**Fiscal Year 2019–2020
Accountability Report**

AGENCY MISSION	To provide quality agricultural education that will enable its students to be the state’s future leaders in agribusiness, business, and education.
-----------------------	--

AGENCY VISION	To offer a rigorous agricultural education program that will challenge motivated high school students to develop their interest in agriculture and natural resources by providing classes and hands-on learning opportunities in agribusiness.
----------------------	--

Does the agency have any major or minor recommendations (internal or external) that would allow the agency to operate more effectively and efficiently?

	Yes	No
RESTRUCTURING RECOMMENDATIONS:	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Is the agency in compliance with S.C. Code Ann. § 2-1-230, which requires submission of certain reports to the Legislative Services Agency for publication online and to the State Library? See also S.C. Code Ann. § 60-2-30.

	Yes	No
REPORT SUBMISSION COMPLIANCE:	<input checked="" type="checkbox"/>	<input type="checkbox"/>

AGENCY NAME:	John de la Howe School		
AGENCY CODE:	L12	SECTION:	7

Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 30-1-10 through 30-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210).

	Yes	No
RECORDS MANAGEMENT COMPLIANCE:	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Is the agency in compliance with S.C. Code Ann. § 1-23-120(J), which requires an agency to conduct a formal review of its regulations every five years?

	Yes	No
REGULATION REVIEW:	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Please identify your agency's preferred contacts for this year's accountability report.

AGENCY’S DISCUSSION AND ANALYSIS

Established in 1797, from the bequest of Dr. John de la Howe, a physician who immigrated to South Carolina in the 1760s. Dr. de la Howe’s will provided land and resources to establish an “agricultural seminary” to help young people learn skills that would enable them to prosper for a lifetime. Guided by a 2017 Feasibility Study, the school’s leaders have developed a residential School for Agriculture that serves high school interested agricultural and mechanical studies. The conversion was successful and we opened our doors to students in August of 2020. Our first class has 37 students. This may sound small, but with Covid restrictions, this allows our students to social distance even more. We also were not able to recruit in the Pee Dee region this year due to travel restrictions due to Covid. Our awesome students were recruited because of their heavy interest in agriculture, forestry, and natural resources.

In order for JDLH to reach its maximum potential it will be imperative to provide high quality educational programs, complete the deferred maintenance of facilities, regain accreditation, increase partnerships and marketing. This past fiscal year the agency has been aggressively increasing partnerships, completing maintenance of facilities and increasing campus usage.

For JDLH, the agency strategic plan is a comprehensive long-term plan with goals that address identified-critical areas that will allow a blueprint in accomplishing the mission and vision of the agency.

- **Goal 1:** Complete deferred maintenance on facilities
- **Goal 2:** Implement Marketing Plan
- **Goal 3:** Develop Agriculture School Curriculum
- **Goal 4:** Manage People and Physical Resources

Goal 1 Update: Complete deferred maintenance on facilities

The *Complete Deferred Maintenance on Facilities* has been a major element for Goal 1 as JDLH has worked diligently to address the residential halls, roofing placement on facilities, and upgrade the aged Information Technology and Phone System. Through completion of review of the Legislative Oversight Committee and near completion of the Senate Oversight Committee, the agency is striving to continue its improvements in our accountability and performance measures.

Last year, six residential halls were fully remodeled, three for males and three for females. The Wilderness Center was fully remodeled. The Family Life Center had a new roof installed and the bottom floor was renovated for classroom space. The President’s home was renovated to serve as administration offices. LS Brice School building was lightly renovated for student use and to increase social distancing. Three staff houses were remodeled and are rented by staff members.

Roof replacements have been completed on 7 residential properties, 4 barns, and the Family Life Center. The Administration Building was not completed this past fiscal year but it is currently being installed.

The new Welcome Center (Security Gate) is currently under construction. Construction was delayed due to Covid restrictions with JBRC, but is on target to be completed by the end of October 2020.

