Fiscal Year 2019–2020 Accountability Report

SUBMISSION FORM

AGENCY MISSION	As the largest law enforcement agency in South Carolina, it is the mission of the South Carolina Department of Public Safety to protect and serve the public with the highest standard of conduct and professionalism; to save lives through educating the citizens of South Carolina on highway safety and diligent enforcement of laws governing traffic, motor vehicles, commercial carriers, and immigration; to provide protective services for government officials, state government properties, and the general public visiting these properties; and to ensure a safe, secure environment for the citizens of the state of South Carolina and its visitors.
-----------------------	--

AGENCY VISION	The South Carolina Department of Public Safety’s (SCDPS) vision is to ensure that it is setting the standard for public safety excellence as a cohesive team by making South Carolina a safer place to live, work, and visit through protection, education, and service. Embedded within SCDPS’ efforts and initiatives to serve the public are the agency’s core values: Integrity, Excellence, Accountability, and Leadership.
----------------------	--

Does the agency have any major or minor recommendations (internal or external) that would allow the agency to operate more effectively and efficiently?

RESTRUCTURING RECOMMENDATIONS:	Yes	No
	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Is the agency in compliance with S.C. Code Ann. § 2-1-230, which requires submission of certain reports to the Legislative Services Agency for publication online and to the State Library? See also S.C. Code Ann. § 60-2-30.

REPORT SUBMISSION COMPLIANCE:	Yes	No
	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

The agency believes that the only report that meets the criteria described in S.C. Code § 2-1-230 is the Traffic Collision Fact Book prepared by the Statistical Analysis and Research Section of the Office of Highway Safety and Justice Programs. The most recent fact book was transmitted to the State Library on June 12, 2020.

Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 30-1-10 through 30-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210).

RECORDS MANAGEMENT COMPLIANCE:	Yes	No
	<input type="checkbox"/>	<input checked="" type="checkbox"/>

The regulations governing the transfer of records to the Department of Archives and History ("DAH") permit a state agency to retain copies of records when the agency believes the records are active and required for daily operational use. The Department exercised this option and maintained copies of many records that would eventually require transfer to the DAH based on its operational needs. While the Department concedes that some older records that are not regularly consulted could be transferred to the DAH, the Department has not destroyed any records that would ultimately require transfer.

Is the agency in compliance with S.C. Code Ann. § 1-23-120(J), which requires an agency to conduct a formal review of its regulations every five years?

REGULATION REVIEW:	Yes	No
	<input checked="" type="checkbox"/>	<input type="checkbox"/>

AGENCY NAME:	South Carolina Department of Public Safety		
AGENCY CODE:	K050	SECTION:	63

The agency conducted a formal review of its regulations in 2013 and 2017 as required by S. C. Code § 1-23-120(J) and transmitted the 2017 report to the Code Commissioner on September 4, 2019.

AGENCY’S DISCUSSION AND ANALYSIS

SCDPS VISION AND VALUES

The South Carolina Department of Public Safety’s (SCDPS, department, or agency) *vision* is to ensure that this agency is setting the standard for public safety excellence as a cohesive team by making South Carolina a safer place to live, work, and visit through protection, education, and service. Ingrained within SCDPS’ efforts and initiatives to serve the public are the agency’s *core values*: *Integrity, Excellence, Accountability, and Leadership*.

EXTERNAL FACTORS AFFECTING AGENCY PERFORMANCE

COVID-19 Pandemic

AGENCY NAME:	South Carolina Department of Public Safety		
AGENCY CODE:	K050	SECTION:	63

Throughout the course of SCDPS’ response to the COVID-19 pandemic, the department has made a conscious effort to keep its law enforcement officers updated on the latest Centers for Disease Control and Prevention (CDC) guidance to assist and protect them during their daily contacts with the public. This written guidance included classifications and examples of risk potentials, various protective measures to take when conducting traffic stops and performing other law enforcement-related duties, countermeasures to employ (donning PPE, practicing proper hand hygiene, contacting emergency medical service for transportation assistance, sanitizing equipment and vehicles), and measures to exercise when an employee believes he/she has been exposed to the virus. The department will continue to provide guidance in the future as guidelines change and operations begin returning to normalcy.

