AGENCY’S DISCUSSION AND ANALYSIS

The South Carolina Department of Education (SCDE) has spent most of 2016—17 focused on finalizing the development of the merged state and federal accountability system, per Act 200 of 2014 and Act 281 of 2016. The agency initially was to submit the state ESSA plan to the U.S. Department of Education (USED) in September 2017, however an extension was granted because of Hurricane Irma and the subsequent delay in the Education Oversight Committee meeting on the accountability system. The agency continues to strive to ensure that all students, no matter their residency or socioeconomic status, have the opportunity to receive a high quality education that will prepare them for post-secondary success. Further, these students must be afforded the opportunity to enhance their awareness and to plan for the steps they will take after high school. Over the course of the next year these objectives and goals will continue to propel the work of the agency and our schools and educators.

Performance Impacts

There are always a number of factors, both internal and external, that impact the agency and in the past year the development of the single accountability system has taken up much of the time and energy of both staff at the agency and external stakeholders, including other state agencies and school district leaders. We must keep in the forefront of our minds that all plans and any changes have a direct impact on parents and students. While we must raise the bar for success for all, we must first not do any harm. This process has been both challenging and rewarding with the state further refining the steps that must be taken to ensure that all students graduate prepared for college, careers, and citizenship under the Profile.

Internal

The third year of the Superintendent’s tenure has offered increased stability in both staffing and organization that has allowed agency staff to focus on providing support and assistance to educators, schools, and districts to ensure that implementation of educational programs is data informed and evidence based. To that end, the agency has completed the vertical alignment of SC Ready. This alignment will help educators know if a child is progressing from grade level to grade level appropriately and whether a child has achieved a year’s growth. The Office of Standards and Learning has provided increased high-quality professional development to educators in districts. All opportunities are offered across the state in a variety of formats and are standards-aligned.

The web reporting for the Early Childhood Development Collection System (ECDCS) was posted in the fall of 2017, and serves as the dashboard for information regarding the status of early childhood efforts. It is hoped that the ECDCS will facilitate discussions around how South Carolina can continue to improve opportunities for our youngest learners. This data system does not show individual data, but does report achievements and growth of South Carolina’s children within the education and human services programs over time. An executive panel was formed to combine data from the South Carolina Department of Revenue, Fiscal Affairs (RFA) (which houses data from multiple state agencies), the SCDE, the South Carolina Department of Health and Environmental Control (SCDHEC), the South Carolina Department of Social Services (SCDSS), the South Carolina Department of Health and Human Services (SCDHHS), the South Carolina Department of Mental Health (SCDMH), the South Carolina Office of Head Start, the South Carolina Office of First Steps, the South Carolina Department of Disabilities, Special Needs (SCDDSN), Children’s Trust, United Way of the Midlands, and the Joint Citizens and Legislative Committee on Children.

The executive panel evaluated the data that will be the most meaningful to educators, community members, lawmakers, and parents when it comes to charting a course for South Carolina’s early childhood efforts.

External

The agency spent a great amount of time, along with the Education Oversight Committee, developing the merged accountability system. The process of developing the state ESSA plan spanned over two years and involved more than 120 external stakeholder meetings as well as extensive communication and planning within the agency. The Superintendent is solely responsible for submitting the final ESSA plan to the USED; however, because South Carolina has a separate state accountability system, recommendations from the Education Oversight Committee must be included in the final submission. The plan was sent to the Governor for his review in August and will be submitted to the USED by September. The USED will provide feedback to the state and based on the experience of states that have already submitted, it is likely that the plan will have to be perfected before final approval.

