# Fiscal Year 2019–2020 Accountability Report

### **SUBMISSION FORM**

The Sumter regional Palmetto College campus is a branch campus of the University of South Carolina Columbia. Sumter has as its mission to provide higher education and intellectual leadership for its service area. At the heart of this mission is a teaching faculty of high quality dedicated to excellence in instruction, scholarship, public and professional service, and creative endeavor which enrich the classroom experience. The Sumter regional Palmetto College campus offers a varied curriculum grounded in the liberal arts and focused on preparing students to continue their education in the University of South Carolina System and throughout life.

The Sumter regional Palmetto College campus recruits students prepared to succeed in completing a baccalaureate- level education. While the institution does not offer remedial instruction, it is nonetheless able to admit most students who apply due to the close working relationship between students and faculty. The Sumter regional Palmetto College campus was established to encourage higher education in the counties of Clarendon, Lee, Kershaw, Sumter, and Williamsburg. The original design of the institution incorporated a flexibility that has allowed changes in institutional capability with increasing educational demands of constituents.

**AGENCY MISSION** 

Through classroom and laboratory instruction delivered in a variety of face-to-face and distance learning formats and modalities, the institution awards the Associate in Arts and Associate in Science degrees and provides for the completion of selected bachelor's degrees on campus through cooperative agreements and delivery structures with other University of South Carolina System institutions. The Sumter regional Palmetto College campus also provides general education and upper division coursework applicable to baccalaureate degree programs offered through colleges and universities nationwide. In addition to academic coursework, the mission of the campus includes noncredit courses, seminars, and workshops made available to the community for cultural enrichment and professional development.

The traditions of cultural diversity and freedom of thought are valued at the Sumter regional Palmetto College campus. In a learning environment that develops respect for racial, geographical, intellectual, and economic diversity and an awareness of individual, societal, and global responsibilities, Sumter promotes courses, activities, and attitudes which influence the life of the mind in men and women and instill in them a thirst to continue learning throughout life.

The Sumter regional Palmetto College campus emphasizes the development of the whole person and especially seeks to foster in students the disciplines essential to an educated citizenry. Core competencies, including the ability to communicate through effective writing and articulate speech; computational and quantitative mastery;

AGENCY NAME:	University of South Carolina Sumter		
AGENCY CODE:	H39	SECTION:	20G

creative and critical thinking; and the duties of citizenship are strategically integrated within the curriculum. Classroom experiences, student activities, and physical education programs also provide opportunities for cultural enrichment, leadership development, intellectual growth and interpersonal relationships, all contributing to a sense of self-reliance and a joy of learning.

Approved by the Board of Trustees - October 11, 2019

Next Board of Trustees Scheduled Review - January 2023

In fulfilling the mission of the campus stated above in the USC Sumter Mission Statement, we look to the tenets of the USC System statement for the overarching vision for our mission to our campus' service area. USC Sumter aspires to be a leader among the university's Palmetto College campuses as a comprehensive learning center offering equal access to high-quality university programs and services. USC Sumter must be a dynamic, forward-looking, and proactive institution of higher learning that relates productively to its community and to the greater University of South Carolina. USC Sumter seeks to continuously enhance its intellectual environment and expand access to its academic programs.

**AGENCY VISION** 

Several years ago, the University Board of Trustees adopted Focus Carolina 2023 as its latest strategic plan. The plan was directly applicable to the Columbia campus of the USC System. USC Sumter, as a regional Palmetto College campus, is accredited as part of USC Columbia. Therefore, Palmetto College created a corollary Palmetto College 2023 plan which takes the goals of the USC Columbia plan and adapts them to represent how the Palmetto College campuses and programs best serve our unique stakeholders, thus fulfilling our role in the University System. The corresponding Palmetto College linking goals for this goal are: Educating future leaders and thinkers through affordable, flexible, and quality educational opportunities; Assembling and supporting a diverse world-class faculty dedicated to teaching, scholarship, and student success; Spurring creativity and innovation, including advanced educational opportunities responsive to regional community needs; Building inclusive and inspiring communities, on-campus and online and Promoting recognized institutional excellence.

