AGENCY’S DISCUSSION AND ANALYSIS

South Carolina Office of Resilience

Vision

We envision a South Carolina where communities, economies, and ecosystems can anticipate, absorb, recover, and thrive when presented with environmental change, natural hazards, and disasters.

Mission

We increase the resilience of South Carolina through hazard mitigation, long-term recovery, and by planning and coordinating statewide.

What We Do

SCOR has three main lines of effort:

RESILIENCE	MITIGATION	DISASTER RECOVERY
<ul style="list-style-type: none"> • Development, management, and implementation of the Strategic Statewide Resilience & Risk Reduction Plan; coordination of resilience planning and activities statewide, including program implementation via new grant funding • Land conservation efforts for flood mitigation purposes • Management of the Disaster Relief and Resilience Reserve Fund and the SC Resilience Revolving Fund 	<ol style="list-style-type: none"> 1. Buyouts: Voluntary acquisitions of repetitively flooded land and property in order to return it to green space 2. Infrastructure: Traditional “Gray” and Nature-based “Green” Infrastructure 3. Plans & Studies: Funding for local governments and state agencies to develop and/or update hazard mitigation plans, stormwater plans, and more 4. Matching Grants: Provide the local cost share for other federal flood mitigation programs 	<ul style="list-style-type: none"> • Long-term recovery: rebuild and replace homes damaged by hurricanes and flooding in FEMA-declared counties; funded by the U.S. Department of Housing and Urban Development (HUD) Community Development Block Grant-Disaster Recovery (CDBG-DR) program

AGENCY NAME:	SC Office of Resilience		
AGENCY CODE:	D300	SECTION:	92D

Successes in FY22-23

Completion of the Strategic Statewide Resilience & Risk Reduction Plan

On June 29, 2023, SCOR released the state’s first Strategic Statewide Resilience and Risk Reduction Plan. The plan is intended to identify the state’s vulnerabilities to flooding and guide state investment in flood reduction projects. Resulting from the plan were 56 data-driven and collaborative recommendations ranging from data collection and coordination initiatives, watershed planning, policy and regulatory recommendations, infrastructure design, conservation, housing recovery, identification of residential and commercial properties with the potential for significant flooding, and funding mechanisms. Recommendations that identify SCOR as the lead entity will become the basis for much of SCOR’s strategic plan, alongside ongoing disaster recovery, mitigation, and disaster case management activities. Additionally, SCOR will continue to implement principles and recommendations from the Resilience Plan into its legacy activities. SCOR will coordinate with the Governor and the General Assembly regarding priorities in implementing the Resilience Plan.

Some recent initiatives include:

	Coordinating the federal process to update the rainfall frequency estimates used in the design of infrastructure statewide.		Working to increase data gathering and coordination to aid in future planning (land cover, river, tidal and land subsidence monitoring)
	Advocating for increased regulation of development in flood prone areas		Technical assistance to local communities for funding of resilience activities
	Compiling, analyzing, and coordinating other existing resilience plans, programs, and projects underway statewide		Conservation initiatives with a focus on flood reduction
	Initiating watershed-based resilience planning across the state, aiding the development of hazard mitigation programs and projects that provide local and regional benefits.		Assistance to local communities to incorporate resilience into planning and design of programs, projects and policies
	Regional outreach to connect with local officials to offer resources and assistance		Proposing increased standards for long-term disaster recovery activities
			Improvements to real estate disclosure to better inform homebuyers about property flood risk

Securing Additional Grants

Watershed-Based Resilience Planning	<p><i>During FY22, SCOR secured a grant to begin the next phase of its Resilience Planning efforts. Watershed-based resilience planning will assist communities in developing localized risk and vulnerability reports and subsequent strategies to address these issues in a way that maximizes benefit to communities within their watershed.</i></p>
--	---

During the previous fiscal year, SCOR has secured or is partnering on six grants totaling more than \$10 million to increase resilience and disaster readiness in low-income, flood-prone communities across the state.

AGENCY NAME:	SC Office of Resilience		
AGENCY CODE:	D300	SECTION:	92D

The National Fish and Wildlife Foundation’s (NFWF) National Coastal Resilience Fund awarded \$896,675 to develop the SC Resilient Coastal Communities Collaborative program, a pilot watershed planning program in the Salkehatchie River Basin. This program will kick off in fall 2023.

The National Oceanic and Atmospheric Administration (NOAA) awarded \$6 million to The Nature Conservancy (TNC) in South Carolina to strengthen ecosystem resilience and help coastal communities prepare and adapt to coastal storms, flooding, and sea level rise. SCOR will partner with TNC to expand and significantly scale up the use and adoption of nature-based solutions (NBS) for coastal resilience along the entire coastline of the state. This program will kick off in fall 2023.

The EPA’s Office of Community Revitalization has awarded SCOR \$100,000 in technical assistance to meaningfully engage low-income, flood-prone communities as they develop green infrastructure designs on voluntary buyout properties. This project is 75% complete.

SCOR is partnering with the SC Department of Insurance on a \$250,000 grant from the Robert Wood Johnson Foundation to determine the root causes of homeowners’ insurance flood protection gaps for vulnerable residents in the Pee Dee and Santee Watersheds and their correlation to negative health impacts. The project is about 20% complete with hopes of completion by September of 2024.

The EPA Climate Pollution Reduction Grant Program (CPRG) has awarded \$3,000,000 to DHEC and SCOR for the Palmetto Air Quality Collaborative, a planning grant for the SC Climate Pollution Reduction Grant. SCOR will lead the planning effort in close coordination with DHEC.