Current Efforts and Results & Future Planning

Competency Based/Personalized Learning

Through the agency’s Office of Personalized Learning a tiered system of support for schools and districts implementing personalized and competency based education will be launched by June. (1.1.2) The initial rollout will include 25 schools and will inform the ongoing work of developing competencies that align to the Profile of the South Carolina Graduate. (1.1.1) Over the past year the agency has worked with iNACOL and reDesign, as well as other states such as New Hampshire and Georgia, on refining personalized and competency-based plans. The agency will request funding from the General Assembly to support this effort both through the coaching model, which will provide the regional support to the launch sites, and through the funding of a learning management system (LMS). Such a system will facilitate personalized, competency-based learning and allow educators from around the state to connect and share resources, curriculum and planning, and serve as an additional platform that will support professional development to educators. Other states, such as North Carolina, have implemented statewide LMS (Canvas) for helping teachers to flip classroom instruction, implement blended learning, support 1:1 and “bring your own device” programs, and host professional development. North Carolina’s virtual program is also shifting to that platform. Additionally, the system will support parent engagement by serving as a portal through which parents can take a more active role in their children’s education by viewing assignments and coursework as well as connecting with the teacher. If this work is funded and completed with fidelity over the course of the next year it will serve as the bedrock for statewide expansion of competency-based personalized learning.

VirtualSC

The agency’s VirtualSC continues to serve over 39,000 students statewide and remains one of the fastest growing and most successful virtual programs in the nation. The cost per enrollment (approximately \$185 per student) is one of the lowest amongst similarly sized neighboring states. The agency requested additional funding to serve students and continue to build out the middle school courses. The continued development of new grade levels and courses is essential to rural communities that may not have sufficient teachers or enrollment to support key classes. This past school year, the agency was unable to serve 4,313 students and has again requested funding to ensure that there is adequate faculty available to meet the demand. (5.1.1) Further, as part of the new accountability system, the state will need to ensure that students have access to advanced coursework such as AP/IB and Career and Technical Education courses that lead to an industry certification. VirtualSC will continue to serve as a conduit for such course work, especially for students who may have limited access.

Early Literacy and Learning

The State Board of Education adopted the Early Learning Standards in August and the agency continues to utilize carryforward CDEP funding to expand access to students in existing districts. The General Assembly approved changes in the 2017–18 Accountability Act that will assist districts in meeting the needs of 4K students by giving them the flexibility to use available funding to extend the program past 180 days, extend the length of the school day or to run a separate summer program. (5.3, 5.3.2) Further, the agency will continue to support meaningful family/parent engagement and adopt an assessment tool to set a baseline. (1.3.1, 1.3.2) High levels of

AGENCY CODE:	063	SECTION:	001

family/parent engagement and adopt an assessment tool to set a baseline. (1.3.1, 1.3.2) High levels of family/parent engagement for our young learners is tied to better rates of achievement. The agency will also continue to coordinate the 4K and 5K assessments and provide learning opportunities for educators in how these assessments should be administered and what the data reveals about each student. (1.2.1, 1.2.2) Such data, when used properly and with fidelity, can greatly enhance an educator’s ability to personalize interventions and teaching strategies for each student.

Technical Assistance to Low Performing Schools and Districts

The agency has continued support of underperforming schools and districts through the tiered levels of support. (2.2) The agency completed the hiring of 30 transformation coaches who serve these schools and districts. The SCDE continues to monitor the effectiveness of the interventions. (2.2.5) All supports and interventions are evidence based and geared toward improving the performance of subgroups and low-achieving students. (2.2.2) The accountability system has been “frozen” for the past two years as the new, single system was being finalized. This November will be the first identification of schools in need of support since 2015. The ESSA requires that states provide supports to the bottom five percent of schools and the current recommendation for the merged system will likely require support of the bottom ten percent. Federal law requires that the states use state resources to supplement, not supplant schools in need of intervention. This will require the state to carefully plan how to effectively utilize both federal and state resources to provide some type of support (either comprehensive or targeted) to 120 schools. It is the goal of the agency to do this with fidelity to ensure that the support has a lasting positive impact on the students served in those schools and the educators who serve in those schools. However, doubling the number of schools will require increased funding to support continued, intensive efforts.

Educator Effectiveness

There is a renewed focus on the recruitment and retention of teachers in South Carolina. In an effort to support educators and leaders in our schools the agency has ramped up professional development efforts and recruitment opportunities. The agency was able to procure an evaluation data management system that will allow both districts and institutions of higher education (IHEs) to obtain necessary information about the effectiveness of educators. (3.1.3) Additionally, the agency will continue to support targeted Student Learning Objective (SLO) training to ensure data are used to refine the SLO process and improve student performance. (3.1.4) In the last year the professional learning opportunity output has increased by 377% reflecting a significant demand from the field. (5.4.3, 5.4.4) To support this work the agency will request from the General Assembly additional staff who will serve to support personalized learning and competency-based education. Work continues with stakeholders that include IHEs and the Center for Educator Recruitment, Retention and Advancement to broaden opportunities - including alternative certificate routes for entrance into the teaching profession. (3.2.3, 3.2.4) Additionally, the agency will continue to support and provide mentorship to first year teacher and principals to help increase retention rates. (3.2.2, 3.3.1)

