Fiscal Year 2014-15 Accountability Report

SUBMISSION FORM

AGENCY MISSION

The primary mission of the University of South Carolina Columbia is the education of the state’s citizens through teaching, research, creative activity, and community engagement.

Among America’s oldest and most comprehensive public universities, USC Columbia is the major research institution of the University of South Carolina system and its largest campus, enrolling approximately 25,000 undergraduate students and approximately 8,000 students in graduate and professional programs. At the heart of its mission lies the University’s responsibility to state and society to promote the dissemination of knowledge, cultural enrichment, and an enhanced quality of life.

The University serves a diverse population of students with widely varying backgrounds, career goals, and levels of aspiration. USC Columbia offers over 320 degrees at the bachelor's, master's, doctoral, and professional program levels, affording students the most comprehensive array of educational programs in the state. Additional opportunities for personal and career development, including an associate degree program at Fort Jackson, are provided to the citizens of South Carolina through outreach and continuing education activities.

Through the primary method of classroom and laboratory instruction, and through a secondary method of distance learning delivered via the Internet, teleconference, and electronic media, degree programs are offered in the following areas: arts and sciences; education; engineering and computing; hospitality, retail, and sport management; mass communications and information studies; music; public health; and social work; and in professional programs such as business, law, medicine, nursing, and pharmacy. The depth and breadth of its graduate programs in the arts and sciences, international business, public health, social work, and library and information science distinguishes USC Columbia from all other institutions of higher learning in South Carolina.

Recognized by the Carnegie Foundation as a top research and service institution, nationally ranked in start-up businesses, and conferring over 30% of all bachelor’s and graduate degrees awarded at public institutions in South Carolina, the University has a profound relevance, reach, and impact on the people of the state. As the flagship

AGENCY NAME:	University of South Carolina Columbia		
AGENCY CODE:	H27	SECTION:	20A

institution of the state system, USC Columbia leads the way in providing all students with the highest-quality education, including the knowledge, skills, and values necessary for success and responsible citizenship in a complex and changing world through engagement in nationally and internationally ranked research, scholarship, community outreach, and artistic creation.

AGENCY’S DISCUSSION AND ANALYSIS

The University of South Carolina Columbia maintains goals in five areas: Teaching and learning; research, scholarship and creative achievement; service excellence; quality of life on the University campus; and recognition and visibility. These goals support the mission of the University, which is “the education of the state’s citizens through teaching, research, creative activity, and community engagement.” The University consistently supports the goals and mission and is making great strides towards achieving them.

Teaching and Learning

The strategies and objectives in the area of teaching and learning focus on improving the quality of academic programs, developing faculty, and enhancing the student experience in and beyond the classroom. With just under 5,000 first-time, full-time freshmen enrolling in Fall 2014, a quality teaching and learning environment is key. USC Columbia has maintained a low student: faculty ratio to ensure that students receive quality, personalized attention and support. In addition, USC Columbia has many initiatives aimed at achieving this goal, some of which will be discussed below.

Leaders at USC Columbia recognize the challenges facing students when their college path takes longer than expected. Therefore, USC Columbia is dedicated to expanding the “On Your Time” initiative to help students complete their education in a timely manner. Expanding the schedule of general education courses and distributed learning courses will help facilitate flexible course scheduling for students, to help them complete their required courses on time.

Recognizing when students are struggling academically is a critical first step in providing intervention services to ensure students are meeting educational goals. Success Connect, an early invention program, seeks to assist students experiencing academic difficulties by connecting students with resources that support successful outcomes. The program encourages faculty and staff to refer students who are missing class, struggling with coursework, or experiencing general academic challenges. Four types of referrals are offered: class absence referrals to identify students not attending class; academic assistance referrals to identify students who may be experiencing academic or transitional difficulties; mid-semester academic reports to identify students experiencing academic distress midway through the semester; and withdrawal referrals to identify students who have expressed interest in withdrawing from the university. This initiative began in Fall 2013 and its success has only grown, with referrals increasing by over 50% in the second year.