The department produced a Viral Pathogen Protocol training video in order to provide the department’s law enforcement personnel with a protocol for conducting traffic stops and collision investigation consistent with internal and CDC COVID-19 guidance. The training video reinforces officer safety and situational awareness during public contacts and proactive law enforcement efforts. SCDPS law enforcement officers accessed the training video via the department’s PowerDMS training platform. This training will serve officers well in the event of future viral pathogen outbreaks.

Cases of COVID-19 within the agency have resulted in a loss of productivity as employees have been on leave due to sickness or precautionary quarantines. Additionally, as a precautionary measure, the department has provided a large portion of civilian employees within the agency the option to telecommute while performing their job duties.

Response to Influx of Protests around the State

Bureau of Protective Services (BPS) personnel have ensured the public’s right to exercise their right to free speech during twelve (12) named rallies and protests at on State House grounds along with various spontaneous protests, foot patrol missions, and legislative return security. As a result of their diligent patrol, BPS personnel apprehended two individuals attempting to destroy monuments on State House grounds. South Carolina Highway Patrol troops have assisted with ten (10) county protest events. SCDPS, to date, has assisted ESF-13 (SLED) in eight (8) protest events statewide to ensure the protection of all citizens.

Staffing Levels

Recent events around the country involving law enforcement officials and civilians have affected the agency’s law enforcement staffing levels from the front end by negatively influencing the public’s general perception of law enforcement. According to a June 8-July 20, 2020 Gallup Poll, only 48% of the general public surveyed reported “a great deal” or “quite a lot” of confidence in law enforcement, which is an all-time low.¹ This public perception has potentially deterred once-interested candidates from joining law enforcement and, therefore, affected SCDPS’ candidate pool resulting in smaller training classes and lower staffing levels.

Another challenge the department has faced in regard to staffing levels and, more specifically, the ability to retain new hires, is the characteristics embodying the “Millennial” and “Generation Z” generations from which the department is recruiting. According to an October 2017 PoliceOne article,² “Known as ‘job hoppers,’ millennials move from one employer to another, trying on different hats, and ready to jump ship for greener (or more interesting) pastures. A 2012 poll of millennial workers found that as many as 91 percent expect to stay in any one job less than three years. To think law enforcement is drawing entirely from the 9 percent with expectations of greater stability is foolish. Further, ‘54 percent of millennials either want to start a business or already have started one. And 72 percent of Generation Z (the post-millennial generation) want to start their own business.’ Virtually all new police hires today are coming from the younger end of the millennial pool, with the Gen Z population soon to follow as they come of recruitment age. Gallup research found 60 percent of employed millennials are open to new opportunities, and they are the generation most likely to switch jobs and least engaged in the workplace.”

SCDPS relies heavily on staffing levels and manpower to enforce and uphold State and Federal laws, provide and maintain security, and work to reduce traffic fatalities. Throughout Fiscal Year 2020, the agency was required to re-allocate enforcement resources to address external factors including:

- Deployment of Highway Patrol and State Transport Police personnel for Hurricane Dorian (August 29, 2019 – September 6, 2019); and
- Bike Rallies at the beach (September 30, 2019 – October 6, 2019 and May 18, 2020 – May 20, 2020).

INTERNAL FACTORS AFFECTING AGENCY PERFORMANCE

**Appointment of Acting Director R.G. Woods, IV
Establishment of Chief of Staff Position**

In its previous form, the department’s reporting structure was designed so all thirteen (13) “Division Directors” reported directly to the agency director. Upon Acting Director Woods’ appointment, a concern was identified that the director’s number of direct reports created inefficiencies. In response to this concern, Acting Director Woods re-structured the department’s organizational chart by re-establishing a Chief of Staff position. Under this new design, “Command Staff” members (SCDPS Chief of Staff, South Carolina Highway Patrol Colonel, State Transport Police Colonel, Bureau of Protective Services Chief, Immigration Enforcement Unit Commander, Office of Professional Responsibility Chief, and General Counsel) report directly to the director, reducing his number of direct reports from thirteen (13) to seven (7). The remaining “Executive Staff” members (Office of Human Resources Director, Chief Financial Officer, Office of Strategic Services, Accreditation, Policy, and Inspections Commander, Office of Highway Safety and Justice Programs Director, Chief Information Officer, Director of Public Affairs, Office of Support Services Director, and Legislative Liaison) report directly to the Chief of Staff, who has been delegated authority to approve various items without the director’s approval.