Data

In addition to the Early Childhood Development Collection System, the agency is currently working to ensure all data elements collected continue to be stored securely to protect privacy, but are also maintained in a manner that ensures quality and availability around student information systems, assessment, standards, learning, finance, and career and technical education. To ensure that student data collected through disparate data systems is accurately matched, the agency is requesting funding for data integration services from Level Data. Level Data allows the agency to ensure that a student is accurately identified and linked across multiple data systems (which include Medicaid, Enrich, PowerSchool, and the USDA). The agency will request additional funding from the General Assembly to ensure this is available to all school districts moving forward. Accurate student data will ensure that students receive proper funding, interventions, necessary supports and personalized instruction. (5.4.2, 6.4.4, 6.4.5)

Transportation

Approximately 350,000 students ride the bus to school each day. Implementation of a safe and reliable transportation system remains a paramount focus for the agency. Over the last year, the agency has ordered 1,086 buses with 736 delivered. The agency will request that the General Assembly increase the recurring funds for Fiscal Year 2018–19 as that will allow the agency to continue to lease-purchase buses, which allows the agency to secure more buses faster than just straight purchase. (6.1.1) The newer buses cost on average .23 cents per mile to operate while the older buses cost on average .49 cents per mile. Furthermore, the 1995–96 buses are posing a serious safety hazard as they have a greater propensity, due to the structure of the bus, to experience both thermal events and structural concerns. To increase the efficiency of transportation routes, the agency has initiated a pilot in the Orangeburg districts that utilizes GPS on all buses and routing software. The agency will request funding to provide routing software and GPS statewide as well as provide assistance to district in implementing efficient routing strategies. (6.1.5)

