AGENCY'S DISCUSSION AND ANALYSIS

The Citadel engages in an ongoing, integrated, and institution-wide research-based planning and evaluation processes that systematically reviews the mission, goals, and outcomes, integrating data-based reporting of results to ensure continuous improvement and demonstrate the institution is achieving its mission to educate and develop principled leaders. The institution's current strategic plan, *Our Mighty Citadel 2026: Advancing Our Legacy of Leadership* (2018-2026) continues the work of previous plans, *LEAD 2018: The Citadel's Strategic Plan to Promote Leadership Excellence and Academic Distinction* (2012-2018) and *Blueprint: Strategic Plan for Educating Principled Leaders* (2009-2012). The evolution of these plans over the previous fifteen years provides evidence of the institution's sustained commitment to strengthening the institution through planning.

Ongoing, Integrated, and Institution-wide Research-based Planning and Evaluation Process

The Citadel has a long history and investment in strategic planning. The institution currently uses a strategic planning process that was introduced in 2008 and which culminated in three strategic plans that have progressed and matured based on its predecessor. Depicted in the diagram below, The Citadel utilizes an ongoing, cyclical strategic planning process that creates intentional linkages and integration between environmental scanning, goal setting, constructing implementation action plans, budgeting, assessment, and continuous improvement efforts.

The Citadel strategic planning process began with an initial, in-depth environmental scan. Additionally, periodic, institution-wide SWOT Analyses on perceived strengths, weaknesses, opportunities and threats are conducted. With the development of each strategic plan, The Citadel launches an institution-wide proposal process to construct the plan. The process begins with an announcement from the President announcing the process for a new strategic plan. The campus is provided with opportunities to suggest new objectives to be included, using a consistent template that covers the connection to the six broad strategic initiatives, the proposed objective and related action items, timeframes, KPIs, resource allocation, and designated planning coordinator. After all proposals were received the Strategic Planning Committee review and ranked all the proposed objectives collaboratively. Based on those ranked priorities objectives were reviewed and added to the strategic plan. Executive Leadership provides a final review.

Operating on data and organizational learning from its last planning process in the LEAD 2018 plan, The Citadel further refined its strategic planning process in 2018 for the construction of its 2018-2024 plan (later extended to 2026 following changes in Executive Leadership), which culminated in a planning process focused on regular "refreshes" to allow for intermittent review of progress towards initiatives and effective use of resources. Academic year 2022 marked the second of three planned "refreshes" of the Our Mighty Citadel 2026 to allow the campus constituents, objective leaders and administration an opportunity to react to changes in the educational and financial markets, particularly critical as entering the post-pandemic phase of COVID-19, to complete a thorough analysis and reflection of successes and failures of the plan and to make refinements. The first refresh of the current plan occurred during 2019-2020 to align the strategic plan to the vision and goals of the new president and provost.

The current strategic plan, Our Mighty Citadel 2026: Advancing Our Legacy of Leaders resulted in integration of institution-wide strategic planning efforts around the following six broad strategic initiatives:

- 1. Educate and develop principled leaders.
- 2. Enhance the learning environment through academic programs of distinction and student success services.
- 3. Advance The Citadel as the Senior Military College and Graduate College of Choice.
- 4. Create and maintain safe and secure campus facilities to advance student learning, innovation, and campus operations.
- 5. Ensure The Citadel has the leadership, talent, diversity, and inclusive culture to accomplish its mission.
- 6. Enhance the region's social, educational, and economic development through meaningful community and corporate collaborations.

Systematic Review of Institutional Mission, Goals, and Outcomes

The Citadel's strategic planning process begins with a thorough review of the institutional mission, vision, and core values. At the beginning of the Our Mighty Citadel 2026 construction process, the BOV Strategy, Vision, and Governance Committee and the full Board of Visitors that June re-affirmed the institution's mission and vision statements. In addition to the systematic review and prioritization of institutional goals, The Citadel's strategic plan incorporates key performance indicators for each objective. The Strategic Planning Committee of the Board of Visitors and Citadel administration meets three times a year to review the implementation of goals and resulting progress on the initiatives and key performance indicators. The chairman of the BOV Strategic Vision and Governance Committee also provides a summary briefing on strategic planning goals and outcomes to the full BOV based upon the SVG committee reports. In addition, The Citadel publishes an annual report that provides information to the campus community on planning goals and resulting outcomes.

