Fiscal Year 2018–2019 Accountability Report

SUBMISSION FORM

AGENCY MISSION	<p>The South Carolina Sea Grant Consortium generates and provides science-based information to enhance the practical use and conservation of coastal and marine resources that foster a sustainable economy and environment for the state of South Carolina and its citizens.</p>
-----------------------	---

AGENCY VISION	<p>Vision for the Coast Looking toward the future (next 25 years), the Consortium envisions a thriving South Carolina where the following statements are true:</p> <ol style="list-style-type: none"> 1. Communities are employing strategies to manage growth associated with coastal population growth and diversification in ways that conserve coastal and marine resources, support a vigorous and inclusive economy, and preserve a high quality of life for their citizens. 2. Decision-makers are incorporating scientific information as they make choices about coastal growth, ecosystem health, and public safety. 3. Coastal and marine resources are healthy, vital, and abundant. 4. Children (our leaders and workforce of the future) are knowledgeable about the importance and limitations of coastal and ocean resources. 5. People across the state and region are informed about coastal and marine resource issues, and practice good stewardship of resources. 6. Individuals, businesses, and governments fully understand and anticipate the coastal risks that confront them and act responsibly to reduce those risks. <p>Vision for the Consortium The South Carolina Sea Grant Consortium is...</p> <ul style="list-style-type: none"> ▪ The best Sea Grant College Program in the Nation. ▪ One of the most efficiently and effectively managed agencies within the state of South Carolina.

AGENCY’S DISCUSSION AND ANALYSIS

The S.C. Sea Grant Consortium is committed to optimizing the balance among economic, social, and environmental potential of the state’s coastal and marine resources through the support of integrated research, education, and extension programs. The Consortium is also interested in addressing the uncertainty that change brings with it to the coastal region, and how we as a state and as a society can adapt and prosper. It does so by engaging the talents and expertise found at South Carolina’s leading academic and research institutions to increase our knowledge about the natural, cultural, and social environments of South Carolina and the region, and to use it to inform the decision-making process.

Strategic and Implementation Planning

The S.C. Sea Grant Consortium is currently operating under its new FY2018-21 Strategic Plan titled “The Changing face of South Carolina: Building a resilient Future” (<https://www.scseagrant.org/wp-content/uploads/SCSGC-FY18-21-Strategic-Plan-02-08-17.pdf>). The agency’s strategic plan has specific performance measures and target metrics for its three strategic administrative and management areas, which include (1) Planning, Program Management, and Overall Performance, (2) Connecting with Users, and (3) Human Resources. In addition, the Consortium has outlined specific vision statements, goals, objectives, strategies, performance measures and metrics for each of the agency’s five strategic programmatic focus areas: (1) Healthy Coastal Ecosystems, (2) Sustainable Coastal Development and Economy, (3) Weather and Climate Resilience, (4) Sustainable Fisheries and Aquaculture, and (5) Scientific Literacy and Workforce Development.

The Consortium's 2018-21 Strategic Plan was vetted through the agency’s Program Advisory Board and formally approved by the Consortium Board of Directors on January 30, 2017. The Consortium’s plan was then submitted to the NOAA National Sea Grant Program Office (NSGO) on February 8, 2017 for review, and approval was received from NOAA Sea Grant in April 7, 2017. Programming related to the agency’s updated plan was initiated February 1, 2018 with the receipt of our new quadrennial Sea Grant omnibus program award from NSGO. This four-year plan includes a number of changes to the agency’s goals, objectives, and metrics, which are reflected in our FY18-19 State Accountability report.

Performance Measures and Metrics

The Consortium's current Strategic Plan includes several dozen performance measures and metrics which are tracked on an annual basis. The Consortium’s FY18-19 State Accountability Report is focused on the goals and objectives, and the resultant outputs and outcomes, which make up its three strategic administrative and management areas. Updates on these metrics are presented to the Consortium Board of Directors (at its Board meeting), the State of South Carolina (through the agency’s State Accountability Report), and the NOAA National Sea Grant College Program (through formal reporting) on an annual basis.

Impacts and Accomplishments

Consortium research, extension, education, and communications activities conducted through its five strategic program focus areas have resulted in more than 50 economic, natural resource, policy and management, and social impacts and accomplishments in the state and region during FY18-19, but are too numerous to include in this report. However, they can be viewed at <https://www.scseagrant.org/wp-content/uploads/FY18-19-Impacts-and-Accomplishments.pdf>.

