Fiscal Year 2020–2021 Accountability Report

SUBMISSION FORM

I have reviewed and approved the data submitted by the agency in the following online forms:

- Reorganization and Compliance
- Strategic Plan Results
- Strategic Plan Development
- Legal
- Services
- Partnerships

(TYPE/PRINT NAME):

• Report or Review

I have reviewed and approved the financial report summarizing the agency's budget and actual expenditures, as entered by the agency into the South Carolina Enterprise Information System.

The information submitted is complete and accurate to the extent of my knowledge.

Harry M. Lightsey, III

AGENCY DIRECTOR (SIGN AND DATE):	Signature on file.
(Type/Print NAME):	Bonnie Ammons
Board/Cmsn Chair (Sign and Date):	Signature on file.

FY 2020-2021 Agency Accountability Report **Reorganization and Compliance Responses:** These responses were submitted for the FY 2020-2021 Accountability Report by the RURAL INFRASTRUCTURE AUTHORITY Primary Contact: First Name Last Name Role/Title Phone Email Address Executive Director 803-737-0226 bammons@ria.sc.gov Bonnie Ammons Secondary Contact First Name Role/Title Last Name Phone Email Address Chris Chief Financial Officer 803-737-0462 Huffman chuffman@sccommerce.com

Agency Mission										
	Rural Infrastructure Authority (RIA) is to provide financing for qualified infrastructure projects that will protect public health, address environmental nd lay the groundwork for economic opportunities.									
Adopted in: 2013										
Agency Vision										
Through partnershi	ps and targeted infrastructure investments, improve the quality of life for residents, enhance community sustainability and boost economic									

opportunities throughout the state.
Adopted in: 2013

Recommendations for reorganization requiring legislative change No

Please list signific	ant events related to th	ne agency that occurred in FY 2020-2021.		
Month Started	Month Ended	Description of Event	Agency Measures Impacted	Other Impacts
July	June	After a grant from the Economic Development Administration of the U.S. Department of Commerce was awarded to the agency in FY20, RIA hired a staff member and began a statewide study to examine sustainability challenges of water and sewer systems and to identify the tools and resources that are needed to build system capacity for the future.		The agency began to focus on building partnerships and encouraging regional solutions, where feasible, to address long-term infrastructure needs.

Does the agency intend to make any other major reorganization to divisions, departments, or programs to allow the agency to operate more effectively and efficiently in FY 2021-22?

Note: It is not recommended that agencies plan major reorganization projects every year. This section should remain blank unless there is a need for reorganization.

No

Yes

Is the agency in compliance with S.C. Code Ann. § 2-1-220, which requires submission of certain reports to the Legislative Services Agency for publication online and the State Library? See also S.C. Code Ann. § 60-2-20.

lf not, please explain why.

These responses were submitted for the FY 2020-2021 Accountability Report by the

RURAL INFRASTRUCTURE AUTHORITY

Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 20-1-10 through 20-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210). Yes

Does the law allow the agency to promulgate regulations?

No

Please list the law number(s) which gives the agency the authority to promulgate regulations.

Has the agency promulgated any regulations?

Is the agency in compliance with S.C. Code Ann. § 1-22-120(J), which requires an agency to conduct a formal review of its regulations every five years?

S.C. RURAL INFRASTRUCTURE AUTHORITY'S DISCUSSION AND ANALYSIS

Infrastructure Finance Programs – Summary of Efforts and Results

The S.C. Rural Infrastructure Authority (RIA) makes grant and loan financing available for qualified infrastructure projects (drinking water, sanitary sewer and storm water drainage facilities) statewide. By working in partnership with local communities, these financial investments are designed to address the key objectives of protecting public health, addressing environmental quality standards and preparing communities for economic opportunities. RIA assistance helps close financial gaps for areas in need of reliable infrastructure. In addition, RIA collaborates with stakeholders to identify and coordinate additional resources for infrastructure improvements.