Completion of 2015 Severe Storm and 2016 Hurricane Matthew Disaster Recovery Housing Programs

3,343	<i>Number of homes SCOR has repaired or replaced in 24 disaster-impacted counties in its 3 CDBG-DR programs across South Carolina</i>
-------	---

The HUD CDBG-DR 2015 Flood grant of \$126 Million was closed out successfully in December of 2022, within the required six-year allotment. In total, 1,829 homes were completed for the 2015 Flood disaster across 22 counties. Across all of HUD’s CDBG-DR programs, it is rare for grantees to complete and close out their grants within the required six-year time frame. The HUD period of performance for a CDBG-DR grant is six years from the date of the grant agreement, not six years from the date of the disaster. Construction for the HUD CDBG-DR 2016 Hurricane Matthew grant of \$95 Million was completed in December of 2022, also within the required six-year allotment. In total, 1,138 homes were completed across 24 Individual Assistance Declared Counties including four in the Most Impacted and Distressed Category.

Nearing Completion on 2018 Hurricane Florence Disaster Recovery Housing Program

Construction is still ongoing for the HUD CDBG-DR 2018 Hurricane Florence grant and is expected to reach completion in early 2024. Within the HUD CDBG-DR 2018 Hurricane Florence \$72 Million grant, 390 homes have been completed as of July 31st, 2023. Since 2017, SCOR has leveraged the disaster recovery program by coordinating with the State Housing Finance and Development Authority (SC Housing) to deploy a portion of their housing dollars in the disaster recovery effort. From 2017 through the end of FY 2022-2023, SCOR has

AGENCY NAME:	SC Office of Resilience		
AGENCY CODE:	D300	SECTION:	92D

utilized \$8 million in SC Housing funding in the disaster recovery effort. In FY2022-2023, SCOR deployed \$4 million of that funding in the Hurricane Florence program. SCOR will receive another \$2.5 million in funding from SC Housing in FY2023-2024. This additional funding will allow additional homes to be built for existing applicants to the Hurricane Florence program. The construction period for the Hurricane Florence program will extend into 2024 due to additional funding received; however, SCOR will still close the Hurricane Florence CDBG-DR Grant within the allotted time from HUD.

Significant Progress Made On CDBG-Mitigation Programs

57 *Number of infrastructure, buyout, plan/study, or match mitigation programs active across the state*

The Mitigation Department has obligated nearly 100% of three of the four program areas for the \$162 Million HUD CDBG Mitigation Grant, which applies to 17 counties in the eastern portion of the state where hurricanes and flooding have had the greatest impact. Both the Buyout and Federal Funds Match programs have been fully allocated and closed for future funding opportunities. The infrastructure program is currently evaluating the most recent round project applications which will likely exhaust available grant funding and will likely not reopen as well. More than 200 homeowners have enrolled in the voluntary buyout program across six project areas, with 49 having closed so far. SCOR has currently allocated matching funds to 10 federal grants to carry out various flood mitigation activities. Funds have been obligated towards 20 active Infrastructure projects, and the remaining funding will be awarded in the fall.

The SCOR \$10 Million funded Erhardt Tunnel mitigation project in Charleston’s medical district has been highlighted in HUD’s national media. In 1980, the City of Charleston had less than 10 days of tidal flooding. In 2019, it suffered 89 days of tidal flooding. Notwithstanding other flooding causes such as rainfall and tropical systems, the tidal flooding creates access problems for those served in the medical district. The Erhardt Tunnel project is a deep shaft that then runs laterally to connect to an existing drainage system with new pumping capabilities. When completed, this piece of the project substantially mitigates flooding by draining floodwater at a rate of over 300,000 gallons per minute.

The Plans and Studies program remains a year-round funding opportunity for the 17 counties eligible for HUD CDBG-MIT funding. Plans and Studies have awarded a total of 19 projects with 7 completed in FY 2022-2023. The Mitigation Department will coordinate with the Resilience Department to coordinate planning efforts associated with flood reduction that align with the Strategic Statewide Resilience and Risk Reduction Plan. SCOR is on pace to complete the CDBG-MIT grant in the time allowed by HUD.

Charleston Ehrhardt Tunnel Project Nearing Completion

300,000 *Number of gallons of floodwater the Charleston Ehrhardt Tunnel will drain per minute from the Medical District when completed*

The SCOR \$10 Million funded Erhardt Tunnel mitigation project in Charleston’s medical district has been highlighted in HUD’s national media. In 1980, the City of Charleston had less than 10 days of tidal flooding. In

AGENCY NAME:	SC Office of Resilience		
AGENCY CODE:	D300	SECTION:	92D

2019, it suffered 89 days of tidal flooding. Notwithstanding other flooding causes such as rainfall and tropical systems, the tidal flooding creates access problems for those served in the medical district. The Erhardt Tunnel project is a deep shaft that then runs laterally to connect to an existing drainage system with new pumping capabilities.

USS Yorktown Environmental Contaminant Identification and Prioritization Complete

In July 2022, Governor Henry McMaster authorized and directed the South Carolina Office of Resilience (SCOR), along with other state agencies and departments, to mitigate the potential release of contamination associated with the USS Yorktown, an asset of the Patriots Point Development Authority. SCOR began a comprehensive study to identify the nature of the contaminants that exist aboard the ship in order to develop recommendations for remediation and other protective measures. The identification and prioritization of contaminants on board the USS Yorktown is complete and a report for that portion of the study is available on our website (scor.sc.gov/ussyorktown). The full study and plan for remediation are on track to be complete this fall, with remediation work set to begin early 2024. Prior to remediation work beginning, localized repairs to the hull of the ship need to be completed and are on track to be complete in Fall 2023. A public meeting will be held in October 2023 as part of the Environmental Compliance process and to provide a general update to the public and various stakeholders about the study and future plans for remediation.