Upon his arrival in summer, 2019, President Bob Caslen initiated a new strategic planning process to which Palmetto College representatives were actively engaged in formulating. Approved by the Board of Trustees in June 2020 and entitled *For South Carolina: A Path to Excellence*, this represents the goals, objectives and developing metrics to assure forward movement by the entire University system for the next five years. With the plan having just been introduced, the campus, as part of Palmetto College, is incorporating selected goals and objectives that closely align with the 2023 plan and will utilize the 2020-2021 academic year to fully align the plan's most applicable goals with those of the campus in like manner as we aligned the 2023 plans.

### **AGENCY'S DISCUSSION AND ANALYSIS**

The University of South Carolina Sumter has a long history of providing higher education opportunities and intellectual leadership for the counties of Clarendon, Lee, Kershaw, Sumter, and Williamsburg. It provides innovative and inclusive curricular pathways focused on student success, nurturing critical thinking, civic engagement, and career development, while preparing students to continue their education throughout life.

As a regional Palmetto College campus, the University offers associate degrees in arts and science, while providing substantial local support for numerous baccalaureate degrees offered by four year colleges within the University of South Carolina system. It employs a teaching faculty and administrative staff of high quality, dedicated to excellence in instruction, scholarship, public and professional service, and creative endeavors, thus enriching classroom and life development experiences for its students.

For the upcoming 2020-2021 FY, mitigation of the Covid-19 pandemic will affect operational costs and organizational capacity in myriad ways, many of which are unpredictable. During this time USC Sumter is committed to maintaining fidelity to its institutional mission objectives. This can only be achieved through the dedicated work of staff, faculty, and administration at every level of the organization, nor can it be achieved without participation by students and all University stakeholders in cooperation with broader community stakeholders. Such mitigation work and cooperative planning and management must be both thorough and flexible without sacrificing any of the value or integrity expected of the University's mission.

The unpredictability of Covid-19 crisis also forces a realistic reassessment of certain quantitative measures associated with specific institutional objectives. Where appropriate, reassessment of targets of institutional metrics are reflected in Strategic Planning FY 2020-2021 portion of this report.

In addition, the Strategic Planning FY 2020-2021 portion of this report begins the process of aligning the <u>State Enterprise Strategic Objectives</u> of <u>Education Training and Human Development</u>, <u>Public Infrastructure and Economic Development</u>, and <u>Government and Citizens</u> that serve the needs of South Carolinians, with the new University of South Carolina strategic priorities reflected in the University President's Strategic Plan, <u>South Carolina</u>: <u>A Path to Excellence</u>.

These includes a subset of strategic priorities in the plan intended to: 1) attract, inspire, challenge and enable our students to become innovative thinkers and transformative leaders; 2) assemble and cultivate a world-class faculty and highly talented staff; harness the power, attributes and institutional diversity of the University System to enhance access, success and affordability for every eligible S.C. student; and 3) provide a sustainable campus infrastructure that supports academic excellence and preeminent student life.

These strategic priorities will be pursued in FY 2020-2021 with objectives to: 1) recruit, retain, and graduate high-achieving students; 2) integrate academic learning and student-life engagements; secure top talent; 3) empower, engage and retain faculty members; 4) support robust systemwide online/distance programs and courses; 5) develop efficient collaborative model for online/distance delivery; and 6) ensure efficient movement of people, good and traffic across the campus community.

AGENCY CODE:	Н39	Section:	20G

### FY 2019-2020 Analysis

Over the past several years, the University of South Carolina Sumter has maintained its commitment to excellence in pursuit of mission objectives as needs for organizational restructuring, addressing budgetary constraints, and faculty attrition presented as critical internal priorities.