AGENCY NAME:	John de la Howe School		
AGENCY CODE:	L12	SECTION:	7

Goal 2 Update: Implement Marketing Plan

The Marketing Plan was 100% fully developed and implemented. Our new Public Relations Director has done an outstanding job creating all new logos, a school mascot, color branding for the agency, etc. We have created merchandise such as tee shirts, masks with our logo for students and staff, hats with our logo, and other promotional items to totally rebrand our agency and school. With the negative history of the agency, we had an uphill battle the entire year rebranding our school. Between July of 2019 and February 2020, we were the guest speaker for 45 different programs across the state. Those events were to dispel the old school and introduce people to the new school. We spoke at Young Farmer meetings, FFA meetings, Lions Club meetings, VFW meetings, School Superintendent meetings, Ag. Ed. classrooms, Clemson University Ag. Ed. meetings, Farm Bureau meetings, Cattleman’s meetings, etc. When Covid restrictions happened in March, we discontinued travel and began marketing virtually. We ended up with a total of 91 applications for students and over 300 student interest cards! Out of those, we ended up with 37 students for our inaugural school year. Again, due to Covid restrictions, we decided to begin with a low number so our students could have more space in their dorms and common areas. The data clearly shows that we will have a good problem in the next two years as we grow.

Goal 3 Update: Develop Agriculture School Curriculum

Goal 3 focuses on developing the Agriculture School Curriculum. Through collaboration with the Student-Centered Education Consulting Group and board approval, the curriculum is 100% complete. The following certified staff were hired this past year: President (superintendent certified), principal, ELA teacher with a PhD, a Math teacher with a PhD, a Social Studies teacher with a PhD, Science teacher with a Master’s degree, a Spanish teacher with a Master’s degree, three agricultural education teachers all with a Master’s degree, PE teacher/Activities director with a BS degree, a part time special education teacher that we re-named as our academic coach, a full time media specialist with a Master’s degree, a part time school counselor, and a Powerschool registrar.

Goal 4 Update: Manage People and Physical Resources

With a 1,310-acre property, the campus of JDLH is a huge undertaking. With that being said, it is also the perfect outdoor laboratory for our students. Our students have four pathways to become a completer in.

1. Plant and Animal Science: with our pasture land, hay land, cropland, beef cattle herd, goat herd, poultry flock, and horses, our students have the premium experience envied by other high school programs in country! This has helped tremendously in our recruiting efforts.
2. Environmental and Natural Resources: those students enrolled in this pathway utilize the forest land for dendrology studies, timber cruising and estimation, control burn studies, chemical control studies, aquaculture management in the ponds and on Lake Thurmond. They also learn wildlife management with the vast property and how wildlife and agriculture must coincide.
3. Horticulture: our students have multiple buildings around campus to design and install landscapes for. They are currently working in conjunction with our maintenance director and their agricultural education teacher to design a new landscape for the flag pole in front of the administration building. They will also learn how to operate and maintain horticulture equipment.
4. Agricultural Mechanics: our students have modern farming equipment to learn how to operate, maintain, repair, etc. We are in discussions with a local John Deere dealer to send our top Ag. Mechanics students their way upon their graduation from here!

AGENCY CODE:	L12	SECTION:	7

RISK ASSESSMENT AND MITIGATION STRATEGIES

JDLH has hired all highly qualified teachers and administration staff. Our principal is in weekly contact with the Department of Education and we are on track to become fully accredited by the state of SC, this year.

The second mitigation strategy is the use of our Education Center (formerly called the Wilderness Center). Before Covid restrictions, we hosted multiple events on our campus. The largest event was an Agricultural Safety Day in conjunction with Clemson University and their Agricultural Mechanics instructors, students, and grad students. It was well attended with 46 students from all across SC! We also hosted a 4H Forestry Camp with 20 students. We hosted the Boy Scouts for a weekend of camping. We hosted the McCormick Cattlemen’s multiple times as well as a regional Cattlemen’s meeting with almost 100 farmers on our campus! We had several football camps and other camps planned for the summer before Covid restrictions. The goal for the education center is to become income generating. The data proves the interest is strong for the usage of our Education Center. We are now planning virtual workshops until Covid restrictions are lifted.