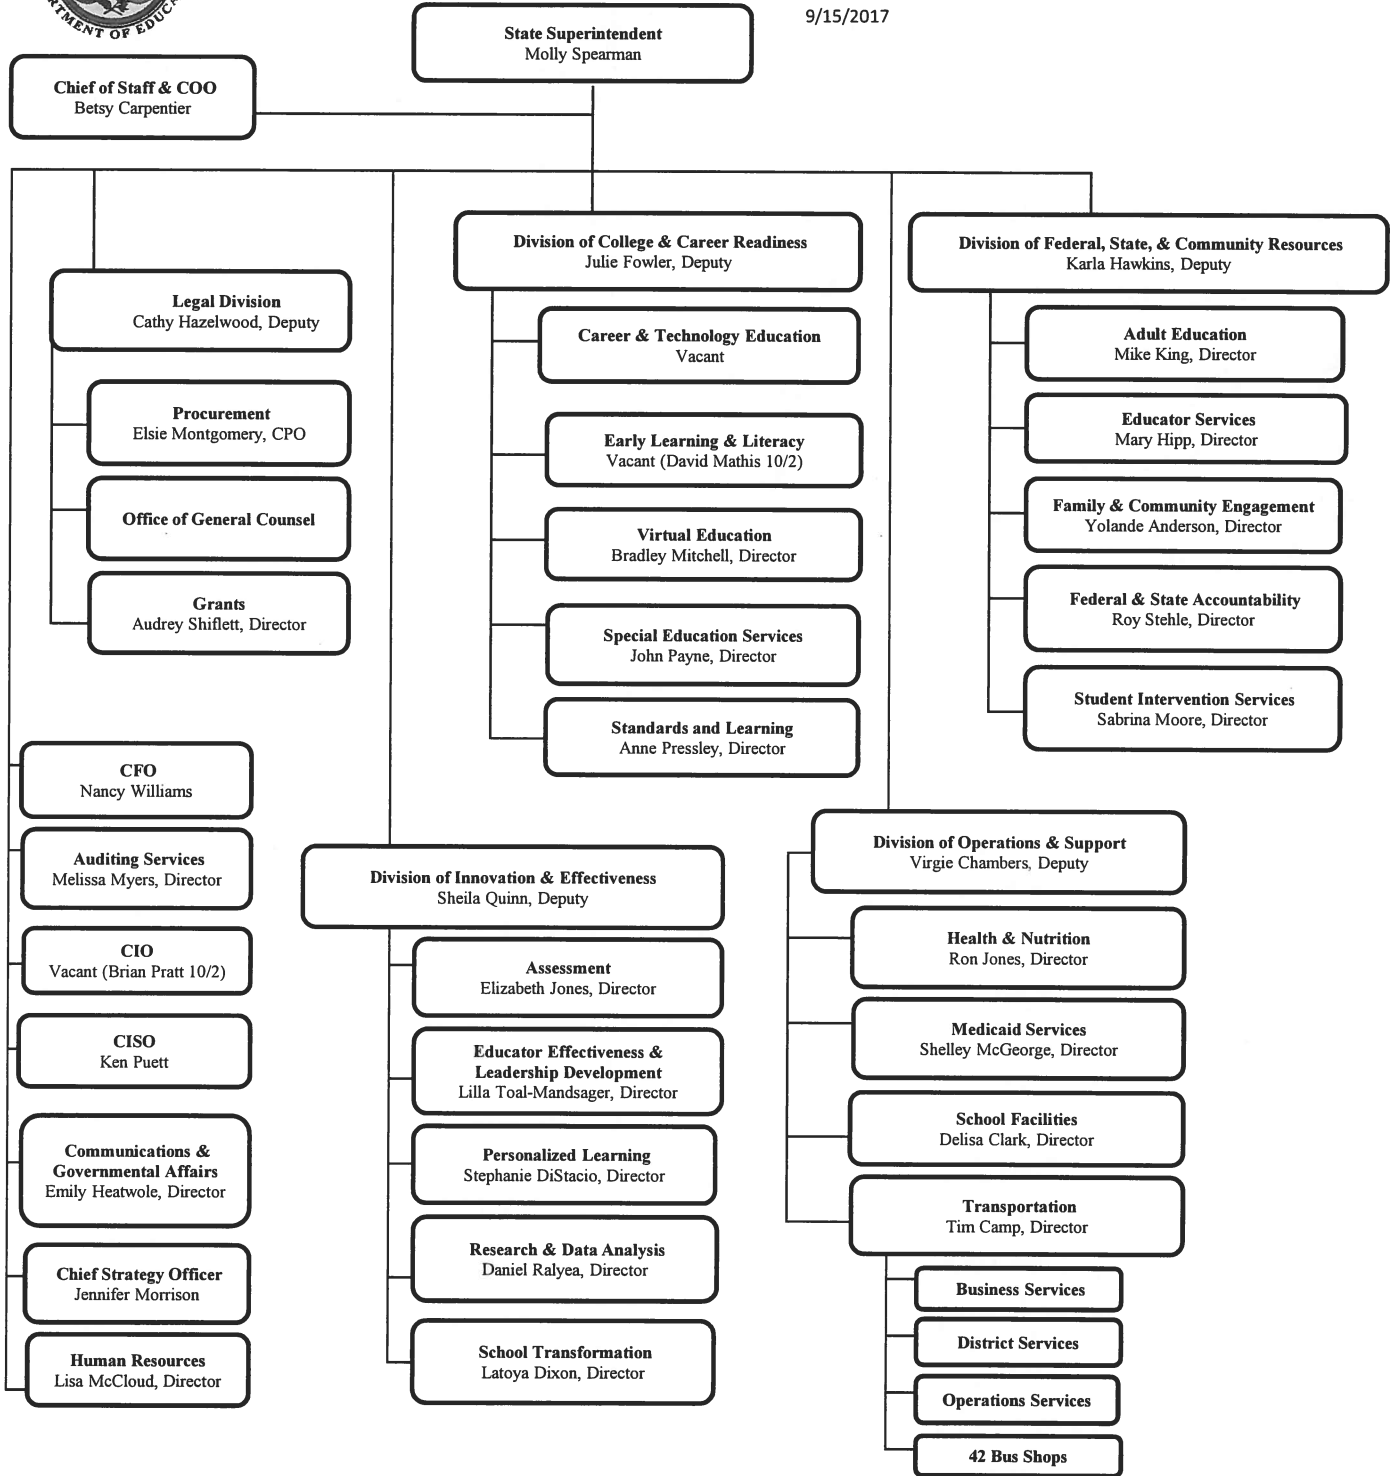

Risk Assessment & Mitigation Strategies

The single greatest risk to South Carolina if the Department of Education fails to accomplish its stated goals and objectives will be the lack of a qualified, productive workforce. If students are not afforded the opportunity to succeed through the Profile of the South Carolina Graduate they will have a higher likelihood of being underemployed or unemployed, which will have a direct impact of the economic wellbeing of the state. Lack of a qualified and prepared workforce, especially in our more rural areas, will continue the cycle of unemployment and high poverty rates as employers are drawn to areas that offer high quality educational opportunities and thus produce the workforce needed. While the agency is charged to support all of K–12 education, it must carefully tier services to target resources to serving those areas of high need and our students who require additional support.

G	5			Education, Training, and Human Development	The SCDE will foster expansion of LEARNING OPPORTUNITIES so all students meet expectations of the Profile of the SC Graduate.
S		5.1			Implement robust virtual options to meet state needs that serve 100 percent of students and schools who apply for a virtual course.
O			5.1.1		Monitor virtual course requests to employ an adequate number of adjunct faculty to meet projected student demand.
O			5.1.2		Expand partnerships with school districts to assist in the implementation of local virtual education programs to expand opportunities for students.