Supplemental instruction is another resource for students who may need academic support. Supplemental Instruction sessions are small-group, weekly discussion and review sessions led by qualified and trained undergraduates who attend classes with participating students. Sessions are focused on the course’s most recent lecture material. Each student in the study group is involved in the discussion and collaborates with classmates to improve his or her understanding of course content. Over 6,300 students were served by Supplemental Instruction in the 2014-2015 academic year, an increase of over 1,500 students from the previous year.

An even more individualized academic support service is Peer Tutoring. Peer tutoring sessions are conducted one-on-one with an undergraduate tutor that has been trained to facilitate individual discussions on specific course content, as well as study skills and academic habits. Peer tutors have already excelled in the course they

AGENCY NAME:	University of South Carolina Columbia		
AGENCY CODE:	H27	SECTION:	20A

tutor. Tutoring sessions are designed to meet students’ individual questions and needs and to foster independent learning. Peer tutoring visits increased by 500 students this year.

Not only is USC Columbia focused on helping students; the University is committed to helping faculty develop their teaching skills as well. Faculty workshops and trainings are held on a variety of topics through the Center for Teaching Excellence. Some topics covered during 2014-2015 were: Responding to Student Writing, Strategies for Getting Students to Read, Service-Learning 101, Verbal Judo for the Classroom, Integrative Learning Through Reflection, Evaluating Team Projects Effectively, Teaching Disciplinary Writing, Crafting Dynamic Classroom Lectures, Tools for Communicating with Students Online, Inspire your Students with Engaging Technologies, Maximizing Student Motivation, and many types of sessions on Flipped Classroom design and techniques. Several of these topics support use of more interactive methods of teaching. Usage data for these initiatives is included in the Performance Measurement worksheet.

The effectiveness of the above-mentioned initiatives is indicated by a variety of measures, which are included in the Performance Measurement worksheet. Some additional highlights include the fact that 88% of freshmen are retained to their second year here at USC Columbia. Over 73% of students graduate within six years and in 2013-2014, over 4,900 Baccalaureate degrees and over 2,300 advanced degrees were awarded.

USC Columbia realizes that financial accessibility is important to a student’s success in higher education. In Fall 2014, USC Columbia awarded McNair and/or Carolina Scholarships to 160 students. Additionally, over 6,800 students received LIFE scholarship, over 1,600 students received Palmetto Fellowship, and 180 students received the Hope Scholarship. Due, in part, to the above initiatives, most students are able to maintain their scholarships the following year.

Research, Scholarship and Creative Achievement

USC Columbia strives to be a leader “dedicated to discovery, application, innovation, and dissemination of knowledge” (Focus Carolina, 2011). One strategy to reach this goal is to ensure that faculty research is supported and encouraged. For the 2013 fiscal year, research expenditures per tenure-track faculty member exceeded \$175,000. Faculty research is further supported by decreasing the student-to-tenure track faculty ratio, allowing faculty more time to dedicate to contributing to their field in scholarly research activities.

In addition to faculty research, it is important to develop scholarly students who are engaged in research. USC Columbia is dedicated to supporting undergraduate research opportunities. The Office of Undergraduate Research serves as a central facilitator to help students find research opportunities, assist students with research funding, and assist and support student in presenting research.

Additional strategies towards this goal include enhancing the quality of graduate programs and further developing the professional schools. The professional schools demonstrate their quality by the consistently high pass rates for national professional certification exams. In 2014-2015, pass rates ranged from 79.2% to 100% for the 13 exams reported by our institution. Detailed pass rates for each exam are included in the attached Performance Measurements.

Service Excellence

USC Columbia is a dual Carnegie Service University that strives to engage the University with the greater community through service. As such, the University offers a variety of service learning courses. During the 2014-15 academic year, over 100 service learning courses were offered, with over 2,000 students enrolled. As stated

AGENCY NAME:	University of South Carolina Columbia		
AGENCY CODE:	H27	SECTION:	20A

above, the University strives not only to offer such programs for students, but offer development opportunities for faculty to grow professionally as well. Seventy-seven faculty and staff members participated in service learning professional development activities in 2014-15.

Service learning opportunities for students and faculty are complemented with a variety of community service events organized by USC Columbia. In 2014-15, the University organized 180 community service events. Over 2,000 students, faculty, and staff participated in these events, providing over 11,000 collective hours of service. These events provide an immeasurable benefit to the greater Columbia community.

