### Fiscal Year 2020–2021 Accountability Report

### **SUBMISSION FORM**

I have reviewed and approved the data submitted by the agency in the following online forms:

- Reorganization and Compliance
- Strategic Plan Results
- Strategic Plan Development
- Legal
- Services
- Partnerships
- Report or Review

I have reviewed and approved the financial report summarizing the agency's budget and actual expenditures, as entered by the agency into the South Carolina Enterprise Information System.

The information submitted is complete and accurate to the extent of my knowledge.

AGENCY DIRECTOR (SIGN AND DATE):	Signature on file.
(TYPE/PRINT NAME):	Tim Hardee
Board/Cmsn Chair (Sign and Date):	Signature on file.
(TYPE/PRINT NAME):	Gregory B. Askins

## FY 2020-2021 Agency Accountability Report Reorganization and Compliance Responses:

#### **Agency Mission**

The South Carolina Technical College System provides learning opportunities that promote the economic and human resource development of the state.

Adopted in: 2010

#### **Agency Vision**

The SC Technical College System will lead the nation in delivering relevant and effective programs that advance workforce development, promote economic development and ensure attainment of student learning goals.

Adopted in: 2010

Recommendations for reorganization requiring legislative change.

No

Please list signific	ant events related to th	ne agency that occurred in FY 202	0-2021.						
Month Started	Month Ended	Description of Event	Agency Measures Impacted	Other Impacts					

Does the agency intend to make any other major reorganization to divisions, departments, or programs to allow the agency to operate more effectively and efficiently in FY 2021-22?

Note: It is not recommended that agencies plan major reorganization projects every year. This section should remain blank unless there is a need for reorganization.

No

Is the agency in compliance with S.C. Code Ann. § 2-1-220, which requires submission of certain reports to the Legislative Services Agency for publication online and the State Library? See also S.C. Code Ann. § 60-2-20.

Yes

If not, please explain why.

Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 20-1-10 through 20-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210).

Yes

#### STATE TECHNICAL & COMPREHENSIVE EDUCATION

Does the law allow the agency to promulgate regulations?

Nο

Please list the law number(s) which gives the agency the authority to promulgate regulations.

Has the agency promulgated any regulations?

Is the agency in compliance with S.C. Code Ann. § 1-22-120(J), which requires an agency to conduct a formal review of its regulations every five years?

SC Technical College System

## **Preparing South Carolina's Workforce**

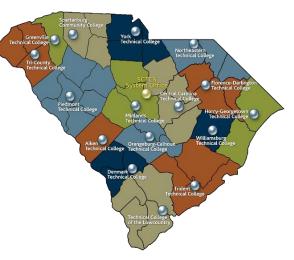

The State Board for Technical and Comprehensive Education operates the SC Technical College System. The System consists of three major components that work together to lead workforce development and economic development efforts in South Carolina: our 16 colleges; our readySC™ program; and our Apprenticeship Carolina™ program.

All components of the System work collaboratively to build South Carolina's workforce. As the state's primary mechanism for workforce and economic development, the System plays a critical role in shaping South Carolina's economic landscape. Working diligently to ensure that tomorrow's workforce is armed with the right knowledge, skills and abilities to meet the ever-changing demands of business and industry, the System is enhancing employability of the state's citizens and preparing a work-ready South Carolina.

#### **Our Colleges**

South Carolina's technical colleges are driven by their mission to be affordable, accessible, and relevant to all South Carolinians.

Affordability – With a SC technical college education costing 36% of the average annual tuition of a four-year institution, our 154,000 students are guaranteed a quality education at a fraction of the price. Financial assistance and scholarship programs, such as Lottery Tuition Assistance and SC WINS, benefit students who may otherwise struggle to afford higher education, and additional federal and state funds allow colleges to provide emergency aid to students to alleviate financial strain associated with the COVID pandemic. With these funds, our students can complete credit and continuing education programs with little to no debt.

Accessibility – Geographically and demographically, our colleges are accessible state-wide and to all populations. With 16 main campuses and 64 satellite campuses strategically located across the state, all South Carolinians are within a 30-minute drive of their local technical college. Enrollment statistics accurately reflect our communities, with 38% male, 62% female and 44% minority representation. And with all 16 colleges offering dual enrollment, high school-aged students can earn college credit and even an associate degree before joining the workforce, continuing their education at one of our colleges or matriculating to a four-year institution.