O			5.1.3		Create a virtual course catalog that is driven by state needs and contains quality online courses that meet relevant content and national design standards.
O			5.1.4		Increase retention for 17 to 21 year olds in adult education programs.
O			5.1.5		Increase outcomes (GED, high school diploma, or educational level gain) for 17 to 21 year olds in adult education programs.
S		5.2			Align Career and Technology Education courses with workforce development needs.
O			5.2.1		Increase number of students completing a Career and Technology Education (CATE) Program of Study leading to a specialized stackable credential of value.
O			5.2.2		Increase the percentage of CATE completers who earn a silver or higher on the National Career Readiness Certificate.
O			5.2.3		Increase percentage of CATE completers who attain industry certificates.
O			5.2.4		Increase the number of dual credit courses that can be utilized for CATE programming.
S		5.3			Support schools and districts in strengthening the quality of their early learning and literacy programs.
O			5.3.1		Monitor CDEP 4K classrooms, including 100 percent of classrooms in Abbeville plaintiff districts.
O			5.3.2		Increase number of early childhood programs that have made quality improvements since previous review.
O			5.3.3		Review and provide feedback on district reading plans to districts within 20 business days (4 weeks).
O			5.3.4		Provide on-site support to 100 percent of Abbeville plaintiff districts during required third grade summer reading camps.
O			5.3.5		Monitor and support 100 percent of districts to ensure third grade summer reading camps meet minimum standards of quality.