Results in Continuing Improvement in Institutional Quality

The Citadel's strategic planning efforts have resulted in continuous improvement in institutional quality. Example accomplishments of the current plan, Our Mighty Citadel 2026 are highlighted in the table below. Detailed discussions can be found in the annual reports and reports to BOV.

Strategic Initiative	Key Accomplishments to Date
1: Educate and develop principled leaders.	 Re-designed the Leadership Training Program (LTP) serving cadets and renamed it Principled Leadership Skills (PLS).
	 Re-designed Leaders (LDRS) 500 for graduate students. Developed semester long Citadel in DC study
	 away program. Launch of the Global Scholars Program, making semesters abroad feasible, currently offering seven sites.

2: Enhance the learning environment through academic programs of distinction and student success services.	 Implemented a reformed general education program founded in the best practices of AAC&U and utilizing the AAC&U VALUE rubrics for assessment of student learning. Establishment of the Citadel Department of Defense Cyber Institute (CDCI), which includes 1.46 Million dollars in external funding. A new minor in Artificial Intelligence (AI) beginning fall 2023.
3: Advance The Citadel as the Senior Military College and Graduate College of Choice.	 Developed a new Admission Welcome Center. Office of Communications and Marketing working on "Return on Investment"
	 marketing campaign. Launched pre-professional pathways - Medicine/Health Sciences, Law, Finance and Banking
4: Create and maintain safe and secure campus facilities to advance student learning, innovation, and campus operations.	Development of a new campus master plan using utilizing the nationally recognized Ayers Saint Gross Consulting firm to develop a Master Plan that projects to the next 50 years and follows best practices in the discipline.
	 Completion of the new Bastin Hall for The Tommy and Victoria Baker School of Business.
	 Completion of the new Capers Hall for the School of Humanities and Social Sciences.
	 Design phase completed for new Engineering building.
	 New safety protocols across campus, including a "big voice" campus alert system, a new safety app, and installation of access control to new buildings.
5: Ensure The Citadel has the leadership, talent, diversity, and inclusive culture to accomplish its mission.	 Emerging leaders program coordinated and offered by the Provost for faculty. Year-long leadership development program for department heads.
	 Inclusion of Chief Inclusive Excellence Officer as new role of the president's leadership team and a taskforce on diversity and inclusion.

Educational Leadership.'

Risk Assessment and Mitigation Strategies

The mission to "educate principled leaders", and for the South Carolina Corps of Cadets (SCCC) to do so while participating in the military lifestyle, is critical to the tradition, brand, and reputation of The Citadel. For the SCCC, this requires a residential environment. As a tuition-driven institution, the SCCC cannot be expanded due to facility and land constraints. This limits the opportunities for enrollment growth to our evening transfer and graduate programs, which is particularly concerning as costs continue to rise and state-funds continue to decline.

Additional external factors pose threats to the accomplishment of institutional mission and goals. Key to these are the post-pandemic environment, demographic shifts, and the expense of college. The impacts of the pandemic on the higher education market are still unfolding and are hard to predict, but early indicators are showing an increased demand for remedial reinforcements for hindered learning in key areas such as math and writing. Demographically, a downturn in the number of 18 years old due to declining impact of birth rates is expected beginning with the Class of 2026 and lasting over a decade. This will make recruiting and enrolling students that much more competitive.

Some realistic concerns are inability to recruit and retain qualified faculty given the increased costs of living in Charleston and the Lowcountry, inability to update all of our STEM-related facilities to prepare our graduates for the workforce and military services, and the inability to stabilize tuition at affordable rates.

Below are the three most negative impacts on the public that could result in the case of the agency's failure to accomplish its goals and objectives:

- 1. Loss of future military officers for the United States Armed Forces.
- 2. Loss of future members of the South Carolina National Guard.
- 3. Loss of critical members of the STEM workforce for South Carolina, particularly the Lowcountry (e.g., engineers, cyber operators, math teachers, etc.)

Below are three options the General Assembly can pursue to help us resolve the issue before it becomes a crisis:

- 1. Support for academic infrastructure for STEM majors.
- 2. Support for housing for faculty and staff.
- 3. Support to maintain our physical plant and modernize plant operations.