Relevance – Our 91% job placement rate is a testament to the breadth and depth of our programs, including 78 degrees, 28 diplomas and nearly 1,000 certificate programs in high-demand, high-paying fields. Steady innovation – including top-notch training on cutting-edge equipment – ensures that our students know what to expect on the job, especially in high-demand STEM, manufacturing, and healthcare fields. Our colleges are committed to recruiting and retaining highly skilled, technically advanced instructional faculty and staff. And by providing flexible learning options, counseling support, resources and technology outreach, our colleges have proven their ability to respond nimbly and efficiently to meet the needs of students, faculty, and staff during the COVID pandemic.

#### readySC™

Our readySC™ program was established as an economic development training incentive designed to guarantee South Carolina could remain competitive through changing economic circumstances. It remains a key component of South Carolina's economic development engine and has been recognized for more than 60 years as one of the nation's premier programs of its kind. readySC™ focuses on the recruiting and initial training needs of new and expanding organizations in South Carolina by providing recruiting, assessment, training development, management and implementation services to qualifying organizations creating new, permanent, full-time jobs for the state that offer competitive wages and benefits.

Narrative FY 2020-2021 3

AGENCY CODE:	H59	SECTION:	25					

#### **Apprenticeship Carolina™**

Established in 2007, Apprenticeship Carolina™ serves as the state's registered apprenticeship intermediary for South Carolina. Apprenticeship Carolina works with employers and the technical colleges to create demand-driven registered apprenticeship programs. At no cost to the employer, apprenticeship consultants guide companies through the program development and registration process. The process ensures that companies obtain full recognition in the national Registered Apprenticeship System. Through innovation, partnerships, and a spirit of excellence, Apprenticeship Carolina catalyzes the promotion of registered youth, adult, and pre-apprenticeships. Apprenticeship Carolina is also a resource to help employers create, maintain, and maximize the use of these programs. Apprenticeship Carolina is committed to creating and strengthening career pathways that enrich and enhance South Carolina's existing and future workforce.

The growth in the number of programs and the number of apprentices has been phenomenal. Since Apprenticeship Carolina's inception, it has registered programs for nearly 1,200 companies serving more than 36,000 individuals. Due to its innovative approach and exponential growth, Apprenticeship Carolina is held as a model for the nation.

#### **MAJOR ACHIEVEMENTS**

#### **Leadership and Advocacy Initiatives**

The System has always been and continues to be South Carolina's workforce development engine. The System offers organizations – large, small and all those in between – a wide variety of programs and services designed to enhance the skill level of our state's workforce.

The impact is far-reaching. As the state's largest higher-education sector, the System educates more of South Carolina's undergraduates than all other public colleges and universities combined, with student success considered an essential driver for the System. Our outstanding placement rates show that 91% of our graduates are either employed in a job related to their education or are continuing their education. Our innovative Apprenticeship Carolina program has increased the state's number of registered apprenticeship programs more than eleven-fold. In addition, the System's readySC program is consistently listed as a top economic development incentive for workforce training and recruitment.

Additionally, as part of efforts to increase accessibility and enhance affordability, the System developed an awareness campaign to promote all the System's existing online offerings under one brand umbrella – *SCTechConnect*. This awareness campaign is designed to promote online offerings through the state's 16 technical college as an affordable, flexible option for meeting higher education goals.

#### **Academic and Educational Initiatives**

Student success, retention, professional development, and managing partnerships continued to be an emphasis for the Division of Academics, Student Affairs, and Research. The ongoing interruption to traditional activities due to the global pandemic continued to drive new and innovative ways to engage faculty, staff, and students.

Students enrolled at the 16 technical colleges continued to be impacted by the global pandemic. To alleviate student access concerns due to financial need, the South Carolina Workforce Industry Needs Scholarship (SCWINS) was expanded to provide financial support for three additional critical workforce areas: Criminal Justice, Early Care and Education, and Human Services. Over \$17 million was made available to students for tuition, mandatory fees, and books. Additionally, efforts were made to celebrate student accomplishments. The largest Phi Theta Kappa All-State Academic Team was acknowledged through a virtual ceremony.

Transfer opportunities continued to remain a top priority for the System. This past fiscal year, the System signed five new agreements with four institutions (Anderson University, Lander University, Newberry College, and Webster University). Now, 19 statewide transfer programs are offered at all 16 technical colleges. These partnerships increase access to four-year institutions for any student enrolled at a technical college and open the door to more affordable bachelor's degrees.