Law Enforcement Salaries

SCDPS has faced an ongoing struggle deriving from the law enforcement personnel salaries and compensation. The agency implemented a revised pay scale on September 17, 2015 to attract the most highly qualified applicants. While this revised pay plan addressed immediate concerns of making SCDPS more competitive from a recruiting standpoint, SCDPS must strive to keep law enforcement salaries competitive with local (city, county, etc.) or regional law enforcement agencies. This inequity impacts not only the agency’s ability to attract and recruit the best applicants but also has a negative effect on retention as law enforcement officers progress through their careers. In addition, without the means to fund a salary career path that compensates officers for experience beyond ten years, knowledge, or skills, SCDPS struggles to retain experienced officers.

AGENCY’S ACCOMPLISHMENTS

SCDPS has achieved numerous accomplishments during Fiscal Year 2019-2020 to include:

CALEA Reaccreditation Process

The department successfully navigated a virtual CALEA review of agency policies, procedures, and operational components. The department underwent the virtual review in May and was awarded its 8th reaccreditation on July 31, 2020.

Implemented Civilian Employee Pay Plan Initiative

In February 2020, the department began developing a process for identifying and addressing salary structure inequities among its civilian staff with the immediate goal of mitigating inequities while creating steps to determine long-term strategies and solutions. The process utilized the following considerations (among others) to achieve positive results:

- Salary inequities (employees who fell at least 10% below the agency or state average)
- The avoidance of salary compression
- Agency-wide equity analysis to ensure inequity was not exacerbated
- Accurate classifications.

By reallocating existing state funding, creating process efficiencies in full time equivalent positions and eliminating vacant positions, the department fully utilized the State’s pay plan and career path series to initiate thirty-nine (39) actions resulting in pay increases for civilian employees. This process will serve as a model going forward to attract, retain and compensate its staff appropriately.

Implementing Remote In-Service Training/SCHP Advance Post Academy Training

Proper law enforcement re-certification is both professionally essential and mandated by the Continuing Law Enforcement Education Requirements for Recertification statute. As such, a byproduct of the COVID-19 pandemic was the realization that the delivery of web based training for recertification purposes (in-service training) needed to be utilized to greater degrees than in the past. The South Carolina Highway Patrol Training Unit (HP Training) successfully transitioned over fifty percent (50%) of the required recertification training to a web based platform which will preserve time and resources expended by travel. The training unit has also applied this same concept to new officers attending the South Carolina Criminal Justice Academy, again saving time and resources to prepare officers to engage in patrol duties. Currently the

AGENCY NAME:	South Carolina Department of Public Safety		
AGENCY CODE:	K050	SECTION:	63

SCHP Post Academy Advance Training consists of four (4) weeks of training with the HP Training at the South Carolina Criminal Justice Academy. Between late 2020 and early 2021, the SCHP Post Academy Advance Training will transition to six (6) weeks and consist of more in-depth training that relates directly to the daily responsibilities of a SCHP trooper. Due to the pandemic, HP Training has implemented a new way to conduct the SCHP Post Academy Advance Training. The first two (2) weeks will be conducted via WebEx, where the trainee will remain in his/her post office and the instructor will be in another remote location. This allowed the officers to stay on track with their training during the COVID-19 pandemic.

Established SCDPS Civilian Advisory Committee

In order to provide civilian employees the same opportunity afforded to law enforcement officers and allow for additional suggestions from employees in regard to departmental efficiency, the department implemented a SCDPS Civilian Employee Advisory Committee Program on April 2, 2020. The Committee will be chaired by the Human Resources Director. Each division is provided the opportunity to vote for the representative who will attend the Committee meetings and present their suggestions. An employee wishing to bring an item before the Committee provides all pertinent information to his/her appropriate Committee representative who will present it at the Committee meetings. Employee Advisory Committee members will meet biannually in January and July of each calendar year to review any suggestions provided, prioritize, and discuss these suggestions.