This commitment to excellence and the effectiveness of restructured processes and increased personnel capacity in enrollment management, including the offices of admissions and recruitment, and financial aid, have occurred alongside greater institutional commitment to high quality full-time faculty hires directed toward meeting critical curricular needs, and extensive expansion of Tutoring Services. These changes, which themselves are continually assessed and readjusted where appropriate, have yielded tangible results in the areas of: 1) enrollment and recruitment; 2) student success, transfer rates, and timely degree completion; 3) faculty excellence; 4) service and community engagement; and 5) sustainability of financial and organizational resources.

USC Sumter has seen significant growth in overall headcount the past several years, from a low of 805 students in Fall of 2016 to 1,361 students in fall semester of 2019. Trends in enrollment of first-time full-time freshman have produced the highest 3-year trend in over 25 years. These trends reflect similar success in growth of applications, and admits, while maintaining commitment to quality admissions standards.

In terms of completion, official IPEDS graduation rates, or first-time full-time freshman students receiving degrees within 150% time of admission, have been trending consistently upward over this same timeframe. They reached a high of 31% with the 2016 first-time full-time freshman cohorts, a rate not seen in the past two decades. Meanwhile, and success rates, a measure of either graduation or transfer in 150% time, or persistence/retention at original institution 1 term past 150% time, have risen and continue to remain at significant highs, hitting a recent high of 71% for the fall 2016 first time full time freshman cohort.

Establishing a sustainable student recruitment and onboarding plan has been a top priority for the Enrollment Services group. Increased high school visits and enhanced follow-up communication plans have helped streamline the process for new students, moving prospects to enrollments in a quicker and more efficient manner. Utilization of the CRM, SMS texting, and e-mail and phone campaigns have also contributed to an increase in applicants, admits, and new enrollments.

In addition, the admissions processing unit has been reorganized to review and make decisions on applicant files in a more timely and efficient manner. This reorganization has led to significant increases in early admit decisions over the previous year.

The University of South Carolina is committed to attracting and admitting students who are likely to be successful and who will return to us for a second year (at least). The school offers a number of services and opportunities that are designed to aid in student retention. These efforts are directed both at the academic success of the students as well as their social and cultural development.

From the academic side, USC Sumter offers faculty-led academic advising. Faculty members are paired with students whose professed academic goals align with the training and interests of the faculty. This level of familiarity with both the programs and the students allow for more effective advising on the part of the advisor.

USC Sumter also offers tutoring services free of charge for students in the areas in which many students often struggle. These include, math, the sciences, foreign language, and writing among others. These services are

AGENCY NAME:	University of South Carolina Sumter		
AGENCY CODE:	Н39	Section:	20G

centralized in the Anderson Library with regularly scheduled hours and appointment capability. The use of these services has been strong.

For at-risk students and those suffering from disabilities, USC Sumter has had a Trio program (OSP) operating on campus form many years. This federally funded program offers additional academic support for students who have met certain eligibility standards. Furthermore, USC Sumter has a dedicated Disability Services coordinator who can offer academic support services for students who have been diagnosed with any disability which impacts their learning.

Campus-wide campaigns through electronic and traditional communication channels have proven successful in promoting early next-term registration and providing effective ongoing follow-up for students who are not enrolled.

In sum, these new processes have help enable upward trends on many key metrics used to assess and plan toward the University's strategic priorities and objectives.

### Educating future leaders and thinkers through affordable, flexible, and quality educational goals

Along with the other regional Palmetto College campuses, USC Sumter continues to offer the lowest rates of tuition in the USC System. USC Sumter continues to waive and subsidize fees for military personnel as needed. USC Sumter granted approximately \$90,000 in private scholarship support over the 2019-2029 Fiscal Year.