Quality of Life on the University Campus

USC Columbia strives to be a destination for high-quality faculty, students, and staff in order to create a rich and rewarding learning and working environment. In order to recruit and retain the high-achieving, high-quality faculty, staff, and students, the University recognizes that the quality of life on the University campus must be ideal. A high rate of diversity offers a rich working and learning environment. The University currently (2014-2015) employs over 21% minority faculty and staff. Based on a recent survey, compensation was cited as one of the leading quality of life issues to be addressed. The University strives to offer competitive salaries compared to peer institutions. Average faculty salaries by rank are included in the attached Performance Measurements. In addition, intangible benefits, such as a variety of professional development opportunities, are also offered to faculty and staff.

As mentioned above, the University has consistently maintained a low faculty to student ratio; the current ratio is 18:1, further indicating that faculty are being retained and/or attracted to the institution. Over 70% of faculty members have terminal degrees in their field, indicating a dedication to hiring highly qualified candidates. In addition, USC Columbia faculty are provided with development opportunities through the Center for Teaching Excellence and by encouraging scholarly research. In 2014-2015, 43 workshops were offered to faculty and graduate teaching assistants, with over 700 attendees. Additionally, multiple orientations, symposia, and faculty learning communities were available, as well as several workshops designed specifically for graduate teaching assistants.

Recognition and Visibility

The University values the contributions made by those who work, teach, study, graduate, and learn at the institution and strives to recognize and show appreciation for those contributions and talents. The University is nationally and internationally recognized for numerous reasons, such as the number one Undergraduate International Business Major, number one International MBA program, the Nation’s best Public University Honors College, and one of the nation’s best first-year experience programs. A summary of additional favorable ratings and honors can be viewed on our website at http://www.sc.edu/about/south_carolina_at_a_glance/index.php

USC Columbia is the only university awarding a designation for graduating with Leadership Distinction. This long-term initiative for the University is USC Connect, a comprehensive learning initiative focused on students meeting educational goals through integrative learning. USC Connect also serves as the University’s Quality Enhancement Plan for the Southern Association of Colleges and Schools Commission on Colleges. The primary purpose of USC Connect is to connect academics and beyond the classroom experiences. USC Connect offers five pathways, one of which is community service. Through USC Connect, students also have an opportunity to earn a special honor: Graduation with Leadership Distinction. In 2014-2015, there were 224 students who qualified

AGENCY NAME:	University of South Carolina Columbia		
AGENCY CODE:	H27	SECTION:	20A

for this honor, greater than a two-fold increase from the pilot year. This number is expected to grow exponentially in the coming years.

In addition to this unique honor, USC Columbia students are encouraged to showcase their great work through publications and conference presentations at the campus, regional, national, and international levels. These efforts are supported in many ways through the Office of Undergraduate Research, which connects students with opportunities and provides funding through a variety of Magellan programs.

In recent years, dozens of faculty members have received awards from a variety of national sources, such as the American Association for the Advancement of Science, the American Council of Learned Societies, Fulbright American Scholars, and the National Science Foundation. In addition to national recognition, the University also recognizes outstanding faculty with a variety of internal awards as well. The showcase of both internal and national award recipients is available on the University website here: http://www.sc.edu/about/offices_and_divisions/provost/honorsandawards/index.php