Collaboration Among Agencies and Partners to Further Conservation Efforts in South Carolina

One of the recommendations outlined in the Resilience Plan is the conservation of lands in South Carolina that are critical to flood protection. Early in the planning process, conservation was identified as a key strategy to accomplish resilience in the state. SCOR and the other land resource agencies including the SC Conservation Bank, SC Department of Agriculture, SC Department of Natural Resources, SC Parks, Recreation, and Tourism, and the SC Forestry Commission formed a Conservation Working Group to discuss common goals and how each agency’s priorities could be accomplished through regular meetings and collaboration. The Conservation Working Group held a roundtable meeting in September 2022 to discuss priorities with Governor McMaster. Agencies combined priority maps and presented them at the meeting. As a result of this meeting, collaboration and communication continued throughout the remainder of the fiscal year and beyond. Additional meetings of this group were held on June 23, 2022; January 23, 2023; March 13, 2023; and August 1, 2023. To support these initiatives, SCOR is in the process of developing a Land Acquisition Grant to be implemented this fiscal year.

American Rescue Plan Act (ARPA) Stormwater Infrastructure Program

\$200M	<i>Value of all applications received for SCOR’s ARPA Stormwater Infrastructure Program, representing the vast need for stormwater infrastructure improvements across the state</i>
--------	---

The Mitigation Department conducted a statewide outreach campaign to provide information about its ARPA Stormwater Infrastructure Program (ASIP) funding opportunity. The campaign included both in-person and virtual briefings with local governments and other entities prior to the application period. The 2023 ARPA Stormwater Infrastructure Program (ASIP) has been established and is underway. The \$55M funding opportunity resulted in 76 applications from communities across South Carolina totaling more than \$200 million. The South

AGENCY NAME:	SC Office of Resilience		
AGENCY CODE:	D300	SECTION:	92D

Carolina Office of Resilience selected 17 projects across 12 counties statewide for funding, totaling nearly \$50 Million. The Mitigation Department has begun kickoff meetings for the 17 approved projects. The Mitigation Department is committed to the success of the 17 awarded projects. To that end, the Mitigation Department has been proactive in meeting the eligibility and time constraints by coordinating an expedited infrastructure permitting process with the SC Department of Health and Environmental Control.

Development and Training of the Disaster Recovery Reserve Corps (DRRC)

SCOR launched the Disaster Recovery Reserve Corps (DRRC) during FY22. The DRRC program allows SCOR to hire and train individuals who can be immediately deployed to impacted areas to assist after a disaster. SCOR can accelerate the recovery process by training these individuals on “blue sky days,” who can then provide much-needed assistance to impacted individuals almost immediately after a disaster and help communities bounce back much faster. Utilizing the DRRC is a recovery capability that is deployed in close coordination with SC EMD.

The DRRC training requires two separate days of learning, level-1 and level-2, which will prepare and equip the reservists for activation and deployment in the aftermath of a disaster. SCOR conducted three rounds of level-1 training on the following dates: August 19, 2022, September 22, 2022, and March 22, 2023. Level-1 training focus included an orientation of the SCOR agency evolution and programs, a course in Disaster Recovery 101 and an overview of the Disaster Case Management process. SCOR conducted one round of level-2 all-inclusive training on May 31, 2023. Level-2 training focused on outreach and Intake approaches, eligibility requirements, and an introduction to the construction process.

A total of 43 Reservists were hired as part-time employees of SCOR with 28 currently active and fully trained. Training has also been completed for 43 SCOR full-time employees who will serve as backup to the Reservists in the aftermath of a disaster until the DRRC can become fully functional.

The DRRC had a test run when Hurricane Ian threatened South Carolina’s coast in the Fall of 2022. In close coordination with SC EMD and in support of their recovery needs, SCOR staffed three disaster recovery centers shortly after Hurricane Ian passed. While the impacts of Ian were fortunately modest, the fact that it was a close call allowed SC EMD and SCOR to refine the DRRC collaborative process.

Risk Assessment and Mitigation Strategies

Agency Sustainability

A recurring source of funding is critical for SCOR to effectively deploy and implement its statutory obligations. Many of the SCOR’s programs depend on grant funding. While grant funding opportunities are expected to continue to be available, the lack of dedicated funding jeopardizes the agency’s ability to continue carrying out its mission. Without a dedicated source of funding, the state would lose a wealth of institutional knowledge equipped to coordinate resilience to natural disasters, mitigation of these risks, and long-term disaster recovery caused by natural disasters. The lack of dedicated funding also makes it difficult to plan long-term.

The Disaster Relief and Resilience Reserve Fund was created to support the Resilience Plan, respond to disasters, and undertake certain qualifying flood or disaster impact mitigation projects. Most of the current balance of the

AGENCY NAME:	SC Office of Resilience		
AGENCY CODE:	D300	SECTION:	92D

Reserve Fund is set aside to respond to a potential disaster. The 2015 Flood, 2016 Hurricane Matthew, and 2018 Hurricane Florence were disasters that resulted in hundreds of millions of dollars in unmet needs. The Reserve Fund is not designed to make every single loss whole; however, a major disaster would substantially deplete or exhaust the fund. During this fiscal year, SCOR received a one-time allocation of \$200 million to the SCOR Disaster Relief and Resilience Reserve Fund during this fiscal year. These funds will support resilience and floodplain conservation activities throughout the upcoming fiscal year and beyond.

To increase the ability to support implementation of the Resilience Plan, respond to disasters, and carry out flood mitigation projects, SCOR has developed proposals to secure recurring streams of income. Because the Strategic Statewide Resilience and Risk Reduction plan deals in large part with lessening impacts of disasters on this state’s communities and citizens, one proposal developed this past year is to fund SCOR and the Disaster Relief and Resilience Reserve Fund with a portion of the insurance premium tax that is collected from property and casualty insurers doing business in SC. The proposal was introduced by Senator Goldfinch in S.731 on April 13, 2023. The proposal will provide for the long-term viability of the relief portion of the fund as well as provide for the effective implementation of the Resilience Plan and mitigation projects.

SCOR requests the support of the General Assembly in passing S. 731, providing recurring funding from the insurance premium tax to the Disaster Relief and Resilience Reserve Fund for purposes of risk reduction.