Strategies and objectives aimed at the education of future leaders and thinkers focus on: measured growth in the enrollment and recruitment of a competitive and diverse student population; improvement of student retention, success, and timely graduation; high quality faculty and curricular offerings; and student leadership and service learning opportunities that engage the University's broader community of stakeholders. The University of South Carolina Sumter is committed to affordably providing students with flexible and quality access to a general educational background necessary to complete not just associate degrees and but also a baccalaureate degrees, and the opportunities to learn knowledge and skills needed for lifelong education and success.

Leaders at USC Sumter recognize the challenges facing students when their college path takes longer than needed or expected. This is particularly true of an institution like USC Sumter whose student population reflects large numbers of first-generation and low-income college students.

USC Sumter provides tutoring services free of charge for students in the areas in which many students often struggle, including math, the sciences, foreign language, and writing.

USC Sumter has long had a very successful Trio student Support Services program (OSP) operating on campus for many years. This federally funded program operates on a 5 year grant cycle, and funding for the next 5 years was effectively secured during FY 2019-2020. This program offers additional academic support for students who are categorized as at-risk students and those suffering from disabilities. USC Sumter has a dedicated Disability Services coordinator who can offer academic support services for students who have disabilities which potential impact the opportunities for learning.

# Assembling and supporting a diverse world-class faculty dedicated to teaching, scholarship, and student success

USC Sumter seeks to provide students with a quality faculty capable of providing the variety of curriculum offerings and educational delivery modes needed to effect mission objectives.

With 251 first-time, full-time freshmen enrolling in Fall 2019, a world class faculty dedicated to teaching, scholarship, and student success is an essential component to meeting such objectives. USC Sumter continues to maintain a low student: faculty ratio of 14.1, ensuring students receive quality personalized attention and support. These efforts at ensuring a world class faculty and a low student: faculty ratio, are intricately intertwined with mission objectives associated with retention, student success and transfer, and timely degree completion.

USC Sumter continues to make tenure track hires in disciplinary areas that can make immediate contributions to critical curriculum need areas both at USC Sumter and for Palmetto Programs.

The University also continues to promote faculty participating in distributive education course offerings, professional development training programs, and new distributive education course development. Efforts continue to integrate our faculty advisement more fully with Palmetto College advisement processes and the Palmetto College Advisors Community of Practice. Faculty scholarship continues to be supported by ample institutional commitment to the resources needed for presentations at state, regional, national, and international peer academic conferences. Faculty are offered up to \$1,500 in travel costs each year to present research at academic conferences. Faculty are invited to take part in USC Sumter Seminar Series to present their work for feedback. Faculty are encouraged to apply for grants including Aspire, RISE, and USC Sumter Summer Stipend to support research projects. Faculty may apply for a course reduction to facilitate research. Faculty may apply for a sabbatical to facilitate research. Faculty performing research are honored each year at Faculty Scholarship Reception.

Faculty engagement in teaching, research, and service is central to each faculty member's annual, and peer review processes and ultimately serve as the basis of their tenure and promotion decisions. Faculty are provided travel money, many Library resources, including access to USC Columbia holdings, and formal and informal links to institutions in Sumter including, the Sumter County Gallery of Art, the Sumter Little Theatre, the Sumter County Library, the Sumter County Museum, among others.

An endowed grant from the Korn Trust affords faculty from the Division of Arts & Letters funding for various cultural events and the annual sponsorship a public Seminar series. Internal stipends exist to sponsor faculty for summer research projects and initiatives. Active administrative and Faculty Organization leadership exists for the pursuit of RISE grants.

Four endowed Chairs support the exhibition of excellence by USC Sumter faculty: the McDavid Professorship of Business & Economics; the Williams-Brice-Edwards Professor of Social Science; the Julian T. Buxton Professor of Business Administration; and the R.J. "Chic" Mathis Professorship.

