### **SUBMISSION FORM**

The University of South Carolina Aiken is a comprehensive institution that offers undergraduate and graduate degrees in the arts, humanities, social sciences, natural sciences, and professional disciplines. All programs of study are grounded in a strong liberal arts and sciences curriculum.

### AGENCY MISSION

USC Aiken is distinguished by its commitment to transformative teaching made possible through high impact learning practices, undergraduate research, small classes, and individual attention. The University encourages excellence in research and creative pursuits and prepares students for success by challenging them to think critically and creatively, to communicate effectively, to learn independently, and to acquire breadth and depth of interdisciplinary knowledge.

USC Aiken attracts students from South Carolina, the United States, and the world to form a diverse community of individuals engaged in educational experiences and service necessary for the pursuit of meaningful work in an enlightened, inclusive, and economically vibrant society. A progressive hub for innovation, collaboration, and creativity, USC Aiken contributes to the community by enriching the region's quality of life through a variety of activities including the visual and performing arts, intercollegiate athletics, continuing and distance education, educational outreach, and leadership.

# USC Aiken's vision for the future flows from its institutional mission, its statement of core values, and its strategic goals and objectives.

The University of South Carolina Aiken ranks among the top comprehensive public institutions in South Carolina and the Southeast. At USC Aiken, we:

#### **AGENCY VISION**

- Emphasize excellence in teaching and collaborative learning experiences, stressing the connections between the liberal arts and professionally based courses;
- Encourage and support high quality scholarly and creative endeavors;
- Emphasize collegiality, civility, cooperation and collaboration within a nurturing campus community where there is mutual support to grow and excel;
- Honor human diversity and respect differences;
- Encourage integrity, honesty, and accountability, and foster responsible citizenship and working for the common good;
- Sustain a strong academic support system for all students and offer quality curricular and co-curricular programs that prepare students to be citizen leaders and effective participants and contributors in a dynamic global society;

## **AGENCY'S DISCUSSION AND ANALYSIS**

Founded in 1961, UofSC Aiken is a comprehensive institution with a strong liberal arts and science focus. The institution functions as part of the University of South Carolina system, combining the advantages of a more personalized education afforded by a mid-sized institution with the resources of a major research university. UofSC Aiken offers bachelor's degrees in more than 30 areas, including several bachelor's degree completion programs, and selected master's degrees designed to enhance and serve our region's advanced workforce needs. With an enrollment of approximately 3,700, UofSC Aiken focuses on personal attention, deployment of engaged learning pedagogies, quality teaching, and an active campus environment. Small classes are taught by professors rather than teaching assistants and afford students one-on-one relationships with experienced faculty, individual advisement, and research opportunities, all of which support the institution's commitment to helping students achieve academic success. UofSC Aiken has strong ties with the community and offers a diverse non-credit program, including certificate programs and continuing education for members of the surrounding area. U.S. News & World Report ranks UofSC Aiken among the Best Public Baccalaureate Colleges in the South. Colleges of Distinction has also recognized the university for its continued dedication to High-Impact Educational Practices that influence both student learning and student success. Our Veterans and Military Student Success Center has continued to receive national attention and various accolades with multiple national rankings. UofSC Aiken is a member of the Council of Public Liberal Arts Colleges (COPLAC), the only institution in South Carolina with that designation. This designation shows a commitment to the critical thinking, communication, and analytical skills necessary to be successful in today's workforce.

UofSC Aiken's small and active campus environment gives students numerous opportunities to be involved in campus life. Student involvement offerings include community service, Greek life, intramural and club sports, leadership development programs, and more than 95 clubs and organizations – truly something for everyone. On-campus housing can accommodate almost 1,000 students, providing opportunities for students to enjoy the traditional college experience. Our student-athletes, the Pacers, compete in NCAA Division II sports as part of the competitive Peach Belt Conference in baseball, men's and women's basketball, cross country, golf, men's and women's soccer, softball, and volleyball. Through campus programming, a wide range of activities from comedians to cultural events are planned for students, by students, based on their interests.

As we continue our Leading Forward Strategic Plan, UofSC Aiken continues to strive toward academic excellence with goals and objectives that support delivery of high-level programs and enhancement of initiatives that support student success, retention, progression, and degree attainment. UofSC Aiken expands on previous goals by focusing on increased student engagement in and out of the classroom, on campus, and throughout the

<b>AGENCY NAME:</b>	University of South Carolina Aiken		
<b>AGENCY CODE:</b>	H290	SECTION:	20B

community. We plan to expand partnerships, both in the local community, nationally, and internationally. We have already developed academic agreements with new partners internationally. We also continue to grow our local partnerships, as we begin the third year of the Aiken Scholars Academy, a high school for gifted students on the UofSC Aiken campus, offering a unique and engaging educational structure that will introduce students to, and immerse them in, the collegiate environment. This is the first year we have our first cohort of 41 Aiken Scholars Academy students fully enrolled in UofSC Aiken courses as dual enrollment students.