Established “Kudos” Program

During initial meetings after Acting Director Woods’ appointment, Command Staff and Executive Staff members presented a resounding concern that employees, although given the opportunity to provide feedback through the Employee Suggestion Boxes and Law Enforcement Advisory Committee, did not feel their suggestions were being communicated to the appropriate supervisory personnel with decision-making authority. Acting Director Woods implemented a “Kudos” process by which he explains, via email to all SCDPS employees, the identified problem, suggestion, and solution and personally recognizes any employee whose suggestion resulted in an operational improvement. This process has encouraged employees to submit productive suggestions while ensuring employees that their voices are being heard and taken into consideration. The department has received and recognized many employee suggestions in this manner to include a suggestion for providing spare “pre-configured” laptops for troopers should theirs malfunction at a time when repair services might not be readily available (nights, weekends), a suggestion for anticipating the need for additional cleaning supplies to respond to the COVID-19 pandemic, and a suggestion to improve manpower efficiency by using a security system camera to monitor the entrance of and provide access to the Pendleton Street parking garage.

Information Technology during COVID-19 Response

Due to the infrastructural and security improvements put into place over the last two years by coordinating with the Department of Administration’s DTO, SCDPS employees were able to seamlessly transition into performing their job duties remotely when telecommuting was implemented at the State Level in response to the Pandemic. The encryption, two-factor authentication (2FA), and infrastructure implemented within the last three years to support Trooper mobility and was rolled out to civilians rapidly. Additionally, the hardware refresh cycle implemented for Trooper devices provided robust capabilities for remote access including the implementation of training and testing.

SmartCop Implementation

On January 6, 2020, the department implemented the SmartCop Software Solution as an integrated case management system needed to eliminate inefficiencies and data entry redundancies as troopers and officers are currently submitting enforcement data into multiple software applications (e.g., Police Central, ReportBeam, and Trooper Console). The new system will consolidate these efforts; reduce administrative demands placed on law enforcement personnel; and allow for an increased number of troopers and officers to focus on proactive enforcement.

The new SmartCop Software Solution provides various modules that will be implemented as the department retires current systems and migrates historical data. SCDPS has migrated five (5) years of historical Public Contacts, four (4) years of historical Electronic Citations, and is currently migrating four (4) years of historical collision data (TR-310) to SmartCop.

Implemented SmartCop Records Management Software

Over ten (10) years ago, the department purchased the SmartCop CAD system that has been utilized by SCDPS Telecommunication Centers (TCCs) statewide. In an effort to create a “one-stop-shop” for SCDPS troopers/officers in their reporting requirements, SCDPS procured the SmartCop Records Management System (RMS). SmartCop’s RMS is a comprehensive system that not only meets NIBR’s compliance standards, but also provides a robust and powerful tool to capture, index, store and track information, documents, and files efficiently. This software streamlines records and reporting processes and ensures accuracy and compliance with the South Carolina Department of Motor Vehicles and the South

AGENCY CODE:	K050	SECTION:	63

Carolina Court Administration. With the new RMS, SCDPS records are centralized for people, property, places, and related information in a single database enabling the agency to manage and track everything that it does in a central location. In January 2020, SCDPS troopers/officers went live with the Mobile Forms Module of SmartCop RMS.

As the department moves into the future with SmartCop, SCDPS plans to further streamline daily operations. Departmental personnel are working diligently to implement the SmartCop Evidence Management Module which offers a simplified and error-free evidence collection process, an easy to use Integrated Dashboard, a barcode scan feature, and detailed and extensive reporting. This module also allows SCDPS troopers/officers to group evidence with other reports (Incident Reports, Collision Reports) by case number, which reduces the amount of time it takes to process evidence. SCDPS is currently scheduled to provide the Evidence Management Module to a test group of troopers/officers beginning in September 2020.

Another efficiency-related feature offered by SmartCop software that the department is anticipating adding to its toolbox is the Analytic Module called SmartData, which includes an interactive dashboard application that provides SCDPS supervisors the ability to manage and extract critical data for comprehensive reporting. The SmartData module allows the agency to make informed decisions and allocate resources effectively and then identifies trends and patterns which allow the department to react to enforcement needs proactively. Within this module, supervisors will have the ability to query data from the CAD and RMS and easily place the information in a Grid, Graphical (Pie Chart), or multi-layer map. SmartData is constantly receiving updates to improve this module as it is the newest in the SmartCop suite.