AGENCY NAME:		University of South Car	olina Sumter
AGENCY CODE:	H39	SECTION:	20G

# Spurring creativity and innovation, including advanced educational opportunities responsive to regional community demands

As a regional Palmetto College campus, USC Sumter seeks achieve mission objectives by continually strengthening current relationships, and building new relationships, with community partners and stakeholders. Such service and community engagement are critical to not just the University's academic mission but its larger mission to improve the economic output and quality of life for stakeholders in its service area.

Continued creativity and innovation in curricular offerings, course delivery mediums, and service learning opportunities, such as that associated with the Graduation with Leadership Distinction program, help sustain and increase patterns of retention, success and transfer, and timely graduation of both traditional and non-traditional students. In addition to academic coursework, University offerings includes non-credit courses, seminars, and workshops made available to the community for cultural enrichment and professional development.

While there are challenges involved in striking a balance between teaching, scholarship, and service at a campus institutionally organized as a teaching institution. The mission prioritizes teaching and places a demanding teaching load on full-time faculty. To ameliorate this, efforts are made to provide course load reductions and sabbaticals to enhance research productivity continue as resources and circumstances reasonably allow, and USC Sumter faculty continue to increase the quantity and quality of scholarly research.

#### Building inclusive and inspiring communities, on campus and online

USC Sumter strives to be a destination of choice for students residing in its services area, while attracting top faculty and staff from a variety of backgrounds, races, cultures, and creeds. To recruit and retain high-achieving and high-quality faculty, staff, and students, the University recognizes that the quality of life on the University campus must be welcoming, inclusive, and encouraging.

USC Sumter promotes a variety of cultural events along with clubs and organizations that include people from all walks of life. The clubs range from interest groups, political groups, leadership, social, professional, sport, religious, etc.

Student experiences with clubs and organizations build networks spanning beyond peer groups and the classroom to include a broader range of activity with faculty, staff, and external University stakeholders. Extracurricular activities facilitate exposure to situations enabling growth in intrapersonal skills and team building. Such activities provide situational contexts broadening social networks to ameliorate daily interactions on campus and during planned events. Thus, such activities channel a camaraderie among diverse stakeholders into a sustainable campus community.

The OSP program annual participates the Student Leadership & Diversity Conference at on the USC Columbia campus and provides funds for wide variety of students to attend the SC Day at the State House. Student Life promotes and holds social mixers for students, staff and faculty designed to engage extra and co-curricular activities, and a campus "community" of peers.

We continued our annual Martin Luther King Day Walk with the campus community and other Sumter community stakeholders. We hold poetry readings and faculty seminars associated with topics extending to inclusivity and barriers to inclusivity. We host a Student Leadership Conference in May of 2019 involving participants in the Graduation with Leadership Distinction program and our Early College program.

AGENCY NAME:		<b>University of South Card</b>	olina Sumter
AGENCY CODE:	Н39	SECTION:	20G

There are more than a half dozen very clubs/organizations on campus that are very active. The University Ambassadors organization continues to grow and transition students into the Graduation with Leadership Distinction program.

By necessity, online coursework and interactivity for the upcoming year will grow exponentially. But in general context, both growth in online Palmetto College opportunities and online USC Sumter course offering have become increasing critical to mission objectives. While usage of social media platform has become instrumental to everything from recruitment and marketing, to guiding peer affinity communities among University stakeholders.

### Promoting recognized institutional excellence

Niche, a website that helps students discover the schools and neighborhoods that are right for them, released its 2020 College Rankings. The University of South Carolina Sumter was named the #2 Best Community College in South Carolina and the #5 Best Community College in America. Niche analyzes 3,461 colleges to create rankings and Niche Grades for all aspects of campus life, including academics, student life and value. These rankings and grades are based on rigorous analysis of academic, admissions, financial and student life data from the U.S. Department of Education along with millions of reviews from students and alumni.

In the Spring of 2019, USC Sumter was again voted best college in Sumter for the 18th year in a row by Sumter Item Newspaper readers. More than 100,00 votes from the community were recorded for the 2019 Best of Sumter contest. The Sumter Item Newspaper reaches more than 150,000 unique users each month through print and digital products and is the primary media outlet for Sumter, Lee and Clarendon counties.