This year a total of \$77 million in projects were approved through RIA's grant and loan financing programs. *See Figure 1.*

Figure 1: FY 21 Projects Funded by Location

Grant Program

Financial assistance is made available to eligible applicants (local governments, special purpose districts and public works commissions) annually through two competitive funding rounds. Funds are distributed through two program categories which align with the agency's objectives: (1) the Basic Infrastructure program to address regional solutions, environmental concerns, public health issues and aging infrastructure needs; and (2) the Economic Infrastructure Program to provide reliable infrastructure serving new or existing businesses and expanding system capacity to boost economic opportunities.

AGENCY NAME:	RURAL INFRASTRUCTURE AUTHORITY										
AGENCY CODE:	P450	SECTION:	054								

Qualified projects are selected by the Board based on a comparative analysis of need, feasibility and impact and all applicants are notified of the results. Technical assistance is provided to applicants whose projects are not funded.

<u>Summary of Results:</u>

- 55 new grants totaling \$26 million were approved by RIA's Board of Directors
- 80,000 residential and business customers will be impacted
- 71% of projects funded were located in rural and distressed areas
- \$39 million from local and other resources will match RIA's infrastructure investment

Cumulative Impact (FY 2013-2021):

- \$174 million in grants awarded
- Grants awarded in 46 counties and 78% were in rural and distressed areas
- Grants leveraged \$471 million in local/other funds for infrastructure improvements
- Economic development projects will result in 10,900 new jobs by new/existing business customers

State Revolving Funds Loan Program

Low cost loan financing is provided through two federally capitalized State Revolving Funds (SRF) for Drinking Water and Clean Water (sewer). The SRF has been annually capitalized by the U.S. Environmental Protection Agency (EPA) since 1989. The program was transferred to RIA in 2015. The state program is administered jointly with the S.C. Department of Health and Environmental Control (DHEC). DHEC prioritizes projects, handles the technical aspects of the program and ensures compliance with EPA requirements. The RIA's Office of Local Government (OLG) manages the financial component including credit reviews, loan agreements, closings and disbursement of funds as well as loan repayments and administration.

The program offers below market interest rates for major water, wastewater and storm water improvement projects throughout the state. This low-cost financing means savings for borrowers and customers.

Due to the pandemic disrupting the economy, the Federal Reserve dropped interest rates to historically low levels, causing interest rates to be lowered in the municipal bond market as well. The impact on the SRF was significant and despite offering a record low interest rate of 1.6% in FY21, the SRF saw early payoff of loans, generally those with less than 10 years to maturity, as well as hesitancy to borrow for new projects in the face of considerable uncertainties about the future.

Summary of Results:

- \$51 million in loans closed
- 10 loans closed
- \$50 million in loan repayments
- \$675 million in outstanding principal balance

AGENCY NAME:	RURAL I	NFRASTRUCTURE AU	THORITY	
AGENCY CODE:	P450	SECTION:	054	

Cumulative Impacts:

- \$667 million loans closed since the SRF program was transferred to RIA in FY16
- \$1.03 billion current loan portfolio
- No loan defaults or major audit findings in program history

Factors Impacting Performance and Future Plans

Because financing assistance requests are generated at the local level, performance measures can be impacted by the number, type, amount and location of requests that are received annually. Similarly, there is limited ability for rural and distressed areas to generate additional funding to leverage grant funds. Being responsive to local needs often means that the agency's performance targets are subject to unpredictable shifts in local priorities and economic conditions.

Since the agency began operating in 2012, the General Assembly expanded its ability to address infrastructure needs statewide and to provide grant and loan financial assistance. The RIA will continue its efforts to target technical assistance and capacity building to rural, small and disadvantaged communities. RIA helps to identify affordable infrastructure solutions and works to leverage other resources. This increases the impact and promotes greater affordability and sustainability.

In the last several years, RIA has taken steps to pro-actively market program resources, provide training and enhance communications in the SRF program. These efforts, coupled with improvements in the economy, resulted in record levels of demand for program resources in four of the last five years. However, the uncertainties with COVID has impacted loan program demand. When interest rates in the municipal bond market dropped to historical lows earlier this year, SRF borrowers with less than 10 years to maturity made a significant number of early loan pay-offs. While this translates to a greater availability of funds for lending next year, borrowers may be reluctant to borrow money for projects in the face of uncertainty in the markets, the availability of additional federal grant funds for infrastructure and expected contractor and supply shortages. Accordingly, the amount and number of loans as well as the utilization rate are not expected to be as high as in recent years.