Provided Stress Management and Wellness Training

During 2019 and 2020, all law enforcement and TCOs were provided “Stress Management and Wellness” training to assist in their ability to manage workplace stressors, time, and/or their subordinates in the most effective means possible. The department is also working toward establishing an Employee Assistance Program which provides a network of health and wellness services to SCDPS employees and their families.

Established Law Enforcement Supervisory Training

In April 2020, the department initiated first line law enforcement supervisory training through the online FEMA Independent Study program. Supervisory personnel were directed to complete three (3) courses: Leadership and Influence (IS-240.b), Decision Making and Problem Solving (IS-241.b), and Effective Communication (IS-242.b) for a total of thirteen (13) hours of instruction.

OHR has procured further training through Admin which is titled “Supervisory Practices.” The training commenced in June 2020 and will continue for approximately two (2) years with updates extending to newly promoted supervisors as vacancies are filled. This proctored training will be delivered to supervision (law enforcement and civilian) with content covering thirteen (13) critical areas of supervisory development.

As part of the vision to engrain supervisory training in current and future leaders, the agency has adapted a self-paced Leadership Series course originally developed by the acting director into an on-line format. The Leadership Series is readily available to all personnel through the PowerDMS platform as a nine (9) module course of study. Questions developed from the course, serving as a check on learning, have become a part of each DPS Division’s promotional exams.

The need to train law enforcement executives to analyze trends and manage into the future is evidenced by crime trends, technology and retention rates. Options are available through established programs such as The Public Safety Leadership Initiative (North Carolina State University) and the FBI National Academy, but distance and availability often serve as deterrents. With this in mind, the department is exploring other criminal justice educational alternatives. Local accredited universities offer educational opportunities as part of their Masters-based programs to law enforcement professionals which reduce the aforementioned deterrents and cost.

Revised Highway Patrol Promotional Process

In its previous form, the Highway Patrol promotions process resulted in prolonged periods of time for which positions were vacant, leaving troops with diminished manpower for months until vacant positions are filled. SCDPS personnel streamlined the Highway Patrol promotional system by implementing the following:

1. Electronic testing administered through the PowerDMS platform which will allow tests for each rank (Corporal, Sergeant, First Sergeant, and Lieutenant) to be administered as frequently as necessary, allowing troopers more opportunities which are cohesive with their schedules to complete the appropriate promotional test necessary to participate in the promotional process;

AGENCY NAME:	South Carolina Department of Public Safety		
AGENCY CODE:	K050	SECTION:	63

2. Virtual promotional panel interviews conducted as frequently as necessary for each rank which will eliminate the need for troopers to travel to DPS Headquarters—resulting in very little down time as they can immediately resume their law enforcement duties at the conclusion of their interviews. Additionally, as interview panels are conducted for each rank *before* vacant positions are posted, troopers and officers will be able to apply for positions immediately as they are posted if they have completed all components necessary to participate in the promotional process;
3. Job postings disseminated electronically through the state’s NeoGov portal which results in a “one-stop” automated application process as opposed to the current system in which troopers and officers manually complete and submit multiple promotional forms during the application process.

By allowing troopers to complete all of the necessary steps *before* a vacant position is posted, the promotional administrative unit will be able to compile a list of the most eligible candidates, based on Career Assessment scores, immediately after the posting has expired and the vacant position will be filled within a few short weeks, as opposed to multiple months. This improved system ensures the department is conducting its promotional process in the most efficient manner and benefit law enforcement officers by maintaining manpower levels at all times.

Established SCDPS Information Security Team

In March 2020, the department announced the establishment of an Information Security Team within the Office of Information Technology (OIT) whose goal is to “identify, negotiate, acquire, and manage the required resources for successful design and implementation of the information systems program in alignment with organizational objectives.”³ This team will consist of three (3) information security-related positions which will be under the direct leadership and management of the agency’s Information Security Officer (ISO) who will report directly to the SCDPS Chief Information Officer (CIO). As the vast majority of departmental information is transmitted electronically and the CIO has extensive knowledge about the technical side of cyber security, the CIO and ISO will be able to collaborate most effectively to protect SCDPS information assets.