Information Delivery

The Consortium has become a primary source of information for coastal and marine information and assistance. As an example, the Consortium’s Web site (<http://www.scseagrant.org/>) statistics continue to significantly

AGENCY NAME:	South Carolina Sea Grant Consortium		
AGENCY CODE:	P260	SECTION:	48

increase. During FY18-19, the Consortium Web site received 2,642,331 hits (a 33.3% increase from FY17-18), 502,432 unique visits (a 27.4% increase from FY17-18), and 347,434 downloads (a significant decrease from FY17-18 due to a change in the methods of calculation). The Consortium’s communications and education specialists produce award-winning and relevant products and services (e.g., *Coastal Heritage* magazine, the Consortium’s Web site, etc.). And the Consortium continued its successful e-news brief called *CoastalScience@Work* to keep key state leaders and decision-makers aware of Consortium programs, activities, and impacts.

Agency Staffing

The Consortium holds 14 state FTE positions, two of which are vacant as of June 30, 2019. In addition, the Consortium currently possesses five temporary grant positions.

Two recent staffing developments related to our efforts to build the capacity of the Consortium staff and the faculty and students of our member institutions to meet the ever-increasing demands by our constituents for our products and services are of note:

1. The agency recently hired Landon Knapp in a newly created position of Coastal Resilience Program Specialist. This was made possible through a modest increase in core Sea Grant funding provided by the National Sea Grant Office, which we leveraged into a joint position with the College of Charleston’s School of Sciences and Mathematics.
2. The agency also recently hired Matthew Gorstein as our Coastal Economics Program Specialist, which is supported with recurring state funding in its FY18-19 budget to support a position, which is matched with core Sea Grant funding.

The Consortium’s current agency organization chart is included at the end of this Report Submission Form.

Budget Situation and Future

The Consortium continues to foster efficiencies in its staffing. The agency has brought in young talent and fresh thinking (to fill key staff vacancies created due to retirements), who have complemented the remaining veteran staff, and the Consortium is providing more formal graduate student internship experiences to assist its administrative and professional staff with programming and projects. The Consortium has recently been able to secure budget increases in state recurring funds to leverage federal Sea Grant funding to enhance its capabilities and expertise in coastal resilience and resource economics. The Consortium’s state appropriation (recurring funds) increased from \$671,118 in FY17-18 to \$727,461 in FY18-19 (reflecting a budget increase to support the coastal economist position and employee pay plan and insurance adjustments).

Agency leadership recognizes that the state budget situation for future years will be limited by resource availability, and thus discussions about means by which Consortium support can be sustained, increased, and diversified will continue with the Consortium’s Board of Directors, Program Advisory Board, and the S.C. General Assembly.

Extramural Funding and the State Budget

The Consortium continues to demonstrate its ability to secure competitive extramural funding for its programs, which tempers its need to approach the S.C. General Assembly for state funding. At the federal level, the NOAA National Sea Grant College program received a FY19 appropriation of \$80 million, \$3.5 million more than its FY18 appropriation. Of that amount, Congress directed Sea Grant to allocate \$12 million to aquaculture research and outreach.

AGENCY NAME:	South Carolina Sea Grant Consortium		
AGENCY CODE:	P260	SECTION:	48

Total extramural support secured by the Consortium during FY16-17 was \$2.27 million. The Consortium’s modest but significant increases in its extramural support and growth is expected to continue.

Return-on-Investment

The Consortium continues to be successful in securing additional state recurring funds over the past five years which enables it to meet both the administrative and programmatic needs of the agency, and thus address the growing needs of its diverse constituencies. Over the last 10 years, the Consortium has secured ~\$27,183,000 in non-state competitive funding from a state investment of ~\$5,216,000, a 521% return to the state.

Over the last five years, the Consortium’s annual Return-on-Investment is as follows (*FY14-15 state recurring appropriation; does not include \$100,000 in non-recurring programmatic funds received that year):

<i>FISCAL YEAR</i>	<i>STATE</i>	<i>NON-STATE</i>	<i>TOTAL</i>	<i>RETURN-ON-INVESTMENT</i>
2014-15	\$ 559,288*	\$2,138,346	\$2,797,634	382%
2015-16	\$ 611,881	\$2,649,008	\$3,260,889	433%
2016-17	\$ 651,881	\$2,212,493	\$2,864,374	339%
2017-18	\$ 671,118	\$2,271,354	\$2,966,037	338%
2018-19	\$ 727,461	\$1,802,795	\$2,530,256	248%

External Evaluation of the S.C. Sea Grant Consortium

The S.C. Sea Grant Consortium was last evaluated by the NOAA National Sea Grant College Program (NSGO), which consisted of a Site Visit by five external evaluators, September 1-2, 2015 in Charleston, SC. This was followed by a programmatic review of the Consortium (and the other 33 state Sea Grant College programs) by a set of five National Program Review Panels in the Spring of 2016. A summary of the outcomes of these reviews has been provided in previous accountability reports.

During this reporting period, the Consortium was preparing for its next NSGO quadrennial external evaluation, which was held on August 6-8, 2019.