Type	Item # Goal	Strat	Object	Associated Enterprise	Description
O			5.3.6		Provide current, high quality SCDE resources and trainings related to family awareness of and involvement in children's literacy development.
O			5.3.7		Increase the percentage of districts meeting preschool special education outcome targets to 75 percent by 2020.
S		5.4			Support increased student access to opportunities to develop world class knowledge, skills, and citizenship.
O			5.4.1		Develop high-quality units of study and/or resources in World Languages, Health, Physical Education, GT, and Social Studies to enhance district-level curriculum resources.
O			5.4.2		Implement a data-driven revision protocol for existing units of study and/or resources to enhance district-level curriculum resources.
O			5.4.3		Increase statewide participation in professional learning opportunities to support ELA, Mathematics, Science, Social Studies, World Languages, Visual and Performing Arts, Health, Physical Education, Gifted and Talented (GT), and STEM/PBL
O			5.4.4		Increase the effectiveness of professional learning opportunities to support ELA, Mathematics, Science, Social Studies, World Languages, Visual and Performing Arts, Health, Physical Education, Gifted and Talented (GT), and STEM/PBL
O			5.4.5		Train 100 percent of new adult education directors and teachers through the Adult Education Academies training process each summer, and through New Employee training each fall and spring.
O			5.4.6		Increase ability of new adult education directors and teachers to address needs of adult learners.
O			5.4.7		Increase use of career readiness resources by programs and students.
O			5.4.8		Support district programming and services for students enrolled in alternative school programs.
G	6			Education, Training, and Human Development	The SCDE will aid DISTRICTS in building the capacity to provide safe and healthy environments for long-term success.
S		6.1			Operate a safe and efficient school transportation program.
O			6.1.1		Maintain state bus fleet for all districts.
O			6.1.2		Reduce bus mechanic turnover by 1 percentage point annually by increasing the number of available bus mechanics through career step program and other initiatives.
O			6.1.3		Reduce the number of driver-caused bus accidents by 1 percentage point annually.
O			6.1.4		Reduce the number of student ride times that exceed 90 minutes by 10 percent.
O			6.1.5		Implement pilot GPS in Orangeburg School District Three to improve school district efficiency.
S		6.2			Provide and support a healthy learning environment by ensuring access to nutritious meals.
O			6.2.1		Provide a minimum of 10 training courses on meal pattern, menu, and recipe compliance to support the local implementation of USDA nutritional requirements.
O			6.2.2		Develop Food for Thought SC a comprehensive program to increase school food quality, presentation and operational capacity.
O			6.2.3		Develop program to build and support 20 school gardens per year for the next 5 years using the Garden Stem K-8 Curriculum for Schools Gardens to support SC Farm to School Initiative
O			6.2.4		Procure and implement program to track and report operational key performance indicators that will guide districts to improved financial outcomes.
O			6.2.5		Increase access to the Summer Food Service Program and the Seamless Summer Option.
S		6.3			Ensure students learn in safe school buildings.
O			6.3.1		Provide technical assistance to school districts and their project teams related to building codes and associated best practices to reduce need for plan resubmittals and reinspections.
O			6.3.2		Review plans to remodel and build new school buildings that support systems of personalized learning.
O			6.3.3		Track and monitor the number of districts' capital improvements to address safety and building access.
S		6.4			Support schools in developing positive and supportive climates for learning.
O			6.4.1		Provide school climate-related (to include anti-bullying) resources and/or professional development opportunities to school and districts annually.
O			6.4.2		Identify districts with major Medicaid discrepancies during annual quality assurance reviews.
O			6.4.3		Improve districts' ability to increase Medicaid reimbursement through participation in the Process Improvement Team (PIT) assessment.
G	7			Government and Citizens	The SCDE will model excellence and continuous improvement in all programs and services.
S		7.1			Implement a continuous improvement process focused on program effectiveness, stakeholder satisfaction, fidelity, and return on public investment.
O			7.1.1		Implement agency data-informed continuous improvement process on quarterly schedule, including measurable office objectives and agency performance measures.
O			7.1.2		Create the tools for, set baselines for, and report on agency evaluation-assessment system which measures agency program effectiveness, stakeholder satisfaction, fidelity, and return on public investment.
O			7.1.3		Determine that each office has written standard operating procedures for its area.
O			7.1.4		Assess risk in each area to determine if adequate controls are in place to perform the Enterprise Risk Assessment.

Type	Item # Goal	Strat	Object	Associated Enterprise	Description
O			7.1.5		Perform pre-award audits for a sample of federal grant programs to ensure required written policies and procedures are in place and are operating effectively, as intended.
S		7.2			Foster a culture of innovation, improvement, excellence, collaboration, service, and urgency.
O			7.2.1		Ensure sustainability, utility, and accessibility of agency policies, procedures, and systems.
O			7.2.2		Offer personalized internal professional learning opportunities and support.
O			7.2.3		Increase internal agency communication across internal leadership, divisions, offices, and teams.
O			7.2.4		Increase external communication across social media platforms.
O			7.2.5		Improve customer experience by establishing and employing streamlined policy and governance processes that align IT solutions with customer expectations and mission requirements.
O			7.2.6		Improve customer experience by building, developing, and retaining a talented, customer focused team of professionals.
O			7.2.7		Improve value and increase mission success by increasing shared services and balancing resources across the department.
O			7.2.8		Improve IT infrastructure reliability, availability, and system protection.
O			7.2.9		Increase efficiency and effectiveness of core business functions and enterprise services by increasing transparency and accountability between the customer and service provider.
O			7.2.10		Increase agency capacity across offices for project management.