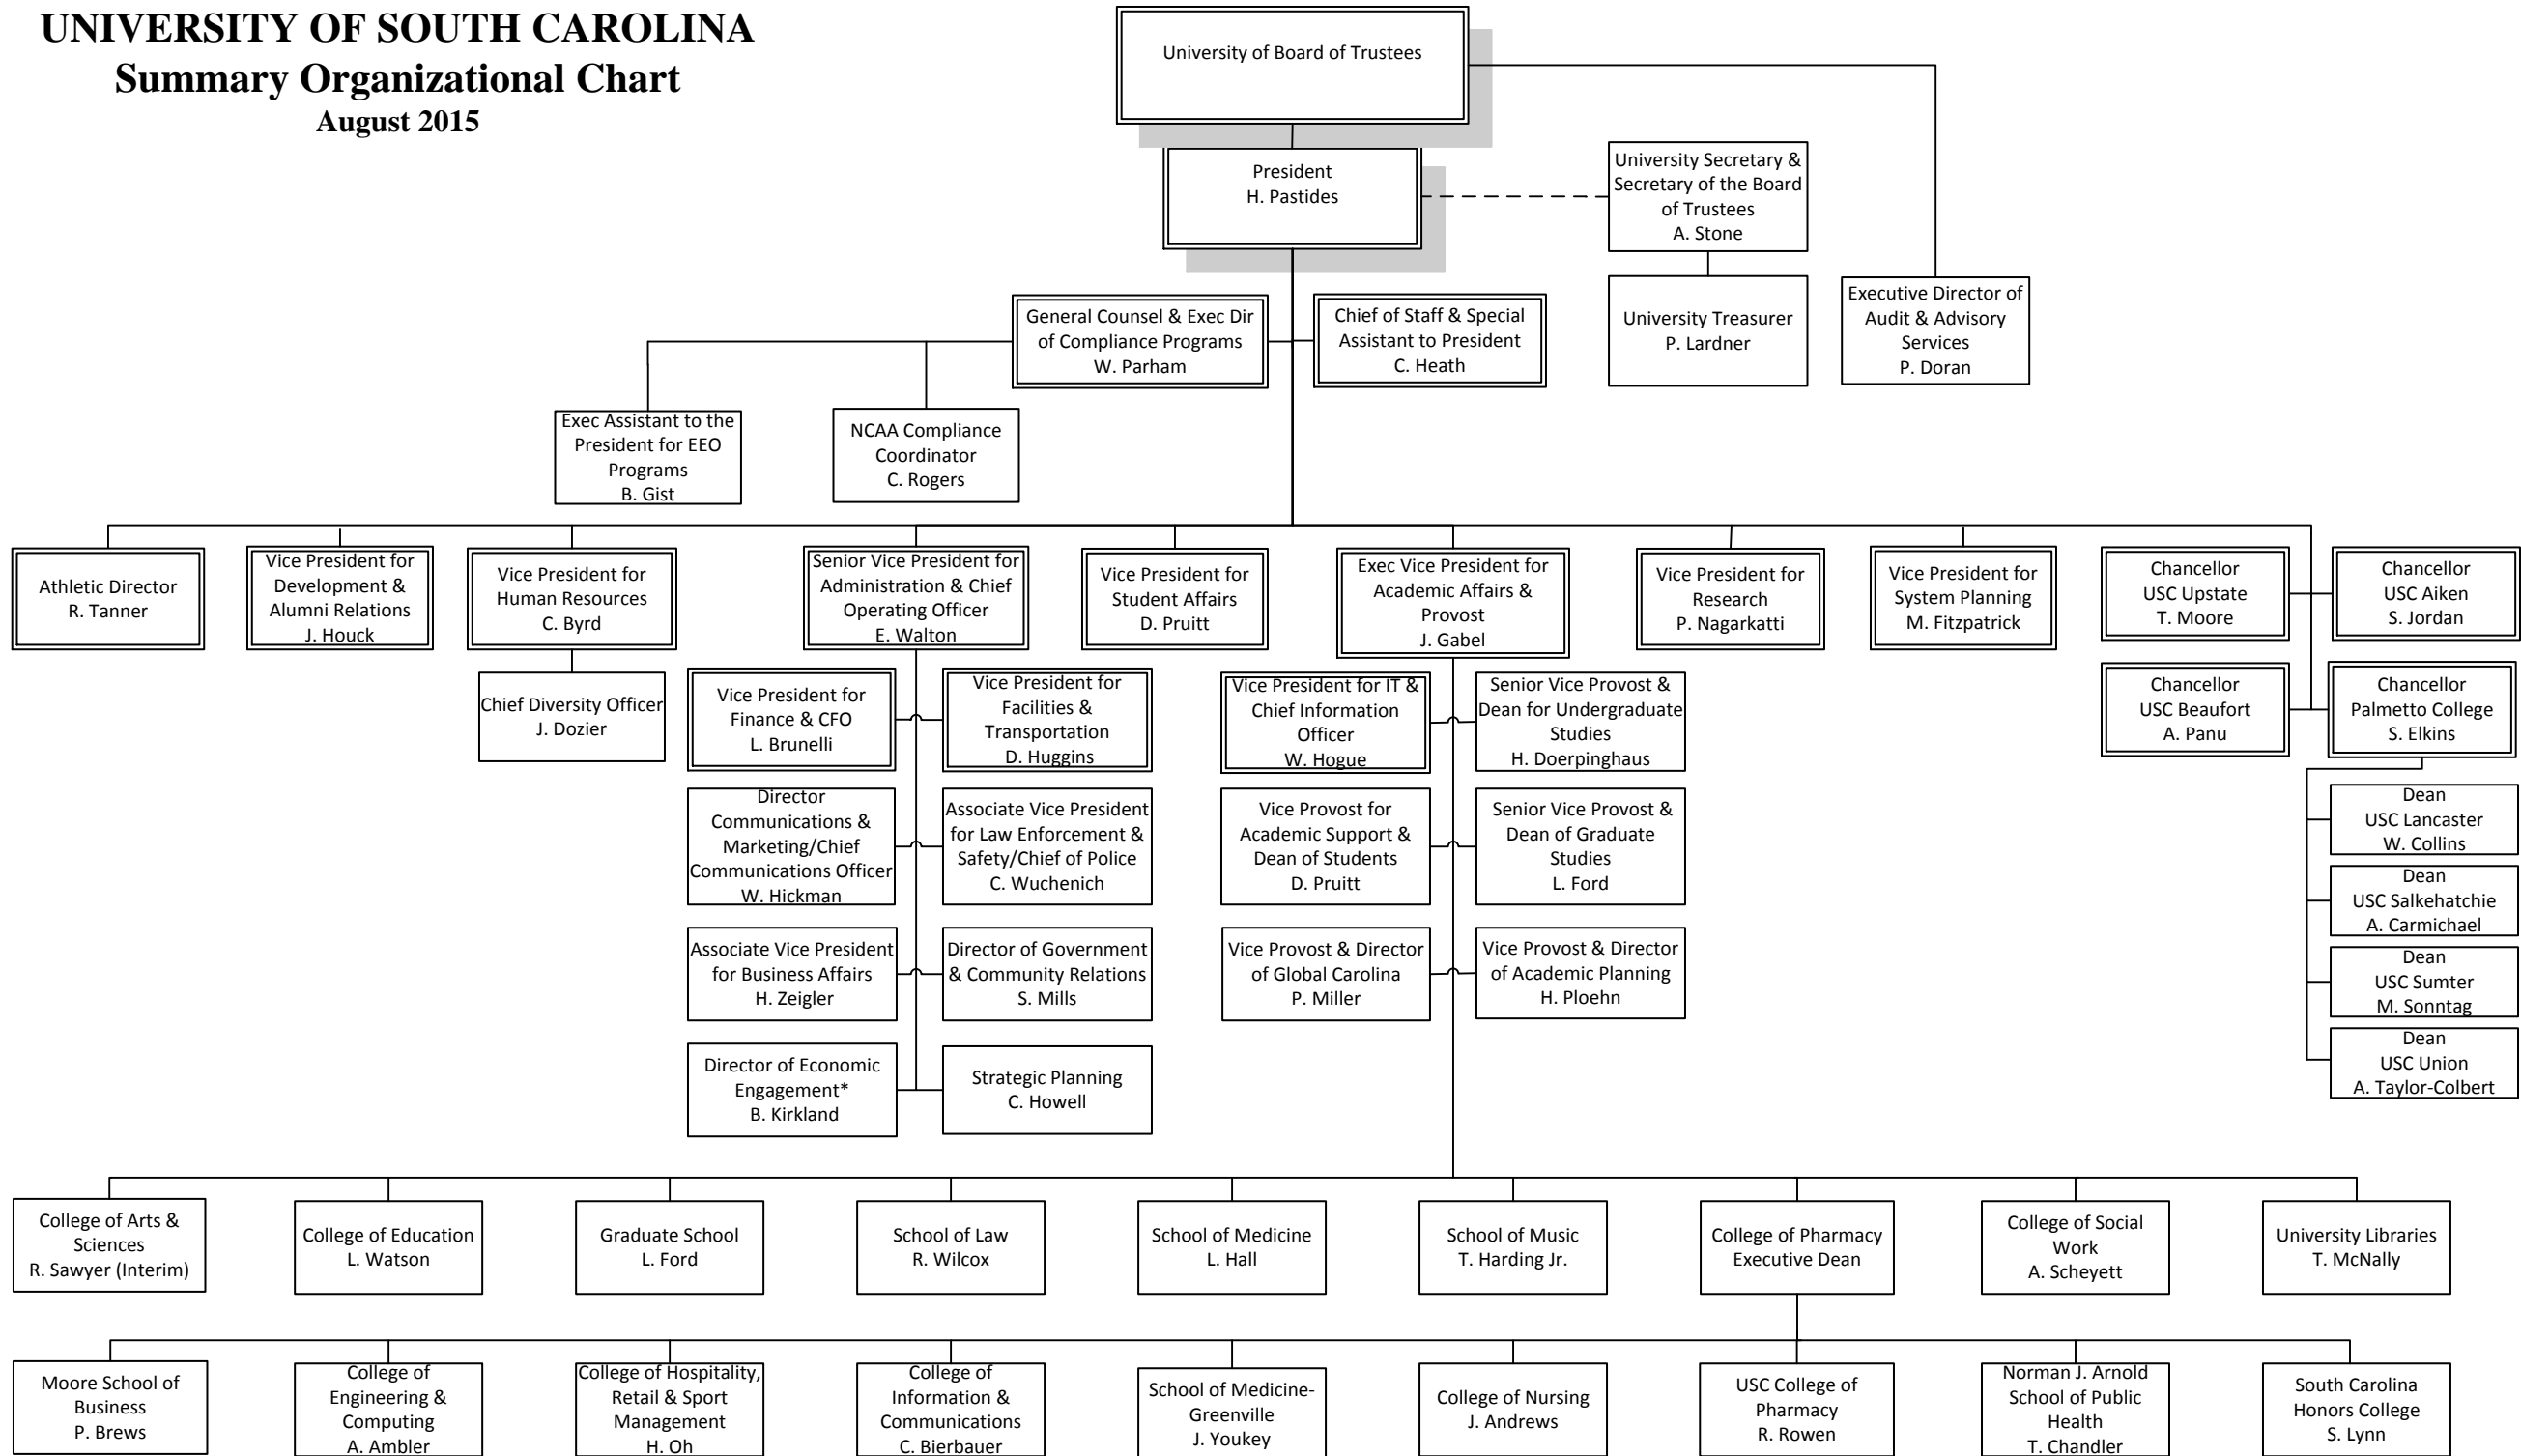

Discussion

USC Columbia’s reach and impact on South Carolina is immeasurable and the University is proud of its accomplishments, alumni, scholars, and all who live and work here. In the past year, the University has attempted to more clearly identify a variety of valuable and measurable objectives that will help the University continue to improve and maintain itself as a rich source of education, research, and service to the state and nation. The University is making great strides toward reaching the objectives outlined in the attached plan and is truly fulfilling the mission that it “has a profound relevance, reach, and impact on the people of the state.”