Partnerships with state educational agencies and business and

industry continued this past year. The System collaborated with the South Carolina Criminal Justice Academy and Law Enforcement Council to create a new certificate program to provide an additional pathway to becoming a South Carolina Law Enforcement Officer. This new program will be implemented by all 16 technical colleges and provides a complement to existing pre-police academy pathways. Dual enrollment remained a high priority during this past year. Collaboration with the South Carolina Department of Education resulted in the publication of a frequently asked questions document to address dual enrollment course alignment with secondary and postsecondary schools. This past year, the System was awarded a grant through the Truth Initiative to support tobacco and vape-free college campuses. Colleges were provided funds to support the development of tobacco and vape-free campus policies and educational awareness about tobacco use. Colleges with existing tobacco and vape-free policies were also provided funds to increase awareness and resources for students and employees. A systemwide survey was conducted to gather information from students and employees about tobacco usage campus experiences.

Professional development opportunities remain a key focus for the System. Twenty-seven (27) faculty teaching in non-traditional fields were selected to participate in the inaugural Perkins Faculty Academy. This initiative provides faculty the opportunity to create an action research project designed to increase student success in non-traditional career fields. Five System representatives were selected to participate in the National Alliance for Partnerships in Equity (NAPE) Leadership Academy. South Carolina was one of 10 states selected to participate in the NAPE initiative. Additionally, 220 staff members participated in Title IX trainings in response to the release of the new federal regulations. Approximately 200 faculty and staff members participated in web and digital accessibility training. The monthly Teaching and Learning Tuesday (TLT) webinar series resulted in 504 live attendees for the year.

In addition to faculty and staff professional development opportunities for the technical colleges, the System staff remain adept in providing opportunities through their own professional development. This past year, System staff attended national, regional, and local conferences on topics related to career development, developmental/remedial education, diversity, equity and inclusion, career and technical education, civil rights, and Title IX. System staff also conducted presentations at numerous local, regional, and national conferences and college campuses on topics relevant to two-year faculty, staff, and students. College technical assistance was also provided on issues related to equity and accessibility, Title IX, student conduct, and the intersection of state and local law with campus processes and procedures. In addition to presentations and technical assistance, several System staff continued to serve on regional and national educational organization boards this past year.

To promote equitable and sustainable practices, the System revised two procedures (SBTCE Procedure 3-2-106.2 [Student Code Procedures for Addressing Alleged Acts of Sexual Harassment Under Title IX] and SBTCE Procedure 4-4-104.1 [Web and Digital Accessibility]). Additionally, the System completed the 2013 resolution agreement with the

U.S. Department of Education Office for Civil Rights. Other accomplishments include completion of the annual US Department of Education Office of Civil Rights (OCR) Methods of Administration (MOA) Review for two colleges and implementation of the program evaluation review process for two colleges. The past year resulted in the mediation of over 69 student matters, including assisting colleges to identify best practices regarding student issues. Despite ongoing disruption due to the COVID-19 pandemic, the System utilized nearly 20 peer groups to ensure colleges met regularly, worked collaboratively, and responded efficiently and equitably to help alleviate some of the pandemic impact.

Additional regular activities include the approval of 53 new programs and 25 new courses, monitoring of dual enrollment and program evaluation, and ongoing research and publication. The System's academic and educational initiatives always strive to be bold, innovative, and sustainable in an effort to promote student success.

#### **Workforce Development Initiatives**

Registered Apprenticeship. Apprenticeship Carolina™ guides companies located in South Carolina through the apprenticeship development and registration so that companies receive full recognition in the national Registered Apprenticeship system with the U.S. Department of Labor (USDOL). With a team of twenty statewide Apprenticeship Consultants, Registered Program Specialists, Youth Apprenticeship Coordinators, grant managers, and a Vice President, Apprenticeship Carolina leads the state's apprenticeship expansion efforts.

Continued Growth. Since its inception, Apprenticeship Carolina has assisted over 1,200 South Carolina companies across all industries to register apprenticeship programs. The number of companies assisted has increased tenfold from 90 in 2007 to nearly 1,200 in the last fiscal year. To date, over 36,000 South Carolinians have been registered as apprentices – an overwhelming increase from 777 in 2007. Apprenticeship Carolina continues to lead the nation in the number of new apprenticeship programs registered, apprenticeship activity and notoriety. Apprenticeship programs continue to provide companies the benefits of a sustainable, highly trained workforce pipeline and award apprentices a nationally recognized credential in their occupation.