Risk Assessment and Mitigation Strategies

The Consortium is constantly engaged in short-term and long-term analyses of its programs and activities, in part as a result of its experience with gubernatorial vetoes earlier this decade and more recently with federal administration proposals to “zero-out” the NOAA National Sea Grant College Program. Through these experiences, the agency has been building awareness among state and national leaders to the Consortium’s numerous, extremely diverse, and supportive cast of stakeholders, constituents, and communities, including the state’s General Assembly and our U.S. Congressional delegation, with whom we partner, serve, and depend. It is this support that enables the NSGO and the Consortium to survive these recent challenges, and it has made the agency much stronger and certainly more accountable.

What the state would lose with the Consortium’s demise would be what the National Sea Grant Site Visit team stated is the Consortium’s (1) status as the “go-to” agency in the state for coastal and ocean information and assistance, (2) efforts in developing a huge reservoir of involved stakeholders, and (3) standing as a neutral party capable of brokering solutions to issues. The state and its citizens would also lose a significant return on its investment, both in financial and societal terms.

Restructuring Recommendations

We have no recommendations for restructuring at this time.

Legal Standards Template

Item #	Law Number	Jurisdiction	Type of Law	Statutory Requirement and/or Authority Granted	Does this law specify who your agency must or may serve? (Y/N)	Does the law specify a product or service your agency must or may provide?	If yes, what type of service or product?	If other service or product, please specify what service or product.
1	Proviso 38.1	State	Proviso	Allows the agency to use funds that are generated by the sale of pamphlets, books, and other promotional materials, the production of which has been paid for by non-state funding, as other funds for the purchase of additional pamphlets, books, and other promotional materials for distribution to the public.	Yes	Yes	Other service or product our agency must/may provide	Pamphlets, books, and other promotional materials
2	U.S. Code, Title 33, Section 1121 et seq. (National Sea Grant College and Program Act of 1966, as amended).	Federal	Statute	This legislation authorizes the establishment and operation of sea grant colleges and programs to increase the understanding, assessment, development, management, utilization, and conservation of the Nation's ocean, coastal, and Great Lakes resources. Sea Grant provides assistance to promote a strong educational base, responsive research and training activities, broad and prompt dissemination of knowledge and techniques, and multidisciplinary approaches to environmental problems. There are presently 33 Sea Grant College Programs in the United States.	Yes	Yes	Other service or product our agency must/may provide	Coastal and marine-related science-based information, advisory services, education, and program management and support
3	Code of South Carolina: Title 48, Chapter 45, Section 48-45-10 (1978 Act No. 643, Section 1.)	State	Statute	Creation of consortium. There is hereby created the South Carolina Sea Grant Consortium (consortium).	Yes	Yes	Other service or product our agency must/may provide	Coastal and marine-related science-based information, advisory services, education, and program management and support
4	Code of South Carolina: Title 48, Chapter 45, Section 48-45-20 (1978 Act No. 643, Section 2; 1987 Act No. 71, Section 1.)	State	Statute	Purpose of consortium. The principal purpose of the consortium is to provide a mechanism for the development and management of the Sea Grant Program for South Carolina and adjacent regions that share a common environment and resource heritage. The consortium serves to support, improve, and share research, education, training, and advisory services in fields related to ocean and coastal resources. The consortium further encourages and follows a regional approach to solving problems or meeting needs relating to ocean and coastal resources in cooperation with appropriate institutions, programs, and persons in the region.	Yes	Yes	Other service or product our agency must/may provide	Coastal and marine-related science-based information, advisory services, education, and program management and support
5	Code of South Carolina: Title 48, Chapter 45, Section 48-45-40 (1978 Act No. 643, Section 4; 1987 Act No. 71, Section 2; 1993 Act No. 181, Section 1237.)	State	Statute	Membership; terms. The membership of the consortium consists of The Citadel, the College of Charleston, Clemson University, the Medical University of South Carolina, South Carolina State College, the University of South Carolina, and the Department of Natural Resources. These members are designated as charter members. The terms of the members are perpetual, and a majority of the charter members may vote the admission of a new member into the consortium.	Yes	Yes	Other service or product our agency must/may provide	Coastal and marine-related science-based information, advisory services, education, and program management and support
6	Code of South Carolina: Title 48, Chapter 45, Section 48-45-50 (1978 Act No. 643, Section 5; 1987 Act No. 71, Section 3.)	State	Statute	Board of directors. The board of directors for the consortium consists of the chief executive officer of each of the participating educational institutions and state agencies or the officer's designee.	Yes	Yes	Other service or product our agency must/may provide	Coastal and marine-related science-based information, advisory services, education, and program management and support
7	Code of South Carolina: Title 48, Chapter 45, Section 48-45-60 (1978 Act No. 643, Section 6; 1987 Act No. 71, Section 4.)	State	Statute	Officers. The officers of the board are the chairman and vice-chairman. These officers must be elected annually by members of the board but may not serve more than two consecutive terms.	Yes	Yes	Other service or product our agency must/may provide	Coastal and marine-related science-based information, advisory services, education, and program management and support