Workforce Development

Because SCOR began as a temporary agency and many of SCOR’s programs depend on grant funding, SCOR’s workforce is largely made up of temporary grant employees (TGE). Without sufficient FTE positions, it is difficult to build internal capacity as the agency’s mission expands. Recruitment and retention are challenges given the percentage of the agency that is made up of temporary grant positions.

SCOR requests the support of the General Assembly in providing the agency with new FTE positions to support its important and expanding missions.

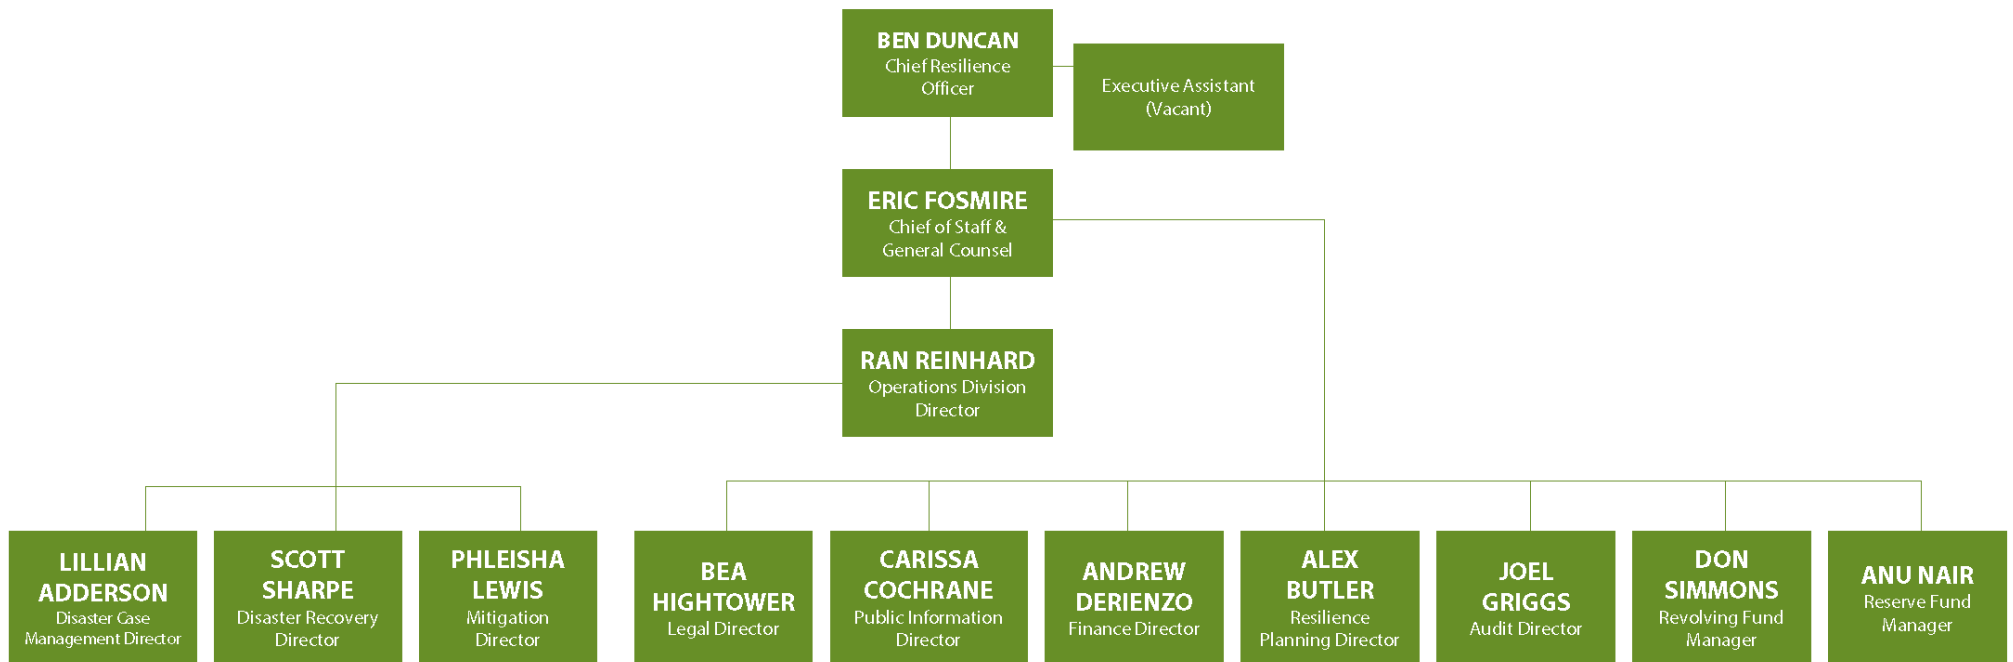

Stakeholder Awareness and Buy-In

Because SCOR is still a relatively new agency, many stakeholders are not aware of SCOR’s mission, programs, and impact on the state. Lacking stakeholder awareness threatens SCOR’s ability to respond effectively in the time of disaster as well as to coordinate resilience throughout the state to prepare for future events and protect our citizens, economy, and natural resources. The risk of continued lack of awareness about the agency and its resources is communities, economies, and ecosystems who are unable to anticipate, absorb, recover, and thrive when presented with environmental change and natural hazards.

SCOR requests the General Assembly’s assistance in promoting understanding of SCOR’s mission among the public and other various stakeholder groups, and providing information to its constituencies about available resources through SCOR.

Agency Mission

Adopted in:

2022

We increase the resilience of South Carolina through hazard mitigation, long-term recovery, and by planning and coordinating statewide.

Agency Vision

Adopted in:

2022

We envision a South Carolina where communities, economies, and ecosystems can anticipate, absorb, recover, and thrive when presented with environmental change, natural hazards, and disasters.