Grant Opportunities. Since 2015, Apprenticeship Carolina has received over \$25 million in grants from the U.S. Department of Labor's (USDOL) Employment and Training Administration. The grants provide support to increase the number of registered apprenticeships throughout the state. The grants include the USDOL South Carolina American Apprenticeship Initiative (AAI) 2015-2021, South Carolina State Apprenticeship Expansion 2016-2020, SC Apprenticeship State Expansion (ASE) 2019-2022, State Apprenticeship Expansion 2020-2023, South Carolina Youth Apprenticeship Readiness Initiative 2020-2024, and South Carolina State Apprenticeship Expansion, Equity, and Innovation (SAEEI) 2021-2025. Apprenticeship Carolina has also received grants from the Appalachian Regional Commission for apprenticeship expansion in the Upstate.

The SCAI grant was ranked first in the nation out of 54 grantees. During the past five and a half years, 2,165 individuals received funds from the SCAI grant to pay tuition to subsidize college courses required to complete the registered apprenticeship programs. 154 South Carolina company locations benefited from the funds. The SAE 2016 grant also exceeded its metrics. This four-year \$1,989.990 grant assisted technical colleges and companies in the expansion of registered youth apprenticeship programs and pre-apprenticeship programs. The grant was utilized in seven of the 16 technical college service areas.

During the previous fiscal year, Apprenticeship Carolina was awarded a USDOL State Expansion Grant of \$1,186,725. Colleges will continue to utilize this funding to expand both registered apprenticeship and pre-apprenticeship programs. To date, over 100 registered apprentices and 43 pre-apprentices have been served by this opportunity.

On July 1<sup>st</sup>, 2020, Apprenticeship Carolina received nearly an additional \$11.5 million in apprenticeship funds from two grants. One grant is the USDOL Youth Apprenticeship Readiness Grant, which is a \$4,449,999 award, which will help to significantly increase the number of youth apprenticeships over the next four years. To date, this grant has assisted 11 youth apprentices with educational and / or supportive services costs. USDOL also awarded Apprenticeship Carolina a State Apprenticeship Expansion \$6,991,000 award which will also help to expand apprenticeships across the state over the next three years. To date, this grant has served over 171 apprentices.

On July 1, 2021, Apprenticeship Carolina was awarded a \$7.7 million USDOL State Apprenticeship Expansion, Equity, and Innovation grant. This grant will continue to expand registered apprenticeship and Pre-Apprenticeships throughout the state with a focus on ensuring that all citizens have access to registered apprenticeship opportunities.

The Appalachian Regional Commission awarded Apprenticeship Carolina a \$250,000 grant to expand registered apprenticeship within the aerospace and automotive industries. This grant opportunity is available for companies located in Anderson, Pickens, Oconee, Greenville, Spartanburg, and Cherokee counties. To date, 34 apprentices have been served by this opportunity. Companies continue to engage with the local technical colleges to develop programs supported by the grant. Through a partnership with ICF International, Apprenticeship Carolina has also been able to secure a \$400 stipend to be provided to information technology youth apprentices ages 16-21 who are studying at a technical college.

Youth Apprenticeship. Youth Apprenticeship is a forward-focused component of Apprenticeship Carolina that demonstrates growth statewide. The program allows companies to train and mentor potential future full-time employees, creating a crucial recruitment pipeline of young, skilled workers. Youth apprentices can earn a wage while they finish high school and earn college credits. High school completion is also a requirement. Through this program, youth enhance their employability by obtaining critical work and academic skills. This past year the number of companies with a registered youth program increased from 236 to 274. This fiscal year saw an increase in youth apprenticeship activity across all areas of the state.

Industry outreach. During the fiscal year, Apprenticeship Carolina, through grant opportunities and partnerships with several organizations, has been able to host events to promote apprenticeship as a workforce development tool for employers, industry associations and education stakeholders in the areas of Youth Apprenticeship, information technology, manufacturing, international investment and construction. Outreach continued to the state's Historically Black Colleges and Universities to communicate the benefits of registered apprenticeships for students in Cybersecurity. Virtual mentor trainings also continued for companies who have registered apprenticeship programs.

Return on Investment Study. The SC Apprenticeship Initiative grant allowed for a Return on Investment study to be conducted by the University of South Carolina Moore School of Business. The study concluded that for every \$1 invested in a registered apprenticeship program, employers receive a return of at least \$1.41. The return increases to \$2.35 over seven years.