Strategic Planning Template

Type	Goal	Item # Strat	Object	Description
G	1			Teaching and Learning: To improve quality of academic programs at all levels, develop and nurture a faculty devoted to teaching excellence, and enhance the richness of the student experience in and beyond the classroom so that the teaching and learning environment of the University of South Carolina equals or surpasses that of comprehensive state university systems that are deemed peer aspirants.
S		1.1		Expand "On Your Time" Initiative.
O			1.1.1	Offer an expanded schedule of general education courses.
O			1.1.2	Increase number of distributed learning courses offered.
O			1.1.3	Increase freshman to sophomore retention rates.
O			1.1.4	Improve 150% graduation rates.
O			1.1.5	Reduce student debt by maintaining levels of student financial aid and scholarships.
S		1.2		Improve the overall academic experience for Honors College students.
O			1.2.1	Decrease the student-faculty ratio.
O			1.2.2	Introduce more interactive methods of teaching.
O			1.2.3	Increase number of academic advisors.
O			1.2.4	Expand Career Services and counseling.
G	2			Research, Scholarship, and Creative Achievement: The University of South Carolina will be recognized as a top public university system dedicated to discovery, application, and dissemination of knowledge; excellence in creative achievement; and world-renowned scholarship. Leadership among comprehensive research institutions will be signified by continuation of the highest Carnegie classification for the Columbia campus and rising status within that peer group, and recognition of all campuses for excellence relative to their peer and peer aspirant institutions.
S		2.1		Support faculty research.
O			2.1.1	Decrease student-to-tenure track faculty ratio
O			2.1.2	Increase research expenditures per tenure track faculty member.
S		2.2		Increase undergraduate student participation in faculty-mentored research.
O			2.2.1	Provide funding for undergraduate student participation in research.
O			2.2.2	Increase visibility and accessibility of the undergraduate research opportunities.
S		2.3		Prepare professional students for impactful careers.
O			2.3.1	Increase the percentage of students passing professional exams.

G	3			Service Excellence: The University of South Carolina will be committed to effective engagement of the expertise and capabilities of faculty, staff and students in state, national and global settings, to advance service learning, applied research, and community service which promote economic development and enhance quality of life. Achievement of this goal will be signified by continued formal recognition of service excellence by the Carnegie Foundation for eligible campuses within the system, as well as by recognition of all campuses for excellence relative to their respective peer and peer aspirant institutions.
S		3.1		Encourage students to engage in learning both within and beyond the classroom in order to shape responsible citizens.
O			3.1.1	Increase number of service learning courses offered.
O			3.1.2	Increase enrollment in service learning courses.
O			3.1.3	Increase number of opportunities for service learning professional development for faculty.
S		3.2		Engage students in solving community problems and place them on a lifelong path of civic engagement.
O			3.2.1	Increase opportunities for community service events.
O			3.2.2	Increase hours served in community service.
O			3.2.3	Increase Community Service Program participation.

G	4			Quality of Life in the University Community: The multi-campus system will be a destination of choice for high-achieving faculty, students and staff who value, benefit from, and contribute to a rich and rewarding learning and working environment where civility, ethics, and collaboration create an inclusive culture of fairness and respect, facilitating for all Carolinians the highest levels of intellectual and personal achievement. Achievement of this goal will be evidenced by the recruitment and retention of the highest quality faculty, students, and staff; their advancement of the University's mission; and by enrichment of the communities where Carolinians live and work.
S		4.1		Hire, promote, and retain high-quality and diverse faculty.
O			4.1.1	Increase percentage of faculty with terminal degrees.
O			4.1.2	Increase opportunities for faculty development.
O			4.1.3	Maintain competitive faculty salaries.
S		4.2		Recruit and retain high-quality students.
O			4.2.1	Increase undergraduate enrollment.
O			4.2.2	Increase academic support services for students.
O			4.2.3	Increase recruitment of highly-prepared students, indicated by increasing average SAT score of incoming students.
S		4.3		Improve health care in rural South Carolina by enhancing the Improved Care and provision of Rural Access to Eliminate health Disparities (ICARED) initiative.
O			4.3.1	Increase number of medical students completing rotations in rural sites.
O			4.3.2	Increase number of residency graduates entering rural practice in South Carolina.
O			4.3.3	Increase number of rotation sites in rural areas.
G	5			Recognition and Visibility: Accomplishments of students, faculty, staff and alumni will be showcased and publicized such that the campuses are recognized for excellence and leadership in education, research, scholarship, creative endeavors, athletics, and public service, consistent with their respective missions.
S		5.1		Offer opportunities for comprehensive learning and recognition of such endeavors.
O			5.1.1	Increase number of students graduating with Leadership Distinction honor.
O			5.1.2	Increase student participation in publications and conference presentations at the campus, regional, national, and international levels.
O			5.1.3	Continue to recognize outstanding achievement of faculty via internal awards and honor those receiving national awards.