Recommendations for reorganization requiring legislative change:

None

Agency intentions for other major reorganization to divisions, departments, or programs to allow the agency to operate more effectively and efficiently in the succeeding fiscal year:

None

Significant events related to the agency that occurred in FY2023

Description of Event	Start	End	Agency Measures Impacted	Other Impacts
Completion of Strategic Statewide Resilience & Risk Reduction Plan	July	June	Complete the Strategic Statewide Resilience and Risk Reduction Plan to identify vulnerabilities and make recommendations to reduce flood risk and prioritize federal and state investments	
Completion of 2015 Severe Storm Disaster Recovery Housing Programs	July	October	Complete (or fulfill) 2015 Flood grant (as determined by percentage of construction dollars spent).	
Completion of 2016 Hurricane Matthew Disaster Recovery Housing Programs	July	December	Complete (or fulfill) 2016 Hurricane Matthew grant (as determined by percentage of construction dollars spent).	
Significant portion of CDBG-MIT funds allocated	July	June	Assist communities and state agencies by obligating funds to assist communities in executing flood protection related infrastructure projects to reduce or prevent future disaster impacts on persons and property	
USS Yorktown Environmental Study Initiated and Completed (new performance measure)	July	June		

Continued collaboration among agencies and partners to further conservation efforts in South Carolina (new performance measure)	July	June		
American Rescue Plan Act (ARPA) Stormwater Infrastructure Program funds awarded	July	March	Protect community structures from the impacts of future flooding through completed ARPA-funded flood protection stormwater infrastructure projects (as determined by number of completed projects)	
Continued hiring and training of SCOR's Disaster Recovery Reserve Corps (DRRC)	July	June	Create and build a Disaster Recovery Reserve Corps	
Is the agency in compliance with S.C. Code Ann. § 2-1-220, which requires submission of certain reports to the Legislative Services Agency for publication online and the State Library? (See also S.C. Code Ann. § 60-2-20).				Yes
Reason agency is out of compliance: (if applicable)				
Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 20-1-10 through 20-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210).				Yes
Does the law allow the agency to promulgate regulations?				Yes
Law number(s) which gives the agency the authority to promulgate regulations:	§48-62-370 (1)			
Has the agency promulgated any regulations?				No
Is the agency in compliance with S.C. Code Ann. § 1-23-120 (J), which requires an agency to conduct a formal review of its regulations every five years?				Yes
(End of Reorganization and Compliance Section)				

FY2023

Strategic Plan Results

as submitted for the Accountability Report by:

D300 - Office of Resilience

Goal 1 Mitigate Future Disasters

Goal 2 Planning for Disasters

Goal 3 Disaster Recovery

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number	Responsible	Notes
1.1 Install flood reduction infrastructure.															
State Objective: Maintaining Safety, Integrity and Security															
1.1.1	Assist communities and state agencies by obligating funds to assist communities in executing flood protection related infrastructure projects to reduce or prevent future disaster impacts on persons and property	\$ 49,881,194.00	\$ 49,881,194.00	\$ 55,681,741.00	Dollar Amount	Equal to or less than	State Fiscal Year	Total dollar amount	Approved Infrastructure Applications	MIT Department Share Drive	Protection from Flooding	Counties, Cities, and Towns	1001.100100.000		
1.1.2	Protect community structures from the impacts of future flooding through completed flood protection infrastructure projects (as determined by number of completed projects)	0	0	0	Count	Equal to or greater than	State Fiscal Year	Total number of completed projects	Completed Infrastructure Case Files	MIT Department Share Drive	Protection from Flooding	Counties, Cities, and Towns	1001.100100.000		Infrastructure projects typically take several years to complete. This is the reason this measure has remained at zero.
1.2 Buyout groups of homes in flood plain as requested by local government(s).															
State Objective: Maintaining Safety, Integrity and Security															
1.2.1	Assist communities in obligating funds to protect citizens through the buyout of homes in the floodplain to assist them in relocating away from the danger of the floodplain	\$ 19,416,590.00	\$ 22,700,000.00	\$ 33,967,674.00	Dollar Amount	Equal to or greater than	State Fiscal Year	Total dollar amount obligated	Approved Buyout Applications	MIT Department Share Drive and System of Record	Protection from flooding	Counties, Cities, and Towns	1001.100100.000		SCOR's CDBG-MIT Buyout program has seen tremendous success this past fiscal year. SCOR accepted applications for new Buyout projects in July 2022 and received a significant response. SCOR recommended 4 new projects for selection totaling \$16.9 million. These 4 projects were approved by the Steering Committee in November 2022, bringing the total obligated funds for Buyouts to \$33,967,674.
1.2.2	Protect citizens by buying homes in the floodplain (as determined by number of houses purchased)	10	30	45	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of completed projects	Completed Buyout Case Files	MIT Department Share Drive and System of Record	Protection from flooding	Counties, Cities, and Towns	1001.100100.000		The notes above for measure 1.2.1 apply to this measure as well. SCOR is pleased with the response to and progress of its Buyout programs.
1.3 Assist communities by providing a non-federal match share for federal mitigation related programs.															
State Objective: Maintaining Safety, Integrity and Security															
1.3.1	Assist communities and state agencies by providing the 25% local fund match to approved mitigation-related federal grants to ensure 100% coverage for disaster related community or state agency needs (as determined by number of grant applications matched)	10	13	8	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of matched applications	Approved Grant Applications	MIT Department Share Drive and System of Record	Prevent local governments and state agencies from having to use their own funds to match federal grants	State Agencies, Counties, Cities and Towns	1001.100100.000		During the previous fiscal year, SCOR decided to close its Match program and re-allocate the remaining funds (-\$2.5M) to the CDBG-MIT Buyout program, reflected in its MIT Action Plan Amendment 2. Because the program was closed, we did not make any additional awards. Additionally, 2 applicants chose to withdraw their applications, bringing our total number of Match projects down to 8.
1.3.2	Assist communities and state agencies in the sources of flooding issues and identifying projects to reduce the impact of flooding on communities (as determined by number of planning applications approved)	17	20	20	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of matched applications	Approved Grant Applications	MIT Department Share Drive and System of Record	Discovery of flooding problems	State Agencies, Counties, Cities and Towns	1001.100100.000		
1.4 Implement statewide stormwater infrastructure															
State Objective: Maintaining Safety, Integrity and Security															
1.4.1	Assist communities and state agencies by obligating ARPA funds to assist communities in executing flood protection related stormwater infrastructure projects to reduce or prevent future disaster impacts on persons and property	\$ -	\$ 50,000,000.00	\$ 47,743,864.98	Dollar amount	Equal to or greater than	State Fiscal Year	Total dollar amount	Approved Infrastructure Applications	MIT Department Share Drive	Protection from Flooding	Counties, Cities, and Towns	1001.100100.000		A total of 17 projects were awarded in the \$55 million ARPA Stormwater Infrastructure Program. SCOR set aside sufficient funding out of this \$55 million for anticipated overruns and cost increases to awarded projects that may occur throughout the process, hence the reason the "actual" number is slightly below the target. For all intents and purposes, SCOR has met the goal of awarding the full amount that we intended to award.