Establishment of Pre-Apprenticeship Programs and Process. During the fiscal year, Apprenticeship Carolina created a documentation and a process for the certification of Pre-Apprenticeship programs. These programs are designed to prepare individuals, including highs school students to enter a registered apprenticeship program. To date, Apprenticeship Carolina has certified 20 pre-apprenticeships with K-12, community-based organizations, and the technical colleges. Richland One was the first school district to certify a pre-apprenticeship with Apprenticeship Carolina, and the Urban League of Columbia was the first community-based organization. More than 60 high school students are participating in these two pre-apprenticeships alone.

<u>Success during COVID-19 crisis.</u> Apprenticeship Carolina continued to experience growth during this unprecedented time by registering 28 new apprenticeship programs during the Governor's work from home order. Companies also continued to express interest in grant-funded training opportunities through the technical colleges.

Enterprise Zone Retraining Tax Credit Program. Ezone helps keep industry in South Carolina competitive by providing manufacturing, processing and technology intensive companies located in South Carolina the opportunity to receive a refund for "retraining" certain employees. By participating in the Ezone program, qualified companies may be reimbursed by the Department of Revenue, up to \$1,000 per eligible employee, per year, (not to exceed \$5,000, over 5- year life of application), against withholding taxes, for c ertain training and education. There are now 129 approved Ezone participating companies.

#### **Economic Development Initiatives**

The System's readySC™ program plays a key role in the state's economic development efforts. It is recognized nationally as the premier program of its kind. readySC focuses on the recruiting and initial training needs of new and

AGENCY NAME:	State Board for Techr	nical and Cor	nprehensive Education
AGENCY CODE:	H59	SECTION:	25

expanding organizations and continues to be a top incentive for the state. The majority of companies relocating or expanding companies rank readySC's services as playing a significant role in their ultimate decision to move or grow here. On any given day, readySC is working with between 65 and 115 projects across South Carolina. These projects cover the spectrum from our state's most-developed to least-developed counties and include both large organizations and smaller

companies. Last year, readySC trained over 3200 (2855 of which were new) individuals and worked with 115 different companies. Last year readySC provided nearly 330,000 hours of training to its trainees. Since inception readySC has trained over 307,000 people. The Boeing project held 2,557 training events last year and trained 4,810 people. readySC staff are certified to teach 227 Boeing certified courses. Additionally, the Boeing project held 6,753 recertifications for 2,531 employees. readySC continues to work closely with Volvo in their recruitment and training efforts. To date readySC has helped to recruit and train over 1500 employees. Arthrex in Anderson has now trained 441 employees. This year readySC picked up new major project with Generac in Edgefield County. In a short period, readySC has helped to recruit and train over 300 employees for Generac. In the coming year readySC will continue its work with the above companies as well as begin projects with companies such as Mark Anthony Brewing (Richland County), Wal-Mart Distribution (Dorchester County), Ernest and Julio Gallo (Chester County) as well as Oshkosh Defense (Spartanburg County).

In early 2021, the Division of Economic Development worked closely with the Governor's Office to promote training through use of the Governors' Emergency Education Relief (GEER) funds. The System was awarded \$8 million to help support short term training for South Carolina Citizens aged 18 or older that are either unemployed or underemployed. To date, over 2,000 South Carolinians have received training and credentials through GEER funds. These training efforts will continue into the next fiscal year.

#### **Fiscal and Budget Initiatives**

<u>Legislative Budget</u>. The System continues to be recognized by the General Assembly as a priority and was funded as follows for FY2019-2020:

The General Fund Base Funding for the System was \$166.6 million, of which \$150.3 million was distributed to the colleges using various funding models.

The Lottery Tuition Assistance Program (LTAP) was funded \$51.1 million in FY20-21 and the per semester award for both fall 2020 and spring 2021 was \$110 per credit hour. The South Carolina Workforce Industry Needs (SCWINS) Program was funded \$17 million in FY20-21 and the per semester award for both fall 2020 and spring 2021 was \$100 per credit hour.

The System's readySC program was funded \$10 million from lottery funds for direct training projects. This funding was in addition to recurring appropriations used for program administration and training costs.

The colleges received additional Lottery Funds for Workforce Scholarships and Grants in the amount of \$11 million. These funds were distributed using the STEM+ formula. Other Lottery funding included Job Skill Training Equipment funding of \$12 million and Lottery Technology Equipment funding of \$4.1 million.