Critical Systems Disaster Recovery

In June 2019, OIT implemented SCDPS’ Critical Systems Disaster Recovery with the Department of Administration’s Division of Technology (DTO), the state’s provider, and the state’s contracted consultant to implement the department’s information technology infrastructure; define and test application and infrastructure recovery plans; define and test the backup and restore options, and incorporate these plans into SCDPS’ Emergency Operation Plans.

COVID-19 Public Service Announcement

In response to the COVID-19 Pandemic and public inquiry, the department produced a Public Service Announcement (PSA) that provides the public with information on what to expect when stopped by SCDPS law enforcement officers in this unusual time. The PSA explains how SCDPS personnel will request information from motorists and employ personal protective equipment during traffic stops while maintaining proper social and safe distancing. The department delivered the PSA via its existing social media platforms.

SCDPS Safety Campaigns

SCDPS was able to make continuous advancements by incorporating highway safety campaigns and educational initiatives such as:

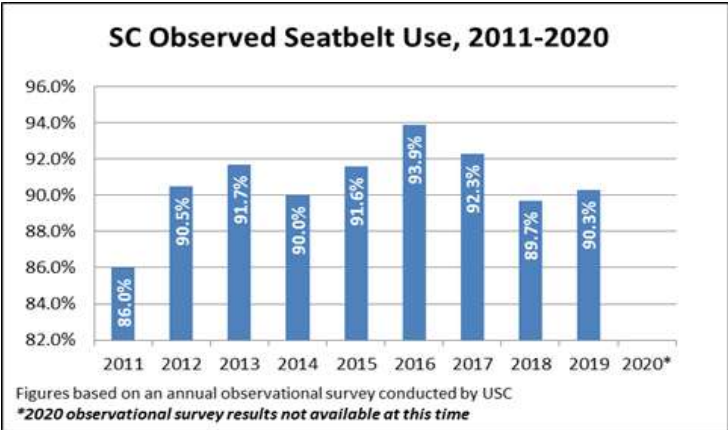

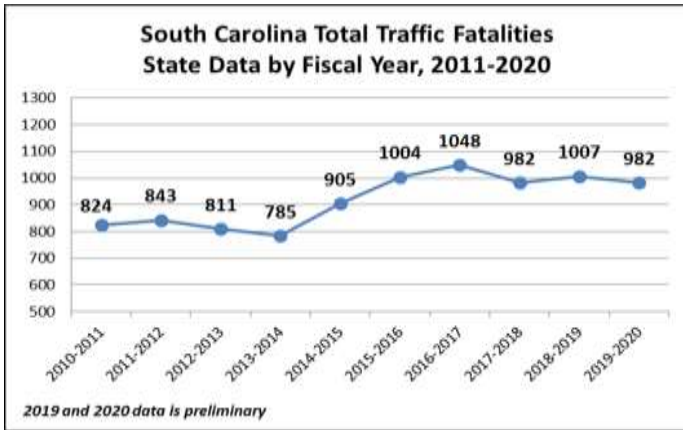

- Target Zero Safety Efforts (Law Enforcement Target Zero Challenge)
- Rest Area Safety Events
- Memorial Service for Highway Fatality Victims
- Vulnerable Roadway Users
- Texting and Driving Initiatives (Distracted Driving Campaign)
- Hurricane Lane Reversal Exercises
- Buckle Up SC (Memorial Day Safety Campaign)
- Target Zero Team
- Sober or Slammer: DRINK, DRIVE, DIE.
- State Transport Police Drive to Zero Campaign
- State Transport Police’s “Operation Safe Drive on I-85/I-95”
- Operation Southern Shield Speed Campaign
- Target Zero Tuesday Infographics
- Social Media safety push during major travel holidays
- New Year’s media events
- Back to School Safety
- Child Passenger Seat Checks during CPS weeks
- Outreach at local and state festivals (S.C. State Fair, Coastal Carolina Fair)