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number	Responsible	Notes
1.4.2	Protect community structures from the impacts of future flooding through completed ARPA-funded flood protection stormwater infrastructure projects (as determined by number of completed projects)		0	0	0	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of completed projects	Completed Infrastructure Case Files	MIT Department Share Drive	Protection from Flooding	Counties, Cities, and Towns	1001.100100.000	Because the infrastructure process is very lengthy, SCOR did not expect to have projects complete during FY22 and does not expect to complete any during FY23. All projects are currently in the kickoff phase.
2.1 Develop, implement and maintain the Statewide Resilience Plan															
State Objective: Maintaining Safety, Integrity and Security															
2.1.1	Complete the Strategic Statewide Resilience and Risk Reduction Plan to identify vulnerabilities and make recommendations to reduce flood risk and prioritize federal and state investments		50%	100%	100%	Percent complete	Equal to or greater than	State Fiscal Year	Percent complete as determined by the agency.	Draft of Resilience Plan	Resilience Planning Shared Drive	State (Legislature and Public) need for a comprehensive Resilience Plan	Citizens, Legislature, Counties, Cities and Towns, State Agencies	0100.050100.000	
3.1 Housing repair/replacement for declared disasters.															
State Objective: Public Infrastructure and Economic Development															
3.1.1	Homes repaired/replaced across all Disaster Recovery grants.		3,114	3,346	3,343	Count (whole number)	equal to or greater than	State Fiscal Year	Total number of houses repaired/replaced. (Can be impacted by stage of grant, weather, labor and material costs, and subsequent hurricanes.)	Horne Grant Management System	Implementation Vendor Horne LLPs Servers	Citizens' disaster damaged homes are repaired/replaced	Citizens	1001.100100.000	
3.1.2	Complete (or fulfill) 2015 Flood grant (as determined by percentage of construction dollars spent).		97%	100%	100%	Percent Complete	complete	State Fiscal Year	Total construction dollars expended / total construction dollars budgeted	Horne Grant Management System	Implementation Vendor Horne LLPs Servers	Timely and effective deployment of federal funds	Citizens	1001.100100.000	
3.1.3	Complete (or fulfill) 2016 Hurricane Matthew grant (as determined by percentage of construction dollars spent).		95%	100%	100%	Percent Complete	complete	State Fiscal Year	Total construction dollars expended / total construction dollars budgeted	Horne Grant Management System	Implementation Vendor Horne LLPs Servers	Timely and effective deployment of federal funds	Citizens	1001.100100.000	
3.1.4	Complete (or fulfill) 2018 Hurricane Florence grant (as determined by percentage of construction dollars spent).		24%	90%	96%	Percent Complete	equal to or greater than	State Fiscal Year	Total construction dollars expended / total construction dollars budgeted	Horne Grant Management System	Implementation Vendor Horne LLPs Servers	Timely and effective deployment of federal funds	Citizens	1001.100100.000	SCOR exceeded the goal that we set last year, completing 25 more homes than we anticipated. On this performance measure on the Strategic Development tab you will see 77% noted as the base, rather than the 96% that is listed here. This is due to receiving funding from SC Housing to build additional homes in the Hurricane Florence program. We anticipate this funding will help us reach roughly 485 homes. This year, we reached 376 homes complete in the Hurricane Florence program. 376 / 485 is about 77%, which is how we reached the "base" for this performance measure.
3.2 Housing buyouts for disaster impacted citizens.															
State Objective: Public Infrastructure and Economic Development															
3.2.1	Hurricane Florence-impacted homes bought out.		0	6	5	Count (whole number)	equal to or greater than	State Fiscal Year	Total of homes impacted by Hurricane Florence that were bought out.	Horne Grant Management System	Implementation Vendor Horne LLPs Servers	Citizens with disaster damaged homes in the floodplain.	Citizens	1001.100100.000	All buyouts are still in process. In total, there are 9 buyouts in the Hurricane Florence CDBG-DR program that are currently in process, which is reflected as the target goal for this FY in the Strategic Development tab. 8 offers have been accepted and are moving through the buyout process; the remaining offer is being considered by the owner. Part of the obstacle is identifying a Responsible Entity who will take ownership of the land after the homes are purchased and demolished. SCOR has had great success in its CDBG-MIT buyout program in finding solutions to this issue, so it should not impede us from reaching this goal this FY.