Finally, to maintain with our fiscal success, continued support from the General Assembly and realignment of savings from operational salaries and fringe to sustain the deferred facilities maintenance without the need for new funding.

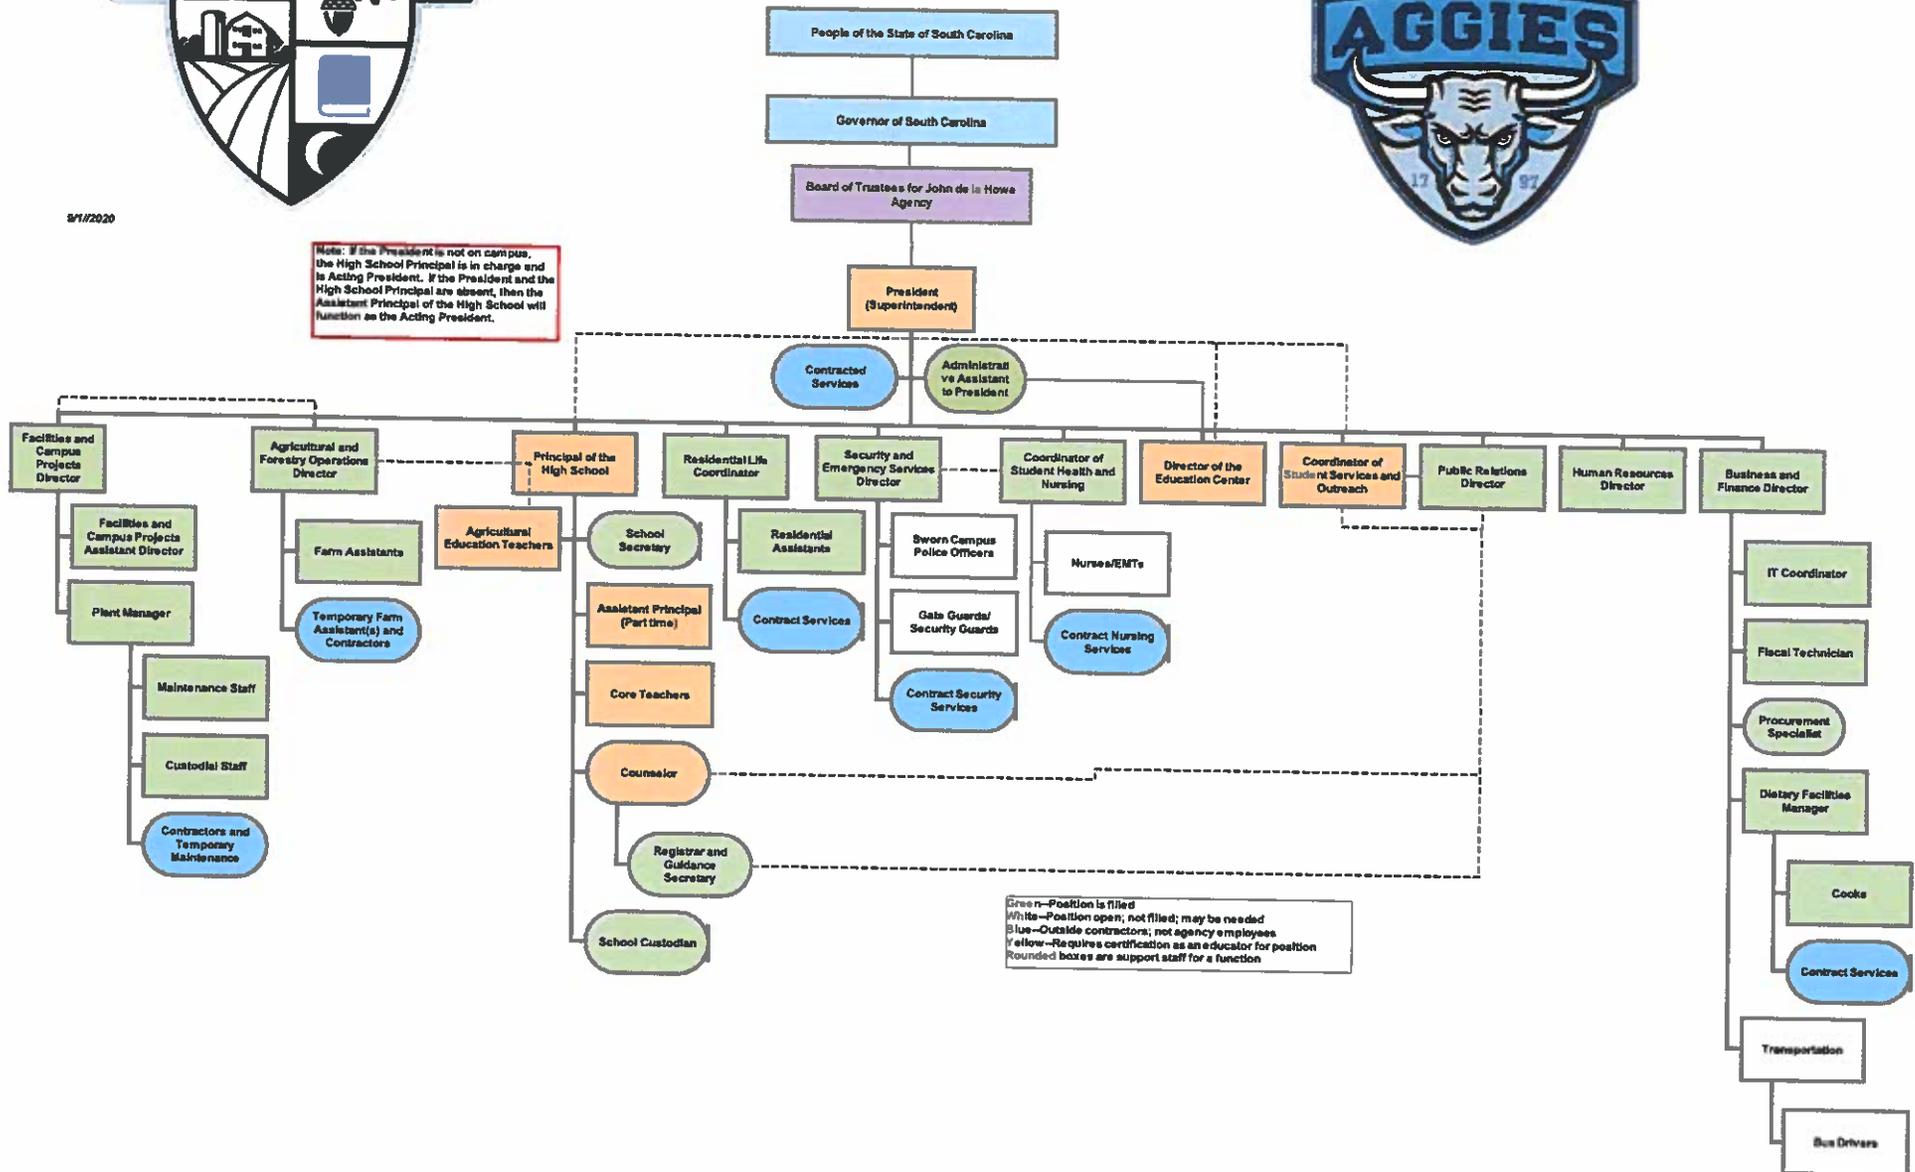

John de la Howe School for Agriculture Organizational Chart

8/1/2020

Note: If the President is not on campus, the High School Principal is in charge and is Acting President. If the President and the High School Principal are absent, then the Assistant Principal of the High School will function as the Acting President.

Green—Position is filled
 White—Position open; not filled; may be needed
 Blue—Outside contractors; not agency employees
 Yellow—Requires certification as an educator for position
 Rounded boxes are support staff for a function