#### **Information Technology Initiatives**

Enterprise Information Security Compliance. Cyber Security continues to be a priority for all of our institutions and the System. Each college and the system office are progressing towards strengthening their security posture using a customized roadmap and plan toward information security compliance, which is based on a nationally recognized and state approved methodology. These gradual improvements are the areas of People (training), Process (policies and procedures) and Technology Toolsets and are based on best practices and state and federal security and privacy requirements.

AGENCY NAME:	State Board for Techi	nnical and Comprehensive Education						
AGENCY CODE:	H59	Section:	25					

The roadmap and plan to compliance leverages cost-effective approaches via collaborative projects and shared procurements, and this initiative continues to engage all colleges, including relevant peer groups and stakeholders. Multiple system-wide security/infrastructure improvement projects continue to be chartered by the System's Chief IT and Business Officer Peer groups, and current and future technology investments and projects are now tied to the security compliance roadmap and plan.

Enterprise Resource Planning (ERP). Enterprise Resource Planning (ERP) systems and related processes continue to represent significant resources and mission critical activities and functions at all of the 16 technical colleges. The SCTCS's councils and peer groups continue to work together each year to review and analyze current ERP related opportunities for collaborative services and training, including planning toward future ERP needs. These continued efforts in operating cost and focus on improving services and increasing efficiencies.

#### **Risk Assessment and Mitigation Strategies**

South Carolina has seen unprecedented economic development growth over the past decade, due in large part to the state's ability to draw new residents with a business-friendly climate.

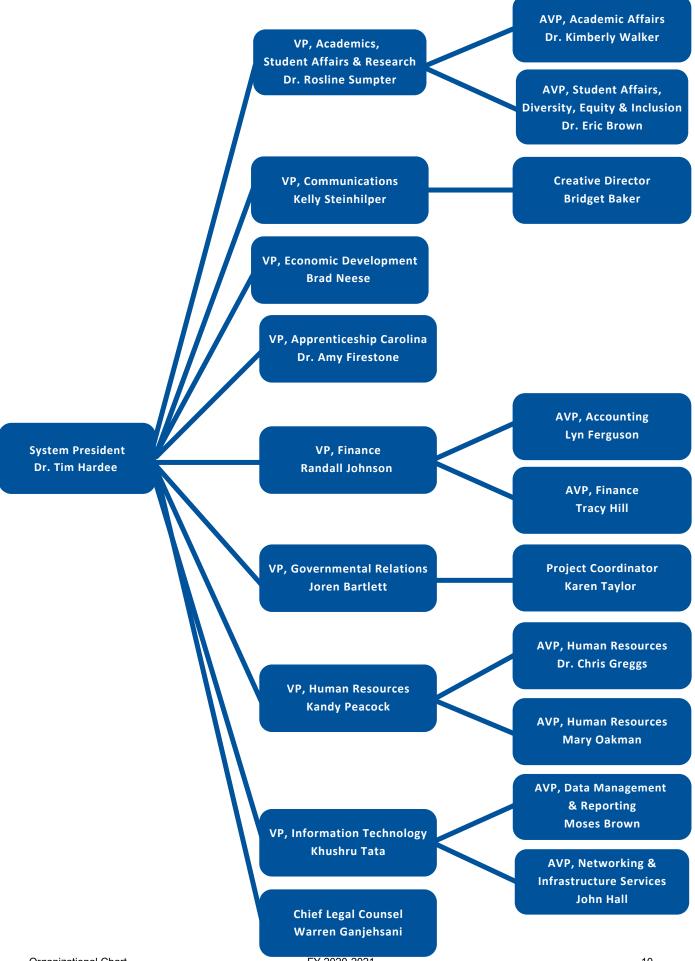

This growth also brings with it the ever-increasing demand for highly skilled, ready workers.

It is important to note that the majority of these jobs require more than a high school diploma and less than a four-year degree. These high-demand jobs require post-secondary certificates, credentials and, in some cases, a degree. Couple the lack of post-secondary education with an aging workforce fast approaching retirement and South Carolina faces a workforce skills gap.

The SC Technical College System is tasked with filling this gap through training and education in high-demand fields. Funding is essential to meeting this demand and ensuring that a quality technical education remains accessible and affordable for all South Carolinians.

The System has crafted a carefully considered and vetted legislative agenda for this year's budget session which would allow our colleges to continue effectively meeting the demands of business and industry in high-demand STEM, manufacturing, health care and IT fields. Sufficiently funding the System's requests along with continuing to support the Lottery Tuition Assistance Program through maintained funding will aid in resolving the workforce demand before it becomes a crisis.