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number	Responsible	Notes
3.3 Disaster Case Management															
State Objective: Public Infrastructure and Economic Development															
3.3.1	Hurricane Florence survivors whose unmet needs are solved (as determined by cases closed successfully).		94	149	244	Count	Equal to or greater than	State Fiscal Year	Total count of unmet need cases resolved successfully.	PDR System of Record	PDR System of Record	Housing and other needs related to the loss of a home and/or personal property, medical, counseling, etc.	Citizens with unmet disaster needs		1001.100100.000
3.3.2	Create and build a Disaster Recovery Reserve Corps		0	50	58	Count	Equal to or greater than	State Fiscal Year	Total number of trained Reservists ready to activate in the aftermath of a storm	PDR System of Record	PDR System of Record	The formation of a statewide Reserve Corps will help significantly accelerate the delivery of relief and reduce the time needed for recovery.	Citizens impacted by a disaster		0100.050100.000

FY2024

Strategic Plan Development

as submitted for the Accountability Report by:

D300 - Office of Resilience

Goal 1 Mitigate Future Disasters

Goal 2 Planning for Disasters

Goal 3 Disaster Recovery

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
I.1 Install flood reduction infrastructure.													
State Objective: Maintaining Safety, Integrity and Security													
1.1.1	Assist communities and state agencies by obligating funds to assist communities in executing flood protection related infrastructure projects to reduce or prevent future disaster impacts on persons and property	\$ 55,681,741	\$ 80,000,000	Dollar Amount	Equal to or greater than	State Fiscal Year	Total dollar amount	Approved Infrastructure Applications	MIT Department Share Drive	Protection from Flooding	Counties, Cities, and Towns	1001.100100.000	
1.1.2	Protect community structures from the impacts of future flooding through completed flood protection in infrastructure projects (as determined by number of completed projects)	0	1	Count	Equal to or greater than	State Fiscal Year	Total number of completed projects	Completed Infrastructure Case Files	MIT Department Share Drive	Protection from Flooding	Counties, Cities, and Towns	1001.100100.000	
I.2 Buyout groups of homes in flood plain as requested by local government(s).													
State Objective: Maintaining Safety, Integrity and Security													
1.2.1	Assist communities in obligating funds to protect citizens through the buyout of homes in the floodplain to assist them in relocating away from the danger of the floodplain	\$ 33,967,674	\$ 35,000,000	Dollar Amount	Equal to or greater than	State Fiscal Year	Total dollar amount obligated	Approved Buyout Applications	MIT Department Share Drive and System of Record	Protection from flooding	Counties, Cities, and Towns	1001.100100.000	
1.2.2	Protect citizens by buying homes in the floodplain (as determined by number of houses purchased)	45	60	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of completed projects	Completed Buyout Case Files	MIT Department Share Drive and System of Record	Protection from flooding	Counties, Cities, and Towns	1001.100100.000	
I.3 Assist communities by providing a non-federal match share for federal mitigation related programs.													
State Objective: Maintaining Safety, Integrity and Security													
1.3.1	Assist communities and state agencies by providing the 25% local fund match to approved mitigation-related federal grants to ensure 100% coverage for disaster related community or state agency needs (as determined by number of grant applications matched)	8	8	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of matched applications	Approved Grant Applications	MIT Department Share Drive and System of Record	Prevent local governments and state agencies from having to use their own funds to match federal grants	State Agencies, Counties, Cities and Towns	1001.100100.000	
1.3.2	Assist communities and state agencies in the sources of flooding issues and identifying projects to reduce the impact of flooding on communities (as determined by number of planning applications approved)	20	25	Dollar Amount	Equal to or greater than	State Fiscal Year	Total number of matched applications	Approved Grant Applications	MIT Department Share Drive and System of Record	Discovery of flooding problems	State Agencies, Counties, Cities and Towns	1001.100100.000	
I.4 Implement statewide stormwater infrastructure													
State Objective: Maintaining Safety, Integrity and Security													

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
1.4.1	Assist communities and state agencies by obligating ARPA funds to assist communities in executing flood protection related stormwater infrastructure projects to reduce or prevent future disaster impacts on persons and property	\$ 47,743,864.98	\$ 55,000,000.00	Dollar Amount	Equal to or greater than	State Fiscal Year	Total dollar amount	Approved Infrastructure Applications	MIT Department Share Drive	Protection from Flooding	Counties, Cities, and Towns	1001.100100.000	
1.4.2	Protect community structures from the impacts of future flooding through completed ARPA-funded flood protection stormwater infrastructure projects (as determined by number of completed projects)	0	0	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of completed projects	Completed Infrastructure Case Files	MIT Department Share Drive	Protection from Flooding	Counties, Cities, and Towns	1001.100100.000	
1.5 Mitigate potential environmental disaster through remediation of the USS Yorktown													State Objective: Maintaining Safety, Integrity and Security
1.5.1	Utilizing ARPA funds, complete a study which includes the identification and prioritization of contaminants aboard the USS Yorktown and a plan for remediation of prioritized contaminants.	0%	100%	Percent complete	Equal to or greater than	State Fiscal Year	Percentage of study complete	Mitigation project files	MIT Department Share Drive	Protection from environmental contaminants present aboard the USS Yorktown.	Citizens	1001.100100.000	
1.5.2	Utilizing ARPA funds, complete remediation of contaminants aboard the USS Yorktown.	0%	50%	Percent complete	Equal to or greater than	State Fiscal Year	Percentage of remediation work complete	Mitigation project files	MIT Department Share Drive	Protection from environmental contaminants present aboard the USS Yorktown.	Citizens	1001.100100.000	
2.1 Develop, implement and maintain the Statewide Resilience Plan													State Objective: Maintaining Safety, Integrity and Security
2.1.1	Coordinate with partners to develop a study to evaluate and provide recommendations on Statewide Data Coordination	0%	50%	Percent complete	Equal to or greater than	State Fiscal Year	Progress on development of study as measured by percent complete	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	0100.050100.000	
2.1.2	Develop a statewide Watershed-Based Resilience Planning Program	0	5	Count	Equal to or greater than	State Fiscal Year	As determined by the total number of watershed coordinators hired during this fiscal year	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	0100.050100.000	
2.1.3	Seek federal funding to implement strategic resilience projects	0	2	Count	Equal to or greater than	State Fiscal Year	Total number of federal grants applied for during this fiscal year	Resilience Grant Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	0100.050100.000	
2.1.4	Coordinate with neighboring states to ensure alignment on resilience strategies	0	3	Count	Equal to or greater than	State Fiscal Year	Total number of coordination calls held with neighboring states during this fiscal year	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	0100.050100.000	