- Campaigns/messaging focusing on holidays and occasions like St. Patrick’s Day, the Super Bowl, Daylight Saving Time, Fourth of July and Halloween
- Infographics that focus on traffic laws (Is your golf cart operated legally? “Illegal or just unsafe?” social media polls)
- Partnering with Operation Life Saver for Rail Safety Week

The following charts and graphs quantify the agency’s progress towards its overall mission:

POSSIBLE NEGATIVE IMPACT IF AGENCY GOALS ARE NOT MET

GOAL 1: ENHANCE PUBLIC/OFFICER SAFETY

The inability of the department to provide a safe environment in which to travel throughout the state could result in an increased level of traffic collisions and fatalities, which result in emotional pain, lost income, higher insurance rates, and

AGENCY NAME:	South Carolina Department of Public Safety		
AGENCY CODE:	K050	SECTION:	63

other economic loss. A reduction in officer safety places the officers in danger, inflicts physical and emotional pain, and induces financial inefficiencies through turnover.

GOAL 2: PROFESSIONAL DEVELOPMENT AND WORKFORCE PLANNING

Failing to attract, recruit, and retain a professional workforce may compromise the department’s mission to provide professional services, enforce traffic laws, and save lives. By not reducing trainee turnover, more state and taxpayer funds would be spent in an attempt to attract, hire, and retain officers. Failure to train the workforce would have a negative effect on work performance and could result in employee turnover and ineffective customer service. In addition, without the means to fund a salary career path that compensates officers for experience beyond five years, knowledge, or skills, SCDPS would struggle to retain experienced officers.

GOAL 3: APPROPRIATE USE OF INFORMATION AND TECHNOLOGY

Inappropriate use of technology could result in poor customer service and higher costs to conduct business. SCDPS relies on computerized information systems to carry out its operations; process, maintain, and report essential information; transmit proprietary and other sensitive information; develop and maintain intellectual capital; conduct operations; process business transactions; transfer funds; and deliver services. In addition, the Internet has grown increasingly important, developing into an extended information and communications infrastructure that supports SCDPS’ service to the public. Ineffective protection of these information systems and networks can result in a failure to deliver these vital services and result in loss or theft of computer resources, assets, and funds; inappropriate access to and disclosure, modification, or destruction of sensitive information, such as criminal justice information, personal identifying information, and proprietary business information; disruption of essential operations supporting critical infrastructure and emergency services; undermining of agency missions due to embarrassing incidents that erode the public’s confidence in SCDPS; use of computer resources for unauthorized purposes or to launch attacks on other systems; damage to networks and equipment; and high costs for remediation.

GOAL 4: QUALITY CUSTOMER SERVICE DELIVERY

If SCDPS fails to adequately educate, inform, or respond to information needs of the public, the public’s awareness of important traffic safety messages would be compromised.

OUTSIDE HELP NECESSARY FOR MITIGATION

The overwhelming majority of possible incidents discussed above could be mitigated with additional funding appropriated to the agency through recurring and core budget funds.

GENERAL ASSEMBLY OPTIONS

Possible options for the General Assembly to consider would be to provide the agency with:

1. Recurring funding for salary increases and a salary career path to assist with recruitment and retention of law enforcement officers.
2. Recurring funding for body armor for SCDPS law enforcement officers; Highway Patrol Radio Rotation; Highway Patrol Radar Rotation; law enforcement vehicles; and additional data storage to support the Body Worn Camera videos.
3. Additional funding for Body Worn Cameras which would assist SCDPS and local law enforcement agencies in fully outfitting officers that are required to wear body worn cameras as part of their respective agencies’ policies. Also additional funding to augment existing commercial off-the-shelf products to provide an integrated case management solution to improve efficiency and accuracy.

FUTURE GOALS

During Fiscal Year 2021, SCDPS will continue striving toward its goal of zero traffic fatalities by implementing effective outreach programs and safety campaigns, upholding State and Federal laws related to commercial motor vehicles and highway safety, and partnering with SCDOT and other law enforcement agencies on highway safety initiatives. SCDPS will continue enforcing immigration laws pursuant to Federal and State statutes; protecting the State House complex grounds, the Governor’s Mansion, and appellate courts; reaching out to the public by working with families of highway fatalities; posting safety information via official social media sites; and partnering with schools to encourage, support, and promote public safety.
