is based on statistical fact, not its cause. However, the SCHAC recognizes that the mathematical comparison between availability and the current workforce should not be the sole consideration in determining underutilization. Other reasons can be discussed with SCHAC.

Column Five: New Hires and Promotions 10/01/2019 – 9/30/2020

This section displays by race and sex the number (#) and percentage (%) of persons who were hired or promoted between **October 1, 2019 and September 30, 2020**. The information was obtained and calculated in the same manner as the information in Column Two. Again, percentages may not add up to exactly 100% due to rounding. Transactions counted in Column Five include positions filled by means of new hires, internal promotions, promotions involving moving from one state agency to a higher job grade in another state agency, reinstatements and transfers from one state agency to another.

The reclassification of an already filled position is not counted in Column Five.

Column Six: Goals Met

When an agency has achieved the Adjusted Availability displayed on the form for a race/sex group, a YES is indicated in the appropriate block. If not, the percentage (%) achieved is displayed. The overall percentage of the goals achieved is noted at the bottom of each agency's chart.

The percentage of goals achieved is calculated by dividing the percent employed (in Column Two) by the percent available (in Column Three).

In race/sex groups where underutilization is less than one whole person, an asterisk will appear in the appropriate blocks.

State Agencies' Workforce