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes	
2.1.5	Conduct outreach to local communities around the state to educate the public about the Statewide Resilience Plan and coordinate with stakeholders.		0	11	Count	Equal to or greater than	State Fiscal Year	Total number of outreach workshops held across the state.	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	0100.050100.000	
2.1.6	Coordinate statewide conservation efforts		0	5	Count	Equal to or greater than	State Fiscal Year	Total number of Conservation Roundtable meetings attended	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	0100.050100.000	
2.1.7	Participate with other stakeholders in land acquisition for resilience flood reduction and conservation purposes.		0	5,000	Count		State Fiscal Year	Total number of acres preserved						
3.1 Housing repair/replacement for declared disasters.													State Objective: Public Infrastructure and Economic Development	
3.1.1	Complete all homes repaired/replaced across all Disaster Recovery grants.	3,344	3,455	Count (whole number)	equal to or greater than	State Fiscal Year	Total number of houses repaired/replaced. (Can be impacted by stage of grant, weather, labor and material costs, and subsequent hurricanes.)	Horne Grant Management System	Implementation Vendor Horne LLP's Servers	Citizens' disaster damaged homes are repaired/replaced	Citizens	1001.100100.000	Scott indicated new goal for Florence is 485 ish with \$2.5M from SC Housing and \$5M	
3.1.2	Complete (or fulfill) 2016 Hurricane Matthew grant as determined by submission of closeout package to HUD.	95%	100%	Percent Complete	complete	State Fiscal Year	Total construction dollars expended / total construction dollars budgeted	Horne Grant Management System	Implementation Vendor Horne LLP's Servers	Timely and effective deployment of federal funds	Citizens	1001.100100.000		
3.1.3	Complete (or fulfill) 2018 Hurricane Florence grant (as determined by percentage of construction dollars spent).	87%	100%	Percent Complete	complete	State Fiscal Year	Total construction dollars expended / total construction dollars budgeted	Horne Grant Management System	Implementation Vendor Horne LLP's Servers	Timely and effective deployment of federal funds	Citizens	1001.100100.000		
3.2 Housing buyouts for disaster impacted citizens.													State Objective: Public Infrastructure and Economic Development	
3.2.1	Complete Hurricane Florence-impacted homes bought out.		5	9	Count (whole number)	complete	State Fiscal Year	Total of homes impacted by Hurricane Florence that were bought out.	Horne Grant Management System	Implementation Vendor Horne LLP's Servers	Citizens with disaster damaged homes in the floodplain.	Citizens	1001.100100.000	
3.3 Disaster Case Management													State Objective: Public Infrastructure and Economic Development	
3.3.1	Hurricane Florence survivors whose unmet needs are solved (as determined by cases closed successfully).		244	304	Count	Equal to or greater than	State Fiscal Year	Total count of unmet need cases resolved successfully.	PDR System of Record	PDR System of Record	Housing and other needs related to the loss of a home and/or personal property, medical, counseling, etc.	Citizens with unmet disaster needs	1001.100100.000	

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
3.3.2	Create and build a Disaster Recovery Reserve Corps		58	68	Count		Total number of trained Reservists ready to activate in the aftermath of a storm	PDR System of Record	PDR System of Record	The formation of a statewide Reserve Corps will help significantly accelerate the delivery of relief and reduce the time needed for recovery.	Citizens impacted by a disaster	0100.050100.000	
3.3.3	Hurricane Ian survivors whose unmet needs are solved		71	114	Count	State Fiscal Year	Total count of unmet need cases resolved successfully.	PDR System of Record	PDR System of Record	Housing and other needs related to the loss of a home and/or personal property, medical, counseling, etc.	Citizens with unmet disaster needs	1001.100100.000

Partnerships Data

as submitted for the Accountability Report by:

D300 - Office of Resilience

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Federal Government	United States Department of Housing and Urban Development (HUD)	Provides Community Block Grant-Disaster Recovery (CDBG-DR) and Community Block Grant-Mitigation (CDBG-MIT) grants, as well as technical assistance, monitoring and compliance	No Change
Federal Government	Federal Emergency Management Agency (FEMA)	Provides Disaster Case Management Program grants as well as post-disaster data	No Change
Federal Government	Small Business Administration (SBA)	Provides post-disaster data	No Change
State Government	South Carolina Emergency Management Division (SCEMD)	Provides disaster recovery assistance and member of the Statewide Resilience Plan Advisory Committee	No Change
State Government	South Carolina Department of Natural Resources (DNR)	Assists in the development and feasibility analysis of mitigation projects and member of the Statewide Resilience Plan Advisory Committee	No Change
State Government	South Carolina Department of Health and Environmental Control (DHEC)	Assists in post-disaster education of mold-mitigation and water analysis, and member of the Statewide Resilience Plan Advisory Committee	No Change
State Government	South Carolina State Housing Authority	Provides funds for disaster housing construction and repair, and member of the Statewide Resilience Plan Advisory Committee	No Change
Local Government	Allendale County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Bamberg County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Barnwell County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Beaufort County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Berkeley County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Local Government	Calhoun County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Charleston County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Chesterfield County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Clarendon County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Colleton County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Darlington County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Dillon County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Dorchester County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Fairfield County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Florence County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Georgetown County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Greenville County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Greenwood County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Hampton County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Local Government	Horry County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Jasper County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Kershaw County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Lee County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Marion County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Marlboro County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Newberry County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Orangeburg County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Spartanburg County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
Local Government	Sumter County	Assists in the recovery of citizens from disasters and development of potential mitigation projects	No Change