The student body at the University has continued to grow over time. However, due to decreases in the population of high school graduates, which is expected to continue for several more years, freshman recruitment has decreased. Our primary area of growth continues to be in our graduate online business program, which is meeting the growing need for online education. The University's student body is racially diverse with approximately 40% under-represented minorities. We have seen a significant increase in the proportion of first generation and low-income students that make up our student body; up to 57.8% are the first in the family to attend college, and 23% come from low-income families.

Several years ago, a Retention, Progression and Graduation (RPG) Committee was constituted to review trends, identify issues, examine reports, whitepapers, and existing evidence to determine best practices, and deliver specific actionable recommendations related to the RPG of our students. Among the earlier recommendations that have been implemented were requiring faculty to report mid-term grades and attendance in the lower 100-200 level classes and extending the course withdrawal date. The RPG Committee also devoted significant time examining courses that have high DFW grades and considered actions such as course redesign, tutoring services to students, course sequencing, and appropriate placement of students. This committee also spent time examining data related to placement testing of students and recommended the use of standardized math scores (ACT & revised SAT) as placement indicators for the math courses of new incoming students. During the past two years, the committee continued to review placement and also reviewed the probation policy and interventions in place for students on probation or who were returning from suspension. Additionally, the committee has discussed strategies to help our campus feel more welcoming, inviting, and inclusive. Tailoring interventions to student needs in an environment of restricted resources is a particular challenge because comprehensive institutions like UofSC Aiken enroll and provide opportunities to a greater variety of students than research or private institutions; minority students, first-generation college students, students with lower levels of academic achievement in high school, and students from low-income families are all significantly overrepresented in the comprehensive sector of universities. This is a challenge that must nonetheless be met if we are to fulfill our mandate.

AGENCY NAME:	University of South Carolina Aiken		
AGENCY CODE:	H290	SECTION:	20B

Unfortunately, retention of first-time/full-time freshmen has decreased from 68% in 2017 to 65% this past year. UofSC Aiken recognizes that work still needs to be done in the area of freshman retention. Research from the RPG Committee in conjunction with strategic planning efforts have identified academic advising as an area for improvement. The University is has prioritized a redesign of academic advising, to include creating a centralized advising center staffed with professional advisors to serve first-year students. With more dedicated time with new students, professional advisors will better be able to develop relationships with students, help students understand degree requirements, and explore career options with the Career Center. These improved services to students should result in increased retention and progression and decreased time to degree completion. Faculty will still serve as mentors and advisors for continuing students, helping to improve engagement with students.

UofSC Aiken continues its long tradition of working closely with our regional businesses, industry, and other entities to leverage the strengths of our partnerships. Agreements have been signed with institutions overseas for study abroad opportunities and student exchanges. The university has continued to partner with various entities of the surrounding community including Aiken Regional Medical Center, Aiken County Government, Aiken County Public Safety, and the City of North Augusta in programs focused on preventative and rehabilitative services, community based instruction, and other initiatives. Our Ruth Patrick Science Education Center continues to offer support to the K-12 educational system and to promote the STEM disciplines. With an average of over 80,000 visits per year, the Ruth Patrick Science Education Center is a major contributor to increasing STEM education in K-12 in our region.

Numerous studies have found that engaged faculty are essential if initiatives related to student success, program development, research advancement, and economic contributions are to be successful.

Competitiveness in the national market to recruit faculty determines the degree to which we can acquire and maintain qualified faculty, particularly in the face of growing enrollment demands. A significant number of faculty and staff retirements have prompted heightened competition with other institutions for qualified personnel and success in recruiting staff is linked to our ability to compete with the companies and industries located in Aiken and Aiken County. Coupled with this are difficulties in attracting and retaining faculty and staff given state pay limitations, the existence of low state appropriations that do not allow for salary increases and inequity / compression adjustments, and burnout from mandated initiatives at the federal, state, and system level. Meanwhile, current faculty, have serious concerns about salary compression, the larger issue of disinvestment, and the prospects for future support of their academic work. To address these concerns, UofSC Aiken implemented the fair wage initiative, which recently completed its fifth and final year. Prior to the plan, only 11.4% of the University's employees met equitable pay based on time-in-rank adjusted discipline-specific

AGENCY NAME:	Universit	y of South Cai	olina Aiken
AGENCY CODE:	H290	SECTION:	20B

benchmarks. This, coupled with the decisions to hire new faculty based upon the CUPA averages for faculty pay with consideration to discipline and rank at institutions similar in size and scope to UofSC Aiken; to restructure summer hours that allow staff greater flexible time; to provide an environment that recognizes and praises good efforts of the employees and recognizes that effort in a myriad of ways; and to provide more competitive "start-up" packages for faculty in research roles, has had a positive impact on salary disparities for faculty and staff. After the fifth year, 45% of employees are below their target benchmark salaries. Using existing benchmarks, an additional \$821,793 is required to fully address salaries inequities. However, those benchmarks remained static and are now quite dated. To fully bring all salaries up to 2019 CUPA benchmarks would require over \$5 million. The University has begun exploring the options for the next phase of the plan; however, the continued unknown budget effects of the COVID-19 pandemic have put this important initiative on hold.