#### **Risk Assessment and Mitigation Strategies**

Increasing enrollment at USC Sumter continues to be a primary focus. The tuition differential between us and CCTC next door, as well as an unfortunate growing overlap in mission, is a significant challenge in recruiting students. We have grave concerns that the SC Technical College system is positioning itself to deliver bachelor's degrees soon, marking the greatest over-reach and confusion of mission yet attempted by this major competitor. Many of the students we serve are first generation students who have little experience or understanding of the white-collar job market. They see the promises from CCTC of free tuition, lower admissions standards, and promises of a high paying technical job at a local plant as a better "deal" than a four-year time commitment, paying higher tuition, to get a job they don't have much personal experience with or understanding of (e.g., middle-management, professional services, etc.). If CCTC begins to offer bachelor's degrees, the differentiation between the two institutions will likely be completely lost on the students we serve.

Recruiting students in this climate of competition is difficult, but several things would help. We need to add campus housing to attract a talented student body from across the state to come here, see the careers that are available in Sumter, and to recognize that Sumter is quickly becoming a destination of choice for major employers. Additional tuition mitigation would help us compete with CCTC—we need to be able to offer the same free-tuition programs as CCTC does. Finally, improved facilities to provide state-of-the-art educational experiences would greatly help recruiting and educational efforts.

AGENCY NAME:		<b>University of South Car</b>	olina Sumter
AGENCY CODE:	Н39	SECTION:	20G

### **Data Entry Online Form**

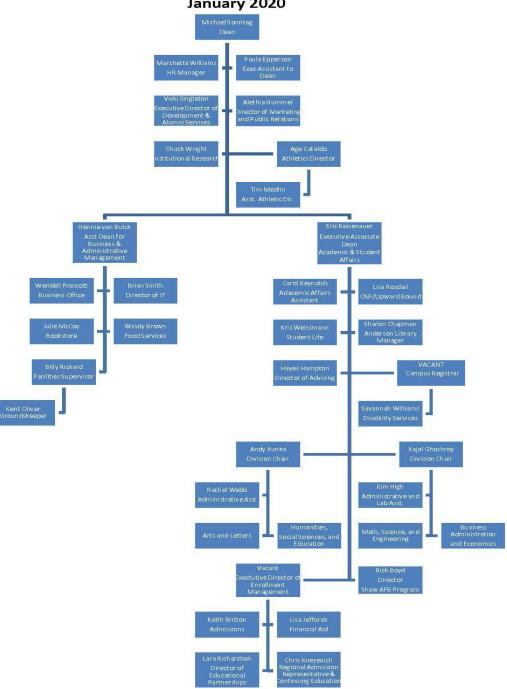

USC Sumter responded "no" to the question in new data entry web form concerning manual entry of data. This question is intended to identify redundant data entry processes across state agencies. Based on training session consultation with the Performance and Accountability Manager for this report; along with internal consultation with colleagues in the Palmetto College system, and the University of South Carolina Office of Institutional Research, Assessment, and Analytics, it was determined that the Palmetto College campuses data-entry systems are internal within the larger University of South Carolina system. None of our data-entry processes are duplicated by other state agencies in a manner the question seeks to identify. This includes the following:

- student data such as transcripts, admissions, enrollment, which is available across all USC system campuses through our Banner enterprise student data system
- employee data such as personnel actions, benefits and payroll processing, tax documents and time entry, which are managed system-wide through the university's PeopleSoft HR/Payroll (HCM) system
- financial data such as employee travel, payment requests, procurement requisitions and accounts payable, etc., which are also managed through PeopleSoft Finance system

Data in the larger University of South Carolina system may move across agencies in the way this report requests, and those data-entry process will be addressed by the University of South Carolina Columbia.