Risk Assessment and Mitigation Strategies

One of the RIA's strategies is to serve as a resource for communities, whether the need is for technical or financial assistance. To address this issue, RIA holds four workshops for the grant and loan programs and this year 385 participants received training. Workshop evaluations from participants were overwhelmingly positive. In addition, staff worked directly with clients to identify projects and address project-related issues. Demand for this technical assistance and capacity building remains high and RIA will continue its customer assistance efforts.

One of the biggest concerns for customers statewide is the deterioration of aging infrastructure systems and the subsequent decreasing capacity of such infrastructure to meet environmental

AGENCY NAME:	RURAL INFRA	ASTRUCTUR	E AUTHORITY
AGENCY CODE:	P450	SECTION:	054

standards. Staff conducted an internal review of whether RIA resources had a measurable impact on the resolution of DHEC consent orders and regulatory concerns related to health and the environment. Of the projects awarded for this purpose through 2021, 76% of the consent orders have been fully resolved. Those not yet resolved are mostly due to outstanding non-construction or operational issues, which RIA does not fund. Most of RIA's grant funds, \$69 million, have been used to upgrade aging and failing infrastructure, ensuring services are safe and reliable. RIA will continue to work with DHEC to identify and target grant funding to correct these deficiencies.

A lack of resources is the primary reason many communities are unable to properly operate and maintain the water and sewer systems that serve residents and businesses. A delay in making the required investments can result in higher costs, business and service disruptions and increased health and environmental risks. Thus, access to reliable and affordable infrastructure serves as an important quality of life concern for protecting public health, improving environmental quality and encouraging economic opportunities. Significant investments will be needed to ensure that there is adequate capacity for future economic growth.

Three key factors can help stretch the impact of limited resources: (1) providing additional funding where feasible to leverage local resources; (2) strengthening partnerships to maximize existing resources and provide additional technical assistance; and (3) encouraging development of plans and studies that will lead to greater sustainability of water and sewer systems, including regional solutions.

In the coming year, RIA will be finalizing its statewide assessment of water and sewer system sustainability issues and needs. The study will assess the common issues that impact the ability of water and sewer systems to address infrastructure needs and be more sustainable from a financial, technical and operational perspective. The project will develop tools and resources that can be used to help struggling systems, including regional and other cooperative approaches. RIA will be seeking input from stakeholders and building partnerships in order to develop resources and solutions for the long-term needs of water and sewer systems. Partners in this effort are other infrastructure funders including: S.C. Department of Commerce (Commerce), DHEC, U.S. Department of Agriculture - Rural Development and the U.S. Department of Commerce - Economic Development Administration. Collaboration with other funding partners serves to address funding gaps, share best practices and provide coordinated technical assistance to potential applicants. RIA will also build on its relationships with local governments, water and sewer organizations as well as financial and technical groups to address infrastructure issues and enhance local capacity.

Agency Organization

The RIA is governed by a Board of Directors (Board) that includes six members who reside in or represent distressed and/or least developed counties. The Secretary of Commerce serves as Chairman. The Board develops an annual strategy for addressing grant infrastructure needs as well as establishes programs, sets priorities, selects qualified projects for grant funds and reviews performance.

AGENCY NAME:	RURAL INFRA	STRUCTURE	AUTHORITY
AGENCY CODE:	P450	SECTION:	054

RIA staff is organized by grant and loan programs. The grant programs include a new infrastructure sustainability program manager. The OLG operates the financial and loan components of the SRF. The S.C. Water Quality Revolving Fund Authority (State Fiscal Accountability Authority) oversees SRF financial program policies.

The RIA has an Executive Director and nine full time staff. In order to foster administrative collaboration, RIA contracts with Commerce to provide office space, legal, financial and human resources services. This agreement allows for more efficient use of staff and resources available to the RIA.