The safety of our students, faculty, and visitors on campus is our top priority. The continued use of our scheduling software has provided means to monitor more closely the number of individuals in our buildings at any given time. UofSC Aiken has installed a new one-touch emergency mass notification system and has also installed a new radio system to enhance interoperability between agencies across our region and state (Aiken County Sheriff's Office, EMS, Highway Patrol, and others). University Police are now using body worn cameras. Increased security camera coverage has also been implemented across campus, and the university has continued to install emergency call boxes. Emergency drills have been conducted and risk assessments and mitigation plans have been developed and updated. The Risk Management Committee has begun to review and identify continued and new areas of risk on campus to attempt to reduce risk where possible. In addition to ongoing safety and security procedures, UofSC Aiken has responded to the COVID-19 pandemic with a multitude of safety plans to keep the campus community safe. The plan is frequently updated to address the everchanging concerns and guidelines. The full plan, including safety protocols, resources, and contact tracing protocols can be found here: <a href="https://www.usca.edu/pacer-ready/mitigation-plan/file">https://www.usca.edu/pacer-ready/mitigation-plan/file</a>. Updates on virus infection rates on campus are sent weekly to the campus community.

The University of South Carolina Aiken has continued to grow its newer degree programs. The Master of Business Administration has seen great success with its first years in a fully online format with continued growth in enrollment. The Bachelor of Science in Clinical Laboratory Science and the Bachelor of Science in Industrial Process Engineering's enrollment numbers have grown as well, and these programs will continue to address the needs of the community by meeting the demand for well-qualified individuals in these fields. The Industrial Process Engineering program received accreditation status from the engineering accrediting body, ABET. Several new programs were approved by the South Carolina Commission on Higher Education in recent months, including degree programs in Art and Earth Systems Science. UofSC Aiken is also working on a Nursing

AGENCY NAME:		<b>University of South Car</b>	rolina Aiken
AGENCY CODE:	H290	SECTION:	20B

partnership with UofSC Union, an Education partnership with UofSC Sumter, and expanding completion program offerings through Palmetto College, to include: Psychology, Communication, and Applied Computer Science.

To ensure that we provide high quality support to our incoming and continuing students, UofSC Aiken has renovated various buildings across campus. The university has continued the process of transforming spaces within the Gregg-Graniteville Library to serve as a Learning Commons. An overdue HVAC renovation in the Penland Administration building began this year. The Chancellor's Office was relocated from the Alumni House to the Penland Administration Building. The Humanities and Social Sciences Building completed interior renovations. The construction of a new Maintenance Building will provide additional space in the soon-to-be-renovated current Maintenance Building for student support and administrative offices as well as a permanent space for the Aiken Scholars Academy. With generous donations from local partners, UofSC Aiken continues to make improvements to our grounds to ensure the campus is an attractive place for students to reside and study. The construction of new front gates has emphasized UofSC Aiken's new branding and provided an attractive entrance to campus. UofSC Aiken continues to be recognized as a Tree Campus for the seventh consecutive year.

The challenges facing the University of South Carolina Aiken continue to be associated with those that are generally impacting public higher education institutions in the United States. A combination of factors such as a changing landscape of work and skills requirements; the lack of parity in state funding among the comprehensive university sector, the movement toward competency-based educational frameworks; competition from for-profit and international institutions; the potential allocation of increasing resources for two-year community and technical colleges; and the expanding scopes of technical colleges promise to impact universities by placing increased pressure on the way we think about, fund, and deliver our primary mission. Additionally, challenges continue to arise as state and federal governments saddle institutions with unfunded mandates and new accountability measures. The confluence of these forces creates a challenging environment for our public institutions to flourish.

In the unlikely event that UofSC Aiken is unable to achieve its goals and objectives, the public of South Carolina would lose a high quality public post-secondary education at the baccalaureate and masters level. The resulting economic fallout would be severe, as the availability of qualified employees entering the workforce would be significantly impacted. Further, there would be loss of cultural and athletic events that are crucial to the region's appeal. There are several things the General Assembly could do to mitigate the risk of such a crisis. First, the General Assembly could earmark new revenues to allow an increase in funding in the form of appropriations to higher education more similar to North Carolina and Georgia. The historic inequities in funding to a handful of universities should also be addressed. Additionally, issuance of a bond to address deferred

AGENCY NAME:		<b>University of South Car</b>	rolina Aiken
AGENCY CODE:	H290	SECTION:	20B

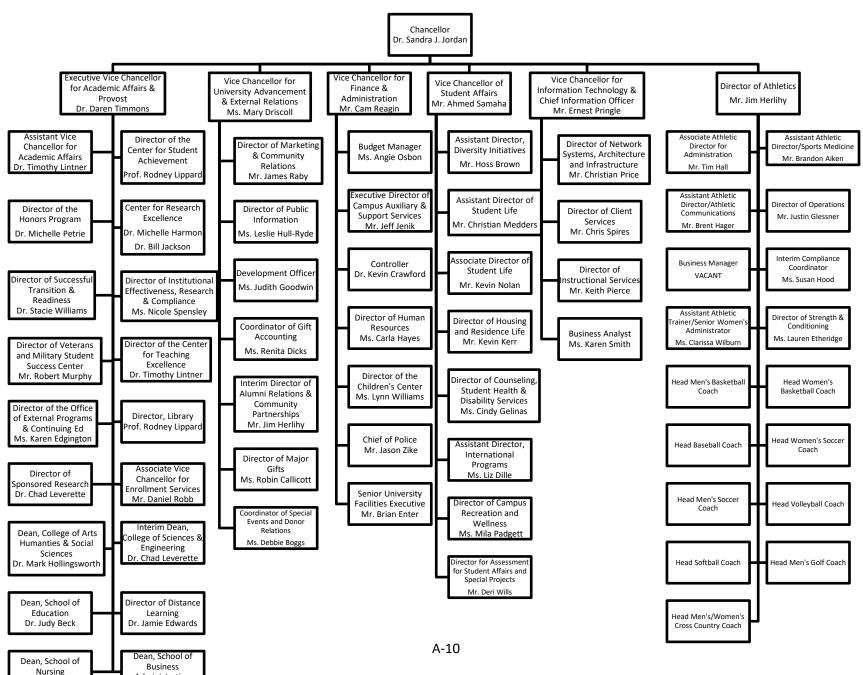

maintenance and aging infrastructure is critical. Furthermore, the reduction of regulations and unfunded mandates would create greater efficiencies in the Higher Education sector and free up resources that could be redirected to support the mission of the institution. Finally, greater definition and clarity could be provided to the sectors within the K-20 educational system and the role that the Commission on Higher Education is to play in overseeing higher education within the state.

	М	4.3.3	National Survey of Student Engagement - Perceived Quality of Interactions with Administrators	69.47%	> 66.57%		August - May	National Survey of Student Engagement (NSSE)	Percentage of senior participants who indicated positive quality of interations with administrative staff and offices; target is to exceed the national percentage as reported by NSSE (item 13e)	An efficiency measure indicating the university's success with providing opportunities for students to have meaningful interactions with the university's administration.
	М	4.3.4	Total Student Contacts through Services Provided by Career Services	2,057	>= 2,500		July 1 - June 30	Internal Program review metrics	Total of all contacts through presentations, Career Panels, DISCOVER assessments, non-credit internships and experiential learning, employment, etc. for the fiscal year	This output measure demonstrates the university's commitment to aiding the students with their career related goals and their pursuit of meaningful work in society.
	S	4.4	Utilize enrollment management as a tool to help create a sustainable							
	М	4.4.1	Fall Graduate Headcount	468	317		October	NCES IPEDS Data Center		Enrollments are typically the highest at the start of an academic year. Fall graduate headcount a is a predictor of how large graduate classes will be and of the amount of support and services (e.g., parking, dining, acadmic support, etc) that will be provided throughput the year.
	М	4.4.2	Fall Undergraduate Headcount	3,252	2,969		October	NCES IPEDS Data Center	Total number of undergraduate students on the Fall census date; target represents the National peer group median value	Enrollments are typically the highest at the start of an academic year. Fall undergraduate headcount a is a predictor of how large undergraduate classes will be and of the amount of support and services (e.g., parking, dining, acadmic support, etc) that will be provided throughput the year.
	М	4.4.3	Number of Transfer-in students	357	237		October	NCES IPEDS Data Center	Total number of transfer-in students as reported to IPEDS during the Fall semester; target is to be above the national peer group median value	Enrollments are typically the highest at the start of an academic year. Fall transfer in headcount serves as a predictor of how large classes will be and of the amount of support and services (e.g., parking, dining, acadmic support, etc) that will be provided throughput the year.
